On recommendation of the State Highway Engineer, Commissioner Jelin moved approval of permission being granted to Korp & Korp, contractors for the construction of Route 12, Section 6, Port Colden-Stephensburg section for the sub-letting of the bridge work on their contract,to Beck Bros. & Beck of Hainsburg, N. J. and rough grading to the James Construction Co. of Phillipsburg, N. J. This was seconded by Mr. Stewart and adopted.

Somerset County-Township Aid

On recommendation of the State Highway Engineer, Commissioner Jelin moved approval of award of contract to Warren R. Thompson for the construction of Bolmer's Corner-Blawenburg Road, Township and Borough Aid work. This was seconded by Mr. Stewart and adopted.

On recommendation of the State Highway Engineer, Commissioner Jelin moved approval of permission being granted to Warren R. Thompson for the sub-letting of his contract for the construction of Bolmer's Corner-Blawenburg Road in Somerset County to R. B. Cahill & Co. of Newark, N. J. This was seconded by Mr. Stewart and adopted.

Burlington County-Township Aid

On recommendation of the State Highway Engineer, Commissioner Stewart moved approval of application and agreement for Township Aid on Chambers Corner-Jobstown Road, Springfield Township, Burlington County, Township Aid. This was seconded by Mr. Jelin and adopted.

Monmouth County-State Aid

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the request for further State Aid funds for the Freehold-Smithburg Road, Section 2, be laid over at this time.

Route 4-Right of Way, Morgan Grade Crossing.

State Highway Engineer Sloan presented to the Commission the matter of purchase agreement of the Morgan property on Route 4 at the Morgan Grade Crossing elimination location for $1,940.00. On motion by Mr. Jelin, seconded by Mr. Stewart, the matter was ordered referred to Commissioner Jelin for investigation and report.

Advisory Board Route-Delaware Bridge

The meeting was declared recessed at this time in order that the Commissioners might attend a luncheon given in their honor by the Town of Westville as a token of appreciation for the taking over of Route 16 from Westville to Millville, and also for the purpose of explaining to the Commission a proposed change in line for the Crescent Boulevard as located by the Advisory Board of Engineers in the study of the Delaware River Bridge traffic.

The Commission reached Westville at 12:30 P.M. and after partaking of luncheon with representatives of the Town of Westville, and Officials of Gloucester and Camden Counties, a survey was made of the land in the vicinity of Westville and the proposed change was pointed out to the Commissioners with the advice that it would be of very great advantage to the Town of Westville and at the same time would result in considerable saving to the State Highway Commission, due to the fact that expensive construction of marsh land would be avoided.

Following the meeting at Westville the Commissioners journeyed to the Camden City Hall where they met in conference with the Camden City Officials on the matter of the proposed location for the Delaware River Bridge Route through Camden. At this conference extreme satisfaction was expressed by the City Commissioners of Camden on the line suggested by the Advisory Board through the City of Camden and the City authorities informed the Commission that they were ready to cooperate to the fullest extent with the State Highway Commission and were awaiting only the word that the State Highway Commission had definitely decided to lay out the proposed route.

Hackensack River Bridge.

Following the conference with the Camden City Officials, the regular meeting was again resumed at the City Hall in Camden and State Highway Engineer Sloan presented a report and estimate in connection with the design for both a vertical lift bridge and a bascule span for the replacing of the present draw on the Hackensack River Bridge which was out of service, due to collision two years ago. The estimate placed by the Engineering Department on this work was, in either case, the same, namely, $750,000.00, which will include the strengthening of the present bridge as well as either the bascule or lift bridge span. State Highway Engineer Sloan requested authority to present either or both of these plans to the War Department for approval. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission authorized plans for both a lift bridge and a bascule bridge to be presented to the War Department for its approval in order that the Commission can proceed upon either plan in the event it is desired so to do.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission adjourned at 5:00 P.M. to meet again in regular session in Trenton on Tuesday, June 3rd, 1924, at 10:30. A. M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - June 3, 1924.

A regular meeting of the State Highway Commission was held in the Commission rooms, Broad Street Bank Building, Trenton, on Tuesday, June 3rd, 1924. The meeting was called to order at 10:30 A.M. by Chairman Scott.

Present: General H. L. Scott, Chairman, and Messrs.
Percy H. Stewart, Walter Kidde and Abraham Jelin.

Minutes Approved

Commissioner Kidde reported on the minutes of the meeting of April 29th and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported on the minutes of the meeting of May 6th and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported on the minutes of the meeting of May 13th and moved that the same be approved with the following corrections: On Page 14, Paragraph 2, concerning the Amboy Bridge, there be inserted the following in line 12, "Commissioner Kidde contended that the dredging for deep water in the location is a remote possibility, and even so the piles would give service similar to that shown in the Hudson River for a period covering thirty to fifty years." This was seconded by Mr. Stewart and adopted.

Main Street, Clifton

State Highway Engineer Sloan reported to the Commission that work was proceeding under the Maintenance Division on the asphalt paving of Main Street, Clifton in Passaic County, and that the work is approximately 25% complete on this day. He informed the Commission that every precaution was being taken to insure a first class job, fully meeting the requirements of the State Highway Department. He presented a communication from Mr. Garwood Ferguson, County Engineer in which the State Highway Commission was advised that the work on East Main Street, Clifton, was not being performed in accordance with State Highway specifications. The Secretary also presented to the Commission an article from the Newark News in which was recorded the protest of the Freeholders of Passaic County on the work being done, together with an answer from the State Highway Engineer to the effect that the State Highway Department will do the work in a satisfactory condition and will not charge the County of Passaic in excess of the amount fixed by the Commission. On motion, duly seconded, the communication from Mr. Ferguson was ordered received and placed on file.

Request for Aid-Bergen County

The Secretary informed the Commission that Assemblyman Charles F. Black, representing Washington Township, Bergen County, was present and desired a hearing. On motion, duly seconded, a hearing was granted.Mr. Black appeared with Mr. Wilson, Chairman of the Washington Township Committee to urge the improvement, with Township Aid, of VanEmburgh Avenue, which forms a connection between the Kinderkamack Road and Route 10 on the Paramus Road. He advised that the length of this piece was 1.1 miles, estimated to cost $26,000.00, of which the State's share to be $19,500. Commissioner Kidde questioned the need for this improvement other than as a purely local improvement, in view of the fact that there already exists a connection between these two main roads within one-quarter mile of VanEmburgh Avenue. Mr. Wilson informed the Commission that the authorities of the County of Bergen were favorable to the proposition and it would add to the valuations in this locality if this road was improved. The Chairman informed the visitors that Township Aid funds were not available until July 1, 1924, and that the application would be filed in order that this road may be given consideration together with other requests from Bergen County after that date.

Route 2, Bordentown.

The Secretary informed the Commission that Mr. Jay Tomlinson, City Attorney of Bordentown, was present to discuss the matter of water main on Route 2, Crosswicks Creek-Bordentown section. On motion duly seconded, a hearing was granted. Mr. Tomlinson appeared before the Commission and advised that the City of Bordentown has experienced considerable difficulty and stoppage of water supply due to leaks occuring in the water system where the same has been covered over by pavement on account of the construction of the Crosswicks Creek Bridge. He stated that the City of Bordentown is very desirous of having the pipe line permanently installed outside of the pavement in order that if there are any chance leaks, the same may be readily repaired. State Highway Engineer Sloan informed the Commission that the present condition of the pipe line at the Crosswicks Creek Bridge is purely temporary in order to preserve the water supply to the City of Bordentown. He informed the Commission further that when the work on Route 2 was begun, the City of Bordentown was instructed to properly provide for its water system and its water pipes in the same manner in which notification is given to public utility corporations. However, no cognizance was taken by the City of Bordentown of the desires of the State Highway Commission, and in order to protect the City of Bordentown, a temporary arrangement was affected whereby the water supply system was carried in temporary pipes and provision has been made in the construction of the new Crosswicks Creek Bridge for supports in which to carry the water pipes. He recommended to the Commission that the City of Bordentown be requested to furnish and lay new pipes through this section and along the State Highway as shown on plan prepared for this purpose and for the convenience of the City. Mr. Tomlinson informed the Commission that the City of Bordentown felt that inasmuch as the State Highway Commission has placed the road and thereby interfered with the existing water lines, it was the duty of the State Highway Commission to replace the said water lines in as good condition as before. State Highway Engineer Sloan informed the Commission that it is entirely up to the City of Bordentown to do everything necessary in order to protect its water lines since the highway is occupied by the pipes by courtesy only, and subject to proper maintenance by the City of Bordentown. Commissioner Kidde stated that inasmuch as the matter was called to the attention of the City of Bordentown several months ago, and no effort was made to cooperate with the State Highway Commission, there is nothing the Commission can do other than continue the temporary situation which is a connection, in view of the fact that the Commission could break the flow of water if it was deemed necessary. Mr. Tomlinson advised that he would carry this information back to the City Commissioners of Bordentown.

Request for Aid-Hunterdon Co.

The Secretary informed the Commission that Senator Agans of Hunterdon County was present with reference to Township Aid for the roads in Readington Township, Hunterdon County. On motion, duly seconded, a hearing was granted. Senator Agans appeared with the Chairman of the Readington Township Committee (Laird) and informed the Commission that application had been approved for funds for the Three Bridges Road in Readington Township in an amount of $5,600.00. However, the lowest bid received was $7,431.00, and there still remains approximately 600 feet of pavement to be completed in addition to this contract. He made the request that the Commission grant an additional amount of $3,351.00 for the completion of this work to the Raritan Township Line. Assistant State Highway Engineer Reed informed the Commission that this condition existed as explained and advised that he would recommend approval of the additional $3,351.00 on July 1st. Chairman Scott informed the delegation that under existing law it is impossible for the Commission to allot any money in advance of the actual funds being available, but he gave the assurance, by the assent of the other Commissioners, that the matter would be given serious consideration when an additional application came before the Commission on July 1st.

Request for Aid-Warren County

The Secretary informed the Commission that a delegation from Warren County was present and desired a hearing. On motion, duly seconded, a hearing was granted. There appeared Mr. Stryker of the Board of Freeholders and County Engineer Vetter. Mr. Stryker acted as spokesman, informing the Commission that the County of Warren was ready to advertise for four and one-half miles of highway from the Inter-State Bridge across the Delaware to Rieglesville to Warren Glen, Warren County, and was very desirous of securing State Aid on the proposition. He advised that it was the purpose of the County to construct this road of concrete eighteen feet in width, and suggested that aid in the same amount as Federal Aid be granted to the County. Commissioner Stewart inquired as to what the cost would be for adding an additional two feet to this pavement and County Engineer Vetter informed the Commission that this was estimated to cost $16,800.00. Mr. Stryker inquired whether the Commission would visit that section of Warren County and go over this roadway. Chairman Scott stated that he would be glad to cover that section of the State at any time. On motion by Mr. Stewart, seconded by Mr. Kidde, the matter was ordered taken under advisement at this time.

Route 4, Inland Waterway Bridge

Commissioner Kidde informed the Commission that he had been in conference with the State Highway Engineer on the matter of dredging work being proceeded with by the Board of Commerce & Navigation at the Inland Waterway Bridge location at Point Pleasant on Route 4, and he suggested to Mr. Spencer Smith, Chairman of that Board, to appear before the Commission in order that the matter might be cleared up. He informed the Commission further that Mr. Smith would appear at about two o'clock. In this connection State Highway Engineer Sloan read a telegram forwarded by him to the Board of Commerce & Navigation, in which the State Highway Commission placed itself on record as protesting against a continuation of the dredging for a period of two weeks in order that the State Highway contractor's equipment might be removed from the canal bed.

Right of Way-Amboy Bridge

Commissioner Jelin informed the Commission that he had found in connection with the property situation on Cleveland Avenue, Perth Amboy, needed for the approach to the new Amboy Bridge, that residents for the most part were foreign born and had been informed by their leaders that they should not dispose of their holdings except for very high rates. He also advised that the engineers in going through the location had aroused the curiosity of the residents and this also mitigated against the securing of options. He recommended to the Commission that authority be given for the holding of a public meeting in a local place where all of the owners of property on the line of Cleveland Avenue could be notified to be present and a conference could be held whereby these people could be informed of the benefits to be derived by their property, and further that there was a possibility of the Commission abandoning this location if suitable arrangements for the acquisition of the property could not be entered into. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission authorized Commissioner Jelin to hold such a public meeting at a local place in Perth Amboy as suggested by him.

Sidewalks-Route 16, Pluckemin

The Secretary presented a communication from Senator Clarence E. Case with reference to the construction of sidewalks along State Highway Route 16 at Pluckemin. State Highway Engineer Sloan informed the Commission that it was the desire of the Town of Pluckemin to construct sidewalks within the State Highway right of way on the 30 foot grade of the line, which would necessitate the destruction of a number of trees. He recommended to the Commission that permission be not granted to place sidewalks so close to the roadway. He presented a plan showing that the right of way width owned by the State is 66 feet and recommended that sidewalks be placed by the Town at a distance not less than 20 feet from the center line on each side which would give a 40 foot graded width between the sidewalks. On motion by Mr. Stewart, seconded by Mr. Kidde, the recommendation of the State Highway Engineer was approved and the Secretary was directed to notify the Borough of Pluckemin that the State Highway Commission will not permit of the construction of sidewalks closer than necessary in order to leave a 40 foot graded width of roadway.

Route 16, South Somerville, Grade Crossing.

The Secretary presented a communication from Senator Clarence E. Case of Somerset County, requesting an opportunity to appear before the Commission with reference to the construction of Route 16 near the Lehigh Valley Railroad Bridge at South Somerville. The Secretary informed the Commission that Senator Case was present and inquired whether the Commission would hear him at this time. On motion, duly seconded, a hearing was granted. Senator Case appeared before the Commission and advised that a number of residents of South Somerville at the location of the proposed Lehigh Valley Railroad Crossing elimination were exercised over the fact that the Commission proposed to place a curve in the roadway leading to the new undergrade crossing instead of continuing the highway in a straight line as before. He also stated that the members of the Board of Freeholders of Somerset County were opposed to the proposition as undertaken by the Commission. He asked whether it would be possible for the Commission to grant a hearing to the residents of Somerset County who were interested in the proposition at Somerville, in the near future. After explanation by the State Highway Engineer, Commissioner Stewart moved that a public hearing be held on Wednesday, June 11th at 3:00 P.M. at the Court House in Somerville. This was seconded by Mr. Jelin and adopted.

Lake Street Bridge, Metuchen- Route 1.

Commissioner Stewart inquired as to the progress being made upon the Lake Street Bridge at Metuchen and stated that the present situation was very dangerous. State Highway Engineer Sloan informed the Commission that work on this bridge was ready to proceed and the matter was in the hands of the railroad and the Bridge Division.

Route 5, Section 14,
Morris Ave., Springfield

The Secretary presented a communication from J. L. Bauer, Engineer for Springfield Township, Union County, requesting information as to whether the Commission would approve reimbursement by Springfield Township for additional width of pavement on the Morris Turnpike section through Springfield Township, on the basis of five yearly payments instead of one when the work is completed. Commissioner Stewart voiced the opinion that this would establish a bad precedent on account of the financing involved with State Highway funds, and he moved that a communication be forwarded to Springfield Township with the advice that the State Highway Commission is opposed to the proposition because of the fact that it has never been done before, and it is not desired to establish a precedent; therefore, they would suggest to the Township that they can perhaps arrange their own financing of the money. This was seconded by Mr. Kidde and adopted.

June 3, 1924.

Route 10, Bluff Road

The Secretary presented a communication from J. N. Hayes in which he informed the Commission that his client Miss A. B. Williams, on Bluff Road, formerly a part of Route 10, had received notice that the State was going to take drastic action in disposing of property fronting her own and which was not acquired by condemnation but was purchased by regular deed. Mr. Hayes further requested that an extension of time of one month be granted to Miss Williams for the repurchasing of her property. The Secretary informed the Commission that in this connection there was received a check from the Secretary of Miss Williams for the sum of $450.00 with a communication in which she stated that payment was made under protest and asking an extension of thirty days in the matter. State Highway Engineer Sloan also presented a communication from A. C. Harts on the Bluff Road, requesting an extension of 30 days. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission determined, in view of the fact that several demands for extension of time of 30 days had been requested, that 30 days extension be granted to all property owners on Bluff Road, within which to purchase from the State property acquired for the construction of Bluff Road, and failure to take advantage of this opportunity on the part of the property owners will necessitate further action on the part of the State Highway Commission.

Advisory Board-Jersey City

The Secretary presented a communication from the Five Corners Association of Jersey City, together with a petition signed by over 2000 residents of Jersey City, protesting against the open cut for the approach to the Hudson River Vehicular Tunnel; also presenting letters from Mr. P. A. Gaddis, Mr. M. J. Miller, Mr. George Fugme and Mr. Edward J. White, protesting against the open cut at Jersey City. On motion by Mr. Jelin, seconded by Mr. Stewart, these communications were ordered referred to the State Highway Engineer for consideration with proper acknowledgment to be made by the Secretary.

Leave of Absence-V.J.Loughran

The Secretary presented a report from the General Bridge Supervisor on the condition of V. J. Loughran, Bridge Tender, who has been on a leave of absence with pay, due to tuberculosis, since September

1, 1923. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that leave of absence without pay be granted to Mr. Loughran effective May 16th, 1924, due to ill health and that Mr. Loughran be informed that when he is recovered sufficiently to be employed by the State, the Commission will be glad to give him his former status.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission recessed for luncheon at 1 P. M. to meet in regular session at 2 P. M. The Commission reconvened at 2 P. M. as agreed, with the same members present as at the morning session.

Route 4, Inland Waterway Bridge

The Secretary informed the Commission that Mr. J. S. Smith, together with members of the Board of Commerce & Navigation were present at this time. On motion, duly seconded, a hearing was authorized for this delegation. Mr. Smith appeared before the Commission and stated that it was the desire of his body to cooperate on the matter of the construction of the Inland Waterway Bridge at Point Pleasant, but at the same time the contractor on the dredging work had already gone beyond his time limit and the Board did not desire that any opportunity be granted to the contractor for filing any claims due to compulsory stopping of work through order of his Commission. He inquired as to the length of time it would be necessary for the work of dredging to stop and State Highway Engineer Sloan informed the Commission that he had received word from the contractor that within two weeks time he would be out of the way with his equipment for the bridge work, and the dredging could proceed. Mr. Smith informed the Commission that his Board would take the matter up with their c ounsel and if it was possible to secure a request from the dredging contractor for a two weeks cessation of work, then the same could be approved by his Commission. Mr. Smith took occasion to invite the State Highway Commission to be the guests of the Board of Commerce & Navitation on an inspection of the Inland Waterway, in view of the close relationship to intra-State travel between the counties and the highways. Chairman Scott informed Mr. Smith that the Commission could not set a definite date, but if a date was fixed in July an effort would be made to have representation.

June 3, 1924.

Hackensack River Bridge-Route 1

The Secretary presented a notice from the Board of Commerce & Navigation, advising of a hearing to be held on Wednesday, June 4th concerning the reconstruction of the Hackensack River Bridge on Route #1. He informed the Commission that Bridge Engineer Vogel would attend this hearing. On motion by Mr. Kidde, seconded by Mr. Jelin, the notice was ordered received and placed on file.

Shade Trees-White Horse Pike

The Secretary presented a communication from the Kiwanis Club of Hammonton, New Jersey, protesting against the unnecessary cutting down of shade trees on the White Horse Pike through Hammonton. On motion by Mr. Kidde, seconded by Mr. Stewart, the communication was ordered received and acknowledged with the request that the State Highway Commission would be very glad to have any suggestions the Kiwanis Club of Hammonton might see fit to forward to its next meeting aa to what could be done in order to save the trees on the White Horse Pike when the widening takes place.

Invitation-Vineland Celebration

The Secretary presented a communication from the Vineland Chamber of Commerce, requesting the Commission to be their guests at a celebration to take place on account of the opening of the road between Vineland and Bridgeton and asking the Commission to name a Wednesday in the month of June when they could be present. On motion, duly seconded, the invitation was ordered acknowledged and the Secretary was directed to inform the Chamber of Commerce of Vineland, New Jersey, that the Commission will be glad to send a representation to Rainbow Lake for the Vineland Celebration, preferably during the month of July and that they are to proceed with the naming of their own date.

The Schedule of Business was next taken up for consideration, item by item as follows:

Musconetcong River Bridge-Route 5

State Highway Engineer Sloan presented the following bids received on May 26th for the construction of the Musconetcong River Bridge at M. P. 20.0 on Route 5, and recommended that award be made to R. T. & C. D. Stewart Construction Company at their's the lowest bid of $66,480.00:

R. T. & C. D. Stewart Const. Co.	$ 66,480.00
Smith Bros	66,735.00
L. J. Sieling	68,170.00
Tunnel Const. Corp	69,875.00
Arnolt-More, Inc	72,000.00
Kuchar Bros	75,000.00
T. M. Gibbs Const. Co	75,626.00

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of the Musconetcong River Bridge at M. P. 20.0 on Route 5, to the R. T. & C. D. Stewart Construction Company, at their's the lowest bid in the amount of $66,480.00, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

North Branch Bridge, Route 9

State Highway Engineer Sloan presented to the Commission a report of the following bids received on May 26th for the construction of a bridge over the North Branch of the Raritan River at M. P. 29.5 and 29.6 on Route 9, Section 8, and recommended award of contract to Richards & Gaston, the low bidders at 92.75% of the Engineer's estimated units of cost.

Richards & Gaston	92.75%
Tuller Const. Co	93.3
F. W. Schwiers, Jr. Co	93.5
S. S. Thompson & Co	94.4
Tunnel Const. Corp	94.75
Linde & Griffith	97.
Brann & Stewart	97.
P. I. Craig	97.5
General Cont. & Const. Co	98.
Arthur E. Smith	98.4
Thomas Sheehan	98.66
Frederick Snare Corp	102.6
Michael Staub & Kolyn Const. Co	103.89

In connection with this matter, Right of Way Engineer Meeker reported that the owner of mill and millrace on the location of the North Branch Bridge is now willing to sell his water rights and allow an island existing in the river to be taken out for the sum of $4,000.00, which State Highway Engineer Sloan informed the Commission would eliminate the necessity for a temporary bridge construction to an amount of $20,000.00. Commissioner Jelin, therefore, moved the adoption of the following resolution of award of contract to Richards & Gaston, the lowest bidders:

RESOLVED, that the contract for the construction of the North Branch Bridge over the Raritan River at M. P. 29.5 and 29.6 on Route 9, Section 8, be and the same is hereby awarded to Richards & Gaston of Somerville, the lowest bidders at 92.75 percent of the Engineer's estimated units of cost, said award being subject to agreement between the State Highway Engineer and the contractor for the elimination of certain items of work in the contract found unnecessary due to information received by the State Highway Commission at this meeting, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer. This was seconded by Mr. Kidde and adopted.

In connection with the above item, Commissioner Kidde moved that the State Highway Engineer present a report as to the completion of the negotiations with the owner of property for his water rights and the cutting aside of an island in the location of the North Branch Bridge and also a full report as to the revised items included in the contract for the construction of the bridge. This was seconded by Mr. Stewart and adopted.

Route 9, Section 11

State Highway Engineer Sloan presented the following bids received on May 26th for the construction of Route 9, Section 11, Lincoln Ave., Plainfield section, and recommended award of contract to C. H. Winans Co. of Elizabeth, N. J. at their low bid of $137,437.46:

C. H. Winans Co.	$ 137,437.46
Public Service Production Co.	139.742.27
Joseph F. Burke	147,942.40

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 9, Section 11, Lincoln Avenue, Plainfield, to C. H. Winans Company of Elizabeth, N. J. at their's the lowest bid in the amount of $137,437.46, and

BE IT FURTHER RESOLVED that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 5, Section 11- Bridges

State Highway Engineer Sloan presented to the Commission the following bids received for the construction of Bridges At M.P. 0.2 1.4 and 2.0 on Route 5, Section 11, Delaware-Belvidere section, and recommended award of contract to the lowest bidder, Jacob Stem of Stroudsburg, Pa. He advised the Commission that Mr. Stem had not yet had a contract for the State of New Jersey, but he had received sufficient information to warrant the letting of this contract to Mr. Stem at his the lowest bid in the amount of $25,800.00.

Jacob Stem	$ 25,800.00
Salmon Bros	30.540.00
T. M. Gibbs Const. Co	31,676.52
Kuchar Bros	33,000.00

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of bridges at M. P. 0.2, 1.4 and 2.0 on Route 5, Section 11, Delaware-Belvidere section, to Jacob Stem of Stroudsburg, Pa. at his the lowest bid in the amount of $25,800.00, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Kings Highway, Burlington County

State Highway Engineer Sloan reported to the Commission the bids received by Burlington County for the paving of 1.9 miles of Kings Highway, the alternate bids having been received for concrete and for slag foundation with asphalt surface. It appeared from the bids that the Union Paving Company was low bidder on both types with the lowest bid made for slag with asphalt surface. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the award of contract by Burlington County to the Union Paving Company for the paving of Kings Highway with slag foundation and asphalt top.

Route 2, Section 6.

State Highway Engineer Sloan reported to the Commission that he had given approval to plans and specifications for the resurfacing of Route 2, Section 6, at Burlington with sheet asphalt and advertisement for the same has been placed. On motion by Mr. Jelin, seconded by Mr. Stewart, the action of the State Highway Engineer was unanimously ratified, confirmed and approved.

Route 3, Section 11

State Highway Engineer Sloan reported that he had given approval to plans and specifications for the widening of the White Horse Pike known as Route 3, Section 11, and advertisement for the same has been placed. On motion by Mr. Jelin, seconded by Mr. Stewart, the action of the State Highway Engineer was unanimously ratified, confirmed and approved.

Route 9, Section 15.

State Highway Engineer Sloan reported approval of plans and specifications for the construction of Route 9, Section 15, Westfield-Lehigh Valley Railroad Section and advertisement for the same has been placed. On motion by Mr. Kidde, seconded by Mr. Stewart, the action of the State Highway Engineer was unanimously ratified, confirmed and approved.

Woodstown Bridge-Route 6

State Highway Engineer Sloan reported to the Commission the final completion of the bridge over the P. R. R. at Woodstown at M. P. 9.7 on Route 6 as of February 11th, 1924, and recommended acceptance of the same by the Commission. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of the State Highway Engineer and authorized final payment and acceptance of the Woodstown Bridge on Route 6 at M. P. 9.7.

Right of Way-Route 9, Section 11

Commissioner Stewart reported to the Commission that he had secured the necessary appraisals from J. J. McLoughlin, Real Estate operator of Plainfield, and was prepared to make a report. He informed the Commission that for the property of Louis Kadesh, known as Parcel #5 on Route 9, Section 11, the amount of $100.00 was considered a generous award and he moved that $100.00 be offered for this property and in the event of refusal that condemnation proceedings be entered into. This was seconded by Mr. Kidde and adopted.

On the property of Raptis and Pamfilis, known as Parcel #6 on Route 9, Section 11, Mr. Stewart moved that the sum of $100 be offered and in the event of its refusal that condemnation proceedings be entered into. This was seconded by Mr. Kidde and adopted.

Right of Way-Route 9, Section 12

On the property of H. C. Lockwood, known as Parcels #4 and #7 on Route 9, Section 12, Commissioner Stewart moved that the sum of $1.00 be paid for each property and that a letter of thanks be forwarded to the owners. This was seconded by Mr. Kidde and adopted.

June 3, 1924.

On the property of Peter Breidt, known as Parcel #2 on Route 9, Section 12, Commissioner Stewart moved the approval of the payment of $300.00 which the owner will accept. This was seconded by Mr. Kidde and adopted.

On the property of H. C. Lockwood Company, known as Parcel #3 on Route 9, Section 12, Commissioner Stewart advised that Mr. Mc Laughlin was of the opinion that $1,200.00 would be a fair award for the property to be taken in view of the fact that the State will do work which will be beneficial to the company. He moved that an offer of $1,200.00 be made to the H. C. Lockwood Company for this property and in the event of its refusal that condemnation proceedings be instituted. This was seconded by Mr. Kidde and adopted.

Right of Way-Route 8

Commissioner Kidde reported that he had made a study of the property of Marjorie Davies on Route 8 at Mountain View and although he had not received a report from Mr. Hughes, Real Estate man of Montclair, he was prepared to move an offer of $1,000.00 for the property, and if not accepted that condemnation proceedings be entered into. This was seconded by Mr. Jelin and adopted.

He also advised that he had made a study of the Forsberg property on Route 8 at Mountain View but was not prepared to make any report until the local appraiser had been over the property.

Right of Way-Route 5, Section 12

Commissioner Jelin reported that he had inspected the property of Drake and King on Route 5, Section 12, at Netcong and had ascertained that the moving of a building was involved which would make considerable expense and he was ready to move the approval of the recommendation of the Right of Way Division that $9,500.00 be paid to the owner. This was seconded by Mr. Stewart and adopted.

Right of Way-Route 9, Section 11

On recommendation of the State Highway Engineer, Commissioner Stewart moved that an offer of $80.00 be made for the property of the Galligher Estate, known as Parcel #2 on Route 9, Section 11, Lincoln Avenue, Plainfield section, and in the event of failure to accept that condemnation be entered into in accordance with the following resolution:

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey for public use in the construction of State Highway Route 9, Section 11, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #2

BEGINNING at a point in the line of lands between the Estate of Adam Dealaman and Andrew, Margaret & John Galligher, where the same is intersected by the proposed new northerly right of way line of State Highway Route 9, Section 11, known locally as Bound Brook Road, said point being distant thirty (30) feet radially from the center line of Route 9 at Station 436 plus 89.21 as shown on plan attached hereto entitled "New Jersey State Highway Department, Route 9, Section 11, Property to be Acquired from Andrew, Margaret and John Galligher, Borough of Middlesex, Middlesex County, Scale: 1" = 50', Sept. 1923;" thence (1) northeasterly along the said new right of way line on a curve to the left with a radius of (925.37) feet, a distance of sixty-seven and thirty-seven one hundredths (67.37) feet to a point, said point being distant thirty (30) feet measured at right angles to the center line of Route 9 at a point of tangency at Station 464 plus 58.75; thence (2) still along the said new right of way line North thirty-eight degrees and thirty-six minutes East (N 38° 36' E) a distance of one hundred twenty-six and twenty-three one hundredths (126.23) feet to a point in the existing northerly side line of Bound Brook Road where the same is on a curve to meet the southerly line of the road leading to Warrenville; thence (3) southerly along said existing side line on a curve to the right with a radius of twenty (20) feet, a distance of fourteen and forty-five one hundredths (14.45) feet to a point in the said existing northerly side line, said point being distant twenty-five (25) feet from, measured at right angles to the center line of Route 9 at Station 465 plus 71.75; thence (4) along the said existing side line South thirty-eight degrees, thirty-six minutes West (S38°36'W) a distance of one hundred eighty-five (185) feet to a point in the line of lands of the Estate of Adam Dealaman; thence (5) along said line of lands North nineteen degrees six minutes West (N19°06'W) a distance of eight and eighty-one one hundredths (8.81) feet to the point and place of beginning.

Containing twenty-three one thousandths (0.023) acres, be the same more or less.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission to make an offer of of the sum of $80.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

This was seconded by Mr. Jelin and adopted.

Right of Way-Route 5, Section 11

On recommendation of the State Highway Engineer, Commissioner Jelin moved approval of purchase agreement for the property of Edwin M. Allen and wife, known as Parcel #9 on Route 5, Section 11, Delaware-Belvidere section, for the consideration of $1.00 and the State to provide an approach to the property on the West side. This was seconded by Mr. Stewart and adopted.

June 3, 1924.

Right of Way-Route 9, Section 11

State Highway Engineer Sloan informed the Commission that Mr. L. C. Wyckoff has advised that he is unable to proceed with the purchase of the Dealaman house on Route 9, Section 11, as approved by the State Highway Commission on April 20th, and due to the failure of Mr. Wyckoff to remove the house he has directed the Construction Division to arrange for the removal of this house without expense to the State. On motion by Mr. Stewart, seconded by Mr. Jelin, the action of the State Highway Engineer was ratified, confirmed and approved.

Delia Avenue Bridge-Route 10

Commissioner Kidde reported that he had made final inspection of bridges at M. P. 9.9 and 10.0 at Delia Avenue and the Trolley Crossing on Route 10, and he moved that the same be accepted on the part of the State Highway Commission and final payment made. This was seconded by Mr. Jelin and adopted.

White's Mills Bridge-Route 8

Commissioner Kidde reported final inspection of bridge at White's Mills at M. P. 16.1 on Route 8, and he moved acceptance of the same as of May 15th, 1924. This was seconded by Mr. Jelin and adopted.

Crosswicks Creek Bridge-Route 2

State Highway Engineer Sloan reported to the Commission the final completion of the steel and superstructure of the Crosswicks Creek Bridge on Route 2 at M. P. 26.5, and he recommended final acceptance by the State Highway Commission. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission unanimously approved the acceptance and final payment by the State of the work done and material furnished by the Phoenix Bridge Company for the steel and superstructure of the Crosswicks Creek Bridge at M. P. 26.5 on Route 2.

Detour-Route 8, Sections 4 and 4-A

State Highway Engineer Sloan presented a report to the Commission in connection with the detour for Route 8, Sections 4 and 4-A, from Smith's Mills to Newfoundland and recommended that an additional $10,000.00 be authorized from the detour account in connection with the maintenance of this detour. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission authorized an additional $10,000.00 for detour on Route 8, Sections 4 and 4-A.

June 3, 1924.

Advisory Board-Jersey City

State Highway Engineer Sloan reported to the Commission that in connection with the suggested alternate line from the tunnel entrance through Jersey City pending the appointment of an Engineer, to take charge of this work and the forming of an organization under his direction, it will not be possible to prepare plans and estimates covering these suggestions in view of the fact that it will require a great deal in order to make comparisons. On motion by Mr. Kidde, seconded by Mr. Stewart, the matter was ordered held over until the next meeting of the Commission.

Nichol Avenue, New Brunswick

State Highway Engineer Sloan reported to the Commission that an investigation had been made in connection with the case of the New Jersey College for Women, which is an extension of Nichol Avenue pavement to the College property and the cost would be $4,200.00. He advised, however, that this work was not of such a nature as could be deemed an approach to a State Institution. On motion by Mr. Stewart, seconded by Mr. Jelin, the report was ordered received and action on the matter was ordered for a later date.

Main Street Bridge, Hightstown· Route 1

State Highway Engineer Sloan reported to the Commission the satisfactory completion of parapet walls on the Main Street Bridge at Hightstown, and recommended that payment of $1,100.00, authorized by the State, be credited to the account of the Borough of Hightstown. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the payment of $1,100.00 to the Borough of Hightstown as recommended by the State Highway Engineer and directed that this money be deducted from the amount due the State for Highway work done in Hightstown.

Employments

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the following list of employments as made by the State Highway Engineer since the last meeting of the Commission:

6-2-24	Joseph Courter,	Bridge Inspector	$ 180.00 mo.
6-4-24	Theodore Banks,	Asst. Test. Chemist	125.00
6-5-24	Nathan Levin,	Rodman,	90.00
6-1-24	F. H. Rankin,	Gravel Patrolman	85.00
6-1-24	Chas. P. Pedrow,	" "	90.00
6-1-24	Chas. L. Sagers,	" "	85.00

5-27-24	Timothy Murphy,	Lab. Helper,	$ 80.00	mo.
6- 2-24	Ed. W. Kilpatrick,	Rodman,	90.00	
6- 9-24	Meyer Tiefenbrun,	Res. Highway Engr.	240.00	
6-16-24	Geo. Sullivan,	Core Drill Mechanic	.70	hour
5-16-24	Harry Hagin,	" " "	.70	
5-17-24	David Sutton,	Motor Truck Driver	.45	
5-16-24	Thos. Tierney,	" " "	.45	
5-16-24	Frank Lane,	" " "	.45	
5-16-24	Peter Muccio,	" " "	.45	
5-16-24	Walter Nelson,	" " "	.40	
5-17-24	J. E. Barracliff,	" " "	.40	
5-16-24	Harry Wible,	" " "	.40	
5-16-24	Frank Vennell,	" " "	.40	
5-16-24	Wilson Hannold,	" " "	.40	
5-17-24	William E. Camp,	" " "	.40	

Resignations

6-1	David Boswell	Resident Engineer.	$ 225.00	mo.
6-15	Harry A. Darrah	Laboratory Asst.	115.00	
5-24	Ed. M. Clarke,	Br. Const. Inspector,		
5-31	Jas. E. Minnich,	Bridge Designer,		
6-1	J. H. Eaton,	Resident Engineer.		
5-24	E. E. Miller,	Rollerman		
5-31	B. L. Gage,	Test. Chemist.		

Death Claim, John Gocek

State Highway Engineer Sloan presented to the Commission the bill for the funeral expenses on account of the death of John Gocek who was accidentally killed by an automobile of the State Highway Department on May 11, 1920. The Secretary informed the Commission that no action could be taken in previous years since there was no provision for its financing; however, due to the clause placed in the last appropriation bill, there was permission granted for the payment of properly approved damage claims. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the payment of funeral expenses in the amount of $295.50 in the case of John Gocek, subject to the approval of the Attorney General, in view of the fact that this antedates the action taken by the Legislature.

Bridgeton-Pt. Norris Road Section 1, Cumberland County

On recommendation of the State Highway Engineer, Commissioner Jelin moved approval of project agreement and agreement between Cumberland County and the State of New Jersey for the construction of the Bridgeton-Port Norris Road, Section 1, Cumberland County Federal Aid Project 60. This was seconded by Mr. Kidde and adopted.

Warren County-Township Aid

On recommendation of the State Highway Engineer, Commissioner Jelin moved approval of plans and specifications for the Carpenterville-Alpha Road, Pohatcong Township, Warren County, Township Aid. This was seconded by Mr. Stewart and adopted.

Gloucester County-Township Aid

On recommendation of the State Highway Engineer, Commissioner Stewart moved approval of Twonship Aid force account agreement on the Pitman-Richwood Road, Mantua Township, Gloucester County, Township Aid. This was seconded by Mr. Jelin and adopted.

Cumberland Co.-Township & Boro Aid

On recommendation of the State Highway Engineer, Commissioner Kidde moved approval of request of the Greenwich Township Committee of Cumberland County for permission to insert an item in the price agreement of $1.12½ per hour for trucks for use in the construction of the Canton-Greenwich Road, Greenwich Township, since this will result in a saving to the County. This was seconded by Mr. Stewart and adopted.

Atlantic Co.-Township & Boro Aid

On recommendation of the State Highway Engineer, Commissioner Stewart moved approval of award of contract by Weymouth Township, for the Buena-Tuckahoe Road, Section 3, Weymouth Township, Atlantic Co., Township and Boro Aid. This was seconded by Mr. Kidde and adopted.

Warrick Road, Camden County

On recommendation of the State Highway Engineer, Commissioner Stewart moved approval of award of contract by the Board of Freeholders of Camden County for the Warrick Road from Haddonfield to Evesham road, Camden County, Motor Vehicle Aid. This was seconded by Mr. Jelin and adopted.

Kings Highway, Camden County

On recommendation of the State Highway Engineer, Commissioner Kidde moved approval of award of contract by Camden County for the Kings Highway from Colestown to the Burlington County Line, Camden Co. Motor Vehicle Aid. This was seconded by Mr. Jelin adopted.

Maintenance Materials, 1924, Camden County

On recommendation of the State Highway Engineer, Commissioner Jelin moved approval of award of contract by the Camden County Board of Freeholders for maintenance and repair materials to be used during 1924. This was seconded by Mr. Stewart and adopted.

Salem-Hancock's Bridge Road,
Salem County

On recommendation of the State Highway Engineer, Commissioner Stewart moved the approval of resolution adopted by the Board of Freeholders of Salem County authorizing the County Engineer to have surveys made and prepare plans and specifications for the reconstruction of the remaining portions of the Salem-Hancock's Bridge Road from Moore's Corner to the Bridge over Alloway Creek. This was seconded by Mr. Jelin and adopted.

Atlantic County-Motor
Vehicle Aid

State Highway Engineer Sloan presented to the Commission plans and specifications for the construction of the Absecon Boulevard, Atlantic County, Motor Vehicle Aid, for which the Commission had set aside the sum of $50,000.00, the work to be done with sheet asphalt surface on concrete base. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for the Absecon Boulevard, Atlantic County, which approval carried with it an allotment from the State of $50,000.00 from the Motor Vehicle Reserve Account for this work.

Old Bridge-Matawan Road,
Middlesex Co.

On recommendation by the State Highway Engineer, Commissioner Stewart moved the approval of plans and specifications for the Old Bridge-Matawan Road, Middlesex County Motor Vehicle Aid. This was seconded by Mr. Jelin and adopted.

Gloucester County Motor
Vehicle Aid

On recommendation of the State Highway Engineer, Commissioner Stewart moved approval of plans and specifications for the reconstruction of the three different sections of the Woodbury-Swedesboro Road, Gloucester County Motor Vehicle Aid work. This was seconded by Mr. Jelin and adopted.

Signs, County

State Highway Engineer Sloan presented a report from Assistant State Highway Engineer Reed giving information as to what is being done by the various counties of the State in the matter of proper directionary signs in the counties. On motion by Mr. Kidde, seconded by Mr. Stewart, it was directed that a copy of this report be prepared and forwarded to each of the Commissioners for their study.

Hudson County M. V.
Schedule 1924.

State Highway Engineer Sloan presented to the Commission correspondence had with the County Engineer of Hudson County, in which request was made for permission to change the county road schedule in view of the fact that the Board is desirous of improving Tonnelle Ave. instead of County Road, which appeared in the Motor Vehicle schedule for 1924. He recommended to the Commission that no change be permitted at this time in the County Motor Vehicle Schedule. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that a communication be forwarded to the Board of Freeholders of Hudson County, advising that the Commission is unwilling to change the Motor Vehicle Schedule and agreement as filed, and is anxious that the County proceed with the work in accordance with this schedule, but if there is any very serious difficulty involved, the Commission will be glad to give the Freeholders a hearing in the matter. This was seconded by Mr. Stewart and adopted.

State Road Map, 1924

Commissioner Stewart inquired concerning the progress being made on the State Road Map for 1924 distribution, advising that he understood that this matter was being held up in the office of the Commission. The Secretary informed the Commission that all papers necessary for the completion of this map had been placed in the hands of the printer, two weeks past, and that promise was made for delivery on June 10th. The Secretary presented a statement prepared for printing with this map and the same was read by Mr. Stewart and was approved by all the Commissioners.

Right of Way, Morgan
Grade Crossing - Route 4

Commissioner Jelin requested permission to return all the papers in connection with the right of way matters at Morgan, and moved that the same be referred to Commissioner Stewart for investigation. This was seconded by Mr. Kidde and adopted.

Amboy Bridge

State Highway Engineer Sloan informed the Commission that some-

June 3, 1924.

time during the next week the first caisson would be launched on the site of the New Amboy Bridge, and hw would give notice to the Commissioners of the exact time and date.

On motion by Mr. Kidde, seconded by Mr. Stewart, the meeting adjourned at 5:30 P.M., to meet in regular session again on Tuesday, June 10th, at 10:30 A. M.

Respectfully submitted,
A. LEE GROVER,
Secretary.

MINUTES OF MEETING - June 10th, 1924.

A regular meeting of the State Highway Commission was held at the office of the State Highway Department at Perth Amboy, on the location of the New Amboy Bridge, on Tuesday, June 10th, 1924. The meeting was called to order at 10:00 A. M., by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Route #11, Washington Ave., Belleville.

Commissioner Kidde informed the Commission that he had been in conference with the Public Service Corporation and he had asked the Vice-President of that Company to send a representative of that Corporation to this meeting for the purpose of clarifying the situation and reaching an agreement as to the trolley work on Route #11, Washington Ave., Belleville, and he introduced Mr. Martin White, Chief Engineer of the Railway Company who informed the Commission that he was prepared to offer a proposition whereby the Railway Company will move its tracks and place new tracks, ties and ballast, providing the State Highway Commission will attend to the paving with concrete and blocks and release the railway company of future maintenance on the paving work. He also stated that the Public Service Railway Corporation would expect that they be given several years in which to reimburse the State for the financing of the actual track work. Commissioner Kidde stated that there appeared to be no progress from that discussed with the Vice-president of the company and he stated that it was his feeling that there was an obligation on the part of the railway company in its franchise to maintain a macadam pavement between its tracks and eighteen inches outside thereof, which should not be disregarded, being worth a certain amount of money if it was capitalized. Mr. White stated that the railway company felt that if the existing Belgian block was turned over to the State for repaving the tracks, the value of the block would overcome any difference. After further discussion State Highway Engineer Sloan thought that the Commission was practically in agreement on all items on this work except the value of the maintenance of macadam pavement and the matter of moving the poles along the roadway. Mr. White informed the Commission that he had spoken with the Vice-President of his company and his company and his company is willing to go along on this work with the condition that the State Highway Commission would move the poles and wire at their own expense and prepare the grade on which the railway company would lay its tracks in the center of the street, the railway company to furnish new rails, ties, spikes, etc., and the State to finance such work for the railway company over a period of several years, the State also to do all paving and concrete work necessary after the tracks are placed.

The State Highway Engineer informed the Commission that except for poles and wire the general line of this claim was tentatively agreed to except that there is a claim made by the Stae for $12,000.00 additional for macadam pavement in lieu of the fact that the railway company will not maintain this roadway in the future. Mr. White stated that his company felt that it was giving the State $20,000.00 worth of belgian block to cover this item. Commissioner Jelin stated that he believed the matter of an agreement could be negotiated very well, but he was not certain that the State Highway Commission should finance the railway company for any numbers of years.

Commissioner Kidde stated that he understood that the railway company proposed to include the cost of this work in its 1925 budget.

Commissioner Stewart inquired as to the length of time the railway company desired for financing, and Mr. White advised that it had been the policy in the past to secure from three to five years and in no case less than three years.

The Secretary informed the Commission that in a number of instances in the past arrangements had been made with the approval of the Attorney General for the financing of the work as done by the Public Utility Corporation.

Commissioner Kidde stated that he felt that the matter of moving the poles was entirely the responsibility of the railway company under their franchise.

State Highway Engineer Sloan thought that the question of moving the poles was entirely a legal matter, and if this was part of the franchise requirements, then it should be up to the Public Service Corporation, and if not, the State should take care of the moving of the poles.

Commissioner Stewart suggested that an agreement be entered into with the Public Service Corporation whereby the State would finance the work over a period of two years, and the Public Service Corporation would pay an additional amount of $6,000.00 or one-half of the claim originally made by the State. The commission agreed to make this proposal.

Mr. White stated that he would report this proposition to his superiors and would give an answer within a day or two.

Metuchen-Perth Amboy Road,
Middlesex County

The Secretary presented a communication from Hon. Geo. S. Silzer, enclosing a copy of a letter written by him to the Foreman of the Middlesex County Grand Jury, requesting that information be sought as to the responsibility for the condition of the Metuchen-Perth Amboy Road in Middlesex County. State Highway Engineer Sloan informed the Commission that this road was scheduled for reconstruction during the present year by the County of Middlesex and there was only an item of $5,250.00 in the county repair schedule covering a section of the road not placed under contract. Commissioner Stewart inquired whether there was any way in which the State Highway Commission could receive notice from thecounties as to the time of opening and closing of roads for construction and for detours. Commissioner Jelin suggested that a recommendation be made to the next Legislature whereby on all county and State roads a satisfactory detour must be provided before construction work is started on any main highway, and in the event no detour is provided, that one side of the road be maintained in satisfactory condition. Commissioner Kidde suggested that this matter be placed in the hands of the State Highway Engineer for determining upon the legal and engineering features of such legislation and that a report be submitted to the Commission at an early date covering this matter. On motion by

Mr. Stewart, seconded by Mr. Jelin, the communication from Governor Silzer was ordered received and reply made to the effect that the State Highway Commission will give the matter careful study and will endeavor to draft legislation to cover this matter. This was seconded by Mr. Jelin and adopted.

Route #14, Egg Harbor-Mays Landing

The Secretary presented a resolution from the City Commission of Atlantic City favoring the early construction of Route #14 between Egg Harbor and Mays Landing. The Secretary informed the Commission that this covered that section of the road where it was determined by the Commission that the money applied should be released for application on sections of the Delsea Drive and the Harding Highway. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the communication be received and acknowledged with the advice that this section of Route #14 was eliminated from the State Highway construction program this year, due to the fact that the money could be expended to better advantage on the Harding Highway and the Delsea Drive, and also for the widening of the White Horse Pike which it was felt would relieve the necessity for the construction of Route #14 between Egg Harbor and Mays Landing to a considerable extent.

Rt. #14, Egg Harbor-Mays Landing

The Secretary presented a communication received from the Hon. Robert J. Kay, Director of Revenue & Finance of Cape May County, urging the early construction of the Egg Harbor-Mays Landing Section of Route #14. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the communication be acknowledged with the advice that this section of Route #14 was eliminated from the State Highway construction program this year, due to the fact that the money could be expended to better advantage on the Harding Highway and the Delsea Drive and also on the White Horse Pike, which it was felt, would relieve the necessity for the construction of Route #14 between Egg Harbor and Mays Landing to a considerable extent.

June 10th, 1924.

Route 13 - Detours.

The Secretary presented a communication received from Mr. H. L. Houpt, of the Princeton Nurseries, at Kingston, New Jersey urging the improvement or repair of the Ridge Road between Princeton and Brunswick Avenue, Trenton, used as a detour during the construction of Rt. #13. State Highway Engineer Sloan informed the Commission that due to delay in the completion of Route #13, it would be desirable to place a surface treatment upon the macadam pavement on the Ridge Road, and he recommended to the Commission that the sum of $8,000.00 be set aside for the repairs to this road. On motion by Mr. stewart, seconded by Mr. Jelin, the State Highway Commission directed that the sum of $8,000.00 be expended for surface treating of the Ridge Road used as a detour during the construction of Route #13.

Detours,-General.

The Secretary presented a communication from the Township of Bernards in Somerset County, requesting the State Highway Commission to make an allowance of funds for the repair of roads used as detours during the construction of Route #16. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the request be denied with the advice that the State Highway Commission cannot expend its funds on roads not designated as official detours.

State Highway Road Maps, 1924

The Secretary presented to the Commission a completed proof of the 1924 State Highway Road Map and informed the Commission that the same will be ready for distribution on June 16th. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the proof as submitted and authorized distribution of the road maps as soon as received.

Maintenance Materials,
State Highway 1924.

State Highway Engineer Sloan presented to the Commission the following report on bids received on June 9th for lignin binder, calcium chloride and asphaltic oil grade 300, and recommended that award of contract be made to M. R. Young of Trenton, New Jersey, at his the lowest bid submitted for lignin binder, applied, at prices ranging from 8.6 to 9.12 cents per gallon. He further informed the Commission that this price represented a saving of approximately $14,000.00 over the price received on the same amount of material in 1923.

LIGNIN BINDER

	Per Gallon	Total
M. R. Young	8.6 to 9.12¢	$49,604.00
Asphalt Service Inc.	11.5 to 11.7¢	65,028.28
Good Roads Co.Inc.	11.75 to 12¢	66,522.14

CALCIUM CHLORIDE

	Per Ton	Total
Wing & Evans Inc.,	$31.40 to $2.05	$ 62,198.40

ASPHALTIC OIL SCC

	Per Gal.	Total
Clinton Asphalt Rd. Oiling Co.	19.4 to 20.08¢	$155,547.05
Asphalt Service Inc.	12.98 to 13.83¢	104,431.65
Dosch-King	28¢ on part	35,487.20
The Good Roads Co. Inc.	15.3 to 15.9¢ on part	82,546.95

On motion by Mr. Stewart, seconded by Mr. Kidde, the State highway Commission approved the award of contract for the furnishing of 559,380 gallons of lignin binder to be applied as directed by the Maintenance Division at a total price of $49,604.00, to M. R. Young of Trenton, N. J., his being the lowest bid submitted.

Route #15, Section #5

State Highway Engineer Sloan reported the completion of Route #15 Sec. 5, Millville - Menantico Creek section and recommended final inspection by the Commission. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission referred this final inspection to Commissioner Jelin.

Route #15, Section 6

State Highway Engineer Sloan reported the final completion date for Route #15, Section #6, Leesburg Cut-Off as on June 14, 1924, and recommended that the same be given final inspection. On motion by Mr. Stewart, seconded by Mr. Kidde, this inspection was referred to Commissioner Jelin.

Lupatcong Creek Bridge,
Route #4

State Highway Engineer Sloan reported the completion of the Lupatcong Creek Bridge at M. P. 100.9 on Route #4 at Keyport and recommended final acceptance by the Commission.

June 10th, 1924.

On motion by Mr. Stewart, seconded by Mr. Kidde, Commissioner Jelin was authorized to make final inspection of this bridge work.

Extensions of Time- General

State Highway Engineer Sloan took occasion at this time to advise that the general unfavorable conditions of the spring weather has prevented work on the part of the contractors who have a definite number of days within which to complete their contracts, and he recommended to the Commission that on all contracts continuing over from 1923 where the time of completion is fixed at less than one year, there be granted an extension of thirty days within which to complete their contracts, provided the contractors have started promptly upon their work. On motion by Mr. Kidde, seconded by Mr. Jelin, the recommendation of the State Highway Engineer was unanimously approved.

Right of Way, Route #7,
Section #3

On recommendation by the State Highway Engineer, Commissioner Kidde moved approval of the following purchase agreements for property on Route #7, Section #3, Anderson's Corner-Colt's Neck Road.

Parcels #2 & 3,	Wm. N. Tilton,	$ 86.84
" 4 & 5,	Robert Davison, et als, Geo. Pittenger, Executor	100.00
" 14 & 15,	Austin Hurley Estate	200.00
" #20,	Gustave A. Harms & Wife,	30.00

This was seconded by Mr. Jelin and adopted.

Right of Way, Musconetcong
River Bridge, Route #5

On recommendation of the State Highway Engineer, Commissioner Stewart moved approval of purchase agreements and easements for property necessary for widening and for the construction of a temporary bridge on Route #5 at M. P. 20.0 over the Musconetcong River at Hackettstown, as follows:

Parcel #1 (purchase) & #1A (easement) Ray W. & Jennie E.
Hart, consideration - $25.00
Parcel #2 (purchase) & #2A (easement) Abraham & Mary J.
Thomas, consideration - $175.00
Parcel #3 (purchase) Floyd W. & Elizabeth Greundyke,
consideration $75.00

This was seconded by Mr. Jelin and adopted.

Right of Way, Rt. #7, Sec. #2

On recommendation of the State Highway Engineer, Commis-

June 10th, 1924.

sioner Jelin moved approval of the following purchase agreements for property on Route #7, Section #2, Golf Course-Anderson's Corner Section:

Parcel	#2, Joseph & Dorothy Kernan,	consideration	$ 1.00
"	#4 & 6, Hanna M. Tilton,	"	215.00
"	#5, Amos Tilton,	"	150.00
"	#7, Helen A. & Roy S. Davison,	"	200.00
"	#19, Hannah A. B. Stout,	"	200.00
"	#26, Samuel & Mary Barbara,	"	80.84
"	#27, Harry H. & Louise J. Hohman,	"	27.48
"	#16, Charles & Frances M. Tilton,	"	278.00
"	#23, Joseph H. Lippincott,	"	50.00
"	#25, Henry Gleim,	"	26.00

This was seconded by Mr. Stewart and adopted.

Right of Way, Route #5, Section #11

On recommendation of the State Highway Engineer, Commissioner Jelin moved approval of purchase of Parcel #1 & #1A on Route #5, Sec. #11, Delaware-Belvidere Section from the Knowlton Turnpike and Bridge Company, for the consideration of $600.00. This was seconded by Mr. Kidde and adopted.

Right of Way, Route #5

State Highway Engineer Sloan presented to the Commission a report concerning public sale held on the Buttsvill Hotel property on Route #5, and recommended that the Commission approve the purchase of this property in the amount of mortgages judgment plus unpaid taxes, which will amount to about $3,705.00. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the Buttzville Hotel property at an amount equal to the mortgages judgment plus unpaid taxes.

Right of Way, Hackensack
River Bridge - Route 1

Chairman Scott informed the Commission that he had received a callfrom Mr. Bowen, owner of property taken by the State for the construction of the temporary Hackensack River Bridge and had made the claim that this matter had now been pending for three years without any compensation being made to him for land taken. The Secretary informed the Commission that this matter has been pending for approximately two years and that in view of the fact that Mr. Bowen had refused to accept the offer made by the State, it was now under condemnation proceedings and a date for the hearings has been fixed by the court. On motion by Mr. Stewart, seconded by Mr.

June 10th, 1921.

Mills. The State Highway Commission directed that Mr. Bowen be advised that the entire matter is now in the hands of the Court and the date of hearings would be fixed by the Court, and the State Highway Commission has no further jurisdiction in the matter unless it is the desire of Mr. Bowen to make settlement, in view of which the State Highway Commission could, by proper motion, withdraw the proceedings.

New ~~Perth~~ Amboy Bridge

State Highway Engineer Sloan presented a communication from Mr. C. L. [illegible], Supervising Engineer on the ~~Perth~~ Amboy bridge, [illegible] Ledger [illegible], Dolphin [illegible] & Morris Company requesting that they be paid for the granite delivered [illegible] but not placed. It was reported by the Engineer that this [illegible]. [illegible] of the contract [illegible] delivery of the granite in [illegible] and other [illegible] from the owner of the land on which the granite is being stored [illegible] of the State. Commissioner [illegible] moved that the recommendation of the State Highway Engineer be approved and 80% of the [illegible] of the granite be paid to the contractor, provided a release is furnished by the contractor from the vendor of the granite, and also subject to proper release from the property owner of the land on which the granite is stored, and also subject to such other [illegible] as the State Highway Engineer may advise. This was seconded by Mr. Kidde and adopted.

Federal Aid, - Cumberland County

On recommendation of the State Highway Engineer, Commissioner Kidde moved the [illegible] of project agreement and agreement between the State and the County of Cumberland for the construction of the [illegible] Road, Section A, in Cumberland County, known as Federal Aid Project #[illegible]. This was seconded by Mr. [illegible] and adopted.

Gloucester County - Township Aid

On recommendation of the State Highway Engineer, Commissioner Kidde moved the acceptance and final payment of the [illegible]-[illegible] Road, [illegible] Township, Gloucester County, Township [illegible]. This was seconded by Mr. [illegible] and adopted.

June 10th, 19[illegible].

[illegible] County-Township Aid

On recommendation of the State Highway Engineer, Commissioner Jelin [illegible] the [illegible] Rd., Section A, [illegible] Township, [illegible] County Township Aid. This was seconded by Mr. [illegible] and carried.

Employments

State Highway Engineer [illegible] presented to the Commission the following list of employments made by him since the last meeting of the Commission and recommended ratification of the same.

Increases

6-1-24 E. S. Clugston, Mechanic, .70 to .75

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission unanimously ratified, confirmed and approved the employments as recommended by the State Highway Engineer.

Right of Way, Rt. #8,

Commissioner Kidde reported that he had received an appraisal from Frank Hughes Company of the property of C. F. Forsberg on Route #8, at Mountain View, and he moved that all papers in the matter be returned to the Right of Way Division with instructions that an offer be made to Mr. Forsberg of $12,448.65 for his property. This was seconded by Mr. Stewart and adopted.

Right of Way, Rt. 8.

Commissioner Kidde reported that Mr. Hughes has inspected the property of Miss Majorie L. Davies, known as Parcel #8 on Route #8 at Mountain View, and he moved that $1,000.00 be offered for this property. This was seconded by Mr. Jelin and adopted.

Right of Way, Amboy Bridge.

Commissioner Jelin reported to the Commission that he had arranged for a public meeting to be held in Perth Amboy at 7:00 P.M., this day for the purpose of meeting all the property owners interested in the location of Route #4 on Cleveland Ave., in Perth Amboy, as an approach to the New Amboy Bridge. On motion by Mr. Kidde, seconded by Mr. Stewart, this arrangement was approved ofby the State Highway Commission.

Right of Way, Route 18

Commissioner Kidde reported to the Commission that it was his understanding that work on Route #18 was prepared to proceed when the property matters were adjusted, and he requested authority to take up the matter of property to be acquired with the Inter-State Park Commissioners, in order that the project might be furthered. On motion by Mr. Stewart seconded by Mr. Jelin, the State Highway Commission granted authority to Mr. Kidde to hold such conferences with the Inter-State Park Commissioners on the matter of Route #18, property.

Amboy Bridge

The Secretary informed the Commission that the contractors on the placing of the caisson for the New Amboy Bridge had informed him that this would occur at 1:30 P.M., and prior to this time the State Highway Commission was to meet the members of the Victory Bridge Advisory Board at lunch at the Perth Amboy Club. Chairman Scott, therefore, declared the meeting adjourned at 11:50 A.M., in order that the Commissioners might attend this dinner and view the placing of the caisson.

On motion, duly seconded, the Commission adjourned at 11:50 A. M. to meet in regular session on Wednesday, June 18th, at 10 A. M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - June 18th, 1924.

A regular meeting of the State Highway Commission was held in the Commission meeting room, Broad Street Bank Building, Trenton, on Wednesday, June 18th, 1924. The meeting was called to order at 10:00 A. M. by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Walter Kidde and Abraham Jelin.

Absent: Percy H. Stewart.

Hearings

The Secretary informed the Commission that since the last meeting of the Commission there were two hearings held by Commissioner Jelin, one at Perth Amboy on Tuesday, June 10th and another at Somerville on June 11th.

On the matter of Perth Amboy, Commissioner Jelin reported that he had a formal report in the schedule of business for this matter.

Rt. 16, South Somerville-
Grade Crossing Elimination

On the matter of the meeting in Somerville, Commissioner Jelin advised that Senator Case appeared as representative of a number of residents of that vicinity, and together with members of the Board of Freeholders, protested against the alignment for the Lehigh Valley Railroad Crossing Elimination on Route ~~#6~~ 16 at South Somerville. He advised that it appeared to be the feeling of the residents that the railway company was to be benefitted under the plan proposed by the State Highway Commission. This impression was corrected with the advice that the Lehigh Valley Railway Company is to contribute $40,000.00 toward the improvement in which every manner the same was effected. It was also explained to the residents that if a straight line was adopted for the Route, there would be an additional 42' of covered roadway over that proposed. In addition to that it was pointed out that there are other points on this route where the curvature is 6° or more, he stated that the entire recommendation of the residents and freeholders was to the effect that Somerset County was entitled to the consideration of the State Highway Commission for the building of straight highways, even though there was involved in this case an expenditure of $40,000.00 by the State. Commissioner Jelin advised that he had no recommendation to make, but he stated that at the conclusion of the meeting it appeared that all of the questions in the minds of the local residents, had been cleared up.

The Schedule of Business was next taken up for consideration item by item as follows:

Route 9, Section 15

State Highway Engineer Sloan presented a report of bids received on June 16th, 1924, for the construction of Route #9, Section #15, Westfield-Lehigh Valley R. R., and recommended that award of contract be made to the Newark Paving Company of Newark, New Jersey, at their low bid of $284,208.07.

Newark Paving Company	$284,208.07
Weldon Cont. Co.	287,283.46
Public Service Prod. Co	293,067.84
Michael Staub	293,435.60
C. H. Winans Co.	293,843.40
Joseph F. Burke	316,296.37
J. F. Chapman & Son	319,878.76

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 9, Section 11, Westfield-Lehigh Valley R. R. to the Newark Paving Co. of Newark, N. J., at their's the lowest bid in the amount of $284,208.07, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 3, Section #11

State Highway Engineer Sloan presented a report of the following bids received on June 16th for the construction of Route 3, Section 11, Berlin-Hammonton Section (widening White Horse Pike), and recommended award of contract to Charles T. Kavanagh, at his the lowest bid in the amount of $77,107.66.

Charles T. Kavanaugh	$ 77,107.66
Fish-Rutherford, Inc.	94,872.34
W. C. Lock	100,969.87
Michael Staub	104,657.00
Zanratti Cont. Corp.	108,995.35
Ralph Sangiovanni	109,458.50
Sutton & Corson	109,747.38
T. J. M. Cont. Co.	115,639.97

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

June 18th, 1924.

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 3, Sec. 11, Berlin-Hammonton (widening White Horse Pike), to Charles T. Kavanaugh, at his the lowest bid in the amount of $77,107.66, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route #2, Section #6

State Highway Engineer Sloan presented the following report of bids received on June 16th, for the paving of Route #2, Section #6, Burlington-Bridgeboro, with sheet asphalt and recommended award of contract to the Union Paving Company of Philadelphia, Pa., at their's the lowest bid in the amount of $63,360.00.

Union Paving Company	$ 63,360.00
Joseph F. Burke	64,320.00
Standard Bitulithic Co.	72,960.00
Willite Rd. Const. Co.	81,120.00

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the paving of Route 2, Sec. 6, Burlington-Bridgeboro Section to the Union Paving Co. of Philadelphia, Pa., at their's the lowest bid in the amount of $63,360.00, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 9, Section 11

On recommendation of the State Highway Engineer, Commissioner Jelin moved that approval be given to the subletting of track work on Route 9, Section 11, by the C. H. Winans Company, contractors, to the Public Service Railway Company. This was seconded by Mr. Kidde and adopted.

Pompton River Bridge Route 8.

State Highway Engineer Sloan reported approval of plans and specifications for a bridge at M. P. 9.1 on Route 8 at Pompton River, and recommended approval of advertisement by the Commission. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission ratified the action of the State Highway Engineer in approving said plans and specifications, and authorized advertisement to be placed for the work.

Right of Way, Amboy Br.

The Sectetary presented the following report from Commissioner

June 18th, 1924.

Jelin on the matter of hearing at Perth Amboy for the acquisition of property required by the State on the Cleveland Avenue approach to the New Amboy Bridge.

Right of Way, Rt. 4,
Cleveland Ave., Perth Amboy.

June 18, 1924.

To the State Highway Commission:

In accordance with authority granted at the last Commission meeting, the writer held a meeting on the matter of property required by the State on Cleveland Avenue approach to the Amboy Bridge, in a small meeting hall, on Brace Street, Perth Amboy, near the site of the bridge.

There were 22 property owners involved and all appeared with the exception of one, who advised by telephone that he could not appear.

As Chairman, the writer explained the magnitude of the bridge project and the desirability of making a direct line to the bridge. It was also explained that the State Highway Commission did not desire to go through any district ruthlessly, or do harm to anyone, and for this reason, appraisals had been secured from three expert real-estate operators, and also from two contractors on house removals, and it was the purpose to offer the highest appraised value for the land taken.

Each property owner was called upon to hear the appraisals on the property, and the cost of moving the building, and was asked whether he was satisfied. In cases where the owners could not speak English, they brought sons or daughters who could interpret for them. The following property owners were present or represented and gave answers as indicated:

1. Mary Schiller, 531 Brace Ave., offered $980. Cash, and removal of property by state. Satisfied
2. Edwin Nelson, 212 Water St. offered $2,100.00. Declares that land is worth more, he having refused $2,500 last year.
3. Mrs. Eliza Kuzma, 633 Cleveland Ave., offered $624.00 cash, and removal ov buildings by State. Represented by son John, who says she is not satisfied with offer.
4. Samuel Cannata, 220 Fayette St., offered $624.00 for land. He is not satisfied with offer.
5. Edwin Nelson, 212 Water St., offered $312.00. Not satisfied.
6. Martin Biasha, 647 Cleveland Ave., offered $312.00 for land, and State to move buildings. Makes no statement except that he is satisfied if the others are.
7. Michael Szurma, 647 Cleveland Ave., represented by son Michael Jr. Offered $1,248. and State to move buildings. Same thing on 643 and 645 Cleveland Ave. Will accept if other property owners will sign up.
8. Frank Mussoff, 651 Cleveland Ave., offered $624. and State to move building. He is satisfied if the rest are.

June 18th, 1924.

9. John Garick, 655 Cleveland Ave. offered $312.00 and State to move building. Is satisfiedto accept.

10. George Kolozer, 657 Cleveland Ave. offered $312.00 for land. Represented by Michael Talmagy, who says this owner lives out of town, and he will communicate the offer with recommendation to accept.

11. Michael Talmagy, 659 and 661 Cleveland Ave., offered $624.00 and State to move buildings. Will accept the offer.

12. Andrew Fazekas, 665 Cleveland Ave., offered $624. for land, but he refuses to sell.

13. John Latanic, Helmetta, N. J., offered $832. for land, but is not satisfied.

14. Maciorowsky & massoport, offered $416.00 for land. Not satisfied with offer.

15. George Milyovisk, 683 Cleveland Ave., offered $416.for land, and State to move buildings. Will accept if others sign.

16. Michael Brown, 687 Cleveland Ave. offered $416. for land. Will accept the offer.

17. John Brown, 691 Cleveland Ave., offered $416. for land and State to move buildings. Will accept.

18. John Loeivisk, 695 Cleveland Ave., offered $416. for land. Will accept.

19. Roman Barowick, 703 Cleveland Ave., offered $832. for land and State to move buildings. Make claim that balance of lot is made valueless. Held for further consideration.

20. Ralph Bullis, of 550 Hartford St. was not able to be present or represented.

21. John Kinubis, 373 Hall Ave. offered $1,404. Makes claim that lots are destroyed. Held for further consideration.

22. Frank Telazalia, 770 Carson Ave. offered $686. for land, and State to move buildings. Not satisfied with offer.

In every case, it was explained that the State is willing to give a stipulated sum to the owner rather than move the buildings, said sum based on the proposal of building movers for doing the work.

It was further explained to those gathered that the State Highway Commission has in mind another line, and if the cooperation of the residents cannot be obtained, the other line will be adopted.

The question was asked as to whether any of those present were unfavorable to having Route 4 pass through Cleveland Avenue, but no one responded.

The meeting was adjourned at 8 P.M. with the advice that a representative from the Highway Department would approach property owners with a formal agreement to sign.

June 18th, 1924.

Respectfully submitted,
Abraham Jelin,
Commissioner.

Commissioner Jelin moved that the Right of Way Department be authorized to negotiate for the purchase of property at the prices recommended by Right of Way Engineer and offered by himself at the Perth Amboy meeting purchase agreements to be properly drawn and presented to the State Highway Commission for action. This was seconded by Mr. Kidde and adopted.

Right of Way, Amboy Br.

Commissioner Jelin presented to the Commission a communication received from John E. Toolan, Attorney for the owners of the Cleveland Heights Tract in Perth Amboy, in which he was advised taht these owners will now accept the $2,500.00 as offered instead of the $7,500. as originally asked. Commissioner Kidde moved that the Right of Way Department be authorized to closed negotiations with the owners of the Cleveland Heights tract for property needed for right of way to the new Amboy Bridge, for the sum of $2500.00. This was seconded by Mr. Jelin and adopted.

Construction-General.

Commissioner Kidde inquired as to the value of road work now under contract with the approvals given this day, and was informed that there is a total of $3,800,000.00 worth of State Highway road work now under way, exclusive of bridges, for a total of seventy-two miles.

Crosswicks Creek Bridge, Rt. 2, Bordentown Water Main.

State Highway Engineer Sloan presented to the Commission a report on a conference held between himself, Judge Wells and Mr. Fredericks, representing the City of Bordentown relative to the proposed changes in the ten inch water service main of the city of Bordentown in the vicinity of the new Crosswicks Creek Bridge. He advised that the City of Bordentown stood ready to furnish the necessary material for reconstructing this section of water main if the State would furnish the necessary labor to install the same in a new location. He recommended that in view of the fact that it is desirable to keep the main out of the pavement on Route #2, if the same is legally possible to be done, that the cost of such labor approximating $2,000.00, be contributed toward the work, which is to be done by the city of Bordentown. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer, subject to the approval of the Attorney General, for the reason that the pavement laid by the State will, thereby, avoid any dangers which might be caused by bursting pipe in the event it was laid under the road on Route 2, Section 5.

Rt. 4, Hampton Cutter
Grade Crossing.

State Highway Engineer Sloan presented a report together with a communication from the Board of Public Utility Commissioners requesting the consideration of the State Highway Commission on the question of modifying the requirements for the protection of the crossing over State Highway Route 4 by a standard gage railroad track as set forth in an agreement between Hampton Cutter and the State Highway Commission under date of January 16, 1922, the request being that instead of requiring two flagmen and the train coming to a full stop before crossing the highway, this be modified to eliminate one flagman. The State Highway Engineer recommended that in view of the protection already offered to the grade crossing, the modification in the agreement be approved inasmuch as the same carries a recommendation of the Public Utility Commission. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer in view of the fact that the same bears the recommendation also of the Public Utility Commission.

Poles, - State Highway.

State Highway Engineer Sloan presented to the Commission a proposal from E. B. Leahy, Inc., for the banding of the poles on State Highway Routes. He stated that this company carried out the original pole banding at the price of $2.10 per pole and now proposed to do the work for $1.45 per pole. He further informed the Commission that the Department records show that the cost to the department with work done by its own forces is $1.54 per pole. He recommended to the Commission that three routes, namely, 5, 10 and 12 be awarded to E. B. Leahy, Inc., for the banding of poles at $1.45 per pole. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer, and awarded contract for the banding of poles on Routes 5, 10 and 12 to E. B. Leahy Inc., for $1.45 per pole in accordance with specifications to be prepared by the State Highway Engineer.

Route 9, Dunellen-Trolley
Track Paving.

State Highway Engineer Sloan presented to the Commission a communication received from the Plainfield Courier News, requesting information as to the paving between the tracks on Route 9 through Dunellen. He also presented a copy of his reply to the effect that the State Highway Commission is contemplating the paving with blocks from the end of the concrete to the outer rails and will replace the existing macadam between the tracks. On motion by Mr. Kidde, seconded by Mr. Jelin, the reply was approved with the statement to be made that this contract was a subject of agreement made by the former State Highway Commission and is apparently the only agreement which can be made with the City.

Right of Way, Rt. 16, Sec. 5.

On recommendation of the State Highway Engineer, Commissioner Kidde moved approval of purchase agreement for the purchase agreement for the purchase of Parcel 21 on Route 16, Section 5, from Azniv Maniguian, for the consideration of $600.00, and that condemnation proceedings be discontinued. This was seconded by Mr. Jelin and adopted.

Right of Way, Route 16, Sec. 4.

On recommendation of the State Highway Engineer, Commissioner Jelin moved the acceptance of the following quit claim deeds on Route 16, Section 4, from Pluckemin to Somerville for the consideration of $1.00 in each case, a communication of thanks to be sent to each owner.

	Station to Station
Florence L. Parker	498-90 to 499-75W
Anna R. Hoffman	499-75 to 501-19W
Wm. B. Powelson	501-19 to 597-23W
Earle Eisenbart	519-78 to 522-84W
John A. Mawell	525-87 to 574-72E
G. Warren Smith	560-50 to 572-66W
Ely Dow	615-12 to 618-49W
Alice V. Praed	631-70 to 633-46W
George Schmidt	633-46 to 635-83W
Robert B. Cooke	636-16 to 644-30W
Henrietta W. Hawley	661-56 to 672-76W
Etta W. Beckwith	666-06 to 676-93W
Mrs. S. Case and Mrs. G. Schultz	
H. C. Stringfield	693-45 to 694-55E
James A. Kerr	694-55 to 697-46E
Edward S. Martinnetto	714-47 to 715-30E
Sallie A. Ballentine	746-76 to 751-55W
Jos. S. Frelinghuysen	711-25 to 731-06W

This was seconded by Mr. Kidde and adopted.

Right of Way, Rt. 16, Sec. 3

On recommendation of the State Highway Engineer, Commissioner Jelin moved the acceptance of signed agreements and quit claim deeds from property owners on Route 16, Section 3, between Bedminster and Pluckemin, in order to dedicate a 66' right of way based on a center line of construction on this section for the consideration of $1.00 in each case and a communication of thanks to be sent to each party.

Martin E. Apgar,	383-35 to 384-38W	Agreement	& Quit Claim Deed
Gertrude C. Smith	384-38 to 385-66W	Agreement	only

This was seconded by Mr. Kidde and adopted.

Right of Way, Rt. 7, Sec. 2.

On recommendation of the State Highway Engineer, Commissioner Jelin moved the approval of purchase agreements on Route 7, Section 2, Golf Course-Anderson's Corner Section, as follows:

Parcel 8, Gladys Vanhise	consideration	$ 190.00
Parcel 10, James A. & Ida May Simpson, wife -	"	1400.00

This was seconded by Mr. Kidde and adopted.

Right of Way, Rt. 6, Sec. 13.

On recommendation of the State Highway Engineer, Commissioner Jelin moved approval of the following parcels of property on Route 6, Section 13, Bridgeton-Marlboro Section.

Parcels 1, 1A and 1B, Leonard Smalley & Wife	$ 3,000.00
Parcels 3, Shiloh Grange 16, Consideration	1,300.00
Parcels 4 & 5, Artemis Tribe 198 (Improved Order of Redmen)	2,445.00
Parcels 7, L. E. Tomlinson & Wife,	118.00

This was seconded by Mr. Kidde and adopted.

Right of Way, Route 4.

State Highway Engineer Sloan recommended to the Commission that an offer of $796.00 be authorized for Parcels Nos. 5-A, 5-B, 5-C, 5-D, 5-E, 5-F, and 5-G on Route 4 at the Morgan Grade Crossing Elimination, from the Jersey Central Realty Company, and that an offer be made of $50.00 to the same party for Parcel 7 on this location. On motion by Mr. Kidde, seconded by Mr. Jelin, these matters were referred to Commissioner Stewart for investigation and report.

Right of Way, Route 18

Commissioner Kidde reported that in connection with the right of Way for Route 18, he had held a conference with Mr. Sutro and Major Welsh of the Palisades Park Commission at which time he suggested that the Palisades Park Commission might aid in obtaining a right of way close to the bluff. Commissioner Sutro said he would recommend such action and that they consider trading a certain parcel of land which it was now ready to dispose of, for land necessary on the cliffs in order to make a sight seeing park adjacent to the line of Route 18 on the Palisades. He advised that Major Welsh was endeavoring to make a trade and that if said trade could be accomplished it would be the securing of what, in their minds, was the finest location on the Palisade Bluffs for a viewpoint for tourists over Route 18 and the Palisades into New York State and the Hudson River. The Commissioners expressed interest in the plan and asked Commissioner Kidde to keep in touch with the matter.

Pan-American Road Engineers

State Highway Engineer Sloan informed the Commission that arrangements were made for the transportation of the Pan-American Engineers who are coming into the State of New Jersey in order to inspect road work, but that nothing had been done as to means of entertainment as far as the State was concerned. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the matter of arrangements be placed entirely in the hands of Chairman Scott, in order that if there is anything further to be done he may have power to do so on behalf of the Commission.

Middlesex Co. Road Repairs.

State Highway Engineer Sloan presented a report from Assistant State Highway Engineer Reed advising that conditions in the maintenance repair work in Middlesex County are improving and he recommended that the amount of $15,000.00 be retained from Middlesex County in 1923, until the roads on the North side of the Raritan River were placed in satisfactory condition, be paid at this time. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the payment of $15,000.00 remaining to the credit of Middlesex County in the 1923 Motor Vehicle Account, due to the favorable report presented at this meeting.

Township Aid,-Bergen County

State Highway Engineer Sloan presented a report from Assistant State Highway Engineer Reed to the effect that the Hohokus Township Committee has not yet shown a willingness to make a connection between the Wyckoff-Ramsey Road and Crescent Avenue in Bergen County, and he recommended that aid set aside for the Wyckoff-Ramsey road, be cancelled at this time unless specifications are included for this connection. On motion b y Mr. Jelin, seconded by Mr. Kidde, the recommendation of the State Highway Engineer was ordered approved and aid on the Wcykoff-Ramsey Road in Bergen County was held up accordingly.

Rt. 11, Washington Ave., Belleville

State Highway Engineer Sloan presented to the Commission a communication received by him from the Superintendent of Maintenance of Way of the Public Service Railway Company, in which he advised that the Public Service Railway Company is ready to approve of the following proposition on Washington Avenue, Belleville, namely, that the State Highway Commission will do the necessary grading for the laying of tracks in the center of the road and will do all the necessary paving including the concrete base for the same, and further will maintain the pavement except in the event the Railway Co. takes out the same for repairs to tracks when necessary. In return for this the Public Service Railway Company will furnish rails, ties, joints and ballast and lay the same on the concrete furnished by the State Highway Commission, said material and work to be financed by the State Highway Commission and the Public Service Railway Company to reimburse the State for the cost of the rails, ties, ballast and labor over a period of three years, and the Public Service Railway Company will contribute to the State the sum of $6,000.00 in lieu of maintaining a macadam pavement in the future. Commissioner Kidde inquired as to what arrangements had been made as to the removal of poles. State Highway Engineer Sloan advised that the Public Service Railway Company will assume the franchises obligations and remove the poles which are necessary to be removed at its own expenses. On motion by Mr. Jelin, seconded by Mr. Kidde the State Highway Commission authorized the State Highway Engineer to prepare the proposed agreements, in order to carry out the arrangements as proposed in the communication of the Public Service Company and further to include the moving of the necessary poles by the Public Service Railway Company, said agreement to be presented to the State Highway Commission for final acceptance.

B. L. Gage, Jury Duty

State Highway Engineer Sloan reported to the Commission that he had received a communication from Prosecutor of the Pleas of Mercer County, Wm. H. Geraghy, advising that he was informed that Bruce L. Gage, and employee of the State Highway Department called to jury duty, had been penalized to the extent of not receiving salary from the State Highway Department and requesting that some arragnements be made to change the rules of the Department in order that they will not interfere with an wmployee who is called to jury duty. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the matter be referred to the Attorney General's Department in order to define the requirements of the State in the matter of jury duty, in view of the fact that a payment is made for certain service and public funds are involved in both instances.

Employments

State Highway Engineer Sloan presented to the Commission the following list of employments as made by him since the last meeting on the Commission and recommended approval of the same by the Commission:

6-18-24	Chas. B. Molineaux,	Bridge Insp.	$17[illegible]
6-16-24	Wm. E. Mayers,	Asst. Test. Chem.	125.00
6-16-24	Samuel Page,	Jr. Insp.	125.00
6-10-24	Harold Sklarew,	Rodman	90.00
6-17-24	Wm. R. Foster,	Jr. Eng.	125.00
6-16-24	Wm. H. Schlequinger,	Rodman	90.00
[illegible]	[illegible] Dixon,	Br. Const. Insp.	165.00

6-23-24 Miller Robinson	" " "		.45

Increases

6-12-24 A. J. Lutz,	Motor Truck Driver,	$ .50 to $.55 per hour.
6-12-24 John Glover,	" " "	.55 to .60
6-12-24 Thomas Munger,	Mechanic,	.70 to .75

On motion of Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission ratified, confirmed and approved the employments as made by the State Highway Engineer since the last meeting of the Commission.

Request for Aid- Monmouth County

State Highway Engineer Sloan presented to the Commission the matter of the request of Monmouth County for the setting aside of $3,[illegible].24 from the State Aid Savings Account for the credit of the Freehold-Smithburg Road, Section #2. On motion, duly seconded, this matter was ordered held over for consideration at the next meeting.

Freehold-Smithburg Road, Sec. 2.

On recommendation of the State Highway Engineer, Commissioner Kidde moved approval of award of contract by the Board of Freeholders of Monmouth County for the Freehold-Smithburg Road, Section #2, Monmouth County Motor Vehicle Aid Work. This was seconded by Mr. Jelin and adopted.

Prospect Ave., Essex Co.,

Commissioner Kidde inquired of the Engineering Department as to whether any progress was made by Essex County in the matter of the Prospect Ave. improvement and he was informed that no plans and specifications had as yet been received from the County. Commissioner Kidde suggested that the County be advised that in view of the advance being too high and he recommended that the amount set up by the State to the extent of $10,500, be cancelled and $6,000.00 thereof be paid to Washington Township upon the submission of statements, in proper form, for work done on the Long Valley-Fairmount Road, Section #1, which is now acceptable to the State Highway Department. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer and directed that $10,500.00 set up for Washington Township, Morris County, be cancelled and returned to the Cancellation Fund and that $6,000.00 be set up for the credit of the Long Valley-Fairmount Road, Section #1, payment to be made when proper papers are submitted.

Salem Co.-Township Aid

On recommendation of the State Highway Engineer, Commissioner Kidde moved the acceptance and final payment on the Willow Grove Road, Pittsgrove Township, Salem County Township Aid. This was seconded by Mr. Jelin and adopted.

Cumberland County-
Motor Vehicle Aid

On recommendation of the State Highway Engineer, Commissioner Kidde moved approval of extension of time granted by Cumberland County Freeholders for the completion of gravel surface on the Bridgeton-Port Norris Road, Cumberland County, Motor Vehicle Aid. This was seconded by Mr. Jelin and adopted.

Sussex County,- Township Aid

On recommendation of the State Highway Engineer, Commissioner Kidde moved the approval of Revised Agreement on the Tranquility-Andover Road, Green Township, Sussex County, Township Aid, the County and Township paying one fourth of the cost and the State three fourths. This was seconded by Mr. Jelin and adopted.

Mercer Co.-Township Aid,
Transfer

On recommendation of the State Highway Engineer, Commissioner Kidde moved the approval of transfer of $12,000.00 from Mt. Lucas Road, Princeton Township, Mercer County Township Aid, to be divided as follows:

$ 10,650.00	to be used on Mountain Avenue
1,350.00	to be used on Cedar Grove Road

both in Princeton Township, This was seconded by Mr. Jelin and adopted.

of the season if this work is not placed under way in the immediate future, the State Highway Commission may find it necessary to place the funds allotted for this work where it is needed elsewhere for this year's construction.

On recommendation of the State Highway Engineer, Commissioner Jelin moved the approval of plans and specifications for East Front Street, Plainfield and the Scotch Plains Road, Union County Motor Vehicle Aid Work. This was seconded by Mr. Kidde and adopted.

Cumberland County-Motor Vehicle Aid

On recommendation of the State Highway Engineer, Commissioner Jelin moved approval of Motor Vehicle Aid schedule and agreement for Cumberland County maintenance work in the year 1924. This was seconded by Mr. Kidde and adopted.

Essex County Repairs

On recommendation of the State Highway Engineer, Commissioner Jelin moved the approval of award of contracts by Essex County for maintenance materials for repairing and resurfacing of Essex County roads and also for the construction of a storm drain on Stuyvesant Avenue in Irvington. This was seconded by Mr. Kidde and adopted.

Motor Vehicle Aid-Salem County

On recommendation of the State Highway Engineer, Commissioner Kidde moved approval of extension of time for the completion of the application of Light Hot Asphaltic Oil in the Pennsgrove-Salem Road Section #5, Salem County, Motor Vehicle Aid work, from May 20th to June 9th, 1924. This was seconded by Mr. Jelin and adopted.

Township Aid-Hunterdon County

On recommendation of the State Highway Engineer, Commissioner Kidde moved the approval of award of contract by Alexandria Township, Hunterdon County, on the Pittstown-Everttstown Road, Section #1, Alexandria Township, Hunterdon County, Township Aid. This was seconded by Mr. Jelin and adopted.

Morris County-Township Aid.

State Highway Engineer Sloan presented a report from the Projects Division advising that the Washington Township Committee was unwilling to proceed with the improvement of the Long Valley-Fairmount Road, Section #2, because of the bids

Maintenance Materials, Salem Co.,

On recommendation of the State Highway Engineer, Commissioner Jelin moved the approval of a supplemental agreement to be entered into by Salem County for the application of 20,000 gallons additional of S. C. O. on Salem County gravel roads. This was seconded by Mr. Kidde and adopted.

Amboy Bridge, Rt. 4, Painting.

State Highway Engineer Sloan presented a report with recommendation in connection with an additional coat of paint to be placed on the steel work of the Amboy Bridge in view of its early completion in the shops. On motion by Mr. Jelin, seconded by Mr. Kidde, the matter was ordered held over for consideration when Commissioner Stewart would be present.

Route 5, Maplewood

The Secretary presented a communication from the Township of Maplewood, advising that the Township has not changed its opinion with regard to the width of the roadway through Maplewood on Route 5, and advised that the total cost of extra width would be prohibitive to the Township unless the State would bear a greater part of the paving. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered received and placed on file, since this work would be carried over until the 1925 program.

Sussex-Port Jervis Road

The Secretary presented a communication from Hon. H. T. Kays, Attorney for the Board of Freeholders of Sussex County, transmitting a resolution adopted by the Board of Freeholders of Sussex County to the effect that the Board of Freeholders of Sussex County is now prepared to proceed with the construction of the Sussex-Port Jervis Road by way of High Point, the State to share in the work in the amount of 50% not exceeding, however, a total of $165,000.00. Commissioner Kidde required that the State's obligation be definitely limited not to exceed $165,000.00. Commissioner Jelin, therefore, moved that the State Highway Commission approve the action of the Sussex County Board of Freeholders in proceeding with plans for the construction of the Sussex-Port Jervis Road, by way of High Point, in accordance with State and Federal specification requirements the State to share in the said work to the extent of 50%, the State's obligation in any case not to exceed $165,000.00.

Shade Trees, White Horse Pike, Route 3

The Secretary presented a communication from the Womens Civic Club of Hammonton, New Jersey, protesting against the removal of shade trees on the White Horse Pike made necessary by the widening of the same. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered received and the Secretary directed to advise the Womens' Civic Club of Hammonton, New Jersey, that the State Highway Commission regrets exceedingly the removal of trees on the White Horse Pike, and if there is any plan whereby the Commission can save same, the Commission will be glad to give it consideration.

Proposed New Routes

The Secretary presented a resolution from the Wildwood Board of Trade urging upon the Commission the taking over as part of Route 4, that road from Absecon to Pleasantville, Somer's Point and Marshall's Corner, connecting with State Highway Rt. 14. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered received and the Secretary was directed to advise that this matter will be taken under careful consideration by the Commission for improvement when funds for the same are available.

Advisory Board, Jersey City.

The Secretary presented a communication from P. A. Gaddis, of Jersey City, New Jersey, in which he stated that he believed the Advisory Board Route as presented to the State Highway Commission for Jersey City, is the most practical one if only an easement for a depth of fifty feet was taken at street crossings through the hill, instead of full width so as to enable development to be made on the frontages. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered received and placed on file for consideration with the Advisory Board project.

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission adjourned at 12:45 P. M., to meet in regular session again on Tuesday, June 24th, at 10:30 A. M.

Respectfully submitted,
A. LEE GROVER,
Secretary.

MINUTES OF MEETING - June 24, 1924.

A regular meeting of the State Highway Commission was held at the Commission meeting room, Broad Street Bank Building, Trenton, on Tuesday, June 24th, 1924. The meeting was called to order at 10:30 A. M. by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Walter Kidde and Percy H. Stewart.

Absent: Abraham Jelin.

Minutes Approved

Commissioner Kidde reported having read the minutes of the meeting held on June 3d and moved the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Route 9, Dunellen

The Secretary informed the Commission that a delegation from the Common Council of Dunellen was present with reference to the improvement of the trolley track area through the main street of Dunellen for a distance of four blocks which was not included in the proposed work under construction on this section of Route 9. On motion, duly seconded, a hearing was granted. There appeared Councilmen J. Michael, R. [illegible] Wright and D. W. Doddwell. Mr. Michael acted as spokesman and stated that he had been informed by the State Highway Engineer as to the extent of the contract under which the trolley track area was to be improved on Route 9 through Dunellen, namely, that the State would pave with blocks up to the outer rails and the present macadam would be reconditioned between the trolley tracks. This was satisfactory to Dunellen, but there were four blocks of Route 9 which were not included in this contract and the condition between the trolley tracks was deplorable. He explained that the State had improved two strips eleven feet wide on each side of the trolley tracks which were now being used as parking space for automobiles, and the through traffic was forced to travel in the car tracks. He advised the Commission that under the franchise granted to the Public Service Railway Company the Railway Company was obligated to keep the macadam pavement in proper repair through the city, and he asked that the State Highway Commission use its powers to cause the Public Service Railway Company to meet its franchise obligations. Commissioner Stewart stated that he felt keenly the situation existing at Dunellen which was very familiar to him and he would be in favor of taking some action demanding that the Public Service Railway Company carry out its franchise obligations. Mr. Michael informed the Commission that in addition to the maintenance of the macadam, the franchise called for sprinkling to be done on the street. Commissioner Kidde suggested that some arrangements might be made with the Public Service Railway Company whereby if they would place the macadam in proper condition, the State might bind the same with penetration asphalt. Following further discussion, Commissioner Stewart moved that the Public Service Railway Company be notified to comply with the provisions of its franchise obligations for the maintenance of the trolley track area on Route 8 through Dunellen. This was seconded by Mr. Kidde and adopted.

Route 17, Lehigh Valley R. R.
Crossing, South Somerville

The Secretary informed the Commission that at the last meeting no definite action was taken concerning the Lehigh Valley Railroad crossing at South Somerville, due to the absence of Commissioner Stewart, and he inquired whether any further action would be taken. Commissioner Stewart reported that pursuant to the request of Senator Case a public hearing was held on the question of change in plans for the elimination of Lehigh Valley Railroad Crossing at South Somerville and no additional facts not already before the State Highway Engineer or State Highway Department, were produced which would lead the Highway Commission to alter its opinion in regard to the practicability of the route as determined in the original plans, and, therefore, he would move that the plans as drawn, not only from an engineer's stand-point, but because of a saving of money and because they are already approved, be proceeded with and a copy of the action of this meeting be forwarded to Senator Case. This was seconded by Mr. Kidde and adopted.

Advisory Board,-Victory Bridge.

Chairman Scott presented to the Commission a report contained in the Perth Amboy Evening News, of a meeting held by the Victory Bridge Advisory Board on Wednesday, June 18th at Trenton, in which was presented in detail the proceedings of the meeting resulting in a decision to appoint a committee to prepare a report to the State Highway Commission to the effect that the Perth Amboy Bridge is not suitable for a New Jersey Memorial. Commissioner Kidde stated that it still remained mandatory for the State Highway Commission to arrange for "suitable tablets and ornamentations" as provided in the action of the last Legislature. Commissioner Stewart stated that there appeared to be no provision in the statute as to when memorial plans shall be completed, and he suggested that the matter be held in abevance until the report of the Advisory Board is presented. Chairman Scott who is also Chairman of the Victory Bridge Advisory Board informed the Commission that the report would be presented after written statements were received from each member of the Advisory Board outlining their position on the matter.

Hearing, Gloucester & Salem
Counties.

The Secretary informed the Commission that a delegation from Gloucester and Salem Counties was present for a hearing before the Commission although no definite hearing had been asked for. On motion, duly seconded, a hearing was granted, and Chairman Scott made the request of the delegation that if it is found necessary to come before the State Highway Commission, that arrangements for a hearing be made in advance in order that a report may be presented from the Engineering Department so that the matter may be more easily disposed of. There appeared Senator Barton of Salem County and County Engineer William C. Cattell of Gloucester County, together with Freeholder Reeves of Salem County and a delegation from Woodstown. Mr. Cattell first addressed the meeting and advised that Gloucester County Freeholders had requested that he appear and express his approval of a proposed improvement in Salem County, which would be an extension of the Swedesboro-Woodstown Road beyond the Gloucester County line. He advised that the Gloucester County Section of this road was completed several years ago with the understanding that the Salem County Board would, as soon as possible, complete the section of road to Woodstown, which was in Salem County. However, ther has arisen in Salem County a difference of opinion among the Board of Freeholders as to which roads are the most important, and for this reason the matter was presented to the State Highway Commission. Freeholder Reeves of Salem County explained to the Commission that the Salem County Board of Freeholders had before it the construction of the Elmer-Shirley road and the Hancock's Bridge-Salem Road and this particular Woodstown Road and it was unable to decide which road was the most important although it was proposed to delegate the Woodstown road to the last position. He asked that the State Highway Commission use its influence to urge upon the Salem County Board of Freeholders that the Woodstown Road be the first completed. Senator Borton advised that the County of Salem was very anxious to have the Woodstown road improved and would appreciate any assistance the State could give toward the improvement. Assistant State Highway Engineer Reed informed the Commission that the County of Salem was considering the construction of the three roads mentioned by Freeholder Reeves and that it was a matter up to the Board of Freeholders to decide as to their relative importance except for the fact that Motor Vehicle funds of the State will be used as part of the cost of the work. State Highway Engineer Sloan informed the Commission that as far as the work in Salem County was concerned, he felt that the Hancock's Bridge road was the most important and that the other two were in equal importance. He, however stated that the county proposed to use bituminous macadam on the Swedesboro road which should be changed to concrete pavement twenty feet in width, and it may be that the State Highway Commission could take up this matter with a view toward aiding the county in the concrete construction of the Woodstown road. Chairman Scott informed the delegation that the State Highway Commission could not entertain a consideration of this proposition until it was presented by the Salem County Board of Freeholders after proper resolutions had been adopted.

Township Aid,- Gloucester Co.

County Engineer Cattell informed the Commission that he was desirous of presenting a Township Aid proposition in Gloucester County, namely, that permission be granted for application to be made by the Townships of Woolwich, South Harrison, Elk and Franklin, to improve a continuous strip of road from Swedesboro to Franklinville over a number of years, from Township Aid funds to be allotted to Gloucester County. Commissioner Stewart expressed himself as being favorable to the ideas of the several townships endeavoring to secure an improved through thoroughfare. Commissioner Kidde recommended that the applications be made by the Townships and that an expression be obtained from Gloucester County Board of Freeholders as to their opinion of the proposition.

Route 15, Section 5.

The Secretary informed the Commission that Mr. Jelin reported the inspection and recommended acceptance of Route 15, Section 5, Millville-Menantico Creek section. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission adopted the recommendation of Commissioner Jelin and accepted the completed work on Route 15, Section 5, Millville-Menantico Creek Section and directed that final payment on the same be made.

Route 4, Luppatcong Creek Br.

The Secretary informed the Commission that Mr. Jelin, reported the inspection and recommend the acceptance of the Luppatcong Creek Bridge at M. P. 100.9 on Route 4 near Keyport. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the acceptance and final payment on the Luppatcong Creek Bridge on Route 4, at M. P. 100.9 near Keyport.

Right of Way, Route 16, Sec. 8.

Commissioner Stewart reported that in company with the Right of Way Engineer he had inspected the property of C. I. Covert on Route 16, Section 8, at Harlingen, which property was necessary in order that the contractor on the Harlingen Cutoff could proceed with his work. He recommended to the Commission that the sum of $12,260.00 be paid to Mr. Covert for property necessary, which amount would cover the cost of moving farm buildings upon new locations. This was seconded by Mr. Kidde and adopted.

Route 9, Main Street, Dunellen

State Highway Engineer Sloan reported that he had just received information to the eggect that there was a possibility in connection with the work through Dunellen, to arrange with the public Service

Railway Company whereby the excavation in the trolley track area would be performed by the Borough of Dunellen, the concrete base would be furnished by the State Highway Department and the granite blocks to be provided by the Public Service Railway Company, which would make a proposition in which there would be approximately a one-third share for each party. Commissioner Stewart expressed favor with the proposition and requested that the matter be given further study by the Engineering Department.

Invitation,-Advisory Board-
Camden.

The Secretary presented a communication from Mr. A. O. Frome, President of the North Camden Civic Club, inviting the State Highway Commission to inspect the proposed site of the Delaware River Bridge Approach at Camden, in order to visualize the affected part of North Camden. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that Mr. Frome be advised that it is the intention of the State Highway Commission to hold a public hearing in Camden which will be duly advertised, and at that time the State Highway Commission will be glad to make an inspection of the proposed Delaware River Approach in Camden.

Invitation, Flemington Fair

The Secretary presented a communication from the Flemington Fair Association inviting the State Highway Department to place a highway exhibit at the Flemington Fair the week beginning August 18th, and also inviting the State Highway Commission to be the guests of the management of the Fair on Big Thursday or any time they may fine it convenient. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission authorized a highway exhibit to be arranged at the Flemington Fair, and directed that the Secretary acknowledge the invitation with the advice that the Commission will endeavor to be present sometime during the week of the fair.

Request for Aid, Boroug
of Bernardsville.

The Secretary presented a communication from the Borough of Bernardsville again making request for aid in the repair of streets which they claim have been destroyed by traffic using them during the construction of Route 16. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the communication be acknowledged with the reply that the matter was given full consideration by the State Highway Commission at its last meeting and there is no reason for change in the decision not to grant aid on this work.

Gasoline Stations along State Highways.

The Secretary presented a communication from the Lorraine Chemical Corporation of Metuchen requesting permission to move two gasoline pumps along State Highway Route 4 between Perth Amboy and Woodbridge, closer to the State Highway traffic. State Highway Engineer Sloan informed the Commission that it was the purpose wherever possible to prevent automobiles stopping on State Highways in order to take on gasoline and supplies, and for this reason he would recommend that the application be denied. On motion by Mr. Stewart, seconded by Mr. Kidde the State Highway Commission directed that the application for the removal of gas pumps by the Lorraine Corporation be denied and it be stated that the State Highway Commission has taken a very definite stand in the matter of keeping gas pumps off the right of way of State Highways.

Maps, State Highway.

The Secretary presented a communication from Mr. Victor Gelineau, Director of the Bureau of Commerce & Navigation, complimenting the State Highway Commission upon the character of the State Highway map just issued and upon the work done by the State Highway Commission in general. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission ordered the communication acknowledged with thanks.

Route 4, Inland Waterway Br

Commissioner Kidde inquired as to what was the disposition of the request made upon the Board of Commerce & Navigation for the delay in the dredging at the location of the Inland Waterway Bridge at Point Pleasant, in order to permit the State Highway Contractor to remove certain machinery and equipment from the site of the dredging.

State Highway Engineer Sloan informed the Commission that although two weeks was granted at the time to the contractor in order to get the equipment and machinery from the bed of the canal, this work was accomplished within tendays and the dredging coan now proceed.

Lake Street Bridge, Metuchen

Commissioner Stewart took occasion at this time to inquire as to the progress being made toward the improvement of the Lake Street Railroad Crossing Bridge at Metuchen. State Highway Engineer Sloan informed the Commission that the work of replacing the bridge structure with a new bridge was now being advertised by the railroad officials and work on this should commence in the near future.

Right of Way -Route 1.

Chairman Scott inquired as to what disposition was being made of the condemnation proceedings for the acquisition of the Bowen property needed on the location of the present temporary Hackensack River Bridge. The Secretary informed Chairman Scott that this matter had been called to the attention of the Attorney General's Department and the same was placed as first in line and condemnation proceedings could be carried forward. Chairman Scott directed the Secretary to notify Mr. Bowen that this matter is to be given early attention by the Attorney General's Department.

Hackensack Bridge-
Route 1, Extension

Commissioner Kidde inquired as to the results of the hearing held by the State Board of Commerce & Navigation on the matter of the Hackensack River Bridge on Route 1. State Highway Engineer Sloan informed the Commission that Bridge Engineer Vogel had attended this hearing and he reported that it was the desire of the Board of Commerce & Navigation that the State Highway Commission consider the replacing of the Hackensack Bridge by a tunnel on the location of the Lincoln Highway. Commissioner Kidde requested that he be furnished with a copy of the proceedings in order that he might digest the same.

Maps, State Highway.

The Secretary called the attention of the Commission to the fact that the State Highway Maps are now being distributed from the office and he requested information as to whether it was the desire

June 24th, 1924.

to make order for the additional 100,000 on which there was a reduced quotation. He advised that up to the present time over 50,000 of these maps had been distributed. Commissioner Stewart suggested that the matter of additional order be held up at this time until further advice is received as to the demand for the same.

Hudson Co.-Motor Vehicle Funds

The Secretary presented to the Commission a communication from F. J. Radigan, County Engineer of Hudson County, advising that the Board of Freeholders of Hudson County desired that the State Highway Commission permit the County to use out of Motor Vehicle funds already allotted to the County not less than eighty percent of the contract price for the reconstruction of County Road, Hudson County. State Highway Engineer Sloan informed the Commission that the Motor Vehicle funds allotted to Hudson County show a balance standing to the credit of Tonnele Avenue and County Road in 1923 of $50,475.75 and in 1924 of $100,000.00 to County Road and $72,972.00 for Tonnele Avenue, and he recommended to the Commission that the County of Hudson be permitted to make use of its entire balance of 1923 amounting to $50,475.75 and its 1924 to County Road of $100,000.00 for the improvement of County Road, but that the 1924 allotment of $72,972.00 for Tonnele Avenue be held for Tonnele Avenue work. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the recommendation of the State Highway Engineer and granted permission to the County of Hudson for the transfer of funds of 1923 and 1924 Motor Vehicle Accounts in accordance with his recommendations.

Invitation, Vineland
Chamber of Commerce

The Secretary presented a communication from the Vineland Chamber of Commerce requesting the attendance of the State Highway Commission at a celebration of the opening of the Bridgeton-Vineland Road, to be held at Vineland on Wednesday, July 9th. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission ordered the communication acknowledged and the invitation was accepted on behalf of those Commissioners who could fine it convenient to attend.

Attorney General Opinion re
Advisory Board Projects

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission

June 24th, 1924.

recessed for luncheon at 1:00 P. M., to meet in regular session again at 2:30 P. M. The Commission reconvened at 2:30 as agreed with the same members present as at the morning session, and immediately went into executive session to consider an opinion received from the Attorney General concerning the powers and duties of the State Highway Commission in connection with the construction of approaches to the Hudson River Tunnel and the Delaware River Bridge. The meeting was resumed at 3:00 P. M., with no formal action being taken on this opinion, due to the absence of Commissioner Jelin.

Right of Way, Route 18.

Commissioner Kidde presented a communication received by him from Major W. A. Welsh, General Manager of the Palisades Park Commission on the matter of property along the top of the Palisades needed for right of way for State Highway Route 18, in which he advised that he was endeavoring to arrange for the acquisition of the Phelps Estate property and as soon as a decision is reached he will notify the State Highway Commission. Commissioner Kidde moved that the Chairman be authorized to communicate with Mr. Welsh and advise that the State Highway Commission appreciates the efforts of the Palisade Park Commissioners and is willing to cooperate in any way possible. This was seconded by Mr. Stewart and adopted.

Equipment,- Scales

State Highway Engineer Sloan reported to the Commission that bids had been received on June 12th for the furnishing and erection of six thirty-ton and one forty-ton motor truck scales as follows:

Howe Scale Co., of Philadelphia, total		$ 1[illegible].50
Standard Scale & Supply Corp. of Phila. total		20,414.00
E. A. Meyer Scales Co. Newark, N. J.	"	23,135.00
Fairbanks Company, New York City	"	23,540.00

He advised the Commission that the Howe Scale Company stood ready to comply with the plans and specifications as prepared and he recommended that award be made at their low bid.

The Secretary informed the Commission that representatives of the Standard Scale & Supply Co., and of the Fairbanks Co. were present and desired to make statements to the State Highway Commission. These representatives appeared and stated that they could not see how the State could receive a satisfactory scale at the price quoted by the lowest bidder. Commissioner Stewart questioned this statement and State Highway Engineer Sloan informed the Commission that it was the purpose to have first class inspection made of the work and materials furnished by the Howe Scales Company in order to insure compliance with the specifications as drawn. Commissioner Kidde informed the Commission that he had received assurance from reputable manufacturers of scales to the effect that the specifications as prepared would complete the very best type of scale that could be procured, and he moved that approval be given to the recommendations of the State Highway Engineer and award for the scales be made to the Howe Scale Company, at their low price. This was seconded by Mr. Stewart and adopted.

Gowdy's Creek Bridge, Atlantic County.

The Secretary presented a resolution received from the Atlantic County Board of Freeholders declaring it to be their intention to build a bridge over Gowdy's Creek when the road from Gowdy's Creek to the Shore Road is completed in the Township of Galloway. On motion by Mr. Kidde, seconded by Mr. Stewart the resolution was ordered received and placed on file.

Rt. 18, Hudson County -North

The Secretary presented a resolution from the Hudson County Board of Freeholders requesting the State Highway Commission to take over as part of State Highway Route 18, all that part of the road known as Bergen Turnpike or the Hackensack Plank road, within the County of Hudson, in accordance with Chapter 197, Laws of 1923. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the Board of Freeholders of Hudson County be notified that the State Highway Commission will take this matter up in due course when there is a possibility of considering the matter without prejudice, due to the fact that the Commission has so much important work on hand at present and on account of lack of funds it does not seem wise to take the matter up at this time.

Route 9, Detours.

The Secretary presented a communication from Mr. Howard Bird of Dunellen, calling attention to what he considered a better detour for Route 9, from Lincoln Avenue to Madison Avenue through Dunellen. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway

Commission directed that Mr. Bird be advised that the question for detour has received very careful consideration, and, in the judgment of the State Highway Commission, the route he suggests is dangerous due to existing grade crossings and is also unsuitable for other reasons.

Request for Hearing,
Harrison Twp. Gloucester Co.,

The Secretary presented a communication from John B. Avis, Attorney for the Township Committee of Harrison Township, also the Chamber of Mullica Hill, Gloucester County, expressing a desire to meet the State Highway Commission for the purpose of taking up with the Commission, the question of some improvements on the State Highway leading through Mullica Hill, which road is already improved. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that Mr. Avis be requested to present a brief to the State Highway Commission covering the matters desired for improvement, prior to a hearing date being set.

Route 4, Section 22.

State Highway Engineer Sloan reported the completion of Route 4, Section 22. Main Street, Asbury Park, and recommended the same for final inspection and acceptance by the Commission. On motion by Mr. Stewart, seconded by Mr. Kidde, this road was referred to chairman Scott for final inspection and recommendation.

Lighting, Highway.

State Highway Engineer Sloan presented to the Commission the request of Atlantic County Board of Freeholders for the lighting of the Pleasantville Boulevard in Atlantic County, which has been lighted by the County, prior its being taken over by the State, for a number of years past. The Commission inquired of the Secretary whether there was any precedent for the lighting of State Highway Routes and he informed the Commission that State Highway Rt. 1 or Lincoln Highway in Essex and Hudson Counties was lighted at the expense of the counties and with the exception of some bridges about the State there was no lighting done by the State Highway Commission. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the authorities of Atlantic County be advised that it is the rule of the State Highway Commission not to do any lighting of State Highways except at such points on bridges where it is particularly dangerous in not having light, and further there are instances in the State where State Highways are lighted by local authorities at their own expense, and under the circumstances relief is open to the Board if it desires to light this road from its own funds. This was seconded by Mr. Stewart and adopted.

Right of Way, Route 7, Sec. 2.

On recommendation of the State Highway Engineer, Commissioner Stewart moved the approval of purchase of Parcels 9-A1, A2, A3, A4, A5, A6, A7, A8, A9, from Allyn Hall Realty Company for the consideration of $1,275.00. This was seconded by Mr. Kidde and adopted.

On recommendation of the State Highway Engineer, Commissioner Kidde moved the approval of purchase of the following parcels of property on Route 7, Section 2, Golf Course-Anderson's Corner:

Parcel 13, John S. & Anna M. Hilman,	consideration	$106.80
Parcel 24, Warren A. & Ina M. Gibbs	"	58.54

This was seconded by Mr. Stewart and adopted.

State Highway Engineer Sloan presented to the Commission purchase agreements received from Right of Way Department for Parcel 1, from Cyrus L. and Anna E. Low, for the consideration of $1,250.00 and Parcel 18, from Birchard G. & Alma G. Jelliff for the consideration of $1,654.00 on Route 7, Section 2, Golf Course-Anderson's Corner. On motion by Mr. Kidde, seconded by Mr. Stewart, the purchase agreements were ordered referred to Commissioner Joslin for investigation and report.

Right of Way, Route 10.

State Highway Engineer Sloan recommended to the Commission the approval of purchase of Parcel 28 from Carrie L. Fuller on Route 10, Section 1B, Bluff Road, for the consideration of $1500.00. Commissioner Kidde stated that he would prefer that this matter be given a more recent appraisal since the last appraisal was in 1922, and he recommended to C. Alfred Burhorn of Hoboken, be employed for this appraisal. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that this matter be referred to Commissioner Kidde.

June 24th, 1924.

Route 18, Alignment - South.

State Highway Engineer Sloan presented to the Commission a proposed alignment for Route 18 South through Pleasantville, New Jersey, and he presented a sketch on which was indicated in red the proposed alignment of this work, and he recommended that the red line be adopted since it met with the approval of the Atlantic County Board of Freeholders and was just as satisfactory as any other line. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the line shown in red for the line of State Highway Route 18 through Pleasantville, as indicated on the sketch presented by the State Highway Engineer.

Advisory Board, Highway Research Council

State Highway Engineer Sloan presented to the Commission a communication from Mr. Charles M. Upham, Director of the Advisory Board of Highway Research Council, together with an organization chart of the Board with a request that a representative of the New Jersey Highway Department be delegated to serve as a member of such Advisory Board. State Highway Engineer Sloan recommended to the Commission that Mr. G. Roland Moore, Assistant Construction Engineer, be delegated as a member of this Advisory Board. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the appointment of G. Roland Moore as representative of the New Jersey State Highway Commission on the Advisory Board of Highway Research.

Advisory Board, - Camden

State Highway Engineer Sloan presented a communication from County Engineer Cattell, of Camden County, showing a change proposed in the alignment for the Crescent Boulevard in Westville, on the Camden Advisory Board recommendation, which will reduce the distance and save considerable money. State Highway Engineer Sloan stated to the Commission that the change proposed by Mr. Cattell was studied but was not given full consideration since it was the desire to take the traffic away from congestion now occuring at the junction of Broadway in Westville with the Crown Point Road and the Glassboro-Westville Pike. On motion by Mr. Kidde, seconded by Mr. Stewart, this matter was referred to the State Highway

Engineer for further study.

Employments

State Highway Engineer Sloan presented for the ratification of the State Highway Commission, the following list of employments as made by him since the last meeting of the Commission:

6-23-24	Fred L. Sprague,	Material Clerk,			$ 75.00
6-16-24	Wm. Darcy,	Office Boy,			40.00
6-17-24	Harry Ross, Jr.	Garage Assistant	(Hourly	basis)	.45
6-10-24	Jacob Miller,	Motor Tr. Driver	"	"	.45
6-17-24	Frank L. Hindle,	Gar. Assistant	"	"	.45
6-16-24	Ed. J. Lutz,	Motor Tr. Driver,	"	"	.45

Discontinued Employments

6-16-24	Jas. H. Curran,	Assistant Foreman,	Resigned
6-16-24	V. J. Loughran,	Bridgeman,	Died.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission ratified, confirmed and approved the employments as made since the last meeting.

Monmouth County-Township Aid

State Highway Engineer Sloan presented to the Commission the contracts as awarded by the Township Committee of Neptune Township, Monmouth County to the Clutter Contracting Company for the improvement of Bangs Avenue in that Township. He advised that this work was being let without advertising, under the authority of the law. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the authorities of Neptune Township be advised that the State Highway Commission does not look favorably upon award of contracts without advertising and request that the Township advertise this work and endeavor to receive several bids in order to creat competition in the work.

Warren County-Township Aid

On recommendation of the State Highway Engineer, Commissioner Kidde moved approval of the action of Frelinghuysen Township, Warren County, in rejecting one bid received for the Hope-Johnsonburg Road in that Township, because of the fact that this bid was considered too high. This was seconded by Mr. Stewart and adopted.

Hunterdon County,-Township Aid

State Highway Engineer Sloan presented to the Commission the contract awarded by Kingwood Township, Hunterdon County, for the construction of the Barbertown-Delaware Line Road, one bid having been received for the work. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the Kingwood Township authorities be notified that the State Highway Commission does not look favorably upon the award of contract without due competition, and requests that the Township Committee readvertise this work and endeavor to receive several bids in order to secure competitive prices.

Route 2, Section 5

State Highway Engineer Sloan reported to the Commission that in view of the fact that the work on Route 2, Section 5, Crosswicks Creek-Bordentown, has been completed by the Department of Institutions & Agencies, with the exception of minor maintenance items, he would recommend that the work be accepted in order that the Maintenance Department could be authorized to enter upon the work and do such finishing and cleaning up as was necessary, and the cost thereof be charged against the contractors. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the acceptance of Route 2, Section 5 from the Department of Institutions & Agencies and authorized the Maintenance Division to enter upon the work and do what finishing and cleaning up work was necessary, and that the cost thereof be charged against the Department of Institutions & Agencies in accordance with the recommendation of the State Highway Engineer. Commissioner Kidde requested that there be presented a report of the financial condition of this contract upon the completion of the work.

Hunterdon Co. Motor Vehicle Aid

On recommendation of the State Highway Engineer, Commissioner Stewart moved approval of award of contract by Hunterdon County to Sigafoos & Poore for the construction of the Flemington-Frenchtown Road, work to be done from Motor Vehicle Aid. This was seconded by Mr. Kidde and adopted.

Littleton-Parsippany Road, Morris County

On recommendation of the State Highway Engineer, Commissioner Kidde moved the rejection of plans and specifications for the Littleton-Parsippany Road, Morris County, due to lack of funds, in order that the County might proceed with this work from its own account.

Permits-Closing Highways

State Highway Engineer Sloan presented to the Commission a communication from the Borough of Hightstown, requesting permission to close State Highway Route 1, in the Borough from 8:30 P. M., to midnight on July 4th, for the purpose of holding a block dance, proper detour having been provided with the necessary detour officers by the Borough of Hightstown. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the request of the Borough of Hightstown for a block dance on Route 1 in that Borough.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission adjourned to meet in regular session upon the call of the Chairman.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - July 3, 1924.

A regular meeting of the State Highway Commission was held at the Robert Treat Hotel, Newark, N. J., on Thrusday, July 3, 1924. The meeting was called to order at 10:00 A. M., by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Percy H. Stewart,
Walter Kidde and Abraham Jelin.

Advisory Boards - General

The Secretary presented to the Commission an opinion which was received from the Attorney General, with reference to the approaches to the Hudson River Tunnel and the Delaware River Bridge. This opinion was read and the question of commencing the work on the extension of Route 1, Jersey City - Newark, and the work at Camden, was discussed. Among other things the question of additional forces to carry on the works was considered.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Engineer was authorized and directed to proceed at once to make a careful survey and detailed estimate of cost of the alternate route which was presented to the State Highway Commission at its meeting in Jersey City, on Friday, May 16, 1924, by the Mayor and Commissioners of Jersey City, together with similar data of such other routes as may seem practicable and desirable.

After further discussion and consideration, the Commission decided that the work on Route 1 Extension is of such magnitude that it will be necessary to employ additional forces.

State Highway Engineer Sloan reported to the Commission that he was prepared to proceed at once with the work, and recommended the employment of Mr. Fred Lavis, of New York City, as Assistant Engineer of Construction, at the rate of $6,000.00 per annum, Mr. Ronald N. Beck of Belleville, N. J., as Engineer of Surveys, at the rate of $5,000.00 per annum, and Mr. A. C. Fox, of Nutley, N. J., as Designing Engineer, at the rate of $5,000.00 per annum.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer and authorized the employment of Fred Lavis as Assistant Engineer of Construction, at the rate of $6,000.00 per annum, Mr. Ronald N. Beck as Engineer of Surveys, at the rate of $5,000.00 per annum, and Mr. A. C. Fox as Designing Engineer, at the rate of $5,000.00 per annum.

The work on the extension of Routes 2, 3 and 6 to the entrance to the Delaware River Bridge at Camden, was then fully dis- and on motion by Mr. Jelin, seconded by Mr. Stewart, the commission directed that the work be handled by the Southern Division forces, with such additions and reinforcements as may be necessary from time to time, and a public hearing was directed to be advertised as soon as possible on this subject.

State Highway Engineer Sloan reported to the Commission that the surveys on the Shore Relief Routes, at Morgan and Keyport, have progressed to a point where contracts can be let at an early date, and no further action by the Commission was needed at this time.

Condemnation-Right of Way,
Donnell Property-Route4.

The Secretary presented to the Commission a communication received from Hon. Wm. Newcorn, special counsel on the condemnation proceedings of the State of New Jersey, against the property of the W. J. Donnell Lumber Company, advising that the Condemnation Commissioners have filed a report in connection with their award of $105,000.00 for land value and damage on property of the W. J. Donnell Lumber Company, and he recommended that an immediate appeal be taken from the award, since, in his opinion, the award is excessive and is more than the land itself is worth, This communication also stated that the Condemnation Commissioners have requested that application be made to the court for compensation at the rate of $150.00 per day, and Mr. Newcorn inquired as to the views of the State Highway Commission in this connection. Commissioner Jelin stated that he agreed absolutely with the recommendation of Judge Newcorn, that the price filed by the Condemnation Commissioners is entirely too high and excessive, and he moved that an immediate appeal be taken from the award. This was seconded by both Commissioners Kidde and Stewart with a statement that award is entirely too high and excessive. Commissioner Stewart stated that as to the amount of compensation to be paid to the Condemnation Commissioners, $150.00 per day was certainly excessive, but the correct amount must be determined by the Court, and Commissioner Kidde suggested that the Secretary invite Attorney Newcorn to appear before the Commission at an early date and discuss the matters contained in his communication.

Maintenance Materials -
State Highway.

State Highway Engineer Sloan reported to the Commission that bids had been received on June 30th for Bituminous concrete, type FA-BC1, or Amiesite, and sheet asphalt. He recommended that awards as recommended by the Maintenance Division, be approved by the Commission which will involve the delivery of amiesite to the job, the same to be placed by the department forces, and in the case of hot materials,these will be purchased in place on the job, for the reason that on the prices quoted, it will be more economical to permit the hot material to be placed cheaper by the Maintenance Department.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award of the following maintenance material contracts as recommended by the State Highway Engineer,

TONS	TYPE	AWARD	CONTRACTOR	AMOUNT
4305	A	On job	Jersey Amiesite Co.	$ 46,000.00
2153	FA-BC-1	In place	Union Paving Company	
122	SA	" "	" " "	44,644.00
1423	FA-BC-1	" "	Standard Bitulithic Co.	
265	SA	" "	" " "	29,222.10
10	FA-BC-1	" "	Utility Construction "	220.00
			TOTAL- - - - - -	$120,086.10

Right of Way, Route 10, Bluff Road

The Secretary presented a communication received from Mr. A. C. Hart, representing the Elmside Holding Company, owners of property onRoute 10, Bluff Road section, asking for an extension of two weeks, and a communication from J. Noble Hayes requesting a further extension for Miss A. B. Williams on her property on Rt. 10, Bluff Road Section and also consideration of the Commission for a lesser amount than offered to Miss Williams by the State for her property. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved an extension of two weeks to the Elmside Holding Company for repurchasing of their property from the State in the Amount of $1500.00, said extension being granted due to the fact that this time is necessary for the closing of the proposition. As to the other property owners on this section, Commissioner Kidde stated that their time had expired on July 1st and no further extensions could be granted.

Route 5, Netcong-Hackettstown

State Highway Engineer Sloan reported to the Commission that during the past week he had made an inspection of the grading work on Route 5 between Netcong and Budd Lake and due to the very rainy season settlement on this work had reached a point where it would be entirely satisfactory to place a pavement thereon, and he recommended that authority be granted for the construction of pavement on Route 5, between Netcong and Budd Lake. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission authorized plans and specifications to be prepared and work advertised for the placing of a concrete pavement on Route 5 in accordance with the recommendation of the State Highway Engineer.

Route 4, Section 22

Chairman Scott reported to the Commission that in accordance with reference made at a previous meeting he had made inspection of the completed work on Route 4, Section 22 through Asbury Park and he had found the same in satisfactory condition and ready for acceptance. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the acceptance and final payment of Route 4, Section 22, Main Street, Asbury Park, after approval of the final papers by the State Highway Engineer.

Route 4, Amboy Bridge, Steel Painting.

State Highway Engineer Sloan submitted to the Commission for recommendation the question of additional coat of paint to be applied to the steel work of the Perth Amboy Bridge. He presented a communication from P. St. J. Wilson, Chief Engineer of the Bureau of Public Roads at Washington, in which he suggested that in case the shops are given permission to fabricate the structural steel for the Amboy Bridge a considerable time in advance of its erection, he would suggest an additional coat of red lead shop paint to be applied, same to be quoted at actual cost by the fabricators. Commissioner Kidde stated that in view of the fact that specifications were drawn for the adequate protection of the structural steel with three coats of paint, he could not see the necessity for the State spending an additional sum for a fourth coat of paint if this coat was for the benefit of permitting the fabricators to prepare the steel in advance of the time needed. He suggested that the fabricators might be willing to stand the entire cost of this work, in order to turn the steel out ahead of time, in view of the fact that it is the duty of the contractor to deliver the steel in proper condition and acceptable to the State Highway Commission. No definite action was taken on this matter at this time.

Route 4, Amboy Bridge Bronze Work

State Highway Engineer Sloan presented to the Commission a communication from Stillman, Delehanty, Ferris Company, contractors on Amboy Bridge, advising that they are ready to place the contract for bronze work for the bridge, and requesting information as to whether there is to be any change in the bronze work as originally contemplated in view of the fact that the bridge was designated as Victory Bridge by the Last Legislature. State Highway Engineer Sloan explained that the bronze work affected was for the lamp brackets, banner brackets, nameplates and span wire bolts, and he recommended that the contractor be instructed to proceed with the furnishing of the material as called for on the plans. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the recommendation of the State Highway Engineer as to bronze work on the Amboy Bridge.

Cumberland County,-Federal Aid

On recommendation of the State Highway Engineer, Commissioner Jelin moved the approval of award of contract by the Board of Freeholders of Cumberland County for the Bridgeton-Port Norris Road, Section 1, Cumberland County, Federal Aid having been granted on this work. This was seconded by Mr. Stewart and adopted.

July 3, 1924.

Cumberland County-Township Aid

On recommendation of the State Highway Engineer, Commissioner Kidde moved the return to Maurice River Township, Cumberland County, of the road from Route 15, Section 6, Leesburg Cut-Off to the Leesburg Station of the P. R. R. This was seconded by Mr. Jelin and adopted.

Flemington-Frenchtown Road,
Hunterdon County

Commissioner Jelin advised that he had received a telephone communication to the effect that in awarding the contract for the construction of the Flemington-Frenchtown Road in Hunterdon County, the authorities had overlooked the fact that the lowest bidder had not quoted on all of the items specified in the original contract which would appear to make the bids irregular. The Secretary informed the Commission that this contract had been approved by the State Highway Commission at its last meeting, there being no reference made to any such condition. Commissioner Kidde stated that in view of the facts presented, he would move that the State Highway Engineer be directed to make an investigation as to the conditions existing, and if there is any irregularity such as described, the contract be cancelled at once. This was seconded by Mr. Jelin and adopted.

Bergen County-Township Aid

On recommendation of the State Highway Engineer, Commissioner Kidde moved approval of award of contract for Crescent Avenue, Section 1, Franklin Township, Bergen County, Township Aid. This was seconded by Mr. Jelin and adopted.

The Schedule of Business was next taken up for consideration item by item as follows:

Route 5, Section 14.

State Highway Engineer Sloan reported to the Commission that he had approved plans and specifications and ordered advertisement for the construction of Route 5, Section 14, Morris Avenue, Springfield, in Union County. On motion by Mr. Kidde, seconded by Mr. Stewart, the action of the State Highway Engineer was ordered ratified, confirmed and approved.

July 3d, 1924.

Passaic River Bridge Repairs,
Route 1, Extension

State Highway Engineer Sloan reported that he had approved specifications and ordered advertisement for the repair of three timber fenders on the Passaic River Bridge on Route 1, Extension. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission ratified, confirmed and approved the action of the State Highway Engineer.

Right of Way, Rt. 7, Sec. 2.

On recommendation of the State Highway Engineer, Commissioner Kidde moved that the following offers be made for property required for the construction of Route 7, Section 2, Golf Course-Anderson's Corner and in the event of refusal to accept that condemnation proceedings be entered into:

Parcel	9-I,	Chas. A. Laframboiss, et als,	Amount Offered	$175.00
"	9-L,	Philip Kent, et als,	" "	200.00
"	9-AA.	Irene A. Amyot, et als,	" "	275.00
"	15,	Edwin L. Shafto,	" "	10.20
"	21,	Frank Cogovan,	" "	98.80
"	28,	Margaret & Gustave Anderson, et als		79.86
"	29,	" Anderson, et als		52.04

This was seconded by Mr. Stewart and adopted.

Right of Way, Rt. 7, Sec. 3.

On recommendation of the State Highway Engineer, Commissioner Kidde moved that the following offers be made for property required for the construction of Route 7, Section 3, Anderson's Corner-Colt's Neck Section and in the event of failure to accept that the property be acquired by condemnation:

Parcel	1,	Margaret Anderson,	Amount Offered,	$ 32.50
"	12,	Walter Fletcher,		103.80

This was seconded by Mr. Stewart and adopted.

Right of Way, Rt. 7, Sec. 2.

On recommendation of the State Highway Engineer, Commissioner Kidde moved the approval of the purchase of the following property on Route 7, Section 2, Golf Course-Anderson's Corner Section:

Parcel	9-C,	W. W. Stewart,	consideration	$ 140.00
"	9-M,	F. E. Clark	"	20.00
"	9-N,	Robert A. Lake,	"	140.00
"	9-R,	Gus D. Cloninger,	"	160.00
"	9-S-1, 9-S-3,	Malon S. Shaffer		120.00
"	9-W,	Arthur P. Pierce,	"	80.00
"	30,	Irene Tilton,	"	40.00

This was seconded by Mr. Stewart and adopted.

July 3d, 1924.

Right of Way, Route 7, Section 3.

On recommendation of the State Highway Engineer, Commissioner Kidde moved the approval of the purchase of the following parcels of property on Route 7, Section 3, Anderson's Corner-Colt's Neck Section:

Parcel	6, Warren L. Mason,	Consideration	$ 14.00
"	10 & 11, Warren L. Mason,	"	34.00
"	18, Thomas L. Remmel,	"	100.00
"	19, Michael Dorey,	"	18.00

This was seconded by Mr. Stewart and adopted.

State Highway Engineer Sloan presented to the Commission the purchase agreements for Parcels 32, 33, 35, 38, 39, 41 from N. J. Robbins, for $1,600.00 involving the moving of a building. Commissioner Stewart stated that in connection with the moving of buildings, appraisal should be given to the State by a responsible mover who is in the house moving business regularly, and he suggested that Mr. Mobus of Plainfield be requested to prepare an estimate for such work, and he, therefore, moved that the Robbins property on Route 7, Section 3 be referred to Commissioner Jelin for investigation with a request that he have Mr. Mobus of Plainfield prepare an estimate for the removing of the buildings. This was seconded by Mr. Kidde and adopted.

Right of Way, Rt. 7, Sec. 2.

State Highway Engineer Sloan presented to the Commission purchase agreements for the following property on Route 7, Section 2, Golf Course-Anderson's Corner:

Parcel	3, A. M. Tilton,	consideration	$ 700.00
"	9E, James P. Clyne,	"	200.00
"	11, Minnie A. Elmer,	"	337.80
"	12, Heirs of James H. Elmer,	"	632.00

On motion by Mr. Kidde, seconded by Mr. Stewart, these parcels were ordered referred to Commissioner Jelin, for investigation and report.

Right of Way, Route 4.

On recommendation of the State Highway Engineer, Commissioner Stewart moved that the condemnation petition for the acquisition of property of Theo. J. R. Brown on Route 4 at Manasquan River Bridge at M. P. 69.4, as authorized in May 1922, be amended in accordance with the map and description so as to save the construction of a retaining wall estimated to cost $3,000.00. This was seconded by Mr. Kidde and adopted.

Right of Way, Rt. 4, Sec. 24.

On recommendation of the State Highway Engineer, Commissioner Kidde moved the approval of the purchase of Parcel 1 on Route 4, Section 24, Toms River-Lakewood Section, from George W. & Nita Clawson for the consideration of $200.00. This was seconded by Mr. Stewart and adopted.

Right of Way, Route 8.

On recommendation of the State Highway Engineer, Commissioner Kidde moved the approval of purchase of Parcel 1A, on Route 8 at Bridge at M. P. 9.1 from Wm. B. & Loretta Ryerson, for the consideration of $1.00, the State to fill the approach to the Highway.

Right of Way, Rt. 7, Section 2.

State Highway Engineer Sloan presented to the Commission purchase agreements for Parcels 14 & 17 on Route 7, Section 2, Anderson's Corner-Golf Course Section, from Josephine E. & Seabrook H. Ackerman for the consideration of $4,500.00. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that this matter be referred to Commissioner Jelin for investigation and report.

Employments

On recommendation of the State Highway Engineer, Commissioner Stewart moved approval of the following list of employments as made by the State Highway Engineer, since the last meeting of the Commission.

6/23/24	Geo. B. Oliver,	Asst. Maint. Foreman	$ 125.00

6/6 /24	Samuel Fanver,	" " "	.40	"

Increase

7/1/24 Carl Blatt, Garage Assistant. from .45 to .50

This was seconded by Mr. Kidde and adopted.

Route 4, Morgan Grade Crossing Elimination

Commissioner Stewart reported that he had not yet been able to investigate fully the property matters referred to him in connection with property on Route 4 at the Morgan Grade Crossing Elimination, although he was of the opinion that prices asked by the owners were entirely too high. Commissioner Kidde therefore moved that an offer be made to the following property owners of one half the sum asked by them, which would be as follows, and in the event of refusal to accept, that condemnation proceedings be entered into to acquire the property:

Jersey Central Realty Co. Parcels 5A, 5B, 5C, 5D, 5E, 5F, 5G, for the consideration of $2,375.00, one half to be offered.

Jersey Central Realty Co., Parcel 7, for the consideration of $125.00 one-half to be offered.

Jersey Central Traction Co ~~Wessco Realty Company~~, Parcel 1, for the consideration of $1,083.60, one-half to be offered.

R. E. L. Morgan, Parcel 8, consideration asked; $1,940.00, offer one-half.

Rejection of Plans, West Long Branch-Interlaken Road.

On recommendation of the State Highway Engineer, Commissioner Kidde moved the rejection of plans and specifications for the West Long Branch-Interlaken Road, Section 1, in Monmouth County, due to lack of State Aid funds. This was seconded by Mr. Stewart and adopted.

Route 6, Sec. 13, Federal Aid

On recommendation of the State Highway Engineer, Commissioner Stewart moved the approval of project agreement for the construction of Route 6, Section 13, Bridgeton-Marlboro Road, known as Federal Aid Project 42A. This was seconded by Mr. Kidde and adopted.

Somerset County,-Township Aid.

On recommendation of the State Highway Engineer, Commissioner Stewart moved the acceptance and final payment on the Bolmer's Corner Blawenburg Road, Montgomery Township, Somerset County, Township Aid. This was seconded by Mr. Kidde and adopted.

Cumberland County-Township Aid

On recommendation of the State Highway Engineer, Commissioner Kidde moved the acceptance and final payment on the Delaware Way Road, Section 2 in Downe Township, Cumberland County, Township Aid. This was seconded by Mr. Stewart and adopted.

Request for Hearing, Westville

The Secretary presented a communication from Mayor A. E. Heel, of Westville, New Jersey, requesting a hearing for the citizens of Westville, in order that they might present plans for the Crescent Highway through Westville. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that Mayor Heel be informed that when the Commission holds a public hearing in Camden, a reasonable time will be given for a hearing from the Citizens of Westville.

Motor Vehicle Taxation

The Secretary presented a communication from Mr. Wm. H. Roberts, a member of the Special Legislative Commission, appointed by the last Legislature, to study Motor Vehicle Taxation and its relation to a gasoline tax, in which he requested certain statistics. There was also presented a report from the Chief Auditor & Accountant advising that from the reports furnished by the municipalities to the State, it is not possible to secure the information desired by Mr. Roberts in the manner in which it was requested. The Secretary requested that authority be granted for the Chief Auditor to confer with Mr. Roberts on this matter. On motion by Mr. Kidde, seconded by Mr. Stewart, the communication was ordered received and the Chief Auditor was authorized to take the matter up with Mr. Roberts to ascertain just what sort of information his committee desires to secure. Commissioner Kidde suggested that when such a conference was arranged with Mr. Roberts, he might be of assistance in the matter.

Maps, State Highway Road.

The Secretary reported to the Commission that disposition was being made of the first 100,000 maps at the rate of over 2000 per day and it would only be about ten days before these were entirely exhausted. He informed the Commission that requests for large numbers of maps have been coming in from individual parties and were not being filled in full, and he recommended that the Commission place an order for its option on 100,000 additional maps. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission authorized the purchase of an additional 100,000 State Highway Maps for public distribution.

Signs

The Secretary presented a communication from the Atlantic County Chamber of Commerce requesting the State Highway Department to place all its road signs at right angles with the road instead of parallel as it is now doing. On motion by Mr. Kidde, seconded by Mr. Stewart, the communication was ordered acknowledged and the Secretary was directed to advise the Atlantic County Chamber of Commerce that the system as at present laid out was given careful thought and it will take time to consider the proposal as made.

Route 9, through Dunellen

The Secretary presented a communication for the Public Service Railway Company advising that the Public Service Railway Company has given instructions to have the macadam between the car tracks on Route 9, through Dunellen, repaired and when this is done to oil the same. On motion by Mr. Kidde, seconded by Mr. Stewart, the communication was ordered received and placed on file.

July 3d, 1924.

Commendations.

The Secretary presented a communication from Mr. H. R. Fetteroll commending the State Highway Commission upon the manner in which the roads throughout the State are being planned and the way in which the detours are marked. On motion by Mr. Kidde, seconded by Mr. Stewart, the communication was ordered received and placed on file.

County Road, Hudson County

The Secretary presented a communication received from County Engineer Radigan of Hudson County, requesting authority for the County to advertise for a concrete base as well as a complete pavement on County Road, Hudson County with a view toward receiving greater competition upon the work than would be possible were the base and bituminous surface advertised at one time. State Highway Engineer Sloan recommended that the procedure be allowed, and on motion by Mr. Kidde, seconded by Mr. Stewart, the County of Hudson was permitted to advertise for the complete pavement and also for the base on County Road, Hudson County, entirely separate from the surface.

Invitation

The Secretary presented to the Commission an invitation extended by Michael Staub, one of the State contractors, inviting the State Highway Commission and its staff to a gathering at his home in Pitman, on July 11th at 7:30 P.M., as an expression of his appreciation for cooperation given him by the State Highway Department. On motion, duly seconded, the communication was ordered acknowledged with thanks and the invitation accepted on behalf of such Commissioners as could find it convenient to attend.

The Secretary called attention to the invitation extended by the Vineland Chamber of Commerce to the celebration on account of the opening of the road between Bridgeton and Vineland, on Wednesday, July 9th.

July 3d, 1924.

On motion by Mr. Kidde, seconded by Mr. Stewart, the meeting adjourned at 1:30 P. M., to meet again in regular session on Tuesday, July 15th, 1924, at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - July 15th, 1924.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, on Tuesday, July 15, 1924. The meeting was called to order at 10:30 A. M. by Chairman Scott.

Present: General H. L. Scott, Chairman, Messrs. Walter Kidde and Abraham Jelin.

Absent: Percy H. Stewart.

Minutes Approved

Commissioner Kidde reported having read the minutes of the meeting of May 23d and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Commissioner Kidde reported having read the minutes of the meeting of June 10th and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Route 4, Toms River

Mr. Mullin's report.

State Highway Engineer Sloan requested that Division Engineer Mullins be permitted to submit a report on Route 4 at Toms River which matter has been before the Commission for some time. Mr. Mullins appeared and presented a plan whereby a new alignment could be located at Toms River which would eliminate the necessity for the moving of expensive buildings and would not exceed in cost the proposed cut-off through Main Street, Toms River. State Highway Engineer Sloan advised that he was prepared to recommend that surveys be started upon the suggested new line, since this study had ascertained that the cost of the moving of the hotel and various buildings along Main Street would be very expensive. Commissioner Kidde then stated that the plan of skirting the town, as shown by a preliminary survey, seems to be a very good solution of the Toms River matter since the preliminary survey developed that there would be no encroachment on Huddy Park and the road would continue without making two crossings of the railroad and thus form a complete solution to the Toms River problem at a cost of less than what has been considered before, at the same time relieving the center of the Town of through travel, and he moved that State Highway Engineer Sloan be directed to start surveys at once to determine the exact cost of this new line and that the same be brought to the attention of local associations in Toms River. This was seconded by Mr. Jelin and adopted.

Rieglesville-Warren Glen Road, Warren County

State Highway Engineer Sloan advised the Commission that the Freeholders of Warren County were prepared to let a contract for the Rieglesville-Warren Glen Road, Warren County, for eighteen feet paved width and he recommended that the Commission consider an allotment to Warren County in order that this width may be changed to twenty feet. On motion by Mr. Kidde, duly seconded, Commissioner Jelin was authorized to make an inspection of this road before action is taken by the Commission.

Dinner at Vineland

The Secretary reported to the Commission that on July 9th a testimonial dinner was tendered the Highway Commission by the Chamber of Commerce of Vineland, New Jersey, as appreciation for the aid granted in the completion of the Carll's Corner Road between Bridgeton and Vineland. There were present at the dinner Chairman Scott and Commissioner Kidde. Chairman Scott stated that he was pleased to attend such dinners, due to the fact that they encouraged a more friendly relationship between the State Highway Commission and the local authorities.

Road to State Institutions

Chairman Scott also reported that on Monday, July 14th, together with Assistant State Highway Engineer Reed, he had attended a regular meeting of the State Board of Freeholders at Jamesburg, and at the same time made an inspection of the road to Jamesburg State Home for Boys, which was placed in repair by the Maintenance Department, and was very satisfactory.

Hunterdon County-Township Aid

The Secretary informed the Commission that a delegation was present from Kingwood Township, Hunterdon County, with reference to the award of contract for the construction of the Barbertown-Delaware

Line Road in that Township. Chairman Scott informed the Commission that this Township Committee had appeared last Tuesday and finding no Commission meeting in session asked him to listen to the arguments. He stated that it was shown that while there was but one bid, the work had been given proper advertisement and he was assured also by the State Highway Engineer and the Assistant State Highway Engineer that the prices received upon the one bid were reasonable and satisfactory. He also stated that the local delegation impressed upon him the necessity for immediate work on this road in order to permit the farmers to have the use of the road when the harvest season approached. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission accepted the report of the Engineering Department that the prices received by Kingwood Township were satisfactory, and approved the award of contract for the construction of the Barbertown-Delaware Line road in Hunterdon County. The Secretary communicated this information to the delegation present and the need for the hearing was, thereby, eliminated.

Route 14, Petersburg-Greenfield

[illegible]

The Secretary informed the Commission that Mr. A. B. Whelan of the firm of Ross & Whelan, contractors on Route 14, Petersburg-Greenfield Section, was present and desired a hearing at this time. On motion, duly seconded, a hearing was granted. Mr. Whelan appeared before the Commission and advised that in 1922 his company accepted a contract from the State for the grading and graveling of Route 14, Petersburg-Greenfield Section at a price of 61.8% of the Engineer's estimated units of cost. He advised the Commission that two days prior to his submitting the bid he had inquired from State Highway Engineer Wasser as to whether all of the quantities specified for fill would be used on the work and he was given an affirmative answer by Mr. Wasser. In substantiating this point a communication was presented by the State Highway Engineer from Mr. Wasser advising that such an understanding was had between Mr. Whelan and himself. Mr. Whelan informed the Commission that upon completion of the contract it was found that the fill in the contract had been reduced by practically one-quarter, which, in view of the percentage plan of bidding had forced him to take a loss upon a bridge in the line of the work. He asked that the Commission make payment to him of the cost of placing the remaining gravel fill upon this work in line with the understanding he had with Mr. Wasser. He stated also that he believed that in view of the fact that the contract was for the completion of a particular job and that the work had been fulfilled to the satisfaction of the Department, that he should be paid for all quantities included in the Engineer's estimated units of cost. State Highway Engineer Sloan informed the Commission that the situation as stated by Mr. Whelan was correct, but it would be impossible for the State to pay for any material not placed on the work although Mr. Whelan appeared to have an equity in the matter which might be adjusted on the basis of recompense for overhead plant and other expenses made necessary in preparing to do the entire work. Commissioner Jelin inquired as to the actual amount of the claim and Mr. Whelan stated that he would accept $8,000.00 on account of his claim. Commissioner Kidde stated that there were two points to be considered. First, that a bid was submitted upon definite items included in a definite contract, and Second, that apparently wrong information as to the total amount of the work was given to the contractor. He believed the contractor entitled to relief. After further discussion, Commissioner Jelin moved that the Commission consider that there is an equitable adjustment due to Ross & Whelan on Route 14, Petersburg-Greenfield Section, and that the State Highway Engineer and Mr. Whelan go over the entire matter and after arriving at a satisfactory adjustment, the same be presented to the State Highway Commission in a report at the next meeting, in order that the same might be approved and presented to the Attorney General for opinion as to the legality of payment by the State.

Old Bridge-Matawan Road, Middlesex County

The Secretary informed the Commission that a delegation from the Board of Freeholders of Middlesex County were present with the bids received for the Old Bridge-Matawan Road in Middlesex County. On motion, duly seconded, a hearing was granted. County Engineer Larson, together with freeholders Dey and Applegate appeared before the Commission and reported that six bids had been received for the construction of the Old Bridge-Matawan Road, the lowest bid being by Liddle & Pfieffer, of Perth Amboy, and they were prepared to recommend award of this contract to the lowest bidder since they believed this contractor to be a responsible one. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission accepted the recommendation of the Board of Freeholders of Middlesex County and approved the award of contract for the construction of the Old Bridge-Matawan Road in Middlesex County to Liddle & Pfieffer, of Perth Amboy at their's the lowest bid received, aid being granted by the State in the amount of $100,000 on the work. County Engineer Larson requested information as to whether the State Highway Commission would be willing to pay to Middlesex County its share of the cost in monthly installments in accordance with estimates to be submitted. This was consented to by the Commission without necessity of official action.

Flemington-Frenchtown Rd.
Hunterdon County

The Secretary informed the Commission that Sigafoos & Poore Inc., low bidders on the Flemington-Frenchtown Road in Hunterdon County, were present together with Judge Newcorn as their counsel on the matter of the award of contract to them. On motion, duly seconded, a hearing was granted. Judge Newcorn advised that he had been requested by the contractors to appear in their behalf before the Commission and explain that the irregularity claim in the bidding by his client on the Flemington-Frenchtown Road, was not such as would be material in the award since his client stood ready to make no charge for the amount of drainage as specified in the item on which no bid was submitted, due to error apparently on the part of the County Engineer's Office in transmitting to them a bid blank without these figures contained therein. Judge Newcorn also stated that it would work a hardship upon the contractor if the job was readvertised, since the contract figures would be available to the other bidders. Commissioner Jelin stated that the irregularity appeared to be very slight in this particular case, but it would not do for the State Highway Commission to open the door and establish a precedent whereby collusion could be practiced by the County authorities and bidders upon work, and for this reason he was not convinced that even though there was no material disadvantage to the other bidders and no loss to the county, that award should be made. Mr. A. D. Bullock of the Sigafoos & Poore Company explained to the Commission the manner in which the bid was made up and the impossibility for collusion existing in this instance. State Highway Engineer Sloan informed the Commission that he was satisfied that there was no collusion in the matter, but it was a mistake on the part of the authorities in preparing the bidding sheets. Commissioner Jelin stated that he had discussed this matter very thoroughly with Commissioner Stewart and it was his opinion also that as long as there was any question involved as to irregularity, no matter how small, that it would be establishing a bad precedent to approve such an award. On motion by Mr. Jelin, seconded by Mr. Kidde, the matter was ordered taken up for consideration by the Commission at a later time should Mr. Stewart arrive at the meeting.

Right of Way, Amboy Bridge

Judge Newcorn next took up with the Commission the matter of the condemnation of the W. J. Donnell Lumber Company property condemnation and the nature of handling the case before the condemnation jury. This was discussed in conference. Judge Newcorn also inquired as to whether the Commission had anything to say with regards to the request to be made by the Condemnation Commissioners for $150.00 per day for services rendered in the case. He also stated that this amount would, of course, be fixed by the Court, but that if there was a recommendation from the State Highway Commission, he would be in a position to confer on this matter with the Court. Commissioner Kidde suggested that the State Highway Commission declare itself in favor of $50.00 per day as a fair compensation to be allowed. This was also the opinion of Mr. Jelin and Chairman Scott.

July 15th, 1924.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting recessed for lunch at 1:30 P. M., to meet in regular session again at 2:30 P. M. The meeting reconvened again at 2:30 P. M., as agreed, with the same members present as at the morning session.

Invitation, Inland Waterway Commission.

The Secretary presented to the Commission an invitation extended to the State Highway Commission by the State Board of Commerce & Navigation to accompany that Board on an inspection trip of inland waterways on Saturday, July 19th, and Sunday, July 20th. On motion by Mr. Jelin, seconded by Mr. Kidde, the invitation was ordered received and acknowledged with thanks and the Secretary was directed to advise that those Commissioners who could see fit to attend, would do so.

Route 4, Bradley Beach

The Secretary presented to the Commission a communication from the Board of Commissioners of Bradley Beach requesting the State Highway Commission to assume control over Route 4 on Main Street, through Bradley Beach, and explaining that the local Board refused to relinquish control of this road in 1920 because of the manner in which the former State Highway Commission was functioning. State Highway Engineer Sloan informed the Commission that the condition of the road has been permitted to become out of repair to such an extent that he would recommend that the authorities of Bradley Beach be requested to place the same in proper condition before the State Highway Commission takes the same over. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer and authorized a communication to be forwarded to the Borough of Bradley Beach advising that the State Highway Commission will be glad to take over Main Street, Bradley Beach as soon as the same is placed in proper condition by the local authorities.

Routes 18 & 20 in Gloucester Co.

The Secretary presented a communication from the Board of Freeholders of Gloucester County transmitting a resolution granting the

State Highway Commission the privilege of taking sufficient material from county owned gravel pits along Routes 18and 20 in Gloucester Co. for the maintenance of these routes in Gloucester County without any cost to the State, during the year 1924. On motion by Mr. Jelin, seconded by Mr. Kidde, this communication and resolution were ordered received and acknowledged with the thanks of the State Highway Commission.

Detour Route 4, Lakewood-Toms River.

The Secretary presented a resolution from the Ocean County Board of Freeholders to the effect that it is the sense of that Board that the State Highway Commission is not properly maintaining the detour of Route 4 between Lakewood and Toms River, and requesting the State Highway Commission to immediately take such steps as are necessary to place said detour in good and proper condition. State Highway Engineer Sloan stated that he had received advice from the Maintenance Department to the effect that proper attention was being given to this detour and that the road is now in better condition than it was at the time it was taken over as a detour by the State. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the information contained in this report be transmitted to the Board of Freeholders of Ocean County.

Right of Way, Route 18.

The Secretary presented to the Commission a communication received by Chairman Scott from Major W. A. Welsh, General Manager of the Palisades Interstate Park, advising that he is doing everything possible to hurry the matter of right of way on Route 18, at the Phelps Estate. On motion, duly seconded, the communication was ordered received and placed on file.

Route 18, Section 1.

State Highway Engineer Sloan informed the Commission that he was prepared with plans and specifications for the advertisement of the paving of three-quarters of a mile on Route 18 at Alpine in Bergen County. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved plans and specifications for the paving of three-quarters of a mile of Route 18, Section 1, in Bergen County and authorized advertisement for the same to be placed.

Route 14, Seaville-Tuckahoe

State Highway Engineer Sloan informed the Commission that he was prepared with plans and specifications for the construction of Route 14, Seaville-Tuckahoe section and recommended authority to advertise. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved plans and specifications for Route 14, Seaville-Tuckahoe section and authorized advertisement for the same to be placed after approval by the State Highway Engineer.

Route 8, Mt. View Grade Crossing

State Highway Engineer Sloan informed the Commission that he was prepared to proceed with the advertisement for the approaches to the D. L. & W. Grade Crossing Elimination on Route 8 at Mt. View, and he recommended that advertisement for the same be authorized. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved plans and specifications for the approaches for the D. L. & W. R. R. Crossing Elimination on Route 8 at Mountain View and authorized advertisement for this work after approval by the State Highway Engineer.

Route 4, Morgan Grade Crossing

State Highway Engineer Sloan informed the Commission that plans and specifications for the approaches to the Morgan Grade Crossing Elimination on Route 4, were prepared and he recommended that authority for the advertisement of this work be granted, On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for the approaches to the Morgan Grade Crossing Elimination on Route 4, and authorized advertisement for the same to be placed after approval by the State Highway Engineer.

Advisory Board Morgan-Keyport Cut-off

State Highway Engineer Sloan informed the Commission that plans and specifications were being prepared for the grading of the line of the Advisory Board recommendation for the Morgan-Keyport Cut-off and recommended that advertisement be authorized. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the plans and specifications for the grading of the Morgan Cut-off and authorized advertisement for the same to be placed after approval by the State Highway Engineer.

Route 14, Egg Harbor-Mays Landing

Chairman Scott inquired of the Commission as to what disposition would be made of the Motor Vehicle funds being held for South Jersey improvement on account of the elimination of the construction of Rt. 14, from Mays Landing to Egg Harbor. He suggested that if possible portions of Routes 18 and 20 as recently taken over, be placed under construction with these funds. After discussion as to the best manner in which the work could be undertaken on Route 20, Commissioner Kidde moved that Motor Vehicle Reserve funds now being held, be authorized for use to the extent of $200,000.00 on the improvement of a section of road between Glassboro and Malaga and that advertisement for this work be placed as soon as plans and specifications are approved by the State Highway Engineer. This was seconded by Mr. Jelin and adopted.

Motor Vehicle Taxation

The Secretary presented a communication received from Mr. Harry Meixell, Secretary of a Special Commission appointed by the Legislature for the study of Motor Vehicle Taxation and stating that his Committee desired to have a meeting with the State Highway Commission and the State Highway Engineer in order to discuss some satisfactory matters in connection with their work. The Secretary informed the Commission that since the date of this latter Commissioner Kidde and Mr. Howell have conferred with Mr. Roberts, a member of this Special Commission, and a number of points were taken up which may be the same as desired by the Special Commission in a further meeting. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the communication be acknowledged with the advice that the State Highway Commission will be glad to meet with the Special Commission and give any information they have available and further that their attention be called to the fact that

Commissioner Kidde and Chief Auditor Howell have already conferred with Mr. Roberts and have given certain information which if necessary to be supplemented will be furnished upon request.

Salaries-comparison of.

The Secretary presented a communication received by Commissioner Kidde from the Director of the Board of Freeholders of Essex County advising that the Boards of Freeholders of Essex and Hudson Counties have granted increases to employees on the Lincoln Highway Bridges owned by the Counties, which makes the pay of the men now employed on bridges taken over by the State on Loncoln Highway on Route 1, much less than those of the county employees. He suggested that the Commission might desire to grant increases to its men commensurate with county rates. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the communication be acknowledged with the advice that the Commission is granting increases at the present time to men in these classifications and this may, in all likelihood, take care of the situation as outlined in the communication, although the rates of pay of the county are much higher than is the scale of rates paid by the State.

Proposed Routes

The Secretary presented a communication from J. Earl Jones of Columbia, New Jersey, requesting consideration for a road along the Delaware River in New Jersey which would connect Delaware N. J. with Port Jervis. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication was ordered acknowledged with thanks for the courtesy of the presentation.

Route 7, Jerseyville Grade Crossing

The Secretary presented a communication from C. A. McCormack, of New Brunswick, calling attention to the dangerous conditions existing on Route 7 near Jerseyville at the Railroad crossing and asking that the Commission take steps to cut down the embankment in order to eliminate this danger. State Highway Engineer Sloan informed the Commission that it was the purpose to consider the elimination of this crossing in the next year's program and that the fill which was removed at this time would have to be replaced. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication was ordered received and referred to State Highway Engineer Sloan for answer in line with this report to the Commission.

Employments, Route 1, Extension

The Secretary presented a communication from the Civil Service Commission requesting the Commission to send a representative to appear before the Civil Service Commission on Tuesday, July 22, at 11 A. M., to discuss in some detail the project and character of organization necessary for the work on Route 1 Extension through Jersey City. On motion by Mr. Kidde, duly seconded, the communication was ordered acknowledged with the advice that Commissioner Jelin and State Highway Engineer Sloan would attend the next meeting of the Civil Service Commission in order to discuss this matter.

A schedule of business was next presented by the State Highway Engineer with his recommendation and action was taken as follows:

Route 11, Section 9

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission ratified, confirmed and approved the approval given to plans and specifications and advertisement for Route 11, Section 9, Washington Avenue, Belleville.

Bridges, Route 16.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission received the report that the final inspection was made of Bridges at M. P. 25.7/16 and M. P. 23.8/16 and authorized the release of Maintenance Bonds which expired in each case on July 3, 1924.

Right of Way, Hackensack River Bridge

The Secretary read the report of the State Highway Engineer on the matter of James Bowen condemnation for property located on the easterly bank of the Hackensack River. He stated that the services of J. P. Day, Inc., of New York City could be secured by the State for the sum of $500.00. Commissioner Kidde suggested that Mr. Maier, Real Estate expert, of Newark, be asked as to what the cost of his services would be in connection with this case and that Mr. Jelin inquire of J. P. Day whether this work could not be undertaken for an amount of $300.00. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Secretary arrange for a conference with the Attorney General's Department on matters concerning right of way condemnations.

Route 7, Section 2,

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of sub-letting of the contract for bridge work on Route 7, Section 2, to Owen Melee of Long Branch, New Jersey, by J. M. Reuter, Inc., contractors for this work.

Route 5, Section 12

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the issuance of extra work order and supplemental agreement to Crilly & Cannon, contractors on Route 5, Section 12, Netcong-Canal Culvert Section, extending that contract to include the excavation, pavement, drainage and other features in order to eliminate the embankment of the Morris Canal at Ledgwood.

Route 9, Section 8-A, North Branch Bridge

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved acceptance of agreement with Henry M. T. and Bessie A. Beekman covering theeasement for a temporary bridge over the North Branch of the Raritan River at M. P. 29.6 on Route 9, Section 8A. This agreement also provides for the abandonment and release of the mill rights, and gives the State the right to permanently close the tail race, for the consideration of $5,500.00. In connection with this item State Highway Engineer Sloan reported that the acceptance of this agreement will make a net saving to the State of $6,500.00, due to the elimination of the construction of a bridge in the original contract.

Right of Way, Route 7, Section2.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the following offers for property on Route 7, Section 2, Golf Course-Anderson's Corner, and that condemnation proceedings be instituted in view of the fact that the owners can not be located:

Parcel	9-J,	J. B. Brinson,	amount offered	$ 35.00
"	9-P,	J. A. McPhelen et als	" "	60.00

Right of Way, Route 7, Section 2.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of the following property on Rt. 7, Section 2, Golf Course-Anderson's Corner:

Parcel	9-B,	J. T. Houston,	consideration	$200.00
"	9-F,	Wm. J. DeRome,	"	40.00
"	9-H,	D. T. D'Arcy Tansey,	"	52.00
"	9-Z,	H. S. Hooper,	"	80.00
"	9-U,	Claude H. Kratzer,	"	150.00

Right of Way, Route 5, Section 11

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the acceptance of purchase agreement on Route 5, Section 11, Parcel 5 from the Trustees of the Episcopal Fund and Diocesan property of the Diocese of Newark, for the consideration of $1.00, plus extension of lane and filling with soil of the existing turnpike as shown on the map.

Right of Way,Route 8.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance of a dedication of Parcel 18 on Route 8 at the Mountain View Grade Crossing Elimination, by the Board of Education of the Township of Wayne of Passaic County, for highway purposes.

Amboy Bridge

State Highway Engineer Sloan informed the Commission that after an inspection of several of the concrete footings which had been placed on the viaduct section of the Perth Amboy Bridge, it was found necessary to order the same removed and replaced, the work to be done at the expense of the State, due to the fact that it was found that the cement originally placed was very slow in setting up, with the result that when the footings were unwatered the corners sloughed down which made it necessary for their removal entirely and a change in plan in order to remedy the condition which would be by the placing of timber platforms. He advised that the cost involved would be $3,720.00 and the replacing of concrete. He presented a report from the Government

Engineer on this work and also from R. B. Gage as to tests made of the concrete. Commissioner Kidde questioned whether there was any provision in the contract whereby the contractor was to furnish the work complete in place. State Highway Engineer Sloan advised that the work done by the contractor in this case was done with the approval of the engineer and subject to the direction of the Engineer, and therefore, he could not be held responsible, On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of the State Highway Engineer for change in plan and work necessary for satisfactory footings at the Amboy Bridge.

Request for Aid

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of furnishing patching material in the amount of $125.00 to the Street Department of Rocky Hill, New Jersey, for the maintenance of its main street in view of the fact that considerable of the State's maintenance materials are hauled from the railroad station over this street.

Island Heights Bridge

The Secretary presented a letter received from A. L. Wardell, Assessor of the Township of Dover, in Ocean County, calling attention to the dangerous condition which existed on the bridge at Seaside Heights, as to the parking of cars on the bridge. State Highway Engineer Sloan advised that this condition existed due to the lack of authority on the part of the Commission to enforce its rules and regulations after the making, and that this dangerous condition also exists on the Manahawken bridge to Beach Haven. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that a communication be forwarded to Motor Vehicle Commissioner Dill with the request that he place special inspectors on the bridge for several Sundays in order to eliminate the dangerous parking of cars.

Route 4, Avon

A communication was submitted from John Thompson, Mayor of Avon, New Jersey, requesting that the State Highway Commission make the same improvement on each crossing of Route 4 as on Sylvania Avenue, and the State Highway Engineer recommended that negotiations be entered into on the basis of completing nine other intersections with granite block, the Borough of Avon to pay one-third, the trolley company one-third and the State to pay one-third of the cost of the same, the total estimate of cost to be $8,883.00. On motion by Mr. Kidde, seconded by Mr. Jelin the State Highway Commission approved the recommendation of the State Highway Engineer and directed that such a proposition be forwarded to Avon and to the trolly company.

Office Space, Jersey City

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the leasing of 2000 ft. of office space on the 9th floor of the Trust Company of New Jersey building in Jersey City at a price of $4,500. per annum including all service partitions as requested for a term of one year, said office space to be used in connection with the Jersey City Advisory Board Project for Route 1 Extension.

Office Space, Camden

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the leasing of 1462 sq. ft. of office space on the second floor at 8th & Market Streets in Camden, for a yearly rental of $1,500. including all service except current for electric light, said offices to be used for the work in connection with the Camden Advisory Board project for the extension of Routes 2, 3, and 6 to the entrance to the Delaware River Bridge.

Equipment

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of six Ford Touring cars and one Buick Sedan for the work on Route 1 Extension at Jersey City and on Route 2, 3, and 6 at Camden, all purchases to be made in accordance with the State Purchasing Agent's directions.

Employments

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway

July 15th, 1924.

Commission ratified the following employments as made by the State Highway Engineer since the last meeting of the Commission:

7/1 /24	Miller W. Frace,	Junior Inspector,	$ 125.00 mo.
7/1 /24	John McCullough,	" "	125.00
7/1 /24	C. J. Lahey,	Bridge Attendant,	90.00
7/1 /24	John T. Reddan,	Laboratory Assistant,	90.00
7/9 /24	Bernard Forer,	Laboratory "	90.00
7/7 /24	Chas. L. Blodgett,	Material Inspector	125.00
7/7 /24	Margaret E. Hickey,	Clerk Stenographer,	80.00
8/1 /24	H. H. Diefenderfer,	Testing Chemist, B.	195.00

6/30/24	John Hemsath,	Rodman,	"
6/24/24	E. T. McNiemey,	Res. Engineer,	"

Increases

State Highway Engineer Sloan presented to the Commission a compilation of increases which he would recommend to the State Highway Commission for approval, showing an increase to be granted to 259 of employees of the Department amounting to the sum of $3,741.32 per month or 4% of the total payroll for the year. Commissioner Kidde stated that he felt that the employees of the Department were a very loyal group of men and it is very difficult to keep men of high attainment in highway work unless sufficient encouragement is given them and he further stated that from his study of the increases granted they are fair and are not excessive, and he, therefore, moved the approval of the promotions as recommended by the State Highway Engineer and directed that a copy of this list be appended to the minutes of this meeting, said increases all being subject to the approval of the Civil Service Commission. This was seconded by Mr. Jelin and adopted.

On motion by Mr. Jelin, seconded by Mr. Kidde, the rate of Compensation for A. Lee Grover, Secretary, was increased from $400.00 to $450.00 per month.

On motion by Mr. Jelin, seconded by Mr. Kidde, the rate of compensation for E. E. Reed, Assistant State Highway Engineer was increased from $550.00 to $600.00 per month.

Atlantic County, Motor Vehicle Aid

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the award of contract by the Board of Freeholders of Atlantic County to the Union Paving Company of Philadelphia, for the construction of the Absecon Boulevard, with Motor Vehicle Aid work. It was noted that a saving of approximately $225,000 had been effected by the change in specification advocated by the Commissioners.

Monmouth County, Township Aid

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for Bangs Avenue, Neptune Township, Monmouth County, Township Aid.

Mercer County, Motor Vehicle Aid

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for Sullivan Way, Mercer County, Motor Vehicle Aid.

Essex County, Motor Vehicle Aid

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for Runnymede Road, between Bloomfield Avenue and Roseland Avenue in Caldwell, Essex County, Motor Vehicle Aid work.

Essex County, Motor Vehicle Aid

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for Prospect Avenue from Bloomfield Avenue to Northfield Road, Essex County Motor Vehicle Aid. In connection with this, Commissioner Kidde suggested that Assistant

July 15th, 1924.

State Highway Engineer Reed make a request that care be taken to see that the handling of through traffic is given proper attention.

Ocean County, Motor Vehicle Aid

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for the Lakewood-New Egypt Road, Section 2, Ocean County, Motor Vehicle Aid.

Morris County Repairs

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the award of contract by Morris County for its maintenance and repair materials and road equipment for 1924.

Bergen County-Motor Vehicle Aid

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the payment to Bergen County of its entire Motor Vehicle apportionment for 1924, work having been completed by the County. It was noted that Bergern County again headed the list for early completion of repairs.

Salem County, Motor Vehicle Aid

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the acceptance and final payment to Salem County of the Carll's Corner Road, first section, Motor Vehicle Aid, less a deduction of $18.24, as shown by core tests.

Sussex County-Township Aid

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the award of contract by Green Township, Sussex County for the Tranquility-Andover Road, township aid work.

Bridgeton-Port Norris Road

There was presented a communication from Mr. Shephard Campbell on the matter of alignment of the Bridgeton-Port Norris Road. There was also presented a report from Assistant State Highway Engineer Reed advising that this road was entirely in the 7% system, but the section in the vicinity of Newport has not yet been approved for Federal Aid by the State Highway Commission, and the question of alignment would have to be taken up with the Engineer of the Bureau of Public Roads. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that a reply in accordance with his report be forwarded to Mr. Campbell.

Bergen County-Township Aid

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved award of contract on Clinton Avenue, Franklin Township, Bergen County, Township Aid.

Hunterdon County-Township Aid

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the award of contract for Three Bridge Road, Reddington Township, Hunterdon County, Township Aid, the State's share on these contracts being $4,200.00.

Inmate Labor

The State Highway Engineer presented to the Commission a final statement showing the cost of completed work performed by the Department of Institutions and Agencies during the past year. This report was as follows:

FINANCIAL STATEMENT

Construction by Department of Institutions & Agencies

Route #2, Section #5, Bordentown

Value of work as per contract	$211,484.87
Less work to be completed by Maintenance Division	574.58
	$210,910.29
Expenditures and Commitments on above	$240,661.53
Amount due State Highway Commission.	$ 29,751.24

Route 15, Sec. 6, Leesburg Cut-off

Value of work as per contract	$ 59,385.40
Expenditure and Commitments on above	55,567.73
Amount due Department of Institutions & Agencies	$ 3,817.67

Belle Plain Road, Leesburg - Dorchester

Value of work as per agreement	$ 3,880.50
Expenditure and Commitments on above	2,182.00
Amount due Department of Instituritions & Agencies	$ 1,698.50

Recapitulation

Amount due State Highway Commission - Route 2, Sec. 5		$ 29,751.24
Amount due Dept. of Inst. & Agencies Rt.15,Sec.6,	$3,817.67	
" " " " " " " Belle Plain Road	1,698.50	
		5,516.17
Amount to be deducted at rate of $4,000.00 per month from value allowed Department of Institutions & Agencies for construction of Route 4, Sections 23 and 24.		$ 24,235.07

Commissioner Kidde brought our the fact that while there appeared to be a loss to the Department of Institutions & Agencies of $24.235.07, this included the rental of the equipment furnished them by the State Highway Department at a specified rate per day which, if they kept in possession of their own equipment would have cost less [illegible]. The Commissioners questioned the need of charging the rates as included in the accounting. State Highway Engineer Sloan informed the Commission that the Department of Institutions & Agencies was doing satisfactory work on the Toms River-Lakewood section at Toms River which it is now undertaking. On motion by Mr. Kidde, seconded by Mr. Jelin, the report was ordered received and placed on file.

Route 11, Sections 1 and 2.

State Highway Engineer Sloan presented to the Commission a report as to the final cost of completing Route 11, Sections 1 and 2, Main Street, Clifton, on which the State had contracted to lay sheet asphalt surface for $1.75 per yard. From this report it was estimated that the cost by the State for this work would be $1.75 per square yard allowing for a reasonable charge for the hiring of equipment from the Department and in spite of the fact that a much larger quantity of material was placed than called for, due to [illegible] thickness. Commissioner Kidde, therefore, stated that if he received a favorable report from the State Highway Engineer as to the cost of doing the work on Main Street, Clifton, showing that the State had come within the figure even though there was a considerable increase in the thickness of the pavement due to the [illegible] being low, he moved that the County of Passaic be billed for the work done at the contract price stipulated by the State Highway Commission. This was seconded by Mr. Jelin and carried.

Route 1, George St.,
New Brunswick

State Highway Engineer Sloan called attention to the fact that the City authorities of New Brunswick have not yet advertised for the improvement of George Street, and he recommended that notification be furnished to the City to advertise at once. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the City of New Brunswick be advised that in view of the delay in connection with the starting of work on George Street and the grear need of funds for projects of a similar nature throughout the the State, it will be necessary for them to undertake this work and advertise before the 15th day of August of this year in order to hold the funds as allotted for this work.

Township Aid General

State Highway Engineer Sloan presented the applications for Township Aid from the 1924-25 account as received in the office to date, showing a total request of $1,270,881.98 with an amount available of $25,000.00 in each county or a total of $525,000.00. On motion by Mr. Jelin, seconded by Mr. Kidde, a copy of this report was ordered placed in the hands of each Commissioner for investigation and study.

Detour Route 2, Section 6.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission adopted the following detour for Route 2, Section 6, Burlington-Bridgeboro Section.

"Beginning at the intersection of Route 2 and the River Road, at the Odd Fellow's Cemetery in Burlington, and extending thence in a westerly and southerly direction over the River Road through Edgewater, Beverley and Delanco to Riverside; thence in a southeasterly direction to Route 2 at Bridgeboro."

Detour, Route 11, Section 9.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission adopted the following official detour for Route 11, Section 9, Washington Avenue, Belleville, while the same is under construction:

"Beginning on Route 11 in the Town of Belleville where the same is intersected by Joralemon St., and runs thence (1) westerly to Joralemon St., to Union A enue; thence (2) northerly on Union Ave. to Center St., thence (3) easterly on Center St. to Route 11."

Detour, Route 5, Section 14.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission adopted the following official detour for Route 5, Section 14, Morris Avenue, Springfield while the same is under con-

July 15th, 1924.

struction:

"Beginning at the intersection of Mountain Avenue and Flemer St. in Springfield and runs thence (1) over Mountain Avenue to Calor St.; thence (2) over Calor Street to Morris Avenue; thence (3) over Morris Ave. (Route 5) to Millburn Avenue; thence (4) over Millburn Ave. to Springfield Avenue; thence (5) over Springfield Ave. and Seven Bridges Road to Maple Avenue: thence (6) over Maple Ave. to Rt. 5."

Flemington-Frenchtown Road

The Secretary called attention to the fact that no decision was rendered by the Commission at the morning session on the matter of the Flemington-Frenchtown Road contract in Hunterdon County. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the contracts be returned to Hunterdon County with the request that this work be re-advertised.

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission meeting adjourned at 5:30 P. M., to meet in regular session on Tuesday, July 22nd, at 10:30 A. M.

Chairman Scott informed the Commission that he proposed to be absent on a tour through the West and would be gone from six to eight weeks.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - July 22, 1924.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, N. J., on Tuesday, July 22, 1924.

Present:- Messrs. Walter Kidde, Percey H. Stewart and Abraham Jelin.

Absent:- Gen. H. L. Scott, Chairman, on trip to the West.

Commissioner Kidde moved the election of Commissioner Jelin as Chairman pro tem until the next meeting of the State Highway Commission. This was seconded by Mr. Stewart and adopted.

The meeting was called to order by Chairman Jelin at 10:30 A.M.

Two Bridges Bridge
Morris & Essex Co.

The Secretary informed the Commission that a hearing was requested by representatives of the Counties of Essex and Morris and that they were present at this time. On motion, duly seconded a hearing was granted. There appeared Director Ernest Reed of the Board of Freeholders of Essex County with County Engineer Stickel and County Engineer Hopkins of Morris County together with the Chairman of the Bridge Committee of Morris County. Mr. Reed informed the Commission that the counties of Essex and Morris proposed to reconstruct a bridge crossing the Passaic River at Two Bridges. He advised that the Passaic River was the county line and it was necessary for the counties to act jointly in the construction of this bridge. He advised that the traffic over this bridge would be very heavy when the same was reconstructed. County Engineer Stickel advised that the estimate of cost for the structure would be $85,000.00 and aid from the State to the extent of 20% of the cost was requested. On motion by Mr. Stewart, seconded by Mr. Kidde the State Highway Commission directed that Commissioner Kidde make an inspection of the project togehter with the State Highway Engineer and make a report at the next meeting.

Prospect Ave. Essex Co.

Commissioner Kidde inquired concerning the advertisement for Prospect Avenue in Essex County and was advised by Mr. Stickel that advertisement was being held up due to legal matters which must be straightened out in order that the county may proceed with the improvement. He advised, however, that this would not tie the advertisment up for any length of time.

Monmouth County Reimbursement

The Secretary informed the Commission that Senator Stevens and County Engineer Allen of Monmouth County were present and desired a hearing. On motion, duly seconded, a hearing was granted. Senator Stevens informed the Commission that he desired to present the matter of reimbursement due to Monmouth County on account of work done on State Highways in Monmouth County under the reimbursement act. He stated that the County desired to retire bonds issued to the extent of $200,000.00 on August 1st, 1924, and asked whether this amount which was due out of the 1924 funds would be on hand for the county. Chairman Jelin informed Senator Stevens that the reimbursement funds as pledged for 1924, were ready, and upon proper audit and approval by the State Highway Engineer, reimbursement would be made to the extent of $200,000.00. Senator Stevens stated that he would take up the matter of interest on these bonds at a later date when the balance of the reimbursement account was presented next year. The Secretary informed Senator Stevens that under an opinion of the Attorney General the State Highway Commission is not liable for interest upon reimbursement moneys on which formal action was given by the State Highway Commission prior to the adoption of the legislation.

Freehold-Smithburg Road;
State Aid-Monmouth Co.

Senator Stevens also took up with the Commission the request as previously made by Monmoutn County for the balance of State Aid which had reverted to the Cancellation Fund from savings on Monmouth County State Aid work, which amount was $3,632.28. He asked that the Commission apply this amount to the credit of the Freehold-Smithburg Road, which was now under construction by the County. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the apportionment of $3,632.28 to the credit of the Freehold-Smithburg Road in Monmouth County.

Old Bridge-Matawan Road, Mon. Co.

Commissioner Jelin inquired as to what progress was being made on the advertisement on the Old Bridge Road in Monmouth County which connects with the Old Bridge-Matawan Road in Middlesex County and was informed that bids would be received by Monmoutnh County on

August 20th.

Reckless Place, Red Bank.

County Engineer Allen, representing the Borough of Red Bank, presented to the Commission the bids received for sheet asphalt on concrete base on Reckless Place in Red Bank. He advised that the lowest bid was in excess of the estimate, but, due to the fact that the job was only 900 ft. in length and the fact that it was too small for a contractor to bring in an asphalt plant he was prepared to recommend that this low bid be approved by the Commission. Chairman Jelin pointed out that $2.60 was the price of the low bidder for sheet asphalt pavement which, in his opinion, was not justifiable. Commissioner Kidde also stated that this price was not a satisfactory one for approval by the State and that the matter should be given consideration before approval. He moved that the matter be held over for later consideration. This was seconded and adopted.

Increases

Chairman Jelin informed the Commission that he had an appointment together with the State Highway Engineer, with the Civil Service Commission to discuss the appointments as made on the Jersey City project and the matter of increases granted to State Highway employees. State Highway Engineer Sloan informed the Commission that in the original list submitted there were two names omitted and he recommended that salary increase be granted to J. Tl Edwards, Maintenance Supervisor from $265.00 to $285.00 per month and to V. J. Loughran from $200.00 to $210.00 per month. On motion by Mr. Kidde, seconded by Mr. Stewart, these recommendations were approved as addenda to the list already forwarded to the Civil Service Commission.

On motion by Mr. Kidde, seconded by Mr. Stewart, the meeting was recessed at 11:30 A. M. in order that Chairman Jelin might attend the conference, and the meeting reconvened at 2:30 P. M., with the same members present as at the morning session.

Chairman Jelin informed the Commission that he, together with Major Sloan, had conferred with the Civil Service Commission and had presented the salary schedule as adopted by the Commission for the ensuing year. He informed the Commission that the Civil Service

Commissioner, after some discussion, adopted, with slight modifications, the entire schedule as submitted. They further recommended that the rate of the Assistant State Highway Engineer be the same as that of the Engineer of Construction, that is $6,900.00 per year and that the rate of the Secretary be made $5,280.00. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the recommendations as made by the Civil Service Commission for the employees of the State Highway Department be approved and taken as the action of the State Highway Commission superseding the action taken by the State Highway Commission at the last meeting. This action furthermore provided that the salaries of Assistant State Highway Engineer Reed beplaced at the rate of $6,900.00 per year, C. W. Bedwell, Construction Engineer similarly at the rate of $6,900.00 per year, and A. Lee Grover, Secretary, at $5,280.00 per year. Such other changes in grade as were recommended and are necessary in order to comply with the law were likewise ordered.

Reckless Place, Red Bank.

Chairman Jelin inquired whether any action would be taken at this time on the Red Bank request for approval of contract for Reckless Place. State Highway Engineer Sloan advised that there was doubt in his mind as to whether any lower bid could be secured upon re-advertisement with the same specifications, and he recommended that some arrangements be made whereby a separate price could be secured upon the base. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that award of contract by the Borough of Red Bank for Reckless Place be not approved and that the Borough be directed to make up a re-advertisement for this work in such a nature that the sheet asphalt surface may be laid as a separate contract.

Right of Way, Amboy Bridge.

The Secretary presented a communication from Judge Newcorn, Special Attorney on the Amboy Bridge property advising that Justice Kalisch had fixed the rate of compensation for the condemnation Commissioners on the Donnell property at $75.00 per day, making a total of $900.00 for each of the Commissioners instead of $1,800.00 as requested by the condemnation Commissioners before the court. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the communication be received and placed on file and that bills in the amount ordered be approved for payment.

Attorney General, Communication.

The Secretary presented a communication from the Attorney General advising that due to his vacation, he cannot take up with the Commission the right of way matters as suggested at the last meeting and he advised that he will take the matter up as speedily as possible upon his return. On motion, duly seconded, the communication was ordered received and placed on file.

Route 9, Detours.

The Secretary presented a communication from the North Plainfield Township Committee requesting aid on the Green Brood Road in North Plainfield Township, due to the fact that this road was used in preference to a detour established during the construction of a portion of Route 9. On motion by Mr. Kidde, seconded by Mr. Stewart the State Highway Commission directed that they be advised that the detour as outlined for this section of Route 9 was maintained in proper condition by the State Highway Department and the Commission cannot be held responsible for any other routes or bridges not under its jurisdiction.

Hackensack River Bridge, Route 1.

The Secretary presented a communication from the office of the Secretary of War advising that a hearing will be held on August 20th, 1924, for the purpose of discussing the conditions existing on the Hackensack River and the question of the rebuilding of bridges over the Hackensack River. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Engineer was directed to prepare a brief outlining the situation from the viewpoint of the State Highway Department which could be presented at the hearing before the War Department on August 20th, and have same in shape so that it may be studied by the members of the State Highway Commission prior to that date.

War Department Hearing.

The Secretary presented a communication from W. G. Briggs, official Court Reporter of the United States District Engineer's office, advising that he will prepare copies of the hearing and furnish same for a cost of 37½¢ per sheet for one copy, the hearing estimated to last three days. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that one copy of these proceedings be secured by the Department.

Request for Aid, Stockton-Flemington Road.

The Secretary presented a communication from Delaware Township requesting audience with the State Highway Commission on July 29th in the interest of an application filed for Township Aid on the Stockton-Flemington Road. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the communication be referred to Assistant State Highway Engineer Reed and that Delaware Township be notified that the Commission will be glad to have Mr. Reed go over the project and make a report and that their audience be deferred until after such report is prepared.

Advisory Board, Photos.

Commissioner Kidde suggested that the State Highway Engineer ascertain for the State Highway Commission the availability of procuring aeroplane views of the Advisory Board projects in Jersey City and Camden, and he moved that the State Highway Engineer arrange to procure such photographs. This was seconded and adopted.

Right of Way, Route 7, Sec. 2.

Commissioner Jelin reported that since the last meeting he had made an inspection of a number of the properties on Route 7, Section 2, Golf Course-Anderson's Corner and he would recommend approval of the following parcels:-

Par.	13,	from	[illegible]. S. Jelliff and A. G. Jelliff	for	$ 1,654.00
"	12,	"	heirs of James H. Elmer,	"	632.00
"	1,	"	Cyrus L. and Anna E. Low,	"	1,250.00
"	11,	"	Minnie A. Elmer	"	337.50
"	3,	"	Alma P. Tilton,	"	700.00

On motion by Mr. Stewart, seconded by Mr. Kidde, the recommendation of Commissioner Jelin was ordered received and the purchase of affected property was approved.

Commissioner Jelin advised that in connection with the property viewed on Route 7, Section 2, there was presented to him the agreement for Parcels 14 and 17 from Josephine E. and Seabrook H. Ackerman, with the information that they would accept $4,500.00. He informed the Commission that there was a building in the line which must be moved and that this building was in such a dilapidated condition that it would be hazardous to move the same unless there was some provision made for rebuilding the entire structure. He also advised that the tenants are very old and are not willing to have a new structure built for sentimental reasons and he would recommend that an offer be made of $3,000.00 for this property and land and in the event of its not being accepted that the property be condemned. Commissioner Stewart moved the adoption of his recommendation which was seconded by Mr. Kidde and adopted.

State Highway Engineer Sloan next presented a schedule of business together with his recommendations on all of the items as follows:

Passaic River Bridge, Route 1.

The following bids were presented on repairs to three timber fenders on the Passaic River Bridge on Route 1, Lincoln Highway Section.

Allen N. Sponner & Son, New York	$ 12,220.00
General Cont. & Eng. Co. " "	13,809.00
Geo. W. Rogers Cont. Co. " "	14,000.00
Frederick Snare Corp. " "	14,200.00
Stillman, Dehehanty, Ferr Co.	16,933.00
Linde-Griffith Co. Newark	19,500.00

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:-

> RESOLVED, that the State Highway Commission does hereby make award of contract for the placing of three timber fenders on the Passaic River Bridge on Route 1, to Allen N. Spooner of New York, at the lowest bid received in the amount of $12,220, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 5, Section 14.

There were presented the following bids received on July 21st for the construction of Route 5, Section 14, Morris Avenue, Springfield:

Ralph Sangiovanni, Newark	$49,085.35
J. F. Chapman & Son, Hillside	53,732.30
C. H. Winans Co., Elizabeth	55,454.80
Weldon Cont. Co., Westfield	60,149.85
Graham VanKeuren, Jersey City	60,768.40

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission unanimously adopted the following resolution:-

July 22, 1924.

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 5, Section 14, Morris Avenue Springfield, to Ralph Sangiovanni of Newark, N. J., at his the lowest bid received in the amount of $49,088.35, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Right of Way, Route 7, Section 2.

On motin by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following property on Route 7, Section 2, Golf Course-Anderson's Corner section:

Parcel 9-O from Fred Quass for the consideration of $ 160.00
Parcel 9-V from David R. Cameron, " 175.00

Right of Way, Route 5, Sec. 12.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the revised purchase agreement for parcel 8 on Route 5, Section 12, Netcong-Canal Culvert Section from Paul and Annie Romano for the consideration of $1,500.00, this agreement replacing one approved heretofor in the sum of $[illegible].00 due to revision of plans.

Right of Way, Route 8.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property on Route 8 at the Mountain View Grade Crossing Elimination:

Par.	19,	Julia Mulhall,	consideration	$ 350.00
"	20,	Richard Huck,	"	100.00
"	21,	Jas. H. Van Duyne,	"	1600.00
"	18,	Wm. G. & Hazel J. Hurt,	"	50.00

Right of Way, Route 6, Section 13.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcel 5 on Route 6, section 13, from Samuel V. and Anna C. Davis for the consideration of $4,500.00.

Legislation.

Commissioner Kidde informed the Commission that he believed some measure should be taken in the next session of the Legislature whereby the State could claim that there were benefits accruing to properties where new highways are opened throughout the State.

Route 7, Section 2, Right of Way.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the condemnation of the following properties on Route 7, Section 2, Golf Course-Anderson's Corner in view of the fact that no replies have been received to offers made by registered mail under date of June 20, 1924.

Par. 9-D,	Emil Carlson, et als,	amount	offered	$ 80.00
" 9-K,	J. A. Quimet, et als,	"	"	30.00
" 9-X,	Jos. St. Amand, et als,	"	"	350.00
" 9-Y,	Arthur Daniel, et als,	"	"	5.00

Route 4, Morgan Grade Crossing. Right of Way.

Commissioner Jelin reported that owners of property by the name of Whitehead along the line of Route 4 at Morgan, had erected a building on the road even though surveyor's stakes were placed for the line of the highway and stated that this owner would probably seek damages for the property erected. The Secretary informed the Commission that where a highway has already been laid out, any buildings that are erected by adjacent owners are erected with full knowledge of the existing conditions.

Right of Way, Route 8.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the sum of $1,800.00 be offered to Joseph Rigets for Parcel 7, on Route 8 at the Mountain View Grade Crossing Elimination and in the event same is rejected that condemnation be instituted.

Ocean City Bridge Bulkheads.

State Highway Engineer Sloan reported that the Atlantic City & Shore Railroad which has tracks adjacent to the embankment on the Ocean City Bridge Road, is desirous of replacing 850 feet of its trestle with a sand fill, whcih will extend over to the embankments carrying the Highway. He advised that at the present time the State finds it necessary to maintain a timber bulkhead along the foot of its fill to protect the embankments from washing out and the bulkhead is in line for immediate reconstruction at an estimated cost of $9,677.00. He advised that the railroad company would be willing to permit the construction of the bulkhead outside of their fill at the time their company places its fill in the place of the existing trestle and estimates the cost of the bulkhead to be $7,125.00. He recommended to the Commission that an offer of $7,125.00 be made to the Railroad Company on account of which they are to construct and maintain the

July 22, 1924.

bulkhead and sand fill in the future. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that an agreement be made with the Railroad Company as recommended by the State Highway Engineer, work to be done to the satisfaction of the State Highway Department and pavement to be made when same is accomplished with the understanding that the future maintenance of the bulkhead and fill will be assumed by the Railroad Company without expense to the State.

North Branch Bridge
Route 9, Sec. 8, Sub-letting.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the sub-letting of the following work on the North Branch Bridge, Route 9. Section :

Steel work to the Bethlehem Steel Company; pile driving to Anderson & Wheeler.

Route 9, Federal Aid

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the project agreement as prepared for the Bridge and approaches over the North Branch of the Raritan River on Route 9 known as Federal Aid Project 34, Section "C".

Township Aid Transfer,
Monmouth County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the transfer of $3,000.00 from the Allenwood-Lakewood Road to the Ramshorn Road, both in Wall Township, Monmouth County Township Aid.

Gloucester County,
Maintenance Materials.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the award of contracts as made by Gloucester County for slow curing oil to the Headley Good Roads Co., of Philadelphia, at 0.099 per gallon and for lignin binder to E. L. Lantz of Trenton, New Jersey at 0.1025 per gallon.

Gloucester County, M. V. Aid.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the award of contract by Gloucester County for portions of the Woodbury-Swedesboro Road in Gloucester County, Motor Vehicle Aid work, to the Union Paving Company of Philadelphia.

July 22, 1924.

East Front Street, Plainfield. Bids rejected.

State Highway Engineer Sloan presented to the Commission a report of bids received by Union County for East Front Street, Plainfield, in which all of the bids were rejected because of the fact that one bid was not formal, and that it was found that bid would have been lower than the lowest bid submitted. Bids will again be received on August 5th, 1924.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the rejection of all bids on East Front Street, Plainfield, Union County, and the readvertisement of same.

Cumberland County-Township Aid

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission accepted the completed work on Back Neck Road, Fairfield Township, Cumberland County, Township Aid.

Sussex County, M. V. Aid.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the acceptance and final payment on the Newton-Stanhope Road, Section 3 -A, Essex County, Motor Vehicle Aid work.

Employments

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the following employments as made by the State Highway Engineer since the last meeting of the Commission:

June	17,	1924	-J. D. Barracliff,	Motor	Truck	Driver	.40	Hr.
"	23,	"	-Chas. L. Doremus,	"	"	"	.45	"
"	26,	"	-Earl Corliss.	"	"	"	.40	"
"	30,	"	-Hervert James,	"	"	"	.40	"
"	30,	"	-Asher Cole,	"	"	"	.40	
July	1,	"	-Edward Hazel,	"	"	"	.40	"
"	2,	"	-James Pettit,	"	"	"	.40	"
"	2,	"	-Albertus Couch,	"	"	"	.40	"
"	7,	"	-Lawrence Smith,	"	"	"	.40	"
"	7,	"	-Harry Levenweight,	"	"	"	.40	"
"	7,	"	-Oscar Morris,	"	"	"	.40	"
"	14,	"	-Louis Shepper.	"	"	"	.40	"
"	14,	"	-George Chambers,	"	"	"	[illegible]	"
"	23,	"	-Chas. Van Schoics,	"	"	"	.40	"

Route 12, Sec. 5. Warren County

State Highway Engineer Sloan reported to the Commission that the Federal Government will not make payment of an amount due on account of Federal Aid Project 32 - C known as Route 12, Section 5,

July 22, 1924.

in Warren County, due to the fact that this work was completed by the County under the reimbursement plan and there was no extension of time given beyond July 1, 1922. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of an extension of time on Route 12, Section 5, from July 1, 1922, to November 19, 1923.

Route 15, Section 6.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the acceptance of the completed work on Route 15, Section 6, Leesburg Cut-off, same having been completed as of July 28, 1924, work having been done by the Department of Institutions and Agencies.

1924 Maintenance Program.

Commissioner Kidde moved that the Maintenance Division prepare a report of the progress made during the year 1924 and that a copy of the same be forwarded to each Commissioner. This was seconded by Mr. Stewart and adopted.

Route 1

Lake Street Bridge, Metuchen

Mr. Stewart inquired concerning the construction of the Lake Street Bridge, Metuchen, and was advised that the railroad company was now receiving bids upon this improvement.

Amboy Bridge

State Highway Engineer Sloan requested the approval of the Commission to the placing of timber platforms for supporting the concrete footings on piers 17 to 25 on the Perth Amboy Bridge at a cost of approximately $650.00 per pier. On motion by Mr. Stewart seconded by Mr. Kidde, the State Highway Commission authorized such timber platforms as are necessary to be constructed on the Amboy Bridge.

Cedar Bonnet Bridge over Manahawken Bay.

State Highway Engineer Sloan informed the Commission that he recommends again advertising for bids on the Cedar Bonnet Bridge over the Manahawken Bay and recommended to the Commission that a trunion type bascule bridge with a 30' roadway be constructed at the present time. He recommended further that authorization be given for readvertisement. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the readvertisement for Cedar Bonnet Bridge for a trunion type bascule bridge with a 30' roadway and that an extension of permit be applied for from the War Department for the replacing of this bridge.

George Street, New Brunswick -

State Highway Engineer Sloan informed the Commission that he had received information from Middlesex County to the effect that bids were received on the improvement of George Street, New Brunswick, the lowest bid being by the Utility Construction Company, and requesting as whether the award would be approved by the State Highway Commission. On motion by Mr. Kidde, seconded by Mr. Stewart the State Highway Commission directed that the Middlesex County authorities be notified that the Commission will approve award when same is properly presented for the improvement of George Street, New Brunswick.

On motion by Mr. Kidde, seconded by Mr. Stewart, Chairman Jelin was authorized to sign for the Commission all contracts, payments and other papers required to be executed until the next meeting of the Commission, due to the absence of Chairman Scott who is outside the State.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission adjourned at 5:00 P. M. to meet again on August 5th, 1924, at 10:30 A. M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - August 5, 1924.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, on Tuesday, August 5, 1924.

Present : Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Absent: Chairman Hugh L. Scott on trip to the West.

Commissioner Kidde moved the election of Commissioner Jelin as Chairman pro tempore. This was seconded by Mr. Stewart and adopted. Chairman Jelin called the meeting to order at 10:30 A. M.

Minutes Approved

Commissioner Kidde reported having read the minutes of the meeting held June 18th and he moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported having read the minutes of the meeting held June 24th and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported having read the minutes of the meeting held July 3d and recommended that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported having read the minutes of the meeting held July 15th and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Church Road, Burlington County

The Secretary informed the Commission that a delegation from the County of Burlington was present concerning road improvement in that County. On motion, duly seconded, a hearing was granted. Senator Roberts of Burlington County and Director Stout of the Burlington County Board of Freeholders, and about fifty citizens of Burlington County, appeared before the Commission, Mr. Roberts, acting as spokesman, advised that the delegation was present in behalf of Church Road in Burlington County which is on a direct line from Camden to seashore points such as Barnegat, Bayhead, and Atlantic City, He advised that this entire line was now improved with the exception of about eight and one-half miles in the middle part from Merchantville to Coltstown. Mr. Roberts advised that a portion of this route was already legislated into the State Highway System by a former legislature; he further advised the Commission that the construction of this road would open up an outlet to a very flourishing farming district and at the same time would furnish relief to the congestion existing on the White Horse Pike. State Highway Engineer Sloan informed the Commission that the so-called "Mathis Highway" is directly above this line and, would, when constructed, satisfy the needs of this part of New Jersey. Senator Roberts explained that his proposition was legislated as a State Highway for the purpose of taking the traffic from the Palmyra Ferry over to the seashore without necessitating it traveling over the White Horse Pike, running from Route #2 at Five Points by way of Moorestown, Evesboro to Cross Roads, to Medford and to Route #3 at Hammonton with a spur at Evesboro to Merchantville and would form the shortest route to Island Heights and Seaside Park, etc.

Commissioner Kidde outlined for the visiting delegation the needs of the State with respect to State Highways and the necessity for additional funds before any more State Highways could be taken over for construction. Mr. W. J. Buzby, of Atlantic City, was present at the meeting and stated that this route was very important, it being an air line from Camden or Merchantville to Barnegat and he believed the State would be warrented in giving aid to Burlington County in the construction of this road. Mr. Stout of Burlington County Board of Freeholders informed the Commission that estimates were prepared for the eight and one-half miles of improvement necessary and an 18 foot bituminous macadam road could be constructed for $12,000 per mile and a 20 foot road for $15,000 per mile, while if the present macadam was scraped and a sheet asphalt top placed thereon the cost would be $27,000 for an 18 foot road and $30,000 for a 20 foot road. Mr. Stout stated that he believed that a 20 foot road of penetration macadam would take care of the needs of this section for a number of years. Commissioner Stewart inquired whether Burlington County was prepared with any proposition as to this work. Mr. Stout advised that it was desired to first obtain favorable consideration for this improvement from the State. Chairman Jelin then asked that the Freeholders consider what improvement can be made on this road and prepare a proposition to be submitted to the State Highway Commission.

New Lisbon-Four Mile Colony Road

State Highway Engineer Sloan requested the Commission to give consideration to the matter of the New Lisbon-Four Mile Colony Road which was constructed by appropriations from the legislature to the Department of Institutions & Agencies, the County of Burlington and the State Highway Commission. He advised that Burlington County was unwilling to take this road over as a county road unless the same was put in proper shape and oiled. He recommended to the Commission that the cost of this oiling, which is $4,000, be allotted to Burlington County for use on County roads, the county to take over the New Lisbon-Four Mile Colony road and maintain it in the future. Director Stout of the Burlington County Board of Freeholders informed the Commission that Burlington County would be agreeable to the taking over of the New Lisbon-Four Mile Colony Road if the special allotment of $4,000 was granted. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the allotment of $4,000 to the County of Burlington to be applied to schedule of repairs providing proper resolution will be passed by the Burlington County Board of Freeholders taking over the New Lisbon-Four Mile Colony Road and maintaining it in the future.

White Horse Pike Widening

The Secretary informed the Commission that Mr. Walter J. Buzby of Atlantic City was present and requested a hearing. On motion, duly seconded, a hearing was granted. Mr. Buzby stated that he appeared as representing one of the largest tax-payers in Atlantic County and advised that there was great concern among the tax-payers of Atlantic County over the fact that in the proposed widening of the White Horse Pike, it would be necessary to remove very many trees lining both sides of the White Horse Pike in the vicinity of Hammonton. He proposed to the Commission that consideration be given to a new line for route #3 at Hammonton, beginning at Elm and swinging through Bellevue Avenue in Hammonton, thus creating another line for traffic which is on a direct line with the White Horse Pike. State Highway Engineer Sloan informed the Commission that this line which was suggested should be for one-way traffic only and the fact that the line proposed was through a built up section would make it impossible to maintain it for one-way traffic, and, therefore, the effectiveness of this construction would be lost. A general discussion took place as to what means might be adopted for the saving of the trees along the White Horse Pike near Hammonton, and the State Highway Engineer informed the Commission that if a roadway was constructed on the other side of the trees it would involve an additional expense of $100,000.00 for right of way and construction. Commissioner Kidde inquired whether the County of Atlantic would be willing to share in the cost of such a proposition. Mr. Buzby stated that he would be glad to take this matter up with the Freeholders of Atlantic County and ascertain what proposition they could make. Chairman Jelin informed Mr. Buzby that careful consideration would be given to the question of saving the trees on the White Horse Pike and the Engineering Department would make an immediate investigation in view of the fact that advertisement has already been placed for the widening of this road between Hammonton and Absecon on one side for a width of 10 feet.

Route #3, Widening

In the above connection the Secretary presented a communication from the Woman's Civic Club of Hammonton, offering suggestions toward solving the traffic difficulties at Hammonton and for the purpose of conserving the trees. The suggestions were that all roadside market stands and garages be moved far enough back to allow parking entirely off the 30 foot roadway; secondly, that 5½ ft. on each side of the present State Highway be widened, and thirdly, that traffic through Hammonton be taken care of by construction a road from Elm by way of Third Street connection with Route #3 by way of Egg Harbor Road at DaCosta; and further suggesting that another line of travel such as the Black Horse Pike be given immediate attention. On motion by Mr. Stewart, seconded by Mr. Kidde, the communication was ordered received and placed on file.

Township Aid, Camden County

The Secretary informed the Commission that J. J. Albertson, County Engineer of Camden County and Engineer for Clementon Township, Camden County was present concerning the Clementon-Erial Road application which is in the Township Aid schedule for Camden County. Assistand State Highway Engineer Reed informed the Commission that this road was on the schedule and was recommended for aid from the State to the amount of $6,200.00, which is only part of the total of $9,000.00, requested, but on account of the large number of requests from Camden County it was felt that this was all that could be appropriated at this time. Mr. Albertson advised that the total cost of the improvement was $12,000.00 and the amount requested from the State was $9,000.00, but if the State could not appropriate any more than $6,200.00 such of the improvement as could be undertaken with this amount would be accomplished with the expectation that additional funds may be secured in the next year to complete the work. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission authorized the allotment to Clementon Township of $6,200.00 for the Clementon-Erial Road and also approved plans and specifications for this improvement.

Sussex County—Motor Vehicle Aid Request

The Secretary informed the Commission that Hon. H. T. Kays, County Counsel for Sussex County, together with County Engineer Snook were present and desired a hearing. On motion, duly seconded, a hearing was granted. Judge Kays informed the Commission that the County of Sussex has exceeded its Motor Vehicle allotment of funds and is involved in the construction of the Newton-Stanhope Road necessitating a request for additional Motor Vehicle funds from the State. He requested that the County be permitted to use the sum of $10,000.00 under the provisions of Chapter 10, Laws of 1919, said amount to be charged against the years 1925-1926. Commissioner Kidde inquired as to how closely the County had adhered to its Motor Vehicle schedule for 1924 and he was presented with a statement by County Engineer Snook showing the amount estimated to be spent and the actual expenditure on each of the county roads. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission authorized the County of Sussex to make an expenditure of $10,000.00 under the provisions of Chapter 10, of the Laws of 1919, said amount to be funded from the 1925 and 1926 Motor Vehicle apportionment to Sussex County.

Sussex-Port Jervis Road, Sussex County.

Commissioner Kidde inquired of County Engineer Snook as to what progress was being made on the Sussex-Port Jervis Road and was advised that surveyors are now studying the various lines with the purpose of endeavoring to reduce the grades on this roadway. State Highway Engineer Sloan informed the Commission that he had inspected the line of this road with a view to securing the maximum of 7% on grades.

Sparta-Woodport Road

County Engineer Snook presented to the Commission plans and specifications for the Sparta-Woodport Road in Sussex County and requested approval of the same. On motion by Mr. Kidde, seconded by Mr. Stewart, these plans were referred to the State Highway Engineer for investigation and report later in the day.

Burlington County-Township Aid Request

The Secretary informed the Commission that Mr. E. H. Bilmaier of Burlington County was present concerning Township Aid in Burlington County. On motion, duly seconded, a hearing was granted. Mr. Bilmaier advised that he appeared in reference to the road from Medford to Taunton which it was desired to improve with gravel by Medford Township and for which application was on file in the State Highway Department. Assistant State Highway Engineer Reed informed the Commission that there were projects in Burlington County of greater importance than this road, on which all of the funds for Burlington County township aid were allotted. The Chairman requested Mr. Bilmaier to renew his application in the next year and that the Commission would give favorable consideration to this work.

Gold Star Highway Route

The Secretary presented a communication from Governor Silzer inclosing a letter from Mrs. F. DeGarmo suggesting that there be laid out in New Jersey, a Highway Route to be known as Gold Star route in honor of the Gold Star Mothers of the State. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the communication be acknowledged and that the State Highway Commission expresses itself as being favorable to the designation of some through route such as Route #1 or Route #9 in honor of the Gold Star Mothers of the State and if a route is recommended for such designation the same will receive favorable consideration from the State Highway Commission.

Essex County Road Supervisor

The Secretary presented a communication from the Attorney General advising that the State Highway Commission is protected and justified in accepting the signature of Mr. Wm. A. Stickel, County Supervisor of Roads of Essex County, who is also acting in the capacity of County Engineer. On motion, duly seconded, the communication was ordered received and placed on file.

Kearny Viaduct

The Secretary presented a communication from A. B. Archibold, Mayor of Kearny, in which he advised that the town of Kearny contemplated the building of a viaduct from Jacobus Avenue connecting with Lincoln Highway Route #1 and will then cross in a northerly direction the railroad tracks lying between the points of entrance and ending at the Harrison Turnpike in the town of Kearny. He advised that in view of the fact that it will connect the Lincoln Highway with the Harrison Turnpike the State Highway Commission should be interested in granting aid in the improvement. Commissioner Kidde advised that within the last week he had studied this viaduct situation in Kearny from the papers given to him by the Commission some time ago, and he suggested that the Commission express interest in final suggestions for such a viaduct and the plans for carrying the improvement to completion, but at the present time there are no funds from which aid could be granted by the State, and he moved that such advice be forwarded to Mayor Archibold. This was seconded by Mr. Stewart and adopted.

Advisory Board, Jersey City

The Secretary presented a communication from Mr. A. Mackray of Jersey City making application as expert appraiser for real estate in Jersey City and the County of Hudson, in connection with the proposed State Highway project through Jersey City. On motion by Mr. Stewart, seconded by Mr. Kidde, the communication was ordered received and placed on file.

Passaic Co. ~~Detours~~, Request for Aid

The Secretary presented a communication from West Milford Township, Passaic County, requesting the repair of a road at Newfoundland, used as a detour during the building of a new State Highway and Bridge at Newfoundland. State Highway Engineer Sloan informed the Commission that an official detour was established for this section but did not include this particular road. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that West Milford Township be advised that the Commission cannot grant aid on any roads which have not been officially designated as detours by the State.

East Main Street, Boonton

The Secretary presented a resolution from the Board of Freeholders of Morris County advising of the completion of East Main Street, Boonton, and requesting payment of the State's allotment on this work. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed final papers to be referred to Commissioner Kidde in order that he might make inspection before final acceptance by the State.

Invitation

The Secretary informed the Commission that an invitation has been extended to the State Highway Commission by the residents of Long Beach, New Jersey, through State Treasurer Read, to visit Long Beach and be the guests of the community at dinner on some Saturday during the month of August. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the invitation be accepted on behalf of such Commissioners as could attend the dinner.

Reckless Place, Red Bank

Commissioner Jelin reported that since the last meeting of the Commission he had received an invitation from the residents of Reckless Place in Red Bank to appear in Red Bank on the matter of the action taken by the State Highway Commission in refusing to approve award of contract for the construction of Reckless Place, due to the fact that surface pavement cost was entirely too high. He advised that he had visited Red Bank together with Assistant State Highway Engineer Reed and had explained the position of the State Highway Commission in the matter and had assured the residents that if they desired they could award a contract for the concrete base, but the State Highway Commission would not approve the price for asphalt pavement beyond $2.00 per square yard, and if such a price could not be obtained the State Highway Commission would undertake the work within such price. He informed the Commission that the residents were pleased with the explanations given and his latest report was to the effect that the entire work had been readvertised by the Borough. On motion, duly seconded, the report was ordered received.

Bridge at Two Bridges

The Secretary informed the Commission that Mr. C. S. Wandling of Morris County was a visitor at the offices of the Commission during the week with two other gentlemen and strenuously opposed the proposition offered by Morris and Essex counties for a bridge at Two Bridges, since he stated this entirely eliminated the Borough of Lincoln Park from the highway.

Route #10, Bluff Road

The Secretary presented to the Commission a deed to be signed for the return of property of I. B. Sinis on Route #10, Section #1-B, Bluff Road Section, she having paid to the State the sum of money originally paid for the property on this section. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that payment be accepted and that proper deed be duly executed and delivered on behalf of the State Highway Commission and the State of

New Jersey. In connection with this, Commissioner Kidde advised that during the past week he had made an inspection of that section of the State in the vicinity of Bluff Road and he had noted the fact that the owners adjoining the land of the State on Route #10 were taking care of the entire property and to all appearances there was nothing to indicate that the property was not that of the owners of the entire tract. He suggested that some means be taken by the State to give notice to all those in the vicinity that certain portions of the property is that of the State of New Jersey, and he moved that the State Highway Engineer be instructed to take such steps as he deems proper for the purpose of marking the property owned by the State on Bluff Road in such a manner as will be apparent to local people and the traveling public, that the property is that of the State.

The State Highway Engineer next presented a schedule of business with his recommendations as follows:

Route #8, Section #1

The following bids were presented for the construction of the Pompton River Bridge on Route #8, Section #1 at M.P. 9.1 and it was recommended that an award be made to the low bidder, James Mitchell Inc. for $109,543.00.

James Mitchell, Inc..............................	$ 109,543.00
Brann & Stewart Co............................	117,000.00
Dover Boiler Works............................	123,648.00
Michael Staub & Kolyn Const. Co.............	129,900.00
T. M. Gibbs Const. Co..........................	129,990.00
Tuller Construction Co.........................	131,290.00
Thomas Sheahan................................	134,581.13
Linde & Griffith.................................	136,900.00
Arnolt-More, Inc.................................	137,000.00
L. J. Sieling.......................................	146,600.00
Tunnel Const. Corp.............................	147,890.00
William Baker.....................................	168,010.00
Gotham Const. Co...............................	179,000.00

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of the Pompton River Bridge at M. P. 9.1 on Route #8, Section #1, to James Mitchell, Inc. at their's the lowest bid received in the amount of $109,543.00, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

August 5, 1924.

Route #11, Section #9

The following bids were received on July 28th for the construction of Route #11, Section #9, Washington Avenue, Belleville, and it was recommended that award of contract be made to the low bidder, Standard Bitulithic Co. for $335,912.90.

Standard Bitulithic Co.	$ 335,912.90
Jannarone Cont. Co.	367,029.15
O'Gara Const. Co.	387,169.90
Hudson Paving Co.	415,013.43
Public Service Production Co.	428,081.55
J. B. Gilligan-Casey Co.	433,411.60

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route #11, Section #9, Washington Avenue, Belleville, to Standard Bitulithic Co. at their's the lowest bid in the sum of $335,912.90, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Amboy Bridge

State Highway Engineer Sloan presented to the Commission a proposed change in plan for the construction of abutment on the Amboy Bridge in order that the pressure of the mud would not be directly against the abutment. He advised that the additional expense would be in the neighborhood of $15,000.00 or $20,000.00, and he recommended that from an engineering standpoint such a change would be very desirable although the abutment as originally laid out in the plans would serve satisfactorily but would be subject to a movement on account of the great pressure of the water and mud. Commissioner Kidde stated that he believed that the recommendation was a very good one and could be considered very definitely as one of the contingencies resulting from the actual construction work since it would not be foreseen at the time the plans were drawn, and he moved that a redesign of abutment as presented by the State Highway Engineer be approved in accordance with his recommendations. This was seconded by Mr. Stewart and adopted.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission recessed for luncheon at 1:00 P. M., to meet in regular session again at 2:30 P. M. The Commission reconvened at 2:30 P. M., as agreed with the same members present as at the morning session.

Route #10, Section #2A

Commissioner Kidde reported the inspection of Route #10, Section #2A, Broad Avenue, Ridgefield and moved final acceptance by the State. This was seconded by Mr. Stewart and adopted.

Route #8, Section #2

Commissioner Kidde reported the inspection of the completed work on Route #8, Section #2, Montclair-Verona Section, and moved that the same be accepted on the part of the State. This was seconded by Mr. Stewart and adopted.

Signals (Traffic)

In connection with the work on the Montclair-Verona Section, Commissioner Kidde stated that the local authorities of Verona have placed traffic signals in the roadway in such a manner as to cause a dangerous traffic condition and he pointed out that there is now existing a point of collision due to this division of traffic by these signals, and he moved that the Mayor of Verona be notified that the State Highway Commission considers the traffic signals as placed at present to be a menace to traffic and would request that these signals be removed.

Route #3, Section #12

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission ratified the action of the State Highway Engineer in approving plans and specifications and ordering advertisement for Rt. #3, Section #12, Egg Harbor-Hammonton Section widening.

Route #3, Section #13

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission ratified the action of the State Highway Engineer in approving plans and specifications and ordering advertisement for Route #3, Section #13, Egg Harbor-Absecon Section widening.

Route #14, Section #10

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission ratified the action of the State Highway Engineer in approving plans and specifications and ordering advertisement for Rt. #14, Section #10, Seaville-Petersburg Section.

August 5, 1924.

Route #14, Section #11

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission ratified the action of the State Highway Engineer in approving plans and specifications and ordering advertisement for Route #1~~0~~4, Section #11, Petersburg-Tuckahoe Section.

Route #5, Section #13

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission ratified the action of the State Highway Engineer in approving plans and specifications and ordering advertisement for Rt. #5, Section #13, Budd Lake-Netcong paving.

Route #4, Inland Waterway Bridge, Extension of Time

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed approval of extension of time for thirty days on Route #4, Inland Waterway Bridge, to S. S. Thompson Co. Inc.

Route #9, Section #12 & #15

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of agreements with the Town of West~~ville~~field for extra work to be done in connection with the contracts for Route #9, Sections #12 & #15.

Route #7, Section #2, Right of Way

State Highway Engineer Sloan requested of the Commission the reconsideration of the action taken in the case of Josephine Ackerman property on Route #7, Section #2. He informed the Commission that on investigation it was determined that condemnation would not give immediate access to this property and that delays to the contractor would result in greater loss to the Commission than was involved in the difference in price asked by Mrs. Ackerman for her homestead, and he recommended that the amount of the purchase agreement, namely, $4,500.00 be authorized for payment and that the property be acquired. Chairman Jelin stated that he was fully aware of the situation and it would be more expedient to permit the contractor to proceed than to hold up the work on account of condemnation proceedings. Commissioner Stewart, therefore, moved that the Ackerman property on Route #7, Sec. #2, be acquired for the State for the sum of $4,500.00. This was seconded by Mr. Kidde and adopted.

Right of Way, Route #4

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel #14 on Route #4, Morgan Grade Crossing Elimination from Kate & Wm. A. Hendrickson for the sum of $100.00.

Right of Way, Route 5, Sec. 12.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the following parcels of property on Route 5, Section 12, Netcong-Canal Culvert Section.

Parcel	#34A,	Samuel Johnson et ux,	consideration	$ 1.00
"	#39,	Geo. W. Kling,	"	$ 1.00

Right of Way, Rt. #7, Sec. #2

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of the following parcels of property on Route #7, Section #2, Anderson's Corner-Golf Course Section.

Parcel	#9-G,	Joseph Quenneville,	consideration	$ 180.00
"	#9-T,	Jos. J. Nolan,	"	175.00
"	#9-BB,	Geo. E. Salter,	"	35.00

Right of Way, Route #8

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of the following parcels of property on Route #8 at the Mountain View Grade Crossing Elimination:

Parcel	#4 & #4A,	Edw. W. Soars,	consideration	$ 9,300.00
"	#16	Bailey & Winters,	"	115.00
"	#19	VanNess Lumber Co.	"	3,500.00

Right of Way, Rt. #8, Sec. #1

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of Parcel #6-A on Route #8, Section #1, at Bridge at M. P. 9.1 from the Tourists Co-operative Club of America, for the consideration of $1, 064.00.

Right of Way, Rt. #3, Sec. #11.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of Parcel #2 on Route #3, Sec. #11, White Horse Pike Widening, from John Hoggan for the sum of $500.00.

August 5, 1924.

Right of Way, Route #4

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the following parcels of property on Route #4, South Amboy-Morgan Section.

Parcel #10,	James W. Mercer,	consideration	$400.00
" #11,	Patrick F. Kenah.	"	150.00
" #12,	Mary E. & Wm. J. Marr,	"	400.00

Right of Way, Rt. #8, Bridge at M. P. 9.1

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that a formal offer of $1,000.00 for Parcel #5-A, on Route #8 at M. P. 9.1 be made to Wm. Foran and H. Germain, for property required in connection with the construction of the Pompton River Bridge, and in the event of refusal to accept the same that condemnation proceedings be instituted.

Right of Way, Route #8, Mt. View

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that an offer of $1,000.00 be made to George W. and Evelyn J. Sherman for Parcel #9 on Route #8 at the Mountain View Grade Crossing Elimination, and in the event of refusal to accept that condemnation proceedings be instituted.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that an offer of $1,000.00 be made to L. G. Parish on Route #8, Mt. View Grade Crossing Elimination, for Parcel #17, and in the event of failure to accept that condemnation proceedings be instituted.

Right of Way, Amboy Bridge

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that an offer of $274.00 be made to the Estate of W. S. Whitworth for Parcel #6 on Route #4, Amboy Bridge approach, and that condemnation proceedings be instituted, in view of the fact that the ownership of the property is complicated by the great number of heirs involved.

Route #6, Section #1~~1~~2

State Highway Engineer Sloan presented to the Commission the matter of acceptance of work on Route #6, Section #~~11~~12, East Commerce Street, Bridgeton. He informed the Commission that this work was completed prior to the taking of office by the present State Highway Commission. He presented a communication from Mr. J. C. Remington, City Engineer of Bridgeton, advising of the controversy in connection with the construction of Route #6, Section #12 and the improvement of the trolley track area on this roadway. He advised that it was first determined to complete the roadway with the elimination of the tracks. However, at the time final plans were prepared it was desired to consider the tracks as part of the pavement. When the work was in its preliminary stages the question of tracks was again up and it was determined to eliminate the header curb which was to be constructed on either side of the ties. The final outcome of the proposition was to the effect that when the trolley tracks were put in the tracks were elevated above the pavement on each side in several places and the city was desirous of having the work accepted on the part of the State. State Highway Engineer Sloan informed the Commission that when the present State Highway Commission took up this matter for consideration, directions were issued that the grade of the tracks be lowered to conform to the established grade of the pavement prior to the acceptance of the work by the State. He informed the Commission that the State Highway Department was not interested in the cost of the work at the trolley tracks since it was to share only in the cost of eleven feet of pavement on each side of the trolley tracks. Commissioner Kidde ~~stated that~~ asked if there was ~~no~~ a reason why the grade of the tracks should not be made to conform to the grade of the roadway. State Highway Engineer Sloan informed the Commission that the only other alternative would be for sufficient asphalt to be placed to make a satisfactory grade between the street and the tracks. Commissioner Stewart inquired as to whether there was inspection on this work by State forces, and he was informed by State Highway Engineer Sloan that there was a cessation of work during the winter and the city authorities were to notify the State Highway Department when work would be resumed . When such notification was given it was found the tracks had already been placed. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the attention of the local authorities of Bridgeton be directed to the action taken by the State Highway Commission at its previous meeting and that they be notified that it will be agreeable to the State Highway Commission that the results to be obtained be secured either by the lowering of the grade of the tracks or by the using of additional asphalt material.

Main Street, Metuchen

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved cooperation with the Borough of Metuchen for work to be done to the intersection of Main street and Middlesex Ave. on Route #1 for the construction of a new catch basin and the installation of approximately 16 ft. of eight inch vitrious pipe, to be carried out at the expense of the State Highway Commission and all other work to be done at the expense of the Borough of Metuchen subject to approval by the State Highway Commission.

Route #5, Sec. #14, Essex Co.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of agreements to be entered into with the Township of Springfield for additional work to be performed in connection with the improvement of Route #5, Section #14, through Springfield in Essex County.

Route 6 - Fenwick Creek Bridge-Lighting

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of agreement between the city of Salem, the Township of Mannington and the State Highway Commission for the lighting of the Fenwick Creek Bridge by the City of Salem and the Township of Mannington for a period of five years.

Route #6, Relief Sewer

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of an agreement with the Penn. Railroad for the construction of a relief sewer on Route #6 at Gloucester across the railroad property and its tracks, said work to be done at the expense of the State Highway Commission due to bad drainage existing on Route #6 at that point.

Maintenance Division Report

Commissioner Kidde called attention to the report of the Maintenance Division as forwarded to each Commissioner after the last meeting of the Commission and he expressed satisfaction with the report and moved that the same be ordered received and approved as mailed. This was seconded by Mr. Stewart and adopted.

State Highway Exhibit

The Secretary presented a communication from Dr. J. G. Lipman, Director of the Agricultural Experiment Station at New Brunswick, advising that the National Grange is to hold a convention at Atlantic City about the middle of November and requesting that the State Highway Commission arrange an exhibit at that time. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the regular exhibit of the State Highway Department be authorized for use at the convention of the National Grange in Atlantic City about the middle of November, at the expense of the State Highway Department.

State Highway Equipment

The Secretary presented a communication from Dr. Lipman requesting the loan of two trucks in order that the Agricultural Farm might purchase slag at a saving of possibly $500.00 by the use of these trucks. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the loan of two trucks to the New Jersey Agricultural Farm and to be returned in as good condition as when turned over by the State.

Experimental Road Construction

The Secretary presented a communication from Dr. J. G. Lipman, requesting ~~whether~~ the State Highway Commission ~~could~~ to undertake some experimental road construction at the College Farm, in view of the fact that the Farm is greatly in need of improved road facilities and could cooperate with the State in such experimental work. State Highway Engineer Sloan informed the Commission that it would be very desirable to undertake experimental road work, but the amount of improvement necessary on the College Farm would not justify an expenditure of $15,000.00 by the State, which it was estimated such an experiment would cost. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the experimental road construction on said road at the New Jersey Agricultural College, providing the College authorities can see their way clear to appropriate two-thirds of the cost of the work which was estimated would be $15,000.00.

Grade Crossing, Route #7

There was presented correspondence between the State Highway Engineer and Mr. C. A. McCormick with reference to a grade crossing on Route #7 at Jerseyville, in which Mr. McCormick requested definite action on the matter of this grade crossing. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the advice given to Mr. McCormick by the State Highway Engineer to the effect that elimination of this grade crossing was included in the program for next year and nothing could be done at this time, and directed that the communication of Mr. McCormick be placed on file.

Route 1, Section 5.

Main Street, Hightstown

There was presented a communication from the Clerk of the Borough of Hightstown advising that the improvements made on Main Street, Hightstown, were made by the Board of Trade of the Borough of Hightstown and not by the Borough itself and, therefore, the Borough awaits payment from the State in order that the money might be turned over to the Board of Trade, State Highway Engineer Sloan informed the Commission that the amount of this work $1,100.00 was allotted to the Borough and credit for this amount was given on moneys due to the State Highway Commission for work performed in the Borough of Hightstown in connection with the State Highway improvement. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the Borough of Hightstown be informed that the agreement for the allotment of this money was made between the Borough of Hightstown and the State Highway Commission and the Commission cannot enter into any agreement with civic organizations, for this reason the action already taken by the State Highway Commission must stand and credit to the Borough has already been given for the amount of this improvement.

August 5, 1924.

American Association State Highway Officials. Charles A. Mead.

On motion by Mr. Kidde seconded by Mr. Stewart, the State Highway Commission authorized Charles A. Mead, Chief Engineer of Bridges and Grade Crossings of the Public Utility Commission, to represent the State Highway Department at a meeting of the Sub-Committee of Bridges & Structures of the American Association of State Highway Officials at Boston for three days in September, at an approximate expense of $60.00.

Hackensack River Bridges

The State Highway Engineer presented to the Commission a report of a hearing held in the office of Mr. Geo. Hand, Chief Engineer of the Lehigh Valley Railroad Company on July 30th, at which meeting were represented the Lehigh Valley Railroad, Central Railroad of New Jersey, the D. L. & W. R. R. and the P. R. R. on the matter of the attitude to be taken by interested parties in connection with the War Department hearing to be held on August 20th on the matter of the proposed widening of the approaches on the bridges over the Newark Bay together with suggestions for temporary changes in the present bridges. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the report be received and placed on file and that the State Highway Engineer be requested to work out a brief to be presented to the War Department along the lines as presented in his report.

Luppatcong Creek Bridge, Rt. #4

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission denied the application for extension of time as made by the Bentley-Morrison Corporation on the Luppatcong Creek Bridge on Route #4, at M. P. 100.9, and directed that the penalty be imposed for excess in time over the original contract.

Employments

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the following list of employments as made by the State Highway Engineer since the last meeting if the Commission.

August 4, 1924.

[illegible]	A. Kenneth Werner,	Sen. Clerk	$ 115.00 mo.
[illegible]	Phillip P. Thomas,	Resident Engr.	200.00
7/16/24	Walter Weatherby,	Gravel Patrolman,	75.00
7/23/24	Robert E. Martin,	Draftsman,	100.00
7/21/24	Jacob Warren Banker,	"	90.00
7/10/24	Alex. M. Greene,	Fr. Tender,	110.00
8/ 1/24	Robert E. Simon,	Fr. Inspector,	125.00
7/23/24	John Jos. Murphy,	Material Insp.,	125.00
8/11/24	Miss Clare E. Quinn,	Senior Clerk. Steno.	115.00
7/23/24	Joseph Ross,	Asst. C. E.	150.00
7/24/24	Wm. J. Lyons,	Rodman,	75.00
[illegible]	John Schellenger,	"	90.00
8/ 1/24	Arthur Heintz,	"	90.00
8/ 1/24	J. C. Smolige,	Laboratory Asst.	90.00
8/ 1/24	Geo. D. Roberts,	Jr. Engineer,	125.00
8/11/24	Wilson Sharpe,	" "	125.00
8/ 4/24	Walter C. Crossby,	Rodman,	90.00
8/ 1/24	Wm. [illegible]. Felton,	"	90.00
8/ 1/24	Benjamin Mann,	Cost Clerk.	90.00
[illegible]	Miss Engemann	Clerk Steno.	80.00
[illegible]	Roy Perry Hancock,	Asst. Civil Engr.	175.00

Hourly Employments

7/10/24	Palmer Cotterell,	Motor Truck Driver,	.40 hour
7/21/24	[illegible] Pillsbury,	" " "	.40

7/23/24	Allen Dayton,	Gravel Patrolman,	$ 75.00 mo.
8/ 1/24	Jas. V. Gillespie,	Jr. Inspector,	125.00
8/11/24	John V. Connell,	Assistant Civil Engr.	150.00

Increase

7/ 1/24 F. F. Palmer, Mechanic, $ .65 to .70 hr.

Essex County, Motor Vehicle Aid

On motion by Mr. Riddle seconded by Mr. Stewart, the State Highway Commission re-approved plans and specifications for Prospect Ave., Essex County Motor Vehicle Aid work in order to avoid legal complications prior to advertisement.

Warren County, Federal Aid

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved plans and specifications for the Hainesburg-Columbia Road, Warren County, Federal Aid Project #53.

Monmouth Co.-Motor Vehicle Aid

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved plans and specifications for the construction of the Matawan-Old Bridge Road, Monmouth County, Motor Vehicle Aid work.

Union County-Motor Vehicle Aid

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved plans and specifications for East Broad Street, Westfield, Union County Motor Vehicle Aid.

Hunterdon County-Motor Vehicle Aid

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the award of contract by Hunterdon County for the Flemington-Frenchtown Road, Hunterdon County Motor Vehicle Aid work to Sigafoos & Moore, the low bidder at $30,674.00.

Essex Co.-Rejection of Bids

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the rejection by Essex County of all bids received on the Runnymede Road, Caldwell and Essex Fells on account of bids being too high.

Ocean County-Motor Vehicle Aid

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of award of contract by Ocean County for the construction of the Lakewood-New Egypt Road, Section #2, Ocean County Motor Vehicle Aid work.

Cumberland Co.-Motor Vehicle Aid

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the acceptance of the Cumberland Causeway, Cumberland County Motor Vehicle Aid work.

Route #13, Section #1

State Highway Engineer Sloan informed the Commission that he had approved plans and specifications for Route 18, Section 1, in the Borough of Alpine, but that formal action should be taken to make this section a part of the State Highway System before contract is awarded for the work. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission adopted the following resolution:

> WHEREAS, by Chapter 197 of the Laws of 1923 there was designated Route 18-North, extending from Hoboken to the New York State line by way of Weehawken, West Hoboken, Town of Union, North Bergen, Fairview, Ridgefield, Palisade Park, Fort Lee, Englewood, Cliffs, Tenafly and Alpine, as a part of the State Highway System, and
>
> WHEREAS, it is the desire of the State Highway Commission to construct a portion of the said State Highway Route 18-North in the immediate future, now, therefore,
>
> **BE IT RESOLVED** by the State Highway Commission of the State of New Jersey that a portion of the said State Highway Route 18-North, known as Sylvan Avenue Boulevard in the Borough of Alpine, beginning on the said Sylvan Avenue Boulevard at the intersection of Hillside Avenue designated as Station 31 plus 50 and extending northerly a distance of four thousand four hundred and fifty (4450) feet to a point designated as Station 76 plus 0 about nine hundred (900) feet north of the intersection of the Kenrick Hudson Drive and the said Sylvan Avenue Boulevard, be and the same is hereby taken over as a part of State Highway System of the State of New Jersey.

Route 18, Section 1.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the action of the State Highway Engineer in approving plans and specifications for Route 18, Section 1, in the Borough of Alpine, and also approved of the advertisement as placed for this construction.

Route 5, Section 8.

Commissioner Kidde reported the inspection of the completed work on Route 5, Section 8, Great Meadows Grade Crossing elimination and moved that the same be accepted on the part of the State. This was seconded by Mr. Stewart and adopted.

Route 11, section 8.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the acceptance of an agreement with the Town of Nutley in Essex County, for extra work to be done at the time of the improvement of Route 11, Section 8, through Nutley.

Township Aid-Bergen County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State

Highway Commission approved of plans and specifications for the construction of the Wyckoff-Ramsey Road, Hoholms Township, Bergen County Township Aid.

Union County, Township Aid

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of plans and specifications for the construction of Cranford Avenue, Linden Township, Union County Township Aid and Boro Aid.

Cumberland Co. Force Account Agreements

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved township aid force account agreements in Cumberland County as follows:

Yank Walk Road, Commercial Township,
Turkey Point Road Intersection, Downe Township.

Monmouth County, Township Aid

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved township aid force account agreements for Ramshorn Road, Wall Township, Monmouth County, the State's share not to exceed $6,000.00.

Camden County-Township Aid.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved township aid force account agreement statement for Walder Road, Winslow Township, Camden County Township Aid.

Burlington County, Township Aid

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of final acceptance and payment of Naylor's Corner-Indian Mills Road, Shamong Township, Burlington County Township Aid.

Camden County-Township Aid

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved acceptance and final payment on Ehrke Landing Road, Winslow Township, Camden County Township Aid.

Sussex County-Motor Vehicle Aid, Sparta-Woodport Road

State Highway Engineer Sloan informed the Commission that he had examined the plans and specifications for the Sparta-Woodport Road as presented by County Engineer Snook at the morning session, and he would recommend approval of the same by the Commission. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved plans and specifications for the Sparta-Woodport Road, Sussex County Motor Vehicle Aid Work.

1924-25 Township Aid Allotments

Commissioner Kidde advised that he had examined the recommendations as made by Assistant State Highway Engineer Reed and State Highway Engineer Sloan for Township aid allotments to be made from funds becoming available on July 1, 1924, and he was prepared to approve the recommendations as offered. Commissioner Stewart, therefore, moved that the following allotments of township aid as recommended by the State Highway Engineer and the Assistant State Highway Engineer from the 1924-1925 funds becoming available July 1, 1924, be approved:

This was seconded by Mr. Kidde and adopted.

On motion by Mr. Sterner, seconded by Mr. Kidde, Commissioner Jolly was authorized to sign necessary papers as Chairman pro tem until the next meeting of the Commission.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission adjourned at 4:30 P. M., to meet in regular session again on Tuesday, July 10th, at 10:30 A. M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - August 19, 1924.

A regular meeting of the State Highway Commission was held in the meeting room of the Commission, Broad Street Bank Building, Trenton, New Jersey, on Tuesday, August 19th, 1924.

Present: Messrs. Walter Kidde, Percy H. Stewart and
Abraham Jelin.

Absent: Chairman, H. L. Scott on trip to the West.

Commissioner Stewart moved the election of Commissioner Kidde as Chairman pro tempore for this meeting. This was seconded by Mr. Jelin and adopted.

Minutes Approved

Commissioner Kidde reported having read the minutes of the meeting held on July 22nd and recommended that the same be approved as mailed. On motion by Mr. Stewart, seconded by Mr. Jelin, the minutes of the meeting of July 22nd were approved as mailed.

Route #3, Widening, Hammonton

The Secretary informed the Commission that a hearing was requested by Mr. H. W. Leeds on behalf of the Atlantic City Hotelmen's Association, together with a number of citizens from Hammonton. On motion duly seconded, a hearing was granted. Mr. Leeds appeared and informed the Commission that together with a delegation from Hammonton, he was desirous of urging on the Commission consideration of a method whereby the trees on the White Horse Pike at Hammonton could be saved from destruction, on account of the proposed widening of the White Horse Pike. He advised that the residents of Hammonton were interested in having the State adopt a parallel line to the White Horse Pike through Hammonton for a distance of one and one-half miles and in order that one-way traffic may be instituted on these parallel lines. He introduced Mr. O'Donnell who stated that he represented the Mayor of Hammonton and that they were all desirous of having the road proceed by parallel route through Hammonton rather than widening the existing pike which would necessitate the removal of trees. Commissioner Jelin informed the Commission that he had made a personal inspection of this location and he had suggested to the Engineering Department that the pavement be widened up to the trees on both sides to a total width of 29' and that a concrete curb be placed against the trees for the protection of traffic. This would result only in the removal of 175 trees out of 500 which would be necessary when both sides are widened. State Highway Engineer Sloan presented to the Commission a sketch showing the suggestions of Commissioner Jelin, but he stated that he believed that it would be better policy to widen in accordance with the original recommendations. Chairman Kidde inquired of all the members of the visiting delegation as to what their preference would be in the event the State found it necessary to follow the White Horse Pike, as to the removal of all the trees on one side or the adoption of the suggestion for the placing of curbs and the removal of only a portion of the trees. It was the general feeling that it would be wiser policy to remove only part of the trees rather than all, if it could be accomplished. After further discussion Commissioner Jelin moved that the matter be taken under advisement. This was seconded by Mr. Stewart and adopted.

Right of Way, Route #7

The Secretary informed the Commission that a hearing had been requested by Mr. John C. Hastie, property owner on Route #7. On motion, duly seconded, a hearing was granted. Mr. Hastie appeared together with Mr. Harms and Mr. Doree, also property owners along Route #7 in the vicinity of the elimination of the grade crossing of the Central Railroad Tracks on Route #7. He informed the Commission that at the time the agreements were signed by himself and the other men for the sale of the property to the State on Route #7, no information was given concerning the proposed grade crossing elimination which, if it was in the nature of an overhead crossing, would place all these properties below the grade of the roadway. He suggested, however, that there was a possibility for the Railway Company to lower the grade of its tracks in this vicinity and also at two other grade crossings now in existance within one-half mile. Mr. Hastie informed the Commission that he was still ready to carry out the provisions of the original agreement whereby he would give the State the property needed without cost. Mr. Harms informed the Commission that it was his purpose to spend considerable money upon his Gasoline filling station on this location, but if the grade crossing elimination would change the traffic from in front of his location, he would not start his improvements. It was recommended by the Commission that he withhold any further improvements until investigation had been made of the matter, and the State Highway Engineer was directed to investigate the possibility of lowering the grade of the railroad company's tracks.

Cedar Bonnet Bridge

The Secretary informed the Commission that Mr. J. H. Terry, second low bidder on the Cedar Bonnet Bridge over Manahawken Bay, was present to ascertain what disposition would be made of the award of contract for this work and he left with the Commission a financial statement togehter with a statement of work accomplished in the past. On motion by Mr. Jelin, seconded by Mr. Stewart, the communications were ordered received and placed on file.

Right of Way, Route #10

The Secretary presented a communication from Major Wm. A. Welsh, General Manager of the Palisade Inter-State Park Commission, advising that they were anticipating difficulty in securing the Phelps estate property but would pursue the matter further. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the communication be acknowledged and that Major Welsh be advised that the State Highway Commission is very anxious concerning the entire matter and hoped that they would be able to work it out to the satisfaction of the owners of the property and the New York State Highway Commission.

Accidents, Route #13 Voorhees Cross'g.

The Secretary presented a communication from the Public Utility Commission enclosing a report of the Board's Inspector concerning the accidents at the Voorhees Grade Crossing of the P. R. R. tracks on Route #13, in which the inspector recommended that the new flashing light railroad signals be installed and that an A. G. A. signal be removed; also recommending that trees be removed at this crossing in order to afford a more open view. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that a communication be forwarded to the Public Utility Commission advising that the State Highway Commission is very desirous that they follow out the recommendation made by their inspector and also to take such other precautions as may be necessary for the safety of the traveling public and the State Highway Commission will endeavor to assist in having the trees removed and will also order the removal of the A. G. A. flashing signals approaching this crossing.

A. G. A. Signs

State Highway Engineer Sloan informed the Commission that he had been visited by representatives of the American Gas Accumulator Co. with reference to the installation of a new signal device now being perfected by the organization. He advised that he was desirous of having the A. G. A. Co. comply with the original contract entered into with the State Highway Commission before considering any modification of it. Commissioner Jelin advised that representatives of the A. G. A. Co. had requested an interview with him and he suggested that State Highway Engineer Sloan be present at the time with the facts with reference to the existing contract.

Route #4, Toms River

The Secretary presented a petition and newspaper articles concerning the proposed new alignment of Route #4 through Toms River, in which protest was made against any change in the line which would take the highway off the main street of Toms River. On motion by Mr. Jelin, seconded by Mr. Stewart, the petition and clippings were ordered received and placed on file.

Newton-Stanhope Road, Sussex
County, Motor Vehicle Aid

The Secretary presented a communication from the Board of Freeholders of Sussex County requesting a further interpretation of the action taken by the Commission at its meeting on August 5th concerning the approval of the use of Motor Vehicle funds in accordance with Chapter 10, Laws of 1919, on the Newton-Stanhope Road. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the communication be acknowledged and that they be advised that it is the purpose of the State Highway Commission to permit the use of State funds in the amount of $10,000.00 toward this work, it being understood

August 19, 1924.

that the total cost will be $20,000.00; the State's share to be charged $5,000.00 against the 1925 Motor Vehicle Account and $5,000.00 against the 1926 Motor Vehicle Account.

Camden Advisory Board

The Secretary presented a communication from the Director of Public Safety of the City of Camden, New Jersey, requesting that the State Highway Commission aid the city of Camden to the extent of one-half the cost of grade crossing elimination on Penn and Linden streets in the city of Camden, the total cost of the work estimated to be $500,000.00. State Highway Engineer Sloan informed the Commission that in the Advisory Board plans for Camden it was proposed to eliminate the grade crossing of the railroad at Penn and Linden Streets. He also advised that it was the feeling of the city of Camden that it would help the city progress if this railroad was entirely removed from the line existing, to a river location and it was desired that the State pay to the city the cost which would be involved in the elimination proposed. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the communication be acknowledged with the advice that the Commission is very much interested in the proposal submitted and has referred the matter to the State Highway Engineer for report and for ascertaining what legal questions are involved in such transaction.

Advisory Board - Camden

Route C, Grade Crossing Elimination

The Secretary presented a communication from the Chairman of the Public Safety Committee of Brooklawn, New Jersey, requesting the elimination of a grade crossing in the Borough of Brooklawn where the West Jersey and Seashore Railroad crosses the State Highway. State Highway Engineer Sloan informed the Commission that the construction of the proposed Advisory Board relief routes will reduce the dangerous conditions now existing on account of the great amount of traffic now passing through Brooklawn, which will be diverted. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was referred to the State Highway Engineer, and the Borough of Brooklawn was to be notified to the effect that the State Highway Engineer is ready at any time to discuss with them the proposed changes in the vicinity of Camden which will bear on this matter.

Route 4, Bradley Beach

The Secretary presented a communication from the Borough of Bradley Beach advising that Main Street, Bradley Beach on Route 4 has recently been repaired and is now in good condition and it is desirous of having the State Highway Commission assume control as soon as possible. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the matter be referred to the State Highway Engineer for investigation and reply to the authorities of Bradley Beach.

Lupatcong Creek Bridge, Rt. 4

The Secretary presented a communication from the Bentley-Morrison Corp., contractors on the Lupatcong Creek Bridge on Route 4, in which communication they protested the collection of the penalty on the part of the State due to delay in the completion of the work beyond the time specified. This Company made statements to the effect that the Engineers of the State Highway Department did not take measures to learn conditions existing on the work and they feel that the infliction of this penalty is a blemish upon what has, heretofore, been a clear record of the company. State Highway Engineer Sloan informed the Commission that the statements made are not correct and further that when this contract was awarded to the Bentley-Morrison Corp., it was stated by their representative that no extensions of time would be requested. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the communication be acknowledged and that they be advised that the Commission cannot agree with the statements made and also call attention to the representations that no extensions of time would be requested of the Commission.

Route #1, Extension, Jersey City

The Secretary presented a communication from the Business Men and Citizen's Progressive League of Jersey City, requesting information as to the location of Route #1 Extension through Jersey City. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the communication be ac-

acknowledged with the advice that no definite line has yet been established and that an engineering force is now in the field to determine the possibilities for the route.

Recess

On motion by Mr. Stewart, seconded by Mr. Jolin, the State Highway Commission adjourned for lunch at 1:30 P. M., to meet in regular session again at 2:30 P. M. The meeting was resumed at 2:30 P. M., as agreed with the same members present as at the morning session.

Route 3, Widening, Hammonton

Commissioner Kidde suggested that some action be taken on the matter of Route 3 widening at Hammonton, in view of the fact that the contract covering this portion of the work has been advertised. Commissioner Jolin moved that the Engineering Department be directed to eliminate that portion of the widening which is located on Route 3, at Hammonton, on the section with trees on both sides and that the shoulders on that portion of the White Horse Pike within this section given a surface treatment which will place them in satisfactory condition to accommodate the travel, and that a communication be sent to the Town of Hammonton advising that the Commission will give consideration to a request for aid in the improvement of the Wilsey Mill Road if the Town of Hammonton desires to proceed with this work. On motion by Mr. Jolin, seconded by Mr. Stewart, the above suggestion was adopted.

Reckless Place, Red Bank

The Secretary reported to the Commission that he had received information from Monmouth County to the effect that bids had been received on the re-advertisement for work on Reckless Place in the Borough of Red Bank and that the lowest bid including the pavement was for $1.10 per square yard for the asphalt surface. Bids were also received for the foundation without the pavement and the Borough desired information as to whether the State Highway Commission would do the surface paving on this road because of the fact that the price received on the foundation work would yield a saving to the Borough, Commissioner Jolin in-

August 10, 1934.

formed the Commission that apparently if the contract was awarded for the entire work the Borough of Red Bank would now save $1,000.00 over the previous bids and in view of the fact that the price for pavement was less than $2.00 per square yard, he moved that the Commission advise the Borough of Red Bank that from the informal information received concerning the bids, it is prepared to approve the award of contract by the Borough of Red Bank for either the entire work or for the foundation, the Borough to secure a pavement at a price of $2.00 or less from some other contractor, the Commission finding it unnecessary and inadvisable to undertake the asphalt work with its own forces.

State Highway Engineer Sloan next presented to the Commission a schedule of business with his recommendations as follows:

Route 3, Section 14

Bids were received as follows for the widening of Route 3, Sec. 14, Egg Harbor-Hammonton Section, and the State Highway Engineer recommended that the work be awarded to Smith Brothers, Co., of Hackettstown, the low bidder of $34,044.00

Smith Bros. Co.	$ 34,044.00
R. F. McMullen Co.	35,060.10
Charles T. Kavanagh	37,457.15

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 3, Section 14, Egg Harbor-Hammonton Section, to Smith Brothers of Hackettstown, N. J., at theirs the lowest bid received, in the amount of $34,044.00, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 3, Section 13

Bids were received as follows for the widening of Route 3, Section 13, Absecon-Egg Harbor Section, and the State Highway Engineer recommended that the work be awarded to Chas. T. Kavanagh of Bayonne, N. J., the low bidder of $40,172.00.

Chas. T. Kavanagh	$ 40,172.00
Harry Best	44,436.42
Sutton Const. Co.	46,748.62
Walter S. Locke	48,104.16

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

August 19, 1924.

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 3, Section 13, Absecon-Egg Harbor Section to Chas. T. Kavanagh of Bayonne, N. J., at his the lowest bid received in the amount of $40,172.00, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 14, Section 11

Bids were received as follows for the construction of Route 14, Section 11, Petersburg-Tuckahoe Section and the State Highway Engineer recommended that the work be awarded to Michael Staub of Pitman, N. J.. at his the low bid of $183, 815.00.

Michael Staub	$ 183,815.00
Ross & Whelen, Inc.	1[illegible],[illegible]
E. Riley Mixer Co.	194,[illegible]
Public Service Production Co.	19[illegible],3[illegible].44
Sutton & Corson Co.	205,226.33
Achienne & Caruso	[illegible],71[illegible].10
S. S. Thompson & Co.	[illegible]08,771.0[illegible]

On motion by Mr. Jolin, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 14, Sec. 11, Petersburg-Tuckahoe Section, to Michael Staub, of Pitman, N. J., at his the lowest bid received in the amount of $183,815.00, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 14, Section 10

Bids were received as follows for the construction of Route 14, Section 10, Seaville-Petersburg Section, and the State Highway Engineer recommended that the work be awarded to Michael Staub of Pitman, N. J., at his the low bid of $136, [illegible].00.

Michael Staub	$ 13[illegible]
E. Riley Mixer Co.	1[illegible],[illegible].1[illegible]
Achienne & Caruso	1[illegible],[illegible]7.62
Public Service Production Co.	1[illegible],7[illegible]
Ross & Whelen, Inc.	140,31[illegible]
Sutton & Corson Co.	150,1[illegible]

On motion by Mr. Stewart, seconded by Mr. Jolin, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 14, Sec. 10, Seaville-Petersburg Section to Michael Staub of Pitman, N. J., at his the lowest bid received in the amount of $136,[illegible],

August 19, 1924.

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Cedar Bonnet Bridge over Manahawken Bay

Bids were received as follows for the attention of the Commission as received on the Cedar Bonnet Bridge over Manahawken Bay, after readvertisement.

Krellwitz Cont. Co.	97.5%
J. D. Terry & Co.	104.9
F. W. Schwiers Jr. Co.	107.25
L. J. Sieling	108.8
S. S. Thompson & Co.	109.

State Highway Engineer Sloan reported that the Krellwitz Cont. Co., the lowest bidders had furnished a financial statement which appeared to be satisfactory. Commissioner Jelin stated that inasmuch as this contractor for the second time was low bidder on this work, he would moved that award be made to the Krellwitz Contracting Co. in accordance with the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of the Cedar Bonnet Bridge over the Manahawken Bay, to the Krellwitz, Cont. Co., of North Bergen, N. J., at their's the lowest bid received in the amount of 97.5% of the Engineer's estimated units of cost, making a contract amount of $86,993.71, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts.

This was seconded by Mr. Stewart and adopted.

Route 2, Section 6

State Highway Engineer Sloan reported tothe Commission the conpletion of Route 2, Section 6, Burlington-Bridgeboro Section as completed by the Union Paving Company in 15% of their time. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission accepted the completed work on Route 2, Section 6, Burlington-Bridgeboro Section subject to final inspection by Commissioner Jelin, and authorized final payment thereon.

Route 2, Section 4.

State Highway Engineer Sloan reported the completion of Route 2, Section 4, Burlington Cut-Off as constructed by L. J. Sieling and recommended that the same be accepted on the part of the State. In this connection he also stated that the contractor was 20 days behind time in the completion of the work. Commissioner Jelin stated that in view of the fact that the roadway was a cut-off and did not interfere with the through traffic in Burlington, he moved that an extension of time be granted of fifteen days and that the work be accepted upon the part of the State. This was seconded by Mr. Stewart and adopted.

Route 13, Sec. 6, Bridges

State Highway Engineer Sloan reported the completion of bridges at M. P. 3.9, 5.7 and 7.9 on Route 13, Section 6, Lawrenceville-Princeton Section as constructed by L. J. Sieling, and he advised the contract time had been exceeded by 78½ days on this work. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved an extension of time to the date of completion for bridges at M. P. 3.9, 5.7 and 7.9 on Route 13, Section 6, and approved the acceptance and final payment on the work.

Route 13, Section 5

State Highway Engineer Sloan reported to the Commission the completion of Route 13, Section 5, Trenton-Lawrenceville Section and recommended that the same be accepted on the part of the State. Commissioner Jelin reported having inspected this road on several occasions, and he moved that the same be accepted on the part of the State and final payment authorized. This was seconded by Mr. Stewart and adopted.

Route 5, Great Meadows Grade Crossing Elimination

State Highway Engineer Sloan reported to the Commission that Route 5, Great Meadows Grade Crossing Elimination had been completed and recommended that the same be accepted on the part of the State. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission accepted the completed work on Route 5, Great Meadows Grade Crossing Elimination and ordered final payment to be made.

Route 16, Section 6

State Highway Engineer Sloan reported the completion of Route 16, Section 6, Passaic River-Morris Township Line Section to Chas. T. Kavanagh and advised that the contractor was 38 days behind time in the completion of the work. Commissioner Jelin stated that in view of the fact that Mr. Kavanagh was ahead of time on his previous contract he should be credited with the saving effected, and he moved that an extension of time be granted for 20 days on this work and that the work be accepted on the part of the State. This was seconded by Mr. Stewart and adopted.

Right of Way, Route 5, Sec. 13

Commissioner Jelin moved the approval of the following purchase agreements on Route 5, Section 13, Netcong:

Parcels	#26 & 27	Dr. P. Horridge,	consideration	$1.00
"	#36	Chas. & Nellie Jones,	"	1.00
"	#37	Chas. & May Estwick,		1.00

This was seconded by Mr. Stewart and adopted.

Right of Way, Route 7, Sec. 2

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the following purchase agreements for Route 7, Section 2, Anderson's Corner-Golf Course Section:

Parcel	#9-Q,	Joseph Edw. Lortie,	consideration	$190.00
"	20 & 22,	John P. L. Tilton Estate (Asbury Park Trust Co.)		1.00

Right of Way, Route 14, Sec. 10

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the following parcels of property on Route 14, Section 10, Seaville-Petersburg Section:

Parcels	#5 & 5-A,	Frank & Emma Conover,	consideration	$25.00
	#13 & 13-A, 13-B & 13 C	John & Anna Kirby,	"	$100.00
	14-	Louella S. Young,	"	100.00

Right of Way, Rt. 14, Sec. 11

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of the following parcels of property on Route #14, Section #11, Petersburg-Tuckahoe Section:

Parcels	#9,	Richard & Emma Voss	consideration	$80.00
	10,	Catherine Butler	"	58.00
	11 & 15	Isaac & Anna E. Butler,	"	100.00
	12	Clara V. & Jas. Ingersoll	"	24.00
	13	Wm. McKinley & Abigail Butler	"	24.00
	14	Albert C. Butler, widower	"	100.00
	18 & 18A	Ralph & Mary E. Wynn	"	600.00
	4	Julia A. Tomlin	"	25.00

Right of Way, Morgan
Grade Crossing - Route 4 -

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of Parcel #13 from Hugh Cottrell & Wife on Route 4 at the Morgan Grade Crossing Elimination for the consideration of $1,400.00.

Right of Way, Rt. 3, Sec. 11

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel #1 on Route 3, Sec. 11, Berlin-Hammonton (widening) from Fred Priestly & wife for the consideration of $685.00.

Right of Way, Rt. 10, Sec. 1-B

State Highway Engineer Sloan reported to the Commission that Right of Way Engineer Meeker had secured additional appraisals on Parcel #28 on Route #10, Section #-B, on the Property of Mrs. Carry Fuller, and he recommended that the original agreement of $1,500.00 be approved. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel #28 on Route #10 Section #1-B from Mrs. Carry Fuller for the consideration of $1,500.00.

Route 11, Sec. 9, Agreement

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and execution of an agreement with the Public Service Railway Company covering track work to be done and the method for financing same on State Highway Route 11, Sec. 9, Washington Avenue, Belleville.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the adoption of the following resolution authorizing and directing the Public Service Railway Company to relocate its tracks on Route 11, Section 9, Washington Avenue, Belleville:

> WHEREAS, in order to answer public necessities and convenience and to carry out plans for the improvement of Washington Avenue, between Second River and the Big Tree Car House of the Public Service Railway Co., in the Town of Belleville, County of Essex and State of New Jersey, a distance of nineteen thousand two hundred feet (19,200'), it is desirable that the tracks now maintained by Public Service Railway Company on said Washington Avenue between the points above stated, be removed and relocated from the side of said street where they are now located to the center of said street, all as shown on the map or plan made part hereof, entitled "Public Service Railway Company. Department of Maintenance of Way. Proposed relocation of tracks on Washington Ave. from Second River to Nutley Town Line, Belleville, N. J., " dated July 25, 1924 and numbered 20267-L.
>
> NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of New Jersey, that the said Public Service Railway Company be and it is hereby requested, directed and authorized to change the location of its street railway tracks and remove and relocate the same from the said Washington Avenue between the points above

set forth to the center of said Washington Avenue, in accordance with the foregoing recital, including any necessary change in the location of the poles and electrical conductors, and when said relocation shall have been done, then and thereafter the said Public Service Railway Company, its successors and assigns, so changing the location of its said tracks in accordance with this request, shall have the right to maintain and operate the same in the new location for as long a period as it had the right to maintain and operate its said tracks in their former location at the time of such relocation.

Route 6, Section 13, Agreement

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the acceptance of an agreement with the Township of Hopewell for extra work to be done in connection with the construction of Route 6, Section 13, Bridgeton-Marlboro Section.

Route 6, Section 13, Agreement

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the acceptance of agreement with Stoe Creek Township for extra work to be performed in connection with the construction of Route 6, Section 13, Bridgeton-Marlboro Sec.

Route 14, Grade Crossing

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of an agreement between the Atlantic City Railway Company and the State Highway Commission covering the elimination of grade crossing on Route 14, Petersburg-Tuckahoe Section.

Route 5, Sec. 13, Agreement

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the acceptance of agreement with the Borough of Netcong for the necessary additional work in connection with the paving on Route 5, Section 13, Budd Lake-Netcong Section.

Permits

State Highway Engineer Sloan presented a letter received by him from the Union Paving Company, contractors on the Absecon Boulevard, Atlantic County, requesting permission to place and operate a 24" industrial railway along the Putney Road in the town of Absecon and to cross Route 4 in Absecon about 500 ft. north of the point of intersection with the White Horse Pike. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of permission being granted to the Union Paving Company for the operation of an industrial railway in Absecon for a time not to exceed six months from the date hereof, said permission being subject to revocation and such other conditions as may be imposed by the State Highway Engineer, and also to contain a provision whereby the traveling public will be safe-guarded by providing that a man shall walk in front of the locomotive when it crosses Route 4.

Route 4, Detour

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that a report in connection with the use of King George's Road as a detour on account of the construction of Route 4 at Perth Amboy be referred back to the State Highway Engineer for further report.

Route 10, Section 1-A

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the disposal of the macadam pavement taken from Route 10, Section 1-A at Edgewater in such a manner that the Borough may have the use of same for sidewalk purposes by placing such cinders thereon as they desire.

Detour —

Lake Street Bridge, Metuchen, Rt. 1

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the following as the official detour during the construction of the Lake Street Bridge on Route 1 in Metuchen:

Detour until August 21st, 1924: Beginning on Route 1 at the intersection of Lake and Middlesex Avenues in Metuchen; thence (1) southwesterly along Middlesex Avenue to Amboy Avenue; thence (2) to the left and southeasterly to the road parallel with the Lehigh Vally Railroad Tracks; thence (3) along the same southeasterly to Route 1 at the intersection of Lake and Essex Avenues.

Detour After August 21st., 1924: Beginning on Route 1 at the intersection of Lake and Middlesex Avenues in Metuchen; thence (1) southwesterly along Middlesex Avenue across the overhead bridge over the Pennsylvania Railroad Main Line to Route 1 at the intersection with Essex Avenue.

Employments

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission ratified the following employments as made by the State Highway Engineer since the last meeting of the Commission:

Increase~~s~~

On recommendation of the State Highway Engineer, Commissioner Jelin moved approval of an increase in the compensation for Frederick Vollmer, Jr., Right of Way Agent, from $275.00 to $300.00 per month. This was seconded by Mr. Stewart and adopted.

Monmouth County Repairs

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award of contract by Monmouth County to the Asphalt Service, Inc., of New Brunswick, for SCO at 10½¢ per gallon.

Ocean County Repairs

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the award of contract by Ocean County to the Asphalt Service Inc., of New Brunswick, for SCO applied at 17½¢ per gallon.

East Front Street, Union County, Motor Vehicle Aid

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the award of contract by Union

County for East Front Street, Plainfield, Union County, Motor Vehicle Aid work.

Right of Way, Rt. 13, Sec. 4

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the acceptance of easement for drainage on Route 13, Section 4 at Nassau Street and Snowden Lane, Princeton, from Fisher, Mary W. and Hellen Howe for the consideration of $1.00.

Request for Aid

On recommendation of the State Highway Engineer, Commissioner Jelin moved that the application from the Colored Industrial School of Bordentown on Route 2 for the widening of the driveway entrance, be denied inasmuch as the facilities already existing appear to be sufficient to take care of the traffic.

Rejection of Plans, Cape May Co.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission rejected plans and specifications on the Seashore Road, Section 1, Cape May County, on account of lack of funds, in order that the County may proceed with the work in accordance with statute.

Rejection of Plans, Atlantic Co.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission rejected plans and specifications on Ventnor Avenue Extension in Atlantic County City of Margate and Borough of Longport, due to lack of funds, in order that the County may proceed with the work from its own funds.

Gloucester County Motor Vehicle Aid, Crown Point Rd., Section 6.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission accepted the completed work and ordered final payment to be made on Crown Point Road, Section 6, Gloucester County, Motor Vehicle Aid work.

Sullivan Way, Mercer Co. M. V. Aid

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award of contract by Mercer County for Sullivan Way, Mercer County, Motor Vehicle Aid work.

August 19, 1924.

Runnymede Road, Essex County
Motor Vehicle Aid

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the award of contract by Essex County, for Runnymede Road, Essex County, Motor Vehicle Aid work.

Sanford Avenue, Essex County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the award of contract by Essex County for Sanford Avenue, Essex County Motor Vehicle Aid work.

Cumberland County-M. V. Aid

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of specifications for the Mauricetown-Bridge Road and Mauricetown-Millville Road. Cumberland County Motor Vehicle Aid work.

East Main St., Booton,
Morris County, Motor Vehicle Aid

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the acceptance and final payment on East Main Street, Boonton, Morris County Motor Vehicle Aid work subject to final inspection by Chairman Kidde.

Riegelsville-Warren Glen Road,
Warren County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved an allotment of $2,000.00 to Warren County on account of the construction of the Riegelsville-Warren Glen Road to a width of twenty feet instead of eighteen feet, and that Warren County be billed for inspection services and for laboratory services to be furnished by the State on this work.

Warren County-Township Aid

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the award of contract by Pohatcong Township, Warren County, for the Carpentersville Road, Warren County.

Hunterdon Co.- Township Aid

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the transfer of $264.61 remaining to the credit of the Stockton-Rosemont Road to the Lambertville-

August 19, 1924.

Stockton Road. Delaware Township, Hunterdon County.

Atlantic County-Township Aid Transfer

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the transfer of $246.16 remaining to the credit of the Buena-Tuckahoe Road, Section 2, to the Buena-Tuckahoe Road, Section 3, both in Weymouth Township, Atlantic County.

Salem County-Township Aid

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the acceptance and final payment of the Garden Road, Pittsgrove Township, Salem County.

Camden County, Township Aid

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved acceptance and final payment on Central Ave., Winslow Township, Camden County.

Cape May Co., Township Aid

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the acceptance and final payment of the Cape May Court House-Dias Creek Road, Middle Township, Cape May Co.

Burlington Co.- Township Aid

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment of the Juliustown-Pemberton road, Pemberton Township, Burlington County.

Cumberland County-Township Aid

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved acceptance and final payment on Springtown - Roadstown Road, Greenwich Township, Cumberland County.

Warren County, Township Aid

Somerset Co.- Township Aid

On motion by Mr. Stewart, seconded by Mr. Jelin, the State

August 19, 1924.

Highway Commission approved of the Borough of Somerville proceeding with the construction of Rehill Avenue, Borough Aid work, with its own forces in accordance with the statements furnished by the Borough Engineer.

Essex Co.-Township Aid

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the Borough of Essex Fells proceeding with the construction of the Falls Road and Beach Tree Lane, Essex County, Borough Aid, with its own forces in accordance with the statements submitted.

Extensions of Time, Twp. Aid Work

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the following extensions of time on Township Aid work:

Laurelton-Allen Osborn's Bridge Rd., Brick Twp. Ocean Co., thirty days;
Washington-Oxford-Karrville Road, Section 2, Mansfield Township, Warren County, to July 23d, 1924.
Cedar Grove Road, Princeton Township, Mercer County, to July 14, 1924.

Hunterdon County,-Township Aid

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of an additional allotment from the Township Aid cancellation funds of the amount of $1,5000.00 for use on the Stockton-Sergeantsville Road, Delaware Township, Hunterdon County, Township Aid work, with the proviso that the Township will agree to properly maintain work already accomplished in that township.

Mercer Co.-Township Aid

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved plans and specification for Old York Road, Hamilton Township, Mercer County.

Middlesex County-Township Aid

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for Mill Lane Road, North Brunswick Township, Middlesex County.

Mercer County, Township Aid.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved plans and specifications for Mountain Ave., Princeton Township, Mercer County Township Aid, subject to approval of the State Highway Engineer before advertisement on this work.

Bergen County, Township Aid

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved award of contract by Hohokus Township, on the Wyckoff-Ramsey Road, Hohokus Township, Bergen County.

Phillipsburg-Belvidere Road,
Section 2. Warren County,
Federal Aid ~~Request~~

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the application of the Board of Freeholders of Warren County for Federal Aid on the Phillipsburg-Belvidere Road, Section 2, Warren County.

Sussex County, Motor Vehicle Aid

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment on the Lakeside Boulevard, Section 1, Sussex County, Motor Vehicle Aid Work, subject to final inspection by Commissioner Kidde.

Cape May County, M. V. Aid

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment on Roosevelt Boulevard, Section 2, Cape May County, Motor Vehicle Aid work.

Hainesburg-Columbia Road,
Warren County, Federal Aid

Assistant State Highway Engineer Reed reported to the Commission that he had received word from Warren County that bids had been obtained on the Hainesburg-Columbia Road, Federal Aid Project in Warren County,and that the Board of Freeholders would recommend award of contract to Salmon Brothers,the lowest bidders on this work. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved award of contract by Warren County for the Hainesburg-Columbia Road, Federal Aid Project #52, to Salmon Brothers of Netcong, N. J., at their low bid of $137,823.41.

Route 1, Jersey City Extension

State Highway Engineer Sloan presented to the Commission a report received by him from Mr. Fred Lavis, Assistant Engineer of

Construction on Route 1, Extension at Jersey City, inquiring as to whether the Commission desired to make any decision at this time concerning the use of bridges or tunnels over the Hackensack and Passaic Rivers, in order that he may determine what work is necessary for the preparation of plans and specifications. State Highway Engineer Sloan recommended to the Commission that high level bridges with a clearance of 40' be adopted for design by the Jersey City office, in view of the fact that the economics of the situation, as ascertained by the Advisory Board, will not justify the expenditures necessary for the construction of tunnels. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission authorized the preparation of plans and specifications for the construction of high level bridges over the Hackensack and Passaic Rivers with an underclearance of not less than 40'.

Hackensack River Bridge

State Highway Engineer Sloan presented to the Commission an outline of the proposed program to be placed before the War Department on August 20th, on the matter of the Lincoln Highway Bridge on the Hackensack River, and on motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the outline as presented by the State Highway Engineer and directed that proper replies of these arguments be made before the War Department by the Bridge Engineer of the Department.

Route 11, Section 9, Bridge

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of an agreement with the County of Essex for the additional work on a bridge between Newark and Belleville on Rt. 11, Section 9 at Belleville.

Construction Program, 1925

State Highway Engineer Sloan next requested a conference with the Commission on the matter of the 1925 road construction program. The Commission then went into conference on this matter, after which Commissioner Jelin moved that a copy of the program as presented by the State Highway Engineer, be forwarded to each of the Commissioners for study before the next meeting and that the

August 19, 1924.

Engineering forces be authorized to proceed at once upon the survey of Route 4 from Toms River south and on Route 8 from Newfoundland to Stickholm, pending approval of the final program.

On motion by Mr. Jelin, seconded by Mr. Stewart, Chairman Kidde was authorized to sign for the Commission all contracts, payments and other papers required to be executed until the next meeting of the Commission, due to the absence of Chairman H. L. Scott who is outside the State.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission adjourned at 5:30 P. M., to meet on the call of the Chairman.

Respectfully submitted,
A. LEE GROVER,
Secretary.

MINUTES OF MEETING - September 9, 1924

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, on Tuesday, September 9th, 1924.

Present: Messrs. Walter Kidde, Percy H. Stewart and
Abraham Jelin.

Absent: General Scott, who is on a trip through the West.

Commissioner Kidde moved the election of Mr. Stewart as Chairman pro tempore for this meeting. This was seconded by Mr. Jelin and Mr. Stewart called the meeting to order as temporary Chairman at 11:00 A.M.

Route 20, through Clayton

The Secretary informed the Commission that a delegation from the Borough of Clayton on State Highway Route 20, was present and desired a hearing. On motion, duly seconded, a hearing was granted. Senator Davis of Gloucester City, together with County Engineer Cattell, Mayor J. E. Potter of Clayton, and a number of citizens of Clayton, appeared and informed the Commission that in view of the proposed construction of Route 20 between Glassboro and Clayton, it was the desire of the Borough of Clayton to improve full width about one mile of the highway leading through the business portion of Clayton. Mayor Potter informed the Commission that the Borough was desirous of ascertaining what share of the cost the State Highway Commission would assume and whether it would be possible for the work to be done under the State contract and reimbursement to be made to the State for such widening as was to be borne by the municipality. State Highway Engineer Sloan informed the Commission that it was the purpose to improve a 22 foot paved width through the Borough of Clayton. Chairman Stewart then informed the delegation that in accordance with standards of the Department, the State Highway Commission would be willing to have such extra width done as the Borough of Clayton desired, providing a proper agreement was forwarded by the Borough of Clayton covering this matter. Senator Davis, as Counsel for the Borough, requested that the necessary standard form of agreement to be adopted by the Borough, be forwarded to him at the earliest possible date.

Route 6, Woodbury Trolley Tracks

Senator Davis took occasion to inquire as to what the possibilities were for the improvement of the trolley track area in Woodbury just below that work completed last year on Route 6. On motion by Mr. Kidde, seconded by Mr. Jelin, this matter was ordered referred to State Highway Engineer Sloan for study as to charter of the Street Railway Company and to give such cooperation to Senator Davis as was possible in order to investigate this situation.

Cross Keys-Williamstown Road,
Gloucester County

County Engineer Cattell presented to the Commission plans and specifications for the construction of the Cross Keys-Williamstown Road and requested State Aid thereon, or the rejection of same if State Aid could not be granted. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission rejected plans and specifications for the Cross Keys-Williamstown Road, due to lack of funds in order that the County may proceed from its own resources.

Route 13, Lawrenceville

The Secretary informed the Commission that Mr. Alfred W. Bogart was present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Bogart appeared and informed the Commission that the improvement of Route 13 at Lawrenceville had done him an injustice in that it had raised the grade of the road in front of his property to such an extent that access to his property was bound to be flooded unless he made an extensive fill and he asked for some relief from the Department. Chairman Stewart outlined to Mr. Bogart the law on this matter, which was to the effect that the State Highway Commission cannot be responsible for damage to property resulting from change in grade of existing highways. Mr. Bogart asked if there was any way in which he could be given the necessary fill for his property. State Highway Engineer Sloan advised that there was to be a widening accomplished on this road which may yield a small quantity of dirt and this would be given to Mr. Bogart.

Experimental Roads

The Secretary informed the Commission that Dr. Jacob G. Lipman, Director of the New Jersey Agricultural Experiment Station at New Brunswick, was present and desired a hearing. On motion, duly seconded, a hearing was granted. Dr. Lipman appeared and advised that following receipt of information from the State Highway Commission, That the Commission would be willing to expend $5,000 for experimental road work at the College Farm if the College authorities themselves would appropriate

$10,000, he had investigated the budget and found it would not be possible for the College authorities to appropriate more than $5,000 toward the work and he requested information as to whether the State Highway Commission would still be willing to maintain the ratio offer which would make the State's share $2,500. State Highway Engineer Sloan presented to the Commission a report prepared by him in connection with this experimental road work in which he recommended to the Commission that in the event the College authorities would be willing to improve the roads at the experimental station in accordance with macadam pavement under the direction of the State Highway Commission, he would experiment with the placing of slow c curing oil upon this macadam to see whether this would make a favorable improvement. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission authorized the expenditure of $2000 from State funds for experimental road work at the New Jersey Agricultural Farm under the supervision of the State Highway Engineer, this amount to be expended in conjunction with an appropriation by the New Jersey Agricultural Experimental Station of a sum not less than $4000.00.

Uniform Highway Methods

Dr. Lipman took occasion to address the Commission on the matter of establishing a standard specification for the improvement of roads within State Institutions. He advised that at the present time there was no systematic method of road improvement and that there was a chance for considerable saving in his opinion if the State Highway Commission would undertake to prescribe the type of improvement for each institution. State Highway Engineer Sloan informed the Commission that due to the various characters of soil in different parts of the State, it would not be possible to standardize the type of construction, but the various institutions, when there was any large amount of expenditure involved, were accepting the advice of the State Highway Department in almost every case. Commissioner Kidde cited the fact that when he was connected with the Board of Managers of the Glen Gardner Sanatorium the road work was done with the cooperation of the State Highway Department.

September 9, 1924.

Ramshorn Road - Wall Twp.,
Monmouth County

The Secretary informed the Commission that a delegation from Wall Township, Monmouth County was present and desired a hearing. On motion duly seconded, a hearing was granted, Mr. Henry C. Warwick, Township Clerk of Wall Township, appeared before the Commission and advised that a misunderstanding had arisen between the State Highway Projects Division and the Township Officers concerning the work being done on the Ramshorn Road under Township Aid Account. He advised, however, that this matter was now straightened out with Assistant State Highway Engineer Reed, the trouble having been that the Township had undertaken this work on a force account basis, but appeared to have awarded the same to a contractor, the reason for this,.he explained, was the fact that this contractor had accepted the work on the basis of acting as a supervisor and agreeing to perform two and one-fourth miles of improvement for the amount of money which the Township had available, namely, $8,000.00, and the Township would pay on a force account basis for the hire of labor, equipment and materials. Assistant State Highway Engineer Reed informed the Commission that there was no further action necessary on the part of the Commission.

Court Opinions

The Secretary presented to the Commission a communication received from the Assistant Attorney General, transmitting an opinion filed by the Chancellor in the matter of complaint made by John Goodavage, in which the Court stated that any action by Mr. Goodavage must take the form of a mandamus and is not a court of equity case. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the communication be received and placed on file with the departmental records.

Township Aid - Gloucester Co.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that a communication from Mr. R. M. Lipman, of Vineland, requesting additional township aid for Garden Road, Salem County, be filed with other requests received.

September 9, 1924.

Conventions

The Secretary presented a communication and telegram received by the State Highway Engineer from the American Association of State Highway Officials requesting representation at their convention to be held at San Francisco in November of this year. On motion by Mr. Kidde, seconded by Mr. Jelin, this communication was ordered held in abeyance until after Chairman Scott returns.

Signs

Commissioner Kidde stated that he was interested in ascertaining to what extent the counties of the State have expended the $2000 authorized for the placing of directionary signs throughout the State and he moved that a report on this matter be presented at an early date. This was seconded by Mr. Jelin and adopted.

Route 4, Toms River

The Secretary presented a communication and petition from residents of Waretown in Ocean County, petitioning the Commission not to change the line of Route 4, so that it will eliminate Waretown from the highway route. Commissioner Kidde stated that he had also been petitioned by two ladies concerning this matter. On motion by Mr. Jelin, seconded by Mr. Kidde, the petition was ordered received and placed on file.

Route 1- General

The Secretary informed the Commission that a Mrs. Silverman who was interested in placing a business stand on Lincoln Highway was present and desired information concerning the location for such a stand. Chairman Stewart directed that Mrs. Silverman take the matter up with State Highway Engineer Sloan.

The Schedule of Business was next taken up item by item as follows, with the recommendations of the State Highway Engineer:

Rt. 5, Sec. 13, Budd Lake-Netcong

There was presented bids received for the paving of Route 5, Section 13, Budd Lake-Netcong Section, with the recommendation that award be made to the Public Service Production Company of Newark at their's the lowest bid of $103,280.54:

Public Service Production Co.	$ 103,280.54
J. F. Chapman & Son	106,692.80
Charles T. Kavanagh	108,874.25

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the contract for the paving of Route 5, Section 13, Budd Lake-Netcong Section, be and the same is hereby awarded to the Public Service Prod. Company of Newark, New Jersey, at their's the lowest bid amounting to $103,580.54., and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 18, Sec. 1, Borough of Alpine

There was submitted the following report of bids received for the construction of Route 18, Sec. 1, Borough of Alpine. State Highway Engineer Sloan informed the Commission that the bids received were in excess of the estimate originally made for the work, but in view of the fact that the work is in small quantities and the urgent need for this improvement in connection with ferry traffic, he was prepared to recommend that the bids be accepted and the award be made to the lowest bidder, John J. McGarry, at $115,024.59:

John J. McGarry	$115,024.59
N. J. Construction Co.	122,269.92
E. C. Humphrey	122,829.70
Wm. C. Hall	123,567.44
T. J. M. Cont. Co.	124,959.12
George M. Brewster	128,162.70
Fleming & Sheppard Co.	129,322.10

Commissioner Kidde advised that he had received a communication from Mr. Manuel Rionda recommending that this work be held up for a longer section and also a communication from the Westchester Ferry Co. urging the immediate improvement of this work. State Highway Engineer Sloan also informed the Commission that comparing the prices received in this vicinity be Bergen County, the bid of the lowest bidder was not excessive and from the fact that there were seven bidders on this work, it appears that satisfactory competition had been established. Commissioner Jelin stated that he was sure that even were the work readvertised no lower prices could be secured and he moved that in view of the necessity for completing this work

September 9, 1924.

during this year, award be made in accordance with the following resolution:

> RESOLVED, that the contract for the construction of Rt. 18, Sec. 1, Borough of Alpine, be and the same is hereby awarded to John J. McGarry, of Edgewater, N. J., at ~~their's~~ his, the lowest bid amounting to $115,024.59, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

This was seconded by Mr. Kidde and adopted.

Mr. Schwartzstein of the Westchester Ferry Company was present and expressed his appreciation to the Commission for the proposed improvement.

Route 18 - General

Commissioner Kidde requested that the State Highway Engineer make report as soon as possible as to the line and grade for the further improvement of Route 18. State Highway Engineer Sloan advised that these matters are held at the present time due to right of way negotiations.

Route 8, - Mountain View

There was presented a report of bids received for the construction of approaches to the Mountain View Grade Crossing Elimination on Rt. 8, with the recommendation that award be made to the lowest bidder, the United Building & Construction Co., of Lodi, N. J., at $103,017.70, as follows:

United Building & Construction Co.	$103,017.70
Conrad Sebolt	106,737.95
T. J. M. Contracting Company	107, 418.60
Franklin Contracting Company	107,980.00
Public Service Production Company	109,055.11
Gerritson Construction Company	113,281.51
Stryker & Stryker	118,406.25
J. F. Chapman & Son	119,862.50
Weldon Contracting Company	128,824.18
Philip Kramer	129,538.75
W. A. Ferguson's Sons, Inc.	130,811.81
Tuller Construction Company	134,751.30
B. Franklin, Jr.	147,758.30
Jose Naples, Inc.	175,622.50

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the contract for the construction of approaches to the Mountain View Grade Crossing Elimination on Route 8, be and the same is hereby awarded to the United Building & Construction Co., of Lodi, N. J., at their's the lowest bid amounting to $103,017.70, and

September 9, 1924.

BE IT FURTHER RESOLVED that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Edison Pioneers Memorial

The Secretary informed the Commission that Mr. Van Orden, representing the Edison Pioneers Society, was present and desired a conference concerning a proposed monument to be erected at Menlo Park, New Jersey, on the Lincoln Highway in honor of Mr. Edison. Mr. Van Orden presented a sketch of the proposed monument which was to be a tall stone with a tablet thereon. Commissioner Kidde stated that there ~~would~~ could be no objection to this monument provided it would not interfere with State Highway improvement. State Highway Engineer Sloan informed the Commission that he had made recommendation to Mr. Van Orden concerning the method of making the approach to the monument in order that it would not conflict with further development of the highway. Chairman Stewart stated also that any arrangements made for the placing of the monument must necessarily be with the provision that the State Highway Commission reserves the right to remove the monument ~~at any time it feels necessary for~~ if road improvements necessitate such action. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the installation of monument at Menlo Park by Edison Pioneers, subject to approval of satisfactory plan by the State Highway Engineer.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission recessed for luncheon at 1:00 P. M. to meet in regular session at 2:30 P. M.

The meeting was resumed at 2:30 P. M. with the same members present as at the morning session.

Route 20, Glassboro-Clayton

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the advertisement for the construction of State Highway Route 20, Glassboro-Clayton Section, bids to be received on September 23d.

Route 8, - Reeves Bridge

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for the reconstruction of Reeves Bridge on Route 8, and authorized advertisement for the same.

Route 15, Menantico Creek Br.
Route 6, Alloway Creek Bridge

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for the reconstruction of Menantico Creek Bridge on Route 15, and authorized the advertisement for this work. State Highway Engineer Sloan explained that in view of the fact that Alloway Creek Bridge plans on Route 6 were not ready due to delay in War Department approvals, this work was substituted in the 1924 program.

Rt. 9, Sec. 14, County Line -
North Branch

State Highway Engineer Sloan reported the completion of Route 9, Section 14, County Line-North Branch Section. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that this section be referred to Commissioner Stewart for final inspection prior to acceptance.

Route 16, Sec. 5, South Somer-
ville-Woods Tavern

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that Route 16, Section 5, South Somerville-Woods Tavern be inspected by Commissioner Stewart before final acceptance.

Rt. 16, Sec. 6, Passaic River-
Morris Township Line

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the completed work on Route 16, Section 6, Passaic River-Morris Township Line, be inspected by Commissioner Kidde prior to final acceptance.

Route 5, Sec. 13, Budd Lake-
Netcong

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the completed paving work on Route 5, Sec. 13, Budd Lake-Netcong Section, be referred to Commissioner Kidde for final inspection before acceptance.

Right of Way - Route 2

State Highway Engineer Sloan presented to the Commission a bill in favor of Sarah A. Fleetwood et al. in the sum of $1,440.00, covering the removal of building on property obtained from them on work on Route 2, Section 4, through Burlington, due to the fact that there is difficulty in securing the signing of the deed, and the Attorney General has endorsed the bill for payment in order that the work may proceed. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the payment of $1,440.00 to Sarah A. Fleetwood et al. in accordance with the recommendations of the Attorney General's Department.

Right of Way - Route 6

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the acceptance of a deed for property of Edward A. & Blanch M. Foster, Route 6, Sec. 5, Shirley-Old Man's Creek Section, for the consideration of $225.00.

Right of Way - Route 5

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved revision of agreement for property of J. B. & Lewis R. Kamenour, on Route 5, Section 11, Delaware-Belvidere Section, due to change in line, a new right of way and easement for the construction of a retaining wall to be granted by Mr. Kamenour.

Right of Way, Route 3

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of property from the estate of Joseph Wharton, on Route 3, Section 11, for the amount of $100.00.

Right of Way - Route 14

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission authorized an offer of $400.00 to be made to Rinaldo & Roxanna Groome, for the acquisition of Parcel 16, Route 14, Sec. 11, Petersburg-Tuckahoe Section, and in the event of failure to accept, that the property be acquired by condemnation.

Right of Way - Route 5

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel 34, Route 5, Section 13, from A. P. Villa & Bros. Inc., for the consideration of $1.00, and directed that a letter of thanks be forwarded.

September 9, 1924.

Right of Way - Route 14

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property on Route 14, Section 10, Seaville-Petersburg:

Parcels 6 & 6-A,	Keike Nagatsuka,	$ 39.50
" 7 & 7-A,	Daniel Ott,	39.00
" 16.	Gaston Bosman,	1.00
" 17,	L. D. & Mary C. Bozarth,	46.00

Right of Way - Route 14

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the following parcels of property on Route 14, Section 11, Petersburg-Tuckahoe:

Parcels 1	Eliza D. & James Smith	$ 1.00
" 2 & 2-A,	Eliza D. & James Smith	116.00
" 3,	Mrs. Juliette Taylor,	800.00
" 19 & 19-A,	Wm. E. Massey & Reuben W. Edwards	100.00

Right of Way, Route 16,

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase Parcel 2, from Harry J. & Lillian D. Foskett, on Route 16, Section 6-A, Blaziers Corner-Van Dorans Mills. for the sum of $200.00.

Right of Way - Route 7

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of Parcels 32, 35, 38, 39, & 41, from N. J. Robbins, on Route 7, Section 3, for the sum of $1,600.00.

Right of Way, Route 7

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of Parcel 9-E, from James P. Clyne, on Route 7, Section 2, for the sum of $200.00.

Right of Way, Route 8

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of the following parcels of property on Route 8, Mountain View Grade Crossing Elimination:

Parcel #10, Mrs. Eva D. Suling,	consideration	$ 380.00
" #11, Alica B. Lathan,	"	350.00

Right of way - Route 4

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission authorized an offer of $100.00 to be made to Anna [illegible] for property on Route 4, Bass River Bridge and in the event of failure to accept, that the same be acquired by condemnation.

Right of Way, Route 3

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission authorized an offer of $100.00 to be made to Edward Miller and James Brearey, for property known as Parcel 4 on Route 3, Section 11, and in the event of failure to accept, that the same be acquired by condemnation.

Right of Way, Route 6

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission accepted an easement for drainage rights over parcel #2 on Route #6, Sec. #13, from Mrs. Carrie E. Davis, for the consideration of $20.00.

Abandonment of Route 4. -
Point Pleasant Beach

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolutions for the abandonment of unused portion of Route 4, on account of re-alignment through the Borough of Point Pleasant Beach in Ocean County:

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 4, from a point of Route 1, in or near Rahway, to Absecon, by way of Perth Amboy, Keyport, Middleton, Red Bank, Long Branch, Asbury Park, Point Pleasant, Lakewood, Toms River, Tuckerton and New Gretna, and

WHEREAS, in the construction and improvement of the said State Highway Route 4, Section 21 from Point Pleasant Beach to Laurelton, it has been found desirable to relocate a certain portion of the said Route for the betterment of the alignment, grade, etc., and,

WHEREAS, upon the construction of the said route and section of the revised line, there is a portion heretofore used as a part of the road before improvement which is no longer needed as a part of the improved State Highway.

NOW, THEREFORE, BE IT RESOLVED, by the State Highway Commission of the State of New Jersey, that the certain portion of State Highway Route 4, Section 21 as hereinafter described, be and the same is hereby abandoned as a part of State Highway Route 4, Section 21 and vacated in accordance with the provisions of Chapter 14 and 15 of the Laws of 1917 and the amendment thereto in Chapter 220, of the Laws of 1919.

Beginning at a point in the easterly side of Richmond Ave. and on the center line of Ocean Avenue in the Borough of Point Pleasant Beach; thence (1) along Ocean Ave. North fifty-eight degrees, eleven minutes and thirty seconds West (N 59° 11' 30"W) a distance of seven hundred twenty (720'+) feet more or less to a point, said point being sixty-six (66') feet from and measured at right angles to station 15+ 00 more or less on the new road as constructed.

September 9, 1924.

BE IT FURTHER RESOLVED that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Ocean County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate that portion of the old road as taken over May 1st., 1920, lying outside the limits of the acquired right of way of the new road as constructed between the easterly side of Richmond Ave. and sixty-six feet (66') southerly from Station 15+ 00 as shown on plan on file in the offices of the said State Highway Commission, at Trenton, N. J.

- - - - - - - - - - -

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 4, from a point on Route 1, in or near Rahway, to Absecon, by way of Perth Amboy, Keyport, Middleton, Red Bank, Long Branch, Asbury Park, Point Pleasant, Lakewood, Toms River, Tuckerton and New Gretna, and

WHEREAS, in the construction and improvemtnt of the said State Highway Route No. 4, Section No. 21 from Point Pleasant Beach to Laurelton, it has been found desirable to relocate a certain portion of the said Route for the betterment of the alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there is a portion heretofore used as a part of the road before improvement which is no longer needed as a part of the improved State Highway,

NOW, THEREFORE, BE IT RESOLVED, by the State Highway Commission of the State of New Jersey that the certain portion of State Highway Route 4, Section 21 as hereinafter described, be and the same is hereby abandoned as a part of State Highway Route 4, Section 21 and vacated in accordance with the provisions of Chapter 14 and 15 of the Laws of 1917 and the amendment thereto in Chapter [illegible]30 of the Laws of 191[illegible]:

Beginning at a point on the center line of Richmond Ave., as taken over May 1, 1920 from the Borough of Point Pleasant Beach, Ocean County, said point being at Station 8+ 63 more or less on the center line of Richmond Avenue (the tangent of Route 4, Section 21 as constructed) thence (1) along the said center line of Richmond Avenue South two degrees, thirty-four minutes and thirty seconds West (2° 34' 30"W) a distance of six hundred seventy feet (670') to the northerly side of Ocean Avenue.

BE IT FURTHER RESOLVEDthat a notice of this vaction be forwarded to the Mayor and Borough Council of the Borough of Point Pleasant Beach, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate that portion of Richmond Avenue as taken over May 1, 1920, lying outside the limits of the acquired right of way of the new road as constructed between station 8 + 63 and the northerly side of Ocean Avenue as shown on the plan attached hereto and on file in the offices of the said State Highway Commission at Trenton, N. J.

- - -

September 9, 1924.

Cheesequake Creek Bridge - Rt. 4

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission authorized the employment of the Strauss Bascule Bridge Company for the preparing of plans and specifications for Cheesequake Creek Bridge on the Morgan-Keyport Cut Off, Route 4, for the sum of $4,000.00, the estimated cost of the superstructure being $65,000.00

Scales -

Right of Way, Rt. 9, Bound Brook

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance by the State of a location on Vosseller Avenue, Bound Brook, for weighing scales of the Department from the Standard Oil Company Plant at Plainfield for the consideration of $1.00.

Route 8, Bloomingdale

State Highway Engineer Sloan presented to the Commission estimate of cost for the improvement at Union Square on Route 8 in the Borough of Bloomingdale, in order to relieve a serious traffic congestion. This estimate showed the total cost of the improvement at $38,179,35 and he recommended that the Borough of Bloomingdale be requested to share in this expense in view of the fact that it will be to a great extent, an improvement benefiting the Borough of Bloomingdale. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the matter be taken up with the Borough of Bloomingdale by the State Highway Engineer to ascertain what portion of the cost the Borough of Bloomingdale would be willing to expend in the event this improvement is carried out.

Route 5, Section 12.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission granted permission to Crilly & Cannon Const. Co., contractors on Rt. 5, Sec. 12, Netcong-Canal Culvert, to sublet the construction of curbs to Albert J. Wick & Son of Netcong, New Jersey.

Permits -

Route 16, Bernardsville

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission granted permission to the Borough of Bernardsville to close a portion of Route 16, in front of the Bernardsville Library on September 12, for the unveiling of a monument, provided the Borough will furnish sufficient men to properly direct traffic around the detour.

September 9, 1924.

Route 3, Hammonton

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission ordered a communication from the Atlantic City Chamber of Commerce, concerning the removal of trees on Route 3 at Hammonton, to be acknowledged and filed.

Grade Crossing Eliminations

On motion by Mr. Jelin, seconded by Mr. Kidde. the State Highway Commission directed that a communication from W. S. Fournier of East Orange, New Jersey, on the subject of grade crossing eliminations. be received and placed on file.

Route 7, Section 3

State Highway Engineer Sloan presented to the Commission a report from Assistant Construction Engineer Moore, on the possibilities of reducing the grade of the railroad on Route 7, Section 3, as brought before the Commission by Mr. John Hastie at its last meeting. This report brought out the fact that because the grade crossing of the railroad covering a distance of a mile, it will not be practicable for the railroad to drop the grade of its track in this distance and the State Highway Engineer recommended that the property necessary to affect a grade crossing elimination on Route 7, Section 3, be acquired at this time in order that the work on the crossing may be undertaken next year when funds are available, the railroad company to share 50% in the cost of the elimination. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission authorized the acquisition of property necessary for the elimination of grade crossing on Route 7, Section 3, and directed that Mr. Hastie be advised that the Commission has given consideration to his suggestion and has decided to proceed along these lines.

Hackensack River Bridge

State Highway Engineer Sloan presented to the Commission a copy of the proceedings of a hearing conducted by the War Department on the Hackensack River Bridge on Route 1. He read sections from this report in which Col. Newcomer acting for the War Department requested information from the State Highway Commission as to what they considered sufficient clearance for the Hackensack Bridge, which was to be rebuilt with a new draw. The Commission considered very carefully the nature of this reply and on motion by Mr. Kidde, seconded by Mr. Jelin, directed that Col. Newcomer be advised that the State Highway Commission is now preparing plans for a new bridge over the Hackensack River with a 40' clearance further up the river than the present structure; these plans will be submitted to the War Department at the earliest possible date. In the meantime, the State Highway Commission requests that Col. Newcomer agree to the rebuilding of the present State Highway Bridge as it was as first, namely, with a 14' clearance and the span to be increased as suggested, to 150', this request being made for the reason that upon the completion of the new bridge, the greater part of the traffic will be diverted to the new structure and it is the belief of the State Highway Commission that the bridge in its present location having been located there for many years and having served its purpose, will be ample until the new structure is completed.

Robert W. Hunt Co.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer for a change in the contract with the Robert W. Hunt Co., so as to include an item for the inspection of welded steel rod fabric at a price of $1.00 per ton.

Employments

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission ratified the following employments as approved by the State Highway Engineer since the last meeting of the Commission:

8-26-24	John Kandelky,	Bridge Designer	$ 250.	mo.
8-25-24	John R. Stubbins,	Office Engineer,	250.	
9- 1-24	Samuel H. Cohen,	Bridge Designer,	200.	
8-16-24	Max Ellis,	Rodman,	75.	
8-16-24	Rex. Bridgman,	Asst. Civ. Engineer,	150.	
8-16-24	Chas. G. Krueger,	" " "	165.	
8-25-24	John A. Whitehead, Jr.	Rodman,	90.	
8-25-24	L. R. Shellenberger	Ch. Bridge Designer	325.	
9-2 -24	John D. Suber,	Resident Engineer,	225.	
8-25-24	James R. MacBean,	Senior Draftsman,	190.	
9- 2-24	Emanuel L. Kapel,	Jr. Engineer,	125.	
8-26-24	Charles Doherty,	Office Boy,	40.	
9- 2-24	James V. Applegate,	Jr. Inspector,	125.	
8-25-24	W. A. Coleman,	Sr. Clk. Sten.	100.	
9- 1-24	H. E. Volckmann,	Bridge Inspector,	175.	
8-25-24	A. V. K. McGee,	Material Inspector,	125.

September 9, 1924.

Commissioner Kidde inquired as to the method of handling of the work of the Camden Approach and was informed by the State Highway Engineer that it was found necessary to establish a separate office in Camden under Mr. H. W. Giffin, as Division Engineer. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the work on the Camden Advisory Board Project be handled through a special Camden office on account of the importance of having the work done quickly instead of carrying the same through the Southern Division as originally authorized..

Exhibits

There was presented a report from William T. Campbell, Administrative Clerk, advising of the Benefit derived from the exhibit of the State Highway Department at the Flemington Fair. On motion by Mr. Kidde, seconded by Mr. Jelin, the report was ordered placed on file.

Township Aid-Eldora-Belle Plain

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved an application from Morris River Township for aid to the extent of $1,500.00 to complete guard rail on the Eldora-Belle Plain road, Cumberland County, Township Aid.

Township Aid Agreement-Somerset Co.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of Township Aid agreement for Rehill Avenue, Somerville Borough, Somerset County.

Township Aid Agreements, Burlington County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State High-Commission approved the following Township Aid agreements in Burlington County:

Chatsworth-Ocean Co. Line Rd., Sec. 1, Woodland Township
Marlton-Kresson Road, Evesham Twp.

Township Aid Force Account, Camden County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the Township Aid Force Account Agreement for Blue Anchor Bradley Sicklerville Road, Winslow Township Camden County.

September 9, 1924.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the following Township Aid Agreements in Cape May County:

Stepsons Island Road, Dennis Township.
Clermont Road, Dennis Township.

Township Aid Agreements-Cumberland County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved Township Aid Agreements for the following roads in Cumberland County:

Perry Island Road, Downe Township.
Turkey Point Road, Section 2, Downe Township.
Herring Row Road, Fairfield Township.

Twp. Aid Final Statements

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved Township Aid Final Statements on the following roads:

Bre[illegible] water Road - Lower Township, Cape May County.
Yank Walk Road, Commercial Township, Cumberland Co.
Canton-Greenwich Road, Greenwich Township, Cumberland Co.
Cumberland-Port Elizabeth Rd., Maurice River Twp., Cumberland County.
Daretown-Woodstown Road, Upper Pittsgrove Twp., Salem Co.
Washington-Oxford-Harmville Road, Mansfield Twp., Warren Co.
Laurelton - Allen Osborne Bridge Rd., Brick Twp., Ocean County.

Township Aid Agreement-Salem Co.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved Township Aid Agreement for Daretown-Woodstown Road, Pilesgrove Township, Salem County.

Township Aid

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for the following Township Aid work:

Lawn Park Ave., Lawrence Twp., Mercer County.
Stockton-Sergeantsville Rd., Sec. 2, Delaware Twp., Hunterdon County.
Middletown-New Monmouth Rd., Middletown Twp., Monmouth Co.
Stewartsville-Bloomsbury Rd., Greenwich Twp., Warren Co.
Morris Ave. from Wood Ave. to Woodlawn Ave., Linden Township, Union County.

Township Aid - Transfer

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the transfer of the balance of $5,500 from Cranford Avenue to Morris Ave., Linden Township, Union County.

September 9, 1924.

Township Aid-Award of contracts

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the following Township Aid contract awards:

Neptune Township, Monmouth County, Bangs Avenue.
Linden Twp. Union County, Morris Ave. from Wood Ave. to Woodlawn Ave.
Clementon Twp., Camdon County, on Erial Road.
North Brunswick Twp., Middlesex County, Mill Lane, Section 2.

Crestmoor Bridge and Approaches

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved plans and specifications for Crestmoor Bridge and approaches, Hunterdon County, Motor Vehicle Aid.

East Broad St., Westfield,
Union County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the award of contract by the Town of Westfield, for East Broad Street, Westfield, Union County, Motor Vehicle Aid.

Prospect Ave., Essex County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of award of contract by Essex County for Prospect Ave., in Verona and So. Orange, to the Jannarone Cont. Co.

Extension of Time-Cape May Co.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of extension of time granted by Cape May County on Roosevelt Boulevard, Section 2, for 45 days.

Township & Borough Aid, Essex Co.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the Force Account Agreement for Fells Road and Beach Tree Lane, Essex Fells Borough, Essex County, work done with Township and Borough Aid.

Borough of Roselle

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of a resolution by Union County withdrawing application for aid on the improvement of West Grand Street and First Ave., in the City of Elizabeth and Borough of Roselle, this work to be done at the entire expense of the County and the funds apportioned for this work to be used for ordinary maintenance and repair work in accordance with achedule as filed by the County, further directing that the sum of $10,000 be paid from the County apportionment direct to the town of Westfield for work done in Westfield.

Rt. 4, Traffic Beacon-Ocean Co.

State Highway Engineer Sloan presented to the Commission a report from the Superintendent of Maintenance, advising of correspondence had with the Road Committee of the Township of Union, in Ocean County, following request made by the State for the removal of a traffic Beacon erected by Union Township in the center of State Highway Route 4, at Barnegat. He advised the Commission that the Township still refuses to remove the signal even though instructions to this effect have been given by the department. He recommended to the Commission that in view of the fact that this beacon stands on State Highways and causes a nuisance thereon, the Commission should authorize the removal of the beacon by the Maintenance Department. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that a written notice be given the Township, requesting the removal of this beacon within three days and if not complied with, that the MaintenanceDepartment proceed to remove the beacon in accordance with directions of the Attorney General.

Route 1, Highland Park

State Highway Engineer Sloan informed the Commission that there was also an encroachment on Route 1, at Highland Park,by the installation of a gasoline filling apparatus at the curb line in front of Taylor Bros. Garage, just west of Duclos Avenue, Highland Park on Rt. 1. Chairman Stewart requested the opinion of the Attorney General concerning the removal of gasoline stations and he read therefrom that proper remedy for encroachments upon the highway would be to have a court of equity compel its removal on information by the Attorney General by means of an injunction. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Attorney General be requested in accordance with the report of the State Highway Engineer to obtain the necessary injunction for the removal of a gasoline station in Highland Park, on Route 1.

Route 16, Section 6

State Highway Engineer Sloan presented to the Commission a communication from Charles T. Kavanagh, contractor on Route 16, Section 6, Passaic River-Morris County Line, protesting a~~t~~ deduction made by the State on account of overrun on his contract. He also advised that there was an error in the total over-due charge against his contract, ~~H~~his total overrun being 36 instead of 38 days. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission ordered the communication received and a correction made in the amount of penalty against this contract from 18 to 16 days.

Shore Route, Morgan-Keyport

State Highway Engineer Sloan informed the Commission that in order to proceed with the improvement of the shore route relief line between Morgan and Keyport, the necessary hearing for the adoption of a line should be held within a short time. Commissioner Kidde moved that such a hearing be authorized to be held in South Amboy on Thursday September 18, at 3:00 P.M., at the City Hall, and directed that the Secretary make arrangements accordingly. This was seconded by Mr. Jelin and adopted.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission authorized Mr. Stewart, Chairman pro tempore, to sign all contracts and other necessary papers requiring signature on behalf of the State Highway Commission until the next meeting of the Commission.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting adjourned at 5:30 P.M. to meet in regular session on Tuesday, September 16th, at 10:30 A. M.

Respectfully submitted,
A. LEE GROVER,
Secretary.

MINUTES OF MEETING - September 16, 1924.

A regular meeting of the State Highway Commission was held at the office of the Commission, Broad Street Bank Building, Trenton, on Tuesday, September 16, 1924.

Present: Mr. [illegible], Mr. Percy H. Stewart and
Mr. [illegible] Julin.

Absent: Chairman [illegible] L. [illegible] on a trip to the West.

Commissioner [illegible] nominated Mr. Stewart as Chairman pro tempore, in the absence of Chairman [illegible]. This was seconded by Mr. Julin, and Mr. Stewart called the meeting to order at 10:30 A.M.

Millville-Port Norris Road,
Cumberland County, Federal Aid.

The Secretary informed the Commission that Mr. Roscoe Ward, County Engineer for Cumberland County was present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Ward appeared and advised that the [illegible] is ready to complete the construction of the Millville-Port Norris Road, if the State Highway Commission would agree to the expenditure of Federal Aid on this improvement. Assistant State Highway Engineer [illegible] explained that the County had improved [illegible] of this road, leaving about nine miles of gravel road [illegible] to be [illegible] with a [illegible] pavement. Commissioner [illegible] informed Mr. Ward that the State Highway Commission has sufficient [illegible] in the State Highway Construction Program to apply all of the Federal Aid for 1925, and when Federal Aid is approved for county roads it is [illegible] to secondary improvements, and really amounts to a [illegible] allowance of $[illegible] per mile. Mr. Ward explained the urgent need for this improvement on account of the large oyster industry which is carried on [illegible] during the winter season. After further discussion, Chairman Stewart advised Mr. Ward that the matter would be taken under consideration, and the County would be advised of any action taken by the Commission.

White House-Flemington,
Hunterdon County-Motor Vehicle Aid

The Secretary informed the Commission that a delegation from Hunterdon County was present and desired a hearing. On motion, duly seconded, a hearing was granted. There appeared Mr. Frank Davis, County Engineer of Hunterdon County, Mr. [illegible] Director of the Board of Freeholders, Mr. [illegible], County Road Supervisor, and Freeholder [illegible]. Chairman [illegible] requested that County Engineer Davis outline the requests of the County. Mr. Davis informed the Commission that the County had undertaken the surface treatment of the White House-Flemington Road, and the Flemington-Frenchtown Road, with the State's assistance to the extent of $30,000 from the Reserve Motor Vehicle account. He advised that the Flemington-Frenchtown Road has been completed with a saving, while the Whitehouse-Flemington Road would require $5,000.00 additional funds due to a change made in the character of tar material used, which results in a better improvement for the county. Assistant State Highway Engineer Reed informed the Commission that after the contracts had been awarded by the County for these roads, the State Inspector suggested that the County use Grade X tar instead of Grade B. This was acceded to and in this manner the funds were not sufficient to cover the entire contract. Commissioner Jelin suggested that since the State was paying 50 per cent of the cost of the improvement, there should be an allotment of $2,500.00 from State funds to cover the excess and he moved accordingly. This was seconded by Mr. Kidde and adopted.

Signs

Mr. Dilts, Director of the Hunterdon County Board of Freeholders, requested information from the Commission as to the type of signboard which would be approved for erection throughout the County. He explained that in addition to the standard approved by the State Highway Commission, and County Engineers' Association, the County of Somerset was erecting an arrow sign which seemed to meet with favor. Commissioner Kidde stated that in view of the fact that a standard sign had been adopted, it should be adhered to by the counties. Chairman Stewart stated that since the arrow was generally used as a detour designation, the standard orange and black sign should be used by the counties.

Route 9-Detours

Director Dilts also informed the Commission that the Oldwick Road, used as a detour for construction about North Branch, was in need of repairs, and asked that the Maintenance Division go over the same. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that the matter be referred to the State Highway Engineer for investigation and report.

September 16, 1924.

Route 9, Section 14.

Chairman Stewart advised the Commission that in company with Division Engineer Robbins he had made final inspection of Route 9, Section 14, County Line-North Branch section, and he would recommend acceptance by the Commission. In connection with this he called attention to the fact that the guard rail appeared to be placed too close to the shoulder of the roadway, and that this matter was being investigated. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the acceptance of Route 9, Section 14, and authorized final payment.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that the Maintenance Division make an inspection of the guard rail placed on Route 9, Section 14, to ascertain its location with respect to the completed highway.

Route 16, Section 5.

Chairman Stewart advised the Commission that in company with Division Engineer Robbins, he had made final inspection of Route 16, Section 5, South Somerville-Woods Tavern section, and would recommend final acceptance. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the acceptance of Route 16, Section 5, and directed final payment to be made.

Route 9, Section 14, and
" 16, " 5.

Chairman Stewart informed the Commission that the contractor on Route 9, Section 14, and Route 16, Section 5, was J. F. Chapman & Son of Hillside, New Jersey, and he desired to have it recorded that the work was completed much in advance of the scheduled time and was done in a first class manner.

Shore Relief Routes

The Secretary presented to the Commission a communication received from the South Amboy Chamber of Commerce, expressing the desire that the hearing as arranged for the shore route between Morgan and Keyport be in the evening, rather than at 3 P.M. as advertised. Commissioner Jelin informed the Commission that he had been approached by members of the Commerce Chamber with this request, and he had informed them that it should be brought before the Commission, since the hearing would include representations from all the municipalities along the line of the route. Chairman Stewart suggested that a communication be forwarded to the South Amboy Chamber of Commerce, advising that the time has been duly advertised and it will be more advantageous to those coming in from outside of South Amboy to travel during the day, and also for the Commission to go over the ground. He further suggested that they be permitted to present any plans they may have for alternate routes at this hearing. On motion by Mr. Jelin, seconded by Mr. Kidde, a communication covering these suggestions was adopted.

Width of Roadway

The Secretary presented to the Commission an opinion received from Hon. Edward L. Katzenbach, Attorney General of the State, advising as to the width of roadway which must be clear of obstructions in accordance with the State Highway Act. On motion by Mr. Jelin, seconded by Mr. Kidde, the opinion was ordered spread in full on the minutes of this meeting, and a copy forwarded to all interested parties in Hammonton on Route 3.

Trenton, N. J., Sept. 10, 1924.

Hon. Percy H. Stewart,
Chairman pro tem, State Highway Commission,
Broad Street Bank Building,
Trenton, New Jersey.

Dear Sir:-

I have your letter of the 9th instant, requesting my opinion as to whether your Commission is warranted in constructing a road under the State Highway Act, the total width of which will be less than thirty feet.

Section 6 of Chapter 14 of the Session Laws of 1917, as amended by Chapter 220 of the Laws of 1919, provides, inter alia, as follows:

> "In all cases the width of the pavement shall be at least eighteen feet and the total width of the roadway shall be at least thirty feet, except at bridges, culverts or grade crossings, where the width of the roadway shall be of such width or widths as the State Highway Commission may deem necessary and determine. All sharp turns and angles and railroad grade crossings shall be eliminated wherever practicable."

It will be observed that the language in respect to the width of the pavement and the total width of the roadway is mandatory, leaving a descretion in the Commission only in respect to such portion of the road as shall be crossed by bridges, culverts or grade crossings, where the width shall be such as the Commission may deem necessary and shall so determine.

September 16, 1924.

Answering specifically, therefore, your first inquiry, I am clearly of opinion that your Commission is not authorized to construct a roadway of a less width than thirty feet, under the statute which I have just cited.

My answer to your first inquiry, it seems to me, necessarily answers your second inquiry, namely, that the total width of the road must be at least thirty feet. This, it seems to me, necessarily requires a clear roadway of the width designated, and if there are any obstructions in the proposed roadway, such as trees, in my judgment, they must be removed. Only in respect to the width of bridges, culverts or grade crossings may the Commission, in my judgment, prescribe a less width than thirty feet as the total width of the road.

It may be well to consider the propriety of asking the Legislature to amend the act, so as to require the total width of all roads to be at least thirty feet whenever practicable, but allowing some discretion to vary the same under certain circumstances.

I am

Very truly yours,

Edward L. Katzenbach,
Attorney General.

B/S

Invitation

The Secretary presented a communication from State Treasurer Wm. T. Reed, concerning the invitation of the municipalities of Bayhead and adjoining towns as recently extended, advising that due to the illness of the Chairman of the Committee arranging for the dinner, it would have to be postponed indefinitely at this time. On motion, duly seconded the communication was ordered received and placed on file.

Route 4, Waretown

The Secretary presented a communication from Everett R. Barrett, of Waretown, New Jersey, concerning the proposed re-alignment of State Highway Route 4 in the vicinity of Waretown. On motion by Mr. Stewart, seconded by Mr. Jelin, the communication was ordered acknowledged and placed on file.

Appointment, Fred Lavis

The Secretary presented a communication from the Civil Service Commission advising of the classification of the position of Assistant Engineer on the proposed Route 1 Extension at Jersey City, in the exempt class of the classified Civil Service and approved of the appointment of Mr. Fred Lavis to the position at a salary of $6,000.00 per annum. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication was ordered received and placed on file.

Request for Aid-
Detours, Somerset County

The Secretary presented a communication from the Board of Chosen Freeholders of Somerset County forwarding resolutions adopted by the

Board requesting that the State Highway Commission appropriate funds for the restoration of roads in the county used as detours during State Highway construction, even though these roads were not made official detours. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the Secretary advise the Board of Freeholders of Somerset County that the State Highway Commission can expend funds only upon such roads as are officially designated as State Highway detours.

Request for aid, Somerset County

The Secretary presented a resolution from the Board of Chosen Freeholders of Somerset County requesting aid to the extent of $150,000 for the purpose of permanently improving the Easton Turnpike leading from Bound Brook to New Brunswick in Somerset County. On motion by Mr. Kidde, seconded by Mr. Jelin, this resolution was ordered received and placed on file with request for aid.

Route 7, Corlies Avenue

The Secretary presented a communication from the Board of Commissioners of Bradley Beach, New Jersey, expressing pleasure for the completion of Route 7, Corlies Avenue, and requesting that this road be continued to Freehold in the next year. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered received and placed on file.

Route 18, Right of Way

The Secretary presented to the Commission a copy of communication received by Major Welsh, Manager Interstate Palisades Park Commission, from the Estate of Wm. Walter Phelps, in which there was stated that due to the absence of Captain Phelps and Senator Johnson on vacations, the meeting of the Directors of the estate has been postponed until some time in October. On motion by Mr. Kidde, seconded by Mr. Jelin, the Secretary was directed to acknowledge this communication and thank Major Welsh for the same.

Invitation

The Secretary presented an invitation from the Texas Company to have the State Highway Commission at its convenience give the first viewing to a motion picture film showing the work performed on the

Trenton-Princeton Section, on Route 13, as prepared by that company. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that the Secretary express its ~~delight~~ pleasure in having this film brought before the Commission at an early meeting.

The Schedule of Business was next taken up item by item with the recommendations of the State Highway Engineer as follows:

Rt. 10, Section 1A, Arcadian Way-Fort Lee Ferry

State Highway Engineer Sloan reported the completion of Route 10, Section 1A, Arcadian Way-Fort Lee Ferry, and recommended the same for final inspection and acceptance. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission directed that the inspection of this road be referred to Commissioner Kidde before final acceptance.

Right of Way, Rt. 18, Sec. 1

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the acceptance of purchase agreements for the following parcels of property on Route 18, Section 1, in the Borough of Alpine, Bergen County, and directed that a letter of thanks be sent to the grantors:

Parcel #8, Ellen G. & Manuel E. Rionda, consideration $1.00 plus resetting of existing fence;
" #9, Alberta R. Miles, consideration $1.00;
" #10A, 10B, 10C. 10D, 10E, Kate Miles Estate, consideration $1.00;
" #10, Myra B. Sickles, consideration $1.00 plus 36 ft. of cast iron pipe to be placed across the road 3 feet deep.

Route 4, Morgan Grade Elimination Cut-Off

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property on Route 4, at the Morgan Grade Crossing Elimination Cut-Off:

Parcels #2 A, & 2B, Morgan Heights Land Co. consideration $1500.00
" #3A, & 3B, Whitehead Brothers, Co., " 1000.00

Route 16, Section 6A

On motion by Mr. Jelin, seconded by Mr.Kidde, the State Highway Commission unanimously adopted the following resolutions for the abandonment of unused portion of Route 16, Secion #6A:

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway, in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 16, from Princeton to Morristown by way of Harlington, Belle Mead, South Somerville, Somerville, Pluckemin, Bedminster, Far Hills, Bernardsville and Van Dorn's Mills; and

WHEREAS, in the construction and improvement of the said State Highway Route 16, Section 6A, from Bernardsville to Passaic River, it has been found desirable to relocate certain portions of the said route for the purpose of betterment of the alignment grades, etc.; and

WHEREAS, upon the construction of the said route and section on the revised line, there remain certain portions heretofore used as a part of the road before improvement which are no longer needed as a part of the improved State Highway,

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portions of State Highway Route 16, Section 6A, as hereinafter described, be and the same are hereby abandoned as a part of said State Highway Route 16, Section 6A, and vacated in accordance with the provisions of Chapter 14 and 15 of the Laws of 1917 and the amendments therto in Chapter 220 of the Laws of 1919, said abandoned portions including all that unused portions of the old highway, the center line of which is described as follows:

BEGINNING at a point in the center line of Mount Kemble Avenue, as taken over May 1, 1920, between the Somerset-Morris County line and Morristown, said point being located in the Passaic River, in the boundary line between the Counties of Somerset and Morris, said point being also one hundred thirty-five (135) feet more or less distant normally from the center line at Station 109+67, more or less, on the new road as constructed; thence, in a northeasterly direction along the old center line, a distance of four hundred twenty-eight (428) feet, more or less, to a point thirty-three (33) feet distant normally from the center line at Station 114+00, more or less, on the new road as constructed;

It being the intention of the State Highway Commission to abandon and vacate those unused portions of the old road as taken over May 1, 1920, lying outside the limits of the 66-foot right-of-way of the new road as constructed between Station 109+67 and Station 114+00.

BE IT FURTHER RESOLVED, that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Morris County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

- - - - - - - - - - - - - - -

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway, in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 16, from Princeton to Morristown by way of Harlington, Belle Mead, South Somerville, Somerville, Pluckemin, Bedminster, Far Hills, Bernardsville and Van Dorn's Mills; and

WHEREAS, in the construction and improvement of the said State Highway Route 16, Section 6-A, from Bernardsville to Passaic River, it has been found desirable to relocate certain portions of the said route for the purpose of betterment of the alignment grades, etc.; and

WHEREAS, upon the construction of the said route and section on the revised line, there remain certain portions heretofore used as a part of the road before improvement which are no longer needed as a part of the improved State Highway.

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portions of State Highway Route 16, Section 6-A, as hereinafter described, be and the same are hereby abandoned as a part of said State Highway Route 16, Section 6-A, and vacated in accordance with the provisions of Chapter 14 and 15 of the Laws of 1917 and the amendment thereto in Chapter 220 of the Laws of 1919, said abandoned portions including all those unused portions of the old highway, the center line of which is described as follows:

"BEGINNING at a point in the center line of the North and the South road as taken over May 1, 1920, between the Somerset-Morris County Line and Somerville; said point being located in the Passaic River, in the boundary line between the Counties of Somerset and Morris, said point being also one hundred thirty-five feet (135') more or less distant normally from the center line at Station 109 plus 67, more or less, on the new road as constructed; thence, along the center line of the said North and South road in a general southwesterly direction to a point at Blaziers Corner, said point being thirty-three (33) feet normally from the center line at Station 36 plus 15, more or less, on the new road as constructed;

"It being the intention of the State Highway Commission to abandon and vacate those portions of the old road as taken over May 1, 1920, lying outside the limits of the acquired right of way of the new road as constructed between Station 36 plus 15 and Station 109 plus 67."

BE IT FURTHER RESOLVED that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Somerset County, the governing body having jurisdiction over the road at the time of its being taken over as a State highway.

Route 3, White Horse Pike-Hammonton

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that a communication from the Linwood Chamber of Commerce, protesting against the removal of trees in the widening of the White Horse Pike in the vicinity of Hammonton and urging the Woolsey Mill Road as an alternate, be ordered received and placed on file.

Route 3, White Horse Pike-Hammonton

On motion by Mr. Kidde, seconded by Mr. Jelin, a resolution from Atlantic County Board of Freeholders on the matter of the widening of the White Horse Pike in the vicinity of Hammonton and recommending the Woolsey Mill Road as an alternate, was ordered received and placed on file.

Proposed Routes-Black Horse Pike

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that a communication from the Atlantic County Board of Chosen Freeholders, in which a proposed route via the Black

Horse Pike was suggested as a secondary route for the relief of the White Horse Pike, be received and held under advisement at this time.

Request for Aid-
Middlesex County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that a resolution from the Township Committee of the Township of Woodbridge, Middlesex County, concerning the damaged condition of pavement on King Georges Road used as detour on the construction of Route 4, be held under advisement at this time.

Employments

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission ratified the following appointments as approved by the State Highway Engineer since the last meeting of the Commission:

9/8 /24	Sigvald Johannesson,	Ch. Bridge Des.	$ 325. mo.
9/8 /24	Robt. F. MacPherson,	Rodman,	90.
9/15/24	Chas. B. Franklin,	Sr. Draftsman,	150.
9/15/24	Wm. J. Browne,	Jr. Insp.	125.
9/15/24	Sylvan E. Jackson,	Eng. Draftsman,	125.
9/15/24	Clifford Wear.	Clerk Typist,	80.

Hourly Basis Employments

9/15/24	Wm. B. Gamo,	Mechanic,	.60 hr
9/4 /24	Sheldon DeBaun,	Garage Assistant.	.45
9/11/24	Anthony Muschal,	" "	.45
9/8 /24	Ernest Gray,	" "	.45
9/5 /24	Chas. W. Minchu,	" "	.45

Discontinued Employments, Monthly Basis

9/15/24	Walter J. Callahan,	Laboratory Assistant,	Resigned

9/15/24	Charles Doherty,	Office Boy,	"
9/15/24	Chas. L. Blodgett,	Material Inspector	"
9/20/24	H. N. Kramer,	Sr. Clk. Sten.	"

Increase, R. B. Gage

Commissioner Jelin brought to the attention of the Commission the matter of compensation being paid to R. B. Gage, State Chemist who is now receiving $600 per annum as extra compensation in addition to salary received from the Department of Conservation & Development, for acting as head of the State Laboratory, where tests on State Highway road materials are made and he moved that an increase of $25.00 per month be made in Mr. Gage's compensation, effective this date. State Highway Engineer Sloan informed the Commission that in view of the volume of work being handled at the Laboratory, he would recommend this action to the Commission. This was seconded by Mr. Kidde and adopted.

Advisory Board - Camden

Commissioner Kidde informed the Commission that during the past week he had made an inspection of the office conditions at Camden in connection with the work being done on the Camden Advisory Board Project.

Motor Vehicle Aid, Hudson Co., County Road.

State Highway Engineer Sloan submitted to the Commission a report of bids received by Hudson County for County Road. Motor Vehicle Aid work and advised that one bid for sheet asphalt had been received by the County and he was prepared to recommend that the County be permitted to make award to the Clinton Asphalt Company for this work at a price which was below the engineer's estimate of cost. Commissioner Kidde stated that he believed his price of $1.95 per sq. yd. for sheet asphalt was excessive and that greater competition should be secured. Commissioner Jelin stated that he believed that the amount of work was small and there was difficulty in securing bidders on the work and he moved that the matter be held over until the next meeting for further information. This was seconded by Mr. Kidde and adopted.

Burlington Co. Road Maintenance & Betterment Schedule

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the Burlington County Road Maintenance and Betterment Schedule for 1924, the same having been held up until this time due to action necessary be the County on the New Lisbon-Four Mile Road.

Grade Crossing Elimination, Rt. 7

State Highway Engineer Sloan informed the Commission that acting upon request of the Public Utility Commission, he had appeared before them to discuss with them the matter of grade crossing elimination by various railroads throughout the State and they had expressed the desire to have the Pennsylvania Railroad Company proceed with some elimination at once and it was their suggestion that the grade crossing on Route 7 at Jerseyville be undertaken. He recommended to the Commission that the section of road of Route 7, which includes the Jerseyville grade crossing elimination be approved since it was understood that the Railroad Company would pay for the elimination work provided the State Highway Commission would build the approaches, On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the State Highway Engineer be authorized to negotiate with the proper officials of the Pennsylvania Railroad Company looking toward the elimination of grade crossing on Route 7 at Jerseyville, and that an early report of progress in this matter be presented with a statement of the cost involved.

Route 4, Rahway-Keyport

State Highway Engineer Sloan presented to the Commission the Federal Aid Project Statement for the allotment of Federal Aid on the improvement of Route 4 between Rahway and Keyport, which would take in the proposed shore route Advisory Board Project between Morgan and Keyport. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that Federal Aid be requested on the improvement between Rahway and Keyport on the basis of the road work only which would be $15,000 per mile.

Maintenance Materials-Atlantic County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of specifications by Atlantic County for Lignin Binder, application of asphaltic cutback on the Pleasantville Boulevard; and Gravel with surface treatment on tar in Hammonton.

Storm Sewer-Cranbury Township

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Township of Cranbury be advised that the State Highway Commission will contribute 50% of the cost of a storm sewer to be constructed in Cranbury Township, but unless the Township can show some particular advantage in the letting of the contract in the name of the Township, the State Highway Commission desires to let this contract.

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission recessed for luncheon at 1:00 P.M. to meet in regular session at 2:30 P. M.

September 16, 1924.

The Commission reconvened at 3:00 P.M. with the same members present as at the morning session.

Inland Waterway Bridge, Route 4, M. P. 66.6

State Highway Engineer Sloan informed the Commission that the Inland Waterway Bridge on Rt. 4, at M.P. 66.6 was now ready for final inspection. On motion by Mr. Kidde, seconded by Mr. Jelin, the final inspection of this bridge was referred to Commissioner Jelin.

Passaic River-Rt. 16 - Bridge 74, M. P. 32.2

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved an extension of time for 36 working days for the Hoffman Construction Co., on the construction of Bridge 74 at M.P. 32.2, on Route 16, Passaic River at Van Doren's Mills.

Rt. 13, Sec. 6, Lawrenceville-Princeton

State Highway Engineer Sloan presented to the Commission correspondence from the Utility Construction Company, making claim for repair of granite block pavement in Lawrenceville in the amount of $291.10 on Route 13, Sec. 6. There was also presented a report from the Construction Engineer advising that the contractor has not a valid claim for this work. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the recommendation of the Construction Division be approved and that the claim be denied.

Weighing Scales

State Highway Engineer Sloan presented to the Commission a proposed location for State Highway scales between Highland Park and Rahway, on property now owned by the State. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the scale location as presented by the State Highway Engineer between Highland Park and Rahway as shown on map submitted. In this connection, State Highway Engineer Sloan advised the Commission that subsequent to action taken at the meeting, it was found that property offered by the Standard Oil Company at Bound Brook for the location of the weighing scales was to be taken by a sign, this necessitating the removal of the scale location on the same tract, but in another location. On motion by Mr. Kidde, seconded by Mr. Jelin, the State

Highway Commission approved of the revision of location of weighing scales at Bound Brook on the property of the Standard Oil Company as presented on map by the State Highway Engineer.

Publications

The Secretary presented to the Commission a pamphlet forwarded by Law Librarian, John P. Dullard, entitled "Federal Subsidies to the State." On motion by Mr Kidde, seconded by Mr. Jelin, the manuscript was ordered received and placed on file.

Construction-General.

State Highway Engineer Sloan offered for the view of the Commission a chart upon which was indicated the progress on State Highway road construction in such a manner that there was visible the amount of progress specified up to date and the actual construction completed by the contractors.On all but two jobs the average completion showed work to be almost 50 percent completed beyond the actual time specified in the contract. Commissioner Kidde suggested that a similar chart be arranged for bridge work for the Commission.

The Commission next went into conference on several important matters.

Chairman, pro tem.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission authorized Mr. Stewart to serve as Chairman pro tempore until the next meeting and to sign such contracts and other papers as necessary.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission adjourned at 5:45 P.M. to meet in regular session on Tuesday, September 23rd at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - September 23, 1924.

A regular meeting of the State Highway Commission was held at the office of the Commission, Broad Street Bank Building, Trenton, on Tuesday, September 23, 1924. The meeting was called to order at 11:00 A.M. by Chairman H. L. Scott.

Present: Chairman, Gen. H. L. Scott, Messrs,
Percy H. Stewart, Walter Kidde and Abraham Jelin.

Route 4, Toms River

State Highway Engineer Sloan presented to the Commission plans for a recommended line for Route 4, through Toms River, which question has been under consideration by the Commission for some time past. He informed the Commission that it was now possible to secure the right of way necessary at a reasonable cost and the Dover Township authorities had approved of the highway passing across a corner of Huddy Park. He recommended that the Commission give authority for this line. Commissioner Kidde stated that in view of the fact that the Commission has obtained such favorable contracts for right of way and in view of the fact that the authorities of Dover Township have given permission for the crossing of Huddy Park, and has donated the right of way, and for the further reason that the State Highway Commission can eliminate two grade crossings in taking the River Road rather than the road which is now used in Berkeley, he would move that the recommendations of the State Highway Engineer adopting a line for Route 4 through Toms River by moving the Hotel property on Main Street and going through Huddy Park and then along the river, be adopted and that the State Highway Engineer be advised to work out final plans and advertise for the work as early as possible. This was seconded by Mr. Stewart and adopted.

Right of Way-Route 4

State Highway Engineer Sloan recommended to the Commission the approval of purchase agreement for property known as Parcel #1 on Route 4 through Toms River, from James R. Henseler, this price being based upon estimates received for the moving of the building and restoring it to its present condition. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcel #1 on Route 4 through Toms River, from James R. Henseler for the consideration of $10,000.

September 23, 1924.

State Highway Engineer Sloan presented to the Commission with his recommendation an agreement for the purchase of property from George W. Holman, Jr., known as Parcel #2 on Route 4, Toms River section, this involving the moving of a hotel property. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel #2 on Route 4 from George W. Holman, Jr. and Jennie Holman for the sum of $22,000.

Route 1 Extension-Jersey City

State Highway Engineer Sloan presented to the Commission a preliminary sketch of location for viaduct over the railroad yards on the line of Route 1 Extension in Jersey City and requested that authority be given for borings on Route 1 Extension through Jersey City for the purpose of ascertaining the engineering details. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the advertisement for bids for borings to be made on Route 1 Extension in Jersey City.

Right of Way-Route 16

Commissioner Kidde reported that he had taken up the matter of reconveyance of property on Route 16 at Blazier's Corner to the Scudder Estate and he ~~could advise~~ had learned that this arrangement ~~was~~ seemed to be entirely satisfactory.

Addresses-Commissioner Kidde

Commissioner Kidde informed the Commission that on two occasions since the last meeting of the Commission, he had addressed groups of citizens on the Highway situation; once at Asbury Park speaking before the Hotel Association Convention and also at Orange, New Jersey, speaking before the New England Association. He advised that there appeared to be ~~intense~~ interest in the ~~road situation~~ work of the Commission.

Route 3, Hammonton - Trees

The Secretary presented a communication from Hon. T. C. Elvins, Mayor of Hammonton, advising the Commission that it was generally understood by the people of Hammonton that eventually the trees on Route 3 would have to be removed in line with an opinion from the Attorney General, forwarded to him by the Commission. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication was ordered received and placed on file.

September 23, 1924.

Route 4, South Amboy

The Secretary presented a communication from the P. R. R. together with an itemized claim covering the expenditures made by that company on the construction of road in South Amboy from Bridge Street, Merchantville Road to Broadway and Main Streets involving a total expenditure of $36,017.55. The Secretary explained that this claim was made for the purpose of completing an agreement between the railroad company and a former State Highway Commission, wherein the State Highway Commission had agreed to pay to the railroad company the sum of $6,907.00 for land and in addition $18,000.00 for part expenses of the railroad company in eliminating grade crossings on the roadway which was taken by the State for Route 4 through South Amboy and in avoiding the "Hole in the Wall". On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that this matter be laid on the table at this time.

Institutional Roads

The Secretary presented a communication from Hon. D. S. Voorhees, President of the Board of Managers of the New Jersey State Hospital at Morris Plains, forwarding a resolution adopted by the Board of Managers, requesting the State Highway Commission to improve the main driveway leading from the entrance to the property of the New Jersey State Hospital at Morris Plains to the Administration Building, a distance of about three-quarters of a mile. The Secretary informed the Commission that under an interpretation of the Attorney General, the act relating to roads to State Institutions did not give the Commission authority to improve roads within the grounds of any institution but could only be for the improvement of roads leading to State institutions. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the Secretary advise the Morris Plains Board of Managers to this effect, and also to forward several copies of the standard specifications for the assistance of the Morris Plains Board in the event they desire to improve this section from their own funds.

Advisory Board-Camden

The Secretary presented a communication from the Pensauken Township Board of Trade, requesting an early hearing on the matter of the

Crescent Boulevard in the vicinity of Camden. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the Secretary advise the Pensauken Board of Trade that the Commission is now having surveys prepared and as soon as it reaches a point where the matter can be discussed, the Commission will be very glad to hold a hearing.

Insurance-Liability

State Highway Engineer Sloan informed the Commission that a number of inquiries had been received from men driving State Highway cars as to whether they would be allowed to carry liability insurance in view of the recent decisions which have attached severe sentences upon automobile drivers who have been in accidents. The Secretary informed the Commission that this matter had been forwarded to the State House Commission some time ago, but that no advice has been received up to this time. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the Secretary make inquiry from the State House Commission as to what disposition can be made in the matter.

Route 20, Section 1

The Secretary informed the Commission that bids had been advertised to be received to-day at 12:00 o'clock, Daylight Saving Time, for the construction of the Glassboro-Clayton section of Route 20 (South). He advised that it was now time to receive these bids. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission meeting was recessed for the receipt of bids and for luncheon. Bids were received for Route 20, Section 1, as follows:

Charles T. Kavanagh	$ 188,792.35
Freehold Cont. Co	189,275.78
William Eisenberg	193,338.83
E. Riley Mixner Co	194,570.82
Sutton & Corson Co	203,262.75
Public Service Production Co	203,426.19
Michael Staub	208,018.40
Acchione & Canuso Paving Co	214,142.90
T. M. Gibbs Const. Co	217,809.75
Union Paving Co	229,180.19

The regular meeting was resumed by the State Highway Commission at 3:00 P.M. with the same members present as at the morning session.

State Highway Engineer Sloan recommended to the Commission that award of contract be made to Charles T. Kavanagh, the lowest bidder on Route 20, Section 1, Glassboro-Clayton section, as per bids received before recess for luncheon.

September 23, 1924.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 20, Section 1, Glassboro-Clayton section, to Charles T. Kavanagh of Bayonne, New Jersey, at his the lowest bid received in the amount of $188,792.35, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 3 Widening-Hammonton

Commissioner Jelin informed the Commission that he would prefer that no action be taken in the matter of the widening of Route 3 through Hammonton until suitable legislation had been requested from the Legislature, and he moved that that section of Route 3 through Hammonton, wherein the trees are to be removed in the widening of the road be eliminated from the contract now under way, and that the Legislature be requested at the forthcoming session to amend the existing highway statutes in order that the State Highway Commission may exercise its discretionary powers on the matter of the width of roadway in the same manner as prescribed for bridges, culverts and grade crossings. This was seconded by Mr. Kidde and adopted.

The Schedule of Business was next taken up with the recommendations of the State Highway Engineer, as follows:

Route 16, Section 7.

Report was made that Route 16, Section 7, Bayard Lane, Princeton, was completed and ready for final acceptance. Chairman Scott advised that he had inspected this work and recommended that final acceptance be made. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the acceptance and final payment on Route 16, Section 7, Bayard Lane, Princeton.

Route 8, Section 4-A, Bridges

Report was made that bridges at M. P. 21.9, 22.6 and 23.2 on Route 8, Section 4-A, as constructed by Thomas Sheahan, were completed and ready for final inspection. Commissioner Jelin reported having inspected this work and moved that these bridges be accepted and that final payment be made. This was seconded by Mr. Stewart and adopted.

Route 5, Section 13.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission granted permission to the Public Service Production

Company, contractors for the construction of Route 5, Section 13, Budd Lake-Netcong section, to sublet the earth excavation, rock excavation, sub-base, and removal of trees to the Culp Construction Company of Dover, New Jersey.

Route 4-
Morgan Grade Crossing Elimination

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the advertisement of bids to be received for the approaches to the Morgan Grade Crossing Elimination on Route 4, Section 25-A.

Route 7,
Jerseyville Grade Crossing

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of an agreement to be executed with the P.R.R. for the elimination of the Jerseyville Grade Crossing on Route 7.

Hackensack River Bridge

State Highway Engineer Sloan presented to the Commission a copy of a letter forwarded by him to Col. Newcomer of the War Department under date of September 16th, concerning the proposed repairs to the Hackensack River Bridge and also the matter of proposed new bridges with clearance of 40 feet. He also presented to the Commission a reply received from Col. Newcomer, in which he advised that he has forwarded to the War Department, with recommendation for approval, the proposed repairs and reconstruction to be made to the Lincoln Highway Bridge over the Hackensack River, with only a slight change in the matter of clearance under the lift span. On motion by Mr. Kidde, seconded by Mr. Stewart, the communication was ordered received and placed on file.

Right of Way-Route 8

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel #7 on Route 8 at the Mountain View Grade Crossing elimination from Joseph Rigets for the consideration of $2,000.00, said purchase rescinding former action taken for the condemnation of this property.

Right of Way-Route 18

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel #12 on Route 18, Section 1 in the Borough of Alpine, from Joseph C. Brownstone for the consideration of $1.00 with the thanks of the Commission.

Route 9-Detours-
Oldwick Road, Hunterdon County

State Highway Engineer Sloan presented to the Commission a report on the Oldwick Road, Hunterdon County, concerning which the Board of Freeholders had complained at the last Commission meeting, in which report it was explained that the work of cleaning of ditches on this road has been completed and that they are now at this time in better condition than they were at the time the road was taken over as a State Highway detour. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received and placed on file.

County Road, Hudson County

State Highway Engineer Sloan re-submitted to the Commission the report of bids received by Hudson County on County Road, Motor Vehicle Aid work, and advised that further study of the bids received appeared to justify award to the Clinton Asphalt Company, since they were the lowest bidders. Commissioner Kidde advised that he was not yet sure that the Commission should approve a bid which amounted to $1.95 for sheet asphalt even though the total bid was below the Engineer's estimate of cost. Commissioner Stewart stated that he felt that if he thought the bid had been unbalanced only by lowering the cost of the other items and placing the profit on the asphalt surface there should be no objection to the award being made. After further discussion, Commissioner Kidde moved that the matter lay over for one week. This was seconded by Mr. Jelin and adopted.

Employments

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission ratified the following employments as made by the State Highway Engineer since the last meeting of the Commission.

9-22-24	Wm. M. Eidson,	Engineer Draftsman	$ 140.00 mo.
10-1-24	Sol Eichelbaum,	Rodman	90.00

Mercer County-Township Aid Transfer

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the transfer of $9,200.00 from Franklin Corner Road to Lawn Park Avenue, Mercer County, Township Aid.

Extension of Time-Salem County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of an extension of time from August 1st to August 11th and from August 29th to October 1st on Pennsgrove-Pedricktown, Section 2; Pedricktown-Woodstown, 1st Section, and Salem-Hancock's Bridge Road, 1st Section, Salem County, Motor Vehicle Aid work.

Extension of Time-Sussex County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of an extension of time to July 1st, 1924, on the Hainesville-Montague Road, Sandyston Township, Sussex County, Township Aid.

Township Aid-Sussex County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the final inspection of the Newton-Swartswood Road, Hampton Township, Sussex County, be referred to Commissioner Kidde prior to final payment.

State Aid-Cape May County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the acceptance and final payment of Grassy Sounds Bridge, Cape May County State Aid work, which was completed by the bonding company on account of default of the contractor, said acceptance carrying with it an extension of time such as granted by the County of Cape May to June 1st, 1924.

Township Aid-Cumberland and Warren Counties

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved acceptance and final payment on the following Township roads:

Heislerville Road, Maurice River Township, Cumberland County,
Hazen-Cornish Road, White Township, Warren County,
Brass Castle Road, Washington Township, Warren County.

Township Aid-Sussex County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission ordered the final inspection on Hainesville-Montague Road, Sandyston Township, Sussex County, Township Aid, referred to Commissioner Kidde before final payment is made.

Township & Borough Aid-Cape May County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the revision of Dennis Township Aid Force Account agreement on the Clermont Road and on the Stepsons Island Road by the insertion of the price of $2.50 per hour for Fordson Tractor, including operator, fuel, etc. for time actually used.

Township Aid-Cumberland County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the application and agreement for Township Aid on the Eldora-Belleplain Road, Maurice River Township, Cumberland County, Township Aid.

Township & Borough Aid-Camden County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of Township Aid Force Account agreement on the Williamstown-New Freedom Road, Winslow Township, Camden County, Township and Borough Aid.

Township & Borough Aid-Warren County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the action of Greenwich Township Committee of Warren County in rejecting only one bid received on the Stewartville-

Bloombury Road, since it was felt that more favorable proposals could be secured in the Spring.

Township Aid-Monmouth County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of plans and specifications for the Elton-Adelphia Road, Section 1, Freehold Township, Monmouth County, Township Aid.

Township Aid-Hunterdon County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of award of contract on the Stockton-Sergeantsville Cut-off, Delaware Township, Hunterdon County-Township Aid .

Township Aid-Warren County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the award of contract on the Hope-Johnsonburg Road, Frelinghuysen Township, Warren County, Township Aid.

Township Aid-Hudson County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of a resolution granting extension of time on the Bulls Ferry Road, North Bergen Township, Hudson County, Township Aid.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the completed work on the Bulls Ferry Road, North Bergen Township, Hudson County, be inspected by Commissioner Jelin before final acceptance is made.

Bridgeton-Port Norris Road

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the application by Cumberland County for Federal Aid to be applied on the Bridgeton-Port Norris Road be denied in view of the fact that these funds are needed for State Highway construction.

Federal Aid-Passaic County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for the construction of the Hewitt-New York State Line Road, Passaic County, Federal Aid funds having already been set aside for this work.

September 23, 1924.

Signs

State Highway Engineer Sloan presented to the Commission a report submitted by Assistant State Highway Engineer Reed on the work being done by the counties of the State on cautionary and directionary sign installations. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that a copy of this report be sent to each Commissioner for information and study.

Route 5, Section 13.

Commissioner Kidde reported having inspected the completed grading contract on Route 5, Section 13, Budd Lake-Netcong section, and he moved that the same be accepted and that final payment be made. This was seconded by Mr. Stewart and adopted.

Route 10, Section 1-A.

Commissioner Kidde advised that he had inspected the completed work on Route 10, Section 1-A, Arcadian Way-Fort Lee Ferry and he was prepared to move acceptance but desired to call the attention of the Commission to the fact that certain portions of this work were not given a proper finish and contain uneven joints, and he would request that more careful attention be given to the finishing of work at the joints by the contractors and that the inspectors be directed to this end. He moved the acceptance and final payment on this work. This was seconded by Mr. Jelin and adopted.

Commissioner Stewart stated that he also has noticed a roughness in certain portions of work completed by contractors in the State and he suggested that this matter be taken up by the State Highway Engineer for an investigation of the inspection made on the finish of the work. State Highway Engineer Sloan explained that broom finish for concrete pavement on grades was being used and that he was studying as to whether this method of finishing should not be applied to all concrete construction. However, the roughness of joints and badly finished surface must be avoided.

Bluff Road Property

Commissioner Kidde informed the Commission that he had visited the property on Bluff Road and had not yet seen any display of markers or fence setting off State Highway property. State Highway Engineer Slogn advised that this matter was now being taken up and that light posts with wire fences would be erected around the property of the State.

September 23, 1924.

Right of Way-General

Commissioner Stewart informed the Commission that he had taken up with the Attorney General since the last meeting of the Commission the matter of condemnations awaiting legal completion and he would offer the following resolution for adoption by the Commission:

> WHEREAS, there is considerable legal work in this Department such as the preparation of papers in condemnation proceedings and the trial thereof, which require the constant attention of counsel therefor,
>
> NOW, THEREFORE, BE IT RESOLVED, that the Attorney General of this State be requested to name and designate an Assistant Attorney General to be assigned to this Commission to take care under the supervision of the Attorney General of the legal work of the said Commission at a salary at the rate of $5,000.00 per year, to be paid by this Commission.

This was seconded by Mr. Kidde and unanimously adopted.

Route 2, Rancocas Creek Bridge,
Route 4, Cooper Bridge,
Route 15, Tuckahoe River Bridge.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission authorized the filing of plans with the War Department for its approval on new bridges over Rancocas Creek on Route 2, Cooper Bridge on Route 4, and Tuckahoe River Bridge on Route 15.

Route 10, Ridgefield.

Commissioner Kidde advised that on a section of Route 10, through Ridgefield, he was pleased with the results being obtained on a section of State Highway where one-half inch of sheet asphalt was placed upon rough concrete work, and he suggested that study be made in order that such a surface may be used in other locations when it is deemed expedient so to do.

Maintenance-Highway-General

Commissioner Stewart requested information concerning the gravel roads which have been treated with SCO for the first time. State Highway Engineer Sloan advised that there are certain stretches where very satisfactory results had been obtained such as in Gloucester County, while in Burlington County the Mathis Highway results had not been so satisfactory. He attributed this, in a great measure, to the fact that the surface of the roadway was not uniformly shaped in all places and the material stood up best where the roadway was given the best shaping and preparation.

September 23, 1924.

Motor Vehicle Aid-Sussex County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the award of contract for the Sparta-Woodport Road, Sussex County, Motor Vehicle Aid work.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission adjourned at 5:30 P.M. to meet in regular session on Thursday, October 2nd, 1924, at 9:15 A.M., the meeting to recess at noon in order that the Commissioners might attend the Inter-State Fair at Trenton.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - October 2, 1924.

A regular meeting of the State Highway Commission was held in the offices of the Commission, Broad Street Bank Building, Trenton, on Tuesday, October 2, 1924. The meeting was called to order at 11:30 A.M. by Chairman Scott.

Present: General H. L. Scott, Chairman, and Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

The Secretary informed the Commission that no hearings had been arranged for this meeting.

Inmate Labor

State Highway Engineer Sloan requested authority from the Commission for permission to negotiate with the Department of Institutions & Agencies for the continuation of the work on Route 4, South of Toms River, with the inmates of the State Prison now working on the section between Lakewood and Toms River. Commissioner Kidde stated that in view of the fact that the Department of Institutions & Agencies already had an organization capable of doing the work located in the vicinity, he would move that authority be granted to the State Highway Engineer to enter into negotiations with the Department of Institutions & Agencies looking toward a contract for the construction of approximately six miles South of Toms River, a formal contract to be presented to the State Highway Commission for approval. This was seconded by Mr. Stewart and adopted.

Institutional Roads.

Commissioner Kidde advised that he had received a communication from the authorities of the Rahway Reformatory requesting that repairs be made to the road leading to the Reformatory, and he moved that the Maintenance Division be authorized to make the necessary repairs in line with the policy of the Commission to maintain highways leading to State Institutions. This was seconded by Mr. Stewart and adopted.

Commendations-Detours-Route 13.

The Secretary presented a communication from the Board of Freeholders of the County of Mercer, commending the State Highway Commission for the manner in which the detour, by way of Brunswick Pike during the construction of Route 13, was maintained and returned to the County after the completion of the State Highway Route. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission ordered the communication received and acknowledged with thanks.

Trolley track paving-
Route 1 Greenwood Ave., Trenton.

The Secretary presented a communication from the Trenton & Mercer County Traction Corporation, requesting an extension of one year for payment to the State of the amount due on account of advances made by the State Highway Commission for track work on Greenwood Avenue, a section of Route 1. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved an extension of time for reimbursement to the State by the Trenton & Mercer County Traction Corporation for a period of one year, providing proper interest is paid the State and further that a bond be furnished by the Traction Corporation guaranteeing this payment to the State.

Motion Pictures-Route 13.

The Secretary presented a communication from the Texas Company advising that it has arranged to show the motion picture of the Lincoln Highway work between Princeton and Trenton on Route 13, at Keith's Capitol Theatre on Tuesday, October 7th at 12:30 P.M. and invited the State Highway Commission to view this picture and take lunch with the representatives of the company. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the communication be acknowledged with the information that the Commission will be very glad to view the picture, but on account of the fact that on Tuesday, October 7th there will be a short Commission meeting, it will be impossible to arrange to take lunch at that time.

Advisory Board-Shore Relief Routes

The Secretary presented a resolution from the Board of Freeholders of Middlesex County recommending a change in the location of the Shore Relief Route from that proposed by the Advisory Board to a line by way of Cheesequake Road and Rose's Corner. On motion by Mr. Stewart, seconded by Mr. Jelin, the resolution was ordered received and filed for further consideration.

October 2, 1924.

Equipment-Highway Department

The Secretary presented a communication from Custodian John A. Smith of the State Capitol, requesting that the Commission loan trucks sufficient to haul crushed stone needed on the State Capitol grounds, which will result in a saving to the State. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that Mr. Smith be advised that the State Highway Commission will be glad to furnish such trucks as are necessary for this work.

Request for Hearing

The Secretary presented a communication from Mr. John Boyd Avis requesting an opportunity to appear before the Commission for a hearing on the matter of proposed work through Mullica Hill, New Jersey. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that arrangements be made for a hearing to be given Mr. Avis on October 14th, 1924.

Request for Hearing

The Secretary presented a communication from the Eatontown Township Committee, requesting ahearing in connection with the construction of Route 4 at that point. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that a hearing be arranged for October 14th, 1924.

Request for Aid-Union County

The Secretary presented a communication from the Township of Union in Union County, requesting aid in the repair of Chestnut Street used extensively by the contractors during the construction of Route 5 at that point. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the Secretary advise the Township of Union that the Commission regrets that it has to advise that under the law it cannot aid such work unless it is designated as an official detour, which was not the situation in this case.

The Schedule of Business was next taken up for consideration item by item as follows, with the recommendations of the State Highway Engineer:

Route 12, Section 3.

There was reported the final completion of Route 12, Section 3, Phillipsburg-New Village section, Warren County reimbursement work completed on June 15th, 1923, and on which the final payment was withheld for one year in lieu of maintenance bond. The Secretary explained that this procedure was invoked in view of the fact that the original contractors have dissolved their corporation. Mr. Jelin reported having inspected this work and moved that the same be accepted and final payment authorized. This was seconded by Mr. Stewart and adopted.

Passaic River Bridge-Route 16.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission referred the final inspection of the Passaic River Bridge at M. P. 32.2 on Route 16 to Commissioner Kidde.

Route 6, Woodbury

State Highway Engineer Sloan presented a report of the condition of the pavement through the City of Woodbury on Route 6, concerning which Senator Davis of Gloucester County appeared before the Commission at a previous meeting. He informed the Commission that a conference on the matter was held by the officials of the Public Service Railway Company, which has a double track on this street, Construction Engineer Bedwell and Senator Davis, and he was prepared to recommend that the Commission request the Public Service Railway Company to remove their double track between Salem Avenue and Newton Street, a distance of approximately 2300 feet, through the congested part of the town, said tracks to be replaced with a single track in the center of the road, to be installed together with granite block pavement at the sole expense of the railway company, the State at the same time to properly pave the remaining portion which was occupied by the two tracks and to patch the existing bituminous surface of the remainder of the roadway which forms part of the State Highway Route 6, the total expense to the State being estimated at $20,000.00 and to the railway company at $25,000.00. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the recommendation of the State Highway Engineer and authorized proceeding with this reconstruction work from maintenance funds in the event a proper agreement is reached with the Public Service Railway Company.

Extension of Time-Route 8.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway

October 2, 1924.

Commission approved of an extension of time of 24 working days to Thomas Sheahan on bridges at M. P. 21.9, 22.6 and 23.2 on Route 8, Section 4, in view of the fact that the contractor was interfered with in his work by the authorities of the City of Newark.

Detours-Routes 6 and 15.

State Highway Engineer Sloan presented a report together with statements from Cumberland County covering the cost of detour maintenance on Sections 2 and 3 of Route 15, and Sections 10 and 11 of Route 6, and he recommended to the Commission that in view of the fact that the records of the State Highway Department show that the county was authorized to maintain these detours with the understanding that the said cost would be reimbursed as part of the contract cost although there were no records by which the expenditures could be checked. He advised, however, that in view of the fact of the mileage involved, the total cost of $28,391.25 appeared to be a reasonable charge. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the matter be held over for later consideration.

Sidewalks - Route 1.

St. George Avenue, Linden.

State Highway Engineer Sloan presented to the Commission a report together with a plan as submitted by the Linden Township Committee for the placing of curb, gutter and wing pavement on St. George Avenue, between Cranford Avenue and the B. & O. Railroad, and he recommended to the Commission that in view of the proposed work by the Linden Township Committee, now was the time to have curbs and sidewalks established on a proper alignment corresponding with the approval of the State Highway through this section. He recommended to the Commission that the Township of Linden be advised that the pavement and sidewalks shall be established on proper alingment at least 20 feet from the center of the State Highway pavement to the curb at every point and the State will bear the expense of constructing curbs and gutters and additional width of pavement at a point where there is a question as to the right of way, the amount of State funds involved being estimated at $1,050.00, all other work to be done at the expense of the Township. Commissioner Stewart stated that this particular point was a very necessary one to be corrected and he would move that the conditions as recommended by the State Highway Engineer be forwarded to the Township Committee and that the State authorize the expenditure of $1,050.00 for additional work necessary. This was seconded by Mr. Jelin and adopted.

Signals-
Route 10, Ridgefield Park Crossing.

State Highway Engineer Sloan presented to the Commission a communication from the Village of Ridgefield Park on Route 10, advising that the village is ready to maintain and operate an overhead danger railroad crossing signal provided the State will pay for the cost of the installation amounting to $260.00. State Highway Engineer Sloan recommended that this must be done. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the installation of a railroad crossing signal as recommended, at a price not exceeding $260.00, said signal to be maintained and operated by the village of Ridgefield Park.

Bass River Bridge-Route 4

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission denied the request of the residents of the Village of New Gretna as contained in a communication presented, that certain portions of the old bridge over Bass River be left in place.

Employments

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission ratified and approved the following employments and promotions as made by the State Highway Engineer since the last meeting of the Commission:

10-1-24	Samuel J. Singer,	Jr. Inspector,	$125.00 mo.
10-16-24	Wm. E. Clark,	Title Searcher,	150.00

Laid Off.

9-30-24	R. C. Fiedler,	Rodman,
10-15-24	Margaret Hickey,	Clerk Stenographer.

Right of Way-Route 4.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of Parcels #4C, 4D and 4E on Route 4 at the Morgan Grade Crossing elimination cut-off, from the Jersey Central Traction Company for the consideration of $1,214.00.

Right of Way-Route 14.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel #81 on Route 14, Section 8, Swainton-Ocean View, from John W. H. and Anna Lechler for the consideration of $100.00.

Right of Way-Route 14.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the following parcels of property on Route 14, Section 9, Ocean View-Seaville:

Parcel #35,	Wm. N. Stout, et ux,	consideration	$50.00
" 38,	Elmer S. Vanaman,	"	75.00
" 46,	Allen Devaul,	"	40.00

Federal Aid Project #20, Amboy Br.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the modification of Project Agreement #20, Sections A and B, covering the New Amboy Bridge by which the estimated cost was reduced to the actual ~~figure~~ sum of $4,073,214.16, and the United States pro rata share was fixed as not to exceed $1,380,758.89.

October 2, 1924.

Federal Aid-Route 12, Section 6.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of Federal Aid Project #65, Sections A and B, Port Colden to Hackettstown.

Motor Vehicle Aid-Hunterdon County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the final acceptance of the White House-Flemington Road, Sections 1 and 2, Hunterdon County, Motor Vehicle Aid work.

Maintenance-Cape May County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the award of contract by Cape May County Freeholders to Edw. L. Lantz for 38,688 gallons of Lignin binder for various roads in Cape May County at 12¢ per gallon.

Atlantic County Repairs.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the award of contract by Atlantic County for repairs and the resurfacing of the Hammonton-Rosedale Road, involving the treatment of 20,000 square yards with petroleum water gas.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the award of contract by Atlantic County for the repairs and resurfacing of Central Avenue.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the award of contract by Atlantic County for resurfacing Pleasantville Boulevard.

Maintenance Materials-Atlantic Co.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the award of contract by Atlantic County for treatment on various roads in the County with lignin binder at a cost of 11½¢ per gallon.

Township Aid-Mercer County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of an award of contract by Hamilton Township on Old York Road, Mercer County.

October 2, 1924.

Township Aid-Monmouth County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved award of contract by Middletown Township for the Middletown-New Monmouth Road, Monmouth County, Township Aid.

Township Aid-Mercer County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the contract for Mountain Avenue, Princeton Township, Mercer County, be referred to Chairman Scott for review and presentation at the next meeting.

Township Aid-Gloucester County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of plans and specifications for Focer Street, Washington Township, Gloucester County, Township Aid.

Township Aid-Mercer County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the rejection of one bid received by Lawrence Township for Long Park Avenue, Mercer County, Township Aid, due to the fact that this bid was too high.

Township Aid-Morris County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the payment of $6,000.00 to Washington Township authorities for the completed work on Long Valley-Fairmont Road, Section 1.

Township Aid-Hunterdon County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the acceptance of Main Street, Three Bridges Road in Reddington Township, Hunterdon County, Township Aid work, said acceptance carrying with it an extension of time from August 15th to September 20th, 1924.

Township Aid-Monmouth County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of township aid force account agreement in Monmouth County as follows:

Farmingdale-Colt's Neck Road, Howell Township,
Colt's Neck-Farmingdale Road, Atlantic Township.

October 2, 1924.

Cumberland County-Motor Vehicle Aid

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the work for the construction of a guard railing along the Mauricetown-Millville Road, Cumberland County, Motor Vehicle Aid, be readvertised due to the fact that only one bid was received by the County.

Township Aid Transfer

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the application of Pemberton Township, Burlington County for transfer of $551.41 balance from the Juliustown-Pemberton Road to the Leeler's Corner-Arney's Mount Road in the same Township.

Motor Vehicle Aid-Hudson County

State Highway Engineer Sloan again presented to the Commission for approval bids received by Hudson County for County Road, Motor Vehicle Aid work, in which he recommended that an award be made. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award of contract for County Road, Hudson County, between Tonnelle Avenue and County Avenue, to the Clinton Asphalt Company.

Township Aid-Hudson County

Commissioner Jelin reported having made inspection of Bulls Ferry Road, Township Aid work in Hudson County, and he moved that the same be accepted by the State. This was seconded by Mr. Stewart and adopted.

Regulations-Departmental

Commissioner Stewart stated that it would be to the best interest of the Department if the names of prospective bidders on State Highway work were not given out prior to the bidding, and he moved that for the information of all persons connected with the State Highway Department the Commission directs and orders that no information as to the names of those who take out plans or specifications in regard to the proposed bidding shall be given to any persons or made public before bids are received under any circumstances and that any former action of the State Highway Commission in conflict with this regulation be rescinded. This was seconded by Mr. Jelin and adopted.

October 2, 1924.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission adjourned at 1:00 P.M. to officially attend the Inter-State Fair, the next meeting to be held at Trenton, on Tuesday, October 7th, 1924.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - October 7, 1924.

A regular meeting of the State Highway Commission was held in the offices of the Commission, Broad Street Bank Building, Trenton, on Tuesday, October 7th, 1924. The meeting was called to order at 11 A.M. by Chairman Scott.

Present: General H. L. Scott, Chairman, and Messrs.
Percy H. Stewart, Walter Kidde and Abraham Jelin.

Cumberland County Repairs

The Secretary informed the Commission that Mr. Roscoe Ward, County Counsel for Cumberland County, was present and desired to speak to the Commission. On motion, duly seconded, a hearing was granted. Mr. Ward appeared and stated that the County of Cumberland was desirous of ascertaining the reason for refusal on the part of the State Highway Commission to approve the award of contract as made by Cumberland County for guard rail work on the Mauricetown Road. He advised that this contract had already been let by the County and the contractor had already ordered lumber for the work, even though the same had not yet been approved by the State. State Highway Engineer Sloan explained to the Commission that his recommendation for readvertising this work was based on the fact that there was only one bid received by the County and that was considered high in comparison with prices received by the State, although he was not sure as to what influence the freight rate in the vicinity of Cumberland County would have upon such a bid. Mr. Ward advised the Commission that if investigation proved the price too high, the County of Cumberland did not wish to make the award. Commissioner Kidde stated that he would not vote for any change in the action as already taken by the Commission, but if the County desired to let this award from its own funds after comparison of prices, the County do so and the State would place its share upon other Motor Vehicle work in the county.

Moving Pictures-Route 13

The Secretary informed the Commission that the Texas Company was prepared to show a moving picture film of the construction of State Highway Route 13, from Trenton to Princeton, at the Capitol Theatre at 12:30 P.M. and that the Commission was invited to view this film in its first showing.

October 7, 1924.

Invitations

The Secretary presented to the Commission an invitation extended by Senate President Reeves in behalf of the Kiwanis Club of Millville, that the State Highway Commission attend a celebration on the completion of State Highway Route 15 at Millville, Wednesday, October 15th, at 11:45 A.M. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission directed that the invitation be accepted and that those Commissioners who could attend, do so.

The Secretary presented to the Commission a communication from the State Association of Chosen Freeholders, inviting the State Highway Commission to be present at its regular meeting in Jersey City on October 20th. On motion by Mr. Jelin, seconded by Mr. Kidde, the invitation was ordered received and acknowledged with thanks.

The Schedule of Business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer:

Menantico Creek Bridge-Route 15

Report of bids as follows was presented for the construction of the Menantico Creek Bridge on Route 15, and State Highway Engineer Sloan recommended that award be made to Michael Staub & Kolyn Construction Company at their's, the lowest bid in the amount of $85,790.00:

M. Staub & Kolyn Const. Co..................	$85, 790.00
J. H. Terry & Co............................	86,750.00
Krellwitz Cont. Co..........................	87,000.00
S. S. Thompson & Co., Inc...................	91,000.00
T. M. Gibbs Const. Co.......................	99,853.00

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of the Menantico Creek Bridge on Route 15, to Michael Staub and the Kolyn Construction Company at their's the lowest bid received in the amount of $86,790.00, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 13, Section 6.

State Highway Engineer Sloan reported the completion of Route 13, Section 6, Lawrenceville-Princeton section and recommended that an extension of time of 35 working days be granted to the Utility Construction Company, contractors on this work, in view of the fact that the contractors were delayed by the noncompletion of a bridge and also in view of the fact that the road was open to traffic within the time specified in the contract. General Scott informed the Commission that he had been over this work several times and he was prepared to recommend its acceptance and final payment, said acceptance carrying with it an extension of time of 35 working days. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment of Route 13, Section 6, Lawrenceville-Princeton section, and granted an extension of time of 35 working days on the contract.

Right of Way -

Route 18, Section 1.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the acceptance of an easement on Route 18, Section 1, in the Borough of Alpine for drainage rights from H. H. Oltman, Shadowlands Realty Company Inc. for the consideration of $1.00.

Scales-Route 4.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved a location for truck weighing scales on Route 4 at South Amboy about 500 feet East of Scott Avenue on property belonging to the State, in accordance with map presented at this meeting.

Meetings

State Highway Engineer Sloan recommended to the Commission that authority be granted to Mr. C. A. Mead, Bridge Engineer of the Public Utility Commission and who has been acting as representative of the State Highway Department upon a Committee on bridge specification standardization, to attend a meeting of this Committee in San Francisco just prior to the meeting of the American Association of State Highway Officials at that place. The estimated cost of this trip was placed at $500.00. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that in view of the expense of the trip Mr. Mead be advised that the Commission cannot see its way clear to authorize an expenditure of this kind and that authority for Mr. Mead to attend this meeting as representative of the State Highway Commission be not granted.

Employments.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission ratified the following employments as made by the State

October 7, 1924.

Highway Engineer since the last meeting of the Commission:

9-29-24	Joseph Nedl,	Mechanic	$ .65 an hr.
9-39-24	Leon Nelson,	Garage Asst.	.50
9-29-24	George F. Bade,	Mechanic	.65
10-1-24	H. C. Larson,	"	.70
10-1-24	E. P. Lewis,	Garage Asst.	.45
10-1-24	Wm. Jaycox,	" "	.45

Increases

10-1-24	Jacob Miller,	Mot. Tr. Driver	$ .45 to .50 hr.

Discontinued Employments (Monthly Basis)

9-30-24	Ralph Loveland,	Gravel Patrol.	Discharged
9-30-24	Jas. P. Casey,	Cost Clerk	Laid Off
9-20-24	Wm. R. Forsyth,	Temp. Jr. Engr.	" "
9-30-24	Charles Scott,	Rollerman,	" "
9-1-24	Chas. C. Hewitt,	Title Searcher	Resigned
9-30-24	W. R. Foster,	Jr. Engineer	"

Township & Borough Aid-Gloucester Co.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of a change in the price agreement already approved by the Commission for the Glassboro Road, Monroe Township, Gloucester County, to insert a price of $4.50 per hour for steam shovel, including operator, fuel, fireman, lubricants and repairs.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved a change in the price agreement for the Bridgeport-Gibbstown Road, Logan Township, Gloucester County, said change permitting gravel to be used in addition to cinders if the gravel is found satisfactory, and the following items of price to be inserted:

Gravel at 15¢ per cubic yard.
Steam Shovel at $5.50 per hour for time actually worked.
1 ton truck at $1.25 per hour.

Warren County-Federal Aid

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission referred to Chairman Scott the final inspection of the grading and drainage work on the Hainesburg-Columbia Road, Warren County, Federal Aid Project #52, for report preliminary to acceptance.

Warren County-Motor Vehicle Aid

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission referred to Chairman Scott the final inspection of the Alpha Borough Road, Warren County, Motor Vehicle Aid work, for report preliminary to acceptance. General Scott informed the Commission that it was his intention within a short time to make a tour of work being done and as proposed by the Commission, in order to become familiar with the local conditions involved.

Township Aid-Middlesex County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for Main Street, Bonhamtown-Metuchen, Raritan Township, Middlesex County, Township Aid.

Township Aid-Cape May County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of Township Aid Force Account Agreement for Court House-Biddle Creek Road, Middle Township, Cape May County.

Township Aid-Gloucester County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of Township Aid Force Account agreement for the Aura-Clayton Road, Elk Township, Gloucester County, Township Aid.

Township Aid-Mercer County

Chairman Scott informed the Commission that he would recommend approval of contract for Mountain Avenue, Princeton Township, Mercer County, Township Aid, same having been referred to him at the last meeting. On motion by Mr. Jelin, seconded by Mr. Kidde, the contract was approved.

Painting-Poles

State Highway Engineer Sloan recommended to the Commission that authority be granted for the award of contract for services to be performed by E. B. Leahy, Inc. in the painting of poles along Routes 8, 9, 11, 18-South, and 20, at a cost of $1.45 per pole. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of award of contract for the painting of poles in accordance with the recommendation of the State Highway Engineer to E. B. Leahy, Inc. at the rate of $1.45 per pole for three coats of paint and the stencilling of the numeral thereon.

Route 9, Section 11.

State Highway Engineer Sloan recommended to the Commission that the Public Service Railway Company be requested to relocate a trolley turnout in their tracks on State Highway Route 9, Section 11, in the Borough of Middlesex, from its former location within the travelled way of the highway between Stations 449 plus 29 and 451 plus 60, to a new location outside the travelled way of the highway, but within the right of way limits of the highway, between Stations 454 plus 50 and 445 plus 81, all as more specifically designated and described on certain maps prepared by the Public Service Railway Company. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the Public Service Railway Company be requested to relocate a trolley turnout on Route 9, Section 11, in accordance with the recommendation of the State Highway Engineer, in order that traffic may be facilitated at this point.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting recessed for lunch at 12:15 in order to first attend the showing of the Route 13 films at 12:30 P. M.

The meeting was reconvened at 2:30 P.M. with the same members present as at the morning session.

Route 18, Section 1.

The Secretary informed the Commission that Mr. J. J. McGarry, contractor on Route 18, Section 1 at Alpine, was present at the request of the State Highway Engineer and Commissioner Jelin. On motion, duly seconded, Mr. McGarry was granted a hearing. Chairman Scott informed Mr. McGarry that the State Highway Commission has come to a decision that they will not proceed with the execution of the contract for Route 18, Section 1 in the Borough of Alpine. Mr. McGarry informed the Commission that following the receipt of a letter from the Secretary of the Commission that he had been awarded this contract, he had started his work. Chairman Scott informed Mr. McGarry that the Commission did not consider that there was any contract in existence and that any work done up to this time was at the risk of the contractor. Mr. McGarry asked that he be paid for what has been done by him and he further stated that he believed he had certain rights in the matter. He requested information as to what disposition he should make of the work as proceeded with since it was dangerous to traffic. Chairman Scott directed that any further matters be taken up with the State Highway Engineer.

The Commission next went into conference until 4:00 P.M. when, on motion by Mr. Stewart, seconded by Mr. Kidde, the meeting was adjourned until Tuesday, October 14th, 1924, at 10:30 A.M.

Respectfully submitted,
A. LEE GROVER,
Secretary.

MINUTES OF MEETING - October 14, 1924

A regular meeting of the State Highway Commission was held at the offices of the Commission at Trenton on Tuesday, October 14th, 1924. The meeting was called to order by Chairman Scott at 11 A.M.

Present: General H. L. Scott, Chairman, Walter Kidde,
Percy H. Stewart and Abraham Jelin.

Minutes Approved

Commissioner Kidde reported having read the minutes of the meeting of August 5th, 1924, and moved the approval of same as mailed. This was seconded by Mr. Jelin and adopted.

Commissioner Kidde reported having read the minutes of the meeting of August 19th, 1924, and moved the approval of same as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported having read the minutes of the meeting of September 9th, 1924, and moved the approval of the same as mailed. This was seconded by Mr. Stewart and adopted.

Attorney General's Opinion

The Secretary presented a communication from the Attorney General giving further facts in connection with opinion rendered by him on the matter of the "width of roadway", and suggesting that the Commission await Legislative action before proceeding with the cutting down of shade trees. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered received and placed on file. Chairman Scott stated that in view of the fact that the Commission has already decided to eliminate that section of Route 3 at Hammonton, it should be understood that the Commission is omitting that section of the contract for the widening of Route 3 with the hope that the next Legislature will pass the necessary laws by which the trees may be preserved.

Insurance-Automobile.

The Secretary presented a communication from the State House Commission advising that the Board has considered the plans for insurance of State Highway automobiles and operators, and has decided that cars and trucks should be insured for liability, fire and property damage, in accordance with the plan proposed. The Secretary explained that the plan proposed was for a blanket policy to be issued which would cover all the machines in actual operation, for actual working hours. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication was ordered received, and the insurance as authorized by the State House Commission was approved for State Highway Department automobiles and trucks.

Advisory Board Routes-Camden

The Secretary presented a communication from J. C. Remington, Jr. transmitting a detailed report of a study made by a joint Committee from Pensauken and Merchantville as to the proposed Crescent Boulevard Route through Camden County.

Route 4-Perth Amboy.

The Secretary presented a communication from Louis P. Booz, City Engineer of Perth Amboy, advising that Amboy Avenue Connecting Link, Route 4, in Perth Amboy, was practically ready for travel and the City authorities were desirous of having the connection made with the present line of Route 4. State Highway Engineer Sloan explained that at the present time there was a bridge, 30 feet in width, and a short stretch of pavement which forms the connection, and he recommended that the Maintenance Division be given authority to proceed with the reconstruction of the roadway from the southerly end of the present bridge over Spa Spring Creek to the new pavement. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that the matter be referred to the State Highway Engineer to take the necessary steps to connect the present Route 4 with the Amboy Avenue Connecting Link.

Route 9, Bloomsbury

The Secretary presented a resolution from Hunterdon County, requesting that the Commission construct Route 9, through Bloomsbury on the line as now laid out, in view of the fact that a petition has been circulated for a change in this line. In this connection, the Secretary presented a communication from the Mayor of Bloomsbury, requesting a hearing on behalf of the citizens before the Commission. There was also presented a communication from Mr. W. F. Brown of Bloomsbury, protesting any change in the line as laid out. On motion by Mr. Kidde, seconded by Mr. Jelin, the petition and letters were ordered received and placed on file, and a hearing was ordered arranged for an early meeting.

Black Horse Pike

The Secretary presented a communication from Mr. A. H. Nelson, County Engineer of Atlantic County, requesting a conference for representatives of Atlantic, Camden, Gloucester and Cape May Counties, with the State Highway Commission for the promotion of the improvement of the Black Horse Pike. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission directed that they be informed that this conference may be held on October 21st if they so desire, and that they be informed further that the Commission feels that the subject of the Black Horse Pike was carefully considered last April when it was determined that the taking over of Routes Nos. 18 and 20 would relieve the Atlantic City travel.

Route 10, Bluff Road.

The Secretary presented a communication from the Palisade Improvement Association, requesting information as to the reason for the placing of wire fencing on State property on Bluff Road, originally contemplated for a portion of Route 10. On motion by Mr. Stewart, seconded by Mr. Jelin, the communication was ordered received and placed on file, the matter of the wire fencing to be taken up at a later time.

Route 18, Section 1.

The Secretary presented a communication from Mr. Leo E. Schwartzstein, inquiring as to what disposition would be made of the contract for Route 18, Section 1. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that Mr. Schwartzstein be advised of the fact that the Commission has not ratified the award of contract to Mr. J. J. McGarry, and will take all precautions to provide for suitable facilities for the traffic.

Route 1, Section 6.

The Secretary presented a communication from the Trenton and Mercer County Traction Company, again requesting an extension of time of one year for payment of amount due the State Highway Commission on account of track materials used in the reconstruction of Route 1, Section 6, Greenwood Avenue, Trenton. It was also requested that the Commission permit the Company to forego the charges involved in a Surety Bond and in lieu thereof place a note bearing interest at 4½ per cent. which would be entirely reduced before its date of expiration in one year. Commissioner Kidde stated that he felt that the Commission had no right to make such an agreement, and in view of action already taken requesting eith the payment or a bond and note, he would not favor any change in the proceedings.

Invitation

The Secretary advised the Commission that an invitation had been accepted by the Commission from Senate President Reeves to attend the demonstration at Millville on Wednesday, October 15, 1924, at 11:45 A.M. in celebration of the opening of Route 15.

Complaint

Route 6, Mullica Hill

The Secretary informed the Commission that Mr. John Boyd Avis, Attorney for Mullica Hill, New Jersey, together with a delegation from the Chamber of Commerce and Township Committee of Mullica Hill, were present and desired a hearing. On motion, duly seconded, a hearing was granted. The delegation appeared and stated that at the time of the construction of Route 6 through Mullica Hill, the grades of the sidewalks were not in conformity with the pavement laid, and therefore, in certain parts of the town the drainage conditions were very bad. After a general discussion of the matter, Commissioner Kidde moved that the matter be referred to the Maintenance Division to take up with the local authorities and determine what the conditions are and make report to the Commission at an early date.

The Schedule of Business was next taken up for consideration, item by item as follows, with the recommendation of the State Highway Engineer:

Route 3, Widening, White Horse Pike

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved a form of agreement between the West Jersey and Seashore Railroad Company and the State of New Jersey covering the widening of the bridge on the White Horse Pike, Route 3, across the West Jersey and Seashore Railroad at Ancora, and the Chairman was authorized to sign the same on behalf of the Commission.

Route 3, Widening, White Horse Pike

On motion by Mr. Kidde, seconded by Mr. Stewart, a communication from the Chamber of Commerce of Atlantic City concerning the removal of trees through the Hammonton section of Route 3, was ordered acknowledged with the advice that the Commission has decided to omit that portion of the widening contract for Route 3 at Hammonton, with the hope that the Legislature will give the needed authority to permit the saving of the trees.

Federal Aid-Route 14, Sections 10 and 11.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved Project Agreement No. 70, Sections A and B on Route 14, Sections 10 and 11, Seaville-Tuckahoe section.

Motor Vehicle Aid-Hunterdon Co.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved award of contract on the Crestmoor Bridge and Approaches, Hunterdon County, Motor Vehicle Aid work.

Federal Aid-Warren County

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the modification of Federal Aid Project Agreement No. 52 to provide for a concrete pavement on the Hainesburg-Columbia Road, Warren County.

Beaver Brook Bridge, M.P. 5.3, Route 5.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission referred to Chairman Scott the final inspection of Beaver Brook Bridge, on Route 5 at M. P. 5.3.

Bridges-Route 7, M.P. 15.3, 16.0, 17.4

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the construction of bridges at M.P. 15.3, 16.0 and 17.4 on Route 7, Colts Neck-Freehold section, by the Maintenance Division forces, at an estimated cost of $12,000.00.

Township Aid-Atlantic County

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved plans and specifications for Buena-Tuckahoe Road, Section 2, Buena Vista Township, Atlantic County.

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved plans and specifications for Buena-Tuckahoe Road, Section 4, Weymouth Township, Atlantic County.

Motor Vehicle Aid-Hunterdon County

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved extension of time from July 15th to September 18th, 1924, on the White House-Flemington Road, Sections 1 and 2, Hunterdon County, Motor Vehicle Aid.

Employments

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission ratified the following list of employments as made by the State Highway Engineer since the last meeting of the Commission:

10-1-24	L. B. Stepheason,	Res. Engineer	$200.00 mo.
10-2-24	A. Brandli,	Jr. Engineer	125.00
10-1-24	Edwin Woodbridge,	Mot.Tr.Dr.	.40 hr.
10-1-24	Frank Lane,	" " "	.40
10-8-24	William Hilton,	Mechanic	.65
10-7-24	George H. Hesse,	Mot. Tr. Dr.	.45
10-1-24	Franklin Wilbert,	" " "	.40
10-1-24	Elmer P. Lewis,	Garate Asst.	.45
10-1-24	Willard Jaycox,	" "	.45

Increase

10-1-24	L. E. Sharp,	Mot. Tr. Dr.	$.45 to .50 hr.

Discontinued Employment

9-19-24	Harry W. Fackler	Bridge Attend.	Discharged.

Route 18, Section 1.

The Secretary presented a communication from Arthur Newcomb, Mayor of the Borough of Alpine, requesting information concerning the status of the construction of Route 18, Section 1, on which work the contractor J. J. McGarry, has taken away his equipment. On motion by Mr. Kidde, seconded by Mr. Stewart, the communication was ordered received and Mr Newcomb was directed to be advised that the Commission has decided not to proceed with this contract and will adequately provide for the flow of traffic in this vicinity.

Commendation

State Highway Engineer Sloan informed the Commission that during the past week he had spent a day with the State Highway Commissioners of New York and Pennsylvania in a tour of the roads in northern New Jersey, and these Engineers had informed him that the concrete work being done in this State was of a better calibre than that being performed in their own states. State Highway Engineer Sloan also informed the Commission that during the past week he had attended a conference of the Electric Railway Engineers in Atlantic City and he had received an impression as to the type of motor bus which it is anticipated will be part of the rolling stock of the transportation companies in use on the highways.

Detours-Route 13.

The Secretary presented a communication received by Chairman Scott from William C. Vanderwater, Township Attorney for Princeton Township, calling attention to the damage done to the Quaker Road running along Stony Brook from Lincoln Highway of Route 13 to the Branch Turnpike running from Princeton to Trenton, known as Mercer Street, This damage was attributed to the traffic using it as a detour while Route 13 between Trenton and Princeton was under construction. Request was made that the road be placed in as good a condition as it was before this traffic was placed upon it. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission referred this matter to the State Highway Engineer to take the same up with the contractors on Route 13 and to make a report at the next meeting.

Route 4-Detours-
Request for Aid-Middlesex County

Commissioner Jelin stated that he had investigated the complaint of Woodbridge Township for assistance in repairing St. George Avenue which they claimed was used during the construction of Amboy Avenue, Route 4, as an official detour, and the road was thus subjected to traffic beyond that anticipated when it was originally improved a short time before, and he moved that the State Highway Commission request an opinion from the Attorney General as to whether assistance can now be legally given to Woodbridge Township for the repairing of St. George Avenue, State Highway Engineer Sloan to prepare and present the necessary documents on this matter.. This was seconded by Mr. Kidde and adopted.

Route 18, Section 1.

In further reference to the matter of Route 18, Section 1 at Alpine, which contract it was decided upon not to proceed with, Commissioner Stewart moved that the Commission authorize the State Highway Engineer to proceed with the plans and specifications for the grading and drainage of approximately 3½ miles of this road between Hillside Avenue, Alpine, north to new alignment at Dr. Burnett's residence, and that authorization be given for the advertising of this work. This was seconded by Mr. Kidde and adopted.

October 14, 1924.

Route 9, Section 13.

State Highway Engineer Sloan reported that Route 9, Section 13, Whitehouse-County Line Road, is completed and ready for acceptance by the Commission. On motion by Mr. Kidde, seconded by Mr. Jelin, final inspection of this work was referred to Commissioner Stewart for report.

Route 6, Section 10.

State Highway Engineer Sloan reported the completion of Route 6, Section 10, Quinton-Marlboro section, and recommended final inspection and acceptance. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission referred the final inspection of this work to Commissioner Jelin.

Conference

The Commission next went into conference on several matters until 5:00 P.M., when the meeting was again resumed.

Route 18, Section 1.

The Secretary advised that Mr. Schwartzstein, President of the Westchester Ferry Corporation, was present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Schwartzstein appeared and inquired of the Commission as to what disposition would be made of the contract for the improvement of Route 18, Section 1, through Alpine. Commissioner Stewart informed Mr. Schwartzstein that the State Highway Commission had this day taken action looking toward the grading and drainage of 3½ miles of this road, inclusive of the Alpine Section, and as soon as plans and specifications were prepared the work would be advertised. Mr. Schwartzstein inquired as to the approximate time when the job would be completed. Mr. Stewart informed him that this was an indeterminate thing at this time since there was no action taken beyond that covering the grading and drainage, but that in the natural course of events the paving would follow directly after the grading was completed and accepted. State Highway Engineer Sloan stated that in his opinion the road should be ready for traffic by next summer. Mr. Stewart also informed Mr. Schwartzstein that it was the purpose to keep traffic open on the road while the construction was going on. Mr. Schwartzstein informed the Commission that he had no interest in the matter other than he was President of the Westchester Ferry Corporation and it was interested in having the flow of traffic proceed uninterrupted.

Advisory Board Routes-Camden

State Highway Engineer Sloan next presented for the consideration of the Commission, sketches prepared by Mr. Giffin, Division Engineer on the Camden Advisory Project, showing alternate lines for the Bridge Boulevard which will extend from the plaza of the new Camden Bridge to a proposed Crescent Route. There were four lines shown, classified as A. B. C and D, and the Commission went into consideration of these various lines and discussed estimates prepared. Following this discussion, Commissioner Stewart moved that a hearing be held on Tuesday, October 21st at Trenton, as preliminary to the final adoption of a line for the Bridge Boulevard, extending from the Camden Bridge Plaza to a proposed Crescent Route. This was seconded by Mr. Kidde and adopted.

On motion by Mr. Jelin, seconded by Mr. Stewart, the meeting was adjourned at 6 P.M. to meet in regular session again on Tuesday, October 21st, at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - October 21, 1924.

A regular meeting of the State Highway Commission was held in the Commission meeting rooms, Broad Street Bank Building, Trenton, on Tuesday, October 21st, 1924. The meeting was called to order at 11 A. M. by Chairman Scott.

Present: General H. L. Scott, Chairman, and Messrs.
Percy H. Stewart, Abraham Jelin and Walter Kidde.

Minutes Approved

Commissioner Kidde reported having read the minutes of the meeting of September 16th and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Bridge Boulevard, Advisory Board-Camden

The Secretary informed the Commission that pursuant to a hearing advertised to be held this day on the matter of the Bridge Approach, extending from the proposed boulevard to the Camden Bridge Plaza, there were present representatives of the City of Camden and various Civic organizations in Camden, who desired to be heard on this matter. On motion, duly seconded, a hearing was ordered to proceed. Chairman Scott advised the visiting delegation that the State Highway Commission has, during the past few months, been having surveys made in the City of Camden, with a view toward determining upon the most satisfactory location for the entrance boulevard between the proposed Crescent Route and the Bridge Plaza, and he called upon State Highway Engineer Sloan to outline the scheme suggested. Major Sloan stated that in the surveys there had been selected four proposed lines designated as A, B, C. and D, on a map which was exhibited. He stated that line "B" was the one originally selected by the Camden Advisory Board, but it entailed difficulty and expensive construction through the bed of Cooper River as well as the taking of valuable riparian rights and dock frontage from the Public Service Company power house and the Keystone Leather Company. He stated that line "C" attempted to correct this condition but also involved the changing of the river channel. Line "D" was placed on higher ground below lines "B" and "C" but cut through a developed park in Camden and also runs in back of a new High School, which is objectionable. He recommended that line "A" be considered as the best one for the reason that it is all on high ground and does not involve any river changes and can be so built up as to eliminate a grade crossing at Federal Street. He also offered the suggestion that instead of having one 80 foot street from Federal Street to the Plaza, that three streets of thirty feet each be used, using the center one for traffic in both directions during rush hours and using the other two as one-way streets at all times, going toward or coming off the bridge. Mr. Leavitt, City Planning Engineer for Camden, next addressed the meeting and outlined the advantages of Routes "A" and "B" with respect to the situation in the City of Camden. Mr. Bleakley, representing the Chamber of Commerce, voiced opposition to any plan looking toward the use of any other than a broad highway all the way through to the bridge. Mr. Allen, representing a permanent committee of citizens and civic bodies, stated that he rather favored line "D". Mr. Barker, representing the Public Service Corporation, Real Estate Department, advised that he desired to inform the Commission that line "B" would wipe out the dock facilities of the Public Service Corporation and also would take the coal storage yards. He stated also that in building a circle at Newton and Federal Streets it would be interfering with the Public Service Railway property. He stated, however, that his company was in a position to go along with any plans the Department might finally determine upon and only desired sufficient time in which to make changes which are necessary. Mr. Doyle, representing the Keystone Company, next advised the Commission that line "B" would take away the water rights and dock frontage by which all the coal and skins used by the company were received in barges. A statement was also made by Mr. Iszard, representing the Camden Real Estate Board and the South Jersey Automobile Club, offering cooperation of his organizations, but protesting against any way other than a wide boulevard through the location rather than a three-street proposition. Offers of cooperation were also extended by Mr. Hurley, representing the Lions Club, and Mr. Warburg, representing the Kiwanis Club. Mr. Albertson, County Engineer, spoke in favor of a wide entrance to the plaza. Chairman Scott closed the meeting by stating that the Commission has been held up a considerable length of time without any fault attaching to its members, due to legislative action and other reasons, and that unless some work was undertaken very soon, there could be no completion by the time the bridge was opened to traffic.

He suggested that some immediate steps be taken to secure a consolidated expression from the City of Camden. Mayor King of Camden stated that he would have his Commissioners cooperate with the various civic organizations and would bring a report to the Commission at its next meeting on the following Tuesday.

The Commission next resumed its regular meeting.

Motor Vehicle Aid-Warren County

Chairman Scott reported that he had made inspection and would recommend acceptance of the Alpha Borough Road, Warren County, Motor Vehicle Aid work. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission accepted the completed work on the Alpha Borough Road, Warren County, Motor Vehicle Aid.

Township Aid-Sussex County

Chairman Scott reported the final inspection and recommended acceptance of the Hainesville-Montague Road, Sussex County, Township Aid. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the acceptance as recommended.

Township Aid-Warren County

Chairman Scott reported the final inspection and r ecommended acceptance of the Hainesburg-Columbia Road, Warren County, Township Aid. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance as recommended.

Township Aid-Sussex County

Chairman Scott reported the final inspection and recommended acceptance of the Newton-Swartswood Road, Sussex County, Township Aid. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission ordered this work accepted.

Beaver Brook Bridge-Route 5.

Chairman Scott reported the final inspection and recommended acceptance of the Beaver Brook Bridge on Route 5, at M. P. 5.3. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the acceptance and final payment of the Beaver Brook Bridge on Route 5 at M. P. 5.3.

October 21, 1924.

Passaic River Bridge-Route 16.

Commissioner Kidde reported final inspection and moved acceptance of the Passaic River Bridge on Route 16, at M. P. 32.2. This was seconded by Mr. Stewart and adopted.

Route 16, Section 6-A.

Commissioner Kidde stated that he had also inspected Route 16, Section 6-A, and he would call attention of the Engineer to a number of minor matters to be attended to before the final payment is passed, especially with encroachments of driveways through Bernardsville. He moved the acceptance of this work subject to approval of final papers by the State Highway Engineer. This was seconded by Mr. Stewart and adopted.

Route 6, Section 10.

Commissioner Jelin reported inspection of Route 6, Section 10, Quinton-Marlboro section, and moved that the same be accepted and final payment authorized. This was seconded by Mr. Stewart and adopted.

Bridgeton-Port Norris Road

Commissioner Jelin reported the inspection of the Bridgeton-Port Norris Road, Federal Aid work, Cumberland County, and moved its acceptance. This was seconded by Mr. Stewart and adopted.

Route 9, Section 13.

Commissioner Stewart reported that he had inspected the completed work on Route 9, Section 13, Whitehouse-County Line Road, and he moved that the same be accepted and the contractor be complimented for completing the work in such rapid order. This was seconded by Mr. Jelin and adopted.

Advisory Board-Jersey City

Commissioner Stewart reported to the Commission that since the last meeting he had held a conference with the State Highway Engineer and Mr. B. H. Davis, a Consulting Engineer, on the matter of concrete bridges or structures, and discussion was had with Mr. Davis on the matter of the proposed viaduct in Jersey City. State Highway Engineer Sloan advised the Commission that there were no arrangements made for compensating Mr. Davis for his services and there would be none unless it was determined to build a concrete structure for the viaduct, and then some negotiations would be entered into for Mr. Davis' services on the design.

Route 9, Fanwood.

Commissioner Stewart also stated that he had interviewed Mayor Thompson of Fanwood, concerning the disposal of materials used by the contractor on road construction of Route 9 in that vicinity, and he had suggested to Mayor Thompson that he appear before the Commission and lay the matter before it at the earliest possible moment.

Route 4, Bradley Beach.

The Secretary informed the Commission that Mr. F. P. Reichey, Borough Clerk of Bradley Beach, together with the Commissioner of Streets, were present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Reichey appeared and informed the Commission that Bradley Beach was very anxious that the State Highway Commission take over Route 4 through Bradley Beach. He advised that when Route 4 was originally taken over, the Commissioners of Bradley Beach were unwilling to surrender the maintenance of that street to the then existing Maintenance Department, due to delays encountered in receiving information from the Department. However, at the present time they are willing to turn over the street and the franchise of the Public Service Railway Corporation for the maintaining with brick similar to the rest of the street 18 feet in the center thereof. He advised the Commission that originally this street was improved by the Borough without aid from the County or the State and it was felt that the maintenance over the past ten years should influence the Commission in taking this highway over even though it was pointed out that there was about 80 yards on the whole strip of one mile which needed some attention. Commissioner Kidde suggested that the State Highway Commission take over the road for further maintenance, and he moved the adoption of the following resolution:

WHEREAS, by Chapter 14 of the laws of 1917, there was designated a highway route known as State Highway Route 4, extending from a point at or near Rahway to Absecon,

NOW, THEREFORE, BE IT RESOLVED that the State Highway Commission does hereby take over for maintenance and construction that portion of State Highway Route 4 lying within the boundaries of the Borough of Bradley Beach and locally known as Main Street, beginning at the northerly boundary of the said Borough of Bradley Beach, the same being the

> common boundary of Neptune Township, and running thence in a southerly direction four thousand, five hundred sixty (4,560) feet. more or less, to the common boundary between the Borough of Bradley Beach and Avon at Sylvan Lake; the length to be taken over being 0.86 miles more or less, and the width to extend from curb to curb line.

This was seconded by Mr. Stewart and adopted.

Route 18, Section 1.

The Secretary presented a communication received by Chairman Scott from the Knickerbocker Automobile Club of New York, inquiring concerning the further prospects for the completion of Route 18, Section 1, work on which had been stopped by the Commission. Commissioner Kidde stated that he believed that the best interests of the State could be served if the Commission would undertake to complete that strip already authorized for grading, by the placing of a concrete pavement thereon in view of the fact that the plans and specifications for the grading work have not yet been advertised, and he moved that approval be given to plans and specifications for the construction of Route 18, from Sylvan Avenue in the Borough of Alpine for a distance of about 3½ miles to a point where the highway will take new alignment with the concrete pavement, this action to supersede action already taken in approving plans and specifications for grading and drainage work, and the State Highway Engineer was authorized to advertise this work as soon as plans and specifications were ready. This was seconded by Mr. Stewart and adopted.

Route 18-North.

Commissioner Kidde stated that in order to permit the Commission to proceed with the improvement of Route 18, it would be necessary to take over as part of the State Highway System all of that section now included for construction and he moved the adoption of the following resolution:

> WHEREAS, by Chapter 197 of the laws of 1923, there was designated Route 18-North from Hoboken to the New York State Line by way of Weehawken, West Hoboken, Town of Union, North Bergen, Fairview, Ridgefield, Palisade Park, Fort Lee, Englewood Cliffs, Tenafly and Alpine, as a part of the State Highway System,
>
> NOW, THEREFORE, BE IT RESOLVED, by the State Highway Commission of the State of New Jersey that a portion of the said State Highway Route 18-North, Beginning on Sylvan Avenue Boulevard at a point about nine hundred (900) feet North of the intersection of the Hendrick Hudson Drive and the said Sylvan Avenue Boulevard, and extending

> northward for a distance of two and three quarters (2 3/4) miles more or less to a point near the residence of Dr. Burnett at the southerly line of the property of the Phelps Estate, be and the same is hereby taken over as a part of State Highway Route 18-North for future maintenance and construction by the State Highway Commission.

This was seconded by Mr. Jelin and adopted.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the communication from the Knickerbocker Automobile Club of New York, be replied to with the advice that the Commission has decided to proceed at once with the improvement with concrete pavement for a distance of 3½ miles of this highway instead of the original contract through the Borough of Alpine.

E. P. Goodrich, Consulting Engineer

The Secretary presented a communication from Mr. E. P. Goodrich, Consulting Engineer of New York City and who acted as consultant to the Advisory Board on the Jersey City Project, in which he offered his services to the Commission in giving further data which has been collected by him, bearing on a similar situation. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the communication be acknowledged and that Mr. Goodrich be advised that the Commission appreciates his interest in the work and if any further information is required it will be glad to negotiate with him further for his services.

Request for Aid-
Quaker Road, Princeton Township

The Secretary again presented to the Commission the communication from the Township of Princeton concerning the condition of the Quaker Road near Stony Brook, together with a communication from the Utility Construction Company, contractors on Route 13, in which the latter advised that the Stony Brook Road was now in better condition than at the time it was used by the contractors for the hauling of materials, and that permission was granted by the Pyne Estate to place materials on the road. On motion by Mr. Kidde, seconded by Mr. Jelin, the matter was ordered referred to the State Highway Engineer for disposition in connection with other claims made against the contractors on Route 13.

October 21, 1924.

Route 13-Princeton.

State Highway Engineer Sloan reported to the Commission that he had had a representative interview Mrs. Cleveland or her representative in Princeton, in connection with driveway spoken of by her with General Scott, and that all driveway work through Princeton was performed at the expense of the property owners, and that Mrs. Cleveland had been so advised.

Drainage-Route 6.

The Secretary directed attention to the matter presented by a delegation from Mullica Hill on Route 6 at the last meeting and requested disposition as to the matter of drainage in that vicinity. State Highway Engineer Sloan informed the Commission that further investigation had been made and there appeared to be no obligation on the part of the State to do any further work at that point.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the matter remain as at present in accordance with the decision of the State Highway Engineer.

Route 10, Detours, Request for Aid-Bergen County

The Secretary presented a communication from Mr. J. E. Thier, County Supervisor of Roads in Bergen County, requesting aid to the extent of $3,000.00 for the repair of Broadway in Bergen County, used as a detour during the construction of Route 10. On motion by Mr. Kidde, seconded by Mr. Jelin, this allotment of $3,000.00 was authorized for Bergen County.

Roseld Ave., Deal, Monmouth County

Commissioner Jelin reported that the County of Monmouth was desirous of again taking up the matter of Roseld Avenue in Deal, and he requested authority to consult with the County. On motion by Mr. Stewart, seconded by Mr. Kidde, Commissioner Jelin was authorized to negotiate with Monmouth County and the Borough authorities and to make a report of the matter.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was recessed for luncheon at 1:00 P.M. to meet in regular session again at 2:30 P. M. The meeting was again resumed at 2:30 P.M. as agreed, with the same members present as at the morning session.

October 21, 1924.

The Schedule of Business was next taken up for consideration with the recommendations of the State Highway Engineer, item by item as follows:

Route 1, Extension-Jersey City

There was presented a report of the following bids received for the making of borings on Route 1 Extension through Jersey City. State Highway Engineer Sloan recommended award of contract to the Giles Drilling Company at their's the lowest bid received in the amount of $7,287.50.

Giles Drilling Company	$ 7,287.50
Osborne Drilling Company	8,650.00
Sprague & Henwood, Inc.	11,487.50

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the making of borings on Route 1 Extension through Jersey City, to the Giles Drilling Company, at their's the lowest bid received in the amount of $7,287.50, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 4, Section 25-A

There was presented the following report of bids received for the construction of Route 4, Section 25-A, Morgan Grade Crossing Elimination. State Highway Engineer Sloan recommended that award of contract be made to S. S. Thompson & Co., Inc. at their's the lowest bid received in the amount of $103,307.50:

S. S. Thompson & Co. Inc.	$ 103,307.50
Tuller Construction Co.	103,767.25
T. J. M.Contracting Co.	104,473.80
Geritson Construction Co.	107,125.20
National Co. Inc.	109,223.55
Conrad Sebolt	112,362.60
William C. Smith	113,311.85
J. F. Chapman & Son	113,438.80
Utility Construction Co.	120,439.05
Jannarone Contracting Co.	120,602.85
C. H. Winans Co.	125,413.15
George S. Curtis Co.	136,890.39
Wilson & English Const. Co.	139,236.37

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 4, Section 25-A, Morgan Grade Crossing Elimination to S. S. Thompson & Co. Inc., at their's the lowest bid received, in the amount of $103,307.50, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Right of Way-Route 4

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of Parcel #9, on Route 4, Morgan Grade Crossing Elimination Cut-off, from George and Maud Mundy for the consideration of $800.00.

Right of Way-Route 8

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the acceptance of a deed from the Passaic Consolidated Water Company on Parcel #3, Route 8 at Reeve's Bridge, for the consideration of $1.00.

Right of Way-Route 14

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcel #3-C, on Route 14, Section 9, from James E. and Lavinia A. Allen for the consideration of $196.00.

Right of Way-Route 14

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of the following Parcels of property on Route 14, Section 11, Petersburg-Tuckahoe section:

Parcel #6,	Carrie & Chas. C. Benton -	consideration	$100.00
" #7,	Wm. & Madeline M. Fisher -	"	30.00
" #8,	John T. Libby, -	"	100.00
" #17,	Jeremiah & Hannah W. Bailey,	"	225.00

Right of Way-Route 18

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the acceptance of a deed from the William Walter Phelps Estate, for Parcel #11 on Route 18, Section 1, Borough of Alpine, for the consideration of $1.00, and a letter of thanks was authorized.

Employments.

On motion by Mr. Stewart, seconded by Mr. Kidde, the following list of employments as made by the State Highway Engineer since the last meeting of the Commission, was ratified:

10-8-24	Sean O'Deorain,	Senior Draftsman	$ 165.00 month
10-14-24	Kenneth Martin,	Material Inspector,	125.00
10-16-24	Roger H. Voorhees,	Gravel Patrol	90.00

October 21, 1924.

10-1-24	Wm. Braun, Jr.	Motor Truck Driver	$ .40 hour
10-16-24	Ernest Gray,	Mechanic	.55
10-13-24	Wm. M. VanHise,	"	.65
10-15-24	Charles Scott,	Garage Assistant	.45
10-1-24	Edwin Holloway,	Motor Truck Driver	.40
10-15-24	Chas. Askey,	Mechanic,	.60

Increases

10-16-24	Clarence W. Becker,	Mechanic,	$.60 to .65 hour
10-16-24	Girard Radice,	Motor Tr. Dr.	.45 to .50 "
10-15-24	W. H. Voorhees,	Junior Engineer,	$100.to $110. month
11-1-24	Harry Partington,	Highway Insp.	145.to 155. "

Discontinued Employment

10-14-24 Wm. T. B. Pilling, Junior Engineer (on leave of absence)

Township Aid-Mercer County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved award of contract by Lawrence Township, Mercer County, for Lawn Park Avenue.

Township Aid-Salem County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved change in prices of force account agreement previously approved for the Harrisonville-Light House-Cemetery Road, Lower Penns Neck Township, Salem County, Township Aid, by the insertion of the price of $1.25 per hour for trucks and $1.25 per ton for cinders on truck at the dock instead of $1.00 f.o.b. boat.

Permits-Closing Route 1

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of granting permission to the Borough of Hightstown to close a portion of Route 1 from eight P. M. to midnight on October 30th, the Borough to provide satisfactory detours for traffic.

Route 10, Section 6.

State Highway Engineer Sloan reported final completion on Route 10, Section 6, Paterson to Hackensack section. On motion by Mr. Jelin seconded by Mr. Stewart, this road was referred to Commissioner Kidde for final inspection, preliminary to acceptance.

Route 20, Westville

State Highway Engineer Sloan presented to the Commission a report on the condition of Route 20 for a distance of approximately one-half mile South from the intersection with Route 6 in Westville, and due to the very worn out condition of the bitumen surface he recommended that no considerable amount of repairs be done on this section at the present time, but that surveys be immediately started providing for a concrete pavement and that negotiations be entered into with the Town of Westville looking toward the town assuming the cost of the additional width over 22 feet and the town's reconstructing the curbs at a proper grade. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of the State Highway Engineer and directed that a report concerning negotiations with Westville be presented at an early date.

Route 10, Bluff Road

The Secretary informed the Commission that a certified check for $300.00 had been received from Mr. Walter Kissam, owner of property parcel on Route 10, Bluff Road section, and a deed was ready for execution in behalf of the State of New Jersey for the return of this property by the State, in consideration of the sum of $300.00, which was the same amount paid for the property by the State originally. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the sale of property of Walter Kissam on Route 10 to the former owner for the sum of $300.00 and authorized a deed to be signed by all the Commissioners on behalf of the State.

Meetings.

The Secretary informed the Commission that November 4th was election day and that November 11th was Armistice Day, both legal holidays, and he inquired as to the November meetings of the Commission. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission determined that the first meeting in November shall be held on Monday, November 3rd, instead of Tuesday the 4th, and that no further meeting be held until Tuesday, November 18th, unless earlier convened by the Chairman.

On motion by Mr. Jelin, seconded by Mr. Kidde, the meeting was adjourned at 4:30 P.M., to meet in regular session on Tuesday, October 28th, at 10:30 A. M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - October 28, 1924.

A regular meeting of the State Highway Commission was held at the Commission meeting rooms, Broad Street Bank Building, Trenton, on Tuesday, October 28th, 1924.

Present: Messrs. Walter Kidde, Percy H. Stewart and Abraham Jelin.

Absent: General Hugh L. Scott.

Commissioner Kidde moved the election of Commissioner Stewart as Chairman pro tem for this meeting. This was seconded by Mr. Jelin and adopted.

Complaint-Route 4, South Amboy

The Secretary informed the Commission that a delegation was present from the Board of Freeholders of Middlesex County and desired a hearing before the Commission. On motion, duly seconded, a hearing was granted. There appeared Director Dey of the Board, and several other members, and Mr. Dey, acting as spokesman, informed the Commission that a number of complaints had been received by the Board of Freeholders of Middlesex County because of the condition of an underpass on upper Main Street, South Amboy on Route 4 between the County Bridge and Main Street, and he advised that the Board of Freeholders of Middlesex County had prepared a resolution requesting the State Highway Commission that there be a concrete wall built and other necessary improvement made to protect the traveling public from inconvenience caused after storms by the filling of the underpass with sand and water. He suggested that it may be possible to work out a way whereby this condition could be remedied. On motion by Mr. Jelin, seconded by Mr. Kidde, the matter was ordered referred to the State Highway Engineer for investigation and report.

Albany Street Bridge-Route 1.

Dr. Belloff of the Middlesex County Board of Freeholders, stated that at the request of residents of Highland Park, he desired to call attention to the congested condition existing on the East side of the Albany Street Bridge at Highland Park, due to the trolleys being obliged to stop on the bridge at this point. He stated that this was due to the fact that the switch now used was too short, and he suggested that some arrangements be made whereby the Public Service Corporation will extend its tracks off the bridge so that the trolley would pass out of the line of traffic while waiting at the switch. He stated that he had taken this matter up with the Public Service Corporation authorities and they expressed their willingness to do this if the expenses would be borne by the State. Commissioner Jelin moved that the matter be referred to the State Highway Engineer to take up with the Public Service authorities to determine what can be done in the matter. This was seconded by Mr. Kidde and adopted.

Advisory Board-Camden

The Secretary informed the Commission that a large delegation from the City of Camden was present and desired to be heard. On motion, duly seconded, a hearing was granted. Mayor King, together with about 25 citizens of Camden appeared and he addressed the Commission advising that at last Tuesday's meeting a promise had been made that the City of Camden would bring a decision to the Commission on the adoption of either line "A", "B", "C" or "D". He advised that since last Tuesday, one of the largest public meetings ever held in the history of Camden had been held with representatives of the Chamber of Commerce, Real Estate Board, and every civic organization, and it was decided that Route "B" is the first choice and Route "C" the second, if the first proved too difficult of engineering accomplishment. He called on Mr. Stern, Editor of the Camden Daily Courier and a member of the City Planning Committee, to address the Commission. Mr. Stern referred to the interests that would be served by the improvement of Route "B" or "C" and that this improvement would benefit the real estate values in Camden immensely and also would furnish to the State an entrance that would be pleasant. He called attention also to the fact that the idea of beautifying the city entrance was tried in Philadelphia, and it had returned the city immense profits in ratables. There were also addresses made by Mr. Weir, representing Mr. Leavitt, City Planning Engineer of Camden, Mr. Blakeley representing various interests in Camden, and Mr. Allen representing the united civic organizations of Camden, all favoring Route "B" as being the best that could be selected. City Commissioner Sherwin of Camden expressed appreciation to the Commission for the consideration shown in granting the hearings before proceeding with the work. Commissioner Kidde inquired as to what disposition the City desired to make in regard to the direct entrance to the plaza; whether it was preferred to have three 30 foot lanes rather than one 80 foot lane. Mayor King stated that it was the general feeling in Camden that inasmuch as this was something which would be of equal consideration if a selection was made of Routes "A", "B", "C" or "D", the municipality had refrained from discussing this feature at the present time and would take it up if the main route was established. Another consideration, he stated, was the fact that even were the three lanes used for the present, a change could always be made in the future, since in the 80 foot width there would be a loss to the city ratables, due to the demolition of 100 houses on Penn Street. Commissioner Kidde called attention to the fact that at the present time condemnation would not cost the State or City as much as it will five years hence. Commissioner Stewart informed the delegation that all of the matters spoken of would be given serious consideration and the Commission would assure the Camden folks that endeavor has been made to give everyone an opportunity to express an opinion on the project and it is expected that a decision would be reached by the Commission in a very short time in order that the work might proceed and be completed before the bridge is opened.

Route 9, Bloomsbury

The Secretary informed the Commission that a delegation of residents of the Town of Bloomsbury on Route 9, together with Freeholders from Hunterdon and Warren Counties, were present and desired a hearing. On motion, duly seconded, a hearing was granted. Senator Agans of Hunterdon County introduced Mr. Miller, Prosecutor of Pleas of Hunterdon County and representing the Boro of Bloomsbury. Mr. Miller stated that the Borough of Bloomsbury understood that there was a proposition whereby Route 9 would not go through the main street of Bloomsbury as at present, but would skirt the community. He stated that the Borough opposed very strenously to this because of the fact that it now receives its revenues from business located on the present highway and which would not be on the new road when completed. He stated that as to the objections concerning the road passing a school house and having a sharp angle at the point, there was a willingness on the part of the property owners to give the State whatever land was needed for suitable curves, and sufficient protection would be given the school children in the way of fences so that they would not interfere with the traffic. He pleaded with the Commission to consider this proposition very thoroughly. Commissioner Kidde asked the municipal authorities to understand that throughout the State there was a movement to keep the heavy through traffic off the main streets of the communities and this must be considered when the building of roads was for many years in the future. Commissioner Jelin stated that he believed that there was sufficient interest in this project to have the Commission make a personal inspection on the ground before arriving at a decision as to the line, and he moved that a tour of inspection be arranged for the Commission to view this project. This was seconded by Mr. Kidde and adopted. Senator Agans advised the Commission that both Hunterdon County and Warren County were in favor of the road remaining in its present line for the reason that if a new line was adopted the old road and bridge would fall back upon the counties for maintenance.

Route 5, Section 13,
Budd Lake-Netcong.

The Secretary informed the Commission that Mr. T. J. Wasser, Civil Engineer for the Public Service Production Company, was present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Wasser stated that on the work being performed by his company on the Budd Lake-Netcong section of Route 5, the work had reached a point where it would be possible to complete the same during the present year instead of carrying it over the winter, if some provision was made whereby the work would not have to stop for curing of concrete, and he suggested that they be permitted to use "lumnite" cement, which is a patented process and can be driven over after twenty-four hours. The cost of this, however, for the balance of the work, would be about $2,400. and he asked that the State pay this amount in order to insure prompt completion of the work. State Highway Engineer Sloan stated that this matter was taken up with the Construction Engineer of the Department and while there would be an advantage to the State in the prompt completion of the work, it would also be an advantage to the contractors, and he would not favor the use of "lumnite" cement for the finishing of this work until experimental work in connection with this cement had been given a fair test on heavy traffic. Commissioner Kidde suggested that a detour be provided in order to permit the contractor to proceed with the entire finishing of the work in one operation rather than do it in half portions. This would permit the whole work to be completed without the necessity for waiting until one side was ready for traffic before beginning on the other. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Engineer be instructed to arrange for the necessary easements in order to furnish a detour for traffic to the completion of the work.

Route 3 Widening-Hammonton.

The Secretary presented a communication received from Mrs. George H. Parkhurst of Hammonton, New Jersey, requesting that the State Highway Commission permit the trees through Hammonton to remain and stating that request has been made by the Women's Civic Club of Hammonton to have the Legislators amend the present act to permit the Commission to have discretion to have these trees remain within the graded width. In this connection the Secretary presented a petition signed by the majority of the property owners along this section requesting the removal of the trees now located on this road. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the communication and the petition be received and placed on file.

Proposed New Route

The Secretary presented a petition signed by residents of Keansburg, Keyport and vicinity, requesting the State Highway Commission to lay out a route to be known as the Ocean Boulevard between Atlantic Highlands and Matawan Creek, and urging that the Commission give approval of this in order that legislation may be adopted toward this end. On motion by Mr. Kidde, seconded by Mr. Jelin, the petition was ordered received and placed on file.

Route 4, through Eatontown

The Secretary informed the Commission that representatives of the Eatontown Township Committee were present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Reddan advised that Dr. Rush, Mayor of Eatontown, could not be present and had delegated him and Mr. Hendrickson as representatives, to appear before the Commission and ask whether it would be possible for the Commission to release the Eatontown Township Committee from its obligation to pay for State Highway improvement through that Town on Route 4, because of the fact that the community had suffered through loss of taxes due to the failure of a trolley line. Commissioner Jelin stated that he did not believe the Commission had any authority to change contracts as entered into with the municipalities, and there was no further action taken by the Commission.

Hackensack River Bridge-Route 1

The Secretary presented a telegram from the Board of Commerce & Navigation, requesting conference with the State Highway Commission on the matter of the Hackensack River Bridge. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the Secretary arrange for such a hearing and make report at the next meeting on Monday, November 3rd.

Shark River Bridge-Route 4

The Secretary presented a communication from the Borough of Belmar, requesting information as to whether plans had been adopted by the Commission for the rebuilding of the Shark River Bridge, and stating that they will be opposed to the building of a new bridge West of the railroad in order to eliminate one grade crossing. On motion by Mr. Kidde, seconded by Mr. Kidde, the Secretary was instructed to advise the Borough of Belmar that the Commission is now making plans for a bridge and if they desire a hearing on the question, the Commission will be glad to grant the same when the plans are completed.

Memorial Resolutions.

The Secretary informed the Commission that he had been advised of the death of Mr. Weldon, President of the Weldon Contracting Company, contractors on State Highway work. Commissioner Jelin moved that the Secretary forward suitable expressions of regret on the death of Mr. Weldon.

The Secretary read to the Commission a formal notification from the Stillman-Delehanty-Ferris Company of the death of Mr. J. J. Ferris, President of that company, which company is the contractor on the Perth Amboy-South Amboy Bridge. Commissioner Jelin moved that the Secretary forward suitable expressions of regret on the death of Mr. Ferris, and that expressions of sympathy be extended to his family.

Commissioner Kidde called attention to the very great loss occasioned by the death of Clifford M. Holland, Chief Engineer of the Inter-State Bridge & Tunnel Commission, who had also served so well on the Advisory Board in connection with the tunnel study over the Hackensack and Passaic Rivers and offered the following resolution for adoption:

> WHEREAS, the Almighty has, in His supreme judgment, seen fit to take from our midst Clifford M. Holland, the Chief Engineer of the Inter-State Bridge & Tunnel Commission, and
>
> WHEREAS, the State Highway Commission of New Jersey is fully cognizant and deeply appreciative of the very high standard of services rendered by him to the Commission as a member of the Advisory Board on the study of the Vehicular Tunnel traffic situation through Jersey City and Newark;
>
> THEREFORE, BE IT RESOLVED, that the State Highway Commission of New Jersey does mourn the great loss to the State caused by the death of Mr. Holland, and does hereby express its recognition of the work performed by him on the above mentioned Advisory Board, rendered without expense to the State as a high example of fidelity and service to the State of New Jersey, and
>
> BE IT FURTHER RESOLVED, that a copy of these resolutions be forwarded to his family and to the Inter-State Bridge and Tunnel Commission.

This was seconded by Mr. Jelin and adopted.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting recessed for lunch at 12:30 P.M. to meet in regular session again at 2:30 P.M.

The meeting reconvened again at 2:30 P M. as agreed with the same members present as at the morning session.

Permits-Loads on Highways

There appeared before the Commission Mr. Jaeger of Plainfield, mover of heavy road machinery and equipment who requested permission for the removal of one electric crane. State Highway Engineer Sloan informed the Commission that he had investigated this request and would recommend approval for the same. Commissioner Kidde moved that in all cases where applications are made for moving trucks with weight beyond the legal limit, the State Highway Engineer shall have authority to give the necessary permission within the best of his knowledge, and in the event there arises any serious question, the same shall be brought before the Commission. This was seconded by Mr. Jelin and adopted.

October 28, 1924.

The Schedule of Business was next taken up, item by item as follows, with the recommendations of the State Highway Engineer:

Route 15, Section 4.

Commissioner Jelin reported the inspection of Route 15, Section 4, Main Street, Millville, and moved that the same be accepted on the part of the State. This was seconded by Mr. Kidde and adopted.

Route 11, Sections 6, and 7.

The State Highway Engineer presented final statement of the cost of the construction of Main Street, Clifton, Route 11, Sections 6 and 7, Passaic County, and recommended payment of a balance due Passaic County on account of allotment made by the State for this whole improvement. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the statement as submitted and authorized payment of a balance of $19,731.91 to Passaic County.

Route 14-Right of Way.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of the following parcels of property on Route 14, Section 11, Petersburg-Tuckahoe section:

Parcel	#5 & #4-A, John D. & Sarah H. Williams,	consideration	$ 52.35
"	#21, Walter L. & Mary E. Yerkes,	"	200.00
"	#28, Cindia Corson, Widow,	"	50.00
"	#33 & #33-A, Charles Ainords,	"	100.00

Route 16-Right of Way.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of Parcel #6 on Route 16, Section 8, South Somerville-Woods Tavern Road, from the Board of Trustees of the Harlingen Reformed Church for the consideration of $315.50.

Route 4-Toms River.

State Highway Engineer Sloan presented a petition signed by residents of Toms River, protesting against the abandonment of a portion of Route 4 in Toms River and the relocation of a portion of the said route. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission ordered the petition received and placed on file.

Employments.

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission ratified the following list of additions and changes in employments as made by the State Highway Engineer since the last meeting of the Commission:

October 28, 1924.

Employed

11-1-24	Patrick Ivers,	Gravel Patrolman	100. to 110. " "

Discontinued Employment

10-22-24	Michael H. Boss,	Rodman,	Resigned.

Motor Vehicle Aid-Salem County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of an extension of time to November 1st, 1924, on the contracts covering the following:

Pennsgrove-Pedricktown Road, Section 2,
Pedricktown-Woodstown Road, Section 1,
Salem-Hancock's Bridge Road, Section 1.

all of which are Salem County Motor Vehicle Aid work.

Township Aid-Monmouth County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved award of contract by Freehold Township Committee, on the Elton-Adelphia Road, Monmouth County, Township Aid.

Township Aid-Cumberland County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved a force account agreement on Canton-Othelle Road, Stoe Creek Township, Cumberland County.

Township Aid-Gloucester County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highwat Commission approved of award of contract by the Township Committee on Glassboro-Cross Keys Road (Focer Street) Washington Township, Gloucester County, Township Aid.

October 28, 1924.

Federal Aid-Route 4, Toms River-New Gretna.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of Federal Aid Project statement on Route 4, from Toms River to Absecon.

Institutional Roads

The State Highway Engineer presented to the Commission a request received from Hon. D. S. Voorhees, Chairman of the Board of Managers of the Morris Plains State Hospital, for the necessary engineering work in connection with the resurfacing of an existing macadam road which leads from the end of the public road now maintained by this Department to the Administration Building. State Highway Engineer Sloan recommended to the Commission that the Department furnish the necessary specifications and type of contract, but that they be requested to make all arrangements for the carrying out of the actual engineering work. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that Mr. Voorhees be advised that the Commission will be very glad to make preliminary surveys for the work contemplated, but that when the work is finally undertaken the appropriation requested from the Legislature should carry with it the expenses for engineering.

Route 14, Section 7.

State Highway Engineer Sloan presented to the Commission a report from the Construction Division, outlining the claims made by Ross & Whelan, contractors on Route 14, Section 7, and recommended that the sum of $5,113.33 be allowed to Ross & Whelan as the percentage of the general expense due them on account of a diminishing of the quantity of work done. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission authorized the payment of the sum of $5,113.33 to Ross & Whelan in accordance with the recommendation of the State Highway Engineer.

Sidewalks on Bridges, Route 5-Musconetcong River Bridge.

State Highway Engineer Sloan recommended to the Commission that approval be given for the construction of sidewalks estimated to cost $1,195.00 on the bridge over the Musconetcong River at Hackettstown. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway

Commission approved of the construction of sidewalks on this bridge at the expense of the State, so that it might join with existing sidewalks on each end.

Cooper River Bridge-Route 4.

State Highway Engineer Sloan reported to the Commission that in the next year's program there was included the reconstruction of Cooper's Bridge on Route 4 at Red Bank. He stated that the Commission would be justified, due to the increase of traffic of traffic on the route, to build the bridge with 40 foot width of roadway. Commissioner Jelin questioned as to other bridges on this route and was advised that the New Perth Amboy Bridge would have a width of 38 feet. Commissioner Kidde, therefore, moved that the width of the Cooper Bridge on Route 4 be fixed at 38 feet, including sidewalks on one side and that approval be given to plans and specifications for this work and advertisement be authorized when plans are completed. This was seconded by Mr. Jelin and adopted.

Morgan Grade Crossing-Route 4

State Highway Engineer Sloan reported to the Commission that in connection with the overhead crossing at Morgan it was anticipated that the building of sidewalk on one side .could be done by the municipality, but it now appears that this will not be so. He recommended that the State carry out the work of an estimated cost of $1,736.00. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of the State Highway Engineer.

The Commission next went into conference to discuss progress on the work in Jersey City.

Route 4, Perth Amboy

After this conference, the Secretary informed the Commission that Mr. D. T. Willentz, Attorney for the City of Perth Amboy, was present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Willentz appeared and requested that the Commission give serious consideration to the connection of the newly improved section of Route 4, the old line of Route 4 in Perth Amboy. Chairman Stewart advised Mr. Willentz that the Commission had already taken steps to form a proper connection at this point without building a new bridge. Commissioner Jelin suggested that the State Highway Engineer and one member of the Commission go on the site and look the situation over during the coming week. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that Commissioner Jelin make this inspection and report to the Commission at the next meeting.

On motion by Mr. Jelin, seconded by Mr. Kidde, the meeting was adjourned at 5:00 P.M., to meet in regular session again on Monday, November 3rd, 1924, at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

A regular meeting of the State Highway Commission was held in the Commission rooms, Broad Street Bank Building, Trenton, on Monday, November 3, 1924. The meeting was called to order at 10:30 A.M. by Chairman Scott.

Present: General H. L. Scott, Chairman, Messrs. Percy
H. Stewart and Abraham Jelin.

Route 18-North.

State Highway Engineer Sloan called attention to a communication received from Mr. Rionda on Route 18, requesting that consideration be given to the extension of Route 18 for an additional one-half mile. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the matter be referred to the State Highway Engineer for preparation of estimates and report as to the cost.

Equipment-Trucks

The Secretary presented a communication from the State Department of Agriculture, requesting cooperation from the State Highway Department in the preparation of an exhibit on the Steel Pier in Atlantic City, for the American Pomological Association and the National Grange from November 12th to November 22nd. Request was made that the Commission loan the services of trucks for the necessary transportation of equipment to Atlantic City and return. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the loan of trucks be made to the Department of Agriculture in accordance with their request, if same is legally possible.

Township Aid-Hunterdon County

The Secretary presented a petition received from the taxpayers of Hunterdon County, requesting continuation of the road connecting the Town of Changewater and the section known as the Puddle Church Road, which would connect with the County road between High Bridge and Long Valley. On motion by Mr. Jelin, seconded by Mr. Stewart, this petition was ordered referred to Assistant State Highway Engineer Reed for report.

Claim-E. E. McKensie.

The Secretary presented a communication from Mr. Edward E. McKensie of Canton, Ohio, together with photographs showing that while driving on State Highway Route 20 in the vicinity of Clayton, New Jersey, he collided with a tree which was within the right of way width of the highway and he suffered severe nervous shock with great damage to his car as well as injuring his niece, physically. He asked damages to the extent of $3,000. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the Secretary forward to Mr. McKensie a communication, expressing the regret of the Commission for the accident and advising that the State Highway Commission has no fund from which any damages can be paid for accidents on the State highways.

Complaints-Herbert St., Perth Amboy

The Secretary presented a communication from the Associated Automobile Clubs of New Jersey, directing attention to the very bad condition existing on Herbert Street, Perth Amboy, now used by traffic traveling on Route 4. He also advised that telephone communications from the Automobile Club of Hudson County and from former State Highway Commissioner Farrier, in reference to this same matter, had been received.

On motion by Mr. Jelin, seconded by Mr. Stewart, the communications were ordered accepted and the Secretary was directed to advise that Herbert Street is entirely within the jurisdiction of the municipal authorities of Perth Amboy, but by continuing one block further on Smith Street after coming off the bridge, this bad section can be avoided.

Entrance Road

Bridge Boulevard, Camden

The Secretary presented a communication from the North Camden Business Mens' Association, inclosing a resolution adopted by that organization recommending that Routes "B" or "C" be adopted for the Bridge Boulevard in Camden, and that also a broad thoroughfare be continued to the bridge plaza. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received and placed on file after proper acknowledgment.

The Secretary presented a resolution from the Kiwanis Club of Camden, New Jersey, endorsing Route "B" for the Bridge Boulevard. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received and placed on file after proper acknowledgment.

The Secretary presented a resolution from the Civic Improvement Association of Fairview, petitioning the adoption of lines "B" or "C" for the Bridge Boulevard through Camden. On motion by Mr. Jelin, seconded by Mr. Stewart, the petition was ordered received and placed on file after proper acknowledgment.

Request for Aid-Union County

The Secretary presented a communication from the Township of Union, Union County, explaining again the conditions existing in that Township due to the traffic placed upon Chestnut Street when Route 1 was under construction, and asking for aid in the repairs. On motion by Mr. Stewart, seconded by Mr. Jelin, the communication was ordered received and placed on file after proper acknowledgment.

Black Horse Pike, Proposed Route

The Secretary presented a communication received by Chairman Scott from the Keystone Automobile Club, placing itself on record as favoring the construction of the Black Horse Pike as a relief route to the White Horse Pike. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received and placed on file after proper acknowledgment.

Route 9, Fanwood

The Secretary presented a communication received from Mayor S. B. Thompson of Fanwood Borough, advising that he will appear before the Commission on Monday, November 10th on the matter of materials used on Route 9 construction. On motion by Mr. Stewart, seconded by Mr. Jelin, the communication was ordered received and a hearing was approved for Mayor Thompson for Monday, November 10th.

Hackensack River Bridge-Route 1

The Secretary advised the Commission that the State Board of Commerce & Navigation could meet the Commission near the site of the Hackensack River Bridge either Thursday or Friday of this week for a discussion of the Hackensack River Bridge on Route 1 Extension. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the State Board of Commerce & Navigation be advised that the Commission will be glad to meet them at the Jersey City office of the Commission on Thursday, November 6th at 11:00 A.M.

November 3, 1924.

Route 9, Bloomsbury.

The Secretary presented a communication received from the Mayor of Bloomsbury, requesting that the Commission inform him as to when the proposed inspection of Route 9 through Bloomsbury will be accomplished. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the Mayor of Bloomsbury be advised that a notification will be forwarded to him a few days in advance of the date when the Commission will go to Bloomsbury for inspection.

The Schedule of Business was next taken up for consideration item by item as follows with the recommendations of the State Highway Engineer:

Route 9, Section 12.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission referred to Commissioner Stewart the final inspection of Route 9, Section 12, Plainfield-Westfield section, the same having been completed as of October 1, 1924.

Route 8, Section 4.

State Highway Engineer Sloan reported the completion of Route 8, Section 4, Charlottesburg-Smith's Mills section. Commissioner Jelin stated that in the absence of Commissioner Kidde he had inspected this work on a recent trip in North Jersey and would move that the same be accepted and final payment authorized. This was seconded by Mr. Stewart and adopted. Commissioner Jelin suggested that in view of the fact that Commissioner Kidde has been particularly interested in this improvement on Route 8, that he be requested to make a report of this work before the papers are actually put through for final payment.

Route 4, Section 20.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission referred the final inspection of Route 4, Section 20, Manasquan-Sea Girt section, to Commissioner Jelin, prior to acceptance.

Route 3, Section 12. Widening

State Highway Engineer Sloan presented to the Commission a report in which he advised that in line with the action of the Commission, there had been eliminated from the contract for Route 3, Section 12, Egg Harbor-Hammonton, approximately 15% of the work and he recommends that an amount of grading equivalent to the deduction be authorized on this contract for ten feet on the opposite side of this road under construction in anticipation of further widening of that side of the road. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of the State Highway Engineer.

Township Aid-Middlesex County.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of extension of time from June 15th to July 31st for the completion of the Plainsboro-Cranbury Neck-Princeton Junction Road, Sections 1 and 2, Plainsboro Township, Middlesex County, Township Aid.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the final acceptance of the Plainsboro-Cranbury Neck-Princeton Junction Road, Sections 1 and 2, in Plainsboro Township, Middlesex County, be referred to Commissioner Jelin.

Township Aid-Warren County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of Force Account Agreement on the Allamuchy-Johnsburg Road, Allamuchy Township, Warren County.

Haddonfield-Coffins Corner Road

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of extension of time to October 8, 1924, on the Haddonfield-Coffins Corner Road, Camden County, Motor Vehicle Aid.

Warrick Road, Camden County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved an extension of time to November 1, 1924, on the Warrick Road, Camden County, Motor Vehicle Aid work.

Kings Highway, Camden County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of extension of time to October 8, 1924, on Kings Highway, Camden County, Motor Vehicle Aid.

Employments.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the following additions and changes in employments as made since the last meeting of the Commission by the State Highway Engineer:

Employments

11-1-24	Chas. N. VanLeer,	Junior Engineer	$125.00 mo.
11-1-24	Halsey S. Mills,	" "	125.00

10-31-24	Michael Gracquinto,	Jr. Engineer	1 mo. " " "
10-29-24	Wm. E. Eidson,	Eng. Draftsman	Resigned

Route 4, Perth Amboy

Commissioner Jelin reported, in connection with the reference to him at the last meeting of the connection to be afforded between Route 4 and the newly constructed section of Amboy Avenue, that he had investigated this place and it appeared that the only satisfactory solution would be for an extension to be built to the existing culvert, and that he was prepared to recommend that this be done. State Highway Engineer Sloan advised that the estimated expense of such an improvement would be $5,000.00 and he would recommend that the same be constructed. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of the State Highway Engineer in order to straighten the alignment in connection with Route 4 with the newly constructed Amboy Avenue extension.

Hearing-Route 4, Toms River-New Gretna.

The Secretary informed the Commission that a delegation representing Monmouth, Ocean and Atlantic Counties, headed by Mr. Walter Buzby of Atlantic City, former State Highway Commissioner, was present to bring before the Commission the necessity for improving Route 4. On motion, duly seconded, a hearing was granted. There appeared a delegation of approximately 150 men. Mr. Buzby, acting as spokesman, advised that the delegation represented the citizens and the business interests of the southeastern part of New Jersey from Asbury Park to Cape May, and represented in taxable investments in excess of $250,000,000. He stated that their appearance was to urge upon the Commission the completion of Route 4 from Toms River to New Gretna during the paving year of 1925. He stated that in view of the fact that the life of the resorts along the coast depended upon tourists traffic, it would be a great loss to the State and to business if it was necessary for this route to remain under construction for three or four years to come, rather than to have it all cleaned up during one year. He stated that up to Toms River it has been possible to do sections of the road by creating detours, while from Toms River South the creation of detours was practically an impossibility, and traffic would have to be sent away out of its course to get to Atlantic City from the northern part of the State, which will result in checking the business. He called upon Judge Berry as representing Ocean County, to speak for that section. Mr. Berry also urged the consideration of the completion of the entire balance of Route 4, stating that it is very important to the life of the particular section of the State and would be economy for the Commission to undertake the balance of the work at one time and have it all cleared up during one construction year. Mr. Buzby also called upon Mr. Joseph M. Turner, representing the Kiwanis Club of Asbury Park, who also stated that it was of great interest to the resorts in Asbury Park and that vicinity to have the traffic flow uninterruptedly to and through those communities. He stated that to continue the work on this route over several years would be a hardship that he did not feel it was necessary for that part of the State to stand.

Chairman Scott informed the visiting delegation that the State Highway Commission was very much in sympathy with what has been said and as a matter of fact it has already been considering for several weeks past the advisability of just the plan that was suggested. However, it was still to consider what needs there are in other parts of the State for the funds of the Commission, and until this is decided the Commission cannot give an answer. He also stated that it was the usual policy to have all Commissioners present before deciding on any course of action, and he asked that the same be taken under advisement by the Commissioners present.

Proposed Routes.

In connection with the hearing from Asbury Park, there was present Mr. Jacobson, representing the hotel interests of Lakewood, looking toward the completion of the Adelphia-Lakewood Road. Senator Mathis addressed the Commission on behalf of this work, and advised that it was for the present, a purely county matter and must be taken up with the Legislature in order that it may be included as part of the State Highway System before any action can be taken by the Commission.

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission recessed for lunch at 1:00 P.M. to meet in regular session again at 2:30 P.M. The meeting was again resumed at 2:30 P.M. as agreed with the same members present as at the morning session.

Complaint-Right of Way Route 16, Section 5.

The Secretary presented a report received by Chairman Scott from the Construction Division concerning a complaint received by Senator Case of Somerset County, regarding the property of Mr. VanRonk on State Highway Route 16, Section 5. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the very complete report as received from the Construction Division be transmitted to Senator Case.

Following this the Commission went into conference which lasted until 3:30 P.M., when on motion by Mr. Jelin, seconded by Mr. Stewart, the meeting was adjourned to meet in regular session again on Monday, November 10, 1924, at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - November 10, 1924.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, on Monday, November 10, 1924. The meeting was called to order by Chairman Scott at 10:30 A.M.

Present: General Hugh L. Scott, Chairman, Commissioners Walter Kidde and Abraham Jelin.

Absent: Commissioner Percy H. Stewart, on account of illness.

Minutes Approved.

Commissioner Kidde reported having read the minutes of the meeting of September 23, 1924, and he would move that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Commissioner Kidde reported having read the minutes of the meeting of October 2, 1924, and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Commissioner Kidde reported having read the minutes of the meeting of October 7, 1924, and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Commissioner Kidde reported having read the minutes of the meeting of October 14, 1924, and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Route 9, Fanwood.

The Secretary informed the Commission that pursuant to invitation from the Commission, Mayor S. B. Thompson of Fanwood on Route 9, was present and desired a hearing at this time. On motion, duly seconded, a hearing was granted. Mayor Thompson appeared and first expressed appreciation for the concrete work completed through Fanwood on Route 9, Section 12. He stated that there was included in the contract for this work a stipulation that any excess macadam material taken from the roadway should be given to the Borough of Fanwood, and disposed of within a mile haul at the direction of the borough authorities. Mayor Thompson stated that in view of the fact that the Borough is small and lacks funds, this macadam was very much sought for local streets. He stated that he understood that instead of going to the Borough, some of this macadam was sold to private parties, and now what was left was to be used for shoulder work, and in fact he felt that the Borough was entitled to it. State Highway Engineer Sloan presented to the Commission a report from Division Engineer Andrews as to the disposition of all surplus macadam, in which it was stated that by letter the Department was advised to follow the instruction of Mr. Hann, the Road Committee Chairman of Fanwood Borough, in the disposal of the surplus macadam, which was done. Detailed disposition was given and showed that there was only 100 yards of material that was wasted in places other than as directed. Mayor Thompson stated that this was just the information that he desired and he would take the matter up with Mr. Hann. He inquired as to the balance of material now on the road in stock piles, and was advised that the same was at the disposal of the Borough authorities.

Route 4, Toms River-New Gretna.

The Secretary presented a communication received from Mr. Walter J. Buzby of Atlantic City, transmitting a letter received by him from Mr. H. A. Bonnell, President of the Newark Auto Trade Association, endorsing the plan for the completion of Route 4, from Toms River to New Gretna, all during the construction season of 1925, and naming 13 organizations in the northern part of the State which are vitally interested in such construction. On motion, duly seconded, this communication was received and filed.

Naming-State Highways

The Secretary presented a communication from the National Society of World War Registrars, asking that a cross-state highway be named the Gold Star Highway in New Jersey. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication was ordered received, and information was requested as to whether there was any continuity of highway across the United States bearing this same designation. The Commissioners discussed whether the Commission or the Legislature is empowered to give official designation to any highway in the State.

Route 17-General.

The Secretary presented a communication received from the Director of the Board of Chosen Freeholders of Bergen County, urging that the Commission take over that portion of State Highway Route 17 in Bergen County and South of Hackensack, and explaining the means the County has taken to clear up the situation in Rutherford and East Rutherford. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was referred to State Highway Engineer Sloan for investigation on the ground and report. Commissioner Kidde expressed a desire to accompany the State Highway Engineer on such inspection.

Route 7, Right of Way.

The Secretary presented a communication from Mr. John C. Hastie, owner of property at the location of the proposed grade crossing elimination on Route 7 at Jerseyville, over the Central Railroad tracks, requesting information as to the proposed elimination costs. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication was ordered answered by Chairman Scott.

The Schedule of Business was next taken up for consideration, with the recommendations of the State Highway Engineer.

Route 4, Section 20-A, Manasquan Grade Crossing Elimination.

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved plans and specifications for Route 4, Section 20-A, Manasquan Grade Crossing Elimination Cut-off, and authorized advertisement after approval by the State Highway Engineer.

Route 18-North.

State Highway Engineer Sloan reported that in accordance with directions of the Commission at its last meeting, the work required to connect up 3 1/2 miles of Route 18, as authorized, with the pavement installed by Mr. Rionda, would cost $40,000.00 and was 3,150 lineal feet in length. On motion by Mr. Jelin, seconded by Mr. Kidde, this matter was ordered held until the next meeting.

Route 1, Extension, Elizabeth.

State Highway Engineer Sloan advised that in view of the fact that surveys are proceeding in the vicinity of Elizabeth he would request authority to employ a competent local real estate man for the fixing of values of property for estimating purposes. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission authorized the employment of a local real estate man for Elizabeth estimates on Route 1 Extension.

Route 7, Jerseyville Grade Crossing Elimination.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the agreement with the Pennsylvania Railroad for grade crossing elimination at Jerseyville, this agreement placing the burden of maintenance of abutments on the State, the State Highway Engineer advising that little or no cost would be involved in such maintenance during the life of the bridge.

Right of Way-Route 4.

State Highway Engineer Sloan presented to the Commission four purchase agreements for property on Cleveland Avenue in the City of Perth Amboy, and he inquired whether the Commission had the right to purchase property in a city of over 16,000 inhabitants unless an agreement had first been made with the municipality. He recommended that such an agreement be made with the City of Perth Amboy, which could also include the approach to the Perth Amboy Bridge. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that the Attorney General be requested to furnish the proper form of agreement to be entered into with the City of Perth Amboy, in order that Cleveland Avenue can be extended to the new bridge.

In connection with the above, State Highway Engineer Sloan advised that he was called on by Mr. Frank R. Valentine, an owner of clay lands affected by the new line for Route 4, and there was presented to him a plan calling for a line which would not go through the Valentine properties, which are composed of "spar" and considered very valuable. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission directed that Mr. Valentine be advised that the alternate line has been presented to the Commission and will be given serious consideration after it has been studied by the Engineering Division.

Funds-State Highway.

The State Highway Engineer submitted to the Commission a communication received from Mr. S. H. Phinney, Executive Secretary of the New Jersey State League of Municipalities, requesting that the State Highway Engineer furnish information concerning the use for future State Highway moneys. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission authorized the State Highway Engineer to make a statement in line with his suggestion that if the increased traffic demands are to be satisfied, the funds must be provided for the Commission.

Speaches

Commissioner Kidde stated that he had received a request from the

November 10, 1924.

Jersey City Chamber of Commerce for a talk from one of the Engineer's staff on the Jersey City project on December 12th, and asked that either Major Sloan or Assistant Construction Engineer Lavis be authorized to make such an address.

Legislation- Permits-Loads on Highways.

There was presented a communication from Mr. T. J. Wasser, President of the New Jersey Constructor's Association, concerning legislation which would permit loads in excess of the legal limit as now prescribed, the same as was in effect prior to the last Legislature. On motion, duly seconded, copies of this communication were ordered forwarded to each Commissioner.

Equipment-State Highway.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the purchase of two Austin Motor Graders, equipped with rubber tires for snow removal work in South Jersey.

Employments

On motion by Mr. Kidde, seconded by Mr. Jelin, the following additions and changes in employments, as approved by the State Highway Engineer since the last meeting, were ratified and approved:

Employed

11-1-24	Chas. H. Spence,	Junior Engineer	$125.00 mo.
11-1-24	Albert E. Hill,	Ch. Br. Des.	275.00
11-10-24	J. H. Stephan,	Rodman,	90.00
10-11-24	Barney Ruderman,	Title Searcher,	150.00

Increases

11-1-24	Felix D. Hurwitz,	Highway Cons. Insp.	$185. to 195. mo.
11-1-24	Richard Wilson,	Junior Inspector	125. to 135.
11-1-24	Charles Oliver, Jr.	Junior Inspector	125. to 135.

Discontinued Employment

11-15-24	Nelson W. Rapp,	Asst. Civ. Eng. Br.	Resigned

Flemington-Frenchtown Road, Hunterdon County.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that the final inspection of the Flemington-Frenchtown Road, Central Section, Hunterdon County, Motor Vehicle Aid, be referred to Chairman Scott.

Reckless Place, Red Bank.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that the final inspection of Reckless Place, Red Bank, be referred to Commissioner Jelin.

November 10, 1924.

Kings Highway, Camden County.

Commissioner Jelin reported the inspection and moved acceptance of Kings Highway improvement, Camden County. This was seconded by Mr. Kidde and adopted.

Haddonfield-Coffins Corner, and Warrick Road, Camden County

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission referred the final inspection of the Warrick Road and the Haddonfield-Coffins Corner Road, Camden County, Motor Vehicle Aid work, to Chairman Scott.

Motor Vehicle Aid-Salem County

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission referred the final inspection of the Pennsgrove-Pedricktown Road, 2nd Section, Pedricktown-Woodstown Road, 1st Section, and Salem-Hancock's Bridge Road, 1st Section, to Chairman Scott.

Township Aid-Mercer County

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the Township Aid Force Account Agreement for Lincoln Highway-Port Mercer Road, Lawrence Township, Mercer County.

Hammonton-Pleasant Mills Road, Atlantic County.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved plans and specifications for Hammonton-Pleasant Mills Road, Atlantic County, Motor Vehicle Aid.

Route 10, Section 6.

Commissioner Kidde reported having inspected Route 10, Section 6, Paterson-Hackensack section, and he moved acceptance by the Commission. This was seconded by Mr. Jelin and adopted.

Route 8, Section 4.

Commissioner Kidde reported upon the completed work on Route 8, Section 4, Charlottesburg-Smith's Mills section, and moved that the same be accepted on the part of the Commission. This was seconded by Mr. Jelin and adopted.

Route 4, Section 20.

Commissioner Jelin reported inspection of Route 4, Section 20, Manasquan-Sea Girt section, and moved final acceptance by the Commission. This was seconded by Mr. Kidde and adopted.

November 10, 1924.

Construction Program-1925.
Route 4, Toms River Cut-off.

State Highway Engineer Sloan requested information as to whether the Commission would approve of construction on any of the 1925 program in order that the forces of the Department may proceed to prepare plans and specifications. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the following resolution:

> RESOLVED, that the plans and specifications for Route 4, Toms River Cut-off be and the same are hereby approved and the Chief Clerk is directed to place the necessary advertisements after approval by the State Highway Engineer.

Route 2, Burlington Cut-off.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission adopted the following resolution:

> RESOLVED, that plans and specifications for the paving of Route 2, Burlington Cut-off be and the same are hereby approved and the Chief Clerk is directed to place the necessary advertisements after approval by the State Highway Engineer.

Route 5, Farmers Hotel-Irvington.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

> RESOLVED, that plans and specifications for the construction of Route 5, Farmer's Hotel-Irvington section, be and the same are hereby approved and the Chief Clerk is directed to place the necessary advertisements after approval by the State Highway Engineer.

Scales-Route 4.

State Highway Engineer Sloan requested authority from the Commission to proceed with the construction of weighing scales on Route 4 at Rahway over the property of the Pennsylvania Railroad Company as soon as written permission is secured from the railroad company to lease the necessary land to the State at approximately $6.00 per year. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the request of the State Highway Engineer and authorized the installation of weighing scales on Route 4 at Rahway over the property of the Pennsylvania Railroad Company.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was adjourned at 2:15 P.M. to meet in regular session again on Tuesday, November 18, 1924, at 10:30 A.M.

Respectfully submitted.

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - November 18, 1924.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, on Tuesday, November 18, 1924. The meeting was called to order at 10:30 A.M. by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Walter Kidde and Abraham Jelin.

Absent: Percy H. Stewart, on account of illness.

The Secretary informed the Commission that he had received word from Mr. Stewart's Secretary, advising that Mr. Stewart's physician had ordered him to leave for several weeks in order that he may recover from the effects of his illness. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Secretary forward a telegram to Mr. Stewart, expressing the regret of the Commission on his illness and the hope that his convalescence may be quickly accomplished, in order that he may again be with the Commission.

Minutes Approved.

Commissioner Kidde reported having read the minutes of the meeting of October 21st, and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

County Road, Hudson County

State Highway Engineer Sloan presented to the Commission the matter of bids received by Hudson County for the improvement of County Road between Tonnelle Avenue, Jersey City and County Avenue in Secaucus. He advised that bids were received on this work in accordance with standard State Aid specifications which required that award be made on the basis of the lump sum bid, and that items shall be corrected to equal this lump sum when they do not agree. He advised that the county desired information as to whether it would be possible to make award to the contractor of actual total of the units which was greater by $2,500.00 than the actual lump sum bid. State Highway Engineer Sloan advised the Commission that he had requested an opinion from the Attorney General, and he was advised that where there is a discrepancy in the lump sum, the bid may be changed at the instance of the authorities making the award. He further advised the Commission that he was not prepared, in view of the conditions under which all State Highway work has been advertised and awarded, to recommend approval of the award of contract at the increased amount even though the same contractor would still be low bidder. Commissioner Kidde therefore moved that the award of contract for County Road in Hudson County be approved on the basis of a lump sum price of $172,866.68, which was the amount reported at the time of the opening of the bids and that the County of Hudson be advised that failure on the part of the contractor to accept this contract at the lump sum bid with the items corrected to correspond, will make it necessary for the Commission to disapprove of the award and request that the work be readvertised.

Route 17 General.

The Secretary informed the Commission that Mr. J. E. Thier, Supervisor of Roads in Bergen County, was present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Thier appeared and advised that the County of Bergen was exceedingly anxious that the Commission take over the balance of Route 17 South of Hackensack to the Kearny line, prior to December 15th in order that the County might be relieved of the maintenance of this road for the coming year, and need not put any amount for repairs in its budget. He informed the Commission that the maintenance cost for the present year on this road was $17,000.00. Chairman Scott advised that the Commission had refrained from taking over this road at the time when the remaining portion of the route was acquired, due to the fact that the Commission did not desire to become a party to the controversy between Rutherford and East Rutherford concerning the line of the route. Mr. Thier advised that this matter has been taken care of by the County in the taking over of Erie Avenue and the widening of the underpass as the railroad. He advised that negotiations could be entered into with the railroad company looking toward the placing of the Erie Avenue underpass in good condition, since it would relieve the railroad of immediate activities on Park Avenue.

The Secretary presented communications from Senator MacKay of Bergen County, Assemblyman Black and Assemblyman-elect White, urging the favorable action of the Commission on this matter. Commissioner

November 18, 1924.

Jelin moved that Commissioner Kidde, together with the State Highway Engineer, be authorized to make a thorough inspection of this road, the State Highway Engineer to prepare an estimate of the probable cost of the maintenance and the probable date when reconstruction must be accomplished, said report to be presented at the next meeting of the Commission. This was seconded by Mr. Kidde and adopted.

Bonds-Bridge & Highway 1924.

The Secretary advised that due to the active construction work it is necessary that the Commission adopt a resolution requesting the sale of the balance of bonds to be issued on account of the 1924 program; namely $3,000,000. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

> WHEREAS, by resolution of the State Highway Commission of May 6, 1924, the Issuing Officials of the State of New Jersey were requested to issue State Highway road and bridge bonds in the sum of $5,000,000.00 for roads, and $3,000,000.00 for bridges, making the total of $8,000,000.00 for the year, as provided by Chapter 262 of the Laws of 1922, and
>
> WHEREAS, there has been issued by the Issuing Officials, bonds in the sum of $5,000,000.00 for carrying out the provisions of Chapter 262 of the Laws of 1922, and
>
> WHEREAS, the sale of $3,000,000.00 is now required for the construction, improving, reconstruction and rebuilding of highways, including bridges thereon;
>
> NOW, THEREFORE, BE IT RESOLVED that the Issuing Officials be and they are hereby requested to issue the balance of $3,000,000.00 remaining to be issued on the 1924 apportionment, in the sum of $2,000,000.00 for road construction, and $1,000,000.00 for bridge construction.

Bonds-Bridge & Highway 1925.

The Secretary informed the Commission that in line with the proposed program for the 1925 construction season, it would be proper at this time to inform the Issuing Officials that the State Highway Commission will require all of the bonds to be available in 1925; namely $8,000,000.00. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

> WHEREAS, Chapter 262 of the Laws of 1922, passed by the New Jersey Legislature March 17, 1922, and adopted at a general election November 7, 1922, in accordance with the provisions of the State constitution, provides that bonds in a principal amount not to exceed $40,000,000.00

shall be issued for the purpose of paying the cost of constructing, improving, reconstructing and rebuilding the State Highway System as authorized by law or portion thereof, including bridges which are a part thereof, which said bonds shall be known as State Highway Bonds and which shall be payable in not to exceed fifteen years from date of issue for highway construction and not exceeding thirty years from date of issue for bridge construction, and

WHEREAS, Section 6 of the said Chapter 262 of the Laws of 1922, provides that the State Highway Commission shall certify to the Issuing Officials the amount required for the purpose for which the said bonds are authorized in a total amount not to exceed $8,000,000.00 in any calendar year and that the said Commission shall designate the separate amounts required for the purpose of highway construction and bridge construction.

NOW, THEREFORE, BE IT RESOLVED that the State Highway Commission of the State of New Jersey does hereby certify to the Issuing Officials of the State of New Jersey that there is required for the purpose of carrying out the provisions of Chapter 262 of the Laws of 1922, the sum of $8,000,000.00 during the calendar year 1925, to be issued as follows: for the purpose of paying cost of construction, improving, reconstructing and rebuilding of roads in the sum of $5,000,000.00, and for the purpose of paying the cost of construction, improving, reconstructing and rebuilding of bridges on the said roads, in the sum of $3,000,000.00, and

BE IT FURTHER RESOLVED that a copy of this resolution be certified to the said Issuing Officials as referred to in the said Chapter 262 of the Laws of 1922.

Detours-Route 4.

The Secretary informed the Commission that Senator Morgan F. Larson of Middlesex County was present and desired a short hearing. On motion, duly seconded, a hearing was granted. Senator Larson appeared and inquired concerning the disposition of the request made for aid in the repair of St. George Avenue, Woodbridge, used as a detour during the construction of Route 4, Amboy Avenue, Perth Amboy. He was informed that an opinion on this matter was requested from the Attorney General's Department, but it had not yet been received, and that information would be forwarded to him when such opinion was received, the Commission being favorable, if it is possible to aid the Township.

Haddonfield-Coffins Corner Road.

Chairman Scott reported the inspection of the Haddonfield-Coffins Corner Road in Camden County, and recommended that the same be accepted and authorized for final payment by the Commission. On motion by Mr. Kidde, seconded by Mr. Jolin, the State Highway Commission approved acceptance and final payment of the State's share on the Haddonfield-Coffins Corner Road, Camden County, Motor Vehicle Aid work.

Warrick Road, Camden County

Chairman Scott reported to the Commission that he had inspected the Warrick Road in Camden County, and he would recommend acceptance and final payment. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment of the Warrick Road, Camden County, Motor Vehicle Aid work.

Route 9, Section 12.

Commissioner Jelin reported the inspection of Route 9, Section 12, Plainfield-Westfield section, which was referred to Commissioner Stewart at a former meeting for inspection, but which he had been requested to make for Mr. Stewart. State Highway Engineer Sloan informed the Commission that final tests on this work showed that there was a deficiency in thickness of concrete pavement between Stations 89 plus 90 and 90 plus 20, which would necessitate a deduction of $14.00 in the final payment. Commissioner Jelin stated that he was prepared to recommend the acceptance of this work, subject to the deduction of $14.00 and he moved accordingly. This was seconded by Mr. Kidde and adopted.

Reckless Place, Red Bank.

Commissioner Jelin reported the inspection of Reckless Place, Red Bank, Monmouth County, Motor Vehicle Aid work, and he moved that the same be accepted and final payment authorized. This was seconded by Mr. Kidde and adopted.

DeVoe, F. W.-Asst. Attorney General

The Secretary presented a communication received from the Attorney General advising that it is the customary practice in other Boards of the State that where opinions are desired from the Attorney General's Department that they be requested first of the special counsel appointed to that particular Board, and that Mr. Fred W. DeVoe was counsel to the Highway Board. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered received and held for consideration when Commissioner Stewart would be present.

November 18, 1924.

Right of Way-Route 16.

The Secretary presented a communication from Mr. F. W. DeVoe, special counsel, advising that the condemnation Commissioners in the case of the Lena Watt property condemnation on Route 16, Section 4, awarded to the property owner $5,500.00 plus interest from the date of the filing of the petition. State Highway Engineer Sloan informed the Commission that there were a number of properties to be acquired in this location and that he would recommend that this condemnation be appealed on the ground of its being excessive. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that Mr. DeVoe be informed that the Commission desires that appeal be taken on this condemnation, in order that it may be placed before a jury.

Right of Way-Route 4.

The Secretary presented a communication from Mr. F. W. DeVoe, special counsel, advising that in the condemnation proceedings of Frances D. Brower on Route 4 at Point Pleasant, the original offer was $121.00, and Mrs. Brower has indicated that she will accept $221.00 which he recommends that the Commission pay rather than enter into condemnation proceedings. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchast of the property of Frances Brower on Route 4 at Point Pleasant for $221.00 and the Engineering Division was directed to remove debris remaining on her property.

Route 11, Main St., Clifton.

The Secretary presented a communication from Mr. Garwood Ferguson, County Engineer of Passaic County, advising that inasmuch as specifications for Main Street, Clifton, on Route 11, as completed by the State Highway Commission, call for a maintenance bond for a period of one year, the State, as contractor, should give bond to the County covering this period of time. He also called attention to the fact that since it was alleged that work was not done in accordance with specifications, it would seem proper and fair that the State give the County of Passaic a letter advising that the road will be maintained for a period of at least five years. State Highway Engineer Sloan advised the Commission that as far as the records are concerned there was no contract entered into with Passaic County as to the character of work or material to be placed on Main Street, Clifton, but he informed the Commission that the work was entirely satisfactory and had resulted in a saving in excess of $10,000.00 over the bids received by the County. Commissioner Kidde moved that County Engineer Ferguson be advised, and through him the County of Passaic, that the State Highway Commission, in the improvement of Route 11, Main Street, Clifton, acted in the best interests of the State and for the best interest of the Town of Clifton and the Commission feels that it was successful in its endeavor, in view of the fact that there has been saved upward of $10,000.00 in the operation; and further, the State Highway Commission would call attention to the fact that they will be very glad to stand behind the work as done by the Maintenance Division to the extent that if within a year there will develop any defects due to improper workmanship or material, the Maintenance Division is authorized to take care of same without further cost to the County. This was seconded by Mr. Jelin and adopted.

Hackensack River Bridge,
Route 1 Extension.

The Secretary presented a communication received from Col. H. C. Newcomer, District Engineer of the War Department of the United States, requesting information as to whether any action has been taken by the Commission relative to the construction of a new draw span for the Lincoln Highway Bridge over the Hackensack River on Route 1 Extension, and calling attention to the fact that the discontinuance of the temporary bridge on this location is requested by June 30, 1925. In this connection the Secretary presented a notification from the Acting Secretary of War, advising that in view of the fact that at a public hearing held on August 20, 1924, the State Highway Commission expressed its willingness to make such changes in the Hackensack River Bridge on Route 1 as are considered necessary for navigation on the stream, the Commission is ordered within 90 days from the date of the serving of this notice to complete the following alterations:

"A" Extend the East fender of the East draw northward on its present line for a distance of about fifty feet until it is approximately opposite the up-stream end of the center pier fender; then to curve it to the eastward and extend it about thirty-five feet further.

"B" Remove the center pier of the old bridge and straighten out the center pier fender in the West draw.

State Highway Engineer Sloan informed the Commission that to comply with the order of the War Department, and also in order to give an answer to Col. Newcomer, it would be necessary that the Commission decide as to the type of drawspan to be placed on the Hackensack River Bridge, and he recommended that the Commission approve of a double-leaf bascule span for this structure. Hr further stated that the approval of a bascule span will permit the entire removal of the existing center pier on the Hackensack River Bridge location. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer and authorized the submission of plans to the War Department for a bascule bridge on this location.

Commissioner Kidde inquired as to what disposition the Department of Commerce & Navigation had made on the application of the Commission for the reconstruction of the Hackensack River Bridge, in view of the fact that they had expressed a desire that the Commission consider the replacing of bridges over the Hackensack and Passaic Rivers with tunnels. The Secretary informed the Commission that there had been received from the Department of Commerce & Navigation advice to the effect that the Board has granted to the Commission a permit for the reconstruction of the Hackensack River Bridge on Route 1 Extension, and has forwarded with this permit a letter to the effect that the Board feels that the most satisfactory method would be to replace the bridge with a tunnel. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that a communication be forwarded to Col. Newcomer, together with the permit of the State Department of Commerce & Navigation for the reconstruction of the Hackensack River Bridge on Route 1 Extension in Jersey City, advising that the State Highway Commission is prepared to proceed with the reconstruction of the Hackensack cross-span immediately upon approval of the plans for the bascule span, and the Commission would appreciate an early approval in order that the work might be undertaken at once.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the notice from the Secretary of War be acknowledged and that he be informed that the Commission has, this day, authorized the presentation of plans to Col. Newcomer for a double leaf bascule drawspan over the Hackensack River, and immediately upon favorable action by Col. Newcomer, whereby there will be eliminated any further use for the existing center pier, the Commission will advertise for bids for the removal of the same and such other work as requested in the order dated October 30, 1924.

Equipment-Trucks.

The Secretary presented a communication from Mr. John J. Stanton, Secretary of the High Point Park Commission, informing the Commission that in accordance with contracts, the two trucks which have been assigned to High Point Park work have been turned over to the snow removal operations at Sussex, and he epxressed appreciation of the cooperation given by the State Highway Commission and asked that if possible one truck be assigned to his Commission for winter work. State Highway Engineer Sloan informed the Commission that the work accomplished by the High Point Park Commission during the summer in connection with the road between Sussex and Port Jervis has been very creditable. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the communication from Mr. Stanton be acknowledged, and he be advised that the Commission is very gratified to receive a report of the good work done at High Point Park, and further that the Commission is very desirous of cooperating in the winter work to be done, but all of the large trucks are now equipped for snow removal work and assigned to State Highways, however, if the State Highway Engineer can locate a smaller truck suitable for their use it will be assigned to the High Point Park Commission for the winter.

Route 4, Toms River-New Gretna.

The Secretary presented communications from the Atlantic County Chamber of Commerce, the Hammonton Chamber of Commerce, the Kiwanis Club of Egg Harbor City, the Kiwanis Club of Pleasantville and the Automobile Trade Association of Atlantic City, urging the completion of Route 4 from Toms River to New Gretna, during the construction season of 1925, in order that the same may be completed in one operation, and the traffic to the shore resorts will not be interrupted more than during the one year. On motion by Mr. Jelin, seconded by Mr. Kidde, the communications were ordered received and placed on file for acknowledgment when action on this matter is taken up by the Commission.

Route 10, Bluff Road.

The Secretary presented a communication from the Palisades Improvement Association protesting against the erection of wire fences by the State Highway Commission on its property parallel with Bluff Road, and calling attention to the fact that the Commission may not be aware of property restrictions in Palisades, which include a provision that fences may not be erected close to the street lines. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the communication be acknowledged and that reply be made, advising that the Commission believes the best interests of the State demand that the property of the state be segregated from the private property owned, and further that the problem of securing refund to the State for the property is now being solved, and, in fact, most of the owners have agreed to repurchase the contiguous strips of property, and the Commission hopes that before very much time has elapsed all of the fences will be removed, since the Commission feels that these fences are in no way an asset to the appearance of the locality.

The Secretary informed the Commission that in this connection there had been received a check in the amount of $500.00 from Myriel Nieman, covering a tract on the Bluff Road. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the transfer of property on Bluff Road to Myriel Nieman for the sum of $500.00, and authorized the signatures of all the Commissioners to a deed on behalf of the State.

Trees —

Route 3, Widening-White Horse Pike.

The Secretary presented a communication received from Mr. Walter J. Buzby on the matter of a proposed hearing before the State Highway Commission on the matter of tree removal at the location of property owned by Mr. Charles Dooin on the White Horse Pike. On motion, duly seconded, the communication was ordered received and placed on file.

The Secretary informed the Commission that Mr. Dooin was present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Dooin appeared, together with his Attorney and a Mr. Filling, and informed the Commission that in the widening of Route 3 at his property it appeared to be necessary to remove approximately 41 trees which he claimed were a great asset to his property, and in fact led him to choose that particular site for his home. He stated that he believed that some satisfactory arrangements could be made whereby these trees could be moved, and cited instances in his knowledge where removal had been made of trees of dimensions even greater than these, which are about 12 inches in diameter. Commissioner Kidde stated that the trees mentioned by Mr. Dooin were within the right of way of the highway and for this reason Mr. Dooin had no legal rights in the trees. Mr. Dooin stated that while this was so, he did not believe the State was desirous of injuring the property owners, and if some way could be made to save the trees he would be glad to share in the expense. Commissioner Jelin inquired as to what extent he would be willing to share, and Mr. Dooin stated that he would be willing to share one-half of the cost of moving the trees back ten feet, rather than destroy the trees, and also he would be willing to assume all risks in regard to loss of trees in this moving. Mr. Dooin suggested that the State Forester be questioned as to the possibility of moving these trees, and he would also secure a price from some local people for the removal. Commissioner Kidde stated that there would also be involved a legal question as to whether the Commission could undertake the removal of trees to private property. On motion by Mr. Jelin, seconded by Mr. Kidde, the matter was held for consideration after conference with the State Forester.

The Secretary presented a communication from Mr. P. Lucas of Hammonton, New Jersey, stating that he believed the Commission should remove the trees on the White Horse Pike in Hammonton in order that the local people might be permitted to replace them with trees of one standard and grade, since those trees which now exist are not a source of beauty to the town or the properties. On motion by

Mr. Kidde, seconded by Mr. Jelin, the Commission directed that Mr. Lucas be advised that hearings had been given on this matter, and the Commission will be glad to file his letter for consideration.

In this connection the Secretary presented a communication from the Chamber of Commerce of Egg Harbor City, protesting against the removal of trees at Pomona along the White Horse Pike. On motion, duly seconded, the communication was ordered received and placed on file.

Advisory Board Route-Camden.

The Secretary presented a communication from the East End Civic and Improvement Association, Inc. of Camden, forwarding resolution to the effect that the East End Civic and Improvement Association favors and endorses the improvement of Route "A" by the State Highway Commission. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the East End Civic and Improvement Association of Camden be advised that the State Highway Commission has given everyone a chance to be heard on this matter and will file this resolution for consideration, with the advice that the matter is now being developed and that action will be taken very soon.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting recessed for luncheon at 1:00 P.M. to meet in regular session again at 2:30 P.M. The meeting

Entrance Road,

Bridge Boulevard, Camden.

The Secretary informed the Commission that a delegation from the City of Camden, including the Mayor, City Commissioners and City Planning Engineer Leavitt, were present and they desired a conference with the Commission in order to discuss the question of the location of the Bridge Boulevard from the plaza to the proposed Cresdent Road. After a verbal understanding of the cooperation with the city authorities was reached, the meeting was opened and State Highway Engineer Sloan formally submitted a plan showing part of the City of Camden with a proposed Boulevard extending from the Bridge Plaza to a connection with a proposed Crescent Route, which is designated thereon as line "C", and he submitted the recommendation that line "C" be approved as the route to be followed for the proposed Bridge Boulevard under the following terms and conditions:

> The entrance to the Plaza from 11th Street on shall be accomplished by the use of both Penn and Linden Streets, which Streets are to be widened and paved at the sole expense of the City of Camden, said paving to have a width of 47 feet between curbs. At all other points the highway shall have a paved width of 78 feet, the paving to be installed at the expense of the State.
>
> At all points where the proposed Boulevard occupies property now owned or occupied by the City of Camden, the City shall furnish and deed to the State the necessary right of way of 120 feet, and shall save the State harmless from any damage which may be done to abutting city property. The City of Camden shall share in the expense of the elimination of the Grade Crossing of the proposed Boulevard at Federal Street in the amount of $150,000.00, and shall cooperate in every way in the obtaining of the necessary franchises and other legal requirements made necessary by the construction of this work.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the foregoing recommendation of the State Highway Engineer and directed that a form of agreement be prepared and executed, containing the provisions as outlined in the recommendation of the State Highway Engineer.

In connection with the Camden action, Mr. Lorber, Secretary of the East End Civic and Improvement Association, stated that he believed that an opportunity should have been given his Association to be heard prior to any decision being reached on the Camden matter. He stated further that his Committee was awaiting an opportunity to appear before the Commission. Chairman Scott inquired of the Secretary whether any request had been made for the hearing, and he was advised that there was no request, nor any information from the East End Civic and Improvement Association other than the communication and resolution which were read at the morning session. Chairman Scott then informed the delegation from the East End Civic and Improvement Association that the Commission has had this particular project under consideration for six months past, and that there have been at least one-half dozen conferences with the city authorities of Camden, and three public hearings have been held which have been attended by residents from all sections of Camden, and that the Commission has, at all times, carried its activities in connection with the Advisory Board Routes in a fair and proper manner, and if the East End Civic and Improvement Association had made proper request for the same, it would have been granted. Commissioner Kidde informed the visitors that in deciding upon line "C" instead of line

"A" as they recommended, it was done only after the City of Camden had made such a plan feasible, and further the growth and progress of Camden was considered along with the benefits to be derived by the State, and he complimented the City authorities of Camden upon the negotiations upon which line "C" was finally secured for the Bridge Boulevard through Camden.

Route 3, Widening-White Horse Pike.

The Secretary informed the Commission that Mr. Kessler, Assistant State Forester, was present at the request of the Commission, to talk over the matter of the removal of trees on Route 3 at the Dooin property location. On motion, duly seconded, a hearing was granted. Mr. Kessler appeared before the Commission and upon inquiry stated that 12 inch trees could be moved at a cost which he would approximate at $50.00 each. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that means be placed at the disposal of Mr. Kessler, in order that he might go on the ground and prepare a report for the Commission concerning the trees on the White Horse Pike within the 40 foot width proposed for widening, and an approximate cost of the moving of same.

Sidewalks-Route 3, Clementon

The Secretary presented a communication from Mr. Charles S. King, Attorney for the Township of Clementon in Camden County, advising that the Township is desirous of placing sidewalks in the Borough, and whether it would be possible to have an appointment with the Commission, in order that the sidewalk location may be definitely settled. Commissioner Kidde suggested that in view of the necessity for studying the situation in Camden and along the White Horse Pike, he believed the Commission should arrange to make an inspection of that particular location with reference to trees at the Dooin property and at Hammonton, and as to sidewalks in Clementon, before any further meetings are held or any action taken concerning same. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Clementon Township authorities be advised that the Commission will be glad to make an inspection and grant a hearing in the matter, same to be held on December 2nd.

November 18, 1924.

Bridges-Route 4.

The Secretary presented a communication from the Borough Clerk of Sea Girt, New Jersey, submitting the recommendation of the Borough Council of Belmar, that the new bridge to be located between Avon and Belmar on Route 4, be constructed West of the railroad. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication was ordered received and placed on file.

Detours-Route 13.

The Secretary presented a communication from Mr. William C. Vanderwater, Attorney for Princeton Township, forwarding a copy of communication to him from the Utility Construction Company on the matter of the condition of Quaker Road which was used by the contractor as a detour during the construction of Route 13 between Princeton and Lawrenceville. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that Assistant State Highway Engineer Reed be requested to take up with Mr. Vanderwater the matter of application for Township Aid upon Quaker Road from 1925 funds when same are available.

Route 1 Extension, Newark

The Secretary presented a letter from the Ironbound Manufacturers Association of Newark, requesting a conference with the Engineers of the State Highway Department on the matter of the proposed Route 1 Extension through Newark. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that the State Highway Engineer be authorized to confer with the special committee of the Ironbound Manufacturers Association of Newark at a time suitable to them, and Commissioner Kidde stated that he would be glad to accompany the State Highway Engineer on such an occasion.

Shark River Bridge-Route 4.

The Secretary presented a communication from the Borough of Belmar, requesting a hearing in the matter of the location of the bridge on Route 4 between Avon and Belmar. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that a hearing be granted on December 2, 1924.

November 18, 1924.

Request For Aid-Hunterdon County

The Secretary presented a communication from the Board of Freeholders of Hunterdon County, requesting a hearing in the matter of the 1925 program in that County. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the Hunterdon County authorities be requested to take the matter up with Assistant State Highway Engineer Reed, in order that he may prepare a report, and that a hearing will be arranged following such a conference.

The Schedule of Business was next taken up for consideration item by item as follows, with the recommendations of the State Highway Engineer:

Pequannock River Bridge,
Route 8, M. P. 14.4.

State Highway Engineer Sloan presented the following report of bids received on November 17th for the construction of the Pequannock River Bridge on Route 8 at M. P. 14.4 and recommended award of contract to Arnolt-Moore, Inc. the lowest bidder.

Arnolt-Moore, Inc.	$ 82,236.00
A. L. Trippi	82,660.00
Weldon Cont. Co.	84,500.00
Fuller Const. Co.	87,470.00
Linde & Griffith	87,600.00
Thomas Sheahan	88,310.51
Kuchar Bros	88,700.00
Dover Boiler Works	90,725.00
Scully & Fountain	90,915.00
Richards & Gaston, Inc.	93,739.00
R. H. W. Blackwell	93,849.00
Krollwitz Cont. Co.	94,900.00
I. T. Gibbs Const. Co.	97,540.00
F. W. Schwiers, Jr. Co.	113,739.00

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:-

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of the Pequannock River Bridge on Route 8 at M. P. 14.4, to Arnolt-Moore, Inc. at their's the lowest bid received in the amount of $82,236.00, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts, after approval by the State Highway Engineer.

Long Valley-Hunterdon County
Line Road.

The Secretary informed the Commission that Mr. T. J. Wasser, Engineer for the Public Service Production Company, was present on the matter of the final inspection of the Long Valley-Hunterdon

November 18, 1924.

County Line Road, Morris County, State and Motor Vehicle Aid work. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that Mr. Kidde be designated to make final inspection, prior to acceptance by the State Highway Commission. Mr. Wasser called attention to the fact that the County of Morris has granted an extension of time to the date of completion on the work, due to the fact that there was difficulty experienced in securing materials sufficient to carry on the work with proper progress, and also due to the fact of the clayey condition of the soil, it was impossible to work within 24 hours after a storm.

Joints-Pavement

Chairman Scott took occasion to comment upon concrete pavement where the joints have been poured, as compared with pavement having joints of pre-molded material, stating that the former was a much more satisfactory job.

Route 12, Section 7.

Mr. Wasser requested information as to whether inspection could be made upon the completion of Route 12, Section 7, Stephensburg-Hackettstown section, which he believed would be on the 26th instant. Commissioner Kidde stated that he would endeavor to make the inspection at that time if it was possible.

Right of Way-Route 14.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the purchase agreements for the following parcels of property on Route 14, Section 11:

Parcel	#14-A,	Albert C. Butler, Jr.	Consideration	$ 25.00
"	#22,	David & Jennie Ward,	"	95.00
"	#23,	" " "	"	55.00

Right of Way-Route 8.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission authorized the purchase of Parcel #14 on Route 8, Mountain View Grade Crossing, from Gustav Inquest for the consideration of $4,000.00 due to the fact that the purchase of this property will make unnecessary the construction of a retaining wall which is estimated to cost $7,000.00, and the Right of Way Department was requested to negotiate at once for the sale of a building now on the property.

November 18, 1924.

Scales

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the following purchase agreements for location of scales:

Paterson Plank Road, from Jos. H. Graboski for $1,000.00.

Route 9, Borough of Middlesex near Bound Brook, from Nelson M. and Jennie Giles for the consideration of $1,000.00.

Somers Point-Ocean City Road.

State Highway Engineer Sloan presented to the Commission a report in which he advised that the Atlantic City & Shore Railroad Company had advertised for the work of constructing an embankment outside of their present fill, and advising that their estimate was in error and they will not proceed with the work. In view of the fact of the saving to be gained by having the railroad company's embankment act as a protection to the fill of the highway between Somers Point and Ocean City, whereby there may be eliminated the cost of constructing a bulkhead estimated to cost $9,677.00, he would recommend that an offer of this amount be made to the railroad company on account of which they shall agree to construct and maintain the bulkhead and fill adjacent to the highway. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the recommendation of the State Highway Engineer, subject to a contract in writing to be entered into with the railroad company, requiring that they shall construct a fill which will meet with the present fill of the highway.

Signals.

The State Highway Engineer presented a report concerning the request made by the Borough of Keyport for the installation of a traffic beacon in the center of our State Highway Route 4 at the intersection of Maple Place, and he recommended that this be permitted, due to the fact that the Commission intends within a short time to relocate Route 4 outside of Keyport. On motion by Mr. Jelin, seconded by Mr. Kidde, the recommendation of the State Highway Engineer was approved.

Permits-Request for

There was presented a communication from the Secretary of the Community Club of West Long Branch, requesting permission to have a

Christmas tree erected at the intersection of Route 4 at Locust Street in West Long Branch. Commissioner Kidde stated that he did not believe that the highway was a proper place for the installing of a Christmas tree, since it would interfere with the traffic, and he would move that the Community Club of West Long Branch be advised to this effect. This was seconded by Mr. Jelin and adopted.

Extension of time- Route 4, Section 20.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of an extension of time from October 8th to October 25th to J. F. McGreevy, contractor on Route 4, Section 20, Manasquan River to Sea Girt.

Employments.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission ratified and confirmed the following additions and changes in employments as made by the State Highway Engineer since the last meeting of the Commission.

Employed

11-1-24	H. K. Roberts,	Bridge Tender,	$60.00 per mo.
11-12-24	Robert Pollins,	Garage Assistant,	.45 " hr.
11-1-24	Fred Ridgeway,	Truck Driver,	.40
11-3-24	Wm. S. Cooper,	Mechanic,	.65
11-3-24	Clarence Coryell,	"	.65
11-1-24	D. Russel Cassadigy,	Truck Driver,	.40
10-29-24	Steve Sun,	" "	.45

Discontinued Employments

11-14-24	J. V. Applegate,	Inspector,	Laid Off.
11-30-24	Miller W. Frace,	Jr. Inspector,	" "
11-15-24	David Keefe,	" "	" "
11-15-24	Geo. C. White,	Draftsman,	Resigned.

Route 18-North, General.

State Highway Engineer Sloan again presented to the Commission the estimate of proposed work to be done for the paving of an additional one-half mile of Route 18 to make up with the pavement already installed by Mr. Rionda, this estimate being $40,000.00. Commissioner Kidde stated that he believed that the construction of this one-half mile would make a complete job when added to the 3½ miles already authorized, and that the one-half mile should be taken over for consideration at the same time. He, therefore, moved the adoption of the following resolution:

WHEREAS, under the provisions of Article 3, Chapter 14, Laws of 1917, and the amendments thereto in Chapter 197 of the Laws of 1923, the State Highway Commission may, by resolution, take over as a State Highway, any routes, route or part thereof, of those highways designated by the Act to be taken over as State highways

NOW, THEREFORE, BE IT RESOLVED, that the following described road or parts thereof be and the same are hereby taken over as a part of State Highway Route 18 (North) according to the Statute in such case, made and provided, viz:

Beginning at a point in the center line of Sylvan Road, said point being three thousand, two hundred feet (3200') more or less South from the center line of Hillside Avenue in the Borough of Alpine, Bergen County; thence (1) North thirteen degrees, twenty minutes and twenty seconds East (N 13° 20' 20"E) a distance of one thousand, seven hundred fifty-one and fifty-two one-hundredths (1751.52) feet to the point of curvature of a three degree and thirty minute (3° 30') curve to the right, with a radius of one thousand, six hundred thirty-seven and twenty-eight one-hundredths (1637.28) feet and a central angle of twenty-one degrees and eighteen minutes (21° 18'); thence (2) along said curve a distance of six hundred eight and fifty-eight one-hundredths feet (608.58') to the point of tangency of said curve; thence (3) North thirty-four degrees, thirty-eight minutes and twenty seconds East (N 34° 38' 20" E) a distance of seven hundred eighty-nine and nine tenths feet (789.9') to a point, said point being the beginning point of that section of Sylvan Road taken over by the State Highway Commission August 5, 1924.

RESOLVED FURTHER, that the proper authorities of the Borough of Alpine be notified by the Secretary of this Commission of such action and that from and after the date hereof the said road will constitute part of State Highway Route 18, and that this Commission will be responsible for the improvement and maintenance of the road described above.

BE IT FURTHER RESOLVED, that the Borough of Alpine be requested to file with the State Highway Department within thirty (30) days of the date hereof, any agreements or copies of franchises they may have with any public utilities or any other company, firm, individual or corporation, effecting the construction, maintenance or use of the above described road.

This was seconded by Mr. Jelin and adopted.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the preparation of plans and specifications for the additional one-half mile of Route 18 North, same to be advertised and constructed in connection with the proposed work on the 4½ miles already authorized.

Route 1, Lake Street, Metuchen
Grade Crossing.

State Highway Engineer Sloan presented to the Commission a form of agreement between the State of New Jersey and the Lehigh Valley Railroad Company, covering the construction of a bridge over the tracks of the Lehigh Valley railroad on Route 1 at Lake Street, Metuchen, and he recommended that this agreement be executed by the Commission, calling attention to the sixth paragraph, in which it was cited that in the event any section of this agreement was found to be invalid that the other sections would not become invalidated thereby. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the agrement and authorized the Chairman to sign same on behalf of the Commission.

Township Aid, Hunterdon County.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of an extension of time from September 1st to September 27th on the Pittstown-Everittstown Road, 1st section, Alexandria Towndhip, Hunterdon County, Township Aid.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved acceptance and final payment on the Pittstown-Everittstown Road, Section 1, Alexandria Township, Hunterdon County.

Flemington-Frenchtown Road.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of an extension of time on the Flemington-Frenchtown Road, Central Section, Hunterdon County, Motor Vehicle Aid.

Township Aid-Cape May County.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved acceptance and final payment on the New England Road, Lower Township, Cape May County, Township Aid.

Township Aid-Atlantic County.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Bommission approved of award of contract by Weymouth Township for the Buena-Tuckahoe Road, Atlantic County, Township Aid.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of award of contract by Buena Vista Township for the Buena-Tuckahoe Road, Section 2, Atlantic County, Township Aid.

Township Aid Transfer.

On recommendation of the State Highway Engineer, Commissioner Jelin moved the approval of the transfer of $3,000.00 from Hudson County Township Aid funds to the use of the Tranquility-Andover Road in Green Township, Sussex County, said funds to be returned to Hudson County from the 1925 Township Aid due to Sussex County. This was seconded by Mr. Kidde and adopted.

Equipment-Automobiles.

State Highway Engineer Sloan requested authority for the purchase of four closed Ford cars, and one closed auto at a price not exceeding $1,800.00, said autos being necessary to provide for the Projects Division and also for the Camden Division Engineer. On motion by Mr. Jelin, seconded by Mr. Kidde, the recommendation of the State Highway Engineer for the purchase of autos was approved.

Right of Way-Route 11.

State Highway Engineer Sloan presented with his recommendation purchase agreement for Parcels 3, 4, and 5 on Route 11, Section 8, Kingsland Road, Nutley. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that these agreements be referred to Commissioner Kidde for investigation and report.

Route 4, Toms River-New Gretna.

Commissioner Kidde inquired as to what progress could be made on the matter of the construction of Route 4 from Toms River to New Gretna, and he suggested that in view of the fact that there was originally set up $2,000,000.00 for this improvement, he would be willing to approve of the authorization for the expenditure of $1,500,000.00 upon the improvement of Route 4, provided the remaining $500,000.00 could be applied to the similar condition along Route 8. and that some work be done in Hunterdon County. Commissioner Jelin stated that he believed that the $1,500,000.00 would be sufficient to complete almost the entire project on Route 4 from Toms River to New Gretna, but in the event this was not, additional funds could be found in the Spring after bids had been received and it could be ascertained definitely just what funds would be needed. He, therefore, moved that the Commission authorize the construction of Route 4 from Toms River to New Gretna, allocating thereto the sum of $1,500,000.00, it being understood that it is the intention of the Commission to complete, if possible, Route 4 during the construction season of 1924-25. This was seconded by Mr. Kidde and adopted.

November 18, 1924.

Inspection-Routes 3 and 4.

Commissioner Kidde moved that an inspection trip be arranged covering Route 3 and Route 4, beginning Friday noon, November 28th and extending over Saturday the 29th. This was seconded by Mr. Jelin and adopted.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was adjourned at 5:45 P.M. to meet in regular session again on Tuesday, November 25, 1924, at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - November 25, 1924.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, on Tuesday, November 25, 1924. The meeting was called to order at 10:30 A.M. by Chairman Scott.

Present: General H. L. Scott, Chairman, Messrs. Walter Kidde and Abraham Jelin.

Absent: Mr. Percy H. Stewart, on account of illness.

Minutes Approved.

Commissioner Kidde reported having read the minutes of the meeting of October 28th and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Advisory Board, Shore Relief Route.

The Secretary informed the Commission that a hearing had been scheduled to be held this day at 11:30 A.M. at the offices of the Commission, on the matter of the proposed Shore Relief Route between Perth Amboy and Keyport. In this connection he read an editorial from the Perth Amboy Evening News, in which the opinion was expressed that if relief could be given to South Amboy and Keyport much would be accomplished.

Funds-Availability of.

Commissioner Kidde advised that State Highway Engineer Sloan had presented a copy of letter forwarded by him in response to a request from Mr. Phinney, Secretary of the New Jersey State League of Municipalities, and he moved that this be ratified and approved. This was seconded by Mr. Jelin and adopted.

Request for Aid-Cumberland County. Landis Avenue, Vineland.

Commissioner Kidde called attention to the fact that he was in receipt of a report from the Superintendent of Maintenance on the condition of Landis Avenue in Vineland, which forms a connection with the State Institution at Vineland. This report indicated that it would cost $2,195.00 to put the road between Vineland and the Institution in proper repair. Chairman Scott questioned the authority for improving a county road with State funds, since it was his understanding that the funds of the Commission could be applied to roads leading to institutions only where the institution is off the highway and it is necessary to build a connecting link for the service of the Institution. Commissioner Kidde therefore moved that the matter be referred to the State Highway Engineer to take up with the county authorities of Cumberland County to ascertain what work they will undertake on Landis Avenue if assistance is given by the State. This was seconded by Mr. Jelin and adopted.

Flemington-Frenchtown Road.

Chairman Scott reported the inspection of the Flemington-Frenchtown Road, Central Section, Hunterdon County, Motor Vehicle Aid work, and recommended acceptance on the part of the State. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission ordered the acceptance of this work and final payment of the State's share.

Motor Vehicle Aid, Salem County

Chairman Scott reported the inspection of the Pennsgrove-Pedrickstown Road, second section, Pedrickstown-Woodstown Road, first section, and the Salem-Hancock's Bridge Road, first section, Salem County, Motor Vehicle Aid work, and recommended acceptance on the part of the State. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance of this work and directed final payment of the State's share.

F. W. DeVoe, Assistant Attorney General

The Secretary presented a communication from the Attorney General, requesting that with regard to the form of agreement to be entered into with the City of Perth Amboy, this request be made upon Mr. DeVoe, Assistant Attorney General, and that it will be approved by the Attorney General after the same is drawn. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the communication from the Attorney General be received and that he be advised that the Commission will forward all communications to the office of the Attorney General designated for the attention of Mr. DeVoe, Assistant Attorney General, and will send a copy of same to Mr. DeVoe.

Route 4, Alignment, Waretown.

The Secretary presented a communication from Assemblywomas Lila Thompson of Ocean County, forwarding a letter received by her from a constituent, concerning the alignment of Route 4 at Waretown.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the communication be accepted and filed for later consideration, and that Mrs. Thompson be advised that the Commission will, in a short time, go over the ground of this proposed improvement.

Route 10, Bluff Road

The Secretary presented a communication from J. M. Hayes, representing a property owner on Route 10, Bluff Road, in which he asked that the Commission consider accepting a reduced amount from his client on account of her age and other circumstances in connection with the property which was sold by her contiguous to that strip taken by the State. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that Mr. Hayes be advised that the Commissioners, individually, are very sorry for the condition of Miss Williams, his client, but it is impossible for the Commission to make any distinction as regards individuals dealing with the State, and it must deal in fairness to all, and on the same basis; therefore, the sum originally paid by the State is the sum requested for the payment. This was seconded by Mr. Kidde and adopted.

Route 14-General.

The Secretary presented a resolution from the Cape May County Board of Freeholders, requesting that Route 14, from Mays Landing to Tuckahoe, be considered for improvement during 1925. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that this communication be received and placed on file.

Route 15-General.

The Secretary presented a resolution from the Cape May County Board of Freeholders, requesting the improvement of Route 15 from Rio Grande to Dennisville, during 1925. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that this communication be received and placed on file.

Route 19-General.

The Secretary presented a resolution from the Cape May County Board of Freeholders, requesting that the Commission take over that section of Route 19 lying in Cape May County. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that this communication be received and placed on file.

Request for Aid, Cape May County

The Secretary presented a resolution from the Cape May County Board of Freeholders, requesting a special allotment of Motor Vehicle funds as aid in the construction of a road from the end of State Highway Route 14 to the proposed Cape May-Lewes Ferry. On motion by Mr. Jelin, seconded by Mr. Kidde, the resolution was ordered received and placed on file.

Claims-against Globe Indemnity Co.

The Secretary presented a communication received from Messrs. King & Vogt, Attorneys of Morristown, New Jersey, advising that they represent a client who furnished materials for the J. J. Julian Contracting Company, whose work was completed by the Globe Indemnity Company, the sureties. The bonding company, however, pleaded certain omissions on the part of their client and it was necessary to start court proceedings in an amount of $269.00, which they felt might be avoided if it was called to the attention of the Commission. Commissioner Kidde expressed the opinion that where a bonding company has been given the opportunity to insure contractors in New Jersey, and where the risks have been very good, inasmuch as the Commission has taken steps to insure responsible bidding, the bonding company should not respect technicalities in paying small claims of creditors in cases of default of contractors. He moved that the matter be referred to the State Highway Engineer in order that he may take the matter up with the Globe Indemnity Insurance Company and request an explanation as to their proposed procedure in this case.

Invitations.

The Secretary presented an invitation from the Association of Chosen Freeholders of New Jersey for the Commission to attend the Second Annual Get-Acquainted Dinner given by that Association to the members of the 1925 Legislature on Monday Evening, December 8th. On motion by Mr. Jelin, seconded by Mr. Kidde, the invitation was ordered accepted on behalf of the Commissioners.

The Secretary presented an invitation from the Highway Research Board, requesting a representation at a meeting of that Board to be held in Washington, D. C. on December 4th and 5th. On motion by

Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the State Highway Engineer designate such representatives as he may desire to send and that they be authorized to attend and their expenses paid.

Route 9, Bloomsbury.

The Secretary presented a communication from Mr. W. F. Brown, enclosing a sketch of a suggestion for the proposed line of Route 9 through Bloomsbury, where the local authorities were desirous that the road continue through the Main Street of the Town instead of going outside thereof, as now proposed by the Highway Commission. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication and sketch were ordered received and placed on file.

Advisory Board-Shore Relief Route

The Secretary advised that it was now 11:30 and a large delegation was awaiting a hearing on the matter of the Shore Relief Route. The meeting was then recessed for the hearing. There were present approximately 150 men and women representing the Boards of Freeholders of Middlesex and Monmouth Counties, the Cities of Perth and South Amboy, and other communities along the present line of Route 4. Chairman Scott advised that the Commission would be glad to hear the spokesman for each particular district. Commissioner Jelin presented a statement and requested that the same be read and made a part of the records. This statement read as follows:

"State Highway Commission,
Trenton, N.J.

Dear Sirs:

The State Highway Commission has before it the determination of the location of Route 4. Among the suggested routes is one across the property of the Morgan Terminal Company.

I feel that I should advise you that I own some stock in that company, and so would ask you to excuse me from participating in any way in the discussions or decision regarding the location of the road.

It is a matter which I think should be decided entirely by the other Commissioners.

Abraham Jelin."

Mr. Dey, Director of the Board of Freeholders of Middlesex County, was the first to speak and he stated that the Board of Freeholders of Middlesex County had held a special meeting attended by at least 150 people at New Brunswick, and two resolutions were adopted at this meeting. He presented the same to the Commission. The first recommended that the State Highway Commission improve a road "beginning from a point at the Victory Bridge and running thence to Rose's Corner, eliminating South Amboy excepting that portion thereof known as the Mechanivsville section; thence over the Cheesequake Road to Brown's Garage and running thence over White Brown's Road to TenEyck's Hill, connecting with the Old Bridge-Matawan Road, and thence running to Frenaugh."

The second resolution expressed disapproval of the proposed relief route to Route 4 over the meadows, "in the belief that the construction of this road will result in an unwarranted and excessive cost to the State of New Jersey and be a hazardous experiment, and requests that the State Highway Commission abandon the consideration of this proposed relief route for the reason that the condition of the meadows will not permit the building of a permanent roadway for a number of years." These resolutions were read by the Secretary and Mr. Dey called for any objections to these resolutions on the part of any member in the delegation present. There were no such indications given.

The Secretary read a communication from Mr. W. A. Bassett, Chairman of a Committee urging the adoption of a route by way of South Amboy, Cheesequake, Matawan, Holmdel and Lincroft.

The Secretary read a telegram received from C. E. F. Hettrick, Mayor of Asbury Park, recommending that the relief route begin on the Lincoln Highway at New Brunswick, thence to Old Bridge, Matawan, Holmdel, Vandenberg, Colts Neck. Green Curve to Asbury Avenue, Asbury Park.

Senator Stevens, representing the Monmouth County Board of Freeholders, was the next speaker and he advised that the County of Monmouth favored the route as laid out in the resolutions offered by the Middlesex County Board of Freeholders, feeling that this route will be of greater advantage to the inland traffic and the shore traffic in Monmouth County and will furnish a relief to the congestion existing. He urged that if it was found that additional legislation was necessary in order to improve the road suggested, that he would be very willing to get behind such legislation.

November 25, 1924.

The next speaker was Mr. Frank Coan, City Counsel of South Amboy, who stressed the traffic situation existing in South Amboy, and he presented a request that if at all possible the road be taken outside of South Amboy and follow the line suggested in the resolutions of the Middlesex County Board of Freeholders.

The next speaker was H. W. Roberts of Atlantic Highlands, who presented to the Commission a petition signed by 3000 residents of Monmouth County, requesting that the Commission lay out a route following the proposed Ocean Highway westward from Atlantic Highlands to Belford, to Port Monmouth, to West Keansburg, to First Street, Keyport, thence by Route 4 at Matawan Creek. He stated that this would relieve traffic because of the fact that a large number of motorists desire to follow the shore line when traveling in that district.

Other speakers were Mr. Conlough, Borough Engineer of Syreville, and Mr. L. T. Booz, City Engineer of Perth Amboy, who discussed at length the disadvantages of any proposed route which would go over the Cheesequake meadows, stating that it would be very expensive construction and will never be in a condition to take the travel within the time set by the Commission, which was two years.

Judge Lefferts, representing the Borough of Matawan, favored the Middlesex County suggestion, stating that this would take the traffic out of the main street of Matawan where it was now almost impossible to travel on account of through traffic.

Commissioner Kidde stated that he was very much interested in the propositions presented by the people present, but he believed that the Commission was compelled to follow out the laws enacted by the Legislature, which were to the effect that Route 4 shall extend between South Amboy and Keyport, and that any line to relieve Route 4 must touch these points, unless new legislation is enacted, and in view of the fact that there is no such legislation in existence, the Commission must be guided by that legislation which is now in the statute books.

Chairman Scott closed the hearing with the statement that the Commission was deeply interested in the solution of the problem, and he advised that this matter was under consideration by the Commission for a year past and in view of the fact that the Commission is a creature of the Legislature, it is duty-bound to obey the laws of the Legislature. He stated that the question of taking care of the traffic is a very vital one and must be solved very soon in as complete a manner as it is possible for the Commission to do in the best way and at the least cost. He expressed thanks for the interest shown by the local authorities in coming to this hearing with the State Highway Commission.

The Commission then resumed its regular meeting and on motion by Mr. Kidde, seconded by Mr. Jelin, recessed for luncheon until 2:30 P.M. The meeting was resumed at 2:30 P.M. as agreed, with the same members present as at the morning session.

Long Valley-Hunterdon County Line Rd.

The Secretary informed the Commission that Mr. T. J. Wasser, Engineer of the Public Service Production Company, was present on the matter of the completion of the Long Valley-Hunterdon County Line Road in Morris County. State Highway Engineer Sloan explained to the Commission that an inspection of this work had shown that the joint material throughout the greater part of the work had come up out of the joints and formed ridges, and it would be necessary to cut off the excess bitumen. He also called attention to the fac that on four slabs there was an uneven surface which should be taken care of in some way before final acceptance of the work. Commissioner Kidde confirmed the matter, having accompanied the engineers in the final inspection of this road, and he inquired of Mr. Wasser as to what steps could be taken to relieve this situation. Mr. Wasser advised that his company would be willing to cut off the excess joint material along the road, and at Mr. Kidde's suggestion he promised that his company would furnish a letter at the time the road is accepted, that after the summer of 1925 his company would furnish a letter at the time the road is accepted, that after the summer of 1925 his company will go upon the road and repair the joints throughout those sections where it will be found that the joint material is not sufficient. State Highway Engineer Sloan stated that the only way by which ths uneveness of the surface of the four slabs in question could be taken care of would be by chiseling or air hammer. Mr. Wasser explained the condition existing on these slabs by the fact that this work was carried on just previous to a storm, and even though it was covered there was a slump in the road material while it was setting. He stated that his company would be willing to rectify this condition in any manner satisfactory to the engineers of the Department. On motion by Mr. Kidde, seconded by Mr. Jelin, the matter was referred to the State Highway Engineer for attention prior to final acceptance by the Commission.

The Schedule of Business was next taken up, item by item as follows, with the recommendations of the State Highway Engineer.

Extension of Time-
Route 6, Section 12.

The State Highway Engineer reported the completion of all extra work required upon Route 6, Section 12, East Commerce Street, Bridgeton, and he recommended that the same be accepted on the part of the Commission, said acceptance to include an extension of time to the completion of the work. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of the State Highway Engineer.

Commissioner Kidde moved that reimbursement be made to the City of Bridgeton on account of Route 6, Section 12. This was seconded by Mr. Jelin and adopted.

Extension of Time-
Route 8, Section 4.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of an extension of time of 19½ days on Route 8, Section 4, Charlottesburg-Smith's Mills section.

Right of Way-Route 14.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of Parcel #32 on Route 14, Section 11, Petersburg-Tuckahoe section, from George L. and Bertha M. Powell for the consideration of $2,300.00 at the same time suggesting that the sale of the triangular strip of property remaining to the State be included in the final negotiations on this property.

Right of Way-Route 8.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that an offer of $2,800.00 be made to Camilla W.

November 25, 1924.

Reeve Debow for Parcel #8 at the Pequannock River Bridge on Route 8, and in the event of its being refused, that condemnation proceedings be instituted.

Employments.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission ratified the following additions and changes in the employments as approved by the State Highway Engineer since the last meeting of the Commission:

Employed

11-19-24	Hugh Leddy,	Garage Assistant	$.45 per hr.

Increases

11-16-24	Joseph Havran,	Mechanic	$ .50	to	$ .55	per hr.
1-1-25	A. J. Decker,	Lab. Ass't.	125.00	"	135.00	" mo.
11-15-24	N. C. Heisler,	Br. Const.Insp.	165.00	"	180.00	" "
11-1-24	Geo.D.Cubberly,	Sr.Clerk Steno.	125.00	"	135.00	" "
11-1-24	H. M. Baker,	Steno.-Bkkp.	130.00	"	140.00	" "
12-1-24	Harvey Stillwagon,	Maint. Foreman	155.00	"	170.00	" "
12-11-24	Fred Sprengel,	Maint. Foreman	155.00	"	170.00	" "

Reduction in Pay

12-1-24	Frank W. Grady,	Jr. Insp.	$135.00 to $125.00 per mo.

Long Valley-Hunterdon County Line Rd.

Commissioner Kidde moved that the Inspector on the Long Valley-Hunterdon County Line Road, Morris County, Motor Vehicle Aid work, be brought before the State Highway Engineer for discipline on account of the conditions found on the improvement when completed.

Township & Borough Aid-Gloucester Co.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the revision of Township Aid Force Account Agreements on the Bridgeport-Gibbstown Road, Logan Township, Gloucester County, Township and Borough Aid, by the insertion of the rate of $1.20 per ton for cinders loaded on trucks, in place of the rate of $1.00 per ton f.o.b. boat, as shown.

Extension of Time-
Sullivan Way, Mercer County.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of an extension of time as granted by Mercer County Board of Freeholders on Sullivan Way, Mercer County, Motor Vehicle Aid work.

November 25, 1924.

Township & Borough Aid-Bergen Co.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of plans and specifications for Van Emburgh Avenue, Hillsdale Borough, Bergen County, Township and Borough Aid.

Township Aid-Cape May Co.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of plans and specifications for Reading Avenue, Upper Township, Cape May County.

Township Aid-Bergen County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of plans and specifications for Van Emburgh Avenue, Washington Township, Bergen County.

Route 10, Saddle River Bridge

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the completed work on the Saddle River Bridge on Route 10 at M.P. 2.9 be referred to Commissioner Kidde for final inspection and that request for an extension of time be held until after this report is received.

Exhibits-Conventions.

The Secretary presented a communication from the American Road Builder's Association, inviting the Commission to exhibit at the coming Convention to be held in Chicago in January. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that Mr. Charles Upham, the Convention Manager, be advised that the State Highway Commission appreciates the opportunity given to exhibit free of cost at Chicago, but must decline to exhibit this year.

Route 1, Hackensack River Br.

State Highway Engineer Sloan recommended to the Commission that in anticipation of approval to be given by the War Department to a request made for the construction of a Bascule draw span at the Hackensack River Bridge on the Lincoln Highway, he be authorized to negotiate services for the design of a bascule span, with the Strauss Bascule Bridge Company of Chicago. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Engineer was instructed to negotiate with the Strauss Bascule Bridge Company with the view toward employing their services for the design of special features in connection with a bascule span for the Hackensack River Bridge on the Lincoln Highway. State Highway Engineer Sloan also requested authority to proceed with plans for the strengthening of the existing fixed spans and foundations on the Hackensack River Bridge, estimated to cost $300,000.00. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of the State Highway Engineer.

Route 3 Widening,
Egg Harbor-Hammonton

There was presented a communication received from C. P. Wilbur, State Forester, advising that Mr. Kessler of that Department, had been over the situation locally at the Dooin property on Route 3 and he reported that he does not consider the trees worth the cost of moving the, and recommending that the trees be cut down and replaced next Spring with Norway maples, three inches in diameter, at a cost of about $3.50 each. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that a copy of this report be forwarded to Mr. Dooin, with the advice that, in view of the information contained in this report, the State Highway Commission considers the arrangements discussed at a former meeting to be withdrawn, and further directing the State Highway Engineer to communicate with Mr. Dooin regarding the handling of the trees by the State.

Right of Way-Route 11.

Commissioner Kidde reported that in accordance with reference made to him at the last meeting, he had inspected properties on Kingsland Road, Nutley, but he was not yet satisfied that the Commission should pay the price asked by Mr. Korb for the lots and house in view of the fact that his investigation did not show that the damage caused was as great as the appraisals represented. He requested that the matter be held in abeyance for further investigation. On motion by Mr. Jelin, seconded by Mr. Kidde, the matter was again referred to Commissioner Kidde for further investigation.

Route 17-General

Commissioner Kidde reported that in connection with a reference made to himself and State Highway Engineer Sloan at the last meeting he had made an inspection of Route 17 from Hackensack South, with Mr. Muir, Superintendent of Maintenance. He stated that the line suggested by Bergen County was in need of relocation for a considerable distance, due to the fact that Hackensack Street and Terrace Avenue are both built up in such a way as to make it impossible to get full width of right of way without great expense to the State. He also advised that the present underpass at East Rutherford has only approximately twenty feet of roadway clearnace and imposes a very dangerous condition for traffic, and should be made wider before State Highway traffic is permitted thereon. He stated that he believed this road was one of the most important arteries in the State of New Jersey and that improvements thereon should be accomplished as soon as possible so that it might be taken over as a State Highway. He stated that arrangements might be negotiated with the County of Bergen whereby the County might be willing to undertake the reconstruction of the necessary portions of this road with contributions from the State, and then possibly the entire road could be taken over for future maintenance by the State as part of the State Highway System. He moved that the County of Bergen be advised that due to the report concerning the condition of Route 17 South of Hackensack, the State Highway Commission finds it necessary to defer the taking over of this road for the present. State Highway Engineer Sloan informed the Commission that from the report received from the Maintenance Division, he would recommend this action by the Commission.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Engineering Division make a further study of Route 17 South of Hackensack in order that it might be taken up with the Bergen County Board of Freeholders for negotiation.

Township Aid-Middlesex County

Commissioner Jelin reported having inspected the Plainsboro-Cranbury Neck-Princeton Junction Road, Middlesex County, Township Aid work, and moved that the same be accepted. This was seconded by Mr. Kidde and accepted.

Route 13, Section 6.

Commissioner Jelin inquired concerning the status of final payment due the Utility Construction Company for work on Route 13, Lawrenceville-Princeton section, and stated that inquiry had been made to him concerning this final payment. State Highway Engineer Sloan advised that there were small claims against the contractor estimated at $200.00, for which releases had not yet been furnished. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the sum of $200.00 be withheld and that the balance of the payment due the Utility Construction Company be made at this time.

Right of Way-Route 4

The Secretary presented a communication from Mr. F. W. DeVoe, Assistant Attorney General, advising that Wm. A. Maxwell, owner of parcel of property on Route 4, was now ready to settle for the sum of $250.00 instead of $500.00 as originally asked, and he recommended that this sum be approved in order that condemnation proceedings may be withdrawn. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of Mr. DeVoe in this case.

Route 18-North, Section 1

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

> RESOLVED, that plans and specifications for the construction of Route 18, Section 1, in the Borough of Alpine, be and the same are hereby approved and the Chief Clerk is directed to place the necessary advertisements for this work after approval by the State Highway Engineer.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission meeting was adjourned at 4:30 P.M. to meet in regular session on Tuesday, December 2, 1924 at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

he had made an inspection of Route 17 from Hackensack South, with Mr. Muir, Superintendent of Maintenance. He stated that the line suggested by Bergen County was in need of relocation for a considerable distance, due to the fact that Hackensack Street and Terrace Avenue are both built up in such a way as to make it impossible to get full width of right of way without great expense to the State. He also advised that the present underpass at East Rutherford has only approximately twenty feet of roadway clearnace and imposes a very dangerous condition for traffic, and should be made wider before State Highway traffic is permitted thereon. He stated that he believed this road was one of the most important arteries in the State of New Jersey and that improvements thereon should be accomplished as soon as possible so that it might be taken over as a State Highway. State Highway Engineer Sloan informed the Commission that from the report received from the Maintenance Division, he would recommend this action by the Commission.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Engineering Division make a further study of Route 17 South of Hackensack in order that it might be taken up with the Bergen County Board of Freeholders for negotiation.

Township Aid-Middlesex County

Commissioner Jelin reported having inspected the Plainsboro-Cranbury Neck-Princeton Junction Road, Middlesex County, Township Aid work, and moved that the same be accepted. This was seconded by Mr. Kidde and accepted.

Route 13, Section 6.

Commissioner Jelin inquired concerning the status of final payment due the Utility Construction Company for work on Route 13, Lawrenceville-Princeton section, and stated that inquiry had been made to him concerning this final payment. State Highway Engineer Sloan advised that there were small claims against the contractor estimated at $200.00, for which releases had not yet been furnished. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the sum of $200.00 be withheld and that the balance of the payment due the Utility Construction Company be made at this time.

Right of Way-Route 4

The Secretary presented a communication from Mr. F. W. DeVoe, Assistant Attorney General, advising that Wm. A. Maxwell, owner of parcel of property on Route 4, was now ready to settle for the sum of $250.00 instead of $500.00 as originally asked, and he recommended that this sum be approved in order that condemnation proceedings may be withdrawn. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of Mr. DeVoe in this case.

Route 18-North, Section 1

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

> RESOLVED, that plans and specifications for the construction of Route 18, Section 1, in the Borough of Alpine, be and the same are hereby approved and the Chief Clerk is directed to place the necessary advertisements for this work after approval by the State Highway Engineer.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission meeting was adjourned at 4:30 P.M. to meet in regular session on Tuesday, December 2, 1924 at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - December 2, 1924.

A regular meeting of the State Highway Commission was held in the offices of the Commission, Broad Street Bank Building, Trenton, on Tuesday, December 2, 1924. The meeting was called to order at 10:45 A.M. by Chairman Scott.

Present: General H. L. Scott, Chairman, Messrs. Percy H. Stewart, Abraham Jelin and Walter Kidde.

Sidewalks-Route 3, White Horse Pike, Clementon Township

The Secretary advised that a delegation from Clementon Township, Camden County, was present and desired a hearing. On motion, duly seconded a hearing was granted. Mr. Charles S. King, Township Solicitor, first spoke, advising the Commission that their Township Committee had come to obtain help in the placing of sidewalks along the White Horse Pike through their township. He informed the Commission of several serious accidents which had taken place in this vicinity, and stated that they felt that this was such a serious matter that something must be done to take care of the situation. He advised that the Township was now ready to proceed with the placing of sidewalks, but they were being held up by the refusal of certain property owners to grant the necessary right of way to the State, and they had come before the Commission to ascertain if it were not possible for the State Highway Department to cooperate with them in securing the necessary right of way of 66 feet, which would be sufficient width upon which to lay their sidewalks. Mr. William P. Howard, Clementon Township Engineer, also spoke, stating that he had been proceeding with the work as fast as possible and that he had succeeded in obtaining the necessary width for all but about 4,300 feet. Of this, he felt that he could secure approximately 3,500 feet, but the remainder, or 800 feet, was in the hands of people with whom it was practically impossible to come to any agreement. Commissioner Stewart inquired as to whether or not the Township was willing to proceed to take this land by condemnation, and was advised that they could not do so, due to the fact that the State Highway Commission had already entered into some negotiations in regard to same. After a further discussion as to the details of the matter, Commissioner Jelin moved that these gentlemen be advised that the State Highway Commission is entirely willing to cooperate with them as far as possible and suggested that they be instructed to take this matter up with some representative of the State Highway Department in order that it might be definitely determined to what extent they would require the assistance of the State in securing the right of way, it being understood that all the men present would be willing to serve at any time in the furnishing of appraisals as to the value of the property taken, should condemnation be proceeded with. This was seconded by Mr. Stewart and adopted.

Shark River Bridge-Route 4.

The Secretary advised that there was a delegation present from Belmar, Avon, South Belmar and Bradley Beach, and desired a hearing with reference to the proposed new bridge over the Shark River on Route 4. Mr. Joseph Mayor, Mayor of Belmar, first spoke, stating that a large mass meeting had been held in Belmar the night previous and they had come before the Commission for the purpose of protesting against the construction of the proposed new bridge West of the railroad bridge. He stated that the people in his vicinity felt that this was a very important subject and asked that the Commission, if possible, arrange to hold a public meeting on the site of the work. On behalf of the Borough of Belmar he stated that they were entirely opposed to the construction of the new bridge at this point, it being their feeling that it would be a serious detriment to their town. He stated that the river had already been filled up to a large degree through the construction of bridges and was only now coming back into its own through the expenditure of considerable money by the boroughs of that vicinity, and they felt that if a new bridge was constructed it would again cause the river to fill up and destroy its value thereby. He further stated that they felt that the old bridge would still be used by a large amount of the traffic and if a new bridge were built, it would mean that the present bridge would be thrown back on the county to be maintained. Mr. John Thompson, Mayor of Avon, stated that they also opposed the construction of a new bridge, inasmuch as they felt that same was not necessary and they believed that more interests would be best served by the repair and widening of the old bridge. He also suggested the use of Sylvania Avenue as a different route, which he felt would relieve the traffic situation. Mr. Moore, Assistant Construction Engineer, explained that the use of the Sylvania Avenue route had been considered, but that the amount of property damage entailed through the elimination of two bad curves was so high as to curtail its use. Mayor Borden of Bradley Beach expressed to the Commission his thanks for the Commission having taken over Main Street through Bradley Beach, and asked that they be put on record as favoring the construction of the proposed new Shark River Bridge West of the railroad, but they felt that the route should then follow a straight line into what is the Advisory Board Route between Morgan and Keyport at about Bangs Avenue in Asbury Park. He also urged that if a new bridge were constructed that the old bridge be repaired and maintained by the State. Mr. Claude Birdsall, Mayor of South Belmar, stated that they were also opposed to the construction of this bridge, due to the fact that they felt the elevation of same would make a very steep grade, in addition to the other objections as previously set forth. He stated that he was also the Borough Engineer for Belmar, and he felt that they would be willing to cooperate with the Commission in the obtaining of rights of way if a new line should be decided on. Mr. Gray, representing Neptune City, stated that they were in accord with the suggestion as made by Mayor Borden, that a new bridge be constructed and the road run straight through to the Advisory Board Route. After some further discussion of the matter Mr. Jelin stated that he believed this was a matter of enough importance for the Commission to go and look the location over, and he moved that the Commission arrange to go to Belmar and look the situation over at an early date. This was seconded by Mr. Stewart and adopted, it being understood that no public meeting would be arranged but that the Commission would meet with a committee representing the boroughs interested in the improvement.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission adjourned for luncheon at this time. The meeting was resumed at 2:30 P.M. with the same members present as at the morning session.

Route 17-General.

The Secretary presented a communication from Hon. Ralph Chandles, Speaker of the House of Assembly, urging that the Commission take over

Route 17 South of Hackensack. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Engineer was directed to reply to Mr. Chandless, forwarding him a copy of the report as previously submitted on this subject with the advice that the Commission is desirous of learning from Bergen County how far they will cooperate in connection with the realignment and improvement of Route 17 South of Hackensack.

Signals

The Secretary presented a communication from the Rotary Club of Vineland, urging that a flashing signal be placed at the intersection of Route 18-South and Route 20 at Malaga. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was referred to the State Highway Engineer for investigation and report as to the desirability of placing a flashing signal at this location.

Proposed New Routes

The Secretary presented a communication from the Princeton Chamber of Commerce, urging the Commission to proceed with the construction of the unimproved portion of the Trenton-New Brunswick Turnpike as a relief to the through route in Princeton. Mr. Kidde moved that their communication be acknowledged and they be advised that this Commission has no jurisdiction over this road inasmuch as same has never been designated by the Legislature as a State Highway Route and any construction work on same road must be carried on by the county. This was seconded by Mr. Stewart and adopted.

Route 18-North, General.

The Secretary presented telegrams from Hon. Albert Newcomb, Mayor of Alpine, Mr. Manuel Rionda and Miss Helen G. Rionda, thanking the Commission for having taken over the additional half mile on Route 18 joining with that section constructed by Mr. Rionda. On motion by Mr. Kidde, seconded by Mr. Stewart, the telegrams were ordered received and filed.

Commissioner Jelin stated that he understood that this work was now ready to be advertised but he felt that before advertisement was placed that the Commission should have some assurance from the New York State Highway authorities that they would proceed with the construction of this road on their end, and he moved that this matter be referred to General Scott to communicate with Major Welch of the Palisade Park Commission in order that he might obtain some definite assurance that the New York authorities were ready to go ahead with the construction of their road to connect up with our Route 18 at the State line. This was seconded by Mr. Kidde and adopted.

Commendations.

The Secretary presented a communication from Dr. Jacob G. Lipman, Director of the Agricultural Experiment Station, expressing appreciation for the experimental work performed at that institution. On motion by Mr. Jelin, seconded by Mr. Stewart, the same was ordered received and filed.

The Secretary presented a resolution from the Rotary Club of Atlantic City, commending the Commission for their action in determining to proceed with the construction of Route 4 from Toms River to New Gretna in 1925. On motion by Mr. Jelin, seconded by Mr. Kidde, the same was ordered received and filed.

Right of Way-Route 13.

The Chairman presented a communication received from him from Hon. Theodore Backes, requesting an opportunity to confer with some of the Commissioners in connection with a claim for damages to the property of Dr. Stover on Route 13. Mr. Jelin moved that this matter be referred to the State Highway Engineer in order that he might take the matter up with Mr. Backes and report to the Commission if a hearing is necessary. This was seconded by Mr. Stewart and adopted.

Request for Aid-Sussex County.

The Secretary presented a petition signed by numerous citizens of Sussex County, requesting the construction of the road from Vernon to Hamburg in Sussex County, to connect up with Route 8. On motion by Mr. Kidde, seconded by Mr. Jelin, this petition was referred to Assistant State Highway Engineer Reed for investigation and report.

Grade Crossings-General.

The Secretary presented a communication from Samuel Craig Cowart, Esq., with reference to a report that had been made by the Board of

Utility Commissioners in connection with certain grade crossings at Jamesburg, New Jersey. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered acknowledged with the advice that this was evidently a Middlesex County Road over which the Commission had no jurisdiction, due to the fact that it has not been designated as a State Highway Route.

Shark River Bridge-Route 4.

The Secretary presented a communication from Dilding & Dildine of Belmar, favoring the Commission plans for the proposed Shark River Bridge on Route 4. On motion by Mr. Kidde, seconded by Mr. Jelin, same was ordered acknowledged and held for further consideration pending the inspection to be held at Belmar in this matter.

The Secretary presented a telegram received from the Borough of Spring Lake, expressing approval of the construction of the proposed new bridge and retention of the old bridge. On motion by Mr. Kidde, seconded by Mr. Jelin, the same was ordered received and held for consideration following the inspection to be held at Belmar.

The Secretary inquired if the Commission was now ready to fix a date on which they would go to Belmar to look over this location, and on motion by Mr. Kidde, seconded by Mr. Jelin, the Commission set Thursday, December 11, 1924, as the date for such inspection, and the Secretary was directed to notify the interested municipalities.

Advisory Board-Victory Bridge

General Scott presented for the information of the Commission the report of the Victory Bridge Advisory Board, which was now completed. On motion by Mr. Kidde, seconded by Mr. Jelin, the Secretary was directed to forward a copy of this report to each Commissioner.

The Schedule of Business was next taken up, item by item as follows: -

Route 4, Section 20-A.

The State Highway Engineer presented the following list of bids received for the placing of embankment and gravel surface on Route 4, Section 20-A, Manasquan Grade Crossing Elimination:

Decker & Canning, Inc.	$ 39,567.87
Union Paving Company	39,685.92
Hughes & Tuzeneu	40,555.18

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 4, Section 20-A, Manasquan Grade Crossing Elimination, to Decker & Canning, Inc. of Newark, N. J. at their's the lowest bid submitted in the amount of $39,567.67, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 3, Widening-Hammonton

There was presented a communication received from the acting State Forester with information concerning the condition of the trees along Route 3 at Hammonton and the advisability of moving same. On motion by Mr. Kidde, seconded by Mr. Jelin, the same was ordered received and filed. In this connection the Commission directed that in view of the action taken on September 23rd that no further action be taken at this time with reference to the removal of these trees.

Route 5, Section 11.

On motion by Mr. Stewart, seconded by Mr. Jelin, the completed contract of Salmon Brothers for the construction of Route 5, Section 11, Belvidere-Delaware, was referred to Commissioner Kidde for inspection preliminary to acceptance.

Route 16, Section 8.

On motion by Mr. Stewart, seconded by Mr. Kidde, the contract of Graham VanKeuren for the construction of Route 16, Section 8, Harlingen Cut-off, was referred to Commissioner Jelin for inspection preliminary to acceptance.

Route 4-General.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Engineer was authorized to proceed with the construction of Route 4, Toms River Cut-off, and Route 4, Waretown Cut-off.

Claims-American Tel. & Tel. Company

On motion by Mr. Stewart, seconded by Mr. Kidde, the claim of the American Telephone & Telegraph Company on account of damage to their cable on the bridge over the aqueduct on the Brunswick Pike, was ordered referred to the State Highway Engineer for further investigation and the obtaining of a detailed statement as to the damage done.

Township Aid-Atlantic County.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the acceptance and authorized final payment on the Lincoln Avenue, Buena Vista Township, Atlantic County, Township and Borough Aid.

Long Valley-Hunterdon County Line

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of the granting of an extension of time for thirty-five working days to the Public Service Production Company on the Long Valley-Hunterdon County Line Road, Morris County, State Aid and Motor Vehicle Aid.

Township Aid-Hunterdon County

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of the granting of an extension of time to November 30, 1924 on the Barbertown-Delaware Line Road, Kingwood Township, Hunterdon County, Township Aid.

Employments.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission ratified the following additions and changes in personnel of the Department as approved by the State Highway Engineer since the last meeting:

Increase

12-1-24	Jos. R. Hunt,	Clerk-Typist	$80. to $90. per mo.

Discontinued Employments

11-15-24	Paul Machner,	Gravel Patrolman	Resigned
11-15-24	J. F. Scully,	" "	"

11-24-24	Bert Carter,	Gravel Patrolman	Discharged
11-1-24	Owen Malone,	Rollerman,	Leave of Absence.

Cedar Brook Road, Camden County

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the plans and specifications for the Cedar Brook Road, Camden County, Motor Vehicle Aid.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission adjourned at 4:00 P.M. to meet in regular session on Tuesday, December 9, 1924.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - December 9, 1924

A regular meeting of the State Highway Commission was held in the offices of the Commission, Broad Street Bank Building, Trenton, on Tuesday, December 9, 1924. The meeting was called to order at 10:30 A.M. by Chairman Scott.

Present: General H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Route 1 Extension, Jersey City.

The Commission immediately went into conference with State Highway Engineer Sloan and Assistant Construction Engineer Fred Lavis, on the Route 1 Extension through Jersey City. This conference ended at 3:00 P.M. and the regular meeting was resumed.

Minutes Approved.

Commissioner Kidde reported having read the minutes of the meeting of September 16th, and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Stewart reported having read the minutes of the meeting of November 3rd, and he moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Commissioner Kidde reported having read the minutes of the meeting of November 10th and he moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Commissioner Kidde reported having read the minutes of the meeting of November 18th and he moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Right of Way-Amboy Bridge.

Commissioner Jelin informed the Commission that in view of the recent verdict of the jury in Middlesex County in the case of the Donnell Lumber Company versus the State of New Jersey, in his opinion the verdict was so contrary to the evidence and is so much higher than what he believes the property is worth to the State Highway Commission and the State of New Jersey, that he would move that the Attorney General be authorized to use every means within his power to have the verdict set aside, or to appeal this case or take such other proceedings which will be more effective, in order that the State may secure the Donnell property at its true value. This was seconded by Mr. Stewart and adopted.

Route 5, Section 11.

Commissioner Kidde reported having inspected the completed work on Route 5, Section 11, Delaware-Belvidere section, and he stated that this work was completed in very good shape except for some guard rails and other minor details, and he moved that this work be accepted by the Commission subject to approval of final papers by the State Highway Engineer, a reduction to be made of 125% for all items not yet completed at the time of approval of final papers. This was seconded by Mr. Jelin and adopted.

Route 12, Section 6.

Commissioner Kidde reported having inspected the completed work on Route 12, Section 6, Port Colden-Stephensburg, and he advised that this work was ready to be accepted except for the completion of bridge decks and some guard rails and shoulders, and he moved that the Commission accept the completed work subject to the approval of the final papers by the State Highway Engineer with a deduction of 125% on all items not yet completed at the time of approval of final papers. This was seconded by Mr. Jelin and adopted.

Route 12, Section 7.

Commissioner Kidde reported having inspected the completed work on Route 12, Section 7, Stephensburg-Hackettstown section. He advised that this work was entirely completed with the exception of some shoulder grading, and he moved that this work be accepted on behalf of the Commission, subject to the approval of the final papers by the State Highway Engineer and a deduction of 125% on all items not yet completed at the time of approval of final papers. This was seconded by Mr. Jelin and adopted.

Saddle River Bridge, Route 10

Commissioner Kidde reported the inspection of the completed work on Saddle River Bridge at M.P. 2.9 on Route 10, and he moved that this work be accepted on behalf of the State, said acceptance to include an extension of time of fifteen working days. This was seconded by Mr. Jelin and adopted.

Invitation-Conventions.

The Secretary presented a communication from the D. L. & W. R. R. Company, enclosing itinerary covering trip to be made to the American

December 9, 1924.

Road Builders' Conference at Chicago, and inviting the members of the State Highway Commission to ride with a special delegation to be made up of New Jersey officials. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication was ordered received and acknowledged with the advice that should the Commission decide to be represented, they will consider the invitation.

The Secretary presented a communication received by Chairman Scott, requesting the Commission to attend a conference of the State Chamber of Commerce on Tuesday, December 9th, at the Elks Club in Jersey City, on the matter of transportation in northern New Jersey. Chairman Scott advised that he had designated Mr. Kidde to attend this meeting which was at 6:30 P.M. of this evening, and Commissioner Kidde was to attend at that time. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received and placed on file.

Accidents.

The Secretary presented a communication received by Commissioner Kidde from Mr. George LaMonte, calling attention to the dangerous condition existing at the intersection of Route 9 with the Lansville Road between Bound Brook and Somerville, in which Mr. LaMonte stated there were no warning signs on either side of the road. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication was referred to State Highway Engineer Sloan in order that he may investigate the matter and make reply to Mr. LaMonte.

Route [illegible], Bluff Road.

The Secretary advised the Commission that a representative of property owners on Bluff Road had advised him that endeavor was being made to have the municipality take over those sections of road which the State had acquired for roadway purposes, and dedicate the same as a street, and would thereby pay to the State the balance of money due from property owners who have not yet refunded on the State's claims. Commissioner Jelin suggested that the Maintenance Division be instructed to hold up the placing of additional fences on Bluff Road until further advice from the Commission.

Right of Way-
Route 1 Extension-Elizabeth.

The Secretary presented a communication from the Hudson County

Real Estate Board, presenting a resolution requesting the State Highway Commission to appoint for all appraisals in Hudson County, a Hudson County Realtor, since information had reached them to the effect that a resident of Elizabeth had been selected to appraise property in Hudson County. State Highway Engineer Sloan informed the Commission that an Elizabeth man had been appointed for appraisals in Elizabeth. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the Real Estate Board of Hudson County be advised that it has been the policy of the Commission to appoint appraisers from the locality in which the work was being done, and it was expected that this procedure would be followed in the case of Hudson County, and as to the appointment of a man from Elizabeth for appraisal work, this was done in order to handle appraisals in Elizabeth and Union County only.

Route 18-North, Section 1.

The Secretary presented a communication from the Lockhard Land Company, requesting information as to the proposed work on State Highway Route 18 at Alpine. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the communication be acknowledged with advice as to action taken by the Commission looking toward this improvement.

Right of Way-Route 18-North.

Commissioner Kidde moved that a communication be forwarded to Major Welsh of the Palisades Interstate Park Commission, advising that the Commission appreciates his progress in the matter of securing right of way on the Phelps property, and further advising that the Commission is prepared to proceed with the beginning of the actual construction upon assurance that New York State will go ahead with its end of the work, and also that a communication be forwarded to the Superintendent of Public Works of New York State, advising that the Commission has been negotiating through Major Welsh in securing a line for Route 18, and he has assured the Commission that the New York State authorities were planning to come to the New Jersey State Line in the near future, and that request be made as to what progress has been made in New York State and whether the work will go ahead simultaneously with that in New Jersey.

December 9, 1924.

Route 4, Shark River Bridge.

The Secretary presented a communication from the Borough Clerk of Bradley Beach, requesting a conference with the Commission after the inspection to be held at Belmar on the 11th instant. The Chairman directed that they be advised that it will be impossible for the Commission to do this, in view of the fact that a meeting has been arranged in Jersey City on the afternoon of the 11th.

The Secretary informed the Commission that arrangements had been made by the Borough Clerk of Belmar for the Commission to meet in conference with the local authorities at the Borough Hall, Corner of 9th Avenue and "E" Street on Thursday, December 11th, at 11:00 A.M. prior to making an inspection of the proposed location for a new bridge over the Shark River. Chairman Scott directed that the Secretary notify the Borough Clerk of Belmar that the Commission does not intend to hold a conference, but prefers to make an inspection directly upon reaching Belmar and will be glad to do this in company with the local authorities without holding any public meeting or conference at this time.

Route 1 Extension, Jersey City.

Commissioner Jelin stated that record should be made that a meeting of the Commission will be held in Jersey City on Thursday, December 11th at 3:00 P.M. and he moved accordingly. This was seconded by Mr. Kidde and adopted.

Memorials-
Request for Permits.

The Secretary presented a communication received from the American Legion Post of Haddon Heights, requesting information as to whether the Commission will permit the erection of an arch over State Highway Route 3 as a World War Memorial. On motion by Mr. Jelin, seconded by Mr. Stewart, the matter was referred to the State Highway Engineer in order that he may request that plans and drawings concerning the location of the memorial be forwarded to him for consideration, prior to any decision by the State Highway Commission.

Route 9, Bloomsbury.

The Secretary presented a communication from Mr. J. V. Willever, Mayor of Bloomsbury, inquiring as to what date the Commission will set for making an inspection of the proposed Bloomsbury Cut-Off on Route 9. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that Mr. Willever be advised that the State Highway Commission cannot set a definite date at this time, but will advise him sufficiently beforehand when a date can be set for an inspection.

Invitations - Conventions.

The Secretary presented a communication from Hon. Herbert Hoover, Secretary of Commerce, inviting the Commission to send a representative to a National Conference on Street and Highway Safety, to be held in Washington, D. C. on December 15th to 17th, inclusive. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered referred to the State Highway Engineer with directions that he send a delegate, if in his discretion it is desirable.

Route 1 Extension, Newark.

The Secretary presented a communication from Mr. Joseph H. [illegible], Secretary of the Ironbound Manufacturers' Association, requesting that a date sometime during the week of December 15th be set aside for a conference with the State Highway Engineer and Commissioner Kidde to discuss the proposed Route 1 Extension through Newark. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that Mr. Kidde and State Highway Engineer Sloan attend this conference with the idea of learning what facts the Ironbound Manufacturers' Association may have to present, in order that same may be given consideration when Route 1 is adopted through Newark.

Motor Vehicle Aid General-1925.

The Secretary presented a communication from the Board of Freeholders of Middlesex County, requesting information as to the amount of Motor Vehicle funds which will be granted to Middlesex County for the year 1925. State Highway Engineer Sloan informed the Commission that he had prepared an outline of the apportionments based on the percentage of area, population and road mileage, and he was prepared to recommend that the Commission distribute the sum of $2,600,000.00 from the anticipated 1925 Motor Vehicle receipts as aid to the counties from the Motor Vehicle fund, in accordance with this outline. He advised that while this $2,600,000.00 was the exact amount of money distributed during 1924, the schedule of percentages was varied, due to the fact that in a number of counties the State has taken over for maintenance, mileage which heretofore has been part of the county mileage and under county maintenance. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that apportionments of Motor Vehicle funds for the year 1925, based on the allocation of $2,600,000 in accordance with the following percentages, based upon county road mileage, county population and county area, be approved as follows:

County	Average	Apportionment, Based on $2,600,000
Atlantic	4.942	$128,492.00
Bergen	5.964	155,064.00
Burlington	6.875	178,750.00
Camden	4.214	109,564.00
Cape May	3.292	85,592.00
Cumberland	4.682	121,732.00
Essex	9.129	237,302.00
Gloucester	2.878	74,828.00
Hudson	7.402	192,452.00
Hunterdon	2.806	72,956.00
Mercer	4.328	112,528.00
Middlesex	5.646	146,796.00
Monmouth	5.723	148,798.00
Morris	4.990	129,740.00
Ocean	4.864	126,464.00
Passaic	5.651	146,926.00
Salem	3.176	82,576.00
Somerset	3.420	88,920.00
Sussex	3.850	100,100.00
Union	3.363	87,438.00
Warren	2.807	72,982.00
	100.000	2,600,000.00

On motion by Mr. Jelin, seconded by Mr. Kidde, the communication from Middlesex County was ordered replied to in accordance with the action taken on the apportionment of Motor Vehicle funds.

Request for Aid-Hunterdon County

State Highway Engineer Sloan informed the Commission that he had been visited by a delegation from Hunterdon County, requesting that the Commission grant additional aid for the maintenance of their county roads. He advised that he had suggested to the county authorities that if they would place a portion of their regular repair money in permanent repairs, he would recommend that material aid be given by the State for the reconstruction of 8½ miles of road from Ringoes to Flemington at an estimated cost of approximately $332,000. On motion by Mr. Stewart, seconded by Mr. Jelin, this matter was ordered held on the table for later consideration.

Request for Aid-Atlantic County

The Secretary presented a communication from the Atlantic County Board of Freeholders, requesting aid on the construction of the road between Absecon and Pleasantville. On motion by Mr. Kidde, seconded by Mr. Jelin, the matter was ordered received and held for later consideration.

The schedule of business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer.

Route 6, Section 13.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission referred the final inspection of Route 6, Section 13, Bridgeton-Marlboro section to Chairman Scott.

Route 9, Section 11.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission referred the final inspection of Route 9, Section 11, Lincoln Avenue, Plainfield, to Commissioner Stewart.

Route 8, Section 4-A.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission referred the final inspection of Route 8, Section 4-A, Charlottesburg-Newfoundland, to Commissioner Kidde.

Scales

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the acceptance of a lease from the Public Service Railway Company for five years and thereafter from year to year, for a parcel of land on Lincoln Highway section of Route 1, for the construction and maintenance of weighing scales at a yearly rental of $25.00.

December 9, 1924.

Employments.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission unanimously ratified the following list of changes and additions in the employments of the State Highway Department since the last meeting of the Commission:

Employed

12-1-24	M. W. Frace,	Jr. Inspector	$125.00 per mo.
12-1-24	Wm. Danito,	Gravel Patrolman	75.00 " "
11-13-24	Harry Keller,	Motor Tr. Driver	.45 per hr.
11-21-24	Steve Sier, Jr.	" " "	.45 " "
11-24-24	Freeman Wilson,	" " "	.40 " "
11-25-24	P. E. Campbell,	" " "	.40 " "
12-3-24	Edmund E. Neumer,	Mechanic,	.65 " "
11-24-24	Wm. H. Umstead,	"	.65 " "
11-1-24	LeRoy Cramer,	Motor Tr. Driver	.40 " "

Discontinued Employments

12-17-24	Wm. Helm, Jr.	Senior Inspector	Leave of Absence
12-1-24	George R. Dancherver,	Rodman	Resigned
11-21-24	J. C. McDonnell,	Rodman,	"
11-[illegible]-24	Geo. Yost,	Car Washer	Leave of Absence
12-16-24	Clara E. Quinn,	Sr. Clerk Steno.	Resigned.

Increased

12-1-24	J. P. Cramer	Clerk-Typist	$95. to $105. mo.
12-1-24	H. D. Ford,	Junior Inspector	125. " 135. "

Federal Aid-Route 5.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved projects statement for Federal Aid on Route 5, Morristown-Irvington section.

Lakewood-New Egypt Road, Sec. 2

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the acceptance of the Lakewood-New Egypt Road, Section 2, Ocean County, Motor Vehicle Aid.

Kings Highway, Burlington County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved acceptance of Kings Highway in Burlington County, Motor Vehicle Aid work.

Township Aid Transfer-Ocean Co.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the transfer of Township Aid funds for the construction of Long Beach Streets, Long Beach Township, Ocean County, Township Aid.

December 9, 1924.

Township Aid Transfer-Atlantic Co.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the transfer of Township Aid funds from the Buena-Tuckahoe Road, Section 4, to Cumberland Avenue, Weymouth Township, Atlantic County, Township Aid.

Township Aid-Hunterdon County.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the acceptance and final payment on the Lambertville-Stockton Road, Delaware Township, Hunterdon County, Township Aid.

Township Aid-Cumberland County.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of township aid force account agreement for Friesburg Road, Upper Deerfield Township, Cumberland County, Township Aid.

Township Aid-Middlesex County.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of award of contract by Raritan Township for Main Street, Bonhamtown, Middlesex County, Township Aid.

Cedar Brook Road, Camden County.

State Highway Engineer Sloan presented bids received by Camden County for the construction of Cedar Brook Road, and advised that it was the purpose of the County to award to the Union Paving Company, the lowest bidder, and he recommended that the Commission approve this award when made by the County. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the Commission approve of award of contract by Camden County to the Union Paving Company, for the construction of Cedar Brook Road at $14,338.70.

Route 16, Section 8.

Commissioner Jelin reported having inspected the completed work on Route 16, Section 8, Harlingen Cut-Off, and moved that the same be accepted on the part of the State. This was seconded by Mr. Stewart and adopted.

Sidewalks-Route 4 Lakewood.

State Highway Engineer Sloan presented to the Commission the request of Lakewood Township for permission to construct sidewalks along Route 4 near Lake Carasoljo, and he recommended that they be given authority to construct the sidewalks with the understanding that no timber construction is to extend within five feet of the West curb of Route 4: further the Township is to maintain earth fill, shoulders and slope adjacent to the curb in such a manner that the concrete curb and pavement will not be damaged; and further the Township is to agree to any changes or to remove structure should the State Highway Commission at any time consider such action necessary. On motion by Mr. Stewart, seconded by Mr. Jelin, the recommendation of the State Highway Engineer was adopted.

Construction Program - 1925.
Hunterdon County Repairs.

The Commission next discussed the 1925 road building program. Chairman Scott requested that in the consideration of the 1925 program some arrangement be made for giving assistance to Hunterdon County. State Highway Engineer Sloan suggested that his proposition concerning the improvement between Ringoes and Flemington be taken up at this time. Commissioner Jelin stated that before the Commission could take any definite action it would be necessary for the Hunterdon County Board of Freeholders to make a formal application for State funds. Commissioner Stewart, therefore, moved that it be the sense of the Commission that in the event that the County of Hunterdon will present proper resolution and application, the State Highway Commission will set aside the sum of $200,000.00 for the improvement of all or part of the road between Ringoes and Flemington. This was seconded by Mr. Jelin and adopted.

Construction Program-1925

After a general discussion as to the items contained in the Construction Program as presented by the State Highway Engineer, on motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following improvements for the 1925 construction season.

December 9, 1924.

Rt.	Local Name	Miles	County	Estimate
2	South Broad St.	1.1	Mercer	$110,000.00
2	Burlington Cutoff (pvg.)	2.3	Burlington	100,000.00
2	Bridgeboro Br., M.P. 9.0		"	380,000.00
2	Pensauken Creek-Bridgeboro (Sheet Asph.from M.V.funds)	5.5	"	150,000.00
4	New Gretna Alt.-Toms River	33.16	" & Ocean	1,200,000.00
4	Toms River Cutoff		Ocean	300,000.00
4	Cooper Bridge, Red Bank		Monmouth	500,000.00
5	Blackwell Street, Dover	.75	Morris	100,000.00
5	Farmers Hotel-Irvington	3.00	Union & Essex	500,000.00
6	Alloway Creek Bridge		Salem	60,000.00
7	Freehold-Colts Neck Road	6.4	Monmouth	400,000.00
8	Newfoundland-Stockholm	3.923	Morris, Passaic & Essex	400,000.00
9	Bloomsbury Cutoff & Bridge	1.0	Warren & Hunterdon	200,000.00
11	Washington Avenue, Nutley	.3	Essex	25,000.00
12	Singac-Right of Way		" & Passaic	100,000.00
14	Bridge at Tuckahoe		Atlantic & Cape May	150,000.00
15	West Creek Bridge		Cumberland & Cape May	80,000.00
16	Somerville-Royce Valley	2.4	Somerset	250,000.00
		59.833		$5,005,000.00
4	Amboy Bridge		1925 Apportionment	1,000,000.00

On motion by Mr. Jelin, seconded by Mr. Stewart, the meeting was adjourned at 6:30 P.M., to meet in regular session on Thursday, December 11th at 3:00 P.M. at Jersey City.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - December 16, 1924.

A regular meeting of the State Highway Commission was held at the Commission meeting rooms, Broad Street Bank Building, Trenton, on Tuesday, December 16, 1924. The meeting was called to order at 10:30 A. M. by Chairman Scott.

Present: General H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Institutional Roads

The Secretary presented a communication from Hon. R. C. Jenkinson, and also a communication from Mr. H. H. Pond, with reference to the improvement of the road leading to the State Institution for Feeble Minded at Vineland. On motion by Mr. Jelin, seconded by Mr. Stewart, the communications were ordered received and placed on file, and the Secretary was directed to advise that the road is a Township Road over which the State Highway Commission has no authority.

Route 4, Perth Amboy.

The Secretary presented a communication from the City Planning Commission of Perth Amboy, transmitting a report of the investigations of that Commission for provisions to handle traffic at Smith Street and Convery Place, Perth Amboy. On motion by Mr. Jelin, seconded by Mr. Stewart, this report was referred to the State Highway Engineer for study.

Memorials-
Naming-State Highways.

The Secretary presented a communication from the Gold Star Highway Association with further reference to a national highway which would be marked by the various states in commemoration of the World War veterans. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the Secretary acknowledge this communication and advise that it will be given serious consideration although the raising of funds for this work is entirely up to the Legislature, as well as the designation and naming of routes.

Signals

The Secretary presented a communication from the Borough Attorney of Keyport, in which he states that the Borough authorities of Keyport are compelled to withdraw their application for permission to place a beacon light at the intersection of Broad Street and Maple Place in Keyport on account of the very stringent requirements exacted by the

Highway Commission. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered acknowledged and they be requested to advise the Commission as to what stringent conditions have been put to them which makes the installation objectionable to the local authorities.

Request for Hearing.

The Secretary presented a communication from Mayor Thompson of Hightstown, requesting an appointment with the Commission on the matter of Route 7 from Hightstown to Freehold. On motion by Mr. Jelin, seconded by Mr. Stewart, the appointment was directed to be made with Mayor Thompson at his convenience, on a future Commission meeting date.

Proposed Routes.

The Secretary presented a resolution from the Cape May County Chamber of Commerce, requesting the State Highway Commission to take over as part of the State Highway System, the connection of Route 4 between Absecon and Marshall's Corner in Cape May County, including the Beesley's Point to Somer's Point Bridge. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission ordered the resolution received and placed on file with the advice that the Commission will give consideration to this matter as soon as the funds for same are available.

Construction Program-1925

The Secretary presented a resolution from the Cape May County Chamber of Commerce, requesting the State Highway Commission to include Route 14 from Tuckahoe to Mays Landing in the 1925 paving program. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that this resolution be acknowledged with the advice that the Commission will take the same under consideration.

Route 4, Waretown.

The Secretary presented a communication from Mr. E. R. P. Barrett of Waretown, commending the Commission for the cut-off planned at Waretown, and stating that this was the best, in his opinion, for through traffic. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the communication be received and placed on file.

December 16, 1924.

Motor Vehicle Aid-General.

The Secretary presented a suggested budget of Motor Vehicle moneys as prepared by the Chief Auditor for the year 1925, and recommended that the same be approved by the Commission. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that copies of this budget be forwarded to each Commissioner for information prior to approval.

Route 13, Lawrenceville-Trenton.

The Secretary informed the Commission that Assistant Attorney General Theodore Backes was present for a hearing, together with Dr. Stover, a property owner on the Lawrenceville Road. On motion, duly seconded, a hearing was granted. Mr. Backes informed the Commission that some time prior to his taking the office of Assistant Attorney General, Dr. Stover had come to him for legal advice on the matter of his property on Route 13 between Trenton and Lawrenceville. He stated that at the time this improvement was contemplated, negotiations were entered into for the acquisition of certain frontage from Dr. Stover's property and a promise was made by the Right of Way Division at that time that Dr. Stover's land would be restored, and in order to do this a toe wall would be put along the front of the property in order that the grade of the land could be maintained above the highway. After this promise was made nothing further was done with the matter until State Highway Engineer Sloan ordered the work on the wall stopped, due to the fact that the State Engineers claimed that the section of road on which the State Highway Department was working was State property and not included in Dr. Stover's deed, and therefore there was no obligation on the State to place a wall on the property. Mr. Backes advised that by this time all monuments have been destroyed as far as identifying the original location of the Lawrenceville Road, and he, therefore, did not desire to enter into litigation on the matter. He suggested that if possible the Commission arrange some settlement with Dr. Stover. State Highway Engineer Sloan informed the Commission that from the surveys made of Dr. Stover's property, the State was not trespassing on his site and that a step was put in for Dr. Stover and the land next to the road was properly graded similar to the work done on other property along this line. After further discussion, Commissioner Stewart moved that the matter be held over for later consideration. This was seconded by Mr. Jelin and adopted.

Black Horse Pike.

The Secretary informed the Commission that a hearing had been requested by Mr. Cattell, County Engineer of Gloucester County, with reference to the improvement of the Black Horse Pike. On motion, duly seconded, a hearing was granted. Mr. Cattell introduced Assemblyman Pine of Camden County, who acted as Chairman of a delegation from Camden, Gloucester and Atlantic Counties and the Black Horse Pike Association. Mr. Pine informed the Commission that the delegation desired to bring to the Commission's attention the necessity for the improvement of the Black Horse Pike as a relief to the White Horse Pike and Routes 18 and 20.

He requested that Mr. Russell, President of the Black Horse Pike Association, be allowed to speak. Mr. Russell addressed the Commission and explained the formation of the Black Horse Pike Association and the developments which have taken place along the Black Horse Pike for the past two years. He pointed out the advantages to South Jersey which would accrue upon the completion of this road, since it opens up a territory heretofore very sparsely settled. He advised that it was proposed to create a boulevard over as great a width as desired by the Commission, since the right of way could be obtained for practically a nominal cost. He also advised that various counties along this highway have improved certain sections so that it is not necessary for the entire route to be reconstructed. He urged the Commission to get behind the proposed legislation to be introduced again for the creating of a State highway over the line of the Black Horse Pike.

Judge Higbee, County Counsel for Atlantic County, was the next speaker, and he advised the Commission that it was proposed to introduce at the next Legislature a bill making the Black Horse Pike a State highway, and he advised that they felt that it would be useless to urge this upon the Legislature unless the State Highway Commission was in favor of making this road a part of the State Highway System and would take it over as such. He outlined the necessity for a parallel highway to the White Horse Pike and stated that he felt that it was more desirable to have parallel roads than to have one wide road for the traffic.

Mr. John Tomlin, Chairman of the Road Committee of Atlantic County next and addressed the Commission and stressed the fact that this Black Horse Pike was a State proposition, since it crossed three counties, and he advised that about two-thirds of the highway is already in fair condition. He advised that this road goes through a strip of country which should be developed as soon as possible.

Mr. Cattell, County Engineer of Gloucester County, was the next speaker, and he stated that Gloucester County was in favor of the Black Horse Pike improvement as well as other South Jersey improvements. He also advised that the Gloucester County Board of Freeholders had purposed to spend about $200,000.00 on the Gloucester County section of this highway, but was uncertain as to whether it was possible for them legally to spend money on a road which may become part of the State Highway System. He was advised by the Secretary that an opinion has been rendered by the Attorney General to the effect that even though the highway has been named part of the State Highway System by the Legislature, it does not become part of the State Highway System until there has been an official hearing and resolution to this effect adopted by the State Highway Commission, and until such action is taken the Counties are still in control and any improvement of the same is at their own expense. Other speakers were Mr. Treat, Director of the Board of Freeholders of Gloucester County, and Mr. Wise, Chairman of the Road Committee of Camden County, both of whom expressed favor in the improvement.

Mr. Pine then advised the Commission that he anticipated introducing in the next Legislature a bill looking toward the addition of the Black Horse Pike as part of the State Highway System, and he requested information as to whether the Commission would give favorable consideration to this measure if a public hearing was invited by the Legislature. Chairman Scott addressed the delegation and advised that he would express his personal opinion on the matter, which, he believed was shared by the other Commissioners; namely, that the State Highway Commission is empowered to spend the bond issue money upon those sections of State highways which were in effect on March 17, 1922. Since that time there have been added about 700 miles of highways without the addition of funds for the purpose of their improvement. He advised further that in view of the fact that the Legislature had not seen fit to place the designation of State highways in the Commission, he felt that it was their desire to hold that authority within themselves, and the State Highway Commission, being a creature of the Legislature, does not desire to take any part in any questions coming before the Legislature for consideration. He further stated that he didn't believe that it would be the policy of the Commission to take over any roads until there were funds with which to properly take care of them, and he stated that he believed that for this reason the Commission should be frank with the delegation and advise them that until the Legislature would provide funds for the proper maintenance and construction of any new Routes, the State Highway Commission has no authority or funds for adding the same to the State Highway System.

Judge Higbee asked permission to speak and said that he was pleased that the Commission had frankly stated its attitude, since it was his personal opinion when the question was placed before him that this was the attitude which the Commission should take as regards the designation of State highways by the Legislature.

Condemnations-General;
Right of Way -General.

The Secretary informed the Commission that Mr. F. W. DeVoe, Assistant Attorney General, desired to present a report to the Commission. On motion, duly seconded, a hearing was granted. Mr. DeVoe appeared and advised from a written report that he has in his office 54 cases on condemnation for settlement. Of these 54 cases four have been settled out of court. In seven cases he recommends that the new propositions as made by the land owners be accepted. There are now pending three appeals to the circuit court, and there have been hearings held or hearings arranged to be held during the coming month in 25 cases, leaving a balance of 15 cases on which there is a report of progress. Of these 15 cases 4 are ready to be tried on the part of the State and will be set down for hearing as soon as convenient for the land owners. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the written report of Mr. DeVoe be received and placed on file.

Inmate Labor;
Route 4, Section 26.

The Secretary presented a contract to be entered into between the State Highway Commission and the Department of Institutions & Agencies for the construction of Route 4 between Toms River and Cedar Creek. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission adopted the following resolution:

> RESOLVED, that the contract for the construction of Route 4, between Toms River and Cedar Creek, be and the same is hereby awarded to the Department of Institutions and Agencies in accordance with an estimated cost prepared by the State Highway Department in the amount of $349,238.65, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Amboy Bridge-Old;
Long Beach Bridge.

State Highway Engineer Sloan presented to the Commission a recommendation from the Superintendent of Maintenance for an emergency purchase of lumber at an estimated cost of $9,600.00 for the maintenance of the old Amboy Bridge and the Long Beach Bridge. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of this lumber without formal advertising, subject to quotations being received from at least six responsible lumber dealers.

The schedule of business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer:

Route 8, Mountain View Grade Cross'g.

There was presented a certification from the State Highway Engineer to the effect that the work on Route 8 at the Mountain View Grade Crossing Elimination is unnecessarily delayed, and the contractor refuses to carry on the work so as to attain the required rate of progress. He, therefore, recommended that the State Highway Commission notify the bondsmen of the United Building & Construction Company, Incorporated, and demand that the bondsmen proceed with the contract. On motion by

Mr. Stewart, seconded by Mr. Jelin, the recommendation of the State Highway Engineer was approved.

Snow Removal-
Route 9, Somerville.

There was presented a communication from the Borough of Somerville, requesting that the State Highway Commission make a special allotment to the Borough of Somerville to pay for the cleaning of streets and the removal of snow, since the City does not desire that the State snow plows go through and pile up the snow on the sides of the street. The State Highway Engineer recommended that a definite policy be laid down regarding the matter of cleaning of streets in boroughs and municipalities through which State Highways pass. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the communication from Somerville be acknowledged and that the Secretary advise that it is the policy of the State Highway Commission to put the matter of street cleaning on State Highways through municipalities entirely up to the municipal authorities, and as to the snow removal the Commission will remove snow through the municipalities in the same manner as it does in the outlying sections, but if this removal is not desired the plows will be lifted through the municipality limits and no compensation can be made in lieu thereof by the State.

Advisory Board-Jersey City & Camden

State Highway Engineer Sloan presented to the Commission a communication written by him in answer to a request made by the Editor of the "Engineering News-Record" for the information concerning the means from which the Advisory Board work at Jersey City and Camden will be carried on, in order that he may use such a letter together with the Advisory Board statistics in a coming issue of the "Engineering News-Record." On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ratified and confirmed.

Right of Way-Route 4.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of purchase agreements on Route 4, Section 26, Toms River-Cedar Creek section, as follows:

Parcel	#1,	Cornelia A. Reid,	consideration	$75.00
"	#2,	Jackson & Sarah E. Britton,	"	$15.00

December 16, 1924.

Right of Way-Route 5.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase agreement for Parcel #2 on Route 5, Section 11, Delaware-Belvidere Section, from David C. Hay, for the consideration of $75.00.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the following purchase agreements on Route 5, Section 13, Budd Lake-Netcong:-

Parcel	#28,	Forest M. Hubbard,	consideration	$50.00
"	#29,	Gussie A. Astwick,	"	50.00
"	#30,	Harold R. Kyle,	"	50.00

Right of Way-Route 14.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the following purchase agreements for property on Route 14, Section 10, Seaville-Petersburg;-

Parcel	#10,	Louis Priest, et ux	consideration	$68.00
"	#18,	John Angely,	"	175.00
"	#19,	Hiram Sack,	"	2.55
"	#22,	James Smith,	"	33.45
"	#23,	Hannah VanGilder,	"	30.05

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel #50 on Route 14, Section 11, Petersburg-Tuckahoe section, from Mrs. Lillian F. McKanna, for the consideration of $30.00.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of Parcel #10 on Route 14, Section 11, Petersburg-Tuckahoe, from Ross & Whelan, Incorporated, for the consideration of $400.00.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of property from the Loveland Estate on Route 4, Section 7-A, at New Gretna, for the consideration of $831.00, said amount representing the cost of the property and a new fence constructed by the owner.

Township Aid-Ocean County.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the following Township Aid allotments in Ocean County:

December 16, 1924.

Brick Township,	Herbertsville-Greenville Road,	$ 4,000.00
Lakewood "	Prospect Street,	3,672.00
" "	Ridge Avenue,	2,711.25
" "	Pine Street,	600.00
" "	Park Avenue & Front Street,	454.29

Township Aid-Monmouth County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of an extension of time to the completion of the work, granted by the Township Committee on the Middletown-New Monmouth Road, Monmouth County, Township Aid work.

Employments.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the following changes and additions in the employments as made by the State Highway Engineer since the last meeting of the Commission:

Employed

12-1-24	W. H. Pfluger,	Engr. Drft.	$ 125.00 per mo.
12-16-24	J. H. Hulse,	" "	125.00 " "

Discontinued Employments

11-15-24	C. M. Ferguson,	Rodman,	Resigned
11-30-24	R. H. Heacock,	Resident Engineer,	Discharged
12-1-24	John Toolan,	Bridge Tender,	Leave of Absence.

Resignation-J.L.Vogel

State Highway Engineer Sloan advised the Commission that he had received a resignation from Mr. John L. Vogel, Bridge Engineer, which had been accepted to become effective on January 15, 1925. On motion by Mr. Kidde, seconded by Mr. Jelin, this resignation was received by the Commission and accepted as of January 15, 1925, with regret.

Appointment-Morris Goodkind

State Highway Engineer Sloan recommended to the Commission that Mr. Morris Goodkind, General Supervisor of Bridges & Structures in the Maintenance Division, be appointed as Assistant Bridge Engineer, to take charge of the Bridge Division work, effective January 1, 1925, at a salary not to exceed $400.00 per month. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the appointment of Mr. Morris Goodkind as Assistant Bridge Engineer subject to Civil Service regulations, effective January 1, 1925.

Route 9, Section 11.

Commissioner Stewart reported having inspected Route 9, Section 11, Lincoln Avenue, Plainfield section, and moved that the same be accepted on the part of the State. This was seconded by Mr. Jelin and adopted.

Route 6, Section 13.

Chairman Scott informed the Commission that he had inspected the completed work on Route 6, Section 13, Bridgeton-Marlboro section, and he was prepared to recommend acceptance of the same by the Commission. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the acceptance of Route 6, Section 13, and authorized final payment to be made after approval by the State Highway Engineer.

Route 4, Sections 23 and 24.

State Highway Engineer Sloan reported the completion of Route 4, Sections 23 and 24, Lakewood-Toms River, by the Department of Institutions & Agencies, and he recommended that the same be accepted on the part of the State. In this connection he advised that the Department of Institutions & Agencies, in completing this work, have refunded to the State Highway Department the loss incurred by them in the construction of Route 2 between White Horse and Bordentown. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission accepted the completed work on Route 4, Sections 23 and 24, from the Department of Institutions & Agencies, and directed that final payment for this work be made, subject to approval of final papers by the State Highway Engineer.

On motion by Mr. Stewart, seconded by Mr. Jelin, the meeting was recessed for luncheon at 1:30 P M. The meeting was again resumed at 2:30 P.M. with the same members present as at the morning session.

Right of Way-Route 13.

The Secretary next brought to the attention of the Commission the decision laid over at the morning session in the matter of the claim of Dr. Stover on his property on Route 13, Section 5, between Trenton and Lawrenceville, and on motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Engineer was directed to make investigation of the property of Dr. Stover and to place such sod as may be necessary in order to properly terrace the land along the highway, at a cost estimated to be $50.00.

December 16, 1924.

Route 1 Extension-Jersey City

The Commission then went into conference on the matter of Route 1 Extension through Jersey City, and this conference lasted until 7:00 P.M. The Commission then recessed for dinner and returned at 8:00 P.M. to resume the regular meeting.

Route 4, Morgan-Keyport Cut-off

The State Highway Commission next took under serious consideration the question of the Morgan-Keyport Cut-off, and the State Highway Engineer presented the various plans worked out by the Engineering Division, giving four alternate routes. The advantages of each route were carefully gone into, and finally, upon motion of Mr. Stewart, seconded by Mr. Kidde, the following resolution was adopted:

> That the State Highway Engineer be directed to complete the plans for the widening of Route No. 4 to a maximum of forty (40) feet, and that the present line of Route No. 4 be followed from the city limits of South Amboy to Cliffwood, and by cut-off from Cliffwood through Mechanicsville to South Keyport, to a connection with Route No. 4 at that point, this to be done in order that the work may be started as soon as possible.

In reaching this conclusion the Commission had in mind that there would be a considerable saving in the first expenditures and that there would be a very large saving in the length of the mileage from point to point, and further that the work could be done immediately. In addition, from conservative estimates made by the Engineers of the Department, the State Highway Commission learns that the operation of cars over the route as selected will yield a saving on the basis of the anticipated traffic of nearly $2,000,000.00 a year in keeping to the shorter route rather than going by way of Cheesequake.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission authorized that negotiations be entered into at once for the acquisition of the necessary right of way for the widening of Route 4.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Engineer was authorized and directed to make report on the working out of a solution for the relief of traffic in South Amboy.

Route 4, Barnegat-West Creek.

The State Highway Engineer presented to the Commission for its consideration the matter of the construction of Route 4, between Barnegat and West Creek, a distance of approximately seven miles, and he recommended that the road be changed from the present alignment of Route 4 for two considerations; first, that it will lie on the easterly side of the railroad, thus eliminating two grade crossings, and also due to the fact that it is proposed to complete all of Route 4 in one construction season and much better progress could be made upon a new section which would not be interferred with by traffic, using the existing road as a detour. Commissioner Jelin stated that he felt that it would be unfair to the residents along such a large strip of roadway to remove the main highway from them, since the county would not in the future maintain such a long strip of highway. He suggested that before any definite action was taken, the local residents be given an opportunity to be hear. He also stated that he understood that there was a movement under foot to abandon the present highway grade crossing on account of the fact that the line is not on a paying basis. Commissioner Kidde moved that the matter be held up until the next meeting and that the State Highway Engineer make a report as to what connection could be made between the present road and the new location in order to give the people living on the present road an outlet. This was seconded by Mr. Jelin and adopted.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was adjourned at 10:30 P.M. to meet in regular session on the following day, Wednesday, December 17, 1924, at the City Hall, Jersey City, to complete arrangements for Route 1, Extension in Jersey City, and any other matters which the Secretary may have to present at that time.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - December 17, 1924.

A regular meeting of the State Highway Commission was held at the City Hall, Jersey City, on Wednesday, December 17, 1924. The meeting was called to order by Chairman Scott at 2:00 P.M.

Present: General H. L. Scott, Chairman, Messrs. Walter Kidde, Perty H. Stewart and Abraham Jelin.

Route 1, Extension, Jersey City.

Chairman Scott advised that the Commission would immediately go into conference with the city authorities of Jersey City, with State Highway Engineer Sloan and Assistant Construction Engineer Lavis.

This conference lasted from two until five o'clock, after which time the meeting was resumed. Commissioner Stewart requested that the Commission minutes should record that the Commission had met in conference with the City Commissioners of Jersey City in reference to the construction of Route No. 1 Extension through Jersey City, at which time the State Highway Commission presented the following statement:

"The State Highway Commission, immediately upon their induction into office, were impressed with the necessity of making proper and adequate provision for the traffic which will come through the vehicular tunnel upon its completion in October 1926, the existing ferry traffic, the local traffic, and their probable increase at that time. With this object in view, an Advisory Board was appointed consisting of the most competent engineers obtainable. These gentlemen made a report which was submitted to the State Highway Commission for their consideration.

"Before approving any plan, other possible solutions of this problem were considered, and the State Highway Commission wishes to acknowledge the valuable assistance given to them by the Commissioners and Engineers of Jersey City. These plans were all given careful consideration; plans, surveys and estimates of cost were made; considerations of safety to the public and ability to carry heavy traffic were carefully weighed.

"After mature consideration, the State Highway Commission, balancing the advantages and disadvantages of the various routes, have come to the unanimous conclusion that the following plan best meets the conditions:

A viaduct from the tunnel plaza, beginning at New Jersey Avenue and approximately on the line of Thirteenth Street, rising to the Palisades and passing under Hoboken Avenue and under Palisade Avenue, at a point North of and adjacent to the right of way of the Erie Railroad Company (the grade at that point being approximately 20 feet below the surface); thence by a depressed roadway following the line of the present Erie Railroad right of way, and immediately adjacent thereto, to a point just East of the Boulevard, at which point the line crosses the right of way of the Erie Railroad and passes under the Hudson County Boulevard and from this point bears westerly.

From Palisade Avenue to a point on the line of Newark Avenue projected, the roadway occupies a part of the street known as Hoboken Avenue and certain properties fronting thereon. Between these two points it is proposed to provide a surface road, forty feet (40') wide, which will restore to the abutting property owners street facilities. This street will lie immediately over the depressed highway, thus preserving a continuous routing of Hoboken Avenue as at present into Newark Avenue.

"The State Highway Commission feel that that in going through a municipality all the interests of the municipality, as well as of the State, should be considered.

"Whatever the feeling of the State Highway Commission might be as to the placing of a cover on that portion of this depressed highway, between Hoboken Avenue and the Boulevard, there are certain objections both from a financial and an engineering standpoint which would preclude their adopting this form of construction at the present time. These objections are substantially as follows:

> This particular portion of highway lies immediately alongside of and is contiguous to the present Erie right of way. The Erie Railroad is operating at present a tunnel on the North side of the open cut, which lies between their open cut and the proposed line of the highway. The State Highway Commission are officially informed that it will be necessary for the railroad, in order to properly take care of its traffic, to add to its facilities, which it is proposed to accomplish by removing the rock overlying the existing tunnel. If the highway cut, lying adjacent, were at this time covered, it would be necessary, in order to obtain satisfactory ventilation, to remove the rock from one side of the cut. This work would involve the expenditure of a half million dollars or more, which the Erie Railroad Company will eventually do at its own expense. Further, should the cover be placed on the subway at this time, there would be grave danger of serious damage to the structure by the blasting made necessary to remove the overlying material when the railroad company carries out its projected improvement. It should be distinctly understood that the depressed roadway, in accordance with the plans as proposed, lends itself to the placing of a cover thereon at any time that future conditions demand it.

"In carrying out the mandate of the people of this State, as laid down in existing legislation, the State Highway Commission believes that they have arrived at a solution which in no way reduces the existing street facilities of Jersey City and their capacity for handling local traffic. When put in operation it will minimize the cost of traffic regulation and police supervision.

"In the extension beyond Tonnelle Avenue it is anticipated that the same care will be exercised to preserve existing facilities, but should it be necessary to change existing conditions, the Commission will ask for the cooperation of the authorities of Jersey City in working out the problems to mutual satisfaction."

Mr. Stewart further advised that the plan as set forth in the statement is satisfactory to the State Highway Commission and to the City authorities of Jersey City, with the further modification that a cover is to be placed over the entire width of the depressed roadway between Oakland Avenue and Palisade Avenue, excepting such openings as may be required for purposes of ventilation. Mr. Stewart therefore moved the adoption of the following resolution formally designating as a State highway the line for Route 1 through Jersey City, from the Tunnel Plaza to the Hudson County Boulevard:

December 17, 1924.

WHEREAS, the State Highway Commission has heretofore held public hearing in accordance with the requirements of the law for the taking over of State Highway Route No. 1 Extension in Jersey City, now therefore,

BE IT RESOLVED that the State Highway Commission of the State of New Jersey does hereby designate the following route for State Highway Route 1 Extension through Jersey City, from the Plaza of the Hudson River Vehicular Tunnel to the Hudson County Boulevard:

A viaduct from the tunnel plaza beginning at New Jersey Avenue and approximately on the line of the South side of Thirteenth Street, rising to the Palisades and passing under Hoboken Avenue and under Palisade Avenue, at a point approximately on the North line of Hoboken Avenue (the grade at that point being approximately twenty feet (20') below the surface); thence by a depressed roadway following the line of the present Erie right of way, and immediately adjacent thereto, to a point East of the Boulevard, at which point the line crosses the right of way of the Erie Railroad and passes under the Hudson County Boulevard.

BE IT FURTHER RESOLVED that any part or section of State Highway Route 1 Extension through Jersey City heretofore taken over in Jersey City be and the same is hereby abandoned as a part of the said State Highway Route 1 Extension, and

BE IT FURTHER RESOLVED that a copy of this resolution be forwarded to the Mayor and City Commissioners of Jersey City.

This was seconded by Mr. Kidde and adopted.

Right of Way - Route 1 Extension
Jersey City

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Engineer was instructed to proceed with the obtaining of such property as may be necessary for right of way, either by agreement or condemnation, and to take such other proceedings as may be necessary to carry this into effect.

Route 1 Extension, Jersey City

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission directed that the State Highway Engineer prepare plans and specifications for the construction of Route 1 Extension, from the Tunnel Plaza to the Hudson County Boulevard in accordance with the following conditions, for the purpose of advertising this work at the earliest possible moment:

Between Palisade Avenue and Oakland Avenue provide a surface road covering the depressed roadway, except insofar as openings may be necessary in order to provide the required ventilation and other necessary purposes, which will restore to the abutting property owners street facilities. Between Oakland Avenua and the Hudson County Boulevard the depressed roadway is to remain open except at the intersection of streets, which will be carried over by bridges.

December 17, 1924.

Commissioner Stewart moved that the Commission express its appreciation and thanks to the Mayor and members of the City Commission of Jersey City for the courtesies extended to the Commission by them and their engineers in the discussion and solution of these problems. This was seconded by Mr. Kidde and adopted.

Commissioner Kidde suggested that the matter of further studies for the ramps be referred to the State Highway Engineer to be reported on at the earliest possible moment.

Hackensack River Bridge, Route 1

State Highway Engineer Sloan presented to the Commission a proposal from the Strauss Bascule Bridge Company of Chicago, in which they offer to perform the engineering on the proposed Hackensack River drawspan on Route 1, Lincoln Highway Section, for the construction of a double-leaf bascule span, at a cost of $16,000.00. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of an agreement to be entered into with the Strauss Bascule Bridge Company of Chicago, for the furnishing of plans and specifications and engineering details for the construction of a double-leaf bascule drawspan on the Hackensack River Bridge on Route 1 Extension.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was adjourned at 6 P.M. to meet in regular session on Tuesday, December 23, 1924 at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - December 23, 1924.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, on Tuesday, December 23rd. The meeting was called to order at 10:30 A.M. by Chairman Scott.

Present: General H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Route 9, Plainfield.

The Secretary informed the Commission that Mr. A. W. Vars, City Engineer of Plainfield, New Jersey, was present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Vars appeared and stated that the City of Plainfield was prepared, during the next year, to complete the improvement of Route 9 in the City of Plainfield. He advised the Commission that there remains about 1½ miles to be finished along South Avenue from Richmond Street to Terril Road where it will connect with the recently completed Plainfield-Westfield section. He advised that it was the purpose of the City to place a six inch concrete base with a three inch bituminous top over this section, and it was estimated that it would cost, inclusive of storm drains, curbs and gutters, $184,000.00. He advised the Commission that heretofore it had been the policy of the State Highway Commission to enter into an agreement with the City of Plainfield, whereby the State would share in the cost of a 20 foot strip through the center of the roadway, and when this matter was broached a year ago a tentative statement was made that when this improvement was taken up the State would contribute $75,000.00. Commissioner Kidde questioned the State's sharing a local improvement such as storm drains and sidewalks, and Mr. Vars advised that the curbs, gutters and storm drains would be assessed against the property owners, together with such pavement as would not be paid for by the State and the State could only agree to pay for actual pavement. The Commission then conferred on this matter, after which Mr. Stewart moved that the State Highway Commission enter into an agreement with the City of Plainfield for the completion of the construction of Route 9, within the City limits of Plainfield, and that in view of the fact that the cost of construction has decreased since the time when the original offer of $75,000.00 was made, the State Highway Commission set aside for this work the sum of $67,500.00

as the State's share in the improvement, this agreement to be subject to further study by the State Highway Engineer, the plans and specifications to be approved by the Commission when completed. This was seconded by Mr. Kidde and adopted.

Route 1 Extension, Jersey City.

The Secretary informed the Commission that Mr. Phillip Guise, Engineer to the City Commissioners of Jersey City, was present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Guise appeared and stated that he had been authorized by the City Commission of Jersey City to request the State Highway Commission to consider the placing of a ramp from the proposed Viaduct in Jersey City to Palisade Avenue, in order that the traffic might reach the grade of Palisade Avenue direct from the Viaduct. He urged this for the reason that the City of Jersey City was willing to grant to the State, free of cost, any right of way needed on Hoboken Avenue on account of the construction of such a ramp, and further he suggested that in the event the subway was for any readon closed to traffic, there would be an opportunity for all the traffic to use the surface road in Jersey City and thereby suffer no interruption.

State Highway Engineer Sloan informed the Commission that Mr. Fred Lavis, Assistant Engineer on the Jersey City work, had brought to his attention a suggestion for a ramp leading to Palisade Avenue and the matter was now being given special study. Chairman Scott informed Mr. Guise that this matter would be given serious consideration by the State Highway Commission. Mr. Guise further informed the Commission that the City authorities of Jersey City would cooperate to the fullest extent with the Commission and to this purpose have already taken up the matter of raising the grade of Jersey Avenue in order that the grade of the Viaduct may thereby be reduced.

Route 4, Shark River Bridge.

The Secretary reported that request had been made on behalf of the shore municipalities from Asbury Park to Sea Girt inclusive, together with the Board of Freeholders of Monmouth County, for an opportunity to appear before the Commission on December 30th or January 6th, with further reference to the Shark River Bridge location. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that they be advised that either date will be satisfactory to the Commission.

Route 18 North-General.

The Secretary presented a communication from Mr. A. W. Brandt, Commissioner of Highways of the State of New York, advising that he cannot give definite information at this time as to whether the New York State Route 3, which connects with State Highway Route 18, will be completed to the State line during the coming season, and he advised that he had assured people that he would do everything possible to build this during 1925, if the money which is expected to be appropriated this winter is sufficient to cover that road as well as other roads which are on their program. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that Mr. Brandt be advised that the information contained in his letter is very interesting and that the State Highway Commission is trying to cooperate by completing the improvement of Route 18 to the New York State Line, but it would like to be assured that if New York State Route 3 cannot be completed during the year 1925, that it will be completed at the end of two years.

Right of Way, Route 18-North

The Secretary presented a communication received by the State Highway Engineer from Major Welsh, General Manager of the Palisades Inter-State Park Commission, advising that he had arranged to go over the Phelps Estate property with several of the Trustees in order to explain the proposed routing of Route 18 through the property. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that Major Welsh be advised that the State Highway Commission has understood that the necessary right of way through the Phelps Estate would be provided by Major Welsh in such a nature as to create a park on the promentory overlooking the Hudson in order that cars may be parked there, as well as forming a roadway, the that he be requested to nitify Commissioner Kidde at the time of his inspection with the Trustees of the Phelps Estate property in order that Commissioner Kidde may go along on the inspection if at all possible.

December 23, 1924.

Route 4, Toms River-New Gretna

The Secretary presented a communication from W. J. Buzby, Chairman of the Road Committee of the Atlantic City Chamber of Commerce, expressing the appreciation of the Civic bodies of Atlantic County for the decision made by the State Highway Commission to complete the balance of Route 4 between Toms River and New Gretna during the coming construction season. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered acknowledged with thanks.

Request for Aid-Middlesex and Somerset Counties.

The Secretary presented a communication from Mr. Robert W. Johnson of New Brunswick, requesting the Commission to assist in the promoting of a better road on the North side of the Raritan River, and at the same time considering the water supply and sewage system for New Brunswick and the Raritan Valley. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that the communication be acknowledged with the advice that the matter will be given very careful consideration by the Commission. In connection with this, Commissioner Jelin stated that it is very essential that the Commission look over the various roads on both sides of the Raritan River, looking toward the completion of the River Road in Middlesex County of the Easton Turnpike in Somerset County, and he moved that an inspection be made of the road on both sides of the Raritan River between New Brunswick and Bound Brook as soon as practicable. This was seconded by Mr. Kidde and adopted.

Flemington-Ringoes Road, Hunterdon County.

The Secretary presented a resolution from the Board of Freeholders of Hunterdon County, making application for the State Highway Commission to construct the highway from Flemington to Ringoes, a distance of 5½ miles, and advised that the County will pay $32,220.00 toward the improvement. The Secretary advised that this section of road is on the legislated State highway running from Trenton to Buttzville. State Highway Engineer Sloan advised that this section was discussed by the Commission at the time the State Highway program was laid out and he recommended that the savings on the past year's maintenance account to the extent of $300,000.00 be allotted for this improvement. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that in view of the request as received from Hunterdon County for the improvement of the Flemington-Ringoes Road, there be set aside the sum of $300,000.00 for this improvement from the maintenance funds as saved during the year 1924, and that the State Highway Engineer be instructed to prepare an agreement with the County of Hunterdon whereby the State Highway Department will provide the entire engineering and supervising on the work, and at the completion of the road same will be turned back to the County of Hunterdon, and in consideration of this agreement the County will contribute the sum of $32,220.00 to the improvement.

Request for Aid-Union County

The Secretary presented a resolution from the Union County Board of Freeholders, requesting aid to the extent of $25,000.00 on the paving of Morris Avenue, River Road and the Chatham Road in the City of Summit. On motion by Mr. Jelin, seconded by Mr. Stewart, the resolution was ordered referred to the State Highway Engineer for inspection and report.

River Road.

Motor Vehicle Aid-Mercer County

The Secretary presented a resolution from the Board of Freeholders of Mercer County, requesting the State to share equally in the cost of resurfacing the River Road from Washington Crossing northerly for a distance of two miles, the total estimated cost being $75,240.00. State Highway Engineer Sloan recommended that the County of Mercer be advised that if they consider that this work is the most pressing problem on which the State could grant aid for the year to the county, the Commission will extend aid in the amount of $25,000.00 toward this project. Commissioner Kidde questioned the advisability of apportioning State Aid to any one county without considering the needs of all the counties in this respect, and suggested that a compilation be made of all requests received to date for this work in order that the Commission may determine whether there was sufficient funds in hand to meet all the needs. Commissioner Stewart stated that he believed that where the County showed sufficient accumen in presenting their problems to the Commission at a very early stage, in order that the work might be done in the early Spring, they should be shown consideration by the Commission ahead of those counties which may not have their work lined up at this time. On motion by Mr. Jelin, seconded by Mr. Kidde, the recommendation of the State Highway Engineer was approved.

Request for Aid-Somerset County.

The Secretary presented a resolution from the Board of Freeholders of Somerset County, requesting the State Highway Commission to allot the sum of $150,000.00 for the improvement of the Easton Turnpike between Bound Brook and New Brunswick. On motion by Mr. Jelin, seconded by Mr. Stewart, the resolution was ordered received and referred to the State Highway Engineer for report.

Roseld Avenue, Deal, M. V. Aid

The Secretary presented a communication from Mr. J. W. Seaman, Engineer for the Borough of Deal, requesting approval of plans and specifications for Roseld Avenue in the Borough of Deal. Mr. Jelin advised that in company with the State Highway Engineer he had attended a conference between the authorities of the Borough of Deal, the Township of Ocean and County of Monmouth, in order that this improvement might be undertaken and shared in by all parties. The State Highway Engineer recommended to the Commission that these plans and specifications be approved and that the State share one-third of the cost, not to exceed $11,000.00, funds to be provided from the Emergency Account of 1924, stating there had already been set up $10,000.00 for this improvement. On motion by Mr. Jelin, seconded by Mr. Kidde, the recommendation was approved.

Sidewalks-Route 13 Lawrence Twp.

The Secretary presented a communication from Harvey T. Satterthwaite, Counsel to Lawrence Township, Mercer County, requesting information as to the jurisdiction of the Township over portions of State Highway Route 13 passing through Lawrence Township, especially with reference to the control of sidewalks. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Secretary advise that the State Highway Commission has the control over its entire right of way and it has been the purpose in the past to grant permission for the placing of sidewalks on such parts of right of way as may not be needed at the present time for highway purposes, and further that they be advised that the granting of franchise rights passes to the State Highway Commission on or along any highway at the time the said road was taken over as a State highway by the Commission.

Request for Permit-Signs

The Secretary presented a communication from the Oaklyn National Bank advising that they desired permission to continue a canvass sign over White Horse Pike at Oaklyn, New Jersey. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that instructions be given to have this sign down since no such signs are permitted on State highways.

Conventions-A. R. B. A.

The Secretary again presented the subject of sending representatives of the State Highway Department to the Conference of the American Road Builder's Association at Chicago, on January 5th to 9th. State Highway Engineer Sloan advised that he did not believe it necessary to send a large delegation to Chicago, but he had in mind the sending of the Division Engineers to represent the Department. Commissioner Jelin inquired regarding the proposed convention to be held in the East and he was advised that this matter had not yet come to the point of decision. Commissioner Stewart stated that he believed it very desirable that the members of the State Highway Department be given every opportunity to keep abreast of the latest developments in the highway materials, equipment and design, and he stated that he believed that it would be advantageous for the State Highway Engineer to attend and he moved that authority be given for the State Highway Engineer to attend the A.R.B.A. convention at Chicago, and take such of the organization with him as he may deem proper. This was seconded by Mr. Kidde and adopted.

Motor Vehicle Aid-Middlesex Co.

Commissioner Jelin requested that consideration be given to the granting of a special allotment to Middlesex County in such amount as would make their Motor Vehicle allotment for 1925 at least of the same amount as in 1924. He stated that this was asked in view of the fact that the County of Middlesex had been induced to appropriate a larger sum of money for its road maintenance than heretofore, on the statement of the Department that their Motor Vehicle money would not be reduced. Commissioner Stewart moved that in view of the fact that encouragement has been given Middlesex County to extend its road program in 1925 greater than in 1924, the State Highway Commission grant them an additional allotment of $2,000.00 from the 1925 Motor Vehicle Funds. This was seconded by Mr. Kidde and adopted.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission recessed for luncheon at 1:30 P.M. to meet in regular session again at 2:30 P.M. The Commission reconvened again at 2:30 P.M. as agreed with the same members present as at the morning session.

Route 1 Extension, Jersey City.

Commissioner Kidde reported that in company with State Highway Engineer Sloan he had attended the meeting of the Ironbound Manufacturers Association in order to hear what their ideas were concerning the proposed Route 1 Extension through Jersey City. He stated that they had suggested that the proposed State highway be not constructed too close to the right of way of the Lehigh Valley Railroad but that sufficient room be left in order that factory sites may be located on both sides thereof, which would add greatly to the taxable valuations of the City of Newark. He advised that they were informed that the Commission would give serious consideration to their statements. The Commission next conferred on the matter of the work to be accomplished on Route 1 Extension between Elizabeth and Jersey City prior to the opening of the Vehicular Tunnel. No formal action was taken at this time.

Right of Way-General.

The Secretary informed the Commission that Mr. F. W. DeVoe, special counsel, was present to take up several right of way matters. On motion, duly seconded, a hearing was granted. Mr. DeVoe advised that a number of condemnation hearings had been held since last week and he had arranged for settlement in several cases which he believed would be advantageous to the State.

Right of Way-Route 14.

Mr. DeVoe recommended that in the Rinaldo Groom condemnation on Route 14, Section 11, the sum of $700.00 be paid and that condemnation proceedings be withdrawn. On motion by Mr. Stewart, seconded by Mr. Jelin, the recommendation was approved.

December 23, 1924.

Right of Way-Route 7.

In the case of Edwin Shafto condemnation on Route 7, Section 2, Mr. DeVoe recommended that the sum of $50.00 be paid and that condemnation proceedings be withdrawn. On motion by Mr. Jelin, seconded by Mr. Stewart, the recommendation was approved.

Right of Way-Route 4.

In the case of Theodore J. R. Brown, condemnation on Route 4 at the Manasquan River Bridge, Mr. DeVoe advised that in view of the fact that this involves a great many elements of damage, together with loss of riparian rights, he would recommend that the services of Mr. P. A. Gaddis of Jersey City, be secured. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission authorized the employment of Mr. Gaddis to assist in the condemnation proceedings of Theodore J. R. Brown on Route 4 at the Manasquan River Bridge.

In the case of the Isaac Worth Estate condemnation, Mr. DeVoe advised that the heirs are now willing to accept $168.00 for the value of the land, providing the State will move the old homestead at a cost estimated to be $1,132.00. He advised that the original offer from the State was $1,300.00 providing the house would be moved by the owners, but in view of the fact that the heirs are not in a position to contract for the removal of the building he would recommend that negotiations be entered into whereby this property will be acquired by the State at the price recommended and a suitable contract can be entered into, approved by the Attorney General, whereby the State will move the building and it will not be liable for more than ordinary care in the removal of the same. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the recommendation of Mr. DeVoe be approved and that an extra allowance of $200.00 be granted in order that he may contract if necessary for the removal of the building by either the State or the property owners.

Right of Way-Route 14

In the case of Mr. F. J. Wilson, condemnation, Mr. DeVoe advised that Senator Bright of Cape May County was interested in these cases for the property owners. He advised that while the original offer of the State was $35.00 on this as well as the Laura Lewis condemnation on the same location on Route 14, Section 7, the property owners requested $300.00 each for the reason that the new road will come very close to the house line. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that three appraisers be secured to make appraisals on these properties before any action is taken.

In the case of Martha L. Downam on Route 14, Section 9, Mr. DeVoe advised that the State had heretofore offered $800.00 and the land owner had requested $1500.00, and he would recommend that the sum of $1300.00 be paid, the same to include the removal of two barns. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved this recommendation.

Right of Way-Route 4.

In the case of Fred M. Davison condemnation on Route 4, Section 19, Mr. DeVoe advised that appraisals in this case were in the sum of $500.00 and he, therefore, felt that the State should pay $600.00 asked, which he would recommend. On motion by Mr. Jelin, seconded by Mr. Kidde, this recommendation was ordered approved.

In the case of Annie Cramer condemnation on Route 4 at M. P. 13.9 the Commission directed that one appraiser be secured on this property before a definite action was taken.

Right of Way-Route 5.

Mr. DeVoe reported that Condemnation Commissioners in the case of Silas H. Chamberlain on Route 5, Section 13, had awarded the sum of $3,000.00 against the owners request for $11,000.00, and he recommended that this award be paid. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the recommendation and ordered $3,000.00 paid to Silas H. Chamberlain.

Right of Way-Route 7.

Mr. DeVoe reported that the Condemnation Commissioners appointed in the case of Irene A. Amyot condemnation on Route 7, Section 2, had awarded the sum of $100.00. The owners in this case had refused to place any price on the property. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commissioners directed that the sum of $100.00 be paid in accordance with the condemnation award to Irene A. Amyot.

December 23, 1924.

Right of Way-Route 7.

In the case of Edwin Shafto condemnation on Route 7, Section 2, Mr. DeVoe recommended that the sum of $50.00 be paid and that condemnation proceedings be withdrawn. On motion by Mr. Jelin, seconded by Mr. Stewart, the recommendation was approved.

Right of Way-Route 4.

In the case of Theodore J. R. Brown, condemnation on Route 4 at the Manasquan River Bridge, Mr. DeVoe advised that in view of the fact that this involves a great many elements of damage, together with loss of riparian rights, he would recommend that the services of Mr. P. A. Gaddis of Jersey City, be secured. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission authorized the employment of Mr. Gaddis to assist in the condemnation proceedings of Theodore J. R. Brown on Route 4 at the Manasquan River Bridge.

In the case of the Isaac Worth Estate condemnation, Mr. DeVoe advised that the heirs are now willing to accept $168.00 for the value of the land, providing the State will move the old homestead at a cost estimated to be $1,132.00. He advised that the original offer from the State was $1,300.00 providing the house would be moved by the owners, but in view of the fact that the heirs are not in a position to contract for the removal of the building he would recommend that negotiations be entered into whereby this property will be acquired by the State at the price recommended and a suitable contract can be entered into, approved by the Attorney General, whereby the State will move the building and it will not be liable for more than ordinary care in the removal of the same. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the recommendation of Mr. DeVoe be approved and that an extra allowance of $200.00 be granted in order that he may contract if necessary for the removal of the building by either the State or the property owners.

Right of Way-Route 14

In the case of Mr. F. J. Wilson, condemnation, Mr. DeVoe advised that Senator Bright of Cape May County was interested in these cases for the property owners. He advised that while the original offer of the State was $35.00 on this, as well as the Laura Lewis condemnation on the same location on Route 14, Section 7, the property owners requested $300.00 each for the reason that the new road will come very close to the house line. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that three appraisers be secured to make appraisals on these properties before any action is taken.

In the case of Martha L. Downam on Route 14, Section 9, Mr. DeVoe advised that the State had heretofore offered $800.00 and the land owner had requested $1500.00, and he would recommend that the sum of $1300.00 be paid, the same to include the removal of two barns. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved this recommendation.

Right of Way-Route 4.

In the case of Fred M. Davison condemnation on Route 4, Section 19, Mr. DeVoe advised that appraisals in this case were in the sum of $500.00 and he, therefore, felt that the State should pay $600.00 asked, which he would recommend. On motion by Mr. Jelin, seconded by Mr. Kidde, this recommendation was ordered approved.

In the case of Annie Cramer condemnation on Route 4 at M. P. 13.9 the Commission directed that one appraiser be secured on this property before a definite action was taken.

Right of Way-Route 5.

Mr. DeVoe reported that Condemnation Commissioners in the case of Silas H. Chamberlain on Route 5, Section 13, had awarded the sum of $3,000.00 against the owners request for $11,000.00, and he recommended that this award be paid. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the recommendation and ordered $3,000.00 paid to Silas H. Chamberlain.

Right of Way-Route 7.

Mr. DeVoe reported that the Condemnation Commissioners appointed in the case of Irene A. Amyot condemnation on Route 7, Section 2, had awarded the sum of $100.00. The owners in this case had refused to place any price on the property. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commissioners directed that the sum of $100.00 be paid in accordance with the condemnation award to Irene A. Amyot.

December 23, 1924.

Mr. DeVoe reported that the Condemnation Commissioners appointed on the Frank R. Cogovan condemnation on Route 7, Section 2, had awarded the sum of $780.00 and he recommended that the same be approved, the owner having made no request upon the State. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the sum of $780.00 be paid in accord with the condemnation award to Mr. Frank R. Cogovan.

Mr. DeVoe reported that in the case of the Condemnation Commissioners appointed on the Arthur Laniel condemnation on Route 7, Section 2, the Commissioners awarded the sum of $10.00 for the property. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that $10.00 be paid in accordance with the Commissioners' award.

Mr. DeVoe reported that the Condemnation Commissioners appointed in the case of John B. Brinson on Route 7, Section 2, had awarded the sum of $50.00 and he recommended that this sum be paid. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the payment of $50.00 to Mr. John B. Brinson in accordance with the condemnation award.

Mr. DeVoe reported that the Condemnation Commissioners had awarded $200.00 to Charles Laframboise on Route 7, Section 2, and he recommended that this sum be paid. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the sum of $200.00 in accordance with the condemnation award.

Mr. DeVoe reported that the Condemnation Commissioners appointed in the case of Philip Kent on Route 7, Section 2, had made an award of $125.00 and he recommended that the same be paid. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved the payment of $125.00 in accordance with the condemnation award.

Right of Way-Route 4.

Mr. DeVoe reported that in the proposed condemnation for property of R. E. L. Morgan at Morgan, he had discovered that appraisals for the property on which the State had offered $900.00 were $1900.00, and in view of the fact that the owners will settle for the $1900.00 he recommended that the sum be paid. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the sum of $1900.00

for the property to be acquired from R. E. L. Morgan on Route 4 at Morgan and that condemnation proceedings be dropped.

Right of Way-Route 5.

Mr. DeVoe reported that in the condemnation of property of Eric T. Dalberg on Route 5 at Netcong, the State's appraisals were $1200.00; yet when the condemnation commissioners made their report they reported with an award of $1000.00 and he recommended that this $1000.00 be paid. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that payment of $1000.00 be made in accordance with the condemnation award to Eric Dalberg.

The schedule of business was next taken up, item by item, as follows, with the recommendations of the State Highway Engineer.

Right of Way-Route 4.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the following purchase agreements on Route 4, Section 26, Toms River-Cedar Creek section:

Parcel #5,	Oscar & Emma M. Jaehnig,	consideration	$100.00
" #6,	Mary & Henry South,	"	500.00

Right of Way-Route 11.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of Parcel #8 on Route 11, Section 9, Kingsland Road, Nutley, from Samuel Urciuoli, for the consideration of $350.00.

Right of Way-Route 5.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission authorized an offer of $100.00 to be made for Parcel #33 on Route 5, Section 12, from George Baylor, and in the event the same is refused that condemnation proceedings be entered into.

Poles-Lighting-State Highways

There was presented a bill from the Public Service Gas and Electric Company in the amount of $502.04, for the moving and relocating of poles in connection with the lighting of Route 10, Section 1A, Arcadian Way-Fort Lee Ferry. The Secretary informed the Commission that when this road was taken over from the County, the State Highway Commission agreed to pay for the lighting of this road under a yearly contract with the Public Service Gas and Electric Company in the amount of $2000.00. Commissioner Jelin questioned the advisability of continuing the lighting on this highway in view of its greater width, and suggested that the municipality through which this highway runs might be willing to take over the lighting upon the completion of the present contract. On motion by Mr. Stewart, seconded by Mr. Jelin, the bill as presented was ordered paid, the local municipality to be informed that it is the purpose of the State Highway Commission to continue this lighting until the expiration of the present contract on March 1st, after which time the same will be discontinued.

Equipment-Automobiles

The Secretary presented to the Commission a recommendation from the Superintendent of Plant and Equipment for the trading in of 14 Buick cars which have been in continuous service for more than two years and have gone more than 50,000 miles each, and advised that the acquisition of new cars will involve an expenditure estimated at $15,000.00. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission authorized the trading in of 14 Buick cars as recommended and the acquisition of new cars of the Buick type to take their place, at an estimated cost of $15,000.00.

Route 12, Section 5.

State Highway Engineer Sloan reported the completion of Route 12, Section 5, Marlatts Corner-Port Colden, and recommended that the same be finally accepted since it has been open to traffic for three years past. On motion by Mr. Jelin, seconded by Mr. Stewart,the Commission accepted the completed work on Route 12, Section 5, this work having finally been completed by the bonding company.

Route 5, Section 14.

State Highway Engineer Sloan reported the completion of Route 5, Section 14, Morris Avenue, Springfield,and recommended final acceptance by the Commission. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission accepted the completed work on Route 5, Section 14, and authorized final payment to be made.

Route 9, Section 15.

State Highway Engineer Sloan reported the completion of Route 9, Section 15, Westfield-Lehigh Valley Railroad Bridge section, and recommended that the same be accepted on the part of the Commission. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway

Commission accepted the completed work on Route 9, Section 15, and authorized final payment to be made.

Route 18-North, Section 1.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the project statement for Route 18, Section 1, in the Borough of Alpine.

Township Aid-Cape May County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of award of contract by Upper Township, Cape May County, for Reading or Station Avenue.

Route 8, Section 4A.

Commissioner Kidde reported that he had made an inspection of Route 8, Section 4-A, Charlottesburg-Newfoundland section, and had found that the contractor had completed all his work in a satisfactory condition except for one section, where a sinkhole was encountered and it is necessary that the pavement be kept off until sufficient settlement has taken place. He advised that the contractor is willing to return and do this work, but the State Highway Engineer would recommend that the final payment be made to the contractor and the Maintenance Division complete the 500 foot strip of concrete when the settlement is ready for pavement. He moved, therefore, that the work be accpeted subject to the elimination of approximately a 500 foot strip of concrete, in accordance with the request of the Engineering Division. This was seconded by Mr. Jelin and adopted.

Long Valley-Hunterdon County Line

State Highway Engineer Sloan reported that the work required for the completion of the Long Valley-Hunterdon County Line Road had been attended to, and he recommended that the same be accepted on the part of the State. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the final acceptance of the Long Valley-Hunterdon County Line Road in Morris County, and authorized the final payment of the State's share after approval of the papers by the State Highway Engineer. Commissioner Kidde suggested that special attention be given after the winter to the joints on this work, which, if necessary at that time, should be attended to under the provision of the maintenance bond to be filled by the contractor.

East Main Street, Boonton

State Highway Engineer Sloan advised that the work on East Main Street, Boonton, Morris County, was completed and ready for final acceptance. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the work on East Main Street, Boonton, be accepted and that final payment of the State's share be authorized.

Route 1 Extension-Jersey City

State Highway Engineer Sloan requested that definite action be taken on the matter of the viaduct at Jersey City, in order that the Engineering Division may proceed to prepare plans and specifications preliminary to advertising. Commissioner Kidde questioned the necessity for a 40 foot ramp as suggested by Mr. Guise, Jersey City Engineer, at the morning meeting. Commissioner Jelin stated that he believed that the Commission could not err by adding to the width of this ramp, due to the fact that if an explosion or a wreck should occur in the subway, it would be feasible to continue to the surface in Jersey City. He requested information as to what width the State Highway Engineer would recommend. State Highway Engineer Sloan advised that if four lines of light traffic were to be provided, the width of the ramp should be made 36 feet. Commissioner Kidde stated that on the Williamsburg Bridge in New York it had been found necessary to widen the approach to the bridge after the same had once been completed, and it would be a saving to the State if a proper width could be secured at this time rather than to have the construction completed and the necessity for a wider ramp appear at a later date. He therefore moved that the Commission approve the alignment for the viaduct and ramp approaching Hoboken Avenue, as shown on a drawing of the State Highway Department, known as Scheme "C", the said ramp to be made a width of 36 feet, providing the City of Jersey City will allow the State Highway Commission to make use of Hoboken Avenue as may be needed, without cost, and further providing that it will not be necessary for the State Highway Commission to purchase for this improvement any additional right of way. This was seconded by Mr. Jelin and adopted.

December 23, 1924.

Right of Way-Amboy Bridge

The Secretary presented a number of bills for appraisers and other legal assistance in the case of the right of way and condemnation of the Donnell property at Perth Amboy. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that all of these bills be approved and paid.

Detours-Route 1.

Commissioner Jelin presented a report received from the Maintenance Division to the effect that repairs to detour used for a short time during the improvement of Lake Street Bridge at Metuchen, would amount to $850.00, and he moved that the detour be repaired at an estimated cost of $850.00. This was seconded by Mr. Kidde and adopted.

Conferences

Commissioner Jelin moved that a luncheon meeting be held by the Commission with the Department heads at the Stacy-Trent Hotel, Trenton, at one o'clock on the next meeting day, and that the Secretary be instructed to make the necessary arrangements for the same. This was seconded by Mr. Kidde and adopted.

Signals

State Highway Engineer Sloan requested authority from the Commission to purchase two flashing signals for the use of the Maintenance Division at a cost not exceeding $350.00 each. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the request of the State Highway Engineer.

The Commission extended Christmas Greetings to the officers and employees of the State Highway Department and on motion by Mr. Jelin, seconded by Mr. Kidde, the meeting was adjourned at 7:00 P.M. to meet in regular session on Tuesday, December 30th at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - December 30, 1924.

A regular meeting of the State Highway Commission was held at the Commission meeting rooms, Broad Street Bank Building, Trenton, Tuesday, December 30, 1924. The meeting was called to order at 10:30 A. M. by Chairman Scott.

Present: General H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Minutes Approved

Commissioner Kidde reported having read the minutes of the meeting of November 25th and he moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Right of Way-Route 18-North

The Secretary presented a communication from Major W. A. Welsh, with further reference to the right of way for Route 18-North over the Phelps Estate property. Commissioner Kidde stated that it was his purpose to get in personal touch with the members of the Palisade Inter-State Park Commission, in order to ascertain further information regarding the highway through the Phelps Estate property. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received and placed on file. In this connection, Chairman Scott inquired as to what further information had been ascertained from New York on the completion of the New York State Route 3 to meet with Route 18 at the State Line. State Highway Engineer Sloan advised that he had been in conference with representatives of several states, at which time there was present Mr. Brandt, Commissioner of Highways of New York, and he had been informed that there will be definite information in about two months when appropriations are made by the New York Legislature.

Convention-
A. H. O. N. A. S.

State Highway Engineer Sloan at this time informed the Commission that, together with Mr. Grover, Secretary to the State Highway Commission, he had attended a conference of representatives of Connecticut, New York and New Jersey State Highway Departments, and it was decided to form a North Atlantic States Association for the purpose of conducting a joint convention and conference each year, the same being an outgrowth of the New Jersey State Highway Convention as held heretofore.

He advised that the date for the conference had been set for February 25th, 26th and 27th at Atlantic City, and it was the purpose to invite all the remaining states from Maine to Maryland and the District of Columbia to join this conference. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the report as made by the State Highway Engineer upon the formation of the North Atlantic States Association be looked upon with great favor by the State Highway Commission of New Jersey, and that the Commission do everything it can to encourage the organization and the successful consumation of their plans.

Right of Way-Route 2.

The Secretary presented a report from Honorable F . W. DeVoe, special counsel, advising that the condemnation commissioners in the case of John A. McBride on Route 2, Section 4, had awarded $925.00 for the value of the land taken and the damage to the remainder, not including the damage to the personal property of John A. Church, florist, a tenant, and he recommended that the amount of the award be paid. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the payment of $925.00 to John A. McBride. Mr. DeVoe presented a special report in the case of John A. Church, tenant on the McBride property, in which Mr. Church claimed compensation for the removal of a greenhouse from the right of way of the State Highway Department. He advised that he has asked the condemnation commissioners to make a fair award to Mr. Church and they had set $462.50 up as the amount of the damage. On motion by Mr. Jelin, seconded by Mr. Stewart, the matter was ordered referred to the Secretary to investigate as to whether there was any liability attached to the State for the payment of any damages to Mr. Church.

Request for Hearing.

The Secretary presented a communication from the Broad Street Association of Newark, advising that they desired to have a hearing before the State Highway Commission prior to the time a public hearing is held in the City of Newark. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that the Secretary inquire of the Broad Street Association as to what matters they desire to take up with the Commission, in order that the same may be property investigated before a hearing is granted.

December 30, 1924.

Signals.

The Secretary presented a resolution from the Borough of Riverdale, requesting the State Highway Commission to provide proper and adequate police regulation at the intersection of the Newark and Pompton Turnpike and the Paterson-Hamburg Turnpike in order to relieve dangerous traffic conditions existing there, in view of the fact that the Commission has refused to consent to the location of a mushroom or turtle top signal. State Highway Engineer Sloan advised the Commission that all signals which are placed in the center of the highway are considered an obstruction to the traffic, and he would recommend that if the Borough of Riverdale desires to have a signal that the same be suspended at least 14 feet above the ground. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the Secretary advise the Borough of Riverdale that the State Highway Commission has no power to police roads or furnish police protection, and if they are determined that a signal is necessary at this particular point, the Commission will give consideration to an application for a permit to operate a suspended signal at least 14 feet above the highway.

Shore Relief Route

The Secretary presented a telegram received from the Madison Improvement Association, demanding a hearing on any relocation of Route 4 in the vicinity of Perth Amboy. Commissioner Jelin advised the Commission that on the evening of December 29th he had attended a meeting with representatives of the Madison Improvement Association, and the Shore Relief problem had been thoroughly discussed so that it was not necessary to arrange for a hearing date at this time with these authorities. On motion by Mr. Kidde, seconded by Mr. Stewart, the telegram was ordered received and placed on file in view of the report received from Mr. Jelin concerning a conference held, at which time, after explanation from Commissioner Jelin, there was no condemnation of the Commission's decision concerning Route 4 widening.

Route 14, Egg Harbor-Mays Landing

The Secretary presented a resolution from the Chamber of Commerce of Egg Harbor City, requesting the State Highway Commission to include the paving of Route 14 between Egg Harbor City and Mays Landing in the 1925 program. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that they be advised that due to the fact that the State Highway funds have already been allocated, it would not be possible to include this section at this time.

Route 13, Section 6.

The Secretary presented a communication from Dr. Harvey T. Satterthwaite, Counsel for the Lawrence Township Committee, requesting an appointment with the State Highway Commission for a conference on the bill rendered by the State to the Township for work done on Route 13, Section 6, through the Village of Lawrenceville, and calling attention to the fact that subsequent to the arrangement with the Township for the road construction, the State had proceeded to construct extra width pavement with curb and gutters along several sections of the Lawrenceville Road outside the Village limits where the State was bearing the entire cost. On motion by Mr. Stewart, seconded by Mr. Kidde, the communication was ordered received and placed on file and Mr. Satterthwaite was directed to be advised that extra paving, curb, and gutters, as placed outside the limits of Lawrenceville, were made necessary for drainage purposes and thereby eliminated the necessity for underground construction, and it is always the intention of the Commission that no preference be shown to any property owners along the line of the highway improvement.

Request for Aid-Middlesex County

The Secretary inquired as to whether the Commission desired to arrange for the inspection of the roads paralleling the Raritan River in Middlesex and Somerset Counties, between New Brunswick and Bound Brook. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission decided to make this inspection at the close of the meeting on this day.

In connection with this the Secretary presented a communication from the County of Middlesex, petitioning the Commission to assist the County in the reconstruction of the River Road, estimated to cost $150,000.00, on which the State was requested to share one-half, said road lying between New Brunswick and Bound Brook. On motion by Mr. Stewart, seconded by Mr. Kidde, the communication was ordered received and placed on file, pending the decision of the Commission after the proposed inspection.

Request for Aid-Somerset County

The Secretary presented communications as received by each Commissioner from Senator Case of Somerset County, calling attention to the need for the improvement of the Easton Turnpike between Bound Brook and New Brunswick, and outlining the desires of the Somerset County Board of Freeholders in this connection. The estimated cost of this improvement was placed at $250,000.00 of which the State's share was placed at one-half. On motion by Mr. Stewart, seconded by Mr. Kidde, the communication was ordered received and placed on file, pending the inspection to be held on this day.

Route 3, Shark River Bridge

The Secretary presented a communication received by Chairman Scott from Mr. S. F. Curtis, suggesting an alignment for the proposed relief highway across Shark River on Route 4, West of the New York & Long Branch Railroad. On motion by Mr. Stewart, seconded by Mr. Jelin, the Secretary was directed to advise Mr. Curtis that this matter would be taken up in public hearing before the Commission at 2:00 P.M. on Tuesday, January 16th, when the shore municipalities are to appear on the matter of the Shark River Bridge location.

The Schedule of Business was next taken up item by item as follows, with the recommendations of the State Highway Engineer.

Route 14, Section 10.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission accepted the completed work on Route 14, Section 10, Seaville-Tuckahoe, same having been inspected and recommended by Chairman Scott.

Route 7, Section ~~X~~3.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the final inspection of Route 7, Section ~~X~~3, Anderson's Corner-Colt's Neck, be referred to Commissioner Jelin, same being reported completed by the State Highway Engineer.

Route 3, Section 11.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that final inspection of Route 3, Section 11, Berlin-Hammonton Widening, be referred to Chairman Scott, same having been reported completed by the State Highway Engineer.

Right of Way-Route 5.

On motion by Mr. Jelin, seconded by Mr. Stewart, the following purchase agreements on Route 5, Section 13, Budd Lake-Netcong, were approved:

Parcel #20,	Mrs. Lulu Stackhouse,	consideration	$ 50.00
" #21,	Wm. McKinley Berry,	"	50.00

Right of Way-Route 14

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the following parcels of property on Route 14, Section 10, Seaville-Petersburg:

Parcels #8 & #8A,	Reuben S. Godfrey,	consideration	$ 24.30
Parcel #12,	Henry A.& Elizabeth H. Dubosq	"	1.00

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the following parcels of property on Route 14, Section 11, Petersburg-Tuckahoe:

Parcel #10A,	Madora Voss, widow,	consideration	$ 6.75
" 54,	Alfred Sharp,	"	45.00
" 53 & 55,	Walter Bailey,	"	30.00
" 56,	E. S. Stewart,	"	65.00
" 57,	E. S. Stewart,	"	45.00
" 39,	James & Lena Homan,	"	1175.00
" 20,	Geo. Garren,	"	200.00
" 29,	Walton & Mary Stephens,	"	125.00
" 81,	Star Lodge #65, F.& A. Masons,	"	1.00

Plus conveyance of Parcel #82A by George A. Powell, as per agreement previously approved with Mr. Powell.

Andrew Kirkpatrick-Right of Way Agent

There was presented a communication received from the Civil Service Commission, advising that the temporary employment of Mr. Andrew Kirkpatrick, as originally requested for sixty days, has been exceeded by thirty-seven days and that further bills cannot be approved under the previous authorization. State Highway Engineer Sloan recommended to the Commission that the services of Mr. Kirkpatrick be retained and that extension of time be requested from the Civil Service Commission for 100 days. On motion by Mr. Stewart, seconded by Mr. Jelin, the recommendation of the State Highway Engineer was ordered approved.

December 30, 1924.

Employments

On motion by Mr. Stewart, seconded by Mr. Kidde, the following employments, made by the State Highway Engineer since the last meeting of the Commission, were approved:

12-19-24	Edna B. Chant,	Clerk Stenographer	$80.00 per mo.
1-2-25	Napier Knightie,	Senior Draftsman	150.00 " "

Sullivan Way-Mercer County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that Chairman Scott make final inspection of the completed work on Sullivan Way, Mercer County, Motor Vehicle Aid work, prior to its acceptance.

Township Aid-Morris County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of plans and specifications for Dover-Mount Freedom Road, Section 2, Randolph Township, Township Aid.

Township Aid, Hudson County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved application and agreement for Township Aid on Grand Avenue, North Bergen Township, Hudson County, Township Aid.

Request for Aid-Essex County

Commissioner Kidde reported that in connection with the proposed construction of a bridge at Two Bridges, New Jersey, an inspection had been made by him with the State Highway Engineer, and he would recommend that the counties be advised that the State Highway Commission favors the construction of a signle bridge at this point rather than two separate bridges, even though there is thereby eliminated the inclusion of one of the counties in participating on the project. The State Highway Engineer recommended that the counties be advised that the Commission considers that two bridges are not the best solution of the problem, and if it is proposed to proceed with the construction of two bridges, the Commission cannot consider that any State Aid should be allowed. No final action was taken by the Commission at this time.

Minutes-December 17, 1924.

The Secretary advised that pursuant to directions, he had submitted a tentative draft of the minutes of the meeting of December

17, 1924, as held in Jersey City, to the Attorney General, and that the same have been returned with the advice that they are in satisfactory form. The Secretary advised that these minutes would now be mimeographed and mailed to each of the Commissioners for reading and approval at a later date.

Meetings.

The Secretary advised that arrangements had been made for a luncheon meeting of the Commission with the heads and subheads of the Departments for the purpose of hearing reports at the close of the fiscal year. It being now one o'clock, Commissioner Kidde moved that the meeting adjour in order that the Commission might attend the luncheon meeting as arranged, after which time the inspection would be made of the roads on both sides of the Raritan River between Bound Brook and New Brunswick. This was seconded by Mr. Jelin and adopted.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - January 6, 1925.

A regular meeting of the State Highway Commission was held at the meeting rooms of the Commission, Broad Street Bank Building, Trenton, Tuesday, January 6, 1925.

Present: Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Absent: Chairman H. L. Scott, on business in Washington.

Commissioner Jelin moved that in the absence of Chairman Scott, Commissioner Stewart be named Chairman pro tem. This was seconded by Mr. Kidde and adopted. Chairman Stewart called the meeting to order at 10:30 A. M.

Equipment-Automobiles

State Highway Engineer Sloan presented a communication from the New Jersey State Agricultural Experiment Station, requesting that the Commission loan the use of a truck in order to carry materials from the Institution to the State Agricultural Exhibit at Atlantic City. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission directed that a suitable truck be loaned to the State Agricultural Experiment Station for its necessary use in hauling exhibits.

Conventions - A. R. B. A.

The Secretary presented a communication from former State Highway Commissioner Walter J. Buzby, inviting the State Highway Commission to attend the Second Annual Convention of the Good Roads Association of New Jersey, to be held at the Robert Treat Hotel in Newark, on Thursday, January 15th, with a morning and afternoon session and a dinner in the evening. A request was made that one of the Commissioners make an address at that time. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission directed that the invitation be accepted and that Chairman Scott be authorized to prepare an address for this occasion.

Route 1 Extension-General.

State Highway Engineer Sloan presented to the Commission a report from Assistant Construction Engineer Lavis of Jersey City, outlining the proposed progress to be made in connection with Route 1 Extension between Elizabeth and Jersey City, and suggesting that additional force be employed in order to permit the present employees to proceed with the actual plans and specifications for the construction work already authorized in Jersey City, while the new force would proceed with surveys necessary for the adoption of the alignment through Newark and Elizabeth. State Highway Engineer Sloan requested of the Commission that authority be given for the increase of force in Jersey City sufficient to carry out the recommendations made by Assistant Construction Engineer Lavis. Commissioner Kidde stated that on engineering projects the cost of engineering was a detail which would be the same whether it was concentrated in one particular time or stretched over a considerable period, and he therefore moved that the recommendations of the State Highway Engineer for increase of forces on Route 1 Extension in Jersey City be approved and ratified. This was seconded by Mr. Jelin and adopted.

Snow Removal.

Commissioner Kidde reported at this time that it may be made part of the records that during the snow storm of Friday, January 2nd, he had, on Friday night, gone out with the Northern Division Engineer and had surveyed the progress being made on snow removal work. He stated that he would commend very highly the snow organization for the manner in which the work was handled, resulting in maintaining a clear and open traffic throughout the State at all times during and after the storm.

Request for Aid-Middlesex County

The Secretary presented a communication from the Board of Freeholders of Middlesex County, presenting further arguments for the granting of State Aid on the River Road between Bound Brook and New Brunswick in Middlesex County, as against the Easton Turnpike between the same locations in Somerset County. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that this communication be accepted with thanks and that they be advised that the same will be given careful consideration when the matter is taken up definitely by the Commission.

Commendations

The Secretary presented a communication from the Atlantic City Hotemmen's Association, expressing appreciation of the members for the decision of the Commission to complete Route 4 in the 1925 construction season. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered received and placed on file.

January 6, 1925.

Commendations-
Snow Removal.

The Secretary presented a communication from Mr. M. C. Gaines of Easton, Pa. commending the snow removal work as performed by the forces of the State Highway Commission. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered received and placed on file.

River Road, Mercer County

The Secretary presented a communication from the Mercer County Board of Freeholders, advising that it is the unanimous opinion of the Board that the reconstruction of the River Road from Washington Crossing northerly, is considered of first importance for aid from the State and on this account they request that the $25,000.00 as promised by the Commission be allotted for this purpose. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the communication be accepted and that the allotment of $25,000.00 from the 1925 Emergency Reserve Account be made to Mercer County for aid on the River Road reconstruction northerly from Washington Crossing.

Legislation

The Secretary presented a clipping from the Trenton Times by the direction of Chairman Scott, in which editorial approval was given the refusal of the State Highway Commission to get behind bills to be introduced in the Legislature.

Reimbursement-Camden County;
Route 3-Detours.

The Secretary presented a communication from County Engineer J. J. Albertson of Camden County to State Highway Engineer Sloan, requesting information as to the amount and date on which reimbursement for work done on Route 3, White Horse Pike, will be made in 1925, and also requesting advice as to when the County can expect to receive funds expended for detours while Route 3 was being constructed. The Secretary advised that Mr. Albertson had been informed that reimbursement for 1925 will be made to the counties on or before March 15, 1925. As to the detour funds, the Secretary advised the Commission that the County of Camden had already been informed by the present State Highway Commission that they can expect no additional detour funds in view of the fact that the County was granted aid on reconstruction work in lieu of detour funds. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that this statement again be made to Camden County in reply to the letter received from Mr. Albertson.

The schedule of business was next taken up, item by item as follows, with the recommendations of the State Highway Engineer:

Trees along State Highways

There was presented a communication from Mr. C. P. Wilbur, State Forester, advising that pursuant to directions from the State Highway Commission, a survey had been made looking toward the possibility of roadside planting on State highways. He recommended that for the purpose of experimenting, the State Highway Commission agree to place shade trees on sections of four Routes; namely, Route 5 between Hackettstown and Drakestown; Route 16, Woods Tavern-South Somerville; Route 7, between Freehold and Asbury Park; and Route 6, between Woodstown and Salem. The trees recommended were for the most part red oaks and Norway maples. The estimated cost of the trees was placed at $1,116.00 and to this must be added the cost of planting. Mr. Wilbur offered the services of his Department in the supervision of the planting and in the proper care of the trees after they have been planted. Commissioner Kidde stated that while the oak and elm trees were such that might take a number of years before satisfactory shade would develop on them, still they were trees which will be valuable assets to the people of the State when they are developed. The State Highway Engineer recommended that the State Highway Commission enter into such an experiment with shade trees, but that they be placed on the right of way line in every instance where they would not interfere with drainage structures, shade the pavement, or obstruct future widening, and at the same time would indicate to the property owners and the traveling public the width of highways under the control of the State. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the plan as proposed by the State Forester be referred to the State Highway Engineer to be carried out, and that an effort be made to secure the cooperation of local authorities and ask them to become interested in the protection and extension of this highway tree planting, said work to be done from the maintenance account.

January 6, 1925.

Right of Way-Route 14.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel #3 on Route 14, Section 10, Seaville-Petersburg, from Emma N. & Newton S. Townsend, for the consideration of $647.75.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of the following parcels of property on Route 14, Section 11, Petersburg-Tuckahoe:

Parcel	#62,	Raymond & Lillian G. Sack,	consideration	$ 35.00
"	#70,	Trustees of the Presbyterian Church, Tuckahoe, N. J.	"	57.50
"	#26,	ditto	"	127.50

Right of Way-Route 15.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of the following parcels of property on Route 15, Section 7A, Port Elizabeth Cut-off:

Parcel	#1,	Mary H. Fox,	consideration	$ 10.00
"	#5,	Dr. Thomas B. & Adalaide Lee,	"	100.00

Right of Way-Route 11.

State Highway Engineer Sloan requested information as to whether the Commission desired to take any further action in the matter of the property of Harry Corb on Route 11, Section 8, Kingsland Road, Nutley. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that this matter be referred to Commissioner Jelin for further investigation and report.

Claim-Damage, Millstone River Br.

There was presented the claim of the American Telegraph & Telephone Company, showing, in itemized detail, their cost in repairing damage done to cable on the bridge over the Millstone River on the Brunswick Pike, by men of the State Highway Department while making repairs to the bridge. Commissioner Kidde moved that this bill be paid, less a charge indicated for "general administration" which would make the bill net $824.17. This was seconded by Mr. Jelin and adopted.

Detours-Route 13.

On motion by Mr. Kidde, the State Highway Commission approved the following detour for use while the present bridge over the Raritan Canal at Kingstown is replaced by a new bridge by the Pennsylvania Railroad Company:

January 6, 1925.

> "Beginning at the intersection of Route 13 and the Ridge Road in Kingston, and running, thence, over the Ridge Road in an easterly direction to the Brunswick Turnpike; thence, southwesterly over the Brunswick Turnpike to Washington Street at Penns Neck; thence, northwesterly over Washington Street to Nassau Street, Route 13 in Princeton."

This was seconded by Mr. Jelin and adopted.

Employments

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the following increases, also additions and changes as made by the State Highway Engineer in the employments since the last meeting of the Commission:

Employed

12-15-24	Mrs. H. M. Kent,	Sr. Clerk Steno.	$115.00 per mo.
1-6-25	R. M. Losey,	Draftsman,	75.00 " "
1-1-25	James Mullen,	Maintenanceman	100.00 " "
1-1-25	Chas. H. Spence,	Asst. Civil Engr.	150.00 " "
1-1-25	Ernest Youmans,	Gravel Patrolman	90.00 " "
1-1-25	John J. Lucitt,	Temp. Br. Tender,	90.00 " "
1-1-25	LeRoy Tozour,	Gravel Patrolman,	75.00 " "
1-5-25	Peter Cimbala,	Office Boy,	40.00 " "

Increases

1-1-25	Joseph Reed,	Gravel Patrolman,	$90. to $100. per mo.
1-1-25	Geo. F. Winterbottom,	Chauffeur,	.45 " .50 " hr.

Discontinued Employments.

1-1-25	A. K. Warner,	Title Searcher,	Laid Off.
1-1-25	Chas. F. McKiernan,	Inspector,	Leave of Absence.
1-1-25	A. D. Hills,	Jr. Engineer,	Resigned.
1-1-25	John H. Davis,	" Inspector,	Leave of Absence.
1-15-25	Claude G. Crarup,	" "	Laid Off.
1-15-25	I. W. Sanford,	" "	Laid Off.

Township Aid-Mercer County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment of the Cedar Grove Road, Princeton Township, Mercer County, Township Aid.

Request for Aid-Salem County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that a resolution received from Salem County, requesting aid on the Penns Neck Bridge, be referred to the State Highway Engineer to be presented when his recommendations are made as to requests for aid from the Motor Vehicle Reserve Account.

Route 7, Section 3.

Commissioner Jelin reported the inspection of Route 7, Section 3, Anderson's Corner-Colt's Neck, and moved that the same be accepted by the State and final payment made after approval of final papers by the State Highway Engineer. This was seconded by Mr. Kidde and adopted.

Route 3, Section 11.

Commissioner Jelin moved the final acceptance of Route 3, Section 11, Hammonton-Berlin widening, and moved that final payment be authorized subject to approval of final papers by the State Highway Engineer. This was seconded by Mr. Kidde and adopted.

Request for Hearing.

The Secretary informed the Commission that a hearing had been requested for two o'clock by representatives of municipalities along the shore between Asbury Park and Sea Girt, on the matter of the Shark River Bridge location.

On motion by Mr. Jelin, seconded by Mr. Kidde, the meeting was adjourned for luncheon to meet again at 2:00 P.M. The meeting was resumed at 2:00 P.M. as agreed with the same members present as at the morning session.

Hearing-Shore Delegations;
Shore Relief Route.

There appeared Senator W. A. Stevens of Monmouth County, heading a delegation from the Board of Freeholders of Monmouth County, City of Asbury Park, Neptune Township, Borough of Bradley Beach, Avon, Neptune City, Belmar and Spring Lake. Senator Stevens advised that a conference of all these representatives had been held and a resolution was adopted to be presented to the State Highway Commission, urging the Commission to complete, in connection with the construction of the proposed bridge across Shark River West of the railroad tracks in Belmar, a paved road from the intersection of the said bridge and Steiner Avenue in Neptune City, and Atkins Avenue in Neptune Township to Somerfield Avenue; thence in a direct line to Asbury Avenue; and thence, East on Asbury Avenue to Main Street of Asbury Park, in order to relieve the congestion now taking place in Asbury Park and along Route 4 through the shore resorts. Senator Stevens pointed out that this entire line would be completed by the local authorities by the end of 1925 with the exception of three and one-half miles of road, and he requested that the Commission consider the granting of aid to the County for this completion to relieve traffic from the State highways and also carry through traffic coming across on Route 7 into the lower coast resorts without getting into the heavy traffic congestion through Asbury Park and Belmar. He advised that practically all the representatives were favorable to the plan of the Commission to locate the Shark River Bridge West of the railroad as originally planned, although there was still some question in the minds of the people of Avon whether money could not be saved by using the existing bridge, and in the Borough of Belmar there was still a question of local interest in diverting traffic off the main highway. Senator Stevens called upon Commissioner Pittenger of Asbury Park to outline the situation existing at Asbury Park, which he did very thoroughly, pointing out the fact that the growth of Asbury Park and other shore resorts was being stinted, due to the fact that the people will not enter the congested areas. Statements were also made by Mayor Borden of Bradley Beach, Committeeman Hulshart of Neptune Township, Freeholder Wyckoff of Monmouth County, Col. Amar of Asbury Park, Representative Shoick of Spring Lake and Mayor Hoffman of Neptune City, all expressing favor in the plan proposed by Senator Stevens and in the proposed location of the Shark River Bridge.

Mr. Burgness, City Clerk of Belmar, requested permission to address the meeting and same was granted. He advised that the representatives of Belmar opposed the relocation of the Shark River Bridge West of the railroad tracks for the reason that Belmar is very selfish of Shark River under its control and feels that its life depends to a great measure upon the maintaining of an open channel as far as possible in the river. He advised, however, that if the value of proposed relief to traffic on the shore by an alternate line was pointed out to the residents of Belmar, there probably would be a change in the sentiment of that Borough, and he stated that he believed the Commission should be encouraged in its work, but that the Borough of Belmar should be given an opportunity to learn the value of the proposed traffic relief which the location of the Shark River Bridge will afford. Commissioner Stewart expressed appreciation on behalf of the Commission for the appearance of the delegation and for the presentation of plan. He suggested that the objections of Avon be the subject of a plan and be forwarded to the Commission for further study. He stated that the Commission feels very favorably impressed with the nature of the relief route proposed, but is handicapped by the great number of very essential projects on which aid is requested from the State as well as the fact that during the next year a very large sum of money is needed for the beginning of operations on the Advisory Board projects in Jersey City and Camden. He advised that the Commission would do everything in its power to give aid on this work if it is possible and will take the matter up very seriously and will return a reply at an early date. The conference was adjourned.

Right of Way- Entrance Blvd.
Camden Bridge Approach

State Highway Engineer Sloan presented a resolution from the East Jersey Title & Guarantee Company of Camden, offering to make complete searches covering the properties on Penn and Linden Streets, between 11th and 12th streets in Camden, and other property in that vicinity to be acquired by the State Highway Department for highway purposes, for a sum of $45.00 for a complete examination and search of title, together with the title policy covering insurance to the amount of $2000.00 on each parcel. He advised that this method was pursued in the acquisition of title by the Delaware River Joint Bridge Commission and was acceptable to the Attorney General's office. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission accepted the proposal of the East Jersey Title & Guarantee Company for guarantee title in connection with the Camden Extension at a rate of $45.00 for each search.

The Commission next went into conference on the preparation of a preliminary report to be presented to the Governor on the work of the Commission for the year 1925. The conference concluded when the Commission, on motion by Mr. Jelin, seconded by Mr. Kidde, adjourned at 8:30 P.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - January 13, 1925.

A regular meeting of the State Highway Commission was held at the Commission meeting rooms, Broad Street Bank Building, Trenton, on Tuesday, January 13, 1925. The meeting was called to order at 10:30 A. M. by Chairman Scott.

Present: General H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Route 7, Hightstown.

The Secretary informed the Commission that Mayor Thompson of Hightstown, was present and desired a hearing on the matter of Route 7 at Hightstown. On motion, duly seconded, a hearing was granted. Mayor Thompson appeared and stated that in the contemplated improvement of the Borough, it would be very desirable to know what the future plans are for the construction of Route 7, which runs between Hightstown and Asbury Park, especially as to the proposed alignment through Hightstown. State Highway Engineer Sloan advised that this matter was, at the present time, under consideration by the Construction Division and the Chairman directed that Mr. Thompson take the same up with Construction Engineer Bedwell.

Right of Way -

Amboy Bridge-New.

There was presented a communication from the Attorney General on the matter of the request made for advice as to the proper form of agreement to be entered into with the City of Perth Amboy in order to permit the State Highway Commission to obtain the necessary right of way and letting a contract for an approach to the New Amboy Bridge, in which communication the Attorney General advised as follows:

> "I have no hesitancy in advising you that the Highway Commission has authority, under the act, to acquire the land, and to enter into an agreement for the construction of the highway and for the maintenance thereof after such construction: and accordingly I have suggested to Mr. DeVoe the advisability of drafting a short contract between the City of Perth Amboy and the State, represented by the State Highway Commission, to accomplish the object sought. The contract, when drawn, should be submitted to the governing body of the City of Perth Amboy, and authority obtained for its execution by the proper officers of that municipality. Likewise the Highway Commission should adopt the proper resolution authorizing its execution by the proper officials of that Department."

On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered received and placed on file, pending further advice from Mr. DeVoe, and the Secretary was directed to express the felicitations of the Commission to the Attorney General on his recovery from a recent operation.

Route 1 Extension, Newark.

The Secretary presented a communication from the Broad Street Association of Newark, advising that it is their desire to discuss with the Commission the proposed meadow cut-off, and approach through Newark on Route 1 Extension, but that they will hold this matter in abeyance until a later date. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered received and placed on file.

Right of Way-Route 13.

The Secretary presented a report from Hon. F. W. DeVoe, Assistant Attorney General, advising that the condemnation commissioners in the case of Mary H. Gulick on Route 13, Section 6, had awarded $1500.00 plus interest of six percent from August 15, 1923, to date, and he recommended that approval be given. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the payment of $1500.00 plus interest to Mary H. Gulick, as awarded by the condemnation commissioners.

Right of Way-Route 8.

The Secretary presented a report from Mr. DeVoe, advising that the condemnation commissioners in the case of Fearn & Germain on Route 8, Wayne Township, had awarded the sum of $1809.10 for this property with the understanding that the little roadside stand on the premises would be removed on or before January 28, 1925, and he recommended that the same be approved. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the recommendation in the case of Fearn & Germain, and authorized payment of the award.

Right of Way-Route 13.

Mr. DeVoe presented a report to the Commission on the award as made by the condemnation commissioners for the property of Joseph H. Bruere on Route 13, Section 6, where the State's offer was $600.00 and the condemnation commissioners had awarded $3000.00. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that an appeal be made on the award to Joseph H. Bruere on Route 13.

January 13, 1925.

Route 2, General.

The Secretary presented a communication from Mr. S. P. Leeds, President of the Atlantic City Chamber of Commerce, informing the Commission of the importance of the paving of a section of road from Five Points on State Highway Route 2, to Moorestown. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission ordered the communication received and placed on file and the Secretary was directed to advise Mr. Leeds that this matter is receiving due consideration.

Amboy Bridge-Right of Way

The Secretary presented a communication from Mr. DeVoe forwarding a bill from the Sheriff of Middlesex County, making charges for transportation and meals for jurors taken from New Brunswick to Perth Amboy to view the Donnell property. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that this bill be referred to special counsel Newcorn for advice and report to the Commission.

Right of Way-Route 4.

The Secretary presented a communication from the Pennsylvania Railroad Company, requesting information as to what disposition would be made on the claim of the railroad company for right of way on Route 4 at South Amboy. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Pennsylvania Railroad Company be advised that the Commission is, at the present time, very much concerned with the adoption and completion of a program of work for 1925, and that the problem of right of way at South Amboy is in mind and will be taken up at the earliest opportunity.

Request for Hearing.

The Secretary presented a communication from Mr. Frank R. Valentine of Woodbridge, requesting an opportunity to appear before the Commission to consider the matter of the Route 4 approach to the new Amboy Bridge. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that Mr. Valenine be invited to appear Tuesday afternoon, January 20th, if convenient.

January 13, 1925.

Conventions-National Spring Hotel Show

The Secretary presented a communication from the National Spring Hotel Show of Atlantic City, advising concerning the Fourth Annual Exposition to be held in the Spring of 1925, and requesting whether the Commission would be interested in exhibit space. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the Secretary inquire concerning the conditions, terms, etc. after which the Commission will decide whether an exhibit can be placed.

Conventions-American Road Builders' Assn.

The Secretary presented a communication from Charles M. Upham, Convention Manager of the American Road Builders' Association, advising that at a meeting of their Board of Directors, consideration was given to the request of the State of New Jersey that an open air show of the Association be held in New Jersey and it was decided that the Association would not continue this feature any longer, and for that reason the invitation cannot be accepted. On motion by Mr. Kidde, seconded by Mr. Stewart, the Communication was ordered received and placed on file.

Conventions-Syracuse Road School.

The Secretary presented a communication from the Syracuse University, advising of a "Road School" conducted by the Syracuse University and the New York State Highway Officials at Syracuse on January 27th to 30th, and invited the Commission to send someone to be present at that time. State Highway Engineer Sloan advised that he had been invited to present a paper in this school and he had prepared same, although he was not sure that he could attend. Commissioner Kidde inquired whether it would not be possible to arrange some educational features in this State in connection with Rutgers College, whereby, during the winter months, a short course in highway engineering would be available for the ambitious people in the Department, and also for any outside men who desire to learn more of what opportunities are provided in the highway work. After discussion, Commissioner Jelin moved that the State Highway Department send a representative to the "Road School" conducted by the Syracuse University, and that the co-operation of Rutgers College be sought with a view to ascertaining whether it will be feasible to conduct a similar course in the State of New Jersey. This was seconded by Mr. Kidde and adopted.

Shore Relief Routes

The Secretary presented a communication from Mr. Edgar L. Smith of Rahway, presenting a proposed relief to traffic in the location of Rahway and South Amboy. Commissioner Stewart moved that Mr. Smith be requested to furnish the Commission with a map showing his proposed study in order that the same may be given serious attention and that Mr. Smith be thanked for his interest in this connection.

Request for Aid-Somerset County

The Secretary presented a communication from Mr. K. N. Cumming, Engineer in charge of the Radio Corporation of America, urging the favorable consideration of Somerset County for aid in the reconstruction of the Easton Turnpike between New Brunswick and Bound Brook. On motion by Mr. Stewart, seconded by Mr. Kidde, the communication was ordered received and the Secretary was directed to advise Mr. Cumming that the matter will receive careful consideration.

The Schedule of Business was next taken up for consideration, item by item as follows:

Route 9, Section 15.

There was presented a communication from the Township Engineer of Cranford, New Jersey, accepting the paving and other work done under the State Highway contract for Route 9, Section 15, Westfield-Lehigh Valley Railroad section, subject to the Commission's control over maintenance and other unfulfilled obligations in the contract, and further expressing thanks to the Commission for the courtesy extended in this improvement. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that the communication be acknowledged and filed.

Crescent Road, Camden

State Highway Engineer Sloan inquired as to when the Commission would arrange for a hearing on the matter of the Crescent Route at Camden. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the State Highway Engineer present to the Commission such plans as are now in hand, in order that the same may be studied prior to the arrangement of a hearing date.

January 15, 1925.

Right of Way-Route 3.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property on Route 3, Section 11, Berlin-Hammonton:

Parcel #5 & 5-A,	John T. Chambers,	consideration	$ 50.00
" #6,	Melvin Chambers,	"	15.85

Right of Way-Route 6.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of Parcel #6 on Route 6, Section 13, Bridgeton-Marlboro section, from Curtis E. & Sarah G. Souder, for the consideration of $5.00.

Right of Way-Route 14.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of the following parcels of property on Route 14, Section 8, Swainton-Ocean View:

Parcel #1-A,	Ada H. Swain,	consideration	$ 54.10
" #49 & 49-A,	Edw.W.Callaway,Jr.	"	175.00

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel #69 on Route 14, Section 11, Petersburg-Tuckahoe, from Paul Sharp, for the consideration of $40.00.

Right of Way-Route 11.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase and acceptance of bargain and sale deed from E. I. DuPont de Nemours Company, for Parcel #9 on Route 11, Section 8, Nutley, for $1.00 and directed that an expression of thanks be forwarded.

Right of Way-Route 8.

There were presented papers and report in connection with the property of Munson Mabey Estate on Route 8, Section 3, White's Bridge-Bloomingdale, with the recommendation of Assistant Attorney General DeVoe that condemnation proceedings be entered into on this project. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that condemnation proceedings be entered into for the acquisition of this property.

January 13, 1925.

Commissioner Kidde suggested that before a price is fixed in the condemnation proceedings, that necessary appraisals be secured in order that the price may be within the figures of the appraisers.

Right of Way-Route 11

Commissioner Jelin reported that in accordance with reference made to him at the last meeting he had visited the property of Harry Corb on Route 11 in order to make a more satisfactory settlement and he was unable to see Mr. Corb, but he had communicated with him requesting that he come to Trenton to-day to appear before the Commission.

Amboy Bridge-New

State Highway Engineer Sloan presented a proposed change of Plan #13, covering changes and additions made necessary on the Amboy Bridge on account of the requirements of the Public Service Gas & Electric Company, who will furnish power for lighting. This change was estimated to cost $12,750.00. Commissioner Kidde inquired whether any detailed investigation had been made of the electrical line and fixtures on the bridge, and suggested that an electrical engineer be employed for such investigation. State Highway Engineer Sloan explained that the proposed changes were made necessary by the fact that the Public Service Gas & Electric Company did not furnish service in the immediate vicinity, and therefore it will be necessary to transform the power service into lighting service. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed the State Highway Engineer to have a competent electrical engineer review and report on the plans, and suggested Thomas F. Hylan as a proper person to do this work.

Proposed Routes;
Request for Aid-Monmouth County.

State Highway Engineer Sloan presented to the Commission a report with recommendations as to aid on the construction of a road paralleling Route 4 between West Long Branch and Belmar in Monmouth County, as discussed before the Commission by Senator Stevens and a delegation at its last meeting. On motion by Mr. Stewart, seconded by Mr. Jelin, this matter was ordered laid over for later consideration.

Signals.

There was presented a communication from the American Gas Accumulator Company, concerning the installation of flashing signals on

State highways under their contract and requesting information as to whether the Commission would purchase any of their smaller signals for use at dangerous locations where it is not possible to erect the highway lighthouses at this time. State Highway Engineer Sloan advised that he would recommend that the American Gas Accumulator Company proceed to make installations as quickly as possible in accordance with its contract, and that no other arrangement be entered into at the present time. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the recommendation of the State Highway Engineer be approved.

Employments

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that the following additions, increases and changes in the employments as recommended by the State Highway Engineer since the last meeting of the Commission, be ratified, confirmed and approved:

Employed

1-1-25	Leon B. Sickles,	Pr.Clerk-Steno.	$145.00	per	mo.
12-31-24	Wm. Gropp,	Garage Asst.	.50	"	hr.
12-16-24	Edwin Halloway,	Mot.Tr.Driver	.40	"	"
1-1-25	Carmine Lafalce,	Garage Asst.	.50	"	"

Discontinued Employments

12-31-24	Louis Gardella,	Gravel Patrolman	Discharged

January 13, 1925.

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that the recommendation for increase for Right of Way Agent Frederick Volmer, Jr. be taken up as a separate matter by the Commission.

Township Aid-Cumberland County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the acceptance and final payment on the Eldora-Belle Plain Road, Maurice River Township, Cumberland County, Township Aid.

Township Aid-Bergen County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of award of contract as made by Washington Township for VanEmburgh Avenue, Bergen County, Township Aid.

Extension of Time-
Bridgeton-Port Norris, Section 2,
Cumberland County.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the extension of time on the Bridgeton- Port Norris Road, Section 2, Cumberland County, Federal Aid Project #61.

A. A. S. H. O.
Marking - Highways.

There was presented a communication from Mr. W. C. Markham, Executive Secretary of the American Association of State Highway Officials, advising of the creation of a Committee by the Secretary of Agriculture for the study of a system of marking for interstate highways, and requesting that the State Highway Engineer act as a member of such Committee. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the communication be acknowledged, and authorized the State Highway Engineer to take such part in the work of the Committee as is necessary.

Victory Bridge

Chairman Scott inquired as to whether the Commission had sufficiently considered the Victory Bridge Advisory Board Report, copies of which had been mailed to them in order that a decision might be reached at this meeting also whether it was desired to further the recommendations of this Advisory Board for the location of a memorial bridge at some other point and to seek the necessary funds therefor from the incoming Legislature. Commissioner Kidde suggested that the report be received and that the Advisory Board be thanked for the information contained therein and that the Engineer should proceed with the direction of the Legislature in Joint Resolution No. 4 of the 1924 Statutes, to place tablets on the Victory Bridge, and he moved that the report of the Advisory Board be received and that the various members be thanked for their services. This was seconded by Mr. Jelin and adopted.

The Commission then recessed for luncheon at 2:00 P.M. to meet in regular session again at 3:00 P. M. The meeting was again resumed at 3:00 P.M. as agreed, with the same members present as at the morning session.

Right of Way-Route 11

The Secretary advised that Mr. and Mrs. Harry Corb of Nutley were present at the request of Mr. Jelin to talk over the matter of their property on Route 11. Mr. Corb advised that his price of $9,100.00 was made in view of the fact that this house, which was now being used as a residence, would be placed too close to the road for residential use and it will be necessary for him to seek another home. Mr. Jelin advised that he believed there was a value in the house even if the land was taken, which would be a distinct loss if an attempt was made to move the building from its present location, and he suggested that Mr. Corb accept payment for the land taken, plus damage to the property in making it unfit for the home of Mr. Corb, but it probably will be suitable for the home of someone else or for public purposes. Mr. Stewart advised that the Commission desired to deal fairly with the property owners but could not see its way clear to pay more than the property was worth. Mr. Corb inquired whether it would not be possible for the State to acquire his entire tract rather than to cut it as proposed, and he was advised that it was possible for the Commission, under the present legislation, to acquire more than was actually needed for highway purposes. Mr. Jelin stated that he would recommend that the sum of $6,500.00 be paid in cash to Mr. and Mrs. Corb for the land taken and the damage done, and he further stated that he would suggest to Mr. and Mrs. Corb that the house be not moved from its present foundation and they would be able to find a purchaser for the property, which would therefore turn whole and with a fair profit. Mr. Corb advised that he would take the matter under consideration and would investigate his ability to dispose of the house in the event the State would make him a payment of $6,500.00

Conventions-Good Roads Association

The Secretary informed the Commission concerning the conference of the Good Roads Association at Newark on Thursday, January 15th, at which time a special address was to be delivered by Chairman Scott. The Chairman informed the Commission that due to very severe strain on account of his recent trip to Washington it would be impossible for him to make an address, and he suggested that this be delegated to one of the other Commissioners. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that Mr. Stewart deliver the address for the Commission.

Hackensack River Bridge

State Highway Engineer Sloan informed the Commission that it would be necessary to seek an extension of time from the Secretary of War for the removal of the pier and changes in the fender system on the Hackensack River Bridge, since the project should expire in 90 days or about February 7th. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that an extension of time to May 15, 1925, be requested from the War Department for the removal of the center pier and changes in the fender system on the Hackensack River Bridge, said extension being occasioned by the fact that approval was necessary to be obtained for a bascule span at this point to eliminate the possibility of further use of the center pier and also due to the preparation of plans covering the work to be done, and authority was given for the advertisement of the necessary work after approval by the State Highway Engineer.

Amboy Bridge-New.

There was presented a communication from Mr. C. W. Hudson, Supervising Engineer on the Amboy Bridge, advising that the last of the pneumatic piers on this work has been founded on good clean rock and thoroughly sealed and that the cost of these piers is very close to the estimated cost as set. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission acknowledged the communication from Mr. Hudson and expressed pleasure at the satisfactory completion of the pneumatic piers.

Abandonment-Routes 4 and 5.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the adoption of the following resolutions for the vacating of sections of State highways made necessary on account of improvements in alignment after construction:

> WHEREAS, the State Highway Commission has heretofore taken over as a State highway in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 5 from Newark to the bridge crossing the Delaware River about two miles above Delaware, by way of Morristown, Dover, Netcong, Budds Lake, Hackettstown, Buttzville and Delaware, and
>
> WHEREAS, in the construction and improvement of the said State Highway Route 5, Section 13, from Budd Lake to Netcong, it has been found desirable to relocate a certain portion of the said Route for the betterment of the alignment, grade, etc., and
>
> WHEREAS, upon the construction of the said route and section of the revised line, there are portions heretofore used as a part of the road before improvement which are no longer needed as a part of the improved State highway,
>
> NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portions of the State Highway Route 5, Section 13, as hereinafter described, be and the same are hereby abandoned as a part of State Highway Route 5, Section 13, and vacated in accordance with the provisions of Chapters 14 and 15 of the Laws of 1917 and the amendment thereto in Chapter 220 of the Laws of 1919.
>
> Portion #1
>
> Beginning at a point in the center line of the old macadam road between Budd Lake and Netcong, where the said center line is intersected by the new northerly right of way line of Route 5, Section 13, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the said State highway at about Station 11 plus 50; rhence (1) northerly along the center line of the said macadam road for a distance of approximately six hundred seventy (670) feet to a point; thence (2) curving to the right in a northeasterly direction for a distance of approximately two hundred (200) feet to a point; thence (3) easterly for a distance of approximately one hundred ninety (190) feet to a point; thence (4) southeasterly for a distance of approximately one hundred eighty (180) feet to a point in the said northerly right of way line of Route 5, Section 13, said point being measured thirty-three (33) feet normally from the center line of said State highway at about Station 22 plus 13.

January 13, 1928.

Portion #2

Beginning at a point in the center line of the said macadam road between Budd Lake and Netcong where the center line is intersected by the new southerly right of way line of the said Route 5, Section 13, said point being measured thirty-three (33) feet normally from the center line of said State highway at about Station 22 plus 80; thence (1) easterly along the center line of the said macadam road for a distance of approximately one hundred fifteen (115) feet to a point; thence (2) on a curve to the left in a northeasterly direction for a distance of approximately four hundred (400) feet to a point; thence (3) still curving to the left in a northeasterly direction for a distance of approximately one hundred ninety-five (195) feet to a point; thence (4) northeasterly for a distance of approximately three hundred thirty (330) feet to a point in said new southerly right of way line of Route 5, Section 13, said point being measured thirty-three (33) feet normally from the center line of the said State highway at about Station 33 plus 94.

Portion #3.

Beginning at a point in the center line of the said macadam road between Budd Lake and Netcong where the said center line is intersected by the new southerly right of way line of the said Route 5, Section 13, said point being measured thirty-three (33) feet normally from the center line of said State highway at about Station 35 plus 73; thence (1) easterly along the center line of the macadam road for a distance of about nine hundred twenty (920) feet to a point: thence (2) curving to the left in a northeasterly direction for a distance of about five hundred forty (540) feet to a point; thence (3) curving to the right in a northeasterly direction for a distance of about five hundred (500) feet to a point; thence (4) northerly for a distance of about eighty (80) feet to a point in the said new southerly right of way line of Route 5, Section 13, said point being measured thirty-three (33) feet normally from the center line of the said State highway at about Station 54 plus 53.

Portion #4.

Beginning at a point in the center line of the old macadam road between Budd Lake and Netcong where the said center line is intersected by the new northerly right of way line of Route 5, Section 13, said point being measured thirty three (33) feet normally from the center line of the said State highway at about Station 54 plus 3[illegible]; thence (1) along the center line of the said macadam road on a curve to the right, in an easterly direction for a distance of about three hundred (300) feet to a point in the said new northerly right of way line of Route 5, Section 13, said point being measured thirty three (33) feet normally from the center line of the said State highway at about Station 57 plus 12.

Portion #5.

Beginning at a point in the center line of the old macadam road between Budd Lake and Netcong, where the center line is intersected by the new southerly right of way line of Route 5, Section 13, said point being measured thirty three (33) feet normally from the center line of the said State highway at about Station 58 plus 06; thence (1) easterly along the center line of the said macadam road a distance of about five hundred fifteen (515) feet to a point; thence (2) curving to the left in a northeasterly direction for a distance of about two hundred (200) feet to a point; thence (3) northeasterly for a distance of about three hundred ninety (390) feet to a point in the said new southerly right of way line of Route 5, Section 13, said point being measured thirty-three (33) feet normally from the center line of the said State highway at about Station 66 plus 44.

BE IT FURTHER RESOLVED that a notice of this vacation be forwarded to the Board of Chosen Freeholders of the County of Morris, the governing body having jurisdiction over the road at the time of its being taken over as a State highway:

It being the intention of the State Highway Commission to abandon and vacate those portions of the old road between Budd Lake and Netcong as taken over January 15, 1920, lying outside the limite of the right of way of the new road as constructed between Station 11 plus 50 and 66 plus 44, as shown on plans on file in the offices of the said State Highway Commission at Trenton, N. J.

- - - - - - - - - - - -

WHEREAS, the State Highway Commission has heretofore taken over as a State highway, in accordance with the provisions of Chapter 14, Laws of 1917, a certain road, or roads, known as State Highway Route 4 from a point on Route 1 in or near Rahway, to Absecon, by way of Perth Amboy, Keyport, Middletown, Red Bank, Long Branch, Asbury Park, Point Pleasant, Lakewood, Toms River, Tuckerton and New Gretna, and

WHEREAS, in the construction and improvement of the said State Highway Route 4, Section 20, from Manasquan River to Sea Girt, it has been found desirable to relocate a certain portion of the said route for the purpose of betterment of the alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there is a certain portion heretofore used as a part of the road before improvement, which is no longer needed as a part of the improved State highway;

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portion of State Highway Route 4, Section 20, as hereinafter described, be and the same is hereby abandoned as a part of State Highway Route 4, Section 20.

"Beginning at a point in the center line of Sea Girt Avenue, said point being at the intersection of the westerly right of way line of Parker Avenue, thirty-five (35) feet from the intersection of the center lines of Parker Avenue and Sea Girt Avenue opposite Station 211 plus 28.74; thence (1) along the center line of Sea Girt Avenue North sixty-two degrees, two minutes West (N 62° 02' W) a distance of seven hundred thirty-three (733) feet more or less to a point, said point being at intersection of the center lines of Sea Girt Avenue and the easterly right of way line of Broad Street, otherwise known as the Manasquan Turnpike

"It being the intention of the State Highway Commission to abandon and vacate all that portion of Sea Girt Avenue as taken over May 1, 1920, lying beyond the property line of Parker Avenue as shown on plans on file in the offices of the said State Highway Commission at Trenton, N. J."

BE IT FURTHER RESOLVED, that a notice of this vacation be sent to the Mayor and Borough Council of the Borough of Manasquan and the Borough of Sea Girt, the governing bodies having jurisdiction over the road at the time of its being taken over as a State highway.

- - - - - - - - - -

WHEREAS, the State Highway Commission has heretofore taken over as a State highway in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 4 from a point on Route 1 in or near Rahway, to Absecon, by way of Perth Amboy, Keyport, Middletown, Red Bank, Long Branch, Asbury Park, Point Pleasant, Lakewood, Toms River, Tuckerton and New Gretna, and

WHEREAS, in the construction and improvement of the said State Highway Route 4, Section 20, from Manasquan River to Sea Girt, it has been found desirable to relocate certain portions of the said route for the purpose of betterment of the alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there are certain portions heretofore used as a part of the road before improvement which are no longer needed as a part of the improved State highway.

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portions of State Highway Route 4, Section 20, as hereinafter described, be and the same are hereby abandoned as a part of State Highway Route 4, Section 20, and vacated in accordance with the provisions of Chapters 14 and 15, Laws of 1917 and the amendment thereto in Chapter 220 of the Laws of 1919.

"Beginning at a point in the center line of Union Lane, said point being in the easterly right of way line of Union Avenue and opposite Station 126 plus 87 more or less of the new road as constructed, thence (1) along the center line of Union Lane in a southeasterly direction a distance of one thousand seven hundred ten (1710) feet more or less to a point, said point being the intersection of the center lines of Union Avenue and Ashley Avenue; thence (2) along the center line of Ashley Avenue in a southwesterly direction a distance of one thousand thirty (1030) feet more or less to a point, said point being at the intersection of the northerly right of way line of Higgins Avenue and opposite Station 99 plus 71 more or less on the new road as constructed.

"It is the intention of the State Highway Commission to abandon and vacate all that portion of Union Lane and Ashley Avenue as taken over May 1, 1920, and January 5, 1921, lying outside the limits of the acquired right of way of the new road as constructed between Station 99 plus 71 and Station 126 plus 87, as shown on plan attached hereto and on file in the offices of the said State Highway Commission at Trenton, New Jersey.

BE IT FURTHER RESOLVED, that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Monmouth County, the governing body having jurisdiction over the road at the time of its being taken over as a State highway.

- - - - - - - - - -

WHEREAS, the State Highway Commission has heretofore taken over as a State highway, in accordance with the provisions of Chapter 14 of the Laws of 1917 a certain road or roads known as State Highway Route 4 from a point on Route 1 in or near Rahway, to Absecon, by way of Perth Amboy, Keyport, Middletown, Red Bank, Long Branch, Asbury Park, Point Pleasant, Lakewood, Toms River, Tuckerton and New Gretna, and

WHEREAS, in the construction and improvement of the said State Highway Route 4, Section 20, from Manasquan River to Sea Girt, it has been found desirable to relocate a certain portion of the said route for the purpose of betterment of the alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there is a certain portion heretofore used as a part of the road before improvement which is no longer needed as a part of the improved State highway.

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portion of State Highway Route 4, Section 20, as hereinafter described be and the same is hereby abandoned as a part of the State Highway Route 4, Section 20:

"Beginning at a point in the center line of the Manasquan Turnpike, said point being at the intersection of the southerly right of way line of Sea Girt Avenue; thence (1) along the center line of the Manasquan Turnpike in a northeasterly direction a distance of one thousand seventy (1070) feet more or less to a point; thence (2) still along the center line of the Manasquan Turnpike bearing to the right, still in a northeasterly direction a distance of two thousand five (2005) feet more or less to a point, said point being at the southwesterly end of the concrete pavement intersection as constructed on the Manasquan Turnpike near the northerly line of Beacon Boulevard extended, said point being opposite Station 242 plus 45 more or less of the new road as constructed.

"It being the intention of the State Highway Commission to abandon and vacate all that portion of the Manasquan Turnpike as taken over May 1, 1920, lying outside of the limits of the acquired right of way of the new road as constructed between the southerly end of the concrete pavement intersection on the Boulevard extended, as shown on plans on file in the offices of the said State Highway Commission at Trenton, N. J."

BE IT FURTHER RESOLVED that a notice of this vacation be sent to the Board of Chosen Freeholders of Monmouth County, the governing body having jurisdiction over the road at the time of its being taken over as a State highway.

Equipment - Automobiles

State Highway Engineer Sloan requested authority to increase the amount authorized for the purchase of one automobile, as granted at a previous meeting, from $1800.00 to $2250.00. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission authorized the increase for the purchase of one automobile from $1800.00 to a price not exceeding $2250.00.

Right of Way - Route 1 Extension

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the employment of Mr. C. Alfred Burhorn, Mr. Frederick Dunham, Mr. Percy A. Gaddis and Mr. Thomas A. Ryer as appraisers on property on Route 1 Extension in Jersey City and vicinity, in accordance with the terms expressed in communications received from them.

Route 1 Extension, Jersey City

State Highway Engineer Sloan presented to the Commission a proposed change in the plan for the approach to Hoboken Avenue in Jersey City, whereby there would be eliminated a crossing on Hoboken Avenue. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the recommendation of the State Highway Engineer be approved as to such a change.

On motion by Mr. Jelin, seconded by Mr. Kidde, the meeting was adjourned at 5:30 P.M. to meet in regular session again on Tuesday, January 20, 1923, at 10:30 A. M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - January 20, 1925.

A regular meeting of the State Highway Commission was held at the meeting rooms of the Commission, Broad Street Bank Building, Trenton, Tuesday, January 20, 1925. The meeting was called to order at 10:30 A.M. by Chairman Scott.

Present: General H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Route 9, Section C, Plainfield

The Secretary informed the Commission that Mr. A. W. Vars, City Engineer of Plainfield, was present and he had brought with him a form of agreement as provided by the City of Plainfield through its Mayor, whereby there would be improved Route 9, Section C, South Avenue, Plainfield, by the City of Plainfield, the State sharing in the work to the extent of $67,500.00. On motion by Mr. Kidde seconded by Mr. Stewart, the State Highway Commission directed that the agreement with the City of Plainfield be accepted and that the Chairman be authorized to approve same on behalf of the State Highway Commission.

The Secretary advised that Mr. Vars had completed plans and specifications for the improvement of said Route 9, Section C, known as South Avenue from Richmond Street to Terril Road, and that the same had been approved by the Engineering Department and was ready for approval by the Commission. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve of plans and specifications for the construction of Route 9, Section C by the City of Plainfield, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Right of Way-Route 1
Extension, Jersey City

The Secretary presented a communication from Mr. C. Alfred Burhorn of Hoboken, New Jersey, accepting the changes made in his proposition for the appraisal of property on Route 1 Extension through Jersey City. On motion, duly seconded, the communication was ordered received and placed on file.

January 20, 1925.

Route 18-South, General

The Secretary advised that Senator Borton of Salem County was present and desired a hearing before the Commission. On motion duly seconded, a hearing was granted. Senator Borton appeared and advised that on behalf of the Board of Freeholders of Salem County, he would present a request for the hard surfacing of that section of Route 17-South between Elmer and Woodstown. He advised that the maintenance costs on this road were excessive and warranted paving at this time. Chairman Scott advised Senator Borton that the Commission was very favorable to the early construction of all routes just as soon as there were funds in hand for the purpose. Senator Borton advised that at any rate he would ask that the improvement be made between Elmer and Pole Tavern, whereby the residents of this location may be given a connection with Route 6. Chairman Scott advised that this would be given serious consideration.

Legislation-Proposed

Senator Borton also called attention to the fact that it was his purpose to introduce a bill which would give numerical sequence or name to those routes on which there is a duplication of numbers, such as Route 18, there being a Route 18 in Bergen County as well as in Salem County. Commissioner Jelin suggested that in view of the fact that there are other routes similarly designated by the same number, all of these matters might be straightened out by legislation at one time.

Route 18-South - General.

Senator Borton also advised that he was introducing a bill requesting the extension of Route 18 from Pennsgrove Ferry to the borough limits, since he believed that this was the first intention of the Legislature when the route was adopted, and he believed was favorable to the Commission. Chairman Scott advised that the Commission did not desire to express any sentiments as regarding the favoring of any particular route, and State Highway Engineer Sloan advised that this was contemplated and was a desirable extension.

Request for Aid-Salem County

Senator Borton also took occasion at this time to urge consideration for the Salem County Board of Freeholders, on the State aid request for Penns Neck Bridge, which will cost $300,000.00. Chairman Scott advised Senator Borton that this also would be given consideration by the Commission.

Right of Way-Route 1 Extension

The Secretary advised that Mr. R. C. Falconer, Assistant to the President and Chief Engineer of the Erie Railroad, and Mr. D. E. Minard, General Attorney of the Erie Railroad Company, were present for a hearing on the matter of the Route 1 Extension through Jersey City. On motion, duly seconded, a hearing was granted. Mr. Falconer advised that he desired to call the attention of the Commission to the fact that in order for the Erie railroad to expand and proceed along their cut, it will be necessary that they shall have 90 feet of space from their open cut out on to their right of way on the North side, which would bring the railroad within one foot of the proposed highway and would make impossible any slope to the rock wall, which is absolutely necessary. He advised also that the railroad desired to retain as much ot its property as it will need for two additional tracks on the South side, and further the company was in no position to make any definite statement as to when such expansion would take place. Mr. Minard stated that the railroad company had purchased this land for railroad use and felt that its needs would require all of the land for two additional tracks on either side of the cut in addition to removing the top from the tunnel. Chairman Scott informed Mr. Falconer that the State Highway Commission had a very urgent need for proceeding at once with its work in Jersey City,and he asked that the railroad company advise whether it will use the North or South side so that the Commission can proceed with its plans, which have already reached the stage where certain portions could be advertised within a short time. Mr. Falconer advised that no assurance could be given the Commission as to when there would be need for this land by the railroad company, but plans were under way for its use at some future date and it, therefore, must be held for railroad purposes.

As to the construction of the viaduct over the present Erie tracks, Mr. Falconer advised that he thought there would be no opposition after the plans had been looked over, and stated he thought he would be in a position to advise definitely in about ten days.

Right of way-Route 18. North

The Secretary presented a communication from Major W. A. Welsh, in which he advised that the trustees of the Phelps estate had approved of the proposed extension of Route 18-North through the Phelps estate, and he was ready to give this property to the State just as soon as arrangements could be concluded. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that Commissioner Kidde and State Highway Engineer Sloan be delegated to arrange for a meeting with the Phelps Estate and work out a plan whereby the Commission would acquire such land as is needed for highway purposes through that estate.

Route 1 Extension-Jersey City

State Highway Engineer Sloan presented to the Commission the property plans of Route 1 Extension in Jersey City in the vicinity of the proposed viaduct on 12th Street, and requested information as to the acquisition of property. He was advised that appraisal be secured on the entire block where the property will be practically entirely damaged by the viaduct and no saving can accrue on account of portions of land remaining. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of such land as would be necessary for the viaduct location and sloped fill.

Request for Aid-Somerset County

The Secretary presented a communication received by Chairman Scott from Senator Edge, transmitting a letter urging the improvement of the Easton Turnpike in Somerset County, from former Governor John W. Griggs. On motion by Mr. Stewart, seconded by Mr. Jelin, the communication was received and placed on file.

Memorials

The Secretary presented a cut of a memorial to soldiers and sailors of the World War, as has been placed on a bridge at Portsmouth, New Hampshire. On motion by Mr. Jelin, seconded by Mr. Stewart, this was referred to the State Highway Engineer for study in connection with the proposed memorial bridge embellishments.

January 20, 1925.

Communications

The Secretary presented a communication from Hon. E. L. Katzenbach, expressing appreciation for the sympathy of the State Highway Commission in his recent illness.

Right of Way-Amboy Bridge

The Secretary presented a communication from Judge Newcorn, requesting information concerning his bill for services in the case of the State versus the W. J. Donnell Lumber Company. On motion by Mr. Stewart, seconded by Mr. Jelin, this communication was ordered laid over for later consideration.

The Secretary presented a communication from Hon. William A. Newcorn, advising that he will make a study of the bill forwarded him from the Sheriff for jury fees and expenses in the case of the State versus the W. J. Donnell Lumber Company, and will make further report. On motion, duly seconded, the communication was ordered received and placed on file.

Conventions-
National Spring Hotel Show

The Secretary presented a communication from the National Spring Hotel Show, advising that they will permit the Commission to occupy booths which will cost $200.00 and $150.00 each. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that the Secretary advise the National Spring Hotel Show that the Commission will not exhibit at this convention.

Marking-State Highways;
Route 10, Bluff Road.

The Secretary presented a communication from the Palisades Improvement Association again calling attention to the unsightly means used by the State Highway Commission for designating State property on Bluff Road by the erection of wire fences and signs, and suggesting that some other method be used for this instead of that employed. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that the Secretary inquire as to what suggestions they would have for the marking of State property other than by the fences as already there.

January 20, 1925.

Route 18-North, Section 1, Alpine

The Secretary presented a communication from Mr. Leo E. Schwartzstein, President of the Westchester Ferry Corporation, urging the improvement of Route 18-North in the Borough of Alpine, and stating that he understood that the New York State Highway Commission was prepared to proceed with the work. On motion by Mr. Stewart, seconded by Mr. Jelin, the communication was ordered received and the Secretary was directed to advise Mr. Schwartzstein that the Commission was in communication with the New York authorities and will proceed at the earliest possible moment.

Maps

The Secretary presented a communication from the General Drafting Company of New York, requesting information as to whether the Commission will continue to distribute maps and also that they be given an opportunity to furnish the same. On motion by Mr Jelin, seconded by Mr. Stewart, the communication was ordered received and a form of map was ordered prepared in order that the Commission may undertake the publication of same later if desired.

Request for Hearing-Sussex County

The Secretary presented a communication from Mr. Harvey Snook, County Engineer of Sussex County, requesting an opportunity to appear before the Commission regarding Sussex County improvement. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that a hearing be granted Mr. Snook for Tuesday, January 27th at Trenton.

Construction Program-1925: Route 15, General.

The Chairman requested information from the Commission as to the disposition to be made of a request made by Senator Bright for the inclusion of a section of Route 15 in the 1925 road program. State Highway Engineer Sloan advised the Commission that he was giving serious consideration to the elimination of the Bridgeboro Bridge on Route 2 from the 1925 program and substituting therefor the inclusion of a section of Route 15 in Cape May County and also in Cumberland County at Port Elizabeth. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that Senator Bright be advised that in the event the Commission considers certain bridges to be safe enough for traffic during the next construction season, it may be possible to include additional roads in this program by the transfer of funds.

On motion by Mr. Jelin, seconded by Mr. Stewart, the meeting was recessed for luncheon. Commissioner Kidde advised that due to important business it was necessary for him to leave at this time. The meeting was resumed at 2:30 P. M. with Chairman Scott, Percy H. Stewart and Abraham Jelin present.

Route 4 Alignment, Perth Amboy

The Secretary advised that Mr. Frank R. Valentine of Woodbridge, New Jersey, had made a request for a hearing on this day and he was now present. On motion, duly seconded, a hearing was granted. Mr. Valentine appeared and stated that from the plans for the extension of Route 4 on the line of Cleveland Avenue to the New Amboy Bridge, it would carry the road over a part of very valuable "spar" deposits of his company and would necessitate his company losing considerable money if the road was placed so that no digging could be done in the vicinity of the road. He suggested that the roadway be shifted so that it would be directly on the line of his property and thereby considerable damage would be removed. He also called attention to the fact that he would suggest a change in Woodbridge at his home where he was willing to give certain property to the State in order that a corner might be made more safe for traffic. State Highway Engineer Sloan advised that it appeared that this change would have to be made and he would recommend the acceptance of the proposition of Mr. Valentine when that part of Route 4 is improved. Chairman Scott informed Mr. Valentine that the jurisdiction of the State Highway Commission is limited as to any changes that might be made in the alignment of State highways, and it may not be possible altogether to align Route 4 in the manner as suggested by him, but a thorough investigation would be made of the entire matter before anything definite was determined.

Entrance Road,
Bridge Boulevard-Camden

The Secretary informed the Commission that Mayor King of Camden and Commissioner Sherrerd were present to discuss the matter of the

Camden Extension to the new bridge. On motion, duly seconded, a hearing was granted. Commissioner Sherrerd reported to the Commission that by the elevation of Federal Street there would be buried an old sewer and a thirty inch water main which the city authorities believed should be taken care of and moved out of the way in order that should any break occur when the fill is placed over that particular section, it would not be so difficult to reach the pipes and repair same. He requested information as to what the State would do to assist the City in replacing these pipes. State Highway Engineer Sloan informed the Commission that he believed the old sewer line should be replaced in this particular location with new pipes and that this work was reasonably part of the contract of the State Highway Commission when the construction work was being carried on at this point. As to the water main, he stated that he believed that inasmuch as this was for the City's benefit, the City should take care of it all if possible. Mayor King stated that this was a contingency which the City authorities had not taken into account and while they believed the pipes could still stand where they were, it would be more beneficial to the construction if they were replaced and also to the City Water Department if access to the pipes was more easily obtained. After further discussion, State Highway Engineer Sloan recommended to the Commission that the State furnish the necessary sewer work and also contribute $1,000.00 to the cost of a connection for a bypass in this section, and that the City of Camden shall furnish the pipe and the State will have the same installed under the boulevard when the construction work is taking place. On motion by Mr. Jelin, seconded by Mr. Stewart, the recommendation of the State Highway Engineer was approved.

State Highway Engineer Sloan advised the Commission that it was very essential that some decision be reached as to the adoption of line "B" or "C" for the entrance road in order that plans and specifications might be prepared and the work advertised. Mayor King advised the Commission that he was, at the present time, in negotiations with the Keystone Leather Company and the Public Service Corporation and he believed that there should be something definite within the next few days. He advised that he would take this matter up with Mr. Giffin and move some definite response.

January 20, 1925.

Crescent Boulevard

State Highway Engineer Sloan presented to the Commission plans for a section of the proposed Crescent Road from Merchantville to the Entrance Road and inquired whether the Commission desires to give a hearing to all interested parties in the near future. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that a public hearing be held in Trenton on Tuesday, February 3d, on the matter of the Crescent Road improvement between Route 2 and the entrance boulevard.

Right of Way-Route 2.

The Secretary presented a report from Assistant Attorney General DeVoe relative to condemnation awards and approved the following recommendations of Mr. DeVoe. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award as made to Kazimerz Czepiel on Route 2, Section 4, in the amount of $500.00.

Right of Way-Route 7.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award as made to J. Adelard Ouimet on Route 7, Section 2, in the amount of $25.00.

Right of Way-Route 4

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award as made to T. Tasso Fisher on Route 4, Section 20, in the amount of $2,500.00.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that in the case of Annie Cramer on Route 4 at the Bass River Bridge, that condemnation proceedings be pushed forward at the earliest possible moment.

Right of Way-Route 7.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award as made to Walter Fletcher on Route 7, Section 3, in the amount of $775.00.

Right of Way-Route 5.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the award as made to the Bochman Spring Company

Camden Extension to the new bridge. On motion, duly seconded, a hearing was granted. Commissioner Sherrerd reported to the Commission that by the elevation of Federal Street there would be buried an old sewer and a thirty inch water main which the city authorities believed should be taken care of and moved out of the way in order that should any break occur when the fill is placed over that particular section, it would not be so difficult to reach the pipes and repair same. He requested information as to what the State would do to assist the City in replacing these pipes. State Highway Engineer Sloan informed the Commission that he believed the old sewer line should be replaced in this particular location with new pipes and that this work was reasonably part of the contract of the State Highway Commission when the construction work was being carried on at this point. As to the water main, he stated that he believed that inasmuch as this was for the City's benefit, the City should take care of it all if possible. Mayor King stated that this was a contingency which the City authorities had not taken into account and while they believed the pipes could still stand where they were, it would be more beneficial to the construction if they were replaced and also to the City Water Department if access to the pipes was more easily obtained. After further discussion, State Highway Engineer Sloan recommended to the Commission that the State furnish the necessary sewer work and also contribute $1,000.00 to the cost of a connection for a bypass in this section, and that the City of Camden shall furnish the pipe and the State will have the same installed under the boulevard when the construction work is taking place. On motion by Mr. Jelin, seconded by Mr. Stewart, the recommendation of the State Highway Engineer was approved.

State Highway Engineer Sloan advised the Commission that it was very essential that some decision be reached as to the adoption of line "B" or "C" for the entrance road in order that plans and specifications might be prepared and the work advertised. Mayor King advised the Commission that he was, at the present time, in negotiations with the Keystone Leather Company and the Public Service Corporation and he believed that there should be something definite within the next few days. He advised that he would take this matter up with Mr. Giffin and move some definite response.

January 20, 1925.

Crescent Boulevard

State Highway Engineer Sloan presented to the Commission plans for a section of the proposed Crescent Road from Merchantville to the Entrance Road and inquired whether the Commission desires to give a hearing to all interested parties in the near future. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that a public hearing be held in Trenton on Tuesday, February 3d, on the matter of the Crescent Road improvement between Route 2 and the entrance boulevard.

Right of Way-Route 2.

The Secretary presented a report from Assistant Attorney General DeVoe relative to condemnation awards and approved the following recommendations of Mr. DeVoe. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award as made to Kazimerz Czepiel on Route 2, Section 4, in the amount of $500.00.

Right of Way-Route 7.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award as made to J. Adelard Ouimet on Route 7, Section 2, in the amount of $25.00.

Right of Way-Route 4

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award as made to T. Tasso Fisher on Route 4, Section 20, in the amount of $2,500.00.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that in the case of Annie Cramer on Route 4 at the Bass River Bridge, that condemnation proceedings be pushed forward at the earliest possible moment.

Right of Way-Route 7.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award as made to Walter Fletcher on Route 7, Section 3, in the amount of $775.00.

Right of Way-Route [illegible].

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the award as made to the Bochman Spring Company on Route 5, Section 13, in the amount of $[illegible].00

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the award as made to Dorcan Schernce on Route 5, Section 13, in the amount of $300.00.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the award as made to Frank Dominick on Route 5, Section 13, in the amount of $800.00.

The schedule of business was next taken up, item by item as follows, with the recommendations of the State Highway Engineer.

Route 1 Extension, Jersey City.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the acceptance and final payment on account of borings as made on Route 1 Extension at Jersey City.

Lighting-Albany Street Bridge

There was presented to the Commission a report on the matter of lighting of the Albany Street Bridge, in which the State Highway Engineer recommended that in view of the fact that the Public Service Corporation contends that they are no longer obligated to light this bridge, that the State install the necessary lighting fixtures on the bridge and advise the authorities of New Brunswick and Highland Park that if they desire the bridge lighted, they may light same at their own expense.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that Mr. Jelin be authorized to call a conference between the authorities of New Brunswick and Highland Park and the Public Service Corporation, in order that a plan may be worked out for the lighting of the Albany Street Bridge and the Highland Park Hill, which is adjacent to the bridge.

Route 15, Section 4.

The State Highway Engineer presented a statement and report showing the divisions of cost of the City of Millville and the State Highway Department covering work done on Route 15, Section 4. In this report it was stated that certain work was done in the City of Millville, and the right was retained to determine in the courts, whether the Cumberland & Millville Traction Company was liable for the paving of tracks. On motion by Mr. Stewart, seconded by Mr. Jelin

January 20, 1925.

the State Highway Commission directed that all the papers in this connection be forwarded to Mr. DeVoe in order that he may present same to the Attorney General for attention.

Right of Way-Route 14.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel #27 on Route 14, Section 8, from Frances M. Rice and Julius [illegible] Sutton, for the consideration of $44.79, the owners to reset fences at their own expense.

Right of Way-Route 15

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel #3 from Elizabeth S. & David L. Mayhew, for the consideration of $50.00, and of Parcel #4 from J. Roy Oliver, et ux, et al, for the consideration of $20.00, both parcels being on Route 15, Section 7-A.

Employments

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission ratified the following changes and additions in employments as made by the State Highway Engineer since the last meeting of the Commission:

Employed

1-15-25	Geo. H. Bohlenger,	Senior Clerk	$115.00 mo.
1-16-25	Herman J. Hooper,	Gravel Patrolman	85.00
1-16-25	John Acton,	Maint. Man	100.00
1-15-25	Samuel E. Bullock,	Asst.Civ.Eng.	165.00
1-15-25	A. W. Moore,	Title Searcher	150.00

Increased

1-1-25	F. C. Claus,	Res. Eng.	$240.	to	$275. mo.
2-15-25	R. G. Fadde,	Auditor.	145.	"	160.
1-16-25	Wm. Umberger,	Br. Detailer	165.	"	175.
1-1-25	Norman Lister,	Senior Clerk	115.	"	125.
2-1-25	Wm. Campbell,	Adm. Clerk,	200.	"	250.
2-1-25	Clyde Case,	Prin. Clerk	145.	"	160.

Discontinued Employments

1-9-25	Lewis Bernasco,	Stock Clerk,	Resigned
1-17-25	John Shellenberger,	Rodman,	"
1-1-25	A. L. Hilaman,	Bridge Tender,	"
1-15-25	Walter F. Kelly,	Title Searcher,	Discharged
1-31-25	Harry Johnson,	Jr. Insp.	Laid Off
1-31-25	E. S. Scollan,	" "	" "

Township Aid-Ocean County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission accepted and authorized final payment to be made on 14th Street, Lakewood Township, Ocean County, Township Aid.

January 20, 1925.

Sullivan Way, Mercer County.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission accepted and authorized final payment to be made on Sullivan Way, Mercer County, Motor Vehicle Aid work.

Township Aid-Morris County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved an extension of time of 45 days on Dover-Mount Freedom Road, Section 1, Randolph Township, Morris County.

Township & Borough Aid-Monmouth Co.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the request of Wall Township, Monmouth County, for the insertion of a price of $14.00 per eight hour day for Fordson Tractor in the price agreement as previously approved on Rams Horn Road.

Township Aid Transfer.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the transfer of $1200.00 from Cape May Court House-Biddle Creek Road to Wildwood Junction Road, both in Middle Township, Cape May County.

Federal Aid-Route 5.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of Federal Aid project statement for Route 5, between Denville and Delaware.

Reckless Place, Red Bank

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the extension if time of 25 working days on Reckless Place, Red Bank, Monmouth County, Motor Vehicle Aid work.

Traffic

State Highway Engineer Sloan presented to the Commission for its information and suggestions a copy of a letter to be forwarded to the Governor of New Jersey by the Special Committee studying traffic problems of the Philadelphia metropolitan district, as to this traffic problem. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the form of letter as presented by the State Highway Engineer.

January 20, 1925.

Right of Way-Route 11

Commissioner Jelin advised in the matter of the property of Harry Corb on Route 11, Section 8, at Nutley, he had received a telephone call from Mr. Corb to the effect that there was a possibility that the matter might be settled with the State during the week, but he had not had an opportunity to again see Mr. Corb.

On motion by Mr. Jelin, seconded by Mr. Stewart, the meeting was adjourned at 4:30 P.M. to meet in regular session again on Tuesday, January 27, 1925, at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - January 27, 1925

A regular meeting of the State Highway Commission was held at the meeting rooms of the Commission, Broad Street Bank Building, Trenton, on Tuesday, January 27, 1925. The meeting was called to order at 10:30 A.M. by Chairman Scott.

Present: General H. L. Scott, Chairman,
Hon. Percy H. Stewart,
Hon. Walter Kidde,
Hon. Abraham Jelin.

Minutes Approved

Commissioner Kidde reported having read the minutes of the meeting of December 2nd and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Commissioner Kidde reported having read the minutes of the meeting of December 9th and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported having read the minutes of the meeting of December 16th and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Accidents-Albany Street Bridge

Commissioner Jelin reported a very serious accident on the Albany Street Bridge at New Brunswick, which he believed called for further details in connection with the widening construction of the bridge, in order that such accidents may be prevented in the future. State Highway Engineer Sloan informed the Commission that in reconstructing the roadway on the bridge the grade of the pavement was raised, thereby reducing the height of the sidewalk curb by several inches below that on the old construction, and he advised the Commission that the construction of a curb parapet or headwall on the Albany Street Bridge was possible at an estimated cost of $5000.00. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that this work be completed as part of the existing contract for the widening of the bridge.

Route 6, Woodbury

The State Highway Engineer informed the Commission that Senator Davis and Assemblyman Stratton of Gloucester County were present and desired to confer with the Commission for a few minutes. Senator Davis inquired concerning the reconstruction of Route 6 through

Woodbury, especially as to when this work would be undertaken. The Secretary informed the Commission and the Senator that correspondence had been under way with the Public Service Railway Company for a considerable period of time concerning this matter and that we had been informally advised by the railway company that a decision was about to be reached as to just what the nature of the work would be at Woodbury. State Highway Engineer Sloan informed the Commission that the actual work could be gotten under way as early as possible in the Spring.

Legislation;
Township Aid-General.

Assemblyman Stratton advised that he has been asked to introduce a bill looking toward the increase of township aid in the State from $25,000.00 to $40,000.00 a year to the townships in each county, and also provide that townships shall make their recommendations to the Board of Freeholders instead of direct to the State Highway Commission. Commissioner Jelin stated that he believed that the law, as at present existing, was passed with the express desire of bringing the township applications direct to the State Highway Commission in order to avoid any discriminations by the Freeholders in the presentation of the same to the State Highway Commission. Commissioner Kidde stated that he believed any increase in township aid should not be made until there was provision made for an increase in the income derived from the Motor Vehicle funds, due to the fact that in preparing estimates on State Highway and County improvements the basis used was the fact that the funds at present coming to the State Highway Commission will not be disturbed.

Request for Aid-Cumberland County

The Secretary informed the Commission that Mr. Roscoe Ward, County Counsel for Cumberland County, and Freeholder Campbell, together with County Engineer Shapr, were present in the interest of securing State Aid on the completion of the road from Bridgeton to Bivalve. On motion, duly seconded, a hearing was granted. Mr. Ward advised that approximately eight miles of this road have been completed with Federal Aid and there still remains eight and one-half miles to be completed. He explained the vast amount of business done by the oyster industry at Bivalve on Maurice River Cove and urged the completion of this road as a means of better marketing conditions to this entire section of Cumberland County. He advised that the estimated cost of the work was $175,000.00, and the County stood ready to share equally with the State in whatever amount the State would share for the work. He advised that the County of Cumberland would not be able to place a hard surfave pavement in the County unless there was some substantial aid from the State. Mr. Ward then advised that if the Commission saw fit they would separate this work into a two year program. Chairman Scott informed the delegation that the Commission was very sympathetic and would study the situation and would make an effort to give some aid to the County.

Material-Cement;
Hearing-Edison & Alpha Cement Companies

The Secretary informed the Commission that a hearing had been requested by representatives of the Edison Portland Cement Company and the Alpha Portland Cement Company, and they were present at this time. On motion by Mr. Kidde, seconded by Mr. Jelin, a hearing was granted. There appeared Mr. Cose, Vice President of the Edison Portland Cement Company with Mr. Wilnack, his Chemist, and Mr. Coogan, Vice President of the Alpha Portland Cement Company, with Mr. Anderson, his Chemical Engineer. State Highway Engineer Sloan informed the Commission that tests as made in the State Highway Laboratory developed the fact that a very large amount of the cement being used on State highway construction was furnished by a company which was not giving the State a cement of quality as good as that furnished by the average producers of this section of the country, and he advised that the present standard of requirement was that the tensile test shall show 200 pounds in seven days, and 300 pounds in twenty-eight days. The cement company, however, which he had in mind; namely; the Edison, was not producing a satisfactory product to the Department on account of the fact that rejections by the Laboratory had been very numerous.

Mr. Coogan addressed the Commission and stated that while his company was a competitor of the Edison Company, he was a close personal friend of Mr. Cose and desired to present his views as regards the production of the Edison Portland Cement Company. He admitted that due to difficulties encountered in the management of the Edison Company's plant during the past several years, that the business was not conducted in a proper manner, but he stated that under Mr. Cose's management the chemical branch of the business had been changed and at the present time there existed machinery and equipment indentical with that contained in any other high class cement plant. He extended an invitation to the State Highway Commission to make an inspection of the Edison Portland Cement Company with the Department Chemists, then to inspect the plant of the Alpha Portland Cement Company in order that it might be determined that the methods of operation in both plants are identical.

Mr. Cose next addressed the Commission and stated that he would reiterate what Mr. Coogan had said and he also advised concerning its management and chemical department which existed up until January 1 of this year, when new chemists were secured. He assured the Commission that honest efforts would be made and could be made to give the Commission the standards required.

Chairman Scott inquired what grounds the State Highway Commission would have to believe that the cement to be produced by the company in the future would be better than that which was produced in the past. State Highway Engineer Sloan informed the Commission that it was his purpose to arrange in some manner to raise the standards required for cement in the State of New Jersey, which thereby would require that the Edison Company raise the standard of its product so as to be at least as good as that of the average company. Both the Chemists for the Edison and Alpha companies argued against raising the present standards; first, because of the fact that this would disrupt the standard as prepared by the American Association for Testing Materials, and secondly, from the fact that it would involve considerable scientific study before the cement companies could be assured that a cement of greater tensile test would give as good results as the present cement produced. On motion by Mr. Jelin, seconded by Mr. Stewart, the matter was ordered held for future consideration.

High Point Park Road;
Sparta-Woodport Road.

The Secretary informed the Commission that a hearing had been requested by Sussex County Board of Freeholders to discuss the completion of the Sparta-Woodport Road, and that Mr. Meyers, Director of the Board, and County Counsel, Judge W. T. Kays, together with members of the Board of Freeholders and citizens from Franklin, Ogdensburg and Newton were now present. On motion, duly seconded, a hearing was granted.

Judge Kays, acting as spokesman, informed the Commission that the County of Sussex had under contract the concrete paving of the Sparta-Woodport Road to a width of ten feet and this work was now going forward. He informed the Commission that in view of the importance of this road as a direct county improvement, the Board of Freeholders desired that the Commission aid the County in the completion of another ten feet in width on this road, making a total of twenty feet. He informed the Commission that County Engineer Snook was delayed by the storm and could not reach Trenton with the delegation, but he understood that the total distance was three and two-thirds miles and that the estimated cost for the ten foot width would be approximately $80,000.00.

Commissioner Kidde inquired from Senator Kays as to what action the County of Sussex has taken toward the improvement of the High Point Road. Senator Kays advised that while the State Highway Commission had granted $165,000.00 toward this improvement, the County did not feel that it could afford, on its present bonding capacity, to set aside an additional $200,000.00 for this improvement, although it was intended by the County to put a penetration macadam pavement on that section between Sussex and Coleville. Commissioner Kidde stated that he had understood that the County of Sussex had entered into an agreement with the State, whether written or oral, whereby they would undertake this improvement if the State should offer as much funds from the Motor Vehicle Account as had been promised to the County from Federal Aid. State Highway Engineer Sloan explained that it was the original purpose when applying for Federal Aid to complete this work with shale but the government asked a guarantee that the County would, on demand in the future, place a hard surface pavement on the road; this the County was unwilling to do and therefore the Federal Aid was revoked and State funds substituted therefor.

He informed the Commission, however, that there was no written agreement on the part of the County to proceed with the improvement. Upon inquiry, Director Meyers stated that he could not say whether the Board was in favor of the High Point Road. Commissioner Kidde stated that he believed the High Point Road would be beneficial to Sussex County in bringing in people from all sections of the State and that the Board should consider the improvement as soon as possible, and that unless some action is taken the State should reapportion the funds as set up for this improvement, in order that they may be put into the road improvement.

The President of the Board of Trade of Newton who was at the meeting called the attention of the Commission to the importance of the Sparta-Woodport Road as a commercial route for Sussex County, and urged the apportionment of State funds. Chairman Scott informed the delegation that the State Highway Commission would give serious consideration to the problem presented and would advise at a later date as to the action.

Main Street, Matawan,
Motor Vehicle Aid-Monmouth County.

The Secretary informed the Commission that County Engineer Allen and Freeholder Borden of the Monmouth County Board of Freeholders were present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Allen appeared and informed the Commission that his Board was ready to proceed with the improvement of Main Street, Matawan, which was a continuation of the Old Bridge-Matawan Route, forming a main line highway through Monmouth County, and he requested that the Commission grant aid on this work to the County, since this was the most important county improvement on which State Aid would be requested. He estimated the total cost to be $97,000.00. After further discussion, Commissioner Jelin moved that the sum of $25,000.00 be allotted from the Motor Vehicle Reserve Account to Monmouth County as aid on this road. This was seconded by Mr. Kidde and adopted.

Right of Way-Route 11

The Secretary informed the Commission that Mr. and Mrs. Harry Corb, owners of property on Route 11, Section 8, Nutley, were present in response to an invitation from Commissioner Jelin, in order to close negotiations on their property. Commissioner Jelin advised the Commission that during the past week he had further negotiated with Mr. and Mrs. Corb and that they were now willing to accept $7,500.00 from the State in full payment for their property, provided the State will pave the sidewalk on the West side of the road and that Mrs. Corb be permitted to remove such trees and shrubs from the property as possible before the construction is started. He recommended and moved that this property be purchased under these conditions. This was seconded by Mr. Stewart and adopted.

The Commission then recessed for lunch at 1:30 P.M. as the guests of State Treasurer William T. Read, who was re-elected by the Legislature for a term of three years. The meeting was reconvened at 4:00 P.M. with the same members present as at the morning session.

Motor Vehicle Aid-Burlington County:
Request for Aid - " "

The Secretary informed the Commission that a hearing had been requested by the Board of Freeholders of Burlington County, and there were present Senator Roberts, Director of the Board of Freeholders Stout, and County Supervisor of Roads MacFarland. Mr. Stout advised that the County of Burlington has a road improvement program in contemplation, but same will require considerable more financing than is at present possible for the County to meet. The first and most important road was the Church Road from the Camden County line to the crossroads on the Medford-Mount Holly Road. He advised that this road carried a very heavy traffic and it was proposed to place a penetration macadam pavement thereon at a cost of $144,000.00 for the entire length of nine miles. He advised that the County has available $36,000.00 toward this improvement and request was made for the balance from the State.

Secondly, Mr. Stout asked for aid on the Madonic Home Road, a township road running from Route 2 to the Masonic Home. He advised that this road was subjected to very heavy traffic at week ends and was in need of reconstruction. The estimated cost of the work was placed at $38,000.00 toward which the County has $12,000.00 set aside. Senator Roberts stated that he was interested in both of these roads for the Board of Freeholders and he stressed the point that the County was a very large one and the Board of Freeholders was doing its utmost to give to the County a large mileage of improved roads at a minimum expense. He asked that the Commission grant such aid as it could. Commissioner Kidde inquired whether it would be possible to complete this work in a two year program. Director Stout advised that approximately five miles of the Church Road on the lower end could be done this year and that the balance could be held over for the following year if the Commission could not see its way clear to offer aid on the entire improvement. Commissioner Kidde expressed favorable consideration for this road, in view of the fact that it is one on which there is a great deal of maintenance and any type of improved surface would reduce the maintenance charges in the County. He suggested that the County undertake this work in a two year program and moved that the sum of $30,000.00 be allotted from the Motor Vehicle Reserve Account to Burlington County for the improvement of one-half the Church Road. This was seconded by Mr. Stewart and adopted. As to the Masonic Home Road, Commissioner Kidde suggested that this work be undertaken through application by the township in which it is located, to be given consideration along with the completion of the Chatsworth-Barnegat connection from the Township Aid account after July 1st.

Crescent Route, Camden

The Secretary presented a communication from Senator Woodruff of Camden County, advising that the Township of Pensauken and the Borough of Merchantville which are directly interested in the hearing to be held next Tuesday on the alignment of the Crescent Route from Merchantville to the Entrance Boulevard to the new Camden Bridge, had employed Mr. J. C. Remington as their engineer and he understood from Mr. Remington that he contemplated a two weeks trip to the South, which would make it impossible for him to be present on the next Tuesday. He asked that, if possible, the hearing be postponed for two weeks. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that Senator Woodruff be advised that State Highway Engineer Sloan will be very glad to take any reports from Mr. Remington prior to the meeting in Trenton and before he goes away, but the Commission feels that in view of the fact that it has been urging the City of Camden to move forward quickly it is not justified in postponing the hearing as arranged.

Invitations.

The Secretary presented a communication from the Traffic Club of Newark, extending an invitation to the State Highway Commission to be the guests of the club at its 15th Annual Banquet, to be held at the Newark Athletic Club on February 4th. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission directed that the invitation be accepted on behalf of Messrs. Kidde, Stewart and Jelin, since Chairman Scott will not be able to attend.

Conventions

The Secretary presented a communication received by Chairman Scott from Mr. J. A. Rountree, Director General of the U. S. Good Roads Association, inviting the Commission to attend the 13th Annual Convention to be held at Houston, Texas, on April 21st to 26th, 1925. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that the communication be received and placed on file, and that they be advised that if it is possible for anyone to represent the Commission at that time, they will be advised in time.

Shore Relief Route

The Secretary presented a communication received by the Chairman from Mr. Louis T. Dougherty of Spring Lake Beach, commenting on the proposed location of a new highway as a relief route to shore traffic via the new Shark River Bridge. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the communication be accepted with thanks to Mr. Dougherty for his courtesy, and that he be advised that his suggestions will be given a thorough study.

Right of Way-Route 4.

The Secretary presented a report from Assistant Attorney General F.W.DeVoe, advising that in the case of condemnation of Emma M. Townsend property on Route 4, Section 9, he has been informed by Mrs. Townsend and her husband that they would take the appraisal of the State in the amount of $917.40 for such property as the State requires. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the payment of $917.40 to Emma M. Townsend as recommended by

Mr. DeVoe and directed that condemnation proceedings be dropped.

Request for Aid-Cape May County

The Secretary presented a resolution from the Board of Freeholders of Cape May County again restating their request for aid to the extent of $25,000.00 toward the improvement of the Cape May Point Boulevard, estimated to cost $100,000.00. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that this request be placed with those received from other counties in order that it may be considered along with the others.

Request for Aid-Ocean County

The Secretary presented a resolution from the Board of Freeholders of Ocean County, requesting the Commission to aid the County to the extent of 50% of the cost of the construction of approximately seven miles of the Lakewood-New Egypt Road. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that this communication be received and placed with those received from other counties. It was suggested that Ocean County was to have so large a State Highway Construction Program that it may not be possible to allocate any additional funds from the State Highway Department to that County during this year.

Signals

The Secretary presented to the Commission information concerning the requirements complained of by the Borough of Keyport with reference to the erection of a traffic signal in Keyport. On motion by Mr. Stewart, seconded by Mr. Jelin, this report was ordered received and placed on file.

Proposed New Routes

The Secretary presented a communication from Mr. E. L. Smith of the Union-Middlesex County Farmers' Cooperative Association, Inc., and the North Raritan Improvement Association, suggesting a line for a new highway between New Brunswick and Newark for the relief of congested traffic conditions, together with a map showing such congested lines. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission ordered the communication acknowledged with the advice that the Commission has already given the suggested line considerable study and his letter will be filed for future consideration.

January 27, 1925.

Conventions-
A.H.O.N.A.S.

The Secretary directed the attention of the Commission to the coming Convention of the North Atlantic States Association and requested information as to what procedure for expenses would be followed at this Convention. He explained that the procedure in previous years was to pay the expenses of men coming in to the Convention from outside assignments a flat rate for two day's expenses plus railroad fare. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission directed that the same arrangements as to the approval of expenses to the Convention be promulgated as were in effect in previous years.

Right of Way-Route 18-North.

Commissioner Kidde reported that he had taken up the matter of right of way through the Phelps Estate with Major Welsh, and suggested that plans be prepared for the proposed Route 18 through the Phelps Estate, showing the exact right of way location and the right of way required. He stated that Major Welsh believed that if the Commission would lay out this proposed road on a map, it would be possible to secure as much width of right of way as desired, together with such widening on the cliffs as might be required for a turnout. He further suggested that a letter be written to the Trustees of the Phelps Estate, advising that the Commission would be agreeable to entering into an agreement whereby the Highway Commission would make assurances that no objectionable obstructions would be placed in the roadway and that the road will be kept in good repair and that entrances will be placed for the property owners on the said road; and further that the State Highway Commission will place a protecting wall along the edge of the cliff. After considerable discussion as to the advisability of the Commission entering into an agreement with the Phelps Estate under these conditions, Mr. Stewart moved that the matter be referred to the State Highway Engineer for the preparation of a plan and a proposed form of agreement to be entered into, said agreement to be presented to the Commission for its approval at an early date.

The Schedule of Business was next taken up, item by item as follows, with the recommendation of the State Highway Engineer:

January 27, 1925.

Right of Way-Route 3.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the following parcels of property on Route 3, Section 11, Berlin-Hammonton:

Parcel	# 7,	Jacob Wuertz,	consideration	$335.00
"	8,	Leonard Reed,	"	200.00
"	9,	H. E. Seibert,	"	200.00
"	10,	Emanuele Mancuso,	"	13.00
"	12,	Anthony Rice,	"	100.00

Right of Way-Route 14.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the following parcels of property on Route 14, Section 8, Swainton-Ocean View:

Parcel	#28,	Humphrey Ludlam,	consideration	$ 40.00
"	38,	Thomas Kates,	"	45.00
"	46,	Julia Hildreth & Helen Riley,	"	150.00
"	50 & 51,	Everett B. Townsend,	"	15.00
"	60,	H. V. Rogers,	"	50.00

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the Parcel #12 on Route 14, Section 9, from Anthony Siep, for the consideration of $200.00.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the following parcels of property on Route 14, Section 10, Seaville-Petersburg:

Parcel	# 2,	Edna C. Riggins,	consideration,	$ 14.40
"	21,	Peter Schuse,	"	675.00

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the following parcels of property on Route 14, Section 11, Petersburg-Tuckahoe:

Parcel	#34,	Fred Grant, et als,	consideration,	$ 27.50
"	72,	Lillian F. McKenna,	"	150.00

Right of Way-Route 15.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the following parcels of property on Route 15, Section 7-A, Port Elizabeth Cut-off:

Parcel	#2,	Jos. E. Smiley, et ux,	consideration,	$ 10.00
"	6,	Mortimer & Harriet E. Henderson,	"	3500.00

Right of Way-Route 16.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of the following parcels of

January 27, 1925.

property on Route 16, Section 8, Harlingen Cut-off:

Parcel # 3,	Virginia M. Beekman & Marie L. Manners,	consideration	$ 90.90
" 3A,	ditto	"	3036.35

Right of Way-Route 8.

On motion by Mr. Stewart, seconded by Mr. Kidde, the question of approving a "License" agreement with the Erie Railroad Company for the construction of the Pompton River Bridge on Route 8 at M. P. 9.1, was ordered referred to the Attorney General with the request that he advise as to whether the Commission can condemn against the railroad in this matter.

Right of Way-Route 7.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that an offer of $9061.80 be made to Mr. John C. Hastie for Parcels Nos 13, 16, 23, 26, and 27 on Route 7, Section 3, this figure being the value as set by the appraisers on this property, and in the event of failure to accept the same, that condemnation proceedings be entered into.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that an offer of $5811.54 be made to Gustave A. Harms for Parcel #20A on Route 7, Section 3, this figure being the value as set by the appraisers on this property, and in the event of failure to accept the same that condemnation proceedings be entered into.

Right of Way-Route 4, Perth Amboy

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the matter of improvement of Route 4 in the City of Perth Amboy on the approach to the new Amboy Bridge, be referred back to the State Highway Engineer with the request that he communicate with the property owners on the new alignment in order to ascertain from them what their attitude will be toward the adoption of this line and the probable cost for the right of way for same, and that a report as to this matter be presented to the Commission for determination.

Reimbursement-Salem County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Board of Fre-holders of Salem County be advised that the amount of money available for the payment of reimbursement claims to the counties is necessarily restricted through having been certified to the State Comptroller, and on this account the Commission is unable to accede to their request for an increase in the amount to be paid to Salem County on its 1925 Reimbursement Schedule, the Commission having heretofore adhered strictly to the Schedule as agreed to and it being felt that any change would involve a serious disarrangement of the funds.

Penns Neck Bridge, Motor Vehicle Aid-
Salem County.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission granted an allotment of $25,000.00 from the Motor Vehicle Reserve Account of 1925 to Salem County to be applied as the State's share of the cost of reconstructing the Penns Neck Bridge in Salem County.

River Road, Middlesex County - MV Aid

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission granted an allotment of $55,000.00 to Middlesex County from the Motor Vehicle Reserve Account of 1925, to be applied as the State's share of the cost of the construction of the remaining portion of the River Road between New Brunswick and Bound Brook, including the connection to the Landing Bridge, it being understood that the plans, specifications and alignment will be presented to the Commission for approval before the work is proceeded with, and the Secretary was directed to record that in view of the fact that there has been a desire on the part of Somerset County to complete the Easton Turnpike, which will carry traffic in the same manner between New Brunswick and Bound Brook, that this decision has been made in view of the fact that the Somerset Road will entail an expenditure of $300,000.00 and that the funds of the State are not sufficient at this time to warrant the expenditure in any one county of any great sum; also in the case of the Middlesex County road, the allotment will cover a road which is already two-thirds finished. In Somerset County the road has not yet been undertaken and further the Easton Turnpike will of necessity be carried directly through the centers of traffic in the municipalities of Bound Brook and New Brunswick, while the River Road in Middlesex

County will furnish a connection for Routes 1, 9, and 13, without in any way interfering with local traffic situations in either of these municipalities.

Rieglesville-Warren Glen Road

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that the amount of $2,000.00 as originally set up to cover inspection service rendered to Warren County on the Rieglesville-Warren Glen Road, be increased to the amount of $2,229.29, this later figure being the actual cost of the work.

Employments

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the following additions, changes, etc. as made by the State Highway Engineer in the employments since the last meeting of the Commission:

Employed

1-16-25	Sigmund J. Sadouski,	Senior Draftsman	$165.00 mo.
1-16-25	Matthew Korpi,	Eng. Draftsman	125.00
1-16-25	H. W. Clifford,	Rodman	75.00
1-26-25	L. F. Seale,	Title Searcher,	150.00
1-26-25	B. A. Ward,	" "	150.00
2-1-25	George P. Dunn,	Eng. Draftsman	135.00
1-20-25	D. Ellet,	Bridge Detailer	150.00
1-20-25	R. H. Schneider,	Asst. Civ. Eng.	165.00
1-16-25	Irvin W. Sanford,	Junior Engineer	125.00

Discontinued Employments

2-1-25	F. W. Grady,	Inspector	Laid Off
2-1-25	W. J. Fitzpatrick,	Jr. Insp.	" "
2-1-25	Wm. J. Hampton,	" "	" "
2-1-25	H. [illegible] Storer,	Hgwy."	" "
1-20-25	Thomas H. See,	Res. Eng.	Resigned
1-24-25	G. B. Krayer,	Rodman,	"

Federal Aid-General; Legislation

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that the letter from Mr. W. C. Markham concerning Federal Aid, with special reference to the Dowell Bill H. R. 4971, be referred to the Chairman for appropriate action, should any action be deemed necessary thereon.

Federal Aid-Route 2, Bordentown-Trenton

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved of project statement for Route 2, Trenton to Bordentown.

Phillipsburg-Belvidere, Section 1

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of an extension of time of 16 working days from November 10,

January 27, 1925.

to December 1, 1924, on the contract of Charles T. Kavanagh for the construction of the Phillipsburg-Belvidere Road, Section 1, Warren County, Federal Aid Project #43.

Township Aid-Bergen County

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission accepted the completed work on Crescent Avenue, Section 1, Franklin Township, Bergen County, Township Aid, and authorized final payment thereon.

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission accepted the completed work on Clinton Avenue and part of Railroad Avenue, Franklin Township, Bergen County, Township Aid, and authorized final payment thereon.

Passaic River Bridge.

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission accepted the completed work on the repair of the Passaic River Bridge, fenders, on Route 1 at M. P. 56.7 and authorized final payment thereon.

Right of Way-Camden Bridge Approach, Entrance Boulevard

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that the State Highway Engineer proceed with the obtaining of an additional appraisal on the property required for right of way on the Camden Bridge Approach Boulevard.

Material-Cement; 1925 Construction Program

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that the following item be included in the construction program for 1925:

> "The requirement for Portland cement on all State highway work shall conform with the standards as existing in the specifications, the Engineer reserving the right to request a minimum strength on seven days test of 250 pounds and for a twenty-eight day test 350 pounds; the contractor, before placing an order for cement, shall submit the name of the company and obtain approval thereof in writing from the State Highway Engineer.

On motion by Mr. Jelin, seconded by Mr. Kidde, the meeting adjourned at 7:00 P.M. to meet in regular session again on Tuesday, February 3, 1925, at 10:00 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - February 3, 1925.

A regular meeting of the State Highway Commission was held at the meeting rooms of the Commission, Broad Street Bank Building, Trenton, Tuesday, February 3, 1925. The meeting was called to order at 10:30 A.M. by Chairman Scott.

Present: General H. L. Scott, Chairman,
Messrs. Walter Kidde and Abraham Jelin.

Absent: Mr. Percy H. Stewart, on account of death in family.

Minutes

Commissioner Kidde advised that he was prepared to approve the minutes of a number of meetings and inquired whether approval could be given to the minutes of the meeting of December 17, 1924, which covered the meeting held in Jersey City. Chairman Scott suggested that there be no further approval of the minutes until Mr. Stewart could be present.

Right of Way-Route 1 Extension

State Highway Engineer Sloan informed the Commission that he had been in conference this morning with Mr. Hallett, Attorney for the Ault & Weiberg Company of Jersey City, an ink producing plant which is directly on the line of the viaduct in Jersey City, and Mr. Hallett had advised that his company has an investment representing $500,000 and would require at least ten months within which to make any change of location. The State Highway Engineer further informed the Commission that he had advised Mr. Hallett that the Commission was in no position to give definite information on this matter until it had been further investigated and Commissioner Jelin suggested that Commissioner Kidde and the State Highway Engineer make an investigation of the plant of Ault & Weiberg Company in order to be familiar with the situation when it comes before the Commission.

Crescent Boulevard, Camden

The Secretary informed the Commission that notices had gone out for a hearing to be given to all interested parties in the matter of the alignment of the proposed Crescent Route around Camden, as lying between the present State Highway Route 2 and the Entrance Boulevard to the new bridge in Camden, to be held at 2:00 P.M. this day.

February 3, 1925.

Traffic Studies-Phila. District

The Secretary presented a communication referred to the Commission by Governor Silzer, transmitting a letter received by him from Samuel F. Wetherill, Jr., Chairman of the Committee on Regional Plan for the Philadelphia Metropolitan District, in which request was made that the State of New Jersey cooperate, through its Highway Department, by making studies of highway traffic problems of the metropolitan area of Philadelphia insofar as it affects the highway system of New Jersey. State Highway Engineer Sloan informed the Commission that he was a member of this Committee and that he had expressed his opinion at the meeting that the problems should be approached coordinately by all the states in the vicinity, because it was his feeling that the free flow of traffic as between states was in direct proportion to the traffic lines which were available in the respective states. Commissioner Kidde stated that he believed the solution of traffic problems in the heaviest congested areas was to be accomplished in the same manner as recommended by the Advisory Board over a year ago, and that it should be recognized that the State Highway Commission of New Jersey was the pioneer in affecting a comprehensive solution of this traffic problem which is now being taken up by other states and municipalities. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication from the Governor was ordered accepted, he to be advised that New Jersey would be very glad to give what cooperation it can to the movement.

Invitations

The Secretary directed the attention of the Commission to the fact that the Commission had accepted invitations to attend a dinner at the Newark Athletic Club on Wednesday, February 4th at 6:00 P.M.

The Secretary presented an invitation received by the Commission from the Lakewood Progressive Club, inviting the Commission to be their guests at Lakewood on Wednesday evening, March 4th at 8:00 P.M. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that these communications be accepted on behalf of Chairman Scott and Commissioner Jelin.

Route 3, Realignment-Absecon

The Secretary presented resolutions from the Real Estate Board of Atlantic City and from the Atlantic City Kiwanis Club, urging the adoption of the proposed new right of way for Route 3 at Absecon, parallel with the West Jersey & Seashore Railroad. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered received and placed on file.

Proposed Routes

The Secretary presented a communication from Mr. Oberlin Smith of Bridgeton, New Jersey, suggesting the desirability of improving the road from Millville to Mays Landing for the convenience of tourists to Atlantic City. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that Mr. Smith be advised that the road is not a legislative route and there are no funds with which the Commission could undertake such a route at this time, and that his communication will be filed for future consideration.

Addresses-Major Sloan

State Highway Engineer Sloan advised that he had been requested by several luncheon clubs to make addressed at their noon meetings, and he had accepted these invitations and desired information as to whether the Commission looked with favor upon such practice. He was informed in the affirmative.

Right of Way-Route 2

The Secretary presented reports from Mr. F. [illegible] DeVoe, Assistant Attorney General, advising as to condemnation matters. In the case of Charles Heiser, the condemnation commissioners awarded $1500.00 as against the land owner's figure of $5000.00, and payment of the award was recommended. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission was awarded the payment of $1500.00 to Charles Heiser for property on Route 2, Bordentown-Trenton section.

Mr. DeVoe advised that the condemnation commissioners in the case of Patrick Martin on Route 2, had awarded the sum of $2250.00 for value of land and damages to the remainder, as against the land owner's request for $5500.00. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved the award as recommended.

Mr. DeVoe further advised that in connection with the property of Patrick Martin, there was a tenant on the Martin property who had a claim for a large crop of corn which was destroyed. He advised that the condemnation commissioners heard his testimony sitting as an Arbitration Board, and fixing the damages to George Blaszgn at $300.00 and he recommended that this claim be allowed by the Commission. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that this claim be taken up with the Attorney General's Department to ascertain whether or not the damages as paid to the land owner would not cover the damage of the tenant.

The Schedule of Business was next taken up, item by item as follows, with the recommendations of the State Highway Engineer.

Route 2, Section 4-A.

Plans and specifications were reported completed for Route 2, Section 4-A, Burlington Cut-off paving, and on motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

> RESOLVED that the State Highway Commission does hereby approve of plans and specifications for the paving of Route 2, Section 4-A, Burlington Cut-off, and
>
> BE IT FURTHER RESOLVED that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer, and the Chief Clerk is directed to make necessary advertisement for same.

Route 4, Section 27.

Plans and specifications were reported completed for Route 4, Section 27, Cedar Creek-Forked River section, and on motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route 4, Section 27, Cedar Creek-Forked River section, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the Secretary is directed to make necessary advertisement for the same.

Route 4, Section 28.

Plans and specifications were reported completed for Route 4, Section 28, Waretown-Barnegat section, and on motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route 4, Section 28, Waretown-Barnegat section, and

February 3, 1925.

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the Secretary is directed to make the necessary advertisement for the same.

Trolley tracks-
Route 11, Section 10, Nutley.

There was presented a report from the Construction Engineer concerning the moving of the tracks of the Public Service Corporation on Route 11, Section 10, Washington Avenue, Nutley, in order to permit the proper improvement of this route. In this connection, it was indicated that in the section between the Nutley-Belleville Line and the center of the street in Nutley, there is involved the removal of the tracks of the Public Service Railway Corporation from the side to the center of the highway, and also the entire reconstruction of special track work leading to the "big tree" car house at Nutley. Negotiations have been entered into with the railroad corporation whereby they will agree to pay for the cost of the relocation of the straight tracks in an amount estimated at $12,547.00 provided the State Highway Commission will finance the corporation for this work over a period of three years at an annual rate of interest of 4½ percent, and without any contributions on the part of the corporation toward the cost of paving the area to be occupied by the new tracks. As to the relocation of special work leading into the car house, the Public Service Railway Corporation feels that this is special work and all the present special work must be discarded in any connections procured, which they believe should be at the expense of the State. Commissioner Kidde stated that he did not believe the Commission should be liable for the special work since all curved tracks are subject to being removed and changed after a very short period of life in any event. Commissioner Jeli[illegible] stated that he did not feel that the Commission should pay for more than the labor on any of the special work since it would be entirely favorable for the corporation to use the curve tracks and material for other locations, and he moved that the Commission approve the plan for financing the railway corporation as to the straight tracks but that further negotiations be entered into with the Public Service Railway Corporation looking toward the State assuming the responsibility for labor costs only on special track work and not for any new material that might go into the project. This was seconded by Mr. Kidde and adopted.

February 3, 1925.

Trolley tracks-
Route 5, Section 15.

There was presented a report from the Construction Division, advising of negotiations with the Public Service Railway Corporation for the relocation of the tracks to the center of the highway on Route 5, Section 15, between Irvington town line and Milburn Avenue in Maplewood, whereby the railway corporation is willing to furnish and install new track material at an estimated cost of $90,319.00 providing the State will finance the corporation over a period of three years with interest at the rate of 4½ percent. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of an agreement being formed along the lines of this recommendation and that the Chairman be authorized to execute the same on behalf of the State Highway Commission.

Route 17-General.

There was presented a report from the Construction Division advising of a study made of Route 17 between the Meadow Road in Rutherford and to the intersection with Route [illegible] at Essex Street in Hackensack; also transmitting comparative estimates on the basis for a new alignment in the amount of $1,111,[illegible].00 and for reconstructing on the present alignment at $1,502,[illegible].00. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that a copy of this report be forwarded to the Bergen County authorities with the request that at the time of the hearing with the State Highway Commission on Tuesday next, they be prepared to discuss this proposition with the Commission.

Abandonment-Routes Nos. 12, 4 & 5.

There were presented a number of portions of sections of State Highway, which, due to realignments on new construction, must be abandoned by the State, and on motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission unanimously adopted the following resolutions for the abandonment of portions of sections of State Highway Routes:

> WHEREAS, the State Highway Commission has heretofore taken over as a State highway, in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 12 from Paterson to Phillipsburg, by way of Little Falls, Pine Brook, Parsippany, Denville;

February 5, 1925.

thence over Route 5 to Budd Lake: thence to Washington and Broadway, and

WHEREAS, in the construction and improvement of the said State Highway Route 12, Section 2, from Denville to Parsippany, it has been found desirable to relocate certain portions of the said route for the purpose of betterment of alignment, grades, etc. and

WHEREAS, upon the construction of the said route and section on the revised line, there remain certain portions heretofore used as a part of the road before improvement which are no longer needed as a part of the improved State Highway;

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portions of State Highway Route 12, Section 2, as hereinafter described, be and the same are hereby abandoned as a part of the said State Highway Route 2, Section 2, and vacated in accordance with the provisions of Chapters 14 and 15 of the Laws of 1917 and the amendment thereto in Chapter 236, Laws of 1919.

Portion No. 1:

Beginning at a point on the center line of the road as taken over between Route 5 and Pine Brook, said point being thirty-three (33) feet from the center line of the new road as constructed, opposite Station 37 plus 58 more or less: thence (1) in a southerly direction a distance of four hundred forty (440) feet more or less to a point: thence (2) still in a southerly direction a distance of one hundred twenty-three (123) feet more or less to a point; thence (3) curving to the left a distance of one hundred seventy-seven (177) feet more or less to a point; thence (4) in an easterly direction a distance of one hundred three (103) feet more or less to a point; thence (5) still in an easterly direction a distance of eighty (80) feet more or less to a point: thence (6) curving to the right a distance of one hundred nineteen (119) feet more or less to a point: thence (7) in an easterly direction a distance of one hundred five (105) feet more or less to a point on the center line as taken over, said point being thirty-three (33) feet from the center line of the new road as constructed opposite Station 47 plus 52 more or less.

Portion No. 2:

Beginning at a point on the center line of the road, as taken over between Route 5 and Pine Brook, said point being thirty-three (33) feet from the center line of the new road as constructed opposite Station 106 plus 30 more or less: thence (1) in a southeasterly direction a distance of ninety-five (95) feet more or less to a point; thence (2) still in a southeasterly direction a distance of one hundred eighty-two (182) feet more or less to a point; thence (3) still in a southeasterly direction a distance of one hundred three (103) feet more or less to a point: thence (4) curving to the left a distance of three hundred forty (340) feet more or less to a point; thence (5) in an easterly direction a distance of eight hundred forty-five (845) feet more or less to a point, said point being thirty-three (33) feet from the center line of the new road as constructed opposite Station 121 plus 57 more or less.

BE IT FURTHER RESOLVED that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Morris County, the governing body having jurisdiction over the road at the time of its being taken over as a State highway;

It being the intention of the State Highway Commission to abandon and vacate that portion of the old road as taken over January 15, 1920, lying outside the limits of the acquired right of way of the new road as constructed between Station 37 plus 58 and 47 plus 92, and between Stations 106 plus 30 and 121 plus 37, as shown on plans on file in the offices of the said State Highway Commission at Trenton, N. J.

- - - - - - -

WHEREAS, the State Highway Commission has heretofore taken over as a State highway, in accordance with the provisions of Chapter 14 of the laws of 1917, a certain road or roads known as State Highway Route 4, from a point on Route 1 in or near Rahway to Absecon, by way of Perth Amboy, Keyport, Middletown, Red Bank, Long Branch, Asbury Park, Point Pleasant, Lakewood, Toms River, Tuckerton and New Gretna, and

WHEREAS, in the construction and improvement of the said State Highway Route 4, Section 8, from Absecon to Smithville, it has been found desirable to relocate a certain portion of the said route for the purpose of betterment of the alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there is a certain portion heretofore used as a part of the road before improvement which is no longer needed as a part of the improved State highway;

NOW, THEREFORE, BE IT RESOLVED, by the State Highway Commission of the State of New Jersey, that the certain portion of State Highway Route 4, Section 8, as hereinafter described be and the same is hereby abandoned as a part of the State Highway Route 4, Section 8, and vacated in accordance with the provisions of Chapters 14 and 15 of the Laws of 1917, and the amendment thereto in Chapter 220, Laws of 1919.

Beginning at a point in the center line of the old road as taken over, said point being in the northwesterly right of way line and opposite Station 67 plus 0 more or less, of the new road as constructed; thence (1) along the center line of the old road in a northerly direction a distance of eight hundred eighty-three (883) feet more or less to a point; thence (2) still along the center line of the old road in a northeasterly direction a distance of six hundred seventy-five (675) feet more or less to a point, said point being in the northwesterly right of way line and opposite Station 103 plus 05 more or less of the new road as constructed;

It being the intention of the State Highway Commission to abandon and vacate all that portion of the old road as taken over May 1, 1920, lying outside the limits of the acquired right of way of the new road as constructed between Station 103 plus 05 more or less as shown on plans on file in the offices of the said State Highway Commission at Trenton, N. J., and

BE IT FURTHER RESOLVED that a notice of this vacation be sent to the Board of Chosen Freeholders of Atlantic County, the governing body having jurisdiction over the road at the time of its being taken over as a State highway.

- - - - -

WHEREAS, the State Highway Commission has heretofore taken over as a State highway in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 5 from Newark to the bridge crossing over the Delaware River about two miles above delaware, by way of Morristown, Dover, Netcong, Budd Lake, Hackettstown, Butzville and Delaware, and

February 3, 1925.

WHEREAS, in the construction and improvement of the said State Highway Route 5, Section 9, from Barkers Corner to Musconetcong River, it has been found desirable to relocate a certain portion of the said Route for the purpose of betterment of the alignment, grade, etc., and

WHEREAS, upon the construction of the said Route and section of the revised line, there are portions heretofore used as a part of the road before improvement which are no longer needed as a part of the improved State highway;

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portionsof State Highway Route 5, Section 9, as hereinafter described, be and the same are hereby abandoned as a part of the State Highway Route 5, Section 9, and vacated in accordance with the provisions of Chapters 14 and 15 of the Laws of 1917 and the amendment thereto in Chapter 226, Laws of 1919.

Portion No. 1:

Beginning at a point in the center line of the old road between Barkers Corner and the Morris Canal where the said center line is intersected by the new southerly right of way line of Route5, Section 9, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the said State Highway at Station 9 plus 85 more or less: thence (1) in a southerly direction along the center line of the old road a distance of one hundred ninety-eight (198) feet more or less to a point; thence (2) curving to the left a distance of one hundred eight (108) feet more or less to a point; thence (3) still curving to the left a distance of five hundred nine (509) feet more or less to a point; thence (4) still curving to the left a distance of one hundred five (105) feet more or less to a point: thence (5) in a northeasterly direction a distance of one hundred eighteen (118) feet more or less to a point in the new southerly right of way line of Route 5, Section 9, said point being measured thirty-three (33) feet normally from the center line of said State highway at about Station 19 plus 32.

Portion No. 2:

Beginning at a point on the center line of the old road, where the same intersects the new northerly right of way line of Route 5, Section 9, said point being measured thirty-three (33) feet normally from the center line of Route 5, Section 9 at about Station 20 plus 94; thence (1) in a northerly direction a distance of one hundred sixteen (116) feet more or less to a point; thence (2) curving to the right a distance of one hundred forty-six (146) feet more or less to a point; thence (3) in an easterly direction a distance of one hundred seventy-one (171) feet more or less to a point in the new northerly right of way line of Route 5, Section 9, said point being measured thirty-three (33) feet normally from the center line of the said State highway at about Station 25 plus 04 more or less.

Portion No. 3:

Beginning at a point in the new northerly right of way line of Route 5, Section 9, said point being measured thirty-three (33) feet normally from the center line of said State highway at about Station 36 plus 40; thence (1) in a northeasterly direction a distance of ninety (90) feet more or less to a point; thence (2) curving to the right a distance of one hundred forty-three (143) feet more or less to a point; thence (3) still curving to the right for a distance of nine hundred fifty-nine (959) feet more or less to a point in the said northerly right of way of Route 5, Section 9, said point being measured thirty-three (33) feet normally from the center line of the said State highway at about Station 47 plus 53 more or less.

February 3, 1925.

Portion No. 4:

Beginning at a point in the new southerly right of way line of Route 5, Section 9, said point being measured thirty-three (33) feet normally from the center line of said State highway at about Station 53 plus 78; thence (1) in a southeasterly direction a distance of two hundred eighty-eight (288) feet more or less to a point; thence (2) curving to the left a distance of one hundred thirty-two (132) feet more or less to a point; thence (3) in a northeasterly direction a distance of one hundred thirty (130) feet more or less to a point; thence (4) still in a northeasterly direction a distance of four hundred eighty-five (485) feet more or less to a point in the new southerly right of way line of Route 5, Section 9, said point being measured thirty-three (33) feet normally from the center line of the said State highway at about Station 62 plus 89.

Portion No. 5:

Beginning at a point in the new southerly right of way line of Route 5, Section 9, said point being measured thirty-three (33) feet normally from the center line of the said State Highway at about Station 84 plus 21; thence (1) in an easterly direction a distance of twenty-six (26) feet more or less to a point; thence (2) still in an easterly direction a distance of three hundred seventy-six (376) feet more or less to a point; thence (3) still in an easterly direction a distance of nine hundred (900) feet more or less to a point; thence (4) still in an easterly direction a distance of two hundred thirty (230) feet more or less to a point in the new southerly right of way line of Route 5, Section 9, said point being measured thirty-three (33) feet normally from the center line of the said State highway at about Station 99 plus 93.

BE IT FURTHER RESOLVED, that a notice of this vacation be forwarded to the Board of Chosen Freeholders of the County of Warren, the governing body having jurisdiction over the road at the time of its being taken over as a State highway;

It being the intention of the State Highway Commission to abandon and vacate those portions of the old road between Barkers Corner and Morris Canal as taken over January 15, 1920, lying outside of the limits of the right of way of the new road as constructed between Station 9 plus 85 more or less and Station 99 plus 93 more or less, as shown on plans on file in the offices of the State Highway Commission at Trenton, N. J.

- - - - -

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway, in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 12 from Paterson to Phillipsburg, by way of Little Falls, Pine Brook, Parsippany, Denville; thence to Washington and Broadway, and

WHEREAS, in the construction and improvement of the State Highway Route 12, Section 1, from Parsippany to Pine Brook, it has been found desirable to relocate a certain portion of the said route for the purpose of betterment of the alignment and grade, etc., and

WHEREAS, upon the construction of the said route and section on the revised line, there remains certain portions heretofore used as a part of the road before improvement which are no longer needed as a part of the improved State highway;

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portions of State Highway Route 12, Section 1, as hereinafter described, be and the same are hereby abandoned as a part of said State Highway Route 12, Section 1,

February 5, 1925.

and vacated in accordance with the provisions contained in Chapters 14 and 15 of the Laws of 1917 and the amendments thereto in Chapter 220, Laws of 1919.

Beginning at a point in the center line of the old road as taken over, said point being thirty-three (33) feet from the center line of the new road as constructed opposite Station 224 plus 48 more or less; thence (1) in an easterly direction for a distance of two hundred (200) feet more or less to a point; thence (2) curving to the left a distance of one hundred sixty (160) feet more or less to a point; thence (3) in a northerly direction a distance of one hundred thirty-six (136) feet more or less to a point, said point being thirty-three (33) feet from the center line of the new road as constructed and opposite Station 229 plus 06 more or less.

BE IT FURTHER RESOLVED, that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Morris County, the governing body having jurisdiction over the road at the time of its being taken over as a State highway;

It being the intention of the State Highway Commission to abandon and vacate that portion of the old road as taken over January 15, 1920, lying outside the limits of the acquired right of way of the new road as constructed between Station 224 plus 48 and Station 229 plus 06 more or less as shown on plan on file in the offices of the said State Highway Commission at Trenton, N. J.

Route 16-General.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the adoption of the following resolution for the taking over of a portion of Route 16 in the Township of Bernards:

WHEREAS, under the provisions of Article 3, Chapter 14, Laws of 1917, the State Highway Commission may, by resolution, take over as a State Highway, any route, routes or part thereof, of those highways designated by the Act to be taken over as State highways;

NOW, THEREFORE, BE IT RESOLVED, that the following described road or parts thereof, be and the same are hereby taken over as a part of the State Highway Route 16 according to the Statute in such case, made and provided, viz:

Beginning at a point on the center line of the Madisonville Road at Blaziers Corner, said point being Station 36 plus 54 more or less on the new road as constructed; thence, along the center line of the said Madisonville Road North sixty-six degrees, two minutes and thirty seconds East (N 66° 02' 30" E) a distance of one thousand sixteen (1016) feet more or less to a point, said point being Station 46 plus 70 more or less on the new road as constructed;

RESOLVED FURTHER, that the proper authorities of the Township of Bernards be notified by the Secretary of this Commission of such action and that from and after the date hereof the said road will constitute part of State Highway Route 16, and that this Commission will be responsible for the improvement and maintenance of the road described above.

BE IT FURTHER RESOLVED that the Township of Bernards be requested to file with the State Highway Department within thirty (30) days of the date thereof, any agreements or copies of franchises they may have with any public utilities or any other company, firm and individual, or corporation effecting the construction, maintenance or use of the above described road.

February 3, 1925.

Amboy Bridge-New

The State Highway Engineer presented a communication from Mr. Thomas F. Hylan of the firm of Blackall & Baldwin Company, who had gone over the plans and specifications for the proposed electrical installations for the Perth Amboy Bridge and Mr. Hylan advised that he believed that the revision as made is a great improvement over the original design, and he stated that a saving might have been affected if the electrical work had been given out as one item to one contractor instead of being subdivided with the general contractor's work on the bridge. State Highway Engineer Sloan informed the Commission that the general contractor assumed responsibility for the complete structure rather than have responsibility among several contractors, and he recommended that the Commission approve the proposed change for the electrical system and transformers as presented at the last meeting, involving an additional expense of $12,750.00. Commissioner Kidde stated that he believed the proposed work should be checked over by someone familiar with the electrical costs, and he suggested that he would be willing to have Mr. Worth of his New York organization go over this for this purpose. On motion by Mr Jelin, seconded by Mr. Kidde, the letter from Mr. Hylan was ordered received and placed on file and the estimate of cost of the electrical installations was ordered referred to Commissioner Kidde for further report.

Employments

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved of the following additions and changes as made in the employments by the State Highway Engineer since the last meeting of the Commission:

Employed

1-16-25	Robt. E. Simon,	Junior Engineer	$125.00 per mo.
1-26-25	Wm. J. Jurley,	Rodman,	90.00
2-2-25	I. E. Campbell,	Junior Insp.	135.00
2-1-25	C. H. Harrison,	Asst. civil Eng.	150.00
1-27-25	Abe Jaffey,	Garage Assistant	.45 per hr.
1-29-25	Samuel J. Insull,	Mechanic	.65

Discontinued Employments

2-1-25	Jarrett S. Gennett,	Highway Inspector,	Laid Off.
2-15-25	John M. Rogers,	Rodman,	Leave of Absence.

February 6, 1925.

Maintenance Materials-
Mercer County Repairs.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the specifications for supplying patching material for cold application on Mercer County roads and also approved of the award by Mercer County to Theodore Tobish, the low bidder at $9,940.00.

Extension of Time-
Bridgeton-Port Norris Road, Sec. 1

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved an extension of time to October 15, 1924, on the Bridgeton-Port Norris Road, Section 1, Cumberland County, known as Federal Aid Project No. 36.

Main St., Matawan

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of plans and specifications for the Matawan-Freneau Road, known as Main Street, Matawan, Monmouth County, Motor Vehicle Aid work.

Phillipsburg-Belvidere Road,
Section 1.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment on the Phillipsburg-Belvidere Road, Section 1, Warren County, Federal Aid Project No. 4, said work having been accepted by the Board of Freeholders of Warren County.

Conventions-A.H.O.N.A.S.

The Secretary informed the Commission that the Convention of the North Atlantic States Association was to be held on the 25th, 26th and 27th of February and that Tuesday the 24th would be a day on which preparations would have to be made, and he suggested that the Commission, if possible, arrange for a meeting to be held in Atlantic City during the time the Commission will be in attendance at the Convention. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that a meeting for the week of February 23d be held in Atlantic City at Haddon Hall, on Thursday, February 26th at 2:00 P.M. and that any representatives from the southern tier of counties who desire to be heard may be heard at that time.

February 3, 1925.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission recessed for luncheon at 1:00 P.M. to meet again in regular session at 2:00 P.M. when a hearing was to be given to the interested parties on the Crescent Route in Camden. The meeting was resumed at 2:00 P.M. as agreed, with the same members present as at the morning session.

Crescent Route-Camden

There were present about 75 representatives of the Borough of Merchantville, Township of Pensauken and the County of Camden. In addition, there was present Senator Woodruff of Camden County. Chairman Scott greeted the delegation on behalf of the Commission and asked that the speakers be introduced in proper order.

Mr. A. E. Burling, President of the Board of Trade of Pensauken Township, was the first to speak and he reviewed for the Commission the various interests as far as the Borough of Merchantville and the Township of Pensauken were concerned, in the Crescent Route. He advised that upon learning of the destruction which would be wrought by the Advisory Board line, if it was carried as originally laid out, the two municipalities had selected Mr. Remington as Engineer to study the situation and be ready to present an alternative route which might be constructive, and present it to the Commission in order that it might take the place of the Advisory Board line. This resulted in the laying out of a route known as the Sorrel Horse Road, which commences a little further east than the Advisory Board line on Route 2 and carries along to the intersection of the Moorestown Pike, and then makes for the Rondpoint of the Boulevard with but a slight curve in order to keep on the highest ground possible. He informed the Commission that this line would solve the situation by keeping the congestion of traffic away from the municipalities of Merchantville and Pensauken, and at the same time would give the proper traffic facilities to the people coming South and who do not desire to hit Camden City. He called on Mr. Remington to explain this project.

Mr. Remington presented for the view of the Commission a large wall map on which was laid out in yellow their proposed line; the Advisory Board line was laid out in red and a compromise line as recently brought fourth by the Engineer of the Highway Commission was indicated in blue and designated as the Blue Route. Mr. Remington explained very thoroughly the advantages of the Sorrel Horse line and spoke from experience gleaned through the fact that he has been a resident of this particular locality practically all his life. He stated that the Sorrel Horse Road was a 66 foot road in width, and there are no improvements at the present time which would involve any great cost for right of way. He also called attention to the fact that it was a road on which main highway traffic passes through Camden and the southern part of the State would be fed, the most important of these routes being Chapel Avenue, Moorestown Pike, Church Road and Marlton Pike.

The next speaker was Mr. Rudderow, Freeholder of Camden County, representing Merchantville, who spoke at length as to the advantages of the line as suggested by Mr. Remington. He stated that the Advisory Board line proposed to use the Browning Road for the greatest part as the Crescent Route, and he stressed the fact that the Browning Road, at the present time, was already greatly congested at week ends, and even though it would be widened he did not see that there was any advantage in bringing extra traffic into an already congested area. He stated that a road such as planned by Mr. Remington would give relief to all this section of his county and would serve as an outlet for traffic from all intersecting roads which he outlined and indicated on the map in the same manner as was done by Mr. Remington.

Mayor Homan of Merchantville spoke next and he stated that he believed there were three factors involved in this situation; first, the diverting of traffic from congested centers; second, the conservation of property values as much as possible; and third, the cost of construction; and in this connection he stated that the Advisory Board line did not divert traffic from the congested points but was apparently designed with a view toward getting as close to Camden as possible, which he did not feel would be a desirable thing in years to come. As to the conservation of property, he protested against the Advisory Board line coming through the most valuable property and the best residential sections of Merchantville and Pensauken, and hr urged the Sorrel Horse Route as an alternative to give such relief. As to the cost, he stated that he believed that the extra length of the Sorrel Horse Route, which was about one-quarter of a mile, would more than offset the cost of the Advisory Board line, due to the fact that the latter line destroyed very valuable property while the Sorrel Horse line is through an unimproved country.

Charles J. Maxwell, a resident of Merchantville and a property owner of Pensauken, requested permission to address the Commission as an individual, and stated that he was very strongly interested with 25 other gentlemen in securing the passage of legislation looking toward the new bridge and he was pleased with the work of the State Highway Commission in appointing an Advisory Board for further study of the traffic situation. He stated that this was the first time he had seen the Blue Route as laid out on the map, and if it was acceptable to the State Highway Commission, he believed it would be a desirable one. He advanced the information that there are a number of prominent men interested in a development known as the "Colwick" which was on the line of the Sorrel Horse Road, and for that reason they were urging this improvement. He mentioned the name of Senator Woodruff in this connection as being one of the stockholders in this company.

The next speaker was Mr. H. S. Bottomley, a member of the Borough Council of Merchantville, who spoke at length, and he stated that there is hardly a citizen who is not opposed to the Advisory Board line because of the fact that it will introduce another stream of traffic into an already congested area. He urged the Commission not to consider the matter of property ownership because no matter what line would be taken there is no question but that people may own property along the line and it is not one that should be brought into the question.

The next speaker was Mr. Edward Ormsby, Sewer Inspector of Pensauken Township, and also a real estate agent, who deprecated the fact that the interested parties on the Sorrel Horse Road were interested from selfish motives, in that they owned property along the road and it would be to their personal advantage. He stated that he believed the Commission should carry their road as outlined by the Advisory Board, with any changes if it was felt desirable to eliminate traffic, and that the people of the State would look to the Highway Commission to treat the problem in a broad way rather than from a local angle. He stated that as far as the people in the Borough of Pensauken were concerned a proper opportunity was not given for their expression. This statement was rebutted by the President of the Board of Trade who advised that there were expressions taken from the people of Pensauken, the people of Merchantville and the presiding officers of those municipalities, in order to obtain a fair decision as to their opinion on the route.

In addition to the foregoing, opposition was expressed to the Advisory Board route and favorableness to the Sorrel Horse Road by T. H. Strain of Pensauken Township, and again by Mr. Bottomley and Mr. Rudderow, after whom Senator Woodruff took the floor and at the outset explained that he was only one of thirty interested in a development which was started long before the employment by Pensauken Township and Borough of Merchantville of an Engineer to study the situation, and therefore, there were no no modifications to influence the laying out of the road in this connection with this company. He further stated that the accusations as made were by real estate agents, who had secured options on property on both the Sorrel Horse Road and the Advisory Board route and they were desirous of influencing the Commission in one way or another. He told the Commission the traffic needs of his County, and that he believed that the plan as laid down by Mr. Remington was a good one, although he had not had sufficient time to investigate the Blue Line as presented by the Highway Commission. He informed the Commission that he believed that the best interests of the locality and of the State would be served by the laying out of a route further afield than the Advisory Board line, since it would then carry through traffic from North to South Jersey without having to pass through congested centers. He stated that in his opinion when assistance was given the State Highway Commission by the Senate in proceeding to lay out the Advisory Board routes, that it was with the understanding that there would be a relief to congestion in the Camden district, and he believed that it would be a breaking of faith if the Commission would adopt any line too close to the City of Camden.

February 3, 1925.

Commissioner Jelin inquired as to the figures of Engineer Remington in the cost of the highway. Mr. Remington informed the Commission as to how he had arrived at these figures, and stated they are considered as the highest price that would have to be paid and that in many cases a clear title would be given free of cost to the State.

Mr. Allen Stewart also spoke in favor of the Sorrel Horse Road, as did Mr. A. E. Chapman, who represented the governing body of Pensauken. Mr. Chapman asked an opportunity to study the proposed Blue Route line if it was possible, and asked that a copy of the map be forwarded to his Township Committee.

Mr. Antrum, a member of the Council of Merchantville, stated that he did not believe that the plan would be solved by going closer to the congested area in Camden.

Edward Solman, a real estate operator living in Pensauken, stated that he believed that the widening of the main highway through Pensauken would relieve all the traffic congestion, and especially if the Blue Route did not destroy houses it would be an opportunity to secure a highway on which there could be a large development which would bring valuations into Pensauken Township, and would be to the advantage of the people living there.

Chairman Scott then invited Major Sloan to speak on the various plans as outlined. He explained that the Commission must, of necessity under the law, go between points in the shortest distance practicable, and also it was the feeling of the Advisory Board that the line should come as close to Camden as possible, in view of the fact that the legislation as originally enacted called for the continuation of Routes #2, #5 and [illegible] through the City of Camden to the Bridge plaza. He stated that the local people should not confuse local traffic with through traffic, and if the Crescent Route was built it would be for taking care of through traffic, while the local municipalities and county [illegible] arrange for any [illegible] would be needed. He placed before the body, comparisons of figures and distances. He showed that the [illegible] line was a distance of [illegible] feet, the Advisory Board Route 38,942 feet, and the Sorrel Horse Road

40,758 feet, which is some three-quarters of a mile longer than the Blue Line as now laid out. As to the cost, he informed them that the Blue Line would be much more reasonable and would necessitate the taking of not exceeding six houses in its whole route.

Following this, Chairman Scott expressed appreciation for the opinions as expressed, and Mr. Burling thanked the Commission for their courtesy toward the delegation. The hearing concluded at 5:00 P.M.

In this connection, the Secretary presented to the Commission communications received as follows:

From Judge R. R. Donges of Camden, favoring the Sorrel Horse Route instead of the Advisory Board Route.

From the Columbus Land Company, offering to the Commission the use of extra width of Columbus Center in Pensauken Township, owned by the Columbus Land Company, in the event the Commission desires to construct the Crescent Route through that section.

From Charles S. Ball, making complaint against the destruction of his home and that of neighbors in Merchantville since he must of necessity reside there and it would be impossible for him to find another home suitable.

From the Secretary of the Board of Trade of Pensauken Township, transmitting a copy of the resolution as adopted by the Board of Trade for a change in the present route of the Crescent Boulevard to the following line:

> "Beginning on Browning Road where Kaighn's Avenue crosses it; then, a slight curve to avoid the Calvary Cemetery on Hampton Road; thence, across unimproved farm land and strike Moorestown Pike at its intersection at Haddonfield Road; thence, to Burlington Pike."

Motor Vehicle Aid-1925.

The regular meeting of the Commission was then resumed and the Commission discusses with Chief Auditor Howell the matter of Motor Vehicle funds available for reconstruction work in 1925. Mr. Howell presented a proposed set-up of Motor Vehicle funds for the year 1925, using as an estimate the sum of $10,000,000.00 as Motor Vehicle receipts for the year. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the set up of $10,000,000.00 in accordance with a report submitted by the Accounting Division dated

December 11, 1924, said arrangement to be subject to change at the direction of the Commission at any later date. Commissioner Kidde suggested that if possible some arrangements be made to consider the adoption of some sort of secondary system of highways and that a meeting be arranged with the County Engineers, looking toward this end at some date in the future.

Commissioner Kidde also suggested that the requests as submitted for Motor Vehicle Aid from the Counties as reconstruction, be put in shape for consideration at the next meeting.

Reappointments- Mr. Stewart and General Scott

The Secretary informed the Commission that the State Senate had, this day, confirmed Chairman Scott and Mr. Stewart for a new term of four years, beginning at the expiration of their old term of service.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was adjourned at 5:45 P.M. to meet in regular session again on Tuesday, February 10, 1925, at 10:30 A. M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - February 10, 1925.

A regular meeting of the State Highway Commission was held at the meeting rooms of the Commission, Broad Street Bank Building, Trenton, Tuesday, February 10, 1925. The meeting was called to order at 10:30 A. M. by Chairman Scott.

Present: General H. L. Scott, Chairman; Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Amboy Bridge-New

The Secretary presented a communication from Stillman, Delehanty, Ferris Company, making a request for a hearing on their contract for the Amboy Bridge. On motion by Mr. Jelin, seconded by Mr. Stewart, this matter was ordered held for consideration at the next meeting.

Sussex-Port Jervis Road.

The Secretary presented a communication received by Commissioner Jelin from Mr. Felix Fuld of the High Point Park Commission, requesting an opportunity to be heard before any definite action is taken relative to postponing the improvement of the road leading to High Point Park. In this connection, the Secretary read a communication received by State Highway Engineer Sloan from Mr. S. F. Quince, Freeholder of Sussex County, advising the Commission that the Sussex County Board of Freeholders have not taken any action on the High Point Project since May 1st, 1924, nor have they authorized anyone to appear before the Commission on this matter. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the Board of Freeholders of Sussex County be invited to appear before the State Highway Commission at the next meeting in order to discuss the County Road Program and the High Point Project.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that Mr. Fuld be advised concerning the hearing to be granted Sussex County, and that the High Point Park Commission be invited to send representatives to this meeting.

Trolley Tracks-
Route 11, Section 10, Nutley

The Secretary reported that Mr. Martin White, Superintendent of the Public Service Railway Company, was present in order to discuss with the Commission the negotiations for the moving of tracks on Route 11, Section 10, Washington Avenue, Nutley. On motion, duly seconded, a hearing was granted. Mr. White appeared and stated that his company was not willing to spend the sum of $8,500.00 for special track work made necessary on Route 11, Section 10, because after the removal of the existing tracks the company would not be able to make use of them elsewhere. He also stated that his company was willing to move and place new straight rails along this section, but in view of the fact that the company would be in a better condition if the tracks were left as at present, they could not see their way clear to pay any part of the cost of the special track work. Commissioner Kidde stated that it has always been the policy, where the highways are improved on which there are trolleys, to have the trolley companies remove the rails to a different location at their own expense, and it would be establishing a bad precedent, even in the case of the special track work, to do otherwise. He also advised that the major part of the life of the special track work was used, and it would be necessary, in the event the Commission desired to permit the tracks to remain as at present, that the company, in the course of two or three years, remove these tracks at a greater expense than at the present time. He further stated to Mr. White that the Commission would be willing to finance the Public Service Railway Company in the sum of $8,500.00 in a similar manner for the straight track work [illegible], three years at four and one-half percent, the State to pay [illegible] labor and installation costs on the special track work provided the Public Service Corporation would furnish all the material required for construction of this job. Mr. White informed the Commission that he was not authorized to make any negotiations other than as stated, but that he would take matter up with his company at once.

Somers Point-Ocean City Road

The Secretary informed the Commission that a hearing had been requested by a delegation from Ocean City with reference to the paving of the road from Somers Point to Ocean City as taken over by the State when the Somers Point toll bridge was acquired. On motion, duly seconded, a hearing was granted. There appeared Assemblymen Reed of Cape May County, together with Mr. Luvinger, Mr. [illegible] and Mr. Felty. Mr. Reed addressed the Commission and stated that the delegation was present to inquire whether the Commission would consider hard surfacing this road, which is owned by the State, and would be of great value to traffic to Ocean City in the summer time, and would also act as a gateway to Cape May County. Mr. Lanning, Mr. Felty and Mr. Buvinger all addressed the Commission along this same line.

Chairman Scott informed the delegation that the Commission had, in response to the request of Ocean City, in the last year, authorized a surface treatment on this road with slow curing oil and it would of necessity take several treatments of this oil before an entirely satisfactory condition can be expected. He inquired whether there was any advantage in the road at present as over the plain gravel road, and he was informed in the affirmative.

Commissioner Stewart called attention to the very fine results obtained from this slow curing oil in Long Island, and he suggested that before any action is taken by the Commission this experiment should be given every opportunity to prove itself.

Route 17-General.

The Secretary reported that a hearing had been requested by the Board of Freeholders of Bergen County with reference to Bergen County Highways, and advised that Mr. McClave, County Engineer, Mr. Bogart of the Board of Freeholders, and Mr. Gorham, Chairman of the Committee of Public Works, were present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. McClave informed the Commission that it was their purpose to discuss the matter of taking over the remaining portion of Route 17. He advised that he reviewed the action of the State Highway Commission in holding a hearing in Bergen County and taking over that section from Hackensack to the New York State Line, and he inquired as to whether it would be possible for the Commission to take over that section from Hackensack to North Arlington. He stated that he had received information from the State Highway Engineer to the effect that it was proposed to change the alignment of that section of the road in Rutherford and East Rutherford and he stated that the County was satisfied with the change in alignment between Hackensack and Rutherford if the Commission could see its way clear to finance its construction. Mr. McClave stated that otherwise the County would prefer to have the present alignment of Route 17 adhered to as closely as possible in order that it might save the

County the cost of maintenance when the road is taken over.

Commissioner Kidde stated that it was his feeling that if the County of Bergen would cooperate there might be some work done on this project in the coming year, it being his feeling that the road could be constructed by the State and County, and after it was finished it could be taken over as part of the State Highway System.

State Highway Engineer Sloan informed the Commission that estimates of cost of the improvement of the road between Hackensack and North Arlington, by way of realignment between Hackensack and Rutherford, were $1,000,000.00 including right of way, while following the existing road the cost would be $1,450,000.00. He estimated the cost of the right of way damages to be on the new line at $200,000.00.

Mr. Bogart informed the Commission that he believed this was one of the most important arteries in the entire State and will give an outlet from Bergen County to the City of Newark which is very much needed. He stated that the County was perfectly willing to cooperate on any proposition that the State might make.

Commissioner Stewart stated that he believed it would be a part of wisdom for the State and County to get together and provide the rights of way at once in order that when the road improvement is made, the cost of right of way will not be prohibitive.

Mr. Jelin offered the suggestion that the County of Bergen at its own expense provide the right of way for the new alignment of Route 17, and that the State Highway Commission arrange a three year program for the building of the road, at the same time taking over and maintaining those parts that are not included in the construction, and thereby the County would be saved the cost of maintenance and could apply such money to the acquisition of right of way.

Mr. Bogart advised that he believed that such a plan would be feasible to the County and he would like to bring the proposition up before his Board.

Commissioner Kidde stated that it was his first thought that the County might be willing to enter into a fifty-fifty proposition over a three year period for the entire construction.

Chairman Scott suggested that the matter be allowed to lay on the table for further consideration by the Commission before any proposition is made to Bergen County, in view of the attitude of cooperation expressed by the County. He stated that something definite could be worked out in a short time.

Request for Aid-Warren County

The Secretary informed the Commission that Mr. C. L. Stryker, a member of the Board of Freeholders of Warren County, together with County Engineer Vetter, were present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Stryker appeared and reviewed for the Commission the action as taken regarding the improving of the Rieglesville-Warren Glen Road, which job was completed by the County to a width of twenty feet, and on which he had anticipated that the Commission would give aid, but up to this time no aid had been granted.

State Highway Engineer Sloan explained the situation existing on this road and advised that while the Commission had had under consideration granting aid of some sort, nothing definite had been set aside for the improvement other than inspection costs.

Mr. Stryker explained very thoroughly the advantages of this road, but was informed by Commissioner Stewart that the Commission did not feel that it could legally give any aid on a road that has already been entirely completed.

Commissioner Jelin suggested that the County of Warren make application on some other road in the County and that it might be possible for the State to grant aid on that improvement in lieu of its tentative obligation on the Rieglesville-Warren Glen Road, and he suggested that the County of Warren present the most important project for 1925 at the next meeting of the Commission.

Maintenance Materials-Monmouth Co.

The Secretary informed the Commission that County Engineer Allen of Monmouth County was present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Allen appeared and informed the Commission that an advertisement had been placed by the County for its road materials but that a question was raised by the State Highway Department with regard to the fact that no exact quantities were advertised for on stone. He explained that this was due to the fact that it was impossible to determine what quantity of stone wouldbe needed, but that the stone producers were willing to quote the County a price on stone shipped at various points in the County in any quantity desired during the season. He requested permission to continue his advertisement and to receive bids on such a basis in order that the bids might be compared when received, and if deemed unsuitable could be rejected.

State Highway Engineer Sloan informed the Commission that it is the policy to request that the counties specify the amount of materials that are needed in the various classes of maintenance materials at the time of advertising.

Commissioner Jelin suggested that Mr. Allen take the matter up with Mr. Muir and ascertain as to what methods were employed by the State Highway Department for road materials, which Mr. Allen consented to do.

Request for Aid-Monmouth County

Mr. Allen advised that the County of Monmouth was ready to advertise for Navesink Avenue, Navesink, and would request State Aid therefor, and in the event it would not be granted that these plans be rejected in order that the County could proceed with the work from its own funds. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission rejected the plans and specifications for Navesink Avenue, Navesink, Monmouth County, on account of lack of funds.

Right of Way-Route 8.

The Secretary informed the Commission that Mr. F. W. DeVoe, Assistant Attorney General, desired to discuss a matter at this time. On motion, duly seconded, a hearing was granted. Mr. DeVoe appeared and advised that in the matter of the condemnation of the DeBow property on Route 8 in Morris County near Butler, the Judge had refused to appoint condemnation commissioners on the ground that an agreement had been reached with the owner. He explained that in some manner the original appraisers had obtained a form of agreement of the State Highway Department and after they had made an appraisal of $2,800.00 on the property, had returned to the owner and secured her agreement to sell at $5,000.00 and this was accepted by the appraisers. He inquired as to what further action the Commission desired to take in this connection. Commissioner Jelin moved that the Attorney for Mrs. DeBow be advised that the Commission will not abide by the agreement as signed by Mrs. DeBow and will start proceedings from the beginning in order to ascertain the proper value of the property, and in the event an agreement cannot be reached with the owner, that condemnation proceedings will be entered into and further that Mr. DeVoe be instructed to appoint two new appraisers on this proposition.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission recessed for luncheon at 2:00 P.M. to meet again at 3:00 P.M. The meeting was resumed again at 3:30 P.M. as agreed, with the same members present as at the morning session.

Trolley Tracks-
Route 11, Section 10, Nutley

State Highway Engineer Sloan informed the Commission that agreeable with the conference held at the morning session with Mr. Martin White of the Public Service Railway Company, Mr. White had telephoned at 2:15 P.M. the advice that the arrangements as suggested by the State Highway Commission were agreeable with the public Service Corporation. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the financing by the State of the Public Service Railway Company for a period of three years at 4½ percent interest in the sum of $8500.00 to cover the cost of special track work, in addition to the cost of the material for the straight track work, the State Highway Commission to pay for the cost of the labor and installation on this track work.

Route 3, Absecon

The Secretary presented a communication from Charles C. Babcock, Esq., urging upon the Commission the continuation of Route 3 on its present alignment through Absecon, and requesting an opportunity to be heard before the Commission before any definite action is taken by the Commission. In this connection, State Highway Engineer Sloan presented to the Commission a report on the investigations made concerning a proposed change in alignment for Route 3 through the Village of Absecon, which will take the highway from its present location on the main street of Absecon and place it on a new right of way parallel with the tracks of the Pennsylvania Railroad, the State having been offered the right of way 100 feet wide for the entire distance by Mr. F. P. Gravatt, a real estate operator in that location; the State being obligated only for the removal of the existing buildings, which removal is estimated to cost $30,000.00. In this report the State Highway Engineer indicated that the total estimated cost for the new line, twenty-nine feet wide, is $188,829.00, while a similar improvement on the existing line would cost $206,344.00 and would not give sufficient extra width to permit a further widening in the event it becomes necessary.

The Secretary read communications from the Avenue Hotelmen's Association of Atlantic City, the Kiwanis Club of Egg Harbor City and the Lions Club of Atlantic City, urging the State Highway Commission to improve the new alignment through Absecon. Commissioner Kidde inquired whether it would not be advisable to hold a hearing on the matter as requested.

Chairman Scott advised that he believed the matter has been sufficiently investigated by all parties and that a hearing would not be at any advantage to the Commission at this time. Commissioner Jelin therefore moved that the State Highway Engineer be authorized to lay out a change in the alignment for Route 3 through Absecon, on a new right of way to be donated by Mr. F. P. Gravatt, 100 feet wide, parallel with the tracks of the Pennsylvania Railroad and that he be authorized to negotiate with Atlantic County in order that the County may secure sufficient right of way for an overhead crossing of the "New Road" at Route 3 realignment. This was seconded by Mr. Stewart and adopted.

Proposed Routes

The Secretary presented a communication from the Cape May County Chamber of Commerce, requesting the State Highway Commission to take over for improvement the highway from Absecon to Somers Point, Beesleys Point and Marshall's Corner. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the Secretary advise the Cape May County Chamber of Commerce that the State Highway Commission has not the funds with which to take over any highways at the present time.

February 10, 1925.

Trees-Route 3.

The Secretary presented a communication from Mr. Charles Dooin with reference to the removal of trees on his property on Route 3. On motion by Mr. Stewart, seconded by Mr. Kidde, the communication was ordered received and placed on file.

Shore Road, Motor Vehicle Aid-
Atlantic County

State Highway Engineer Sloan recommended to the Commission that an allotment of $25,000.00 be made to Atlantic County toward the improvement of the Shore Road. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the allotment of $25,000.00 from the Motor Vehicle Reserve Account to Atlantic County toward the improvement of the Shore Road.

Right of Way-Route 8

The Secretary presented reports from Mr. F. W. DeVoe, Assistant Attorney General, advising of condemnation awards in the State.

In the case of Ida Kramer condemnation on Route 8, Section 2, the condemnation commissioners awarded $12,334.00 for value of land taken and damages to the remainder, against the State's offer of $9,500.00 and the land owner's offer of $16,000.00. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the award of $12,334.00 for land and damages of Ida Kramer on Route 8, Section 2.

In the case of Stasse & Kramer condemnation on Route 8, Section 2, the condemnation commissioners awarded $6,572.60, against the State's offer of $4,955.80 and the land owner's offer of $7,000.00. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved the award of $6,572.60 to Stasse & Kramer for property on Route 8, Section 2.

In the case of Ida Kramer and Stasse & Kramer, Mr. DeVoe reported that a tenant on the land asked $6,000.00 for damages and was awarded by the condemnation commissioners sitting as a Board of Arbitration, the sum of $1,050.00. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that this be taken up with the Attorney General's Department for an opinion as to whether or not the State is liable in this instance.

February 10, 1925.

Trees-Highways-General.

The Secretary presented a communication from Governor Silzer, directing the attention of the Commission to an address delivered by Governor Gifford Pinchot of Pennsylvania to the General Assembly on the occasion of the organization of the Legislature this year, in which he stated that the State Highway Department of Pennsylvania had planted about 40 miles of roadside trees in the last two years, and the Governor suggests that the Commission read the entire address and, if possible, look up in detail the Pennsylvania practice and experience with a view toward roadside planting in New Jersey. On motion by Mr. Stewart, seconded by Mr. Kidde, the communication was ordered respectfully acknowledged and the State Highway Engineer authorized to get in touch with the Pennsylvania State Highway Department in order to ascertain what methods have been used in shade tree planting along Pennsylvania State Highways.

The Schedule of Business was next taken up item by item as follows:

Route 1, Hackensack River Bridge.

The State Highway Engineer presented the following bids received on February 9th for the repairs to fenders on the Hackensack River Bridge on Route 1 Extension, at M. P. 57.8, and recommended that award be made to the low bidder:

Stillman, Delehanty, Ferris Co.	$41,421.41
Frederick Snare Corporation..........	45,384.64
Linde & Griffith Company.............	52,557.06
Allen N. Spooner & Son...............	64,440.25

On motion by Mr. Kidde, seconded by Mr. Selin, the following resolution was unanimously adopted:

RESOLVED, that the award of contract for the repairs to fenders on the Hackensack River Bridge, Route 1 Extension, M. P. 57.8, be and the same is hereby made to Stillman-Delehanty-Ferris Co., Inc., of Jersey City, New Jersey, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 20, Section 1.

The State Highway Engineer reported that the contractor on Route 20, Section 1, has refused to cooperate with the State Highway

Department on his work in keeping the work in passable shape for travel during the winter, and it has been necessary to put the road in shape for travel. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that the contractor be requested to appear before the Commission and explain the situation on this section of the road, and that he be advised that the Maintenance forces are being put on the work, and any cost will be charged to his contract.

Bridges-Route 4, M.P. 25.6,
43.6 and 43.3

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the entering into a supplemental agreement with the Department of Institutions & Agencies for the construction of three bridges on Route 4, Section 26, at M. P. 25.6, over Quail Run, at M. P. 43.6 over North Branch of Potters Creek, and at M. P. 43.3 over South Branch of Potters Creek, for a total lump sum of $18,000.00, all in accordance with plans and specifications prepared by the State Highway Department.

Route 4, Right of Way.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the following purchases of quit-claim deeds on Route 4, Section 20, Toms River-Cedar Creek:

Parcel	No.	10,	Charles A. Stout,	1.00
"	"	35,	Henry & Emma Miller,	1.00
"	"	78A,	Theo. Chamberlain,	1.00
"	"	89,	Mary Jeffry,	1.00
"	"	93,	Michael & Mary [illegible],	1.00
"	"	103,	Lewis C. Allen,	1.00
"	"	109,	George W. and S.A. [illegible],	1.00
"	"	110,	Henry G. and E.S. [illegible],	1.00
"	"	112-118,	Isabelle A. Morris,	1.00
"	"	115,	Chas. F. and Jennie M. Klein,	1.00
"	"	116,	Wm. D. & L.A. Klein,	1.00
"	"	123,	Walter & Anna [illegible],	1.00
"	"	124,	Geo. & Catherine Hertling,	1.00

Route 5, Right of Way.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the purchase of Parcel #11, Domenico Romanato, with consideration of $50.00.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the purchase of Parcel No. 30 from James Ruberton, for the consideration of $5.00, for right of way on Route 5.

February 10, 1925.

Right of Way-Route 14.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the purchase of the following parcels of property on Route 14, Section 8, Swainton-Ocean View section:

Parcel	#7 & 7A,	from	Frank Swain,	consideration	$646.85
"	13,	"	John L. Kates,	"	19.05
"	15 & 15A,	"	Charlotte Kates,	"	100.00
"	17 & 17A,	"	B. F. Godfrey,	"	250.00
"	31,	"	Livingston Rice, Est.	"	137.25
"	40,	"	Maurice & Mary Cresse,	"	30.00
"	41,	"	Matthew B. Hand,	"	75.00

Right of Way-Route 5

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission accepted a deed of grant and dedication of Parcels Nos. 20 and 20A on Route 5, Section 11, from the Belvidere Delaware Railroad Company (Pennsylvania Railroad System) for the consideration of $200.00.

Claims-Damage

On motion by Mr. Stewart, seconced by Mr. Jelin, the State Highway Commission approved the recommendation of the State Highway Engineer for payment of $50.00 to Charles M. Robertson for damage done to his property on account of blasting made necessary in cleaning up the slopes on Route 10 at Edgewater.

Route 20, Westville

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of the installation of a 40 foot pavement in Westville on Route 20, provided the Borough of Westville will bear the expense of paving beyond a 29 foot width, and pay for the cost of curbing, at an estimated cost of $11,030.25.

Employments

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the following changes and additions in employments since the last meeting of the Commission, as recommended by the State Highway Engineer:

Employed

2-1-25	Lester Sheppard,	Bridge Attendant	$ 90.00 mo.
2-5-25	George Garause,	" "	90.00
2-3-25	Edw. A. Brady,	" "	90.00
2-1-25	K. W. Ulrich,	Abstract Clerk	115.00
2-2-25	Joseph Murray,	Garage Assistant,	.45 hr.

February 10, 1925.

Promotions

2-1-25	W. H. Voorhees,	To Junior Engineer	$110.00 mo.
2-1-25	James Darling,	" " "	105.00 "
1-1-25	A. L. Ruefer,	" " "	110.00 "
2-1-25	Thos. W. Stewart,	" " "	100.00
2-1-25	Wilson Sharp,	" " "	125.00
2-1-25	A. J. Geiger,	" " "	125.00 to $135.00 mo.
1-1-25	E. J. Ricer,	" " "	125.00 mo.
2-1-25	Sean O'Deorain,	Senior Draftsman,	165.00 to $185.00 mo.

Discontinued Employments

2-5-25	Lawrence Dalton.	Bridge Tender,	Laid Off.
1-31-25	James Brady,	" "	" "
1-31-25	Wm. J. Brown,	Junior Inspector	" "
1-31-25	W. H. Hall,	Assistant C. E.	Resigned.

Maintenance Materials-
Essex County, Township Aid.

On motion by Mr Kidde, seconded by Mr. Stewart, the Commission approved the request of the Borough of Essex Fells for insertion of a price of 14½ cents per gallon for Tarvia X applied in the Force Account Agreement for Fells Road & Beech Tree Lane, Essex County, Township and Borough Aid.

Maintenance Materials-Monmouth County

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved specifications for S. C. O., Tar U or UB, and Lignin Binder, to be used on Monmouth County maintenance work.

Maintenance Materials-County-General

In this connection, State Highway Engineer Sloan advised that he would recommend that in all counties where crushed stone, slag, or other maintenance materials are to be used, that the counties be required to estimate as closely as possible the quantities to be delivered at each point of delivery. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that this recommendation be approved and that Monmouth County be advised that it must govern itself accordingly as to its advertisement for stone bids as presented to the Commission at the morning session.

Maintenance Materials-Burlington Co.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the specifications for road repair materials in Burlington County as recommended by the State Highway Engineer.

Township Aid-Morris County

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the award of contract by Randolph Township, Morris County, for Dover-Mount Freedom Road, Section 2.

Township Aid-Passaic County

On motion by Mr Kidde, seconded by Mr. Jelin, the Commission approved the plans and specifications for Bogart Street and Grant Avenue, Totowa Borough, Passaic County.

Township Aid-Mercer County

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved extension of time to June 1, 1925, on Park Avenue, Lawrence Township, Mercer County.

Crescent Route, Camden

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission directed that an inspection be made of the Crescent Route at Camden on next Tuesday afternoon, February 17th, after the regular meeting of the Commission.

Right of Way-Route 18-North

State Highway Engineer Sloan presented a map of the proposed right of way for Route 18-North through the property of the Phelps Estate. On motion by Mr Kidde, seconded by Mr. Jelin, the State Highway Engineer was directed to forward the plan of proposed right of way and the agreement as proposed to the Phelps Estate for their consideration and approval.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was adjourned at 6:30 P M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - February 17, 1925.

A regular meeting of the State Highway Commission was held in the meeting rooms of the Commission, Broad Street Bank Building, Trenton, Tuesday, February 17, 1925. The meeting was called to order at 10:30 A. M. by Chairman Scott.

Present: General H. L. Scott, Chairman, Messrs. Percy Stewart, Walter Kidde and Abraham Jelin.

Route 20, Section 1.

The Secretary informed the Commission that at the request of the Commission, Mr. Charles T. Kavanagh, contractor on Route 20, Section 1, Glassboro-Clayton, was present and desired a hearing. On motion, duly seconded, a hearing was granted. State Highway Engineer Sloan informed the Commission that Mr. Kavanagh had so left his construction when it was closed down for the winter, that it was impossible for traffic to pass over the work, and he had refused to cooperate with the Department in maintaining the work in such a manner as to allow traffic. He quoted sections of the information to bidders in the specifications which provided that the contractor shall maintain one-half the roadway for traffic at all times. Mr. Kavanagh contended that when he entered upon the contract a considerable portion of the roadway was already torn up by underground utilities and he stated that at the beginning of the work it was his intention to proceed with the completion of one-half of the road for the entire distance as provided in the specifications, and he had entered upon such work when he was directed to remove his operations to the Town of Clayton and complete the entire width in that section. This made it impossible to go back to finish that portion which was torn up, and he did not feel that he was obligated to do anything further until construction work started in the Spring.

Commissioner Kidde stated that a contractor should, at all times, follow out the specifications in accordance with the directions of the Engineering Department and if there are any claims for extras they can be taken up after the work is completed. On motion by Mr. Jelin, seconded by Mr. Stewart, the matter was ordered held for further consideration.

Sussex-Port Jervis Road;
Sussex-Colesville Road.

The Secretary informed the Commission that upon invitation from the Commission, the representatives of the Board of Freeholders of

Sussex County, together with members of the High Point Park Commission, were present for a conference concerning the High Point Park Road. Judge H. T. Kays appeared, together with County Engineer Snook and Director of the Board of Freeholders Meyers as representing the Sussex County Board, and Judge Kays informed the Commission that the County Board of Freeholders had adopted resolutions on the first day of May 1924, and on June 12th, 1924, which were combined into a resolution to the Commission under date of yesterday, in which it stated that while the County of Sussex had accepted $165,000.00 from the State Highway Commission as the State's share of the cost of the Sussex-Port Jervis Road, it had been found from the Engineer's estimates that the total cost for grading, draining and placing a shale pavement on this road, would be $483,000.00 and, therefore, the County with its present ratables cannot proceed with the work and would ask that the Commission amend its action in order that it might be willing to enter into an agreement with the County of Sussex to grade and place a pavement on the road from Sussex to the point where the approach to the State Park shall begin, on the basis of 50% of the cost to the County and 50% of the cost to the State, and further requesting that the State Highway Commission, with its own funds, build that part of the highway which constitutes the approach and road through High Point Park. He called upon County Engineer Snook to present his estimates and Mr. Snook advised that the total estimates as made were for the entire road to be on a grade not heavier than seven percent. Commissioner Jelin inquired as to the cost of a section included to a point beyond Coleville where the new highway turns to form the proposed approach to High Point Park and he was advised that this would be $127,600.00 for a shale pavement.

Mr. Wayne DuMont, President of the High Point Park Commission, was present together with Mr. Stanton, Secretary of his Commission, and Mr. DuMont advised concerning the efforts made to secure a proper entrance for traffic through High Point Park in order to make the same more useful to the citizens of the State. He stated that it was their feeling last year that the matter was entirely settled, but since nothing was done he was interested in making some progress, although it was not his purpose to burden the County of Sussex or the State with the improvement. He suggested that if the roadway could be brought to the Park entrance it would be sufficient for the time being, since the High Point Park Commission would be able with force at present to maintain the roads within the Park in fair condition. He suggested that some action be taken toward this at the present time.

Senator Kays informed the Commission that the county road did not extend as far as Mr. Du Pont had suggested, since about one mile of this road is under control of Wantage Township.

Commissioner Stewart stated that it may be possible for the Commission to allow the construction of a portion of the High Point Road on the basis of a proportionate share by the State of the original $125,000.00 as allotted, which would be approximately $[illegible],000.00 on this improvement, involving a $160,000.00 total cost.

Senator Kays stated that the Board of Freeholders had anticipated that the Commission would pay at least 60 percent of the cost of any work done on this road.

Commissioner Jeliff moved that the State Highway Commission express its willingness to aid the County of Sussex in the improvement of the road from Sussex through Coleville to a point where the County road ends on the proposed new line to High Point and that aid would be granted to Mr. Du Pont of 50 percent at not exceeding $55,000.00, and that the Commission further expresses its intention to give aid to the Township of Wantage so that it may extend this work to the entrance of the High Point Road. No formal action was taken on this motion until the Sussex County Board of Freeholders were given an opportunity to talk it over. This was done for a short time and then Senator Kays informed the Commission that the County Board of Freeholders was willing to accept the $55,000.00, provided it would be 50 percent of the total cost of the work, but that nothing definite could be advised until after a meeting of the Board of Freeholders.

Commissioner Jeliff then moved that the Commission cancel the amount of $100,000.00 from the allotment to Sussex County for the Sussex-Port Jervis Road and that the same be returned to the general Motor Vehicle Account. This was seconded by Mr. Stewart and adopted.

Commissioner Jelin then offered his former motion to the effect that one-half the cost, not exceeding $55,000.00 be set up for the Sussex-Coleville project, if evidence from the Board of Freeholders of Sussex County shows that they are willing to proceed with this work. This was seconded by Mr. Stewart and adopted.

Detours-Route 2, Request for Aid-Burlington County.

The Secretary informed the Commission that a delegation from the City of Burlington was present and desired a hearing. On motion, duly seconded, a hearing was granted. There appeared Mr. Ballinger and Mr. Johns of the Burlington City Council, and representatives of the Chamber of Commerce and the Kiwanis Club. Mr. Smith of the Kiwanis Club informed the Commission that Washington Avenue in Burlington was being used as a detour for State Highway Route 2, while the construction of the Cut-off is taking place. He advised that it was the purpose of the delegation to inquire whether it would be possible for the Commission to place an asphalt pavement upon that stretch of road, being maintained in Burlington, and thereby give to the City a first class improvement. Commissioner Kidde informed the delegation that it was the purpose of this Commission to properly maintain the Main Street in Burlington while the construction was going on on Route 2, but that there were no powers by which the Commission could add extra improvements to the Town. He suggested that if there was a proposition made by the municipality whereby they would relieve the State of this maintenance and would share in the cost, it may be possible for the Commission to grant an allotment toward this work in lieu of the maintenance charges accruing. The delegation advised that they would take this up with the Board of Freeholders and the City Council and determine what could be done.

Request for Aid-Essex County

The Secretary informed the Commission that a delegation from Essex County was present and desired a hearing. On motion, duly seconded, a hearing was granted. There appeared County Engineer Stickle and Chairman Crane of the Road Committee. Mr. Stickle advised the Commission that he appeared with reference to securing State Aid for the County of Essex on what was considered the most important project in the County for the State to share. He presented a plan showing the proposed elimination of the dangerous cut-off and new connection on East and West Passaic Street, to meet with Route 11, Kingsland Road. It was proposed to make this cut-off 24 feet wide at an estimated cost of $160,000.00, and he made request of 40 percent State Aid on the work. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that this matter be referred to the State Highway Engineer for report.

Amboy Bridge

The Secretary informed the Commission that Mr. Yoemans, representing the Stillman-Delehanty-Ferris Company, contractors on the Amboy Bridge, together with Mr. C. W. Hudson, Supervising Engineer, were present and desired a hearing with the Commission. On motion, duly seconded, a hearing was granted. Mr. Yoemans appeared and stated that his company had suffered a reduction in the amount of estimate paid them for piling, in an amount of $86,000.00, caused by the fact that they were paid on a lineal foot basis for piling in constructing cofferdams for piers. The piles reached bottom in a shorter length than was anticipated, making it necessary to cut off a great amount of waste for which they were not paid. He estimated that the loss to his company on this account was $47,000.00, and he claimed this amount. Another claim made was that on the river piers where his company was forced to build platforms while the concrete was setting, and while it was agreed to do this for timber work price, it had to be done in water and involved a much greater cost than the price paid for timber work in the open; for this he claimed $4,167.07. An additional claim was submitted by Mr. Yoemans for damages incurred by delays in securing right of way on the North approach, making necessary extra handling of machinery and trackage in order to reach the work, and also making it essential for the contractor to look elsewhere for storage space for equipment which the contractor had anticipated would be allowed him when the ground was claimed for equipment which the contractor had anticipated would be allowed him when the ground was claimed for the construction. The amount of this claim was $12,509.00.

State Highway Engineer Sloan informed the Commission that it was provided in the contract that for any delays caused the contractor, they would be given an extension of time, but there was no means whereby any damages could be allowed unless it could be in lieu of time extension.

Chairman Scott informed Mr. Yoemans that all the matters presented would be taken under serious consideration by the Commission.

Crescent Road, Camden

The Secretary presented a communication from Senator Roberts of Burlington County, urging the improvement of the route running from Sorrel Horse and known as the outside route for the proposed Crescent Boulevard at Camden between Route 2 and the Rondpoint, in view of the fact that it will serve the greatest number of people in that vicinity. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received and placed on file with the advice that the Commission will endeavor to go over this ground in the near future and will be glad to take the recommendation into consideration.

The Secretary presented a resolution from the Township Committee of Pensauken Township, in which they advised that the objections as raised by them to the Crescent Boulevard have been overcome by the substitution of the new route suggested by the State Highway Engineer. On motion by Mr. Jelin, seconded by Mr. Stewart, the resolution was ordered received and placed on file for consideration.

The Secretary presented a communication from the Borough of Merchantville, inquiring as to whether the Commission had made any decision in the matter of the Crescent Boulevard, and urging an opportunity to present further data before final disposition of the Crescent Boulevard matter. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that they be advised that the Commission will make an inspection in the near future for this particular route and that up to this time no decision has been made.

Tree Planting

The Secretary presented a communication received by Chairman Scott from Mr. William J. Morgan, urging the Commission to consider seriously the planting of trees along public roads, and suggesting that such trees be food-bearing if possible, similar to the planting done in Europe. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered acknowledged with thanks and placed on file.

Route 3, Absecon.

The Secretary presented a communication received by Chairnan Scott from the Atlantic City Chamber of Commerce, expressing the thanks of that body for the favorable action of the State Highway Commission in the acceptance of the 100 foot right of way through Absecon, on Route 3. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered acknowledged with thanks.

Request for Aid-Warren County;
Phillipsburg-Belvidere, Section 2.

The Secretary presented a resolution from the Warren County Board of Freeholders, requesting aid from the State in the sum of $25,000.00 toward the Phillipsburg-Belvidere Road, Section 2, and the sum of $10,000.00 toward the Yellow Frame-Blairstown Road. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the allotment of $25,000 00 from the Motor Vehicle Reserve Account to Warren County for aid on the reconstruction of the Phillipsburg-Belvidere Road, Section 2.

Request for Hearing-Somerset Co.

The Secretary presented a communication from the Board of Freeholders of Somerset County, requesting the State Highway Commission to grant a further hearing on the proposition of the proposed realignment of Route 16 in South Somerville at the intersection with the Lehigh Valley Railroad. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the Freeholders of Somerset County be advised that this matter has been very seriously considered by the State Highway Commission and an agreement covering the essential details has been arrived at with the Railroad Company, and for that reason the Commission feels that it would not be to any advantage to hold further hearings on this matter.

Signs.

The Secretary presented a communication from Mr. F. S. McKee, City Counsel of Bridgeton, protesting against the placing of a State highway marker in front of his property on Broad Street in Bridgeton and requesting the Commission to remove the concrete post as installed. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered referred to the State Highway Engineer for disposition.

Scales.

The Secretary presented a communication received by the State Highway Engineer from the Lorraine Chemical Corporation, advising that they have obtained a long-term lease from George W. Aimscow and will assign the same to the State Highway Commission in lieu of the State Highway Commission abandoning for scale purposes the site chosen near their property. They advised that they will pay the lessor $100.00 per annum for the use of this ground by the State. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the acceptance of property lease from the Lorraine Chemical Company subject to an agreement that the Lorraine Chemical Corporation will endeavor to secure the purchase of this property and turn over the said deed to the State Highway Commission for a nominal consideration of $1.00.

The Schedule of Business was next taken up for consideration, item by item as follows, with the recommendation of the State Highway Engineer.

Route 11, Section 10.

Plans and specifications were reported completed for Route 11, Section 10, Washington Avenue, Nutley. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for Route 11, Section 10, Washington Avenue, Nutley, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer, and the Chief Clerk is directed to place the necessary advertisements for the work.

Route 7, Section 4.

Plans and specifications were reported completed for Route 7, Section 4, Colt's Neck-Jerseyville. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for Route 7, Section 4, Colts Neck-Jerseyville section, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the Chief Clerk is directed to place the necessary advertisements for the work.

Right of Way-Route 12.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the following parcels of property on Route 3, Section 12, Egg Harbor-Hammonton section:

Parcel No. 94,	H. J. & Mary G. Butterof,	$ 8.85
" " 100,	Elizabeth Adshead (widow),	10.65

Right of Way-Route 4.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the following parcels of property on Route 4, Section 26, Cedar Creek-Toms River and directed that a letter of thanks be forwarded:

Parcel No. 13,	Thos. P. & Etta M. Gaule (his wife)	$1.00
" " 87 and 88,	Benj. F. & Carrie A. Butler," "	1.00
" No. 90 and 92,	David Greenspoon (single),	1.00
" No.120,	Chas. M. & Louis Biernbaum,	1.00
" " 125,	Tilton Imley (single)	1.00

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the following parcels of property on Route 4, Section 27, Cedar Creek-Forked River, and directed that a letter of thanks be forwarded:

Parcel No. 8,	Nelson & Marie V. Grant,	$10.58
" " 5,	Caroline M. Jeffrey,	1.00

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel No. 4 on Route 4, Section 28, Barnegat-Waretown, from Arthur C. & Emma G. Corlis for the consideration of $1.00 and directed that a letter of thanks be forwarded.

Right of Way-Route 14.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the following parcels of property on Route 14, Section 8, Swainton-Ocean View:

Parcel No. 2A,	Jennie F. & Chas. Way,	$ 50.00
" " 29 & 30,	Charles & May T. Rice,	70.00
" " 32,	Clara E. Post,	200.00

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcels Nos. 26 and 26A on Route 14, Section 9, Ocean View-Seaville, from Francis G. Shaw, for the consideration of $150.00.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the following parcels of property on Route 14, Section 11, Petersburg-Tuckahoe section, and directed that where the property was purchased for $1.00 that a letter of thanks be forwarded:

February 17, 1925.

Parcel No. 40,	Somers Garren Estate,	$ 70.00
" " 67,	Joseph Marshall,	1.00
" " 74,	Alden Parker,	50.00

Right of Way-Route 16.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the following parcels of property on Route 16, Section 5A, and directed that where the property was purchased for $1.00 that a letter of thanks be forwarded:

Parcel No.1,	David H. & Elizabeth Hardgrove,	$125.00	and grading of drive,
" " 2,	Patrick Gibbons (widower),	200.00	and grading of approach,
" " 10,	August F. & Luch L. Mathes,	1.00	
" " 15,	Joseph & Stella Harwanko,	1.00	
" " 16,	James & Annie S. C. Allen,	1.00	

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the acceptance of a bargain and sale deed for Parcel No. 5 on Route 16, Section 8, Harlingen Cut-off, from the Board of Education of Montgomery Township, for the consideration of $1.00.

Abandonment-Route 3.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the following resolution for the abandonment of a portion of Route 3, Section 8, Clements Bridge Road-Camden section:

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway in accordance with the provisions of Chapter 14 of the Laws of 1917, a certain road or roads known as State Highway Route 3 from a point in or near Camden to Absecon, by way of West Collingswood, Audubon, Haddon Heights, Barrington, Kirkwood, Laurel Springs, Berlin, Atco, Chesilhurst, Waterford, Ancora, Elm, Hammonton, DaCosta, Elwood, Egg Harbor City, Germania, Pomona and Doughtys, and

WHEREAS, in the construction and improvement of the said State Highway Route 3, Section 8, from Clements Bridge Road to Camden, it has been found desirable to relocate a certain portion of the said route for the purpose of betterment of the alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there is a certain portion heretofore used as a part of the road before improvement, which is no longer needed as a part of the improved State Highway,

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portion of State Highway Route 3, Section 8, as hereinafter described, be and the same is hereby abandoned as a part of State Highway Route 3, Section 8 and vacated in accordance with the provisions of Chapters 14 and 15 of the Laws of 1917 and the amendment thereto in Chapter 220, of the Laws of 1919.

February 17, 1925.

Beginning at a point on the center line of the road as taken over on September 1, 1919, between Clements Bridge Road and Camden, in the Borough of Collingswood, Camden County, said point being thirty-three (33) feet from the center line of the present State Highway Route 3, Section 8, as constructed at Station 1276 plus 64 more or less thence (1) along the center line of the road as taken over in a northwesterly direction, five hundred seventeen (517) feet more or less to the Camden City Line.

BE IT FURTHER RESOLVED that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Camden County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway;

It being the intention of the State Highway Commission to abandon and vacate that portion of the old road as taken over September 1, 1919, lying outside the limite of the right of way of new road as constructed sixty-six (66) feet wide, between Station 1276 and 62 more or less and the Camden City Line as shown on the plan on file in the offices of the said State Highway Commission at Trenton, N. J.

Abandonment-Route 5.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the following resolution for the abandonment of a portion of Route 5, Section 8, Great Meadows-Barkers Corner:

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway, in accordance with the provisions of Chapter 14 of the Laws of 1917, a certain road or roads known as State Highway Route 5, from a point in or near Delaware to Irvington by way of Ramseyburg, Manunkachunk, Bridgeville, Buttzville, Budd Lake, Netcong, Ledgewood, Kenvil, Mine Hill, Dover, Rockaway, Denville, Tabor, Morris Plains, Morristown, Convent Station, Madison, Chatham, Summit, Springfield and Hilton, and

WHEREAS, in the construction and improvement of the said State Highway Route 5, Section 8, from Great Meadows to Barkers Corner, it has been found desirable to relocate a certain portion of the said route for the purpose of betterment of the alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there is a certain portion heretofore used as a part of the road before improvement which is no longer needed as a part of the improved State Highway.

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portion of State Highway Route 5, Section 8, as hereinafter described, be and the same is hereby abandoned as a part of the State Highway Route 5, Section 8, and vacated in accordance with the provisions of Chapters 14 and 15 of the Laws of 1917 and the amendment thereto in Chapter 220 of the Laws of 1919.

Beginning at a point in the center line of the road as taken over, said point being thirty-three (33) feet distant from and measured normally to Station 141 plus 26.5 more or less thence (1) South twenty-five degrees, fifty-one minutes and fifty seconds East (S 25° 51' 50" E) one hundred forty-six and five tenths (146.5) feet more or less to a point: thence (2) South fifty degrees, thirteen minutes ten seconds East (S 50° 13' 10" E) one hundred twelve and eight tenths feet (112.8') more or less to a point; said point being thirty-three feet (33') more or less distant from and measured normally to Station 143 plus 91.3 more or less on the new line of Route 5, Section 8.

BE IT FURTHER RESOLVED that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Warren County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate those portions of the old road, as taken over January 15, 1920, lying outside the limits of the acquired right of way of the new road as constructed sixty-six (66) feet wide between Station 141 plus 26.5 more or less and Station 143 plus 91.3 more or less, as shown on plan on file in the offices of the said State Highway Commission at Trenton, N. J.

Abandonment-Route 12.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the following resolution for the abandonment of a portion of Route 12, Section 6, Port Colden-Stephensburg:

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 13 from Paterson to Phillipsburg by way of Little Falls, Pine Brook, Parsippany, Denville, thence over Route 5 to Budd Lake, thence to Washington and Broadway, and

WHEREAS, in the construction and improvement of the said State Highway Route 12, Section 6, from Port Colden to Stephensburg, it has been found desirable to relocate a certain portion of the said Route for the betterment of the alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there are certain portions heretofore used as a part of the road before improvement, which are no longer needed as a part of the improved State Highway;

NOW, THEREFORE, BE IT RESOLVED, by the State Highway Commission of the State of New Jersey that the certain portions of State Highway Route 12, Section 6 as hereinafter described, be and the same are hereby abandoned as a part of the State Highway Route 12, Section 6, and vacated in accordance with the provisions of Chapters 14 and 15 of the Laws of 1917 and the amendment thereto in Chapter 220 of the Laws of 1919.

Portion No. 1.

Beginning at a point in the center line of the old road as taken over, where the said center line is intersected by the new easterly right of way line of Route 12, Section 6, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 134 plus 46 thence (1) along the center line of the old road, its various courses and distances to a point in the said new easterly right of way line of Route 12, Section 6, said point being measured thirty-three (33) feet normally from the center line of the said State Highway at about Station 158 plus 92.

Portion No. 2.

Beginning at a point in the center line of the old road as taken over, where the said center line is intersected by the new westerly right of way line of Route 12, Section 6, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the said State Highway at about Station 162 plus 54; thence (1) curving to the right for a distance of one hundred forty-five (145) feet more or less to a point; thence (2) still curving to the right a distance of two hundred five (205) feet more or less to a point; thence (3) still curving to the right a distance of two hundred seventy-seven (277) feet to a point in the said new westerly right of way line of Route 12, Section 6, said point being measured thirty three (33) feet normally from the center line of the said State Highway at about station 168 plus 18.

BE IT FURTHER RESOLVED, that a notice of this vacation be forwarded to the Board of Chosen Freeholders of the County of Warren, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate those portions of the old road as taken over January 15, 1920, lying outside the limits of the acquired right of way as constructed between Station 134 plus 46 more or less and Station 168 plus 18 as shown on plans on file in the offices of the said State Highway Commission at Trenton, N. J.

Right of Way-Entrance Boulevard

State Highway Engineer Sloan next submitted for the attention of the Commission a number of purchase agreements as entered into with property owners on the proposed Entrance Boulevard in Camden, and he advised that the same had been appraised by responsible local appraisers and he would recommend approval, after investigation of the figures, in view of the city assessments, appraisals, etc. Commissioner Jelin moved the approval of the purchase of the following parcels of property on the Entrance Boulevard in Camden, for the considerations listed herewith:

February 17, 1925.

Parcel No.		Consideration
3A & 3B	Henry G. & Mary C. Koerner,	$ 2,200.00
4A " 4B	ditto	2,200.00
6A " 4B	ditto	2,200.00
5A " 5B	Marietta J. Saabye,	2,200.00
7A " 7B	Aaron & Ida M. Moll,	2,200.00
8A " 8B	Rosa M. Morris,	2,300.00
11A " 11B	Joseph & Cecelia Sussman,	2,650.00
12	Clark W. Smitheman,	2,250.00
13	Joseph & Cecelia Sussman,	2,250.00
14	John Campbell, Jr. Estate	2,250.00
28	Richard W. Jeffris Company	2,100.00
32	Maurice E.Jr. & Ida Heller,	500.00
34	John M. & Mary A. Brynildsen,	2,350.00
36	John K. & Carrie L. Getty,	3,700.00
33	Maurice E. Jr. & Ida Heller,	760.00
		2,384.00

This was seconded by Mr. Kidde and adopted.

State Highway Engineer Sloan submitted to the Commission a detailed report of the appraisals concerning Parcel #37 on the Entrance Boulevard at Camden, which is property of N. Z. Graves Company Incorporated, and he suggested that the Right of Way Engineer who was present explain the situation. Mr. Meeker explained that this plant was formerly a paint making establishment, but at the present time the only portion of the plant which was working in full operation was the varnish shop, which would not be affected. The proposed route, however, would cut directly through the property. Mr. Meeker also advised that the route as proposed would not destroy any of the river frontage of this property, but would in fact yield a new frontage on the new right of way. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission decided they would inspect this plant along with the Crescent Road on Friday Morning at 10:30 A. M.

Right of Way-Route 8.

Commissioner Stewart took occasion at this time to inquire of Mr. Meeker concerning the Debow property on Route 8 where agreements had been approved by the property owner in the presence of two appraisers rather than the Department representatives. Mr Meeker explained that the appraisers had proceeded entirely without authority and the agreements had been kept with them merely for the purpose of looking over the property plan attached thereto.

Claims

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the elimination from accounts receivable of the following claims on account of automobile accidents where it was impossible to get in touch with the offending parties:

February 17, 1925.

Karl Johnson,	Newark, N. J. ----------	$ 31.87
George Ribal,	Belmar, N. J. ----------	43.73
John Lawton,	Roselie, N.J. ----------	11.22

Employments

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the following additions, changes and increases as made in the employments since the last meeting of the Commission:

Employed

2-9-25	Harry R. Gabriel,	Resident Engineer	$ 225.00 mo.
2-16-25	Anthony Esposito,	Title Searcher	150.00 "
2-1-25	Philip Capano,	Gravel Patrolman	75.00 "
2-10-25	Raymond Lindsey,	Mechanic	.65 hr.

Increase

2-1-25	Koster Frosig,	Rodman	$ 125.00 to $ 140.00 mo.

Discontinued Employment

2-16-25	J. S. Van Nuy,	Junior Engineer	Resigned.

Wildwood Boulevard, Section 2,
Motor Vehicle Aid-Cape May Co.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved specifications for the Wildwood Boulevard, Section 2, Cape May County, Motor Vehicle Aid work.

Motor Vehicle Aid-Essex County

State Highway Engineer Sloan presented to the Commission a request from the County of Essex that they be permitted to allocate the entire Motor Vehicle apportionment from the State to the County for 1925 to three reconstruction jobs known as River Road, Clinton Avenue and Mount Hebron Avenue, with the assurance that the County will be willing to maintain its county roads in a condition satisfactory to the State Highway Commission. State Highway Engineer Sloan recommended that this be granted in the case of Essex County for 1925 without establishing any precedent in the matter. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the proposition of Essex County be accepted and they be permitted to use the 1925 allotment of Motor Vehicle funds on River Road, Clinton Avenue and Mount Hebron Avenue, provided they will enter into an agreement to maintain county roads in a condition acceptable to the State Highway Commission.

In this connection the State Highway Engineer advised that he was prepared to recommend that the County of Essex be allotted

February 17, 1925.

$40,000.00 from the Motor Vehicle Reserve Account toward the improvement of East and West Passaic Street connection with Route 11. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the apportioning of $40,000.00 from the 1925 Motor Vehicle Reserve Account to Essex County as recommended.

Bridgeton-Port Norris Road,
M. V. Aid-Cumberland County.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the apportionment of $40,000.00 from the Motor Vehicle Reserve Account for the completion of the Bridgeton-Port Norris Road, Cumberland County.

Morris Avenue, Springfield,
Motor Vehicle Aid-Union Co.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the allotting of $25,000.00 to Morris Avenue, Springfield, Union County, Motor Vehicle Aid work.

Construction Program-1925.

State Highway Engineer Sloan recommended to the Commission that the funds as set up for the Bridgeboro Bridge on Route 3, be transferred and applied to the construction of three miles of Route 15 from Rio Grande North in Cape May County, and three miles on Route 15 from Menantico Creek South in Cumberland County. On motion by Mr. Jelin, seconded by Mr. Stewart, this recommendation was unanimously adopted.

Lighting-Albany Street Bridge,
& Highland Park Hill.

Commissioner Jelin reported to the Commission that in accordance with authority granted, he had held a meeting with the representatives of the Public Service Railway Company, the City of New Brunswick and the Borough authorities of Highland Park, with a view toward the lighting of the Albany Street Bridge and the Highland Park Hill. He informed the Commission that he had succeeded in securing the lighting of the Highland Park Hill by the Highland Park Borough authorities, and the Public Service Corporation had advised that if there is any legal way in which the State Highway Commission can show that they must pay toward the lighting of the bridge, they will share the same as when the bridge was held by the County, namely, $22.00 per month. He, therefore, recommended that the Commission approve an agreement with the

Public Service Electric Company for the lighting of the Albany Street Bridge on the basis that Highland Park will light the hill in a similar manner, and that the Attorney General be asked as to what action the State Highway Commission may take against the Public Service Railway Company for the lighting of the Albany Street Bridge. Commissioner Kidde stated that he believed the Commission should, in the event it agrees to light any bridge, consider in detail the necessity for lighting on all bridges on the State Highway System. Commissioner Stewart stated that in view of the fact that Commissioner Jelin was authorized to make some arrangements with the authorities concerning the Albany Street Bridge, that the Commission should approve his recommendation.

Commissioner Kidde therefore moved that the Commission enter into a contract with the Public Service Corporation for the lighting of the Albany Street Bridge for a period of one year and that the contract for the same be approved on behalf of the State Highway Commission. This was seconded by Mr. Stewart and adopted.

Commissioner Jelin asked that an opinion be requested from the Attorney General as to whether the Public Service Corporation has legal obligation which would make it possible for the State Highway Commission to collect for a portion of the lighting on the Albany Street Bridge at New Brunswick on Route 1.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the State Highway Engineer be requested to prepare a complete survey and make report as to the obligations of the State Highway Commission for the lighting of bridges throughout the State, and such suggestions as he might have for lighting such structures as are not now being lighted.

Maintenance Materials-Bergen County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved award of contract by Bergen County for maintenance and repair materials for 1925, as recommended by the State Highway Engineer.

Federal Aid-Route 8. Charlottesburg-Franklin Furnace

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved Federal Aid Project Statement for Route 8,

February 17, 1925.

Charlottesburg-Franklin Furnace Road, Sussex County.

Maintenance Materials-Warren Co.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved specifications for repair and maintenance materials to be used by Warren County for 1925.

Township Aid-Middlesex County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved acceptance and final payment on Mill Lane Road, Section 2, North Brunswick Township, Middlesex County, Township Aid.

Morris Canal Bridges.

State Highway Engineer Sloan presented to the Commission a report from Mr. Goodkind, Assistant Bridge Engineer, advising that he has received a communication from the Morris Canal & Banking Company whereby they are ready to enter into a contract with the State Highway Commission in the sum of $20,384.00 for the removal of three canal bridges and the grading and excavation necessary at these points; in addition the Morris Canal Board have authorized a contract with the State Highway Commission for the elimination of a bridge at Kenvil for the sum of $3,355.00. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of entering into a contract with the Morris Canal & Banking Company whereby the State Highway Commission will remove the following bridges on State Highway Routes over the Canal for the sum of $20,384.00, and also for the survey and guard rails needed in the bridge removal on Route 5 at Kenvil for the sum of $3,355.00,

Bridge West of New Village,	Route 12,	M. P. 4.7
" at Hackettstown,	" 5,	M. P. 18.8
" West of Rockaway,	" 5,	M. P. 39.0.

Right of Way-Route 1 Extension.

Commissioner Kidde informed the Commission that in pursuance with authorization given by the State Highway Commission and in company with Assistant Construction Engineer Lavis, he had inspected the plant of Ault & Wieberg Company on the line of Route 1 Extension in Jersey City, and he believed this presented a very serious situation in the matter of interference with the construction of the Viaduct, but that if arrangements could be made whereby sufficient time could be given this company for moving a portion of its works, it would save considerable money to the State. He suggested too, that it may be possible to modify the line of the Viaduct so that it would keep away from the plant. No action was taken.

The Commission next went into conference on the matter of press reports concerning statements made in the Legislature on bascule bridge contracts awarded by the Commission, and the meeting was adjourned at 7:30 P. M. to meet in regular session at Atlantic City on Thursday, February 26th, at 2:00 P.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - February 26, 1925.

A regular meeting of the State Highway Commission was held at the Haddon Hall Hotel, Atlantic City, on Thursday, February 26, 1925.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission elected Mr. Stewart to serve as Chairman, pro tempore.

Present: Messrs. Percy H. Stewart, Walter Kidde and
Abraham Jelin.

Absent: Chairman H. L. Scott, due to illness.

Route 1 Extension, Jersey City.

The meeting was called to order by Chairman Stewart at 2 P. M. Immediately upon convening, the Commission went into conference with Assistant Attorney General Coulomb, on the matter of the property of the Erie Railroad Company in Jersey City. This conference continued until six o'clock, when, on motion by Mr. Kidde, seconded by Mr. Jelin, the Commission adopted the following resolution:

> RESOLVED that the State Highway Commission has been fully advised as to its legal rights in the matter of Route 1 Extension, Jersey City, and is now prepared to consummate definite plans for the work, and being desirous of cooperating with the Erie Railroad Company, if possible, requests that they send properly accredited representatives to the next meeting on Tuesday, March third, at Trenton, at any hour which will be convenient for their Company, and
>
> BE IT FURTHER RESOLVED, that the Secretary is directed to forward this resolution by telegram to F. D. Underwood, President of the Erie Railroad Company.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission recessed at 6:30 P.M. to meet in regular session on Friday morning at 9:30 A.M.

The meeting was resumed on Friday morning, February 27, 1925, at 9:30 A.M. with the same members present as at the afternoon session of the 26th.

Crescent Road, Camden

State Highway Engineer presented to the Commission the matter of the proposed Crescent Boulevard Extension of Routes 2, 3 and 6, in the vicinity of Camden, and he recommended to the Commission the adoption of the line as shown on a blue print and marked "Inside Line", extending from a point on Route No. 2 at or near the intersection of Union Avenue, and extending through Pensauken Township to an intersection with the proposed Entrance Boulevard at a point at or near the intersection with Kaign Avenue; thence through the Boroughs of Collingswood and Woodlynne, and Haddon Township to an intersection with Nicholson Road. He also recommended that in view of the fact that improvements are being made at the present time on the property now or formerly of George W. Jessup at Collingswood, that negotiations for the acquiring of such right of way be entered into at once and that the owner be notified of the adoption of the line and the intention to acquire the property.

After a full and complete discussion of the matter as recommended by the State Highway Engineer, Commissioner Kidde offered the following resolution for adoption:

> WHEREAS, the State Highway Engineer has made recommendations as to the adoption of the line for the extension of Routes 2, 3 and 6, in the vicinity of Camden;
>
> NOW, THEREFORE, BE IT RESOLVED, that the State Highway Commission does hereby take over as the Crescent Boulevard Extension of Routes 2, 3 and 6, in the vicinity of Camden, as shown on blue print marked "INSIDE LINE", extending from a point on Route 2 at or near the intersection of Union Avenue, and extending through Pensauken to an intersection with the proposed Bridge Boulevard at a point at or near the intersection with Kaign Avenue; thence through the Boroughs of Collingswood, Woodlynne, and Haddon Township to an intersection with Nicholson Road, and
>
> BE IT FURTHER RESOLVED, that a detailed description of this taking over be forwarded to the municipalities affected thereby as soon as practicable, and
>
> BE IT FURTHER RESOLVED, that the Secretary forward a copy of this resolution to the municipalities affected thereby.

This was seconded by Mr. Jelin and adopted.

Right of Way-Crescent Boulevard

As to the matter of the improvements now going on on this new line, Commissioner Kidde moved that the recommendations of the State Highway Engineer be approved and that negotiations be undertaken at once with the property owners on the property now or formerly of George W. Jessup at Collingswood, for the acquisition of the property and that the owner be notified of the adoption of the line and of the State's intention to acquire the property. This was seconded by Mr. Jelin and adopted.

Conventions-A.H.O.N.A.S.

Commissioner Kidde took occasion at this time to commend the officers and directors of the First Annual Convention of the State Highway Officials of the North Atlantic States for the very successful convention and conference now being held in Atlantic City, and he moved that the congratulations of the State Highway Commission be extended to the officers and directors for the very interesting manner in which the convention has been conducted, for the large attendance developed, and for the great interest shown in the problems of road-building. This was seconded by Mr. Jelin, and adopted.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was adjourned at 10:30 A.M. to meet in regular session on Tuesday, March 3rd at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - March 3, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, Tuesday, March 3, 1925. The meeting was called to order by Chairman Scott at 10:30 A. M.

Present: General H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Legislation

State Highway Engineer Sloan directed the attention of the Commission to the fact that Assembly Bill #281, providing for an Arbitration Board to settle all differences between the State Highway Commission and contractors, was now in the Senate Committee having passed the Assembly. Commissioner Jelin stated that this bill was derogatory to the efficient conduct of the Department and he moved that a request be made of the Senate Judiciary Committee for a hearing before any action is taken to submit it to the Senate. This was seconded by Mr Stewart and adopted.

Lighting-Route 10.

State Highway Engineer Sloan requested information as to what disposition the Commission would make in the matter of contract for lighting which must be renewed on March 29th on Route 10, Section 1A, Arcadian Way to Fort Lee Ferry.

Commissioner Kidde suggested that it should definitely be established whether the local communities have any jurisdiction in the matter before the State should commit itself to a lighting expenditure. Commissioner Stewart therefore moved that the matter be referred to Assistant Attorney General DeVoe, in order that he might interview the authorities of the Boroughs of Edgewater and Fort Lee to ascertain what proportion of this lighting they will pay.

Amboy Bridge-New

State Highway Engineer Sloan resubmitted to the Commission the revision of the electrical specifications for the New Amboy Bridge, and he recommended that the same be approved, together with an extra of $12,050.00 for the work.

Commissioner Kidde stated that this supplemental agreement had been looked over by Mr Worth of his own organization and he had received a report to the effect that while there was a saving over the old form of specifications in the amount of copper and labor to be expended, this was practically expended in the advanced price of copper over the market price of copper when the bridge contract was awarded.

Commissioner Stewart moved that the supplemental agreement for the electrical work on the Amboy Bridge be approved. This was seconded by Mr. Jelin and adopted.

Opinion-Attorney General; Riparian Lands.

The Secretary presented an opinion from Assistant Attorney General Coulomb, advising that "the law, as it at present stands, is, therefore, that the State Highway Commission must pay for the reparian lands, as it desires to take and use. So far as I know, the Court of Errors has never passed on the precise question, and it might possibly be that they would make a different ruling. At the present time, however, the law of this State is that such rights must be paid for."

On motion by Mr. Stewart, seconded by Mr. Jelin, the opinion was ordered received and placed on file with the thanks of the Commission.

Abandonment of Highways-General

The Secretary presented an opinion from Hon. F. W. DeVoe, Assistant Attorney General, on the question as to whether the State Highway Commission may abandon and vacate an unused and unnecessary portion of a State Highway right of way in cases where it appears desirable for the adjacent owner to secure complete possession and title to the abandoned portions, and whether the State Highway Commission or any other public body has the power to vacate a portion of highway where such vacation or abandonment would reduce or eliminate a property owner's frontage on the public highway. On motion by Mr. Stewart, seconded by Mr. Kidde, the opinion was ordered referred to the Right of Way Division for consideration and report.

Route 4, Waretown.

The Secretary presented a petition signed by numerous residents of Waretown, urging the State Highway Commission to maintain that portion of State Highway Route 4 passing through Waretown in its present location, for the reasons that it would enhance local property and the new line would destroy property and involve an expenditure of considerably more money. In this connection, the Secretary presented a communication from S. P. Leeds, enclosing a letter from Rhoda H. Brown and from Martha B. Richert, urging that Route 4 through Waretown be maintained on the present location. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the communications concerning Route 4 through Waretown be acknowledged, and that the local people be advised that this matter has been very seriously considered by the State Highway Commission, and the new line will, in fact, involve less cost to the State than to continue on the present route, and further that it is the policy of the Commission, where possible, to avoid the main streets and that such a policy would prove of value to that community in the future.

Lighting-Highland Park Hill.

The Secretary presented a communication from the Borough Clerk of Highland Park, forwarding a resolution adopted by the Borough Council, to the effect that the Light Committee is authorized and instructed to enter into a contract with the Public Service Electric Company for the installation of arc lights on the Raritan Avenue Hill between the Albany Street Bridge and Cedar Avenue, providing, however, that said lights shall not be installed until the State Highway Commission has first installed new lights on the Albany Street Bridge. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered acknowledged and a copy of the action as taken at the last meeting of the Commission concerning the lighting of the Albany Street Bridge, was ordered forwarded to the local authorities.

Route 4, General.

The Secretary presented a communication from Mr. F. F. Richardson, County Counsel of Middlesex County, inquiring as to whether a certain form of wording was attached to resolutions taking over portions of Route 4, whereby provisions are made for change in Route within five years from completion of highway in its entirety. The Secretary informed the Commission that in compliance with the previous letter he had forwarded to Mr. Richardson a route book in which the form of communication, as forwarded to each community concerning the taking over of certain portions of Route 4, was included. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission ordered the communication received and directed the Secretary to advise Mr. Richardson to refer to the route book as mailed him for the information required in his letter.

Trolley Tracks-
Route 5, Madison-Chatham.

The Secretary presented a communication from Mr. W. H. Hosking, Clerk to the Board of Freeholders of Morris County, advising that the Board of Freeholders had requested him to communicate with the State Highway Commission, calling their attention to the extremely dangerous conditions of the Morris County Traction Company's right of way through Madison and Chatham and at Morris Plains.

In this connection, the Secretary presented a communication from Senator Arthur Whitney of Morris County, transmitting a communication from Mr. H. A. Mitscher, calling attention to the condition of the highway between Madison and Chatham between the trolley tracks where traffic was, of necessity, forced to go on account of the snow being piled to the side of the highway on either side of the trolley tracks. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the action as taken on March 18, 1924, concerning Route 5 in Madison and Chatham, be reiterated to the Morris County Board of Freeholders and to Mr. Mitscher, to the effect that when funds are available the State Highway Commission will share 60 percent of the cost of the improvement of the trolley track area provided the county and municipality will share the remaining 40 percent and if it is possible to force the trolley company to share any of this amount that the money be distributed proportionately.

Route 10, Bluff Road;
Marking-State Highways.

The Secretary presented a communication from the Palisades Improvement Association in reply to that of the State Highway Commission for a suggestion as to some other means than fences for the designation of property owned by the State on Bluff Road on Route 10. The suggestion was made that the fences be removed and that smaller signs and "V" shaped pegs be placed throughout the area owned by the State. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that a report be submitted concerning the amount of property which the owners have not yet repurchased from the State, and also photographs as to the physical conditions now on the ground, same to be presented at the next meeting.

Route 7, Alignment-
Hightstown-Asbury Park

The Secretary presented a communication from Mayor Thompson of Hightstown, requesting that the Commission consult with the Borough Officials prior to deciding finally upon the relocation of Route 7 from Hightstown to Asbury Park. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission directed that Mayor Thompson be advised that they will be very glad to notify him when the matter of relocating Route 7 is taken up for consideration.

Right of Way-Amboy Bridge

The Secretary presented a communication from Hon. William Newcorn, special counsel in the Donnell Property case, advising as to the bill referred to him for jury fees and mileage in the recent appeals filed between the State and the W. J. Donnell Lumber Company. Judge Newcorn advised that this bill should be paid by the State with the exception of an item of $250.00; 50 percent of which he believed should be paid by the W. J. Donnell Lumber Company.

Judge Newcorn also made inquiry as to a bill filed by him for services rendered in this connection in the amount of $4,000.00. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that the Sheriff of Middlesex County be advised that the State Highway Commission will share one-half the cost of the jury fees and mileage in the recent appeal on the Donnell property case and that the Connell Company should be billed for the balance.

Commissioner Kidde stated that with reference to the bill rendered by Judge Newcorn, he would be unwilling to approve any further bills at this rate of compensation. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the payment of the bill as submitted by Judge Newcorn for services rendered in connection with the condemnation proceedings against the W. J. Donnell Lumber Company, in the amount of $4,000.00.

Offices-State Highway

State Highway Engineer Sloan presented to the Commission the matter of the continuation of the New York offices of C. W. Hudson, Supervising and Designing Engineer on the New Amboy Bridge, and the matter was held in abeyance without any definite action being taken.

On motion by Mr. Kidde, seconded by Mr. Stewart, the meeting recessed at 1:00 P.M. to meet in regular session at 2:00 P.M. when the representatives of the Erir Railroad Company would be present for a conference with the State Highway Commission concerning Route 1 Extension through Jersey City. The meeting was resumed at 2:00 P.M. as agreed with the same members present as at the morning session.

Route 1 Extension, Jersey City.

The Commission immediately went into conference with Mr. R. C. Falconer, Chief Engineer of the Erie Railroad Company, Mr. Minard, Chief Counsel for the Erie Railroad Company, Mr. Coulomb, Assistant Attorney General, and Assistant Construction Engineer Lavis. This conference was concluded at 4:00 P M. with the understanding that Mr. Falconer would render an engineering decision to the State Highway Commission at its meeting on Tuesday next, concerning the propositions as made.

Trees-Route 3.

The Secretary informed the Commission that Mrs. Lee Davis, Chairman of the Legislative Committee of Women's Clubs of New Jersey, was present and desired a hearing. On motion, duly seconded, a hearing was granted. Mrs. Davis appeared and stated that she had been importuned by the Women's Clubs along Route 3 in the vicinity of Hammonton to urge upon the State Highway Commission to save trees along the State Highway at that point. Chairman Scott outlined for Mrs. Davis the consideration given by the State Highway Commission to the question of shade trees at Hammonton and State Highway Engineer Sloan advised Mrs. Davis that already 90 percent of the property owners had expressed a desire to have the trees removed in order to widen the roadway. Mrs. Davis stated that a Mr. McDougall and a Mr. Parkhurst were most directly interested and she would convey the information given her to the Hammonton community.

Legislation.

The Secretary presented a memorandum submitted by Mr. Edward Kenny of East Newark, urging the Commission to push Assembly Bill 395 for the taking over of highways in Hudson County. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received and placed on file.

Route 3 Widening, Absecon.

The Secretary presented a communication received from the Absecon Improvement Association commending the State Highway Commission for its action in taking over a 100 foot right of way for building a new line of Route 3 through Absecon. In this connection, there were submitted communications from the Atlantic City Realty Company and the Lions Club of Atlantic City. On motion by Mr. Stewart, seconded by Mr. Jelin, the communications were ordered received and acknowledged with thanks.

Naming-State Highways.

The Secretary presented a communication from the Board of Commissioners of Bradley Beach, requesting that the new boulevard from New York to the shore district be designated as "Bradley Boulevard" in memory of James P. Bradley, founder of the City of Asbury Park and the Borough of Bradley Beach. On motion by Mr. Stewart, seconded by Mr. Jelin, the communication was ordered received and the Borough advised that such designation can only officially be made by the legislature.

Invitations.

The Secretary directed the attention of the Commission to the invitation extended by the Progressive Club of Lakewood, to be held at Laurel-in-the-Pines Hotel on Wednesday Evening, March 4th at 8:00 P.M. to which Chairman Scott and Commissioner Jelin had signified their intention of attending.

Detours-Route 5.

The Secretary presented a communication from the Town of Dover, requesting permission to establish a detour for certain sections of Route 5, Blackwell Street, Dover, during the construction of sewers. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the establishing of a detour on Route 5, Blackwell Street, Dover, subject to the same being property marked and maintained in good passable condition by the Town of Dover.

March 3, 1925.

Route 4, Cooper Bridge, Red Bank.

The Secretary presented a communication from the Rotary Club of Red Bank, requesting a hearing before the State Highway Commission with reference to the new Cooper Bridge at Red Bank. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that they be advised that the State Highway Commission will be very glad to grant a hearing, but would suggest that before any proposition is presented that they obtain information from the Board of Commerce & Navigation as to what the possibility was for approval by that Board in the event the State Highway Commission could consider the installation of a dam at the Cooper Bridge at Red Bank, and further requesting that such information be received within a reasonable time in order that plans may not be held up for the work.

Right of Way-Entrance Road, Camden Bridge.

State Highway Engineer Sloan requested information as to what disposition would be made of the N. Z. Graves property matter on the Camden Bridge Boulevard. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the receiver for the Graves Company be requested to appear before the State Highway Commission at its next meeting in order that at that time all estimates be in hand in order that the same may be discussed, leading to a consumation of negotiations. Mr. Kidde suggested that Right of Way Engineer Meeker, who had been at work on this proposition, be present at that time.

The Schedule of Business was next taken up item by item as follows, with the recommendations of the State Highway Engineer.

Route 2, Section 4A, Burlington Cut-off

The State Highway Engineer submitted report of bids received for Route 2, Section 4A, Burlington Cut-off, as follows:

Freehold Construction Company	$ 93,344.35
Michael Staub	95,807.40
William Eisenberg	96,449.00
Acchione & Canuso	98,008.00
Walter S. French	98,077.70
Fish-Rutherford, Inc	100,560.40
Sutton & Corson	101,182.30
Barrett Construction Co	103,617.50
E. Riley Mixner Co	104,741.00
T. M. Gibbs Construction Co	109,619.38
Sutton Contracting Co	110,732.50
T.J.M. Contracting Co	113,390.90
John M. Reuter	121,392.10

March 3, 1925.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission adopted the following resolution:

> RESOLVED, that the contract for the construction of Route 2, Section 4-A, Burlington Cut-off, be and the same is hereby awarded to the Freehold Construction Company of Freehold, New Jersey, the lowest bidders, at their bid price of $93,344.35, and
>
> BE IT FURTHER RESOLVED that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

T. M. Gibbs Const. Co............	131,736.35
R. B. Cahill, Inc................	157,834.40

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission adopted the following resolution:

RESOLVED, that the contract for the construction of Route 4, Section 28, Waretown-Barnegat section, be and the same is hereby awarded to the Union Paving Company of Philadelphia, Pa. at their lowest bid of $117,962.14, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 5, Section 15.

Plans and specifications were reported completed and approved by the State Highway Engineer for Route 5, Section 15, Farmers Hotel-Millburn Avenue, Springfield, and he recommended that the same be approved for advertisement.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved the following resolution.

RESOLVED, that plans and specifications for the construction of Route 5, Section 15, Farmers Hotel-Millburn Avenue section, be and the same are hereby approved.

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the Chief Clerk is directed to place the necessary advertisements for this work.

Route 11, Section 8.

Plans and specifications were reported completed and approved by the State Highway Engineer for Route 11, Section 8, Kingsland Road, Nutley, and he recommended that the same be approved for advertisement. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the following resolution:

RESOLVED, that plans and specifications for the construction of Route 11, Section 8, Kingsland Road, Nutley, be and the same are hereby approved, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer, and the Chief Clerk is directed to place the necessary advertisements for this work.

Right of Way-Entrance Boulevard
Camden Bridge Approach

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved a purchase agreement for the acquisition of property from the Singer Phonograph & Furniture Company, known as Parcel No. 29 on the Entrance Road to the bridge at Camden, for the consideration of $3,108.45.

Right of Way-Route 3

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved the purchase of Parcel 119 on Route 3, Section 12, from Rodney S. Hall, for the consideration of $8.85.

March 3, 1925.

Right of Way-Route 4.

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved the purchase of the following parcels of property on Route 4 for the consideration of $1.00. A letter of thanks was ordered forwarded:

Parcel 78,	Route 4,	Section 27,	Cordelia Wainwright -	$1.00
" 5,	" 4,	" 28,	Harriet & Geo.Camburn	1.00

Right of Way-Route 5.

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved the purchase of Parcel 1 from Harry Collit, on Route 5, Section 15, for the consideration of $732.50.

Right of Way-Route 14.

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved the following purchases of property on Route 14, Section 8:

	Parcel 67,	Ida M. King, owner,	consideration $21.00
*	" 69,	Wesley I. and Elizabeth Bates,	" 75.00
	" 73,	C. Edwin Hunter, et ux	" 1.00

*On Parcel 69 the State is to pay for removal of encroaching building when required.

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved the purchase of Parcel 4 on Route 14, Section 10, for the consideration of $15.30.

Right of Way-Route 16.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the purchase of Parcel 4 on Route 16, Section 5A for the consideration of $266.00.

Right of Way-Route 14.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the purchase of Parcel 78 on Route 14, Section 11, from William G. Moore, for the consideration of $1.00, plus the condition that the State is to reset the encroaching building in case the township or any other authority, at any time in the future, takes possession of the strip of land for any purpose, implying also the purpose of constructing sidewalks.

Route 2, Section 5.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved the acceptance of a communication from the Public Service

Railway Company and the State Highway Commission in relation to the improvement of State Highway Route 2, Section 5, Park Avenue, Bordentown.

Right of Way-Route 18-North.

There was presented a communication from Major W. A. Welch, General Manager, Palisades Park Commission, transmitting a copy of letter forwarded by him to the Phelps Estate, with relation to property needed for Route 18-North. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication was ordered received with thanks, and the Secretary was directed to inform Major Welch that the Commission will await further reports with interest.

Route 4, Waretown.

There was presented a communication from John L. Hall, as forwarded to Governor Silzer, urging the improvement of Route 4, through Waretown, on the existing line. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that Mr. Hall be advised that the realignment has been decided on by the Commission for the fact that it is a desire to keep away from the main streets of the towns, and also it will be less in cost than on the existing line.

Amboy Bridge-New

State Highway Engineer Sloan presented to the Commission a recommendation from the Construction Division for a change in plan order made necessary by the demand of the C. Pardee Tile Company for three additional entrances on the North approach to the Perth Amboy Bridge. This is in accordance with agreement entered into with the tile company and necessitates an extra in the amount of $2100.00. On motion by Mr. Stewart, seconded by Mr. Jelin, the recommendation of the State Highway Engineer was ordered approved.

Tree Planting

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that a communication from W. H. Connell, Engineering Executive and Deputy Secretary of Highways of the State of Pennsylvania, transmitting information concerning tree planting in his State, be acknowledged with thanks and filed for further consideration.

March 3, 1925.

Right of Way-Route 1 Extension.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved the payment of bill rendered by Percy A. Gaddis, in the amount of $1,050.00 for the appraisals made in the two blocks from Jersey Avenue to Monmouth Street, Jersey City, on Route 1 Extension.

Right of Way-Route 1 Extension

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission referred a bill rendered by James F. Gannon & Son for appraisals on the Bowen Estate property on Route 1, Hackensack River Bridge, to Assistant Attorney General DeVoe for investigation and report as to correctness of the charges contained therein.

Employments

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved the following additions and changes in the personnel as made by the State Highway Engineer since the last meeting.

Employed

2-19-25	John J. Brown,	Bridge Const. Insp.	$165.00 mo.

Maintenance Materials-Hunterdon Co.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved the specifications for Tar, Oils, Slag, Gravel and Stone, on Hunterdon County maintenance work for 1925.

Maintenance Materials-Warren County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the specifications for Bitumen and Washed Gravel on Warren County maintenance and repairs for 1925.

March 3, 1925.

Fort Elfsburg-Salem Road.

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved the plans and specifications for Fort Elfsburg-Salem Road, Salem County, Motor Vehicle Aid.

Main St., Pennington.

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved the plans and specifications for Main Street, Pennington Borough, Mercer County, Motor Vehicle Aid.

Federal Aid-Hunterdon County; Ringoes-Flemington Road

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved the Federal Aid Project Statement for the construction of the Ringoes-Flemington Road, Hunterdon County work, to be performed with State Aid

Federal Aid-
Route 4, Section 26.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved the Project Agreement for Federal Aid Project 74A, on Route 4, Section 26, Toms River-Cedar Creek.

Township Aid-Atlantic County

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved the proposition of Weymouth Township, Atlantic County, to allow the contractor now at work on Buena-Tuckahoe Road, Section 4, to expend the funds appropriated on Cumberland Avenue, at the same price bid by him on the Buena-Tuckahoe Road.

Township Aid-Ocean County

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the plans and specifications for work on Long Beach Streets, Long Beach Township, Ocean County, Township Aid.

Township Aid-Morris County

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved extension of time for Main & Central Avenues, Passaic Township, Morris County, to August 9, 1924, the date of completion, and also authorized final payment on the work.

Township Aid-Essex County

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved plans and specifications for Cedar Street, from Pompton Avenue to Ridge Road, Cedar Grove Township, Essex County, Township Aid.

Maintenance Materials-Union Co.

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the specifications for maintenance and repair materials in Union County for 1925.

Maintenance Materials-Bergen Co.

On motion by Mr Jelin, seconded by Mr. Stewart, the Commission approved the maintenance and betterment schedule of Bergen County for 1925.

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the specifications for maintenance and repair materials for Bergen County repairs in 1925.

Manhattan & Tonnelle Ave., Hudson Co.

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved the plans and specifications for Manhattan and Tonnelle Avenues, Hudson County, Motor Vehicle Aid.

Detours-Route 5.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the adoption of the following official detour for Route 5, Section 15, and Section 15A, from Farmers Hotel to Irvington:

> Beginning at a point where Route 5 is intersected by 40th Street in the Town of Irvington, near the westerly town line and runs thence '1) southwesterly over 40th Street and Stuyvesant Avenue through Irving Place to Union; thence (2) northwesterly over Morris Avenue to Main Street, Springfield; thence (3) northerly over Main Street to Milburn Avenue, Milburn; thence (4) southwesterly over Milburn Avenue to Route 5 at the Farmers Hotel.

Crescent Boulevard, Camden Extension

Chairman Scott advised the Commission that, having been informed of the action taken at the meeting held at Haddon Hall, on Friday, February 27, 1925, on the matter of the adoption of the"Inside Line" for the Crescent Road Extension of Routes 2, 3, and 6 to the bridge at Camden, he desired to add his vote to make the decision unanimous for the adoption of this line from Route 2 to the connection with the Entrance Boulevard.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was adjourned at 5:45 P M. to meet in regular session on Tuesday, March 10th at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary

MINUTES OF MEETING - March 10, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, Tuesday, March 10, 1925. The meeting was called to order at 10:30 A. M. by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Right of Way, Entrance Boulevard

Immediately upon opening, the Commission went into conference with Mr. Frank Schroth, the receiver for the property of N. Z. Graves Company, in Camden, on the line of the Camden Bridge Boulevard. Following this conference no official action was taken on this matter.

Route #16, South Somerville, Grade Crossing Elimination

The Secretary informed the Commission that he had received a telephone communication from the Board of Freeholders of Somerset County, requesting opportunity to appear before the Commission with further reference to the South Somerville Grade Crossing Elimination on Route #16, before any definite action is taken by the Commission. He also presented a communication from the Somerset County Board of Freeholders, renewing this request. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that a hearing be granted at the next regular meeting of the Commission.

Commendations

The Secretary presented a communication received by Chairman Scott from the Absecon Improvement Association, quoting an editorial from the Atlantic City Daily Press, commending the State Highway Commission on its action in taking over a hundred foot right of way through Absecon. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received and placed on file.

Right of Way, General

The Secretary presented a communication from Hon. F. W. DeVoe, Assistant Attorney General, advising that he has discussed the matter of allowance to be made to tenants who have suffered damages on property acquired by the State for right of way, and he would recommend that such rights be paid for. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that Mr. DeVoe be requested to prepare an opinion with the approval of the Attorney

General covering this matter, in order that the same might be on record in the event further proceedings of this character are brought before the Commission.

Proposed New Routes

The Secretary presented a resolution from the Mercer County Board of Freeholders, urging the State Highway Commission to take over as soon as possible that section of State Highway Route between Trenton and Pennington in Mercer County. A similar resolution was presented from the Borough of Pennington. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the communication be received and the same be filed with the advice that the Commission cannot see its way clear to take over any further state highways until funds for the same are made available.

Request for Aid, Hackettstown

The Secretary presented a communication from the Street Committee of Hackettstown, requesting aid for the Borough on two sections of road, one form the Fountain in Hackettstown to Route#5, and the other from Hackettstown toward Rockport. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Borough of Hackettstown be advised that borough aid may be applied to one of these sections if request is made in proper form.

~~Shade~~ Trees, Route #3

The Secretary presented a communication received from the Egg Harbor City Tree Commission, advising that they have, during the past two years, planted quite a number of trees along the White Horse Pike, and inquiring as to whether the State Highway Commission intends to widen through Egg Harbor and as to what disposition would be made of the trees which they had planted. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that they be advised that it appears at the present time that it may be necessary within a few years to widen to forty feet, but the State Highway Department has no definite plans in contemplation now.

Institutional Roads

The Secretary presented a resolution from the Common Council of Glassboro, urging the improvement of the approach to the State Normal School, in which they offer to pay one-half the cost of such improvement providing the State would pay for the remainder. On motion by

Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the resolution be acknowledged and that they be advised that the Commission will be very glad to give their request consideration as soon as funds are available, but that at the present time the Commission cannot see its way clear to give aid as requested.

~~East~~ Landis Avenue, Vineland

The Secretary presented a communication from Hon. William Chambers, concerning East Landis Avenue which runs in front of the State Institution for Feeble Minded at Vineland. State Highway Engineer Sloan informed the Commission that he had prepared estimates showing the various types of improvement that might be used on East Landis Avenue, Landis Township, and he stated that he would recommend that the State share in the cost of repairs to the present pavement at an estimated cost of $7,000.00. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that Mr. Chambers be advised that the Commission will approve of the recommendation of the State Highway Engineer and enter into an agreement with the Borough of Vineland whereby the State will share one-half the cost of repairs to be made on East Landis Avenue, in order to provide for traffic to the State Institution for Feeble Minded at Vineland.

Route #2, Burlington

The Secretary presented a resolution from the City of Burlington, requesting the State Highway Commission to widen Route #2 between Wood St. and Federal Street, to a width of 66 feet. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission ordered the matter referred to the State Highway Engineer for investigation and report.

The schedule of business was next taken up for consideration, item by item, as follows; with the recommendations of the State Highway Engineer:

Alloway Creek Bridge, Route 6 Salem County

Plans and specifications were reported completed for the removal of the existing highway bridge and the construction of a new bridge over Alloways Creek, M. P. 3.78 on State Highway Route #6, Salem County. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

March 10, 1925.

RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the removal of the existing highway bridge and the construction of a new bridge of bob-tailed swing span eighty-nine feet, six inches, center to center of bearings, to provide for a thirty foot clear channel; clear roadway with a six foot extension for sidewalks and concrete approaches, over Alloways Creek, M. P. 3.7S, State Highway Route #6, Salem County, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer, and the Chief Clerk is directed to place the necessary advertisements for the work.

Route #7 Section #4

The State Highway Engineer presented the following report of bids received for Route #7, Section #4, Colt's Neck-Jerseyville, and he recommended award of contract to William Eisenberg, the lowest bidder at $143,996.66.

William Eisenberg	$ 143,996.66
John J. McGreevey	146,833.14
Union Paving Co.,	146,974.90
P. Camillo & Co.	151,028.03
Freehold Const. Co.	152,074.64
R. B. Cahill Co.	158,557.29
Jannarone Cont. Co.	159,391.38
Liddle & Peiffer	159,808.26
J. M. Reuter	161,061.56
Sutton & Corson	163,207.79
Utility Const. Co.	169,885.70
Jos. F. Burke	175,019.74
T. M. Gibbs Const. Co.	177,227.73

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route #7, Section #4, Colt's Neck-Jerseyville section, to William Eisenberg of Camden, at his, the lowest bid received in the amount of $143,996.66, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Route #11, Section #10

The State Highway Engineer presented the following list of bids received for the construction of Route #11, Section #10, Washington Avenue, Nutley, and he recommends that the award be made to the Standard Bitulithic Company, at their's the lowest bid, in the amount of $55,886.50.

Standard Bitulithic Company	$ 55,886.50
J. B. Gilligham-Casey Company	57,919.00
Franklin Contracting Company	59,830.20

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of

Route #11, Section #10, Washington Avenue, Nutley to the Standard Bitulithic Company at their's the lowest bid received in the sum of $55,886.50, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Right of Way,
Crescent Boulevard

There was presented to the Commission a report advising that Mr. Charles P. Jessup and Mr. R. D. Baker, who have been acting for the State as appraisers on property required for the extension of Routes 2, 3 and 6 to the Bridge Plaza at Camden, have given satisfaction and the State Highway Engineer recommends that the arrangement at the price of $20.00 for each parcel appraised be extended to cover all the property required for this operation and that arrangements with the West Jersey Title and Guarantee Company for the title work at a price of $45.00 for each parcel be approved. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of the State Highway Engineer concerning the appraisals and searching of titles to property required for the extension of Routes #2, #3, and #6 to the Bridge Plaza at Camden.

Right of Way, Route #3

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel #39 on Route #3, Section #11, from Donald Chapman, for the consideration of $51.55.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of the following Parcels of property on Route #3, Section #12, Egg Harbor-Hammonton:

Parcel	#152 & 152A-B-C,	Pietro Barbone, consideration	$14.85
"	#109	Josephine M. Curtis, "	7.35

Right of Way, Route #4

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel #7 on Route #4, Section #27, from Joseph Robbiani and Wife, for $1.00 with an expression of thanks.

On motion by Mr. Jelin seconded by Mr. Kidde, the State Highway Commission approved the acceptance of quit claim deeds for the following Parcels of property on Route #4, Section #27, Forked River-Cedar Creek:

March 10, 1925.

Parcel #29,	Sarah L. Wallace,	consideration	$1.00
" #30,	Margaret Blake (widow)	"	1.00
" #32,	Fred B. Gowdy & Wife	"	1.00
" #36,	Estate of Gussie Bunnell	"	1.00
" #41,	Leonard & Bessie Mathews	"	1.00
" #42,	Nathan D. Aspimwall & Wife	"	1.00
" #46,	Stanwood Cornelius	"	1.00
" #51,	William Imley & Wife	"	1.00
" #54,	Charles & Margaret Jackson	"	1.00
" #59,	John S. Holmes & Wife	"	1.00
" #60A	August C. Christensen	"	1.00
" #60B	Fred T. Brouwer	"	1.00
" #77,	Hester Penn Briggs & Husband	"	1.00

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Engineer approved the purchase of Parcel #3 on Route #4, Section #28, Barnegat-Waretown Section, from W. S. Corliss and Wife, for the consideration of $1.00.

Right of Way, Route #11

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of Parcel #6 on Route #11, Section #8, from Mary B. and W. E. Erler, for the consideration of $1,250.00.

Scales

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved a form of lease to be entered into with the P. R. R. for land near Five-Points at Rahway, on Route #4, now occupied for weighing scales, the construction of which scales at that location was approved by the State Highway Commission on November 10, 1924. The rental price under this lease will be $15.00 per year.

Right of Way, Route #14

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved a revised agreement with Aaron Delancey for Parcel #5 on Route #14, Section #9, Ocean View-Seaville, in the amount of $200.00, the owner to perform all the work in connection with the damage to his property, including the necessary fills, at his own expense; this approval being a cancellation of an agreement now in force requiring the State to make the fills and perform other work.

Right of Way, Route #9

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the purchase of the authorization of necessary deeds from the Bound Brook Compay Inc., to convey as much of lots #1607 and #1626 on block #40, and lots #11733 on block #41 of the Watchung Estate, as required for change in location of Route #9, Section #10, at Bound Brook; the consideration to be $25.00, which is to cover the legal expenses.

Route #1 Widening, Roselle

There was presented a report from the State Highway Engineer concerning the plans of the Borough of Roselle for additional width of paving, in which it was contemplated by the Borough of Roselle that the State Highway Department would require an existing header to be removed, which removal is estimated to cost $1200.00. He recommended to the Commission that in view of the fact that specific instructions were not given at the time of the approval of the plans that the header must be removed, that the State contribute not exceeding 50% of the cost of such work to the Borough. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of the State Highway Engineer.

Route #9, Widening, Cranford

Commission Stewart took occasion to inquire as to what progress was being made in the matter of the widening on Route #9, in Cranford, and State Highway Engineer Sloan advised him that delays were due to the fact that the local authorities have not been able as yet to secure the necessary property. Commission Stewart then requested that some effort to made to spur this work.

Entrance Boulevard,
Camden Bridge Approach.

There was presented a communication from the Keystone Leather Company requesting the State Highway Commission to permit the erection of a Conveyor across the proposed Camden Bridge Boulevard, at their property, and also requesting information regarding drainage structures. State Highway Engineer Sloan recommended to the Commission that they be notified that a permit will be issued if satisfactory plans are presented. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the Keystone Leather Company be advised that the Commission recognizes the necessity of some appliance being installed by them to transport materials across the highway, and when satisfactory plans are presented and approved, the permit will be issued; also as to their inquiry concerning drainage at their property, the State Highway Commission will make provisions in order that the existing drainage structures are properly taken care of.

Route #10, Section #1A

The State Highway Engineer presented a communication from Mr. Henry Vogt, expressing a desire to purchase from the State a parcel of property on the bluff at Route #10, Section #1A, and he recommended to the Commission that Mr. Vogt be advised that the property is not for sale at this time. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that Mr. Vogt be notified that at the present time the property being considered by him is not for sale by the State.

Lighting, Route #10

Commissioner Kidde, in discussing Route #10, Section #1A, inquired as to what disposition was being made of lighting agreement on the steep approaches and he suggested that investigation be made as to whether it might be possible to eliminate all the lighting on this stretch except that which is on the very sharp curves and he moved that this matter be investigated. This was seconded by Mr. Jelin and adopted.

Ocean City-Somers Point Road

The Secretary informed the Commission that Mr. E. M. Sutton, Mr. Champion, and Mr. Massey of Ocean City, were present in accordance with a hearing granted at the request of Senator Bright, with further reference to the paving of the Ocean City-Somers Point Highway. On motion, duly seconded, a hearing was granted. Mr. Sutton addressed the Commission and advised that the delegation was interested again in presenting all the facts concerning the Ocean City-Somers Point Road, as they were very anxious to have the State Highway Commission pave this road with a hard surface, thus giving Ocean City a hard surfaced entrance. He stressed the fact that Ocean City was responsible for one-third of the ratables of Cape May County and that thousands of travelers go through Ocean City every year. He advised that the oil treatment given by the Commission last year had developed a considerable number of holes and ruts which were unsatisfactory, although he admitted the road during this winter was better than ever before. He suggested that in line with the suggestion of the Commission made last year that they would pay 50% of the cost, an effort was made to secure aid from the County and from the City but they had been informed by local authorities and also by retained counsel to the effect that it is impossible for them to contribute to the State any of their money for road improvement.

Commissioner Kidde inquired as to whether they had given any thought to making a request of Cape May County to the effect that the Statemight retain from their Motor Vehicle allotment a sum sufficient to pay one-half the cost of this improvement in the County. He also offered a suggestion that it might be possible for the State to return this road to the County authorities in order that the County might improve the road with its own funds.

Mr. Sutton asked whether it would not be possible for the State to add an additional sum from this year's funds in order that the State can complete this improvement.

Mr. Champion who was former Director of the Board of Freeholders of Cape May County, urged the Commission to improve this road and advised that while there was a direct route in Cape May County, the bulk of the traffic was divided between Wildwood and Ocean City.

Mr. Massey informed the Commission that he did not believe it good policy for the State to have paid a large sum for the road when it was freed from tolls and to return it to the County. He further stated that it appeared to him that it would be a better investment for the State to hard surface the road, thus eliminating further expense maintenance, rather than to expend a large sum each year in temporary maintenance work.

Chairman Scott informed the delegation that the State Highway Commission regretted very much that it was impossible at this time to allot any funds to this improvement, but it was the feeling of the Commission that with additional treatments of SCO over a period of several years that there would be developed on this section a surface which would be to all intents and purposes equivalent to a hard surface road as far as this section was concerned and he asked that the delegation consider this as the proposition.

Detours, Route #5

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the adoption of the following official detour during the construction of bridge at M. P. 32.6-5, Morris Canal Kenvil Section:

> "Beginning at the intersection of Route #5 and Main Street, Kenvil, and running southerly over Main Street approximately two-tenths of a mile to Corwin Street: thence westerly over Corwin Street approximately four-tenths of a mile to Highland Avenue; thence northerly approximately two tenths of a mile over Highland Avenue to Route #5."

Detour, Route #2

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the adoption of the following official detour during the construction of Route #2, Section #4-A in the City of Burlington:

> "Beginning on Bordentown Avenue in the City of Burlington, at a point about 500 feet West of the City line where the new alignment of Route #2 intersects the same and runs thence (1) westerly along Bordentown Avenue and Broad Street to Washington Avenue; thence (2) southwesterly over Washington Avenue to Camden Avenue; thence (3) over Camden Avenue to the end of the new alignment of Route #2 at Beverly Road."

Request for Hearing-Glassboro

There was presented a report from the State Highway Engineer in connection with the additional width of pavement necessary through the Borough of Glassboro on Route #20. The Secretary informed the Commission that a request had been made by the Glassboro authorities for a hearing before the Commission prior to any action being taken concerning the work on Route #20 through Glassboro. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that a hearing be granted to the citizens of Glassboro on Tuesday, March 24th at 10:30 A. M.

Signs

There was presented a communication from Mrs. E. E. Wood, protesting against the installation of a concrete sign post on State Highway Route #14 at her property near Cape May Court House. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that Mrs. Wood be asked to advise the Commission of there is some other point that she has in mind in that particular locality where the sign could be moved, and that she be advised that it is essential that sign posts be erected in conspicuous places.

Offices, State Highway

The State Highway Engineer presented to the Commission a report concerning a suggested change in office location for the Northern Division offices in Newark. On motion by Mr. Jelin, seconded by Mr. Stewart, this matter was ordered held in abeyance until a later date.

Navesink River Bridge, Route #4

The State Highway Engineer reported plans and specifications complete for a new highway bridge of 38 feet clear roadway over the Navesink River on Route #4 at M. P. 90.8 near Red Bank, commonly known as Cooper Bridge and he recommended approval of advertisement by the Commission. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission adopted the following resolution:

> RESOLVED, that plans and specifications are hereby approved for the construction of a highway bridge over Navesink River on Route #4, at M. P. 90.8 near Red Bank, known as Cooper Bridge, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the Chief Clerk is authorized to place the necessary advertisement for the same.

Equipment, State Highway

There was presented a recommendation from the Superintendent of Plant and Equipment for the purchase of 20 tractor graders of the Fordson type, at an estimated cost of $1,800.00, this equipment to take the place of heavy tractors, thus reducing operating costs. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the purchase of 20 tractor graders as recommended, subject to proper advertisement for bids.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting recessed for lunch at 1:00 P. M., to meet again in regular session at 2:00 P. M. The meeting was resumed again at 2:00 P. M. as agreed with the same members present as at the morning session.

Right of Way-Route #1, Extension.

The Secretary informed the Commission that pursuant to appointments made at the last meeting, Mr. Falconer and Mr. Minard of the Erie Railroad Company were present to confer with the Commission on the matter of the Route #1 Extension through Jersey City. The Commission then went into conference with Mr. Falconer and Mr. Minard, together with Assistant Attorney General Coulomb and Assistant Construction Engineer Lavis until 5:30 P. M. The regular business of the meeting was then resumed as follows:

Township Aid, Cumberland County

There was presented a statement of Township Aid balance still available in Cumberland County, together with recommendations for application of this balance. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the following application of Township Aid for Cumberland County to cover balance available:

Maurice River Township,	Heislerville Road,	$3,000.00.
" " "	Cumberland-Port Elizabeth Rd.,	$1,000.00.
Upper Deerfield Township,	Polk Lane Road,	$2,525.00.

Reimbursement-Cumberland Co.,
Detours, Routes #6 & #15.

There was resubmitted to the Commission the recommendation of the State Highway Engineer that charges for detour maintenance on account of construction of Sections #2 and #3 of Route #15, and Sections #10 and #11 of Route #6, as provided by the County of Cumberland under authorization from the State, be paid for by the State and reimbursed to the County as regular reimbursement charges. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the payment of reimbursement to Cumberland County as recommended by the State Highway Engineer.

Employments

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the following additions and changes as made in the employments since the last meeting of the Commission:

Employed

3/6/25	Anthony Esposito,	Title Searcher,	$150.00	per month.
3/6/25	John J. Hopkins,	Highway Insp.	155.00	" "
2/24/25	Wm. H. Jantz,	Clerk-Stenog.	80.00	" "
3/1/25	H. L. Henderson,	Asst. Civil-Engr.	165.00	" "
3/4/25	Wm. H. Armstrong,	Engineer-Draftsman,	125.00	" "
3/1/25	John H. Davis,	Junior Engineer,	145.00	" "
3/1/25	H. M. Storer,	Highway Inspector,	165.00	" "
3/1/25	Jarrett S. Gennett,	" "	165.00	" "
3/1/25	Harry Johnson,	Junior Inspector,	135.00	" "
3/1/25	M. M. Flynn,	Prin. Clk.-Sten.	115.00	" "
3/1/25	Herbert J. Feinen,	Rodman,	75.00	" "
3/1/25	William Jackson, Jr.	Jr. Engineer,	125.00	" "
3/16/25	Herman Silverstein,	Title Searcher,	150.00	" "
3/4/25	Frank A. Aqundo,	Motor Truck Driver	.45	per hour.
3/2/25	Harley C. Hankins,	Garage Assistant,	.50	" "

Discontinued Employments

3/15/25	Alfred J. Geiger,	Junior Engineer,	Resigned.
3/15/25	Joseph Ross,	Asst. Civil Engr.	Laid Off.
3/16/25	George F. Kidd,	Bridge Designer,	Resigned.

Hammonton-Pleasant Mills,
Motor Vehicle Aid, Atlantic County

On motion by Mr. Stewart, seconded by Mr Jelin, the State Highway Commission approved the contract award on Hammonton-Pleasant Mills Road, Atlantic County Motor Vehicle Aid work.

Wildwood Boulevard,
Motor Vehicle Aid, Cape May Co.,

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the award of contract for the construction of the stone rip-rap protection on the Wildwood Boulevard, Cape May County Motor Vehicle Aid work.

Ross's Corner, - Sussex
Motor Vehicle Aid, Sussex Co.,

The State Highway Engineer presented to the Commission a proposition from the Sussex County Board of Freeholders, requesting approval of plans and specifications for the Ross's Corner-Sussex Road, and asking for a special allotment of $40,000.00 from the State. He also advised the Commission that there is a possibility that the County will not proceed this year with any additional construction on the Sparta-Woodport Road, due to the fact that one-half of this road is now under contract and not yet complete. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the Sussex County Borad of Freeholders be notified that if it is their desire to make no request for aid on the Sparta-Woodport Road, the Commission will be willing to allot the sum of $25,000.00 for work on the Ross's Corner-Sussex Road, as Motor Vehicle from the Reserve Account.

Maintenance Materials-Ocean Co.
Equipment-Ocean County

There was presented a communication from Major Leon Berry, County Counsel for Ocean County, advising concerning the advertisement for grader tractors for Ocean County. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Engineer was directed to communicate with the Ocean County authorities and advise them to the effect that the State Highway Commission will approve the purchase of equipment as suggested provided they add for competition the receipt of bids on the Austin and the Allis-Chalmers graders of this type. In addition there was raised the question of advertisement as already placed by Ocean County for maintenance materials, and Commissioner Kidde moved that the State Highway Engineer advise Ocean County that it will be necessary for them to obtain approval of their specifications for road maintenance materials prior to advertisement being placed for the same. This was seconded and adopted.

March 10, 1925

Equipment-Cape May County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the County of Cape May be requested for information as to the reason for purchasing of a tractor of so heavy a type as five tons, in view of the success being had with tractors of the Fordson type in other counties of the State on gravel roads.

Maintenance Materials, Somerset County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the specifications as submitted for bitumen materials for repair and maintenance work in Somerset County, including asphalts and tars.

Maintenance Materials, Salem County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the specifications as submitted by Salem County for 405,000 gallons of SCO for surface treatment of gravel roads in Salem County.

Maintenance Materials, Cape May County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the award of contracts by Cape May County for delivery of 15,000 tons of gravel for County repair work during 1925.

Motor Vehicle Aid, Essex Co.,

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the Essex County Motor Vehicle maintenance and betterment schedule for 1925.

Township Aid

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the acceptance and final payment of the following township aid routes in the State:

Atlantic County,	Galloway Township,	Great Creek Road, Sec. #2.
Bergen "	Hohokus "	Wyckoff-Ramsey Road.
Camden "	Clementon "	Clementon Erial Road, Sec. #1.
Camden "	Winslow "	Williamstown-New Freedom Rd.
Cape May "	Middle "	Norbury Landing Road.
Cumberland "	Downe "	Penny Island Road.
Gloucester "	Mantua "	Richwood-Pitman Road.
Salem "	Alloway "	Telegraph Road.

Township Aid, Hunterdon County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved plans and specifications for the Pittstown-

Quakertown Road, Section #2, Franklin Township, Hunterdon County, Township Aid.

Township Aid, Burlington County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved a resolution of Chesterfield Township, making additions in the force account agreement on the Crosswicks-Ellisdale Road, to include prices for cinders, trucking and labor on these cinders; same to be enforced from and after February 14, 1925.

Matawan-Freneau Road,
Motor Vehicle Aid, Monmouth Co.,

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award of contract by Monmouth County to S. S. Thompson & Co., on Matawan-Freneau Road, Monmouth County, Motor Vehicle Aid work.

Maintenance Materials,
Monmouth County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the award as made by Monmouth County for Lignin Binder, asphaltic oil and surface tar, be held over for discussion at the next meeting.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission adjourned its meeting at 6:30 P. M. to meet in regular session on Friday, March 13th at the Jersey City offices of the Commission, at 2:00 P. M.

Respectfully submitted
A. LEE GROVER,
Secretary.

MINUTES OF MEETING - March 13, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Trust Company of New Jersey Building, Jersey City, on Friday, March 13, 1925. The meeting was called to order by Chairman Scott at 2:30 P.M.

Present: General H. L. Scott, Chairman, Messrs Percy H. Stewart, Walter Kidde and Abraham Jelin.

Minutes Approved

Commissioner Kidde reported having read the minutes of the meeting of December 17, 1924, and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported having read the minutes of the meeting of December 23, 1924, and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported having read the minutes of the meeting of December 30, 1924, and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported having read the minutes of the meeting of January 6, 1925 and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported having read the minutes of the meeting of January 13, 1925 and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported having read the minutes of the meeting of January 27, 1925, and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported having read the minutes of the meeting of February 3, 1925, and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported having read the minutes of the meeting of February 10, 1925, and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported having read the minutes of the meeting of February 17, 1925, and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported having read the minutes of the meeting of February 26, 1925, and moved that the same be approved as mailed.

This was seconded by Mr Stewart and adopted.

Commissioner Kidde reported having read the minutes of the meeting of March 3, 1925, and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde reported having read the minutes of the meeting of March 10, 1925, and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Chairman Scott arose to state that this meeting marks the close of two year's service since the State Highway Commission started on this enterprise. He went on to say "The high-minded and considerate manner in which you have treated me has been a source of great honor and satisfaction to me. You have honored me with the Chairmanship of the State Highway Commission for two years. I think it a remarkable thing that a Commission composed of men engaged in so many different businesses as are included in this board, should have come along this way for two years with our decisions practically unanimous. I regard this as due to your fidelity to the best interests of the State and to the fact that we are all working to that end without any ulterior motives or purposes of our own. I have very much enjoyed your confidence and friendship. There is, however, one thing that I want to point out: and that is that, in our reorganization of the State Highway Commission, which must take place to-day for legal reasons, there is such a thing as rotation in office, and to remind you that I have no life right in the office of Chairman of the State Highway Commission."

Commissioner Jelin moved that the State Highway Commission adjourn as existing and immediately convene for the purpose of organization for the new year. Mr. Stewart seconded this motion, and the same was unanimously adopted.

Organization Meeting

Commissioner Stewart nominated General Scott as temporary Chairman for purpose of organization. This was seconded by Mr. Jelin and adopted.

Chairman Scott then stated that in accordance with the requirements of the law, he would receive nominations for the office of Chairman of the State Highway Commission for the ensuing year.

Mr. Jelin stated that it was with pleasure that he nominated General Scott for Chairman of the State Highway Commission for the ensuing year. Mr. Kidde stated that he deemed it an honor to second the nomination of General Scott. Mr. Stewart moved that nominations be closed, which was duly seconded and adopted.

Mr. Jelin moved that the Secretary cast the unanimous ballot of the Commission for the election of General Hugh L. Scott, as Chairman of the State Highway Commission for the ensuing year. This motion was seconded by Mr. Kidde and adooted. The Secretary proceeded to case the unanimous ballot of the Commission for the election of General Hugh L. Scott as Chairman of the State Highway Commission for the ensuing year.

Chairman Scott then thanked the Commission for this continuation of confidence.

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission unanimously appointed A. Lee Grover as Secretary of the State Highway Commission for the ensuing year.

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission unanimously appointed Charles Fishberg as Assistant Secretary of the State Highway Commission for the ensuing year.

The Chairman stated that the Commission would proceed to the consideration of any regular business to come before it.

Route 1 Extension, Jersey City

Commissioner Stewart requested State Highway Engineer Sloan to report on the matter of the alignment of State Highway Route 1 Extension in Jersey City. Major Sloan then read the following report which was ordered spread in full upon the minutes:

> With the completion of the engineering studies of the Thirteenth Street line as compared with the Twelfth Street line, which was originally considered as an approach from the Vehicular Tunnel to the Jersey City Heights, and the preparation of estimates of the necessary real estate involved in the construction of each of these lines, and in further consideration of the relative advantages of the two lines as regards access to the Jersey City streets, together with the estimated cost of the structures involved in each of the cases, I am now in a position to recommend the adoption of the Twelfth Street line for the following reasons:
>
> The property damage in the case of the Twelfth Street line is conservatively estimated to be $500,000.00 less than would be involved in the construction of the Thirteenth Street line;

the Twelfth Street line affords direct and commodious access from the viaduct to the streets of Jersey City which is an essential consideration in view of the probable large amount of traffic which would desire to reach the surface at this point in order to proceed northerly and westerly, which amount will be greatly increased upon the completion of the proposed new bridge from Bergen Point to Staten Island.

The office of the Attorney General has been called into consultation regarding the legal status of this line, and has advised the State Highway Commission of their right to proceed along this line.

In view of the above, I recommend the adoption of the following alignment between the tunnel plaza and a point West of the Hudson County Boulevard; that is to say, starting at the southwesterly corner of Twelfth Street and Jersey Avenue, thence following the southerly line of Twelfth Street, the structure occupying the southerly half of Twelfth Street and private property to Monmouth Street; thence across private property, the center line of the structure being approximately the southerly line of Twelfth Street, produced to a curve to the right to a point under Palisade Avenue, approximately 140 feet northerly from the center line of the four tracks in the open cut of the Erie Railroad (the grade of the finished pavement of the highway at this point being approximately twenty (20) feet below the surface); thence by depressed roadway parallel to the tracks of the Erie Railroad, the center line of said roadway being 140 feet northerly from the center line of the four tracks in the open cut above referred to, to a point near Collerd Street, at which point the line crosses the right of way and tracks of the Erie Railroad, and passing under the Hudson County Boulevard, bears westerly towards Newark.

Commissioner Stewart then read to the Commission the following statement:

The New Jersey State Highway Commission to-day, in a statement issued to the press, places the entire responsibility for whatever delay there may have been in commencing work on the approaches to the Vehicular Tunnel at Jersey City, squarely upon the Erie Railroad Company. Plans and specifications for the proposed viaduct and road through Jersey City have been ready for months and were submitted to the Erie, with the idea of coming to an amicable arrangement in regard to the respective rights of the Erie and of the State of New Jersey in the construction of the proposed approaches, but the action of the Erie, through its representatives or agents, has manifested such an utter disregard of the rights of the public and of the insistent demand that this great improvement for the benefit of all the people of the State shall be made at once, that the State Highway Commission has decided to have no further negotiations with them, which mean delay, and to proceed at once with their work.

At the outset of the negotiations, the Erie advised the Commission that they proposed to totally relocate their yards, which are to be crossed by the viaduct, and that they would submit plans of their new arrangement of tracks so that the Highway Commission could prepare plans for the viaduct which would not interfere with the operation of the railroad yards. Although these plans have been promised repeatedly, the Erie has failed to submit any plans whatsoever for their proposed yards.

Although plans for the roadway through Jersey City adjacent to the Erie cut were submitted to that company months ago - to which they raised no objection at the time - just as the Commission was about to proceed, the Erie demanded that the roadway be moved 15 feet further to the North and away from their cut, because they stated that they might uncover the present tunnel and widen their cut through Jersey City in order to lay further tracks to the North of the present tunnel. The Commission then suggested constructing the roadway on the South side of the present Erie cut, but the Erie then displayed a "dog-in-the-manger" attitude and refused to say which side of the cut they would use for their proposed additional trackage and finally made the statement that they might want to widen the present cut on both sides for additional tracks.

The Commission has laid all these and other pertinent facts before the Attorney General of New Jersey in order to be advised as to the rights of the public in the matter, and the Erie, we are informed, then requested permission to submit a brief to the Attorney General setting forth their position. This brief has never been submitted; this is a further illustration of the selfish and indefensible attitude of the Erie Railroad Company toward the public.

Fortified by the opinion of the Attorney General's office as to the rights of the State of New Jersey, and acting under his advice, the State Highway Commission has determined to-day to proceed at once with the construction of the tunnel approaches along lines laid out by the Commission and its engineers.

Commissioner Stewart moved that the foregoing statement be spread in full upon the minutes and issued to the press. This was seconded by Mr. Kidde and adopted.

Commissioner Stewart then offered the following resolution and moved its adoption:

WHEREAS, the State Highway Commission has heretofore held a public hearing in accordance with the requirements of the law, for the taking over of State Highway Route 1 Extension in Jersey City; now, therefore,

BE IT RESOLVED, that the State Highway Commission of the State of New Jersey does hereby designate the following route for State Highway Route 1 Extension through Jersey City, from the Plaza of the Hudson River Vehicular Tunnel to the Hudson County Boulevard;

Starting at the southwesterly corner of 12th Street and Jersey Avenue; thence, following the southerly line of 12th Street, the structure occupying the southerly half of 12th Street, and private property to Monmouth Street; thence, across private property, the center line of the structure being approximately the southerly line of 12th Street, produced to a curve to the right to a point under Palisade Avenue, approximately one hundred forty (140) feet northerly from the center line of the four tracks in the open cut of the Erie Railroad (the grade of the finished pavement of the highway at this point being approximately twenty (20) feet below the surface) thence, by depressed roadway parallel to the tracks of the Erie Railroad, the center line of said roadway being one hundred forty (140) feet northerly from the center line of the four tracks in the open cut above referred to, to a point near Collerd Street, at which point the line crosses the right of way and tracks of the Erie Railroad, and passing under the Hudson County Boulevard bears westerly toward Newark, and

BE IT FURTHER RESOLVED, that any part or section of State Highway Route 1 Extension through Jersey City, between Marcy Avenue and the entrance to the Hudson River Vehicular Tunnel, heretofore taken over in Jersey City, be and the same is hereby abandoned as a part of the said State Highway Route 1 Extension, and

BE IT FURTHER RESOLVED, that any and all portions of any and all resolutions adopted by the State Highway Commission of the State of New Jersey on December 17, 1924 or any date thereafter, inconsistent with any of the provisions of this resolution, are hereby rescinded and declared to be null and void and of no effect.

This was seconded by Mr. Kidde and unanimously adopted.

Commissioner Kidde then moved that the authorities of the City of Jersey City and the Erie Railroad Company be notified of the action as contained in the foregoing resolution. This was seconded by Mr. Jelin and adopted.

Right of Way-Route 14.

The Secretary informed the Commission that Mr. F. W. DeVoe, Assistant Attorney General, was present to discuss several right of way matters. On motion, duly seconded, a hearing was granted.

Mr. DeVoe presented a report on the property of Laura Lewis and Frank J. Wilson, on Route 14, Section 7, and advised that he had obtained two appraisals in excess of $500.00 and he would recommend payment of $600.00 in settlement for the two cases. State Highway Engineer Sloan advised that the Department had received a signed agreement from these parties to sell the property for $35.00. Mr. DeVoe stated that this was given with lack of understanding. Commissioner Kidde then moved that the matter be referred to Commissioner Jelin for investigation and report. This was seconded by Mr. Stewart and adopted.

Right of Way-Route 9.

Mr. DeVoe reported that investigation was made as to the H. C. Lockwood property on Route 9, Section 12, and he would recommend that the settlement be made at $3,000.00 as requested by the owners, in view of the fact that the condemnation proceedings have been held up due to error in not including a part owner. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that the matter be referred to Commissioner Stewart for investigation and report.

March 13, 1925.

Right of Way-Route 4.

Mr. DeVoe reported that he had negotiated with the Isaac Worth Estate at Lenoka Harbor on Route 4, and it had been determined that the property could not be moved for the $1500.00 allowed. He advised that the owners had agreed to accept $1700.00 and would arrange to take the buildings off the property, either by moving or destroying them entirely. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved the purchase of Isaac Worth property on Route 4 for the consideration of $1700.00, subject to the removal of the buildings within 45 days by the property owners.

Right of Way-Route 8.

Mr. DeVoe reported that condemnation commissioners in the case of Carl T. Forsberg condemnation on Route 8, at Mountain View Grade Crossing elimination, had awarded the sum of $17,995.83 for the property,and he considered this to be excessive. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that this award be appealed at once.

Legislation

Mr. DeVoe reported having prepared two bills and submitted them to the Legislature, but up to this time no definite action had been taken on the same. These covered the matter of encroachments on highways and on highway widths.

Trolley Tracks-
Route 5, Madison & Chatham.

State Highway Engineer Sloan reported to the Commission that he had, during the past week, attended a meeting of the Madison Rotary Club on outlining State Highway projects, and after the meeting was concluded he was besieged with inquiries as to what disposition was to be made by the State Highway Commission of the conditions existing between the trolley tracks through Madison. He advised the Commission that this condition existed as well through Chatham, and the local people were determined that the situation was entirely up to the State Highway Commission since it has jurisdiction over the entire width of roadway from curb to curb. Commissioner Kidde advised that this situation had existed in Morristown and the Commission had repaired the area between the car tracks with penetration macadam. State

March 13, 1925.

Highway Engineer Sloan advised that the local people were arranging a meeting with the receivers of the Morris County Traction Company, and he had promised that he would be present. He asked that a representative of the Attorney General's Department be also asked to attend this meeting and that an effort be made to settle the situation. After further discussion, Commissioner Stewart moved that the State Highway Engineer be authorized and empowered, together with a representative of the Attorney General's Office, to meet with the receivers of the Morris County Traction Company and any other authorities of the county or municipalities involved, in order to arrange a settlement concerning the condition existing between the car tracks on Route 5 through Madison, Chatham and Morristown. This was seconded by Mr. Jelin and adopted.

Right of Way-Route 18-North.

The Secretary read a communication from Major Welsh, manager of the Palisades Interstate Park, advising that the trustees of the Phelps Estate have signified their approval to granting to the State such land as is needed for right of way purposes through their property. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that the trustees of the Phelps Estate be extended the thanks of the New Jersey State Highway Commission for their cooperation and courtesy in this matter, and that the legal department prepare the necessary deed forms in order that the same be executed at the earliest possible moment; and further that Major Welsh be advised that the State Highway Commission is appreciative of the service he has rendered in assisting in the negotiations for this property.

Invitations

The Secretary presented a communication received from Mr. William J. Morgan of Newark, extending an invitation to the Commission to have a representative present at a meeting to be held in West Milford on March 28th, on the matter of the road between West Milford and Newfoundland, On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that the communication be referred to State Highway Engineer Sloan for answer, advising that this road is not a State Highway section, and if it is desired that a representative of the Department be present, he should arrange the same.

Right of Way-Route 1 Extension

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Engineer was instructed to proceed with the obtaining of such property as may be necessary for right of way, either by agreement or condemnation, and to take such other action or proceedings as may be necessary to carry the resolutions concerning Route 1 Extension through Jersey City, as adopted this day, into effect.

Route 1 Extension-Jersey City

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that the State Highway Engineer prepare plans and specifications for the construction of Route 1 Extension, from the Tunnel Plaza to the Hudson County Boulevard, in accordance with the directions already approved at this meeting, for the purpose of advertising this work at the earliest possible moment.

Right of Way-Route 1 Extension

Commissioner Kidde suggested that Mr. Coulomb, Assistant Attorney General, who has been in attendance at conferences held concerning the Jersey City right of way, be requested to approve the necessary legal formalities in connection with the acquisition of right of way through Jersey City.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was adjourned at 6 P.M. to meet in regular session at the offices, in Trenton, on Tuesday, March 17, 1925 at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - March 17, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, Tuesday, March 17, 1925. The meeting was called to order at 10:30 A.M. by Chairman Scott.

Present: General H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Route 15, Millville.

The Secretary informed the Commission that Senator Reeves of Cumberland County was present at this time, and on motion, duly seconded, Mr. Reeves was requested to bring his business before the Commission. Senator Reeves advised that he appeared on the matter of Route 15 connection through the City of Millville.

State Highway Engineer Sloan informed the Commission that this matter was awaiting advice from the City of Millville as to their willingness to share in the cost of extra width of pavement through the municipality. Senator Reeves stated that he understood that the municipality had already adopted an enabling ordinance and he would have the matter taken up at once.

Maintenance Materials-Ocean County

State Highway Engineer Sloan presented to the Commission a report of bids received by Ocean County for 300,000 gallons of SCO to be used on the county roads; namely, Long Beach, Upper Beach and between Lakehurst and Grover's Corners. He informed the Commission that advertisement for these bids was placed before the specifications were presented to the Commission for approval, and also he had received complaints from at least two bidders to the effect that they were not able to secure sufficient information to make their bids, prior to the receipt of same. He also advised that the estimated cost of this oil to the County would be more than he felt was justifiable for the County to expend upon a gravel treatment, which was, at best, only in its early stages of development. He, therefore, recommended that the State Highway Commission reject the bids as received by Ocean County and that any award of these bids be not approved. Mr. Jelin stated that he had gone very thoroughly into this matter and he agreed very thoroughly with the State Highway Engineer, and he moved that the recommendation of the State Highway Engineer be adopted. Commissioner Stewart seconded the motion and stated that he was amazed at the large amount of oil that is being used in the various counties this year, and he stated that it was becoming a matter of general comment that the counties of the State were going to excess upon an experimental matter, and he believed this should be thoroughly investigated by the Commission before the counties are allowed to commit themselves to the purchase of such materials.

Chairman Scott stated that he believed the bids should be rejected on the ground that there was no approval given to the specifications prior to the advertisement, and also on the ground that there appeared to have been an irregularity in the proposals which prevented all bidders from competing on equal terms.

Commissioner Kidde stated that he would also not countenance any irregularities in the bidding or advertising, but at the same time he felt that in view of the fact that a number of the counties have found that this SCO appears to be a solution to the gravel road problems as far as its upkeep during the winter, the Commission should deem it a duty to watch very closely the results obtained and offer assistance to the various counties in placing their gravel roads in such condition as to make them suitable for traffic the whole year at a very small expense. Commissioner Kidde then moved that the motion as made by Mr. Jelin be amended to the effect that the County of Ocean be advised that the specifications and bids as now submitted, are rejected, and that the same be revised on the basis of the County using one-half the amount of oil originally specified, subject to the approval of specifications for this work by the State Highway Commission prior to the advertisement. This amended motion was seconded by Mr. Jelin, and unanimously adopted.

Communications

The Secretary presented a communication from Mr. S. P. Leeds, inquiring as to what provision the State Highway Commission is making in 1925 to pave the Harding Highway and Delsea Drive. On motion by Mr Kidde, seconded by Mr. Jelin, the State Highway Commission directed that Mr. Leeds be advised that the State Highway Commission, at the present time, has not the funds with which to proceed upon any new highway projects, but if it develops that the funds become available, the work on these roads will be pushed forward as rapidly as possible, since the Commission has had these matters in mind since the time these roads were taken over.

Route 5, Blackwell St., Dover.

The Secretary presented a communication from the Clerk of the Town of Dover, enclosing a resolution adopted by the Mayor and the Board of Aldermen of the Town of Dover, recommending and suggesting to the State Highway Commission that when Blackwell Street, Dover, on Route 5, is paved, the type of construction be a concrete base with an asphalt surface. Commissioner Jelin stated that he had received information to the effect that efforts were being made in that vicinity to compel the State Highway Commission to adopt a sheet asphalt surface for this construction, and he understood the State Highway Engineer had already completed plans for this work on a basis of an eight inch reinforced concrete pavement.

State Highway Engineer Sloan informed the Commission that present plans provided for a twenty-two foot paved width in Dover in the center of the street, inclusive of trolley tracks, and that it was expected that the local municipality would pave the remainder.

Commissioner Kidde stated that in most cases in the past the Commission has approved a sheet asphalt construction through municipalities where the same was requested, and he stated that he believed that on account of the underground structures it would be desirable for the Commission to consider a bid for sheet asphalt at the same time that the concrete bids were received. Commissioner Jelin then moved that the State Highway Engineer be authorized to prepare plans and specifications for the paving of Blackwell Street, Dover, on Route 5, with an eight inch reinforced concrete pavement and also for a concrete base with a three inch asphalt top, in order that the Commission may receive alternate bids and make award on that which is deemed most desirable. This was seconded by Mr. Kidde and adopted.

Request for Hearing-Hudson County

The Secretary presented a communication from Mr. Frank J. Radigan, County Engineer of Hudson County, advising that the County is considering an outlet to Hoboken and northern Hudson County by way of Grove Street or Jersey Avenue, or some other suitable street, and would like an opportunity to talk this over with the Commission. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that a hearing be granted at the next meeting of the Commission at the convenience of the Hudson County authorities.

Route 9, Cranford

The Secretary presented a report from the Construction Division advising that delay in proceeding with construction on Route 9, Cranford, was due entirely to the fact that the Town of Cranford has not yet determined upon plans involving the town's portion of the work. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the local authorities be invited to appear before the Commission in order to explain their reasons for delaying the prosecution of this work.

Invitation

The Secretary presented an invitation from the South Atlantic Coastal Highway Association inviting the Commission to be present at the first meeting of the Association of Jacksonville, Florida, on April 16th and 17th. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the communication be acknowledged with thanks and placed on file.

Communications

The Secretary presented a communication from Judge A. A. Stein of Elizabeth, expressing appreciation for the attention given by the State Highway Commission to the request of the Borough of Roselle for widening on Route 1. On motion, duly seconded, the communication was ordered received and placed on file.

Signs

The Secretary presented a communication from Mrs. Edith E. Wood, making reply to the request made by the Commission for information as to whether she had any opinion as to the place for the proper relocation of the sign now on the corner of her property. In this communication Mrs. Wood suggested each of the three other corners than the one on which the sign is now placed. State Highway Engineer Sloan informed the Commission that the sign is within the State Highway right of way and not on Mrs. Wood's property. On motion, duly seconded, the State Highway Commission directed that Mrs. Wood be advised that the Commission has given this matter very careful consideration and has determined that the present location is the best for this particular sign.

Right of Way-Amboy Bridge

The Secretary presented a communication from the Sheriff of Middlesex County, advising that in accordance with the request of the State Highway Commission, the matter of the payment of one-half the jury fees and mileage in the Donnell Lumber Company's case, was referred to McCarter & English, Counsel for the Donnell Lumber Company, but that company has quoted from the Eminent Domain Act to show that the State Highway Commission is liable for the balance of $125.00. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed the payment of the balance of the jury fees and mileage in the Donnell Lumber Company's case.

Right of Way-Route 1 Extension

The Secretary presented a report from F. W. DeVoe, Assistant Attorney General, advising that the condemnation commissioners in the case of James Bowen property on Route 1 Extension at the Hackensack River Bridge, have made an award of $50,000.00 as against the State's offer of $6,000.00. He recommended to the Commission that the same be appealed at once. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that appeal be taken from the award as made in the James Bowen condemnation on Route 1 Extension.

The Schedule of Business was next taken up, item by item, as follows, with the recommendations of the State Highway Engineer:

Route 15, Section 8.

The State Highway Engineer reported plans and specifications completed for Route 15, Section 8, Rio Grande to Green Creek, and recommended approval by the Commission. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route 15, Section 8, Rio Grande to Green Creek, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the Chief Clerk is directed to make the necessary advertisement for same.

Route 11, Section 8.

There was presented a report of bids received on March 16th for the construction of Route 11, Section 8, Kingsland Road, Nutley, and the State Highway Engineer recommended that award be made to Bianchi & Smith, the low bidders at $87,604.20.

Bianchi & Smith..................	$ 87,604.20
R. B. Cahill Co. Inc.............	89,346.45
Dyer-Kane Co.....................	95,394.50

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

RESOLVED, that the contract for the construction of Route 11, Section 8, Kingsland Road, Nutley, is hereby awarded to Bianchi & Smith, the low bidders at their's the lowest bid received in the amount of $87,604.20, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Route 5, Section 15.

There was presented a report of the bids received on March 16th for the construction of Route 5, Section 15, Farmer's Hotel-Milburn Avenue, and the State Highway Engineer recommended that award be made to Sutton & Corson of Ocean City, at their's the lowest bid received in the sum of $303,972.40.

Sutton & Corson Co................	$ 303,972.40
J. F. Chapman & Son...............	330,885.05
P. Camillo & Co...................	333,846.07
John Dorer........................	343,473.22
C. H Winans & Co..................	345,320.67
Weldon Cont. Co...................	349,556.75
Liddle & Pfeiffer.................	370,741.15
Public Service Prod. Co...........	382,150.59
Newark Paving Co..................	384,172.16
Jos. F. Burke.....................	386,593.52
Parkhurst-Stucky Corp.............	388,922.44

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission adopted the following resolution:

RESOLVED, that the contract for the construction of Route 5, Section 15, Farmer's Hotel-Milburn Avenue, is hereby awarded to Sutton & Corson Company at their's the lowest bid received in the amount of $303,972.40, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Route 3 Widening-
Egg Harbor - Absecon

State Highway Engineer Sloan reported to the Commission the completion of Route 3, Section 13, Egg Harbor-Absecon widening, and recommended that the same be referred for final inspection. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission ordered that the inspection be referred to Commissioner Jelin for report at the next meeting.

Right of Way-Route 4

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the acceptance of the following quit claim deeds for Route 4, Section 27, Forked River to Cedar Creek, and directed that a letter of thanks be forwarded in each case:

Parcel 11,	Thomas & Emma Glennon,	consideration	$1.00
" 17 & 17A,	Leopold & Stella J. Gille,	"	1.00
" 20,	Dewey & Mary H. Taylor,	"	1.00
" 22,	Ernest W. & Kate Keen,	"	1.00
" 44,	Mary E. & Alfred Taylor,	"	1.00
" 82 & 83,	Isaac N. & Sarah E. Jones,	"	1.00
" 80, 81,85, & 86,	Lorenzo & Rose Francone,	"	1.00

Right of Way-Route 11

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the following parcels of property on Route 11, Section 8, Kingsland Road, Nutley:

Parcel 1,	George & Annie B. Lincks,	consideration	$ 55.00
" 2,	Charles & Minnie W. Sanders,	"	650.00

Right of Way-Entrance Blvd.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel 16 on the Entrance Boulevard at Camden, from Lillian M. and John F. Bartee, for the consideration of $2,100.00.

Right of Way-Route 5.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of revision of the purchase agreement entered into with Mary VanKirk on Route 5, Section 11, Delaware-Belvidere, Parcels

14, 14A, 14B, 14C, to a total consideration of $2,000.00 in settlement of all claims, in lieu of an agreement whereby the State would pay $1,750.00 and build a toe wall.

Right of Way-Route 14

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved revised agreements for Parcels 75 and 75A on Route 14, Section 8, Swainton-Ocean View, whereby the State would pay the sum of $300.00 to the owner provided the owner will remove all obstructions at his own expense: this in lieu of an agreement entered into whereby the State would remove the building itself.

Right of Way-Route 3.

State Highway Engineer Sloan submitted to the Commission a quit claim deed given by Rocco Olivo for additional land required in order to widen Route 3 in Hammonton to sixty-six feet, with the request from Mr. Olivo for permission to remove, at his own expense, five trees now standing in front of his property, in order that he may build a driveway thereon. State Highway Engineer Sloan advised that in view of the failure of the legislature to pass any legislation giving the Commission the right to reduce graded width in order to save trees, he would recommend that this permission be granted and that the quit claim deed be accepted. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the acceptance of quit claim deed from Rocco Olivo, and granted permission for the removal of trees as requested.

Width of highways-General.

Commissioner Stewart in this connection stated that some action should be taken by the Commission looking toward the removal of encroachments on highways and he moved the adoption of the following resolution:

> WHEREAS, there was introduced in the Legislature of 1925, a bill which would permit the State Highway Commission to use the same discretionary power as to highway width on roads as is now the case with culverts and bridges, and
>
> WHEREAS, there has been no action taken on this bill by the Legislature and the time has passed when such action can be taken,

> THEREFORE, BE IT RESOLVED that the State Highway Engineer be and he is hereby instructed that in all cases where the width of the roadway is less than thirty feet, to proceed to widen said route to a minimum of thirty feet as provided in the statutes now existing.

This was seconded by Mr. Kidde and adopted.

Route 3 Widening-Hammonton.

State Highway Engineer Sloan inquired concerning the widening work to be done through Hammonton where the trees were not removed in the expectation that legislation would be passed permitting them to remain. Commissioner Jelin moved that the State Highway Engineer be directed to proceed at once with the widening of State Highway Route 3 through Hammonton in accordance with plans already approved, and that the work be done with State Highway forces, and further that the Engineering Division be instructed to draw up plans whereby new trees may be planted on the new lines through Hammonton. This was seconded by Mr Kidde and adopted.

Somers Point-Ocean City Road

Chairman Scott advised the Commission that in company with Assistant State Highway Engineer Reed he had gone over South Jersey roads, and he paid particular attention to that section between Somers Point and Ocean City, concerning which a delegation was present at the last meeting, and he would report that the road is being kept in much better condition than is the portion of road leading into Ocean City and under the control of the Town. Commissioner Kidde stated that he believed this section should receive particular attention from the Maintenance Division in order that it may be in the best condition at all times.

Advisory Board Projects-Camden

Commissioner Stewart inquired as to progress being made on plans for the Advisory Board Projects in Camden. State Highway Engineer Sloan advised that negotiations were practically completed with the City of Camden whereby the original line "B" would be practically followed in the improvement. The only difficulty now involved is the changing of channel of Cooper River, which matter is being held up by the War Department, until the same is approved by the State Board of Commerce and Navigation.

March 17, 1925.

Route 7, Section 5, Culvert

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved the construction of a culvert over Manasquan Creek on Route 7, Section 5, M. P. 14.0, work to be performed by State Labor forces at an estimated cost of $10,291.90.

Route 9, Middlesex Borough

Commissioner Stewart inquired as to what may be done in the matter of widths of roads through Middlesex Borough on Route 9 where trees and poles are actually touching on the pavement width. He suggested that this be given attention by the Engineering Division. State Highway Engineer Sloan stated that the matter was already being taken up and that a report would be rendered at an early date.

Scales

State Highway Engineer Sloan presented to the Commission a communication from an attorney, representing Lotsey Toth, enclosing formal demand that the State Highway Commission remove a scale now in front of his property located on the Paterson-Hackensack Road, on State Highway Route 10 near Dundee Lake Bridge. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that this notice be referred to Assistant Attorney General DeVoe with a request for information as to the rights of the State Highway Commission in the matter.

On motion by Mr. Stewart, seconded by Mr. Kidde, the meeting recessed at 1 P. M. to meet in regular session at 2:30 P.M.

The meeting was resumed at 2:30 P.M. with the same members present as at the morning session.

Right of Way-Crescent Boulevard

The Secretary informed the Commission that Mr. Frank Schroth, receiver for the N. Z. Graves Company at Camden, was present on the matter of right of way needed through the Graves property. On motion, duly seconded, a hearing was granted. Mr. Schroth advised that after the conference held with the Commission on the date of the last Commission meeting, he had taken under advisement the offer of $130,000. as made by the Commission, and he was prepared to state that this is not satisfactory to his interests. He explained that from the appraisals made by Mr. Riffer, hired by the State, the figures would reach $143,957.28. He further stated that his clients would not

March 17, 1925.

Mr. Woolston of the Board of Freeholders stated that he believed the cooperation given to the State by Somerset County in paying interest charges on reimbursement work would justify the State in expending the extra money needed to put the crossing elimination on a straight line.

Senator Case stated that there were present about 50 residents of Somerset County, and the sentiment in the County was unanimous for the straight line.

Chairman Scott then concluded the meeting by advising that he felt sure the Commission was impressed with the nature of this meeting, and would give the matter very careful consideration before reaching a final decision.

The Schedule of Business was resumed at 4:45 P M.

Scales

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the removal of motor truck scale from its present location on Paramus Road to a point on Route 17 near Hohokus, in accordance with the recommendation of the State Highway Engineer.

Route 10, Bluff Road.

There was presented a report with plan and photographs concerning the property still owned by the State on Route 10, Bluff Road, as requested at the last meeting of the Commission. On motion, duly seconded, the report was ordered received and placed on file.

Detour-Route 7

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission adopted the following official detour for Route 7, Section 4, Colts Neck-Jerseyville section:

> Beginning at the intersection of Institute Street (Route 7) and Smith Street in the Borough of Freehold and runs thence, (1) southerly over South Street to Adelphia; thence (2) easterly over the Adelphia-Farmingdale Road to Farmingdale; thence (3) northerly over the Farmingdale-Colts Neck Road to Route 7.

Detour-Route 11

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission adopted the following official detour for Route 11, Sections 9 and 10, Washington Avenue, Nutley and Washington Avenues, Belleville:

March 17, 1925.

Route 7, Section 5, Culvert

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved the construction of a culvert over Manasquan Creek on Route 7, Section 5, M. P. 14.0, work to be performed by State Labor forces at an estimated cost of $10,291.90.

Route 9, Middlesex Borough

Commissioner Stewart inquired as to what may be done in the matter of widths of roads through Middlesex Borough on Route 9 where trees and poles are actually touching on the pavement width. He suggested that this be given attention by the Engineering Division. State Highway Engineer Sloan stated that the matter was already being taken up and that a report would be rendered at an early date.

Scales

State Highway Engineer Sloan presented to the Commission a communication from an attorney, representing Lotsey Toth, enclosing formal demand that the State Highway Commission remove a scale now in front of his property located on the Paterson-Hackensack Road, on State Highway Route 10 near Dundee Lake Bridge. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that this notice be referred to Assistant Attorney General DeVoe with a request for information as to the rights of the State Highway Commission in the matter.

On motion by Mr. Stewart, seconded by Mr. Kidde, the meeting recessed at 1 P. M. to meet in regular session at 2:30 P.M.

The meeting was resumed at 2:30 P.M. with the same members present as at the morning session.

Right of Way-Crescent Boulevard

The Secretary informed the Commission that Mr. Frank Schroth, receiver for the N. Z. Graves Company at Camden, was present on the matter of right of way needed through the Graves property. On motion, duly seconded, a hearing was granted. Mr. Schroth advised that after the conference held with the Commission on the date of the last Commission meeting, he had taken under advisement the offer of $130,000. as made by the Commission, and he was prepared to state that this is not satisfactory to his interests. He explained that from the appraisals made by Mr. Riffer, hired by the State, the figures would reach $143,957.28. He further stated that his clients would not consider the land value to be less than $1.00 while the appraisal placed it at $.40 per square foot. He also stated that the loss of the business would be put in at $20,000.00, this making a total asked price of $200,000.00. Mr. Schroth then stated that he would be willing to have Mr. Graves appear with him at the next meeting. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that Mr Schroth appear at the next meeting with Mr. Graves, at 3 P.M.

Route 16, South Somerville Grade Crossing

The Secretary informed the Commission that a delegation of citizens and officials from Somerset County were present for a hearing as granted by the Commission at the last meeting, on the matter of the Grade Crossing Elimination at South Somerville on Route 16. On motion, duly seconded, a hearing was granted.

Senator Clarence E. Case of Somerset County acted as Chairman of the delegation and advised that they had received information that the Commission was considering changing the line of the existing Route 16 at Royce Valley Station, by causing the roadway to turn off just above the grade crossing existing on the Lehigh Valley Railroad at this point and then coming back to the roadway about two hundred feet below. This turn off would cause a bend in the roadway which he stated was very objectionable to the entire County of Somerset, since it was entirely feasible to eliminate the crossing on a straight line. He advised the Commission that following advice from the Commission that the reasons for the turn off were the facts that the drainage would be better on the new line and also that the costs would be about $40,000 in excess of a straight line, the local authorities had employed Thomas J. Wasser, former State Highway Engineer, as a consulting engineer, to make an independent report. He asked Mr. Woodruff, Clerk of the Board, to read this report.

Mr. Woodruff proceeded to read from Mr. Wasser's report, in which it was stated that field data taken would show that the drainage could be taken care of properly on the straight line without raising the railroad tracks, and that the streams have sufficient fall to take care of the drainage from either location also, that the part of the present highway affected is about 124 feet shorter than the distance involved in the proposed relocation, and in order to protect the traveling public, in view of the proposed type of construction involving a center row of columns, it would be necessary to maintain a lighted cautionary signal at all times. Mr. Wasser called attention to the fact that the Public Utility Commission has within its power the right to compel the elimination of this crossing by the railroad company at the entire expense of the company, and it should be possible to have the elimination accomplished without any further cost to the State than already agreed upon.

Senator Case advised the Commission that there would be no saving in detour expenses while such work was under way. He called upon Mr. Hugh K. Gaston, representing the Somerset County Good Roads Association and the Township of Hillsboro, who stated that all the people of the County felt it would be a mistake for the Commission to change the line of Route 16 from that existing. Senator Case then called upon Mr. Brown, Mr. Wright and other property owners who admitted selling property to the State for the improvement of Route 16, but stated that it was never intended that the line of the road should change. Judge Dungan addressed the Commission as one interested in the matter and stated that he believed the State Highway Commission should not allow a matter of dollars to stand in the way of a straight highway. He told of a negligence case coming before his court where an accident had resulted in the death of a child where an auto had not been able to see beyond a row of columns such as proposed in the structure for this crossing. He said that since they were on a skew, they would present a solid wall to those approaching at an angle.

Mayor Flockhart, of Somerville, advised that the relocation would add 250 feet to a return trip which would cost the traveling public considerably more than the increase in cost, when considered over a period of years.

Mr. Remsen, Director of the Somerset County Board of Freeholders, advised that the Board was in receipt of so many complaints on the attitude of the State Highway Commission toward this improvement, that it felt that it was necessary to call the matter again to the attention of the Commission.

March 17, 1925.

Mr. Woolston of the Board of Freeholders stated that he believed the cooperation given to the State by Somerset County in paying interest charges on reimbursement work would justify the State in expending the extra money needed to put the crossing elimination on a straight line.

Senator Case stated that there were present about 50 residents of Somerset County, and the sentiment in the County was unanimous for the straight line.

Chairman Scott then concluded the meeting by advising that he felt sure the Commission was impressed with the nature of this meeting, and would give the matter very careful consideration before reaching a final decision.

The Schedule of Business was resumed at 4:45 P M.

Scales

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the removal of motor truck scale from its present location on Paramus Road to a point on Route 17 near Hohokus, in accordance with the recommendation of the State Highway Engineer.

Route 10, Bluff Road.

There was presented a report with plan and photographs concerning the property still owned by the State on Route 10, Bluff Road, as requested at the last meeting of the Commission. On motion, duly seconded, the report was ordered received and placed on file.

Detour-Route 7

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission adopted the following official detour for Route 7, Section 4, Colts Neck-Jerseyville section:

> Beginning at the intersection of Institute Street (Route 7) and Smith Street in the Borough of Freehold and runs thence, (1) southerly over South Street to Adelphia; thence (2) easterly over the Adelphia-Farmingdale Road to Farmingdale; thence (3) northerly over the Farmingdale-Colts Neck Road to Route 7.

Detour-Route 11

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission adopted the following official detour for Route 11, Sections 9 and 10, Washington Avenue, Nutley and Washington Avenues, Belleville:

March 17, 1925.

Beginning at a point on Washington Avenue, in the City of Newark, where the same is intersected by Sylvan Avenue, and runs thence (1) westerly on Sylvan Avenue to Mount Prospect Avenue; thence (2) over Mt. Prospect Avenue, Quarry Street and Union Avenue northerly to Center St.; thence (3) easterly over Center Street to Washington Avenue (Route 11) in the Town of Nutley.

Detour-Route 4

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission adopted the following official detour for Route 4, Section 20, Manasquan Grade Crossing Elimination Cut-off:

Beginning at a point on Route 4 at the dividing line between the Boroughs of Sea Girt and Manasquan, known as Sea Girt Avenue, and runs thence (1) westerly on Sea Girt Avenue to Broad Street, Manasquan; thence (2) southerly on Broad Street to Main Street; thence (3) easterly on Main Street to Route 4.

Employments

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the following additions, changes and increases as made in the employments since the last meeting of the Commission:

Employed

3-9-25	E. S. Scollan,	Junior Inspector	$135.00 per mo.

Equipment-Passaic County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the award of contract by Passaic County to the Galion Iron Works & Mfg. Company for one 2-cylinder gas roller.

River Road, Nutley, Essex County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for River Road, Nutley, Essex County, Motor Vehicle Aid work.

March 17, 1925.

Maintenance Materials-Passaic Co.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved a form of specifications and proposals for maintenance materials requested by Passaic County for 1925.

Maintenance Materials-Camden Co.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved specifications for application of 129,251 gallons of SCO for use on gravel roads in Camden County in 1925.

Sea Isle Blvd., Cape May County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved plans and specifications for sand or gravel shoulders on Sea Isle Boulevard, Cape May County, Motor Vehicle Aid.

Maintenance Materials-Atlantic Co.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the specifications for tar treatment of 208,450 square yards of gravel roads in Atlantic County in 1925.

Township Aid-Somerset County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved plans and specifications for Neshanic-Clover Hill Road, Hillsborough Township, Somerset County, Township Aid.

Township Aid-Hunterdon County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved plans and specifications for the Pittstown-Quakertown Road, Section 2, Franklin Township, Hunterdon County, Township Aid.

Township Aid-Salem County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved final statement on the Garden Road, Pittsgrove Township, Salem County, Township Aid.

Township & Borough Aid Transfer

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved a transfer of $500.00 Township Aid Account, from VanEmburgh Avenue in Washington Township to VanEmburgh Avenue in Hillsdale Borough, both in Bergen County.

March 17, 1925.

Maps.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of 1500 State Highway maps, known as Atlas Sheet No. 43, at a cost of $137.00; the names of the Commissioners to be printed on these maps in the Department.

Township & Borough Aid-
Gloucester County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the insertion of a price of $2.50 per hour for tractor in the price agreement as already approved for the Aura-Clayton Road, Elk Township, Gloucester County, Township and Borough Aid.

Township & Borough Aid-
Burlington County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of revision of price agreement previously approved on the Chatsworth-Ocean County Line Road, Section 1, Woodland Township, so that the rental of tractor will read:

> "Rental of tractor including operator, fuel, lubricent, repairs and accessories at $2.00 per hour for the time the tractor is actually working."

instead of a rental price of $7.00 per day.

Federal Aid-Warren County;
Phillipsburg-Belvidere Rd.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved a Federal Aid Project Statement of the Phillipsburg-Belvidere Road, Warren County, the original application having been approved in August of 1924.

Maintenance Materials-Monmouth County

The State Highway Engineer again presented for consideration the matter of approval of award as made by Monmouth County on maintenance materials, and he recommended that the awards as made be approved. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the awards as approved by Monmouth County on the following maintenance materials:

300,000 gallons,	Lignin Binder,	M. R. Young of Trenton,	$34,200.00
50,000 "	Asphaltic Oil,	Asphalt Service, Inc. New Brunswick,	10,950.00
100,000 gallons,	surface dressing,	W.J.Harrington, New York,	39,000.00

March 17, 1925.

East Main Street, Boonton

The Secretary informed the Commission that he had received advice from Morris County to the effect that under the resolutions as adopted by the State Highway Commission, they would fall short in financing the improvement of East Main Street, Boonton, by the sum of $2,159.45 and he recommended that the Commission approve this amount as State Aid, funds to be provided from the State Aid savings. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved an allotment of $2,159.45 to make up a balance due on East Main Street, Boonton, Morris County, in accordance with action taken by the Commission on August 8, 1923.

The Commission then went into conference at 5:30 P.M. to discuss the legislation concerning gasoline tax and the apportionment of revenues between the State and Counties. This conference was ended at 6:30 P.M. and on motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was adjourned to meet in regular session again on Tuesday, March 24th, at 10:30 A. M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - March 24, 1925

A regular meeting of the State Highway Commission was held in the offices of the Commission, Broad Street Bank Building, Trenton, Tuesday, March 24, 1925. The meeting was called to order at 10:30 A. M. by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Right of Way, Route #1, Extension

The State Highway Engineer reported that in accordance with the authority delegated to him by the Commission at its meeting held March 13th last, with reference to the acquisition of lands necessary for the construction of Route 1, Extension through Jersey City, he had caused offers to be made for the purchase of certain lands situate in Jersey City, Hudson County, to be made to the owners of record thereof as follows:

Block 324,	Lot	C	Molly Eichenbaum,	$ 7,500.00
"	"	A & B	Heirs of Adam J. Dittmar	20,000.00
"	"	32	Isabella M. Dittmar	5,000.00
"	"	D-1 & pt. of 23	Frank A. Scatuorchio	10,000.00

and said offers having been severally rejected by said owners, he had caused condemnation proceedings for the acquisition of said lands to be instituted.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission unanimously approved, ratified and in all respects confirmed the action of the State Highway Engineer in the premises.

The State Highway Engineer next presented a report with recommendations concerning the acquisition of several parcels of property owned by the Pennorn Creek Railroad Company, situate in Jersey City, on the line of State Highway Route 1, Extension. On motion by Mr. Stewart, seconded by Mr. Jelin, the following resolution was unanimously adopted:

RESOLVED, that this Commission does hereby determine to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route 1, Extension in Jersey City all those certain lots, tracts or parcels of land and premises, situate lying and being in the City of Jersey City, in the County of Hudson and State of New Jersey, as hereinafter described, and State Highway

March 24, 1925

Engineer Sloan is hereby authorized and directed on behalf of this Commission to make an offer to the owner or owners of said lands and premises as per schedule hereinafter set forth, for the conveyance of said lands to the State of New Jersey, free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be promptly acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises:

(1) A tract of land seventeen and one-half feet in width and fifty feet deep throughout, located on the westerly side of Jersey Avenue, twelve and one-half feet southerly from Twelfth Street, and shown as all of lot lettered "D" and the northerly portion of lot lettered "E" in Block numbered Three Hundred and twenty-four as laid down on the "Official assessment map of Jersey City, 1894," made by L. D. Fowler Civil Engineer and Surveyor, together with all rights, title and interest in and to the eight foot alley lying immediately to the rear of said tract;

(2) A tract of land one hundred and twenty-five feet in width and thirty feet deep throughout, located on the southerly side of Twelfth Street, one hundred and twenty-five feet westerly from Jersey Avenue and shown as the most northerly portion of lots numbered twenty-seven, twenty-eight, twenty-nine, thirty and thirty-one in Block numbered three hundred and twenty-four, as laid down on said map;

(3) A Tract of land four hundred feet wide and thirty feet deep throughout, lying on the southerly side of Twelfth Street between the westerly side of Coles Street and the easterly side of Monmouth Street, and being all of lots one and twenty-four and the most northerly portion of lots numbered two, twenty-three, twenty-five, twenty-six, twenty-seven, twenty-eight, twenty-nine, thirty, thirty-one and thirty-two in Block three hundred and sixty-one as laid down on said map.

Schedule of Amounts to be offered

Block 324,	Lot D	-	$ 3,897.00
"	" E	-	3,673.00
"	" 27	-	14,641.00

Block 324,	Lot 28	-	$ 14,641.00
"	" 29	-	5,898.00
"	" 30	-	14,766.00
"	" 31	-	14,646.00
"	(as above described)	-	60,871.00
	TOTAL........		$133, 033.00

Route #20, Glassboro

The Secretary informed the Commission that a delegation from the Town of Glassboro was present in accordance with an invitation extended by the Commission, granting them a hearing on the matter of the paving of Route #20 through Glassboro. Mr. Beckett, Attorney for the Town, first addressed the meeting and advised that the State Highway Commission had under contract the improvement of a section of Route #20, leading up to and away from Glassboro, due to the fact that the Borough was proceeding to lay sewer connections and underground work at the time when the contract was awarded. He advised that the Broad Street was thirty feet in width, and information had come to the State desired that the road be forty feet, which would necessitate the moving back of existing sidewalks for five feet on each side. He advised further that it was the unanimous desire of the Borough that the width of the roadway be left at thirty feet when improved, but in the event that the State desired to complete forty feet, there was presented a petition signed by owners of two-thirds of the frontage on both sides of the Street who were willing to have the roadway forty feet in width. He urged that the Commission determine to improve this road through Glassboro, preferably through the coming summer.

He then introduced Mayor Stenger, who advised the Commission of traffic using the Borough Street and the necessity for having a paved highway. He advised that in the event it was necessary to make a forty foot highway that he believed that sufficient owners were interested in this by signifying their approval and signing the petition, and he also conveyed the opinion of the Civic Associations of the Borough. He also presented a communication from Senator Davis of Gloucester County, expressing the hope that the Commission would give consideration to their request. He asked that the Commission consider putting in a twenty-nine foot pavement in the event the roadway was widened to forty feet, in the same manner as had been done in other municipalities.

Mr. Daniel T. Steelman, President of the Glassboro Broad Street Improvement Association, addressed the Commission and stated that he was a property owner living on Broad Street and his Association was opposed to a widening beyond thirty feet for the reason that it would not be economical, since it would be necessary to acquire additional lands for the improvement. He also stated that the widening would cause the ruination of a large number of trees which have taken years to develop. He further stated that the Association believed that a narrow road through the Town tended to keep the traffic moving more slowly than on a wide boulevard, thus being a factor of safety to the pedestrian. Mr. Steelman stated that he had a petition signed by fifty-three out of eighty residents along the street, who were in favor of a thirty foot pavement.

Dr. Gifford of Glassboro spoke and stated that he was a owner of a large amount of property on Broad Street and he believed that there should be a forty foot widening in order to permit of development through the Street. He spoke of his very valuable trees on his property, which he would sacrifice for the benefit of the improvement.

Mr. Beckett arose to tell the Commission that if the widening was made equally on both sides it would not be necessary to destroy very many trees, since the forty foot line would not touch them.

Chairman Scott informed the delegation that the State Highway Commission was very anxious, in going through any particular locality, to remain on friendly terms, and for this reason it was desirous that local difficulties be settled before the problems were taken up by the State Highway Commission. He also advised that the State Highway Commission, has, during the past year, undertaken the improvement of a great number of miles of road in South Jersey and the Legislature has failed to add any funds to those already in the possession of the Commission, which makes it very necessary that the most important pieces of work be undertaken with the funds in hand. He advised that the State Highway Commission would give their views very careful consideration, but would first ask that the problem be solved by the local municipality as to the width of the pavement.

March 24, 1925

Maintenance Materials-Ocean Co.,
Equipment " "
Request for Aid " "

The Secretary informed the Commission that a delegation from Ocean City was present and desired a hearing. On motion, duly seconded, a hearing was granted. There appeared Senator Mathis, Director Savage, Freeholder Butler and Chairman of the Road Committee Applegate.

Mr. Applegate addressed the Commission and advised that the delegation was present to discuss statements which State Highway Engineer Sloan made before the Kiwanis Club of Toms River during the past week, following which the Board was censored by the press for proposing to expend the county money in extravagant fashion on road oiling. He inquired whether these statements were authorized by the Commission or not.

State Highway Engineer Sloan advised the Commission that following an address given by him to the Kiwanis Club, he was plied with questions concerning County matters, and among the questions asked was the cost to the State of the application of SCO per mile, and he had advised that it was $1200.00 without recourse to exact figures. Subsequent investigation showed this to be $1060.00 This had been taken up by some of the local people and on the basis of the amount advertised by the County over the mileage proposed to spread, it was found that the cost in Ocean County was anticipated to be in excess of $2500.00 per mile, but he explained that he had no facts at his disposal at the time by which he could compare the State figures with the County.

Mr. Applegate then described to the Commission just what was contimplated in Ocean County as regards SCO and stated that the County would be very willing, if the State would offer the services of its engineers, to have the matter gone over very thoroughly in order that the County could advertise for the work that was absolutely necessary.

Director Savage explained to the Commission that the County had experimented on a four mile stretch with SCO and had secured such good results that it was proposed to extend the use of it as far as possible with the funds in hand without detriment to any County repairs needed. He stated that while the bids called for approximately 300,000 gallons, the amount actually needed was 215,000 gallons.

He advised the Commission that he believed the Commission was correct in not approving of plans and specifications prior to the approval of the County schedule, but this was entirely due to a misunderstanding. He suggested, too, that the Commission send a representative to the County in order that these matters could be entirely straightened out and that the work could be advertised for at the earliest possible moment.

Assistant State Highway Engineer Reed advised that he had already made a study of the situtation in the County and he believed that considerable saving would result if the bids were received on separate projects bid by the County rather than by them all in one lump, since there are certain sections where the gravel needed for surfacing is available to the job, while in others a considerable haul is required.

State Highway Engineer Sloan stated that he believed that the County should, where possible, place the gravel surface on the road with its own forces and then contract only for the SCO treatment.

Mr. Savage inquired whether there would be any chance for the County to secure any State Aid upon the Lakewood-New Egypt Road.

Chairman Scott spoke for the Commission and advised that the Commission would be very glad to give the County the cooperation of any of the Engineering Staff in order to secure the greatest return for the investments, and that the only question which had arisen in the minds of the Commission was that it could not see its way clear to approve of a contract awarded by the County prior to submission of specifications and advertisement for approval. As to State Aid the Chairman advised that in view of the large amount of construction being done on State Highway Route #4 this year it would not be possible to grant Ocean County any funds.

Senator Mathis addressed the Commission and urged consideration for the Board of Freeholders and suggested that when this work is readvertised the Commission cooperate by giving prompt approval to the low bids received.

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that the State Highway Engineer detail proper engineering assistance to Ocean County in order that they present a proper schedule for Ocean County repairs for 1925.

Before the meeting closed, Mr. Applegate inquired concerning the instructions from the Commission as to the advertising for road graders and whether it was intended that the Allis Chalmers be not allowed in competition. Chairman Scott advised that it was not intended to shut out any one, but rather that the Commission's instructions were that the County should advertise for three different machines, one of which was the Allis Chalmers and the others were the Hadfield-Penfield and the Austin.

Route #16, South Somerville, Grade Crossing Elimination

The Secretary presented a communication from Hon. C. E. Case of Somerset County with further reference to the hearing given the Somerset County delegation, which protested against the realignment of the Grade Crossing at South Somerville, and recommending that the existing straight alignment be followed.

Senator Case advised that while it was claimed by the Commission that there would be a saving on the new location, still the economic loss, resulting from the return to the County of the unused dead ends on the existing line, would, over a period of years, show a loss rather than a profit on the new line.

Mr. Jelin stated that he had given this matter very serious thought since the last meeting and it was his belief that an application should be made to the Public Utility Commission looking toward the Railroad Company paying for the elimination of the grade crossing, and that the State Highway Commission should adopt the line on its present alignment rather than put a curve in the road.

Commissioner Ridde stated that he believed this question would result in holding up the program on grade crossing elimination, which had been so successful in the past, because it would prevent the cooperation between the State and the railroads as before. Commissioner Stewart stated that he believed that in view of the recent decision from the Supreme Court of the United States to the effect that Public Utility Commissions can direct railroad companies to eliminate grade crossings, it is almost mandatory upon the State Highway Commission to adopt such a motion before proceeding into any negotiations with railroad companies.

Commissioner Jelin stated that there was the further reason that the public opinion in this particular locality was unanimous with regard to this condition, and he moved that the State Highway Engineer be instructed to make application to the Public Utility Commission for an order requiring the Lehigh Valley Railroad Company to eliminate the grade crossing on Route #16, South Somerville, at Royce Valley Station, and further that there should be eliminated from the contract for paving the amount of work on each side sufficient to accommodate the elimination of the railroad crossing. This was seconded by Mr. Stewart and adopted.

Institutional Roads

The Secretary presented a communication received by Chairman Scott from Mrs. Mabel S. Douglass, Dean of the New Jersey College for Women at New Brunswick, requesting that the Commission give consideration to the paving of Nichol Avenue, New Brunswick, the approach to the New Jersey College for Women, which request was made on the State Highway Commission last year.

Commissioner Jelin reported to the Commission that when this matter was referred to him last year he had inspected the same, and at that time they were just beginning to build dormitories and there was no immediate need for the improvement. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that Mrs. Douglass be advised of the report rendered by Mr. Jelin as to conditions last year, and that the Engineering Department make a further investigation on the matter for attention at the next meeting.

Damage Claim, Route #13

The Secretary presented a communication from Mr. H. C. Havens of Lawrenceville, claiming damages to the drainage system on his property, and there was presented a recommendation from the Engineering Department that Mr. Havens be allowed $174.20 in full settlement of all his claims. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the payment to Mr. H. C. Havens on Route #13, Section #6 of $174.20 for all claims on account of damages to drainage system on his property.

March 24, 1925

Motor Vehicle Aid, Monmouth Co.,

The Secretary presented a communication from the Monmouth County Board of Freeholders, requesting aid on two sections of State Highway which were abondoned by the State and reverted to the County for maintenance after the maintenance schedule for 1925 had been prepared. The County asked aid to the amount of $1,500.00 on the Road from Biggetts Corner to Sea Girt Avenue in Manasquan and Ashley Avenue and a part of Union Lane in Brielle. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that Monmouth County be given $1,000.00 as aid from the Motor Vehicle Reserve Account, toward the maintenance of these two sections, in view of the conditions under which these sections were returned to the County.

Route #4, Navesink River Bridge

The Secretary presented a communication received by Commissioner Jelin from the River Plaza & Vicinity Tax Payers Association, Inc. of Red Bank, inquiring as to whether the Commission could give a hearing to a delegation, looking toward the placing of a dam in connection with the construction of the Navesink River Bridge on Route #4. The Secretary informed the Commission that he had received advice from Assistant Attorney General Coulomb to the effect that the State Highway Commission cannot with its own funds construct a dam and it is doubtful whether it is possible, under the law, for the Commission to accept any contributions from local municipalities for this purpose. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the communication be acknowledged and that they be advised that information has been received from the Attorney General's Department that it would be illegal for the Commission to consider the construction of a dam in connection with the Cooper Bridge, and for that reason it would not seem necessary that a hearing be allowed.

Trolley Tracks, Route #5, Madison & Chatham

The Secretary presented a resolution from the Common Council of the Boroughs of Madison and Chatham, Morris County, requesting the State Highway Commission to make such temporary repairs to Route #5 between the trolley tracks of the Morris County Traction Company at

Madison and Chatham as will make the same safe and passable until a permanent roadway is put down. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the communication be acknowledged and that the State Highway Engineer be instructed to request the Attorney General to serve formal notice upon the receivers of the Morris County Traction Company, calling upon them to repair as quickly as possible the dangers existing between the trolley tracks in accordance with their franchise.

Right of Way, Route 1, Extension

The Secretary presented a communication from Dr. H. B. Kummel, General Manager of the Morris Canal & Banking Company, calling attention to an offer received by his company for a parcel of land on Route #1, Extension, Lincoln Highway Section, from the Ford Motor Company, and inquiring whether or not this land will be needed by the State for highway purposes, in order that the State may acquire same before it is sold to private interests. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the State Highway Engineer arrange for a conference with the manager of the Morris Canal & Banking Company and County Engineer Stickel of Essex County, in order to determine what the State needs may be for road purposes in this locality and whether on not it is deemed necessary to reserve this land or part of same.

Route #18-North, Alpine

The Secretary presented a communication from Hon. Ernest C. Heppenheimer of Jersey City, requesting information as to when the State Highway Commission would proceed with the work on Route #18 through Alpine, since there were rumors to the effect that the Commission shall abandon the thought to proceed with this work. Commissioner Kidde inquired as to whether that particular section through Alpine could not be proceeded with. State Highway Engineer Sloan informed the Commission that due to the fact that this was a very short strip of one and one-half miles, it would be very difficult to secure competition.

The Secretary informed the Commission that Mr. Leo Schwartzstein was present to discuss this matter with the Commission. Mr. Schwartzstein advised that he was interested in ascertaining whether it would be possible for the Commission to maintain a short strip of about 500 feet, which be believed dangerous to traffic on a section of Route #18, coming off the ferry location.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the communication from Judge Heppenheimer be acknowledged and that he be advised that it is the purpose of the Commission to proceed at the earliest possible time, when assurance is in hand from New York, and further that the Maintenance Division be instructed to make such necessary repairs on Route #18 in this particular locality, as will place the same in suitable condition for travel.

The Commission then recessed for luncheon at 1:30 P. M. to meet again at 2:30. The meeting was resumed at 3:30 P. M., with the same members present as at the morning session.

Right of Way, Entrance Road, Camden Bridge Approach

The Secretary informed the Commission that Mr. Frank D. Schroth, agent for the receiver of the N. Z. Graves Company in Camden was present. On motion, duly seconded, a hearing was granted. Mr. Schroth informed the Commission that Mr. Graves had been in Trenton during the moring but it was found necessary for him to leave the City, and he presented to each Commissioner a typewritten statement covering the proposition of the N. Z. Graves Company to turn their property over for State Highway purposes, in which statement he advised that $200,000.00 would cover all claims.

Commissioner Kidde stated that he believed the Commission should make an offer of the average price set by the State's appraisers for the property and such salvage as would be on this property, and he moved that an offer of $130,000.00 be made to the N. Z. Graves Company's receiver for land and buildings on the Entrance Road at Camden, and that they be privileged to remove the buildings as salvage, if taken off within sixty days from the acceptance of the agreement; otherwise the same would remain the property of the State Highway Commission, and in the event that this offer is refused that condemnation proceedings be instituted in accordance with the following resolution:

March 24, 1925

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route known as Entrance Road, Camden Bridge Approach being a portion of the extension of State Highway Routes 2, 3 and 6, to connect with the New Delaware River Bridge, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel No. 37. Beginning at a point in the easterly side of Twelfth Street four hundred fifty-nine and eighty-three hundredths (459.83) feet from the intersection of the Easterly line of Twelfth St. with the northerly line of Federal Street, said point being distant forty-four and five tenths (44.5) feet from and normal to the proposed center line of the Penn Street Branch of the Entrance Road in the City of Camden at Station 7 plus 85. 63, as shown on a plan entitled "New Jersey State Highway Department, Camden Extension Division, Entrance Road, Property to be acquired from N. Z. Graves Inc., City of Camden, Scale 1" equals 50', January, 1925." and running:

Thence (1) bounding the lands of grantors and along the easterly side of Twelfth Street, North ten degrees, three minutes, thirty seconds East (N10-03'-30"E) one hundred seventy-two and nineteen hundredths (172.19) feet to a point;

Thence (2) through the lands of grantors, of which this tract about to be conveyed is a part, along the proposed easterly right-of-way line of the Entrance Road, South forty-two degrees, twenty-nine minutes East (S42-29'E) four hundred sixty-one and forty-four hundredths (461.44) feet to a point of curvature marked "P. C. Station 12 plus 78.78," said course being parallel to and distant sixty (60) feet from the proposed center line of the Entrance Road;

Thence (3) still through the lands of grantors along the proposed easterly right-of-way line in a southeasterly direction, concentric with and sixty (60) feet distant radially from the said proposed center line of the Entrance Road, along the arc of a curve to the right with a radius of one thousand, four hundred, ninety-two and sixty-nine hundredths (1492.69) feet a distance of one hundred fifteen and fourteen hundredths (115.14) feet to a point in the northerly right of way line of the Pennsylvania Railroad (Trenton Division);

Thence (4) bounding lands of grantors and along said northerly right-of-way line South seventy-five degrees, two minutes West (S75-02'W), one hundred thirty-one and forty-five hundredths (131.45) feet to a point in the proposed westerly right-of-way line of the Entrance Road;

Thence (5) through the lands of grantors and along the said proposed westerly right-of-way line of the Entrance Road in a northwesterly direction, concentric with and sixty (60) feet distant radially from the said proposed center line of the Entrance Road, along the arc of a curve to the left with a radius of one thousand three hundred seventy-two and sixty-nine hundredths (1372.69) feet a distance of fifty-four and thirty-one hundredths (54.31) feet to a point of tangency marked "P. C. Station 12 plus 78.78,";

Thence (6) still through the lands of grantors and along said proposed westerly right-of-way line, North forty-two degrees, twenty-nine minutes West (N42-29'W) One hundred sixty-five and eighty-seven hundredths (165.87) feet to a point of tangency marked "P. T. Station 11 plus 12.91," said curve being parallel to and distant sixty (60) feet from the proposed center line of the Entrance Road, said point being distant forty-four and five tenths (44.5) feet from and normal to the proposed center line of the Penn Street Branch of the Entrance Road marked "P. T. Station 9 plus 85.13,"as shown on a plan

Thence (7) still through the lands of grantors along said proposed westerly right-of-way line in a northwesterly direction, concentric with and forth-four and five tenths (44.5) feet distant radially from the said proposed center line of the Penn Street Branch of the Entrance Road along the arc of a curve to the left with a radius of one thousand one hundred one and seventy-eight hundredths (1101.78) feet, a distance of one hundred ninety-one and eighty-one hundredths (191.81) feet to the point and place of beginning;

CONTAINING sixty-one thousand, six hundred and twenty-nine (61,129) square feet, be the same more or less;

INTENDING TO CONVEY all of that land now owned or controlled by the grantors within sixty (60) feet of the proposed center line of the Entrance Road and within forty-four and a half (44½) feet of the proposed center line of the Penn Street Branch of the Entrance Road, situated between the easterly side of Twelfth Street and the United New Jersey Railroad and Canal Company, including that portion over which the Sun Oil Company now has Easement which lies within sixty (60) feet of the proposed center line of the Entrance Road.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $130,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Route #3, Widening, Hammonton

State Highway Engineer Sloan direction the attention of the Commission to the fact that the widening of Route #3 through Hammonton had originally been removed from the contract awarded by the Commission, and he would recommend that the Commission approve the replacing in the contract of the sections stricken out, due to the fact that the Maintenance Division has determined that it will not be able to save any money over the prices given by the contractor. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of the State Highway Engineer, and directed that the deduction as originally made on Route #3 Widening contract through Hammonton, be returned to the contract and that the same be done as originally authorized at the earliest possible time.

Request for Aid-Somerset County

The Secretary informed the Commission that Mr. F. W. Remsen, Director of the Board of Freeholders of Somerset County, together with Freeholder Wolston, were present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Remsen advised that the County of Somerset has, for the past three years, maintained the Easton Avenue Turnpike while the same was being used as a detour for the construction of the River Road in Middlesex County. This would again be the case in 1925, and he inquired whether the State Highway Commission would be willing to give aid to the extent of 50 per cent for repair to this improvement. He estimated the total cost to be $28,000.00.

Mr. Jelin stated that inasmuch as this roadway was used as a detour it would be much more preferable to continue the road at present in good condition for travel. Commissioner Jelin further stated that he believed the section of this work in most need of repair was between the wireless station and New Brunswick, and he moved that the matter be taken under advisement by the Commission. This was seconded by Mr. Stewart and adopted.

Mr. Woolston added a few remarks to those made by Mr. Remsen, reminding the Commission of the fact that Somerset County had not received any State Aid for a number of years.

Lighting, Route #10, Edgewater

The Secretary presented a communication from W. J. Wright, Attorney for the Borough of Edgewater, requesting the State Highway Commission to reconsider its action calling for the termination of the agreement with the lighting companu for the illumination of the steep grades on Route #10 in the Borough of Edgewater. He stated that if the State Highway Commission will continue this arrangement for another year the Borough will be willing to participate toward the lighting of any section which is in the Borough.

State Highway Engineer Sloan presented a report to the Commission advising that there were in all twenty-five lights existing on this section of roadway, of which there were five on the upper loop and eight on the lower loop. Commissioner Kidde moved that the State Highway Engineer be instructed to negotiate with the lighting company for the requisite number of lamps on the two curves on this road, and that the Borough authorities be advised that any other lights at the end of the road or at such other places as they believed necessary must be provided and paid for by the Borough. This was seconded by Mr. Jelin and adopted.

Amboy Bridge-Old

The Secretary presented a communication from the Attorney of Perth Amboy, presenting a resolution requesting the State Highway Commission to grant to the City of Perth Amboy a section of the old Amboy Bridge for use as a recreation pier when the new Amboy Bridge is put into service. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the communication be received and placed on file for consideration at such time as the new Amboy Bridge may be nearing completion.

Exhibits, State Highway

The Secretary presented a communication from the Manager of a Science Exhibition at Woodlawn Park, requesting the State Highway Commission to assist in the assembling of material for the Science Exhibition for the coming spring and summer, for which a building is being arranged at the park, and suggesting that the State furnish maps and drawings of the Philadelphia-Camden and the proposed New Jersey-New York Bridge, and also the Holland Tunnel. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication was ordered received and placed on file.

Offices, State Highway

State Highway Engineer Sloan brought to the attention of the Commission the matter of office space at Newark, in which he advised that following arrangements discussed by the Division Engineer and with a new office building owner, he had advised the owner of the present premises that the State would consider leaving at the end of its lease on May first; and in view of the fact that the State will not be able to build a new building inside of two years, it was very necessary that new locations be secured before the expiration of the lease. He recommended that the Commission accept the proposition in the building at the corner of Springfield Avenue and Branford Place, for 1206 square feet of floor space at the consideration of $3,000.00 per annum. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that this matter be referred to Commissioner Kidde with power to investigate and close the proposition, if it appeared desirable.

Equipment-Moving Picture Machine

State Highway Engineer Sloan advised the Commission that he had been asked to bring before the Commission the question as to whether the Commission would be interested in the purchase of a moving picture machine at a cost of $500.00, which could be placed on the front of an automobile and would record the conditions of any sections of roadway or any particular location. Commissioner Stewart stated that from his experience this machine was allright for a moving picture, but in the event it was necessary to stop it in order to view any particular picture, it would result in the ruination of films, and he moved that the matter be laid on the table at this time. This was seconded by Mr. Kidde and adopted.

The Schedule of Business was next taken up item by item as follows, with the recommendations of the State Highway Engineer:

Route #4, Section #28A.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route #4, Section #28A, Waretown-Forked River Cutoff, as presented by the State Highway Engineer, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer, and the Chief Clerk is directed to place the necessary advertisement for the work.

Detour, Route #16.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the recommendation of the State Highway Engineer that the State take over for maintenance the southerly half of a detour as made necessary in the Borough of Somerville, by the elevation of the tracks of the Central Railroad of New Jersey, from a point where the detour leaves Route #16 to the bridge over the tracks of the railroad company on Center Street, in lieu of granting further aid to the borough on account of this detour.

Abandonment, Route #8.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution for the abandonment of a portion of Route #8 at M. P. 9.1:

> WHEREAS, the State Highway Commission has heretofore taken over as a State Highway in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route No. 8 from Montclair to New York-New Jersey State Line, at Unionville, by way of Singac, Wayne, Pompton Plains, Butler, New Foundland, Stockholm, Franklin Furnace and Sussex, and,
>
> WHEREAS, upon the construction of bridge M. P. 9.1 over the Pompton River and approaches, it has been found desirable to relocate a certain portion of the said route for the betterment of the alignment, grade, etc., and
>
> WHEREAS, upon the construction of the said bridge and approaches on the revised line, there is a certain portion of the old road and bridge heretofore used as a part of the road before improvement which is no longer needed as a part of the improved State Highway,

NOW, THEREFORE, Be it Resolved, by the State Highway Commission of the State of New Jersey that the certain portions of the State Highway Route No. 8, Bridge M. P. 9.1 and approaches as hereinafter described, be and the same are herby abandoned as a part of Route #8 and vacated in accordance with the provisions of Chapters 14 and 15 of the Laws of 1917 and the amendment therein in Chapter 220, Laws of 1919.

Beginning at a point in the center line of the old road as taken over, said point being in the boundary line between Passaic and Morris Counties, said point being measured forty-one (41') feet more or less normally to the center line of the new line as constructed a about Station 437 + 63; thence (1) along the center line of the old road in an easterly direction a distance of two hundred fourteen (214') feet more or less to a point; thence (2) in a southerly direction a distance of one-hundred twenty-six (126') feet more or less to a point, said point being the intersection of the center line of the old road and the new northerly right of way line, said point being measured thirty-three (33') feet normally from the center line of the new road as constructed at about Station 440 + 85.

BE IT FURTHER RESOLVED, that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Passaic County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate that portion of the old road between the Pompton River and the Essex-Passaic County line as taken over September 1, 1919 lying outside the limits of the acquired right of way of the road as constructed between Station 437 + 63 and Station 440 + 85 more or less as shown on plan on file in the offices of the said State Highway Commission at Trenton, N. J.

Offices

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the acceptance and execution of a lease by the Chairman for the rental of a Field Office at Freehold, New Jersey.

Right of Way, Route #3

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the following parcels of property on Route #3, Section #12, Egg Harbor-Hammonton Section:

Parcel #116,	Emily Gemeinhardt & Husband	$10.65
" #121,	Joana Camp, unmarried,	8.85

"	#53,	Carrie Sayers,	44.25
"	#56,	Joseph Riggins,	25.00
"	#65,	P. W. Stephens,	33.60
"	#66,	Maggie S. Moyer,	24.00
"	#68,	Israel Abrams,	50.00

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel #66, from Alice W. Higby and Husband on Route #14, Section #11, Petersburg-Tuckahoe Section, for the consideration of $47.70.

Right of Way, Entrance Boulevard

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of an increase in the amount to be paid to Marietta J. and Martin Sabye, for Parcels #5A & 5B on the Entrance Road at Camden, the total sum being $2,100.00 as against the former allowance of $2,000.00; this being due to the fact that Mr. Saabye had not signed the original agreement and now refused to sign it.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the followin parcels of property on the Entrance Boulevard:

Parcel		Consideration
14,	Stefan Wasilowski et ux,	$2,590.00
29,	Wm. G. & Clare T. Moore,	720.00

On motion by Mr Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of the following parcels of property on the Entrance Road to the Delaware River Bridge, at Camden:

Parcel		Consideration
17,	John & Celia Russel,	$2300.00
18,	Ditto	2300.00
19,	Ditto	2300.00
20,	Ditto	2300.00
21,	Ditto	2300.00
22,	Ditto	2300.00
23A & 23B	Ditto	2650.00

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved an agreement with the Sun Oil Company for the release of Easement #1 on the Entrance Road at Camden, for the consideration of $1.00 plus grading down to the final street level, to provide satisfactory, free, easy and unobstructed passage to other lands of grantor.

Extension of Time-
Albany St. Bridge, Route #1.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved an extension of time to Michael Staub, contractor on Albany Street Bridge on Route #1, for 40 working days, caused by the addition of several items to the original contract.

Meetings

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission authorized the State Highway Engineer to attend a meeting of the Committee on Regional Plan of New York an Its Environs, to be held at the Harvard Club, on April 7th, in accordance with the invitation extended by the General Director of Plans and Surveys.

Right of Way, Route #1,
Extension, Jersey City,

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved payment of $1450 to C. Alfred Burhorn for appraisal as made by him on property on Route #1 Extension through Jersey City.

Employments

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the following additions and changes in the personnel as approved by the State Highway Engineer since the last meeting.

March 24, 1925

Employed

Maintenance Materials, Warren County

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved award of contract for maintenance and repair materials to be used by Warren County during 1925.

Maintenance Materials, Mercer County

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved specifications for 56,720 gallons Tar B or UB, and 56,086 gallons Tar X or U3 for use on Mercer County Maintenance work.

Maintenance Materials, Union County

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved of award of contracts for maintenenance and repair materials to be used in Union County during 1925.

Maintenance Materials, Salem County

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved of award of contract by Salem County for 405,000 gallons of Slow Curing Oil to Asphalt Service, Inc., to a total of $43,254.00.

Maintenance Materials, Sussex County

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved of specifications for maintenance and repair materials for Sussex County roads in 1925.

March 24, 1925

Township Aid, Bergen County

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved award of contract by Hillsdale Borough, Bergen County, on VanEmburgh Avenue, township aid work.

Township Aid, Gloucester County

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved of acceptance and final payment on Aura & Clayton Road, Elk Township, Gloucester County.

Township Aid, Morris County

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved acceptance and final payment on Denville-Mt. Lakes Road, Denville Township, Morris County.

Fort Elfsburg-Salem Road, Motor Vehicle Aid, Salem Co.,

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved of Salem County advertisement for loading and hauling of 1500 cubic yards of gravel for use on Fort Elfsburg-Salem Road.

Township Aid, Morris County

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved extension of time from October 20, 1923 to August 8, 1924, on Denville-Mt. Lakes Road, Denville Township, Morris County.

Township Aid, Camden County

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission accepted and authorized final payment on Clementon-Erial Road, Section No. 2, Clementon Township and Borough, Camden County.

Township Aid, Cumberland County

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission accepted and authorized final payment on Turkey Point Road, Sec. #2, Downe Township, Cumberland County.

Township Aid, Camden County

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved acceptance and final payment on Brooklyn-Blue Anchor Road, and Sicklerville Road, Winslow Township, Camden County.

Cape May Point Boulevard, Cape May County

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved plans and specifications for Cape May Point Boulevard, Cape May County Motor Vehicle Aid work, and granted a special allotment from the reserve account in the amount of $25,000 toward this work.

Township Aid-Atlantic County

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved extension of time from Sept. 1, 1924, Sept. 26, 1924, on Buena-Tuckahoe Road, Sec. 3, Weymouth Township, Atlantic County.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved acceptance and final payment on Buena-Tuckahoe Road, Section 3, Weymouth Township, Atlantic County.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission meeting adjourned at 6:15 P. M., to meet in regular session at the call of the Chairman.

Respectfully submitted,
A LEE GROVER, Secretary.

MINUTES OF MEETING - March 31, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, Tuesday, March 31, 1925. The meeting was called to order at 10:30 A. M. by Chairman Scott.

Present: General H. L. Scott, Chairman, Messrs. Walter Kidde and Abraham Jelin.

Absent: Percy H. Stewart, on account of illness.

Shore Relief Route

State Highway Engineer Sloan presented to the Commission a plan of the proposed Shore Relief Route and advised that the Engineering Division was hastening the completed details in order that this work might be advertised at the earliest possible time. Commissioner Kidde suggested that advertisements be placed as soon as possible for those sections to the point where the Keyport Cut-off actually begins.

Route 1 Extension- Grove Street Widening

The Secretary informed the Commission that Mr. Frank J. Radigan, Engineer of Hudson County, was present with a delegation from Jersey City and Hoboken, for a hearing before the Commission. On motion, duly seconded, a hearing was granted. Mr. Radigan appeared and advised the Commission that the delegation was present to discuss the proposition of widening Grove Street and providing some definite means of connecting up the outlet of the Vehicular Tunnel with North Hudson, Hoboken and the eastern part of Bergen County. He stated that the Advisory Board Report made reference to this situation, but did not make any definite recommendations. He advised that his recommendation would be to make Grove Street 36 feet wide and to acquire a new right of way at the Jersey City-Hoboken Line to connect with the Paterson Plank Road; thus making a direct connection with Paterson and Passaic. He informed the Commission that the entire proposition, including the reconstruction of the Paterson Plank Road, would be $275,000.00.

Mr. Coffin of the Hoboken Chamber of Commerce also spoke of the urgency of the matter in getting an opening from the Vehicular Tunnel through to Hoboken which would be satisfactory for the traffic. Commissioner Kidde inquired as to why the recommendation was not for taking the traffic through Jersey Avenue instead of Grove Street, since Jersey Avenue is on the line of the Tunnel Plaza. Mr. Radigan advised that there were grade crossings on Jersey Avenue which would make the cost prohibitive.

State Highway Engineer Sloan inquired as to whether the County of Hudson would consider this improvement of more importance than the improvement of Tonnelle Avenue.

Mr. Radigan advised that he could not, at this time, make any statements, but he felt that the plan proposed at this meeting would be of great relief to the local water front at Hoboken, Paterson and Passaic.

Commissioner Kidde then stated that he believed the State Highway Commission owed some responsibility to assist traffic reaching Hoboken and the hill, but he did not believe the State could enter into any proposition whereby the Paterson Plank Road would be improved, since this was purely a County matter.

Mr. Radigan estimated the section, exclusive of the Paterson Plank Road, to cost $125,000.00 for the work suggested.

Chairman Scott informed the delegation that the Commission was very anxious to assist in all propositions for the relief of traffic but it could only measure its assistance by the amount of funds in hand. He advised that this matter as presented would be given very serious consideration.

Right of Way-Route 1 Extension

Mr. Scheffler, who was present as a member of the delegation from the Chamber of Commerce of Jersey City, informed the Commission that he would like to convey some idea of the Erie Railroad controversy to his Association.

Chairman Scott then outlined for Mr. Scheffler the difficulties encountered in the negotiations with the Erie Railroad Company and the refusal of that body to cooperate. Mr. Scheffler advised that he would carry this message back to the Chamber of Commerce.

Sidewalks-Route 13, Raritan Township

The Secretary presented a communication received by Commissioner Jelin from Mr. W. R. Woodward, Township Clerk of Raritan Township, Middlesex County, advising that the Township desired permission to build a cinder sidewalk from the Mill Brook to the Lincoln Inn on the North side of the Lincoln Highway section of Route 13.

Commissioner Jelin informed the Commission that due to the fact that this section of the road is used by so many school children, they be given permission to build a cinder sidewalk, and he moved that the Raritan Township Committee be advised that if they will prepare a plan for sidewalks and have the same approved by the State Highway Engineer this improvement will be considered favorably by the State Highway Commission, the work to be done entirely at the expense of the Township.

Route 9, Bloomsbury

The Secretary presented a communication from Mayor Willever of Bloomsbury, inquiring as to whether the State Highway Commission would set a date to visit the Borough of Bloomsbury in order to look over Route 9 relocation at that point. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that an inspection be arranged for Saturday afternoon, April 4th, and directed that Mayor Willever be advised accordingly.

PolicePowers - Legislation

Commissioner Kidde informed the Commission that, by chance, he had met Commissioner of Motor Vehicles William L. Dill, who expressed disapproval of the fact that the State Highway Commission had succeeded in passing legislation giving motor vehicle inspectors' powers to such employees as it deemed desirable without first consulting Mr. Dill as to the feature of this measure.

Commissioner Kidde questioned as to whether it would be proper for the Commission to give police authority to highway men without their being instructed properly by the Motor Vehicle Department, and that this could only be gained by mutual cooperation.

State Highway Engineer Sloan informed the Commission that this legislation was one of the first things sought for by the Commission in view of the fact that there were so many violations on the roads during the construction season that the foremen and inspectors would be able to be of service to the State without any extra compensation, although it was not proposed to add to their duties any additional work as policemen.

Commissioner Kidde then suggested that Chairman Scott arrange a conference with Commissioner Dill in order that these matters may be straightened out with cooperation toward all concerned.

Naming-State Highways

The Secretary presented a communication from Lila V. Huddy, State Regent of the New Jersey Daughters of the American Revolution, inquiring as to the naming of State Highway Route 8, and urging a selection, and stating that "Minisink Trail" was the best that has been suggested. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the communication be acknowledged and that Mrs. Huddy be advised that the naming of State Highways is entirely within the authority of the State Legislature and where there are names at present, these have grown up with popular use without any legislative designation.

Exhibits

The Secretary presented a communication from the Atlantic City Spring Hotel Association Committee, offering a booth, without charge, to the State Highway Commission, if an exhibit can be arranged. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the exhibit be arranged as requested during the period of April 27th to May 2nd.

Invitation - Conventions

The Secretary presented a communication from the Regional Plan of New York and Its Environs, inviting the State Highway Commission to send representatives to an International Conference on City and Regional Planning on Wednesday evening, April 22nd, when the regional plan of New York will be considered. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the State Highway Engineer arrange if possible to attend this meeting in accordance with invitation received.

Marking-Highways

State Highway Engineer Sloan informed the Commission that he had returned the ap ointment offered by the U. S. Department of Highways for him to serve as a paid member of a committee for road marking, and he had received a communication from Mr. MacDonald, Chief of the Bureau at Washington, advising that the regular appointment was offered merely for the purpose of insuring the delegates that their expenses would be paid, since they would be coming from all over the country. Mr. MacDonald had suggested, however, that in view of the proximity of New Jersey to Washington it might be possible for the State, in view of the benefits to be derived from such a conference, to pay the expenses for sending its State Highway Engineer to attend such meetings as would be called by Mr. MacDonald, concerning the marking of Federal Highways, when such meetings are convenient to his time.

Request for Hearing

The Secretary presented a communication from Mr. Gustave Hunzinger, Attorney for Little Falls Township, requesting an opportunity to appear before the Commission on account of work on the Newark and Pompton Turnpike. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that this communication be referred to the State Highway Engineer in order that he might communicate with the Township, and if it is necessary that they come before the Commission, that a hearing be arranged.

Request for Aid-Sussex County

Commissioner Kidde, inquired of the Assistant State Highway Engineer as to what had transpired at West Milford in connection with the meeting, looking toward the improvement of the road from West Milford to Newfoundland. Mr. Reed presented a report in which he advised that in addition to himself, there were representatives of the Board of Freeholders at this meeting and he has informed them that the State Highway Department would be ready to cooperate in any manner toward working out a satisfactory plan whereby the work could be done, but that the only funds to be available would be the Township Aid funds, if the County was unwilling to take it over as a County road, as appeared to be the case from the statements of the County representatives. Mr. Reed stated that there was only one member of the Township Committee present and he assumed that there was no immediate prospect for improvement in this locality.

Motor Vehicle Aid-Request for Aid-Somerset County

The Secretary presented to the Commission the request of Somerset County as made at the last meeting of the Commission for aid in the repair of the Easton Turnpike, used as a detour during the construction of the River Road, a State Aid project in Middlesex County. Mr. Jelin advised that in view of the fact that this road has, for the past three years, been subjected to extra heavy traffic while sections of the River Road in Middlesex County were being completed, he would move that the County of Somerset be granted aid to the extent of $6000.00 toward the repairing of a section of the Easton Turnpike which is very much in need of the same. This was seconded by Mr. Kidde and adopted.

The Schedule of Business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer:

Route 6, Alloway Creek Bridge

There was presented the following report of bids received on March 3rd for the construction of the Alloways Creek Bridge at M. P. 3.78 on Route 6, and it was recommended in view of the financial ability of the contractor, that award be made to the low bidder.

Samuel Campbell	$ 59,173.30
General Cont. & Const. Co..........	68,800.17
M. Staub & Kolyn Const.Co..........	76,031.71
J. H. Terry & Co....................	86,692.00
Thomas Sheahan.....................	89,199.25

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission adopted the following resolution:

> RESOLVED, that the contract for the construction of Alloway Creek Bridge on Route 6 at M. P. 3.78 be and the same is hereby awarded to Samuel Campbell of Bridgeton, New Jersey, the lowest bidder for the sum of $59,173.30, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the approval of the plans by the War Department.

Route 4, Section 29.

Plans and specifications were reported completed for Route 4, Section 29, Barnegat-Manahawken section. Ocean County. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that plans and specifications for the construction of Route 4, Section 29, Barnegat-Manahawken section, be and the same are hereby approved, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the Chief Clerk is directed to place the necessary advertisements for the work.

Route 5, Section 15A

Plans and specifications were reported completed for Route 5, Section 15A, Milburn Avenue, Irvington, in the Counties of Union and Essex. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the plans and specifications for the construction of Route 5, Section 15A, Milburn Avenue, Irvington be and the same are hereby approved, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the Chief Clerk is directed to place the necessary advertisements for the work.

Borings-Entrance Blvd., Camden

Specifications were reported completed for the sinking of casings and core borings in rock on the Entrance Boulevard in Camden.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve of plans and specifications for approximately 1840 lineal feet of casings to be sunk and the making of 20 lineal feet of core borings in rock on the Bridge Approach Boulevard at Camden in the vicinity of the Cooper River, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the Chief Clerk is directed to place the necessary advertisements for the work.

Trolley Tracks-
Route 6, Section 14.

State Highway Engineer Sloan reported that negotiations have been completed with the Town of Woodbury whereby Route 6, Section 14, Broad Street, Woodbury, can be improved by the State in view of the fact that the Public Service Railway Company will now entirely remove their double tracks between Salem Avenue and Cooper Street, whereas previously they had intended to reconstruct and maintain one tract. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission unanimously adopted the following resolution:

March 31 1925.

RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of the trolley track area on Route 6, Section 14, Broad Street, Woodbury, in accordance with the plans previously approved by the State Highway Commission except for the fact that the Public Service Railway Company will now entirely remove their double tracks from Broad Street, between Salem Avenue and Cooper Street, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the Chief Clerk is directed to place the necessary advertisements for the work, funds to be set up from the Motor Vehicle Account savings of 1924.

Right of Way-Route 3

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of Parcel #21 on Route 3, Section 11, Berlin-Hammonton, from Leonard Reed, for the consideration of $50.00.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property on Route 3, Section 12, Egg Harbor-Hammonton:

Parcel No.		Consideration
91	Josephine Greck,	$ 9.75
110	Frank Macrie & Wife,	8.85
112 & 118	Michael L. Ruberton, (also the acceptance of a quit claim deed)	19.50
53B	Wm. N. Bakely & Wife,	1.00

Right of Way-Route 4

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of the following parcels of property on Route 4, Section 28A, Waretown-Forked River:

Parcel No.		Consideration
9	John L. Hall & Wife,	$ 75.00
11	Wm. Schober & Wife,	35.00
13,17,17A	Joseph H. Smith,	45.00
18	Edmund B.Stackhouse & Wife,	40.00
19	Henry R. Eiseman & Wife,	75.00

Right of Way-Route 14

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of the following parcels of property on Route 14, Section 8, Swainton-Ocean View:

Parcel No.		Consideration
12	Arien S. Bailey (widow)	$100.00
63	Chas. W. Beall (revised)	29.85
79	Betsy Ann Andrews,	9.60

March 31, 1925.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of the following parcels of property on Route 14, Section 9, Ocean View-Seaville:

Parcel No.		Consideration
13 & 13A	John Barber & Wife,	$ 1.00
15	Board of Education, Dennis Twp.	10.20
32	Emma H. Godfrey,	90.85

Right of Way-Route 6

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the leasing of Parcel #2 on Route 6, Section 10, from H. B. Kelty for the consideration of $1.00 for the privilege of constructing a temporary bridge at Alloways Creek during the construction of a bridge at M. P. 3.78.

Right of Way-Route 14

Commissioner Jelin reported that he had interviewed Laura S. Murray on the claim presented to him for investigation on Route 14, Section 7, and he had succeeded in securing the acceptance of an offer of $300.00 instead of $600.00 as previously asked, and he moved that the Commission approve the payment to Laura B. Murray (formerly Laura B. Lewis) of the sum of $300.00 in full settlement of all her property taken on Route 14, Section 7.

Lighting-Amboy Bridge

State Highway Engineer Sloan submitted for the approval of the Commission a proposed contract covering the lighting and power for the new Amboy Bridge. On motion by Mr. Jelin, duly seconded, the contract was referred to Commissioner Kidde for review and report.

On motion by Mr. Jelin, seconded by Mr. Kidde, the meeting was recessed for lunch at 1:30 P M. to meet in regular session again at 2:30 P.M. The meeting was reconvened again at 2:30 as agreed with the same members present as at the morning session.

Morris Canal Property

State Highway Engineer Sloan presented a form of letter which he desired to forward to the Morris Canal & Banking Company in response to their inquiry as to whether the State Highway Commission would be able to use property immediately adjacent to the Lincoln Highway on Route 1 Extension between the Hackensack and Passaic Rivers. This reply was to the effect that it is believed desirable by the State Highway Commission to acquire this land and before any definite action is taken by the Morris Canal & Banking Company for the disposal of this property, it is requested that the matter be again brought to the attention of the State Highway Commission. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication was approved as prepared by the State Highway Engineer with the addition of the following sentence: "Could you indicate on what terms this land could be secured?"

Route 20, Westville.

There was presented a resolution from the Borough of Westville agreeing to pave a full width of 40 feet between curbs in accordance with the recommendation of the State Highway Department; the State to pay for a width of 29 feet.

State Highway Engineer Sloan informed the Commission that in the taking over of Route 20, he had recommended for reconstruction this said section through Westville, which was in very bad condition. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission accepted the recommendation of the State Highway Engineer and unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route 20, on Silverlake Avenue, Borough of Westville, to a width of 40 feet, on which the State will share 29 feet, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the Chief Clerk is directed to place the necessary advertisement for this work.

Detour-Route 4

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the following official detour during the construction of the Cooper Bridge over the Navesink River, on Route 4, at M. P. 90.0:

> Beginning on Route 4 at the intersection of Maple Avenue and Front Street in the Borough of Red Bank, and running thence (1) westerly over Front Street and the Fairhaven-Holmdel Road to the Crawfords Corner Road; thence (2) northerly by the Crawfords Corner Road to the Tramp Hollow Road; thence (3) easterly by the Tramp Hollow Road to a point about 300 feet East of the New York and Long Branch Railroad; thence (4) still easterly across lands of the Shrewsbury River Country Club to Route 4.

March 31, 1925.

Detours-Route 5

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the following addition to detour for Route 5, Section 15, Farmers Hotel-Irvington:

> Beginning at the intersection of State Highway Route 5 and Milburn Avenue, in Maplewood Township, and running thence in a westerly direction over Milburn Avenue to the intersection of Main Street and Milburn Avenue, Milburn, where the same joins the detour previously adopted.

Employments.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the following additions, changes and increases as made in the employments since the last meeting of the Commission:

Employed

4-1-25	John Lauriello,	Gravel Patrolman,	$ 75.00 mo.
4-1-25	John F. Jones,	Junior Inspector,	125.00 "
3-24-25	Leo J. Burns,	" "	125.00 "
4-1-25	Marvin A. Riley, Jr.	Senior Clerk,	115.00 "
4-1-25	Charles Bieber,	Title Searcher,	150.00 "
4-1-25	John H. Patrick,	Bridge Detailer,	165.00 "
4-1-25	John M. Smith,	Office Boy,	40.00 "
4-1-25	Geo. Updyke,	Rollerman,	150.00 "
4-1-25	Charles Scott,	"	150.00 "
3-23-25	Norman Briggs,	Motor Truck Driver,	.40 hr.

Increases

4-1-25	Edward Downs,	Sr.Cost Clerk,	$145.	to	$150. mo.
4-1-25	R.B.Sigafoos,	Asst.Test.Chem.	135.	"	145. "
4-1-25	Stacy Fine,	Asst.Civ. Engr.	180.	"	200. "
4-1-25	Robert C. MacMullin,	Jr. Engineer,	110.	"	115. "
4-1-25	Charles Kuhn,	Auditor,	145.	"	160. "
4-1-25	Charles Cherry,	Garage Asst. to Mechanic,	.50	"	.60 hr.

Leave of Absence

4-1-25	Arthur H. Eskew,	Title Searcher
4-1-25	J. L. Silvers,	Maintenance Inspector.

Right of Way-Route 1 Extension

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved a bill rendered by Mr. Percy A. Gaddis for appraisals made on property on Route 1 Extension in Jersey City, in accordance with an agreement entered into with Mr. Gaddis.

Offices.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of leasing an additional room in the Broad Street Bank Building for the sum of $45.00 per month for the purposes of the Right of Way Division.

March 31, 1925.

Entrance Blvd., Camden Bridge Approach

The Secretary presented to the Commission a communication from Victor King of Camden, attaching letter received by him from the Keystone Leather Company, in which this company advised that it was not agreeable to the statement made by the State Highway Commission to the effect that "either an overhead or an underneath" conveyor would be approved by the Commission. They stated that they desired it distinctly understood that the conveyor must be constructed "overhead."

State Highway Engineer Sloan recommended to the Commission that in view of the fact that a short distance from this location there would be an overhead grade crossing, he would recommend that the Keystone Leather Company be advised that if they will submit a plan for the overhead conveyor satisfactory to the State Highway Commission, it will be given approval. On motion by Mr. Jelin, seconded by Mr. Kidde, the recommendation of the State Highway Engineer was approved by the Commission.

Commissioner Kidde inquired as to what progress was being made concerning the moving of the channel of the Cooper River. State Highway Engineer Sloan advised that the matter was being held up by the Department of Commerce & Navigation, pending the disposition of complicated problems on the matter of riparian rights. Commissioner Kidde then presented a communication he had received from Mr. Jenkinson of the Department of Commerce & Navigation, in which he advised that every effort was being made to straighten out the various "kinks" as soon as possible.

Commissioner Kidde suggested that Mr. Jenkinson be requested to set a date for a hearing with representatives of the State Highway Department in order that the entire matter may be gone over and the problems settled as soon as possible.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of Mr. Kidde's suggestion and directed that a communication be forwarded to the Board of Commerce & Navigation for such a hearing and that Mr. Kidde and the State Highway Engineer be delegated to attend for the State Highway Commission.

March 31, 1925.

Township Aid-Burlington County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Township Committee of Woodland Township, Burlington County, be assured that when funds become available on July 1st, the State Highway Commission will be favorable to the allotment of aid on the completion of the Chatsworth-Barnegat Road to the Burlington-Ocean County Line.

Federal Aid-Route 4, Section 27,

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved Federal Aid Project Statement 73, for Route 4, Section 27, Section B, Cedar Creek-Forked River Section, and authorized the Chairman's signature to the same.

Federal Aid-Route 4, Section 28.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of a Federal Aid Project Statement for Route 4, Section 28, Section C, Waretown-Barnegat section, and authorized the Chairman's signature on behalf of the Commission.

Request for Aid-Ocean County

There was presented a report from Assistant State Highway Engineer Reed on the request of Ocean County for aid in the reconstruction of the Lakewood-New Egypt Road, the estimated cost of which would be $150,000.00. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that in view of the large amount of construction work in Ocean County, that this matter be held over for later consideration.

Maintenance Materials-Ocean County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the specifications for application of 185,000 gallons of SCO on Ocean County roads, during 1925.

Maintenance Materials-Gloucester Co.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of specifications for the following maintenance and repair materials to be used on Gloucester County roads during 1925; 10,000 gallons LHO 22,000 gallons LK; 44,000 gallons LB; 131,400 gallons SCO; and 6,000 gallons of AE.

March 31, 1925.

Maintenance Materials-Morris County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of specifications as prepared by Morris County for maintenance and repair materials to be used during 1925.

Maintenance Materials-Camden County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved specifications for the following maintenance and repair materials to be used on Camden County roads during the year 1925: 2,745 gallons HK; 7,110 gallons KP or UC: 915 gallons amiesite or sheet asphalt; 97,425 gallons RCO-Tar B or UB: 17,7[illegible]7 gallons Tar X or U3 and stone.

Maintenance Materials-Hunterdon Co.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of award of contract by Hunterdon County for tars, asphalts, slag, gravel and stone to be used on the county roads during 1925.

Maintenance Materials-Bergen Co.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of award of contract by Bergen County for maintenance and repair materials to be used on County roads for the year 1925, it being understood that the County will make no award from the bids received for the use of equipment.

Motor Vehicle Aid-Atlantic County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of Motor Vehicle Aid schedule and agreement as presented by Atlantic County for 1925.

Township Aid-Ocean County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of award of contract by Long Beach Township, Ocean County, for Long Beach streets, to Oliver E. Cox, although only one bid was received, in view of the fact that this was below the Engineer's estimate of cost, and is recommended by the State Highway Engineer after proper advertisement.

March 31, 1925.

Township Aid-Hunterdon County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for River Road (Milford-Riegelsville, Section 1) in Holland Township, Hunterdon County, Township Aid.

Township Aid-Camden County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment on Haddonfield-Kresson Road, Voorhees Township, Camden County, Township Aid.

Township & Borough Aid-Passaic Co.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of award of contract by Totowa Borough Council on Bogart Street and Grant Avenue, Totowa Borough, Passaic County, Township and Borough Aid.

Route 3, Section 13.

Commissioner Jelin reported having inspected the completed work on the widening of Route 3, Section 13, between Egg Harbor and Absecon, and he moved that the same be accepted by the Commission and final payment authorized. This was seconded by Mr. Kidde and adopted.

Maintenance Materials-State Highway

State Highway Engineer Sloan presented to the Commission a report from Superintendent of Maintenance Muir, with recommendations as to the maintenance materials, exclusive of surface treatment for gravel roads and paint to be required for 1925 maintenance of State highways, and he recommended to the Commission that advertisements be placed for this material as soon as possible.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby authorize the advertisement for the following maintenance materials to be used on State Highway maintenance and reconstruction for 1925, in accordance with the recommendation of the State Highway Engineer:

Bituminous Concrete, Type FA-BC-1 or A, and sheet asphalt Type SA (for repair and maintenance of bituminous concrete pavements)................................	9,039 tons
Asphalt Cement Emulsion (for cold patching)...	68,650 gal.

Asphalt Cement, Grade OA-4 (for pouring joints)	56,550 gal.
Crushed Slag, dustless screenings (for covering cold bituminous treatments..........	6,729 tons
Tar, Grade U or UB (for cold surface treatment of macadam roads)......................	212,002 gal.
Tar, Grade X or U3 (for penetration macadam)...	8,888 "
Asphalt, Grade LK (for surface treatment of bituminous concrete pavements)...............	125,412 "

Crushed Stone and Gravel in accordance with the following list: (the larger sizes of stone to be used in heavier work and the smaller sizes and the gravel to be used in patching and for covering surface treatments in accordance with requirements).

2½" Crushed Stone.........................	15,462 tons
¾ " Crushed Stone.........................	1,832 "
Dustless Screenings, Crushed stone.........	5,745 "
Screenings, Grade A, " "	8,045 "
Second Grade ¾" Crushed Stone or Dustless Screenings......................	5,182 "
¼" Crushed Stone or ¼" Washed Gravel.......	7,829 "
Total.......	44,095 "

Amboy Bridge-New

State Highway Engineer Sloan inquired from the Commission as to whether any action would be taken concerning the asphalt block pavement on the Amboy Bridge, and he advised that a ten inch concrete pavement with double reinforcement would be more expensive than an eight inch roadway, as originally planned, with two and one-half inch asphalt block.

Commissioner Jelin stated that he believed that the reinforced concrete pavement would be a stronger construction than the asphalt block on a plain concrete foundation.

Commissioner Kidde stated that he believed that the Commission would not be justified in paying more for a concrete roadway than for an asphalt block, and in view of the fact that this was originally recommended on account of the vibrations in a bridge of this kind, he would suggest that no change be made in the specifications as drawn. No further action on this matter was taken at this time.

* * * * *

The Secretary presented a letter from Stillman, Delehanty, Ferris Company, contractors on the Amboy Bridge, inquiring as to what disposition had been made by the Commission of the claims for money and extra time on the Amboy Bridge, as presented to the Commission at its meeting of February 17th.

March 31, 1925.

The Secretary read a report from the State Highway Engineer in which he recommended that the claims of the contractors for losses incurred on account of a reduction in the lineal feet of piling, involving the cofferdam construction, be approved to a total of $42,709.29, as against the contractor's claim of $47,410.93: further as to the contractor's demand for extension of time of six months, due to delays on account of the State 's not securing the necessary right of way on the North approach, he advised that under the contract the contractor is not permitted to make any charge for such delays, but is entitled to reasonable extension of time.

In this respect, there was also submitted a money damage claim of the contractor for $12,509.00, of which $10,200.00 is for rental of adjacent property. He advised the Commission that he believed the rental of this property would have reasonably been required by the contractor had there been no delays, and he would recommend that the balance of $2,309.00 be paid to the contractor in consideration of his releasing the State from its obligations to granting an extension of time for the failure to provide right of way.

As to claim No. 3 for $4,167.07 for additional timber platforms to support green concrete, he recommended that this be paid in view of the fact that this was made necessary due to the extremely soft bottom encountered.

Commissioner Kidde protested the allowance recommended on lineal feet of piling driven, since he believed that in this item there was included a certain risk by the contractor which should be borne as a loss by him. He stated, however, that he recognized that there was a saving to the State in the amount of $84,500.00 on account of this reduction, which must have included some losses not anticipated by the contractor. He suggested that the percentage of loss on piling should be in the neighborhood of ten or twelve percent. This was figured to be a further amount of $5,533.65, making a net amount due on account of this claim of $37,175.64.

Commissioner Kidde, therefore, moved that this matter be laid over for consideration at the next meeting. This was seconded by Mr. Jelin and adopted.

March 31, 1925.

Right of Way-Route 1 Extension

Commissioner Kidde suggested that the State Highway Engineer prepare a report to the Jersey City Chamber of Commerce in response to their invitation to have some one present and outline the situation with respect to the Erie Railroad blocking the improvement through Jersey City.

Offices

Commissioner Kidde reported that he had investigated the location of the State Highway offices in Newark and was not yet sure that the proposed location was a satisfactory one. He suggested that this matter be held over until it had been considered by Commissioner Jelin, together with himself, and a report would be made at the next meeting.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was adjourned at 5:00 P.M. to meet in regular session again on Tuesday, April 7, 1925, at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - April 7, 1925.

A regular meeting of the State Highway Commission was held at the Commission meeting rooms, Broad Street Bank Building, Trenton, Tuesday, April 7, 1925. The meeting was called to order at 11:00 A. M. by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Walter Kidde, and Abraham Jelin.

Absent: Commissioner Stewart on account of illness.

Route #18-North, Alpine

The State Highway Engineer presented to the Commission a communication received under date of April 3d from A. W. Brandt, Commissioner of Highways of New York State, in which he advised that due to a cut in the budget for the 1925 program, it was impossible to proceed with the construction of the New York State Route #3 in Rockland County to connect with Route #18-North at Alpine for this year, but plans are progressing, the necessary right of way is being obtained this year, and he stated that he "can see no reason why the road cannot be let early next spring."

The Secretary read a telegram from Manuel Rionda, advising that he has learned that the New York Highway Commissioner is prepared to construct his part of the road next year and urging the Commission to proceed with its contemplated improvements on Route #18-North.

There was also presented a telegram from Judge Zabriskie urging the Commission to complete the road in Alpine.

Commissioner Kidde moved that having received assurances for the first time from New York that the State will proceed with the construction of New York State #3 to the New Jersey State line in 1926, that the State Highway Commission does direct that the State Highway Engineer procced with the advertising of the contract for the construction of three and one-half miles of State Highway Route #18-North from the Rionda property to the Dr. Burnett Estate, and that surveys be prepared for the continuation of the balance of the construction between Englewood and the New York State Line. This was seconded by Mr. Jelin and adopted.

The Secretary informed the Commission that Mayor Mahrens of Alpine, New Jersey, together with Mr. Schwartzstein, Vice President of the Westchester Ferry Corporation, were present and desired a hearing. On motion, duly seconded, a hearing was granted. Mayor

Mahrens informed the Commission that the Borough of Alpine was very much interested in securing the repair to a short stretch of State Highway through the Borough, which is in a very poor condition for traffic.

Chairman Scott informed Mr. Mahrens that the State Highway Commission had received, this day for the first time, assurances from New York to the effect that New York State will complete its section of Route #3 to the State Line during 1926, and relying upon this information, the State Highway Commission has directed that the work proceed upon Route #18 as soon as possible.

Communications

The Secretary presented to the Commission a communication received from Mr. Stewart, advising that he has a severe cold which he has not been able to throw off and by direction of the doctor it will be necessary for him to take a few weeks off, in order to recuperate. On motion duly seconded, the communication was ordered received

Route #8, Newfoundland-Stockholm

The Secretary presented a communication from James L. Garabrant, of Newark, calling attention to an advertisement seen by him for improvement of Route #8, between Newfoundland and Stockholm and suggesting that in view of the closing of Blackwell Street, Dover, together with the poor condition of trolley track road bed in Chatham and Madison, it will be difficult to travel to Sussex County during the coming season. He suggested too that the Route #8 construction be held up until the Blackwell Street job is completed. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that this communication be acknowledged with the advice that the Commission believes that it will be of great benefit to the people of the State to have Route #8 completed as soon as possible and work must proceed while there is an opportunity to have it done.

Signs

The Secretary presented a communication received from Senator Whitney of Morris County, transmitting a communication received by him from F. S. Meyer of Denville, New Jersey, requesting the removal for a short distance from its present location of the State Highway sign in front of the P. O. S. of A. building. On motion by Mr.

Kidde, seconded by Mr. Jelin, the State Highway Commission directed that Mr. Meyer be advised that if the sign will interfere with a proposed driveway and the P. O. S. of A. will pay the necessary expenses, the Commission will be glad to move the sign.

Request for permit, - Signals

The Secretary presented a communication from the Horni Signal Manufacturing Company of Newark, requesting that permission be granted for the opening of Route #1 at Rahway, in order to install a traffic signal on St. George's Avenue.

State Highway Engineer Sloan informed the Commission that the proposed installation would form an obstruction in the highway and unless an overhead type of signal could be arranged for he would recommend that permission be not granted. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that a communication be forwarded to Horni Manufacturing Company, with a copy to the City of Rahway, advising that the State Highway Commission has taken a consistent stand against the erection of signals in the center of State Highways, but if they will decide upon some form of signal which can be installed overhead, it will receive favorable consideration from the Commission.

Route #9, Bloomsbury

The Secretary presented a communication from F. W. Brown of Bloomsbury, New Jersey, urging upon the Commission his suggestion for the line through Bloomsbury, which was inspected by the Commission.

Commissioner Kidde requested that report be made at this time of the fact that the State Highway Commission had visited the Town of Bloomsbury on Route #9, in order to determine the alignment through the Town and the Commission was promised advice by the Mayor of Bloomsbury as to whether or not the people of Bloomsbury would be willing to pay for extra width if the State Highway Commission should desire to carry the alignment through the town.

Commissioner Jelin stated that he could not see where there would be any opportunity for the town to grow if the line of the road was changed from the main street.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the communication from Mr. Brown be acknowledged and that he be advised of the fact that the Commission is await-further information from the municipality.

Signals

The Secretary informed the Commission that Mr. Abrahamson of the Safety Signal Corporation was present and desired a hearing. On motion duly seconded, a hearing was granted. Mr. Abrahamson appeared and outlined for the Commission a proposed system of signals to be installed free of charge upon dangerous curves of State Highways in return for permission from the State to place advertising thereon which would not be objectionable to the State Highway Commission.

Chairman Scott suggested that such a proposition might interfere with a contract already entered into by the former State Highway Commission and the American Gas Accumulator Company.

Commissioner Kidde suggested that a sample of the sign proposed by the Safety Signal Corporation be prepared and presented before the Commission at some future date.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was recessed for lunch at 1:00 P. M. to meet in regular session again at 2:30 P. M. The meeting reconvened at 2:30 P. M. as agreed, with the same members present as at the morning session.

The schedule of business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer:

Route #15, Section #7

Plans and specifications were reported completed for the construction of Route #15, Section #7, Menantico Creek to Mauricetown Road, Cumberland County. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route #15, Section #7, Menantico Creek to Mauricetown Road, Cumberland County, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the Chief Clerk is directed to place the necessary advertisement for the work.

Navesink River Bridge, Route #4

There was presented the following report of bids received on April 6th for the construction of the Navesink River Bridge at M. P. 90.8 on Route #4, together with recommendation for award to the lowest bidder, by the State Highway Engineer:

April 7, 1925

S. S. Thompson & Co., Inc,	$ 389,387.42

Acchione & Canuso	157,300.44
Sutton & Corson	160,669.44
Union Paving Co.	166,515.15

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route #15, Section #8, Rio Grande-Green Creek, to the Interstate Engineering Construction Company of Philadelphia, at their's the lowest bid received in the amount of $140,641.95, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Right of Way, Route #4.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of Parcel #4, On Route #4, Section #26, Cedar Creek-Toms River, from Pierson S. Recto for the consideration of $225.00.

April 7, 1925

Right of Way, Route #7

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of the following parcels of property on Route #7, Section #4, Colts Neck-Jerseyville:

Parcel No.		Consideration
5	Jefferson Green & Wife,	$ 25.00
8	Wm. Schollenberger & Wife,	16.00
10 & 10-A	Wm. B. Thompson (single)	23.00
12 & 12-A	Wm. H. Flitcroft & Wife,	10.00
14	Amos B. Brocklebank,	8.00
15,	Theodore G. Rowe & Wife,	1.00
17 & 17A	Henry Drever & Wife,	1.00
18 & 18A	Addison F. Osborn & Wife,	6.00
19	Louis Franklin White & Wife,	1.00
20	Daniel J. Locklin & Emma M. Locklin,	10.00
21, 21A, 21B,	Chas. N. Broclebank & Wife,	60.00
23	Sarah L. Jones & Howard Jones (Husband)	27.00
24	Benjamin Lewis & Wife,	20.00
25,25A, 25B, 25C,	Leonard W. Layton & Wife,	25.00
26 & 26A,	J. Monroe Burdge & Wife,	2.00
27, 27A, 27B,	Adelia Matthews & J. E. Matthews, (Husband)	35.00

Right of Way, Route #14

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of Parcel #89 from the Trustees of the Calvary Baptist Church, Route #14, Section #8, Swainton-Ocean View, for the consideration of $35.00.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of Parcels #22 and #22A, on Route #14, Section #9, Ocean View-Seaville, from Lucien Eddy for the consideration of $75.00, and that condemnation proceedings in this matter be discontinued.

Right of Way, Route #16

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of entering into an agreement with the Duke Farms Company and its Attorney, whereby the State will acquire Parcel #5 on Route #16, Section #5A, for the consideration of $350.00, the Duke Farms Company to reset all trees and shrubbery found desirable to be reset.

Inspection, R. W. Hunt Co.,

The State Highway Engineer reported to the Commission that the contract with the R. W. Hunt Company, for inspection of materials for present construction, expires on March 31,1925, and he inquired whether it was the purpose of the Commission to continue to extend this contract for an additional year. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the contract with the R. W. Hunt Company be extended temporarily, during which time informal propositions will be received from other firms offering similar service.

Route #5, Section #15

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission accepted and directed the execution of an agreement between the Township of Union and the State of New Jersey covering the Township's share of extra cost of widening work on Route #5, Section #15, Farmer's Hotel-Millburn Avenue Section.

Nichol Avenue, New Brunswick

There was presented a report from the Construction Engineer to the effect that he had investigated the request of the Women's College for the extension of the Nichol Avenue pavement, and advising that Nichol Avenue has not yet been opened up or developed beyond the end of the pavement as installed a year ago, and the State Highway Engineer recommended that further action be deferred until such time as the city authorities of New Brunswick will open up and extend Nichol Avenue to Sanford Street. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Dean of the Women's College be advised in accordance with this report.

Claim - Michael Staub,
Route #14, Section # 11

There was submitted a report in connection with a claim of Michael Staub, contractor on Route #14, Section #11, in the amount of $5,698.21 growing out of the fact that for a distance of 700 feet the work was suspended due to delays in securing rights of way, and the contractor was compelled to return after completingthe balance of the work in order to complete this 700 feet, thus placing him to the expense of moving equipment, etc. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that this claim be further investigated and brought up at the next meeting.

Signs

The State Highway Engineer presented for the attention of the Commission a news clipping which indicated that a number of signs were to be placed on Route #18, known as the Harding Highway, by a local

Committee which would be at variance in color and design with the regulation State Highway signs, and up to this time he had received no request for the placing of these signs on the State Highways. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that information be forwarded to the Committee in charge of placing of Harding Highway signs, to the effect that it is the desire of the State Highway Commission that a committee appear before it in order that the Commission might be apprised of the nature of the signs and also by what authority the Committee is acting in placing the signs on State Highways.

Right of Way, Route #1,
Extension, Jersey City,

It was reported that offers had been made to owners of property on Block #324, Jersey City, as follows, and that they had failed to accept:

Heirs of William Williams,	$12,500.00
Marie C. Heavey & Eleanor W. Egan,	26,800.00

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission adopted the following resolution:

RESOLVED, that this Commission hereby determine to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #1, Jersey City, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

BEGINNING AT A POINT FORMED by the intersection of the southerly line of Twelfth Street with the dividing line between lots numbered twenty-five and twenty-six in block numbered three hundred and twenty-four, as laid down on a certain map, duly filed in the office of the Register of Hudson County, entitled "Official Assessment Map of Jersey City 1894, made by L. D. Fowler, Civil Engineer and Surveyor", and running thence (1) southerly at right angles with said southerly line of Twelfth Street, along said dividing line, thirty (30) feet to a point in said line; thence (2) easterly and parallel with the said southerly line of Twelfth Street, twenty-five (25) feet to the dividing line between lots numbered twenty-six and twenty-seven in said block; thence (3) northerly along said dividing line and parallel with the first course, thirty (30) feet to the southerly line of Twelfth Street: thence (4) westerly along said southerly line, twenty-five (25) feet to the point or place of Beginning; being the most northerly portion of lot numbered twenty-six in block numbered three hundred and twenty-four as shown on the above mentioned map.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $12,500.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

April 7, 1925

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route No. 1, Jersey City, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

BEGINNING at a point formed by the intersection of the southerly line of Twelfth Street with the dividing line between lots numbered twenty-five and twenty-six in block numbered three hundred and twenty-four, as laid down on a certain map, duly filed in the office of the Register of Hudson County, entitled, "Official Assessment Map of Jersey City 1894, made by L. D. Fowler, Civil Engineer and Surveyor" and running thence (1) along said southerly line, seventy-nine feet and ninety-six one hundredths of foot (79.96) to the easterly line of lands now or formerly of Frank A. Scatuorchio; thence (2) southerly along said easterly line, twenty-five (25) feet to a point in the northerly line of lot numbered twenty-three in said block; thence (3) easterly along said northerly line, fifty-four feet and ninety-six one hundredths of a foot (54.96) to the westerly line of lot numbered twenty-five in said block; thence (4) southerly along said westerly line, five (5) feet to a point; thence (5) easterly and parallel with the first course, twenty-five (25) feet to the aforesaid dividing line between lots numbered twenty-five and twenty-six in said block; thence (6) northerly along said dividing line, thirty (30) feet to said southerly line of Twelfth Street, the point or place of Beginning.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $26,800.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Request for Aid, Monmouth County

The State Highway Engineer submitted for the attention of the Commission the report he had presented a month previous concerning the granting of aid to Monmouth County, for the completion of a Shore Relief Road between West Long Branch and Belmar. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the matter be laid over for consideration at the next meeting.

Route #5, Section #15

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the subletting of contract by Sutton & Corson, contractors for the construction of Route #5, Section #15, Farmer's Hotel-Millburn Avenue, of the following parts of their work; Grading to J. H. Chapman & Sons of Hillside; Excavation to J. F. Chapman & Sons; drainage and appurtenances to Joseph Nuele of Maplewood, New Jersey; bridges to the Northern Construction Company of East Orange, New Jersey.

April 7, 1925

Institutional Roads

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission authorized the Engineering Division to give assistance to the Agricultural Experiment Station at New Brunswick in the preparation of plans and engineering work for the expenditure of their appropriation of $30,000.00 for road construction at the institution during the coming season.

Detour, Route #11

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission unanimously adopted the following detour during the construction of Route #11, Section #8, Kingsland Road, Nutley:

> Beginning at State Highway Route #11, at Kingsland Road and Washington Avenue; thence (1) easterly three-tenths (.3) of a mile on Kingsland Road to River Road; thence (2) Northerly one and nine-tenths (1.9) miles on River Road to Brook Avenue; thence (3) westerly four-tenths (.4) of a mile on Brook Avenue to Main Avenue; thence (4) Northerly four-tenths (.4) of a mile on Main Avenue to VanHouten Avenue; thence (5) westerly three-tenths (.3) of a mile on VanHouten Avenue to State Highway Route #11.

Employments

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the following additions and changes as made by the State Highway Engineer in the employments since the last meeting of the Commission:

Employed

April, 7, 1925

Main Street, Pennington,
Motor Vehicle Aid, Mercer County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of award of contract by Mercer County for the construction of Main Street, Pennington, Motor Vehicle Aid work.

Maintenance Materials, Mercer Co.,

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the award of contract by the Mercer County Board of Freeholders for the furnishing and applying of surface dressing and tar to about 26 miles of road, and penetrating about three miles of road located in various parts of the County.

Roseld Avenue, Deal,
Motor Vehicle Aid, Monmouth County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the award of contract by the Township of Ocean, Monmouth County, for Roseld Avenue in the Borough of Deal, Monmouth County, Motor Vehicle Aid work.

Sea Isle Boulevard,
Motor Vehicle Aid, Cape May County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the award of contract by Cape May County for sand and gravel shoulders to be placed on Sea Isle Boulevard, Motor Vehicle Aid work.

Fort Elfsburg-Salem Road,
Salem County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the award of contract by Salem County for the loading and hauling of gravel on the Fort Elfsburg-Salem Road, from Hancock's Pit, a distance of six and one-half miles.

Township Aid-Hunterdon County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of award of contract by Franklin Township, Hunterdon County on the Pittstown-Quakertown Road, Section #2, Hunterdon County, Township Aid.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved Township Aid Force Account Agreement on the Hampton-Changewater Road, Lebanon Township, Hunterdon County, Township Aid.

April 7, 1925

Federal Aid, Route #7, Section 4

ON motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved Federal Aid Project Agreement on Route #7, Section #4, Colts Neck-Jerseyville Road.

Lambertville-Mercer County Line;
Point Breeze-Frenchtown;
Motor Vehicle Aid, Hunterdon Co.

There was presented a report from Assistant State Highway Engineer Reed as to the request made by Hunterdon County for aid from the Motor Vehicle Reserve Account on County roads this year, which money would be applied for a permament type of construction. State Highway Engineer Sloan recommended that in view of the work proposed being reconstruction work, he would recommend that this allotment be made. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission adopted the recommendation of the State Highway Engineer and made a special allotment from the Motor Vehicle Reserve Account of $25,000.00 to Hunterdon County as aid on the reconstruction of the Lambertville-Mercer County Line Road and one mile of the Point Breeze Frenchtown Road.

Rt. 1, Grove St. Widening, Motor Vehicle Aid, Hudson County

Commissioner Kidde directed attention to the proposition placed before the Commission by the City of Hoboken and the County of Hudson at the last meeting, and he moved that the County of Hudson be advised that the State Highway Commission is prepared to allot $40,000.00 to Hudson County as the State's share of the cost of widening Grove Street to connect with the Paterson Plank Road provided that they receive advice from the County that this is the most important work in the County on which the State should aid.

Township Aid, Ocean County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of Township Force Account Agreement on the Greenville-Hubertsville Road, Brick Township, Ocean County.

Bridgeton-Port Norris-Section #4
Motor Vehicle Aid, Cumberland Co.

On motion by Mr. Jelin, seconded by Mr. Kidde the State Highway Commission approved plans and specifications for the Bridgeton-Port Norris Road, Section #4, Cumberland County, Motor Vehicle Aid work.

April 7, 1925

Turnerville-Sicklertown-Sec. 1 & 2
Motor Vehicle Aid, Camden County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved plans and specifications for the Turnerville-Sicklertown Road, Section #1, Camden County, Motor Vehicle Aid work.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved plans and specifications for the Turnerville-Sicklertown Road, Section #2, Camden County, Motor Vehicle Aid work.

Motor Vehicle Aid, Salem County.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the Motor Vehicle Aid schedule and agreements for Salem County.

Motor Vehicle Aid, Cumberland County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the 1925 Road Maintenance and Betterment schedule and agreement for Cumberland County.

Request For Aid, Warren County

There was presented a request from Warren County that the State Highway Commission grant Federal Aid in the year 1926 on the construction of seven miles of the Phillipsburg-Belvidere Road. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that Warren County be advised that the committments against the Federal Aid funds for 1926 have already been made, but that the Commission will be glad to consider their request at some future time when funds are in hand.

Route #20, Glassboro

State Highway Engineer Sloan resubmitted to the Commission the proposition as laid over at the last meeting for the paving of Route #20 through Glassboro and he recommended that the Commission approve of proceeding with the construction of Route #20 in Glassboro on the basis of the State paying for a 22foot pavement provided the Borough will at the same time pay for the construction of an additional width of pavement necessary to bring the total width up to forty feet between curbs and where existing curbs or sidewalds are destroyed, the State will replace said curbs and sidewalks at its own expense; the Borough to secure without expense to the State the necessary right of way and remove obstructions. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer and directed that this information be forwarded to the Borough of Glassboro.

Rejection of Plans-Cape May County

State Highway Engineer Sloan informed the Commission that he had received advice from Cape May County to the effect that in the event the State could not give aid on Roosevelt Boulevard Section #1, that the same be rejected in order that the county might proceed with the work from its own funds. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission rejected plans and specifications for the Roosevelt Boulevard, Section #1, Cape May County, due to lack of funds and in order that the County may proceed with the work from its own funds.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was adjourned at 4:00 P. M. in order that Chairman Scott and State Highway Engineer Sloan might attend the meeting of the Regional Committee on the Plan of New York and its environs, to meet in regular meeting again on Tuesday, April 14, at 10:30 A. M.

Respectfully submitted,
A. LEE GROVER
Secretary.

MINUTES OF MEETING -April 14, 1925.

A regular meeting of the State Highway Commission was held in the Commission meeting rooms, Broad Street Bank Building, Trenton, Tuesday, April 14, 1925. The meeting was called to order at 10:30 A.M. by Chairman Scott.

Present: General H. L. Scott, Chairnan, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Request for Aid-Cumberland County

The Secretary informed the Commission that a delegation of representatives of the Board of Freeholders of Cumberland County were present and desired a hearing. On motion, duly seconded, a hearing was granted. There appeared Senator F. M. Reeves of Cumberland County, County Engineer Sharp and Freeholders of Cumberland County, together with Mr. Chambers of Vineland. The Senator informed the Commission that the delegation was present in the interests of the improvement of Landis Avenue, extended from the Borough of Vineland past the State Institution for Feeble Minded. He advised that this road was taken over by the County a week ago and the County was very desirous to secure State Aid toward the permanent improvement of this Highway instead of making temporary repairs as suggested by the State Highway Commission. He informed the Commission that this section of road was a very important connecting link in a through route from Bridgeton to Atlantic City.

Senator Reeves introduced Mr. Chambers of the Borough of Vineland who informed the Commission that the section of road under discussion was 1.4 miles in length, beginning at the boundary of the Borough of Vineland and extending to Spring Road. He advised that its condition made it practically impassable for through traffic at certain seasons. He informed the Commission that the Township of Landis would agree to pay 10% of the cost and the county would share equally with the State the balance. The total estimated cost of the work, including curbs, was placed at $100,000.00 by County Engineer Sharp.

State Highway Engineer Sloan informed the Commission that a trolley track was in existence on a portion of this road and he did not feel that the State Highway Commission should enter into any arrangements for the improvement of this highway until the trolley track area could be reconstructed at the same time. He stated that an investigation had been made of this road and he believed that a repair job would carry the traffic until the trolley situation was corrected.

Mr. Chambers informed the Commission that the trolley company was an absolute necessity in Vineland, but that he did not believe that it could afford to expend any considerable money in reconstruction work, although he stated that the trolley company would place its tracks in good repair.

Mr. Kidde introduced a letter from Mr. Jenkinson of the State Board of Commerce & Navigation, urging the improvement of this road on the basis that it is past the door of a State Institution and for this reason should be shared in by the State as an institutional road.

Chairman Scott informed the delegation that the Commission would take this matter under serious consideration, but it did not feel that there was any responsibility in connection with the building of the road past the State Institution.

Route 9, Bloomsbury

The Secretary informed the Commission that Mayor Willever and members of the Borough Council of Bloomsbury were present for a hearing with the Commission. On motion, duly seconded, a hearing was granted. Mayor Willever appeared and stated that while no official action had yet been taken by the Borough Council, there was a unanimous opinion expressed by straw vote, that if the road was put through the main street of the Town, the Borough would be willing to stand the cost of eight feet extra paving on either side of the State's twenty-two feet, and place curbs and gutters. The Mayor asked questions concerning the cost of extra widening work and the distance to be covered and he was directed to take the matter up with the Engineering Division and return before the Commission, in the event there were any further questions concerning the improvement. The Mayor informed the Commission that the next time he would appear he would have some official action to report to the Commission.

In this connection the Secretary presented communications from Edward McCrea and S. A. Taylor, urging that the Commission change the alignment of Route 9 through Bloomsbury in order that it may not go through the main street of the town. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered acknowledged with the advice that the Commission is thoroughly familiar with the situation existing and is awaiting advice from the Borough before giving any definite decision on the matter.

Riparian Grants

Commissioner Kidde presented a communication received by him from Mr. Jenkinson of the Board of Commerce & Navigation concerning the propositions to be discussed with the State Highway Commission on the Cooper River Channel and the Hackensack and Passaic River bridges, in which Mr. Jenkinson offered the cooperation of his Board at the earliest moment and suggested April 20th as a suitable date for a conference.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that Mr. Jeninson's communication be acknowledged and that he be advised that the Commission will expect to meet a quorum in order that the conference may proceed in an official manner on April 30th.

Route 1 Extension, Jersey City

The Secretary presented a communication from the North Jersey Transit Commission concerning the location of State Highway Route 1 Extension, through Jersey City, and urging consideration for the suburban traffic on the Erie Railroad lines. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highwah Commission directed that the communication be received and acknowledged with the advice that the State Highway Commission has taken cognizance of any increase in facilities which the Erie Railroad has stated that they contemplate in the future to facilitate suburban traffic, and that the Commission will welcome any members of the North Jersey Transit Commission who desire to look over the plans which have been on file at this office since last August.

Route 17 General; Request for Aid-Hudson County

The Secretary presented a communication from the Town Clerk of Kearny, New Jersey, requesting State Aid in the resetting of curbs and paving of Belgrove Drive from Passaic Avenue northerly to the Greenwood Lake Railroad in the Town of Kearny, this aid being asked because the town is under the impression that this highway was taken over as part of the State Highway System.

The Secretary informed the Commission that the Town of Kearny has a population in excess of 16,000 and is on the lower section of Route 17 which has not yet been made part of the State Highway System, and in view of the fact that the town is a terminal point in the route, the State Highway, in the event it were taken over by the State, could not enter the Town of Kearny. On motion by Mr. Jelin, seconded by Mr. Stewart, the Secretary was directed to forward information to this effect to the Town of Kearny and advise that their application for State Aid must be placed on file until more definite information concerning the finances of the Commission are available.

Request for Hearing-Middlesex Co.

The Secretary presented a communication from the Board of Freeholders of Middlesex County, requesting a hearing to discuss road matters with the Commission. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Secretary arrange for a hearing immediately after the County has forwarded to the State Highway Engineer a statement in writing as to the road matters which it contemplates discussing in order that he may have the same investigated prior to the hearing.

Routes 14 and 15-General

The Secretary presented to the Commission resolutions from the Progressive League of Cape May and the Board of Trade of Wildwood, urging the construction of Routes 14 and 15 in 1926. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission ordered the resolutions received and placed on file.

Right of Way-Route 1 Extension

The Secretary presented a communication from E. J. Maier Corporation, submitting a bill for appraisal services in connection with the Bowen condemnation on Route 1 at the Hackensack River Bridge. Similar bills were presented from Charles F. Cramer and J. F. Gannon. On motion by Mr. Stewart, seconded by Mr. Kidde, the bills were referred to Assistant Attorney General McGee, who acted as Counsel in the Bowen proceedings, in order that he might approve the same.

Request for Aid-Hunterdon County

The Secretary presented a communication from Franklin Township Committee, urging the approval of the Commission to Township Aid application for the Trenton Road from Quakertown to Croton, Hunterdon County. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication was ordered received and filed for later consideration.

The Schedule of Business was next taken up for consideration item by item as follows, with the recommendations of the State Highway Engineer:

Route 4, Section 28A.

There was presented the following list of bids received on April 13th for the construction of Route 4, Section 28A, Waretown-Forked River Cut-off, and it was recommended that award be made to Michael Staub, the lowest bidder:

Michael Staub....................	$ 154,002.66
Union Paving Co..................	162,930.45
Stryker & Stryker................	164,104.90
Sutton & Corson..................	179,514.84
Fish-Rutherford, Inc.............	183,126.73
C. H. Winans Co..................	188,310.92
John M. Reuter...................	189,682.96
Liddle & Pfeiffer................	219,195.05

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 4, Section 28A, Waretown-Forked River Cut-off, to Michael Staub of Pitman, N. J. at his the lowest bid received in the amount of $154,002.66, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Route 6, Section 16.

There was reported the completion of plans and specifications for the construction of Route 6, Section 16, Broad Street, Woodbury, and it was recommended that advertisement be placed for this work.

April 14, 1925.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route 6, Section 16, Broad Street, Woodbury, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the Chief Clerk is directed to place the necessary advertisement for the work.

Route 18-North, Section 1, Alpine

Plans and specifications were reported completed for the construction of Route 18-North, Section 1, in the Borough of Alpine, Bergen County, and approval to advertisement was recommended. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route 18-North, Section 1, in the Borough of Alpine, Bergen County, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the Chief Clerk is directed to place the necessary advertisement for the work.

Right of Way-Route 3

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property on Route 3, Section 12, Egg Harbor-Hammonton:

Parcel	109A,	Rocco L. Ruberton,	consideration	$ 2.85
"	153F,	Sadie Johnson (single)	"	1.35

Right of Way-Route 14

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property on Route 14, Section 11, Petersburg-Tuckahoe:

Parcel	41A,	George Davis,	consideration	$ 5.00
"	41D,	Ida M. Ivins, widow,	"	5.00
"	93,	Jennie Madden, "	"	90.00

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property on Route 14, Section 9, Swainton-Ocean View:

Parcel	34,	Orlando Giberson,	consideration	$ 100.00
"	36,	Stephen Parsons,	"	35.00

April 14, 1925.

Right of Way-Route 6.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the acceptance of a lease for Parcel No. 1 on Route 6, Section 10, at bridge located at M. P. 3.78 from Lucius Hires, for the consideration of $1.00.

Right of Way-Entrance Boulevard

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of Parcel 24A, on the Entrance Road, Camden Bridge Approach, from Cynon H. Hayes and Wife, for the consideration of $600.00.

Entrance Road,
Right of Way-Amboy Bridge Approach

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of a conveyance to the New Jersey Shipbuilding & Dredging Company of a triangular portion of land to be acquired from Henry Wolff that lies southerly and outside of the southeasterly right of way line of the Route 4 Approach to the Amboy Bridge, by a deed delivered by the said Henry Wolff direct to the New Jersey Shipbuilding & Dredging Company, the remainder of the land acquired from Mr. Wolff to be conveyed to the State; all of the foregoing being in accordance with an agreement entered into with the New Jersey Shipbuilding & Dredging Company.

Right of Way-Route 4.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission accepted a grant made by H. C. Schlichting of the bridge and trestle structure on Route 4, spanning the Navesink River, in consideration of the sum of $1.00 and the condition that the State shall demolish and remove the said structure without cost to Mr. Schlichting.

Right of Way-Entrance Boulevard

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that offers as made for the following parcels of property on the Entrance Road, Camden Bridge Boulevard, be approved and that the owners in each case be notified that in the event they refuse to accept the offers, the Commission will institute condemnation proceedings to obtain the property:

April 14, 1925.

Right of Way Route #1, Extension

State Highway Engineer Sloan reported to the Commission that in making search of property, it was ascertained that proceedings had been instituted against the railroad on Route 1 Extension when they should have been made against Adolph Schoenberg, and an offer had been made to Mr. Schoenberg of $14,286.00, which he had refused. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that condemnation proceedings be instituted for the acquisition of property of Adolph Schoenberg in Block 324 on Route 1 Extension in Jersey City, in accordance with the following resolution:

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route 1 Extension, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

BEGINNING at a point in the southerly line of Twelfth Street, where the same is intersected by the easterly line of lot numbered thirty-one (31) in Block numbered three hundred and twenty-four (324), as shown on Bacot's Map of Jersey City, made in 1861, and duly filed in the Office of the Register of Hudson County; and running thence (1) along said easterly line of lot numbered thirty-one (31) in a southerly direction, thirty (30) feet, to a point; thence (2) in a westerly direction, parallel to and thirty (30) feet distant from the said southerly line of Twelfth Street, twenty-five (25) feet, to a point in the westerly line of said lot numbered thirty-one (31); thence (3) along said westerly line in a northerly direction, thirty (30) feet, to a point in the southerly line of Twelfth Street; thence (4) along said southerly line of Twelfth Street, in an easterly direction, twenty-five (25) feet, to the point or place of Beginning; being the most northerly part of lot numbered thirty-one (31) in Block numbered three hundred and twenty-four (324), as shown on aforementioned map, and being twenty-five (25) feet in width and thirty (30) feet in depth throughout.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $14,286.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason, said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Poles-Painting-
Marking-State Highways

There was presented a report from the State Highway Engineer concerning the painting of approximately 1650 poles on various sections of State Highway Routes, and it was recommended that existing arrangements with the E. B. Leahy, Inc. for the painting of bands on poles be continued to include this work at an estimated cost of $1,595.00 in view of the fact that under this contract poles are banded at a price less than the work can be done for by the maintenance forces, and also at a cheaper rate than it has been possible to secure outside painters up to this time. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the extension of the painting contract with E. B. Leahy, Inc. for the painting of bands on poles on Route 1 from Jersey City to Rahway, Route 2, from Trenton to Burlington, Route 3, from Camden to Absecon, Route 4 from Rahway to Toms River, Route 13 from Trenton to Princeton, and Route 16 from Wood's Tavern to Royce Valley and Bernardsville to Morristown, at an estimated cost of $1,595.00.

Offices.

The State Highway Engineer presented to the Commission a report from Assistant Engineer Lavis on the matter of Jersey City Offices, in which it was explained that the lease taken on the present offices held pending the completion of a new building by the same company, and that a reduction in price had been made with the understanding that the offices would be moved to the new building and the price was made $2.25 per square foot instead of $3.00. This rate of $2.25 would also apply to the new building, and the State Highway Engineer recommended that the Jersey City office be authorized to lease, at such time as it may be ready, office space in the new addition to a maximum of 4,000 square feet, the lease to be forwarded to the Trenton Office for approval. This was authorized.

State Highway Engineer Sloan presented a report concerning office space for the Northern Division, and he recommended that the Commission approve of the leasing of office space at Branford Place and Springfield Avenue in Newark, in accordance with the original recommendation of the Division Engineer.

Commissioner Kidde stated that he did not believe that there was sufficient fire protection in the new location at Branford Place for purposes of the Commission, but he could not find any other place available in Newark at a reasonable rate. He strongly recommended a location in the Town of Montclair.

Commissioner Jelin stated he believed that for the purposes of the Commission at the present time, the Branford Place offices gave the proper light and were situated so that there could be satisfactory parking of cars, and he was prepared to approve the recommendation of the State Highway Engineer. Commissioner Stewart therefore moved that the Engineering Division be authorized to acquire a lease on office space at Branford Place and Springfield Avenue, Newark, at a rental of $2.11 per square foot, and that the lease be forwarded to Trenton for approval. This was seconded by Mr. Jelin and adopted, Commissioner Kidde voting in the negative. The space taken was 1417 square feet.

Entrance Blvd., Camden Bridge Approach

State Highway Engineer Sloan presented a resolution from the Board of Commissioners of the City of Camden to the effect that the Board favors a dam and lock at the time of the erection of a new bridge over the Cooper River on the Entrance Road, Camden Bridge Boulevard, and requesting that the State Highway Commission embody in its plans for the construction of the new bridge a dam and lock, and the City of Camden will share its proportion of the cost of such construction.

State Highway Engineer Sloan informed the Commission that plans for the Bridge over the Cooper River had now reached the point where they were ready for the approval of the Board of Commerce & Navigation and the War Department and that it would delay the proceedings if it was necessary to incorporate the dam and lock at this time. He recommended that the City of Camden be advised that if they will proceed to secure the necessary approval of the Board of Commerce & Navigation and the War Department to the installation of a dam and lock prior to the time that the Commission is ready to advertise this bridge for construction, the Commission will incorporate such construction in its plans at the expense of the City of Camden. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that a communication in accordance with the recommendation of the State Highway Engineer be forwarded to the City authorities of Camden.

Equipment

State Highway Engineer Sloan presented to the Commission a report from the Superintendent of Plant & Equipment on bids received on April

9th for twenty tractor graders in accordance with specifications regularly advertised. He recommended to the Commission that award of contract be made in the best interests of the State to the Austin Western Road Machinery Company of Philadelphia, although they were not the lowest bidders, but due to the fact that they were the only parties who complied with the specifications as drawn, and also in view of the fact that their grader is much heavier for the work than that quoted on by the other concerns. He advised that the lowest bid received was from E. S. Tompkins of New York on the Hadfield-Penfield Grade, which they intended to build in accordance with the specifications, but up to this time they had not yet produced such a grader for the market.

Commissioner Jelin stated that he believed that it might be desirable to have lighter and heavier graders on the work in order to test the efficiency of the various weights upon different types of gravel roads.

Commissioner Kidde therefore moved that in view of the fact that the lowest bidder E. S. Tompkins, has proposed a new machine and is willing to meet the specifications, that award be placed with E. S. Tompkins for ten tractor graders in accordance with their bid and that the balance of the order of ten tractor graders be purchased from the Austin Western Road Machinery Company as recommended by the State Highway Engineer. This was seconded by Mr. Jelin and approved.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was recessed for lunch at 1:00 P.M. to meet again at 2:30 P.M. Prior to reconvening, Commissioners Stewart and Kidde attended a conference with Attorney General Katzenbach at the State House, and the regular meeting was resumed at 3:30 P.M. with the same members present as at the morning session.

Special Motor Vehicle Inspectors,
Police Powers

Chairman Scott informed the Commission that during lunch hour he had held a conference with Commissioner Dill in accordance with authority granted by the State Highway Commission, in order to discuss the provisions of a recent law which gave the State Highway Commission the authority to appoint peace officers with equal authority as Motor

Vahicle Inspectors. He advised that Commissioner Dill had expressed a willingness to appoint any man of the State Highway Department who should be nominated by the State Highway Commission as Special Motor Vehicle Inspector and he was not in favor that the Commission should operate under the provisions of the recent legislation which was enacted without his indorsement being obtained thereon. No action was taken by the Commission on this matter at this time.

Opinions-Attorney General

The Secretary presented a communication received from the Attorney General suggesting that local counsel be engaged in connection with certain cases in Hudson County. The Board having considered this matter, upon motion of Mr. Stewart, seconded by Mr. Jelin, gave its approval to the suggestion and authorized the Attorney General to take up the matter and arrange to obtain local counsel in such connection. The Chairman was directed to communicate with the Attorney General accordingly.

Right of Way-Amboy Bridge Approach

The State Highway Engineer presented for the consideration of the Commission the matter of the extension of Route 4 to the New Amboy Bridge. Commissioner Jelin stated that he had received information from reputable men in that locality that expert testimony can be secured that will prove that the clay lands of Mr. Valentine are not worth in excess of $5,000.00 per acre, and he would recommend that the Commission proceed upon the line of Cleveland Avenue extension direct to the bridge.

Commissioner Kidde stated that he had gone over the matter very thoroughly from records furnished by the State Highway Engineer and it was entirely a question as to whether the Commission would be willing to expend extra funds in this locality for making a direct line to the bridge rather than to use the Crackmally line, and making use of a section of highway recently constructed with State Aid by the City of Perth Amboy.

Commissioner Jelin stated that the Commission had already gone on record as favoring the line of Cleveland Avenue Extension, in view of the fact that it has authorized the acquisition of property on the new line.

April 14, 1925.

State Highway Engineer Sloan recommended to the Commission that the line of Cleveland Avenue Extension be used in view of the fact that it is to be a permanent approach to the Bridge. He stated that he had previously recommended the Crackmally line as a temporary expedient in the event the Commission would be held up in the acquisition of property on the line of Cleveland Avenue Extension.

Commissioner Stewart stated that he believed that it would be better business judgement for the Commission to adopt one line and build that as a permanent improvement rather than to build over an existing line and find that it would be necessary at a later date to add another route.

Commissioner Jelin, therefore, moved that the State Highway Commission does hereby determine that the line for the approach to the Raritan River Bridge in Perth Amboy shall be on the lines of Cleveland Avenue extended to connect with the present State Highway Route 4 North of Spa Spring Brook. This was seconded by Mr. Stewart and adopted.

Commissioner Kidde then moved that the Engineer be authorized to prepare plans and specifications for the construction of that portion of Cleveland Avenue Extension to Route 4 which lies outside of the City of Perth Amboy. This was seconded by Mr. Jelin and adopted.

Commissioner Kidde moved that Mr. DeVoe, Counsel for the Commission be given instructions to prepare and submit a form of agreement with the City of Perth Amboy, relative to the necessary approach to the Perth Amboy Bridge, said agreement to be agreeable to the suggestions of the Attorney General and to be subsequently submitted to this Commission for its approval and indorsement as to the terms thereof and to be effective only when finally approved by the State Highway Commission and the governing body of the City of Perth Amboy.

Commissioner Jelin moved that the city authorities of Perth Amboy be requested to meet with the State Highway Commission at its next meeting in order to discuss the provisions of the agreement to be drawn by Mr. DeVoe, to be entered into by the State Highway Commission and the City. This was seconded by Mr. Stewart and adopted.

April 14, 1925.

Condemnations - General

The Secretary presented an opinion from Assistant Attorney General DeVoe, in which he advised that in the matter of making allowances to tenants on property taken in condemnation for State Highway rights of way, the proper procedure would be to make the tenant a party defendent and for the condemnation commissioners to make a gross award, including therein the value of all the rights and interests sought to be acquired by the condemnation proceedings, and that the said gross award be paid into the Court of Chancery for distribution among the various claimants if they cannot agree to the division thereof. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the opinion be received and that the proceedings against the tenants be taken in accordance with the advice contained therein.

Abandonment-Route 4,
Shore Relief Routes-
Route 4 Keyport.

The State Highway Engineer presented for the consideration of the Commission the adoption of a line for the construction of a relief shore route in the vicinity of Keyport. He presented a plan showing the Cut-off in the vicinity of Keyport and recommended the abandonment of the existing line of Route #4 from the intersection of Broadway and Front Streets easterly Route #4 and southerly on Broad Street to a point in South Keyport. This abandonment is approximately 1.7 miles and in place thereof it was recommended that the line of Route 4 be extended from the intersection of Broadway and Front Street on Broadway to the intersection with the Matawan Road; thence by a new right of way in a general easterly direction to South Keyport, and in line with this construction it was recommended that the widening on Route 4 be continuous from Morgan to Keyport, which would make it necessary for authorization on that section between Cliffwood and Broadway. The adoption of this line would eliminate the point of heaviest congestion now existing at the intersection of Broad and Front Streets in Keyport.

Commissioner Stewart moved that the recommendations of the State Highway Engineer for abandonment of a section of Route 4 and the construction of a new line be approved, and that the following resolution be approved:

April 14, 1925.

RESOLVED, that the State Highway Commission does hereby determine to take over as a part of State Highway Route No. 4, beginning at the intersection of Broadway and Front Street, in Keyport, thence along Broadway to the point of divergence of a proposed new alignment in a general easterly direction to a point of intersection with the present State Highway Route No. 4 at South Keyport, and

BE IT FURTHER RESOLVED that the taking over of the new alignment and the abandonment of the existing alingment shall be and the same is hereby made effective as of the date of award of contract or contracts for the completion of the improvement of State Highway Route No. 4 on the new alignment.

This was seconded by Mr. Kidde and adopted.

Commissioner Kidde moved that the Engineering Division be directed to proceed at once with the preparation of plans and specifications and the acquisition of right of way in order that the work on this section of State Highway Route 4 may be proceeded with. This was seconded by Mr. Jelin and adopted.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Engineering Division prepare plans and specifications for the widening of Route 4 between Cliffwood Road and Broadway, Keyport.

Employments

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the following additions, changes and increases as made in the employments since the last meeting of the Commission:

Employed

4-9-25	William Wylie,	Motor Truck Driver	$ .45 hr.
4-8-25	Meredith J. Myers,	Mechanic	.65 "
4-7-25	F.L.Blackford,	Motor Truck Driver	.45 "
4-9-25	Geo. E. Downs,	Mechanic	.65 "

Increases

4-1-25	J. A. Marren,	Principal Clerk-Lab.	$145.	to	$155. mo.
5-1-25	George Lear,	Laboratory Mechanic	135.	"	145. "
5-1-25	G. H. Pilkington,	Junior Engineer	135.	"	150. "

Discontinued Employments

4-1-25	Wm. Helm, Jr.	Highway Inspector	Resigned
3-31-25	E. T. McNierney,	Resident Engineer	"
3-31-25	Clement Durham,	Gravel Patrolman,	"
4-15-25	F. W. Miller,	Highway Inspector,	"
4-1-25	A. B. Lincoln,	Asst. Civil Engineer,	"
4-15-25	Chas. R. Funk,	" " "	"

April 14, 1925.

Motor Vehicle Aid-Middlesex County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the Motor Vehicle Schedule and Agreement for Middlesex County for the year 1925.

Motor Vehicle Aid-Cape May County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the Motor Vehicle schedule and agreement for Cape May County for the year 1925

Motor Vehicle Aid, Camden County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the Motor Vehicle schedule and agreement for Camden County for the year 1925.

Fredon-Stillwater Road, Section #1, Motor Vehicle Aid, Sussex County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for the Fredon-Stillwater Road, Section #1, Sussex County, Motor Vehicle Aid.

Phillipsburg-Belivdere Road, Section #2, Warren County.

State Highway Engineer Sloan reported to the Commission that the County of Warren had been advised that Federal Aid cannot be granted on Section #2 of the Phillipsburg-Belvidere Road through Belvidere unless provision was made for the elimination of a grade crossing which involved a considerable cost. He recommended to the Commission that the Federal Aid on this section of street be withdrawn and in lieu thereof there be substituted an equivalent amount to aid in the improvement of a connecting street in Belvidere at this time. On motion by Mr. Kidde, seconded by Mr. Jelin, this recommendation was adopted.

Hearing - Cranford

The Secretary informed the Commission that the City Engineer of Cranford had advised that they were now ready to confer with the Commission concerning the improvement of Route 9 in Cranford. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that a hearing be arranged for the next meeting.

Trolley Tracks- Route 5, Madison-Chatham

Commissioner Kidde inquired as to whether anything could be done regarding the trolley track situation on Route 5 in Madison and Chatham and he suggested that Assistant Attorney General Coulomb, who has been taking this matter up with the local trolley authorities, be requested to advise the Commission at its next meeting as to what action has been taken by the courts in this matter, and whether the State Highway Commission can use its own funds to do some repair work in the trolley track area for the benefit of the traveling public, without causing injury to the cause of the Commission in the courts.

Township Aid-Cumberland County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the final force account statement on Herring Row Road, Fairfield Township, Cumberland County, Township Aid.

Township Aid-Atlantic County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the final force account statement on Pomona Road, Galloway Township, Atlantic County, Township Aid.

Township Aid-Cumberland County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the final force account statement on the Yank Walk Road, Commercial Township, Cumberland County, Township Aid.

Township Aid-Warren County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved award of contract on the Stewartville-Bloomsbury Road, Greenwich Township, Cumberland County, Township Aid.

Maintenance Materials-Passaic County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved award of contract by Passaic County for maintenance and repair materials for 1925.

Equipment-Ocean County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved award of contract by Ocean County for two Ford one-ton truck chassis and three Fordson H. P. Graders.

Route 9, Section C.

There was presented a report from Superintendent of Maintenance Muir on the matter of the request from the City of Plainfield for State Aid in the repair of detours for Route 9, Section C through the City of Plainfield. State Highway Engineer Sloan informed the Commission that he understood that when the appropriation was made from State funds for aid in the construction of Route 9, through Plainfield, that this money included any expenses for detours which might be incurred. Commissioner Kidde moved that the City of Plainfield be advised that the State Highway Commission has no funds for detour work in municipalities, which is regretted, but it was the understanding of the Commission that the amount of money originally given for the construction of the streets through Plainfield, was inclusive of any detour costs which might be necessary on account of the construction involved. This was seconded by Mr. Jelin and adopted.

Right of Way-Route 9

Commissioner Stewart reported that he had investigated the purchase agreement for the property of the H. C. Lockwood Company on Route 9, and he was prepared to recommend approval of the agreement. He moved that the Commission approve the purchase of Parcels 3, 4, and 7 on Route 9, Section 11, Plainfield-Westfield, from the H. C. Lockwood Company for the consideration of $3,000.00 This was seconded by Mr. Jelin and adopted.

Claims-Michael Staub

The State Highway Engineer again presented to the Commission the claims of Michael Staub for $5,698.21, on account of the fact that he was delayed by the failure to acquire right of way on his work which compelled him to leave a section of road out of the construction and return to complete the same at a much greater organization cost, as well as making it necessary to substitute "lumnite" cement for ordinary cement in order to complete the work before winter set in.

State Highway Engineer Sloan further advised that the contract provided for an extension of time in the event the constracot's work was delayed, but in this case Mr. Staub was entirely completed before the time allowed in the contract was taken up.

Commissioner Kidde stated that he believed that every contractor assumes a certain amount of risk as to the completion of his work before the winter season and it was to Mr. Staub's advantage to complete this section of roadway rather than suffer the consequent loss of returning to the work the following spring.

April ~~17~~ 14, 1925.

Mr. Jelin stated that he believed the contractor had no claims against the State other than extension of time, but if there was a difference in cost of the cement used he would recommend that the same be paid to the contractor, and he moved that in the case of Michael Staub claim that the claim as rendered be denied and the Engineering Division be instructed to ascertain the difference in cost between lumnite cement furnished by Mr. Staub and the regular concrete provided for in the specifications, and that an extra be allowed Mr. Staub on his contract covering this difference in cost. This was seconded by Mr. Kidde and adopted.

Route 17, Hackensack-Rutherford.

Commissioner Kidde stated that the County of Bergen was awaiting a proposition from the State Highway Commission on the matter of the improvement of the lower end of Route 17 between Hackensack and Rutherford, and he moved that the proposition as tentatively made to Bergen County on February 10, 1925, whereby the County of Bergen at its own expense, would be asked to provide the right of way for the new alignment of Route 17 between Hackensack and Rutherford, and the State Highway Commission would arrange a three year program for the building of the road, at the same time taking over and maintaining those parts that are not included in the construction, thereby saving the county the cost of maintenance which could be applied to the acquisition of right of way, be repeated to the County with a statement that if the County of Bergen will concur in this proposition, the State Highway Commission will consider making an allocation of funds toward the work. This was seconded by Mr. Jelin and adopted.

On motion by Mr. Kidde, seconded by Mr. Stewart, the meeting was adjourned at 6:50 P.M. to meet in regular session on Tuesday, April 21st at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - April 21, 1925.

A regular meeting of the State Highway Commission was held at the Commission meeting rooms, Broad Street Bank Building, Trenton, Tuesday, April 21, 1925. The meeting was called to order at 10:30 A. M. by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Route #20, Millville

The Secretary informed the Commission that Senator F. M. Reeves of Cumberland County was present and desired a hearing. On motion, duly seconded, a hearing was granted. Senator Reeves appeared and advised that he had appeared before the Commission sometime ago regarding the extension of Route #20 through Millville, and at that time request was made that the approval of the City of Millville be secured for such extra width of pavement as would be necessary. He presented to the Commission a resolution adopted by the local authorities of Millville, and he asked that the Commission give favorable consideration to this work.

State Highway Engineer Sloan informed the Commission that the work spoken of by Senator Reeves was placed in the State Highway System by the 1924 Legislature, and in view of the fact that the City is prepared to do the additional width, he recommended that the construction be undertaken at this time.

Commissioner Kidde inquired as to whether the local utilities in the roadway would be taken care of at once and he was informed in the affirmative.

Commissioner Jelin therefore moved that the Commission approve the recommendation of the State Highway Engineer and that the Commission does authorize the construction of Route #20 through Millville subject to proper agreement with the local authorities as to extra work and also as to the completion of underground installations before actual road construction begins. This was seconded by Mr. Kidde and adopted.

Request for Aid, Cumberland County

Commissioner Kidde inquired o f Senator Reeves whether he could say that the County of Cumberland would be willing to share additional funds on Landis Avenue, Vineland, which matter was discussed at the last meeting. He stated that in his opinion it would be better for the State to make an allotment of $15,000.00 or $20,000.00 for this work rather than to make temporary repairs, if the County and Township could see their way clear to finance the balance.

Senator Reeves advised that he would take this matter up with the local authorities.

Route 9, Cranford.

The Secretary informed the Commission that a delegation from the Town of Cranford was present and desired a hearing. On motion, duly seconded, a hearing was granted. There appeared Mayor Aldrich of Cranford, Town Engineer Collins and Town Attorney Berkley. Mr. Collins informed the Commission that the delegation was presentat the request of the State Highway Commission to discuss the completion of Route 9 through Cranford. He stated that the local authorities were very much pleased with the improvement of Route 9 as completed up to this time and were desirous of completing the pavement as soon as it can be done.

Commissioner Stewart informed the delegation that the State Highway Commission felt that this section of Route 9 in Cranford was the only unimproved section of Route 9 and formed a bottle neck for traffic on what was otherwise a valuable improvement. He inquired as to what was delaying the work.

Mr. Collins advised that there was a question as to right of way which the City was to acquire, but which was awaiting action on State Highway right of way in order to make condemnation proceedings simultaneous.

Right of Way Agent Vollmer informed the Commission that all the property needed by the State was now under contract, and it would not be necessary to condemn but one piece of property, that of Mathias Aarmodt. The local authorities advised that this was the first that they had been apprised of this and that they would now be ready to proceed.

Mr. Collins now called attention to the fact that the Central Railroad was planning a grade crossing elimination through the Town which may change the grade of the road through this unimproved section and he inquired whether the construction should be held up until the railroad company had determined upon its grades.

April 21, 1925

Commissioner Stewart stated that he did not feel that the work on the State Highway should be held up and State Highway Engineer Sloan informed the Commission that he did not believe that the work of the railroad company would interfere with the improvement of Route #9 in Cranford. Commissioner Stewart stated that he believed that the State Highway Commission would be willing to send an engineer to attend the necessary conference with the railroad Company authorities if an invitation was forwarded from the Town, but he did not believe the work should be held up on this account. He therefore moved that the State Highway Engineer be instructed to prepare the detailed plans and specifications looking toward the improvement of Route #9 through Cranford, and also to prepare the proper form of agreement to be entered into with the local authorities for extra width which can be included in the contract for the work. This seconded be Mr. Jelin and adopted.

Conference-Attorney General

The Secretary informed the Commission that a conference had been arranged with the Attorney General for 11:30 A. M., and it was now time for this conference. The Commission then recessed to go to the State House for this conference. The Commission reconvened at the offices in the Broad Street Bank Building, at 3:00 P. M., with the same members present as at the morning session.

River Road, Middlesex County

The Secretary informed the Commission that a delegation from Middlesex County was present and desired a hearing. On motion, duly seconded, a hearing was granted. There appeared Freeholders Haight, Belloff and Assistant County Engineer Buchanan. Mr. Haight informed the Commission that the County was prepared to proceed with the improvement of the River Road in Middlesex County but was not prepared to finance the extra work contemplated at the Pennsylvania Railroad Cut, which would add an expense of $35,000.00 to that originally contemplated. He informed the Commission that the County was under an extra burden this year on account of having to replace a bridge by order of the War Department and he inquired whether the Commission would be willing to allow the road to remain on its existing line without making the realignment at the railroad.

April 21, 1925

Commissioner Jelin inquired whether the County will be willing without further assistance to make this re-alignment and he was informed that this would have to be taken up with the Board of Freeholders. Commissioner Jelin then informed the Commission that when the matter was originally presented there was no question as to realignment from the present roadway and he moved that the County be allowed to preceed on the original plan. This was seconded by Mr. Stewart and adopted.

Side Walks, Route #8, Little Falls

The Secretary informed the Commission that Mr. Hunziker, Attorney for the Township of Little Falls was present and desired a hearing. On motion, duly seconded, a hearing was granted. Nr. Hunziker appeared with Mr. Henning, a member of the Township Committee of Little Falls to state that on the outskirts of Little Falls there runs Route #8 known as the Pompton Turnpike, and within the Township there are a number of houses which are unprotected by sidewalks at the present time. The Township was desirous of safeguarding the lives of the pedestrians and was therefore prepared to place sidewalks and had passed an ordinance to that effect. It developed, however, that in order to permit of a forty/foot highway the sidewalks have to be placed in such a manner that they will interfere with catch basins which are on the northerly side of the road between the Essex County Line and the main street, and he stated that the Township desired that the Commission remove these catch basins in order that there may be no obstructions to the sidewalks.

Mr. Henning backed up the arguments of Mr. Hunziker and stated that he believed the catch basins were placed wrong in the very beginning and that they would constitute an obstruction if it was necessary to make the road forty feet wide but would not if it was to be thirty feet wide. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the State Highway Engineer arrange for the Maintenance Division to make the necessary removals of catch basins on Route #8 through Little Falls Township in order that the Township may place sidewalks where desired.

Mr. Hunziker also requested consideration from the Commission toward paying part of the cost of the piping necessary to carry water off Route #8 instead of through a ditch as at present, in order that the adjacent property can be developed.

Mr. Kidde informed Mr. Hunziker that this was purely a local improvement and that the State Highway Commission has persistently refused to grant such requests.

Right of Way, Entrance Boulevard,
Camden Bridge Approach

The Secretary informed the Commission that Mr. Frank Schroth, Agent for the Receivers on the N. Z. Graves Company property, together with Mr. Brown, Receiver, and Mr. Graves the owner, were present to confer as to their property. On motion, duly seconded, a hearing was granted. Mr. Brown informed the Commission that he had received the formal offer from the State Highway Commission of $130,000.00 for their property in Camden and he explained, as an officer of the Court, he had given this matter very serious consideration, but he was present to acquire further information from the Commission as to the reason for placing a 40¢ per square foot value on the property when he believed that a former sale by himself had netted the company $1.00 per square foot.

Right of Way Engineer Meeker informed the Commission that the property which Mr. Brown mentioned had riparian rights and did not net his company more than 40¢ per square foot as is offered by the State. Mr. Brown discussued the value of the business. It was explained to Mr. Brown that it was the feeling of the Commission that if it were possible for the State to assess damages against abutting property owners for new improvements, this property would be immensely benefitted and thereby would have to pay a considerable portion of the amount of their award back to the State, but this not being the case he believed that the owner should consider this fact, which would be a great value to the remaining property after the State took what portion it needed for highway purposes.

The representatives of the N. Z. Graves Company then conferred among themselves and then returned to inquire whether the Commission would consider any alteration in the proposal as made in view of the fact that it was highly desirous on the part of the company to close this matter rather than take part in condemnation proceedings.

Mr. Brown also stated that if the Commission would consider paying $135,000.00 and allowing the company to salvage the buildings on the land taken he would personally accept the same and recommend to the Court and bond holders that the same be accepted from the State.

Mr. Jelin moved that in order to close the proposition with the N.Z.Graves Company, in view of Mr. Brown's statement, that the State Highway Commission approve the purchase of the property of the N. Z. Graves Company necessary for right of way on the Entrance Boulevard, Camden Bridge Approach for the sum of $135,000.00, the N.Z.Graves Company to have the right to salvage the buildings on the property purchased by the State, provided the same will be removed by them within two months after the agreement for the sale is signed. This was seconded by Mr. Kidde and adopted.

Reimbursement-Counties

The Secretary presented a resolution from the Board of Freeholders of Morris County, requesting payment of $25,925.59 in accordance with Chapter 218, Laws of 1925, which provides for payment of interest to counties on reimbursement work done heretofore. Commissioner Kidde moved that the communication be acknowledged and that the Chief Clerk be requested to determine what funds would be available for payment of such reimbursements in the event that the law adopted by the Legislature is declared operative; at the present time there being a number of important legal questions involved in this statute.

Signs

The Secretary presented a communication received by Commissioner Kidde from the Horni Signal Manufacturing Company, in the matter of the installation of a hanging light sign at the Cheesequake Bridge at Morgan, New Jersey. On motion by Mr. Stewart, seconded by Mr. Jelin, the communication was ordered received and placed on file.

Route 9, Bloomsbury

The Secretary presented a communication from Mayor Willever of Bloomsbury, advising that the Borough of Bloomsbury is prepared to pass the necessary ordinances for the widening of the main street of the Borough in order that the State Highway Commission may determine to improve Route 9 through the town. On motion by Mr. Kidde, seconded by

April 21, 1925.

Mr. Stewart, the State Highway Commission, by a vote of three in the affirmative and one in the negative, adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route 9 through Bloomsbury on the line as originally presented by the State Highway Engineer which is outside the main street of Bloomsbury, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement for the work after approval by the State Highway Engineer.

Mr. Jelin voted in the negative on this question.

Maps

Commissioner Stewart inquired at this time as to what disposition was being made of the order for the 1925 road maps. The Secretary informed the Commission that the bids received had been referred to the State House Commission and they had not decided as yet to whom to award the contract, since there was a difference of one percent in the bids, and by awarding to the low bidder it would probably involve a legal entanglement due to copyrights which would hold up the printing of the maps for some time.

Commissioner Stewart therefore moved that in order to obviate legal difficulties and injunctions, that the State Highway Commission request of the State House Commission that award be made to the General Drafting Company of New York, the same publisher who furnished maps for 1924, in order that the public may suffer no inconvenience through lack of maps for the coming motor season. This was seconded by Mr. Jelin and adopted.

Equipment, Graders.

The Secretary presented a communication received from the Construction Department of the Southern California Edison Company on the matter of tractor grader advertisement as follows:

"Los Angeles, Calif.,
April 11, 1925.

Mr. A. Lee Grover, Secy.,
State Highway Commission,
Trenton, N. J.

Dear Sir:

Regarding the insertion in the Engineering Record of March 26th, on "Tractor Graders."

This seems to be just the kind of a tractor grader we have been looking for to use in our construction work on highways, etc.

We wonder if you would let us know who the successful "Bidder" is and would also appreciate any descriptive matter you may care to send us.

Trusting you will find it convenient to let us have this information, we are

Yours very truly,

H. J. Eichlorn,
Supt. Material & Equipment."

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that this communication be acknowledged with the proper information and that it be spread in full upon the minutes, since it reflected credit upon the staff of the State Highway Department of New Jersey, which prepared the advertisement for the tractor graders.

Route 18-North, Alpine

The Secretary presented a communication from Senator W. B. Mackay of Bergen County, extending appreciation for information concerning the decision to proceed with Route 18-North at Alpine. On motion, duly seconded, the communication was ordered received and placed on file.

Right of Way-Route 1 Extension

The Secretary presented the appraisal of J. F. Gannon & Son for services rendered in the condemnation of land of J. R. Bowen, on Route 1, Lincoln Highway Section, Hackensack River Bridge. The Secretary advised that this had been taken up with the Attorney General's Department and that Mr. Magee stated that the same was satisfactory as far as the court attendant was concerned. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the bill of J. F. Gannon & Son in the amount of $1,350.00 be paid.

The Secretary presented bills rendered by C. Alfred Burhorn in the amount of $1,415.00 and from P. A. Gaddis in the amount of $2,025.00 for appraisal services in connection with the acquisition of right of way on Route 1 Extension in Jersey City. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that these bills be paid.

Invitation

The Secretary presented an invitation from the Association of Chosen Freeholders of New Jersey, extending an invitation to the Commission and its Secretary to attend the Association Shad Dinner at Salem on Tuesday, May 5th at noon. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the communication be acknowledged with thanks and that the Secretary advise that the Commission regrets that Tuesday is the regular meeting day of the Commission and it will not be possible to put off business already arranged for that day.

Proposed Routes

The Secretary presented a communication from Mr. F. P. Reichey, Borough Clerk of Bradley Beach, New Jersey, inquiring when the State Highway Commission will make an inspection of the continuation of the Ocean Boulevard, looking toward the improvement of the same. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission directed that the communication be acknowledged and that Mr. Reichey be advised that this section is not a part of the State Highway System and therefore the State Highway Commission is not permitted to expend its funds thereon.

The Secretary presented a communication from Assemblyman J. B. Stratton of Gloucester County, requesting a hearing for his Committee from Gloucester County to present views concerning the taking over of the road from Westville to Pennsgrove. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that Mr. Stratton be advised that the State Highway Commission did not receive any funds from the past Legislature which would warrant the taking over of any new sections of State Highway, and until such funds are available there could be nothing gained by public hearing, since it would not be possible for the Commission to act favorably in the matter.

Trolley Tracks-Route 11-Nutley

The Secretary presented a form of ordinance necessary in order to permit the relocation of the tracks of the Public Service Railway Company on Washington Avenue, Nutley; this ordinance providing that all other sections of the franchise shall remain as at present in force. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission adopted the following resolution for the moving of trolley tracks on Route 11 through Nutley.

WHEREAS, in order to answer public necessities and convenience to carry out plans for the improvement of Washington Avenue, between the Belleville Town Line and Center St., in the Town of Nutley, County of Essex and State of New Jersey, a distance of approximately thirteen hundred feet (1,300'), it is desirable that the tracks now maintained by the Public Service Railway Company on said Washington Avenue between the points above stated, be removed and relocated from the side of said street where they are now located, to the center of said street, all as shown on the map or plan entitled "Public Service Railway Company, Department of Maintenance of Way, Proposed relocation of tracks on Washington Avenue from Belleville Line to Center St. - Nutley, N. J." dated March 13, 1925, and numbered 20516-D.

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of New Jersey, that the said Public Service Railway Company be and it is hereby requested, directed and authorized to change the location of its street railway tracks and remove and relocate the same from the side of said Washington Avenue between the points above set forth to the center of said Washington Avenue, in accordance with the foregoing recital, including any necessary change in the location of the poles and electrical conductors, and when said relocation shall have been done, then and thereafter the said Public Service Railway Company, its successors and assigns, so changing the location of its said tracks in accordance with this request, shall have the right to maintain and operate the same in the new location for as long a period as it had the right to maintain and operate its said tracks in their former location at the time of such relocation.

Trolley Tracks-
Route 5, Madison - Chatham

Commissioner Kidde inquired as to what disposition had been made of the inquiry to be made of Assistant Attorney General Coulomb concerning the right of the Commission to do some repair work on Route 5 through Chatham and Madison.

State Highway Engineer Sloan advised the Commission that the Manager for the Morris County Traction Company had corresponded with him on the question of Route 5 through Dover, but he had not said anything concerning the situation in Madison and Chatham.

The Secretary informed the Commission that no reply had been received from Mr. Coulomb in answer to verbal inquiry made some days before.

Commissioner Stewart moved that a communication be forwarded to Mr. Coulomb advising that the Commission is desirous of doing some temporary work on Route 5 in the trolley track area at Madison and Chatham and desired information as to whether this would prejudice any legal situation being presented to the courts. This was seconded by Mr. Kidde and adopted.

April 21, 1925.

The Schedule of Business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer.

Route 4, Section 30.

Plans and specifications were reported completed for Route 4, Section 20, Manahawken-Tuckerton, in Ocean County, and advertisement was recommended. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route 4, Section 30, Manahawken-Tuckerton in Ocean County, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to make the necessary advertisement for the work after approval by the State Highway Engineer.

Route 20, Section 3.

Plans and specifications were reported completed for the construction of Route 20, Section 3, Borough of Westville, Gloucester County, and advertisement was recommended. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route 20, Section 3, Borough of Westville, Gloucester County, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement for the work after approval by the State Highway Engineer.

Bridges-Route 4, M. P. 37.9 & 38.5

Plans and specifications were reported completed for the construction of two bridges on State Highway Route 4 at M. P. 37.9 and M. P. 38.5, over Forked River in Ocean County and advertisement was recommended. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of two bridges on State Highway Route 4 at M. P. 37.9 and 38.5 over Forked River in Ocean County, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisements for the work after approval by the State Highway Engineer.

April 21, 1925.

Route 4, Section 29.

The State Highway Engineer presented the following report of bids received on April 20th for the construction of Route 4, Section 29, Barnegat-Manahawken, and recommended award to the Union Paving Company, the lowest bidder;

Union Paving Co.	$ 181,528.41
Michael Staub	191,651.35
Liddle & Pfeiffer	291,208.65
Sutton & Corson	214,690.45

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 4, Section 29, Barnegat-Manahawken section, to the Union Paving Company of Philadelphia, at their's the lowest bid received in the amount of $181,528.41, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Route 5, Section 15-A.

The State Highway Engineer presented the following report of bids received on April 20th for the construction of Route 5, Section 15-A, Milburn Avenue, Irvington, and recommended award to P. Camillo & Co.. the lowest bidders:

P. Camillo & Co.	$ 242,508.10
John Dorer	261,095.40
Union Paving Co.	265,594.[illegible]
Sutton & Corson Co.	263,854.98
J. F. Chapman & Son	268,289.28
C. H. Winans Co.	277,241.60

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 5, Section 15-A, Milburn Avenue-Irvington, to P. Camillo & Company at their's the lowest bid received in the amount of $242,508.10, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Entrance Road, Camden Bridge Approach

The State Highway Engineer presented the following report of bids received on April 20th for the making of borings on the Entrance Road, Camden Bridge Approach and recommended award to the Pennsylvania Drilling Company, the lowest bidders:

April 21, 1925.

Pennsylvania Drilling Co.........	$ 4,920.00
Joseph W. Edwards................	6,180.00
Sprague & Henwood................	5,916.00
Osborne Drilling Co..............	6,709.00

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the making of borings on the Entrance Road, Camden Bridge Approach, to the Pennsylvania Drilling Company, at their's the lowest bid received in the amount of $4,920.00, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Right of Way-Route 3

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the purchase of the following parcels of property on Route 3, Section 11, Hammonton-Berlin Section:

Parcel No.		Consideration
13,	John W. Jenison,	$ 70.00
37,	Antonio DeLaurentis,	90.00
38,	Antonio N. Tomasello,	13.65
40,	Antonio DiClemente,	118.00
42,	Taluccio Capoferri,	10.00
43,	John Capoferri,	74.45
44,	Annie R. Robertson,	75.00

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the following parcels of property on Route 3, Section 12, Egg Harbor-Hammonton:

Parcel No.		Consideration
88,	Stanley Kwasnieski,	$ 7.50
106,	Antony S. Jacobs,	7.50
252,	Wilson Turner,	1.00
250,	J. M. Wolford, plus the removal of two trees and the construction of a gravel driveway.	1.00
254,	Wilson Turner, plus the removal of six trees by the State.	1.00

Right of Way-Route 4

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the following parcels of property on Route 4, Section 11, Petersburg-Tuckahoe:

April 21, 1925.

Parcel No.		Consideration
41C,	John Hardisty (widower)	$ 3.00
49,	Laura V. Wimbush,	3.50
84,	George E. Jefferys,	10.00

On motion by Mr. Stewart, seconced by Mr. Jelin, the State Highway Commission approved of the purchase of Parcel 8 on Route 4 Section 28, Waretown-Forked River, from Hester E. VanNote, for the consideration of $25.00.

Right of Way-Route 14

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel 62 on Route 14, Section 8, Swainton-Ocean View, from Marshall F. Bertrand, for the consideration of $100.00.

Right of Way-Route 20

On motion by Mr Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of the following parcels of property on Route 20, Section 1, Borough of Clayton, a letter of thanks to be forwarded to those giving their property for a nominal sum:

Parcel No.		Consideration
4,	Thos.G.M.Shivers & Wife,	$ 1.00
6	F.S.Hutchinson & Wife,	1.00
7	J.P.Stanger & Wife,	1.00
8	E.Russell Meyers & Wife,	1.00
11	A.S.Barrett & Wife,	1.00
13	J.J.Warrick & Wife,	1.00
19	Wm.Peterson & Wife,	75.00
20	Nathan T. Skinner & Wife,	1.00
21	Theo.E.Robinson, Widower,	1.00
23	E.S.Savacool, Widow	130.00
24	J.Alfred McWilliams & Wife,	1.00
25	Louisa Dilks, Widow,	1.00
26	F. E. Jones & Wife,	1.00
27	J.A.Kille & Wife,	150.00
28	E.E.Morrow & Robert, her husband,	70.00
31	C. C. Burrough & Wife,	56.00
32	Edna L. Patterson, Widow,	182.00
33	Lydia Shields, Widow,	55.00
34	Chas. Gaskill & Wife,	146.00
35	Jas. R. Winner, Widower,	55.00
36	B.E.Rownad & Wife,	140.00
38	Chas.A.Dilks & Wife,	282.00
39	Chas.F.Skinner, Widower,	110.00
40	Walter L. Hughes, et al.	110.00
41	Lydia Madara, single,	50.00
42	Chas. A. Buts & Wife,	55.00

Right of Way-Route 7

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the preparation of the bargain and sale deed of the James Flitcroft Estate, known as Parcel 2 on Route 7, Section 4, Colts Neck-Jerseyville section, for the consideration of $20.00 in order that the preliminary agreement to be signed by a great number of heirs may be eliminated.

Right of Way-Entrance Road, Camden

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the purchase agreement for the acquisition of Parcel 13 on the Entrance Road, Camden Bridge Approach, from Josephine Frick for the consideration of $200.00.

The State Highway Engineer reported that George & Louise Miller, property owners on several parcels of the Entrance Road, Camden Bridge Approach, were not able to reach a decision as to the signing of agreements for the property, and he, therefore, recommended that condemnation proceedings be instituted in order to acquire the property. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that condemnation proceedings be instituted in accordance with the following resolution:

Parcel No.	Street & No.	Owner	Offer
15	1133 Penn St.	George Miller	$ 2,000.00
25	1153 Penn St.	George Miller	100.00
26	1155 Penn St.	George Miller	50.00
27	1157 Penn St.	Geo. & Louise Miller	25.00
30	1184 Linden St.	Geo. & Louise Miller	3,100.00

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route, Entrance Road, Camden Bridge Approach, ALL those certain lots, tracts or parcels of land and premises, situate, lying and being in the State of New Jersey and more particularly described as follows:

Parcel #15

BEGINNING at a point in the northerly side of Penn Street two hundred twenty-one and forty-one hundredths (211.41) feet from the intersection of the northerly line of Penn Street with the easterly line of Eleventh Street, said point being distant twenty-six and forty-four hundredths (26.44) feet from and normal to the proposed center line of the Penn Street Branch of the State Highway Entrance Road in the City of Camden at Station 2 plus 28.93 as shown on a plan entitled "New Jersey State Highway Department, Camden Extension Division, Entrance Road, Property to be acquired from George Miller, City of Camden, Scale 1" equals 20', January 1925" and running:

Thence (1) along the dividing line or party wall bounding the properties situated at #113 and #1131 respectively on Penn Street in the City of Camden, North forty degrees, seven minutes, thirty seconds East (N 40° 07' 30"E) fifty-eight (58) feet to an alley six feet in width;

Thence (2) along said alley South forty-nine degrees, fifty-two minutes, thirty seconds East (S 49° 52' 30" E) twelve and three tenths (12.3) feet to a point, said point being in the dividing line bounding the properties situated at 1133 and 1135 Penn Street respectively, in the City of Camden:

Thence (3) along said dividing line South forty degrees, seven minutes, thirty seconds West (S 40° 07' 30"W) fifty-eight (58) feet to a point in the northerly line of Penn Street;

Thence (4) along said northerly line of Penn Street North forty-nine degrees, fifty-two minutes, thirty seconds West (N 49° 52' 30"W) twelve and three tenths (12.3) feet to the point and place of beginning;

CONTAINING seven hundred thirteen (713) square feet, be the same more or less;

INTENDING TO CONVEY all of that land now owned or controlled by the grantor situated at number eleven hundred thirty-three (1133) Penn Street in the City of Camden.

Parcel 25

BEGINNING at a point in the northerly side of Penn Street three hundred forty-six and forty-one hundredths (346.41) feet from the intersection of the northerly line of Penn Street with the easterly line of Eleventh Street, thence bounding the property of grantor and along the easterly side of an alley two and nine tenths (2.9) feet in width North forty degrees, seven minutes thirty seconds East (N 40° 07' 30" E) sixty four (64) feet to the point and place of beginning, said point being in the southerly side of an alley three (3) feet in width, said point being distant twenty-two and six tenths (22.6) feet from an normal to the proposed center line of the Penn Street Branch of the Entrance Road at Station 3 plus 70.43, as shown on a plan entitled "New Jersey State Highway Department, Camden Extension Division, Entrance Road, Property to be acquired from George Miller, City of Camden, Scale 1" equals 20', January 1925" and running;

Thence (1) along said last above mentioned alley South forty-nine degrees, fifty-two minutes, thirty seconds East (S 49° 52' 30" E) seventeen and seventy-seven hundredths (17.77) feet to a point in the dividing line of the grantor;

Thence (2) along said dividing line South forty degrees, seven minutes, thirty seconds West (S 40° 07' 30"W) eleven and thirty-five hundredths (11.35) feet to a point in the southerly right of way line of the Penn Street Branch of the Entrance Road;

Thence (3) along said right of way line North seventy-four degrees, six minutes, thirty-four seconds West (N 74° 06' 34"W) nineteen and thirty-four hundredths (19.34) feet in the said dividing line of the grantor, said course being parallel to and distant forty (40) feet from the said proposed center line of the Penn Street Branch of the Entrance Road previously mentioned;

Thence (4) along said line North forty degrees, seven minutes, thirty seconds East (N 40° 07' 30"E) eighteen and ninety-eight hundredths (18.98) feet to the point and place of beginning;

CONTAINING two hundred seventy (270) square feet, be the same more or less;

INTENDING TO CONVEY all of that land now owned or controlled by the grantor within forty (40) feet of the proposed center line of the Penn Street Branch of the Entrance Road, situated at number eleven hundred fifty-three (1153) Penn Street in the City of Camden.

Parcel 26

BEGINNING at a point in the northerly side of Penn Street three hundred sixty-four and eighteen hundredths (364.18) feet from the intersection of the northerly line of Penn Street with the easterly line of Eleventh Street, thence bounding the property of grantor North forty-degrees, seven minutes, thirty seconds East (N 40° 07' 30" E) sixty-four (64) feet to the point and place of beginning, said point being in the southerly side of an alley three (3) feet in width; said point being distant twenty-nine and fifty-two hundredths (29.52) feet from

INTENDING TO CONVEY all of that land now owned or controlled by the grantors within forty (40) feet of the proposed center line of the Penn Street Branch of the Entrance Road, situated at number Eleven hundred fifty-seven (1157) Penn Street in the City of Camden.

Parcel 30

BEGINNING at a point in the southerly side of Linden Street ninety-nine and two tenths (99.2) feet from the intersection of the southerly line of Linden Street with the westerly line of Twelfth Street, said point being distant twenty-nine and ninety-eight hundredths (29.98) feet from and normal to the proposed center line of the Linden Branch of the State Highway Entrance Road in the City of Camden at Station 6 plus 80.67, as shown on a plan entitled "New Jersey State Highway Department, Camden Extension Division, Entrance Road, Property to be acquired from George and Louise Miller, City of Camden, Scale 1" equals 20', January 1925"and running;
Thence (1) along the dividing line or party wall between the properties at 1184 and 1186 Linden Street respectively in the City of Camden, southwest forty-eight feet six inches (48'6") to a point;
Thence (2) still along said dividing line southerly fifty-four (54) feet to a point;
Thence (3) still along said dividing line southwesterly six (6) feet to a point;
Thence (4) northwestwardly twenty-seven (27) feet to a point;
Thence (5) northeastwardly one hundred eight (108) feet to the southerly line of Linden Street;
Thence (6) along said southerly line of Linden Street twenty-two feet six inches (22'6") to the point and place of beginning;
CONTAINING two thousand five hundred seventy-seven and four tenths (2577.4) square feet, be the same more or less;
INTENDING TO CONVEY all of that land now owned or controlled by the grantors situated at number Eleven hundred eighty-four (1184) Linden Street in the City of Camden.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make offers to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way-Route 2

State Highway Engineer Sloan advised that Nimrod Warner Estate on Route 2, Section 2, have not yet been able to reach an agreement which was acceptable to the State for the disposition of the property and he recommended that an offer of $500.00 be made and in the event same is refused that condemnation proceedings be instituted. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that an offer of $500.00 be made as recommended and in the event same is refused that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route 2, Section 2, ALL that certain lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:
>
> All that certain lot, tract or parcel of land situate, lying and being in the City of Bordentown, County of Burlington, and State of New Jersey, shown on map dated June 24, 1919, entitled "New Jersey State Highway Department" map showing property to be acquired from the Nimrod Warner Estate, Route No. 2, Section No. 2, at Bordentown, Bordentown Township, Burlington County, the said tract being more particularly described as follows:
>
> BEGINNING at the point of intersection of the northerly property line of Burlington Street and the westerly property line of Prince Street; thence (1) northerly along the westerly property line of Prince Street, 42.755 feet; thence (2) southwesterly 63.57 feet on the arc of a circle to the right with a reaius of 37.166 feet, through the property of the Estate of Nimrod Warner to the northerly property line of Burlington Street thence (3) easterly along the northerly property line of Burlington Street 42.755 feet to the point or place of beginning, containing 0.0094 of an acre.
>
> The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $500.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way-Crescent Blvd., Camden

The State Highway Engineer presented for the attention of the Commission the purchase agreement entered into with Herman and Clara Odlen for Parcel 42 on the Crescent Road, Camden Bridge Approach, for the consideration of $40,000.00. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that this agreement be referred to Commissioner Jelin for his inspection and report.

Conventions - A.A.S.H.O.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the attendance of Charles A. Mead, Chief Engineer of Bridges and Grade Crossings for the Public Utility Commission, as a representative of the State Highway Department, at the meeting of the Bridge Committee on Specifications of the American Association of

State Highway Officials, to be held in Washington during the month of May, at an estimated expense of $50.00.

Employments

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the following additions, changes and increases in the employments as made by the State Highway Engineer, since the last meeting of the Commission:

Employed

4-1-25	C. E. Ormsby,	Highway Inspector	$165.00 mo.

Bridgeton-Port Norris Road, Sec. 3; Motor Vehicle Aid-Cumberland County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of plans and specifications for Bridgeton-Port Norris Road, Section 3, Cumberland County, Motor Vehicle Aid work.

Rejection of Plans-Morris County

On motion by Mr. Kidde, seconded by Mr. Jelin. the State Highway Commission declined to approve the proposition as submitted by Morris County for State Aid on a number of county roads and directed that the same be refused in order that the County may proceed to do the work from its own funds. The roads are as follows:

Dover-Chester Road,
Morristown-Ledgewood Road, Sections 1 & 2,
Haite's Corner-Swinefield Bridge Road,
Montville-Pine Brook Road, Sections 1 & 2,
Columbia Turnpike,
Boonton-Butler Road

April 21, 1925.

Maintenance Materials-Sussex County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the award of contract by Sussex County for maintenance materials for 1925, in the following amounts:

700	tons Slag....................	@ $2.15
25,000	gallons Grade "B" Tar.......	@ .1146
2,000	tons Dustless Screenings....	@ 1.98

Salem County Repairs

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved specifications by Salem County for the loading and hauling of sand for covering SCO in the vicinity of Elmer.

Township & Borough Aid-Atlantic County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of a supplemental agreement known as No. 1 and an extra work order No. 1 on the Buena-Tuckahoe Road, Section 2, Buena Vista Township, Atlantic County, in order to extend the job from Station 195 to Station 300, since the bid received was so low as to permit of the completion of practically the entire road with the balance of the funds available.

Township & Borough Aid-Somerset County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the award of contract by Hillsboro Township, Somerset County on the Neshanic-Clover Hill Road.

Township & Borough Aid-Cape May County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the acceptance and final payment on Shunpike Road, Lower Township, Cape May County, Township and Borough Aid.

Township Aid-Atlantic County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the acceptance and final payment on the Buena-Tuckahoe Road, Section 4, Weymouth Township, Atlantic County, Township Aid.

Motor Vehicle Aid-Gloucester County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the Motor Vehicle Aid Schedule and Agreement for Gloucester County for the year 1925.

April 21, 1925.

Motor Vehicle Aid-Hunterdon County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the Motor Vehicle Aid Schedule and Agreement for Hunterdon County for the year 1925.

Motor Vehicle Aid-Monmouth County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the Motor Vehicle Aid Schedule & Agreement for Monmouth County for the year 1925.

Motor Vehicle Aid-Morris County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the Motor Vehicle Aid Schedule and Agreement for Morris County for the year 1925.

Motor Vehicle Aid-Ocean County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the Motor Vehicle Aid Schedule and Agreement for Ocean County for the year 1925.

Motor Vehicle Aid-Passaic County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the Motor Vehicle Aid Schedule and Agreement for Passaic County for the year 1925.

Motor Vehicle Aid-Warren County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the Motor Vehicle Aid Schedule and Agreement for Warren County for the year 1925.

Extension of Time-Sussex County, Newton-Schwartzwood Road

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved an extension of time with regard to the allotment of funds for the Newton-Schwargzwood Road, in view of the fact that the Board of Freeholders of Sussex County has not yet completed its survey of this work.

Route 5, Section 15.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of an agreement to be entered into with the Town of Springfield for extra widening and other work to be performed on Route 5, Section 15, Springfield-Irvington, in conjunction with the contract already let by the State for this work.

April 21, 1925.

Extension of Time-Bass Route 4 River Bridge

State Highway Engineer Sloan presented a communication from L. J. Sieling, contractor for the Bass River Bridge, requesting an extension of time. The original contract provided for the completion of the work within 150 working days and the actual time consumed was 289 working days. He informed the Commission that the contractor is entitled to an extension of time due to additional work in the plans amounting to 118½ working days, leaving a balance of 20½ days to which the penalty of $40.00 a day should be applied under the terms of the contract.

Commissioner Jelin inquired as to whether the contractor had found it difficult to proceed with this work and he was informed that Contractor Sieling had advised that he had lost considerable money on this project.

State Highway Engineer Sloan informed the Commission that Mr. Sieling had consistently been delinquent in the completion of State Highway jobs. Commissioner Jelin, therefore, moved that an extension of time be granted to L. J. Sieling, Contractor on the Bass River Bridge, of 134 working days and that a penalty be inflicted for 5 working days at $40.00 per day, and that in view of the fact that Mr. Sieling had been delinquent in completing the work and has a record of consistent delinquencies in completing work, the Commission goes on record to the effect that L. J. Sieling is considered to be not a responsible contractor. This was seconded by Mr. Stewart and adopted.

Right of Way-Route 1 Extension

The Secretary presented to the Commission a report from appraisers Gaddis, Burhorn and Dunham on Route 1 Extension at Jersey City, and he advised that the estimates originally laid out for the work compared very favorably with the appraisals as made by the experts. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that these appraisals be received and placed on file and that Mr. Dunham be asked to present details of appraisals in the same manner as presented by the other appraisers in order that the same may be placed on record.

Commissioner Stewart stated that at this time record should be made of the fact that the Commission conferred with the Attorney General in the morning and information had been received concerning the status of Route 1 Extension through Jersey City, which was brought to the attention of the Engineering Division in order that the work in Jersey City may proceed in a proper legal manner and at a proper time.

Conference-Board of Commerce & Navigation

Commissioner Kidde informed the Commission that together with Chairman Scott and Engineers Lavis, Moore and Goodkind, he had attended a conference with the Board of Commerce and Navigation at the State House on Monday, April 20th, with a view to hastening the propositions to be forwarded to the War Department for the change of CooperRiver Channel on the Camden Bridge Approach, and also the proposition of new bridges over the Hackensack and Passaic Rivers. He advised that the State Board of Commerce and Navigation is ready to cooperate and will give approval to plans for the relocation in Camden as soon as same are submitted, and he moved that the Engineering Division be asked to prepare the necessary plans and specifications in order that the work might proceed. This was seconded by Mr. Jelin and adopted.

As to channels and bridges, the Board of Commerce & Navigation requested that the State Highway Commission prepare data which can be presented at a joint meeting with the War Department Engineers at a public hearing to be held at Newark within a short time, but that they would give approval under protest to the bridge construction at the present time, in order that the same may proceed. He, therefore, moved that the State Highway Engineer be directed to prepare a statement of facts pointing in favor of high level bridges over the Hackensack and Passaic Rivers, in order that the same may be ready for the public hearing to be arranged. This was seconded by Mr. Jelin and adopted.

Lighting-Amboy Bridge

Commissioner Kidde reported that a conference was being arranged between himself and representatives of the Public Service Railway Company concerning lighting contracts on the new Amboy Bridge and he would, therefore, hold up this report until after such conference.

April 21, 1925.

Claims-Stillman, Delehanty, Ferris;
Amboy Bridge-New

Commissioner Stewart informed the Commission that he had investigated minutes and reports concerning the claims of the Stillman-Delehanty-Ferris Company on the Amboy Bridge. The only question in his mind was whether or not the Commission should make payment at this time or wait until the work was entirely finished.

State Highway Engineer Sloan informed the Commission that such claims as arose on any of the construction work were rendered as separate items and could not involve any other portion of the work, and he recommended that the claim, as finally adjusted, be paid provided satisfactory releases will be secured from the Stillman, Delehanty, Ferris Company.

Commissioner Stewart, therefore, moved that the State Highway Commission make payment in full, for all claims to date and give releases in full of all claims to date for reduction in lineal feet of piling, involved on the Amboy Bridge construction in an amount of $37,175.64, and also that a release be given to the State by the contractor from obligations to grant any extensions of time due to failure to secure right of way for the consideration of $2,309.00 to be paid the contractor, incurred on account of the work being prosecuted under adverse conditions for the failure to secure right of way and in lieu of an extension of time to which the contractor is entitled, and further that the contractor shall release the State from all claims to date for the placing of timber platforms on pile tops to support green cement in subaqueous construction for the consideration of $4,167.07, making a total payment due to the contractor of $43,651.71. This was seconded by Mr. Kidde and adopted.

Route 4, Keyport

The Secretary presented a communication received from Judge Ackerson regarding the alignment of Route 4 at Keyport.

The State Highway Engineer explained that the conditions as presented in this communication did not exist and that Judge Ackerson had the wrong information on this matter. Commissioner Jelin therefore moved that the communication be acknowledged and that Judge

April 21, 1925.

Ackerson be advised that a number of engineers of the Department will meet with him and explain in detail the situation existing on Route 4 at Keyport.

The Commission next went into conference until 7:00 P.M. when, on motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was adjourned to meet again on Tuesday, April 28th, at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - April 28, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, Tuesday, April 28, 1925. The meeting was called to order at 10:30A. M. by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Minutes Approved.

Commissioner Kidde reported having read the minutes of the meeting of March 13th and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Complaint, Route #9, Bound Brook

The Secretary informed the Commission that former Senator George M. LaMont, whose residence is on Route #9 near Bound Brook, was present and desired a hearing. Prior to this hearing, Commissioner Stewart advised that Mr. LaMont had called his attention to the fact that employees of the State Highway Department had entered upon his lands without permission in order to do certain work, and he asked that Superintendent of Maintenance Muir, together with Road Supervisor Stanley, be present at this hearing.

Mr. LaMont appeared and advised that he was at a loss to understand why employees of the State Highway Department should be upon his property without first obtaining permission.

Supervisor Stanley informed the Commission that there was a tenant on the property who had acquiesced in the trespass and who they thought was the owner. Mr. Stanley advised that the purpose in going on the land was to prevent a washout along the road at abutments to the bridge, due to flood conditions.

Chairman Scott tendered the apologies of the Commission to Mr. LaMont for the zealousness of the Department forces and in view of fact that there was an impression that the tenant had authorized the same.

Mr. LaMont presented to the Commission a sketch showing this locality covering the property owned by him and stated that he believed the effort of the Maintenance Division to correct the conditions at that point was entailing a useless expenditure of money, since the condition would occur again.

Commissioner Jelin pointed out that the work being undertaken was the correct method since it was necessary to divert the water from the regular channel in order to repair the abutments.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that the matter be referred to the State Highway Engineer for investigation and report as to what should be done at this location.

Permits, Closing Highways

The Secretary presented a communication from Hon. F. M. P. Pearse, Secretary to the Governor, requesting the cooperation of the Commission looking toward the closing of Route #1 at Menlo Park, to traffic for two or three hours in the afternoon of Saturday, May 16th, during the exercises for the unveiling of a tablet to Thomas Edison.

Commissioner Jelin informed the Commission that he understood that the State Police would divert the traffic for a short detour during these exercises as a means of preventing accidents to the crowd that would assemble at these exercises. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication from Secretary Pearse was ordered received and referred to the Maintenance Division for such attention as may be possible for the Commission to give.

Crescent Blvd, Camden Bridge Approach

The Secretary presented a communication from the Board of Trade of Pensauken Township requesting the State Highway Commission to widen the Crescent Boulevard, Camden Bridge Approach, to 65 feet instead of 56 feet as at present contemplated. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received and placed on file.

Right of Way, Route #8.

The Secretary presented a communication from Hon. F. W. DeVoe, Assistant Attorney General, advising that condemnation commissioners in the case of Beattie Manufacturing Company, on Route #8 at Little Falls, had awarded $6,600.00 and he recommended that the same be paid. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of Mr. DeVoe and authorized the payment of $6,600.00 to the Beattie Manufacturing Company.

Assistant Attorney General DeVoe reported that condemnation commission had made an award of $1,650.00 to LeGrand Parish for property taken on Route #8, and he recommended that it be paid. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission authorized the payment of $1,650.00 to Le Grand Parish on Route #8, as recommended.

Right of Way, Route #7

Assistant Attorney General DeVoe reported that an award of $75.00 had been made to the Securities Development Company (Emil Carlson) on Route #7, Section #2, and he recommended payment of the award. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the award as recommended and directed that $75.00 be paid to the owner or into the court as the circumstances may require.

Assistant Attorney General DeVoe reported the award of $50.00 made by the Condemnation Commissioners in the acquisition of property of Securities Development Company (John A. McPhileny) and he recommended that the award be paid. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the recommendation as submitted and authorized payment of $50.00 to John A. Philney or into the court as the circumstances may require.

Maps - 1925

The Secretary presented a communication from the Air-Map Corporation of America, advising that they had been invited by Commissioner Jelin to present their proposition to the Commission and were here now prepared to present same, being represented by Charles F. Keale, Jr. On motion, duly seconded, a hearing was granted. Mr. Keale appeared and informed the Commission that his company was now maping the Bronx River Parkway and proposed routes for parkways for the Long Island State Park Commission, and made a specialty of air maps which can be used in connection with the survey work. He explained to the Commission the method by which accuracy was obtained in measurements of maps in order that they may be used for engineering purposes. He presented to the Commission a number of sample pictures taken by his company and asked for permission to be of service.

Commissioner Kidde suggested that his company might present a quotation for a map which would show Route #18 and the Hudson River in the vicinity of its connection with State Highway Route #3 of New York. Mr. Keale promised to submit this quotation, upon receipt of a sketch of the vicinity desired to be covered.

Maps - 1925

The Secretary presented a communication from the North Jersey Automobile Club requesting a supply of new State Highway Maps when the same are printed.

Commissioner Stewart inquired as to what progress was being made with these maps and the Secretary advised that the State House Commission would meet on this day and award would be made to the General Drafting Company. On motion, duly seconded, the communication was ordered placed on file.

Route #4, Perth Amboy

The Secretary informed the Commission that pursuant to an invitation from the State Highway Commission, the City authorities of Perth Amboy were present to discuss the continuation of Route #4 through the City. Mayor Wilson appeared with a large delegation of Aldermen and advised that the City was ready to cooperate with the State as soon as it was determined upon the form of agreement.

Assistant Attorney General DeVoe was present and explained that in view of the fact that Perth Amboy was a City in excess of 16,000 population, it would be necessary for the Commission to enter into an agreement with the City for the work to be performed in the City, since the work must be done in the name of the City, but the State was desirous of retaining full control of all the work since the work be done at the expense of the State.

Chairman Scott requested that the delegation meet with Mr. DeVoe and go over the form of agreement which was to be entered into in order that the same may be presented to the Commission for their approval.

April 28, 1925

Mr. Galvin, Chairman of the Board of Aldermen came before the Commission before the delegation left the meeting and advised that the majority of the Aldermen was highly favorable in cooperating with the Commission in this matter.

Request for Aid-Ocean County, Lakewood-New Egypt Road.

The Secretary informed the Commission that a delegation from Ocean County was present for a hearing. On motion, duly seconded, a hearing was granted. There appeared Senator Thomas A. Mathis, Director of the Board Savage, Supervisor of the Road Committee Applegate, and Freeholder Butler. Mr. Savage opened up the conference with the advice that the county was desirous of improving that section of the Lakewood-New Egypt Road from the Center Avenue Bridge to New Egypt with concrete pavement instead of penetration as now planned, and he suggested that it might be possible for the Commission to increase its allotment to Ocean County sufficient to do this. This plan was also urged by Mr. Applegate and Senator Mathis, who advised that it would be more economical for the County to put a hard surface pavement down which required little or no maintenance instead of a macadam pavement, which, on account of the heavy traffic to Lakehurst, would have to be repaired at frequent intervals. Chairman Scott explained that the Commission would be glad to give assistance to Ocean County when there were funds available, and Commissioner Stewart moved that the matter be taken under advisement at this time. This was seconded by Mr. Kidde and adopted.

Complaints-Route #16, Bernardsville

The Secretary presented a communication received from Col. F. S. Tainter, Bernards Township Engineer, calling attention to the failing conditions on Route #16, in the vicinity of Bernardsville, and suggesting that it might be possible to put a bituminous surfacing on the concrete roadway. The State Highway Engineer advised that Mr. Bedwell, Construction Engineer, was making a personal inspection of Route #16 on this day. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received and placed on file.

April 28, 1925.

Proposed Routes

The Secretary presented communication from a Chairman of the Committee from the Board of Freeholders of Gloucester County, requesting a hearing for his Committee in regard to the legislated State Highway Route between Westville and Pennsgrove. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that this Communication be acknowledged with the advice that the Commission did not receive any funds at the last Legislature which would warrant the taking over of additional routes, and for this reason it does not seem necessary to conduct a hearing at this time.

State Highway System, General

Commissioner Kidde called the attention of the Commission to a study made by the State Highway Engineer Sloan covering the ideas in his own mind as to the ultimate State Highway System and Secondary System of County Roads. This matter was directed to be held for a conference at a later date.

Right of Way, Entrance Road, Camden Bridge Approach

The Secretary presented a form of lease prepared by the Right of Way Division for the leasing of property by the State from J. Palmer Earl and Aeda F. Earl, needed for the construction of the Entrance Road, Camden Bridge Approach, for the sum of Twelve Hundred Dollars ($1,200) for a term of 6 months from June 1, 1925. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved the lease presented and directed the amount of $1,200 to be paid.

Right of Way
Route 1, Extension, Jersey City

The Secretary informed the Commission that the Erie Railroad Company had made application for a writ of certiorari on the proceedings on Route #1 Extension through Jersey City, and papers had been served on the Commissioners which were referred to the Special Counsel.

The Schedule of Business was next taken up item by item as follows, with the recommendation of the State Highway Engineer.

Route #15, Section #7

There was presented a report of the following bids received on April 27th for the construction of Route #15, Section #7, Menantico

Creek-Mauricetown Road, and the State Highway Engineer recommended award to Michael Staub, the lowest bidder:

Michael Staub	$ 178,838.40
Acchione & Canuso	188,491.10
William Eisenberg	188,541.52
Fish-Rutherford, Inc.	191,568.52
J. M. Reuter	196,397.60
Union Paving Co., ...	196,692.62
E. Riley Mixner Co.	201,419.47
Freehold Const. Co.	206,913.64
Sutton & Corson	210,852.18

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission unanimously adopted the following resolution:

> RESOLVED that the State Highway Commission does hereby make award of contract for the construction of Route #15, Section #7, Menantico Creek to Mauricetown Road, to Michael Staub, of Pitman, New Jersey, at his, the lowest bid, in the amount of $178,838.40, and
>
> BE IT FURTHER RESOLVED that the Chairman is hereby authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route #4, Connecting Link,
Perth Amboy

There was reported the completion of Connecting Link on Route 4, Amboy Avenue, Perth Amboy, by the city authorities of Perth Amboy. Commissioner Jelin reported having inspected the work and moved that the same be accepted by the State and that final payment of the State's allotment toward this work be paid. This was seconded by Mr. Stewart and adopted.

Trolley Tracks,
Route 1, George St., New Brunswick

There was reported the completion of the trolley track work on Route 1, George Street, New Brunswick, which was done under agreement between the City of New Brunswick and the Public Service Railway Company, the State to pay for the work and to be reimbursed by the railway company. Commissioner Jelin reported having inspected the work and moved that the same be accepted by the State and that the necessary finances be provided in accordance with agreements entered into. This was seconded by Mr. Stewart and adopted.

Route #4, Section #20A
Manasquan Cutoff

There was reported the completion of the construction of Manasquan Cut-off, on Route #4, Section #20A. On motion by Mr. Kidde, seconded by Mr. Stewart, this was referred to Mr. Jelin for final inspection.

April 28, 1925.

Entrance Boulevard, Camden

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of an agreement between the State of New Jersey and the Pennsylvania Railroad Company, covering the crossing of the railroad company's tracks by the Entrance Boulevard at Camden, the same being recommended by the State Highway Engineer, and approved as to form by the Attorney General's Department.

Hackensack River Bridge-Route 1

There was presented a communication from the Stillman-Delehanty-Ferris Company, contractors on the removal of pier on the Hackensack River Bridge, Route 1, Lincoln Highway, requesting an extension of time on their contract for this work due to difficulties encountered in the work. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that the matter of extension of time be deferred until the contractor has completed all the work required under this contract, and that the letter be filed until such time.

Right of Way-Route 3

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the purchase of the following parcels of property on Route 3, section 11, Hammonton-Berlin:

Parcel No.		Consideration
15	Nicola Fotoro,	$ 164.40
16	Domenico Perino,	17.85
17	J. W. Butterton,	40.00
19,20,20A,	Antonio Lanzaro,	25.10
24	Vincenzo Caggiano,	29.25
27	Giuseppe Maiuri,	48.00
30	Frank Pastore,	48.00
31	Anthony Apalucci,	10.25
32	Joseph Apalucci,	25.50
33	Trustees Elm M. E. Church,	30.00
35	Orado Verona,	15.00
41	Domenico Cirillo,	12.00

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the purchase of the following parcels of property on Route 3, section 12, Egg Harbor-Hammonton section:

Parcel No.		Consideration
79	Garett Geene,	$ 8.85
259	Thomas C. Elvins,	1.00
262	Antonia D'Agostino,	1.00
264	Antonio Previte, (State to remove trees in front of property)	1.00
265	Angelo Esposito, (State to remove trees in front of property)	1.00

April 28, 1925.

Right of Way-Route 7

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the purchase of Parcel 43A from William F. Bischoff et ux, for the consideration of $1.00 on Route 7, Section 3, Anderson's Corner-Colts Neck Section.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the purchase of the following parcels of property on Route 7, Section 4, Colts Neck Road-Jerseyville Section:

Parcel No.		Consideration
1 & 1A	Charles E. Conrow & Wife,	$ 1565.00
9	Janet L. Fotheringham (single)	18.00

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the purchase of Parcel #2 on Route 7, Section 5, from Albert E. Thornley and Wife, for the consideration of $1550.00

Right of Way-Route 14

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the purchase of Parcel #43 on Route 14, Section 11, from Mrs. Jean Pinkerton, for the consideration of $5.55.

Right of Way-Route 16

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of a supplemental and amendatory agreement on Parcel #1, Route 16, Section 5A, this supplemental agreement setting forth in writing what has been considered the basis for the original agreement, all of the items named in this agreement having been provided for in the contract for the construction of the work.

Township Aid-Cumberland County
" " Warren "

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved the following Township Aid force account agreements as follows:

Heislerville Road, Section 2, Maurice River Twp., Cumberland Co.
Cumberland & Port Elizabeth Road, " " " " "
Delaware-Warrington Road, Knowlton Township, Warren County.

Phillipsburg-Belvidere, Section 2;
Motor Vehicle Aid - Warren County

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved plans and specifications for Phillipsburg-Belvidere Road, Section 2, Warren County, Motor Vehicle Aid work.

April 28, 1925.

Clinton Ave., West Caldwell,
Motor Vehicle Aid-Essex County,

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the plans and specifications for Clinton Avenue, West Caldwell Borough, Essex County, Motor Vehicle Aid work.

Turnerville-Sicklertown, Sec. 1 & 2,
Motor Vehicle Aid-Camden County

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved of award of contracts by Camden County, for the construction of Turnerville-Sicklertown Road, Section 1.

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved of award of contract by Camden County for the construction of Turnerville-Sicklertown Road, Section 2, Motor Vehicle Aid work.

Maintenance Materials-Cumberland Co.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of award by Cumberland County for 200,000 gallons of Slow Curing Oil.

Federal Aid-Route 2, Section 4A

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of Federal Aid Project Agreement No. 69A on Route 2, Section 4A, Burlington Cut-Off.

Township Aid-Hunterdon Co.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of acceptance and final payment on Sergeantsville-Stockton Cut-off, Delaware Township, Hunterdon County.

River Road-
Motor Vehicle Aid-Middlesex Co.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of plans and specifications for River Road, Middlesex County, Motor Vehicle Aid work.

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission recessed for luncheon at 1 P. M. to meet in regular session at 2:30 P. M. The meeting was reconvened at 2:30 P.M. with the same members present as at the morning session.

Right of Way-Route 1 Extension

Immediately upon reconvening, the Commission went into conference with Special Counsel Sullivan on the matter of the writ of certiorari as applied for by the Erie Railroad Company on Route 1 Extension proceedings in Jersey City.

April 28, 1925.

The regular meeting was again resumed at 4:45 P.M.

Trolley Tracks-
Route 5, Madison-Chatham.

The Secretary informed the Commission that he had received advice from Assistant Attorney General Coulomb to the effect that the Commission will not prejudice any court proceedings undertaken, in the event it desires to make temporary repairs in the trolley track area on Route 5, through the Towns of Madison and Chatham. State Highway Engineer Sloan advised that he had had an interview with the General Manager of the Morris County Traction Company, which operates through Madison and Chatham and he had been informed by the General Manager that the traction company would attend to the temporary repair work at once.

Tuckahoe River Bridge-Route 14

State Highway Engineer Sloan reported to the Commission that he had received informal bids from five different concerns for engineering services in connection with the superstructure of the bascule span of the proposed Tuckahoe River Bridge, Route 14, M. P. 29.5, and he would recommend award to the lowest bidder, the Strauss Bascule Bridge Company of Chicago, at 5% of the contract cost of the superstructure, not to exceed a total cost to the State of $1,300.00, the State to have the use of any patented features under contol of the Strauss people. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the award of contract for engineering services in connection with superstructure of the bascule span of Tuckahoe River Bridge, at M. P. 29.5, on Route 14 to the Strauss Bascule Bridge Company of Chicago, Illinois, at theirs, the lowest bid, in the amount of 5% of the contract cost of the superstructure, and not to exceed a total cost to the State of $1,300.00.

Financial Statements

The Secretary presented to the Commission completed financial statements to this meeting date, and the Commission went into conference to discuss the same. Following this conference, the Commission again resumed regular business.

April 28, 1925.

Route 4, Rahway-Perth Amboy

Commissioner Jelin moved that the State Highway Engineer be authorized and directed to prepare plans and specifications for the construction of State Highway Route 4 between Rahway and Perth Amboy to a width of twenty-nine (29) feet, and that there be apportioned for this work the sum of $400,000.00, the same being recommended by the State Highway Engineer. This was seconded by Mr. Kidde and adopted.

Landis Ave., Vineland-
Motor Vehicle Aid-Cumberland County

Commissioner Kidde moved that in view of the request made by the County of Cumberland for State Aid in the improvement of Landis Avenue, Vineland, which passes the State Home for Feeble Minded, the State Highway Commission allot the sum of $20 ,000.00 as aid to Cumberland County toward this work, provided the County of Cumberland and Township of Landis will make up the balance, and this allotment to rescind any former allocations made for the repair of this road. This was seconded by Mr. Stewart and adopted.

Route 17, Hackensack-Rutherford

Commissioner Kidde moved that the State Highway Commission set aside the sum of $300,000.00 for the use of the construction of realignment on State Highway Route 17 between Hackensack and the Erie Railroad at Rutherford, said work to commence immediately upon the furnishing of the necessary rights of way for this realignment by the County of Bergen, it being understood that at the time the said right of way is furnished to the State Highway Commission, the said Commission will take over as part of State Highway Route 17, the remaining portions of this route lying within the County of Bergen. This was seconded by Mr. Jelin and adopted.

Employments

State Highway Engineer Sloan presented the following list of changes, increase, and additions in the employments since the last meeting of the Commission and recommended approval of the same. He explained that difficulty had been encountered by the Jersey City Office in securing competent structural draftsmen and designers and it was necessary to employ men who were not citizens. This matter had been taken up with the Civil Service Department by Mr. Davis.

April 28, 1925.

On motion by Mr Jelin, seconded by Mr. Stewart, the Commission approved the following employments, the names of the non-citizens being held for action at the next meeting.

Employed

4-15-25	Spencer A. Snook,	Bridge Designer	$235.00 mo.
4-23-25	Adrian C. Lincoln,	Sr. Civil Engr.	190.00 "
4-20-25	Thomas P. Doell,	Mechanic	.60 hr.
4-13-25	George Mixner,	Motor Truck Driver	.45 "
4-22-25	Chas. E. Whitehair,	Mechanic	.65 "
4-20-25	Theo. P. Martin,	Motor Truck Driver	.50 "
4-20-25	Patsy Rimo,	Garage Assistant	.50 "
4-13-25	Orville Stiles,	Motor Truck Driver	.45 "
4-14-25	Daniel Roath,	" " "	.45 "
4-14-25	Herbert Irelan,	" " "	.45 "
4-13-25	L. F. Timmons,	" " "	.45 "
4-8-25	Milton Doughty,	" " "	.45 "
4-13-25	Geo. B. Torgenson,	" " "	.45 "
4-13-25	Charles Anderson,	" " "	.45 "
4-14-25	John Farcio,	" " "	.45 "
4-14-25	Fred Tries,	" " "	.45 "
			.45 "

Increase

5-16-25 Norman F. Rigor, Asst. Civ. Engr. $165. to $175. mo.

Discontinued Employment

4-30-25 J. Lester Silvers, Maintenance Inspector, Resigned.

Detours-Route 8

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved the adoption of the following detour for Route 8, Section 6, Newfoundland-Stockholm Section:

> BEGINNING at the intersection of Route 8 and the Milton-Newfoundland Road in Newfoundland, running thence (1) over the Milton-Newfoundland Road a distance of 2.40 miles to its intersection with Oak Ridge Reservoir Road: thence (2) over the Oak Ridge Reservoir Road a distance of 1.90 miles to Route 8.

Maintenance Materials-State Highway

State Highway Engineer Sloan reported to the Commission that bids had been received on April 27th fo the furnishing of various maintenance materials for State Highways to be used in 1925, and he presented the recommendations of the Superintendent of Maintenance for award of contracts to the lowest bidder, and he recommended that the same be approved by the Commission. In this connection, Superintendent of Maintenance Muir called attention to the fact that there was provided in this estimate an amount of repair materials for the section between Rahway and Perth Amboy, which was put into the construction program at this meeting.

April 28, 1925.

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved the award of contracts for the furnishing of materials as follows, in accordance with bids submitted, award being made in each case to the lowest bidder, and it being understood that the Commission does hereby strike out from the contracts those repair materials which have been scheduled for use on Route 4 between Rahway and Perth Amboy.

Bituminous Concrete FA-BC-1, Amiesite or S.A.

1125	tons	FA-BC-1 and

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission adjourned at 7:00 P M. to meet in regular session on Tuesday, May 5th, at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - May 5, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, Tuesday, May 5, 1925. The meeting was called to order at 10:30 A.M. by Chairman Scott.

Present: General H. L. Scott, Chairman; Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Invitation.

Commissioner Kidde directed attention to the matter of the Annual Dinner of the Association of Freeholders, being held this day at Salem, and moved that a telegram be forwarded to the President of the Association expressing regret that the Commission could not be with them on account of its regular meeting date, and extending best wishes, and advising that the Commission has pleasant recollections of their last year's annual dinner and sends greetings for the success of this one. This was seconded by Mr. Stewart and adopted.

Trolley Tracks-
Route 5, Madison - Chatham.

The Secretary presented a communication from Assistant Attorney General Coulomb, advising that he is writing to the receivers of the Morris County Traction Company, requesting that they petition the Federal Court for an order directing repairs to the trolley track area through Madison and Chatham, since this would secure better results than if application was made by the State direct to the receivers.

State Highway Engineer Sloan explained to the Commission that Mr. Schultz, General Manager of the Morris County Traction Company, was in the office on May 4th and advised that the Traction Company is willing to make the repairs in the necessary track area through Madison and Chatham, but through the Borough of Madison a number of utility openings had been made, which, under the franchises, should be repaired at the expense of the town. Mr. Schultz suggested that the trolley company would submit a proposition whereby a permanent pavement could be placed in the track area, the trolley company to pay for new track material and share in an amount equivalent to the maintaining of a macadam pavement.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of the State Highway Engineer with the provision that this action is not in any case a waiver of the State's rights as against the Town of Madison for its share of the cost.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Borough of Madison be advised that directions have been given to the trolley company for the repair of the trolley track area through the Borough and that the Borough has a contract obligation to replace the pavement which has been torn up on account of utility installations.

Route 9, Bloomsbury

Senator David Agans of Hunterdon County appeared before the Commission and made protest against the action as taken on Route 9 through Bloomsbury. He represented the people who were in favor of going through the main street of the town and argued on this basis.

The State Highway Commission informed Senator Agans that its decision in the matter was final, due to reasons furnished by the Engineering Division. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the Clerk of Bloomsbury be advised of the appearance of Senator Agaisn, and also that he be furnished with an outline of the reasons on which the Commission determined to adopt a straight line for this section of Route 9.

Grade Crossings -
Route 9, Cranford.

The Secretary presented a communication from the State Board of Public Utility Commissioners, advising that that Board has received a request from Alfred A. Stein, Counsel for the Town of Cranford on Route 9, that the Commission be invited to the public hearing to be given by the Utility Commissioners for the elimination of a grade crossing on Union Avenue, Cranford, same to be held on Thursday, May 21st at 11:00 A.M. Daylight Saving Time. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that Mr. Stewart be named to appear at this hearing in order to urge a prompt decision on the matter so that the work may be proceeded with.

Offices

The Secretary presented a communication received from the Elizabeth Trust Company, advising that representatives of the State

Highway Department have inquired for office space and the bank desired to know for what length of time these rooms are required by the State. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the Secretary advise that these rooms will be required for at least a year for Department offices.

Complaint-Route 16, Section 6A.

The Secretary presented a communication from Construction Engineer Bedwell to the State Highway Engineer on the survey made of the conditions existing on Route 16, Section 6A, which had been complained of in a letter received from Colonel F. S. Taintor of Bernardsville. Mr. Bedwell advised that the only noticeable wear on the pavement was a slight sealing at Olcott Square, which is not continuous and may have been caused by the fact that the road was finished late in the fall and the finishing operation caused an excess of laitance on the surface. It was also advised that this was considered a 99% contract and that with the requirement for broom finish on all 1925 contracts it is hoped that this scale effect will be greatly obviated. On motion by Mr. Jelin, seconded by Mr. Kidde, the report was ordered received and placed on file.

Request for Hearing-Ocean County

The Secretary presented a communication from the Ocean County Board of Freeholders requesting an opportunity for a hearing on the matter of the request as made by the Board for aid in the reconstruction of the Lakewood-New Egypt Road. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that this request be placed on file for consideration at some future time.

Route 4, Navesink River Bridge

The Secretary presented a communication from the Jersey Central Power & Light Company, addressed to Chairman Scott, with reference to a bridge across the Navesink River on Route 4, which is now being rebuilt by the State. The Company advised that they now had a trolley bridge across the river adjacent to the highway bridge and that their company agreed to allow the State Highway Department the use of this bridge for construction purposes on condition that they would remove the same upon completion of the work and allow the Jersey Central

Power & Light Company the rights on the new bridge for wires. They also advised that on approaching the Engineer of the State Highway Commission they find that they do not wish to concede the privilege of carrying the high voltage electric wires along the new bridge. They requested that the Commission make some definite decision on this matter at the earliest possible time. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the matter be referred to the State Highway Engineer for investigation and report.

Route 4, Cleveland Avenue Extension-Perth Amboy

The Secretary presented a communication from Hon. F. W. DeVoe, Assistant Attorney General, transmitting a form of agreement which has been drafted to be entered into by the State Highway Commission and the City of Perth Amboy for the construction of Route 4, Cleveland Avenue Extension. He advised that a copy of this had been forwarded to the city officials who have held a conference on the same. The Secretary then read this form of agreement. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the form of agreement as drawn up by Assistant Attorney General DeVoe, subject to the approval of the State Highway Engineer and a modification which will permit the State Highway Commission to control any modifications in the plans and specifications as it may deem necessary from time to time.

Proposed New Routes; Request for Hearing-Camden Co.

The Secretary presented a communication from Assemblyman Knight of Camden County, requesting a hearing for some time in the near future on the matter of the Black Horse Pike. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that Mr. Knight be notified that the State Highway Commission was given no funds at the last session of the Legislature which would permit the taking over of any additional routes at this time and for this reason it was not felt that any public hearing could receive favorable consideration at this time.

May 5, 1925.

Trees-Route 4.

The Secretary presented a communication from Major Leon Berry, County Counsel for Ocean County, protesting against the proposed removal of trees through West Creek on Route 4 construction. The Secretary advised that Judge Berry was present at this time. On motion, duly seconded, a hearing was granted. Judge Berry appeared and advised that he was very much interested in the development of Route 4, but he felt that a number of highly desirable trees were being sacrificed through West Creek. He stated to the Commission that he believed that with the exception of two or three trees, they are all outside the thirty-foot lines, and for this reason he was at a loss to know why they were being removed.

Commissioner Stewart advised that the Commission had attempted at the last Legislature to have a bill passed which would give the Commission discretionary powers as to width of highways through municipalities where trees existed in order that the same might be spared were it deemed desirable. However, the Commission was bound by an opinion of the Attorney General, which he presented and read for Judge Berry, which advised that it was mandatory upon the State Highway Commission to have a clear unobstructed roadway of thirty feet, and if trees were the obstruction the same would have to be removed.

Judge Berry stated that he would be willing to have this matter tested in the court to determine whether in view of the paving of only twenty feet of the highway it is necessary to remove the trees within thirty feet. No definite action was taken at this time.

The Schedule of Business was next taken up, item by item as follows, with the recommendations of the State Highway Engineer:

Route 5, Bridge at M.P. 20.0

There was reported completed the bridge at M. P. 20.0 on Route 5. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the same be referred to Commissioner Kidde for final inspection prior to acceptance.

May 5, 1925.

Route 5, Bridges at M.P. 0.2,1.4 & 2.0

There was reported the completion of bridges at M. P. 0.2, 1.4 and 2.0 on State Highway Route 5, Section 11. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that this matter be referred to Commissioner Kidde for inspection and report.

Route 4, Bass River Bridge

There was reported the completion of the Bass River Bridge on Route 4 at M. P. 13.9. On motion by Mr. Stewart, seconded by Mr. Kidde, same was referred to Commissioner Jelin for final inspection prior to acceptance.

Route 6, Section 16

State Highway Engineer Sloan reported the receipt of only one bid after regular advertisement for the construction of Route 6, Section 16, Broad Street, Woodbury, and he recommended that in view of the fact that this particular work was very short and through a built-up section that award should be made to the low bidder, the Union Paving Company, at $36,622.50. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award for the construction of Route #6, Section #16, Broad Street, Woodbury, to the Union Paving Company at their's the lowest bid received in the amount of $36,622.50 and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Route 2, Section 7

Plans and specifications were reported completed for the construction of Route 2, Section 7, South Broad Street, Mercer County, and advertisement was recommended. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of South Broad Street, Mercer County, and

> BE IT FURTHER RESOLVED that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to make the necessary advertisement for the work after approval by the State Highway Engineer.

Route 8, Section 6

Plans and specifications were reported completed for the construction of Route 8, Section 6, Newfoundland-Stockholm, and advertisement was recommended. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED that the State Highway Commission does hereby approve plans and specifications for the construction of Route 8, Section 6, Newfoundland-Stockholm, and

> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to make the necessary advertisement after approval by the State Highway Engineer.

Route 15, Fishing Creek Br. & West Creek Br.

Plans and specifications were reported completed for the construction under one contract of the following two bridges on State Highway Route 15; bridge over Fishing Creek, Route 15, Section 8, at M. P. 44.0, Cape May County, and bridge over West Creek, Route 15, at M. P. 24.7, Cumberland County and Cape May County. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of a bridge over Fishing Creek on Route 15, Section 8, at M. P. 44.0 in Cape May County, and for a bridge over West Creek on Route 15 at M. P. 24.7 in Cumberland and Cape May Counties, and

> BE IT FURTHER RESOLVED that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement for the work after approval by the State Highway Engineer.

Route 20, Section 1.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved an agreement with the Borough of Clayton and authorized the Chairman's signature covering extra width and construction of Route 20, Section 1, Clayton-Glassboro section.

May 5, 1925.

Route 1, Section 8, Drain

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved a form of agreement, covering an easement prepared by the Pennsylvania Railroad Company, granting the right to the State Highway Commission to construct and maintain a drain over lands of the United New Jersey Railroad and Canal Company on Route 1, Section 8 at Rahway, at an annual rental of $12.00 .

Abandonment-Route 12

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission adopted the following resolution for the abandonment of five portions of State Highway Route 12, Section 7, Stephensburg-Hackettstown, which were eliminated by a change in the line of construction:

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 12 from Paterson to Phillipsburg, by way of Little Falls, Pine Brook, Parsippany, Denville, thence over Route 5 to Budds Lake, thence to Washington and Broadway, and

WHEREAS, in the construction and improvement of the said State Highway Route 12, Section 7, Stephensburg to Hackettstown, it has been found desirable to relocate a certain portion of the said Route for the betterment of the alignment, grade, etc. and

WHEREAS, upon the construction of the said route and section of the revised line, there are certain portions heretofore used as a part of the road before improvement which are no longer needed as a part of the improved State Highway.

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that certain portions of State Highway Route 12, Section 7, as hereinafter described, be and the same are hereby abandoned as a part of State Highway Route 12, Section 7, and vacated in accordance with the provisions of Chapters 14 and 15 of the Laws of 1917 and the amendment thereto in Chapter 220 of the Laws of 1919.

Portion #1

Beginning at a point in the center line of the old road as taken over, where the said center line is intersected by the new northerly right of way line of Route 12, Section 7, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 300 plus 09; thence along the center line of the old road, its various courses and distances to a point in the said new northerly right of way line of Route 12, Section 7, said point being measured thirty-three (33) feet normally from the center line of the said State Highway at about Station 309 plus 30.

May 5, 1925.

Portion #2

Beginning at a point in the center line of the old road as taken over, where the said center line is intersected by the new northerly right of way line of Route 12, Section 7, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the said State Highway at about Station 335 plus 55· thence (1) in a northerly direction a distance of two hundred fifteen (215) feet more or less to a point; thence (2) in a northeasterly direction a distance of eighty-four (84) feet more or less to a point; thence (3) in an easterly direction a distance of three hundred sixty (360) feet more or less to a point in the new northerly right of way line of Route 12, Section 7, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 341 plus 94.

Portion #3

Beginning at a point in the center line of the old road as taken over, where the said center line is intersected by the new southerly right of way line of Route 12, Section 7, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 447 plus 05: thence (1) in an easterly direction for a distance of one hundred ninety-five (195) feet more or less to a point; thence (2) curving to the left for a distance of one hundred thirty-six (136) feet to a point; thence (3) in an northeasterly direction for a distance of two hundred (200) feet more or less to a point; thence (4) still in a northeasterly direction for a distance of five hundred eighty four (584) feet more or less to a point; thence (5) curving to the left for a distance of sixty (60) feet more or less to a point; thence (6) in a northerly direction for a distance of one hundred fifty-five (155) feet more or less to a point: thence (7) curving to the left for a distance of sixty-one (61) feet to a point in the new southerly right of way line of the new road as constructed, said point being measured thirty-three (33) feet normally from the center line of the new road at about Station 461 plus 01.

Portion #4

Beginning at a point in the center line of the old road as taken over, where the same is intersected by the new right of way line of Route 12, Section 7, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 462 plus 14; thence (1) curving to the right for a distance of two hundred eighty (280) feet more or less to a point in the said new northerly right of way line, said point being measured thirty-three (33) feet from the center line of the new road as constructed at about Station 464 plus 15.

Portion #5

Beginning at a point in the center line of the old road as taken over, where the same is intersected by the new southerly right of way line of Route 12, Section 7, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 466 plus 49; thence (1) in an easterly direction for a distance of one hundred fifty-five (155) feet more or less to a point; thence (2) still in an easterly direction for a distance of two hundred twenty-three (223) feet more or less to a point; thence (3) curving to the

May 5, 1925

left for a distance of ninety-one (91) feet more or less to a point thence (4) in a northeasterly direction for a distance of four hundred sixty-nine (469) feet more or less to a point in the said new southerly right of way line, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 475 plus 70.

BE IT FURTHER RESOLVED that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Warren County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate those portions of the old road as taken over January 15, 1920, lying outside the limits of the acquired Right of Way of the new road as constructed between Station 300 plus 09 more or less and Station 475 plus 70 more or less, as shown on plans attached hereto and on file in the office of the said State Highway Commission at Trenton, New Jersey.

Taking over State Highways-
Route 9, Bloomsbury-Asbury

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the adoption of the following resolution taking over for improvement and maintenance Route 9 between Bloomsbury and Asbury in Warren County.

WHEREAS, under the provisions of Article 3, Chapter 14, Laws of 1917, the State Highway Commission may, by resolution, take over as a State Highway, any route, routes or part thereof, of those highways designated by the Act to be taken over as State Highways.

NOW, THEREFORE, BE IT RESOLVED, by the State Highway Commission of the State of New Jersey, that the following described road be and the same is hereby taken over as a part of State Highway Route 9 according to the statute in such case, made and provided, viz:

Beginning at a point in the center line of the road between Bloomsbury and Asbury, on the North side of the Musconetcong River, said point being the intersection of the said center line and the easterly right of way line of Church Street; thence along said road in a northeasterly direction its various courses and distances to the boundary line between the Township of Greenwich and the Township of Franklin, Warren County;

RESOLVED FURTHER that the proper authorities of the Township of Greenwich be notified by the Secretary of this Commission of such action and that from and after the date hereof the said road will constitute part of State Highway Route 9 and that this Commission will be responsible for the improvement and maintenance of the above described road.

BE IT FURTHER RESOLVED that the Township of Greenwich be requested to file with the State Highway Commission within thirty (30) fays of the date hereof, any agreement or copies of franchises they may have with any public utilities or any other company, firm, individual or corporation, effecting the construction, maintenance, or use of the above described road.

May 5, 1925.

Route 5, Section 15A

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the request of P. Camillo & Co., contractors on Route 5, Section 15A, Milburn Avenue, Irvington, to sublet sewer work to Joseph Miele and the excavation to Decker and Canning.

Amboy Bridge-New

State Highway Engineer Sloan presented to the Commission Change of Plan #24 and Supplemental Agreement #6 providing for the payment of certain claims of the contractors for the construction of the Amboy Bridge, concerning piling, etc. on which the contractor had written a letter advising that this should not preclude any further payment on account of extra work which might be necessary.

The State Highway Engineer advised that the order as drawn covered the payment in full for all extra work of whatever nature in connection with the foundations of the bridge, and he recommended that the same be approved. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the order as drawn be approved.

Employments

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the following additions, changes and increases as made by the State Highway Engineer in the employments since the last meeting of the Commission:

Township Aid-Camden County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the acceptance and final payment on Fleming Turnpike, Winslow Township, Camden County, Township Aid.

Township Aid-Somerset County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the acceptance and final payment on the Clairmont-Post-Kunhardt Road, Section 2, Borough of Bernardsville, Somerset County, Township and Borough Aid, said acceptance and approval carrying an extension of time to December 8, 1924.

Township Aid-Cape May County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved acceptance and final payment on Stephen's Island Road, Dennis Township, Cape May County, Township Aid.

Township Aid-Somerset County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the Township Aid force account agreement on Shultz-Stone House Village Road, Bernards Township, Somerset County, Township and Borough Aid.

Township Aid-Burlington County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the final force account statement on the Chambers Corner-Jobstown Road, Springfield Township, Burlington County, Township Aid.

May 5, 1925.

Extension of Time, Mercer County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the extension of time to June 15, 1925, for the completion of the old York Road, Hamilton Township, Mercer County.

River Road, Nutley;
Motor Vehicle Aid-Essex County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the award of contract by Essex County Board of Freeholders on River Road, Nutley, Essex County, Motor Vehicle Aid work.

Tonnelle & Manhattan Avenues;
Motor Vehicle Aid-Hudson County.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of award of contract by Hudson County on the improvement of Tonnelle Avenue and Manhattan Avenue, Hudson County, Motor Vehicle Aid, work.

Motor Vehicle Aid-Mercer County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of Motor Vehicle Aid schedule and agreement for Mercer County, 1925 work.

Maintenance Materials-Middlesex Co.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved specifications for maintenance and repair materials for use in Middlesex County during 1925.

Maintenance Materials-Passaic County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the request of Passaic County for a reduction in the award of 250,000 gallons of Tarvia "B" by 60,000 or 75,000 gallons, and for an increase in the amount of Light Hot Oil from 10,000 gallons to 70,000 or 85,000 gallons.

Request for Aid-Hunterdon County

There was presented a communication from Hunterdon County requesting aid on the West Portal-Bristol Corner Road. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the Hunterdon County Board of Freeholders be advised that the Commission has no funds which it can allot for this project.

May 5, 1925.

Rejection of Bids-Ocean County, Maintenance Materials " "

There was presented a report of bids received by Ocean County for Calcium Chloride treatment to gravel roads in the County, in which it was explained that there were but two bids and that the County had rejected the same. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that the action of Ocean County in rejecting bids for Calcium Chloride be approved and confirmed.

Maintenance Materials-Atlantic Co.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the award by Atlantic County for tar treatment to various roads in the County.

Transfer-
Township Aid-Atlantic County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the request of Weymouth Township Committee, Atlantic County, for transfer of $989.12 balance to the credit of the County from the Buena-Tuckahoe Road to Cumberland Avenue in the same Township.

River Road, Section 1,
Motor Vehicle Aid-Mercer County

There was presented a resolution adopted by the Board of Freeholders of Mercer County, advising that following recommendations made by the County Engineer, the request is made on the State Highway Commission to reserve the allotment previously made for the reconstruction of River Road, Section 1, until such time as the temporary repair and maintenance of said Section 1 shall determine that it is advisable to reconstruct this section of River Road in its entirety.

State Highway Engineer Sloan recommended to the Commission that the allotment of $25,000.00 as made to Mercer County, be withdrawn in order that the County may follow the advice of the County Engineer.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the resolution be placed on file and that the State Highway Commission withdraw the $25,000.00 Motor Vehicle Aid as given for aid on the River Road, Section 1, Mercer County, and that the Board of Freeholders of Mercer County be requested to renew their application when the reconstruction of this road is to be taken up, at which time the application should receive favorable consideration from the Commission. This was seconded by Mr. Stewart and adopted.

Maintenance Materials-Salem County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the award of contract by Salem County for sand to cover the SCO on County Roads.

Maintenance Materials-Cape May County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the advertisement by Cape May County for additional lignin binder to be applied on the Belle Plain & South Dennis Roads, in accordance with the specifications previously approved.

Route 1, Grove St. Widening, Jersey City

There was presented a communication from F. J. Radigan, Hudson County Engineer, in which he advised that at the last meeting of the Board of Freeholders of Hudson County, the proposition of the widening and extension of Grove Street, Jersey City, to connect with the Paterson Plank Road, was considered, and in view of the fact that the County has many obligations, the Board has determined that it cannot undertake the proposed improvement as a county improvement on the basis of receiving $40,000.00 from the State. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received and placed on file.

Route 8, Mountain View Grade Crossing

There was presented a communication from the Independence Indemnity Company of Philadelphia, to Major Sloan, advising that the bonding company has arranged for the completion of the contract on Route 8, Mountain View Grade Crossing elimination, Passaic County, by the Arthur A. Johnson Corporation, and work would be started on May 5, 1925. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received and placed on file.

Right of Way-Route 10

The Secretary presented a communication from Wendall J. Wright, Attorney in the matter of the property acquired from the Palisade Realty and Amusement Company on Route 10 in the Borough of Fort Lee, which was acquired by condemnation proceedings in 1921 and on which no check had been issued until January 18, 1924, and paid into Chancery, September 8, 1924. Mr. Wright now claims interest from January 29, 1921 to the date of the filing of the condemnation petition September 8, 1924, when the payment was made in Chancery. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that this interest be paid at the normal rate of interest allowed by the Court of Chancery.

Route 4, Cooper River Bridge.

There was presented a communication from the Mayor of Red Bank and the Township Clerk of Middletown Township, requesting the construction of sidewalks or footpaths in connection with the detour to be used during the construction of the Cooper River Bridge, and there was also presented an estimate in the sum of $3,772.00 for this work.

State Highway Engineer Sloan recommended that these footpaths be not constructed. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that this application be denied on the ground that the Commission has no power to build sidewalks or footpaths.

Scales

There was presented a communication from Commissioner W. L. Dill, recommending that a scale be placed on Route 10 at Edgewater. State Highway Engineer Sloan recommended that the scale now located at Dundee Lake be moved to this point. On motion by Mr. Kidde, seconded by Mr. Jelin, the recommendation of the State Highway Engineer was unanimously adopted.

Extension of Time-
Pompton River Bridge, Route 8

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved an extension of time of thirty working days to James Mitchell, Inc. contractors for the Pompton River Bridge on Route 8.

Insurance

There was presented a communication from the Superintendent of Plant and Equipment, calling attention to the fact that up to this time no fire insurance has been placed on the State Highway Garages at Trenton and Fernwood. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the State House Commission be forwarded this information and requesting advice as to what obligation is upon the State Highway Commission to provide for this insurance.

May 5, 1925.

Route 20, Millville.

The State Highway Engineer presented a detailed estimate of cost of the proposed extension of Route 20 through Millville, in which he advised that there would be needed an additional set up of $25,000.00 toward this work. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the report be accepted and filed and that an additional set up of $25,000.00 be allowed.

Right of Way-Crescent Boulevard

Commissioner Jelin reported that following authorization he had visited the Odlen property on the Crescent Boulevard at Camden and he would report that the State was receiving very favorable consideration at the hands of this property owner and he would recommend the purchase of the property at the agreement price of $40,000.00. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the report be accepted and that the purchase be made as soon as possible.

Route 4, Section 20A.

Commissioner Jelin reported the inspection and moved the acceptance of Route 4, Section 20A, Manasquan Grade Crossing section. This was seconded by Mr. Stewart and adopted.

The Commission then went into conference on the matter of the Erie Railroad hearing to be held at the State House before the Legislative Investigating Committee on May 6th. The meeting was adjourned at 8:00 P.M. to meet in regular session on Tuesday, May 12, 1925, at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - May 12, 1925.

A regular meeting of the State Highway Commission was held in the Commission rooms, Broad Street Bank Building, Trenton, Tuesday, May 12, 1925. The meeting was called to order at 10:30 A. M., by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Route 1, Extension, Jersey City

The Secretary presented a telegram from Senator Wm. H. Bright, Chairman of the Joint Investigating Committee on State Affairs, expressing his appreciation to the State Highway Commission for the results accomplished toward the solution of the Erie Railroad problem on Route 1, Extension, Jersey City. On motion by Mr. Jelin, seconded by Mr. Stewart, the telegram was ordered received and placed on file.

The Secretary presented a communication from Mr. R. C. Falconer, Assistant to the President and Chief Engineer of the Erie Railroad Company, addressed to Chairman Scott, requesting the State Highway Commission to advise of its conclusions concerning the suggestion for an amicable settlement of the differences with the Erie Railroad Company in order that whatever agreement is possible may be consummated at the earliest possible moment so as to justify the suspension of the litigation now pending in the courts. On motion by Mr. Stewart, seconded by Mr. Jelin, the communication from Mr. Falconer was ordered received and held for consideration later in the day.

The Secretary announced that Judge Mark Sullivan, Special Counsel on the matter of the Erie Railroad right of way, on Route 1, Extension, was in the office to discuss, in conference, concerning the form of agreement to be entered into. The Commission then went into conference with Judge Sullivan, and Assistant Engineer Lavis. Following this conference, which lasted over three hours, the Commission, through its Secretary, then informed the press that careful investigations had been made of the economic and financial problems involved, and had directed Judge Sullivan to prepare a form of agreement to be presented to the Erie Railroad Company, which would place the highway on Twelfth Street, and safeguard the interests of the public.

Following this conference, the Commission recessed for luncheon, at 1 P. M., to meet in regular session at 2:30 P. M. The Commission reconvened at 2:30 P. M. with the same members as at the morning session.

Right of Way, Route 1. Extension

The Secretary presented a communication from Attorney General Katzenbach transmitting a bill from Edward McDermott for professional services rendered as expert in preparing evidence and testifying on the Bowen condemnation on Route 1, Lincoln Highway Section, in the amount of $ 1,000.00. On mtion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission moved that the bill of Mr. McDermott be returned to the Attorney General in order that he may certify as to the propriety of this bill and recommend same to the Commission for payment.

The Secretary also presented a bill from J. F. Gannon, Jr., for professional services rendered in the condemnation proceedings of James R. Bowen property, together with conferences with Judge Sullivan of the Attorney General's Department in the amount of $700.00. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that this bill be forwarded to Judge Sullivan for his recommendation as to its propriety for payment.

Signals & Signs, Route #16

The Secretary informed the Commission that he had been visited by Col. F. A. Taintor of Bernardsville, together with Mr. J. Dryden Kuser, who had given him information which they desired to convey to the State Highway Commission, namely; that on Route #16, at Blaziers Corner there is a dangerous condition existing which should be safeguarded by a mushroom signal light; also that there were certain intersections with Route #16 in connection with the construction of entrances which required attention, this referring especially to the Bank Corner, Meeker Road, Mt. Harmony Road and Quimby Lane. Attention was also called by this Committee to the need for signs at Olcott Square in Bernardsville. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission moved that Col. Taintor be advised that it is against the policy of the Commission to approve any lighting devices within the paved width of the road, but that if it is their desire to install an overhead signal the Commission will be glad to give some consideration.

The Secretary informed the Commission that the Commission sometime ago had informed Bernardsville that it was proposed to install proper signs at Olcott Square as soon as the same could be attended to

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that this matter be referred to the State Highway Engineer for proper attention.

Request for Hearing, Salem County

The Secretary presented a communication from Senator Borton of Salem County, requesting that the State Highway Commission grant a hearing to a Committee appointed for the consideration of the improvement of the Harding Highway. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that the said hearing be granted, same to take place on Tuesday, May 26th, if convenient to the Harding Highway Committee.

Right of Way, Route #8

The Secretary presented a report from Assistant Attorney General DeVoe advising that the Condemnation Jury had tried the appeal on the Forsburg condemnation on Route #8 at Mountain View, and has brought in a verdict of $17,742.50 which expressed a saving of $253.32 over the previous award. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the report be received and that settlement be arranged with the Forsburg property owners upon the basis of the jury award and that the same be paid.

Right of Way, Amboy Bridge Approach

The Secretary presented a report from Assistant Attorney General DeVoe advising that the Condemnation Commissioners had awarded $1,025.00 to Wm. S. Whitworth for property on Route #4 at Sayreville, needed as part of the approach to the Amboy Bridge on the South Amboy side. He advised that the State's witnesses had valued the land at $1,000.00. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the award of the Condemnation Commissioners be approved and payment be made to Mr. Whitworth.

Right of Way, Route #2.

There was presented a report from Mr. DeVoe in the matter of award made by the Condemnation Commissioners sitting as an Arbitration Board on the value of property taken from John A. Church, who was a tenant on the John A. MCBride property on Route 2, and he recommended that the award of $462.50, as made to Mr. Church, be paid. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that the award of the Condemnation Commissioners to John Church be approved.

Trucks-High Point Park Road

The Secretary presented a communication from J. J. Stanton, Secretary the High Point Park Commission requesting the loan of three additional trucks for use in the maintaining of roads through High Point Park. Mr. Stanton expressed appreciation for past courtesies and stated that by this cooperation more work was accomplished last year than any other method which could be decided upon.

State Highway Engineer Sloan explained that the High Point Park Commission had used two trucks of the Department but that it was necessary to spend considerable money on their reconditioning when they were returned to the Department.

Commissioner Kidde, therefore, moved that the High Point Park Commission be advised that the State Highway Commission will be very glad, if the same are available, to rent to the High Point Park Commission three suitable trucks for its work, the rental fee to be the cost of reconditioning these trucks upon their return to the State Highway Department at the end of the season. This was seconded by Mr. Jelin and adopted.

Cooper Bridge, Route #4

The Secretary presented a telegram from Mayor Hettrick of Asbury Park requesting the Commission to defer the reconstruction of Cooper Bridge on Route #4 near Red Bank until after Labor Day, in view of the fact that the available detour is narrow and that this will deter the public from coming to Atlantic City and other seaside resorts this summer. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that Mayor Hettrick be advised that the State Highway Commission is using every effort to complete construction throughout Route #4 during the present year, and that in any event the construction of this work must take practically a full year, and in view of the fact that traffic must detour most of Route #4 this year, the State Highway Commission will use every effort to keep such detour safe and convenient for travel, and would suggest that residents of the shore stress the fact, if they so desire, that there are other available routes by which traffic can reach the shore other than by following Route #4 through this season.

Request–for Hearing, Burlington Co.

The Secretary presented a commuication from the County authorities of Burlington County requesting a hearing before the State Highway Commission concerning Branch Pike. On motion by Mr. Jelin, seconded be Mr. Stewart, the hearing was ordered arranged for Tuesday, May 9th.

Route #4, Perth Amboy

The Secretary presented a communication from the City Clerk of Perth Amboy advising that at the last meeting of the Board of Aldermen, instructions were directed to be communicated to the State Highway Commission advising that communications for the Board of Aldermen shall, at all times, be addressed to the City Clerk rather than to any other person.

Commissioner Jelin explained that Assistant Attorney General DeVoe had communicated direct with the City Counsel of Perth Amboy in the matter of an agreement to be entered into with the Board of Aldermen, and that this was the reason for the receipt of this communication. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received and placed on file and same was directed to be accordingly followed.

Request for Aid, Ocean County

The Secretary presented a communication from the Borough of Beachwood, Ocean County, advising that trucks working on Route #4 at Beachwood have been using a main thoroughfare and this has involved a very high maintenance cost on these roads, with the request that the State Highway Commission assist in the maintenance of the above road if possible. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the communication be acknowledged and that the Borough of Beachwood be advised that the State Highway Commission has no funds available to the Borough but it would suggest that the Borough has sufficient regulation of traffic within its power to restrict the use of those roads by heavy trucks if it is so desired, and that the State Highway Commission will, on its part, hasten the work on Route #4 to completion as soon as possible.

The Schedule of Business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer:

Route #4, Section #30.

There was presented the following report of bids received for the construction of Route #4, Section #30, Manahawken-Tuckerton Section, and it was recommended that award be made to the low bidder, Union Paving Company in the amount of $345,413.70.

Union Paving Company	$ 345,413.70
Michael Staub	365,391.60
Acchione & Canuso	370,577.00
Public Service Production Co	375,275.26
Sutton & Corson	381,901.98
Chas. T. Kavanagh	383,978.46
John M. Reuter	418,951.70

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED that the State Highway Commission does hereby make award of contract for the construction of Route #4, Section #30, Manahawken-Tuckerton Section to the Union Paving Company at their's the lowest bid received in the amount of $345,413,70, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Route #4, Bridges, M. P. 37.9& 38.5

There was presented the following report of bids received on May 11th for the construction of Route #4 Bridges at M.P. 37.9 and M. P. 38.5, and it was recommended that award be made to the Hill Construction Company low bidders in the sum of $14,332.40.

Hill Const. Co	$ 14,332.40
F. W. Schwiers Jr. Co	16,306.80
Jos. A. Felice & Antony Pinto	17,349.63
T. M. Gibbs Const. Co	17,459.17
M. Staub & Kolyn Const. Co	18,137.80
A. J. Wick & Son	24,702.80

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Bridges on Route #4 at M. P. 37.9 and M. P. 38.5 over the Middle Branch and the North Branch of the Forked River, to the Hill Construction Company at their's the lowest bid received in the amount of $14,332.40, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Route #5, Sections #11A & #8B

There was reported the completion of plans and specifications for the construction of the uncompleted sections of Route #5, known as Sections #11A & 8B, at Manunka Chunk and Great Meadows in Warren County, and it was recommended that the same be approved for advertisement. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of the uncompleted sections of Route #5, known as Sections #11A & 8-B, at Manunka Chunk and Great Meadows, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to make the necessary advertisement for the work after approval by the State Highway Engineer.

Route #20, Section #3

There was reported the completion of plans and specifications for the construction of Route #20, Section #3 in the Borough of Westville, Gloucester County, and it was recommended that advertisement be approved. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route #20, Section #3 in the Borough of Westville, Gloucester County, and
>
> BE IT FURTHER RESOLVED, that the Chairman is hereby authorized to sign the necessary papers and the Chief Clerk is directed to make the necessary advertisement for the work after approval by the State Highway Engineer.

Route #4, Waretown Creek Bridge,
Oyster Creek Bridge and
Forked River Bridge

There was reported the completion of plans and specifications for the construction of three concrete bridges on Route #4, as follows: at M. P. 35.3 over Waretown Creek; at M. P. 36.6 over Oyster Creek and at M. P. 37.3 over the South Branch of the Forked River, and it was recommended that advertisement be approved. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of three concrete bridges on Route #4, at M. P. 35.3 over Waretown Creek, at M. P. 36.6 over Oyster Creek and at M. P. 37.3 over the South Branch of the Forked River, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to make the necessary advertisement for the work after approval by the State Highway Engineer.

Borings, Route #1, Extension Jersey City

There was reported the completion of plans and specifications for borings necessary on Route #1 Extension between Jersey City and Newark, and recommendation was made for advertisement. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for borings necessary on Route #1 Extension between Jersey City and Newark, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place necessary advertisement for the work after approval by the State Highway Engineer.

Route #1, Albany Street Bridge

State Highway Engineer Sloan reported the completion of the construction of Albany Street Bridge at M. P. 31.4 in New Brunswick, and recommended same for final inspection and acceptance. Commissioner Jelin reported that he had inspected this work within the past 24 hours and he moved that the same be accepted and final payment authorized. This was seconded by Mr. Kidde and adopted.

Route #12, Section #6

The State Highway Engineer reported the completion of Route #12, Section #6, and recommended that the same be accepted after final inspection. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that this matter be referred to Commissioner Kidde for final inspection.

Route #4, Bass River Bridge

Commissioner Jelin reported that he had inspected the Bass River Bridge on Route #4 at M. P. 13.9 and would recommend same to the Commission for final acceptance, this having been referred to him at the last meeting. On motion by Mr. Jelin, this was seconded by Mr. Stewart and adopted.

Route 1, Extension, Jersey City

State Highway Engineer Sloan presented to the Commission a plan showing the proposed alignment of Route 1 Extension between Jersey City and Newark across the Hackensack and Passaic River, and he recommended the adoption of the line marked "A" in order that application in proper form may be made to the War Department for permit for the bridge construction. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission of the State of New Jersey does hereby adopt as the line of Route #1 Extension from the Boulevard, Jersey City, Westerly to a point approximately five hundred feet (500') west of the Passaic River at Doremus Avenue in the Cityof Newark, the Route as designated or shown by line "A" on a map entitled "New Jersey State Highway Department, Route 1 Extension, Map of Jersey City, Kearney and Newark, File 4-1-3, Drawing No. J. C. 2030", which map is hereby made a part of the official record on the adoption of the alignment for the above mentioned part of State Highway Route 1 Extension. (Above Resolution filed in General File under Route 1 Extension.)

Right of Way, Route #7

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel #32 on Route #7, Section #4, Colts Neck-Jerseyville Road, from Clifford G. Duryea and Margaret L. his Wife, for the consideration of $37.68.

Right of Way, Route #3

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway way Commission approved the purchase of the following parcels of property on Route #3, Section #11, Hammonton-Berlin Section:

Parcel		Consideration
14,	Rocco Olive,	$ 300.00
18,	Archibald Boardman,	10.00
18A & 16B,	Edward Boardman Estate,	73.75

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approve the purchase of the following parcels of property on Route #3, Section #12, Egg-Harbor-Hammonton Section:

May 12, 1925

Parcel		Consideration
133,	Bernhardina Charlotta Swanberg	$ 16.50
261,	Independent Volunteer Fire Co. (Quit Claim Deed)	1.00

Right of Way, Route #6

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel #5, on Route #6, Section #4, Bridgeton-Shirley Section, from John Uhland for the consideration of $109.50.

Right of Way, Route #16

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that an offer of $450.00 be made to Ida C. Conners for Parcel #11 on Route #16, Section #5A, Somerville to Royce Valley, and if same be refused that condemnation proceedings be entered into. This is made necessary in view of the fact that there are two appraisals of this amount on the assumption that the State will reset existing barns at an estimated cost of $800.00 and reset existing fences on a new line in addition to the prices mentioned. The owners, however, have refused to negotiate except on the basis of moving back their house, which does not encroach on the proposed right of way lines.

In this connection Commissioner Jelin suggested that an effort be made to make a compromise settlement with this owner before condemnation proceedings are started.

Maintenance Materials, Highway

State Highway Engineer Sloan presented to the Commission a report of bids received on April 27th for the furnishing of crushed stone and ¼" washed gravel and recommended that award be made as follows:

Contractor	Tonnage	Amount
Raritan Mercantile Co. Perth Amboy, N. J.	4133	$ 7,487.25
Pompton Crushed Stone Co., Bloomingdale, N. J.	3522	5,497.35
Miles Bitting Co., Allentown, Pa.	2333	3,230.16
Fanwood Stone Quarry Co. Fanwood, N. J.	17.5	29.25
Lambertville Stone Quarry Co. Lambertville,	2643	3,171.60
Utility Const. Co. New Brunswick, N. J.	1222	2,177.40
Morris Co. Crushed Stone Co. Morristown,	4150.5	5,809.30
F. R. Upton, Inc. Newark, N. J. (Bound Brook)	1065	1,278.00
" " " " " " " (Summit)	1690	2,703.70
Delaware River Quarry & Const. Co. Lambertville,	8509	13,656.77
Consolidated Stone & Sand Co. Upper Montclair,	1715	2,989.55
Belmont-Gurnee Co. North Bergen, N. J.	455	763.00
Birdsboro Stone Co., Phila., Pa.	2583	2,583.00
Generz	4840	2,904.00

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the recommendation of the State Highway Engineer and directed that awards be made in accordance with the foregoing recommendation for stone to be furnished by the various contractors as per their bids, contracts to be drawn in accordance with the bids submitted, said contractors being awarded those product on which they were the low bidders with an equal division among those contractors who were tied in any particular district.

Route #4, Cooper Bridge

State Highway Engineer Sloan presented to the Commission a report from Right of Way Engineer Meeker as to the claims made by the Jersey Central Power and Light Company for permission to install a high tension line on Cooper Bridge on Route #4 at M. P. 90.8 at Red Bank, in which report it was advised that an interview with the General Manager of the Company had elicited information to the effect that they agreed with the contention of the Commission that the Jersey Central Power and Light Company should not be permitted to carry high tension lines on poles placed upon the new highway bridge, but rather they should be carried across the river by the erection of steel towers which will take them safely out of the way. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the Jersey Central Power and Light Company be advised that the State Highway Commission cannot allow them permission to cross the Shrewsburg River on the Cooper Bridge being constructed, and that their application for such permission is denied.

Trolley Tracks, Route #5, Maplewood

There was presented an agreement to be entered into with the Public Service Railway Company for work to be performed on the trolley track area on Springfield Avenue, Maplewood, on Route #5, by which agreement the State Highway Commission will provide funds for material and work and the Public Service Railway Company does agree to repay as soon as finished in three annual installments at an interest rate of 4½%. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the entering into an agreement in accordance with the form as presented and approved by the State Highway Engineer.

May 12, 1925

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the adoption of the following resolution covering the change in location of the trolley tracks on Route #5:

> WHEREAS, in order to answer public necessities and convenience and to carry out plans for the improvement of Springfield Avenue, between Forty-third Street in the Town of Irvington, and Millburn Avenue in the Township of Maplewood, County of Essex and State Of New Jersey, a distance of approximately seventy-nine hundred feet (7,900'), it is desirable that the tracks now maintained by the Public Service Railway Company on said Springfield Avenue between the points above stated, be removed and relocated from the side of said street where they are now located to the center of said street, all as shown on the map or plan hereto attached and made a part hereof, entitled "Public Service Railway Co. Department of Maintenance of Way, Proposed relocation of tracks on Springfield Ave., from Millburn Avenue, Maplewood to 43d St. Irvington" dated March 25, 1925 and numbered 20533-K.
>
> NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of New Jersey, that the said Public Service Railway Company be and it is hereby requested, directed and authorized to change the location of its street railway tracks and remove and relocate the same from the side of said Springfield Avenue between the points above set forth to the center of said Springfield Avenue, in accordance with the foregoing recital, including any necessary change in the location of poles and electrical conductors, and when said relocation shall have been done, then and thereafter the said Public Service Railway Company, its successors or assigns, so changing the location of its said tracks in accordance with this request, shall have the right to maintain and operate the same in the new location for as long period as it had the right to maintain and operate its said tracks in their former location at the time of such relocation.

Detours, Route #8

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the adoption of the following official detour for Route #8, Section #6, Newfoundland-Stockholm Section:

> Beginning at the intersection of Route 8, and the Milton-Newfoundland Road in Newfoundland, running thence (1) over the Milton-Newfoundland Road a distance of 2.40 miles to its intersection with Oak Ridge Reservoir Road; thence (2) over the Oak Ridge Reservoir Road a distance of 1.90 miles to Route 8.

Scales

There was presented a communication from Hon. F. W. DeVoe, Assistant Attorney General, advising that Mr. Roedger of Metuchen, where the State Highway Department proposed to install scales, has offered a receipt for rental for a period of ten years instead of bond which was to guarantee payment of rent and he advised that he presumed the same to be more acceptable to the Commission than the bond. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the receipt for rent be accepted from Mr. Roedger in lieu of bonds as first asked.

Posters, State Highways.

There was presented a report from the Maintenance Division on the matter of posters and placards appearing within the right of way on poles and trees on State Highway Routes. On motion by Mr. Stewart, seconded by Mr. Jelin, this report was ordered received and held for later consideration.

Complaint, Route #9, Bound Brook

There was presented a report from Superintendent of Maintenance Muir on the complaint of Mr. George LaMonte of Bound Brook, in which it was advised that the work done on Mr. LaMonte's property was made necessary by the fact that a stream had started to cut a new channel and was scouring out at the northeasterly corner of the bridge on Route #9 in such a way as to seriously endanger its safety. It was recommended that this work be continued and that the two breaches in the main channel bank be closed in order to divert the stream to its original course; this additional work approximating of cost of $500.00. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that a copy of this report be forwarded to Mr. LaMonte with a request that he grant permission in order that the State Highway forces may go upon his land to accomplish the results desired.

Employments

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the following changes, additions and increases in the employments as made by the State Highway Engineer since the last meeting of the Commission:

Employed

5/25/25	Wm. A. Pfester,	Junior Engineer,	$125.00	mo.
5/1/25	Jas. C. McClymont,	Asst. Civil Engr.,	150.00	"
5/6/25	John Dresher,	Garage Assistant,	.45	hour
4/21/25	L. B. Flitcraft,	Motor Truck Driver,	.45	"
4/21/25	W. W. Wilson,	" " "	.45	"
4/21/25	F. E. Fowler,	" " "	.45	"
4/21/25	Cecil Webb,	" " "	.45	"
4/22/25	C. E. Richman,	" " "	.45	"
4/21/25	W. L. Duffy,	" " "	.45	"
4/21/25	Leon Sickler,	" " "	.45	"
5/4/25	Richard DeBow,	" " "	.55	"

5/4/25	Clifford Kent,	Motor Truck Driver,	$.40 per hour

5/1/25	W. J. Fitzpatrick,	Junior Inspector,	"
5/1/25	John J. McMullen,	Highway Inspector,	"

Federal Aid, Route #4, Section #28

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved Federal Aid Project Agreement #73D, Route #4, Section #28, Waretown-Forked River Cut-Off.

Federal Aid, Route #5, Section #15

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved Federal Aid Project Agreement #74A on Route #5, Section #15, Farmer's Hotel-Millburn Avenue Section.

Maintenance Materials, Ocean Co.,

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award of contract by Ocean County for 250 tons of Calcium Chloride in accordance with bids received on re-advertising award to be made in accordance with recommendations by the County Officers.

Township Aid, Essex County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the award of contract by Cedar Grove Township for Cedar Street, Essex County, Township Aid.

Rejection of Plans, Cape May Co.,

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the rejection of plans and specifications for 26th Street and Park Avenue, Wildwood, Cape May County, due to lack of funds in order that the County may proceed with this work from its own funds.

Lighting, Amboy Bridge

Commissioner Kidde reported that he had been in conference during the week on the matter of the lighting contracts for the new Amboy Bridge, as referred to him some time ago, and the Public Service representatives had advised him that two clauses in the contract as prepared would be removed, if their counsel so approves. He also stated that it would be possible to work out a system of ~~lighting~~ electric service which would insure a double supply of current from two different sources one of which could be used as a relief current when the other was out of order. No action was taken at this time, pending further report on the matter.

Maintenance Materials, Ocean Co.

State Highway Engineer Sloan again presented to the Commission the report of awards on second letting made by Ocean County for S.C.O. to be applied to County roads for 1925 maintenance, and he advised that further investigation of the prices obtained showed that they compared favorably with those obtained in other counties, and he would recommend approval by the Commission. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved the award as recommended.

Trees, Route #4, West Creek

State Highway Engineer Sloan informed the Commission that the plans as prepared for Route #4, through West Creek, required this road to be 40 feet in width, which would make it necessary to remove the trees within the graded width. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that the plans as prepared for Route #4, through West Creek, be not changed at this time.

~~Route 12,~~ Mountain Ave., Hackettstown

State Highway Engineer Sloan informed the Commission that the section of Mountain Avenue, Hackettstown, has been marked as part of

Route #12, and has been used by traffic, but the same has not been taken over as part of the State Highway System. He also advised that this section of road has been legislated as part of a new Highway Route, and would eventually come under State control. He recommended that in view of its use now by the traffic on Route #12, the Commission take the same over for future maintenance, and, in the event it is desired to reconstruct this section, the town of Hackettstown stood ready to improve the extra width. Commissioner Kidde contended that the construction of Mountain Avenue would be carrying a State Highway into the congestion of a municipality, and would not be consistent with the policy of the Commission to avoid the towns wherever possible on the through routes. He stated that this was clearly a local improvement and should not be done until the whole route is taken over. No action was taken at this time.

Phillipsburg-Belvidere Road,
Section #2, Warren County.

State Highway Engineer Sloan presented to the Commission a further report in the matter of Federal Aid on Phillipsburg-Belvidere Road, Section #2, Warren County, and advised that the Federal Engineer is unwilling to approve the Federal Aid for this project unless arrangements are made for the elimination of a grade crossings on Greenwich Street, while it is the purpose of the County and town to build on Mansfield Street. He recommended that the State funds to the amount of $29,00.00 be substituted for Federal Aid on this section of Road. Chairman Scott questioned the wisdom of approving work that will not be approved by the Federal Government, and the State Highway Engineer explained that to follow the line recommended by the Government Engineers would involve an additional expense of $90,000. and the crossing was protected for 24 hours each day by gates and watchman. Commissioner Kidde stated that he would prefer to give additional aid to the County for the elimination of the grade crossing if there is a recommendation from the U. S. Department on this work. He suggested that the work should be delayed until next year when it may be possible to grant additional aid. Commissioner Stewart inquired as to whether any recent information had been received from the Public Utility Commission as to the relative importance of crossings throughout the State, and the Secretary advised that no such information had been received during the past year. Commissioner Stewart then moved that the matter be laid over until information has been obtained from the Public Utility Commission advising as to which crossings are scheduled for elimination during the next year and also the importance of the crossing through Belvidere. This was seconded by Mr. Kidde and adopted.

Route #18, Section #1, North.

State Highway Engineer Sloan again presented to the Commission the report of bids received on Route #18, North, Section #1, Alpine, and recommended that in view of the difficulties of the work involved, the contract be awarded to John J. McGarry, the lowest bidder, at his of $299,773.75. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission unanimously adopted the following resolution:

> RESOLVED, that the contract for the construction of Route 18, North, Section 1, Alpine, be and the same is awarded to John J. McGarry, the lowest bidder, at his price of $299,773,75, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts, after approval by the State Highway Engineer.

On motion by Mr. Stewart, seconded by Mr. Kidde, the meeting was adjourned at 6:30 P. M., to meet in regular session upon call of the Chairman.

Respectfully submitted,

A LEE GROVER,

Secretary.

MINUTES OF MEETING - May 15th, 1925

A regular meeting of the State Highway Commission was held on the Call of the Chairman, at the offices of the State Highway Commission in Jersey City, on Friday, May 15, 1925. The meeting was called to order at 10:30 A. M. by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Conference

The Commission immediately went into conference with Special Counsel Mark Sullivan on the matter of the agreement to be entered into with the Erie Railroad Company for right of way on Route #1 Extension through Jersey City. This conference was concluded at 12:30 P. M., when regular business was resumed.

Maintenance Materials, Paint.

State Highway Engineer Sloan reported to the Commission that specifications were ready for the advertisement of paint to be used on maintenance work for 1925, and he recommended that advertisement be approved by the Commission for the following quantities; 3250 gallons of ready mixed white lead paint; 500 gallons of ready mixed red lead paint and 400 gallons of ready mixed black graphite paint. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve specifications for ready mixed white lead paint, ready mixed red lead paint and ready mixed black graphite paint and does authorize advertisement, after approval as to quantity, by the State Highway Engineer.

Camp Silzer, Road Maintenance

State Highway Engineer Sloan called attention to the fact that the Governor will remove to summer headquarters at Camp Silzer at Sea Girt during the next week, and it has been the policy to treat the gravel roads about the Camp at the time of the opening of the summer headquarters. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission authorized the Maintenance Division to perform the necessary work of road treatment in Camp Silzer.

On motion by Mr. Kidde, seconded by Mr. Stewart, the meeting was adjourned at 1:00 P. M., to meet in regular session on Tuesday, May 19th at 10:30 A. M.

Respectfully submitted,

A. LEE GROVER, Secretary.

MINUTES OF MEETING - May 19, 1925

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, Tuesday, May, 19, 1925.

Present: Messrs. Percy H. Stewart, Walter Kidde and
Abraham Jelin.

Absent: Gen. H. L. Scott, Chairman, who was in attendance at the funeral of General Miles in Washington.

Commissioner Jelin moved that in the absence of General Scott that Commissioner Stewart be named as Chairman for this meeting. This was seconded by Mr. Kidde and approved. The meeting was called to order at 10:30 A. M. by Commissioner Stewart.

Minutes approved.

Commissioner Kidde reported having read the minutes of the meeting of March 13th and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Commissioner Kidde reported having read the minutes of the meeting of March 17th and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Complaints - State

The Secretary presented a communication from P. J. Cooney of South Amboy, N. J., calling attention to the speeding and noise made by ~~by~~ overloaded automobile trucks with partly worn tires running on Route #4 in the vicinity of Stevens Avenue and Main Street in South Amboy. He urged that the traffic be taken off this road and outside of South Amboy in order that the City might be relieved of this heavy traffic. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the communication be received and that Mr. Cooney be advised that the Commission will be glad to refer this matter to the State Police since it is purely a matter of traffic control at the present time.

Commendation

The Secretary presented a communication from Alonzo Brower of Avon-By-The-Sea, New Jersey, commending the Commission for the detour established on account of the closing of the Cooper Bridge and advising that it should be realized that this bridge must be closed during one construction season. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered received and acknowledged with thanks.

Route 1, Extension, Jersey City.

The Secretary presented a communication received by Commissioner Kidde from Mr. A. Pfitsch of Jersey City, advising that his home is Hoboken Avenue, and inquiring whether the same will be condemned for the Tunnel Highway, in order that he might have an opportunity to prepare for a new home. Commissioner Kidde moved that this communication be filed for consideration at the proper time. This was seconded by Mr. Jelin, and adopted.

Trolley Tracks, Route 5,
Madison - Chatham

The Secretary presented a communication from Assistant Attorney General Coulomb, advising that he had taken up with the receivers for the Morris County Traction Company the matter of paving between tracks in the Boroughs of Madison and Chatham, and he had received advice that this matter was being taken up direct with the Department. In this connection State Highway Engineer Sloan presented a communication received by him from O. G. Schultz, General Manager of the Morris County Traction Company, advising that the receivers of the Company are desirous of cooperating with the state, township or county officials, but before entering into any agreements are desirous of having the courts consent so to do, to which end a petition for a hearing at an early date has been asked in order that all interested parties may take part therein. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that the following letter be forwarded to the Morris County Traction Company with a copy to Assistant Attorney General Coulomb:

"My dear Mr. Schultz:

We beg to acknowledge receipt of your letter of the 12th. Please be assured that the New Jersey State Highway Commission is willing and anxious to have an early date set for the presentation of this matter before the Court. We have been much concerned over the conditions obtaining in Madison and Chatham and would welcome any speedy solution which will alleviate the conditions in those places.

It should not be necessary that we should go through another summer with the prevailing conditions obtaining."

Very truly yours,

Commissioner Kidde suggested that Mr. Coulomb might be the representative of the State at the time a hearing is held.

Route #9, Bloomsbury

The Secretary presented a communication received from B. B. Housel of Bloomsbury, New Jersey, addressed to Governor Silzer, protesting against the change in alignment of Route #9, through Bloomsbury, which he said would entail needless expenditure of $100,000.00 by the straight line.

State Highway Engineer Sloan informed the Commission that the cost of the construction of the new line would not exceed that of the alignment through the City.

Commissioner Kidde moved that the facts concerning this situation be prepared by the State Highway Engineer and forwarded to the Governor for his information. This was seconded by Mr. Jelin and adopted.

Hearing, Senator Mathis

The Secretary informed the Commission that he had received word from Senator Mathis to the effect that June 18th would be a satisfactory date for a hearing in conncetion with the Mathis Highway. On motion by Mr. Kidde seconded by Mr. Jelin, the Commission directed that Senator Mathis be adived that a decision as to this matter must be held up until the return of Chairman Scott who has been suddenly called to Washington to attend the funeral of General Miles.

The Schedule of Business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer:

Route #9, Section #16

State Highway Engineer Sloan reported the completion of plans and specifications for the grading of Route #9, Section #16, Bloomsbury Cut-off in the Counties of Warren and Hunterdon and recommended authority for advertisement. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the grading of Route #9, Section #16, Bloomsbury Cut-off in the Counties of Warren and Hunterdon, and
>
> Be it further resolved, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to make the necessary advertisement for the work after approval by the State Highway Engineer.

Route #16, Section #5A.

There was reported the completion of plans and specifications for the construction of Route #16, Section #5A, Somerville to Royce Valley, Somerset County, and recommended that authority be given for advertisement. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route #16, Section #5A, Somerville-Royce Valley in Somerset County, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to make the necessary advertisement for the work after approval by the State Highway Engineer.

Route #20, Section #2.

There was reported completed plans and specifications for the construction of Route #20, Section #2, Broad Street, Glassboro, Gloucester County and authority was recommended for advertisement. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route #20, Section #2, Broad Street, Glassboro, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement for the work after approval by the State Highway Engineer.

Route #1, Connecting Link,
George Street, New Brunswick.

State Highway Engineer Sloan reported the satisfactory completion of paving on George Street, New Brunswick, a connecting Link of State Highway Route #1, and recommended that the same be finally inspected and accepted. Commissioner Jelin reported having inspected this road within the past twenty-four hours and moved that the same be accepted on befalf of the State. This was seconded by Mr. Kidde and adopted.

Right of Way, Route #3

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property on Route #3, Section #11, Berlin-Hammonton Section:

May 19, 1925

Parcel		Consideration
22	Charles Camorota,	$5.00
25	Charles DeCicco,	20.00

with the condition that the slight encroachment of the dwelling be allowed to remain.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property on Route #3, Section #13, Egg Harbor-Hammonton Section:

Parcel		Consideration
14,	Alfred Bitterling,	$ 6.00
17,	William Karrer,	150.00
74,	Carmelo Silligato,	22.50

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of Parcel #48-A on Route #3, Section #13, Absecon-Egg Harbor, from the Atlantic City Realty Company, for the consideration of $1.00, quit claim deed.

Right of Way, Route #4.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property on Route #4, Section #30, Tuckerton-Manahawken Section:

Parcel		Consideration
1,	Stephen Parker, Widower,	$ 10.00
3,	Bertha & Charles Church,	18.60
4,	Anna L. Shinn, widow,	1.10
7,	Alfred J. Leight & Wife,	10.00
8,	Samuel Hackett, Widower,	175.00

owner to remove porch from in front of the house within sixty days; the slight encroachment of the house, however, to be allowed to remain until such time as the State may desire the same removed, when it shall be done at the expense of the State.

Right of Way, Route #9.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission authorized a settlement with James Mannion in the sum of $400.00 to cover all damages claimed by reason of the change of location of "Bound Brook", Route #9, Section #10, at M. P. 40.2, involving the necessity of the construction of about 400 feet of posts and wire fence on account of the unavoidable destructio n of the old fence, and damages claimed on account of the banking up of the material taken from the brook in such a way as to obstruct the frow of the water from the adjacent fields, together with all value of land taken in Parcel #4, as authorized for purchase by the State

Highway Commission on October 9, 1923, for which Mr. Mannion is to deliver a warranty deed and a release for all claims for damages on account of items mentioned, before payment is made.

Insurance, Camden Bridge Approach

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of entering into an agreement with the West Jersey Title & Guarantee Company to issue Title Guarantee Policies for all property acquired or to be acquired in the vicinity of Camden on the Camden Bridge Approach projects, in the sum of the purchase price for each property respectively, any excess in issuance over the present agreement of $2,000.00 shall be paid for at the rate of $3.50 per $1,000.00 of insurance.

Right of Way, Entrance Road,
Camden Bridge Approach

On motion by Mr. Jelin seconded by Mr. Kidde, the State Highway Commission directed that an offer of $2,600.00 be made to Minnie Engle for Parcel #1 on Section #1 of the Entrance Road at Camden and in the event the same is refused that condemnation proceedings be entered into in accordance with the following resolution:

RESOLVED, that this Commission does hereby determine to acquire in the name of the State of New Jersey, for public use in the construction of section #1 of the Entrance Road at Camden, ALL that that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #1

Beginning at a point formed by the intersection of the southerly line of Penn Street with the easterly line of Eleventh Street, said point being distant four and four hundredths (4.04) feet from and normal to the proposed center line of the Penn Street Branch of the Entrance Road in the City of Camden at Station 0 plus 30, as shown on a plan entitled "New Jersey State Highway Department, Camden Extension Division, Entrance Road, Property to be acquired from Minnie M. Engle, City of Camden, Scale 1" equals 20', January, 1925," and running

Thence (1) boundling lands of grantor and along the southerly line of Penn Street, South forty-nine degrees, fifty-two minutes, thirty seconds East (S49-52'-30"E), fifty-three and fifty-four hundredths (53.54') to a point;

Thence (2) bounding lands of grantor North seventy-five degrees fifty-four minutes, thirty seconds West (N75° 54'-30"W) forty-eight and eleven hundredths (48.11) feet to a point in the easterly line of Eleventh Street;

Thence (3) along the said easterly side of Eleventh Street North fourteen degrees, five minutes, thirty seconds East (N14°-5'-30"E) twenty-three and five tenths (23.5) feet to the point and place of beginning;

CONTAINING five hundred sixty-five (565) square feet, be the same more or less;

INTENDING TO CONVEY ALL of that land now owned or controlled by the grantor within forty (40) feet of the proposed center line of the Penn Street Branch of the Entrance Road, situated at number Two hundred thirty-two (232) North Eleventh Street in the City of Camden.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $2,800.00 to the owner or owners of the said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Route 1, Extension

The State Highway Engineer presented to the Commission a statement showing the properties necessary to be acquired on account of the construction of Section #2 of Route #1 Extension through Jersey City, and request was made as to the method to be adopted for the acquisition of this property. Commissioner Jelin moved that arrangements be made at once for the acquisition of this property and that Mr. Louis Adler of Bayonne be employed for the purpose of negotiating the purchase of properties on State Highway Route #1 Extension on Hoboken Avenue, section between Palisades and Oakland Avenues. This was seconded by Mr. Kidde and adopted.

Route #4, Shark River Bridge

The State Highway Engineer presented a proposal from the Chairman of the American Legion Home Building Committee at Belmar, advising that they have available 1000 yards of excavating material which they would offer to the State for use in the approach to the proposed new bridge over the Shark River at a cost of $950.00. State Highway engineer Sloan advised that while there was no immediate need for this material, still the market price was higher than quoted, and if the Commission deemed it advisable this material could be placed on the approach to the proposed new bridge at Belmar. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that an offer be made of 500.00 for the delivery of 1000 yards in place where directed by the State Highway Engineer, and that they be advised that due to the fact that the Commission is not yet undertaking the construction of this bridge it would entail extra expense for inspection which would not be the case were the same purchased through a contractor when the gridge was placed under construction.

Employments

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the following additions, changes and increases in the employments as made by the State Highway Engineer since the last meeting, with the exception of Mark T. Dempsey, Junior Inspector, who was permitted to resign last year, after materials in the work on which he was assigned were found to be below standard.

Employed.

5/11/25	P. F. Donnelly,	Bridge Designer,	$220.00	mo.
5/8/25	F. A. Heacock,	" "	250.00	"
5/16/25	E. S. Reeves,	Junior Inspector,	125.00	"
5/16/25	Emil Muckensturm,	Gravel Patrolman,	75.00	"
5/13/25	A. W. Hincken,	Chainman,	60.00	"
5/11/25	Walter Rohfing,	"	60.00	"
5/15/25	Edgar Corsen,	Rodman,	90.00	"
5/15/25	C. J. O'Brien,	Junior Inspector,	125.00	"
5/16/25	Louis Gardella,	Gravel Patrolman,	75.00	"
5/16/25	Richard Coulter,	" "	85.00	"
5/15/25	Wm. M. Walton,	Rodman,	90.00	"

Not Approved

4/24/25	Mark T. Dempsey,	Junior Inspector,	125.00	"

Employed

5/5/25	Joseph Stellwag,	" " "	.45	"

Increase.

5/16/25	Leroy Tozour,	Gravel Patrolman,	$75. to 85. mo.

Discontinued Employments.

6/15/25	Wm. G. Stoner,	Principal Clerk,	Resigned.
5/11/25	Douglass Cox,	Gravel Patrolman,	"

Township & Borough Aid, Camden Co.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment on Spring Road, Winslow Township, Camden County, Township and Borough Aid.

Township Aid, Monmouth County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway way Commission approved the acceptance of the Elton-Adelphia Road, Section #1, Freehold Township, Monmouth County.

Ross's Corner-Sussex, and Sussex-Coleville, Motor Vehicle Aid-Sussex County

State Highway Engineer Sloan presented to the Commission the maintenance schedule of Sussex County for 1925, and he recommended that the same be approved, subject to an agreement by Sussex County to carry out the completion of the Sussex-Coleville Road, during the present year, and further subject to the County spending a sum of $50,000.00 on the Ross's Corner-Sussex Road in the County, toward which the State will contribute one-half on $25,000.00.

The Secretary advised that he was in receipt of a resolution from Sussex County Board of Freeholders directing the immediate advertising on the Sussex-Coleville Road.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer with reference to the Sussex County Motor Vehicle Schedule for the Sussex-Coleville Road and the Ross's Corner-Sussex Road.

Bridgeton-Port Norris, Sec. #4, Motor Vehicle Aid, Cumberland Co.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved award of contract by Cumberland County for the Construction of the Bridgeton-Port Norris Road, Section #4, Cumberland County Motor Vehicle Aid work.

Rejection of Plans, Morris County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that plans and specifications on Valley Road and Main Street, Butler, Morris County, be rejected, due to lack of funds, in order that the County might proceed with this work from its own funds.

Federal Aid, Amboy Bridge-New

State Highway Engineer Sloan presented to the Commission a report on the matter of Federal Aid apportionments to the State, which showed that there was a balance of approximately $593,000.00 as yet not allocated to any jobs and in view of the fact that there is a great deal of bookkeeping involved in apportioning this over many small sections of highways, he would recommend that this balance be allocated to the Amboy Bridge since this work has already been approved by the Federal Government and it will simplify the handlang of Federal Aid funds in this office.

Commissioner Jelin therefore moved that there be set aside from Federal Aid funds available an additional amount of $600,000.00 to be applied to the work on the new Amboy Bridge. This was seconded by Mr. Kidde and adopted.

Route #12, Section #6.

Commissioner Kidde reported having inspected the completed work on Route #12, Section #6, Port Colden-Stephensburg, the same having been reported satisfactorily completed by the State Highway Engineer, and he moved that the same be accepted on the part of the State. This was seconded by Mr. Jelin and adopted.

Musconetcong River Bridge,
Route #5, M. P. 20.0

Commissioner Kidde reported having inspected the bridge on Route #5 at M. P. 20.0, over the Musconetcong, and he moved that the same be accepted on the part of the State. This was seconded by Mr. Jelin, and adopted.

Bridges, Route #5, M.P. 0.2,
1.4 and 2.0

Commissioner Kidde reported having inspected three bridges at M. P. 0.2, 1.4 and 2.0 on Route #5, and he moved that the same be accepted on the part of the State. This was seconded by Mr. Jelin and adopted.

Lighting, Amboy Bridge

Commissioner Kidde reported that with reference to the Lighting agreement which was referred to him on the Amboy Bridge, this matter would be taken up direct by the Public Service Corporation with the State Highway Department and, therefore, this matter should be referred back to the State Highway Engineer for his attention.

Route #9, Drainage, Bound Brook

There was presented a communication from Mr. LaMonte of Bound Brook advising of the receipt of the report concerning the work proposed by the Maintenance Division for the remedying of drainage conditions on his property on Route #9, and he advised that he was glad to give permission to the State to enter upon his lands for the purpose of doing such work. On motion, duly seconded, this communication was ordered received and referred to the Maintenance Division.

Route #4, Keyport

Commissioner Jelin presented a printed notice of an auction sale of land to be held in the vicinity of Route #4 at Keyport and suggested that some representative of the Department be present to ascertain whether any property would be offered which would be necessary for State Highway purposes. Commissioner Kidde moved that this matter be referred to Assistant Attorney General DeVoe in order that together with the Right of Way Division they may determine what are the best safe-guards for the interests of the State in connection with Route #4 at Keyport. This was seconded by Mr. Jelin and adopted.

Freehold-Smithburg Road, Monmouth County

The Secretary advised that Senator Stevens, Counsel for Monmouth County, and Mr. Allen, County Engineer, were present with Mr. Gallena of Gallena-Poole Company, to discuss the settlement on the completed work of the Freehold-Smithburg Road, Section #2, Monmouth County State Aid Project. Senator Stevens informed the Commission that this work was completed last year, but core tests had brought out the fact that a considerable portion of the work was not of the required thickness. He advised that the contractor contended that the quantities of material were placed in the work to give a satisfactory total.

Mr. Gallena informed the Commission that he believed the penalty proposed was excessive in view of the fact that there had been no effort made to stint on material on the work and also due to the fact that the State's inspector had checked the grade in advance of the laying of concrete at all times.

Commissioner Jelin advised that he had been personally in favor of making the penalty more lenient until he had been presented with the fact that this same condition had existed on a previous job handled by the same contractors and in view of this he could not see that there should be any change.

State Highway Engineer Sloan recommended to the Commission that a penalty of $6,199.63 be deducted from the final payment to be made on account of this contract.

Commissioner Kidde advised that he felt that the only way to stop the shortage in work such as this would be to apply the penalties without showing any particular leniency for the reason that if it should become generally known that this practice is not penalized it would lead to confusion in the bidding and a fraud upon the State.

Chairman Stewart stated that he did not believe there could be any other attitude than this taken.

Commissioner Kidde, therefore, moved that the penalty as recommended by the State Highway Engineer be approved and that the Board of Freeholders of Monmouth County be advised of the attitude of the State Highway Commission that an amount of $6,199.63 be deducted from the amount to be paid the Gallena-Poole Company on account of the completed work on the Freehold-Smithburg Road, Section #2. This was seconded by Mr. Jelin and adopted.

Shore Relief Routes.

Commissioner Kidde inquired of the Monmouth County officials as to what disposition the County would make of the proposed relief route to Asbury Park and the shore traffic. He advised that he had received a suggestion that it would be better if traffic could be turned two streets away from the present highway in order that there might be a chance for increase in development and ratables to the County.

Senator Stevens advised that he had gone over this matter recently and had investigated the feasibility of making use of a new bridge recently constructed over the Shark River. No definite action was taken.

Cooper Bridge-Route #4.

Commissioner Kidde also directed attention to the complaints being made by Asbury Park people concerning the closing of the Cooper Bridge while under construction.

Senator Stevens advised that there appeared to be a misapprehension on the part of the local people to the effect that it would require two seasons to complete the work and he suggested that proper publicity be sent out by the State Highway Department to the effect that this construction work will be completed in one construction season, and in view of the fact that so much construction work is going on along the shore this year it is the purpose to have everything done if possible at the end of the year so that traffic can flow freely in the shore district in 1926.

Rejection of Plans, Monmouth Co.

County Engineer Allen presented to the Commission plans and specifications for Bond Street, Ocean Grove, Monmouth County, and requested aid from the State, or rejection, in order that the County may proceed with the work from its own funds. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that these plans and specifications be rejected on account of lack of funds.

Right of Way, Route #1, Extension, Jersey City.

The Secretary advised that Judge Sullivan, special counsel on the matter of Route #1 Extension at Jersey City, was present to discuss further the agreement to be entered into with the Erie Railroad Company. The Commission then went into conference for an hour, following which time a statement was issued to the press to the effect that the State Highway Commission has submitted a form of agreement to the Erie Railroad Company which is, in principle, satisfactory to the Erie Railroad but there are minor details to be worked out which would delay the final execution of the agreement for a few days. It was stated that the Commission stands ready to advertise the first construction contract immediately upon the approval of this agreement by the Railroad Company.

Hearing & Request for Aid, Burlington County.

The Secretary informed the Commission that a delegation from the County of Burlington was present on the matter of State Aid. On motion, duly seconded, a hearing was granted. There appeared County Engineer Smith, Director of the Board Stout, County Road Supervisor McFarland, Freeholder Stryker and other interested representatives of Burlington County. Mr. Smith, County Engineer, advised that the County would request State Aid on the Branch Pike which leads from State Highway Route #2 to the Tacony-Palmyra Ferry, a distance of 1.6 miles over to the Moorestown Road. He estimated the cost of this work to be from $48,000.00 to $50,000.00 and there was requested the sum of $15,000.00 from the State.

Commissioner Kidde inquired whether this road was an absolute necessity since there appeared on the map to be a means for traffic to find its way onto Route #2 without making the cut-off over the Branch Pike.

Director Stout advised that at the present time practically all the traffic is using the Branch Pike instead of following the road to the North, since it cut the distance considerable. Statement was also made by Mr. Wright that it would tend to relieve traffic on other through routes to the shore.

Chairman Stewart advised that while the Commission might be favorable to this matter, there were no funds from which additional State Aid could be granted to the County since the State Highway Commission found itself with less funds this year than last, due to legislation enacted last winter, and he advised that this matter would be taken under advisement.

Commissioner Kidde was at this time excused from the meeting in order to hold an appointment which he had previously made, and he left the meeting at 12:30 P. M.

Request for Aid-Middlesex County

There being no quorum remaining, Commissioners Stewart and Jelin recessed for lunch in order to return at 2:30 P. M., when a hearing was scheduled to be given to the Middlesex County Board of Freeholders. The Commissioners returned at 2:30 P. M., and the Secretary advised that the City officials of New Brunswick and County officials of Middlesex were present for a hearing. There appeared City Counsel Haggerty and City Engineer Ashur Atkinson of New Brunswick, together with Freeholders Haight, Belloff and Orpen of Middlesex County.

Mr. Haggerty opened the conference by stating that the County and City were very desirous of having the State take over for construction a section of Georges Road, which forms a connecting Link between Route #1 and Route #13. He advised that while this road was in New Brunswick, it was still a county road and in view of the fact that it was a connecting line on the State Highway System, it was believed that the State should pay a considerable portion of the cost of this work.

May 19, 1925

He adivsed that the City authorities had passed a resolution requesting the Board of Freeholders to pave this road from curb to curb and the Board of Freeholders had, in turn, passed a resolution authorizing a Committee to take this matter up with the Highway Commission.

City Engineer Atkinson advised that the lenght of this roadway was 2,200 feet, and if made to a width of forty feet would involve approximately 10,000 square feet of pavement, estimated to cost between $40,000.00 and $50,000.00. He advised that the City stood ready to place the curbs of concrete if the County and State would share the balance of the road.

Commissioner Jelin advised that even though the State might be willing to share in the work, there were no funds at the present time which the State could contribute since the Commission was without funds to do other than what has already been authorized. He also called attention to the fact that the County had already been given aid by the State from the Reserve Account, in which account there was no available balance for allotment purposes. He suggested that the City Engineer prepare a plan showing the grades and intersections and also the drainage proposed, together with estimates of cost, in order that the same might be presented to the Commission at a later date when the entire Commission would be present and could give consideration to the application as made.

Mr. Haight advised that such plans would be directed and presented to the Commission at some future time. The conference ended at 4:15 P. M.

Chairman Stewart directed that the meeting be closed and that a regular meeting be resumed on Tuesday, May 26, 1925, at 10:30 A. M.

Respectfully submitted,

A LEE GROVER,

Secretary.

MINUTES OF MEETING - May 26, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, Tuesday, May 26, 1925. The meeting was called to order at 10:30 A.M. by Chairman Scott.

Present: General H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Minutes Approved

Commissioner Kidde reported having read the minutes of the meetings of March 24th, 31st, April 7th, 14th and 21st and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Absecon Blvd., Atlantic Co.

State Highway Engineer Sloan informed the Commission that core drill tests taken on the Absecon Boulevard, Atlantic County, which is being constructed with State Aid, have shown that the concrete foundation is deficient in thickness and he would recommend that the County of Atlantic be instructed that in view of the tests taken, the State Highway Commission desired that those sections of the concrete which show a deficiency in thickness shall be removed and replaced and he also recommended that the three inspectors assigned to the work be given an opportunity to resign and upon their refusal that they be laid off. On motion by Mr. Kidde, seconded by Mr. Jelin, this recommendation was adopted.

Route 17-Bergen County

The Secretary informed the Commission that Mr. J. E. Thier, County Supervisor of Roads in Bergen County, was present to discuss the matter of Route 17 Bergen County. On motion, duly seconded, a hearing was granted. Mr. Thier appeared before the Commission and presented a communication addressed to the State Highway Engineer, advising that the Board had given serious consideration to the request from the State Highway Commission for the county to acquire a right of way of not less than 66 feet with a 40-foot roadway for the alignment of Route 17 between Hackensack and Rutherford. He outlined the possibilities of obtaining such width along the line proposed and stated that the Board feels that the cost would be prohibitive to obtain a 40-foot roadway.

State Highway Engineer Sloan advised that the line laid out by the Bergen County Board of Freeholders followed Seventh Street, but Division Engineer Andrews had planned a line showing on Eleventh Street, which will not necessitate the moving of houses except on three blocks through the built-up sections.

Commissioner Kidde informed Mr. Thier that he had been arguing this proposition with the State Highway Commission on the basis of the necessity for a wide boulevard to take care of the traffic which goes between Hackensack and Newark, and he stated that he believed that in view of the fact that the State Highway Commission has not placed any limits as to the funds which it will expend in bringing about this improvement, the County of Bergen should not allow a matter of funds for suitable right of way to stand in the way of the improvement.

Mr. Thier advised that the County was absolutely agreeable to spend a sum estimated at $200,000.00 for right of way, but could not see its way clear at this time to spend more. He did say that it was his feeling and that of his Board that the proper solution would be a 40-foot roadway if it could be accomplished.

Mr. Andrews, Division Engineer, was called upon to explain the proposed line of Eleventh Street and advised that with the exception of three blocks in Carlstadt and one in Woodridge, involving a total of thirty-two buildings, which are to be moved on the whole line, there are no difficult features about this line and it should not be excessive in cost.

Mr. Thier suggested that a statement of cost be worked out for this alingment.

Mr. Kidde moved that in view of the appearance of Mr. Thier, the State Highway Commission inform the Board of Freeholders of Bergen County that it is still their opinion that it will be necessary for Bergen County to provide a 40-foot roadway between curbs and such additional width for sidewalks as municipalities may require.

Request for Aid-Bergen County –

Mr. Thier in his communication also called attention to conditions obtaining at Ridgefield where it was proposed to improve a road through the Borough at an estimated cost of $156,000.00, and on which the

Borough would request the sum of $15,000.00. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that this matter be referred to Commissioner Kidde for inspection.

Motor Vehicle Aid-Bergen County

Mr. Thier also informed the Commission that the Borough of Fort Lee had not taken advantage of the allotment given by the State and he believed the State Highway Commission would be justified in withdrawing this allotment in order that it may be used elsewhere this year if more progress was not made.

Commissioner Kidde moved that a communication be forwarded to the Board of Freeholders of Bergen County to the effect that the State Highway Commission desires that early attention be given to the improvement of the intersection of Palisade Avenue and Le Moine Avenue in Fort Lee, for which an allotment of $40,000.00 was made from 1924 funds, and unless this work proceeds within three months from this date the State Highway Commission will withdraw the allotment and apply the funds elsewhere in the State. This was seconded by Mr. Jelin and adopted.

In this connection the Secretary presented a communication from E. B. Gorham, urging aid on the improvement in the Borough of Ridgefield. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered acknowledged and filed.

Appointment-Mark T. Dempsey

The Secretary presented a communication received by Chairman Scott from Mark T. Dempsey, former Inspector in the State Highway Department, who urged reinstatement for himself on the ground that he had successfully passed an examination and was a disabled veteran suffering from gases which necessitated his finding outdoor employment. He pleaded an opportunity to work again for the Department and stated that he had profited by his former mistakes and had since gained considerable experience. The State Highway Engineer informed the Commission that he had recommended Mr. Dempsey for reappointment at the last meeting, but that the same was not approved. Commissioner Jelin moved that in view of Mr. Dempsey's war record and in view of the fact that the Department record does not show anything against his personal integrity, that Mr. Dempsey be given another opportunity to work for the Department. This was seconded by Mr. Kidde and adopted.

Route 18-South-General;
Harding Highway.

The Secretary informed the Commission that Senator Borton and a delegation on the matter of the Harding Highway were present and desired a hearing. On motion, duly seconded, a hearing was granted. Senator Borton appeared and introduced to the Commission representatives of the Harding Highway Association and interested parties from Gloucester and Salem Counties. He advised that the Committee was very much interested in securing some hard surfacing on the Harding Highway known as State Highway Route 18-South, especially between Woodstown and Elmer. He requested Mr. S. P. Leeds, who was in the delegation to address the Commission. Mr. Leeds informed the Commission of the tremendous traffic which is now already making use of the Harding Highway and of the proposed new ferry lines which will also move traffic burdens in this direction. He also explained that efforts were being made to attract all southern traffic to come to Atlantic City by way of Wilmington and the ferries to the Harding Highway. He urged that if the State Highway Commission would save any money on the construction or have any excess in the Motor Vehicle receipts, that the same be applied to a portion of the work.

Mr. J. Andrews, President of the Harding Highway Association, explained the purpose of the organization and what it intended to accomplish for the local communities.

Mr. Snellbaker of Woodstown explained the poor condition of the highway and also brought out the fact that he had consistently urged the improvement of this road, even to the extent of having expended over $10,000.00 of his own money for advertising this route.

Chairman Scott read to the Committee a statement from the Superintendent of Maintenance, showing that the State Highway Commission has endeavored to satisfactorily maintain this highway as part of the State Highway System, having expended during the last year an average of $1,192.00 per mile between Woodstown and Downstown.

Freeholder Weldon explained to the Commission the fact that the County had endeavored to maintain this highway with as little funds as possible because it saw the necessity for its hard surface in view of the marshy conditions obtaining on several sections. He urged that the Harding Highway be hard-surfaced as soon as possible.

There were statements made by Mr. Richmond of Sharpstown, Mr. Shoemaker of Swedesboro and Mr. Hitchner of Woodstown, all urging the hard surfacing of this road.

Chairman Scott informed the delegation that the Commission was very anxious to give every assistance possible to South Jersey in its road improvement, but could not do anything until funds were in hand.

Commissioner Jelin advised that he was personally interested in this improvement and were it not for the fact that the Commission found itself with less funds this year than in the past year, he would have been glad to recommend a portion of this highway for improvement this year.

Commissioner Kidde called attention to the fact that when the State Highway Commission took this road over it made no promises as to its construction, but felt that it was doing a fine thing for South Jersey when Routes 18 and 20 were taken over, and at that time it was stated that the Commission would wait until funds were provided by the Legislature before any hard-surfacing could be done.

Senator Borton thanked the Commission for the hearing and asked that consideration, if possible, be given to the paving of the three miles between Pole Tavern and Elmer.

Insurance-Garages

The Secretary presented a communication from Mr. R. M. Johnston, Insurance Expert for the State, in which he advised that pursuant to request from the State House Commission, he had investigated conditions at Fernwood Service Station and at the Everett Alley Garage, and he complimented the Commission upon the Fernwood Service Station and stated that it would not be necessary to insure against fire. As to the Everett Alley Garage, he advised that this building was subject to hazards on account of surrounding buildings and he recommended the placing of $10,000 fire insurance on this garage. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that this communication be received and acknowledged with thanks and that recommendation be forwarded to the State House Commission, making request that they advise of the approved method of placing this insurance, with information as to companies with whom it should be placed.

Right of Way-Route 1, Hackensack Bridge.

The Secretary presented a communication from Hon. Edward L. Katzenbach, Attorney General, requesting further information concerning the accounts rendered by experts in the Bowen condemnation matter, before he could give his approval to the same. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that this information be forwarded by the Secretary.

The secretary presented a bill received from C. F. Kraemer for service in connection with the Bowen condemnation, in the amount of $350.00. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that this bill be paid.

Right of Way-Route 1 Extension.

The Secretary presented bills from C. Alfred Burhorn and Percy A. Gaddis, for appraisals on Route 1 Extension at Jersey City. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that bill dated May 11th for C. Alfred Burhorn, in the amount of $440.00 and bill dated May 15th for Percy A. Gaddis, in the amount of $500.00, be approved and paid.

Freehold-Smithburg Road, Section 2

The Secretary presented a resolution from the Board of Chosen Freeholders of Monmouth County, accepting the completed work on the Freehold-Smithburg Road, subject to deductions as recommended by the State Highway Commission for deficient thickness of concrete in the amount of $6,199.63. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the action of the Monmouth County Freeholders be approved and the work accepted on the part of the State, subject to the deductions as made.

Invitations

The Secretary presented a communication from Hon. Samuel Haverstick, Surrogate of Mercer County, and former member of the State Highway Commission, extending an invitation to the present State

Highway Commission for June 24, 1925. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed this invitation be accepted with thanks.

Route 18-North, Section 1

The Secretary presented a communication from the West Chester Ferry Corporation, requesting that Route 18 North be kept open for traffic while the construction was in progress. On motion by Mr. Stewart, seconded by Mr. Jelin, the communication was ordered received and referred to the State Highway Engineer.

Trolley Tracks-
Route 5, Madison-Chatham.

The Secretary presented a communication from the Morris County Traction Company, advising that that company is doing everything in its power through its receivers to expedite the matter of improving the trolley track area through Madison and Chatham.

Request for Permit-Memorials

The Secretary presented a communication from the Kiwanis Club of Asbury Park, requesting permission to place a tablet on the grade crossing elimination at Morgan, in view of the activities of the Asbury Park Kiwanis Club in speaking for this improvement. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that the application be denied in line with similar action taken on requests from other organizations in the past, and that the Kiwanis Club of Asbury Park be extended the regret of the Commission that such course is necessary.

Right of Way-Route 3.

The Secretary presented a communication from Hon. Fred W. DeVoe, Assistant Attorney General, advising that condemnation commissioners in the case of Edward Miller on Route 3 have awarded the sum of $475.00 and he recommended that the same be paid. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved payment of $475.00 to Edward Miller on Route 3, in the Borough of Chesilhurst.

Right of Way-Route 4.

There was presented a communication from Hon. Fred W. DeVoe, Assistant Attorney General, advising that the condemnation commissioners in the case of Anna M. Cramer on Route 4 at Bass River, had awarded the sum of $225.00, and he recommended payment of the same. On motion by

Mr. Jelin, seconded by Mr. Stewart, the Commission approved the payment of award by the condemnation commissioners to Anna M. Cramer.

Shark River Bridge

The Secretary presented a communication received from the American Legion Post at Belmar, advising of their acceptance of offer of the State Highway Commission for the delivery of fill from their new Legion Home excavation, to the site of a proposed bridge over the Shark River, at Belmar, for the amount of $500.00. Request was made that an inspector be assigned upon this work at once. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that proper contracts be entered into in order that the work may proceed.

The Sechedule of Business was next taken up item by item as follows, with the recommendations of the State Highway Engineer.

Maintenance Materials - State

There was presented the completed specifications for the advertising of 137,385 gallons of Asphaltic Oil, Grade S.C.O., and 332,210 gallons of Lignin Binder, and advertisement was recommended. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve specifications for the furnishing 137,385 gallons of Asphaltic Oil, Grade S.C.O. and 332,310 gallons of Lignin Binder, and
>
> BE IT FURTHER RESOLVED, that the Chief Clerk is directed to place advertisement for the same after approval by the State Highway Engineer.

Route #1, Hackensack Bridge

There was reported the completion of plans and specifications for the construction of a double leaf trunnion bascule bridge over the Hackensack River, on Route #1, Lincoln Highway Section, and the removing of existing temporary bridge. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of a double leaf trunnion bascule bridge, providing a 150' clear channel, stregthening eight existing approach spans of 150' each, removing existing temporary bridge and other incidental work for the bridge at M. P. 57.8 on State Highway Route 1, on the Lincoln Highway, over the Hackensack River, between Kearney and Jersey City, in the County of Hudson, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to

sign the necessary papers and the Chief Clerk is directed to place the necessary advertisements for the work after approval by the State Highway Engineer.

Connecting Road, and Entrance Road, Section 3, Camden

There was reported the completion of plans and specifications for the grading and drainage on Section #3 of the Camden Advisory Board Project and advertisement was recommended. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the grading and drainage on the extension of State Highway Route #2, #3 and #6, the section being known as Entrance Road, Section #3, and connecting road, north and south, Section #3, of the Delaware River bridge approach in the City of Camden, Boro of Collingswood and Township of Pensauken, together with the construction of two small span bridges, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement for the work after approval by the State Highway Engineer.

Bridges, Route #15, M. P. 24.7 & 44.0

There was presented a report of bids received on May 25th, for the construction of two bridges on Route #15, M. P. 24.7 and M. P. 44.0 and it was recommended that award be made to the lowest bidder. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of two bridges on Route #15, at M. P. 24.7 and M. P. 44.0, to Anthony Pinto and Joseph Felice, at theirs, the lowest bid submitted, in the amount of $40,973.95, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route #8, Sec. #6, Newfoundland-Stockholm

There was reported the receipt of bids on May 25th, for the construction of Route #8, Section #6, Newfoundland to Stockholm Section, and award was recommended to Salmon Brothers, the low bidders, at $299,695.29. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route #8, Section #6, Newfoundland to Stockholm, to Salmon Brothers,

at theirs, the lowest bid, in the amount of
$299,695.29, and

BE IT FURTHER RESOLVED, that the Chairman is authorized
to sign the necessary contracts after approval by
the State Highway Engineer.

Route 2, Section 7,
South Broad St., Mercer County

There was reported the receipt of bids on May 25th for the reconstruction of Route 2, Section 7, South Broad Street, Mercer County, and award was recommended to Joseph F. Burke of Plainfield, the lowest bidder at $17,855.80. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby
make award of contract for the reconstruction of
Route 2, Section 7, South Broad Street, Mercer County,
to Joseph F. Burke, the lowest bidder at $17,855.80,
and

BE IT FURTHER RESOLVED, that the Chairman is authorized to
sign the necessary contracts after approval by the State
State Highway Engineer.

Inspection-Materials

State Highway Engineer Sloan reported to the Commission that informal bids had been asked for inspection service on the testing materials used on State Highways and in view of the fact that the R. W. Hunt Company is now inspecting the Amboy Bridge materials, he would recommend that their contract be continued for another year, in accordance with the present understanding. Commissioner Kidde advised that the Hunt Company was in a position to give very satisfactory service by having inspectors placed directly in the various plants. Commissioner Jelin moved that the recommendation made by the State Highway Engineer be approved to the effect that the contract of the R. W. Hunt Company be extended for another year. This was seconded by Mr. Kidde and adopted.

Abandonment-Route 7, Section 2,
Golf Course-Anderson Cor.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission unanimously adopted the following resolution, abandoning a portion of Route 7, Section 2, Golf Course-Anderson Corner, in view of the completion of the alignment:

May 26, 1925.

WHEREAS, the State Highway Commission has heretofore taken over as a State highway in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 7, from Hightstown to Asbury Park, by way of Freehold, Jerseyville and Hamilton, and

WHEREAS, in the construction and improvement of the said State Highway Route 7, Section 2, from Golf Course to Anderson's Corner, it has been found desirable to relocate a certain portion of the said Route for the betterment of the alignment, grade, etc.,

WHEREAS, upon the construction of the said route and section of the revised line, there is a certain portion heretofore used as a part of the road before improvement which is no longer needed as a part of the improved State highway,

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey, that portion of State Highway Route 7, Section 2, as hereinafter described, be and the same is hereby abandoned as a part of State Highway Route 7, Section 2, and vacated in accordance with the provisions of Chapters 14 and 15 of the laws of 1917 and the amendment thereto in Chapter 220 Laws of 1919.

Beginning at a point in the center line of the old road as taken over, where the said center line is intersected by the new southerly right of way line of Route 7, Section 2, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 18 plus 47; thence (1) curving to the left for a distance of one hundred twenty-five (125) feet more or less to a point; thence (2) in a westerly direction for a distance of one hundred fifty (150) feet more or less to a point; thence (3) still in a westerly direction, a distance of three hundred eighty-eight (388) feet more or less to a point; thence (4) in a northwesterly direction a distance of one thousand three hundred thirty-eight (1338) feet more or less to a point; thence (5) in a southwesterly direction a distance of nine hundred (900) feet more or less to a point; thence (6) curving to the right for a distance of five hundred sixty (560) feet more or less to a point; thence (7) in a northwesterly direction for a distance of three thousand three hundred seventy (3370) feet more or less to a point; thence (8) curving to the left for a distance of five hundred fifty (550) feet more or less to a point; thence (9) in a northwesterly direction a distance of six hundred eighty-eight (688) feet more or less to a point; thence (10) in a northerly direction a distance of one thousand thirty (1030) feet more or less to a point in the said new southerly right of way line of Route 7, Section 2, said point being measured fifty-five (55) feet more or less normally from the center line of the said State Highway at about Station 98 plus 16.

BE IT FURTHER RESOLVED that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Monmouth County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate that portion of the old road as taken over May 1, 1920, lying outside the limits of the acquired right of way of the new road as constructed between Station 18 plus 48 more or less and Station 98 plus 16 more or less as shown on plan on file in the offices of the State Highway Commission at Trenton, N.J.

May 26, 1925.

Abandonment-Route 13, Section 6,
Lawrenceville-Princeton

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution, abandoning one portion of Route 13, Section 6, Lawrenceville-Princeton section, the new alignment having been completed on this road:

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 13 from New Brunswick to Trenton by way of Kingston, Princeton and Lawrenceville, and

WHEREAS, in the construction and improvement of the said State Highway Route 13, Section 6, from Lawrenceville to Princeton, it has been found desirable to relocate a certain portion of the said route for the betterment of the alignment, grade, etc. and

WHEREAS, upon the construction of the said route and section of the revised line, there are certain portions heretofore used as a part of the road before improvement which are no longer needed as a part of the improved State highway,

NOW, THEREFORE, BE IT RESOLVED, by the State Highway Commission of the State of New Jersey that the certain portions of State Highway Route 13, Section 6, as hereinafter described be and the same are hereby abandoned as a part of State Highway Route 13, Section 6, and vacated in accordance with the provisions of Chapters 14 and 15 of the Laws of 1917 and the amendment thereto in Chapter 220 of the Laws of 1919.

Beginning at a point in the center line of the old road as taken over, where the said center line is intersected by the new southerly right of way line of Route 13, Section 6, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 300 plus 58; thence (1) in a southeasterly direction for a distance of ninety-three (93) feet more or less to a point; thence (2) still in a southeasterly direction a distance of one hundred eight (108) feet more or less to a point; thence (3) in an easterly direction a distance of ninety-one (91) feet more or less to a point; thence (4) in a northeasterly direction a distance of three hundred three (303) feet more or less to a point in the said new southerly right of way line of Route 13, Section 6, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 306 plus 0.

BE IT FURTHER RESOLVED, that a notice of this vacation be forwarded to the Board of Chosen Freeholders of the County of Mercer, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate those portions of the old road as taken over January 15, 1920, lying outside the limits of the acquired right of way of the new road as constructed between Station 300 plus 58 more or less and Station 306 plus 0 more or less, as shown on a plan on file in the offices of the said State Highway Commission at Trenton, New Jersey.

May 26, 1925.

Employments

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the following changes and additions in the employments since the last meeting of the Commission:

Employed

6-1-25	Harry Berlinson,	Senior Clerk Steno.	$100.00 mo.

Right of Way-Route 3

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase agreement for Parcel 152-E on Route 3, Section 12, Egg Harbor-Hammonton, from Pietro Barbone, for the consideration of $1.00 with thanks.

Right of Way-Route 4

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcel #2, Route 4, Section 28-A, Waretown-Forked River, from F. C. Peters, for the consideration of $70.00.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the following parcels of property on Route 4, Section 30, Manahawken-Tuckerton section:

Parcel No. 10,	Walter C. Paul,	consideration	$100.00
" " 11 & 11A,	Frank Paul,	"	400.00

Right of Way-Route 14

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcel #25 on Route 14, Section 8, Swainton-Ocean View Section, from Amos Brower & Electa Godfrey, for the consideration of $75.00.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the following parcels of property on Route 14, Section 9, Ocean View-Seaville section:

Parcel No.	Name	Consideration
27	William DeVaul, et ux (State to reset fences)	$ 12.00
37	Lydia Howell, widow	165.35
57	Somers Corson,	31.70

Right of Way-Route 15

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcel #12 and Easements Nos. 1 and 2 on Route 15, Section 7, Menantico Creek-Mauricetown Road, from Jeremiah Chambers and wife, for the consideration of $560.00.

Right of Way-Route 16

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the following purchase agreements for properties on Route 16, Section 5A, Somerville-South Somerville section:

Parcel No. 19, Wm. I. Stovekin and wife, consideration $ 4.00
" " 20, Russell & Leonard B. Cruser, " 1.00

Right of Way-Route 20

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the following purchase agreements on Route 20, Section 1, Glassboro-Clayton section, with thanks to those conveyed for a nominal consideration:

Parcel No.	Name	Consideration
2	Louis R. Leddon and wife,	$ 1.00
22	Richard P. Fagan and wife,	1.00
29	Rachel Purnell, widow,	75.00
54	Thos. H. Smith and wife,	1.00
66	Eleanor Delamater and husband,	1.00
67	Harry J. Jennings and wife,	1.00
68	Lewis Beyer and wife,	1.00
69	Wilmer Stratton and wife,	1.00
71	Louisa Warner, widow,	1.00
72	John D. Steinert and wife,	1.00
84 & 84A	Louis R. Leddon and wife,	1.00

Right of Way-Connecting Road,
Camden

The State Highway Engineer presented a purchase agreement signed by the owners for the conveyance of Parcel #87 on the Connecting Road, Camden, Section 3, for the consideration of $3,852.00, and Parcel #88 for the consideration of $1.00. State Highway Engineer Sloan explained that this represents the cost of moving a house and setting the house on a new foundation, the property itself being conveyed for $1.00. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that this purchase agreement be approved and that a letter of appreciation be forwarded to Mr. and Mrs. Crowley for their public spiritedness in this conveyance to the State.

Right of Way-Entrance Road, Camden

The State Highway Engineer presented purchase agreements signed by the owners for the conveyance of Parcels 90A and 90B, Entrance Road, Section 3, from John C. Thomas, for the consideration of $25,498.00. State Highway Engineer Sloan reported that this involved a conveyance of 5.975 acres, the owner originally having asked $[illegible]0,000. In view of the fact that property in this location has been selling for $6,000. per acre, the State Highway Engineer recommended the approval of the Commission. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcel Nos. 90A and 90B on the Entrance Road, Section 3, from John and Rebecca C. Thomas for the consideration of $25,498.00.

Right of Way-Crescent Boulevard

Commissioner Kidde inquired as to what progress was being made by the receivers for the N. Z. Graves Company in securing court approval to the transfer of property to the State. The Secretary advised that he had been in touch with the agent for the receiver and his information was that everything was proceeding in a regular manner. Inquiry was made, however, as to what would happen in the event the N. Z. Graves Company did not desire to avail itself of the salvage on the buildings as offered by the State, and he had in turn advised them to the effect that the State would then take care of the disposal of the same.

Right of Way-Entrance Road, Camden

State Highway Engineer Sloan reported that negotiations had been entered into to acquire the property of Harry and Elmer Schilp, known as Parcel No. 35 on the Entrance Road, Section 1 at Camden, and an offer of $3300. as made had been refused by the owner. On motion by

May 26, 1925.

Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that an offer of $3300. be made to Harry and Elmer Schilp for Parcel No. 35 on the Entrance Road, Camden, and in the event same is refused, that condemnation proceedings be entered into in accordance with the following resolution:

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey for public use in the construction of State Highway Route Section 1, Entrance Road, Camden, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel No. 35

Beginning at a point formed by the intersection of the southerly line of Linden Street with the westerly line of Twelfth Street, said point being distant eleven and thirty-three hundredths (11.33) feet from and normal to the proposed center line of the Linden Street Branch of the State Highway Entrance Road in the City of Camden, at Station 7 plus 79.56, as shown on a plan entitled "New Jersey State Highway Department, Camden Extension Division, Entrance Road, Property to be acquired from Harry and Alma Schilp, City of Camden, Scale 1" - 20', January, 1925" and running:

Thence (1) along the westerly line of Twelfth Street southwardly one hundred twenty-two (122) feet to a point; thence (2) northwestwardly forty-seven feet, six inches (47'6") to a point, said point being in the dividing line between the property situated at Lot 1192 and 1194 on Linden Street in the City of Camden; thence (3) along said line northeastwardly at right angles to Linden Street six feet (6') to a corner; thence (4) still along said dividing line northeastwardly fifty-six feet (56') to a point; thence (5) along said dividing line and through the middle partition wall between the property situated at 1194 and 1192 respectively on Linden Street in the City of Camden: forty-eight feet, six inches (48'6") to a point in the southerly line of Linden Street; thence (6) along said southerly line of Linden Street ten (10) feet to the point and place of beginning;

CONTAINING three thousand six hundred ninety-eight (3698) square feet, be the same more or less;

INTENDING TO CONVEY all of that land owned or controlled by grantors situated at number Eleven ninety-four (1194) Linden Street in the City of Camden.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $3,300.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way-Connecting Road, Sec. 3.

State Highway Engineer Sloan reported that in negotiations for property on the Connecting Road at Camden, a verbal understanding had been made between the Right of Way Engineer and Mrs. Joseph Frick, the owner of Parcel No. 13, to transfer to her the remaining portion of Parcel No. 14 for the sum of $500.00, the price to be paid to Mrs. Frick for Parcel No. 13 being $200.00. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel No. 13 from Mrs. Josephine Frick, on the Connecting Road at Camden, for the sum of $200.00 and directed that arrangements be made for a conveyance to Mrs. Frick of a part of Lot 14, when the papers for the same are prepared.

Right of Way-Route 16.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission accepted an easement for the right to lay pipe and construct an open ditch across the property of William Childs, Jr., known as Parcel No. 7A, Route 16, Section 6A, Blaziers Corner-VanDorns Mills, for the consideration of $1,000.00. The State Highway Engineer advised that this would result in a saving to the State of $2,137.61 by the elimination of pipe.

Township Aid-Salem County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the acceptance and final payment on the Woodstown-Daretown Road, Pilesgrove Township, Salem County, Township Aid.

Township Aid-Atlantic County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment on Buena-Tuckahoe Road, Section 2, Buena Vista Township, Atlantic County, Township Aid.

Township Aid-Cape May Co.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment of Claremont Road, Section 2, Dennis Township, Cape May County, Force Account work.

Township Aid-Hunterdon County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of award of contract by Holland Township, Hunterdon County on River Road, between Milford and Riegelsville, to Sigafoos & Poore.

Motor Vehicle Aid-Union County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the acceptance of Union County Motor Vehicle

May 26, 1925.

Schedule and agreements for 1925.

Federal Aid-Route 18-North, Section 2

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of Federal Aid Project statement, covering Palisade Highway, Route 18-North, Section 2, Fort Lee to New York State Line.

Federal Aid-Route 15, Section 8.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the Federal Aid Project Statement on Route 15, Section 8, Rio Grande-Green Creek section.

Federal Aid-Route 5, Section 15A

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved Federal Aid Project Agreement #74b for Route 5, Section 15A, Milburn Avenue to Irvington.

Paulsboro-Swedesboro Road, Section 2,
Motor Vehicle Aid-Gloucester County.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for the construction of the Paulsboro-Swedesboro Road, Section 2, Gloucester County, Motor Vehicle Aid work.

Bridgeton-Port Norris, Section 3,
Motor Vehicle Aid-Cumberland Co.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the award of contract by Cumberland County, to Wallace & Tozour, for the construction of Bridgeton-Port Norris Road, Section 3, Cumberland County, Motor Vehicle Aid work.

Cape May Boulevard-Motor Vehicle Aid-
Cape May County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the award of contract by Cape May County, for Cape May Boulevard, to William Eisenberg at $85,[illegible]24.81, this being Cape May County Motor Vehicle Aid work.

Maintenance Materials-Cape May Co.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the award of contract by Cape May County for 142,350 gallons of Lignin Binder to E. L. Lantz, at $.119 per gallon.

Route 5, Section 13.

State Highway Engineer Sloan reported the completion of Route 5, Section 13, Budd Lake-Netcong section, and recommended the same for final inspection and acceptance. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that this work be referred to Commissioner Jelin for inspection prior to acceptance.

Route 9, Grade Crossing-Cranford.

Commissioner Stewart reported that in accordance with authority granted by the State Highway Commission, he had met with the Public Utility Commission on a hearing given the Central Railroad of New Jersey, on the matter of grade crossing elimination through Cranford on the line of Route 9. He advised that this hearing had resulted in the work being undertaken at once by the railroad company and that the engineering details are to be worked out immediately, and it would be possible for the State Highway Commission to determine the grades on the proposed elimination so that the completion of Route 9 through Cranford could be proceeded with at once. He further advised that he had assured the Public Utility Commission that the State would co-operate in every way possible to the work proposed, and the Public Utility Commissioner in turn had expressed appreciation for the interest shown by the State Highway Commission in advancing this project. On motion by Mr. Kidde, seconded by Mr. Jelin, the report was ordered accepted and the Engineering Division instructed to proceed along the lines as suggested by Mr. Stewart.

Grade Crossings

Commissioner Stewart also advsied that he had obtained a list of grade crossings under consideration for elimination by the Public Utility Commission and suggested that a copy of same be made for each Commissioner.

Route 9, Cranford

Commissioner Stewart then inquired of Division Engineer Andrews, who was present, as to the status of the work on Route 9 through Cranford, and he also informed that a resident engineer was on the work and there would be a report forthcoming at once. Commissioner Stewart then moved the adoption of the following resolution:

> **RESOLVED** that the State Highway Commission does approve of plans and specifications for the construction of Route 9 through Cranford, and

May 26, 1925.

> BE IT FURTHER RESOLVED that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place advertisement after approval by the State Highway Engineer.

Route 4, Rahway-Perth Amboy

The Secretary presented to the Commission a communication from the City Clerk of Perth Amboy, transmitting an original and duplicate of agreement with the City of Perth Amboy, covering the work to be done, through the City of Perth Amboy on the approach through the City, the same having been approved by the Board of Aldermen and signed by the proper city officials. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve the form of contract as entered into by the City of Perth Amboy for the construction of Route 4, approach to the new Amboy Bridge through the City of Perth Amboy, and the said agreement be accepted on the part of the State, and the Chairman be authorized to execute the same on behalf of the Commission.

Commissioner Jelin reported that there were two men on the Board of Aldermen of Perth Amboy who opposed the passage of this resolution by the City authorities of Perth Amboy and these same men are causing considerable discontent among the property owners, which may result in considerable controversy for the properties actually acquired.

Meetings - Addresses

Commissioner Kidde reported as a matter of record, that he had addressed a meeting of the Newark Chamber of Commerce on Wednesday last, concerning Route 1 Extension between Jersey City and Elizabeth, and there appeared a general approval of the entire lay-out and there was expressed a desire to cooperate with the State Highway Commission in its work through Newark, rather than to hold it up. He advised that the local bodies will begin to plan for connecting feeders into the Advisory Board routes and he suggested that an opportunity be given to the City of Newark to go over the plans of the Commission in the near future. On motion by Mr. Jelin, seconded by Mr. Stewart, the report was ordered received and made a matter of record.

Maps - 1925

The Secretary informed the Commission that the printing of maps for 1925 season has practically been completed and that the same will be mailed direct from the printers in time for the holiday traffic. The Secretary presented a number of these maps at this meeting.

Phillipsburg-Belvidere, Section 2.

Commissioner Jelin brought up at this time for consideration, the matter discussed at the last meeting concerning the substitution of State moneys for Federal Aid funds on the Phillipsburg-Belvidere Road, Section 2, and he recommended that this be done in order that the County could proceed with its work. Commissioner Stewart inquired whether Federal Aid could be applied elsewhere in the event it was taken from this road, and he was answered in the affirmative.

Commissioner Kidde explained that his oppositions had been on the ground that if the Federal Government felt it desirable to eliminate a grade crossing existing on this road by allowing the condition to remain. Chairman Scott stated that he had entertained this same view until he had been advised that there was a twenty-four hour safety gate service on this crossing and for that reason he believed this was a more safe crossing than a good many others throughout the State.

Commissioner Jelin stated that, in view of the fact that the County proposed to spend such large sums of money on this road and that the State funds were comparatively small, he would move that approval of the recommendation as made by the State Highway Engineer at the last meeting, to the effect that the State substitute its funds for Federal Aid funds, in order that the County may proceed with the work, be made. This was seconded by Mr. Stewart and adopted.

Route 16, Somerville-Royce Valley

The State Highway Engineer reported that Judge Schenck, Borough Counsel for Somerville, has objected to having the State Highway Commission contract for the full width paving on the portion of the Somerville-Royce Valley section of State Highway Route 16 within the Borough of Somerville, and had advised the authorities of Somerville that a separate contract for paving of the additional width beyond that to be constructed at the expense of the State, must be entered into.

Major Sloan further reported that it was essential that this work be let as one contract and an agreement be made with the Borough of Somerville for reimbursement to the State Highway Commission of the amount involved in the additional width of paving.

Mr. Kidde moved that the Borough of Somerville be advised that inasmuch as the State Highway Commission has been assured that municipalities have the right to enter into an agreement with the State Highway Commission whereby they will reimburse the Commission for the cost of extra width paving, which method is highly desirable, the Commission must insist on the usual method of procedure in such cases, otherwise it will be necessary to defer the work of construction of the Somerville-Royce Valley section of Route 16 until a later date. This motion was seconded by Mr. Jelin and unanimously adopted.

In this connection the Secretary was directed to forward a copy of this information to Senator Case, inasmuch as he has been considerably interested in the subject of the improvement of this section of Route 16.

Route 8-Detours

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the following revision of detour to be established on account of construction of Route 8, Section 6, between Newfoundland and Stockholm:

> "Beginning at the intersection of Route 8 and the Milton-Newfoundland Road, in Newfoundland; running thence (1) in a westerly direction over the Milton-Newfoundland Road, a distance of approximately one and two-tenths miles, to the intersection at the Post Office in Oak Ridge; thence (2) in a northerly direction, approximately one mile, over a West Milford Township Road to Route 8, at a point near the bridge over the New York, Susquehanna and Western Railroad a short distance East of the Oak Ridge Reservoir."

Route 4-Detours

Commissioner Jelin reported that he had inspected the detour established for traffic around the construction of the new bridge at Red Bank and he had found it to be dangerous to pleasure traffic in a number of cases, due to the fact that it was being used by a considerable number of trucks. He suggested that, if possible, a separate detour be arranged following through Oceanic and Sea Bright for pleasure vehicles only. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the matter be referred to the State Highway Engineer for report at the next meeting.

May 26, 1925.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission adjourned at 4:00 P.M. to meet in regular session Tuesday, June 2nd at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - June 2, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, on Tuesday, June 2, 1925. The meeting was called to order by Chairman Scott at 10:30 A.M.

Present: Gen. H. L. Scott, Chairman, Messrs. Percy
H. Stewart, Walter Kidde and Abraham Jelin.

Minutes Approved

Commissioner Kidde reported having read the minutes of the meeting of April 28th and he moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

C. M. Hall

The Secretary presented a telegram from Mr. Howard B. Keasbey, County Engineer of Salem County, certifying as to the war record of C. M. Hall, Inspector, who has been ordered laid off, on account of work on the Absecon Boulevard, and Mr. Keasbey also stated that he would vouch for the personal integrity of Mr Hall as shown by work done in Salem County. On motion by Mr. Jelin, seconded by Mr. Kidde, the telegram was ordered received and placed on file.

Absecon Boulevard, Atlantic Co.

The Secretary informed the Commission that Mr. A. H. Nelson, County Engineer of Atlantic County, was present to discuss with the Commission in conference the matter of the Absecon Boulevard in Atlantic County. On motion, duly seconded, the Commission directed that the meeting go into conference at this time with Mr. A. H. Nelson, County Engineer of Atlantic County. No official action was taken by the Commission following this conference.

Township Aid-Warren County

The Secretary informed the Commission that a representation from Mansfield Township, Warren County, was present and desired a hearing in connection for aid on the Mansfield Road. On motion, duly seconded, a hearing was granted. There appeared Mr. Charles Stryker, Freeholder, Harry Vetter, County Engineer, Mr. Searfoss of the Township Committee and several other representatives. Mr. Searfoss first addressed the Commission and advised that they appeared to request aid on a road running from State Highway Route 12 to Port Murray and forming a connection with the improved highway system of the County. He advised that this was a very important road to the vicinity, since it led to the railroad station and also was an outlet for the creamery in the district. He advised that the Township Committee stood ready to pay 20% of the cost of the improvement if the balance could be raised between the County and the State.

Mr. Stryker, Freeholder, urged the improvement of this road as being of direct benefit to Mansfield Township, and that the Township was entitled to aid, because of the fact that prior to this time the Township has contributed towards the highways in the county on which they were not directly benefitted.

Commissioner Kidde called attention to the fact that this road might be considered as a Township Aid improvement if proper application were made and in view of the increase in township apportionments as approved by the last Legislature, it might be possible for the Commission to consider an improvement such as this in Warren County, after funds become available in July. Assistant State Highway Engineer Reed informed the Commission that this was an important township highway in Warren County and would make an improvement in the section.

Mr. Hagerman of the Port Murray Dairymen's Association spoke of the deplorable conditions existing on the road which forms the main outlet from their plant to the highways of the county.

Chairman Scott informed the delegation that it appeared to him to be essential that the township make application for township aid and that the same would be given consideration when funds are in hand, which would not be until after July first next.

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission recessed for luncheon at 1:30 P.M. to meet in regular session at 2:00 P.M. The Commission reconvened at 2:00 P.M. with the same members present as at the morning session.

Route 4, Rahway-Perth Amboy.

The Secretary presented a communication from Mr. Andrew Keyes, on behalf of the Woodbridge Township Committee, requesting that some members of the Commission be delegated to meet with the Township Committee concerning extra width pavement and other improvements along Route 4, while the construction will be carried on in that vicinity. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway

Commission directed that this matter be referred to the State Highway Engineer in order that he, together with Commissioner Jelin, could take the matter up with the local authorities, but that this would not interfere with the advertisements as approved for the work.

Right of Way-Route 4

The Secretary presented a communication from Hon. Fred W. DeVoe, Assistant Attorney General, advising that condemnation commissioners in the case of William Hance on Route 4, had made an award of $968.00 and he recommended that the same be paid. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the award as made in this case be approved and payment authorized.

Right of Way-Route 12

There was presented a communication from Hon. Fred W. DeVoe, Assistant Attorney General, that in the matter of condemnation of William H. Saunders property on Route 12, Section 7, he had endeavored to effect a settlement with the property owners in view of the fact that this condemnation case has been hanging for a considerable time, and he had made an offer to the owner of $200.00, which would be accepted after approval by the Commission. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of payment of $200.00 for property of William H. Saunders on Route 12, Section 7.

Right of Way-Route 4

There was presented a communication from Hon. Fred W. DeVoe, Assistant Attorney General, advising that condemnation commissioners in the case of Sarah C. Hedden Thomas on Route 4, Section 5A, have made an award of $350.31, and he recommended that the same be paid. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that the award as made in this case be approved and that payment be authorized.

Right of Way-Route 7

The Secretary presented a communication from Hon. Fred W. DeVoe, Assistant Attorney General, advising that condemnation commissioners in the case of Gustaf Anderson and Margaret Anderson on Route 7, Section 2, have made awards of $933.20 and $891.36 respectively, for which the State had offered very nominal amounts. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that these communications be returned to Mr. DeVoe for further information as to the factors entering into this award before action is taken by the Commission.

Route 17, Hackensack-Rutherford

The Secretary presented a communication from J. Ernest Thier, Supervisor of Roads in Bergen County, informing the Commission that the Board of Freeholders of Bergen County have agreed to obtain the new right of way and have made a preliminary appropriation therefor on the realignment of Route 17 between Rutherford and Hackensack, as discussed before the Commission on May 26th. Mr. Thier also made request that Division Engineer Andrews be furnished with necessary forces to immediately start on preliminary surveys in order that the actual work may be undertaken this year as contemplated by the Commission. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered referred to State Highway Engineer Sloan for proper disposition.

Memorials-
Commendations

The Secretary presented a communication received from the Edison Pioneers expressing appreciation for the courtesies extended by the State Highway Commission to the Committee on Arrangements of the Menlo Park commemorative tablet erected to Mr. Thomas A. Edison. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered received and placed on file.

Trees-Route 4, West Creek.

The Secretary presented a communication from Mr. Howard Ewart of Toms River, New Jersey, who advised that he had succeeded Maja Leon Berry as Solicitor for Ocean County, upon Judge Berry's appointment as Vice-Chancellor. He advised that he was also Solicitor for the Township of Eagleswood in which is situated West Creek, and he desired to call attention of the Commission to the matter already presented by Judge Berry which was to the effect that it was highly desirous to save the trees on Route 4 through West Creek, especially those which do not fall within a [illegible] foot paved width. He made request that unless some definite action had already been taken, a hearing be given to parties interested, in order that they may further discuss the question of saving these trees. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that Mr. Ewart be informed that the Commission has given very careful consideration to the petition presented by the residents of West Creek and also to the plea made by Chancellor Berry, and any action taken has been entirely upon the advice of the State Highway Engineer as to the construction needs in the locality and the Commission can assure the residents of West Creek that efforts will be made to save as many trees along this highway as it is possible to do under the existing conditions.

Request for Aid-Burlington

The Secretary presented a communication received from the City Clerk of Burlington, New Jersey, advising that the City has determined not to accept the offer of the State Highway Commission toward aiding in the widening of Ashton and Gordon Streets in the City, the Council feeling that other sections of the City were more in need of the expenditure of city funds at this time. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered received and placed on file.

Route 4, Navesink Bridge

The Secretary presented a communication from the Township of Middletown, Monmouth County, requesting the State Highway Commission, if possible, to arrange a temporary pathway for pedestrians over the temporary bridge on Route 4 at Red Bank. State Highway Engineer Sloan informed the Commission that the construction of such a footpath would be impossible on account of the element of danger involved. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that this information be communicated to the Township of Middletown with the advice that for this readon it will be impossible to consider their request at this time.

Right of Way-Connecting Road, Camden

The Secretary presented a communication from Mr. William Finley Brown, Receiver for the N. Z. Graves property on the line of the Connecting Road at Camden, in which communication Mr. Brown advised that the N. Z. Graves Company elects not to remove the buildings and grants the State Highway Commission the right to do so with the understanding that the N. Z. Graves Company is not to be put to any expense therewith. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the communication be received and acknowledged with the advice that the State Highway Commission will assume the obligation of removing such buildings as are located on the line of the highway.

Route 1[illegible]-South

The Secretary presented a communication from Senator J. Gilbert [illegible]orton of Salem County, expressing thanks for the hearing granted the Harding Highway Association on May 26th, and again urging consideration of the paving of the road between Elmer and Pole Tavern. On motion by Mr. Kidde, seconded by Mr. Jelin, the communication was ordered received and placed on file.

Right of Way-Route 1 Extension

The Secretary presented a bill rendered by Thomas A. Ryer for services as ap raiser on properties on Route 1 Extension, being a total of sixty-four lots of $35.00 per lot, in a total amount of $2,240.00. On motion by Mr. Jelin, seconded by Mr. Stewart, the bills presented by Mr. Ryer were ordered paid.

Commissioner Kidde called attention to the fact that he had received information that the Ault & Wiborg Ink Company was ready to negotiate for such of their property as was needed for highway purposes and he suggested that the Right of Way Division arrange a meeting with representatives of that company in the near future. No definite action was taken at this time on this matter.

Taking Over-State Highways

The Secretary presented a resolution from the Borough of Seaside Heights, requesting the State Highway Commission to take over the highway from Camden through Brown's Mills to Toms River as part of the State Highway System and improve the same at the earliest possible moment, in view of the fact that this is now a part of the State Highway System by statute. On motion by Mr. Jelin, seconded by Mr. Stewart, the resolution was ordered received and placed on file.

Invitations

The Secretary presented a communication received under date of May 27th from the Chamber of Commerce of Perth Amboy, inviting the

State Highway Commission to a Merchants & Manufacturers Exposition to be held at the Madison Hotel on May 29th. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received and acknowledged with the advice that it was received too late for any of the Commissioners to take advantage of it.

River Road-
Motor Vehicle Aid-Middlesex Co.

The Secretary presented a resolution received from the County of Middlesex advising of the award of contract for the reconstruction of River Road and Landing Lane, to Liddle & Pfeiffer of Perth Amboy, the lowest bidder. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award by Middlesex County for this contract in which there was set up a State share of $55,000 from the Reserve Account.

The Schedule of Business was next taken up item by item as follows with the recommendations of the State Highway Engineer:

Route 2, Section 8,
Bridgeboro-Pensauken Creek

Plans and specifications were reported completed for the reconstruction of Route 2, Section 8, between Bridgeboro and Pensauken Creek, in Burlington County, and advertisement was recommended. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve of plans and specifications for the reconstruction of Route 2, Section 8, between Bridgeboro and Pensauken Creek, Burlington County, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement after approval by the State Highway Engineer.

Route 4, Section 31,
Tuckerton-New Gretna

There was reported the completion of plans and specifications for the construction of Route 4, Section 31, between Tuckerton and New Gretna, in the Counties of Burlington and Ocean, and advertisement was recommended. In this connection, the State Highway Engineer advised that this represented the letting of the last section of the work to be performed between Toms River and New Gretna on Route 4 this season. On motion by Mr. Kidde, seconded by Mr. Jelin, the

June 2, 1925.

State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve of plans and specifications for the construction of Route 4, Section 31, Tuckerton-New Gretna section, in the Counties of Burlington and Ocean, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement after approval by the State Highway Engineer.

Bridges-Route 2, M.P. 5.7 and 7.3

There was reported the completion of plans and specifications for the construction of two bridges on Route 2, Section 6, between Bridgeboro and Pensauken Creek at M. P. 5.7 and M. P. 7.3, and advertisement was recommended. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve of plans and specifications for the construction of two bridges on Route 2, Section [illegible], Bridgeboro-Pensauken Creek at M. P. 5.7 and 7.3 in the County of Burlington, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement after approval by the State Highway Engineer.

Route 20, Section 3, Westville

State Highway Engineer Sloan reported the receipt of the following bids on June 1st for the construction of Route 20, Section 3, in the Borough of Westville, and he recommended award to the Freehold Construction Company, the lowest bidder, at $51,091.87:

Freehold Const. Co.	$ 51,091.87
Union Paving Co.	51,836.20
John F. [illegible]	53,564.32
E. Riley [illegible]	55,227.26
Michael Staub	55,[illegible]7.80
Fish-Rutherford, Inc.	57,771.05
Acchione & Canuso Paving Co.	60,080.10

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution of award:

> RESOLVED, that the contract for the construction of Route 20, Section 3, Borough of Westville, Gloucester County, be and the same is hereby awarded to the Freehold Construction Company of Freehold, New Jersey, on theirs the lowest bid in the amount of $51,091.87, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

June 2, 1925.

Route 4 Bridges, M.P. 35.3,36.6 & 37.3

There was reported the receipt of the following bids on June 1st for the construction of three bridges on Route 4, Section 28A, and award was recommended to the General Contracting & Construction Company of Trenton, at theirs, the lowest bid of $42,904.50:

General Cont. & Const. Co.........	$ 42,904.50
Michael Staub & Kolyn Const.Co...	59,904.90

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the contract for the construction of bridges on Route 4, Section 28A at M. P. 35.3, 36.6 and 37.3 be and the same is hereby awarded to the General Contracting and Construction Company of Trenton, at theirs, the lowest bid in the amount of $42,904.50, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 5, Sections 8B and 11A.

There was reported the receipt of the following bids on June 1st for the construction of Route 5, Sections 8B and 11A, Great Meadows and Manunka Chunk, and award was recommended to William A. Connell, the lowest bidder at $27,774.50:

William A. Connell...............	$ 27,774.50
Salmon Brothers..................	32,255.80
J.F.Chapman & Son................	33,851.00

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the contract for the construction of Route 5, Sections 8B and 11A, Great Meadows and Manunka Chunk, be and the same is hereby awarded to William A. Connell, at his the lowest bid of $27,774.50, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 7, Freehold

State Highway Engineer Sloan presented to the Commission a proposed realignment of Route 7 through Freehold, which would take the line by way of Park Avenue and eliminate two right angle turns in the municipality, and he recommended that this line be adopted for the State Highway. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the line as presented by the State Highway Engineer and ordered that the same be made part of the State Highway System following its construction.

June 2, 1925.

Right of Way-Route 3

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of Parcel No. 7 on Route 3, Section 13, Absecon-Egg Harbor section, from Samuel J. Patten for the consideration of $3.00.

Right of Way-Route 8

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of the following parcels of property on Route 8, Section 6, Newfoundland-Stockholm section, and directed that a letter of thanks be sent:

Parcel No.	Name	Consideration
9	James F. Kimble & Wife	$ 1.00
16	H. A. Post & Wife	1.00
18	Raymond J. Cahill	1.00

Right of Way-Route 9

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of the following parcels of property on Route 9, Section 16, Bloomsbury Cut-off:

Parcel No.	Name	Consideration
5	Paul Godfrey & Wife	$ 50.00
6 & 6A	Heirs of Taylor Estate	145.00

Right of Way-Route 14

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of Parcel No. 39 on Route 14, Section 8, Swainton-Ocean View, from Annie H. Waters for the consideration of $28.95.

Right of Way-Route 15

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of Parcel No. 10, Route 15, Section 7, Menantico Creek, from Elsie M. Oliver and Husband, for the consideration of $1.00.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcels 1, 2 and [illegible] on Route 15, Section 8, Rio Grande-Green Creek section, from the City of Wildwood, for the consideration of $[illegible]48.00.

June 2, 1925.

Right of Way-Route 16

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel No. 7 on Route 16, Section 5A, Somerville-Royce Valley Section, from Louise Haskins Canfield, for the consideration of $166.00.

Right of Way-Route 20

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel #9 on Route 20, Section 1, Glassboro-Clayton section from Sarah L. Palitz for the consideration of $134.00.

Right of Way-Route 4

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of Parcel #14 on Route 4, Section 30, Tuckerton-Manahawken section, from [illegible] Davis and wife, for the consideration of $4,000.00, the same having been recommended by the State Highway Engineer.

Right of Way-Route 14

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel #1A on Route 14, Section 11, Petersburg-Tuckahoe, from Eliza D. Smith and husband, for the consideration of $1,763.70, the same having been recommended by the State Highway Engineer.

Right of Way-Connecting Road

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of Parcel No. 1 on the Connecting Road at Camden from Charles D. and Mary A. Heavey, for the total of $7,575.75. The State Highway Engineer called attention to the fact that this was the property which the Commission had directed to be acquired as soon as information had been obtained that building operations were being started by Mr. Heavey on this property.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel #64 on the Connecting Road, Section 3, Camden, from Elwood S. Moore and wife, for the consideration of $6,058.00.

June 2, 1925.

Amboy Bridge-New ✓

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of a change in plan order covering the construction of 65 feet of concrete trestle and deck extending from Pier 55 on the new Amboy Bridge to a point in the fill where it is stable, at an estimated cost of $15,432.50, the same being recommended by the State Highway Engineer.

Right of Way-Route 4 ✓

There was presented to the Commission a report from Mr. Andrew Kirkpatrick, Special Right of Way Agent, on the matter of the acquisition of property on Route 4 through Perth Amboy, in which he advised that he had conducted a public meeting with the property owners and it appeared that they were united in complete unison and would hold out for a figure of $1,000 for a 25 foot frontage with the cost of moving and loss of fences, trees, etc. Commissioner Jelin stated that he had given this matter very serious thought in view of the difficulties being encountered in Perth Amboy, by the fact that the property owners are uniting against the interests of the State and he moved that an offer of $700.00 be made to property owners for a front footage of 25 feet, it being understood that $500. represents the value of the land taken, $100. for inconvenience in removing, and $100. for grading and resetting of fences, etc. This was seconded by Mr. Stewart and adopted.

Encroachments ✓

State Highway Engineer Sloan presented a report prepared by the Superintendent of Maintenance on the matter of encroachments now obtaining within a 30-foot roadway on State Highways. This report presented a total cost for the elimination of all encroachments on all sections of State Highways at $544,585.00; of this amount $33,075.00 was necessary for the elimination on sections which have now a permanent type of pavement. Commissioner Jelin suggested that arrangements be made to start on this work by the preparation of plans for the elimination of encroachments on those routes where the cost at this would exceed $500 and that below this amount the encrouchments be removed at once. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that plans be prepared for the removal of encroachments on improved pavements where the cost of the same would exceed $500 and that steps be taken immediately for the removal of those of less cost than $500.

Employments

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the following changes and additions in the employments as made since the last meeting of the Commission, by the State Highway Engineer:

Employed

5-27-25	Otto F. Seggel,	Title Searcher,	$150.00	mo.

Fredon-Newton Road, Section 2

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the acceptance of an agreement and bond by the Public Service Production Company and the County of Sussex in the amount of $18,327.52, for the maintenance of the Fredon-Newton Road, Section 2, for a period of four years from the 15th of December, 1924.

June 2, 1925.

Maintenance Materials-Morris County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the award of contract by Morris County for maintenance and repair materials, on bids received by the County for 1925.

Clinton-Pittstown Road-
Motor Vehicle Aid-Hunterdon County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of award of contract by Hunterdon County for the Clinton-Pittstown Road, Hunterdon County, Motor Vehicle Aid work.

Township Aid-General

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the cancellation of the following balances remaining in the Township Aid account and directed that these funds be reverted to the general Township Aid Account:

County	Township	Name of Road	Balance
Atlantic	Buena Vista	Lincoln Avenue	$ 0.41

Township Aid-Morris County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the acceptance and final payment of

June 2, 1925.

Dover-Mt. Freedom, Section 1, Randolph Township, Morris County, Township Aid work.

Township Aid-Mercer Couhty

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the acceptance and final payment on Lawn Park Avenue, Lawrence Township, Mercer County, Township and Borough Aid.

Township Aid-Warren County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the acceptance and final payment on the Carpentersville-Alpha Road, Pohatcong Township, Warren County, Township Aid. In connection with this road, the State Highway Engineer explained that since the road had been completed by the contractor, two or three failures in small sections had occurred, but these were not the fault of the contractor and will be taken care of by the Township

Township Aid-Ocean County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the insertion of a rate of $10.00 per day for trucks in the price agreement as heretofore approved on Township Roads in Lakewood, Ocean County.

Township Aid-Monmouth County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission denied the application of Neptune Township, Monmouth County, for the installation of a traffic signal on Route 7 in that municipality, by the recommendation of the State Highway Engineer.

Branch Pike, Motor Vehicle Aid-Burlington County

Commissioner Jelin moved that in view of aid requested by Burlington County on Branch Pike, that the sum of $2,500 be allotted as State Aid from the Motor Vehicle Reserve Account, which will make it necessary for the county to present its plans and specifications, and too, the work subject to the approval by the State Highway Commission. This was seconded by Mr. Stewart and adopted.

Route 7, Section 2.

State Highway Engineer Sloan reported the completion of Route 7, Section 2, Golf Course-Andersons Corner section. On motion by Mr.

Stewart, seconded by Mr. Kidde, this matter was referred to Commissioner Jelin for final inspection and report.

Route 5, Section 13.

Commissioner Jelin reported that he had inspected the completed work on Route 5, Section 13, Budd Lake-Netcong section, which was referred to him at the last meeting and he moved that the same be accepted on the part of the State. This was seconded by Mr. Kidde and adopted.

Route 1 Extension, Newark

Commissioner Kidde presented a newspaper clipping from the Newark Evening News, advising that the Mayor of Newark is planning considerable improvements in connection with the Newark development, and he suggested that under the circumstances the Commission should communicate with Mayor Raymond, in order to determine what plans the City of Newark proposes to make in connection with Route 1 through Newark. Commissioner Jelin suggested that Commissioner Kidde and State Highway Engineer Sloan make an unofficial visit upon Mayor Raymond in order to discuss this informally.

Right of Way-
Route 1 Extension-Jersey City

The Secretary advised that Judge Mark Sullivan, Special Counsel on the matter of the Erie Railroad property on Route 1 Extension, Jersey City, was present to confer with the Commission. On motion by Mr. Jelin, seconded by Mr. Kidde, the meeting was turned into a conference with Judge Sullivan until 5:30 P.M. at which time, on motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was adjourned to meet again on Tuesday, June 9th unless sooner convened by the call of the Chairman.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - June 9, 1925

A regular meeting of the State Highway Commission was held in the Commission rooms, Broad Street Bank Building, Trenton, Tuesday, June 9, 1925. The meeting was called to order at 10:30 A. M., by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Walter Kidde, and Abraham Jelin.

Absent: Percy H. Stewart, on account of illness.

Minutes Approved.

Commissioner Kidde reported having read the minutes of the meeting of May 5th and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Commissioner Kidde also suggested that in view of the fact that hearings conducted before the Bright Committee were not part of the regular business of the Commission, that a report be prepared by the Secretary and made part of the records of the Commission.

Right of Way, Route #1, Hackensack Bridge

The Secretary presented a bill rendered by C. F. Kraemer for services in the condemnation of the Bowen tract on Route #1, Lincoln Highway Section, in the amount of $450.00. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission ordered this bill paid.

Right of Way, Route 1, Extension

The Secretary presented a bill rendered by P. A. Gaddis for services in connection with appraisals on Route #1 Extension through Jersey City, in the amount of $125.00. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission ordered this bill paid.

Right of Way, Route 8, Mountain View

The Secretary presented a bill received from F. B. Fay, Jr., of Mountain View for appraisal services and incidental expenses in the amount of $406.80. On motion by Mr. Jelin, seconded by Mr. Kidde, this bill was ordered paid.

Complaint, Route 5, Budd Lake

The Secretary presented a communication from Assistant Attorney General Coulomb, transmitting a letter from King & Vogt, Attorneys for Frederick H. Man, who owns property on Route #5, at Budd Lake, and who complains that his property is being encroached upon and the highway is being blocked by a car continually standing in one place. On motion by Mr. Jelin, seconded by Mr. Kidde, the communication was ordered referred to the Secretary to give Mr. Coulomb such information as was available in the Department.

Right of Way, Route 9.

The Secretary presented a communication from Assistant Attorney General LeVoe advising that Stephen E. Raptis and Stelios G. Pamfilis on Route #9, Section #11, had agreed to settle their claim for $159.00 and he recommended that the same be accepted. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the payment of $159.00.

Right of Way, Route 10.

The Secretary presented communications from Hon. F. W. LeVoe, Assistant Attorney General, advising that the Condemnation Commissioners on May 29th had made awards for a number of parcels of property on Route #10, Section #1-C, in Fort Lee where it was proposed to obtain the owners figures, and he recommended that the same be paid. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property and payment in accordance with the condemnation awards.

Job	Owner	Condemnation Award
Route 10, Sec. 1-C,	M. A. Best,	$ 187.50
" " " "	Emma McGeorge,	178.21
" " " "	Oscar Millimet,	1245.75
" " " "	James I. Easton,	310.46
" " " "	Mark M. Dintonfass,	52.27
" " " "	Frederick Buz,	58.37
" " " "	Albert Catolan,	641.72
" " " "	Alderick Ouimet,	450.00
" " " "	Daniel McClure,	187.50

The Schedule of business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer:

Route #20, Section #2

The following bids were reported received on June 8th for the construction of Route #20, Section #2, Broad Street, Glassboro, and it was recommended that award be made to Charles T. Kavanagh, lowest bidder at $102,754.50.

Charles T. Kavanagh........................	$ 102,754.50
J. F. McGreevey............................	107,379.32

Tuller Const. Co...........................	91,413.15

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route #9, Section #16, Bloomsbury Cut-Off to Richards & Gaston at their's the lowest bid in the sum of $69,977.61, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Route #16, Section #5-A.

There was reported the receipt of the following bids for the construction of Route #16, Section #5-A, Somerville-Royce Valley Section and recommendation was made for award to the lowest bidder Graham VanKeuren, in the sum of $110,507.25, subject to an equitable arrangement with the Borough of Somerville as to extra work to be done on curbs and wings within the Borough. The State Highway

Engineer explained that a separate bid had been received by the Borough upon this extra work from the same contractor, but that the price received was higher than that furnished to the State. He also advised that the Borough Attorney was willing that the entire work be performed as one contract if legal arrangements could be taken care of.

Graham VanKeuren...........................	$ 110,507.25

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the adoption of the following resolution subject to the recommendation of the State Highway Engineer:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route #16, Section #5-A, subject to the above recommendation of the State Highway Engineer to Graham VanKeuren, at his the lowest bid received in the sum of $110,507.25, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers subject to approval by the State Highway Engineer.

Core Borings, Route 1, Extension

There was reported the receipt of the following bids on June 8th for the making of core borings on Route #1 Extension between Jersey City and Newark, and it was recommended that award be made to P. J. Healey, lowest bidder, in the sum of $17,435.00.

Phillip J. Healey..........................	$ 17,435.00
Osborne Drilling Co........................	23,180.00
Giles Drilling Co..........................	23,989.50
Sprague & Henwood..........................	26,165.00
Pensylvania Drilling Co....................	31,890.00

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the making of borings on Route #1 Extension between Jersey City and Newark, to P. J. Healey at his the lowest bid received in the sum of $17,435.00, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers on behalf of the State Highway Commission after approval by the State Highway Engineer.

June 9, 1925.

Right of Way, Connecting Road, Camden

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of parcels #63A and #63B on the Connecting Road, Camden Extension, from the Meadow Land and Improvement Company for the consideration of $1.00.

Right of Way, Route 2.

On motion by Mr. Kidde seconded by Mr. Jelin, the State Highway Commission approved of the purchase of parcel #2 on Route 2, Section #8, Pensauken Creek-Bridgeboro, from F. H. Coles, for the consideration of $1.00.

Right of Way, Route #3

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel #83 on Route #3, Section #12, Egg Harbor-Hammonton from Frederick Fieritz, for the consideration of $10.35.

Right of Way, Route #4

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel #16 on Route #4, Section #28A, from Joseph Horner, for the consideration of #25.00. In this connection 0.968 of an acre is taken without the formality of a preliminary agreement.

Right of Way, Route 7

On motion by Mr. Kidde seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel #30 on Route #7, Section #4, Colts Neck-Jerseyville Road, from Mrs. Aida Yelmoni, for the consideration of $50.00.

Right of Way, Route 8

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel #3A on Route #8, at Bridge M. P. 9.1, from Nathan Demott, for the consideration of $30.00.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel #14 on Route #8, Section #6, Newfoundland-Stockholm from Maurice Stickle, for the consideration fo $1.00.

June 9, 1925.

Right of Way, Route #14

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of the following parcels of property on Route #14, Section #9, Ocean View-Seaville:

Parcel		Consideration
33,	William Combes,	$ 5.70
39,	John D. Stockton,	111.55
50,	Emma Sharp Estate,	8.25
73,	Leon A. Reardon,	186.49

Right of Way, Route #16

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcels #2A and #2B on Route #16 Bridge at M. P. 7.9 near Harlingen, from Charles Staats and Wife for the consideration of $500.00.

Right of Way, Route #4

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property on Route #4, Cleveland Avenue Extension outside of Perth Amboy in the Township of Woodbridge:

Parcel		Consideration
29,	James P. and Wm. H. Frall,	$ 800.00
28, 28B, and 28C,	Hampton & Edith Cutter,	3,622.50

Right of Way, Connecting Road, Camden

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the agreement for the purchase of Parcel #60 on Section #3 of the Connection Road at Camden, from August H. Schlinkmeier, be referred to Commissioner Jelin for report.

Right of Way, Route #10

State Highway Engineer Sloan resubmitted to the Commission papers, maps and appraisals in the matter of the claim of the Board of Education of Fort Lee for the sum of $2000.00 for property taken on the construction of Route #10, Section #1C. He explained that this land in question was promised to the former State Highway Commission by a representative of the Borough Council for $1.00 but the Board of Education has since refused to convey for nominal consideration. The sum of $2000.00 is considerable in excess of the highest appraisals received. On motion by Mr. Kidde, seconded by Mr. Jelin, the

State Highway Commission directed that a communication be forwarded to the Board of Education of Fort Lee, advising that the State Highway Commission feels that the promises made by the former administration should be kept, and in view of the fact that the line of the road was changed at their urgent request and the promises made in connection with the same, the State Highway Commission is not justified in paying other than a nominal consideration for this property, and would request that the Board of Education make a conveyance to the State.

Right of Way, Route #16

State Highway Engineer Sloan presented to the Commission a report on property to be acquired from the Far Hills Land Corporation on Route #16, Section #3, in accordance with the agreement approved April 15, 1925, which is to be conveyed in two deeds, one of which is to be conveyed direct to Theodore Mellick in order that he may not be cut off from frontage on the highway. The State Highway Engineer explained that since the State Highway Commission had paid $500.00 per acre, there was some question as to whether the conveyance of one acre should be made to Mr. Mellick at $200.00, which he has agreed to pay, On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that Mr. Mellick be advised that the Commission cannot see its way clear to dispose of this property for less than the price paid by the State, namely $500.00, and if he will agree to pay this amount the same will be conveyed at the time the property is taken over.

Abandonment - Route #8.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer for the abandonment of two portions of Route #8, Section #4, between Charlottsburg and Newfoundland in accordance with the following resolution:

> WHEREAS, the State Highway Commission has heretofore taken over as a State Highway in accordance with the provisions contained in Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route #8 from Montclair to State Line at Unionville by way of Singac, Wayne, Pompton Plains, Butler, Newfoundland, Stockholm, Franklin Furnace, and Sussex, and

June 9, 1925

WHEREAS, in the construction and improvement of the said State Highway Route #8, Section 4A, from Charlottsburg to Newfoundland, it has been found desirable to relocate a certain portion of the said Route for the betterment of the alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there are certain portions heretofore used as a part of the road before improvement which are no longer needed as a part of the improved State Highway.

NOW, THEREFORE, BE It Resolved, by the State Highway Commission of the State of New Jersey that the certain portions of State Highway Route #8, Section #4A, as hereinafter described, be and the same are hereby abandoned as a part of State Highway Route #8, Section #4A and vacated in accordance with the provisions of Chapters 14 and 15 of the Laws of 1917 and the amendment thereto in Chapter 220, Laws of 1919.

Portion #1:
Beginning at a point in the center line of the old road as taken over, where the said center line is intersected by the new southerly right of way line of Route #8, Section #4A of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 78 + 02; thence (1) in a southerly direction a distance of two hundred eleven (211) feet more or less to a point, thence (2) curving to the left for a distance of two hundred sixty-five (265) feet more or less to a point; thence (3) in an easterly direction for a distance of two hundred sixty-nine (269) feet more or less to a point in the said new southerly righ of way lin of Route #8, Section #4A-, said point being measured thirty-three (33) feet normally from the center line of said State Highway at about Station 84 + 48.

Portion #2
Beginning at a point in the center line of the old road as taken over, where the said center line is intersected by the new southerly right of way line of Route #8, Section #4A, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 103 + 55; thence (1) along the center line of the old road its various courses and distance to a point in the new southerly right of way line of Route #8, Section #4A, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 138 + 56.

BE IT FURTHER RESOLVED that a notice of this vacation be sent to the Board of Chosen Freeholders of Passaic County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate those portions of the old road as taken over September 1, 1919, lying outside the limits of the acquired right of way of the new road as constructed between Station 78 + 02 more or less and Station 84 + 48 more or less and between Station 103 + 55 more or less and Station 138 + 56 more or less as shown on plans on file in the offices of the said State Highway Commission, at Trenton, N. J.

Taking Over - Route 3, Section 8

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission, upon recommendation of the State Highway Engineer, direct-

June 9, 1925.

ed that the portion of Route 3, Section 8, lying in the Borough of Collingswood between Station 1275 plus 35 and station 1282 plus 20, be designated as a State Highway and taken over as part of the State Highway System in accordance with the following resolution:

> WHEREAS, under the provisions of Article 3, Chapter 14, laws of 1917, the State Highway Commission may, by resolution, take over as a State Highway any routes, route or part thereof, of those highways designated by the Act to be taken over as State Highways.
>
> NOW, THEREFORE, BE IT RESOLVED, that the following described road or parts thereof be and the same are hereby taken over as a part of State Highway Route 3, according to the Statute in such case, made and provided, viz;
>
> All that certain portion of Route, Section 8, as as constructed, lying between Station 1275 + 35 more or less and the Camden City Line at Station 1282 +20 more or less, a distance of six hundred eighty-five (685) feet more or less, located in the Borough of Collingswood, Camden County, as shown on the plan.
>
> RESOLVED FURTHER, that the proper authorities of Camden County be notified by the Secretary of this Commission of such action and that from and after the date hereof, the said road will constitute part of State Highway Route 3 and that this Commission will be responsible for the improvement and maintenance of the road described above.
>
> BE IT FURTHER RESOLVED, that the County of Camden be requested to file with the State Highway Department within thirty (30) days of the date hereof, any agreement or copies of franchises that they may have with any public utilities, or any other company, firm, individual or corporation, effecting the construction, maintenance, or use of the above described road.

Employments

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the following additions and changes as made in the employments by the State Highway Engineer since the last meeting of the Commission:

Employed

6/8/25	Edw. W. Kilpatrick, Jr.		Rodman,	$ 90.00	mo.
6/9/25	Harold J. Sklarew, Jr.		"	90.00	"
6/1/25	Arthur Domaratius,		Jr. Engineer,	125.00	"
6/8/25	Augustus J. Lanning,		Engineer Drft.	135.00	"

Federal Aid, Route 18-North
Section 1.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved Federal Aid Project Agreement #75 for Route #18-North, Section #1, in the Borough of Alpine, Bergen County.

Sussex-Coleville Road - Motor Vehicle Aid, Sussex County

There was presented a resolution from the Board of Freeholders os Sussex County advising that it is the sense of that Board to begin the construction of the Sussex-Coleville Road during the season of 1925 and complete same by July 1, 1926. The State Highway Engineer explained that this resolution has been adopted in view of the action taken previously by the State Highway Commission's approval of the County maintenance schedule, on condition that this road be constructed this year. He recommended that the resolution be accepted by the Commission. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the form of resolution adopted by Sussex County authorized that the records ve changed in order to show that Sussex County is permitted to enter upon the construction of the Sussex-Coleville road in 1925 and to complete same not later than July 1, 1926.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for the Sussex-Coleville Road, Sussex County, Motor Vehicle Aid.

Motor Vehicle Aid, Branch Pike - Burlington County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for Branch Pike, Moorestown River Road to Route #2 in Burlington County, Motor Vehicle Aid work.

Clinton Avenue, Motor Vehicle Aid, Essex County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved award of contract for Clinton Avenue, West

June 9, 1925.

Caldwell Borough, Essex County, Motor Vehicle Aid work.

Cedar Brook Road, Motor Vehicle Aid, Camden County.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the acceptance and final payment on Cedar Brook Road, Camden County, Motor Vehicle Aid work.

Township Aid, Monmouth County.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment on Middletown-New Monmouth Road, Middletown Township, Monmouth County, Township Aid.

Township Aid, Cape May County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved acceptance and final payment on Reading or Station Avenue, Upper Township, Cape May County Township Aid.

Township Aid, Hunterdon County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment on Barbertown-Delaware Line Road, Kingwood Township, Hunterdon County, Township and Borough Aid.

Township Aid, Ocean County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment on the following Ocean County Township Aid work: Lexington Avenue, Lakewood Township; Clifton Avenue, Lakewood Township, and County Line Road, Lakewood Township, all Ocean County, Township Aid work.

Township Aid, Mercer County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment on Mountain Avenue, Princeton Township, Mercer County, Township Aid, this carrying an extension of time to the date of completion.

Township Aid, Hunterdon County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of an allotment of $1,000.00 from the Township Aid cancellation fund to Kingwood Township, Hunterdon County.

June 9, 1925.

Township Aid, Mercer County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved an allotment of $1,500.00 from the cancellation fund on Lawn Park Avenue, Lawrence Township, Mercer County, as payment of the State's share for extra work.

Township Aid, Sussex County.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved an extension of time to June 15, 1925, for the completion of the Tranquility-Andover Road, Green Township, Sussex County, Township Aid work.

Township Aid, Warren County.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved a resolution of Knowlton Township, Warren County, changing the route as shown on the original application for Township Aid from Kinney's Lane-Bruglar's Crossing to Kinney's Lane via Lower Road.

Motor Vehicle Aid - Request for Aid - Bergen County

Commissioner Kidde presented a communication which he had received from J. E. Thier, Supervisor of Roards of Bergen County, calling attention to the work to be done on Shaler Boulevard, Columbia and Broad Avenue in the Boroughs of Ridgefield and Palisade Park, which would be a total of $491,000.00, and it was suggested that the State set aside the sum of $50,000.00 for these projects from the Motor Vehicle Reserve Account, or deduct the same from the State Highway funds set aside for Route #17 improvement between Hackensack and Rutherford. Mr. Thier also advised that he had been instructed by the Board of Freeholders to give his undivided attention the acquiring of right of way on Route #17 between Hackensack and Rutherford.

Mr. Kidde advised that he had visited the Borough of Ridgefield in accordance with Commission authority, and he had met Mr. Thier on the ground and he had been assured that just as soon as the line is laid out by the engineering Forces of the Department the County will proceed to acquire the necessary right of way; also the County had already announced a preliminary appropriation of $25,000.00 toward such work. He informed the Commission that he could see no merit in taking the funds set up for Route #17 and placing them upon county road improvements, since it was proposed to commence work on Route #17 as soon as possible, and the money would be needed; also, the improvement of these county roads was important since they were main county arteries. He moved that the commission approve an allotment to the County of Bergen of $25,000.00 from the Motor Vehicle Reserve Account toward the improvement of Shaler Boulevard and Broad and Columbia Avenues in the Boroughs of Ridgefield and Palisade Park, and that the County be advised that the minds of the State Highway Commission are thoroughly set to put through the Hackensack improvement as soon as possible and urge upon the County full cooperation with the various parties by acquiring the land as soon as possible. This was seconded by Mr. Jelin, and adopted.

Route #7, Section #2.

Commissioner Jelin reported having inspected the completed work on Route #7, Section #2, and moved that the same be accepted and final payment authorized. This was seconded by Mr. Kidde and adopted.

Conference, Newark

Commissioner Kidde reported that he had been in communication with the Mayor's office at Newark relative to fixing a time for a conference concerning Route #1 through Newark, and he had been advised that the Mayor is anxious to cooperate with the Commission in its work and that a time will be fixed in the near future for a conference.

Hearing, Board of Commerce & Navigation

Commissioner Kidde also advised that he had been visited by a member of the Board of Commerce and Navigation concerning the proposed War Department hearing to be held on July 10, on the matter of bridges over the Hackensack and Passaic Rivers, which highways will carry two or three times the tonnage as is now transported over these bridges.

East Landis Avenue, Vineland.

The State Highway Engineer presented a report on the request of the Borough of Vineland for aid in the reconstruction of East Landis Township will contribute $25,000.00 and Cumberland County the balance, or approximately $55,000.00; and it was recommended that the State Highway Commission approve of a proposition whereby thirteen feet of pavement will be placed on each side of the trolley track portion, bids to be received for reinforced concrete and bituminous concrete, the trolley company to repair the pavement within their area and a full width pavement to be placed on that section where there are no trolley tracks existing.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved this recommendation, the County and Township to be advised accordingly.

Maintenance Materials - 1925.

There was presented a report from the Superintendent of Maintenance on bids received for paint on June 8th with recommendation for award of contract for 3,250 gallons of ready mixed white lead paint to the A. Wilhelm Company of Reading Pa., at their price of $2.19 per gallon, On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the award of contract for 3,250 gallons of ready mixed white lead paint at $2.19 per gallon, as recommended.

There was submitted a report of bids received for supplying 500 gallons of red lead ready mixed paint and award was recommended to the International Compositions Co. Inc., of Union, New Jersey at $3.87 per gallon. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the award of contract for 500 gallons of red lead ready mixed paint at $3.87 per gallon, as recommended.

There was presented report of bids received for the furnishing of 400 gallons of ready mixed black graphite paint with recommendation that award be made to the Amalgamated Paint Company of Jersey City at $1.25 per gallon. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the award of contract for 400 gallons of ready mixed black graphite paint at $1.25 per gallon, as recommended.

Right of Way, Route 1, Extension

The Secretary announced that Judge Mark Sullivan was present for conference on the matter of the Erie Railroad property on Route #1 Extension at Jersey City. On motion, duly seconded, a conference was granted. Following this conference a statement was issued to the press to the effect that an agreement has been reached with the Erie Railroad Company and Commissioner Kidde moved the adoption of the following resolution:

> RESOLVED, that the proposed agreement between the Erie Railway Company, the Penhorn Creek Railway Company, the Erie Land and Improvement Company, the Long Dock Company, and the State Highway Commission of the State of New Jersey, a copy of which has been filed with the records of the State Highway Department, be and the same is hereby approved and ratified and the Chairman and Secretary are hereby authorized to execute the same on behalf of the State Highway Commission.

This was seconded by Mr. Jelin, and adopted.

Route 1 Extension, Section #2,
Jersey City.

State Highway Engineer Sloan informed the Commission of the completion of plans and specifications for the construction of Section #2 of Route #1 Extension in Jersey City between the New Jersey Junction Railroad and Oakland Avenue, a lenght of approximately 1,600 feet, and he recommended that the same be advertised for bids to be received on July 6th. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

> RESOLVED, that the plans and specifications for the construction of Section #2 on State Highway Route 1 Extension, said section being situated between the New Jersey City, a length of about 1600 feet, be and the same are hereby approved, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisements for bids to be received on July 6, 1925.

Right of Way - Route 1, Extension

State Highway Engineer Sloan informed the Commission that it would now be necessary to obtain an agreement with the New Jersey Junction Railroad Company whereby the proposed viaduct can cross their tracks.

Construction Engineer Lavis informed the Commission that he had already received an imformal agreement on the matter and that upon formal action by the Commission arrangements could be made to have a final contract drawn.

Commissioner Kidde therefore moved that the matter of obtaining an agreement with the New Jersey Junction Railroad Company be taken up at once in order that a formal record of the same may be had. This was seconded by Mr. Jelin and adopted.

The Commission next recessed for lunch at 2:00 P. M., tomeet again at 3:00 P. M. The meeting was reconvened at 3:00 P. M. with the same members present as at the morning session.

Route #5, Blackwell St., Dover.

The Secretary informed the Commission that a delegation from the Town of Dover on Route #5 were present and desired a hearing. On motion duly seconded, a hearing was granted. There appeared Mr. William Hosking, Mayor, Mr. Bassett, Mayor-Elect, and other representatives of the municipality. Mr. Hosking informed the Commission that their appearance was due to the fact that traffic conditions on Blackwell Street, Dover, were unbearable, due to the fact that the road had been opened for sewer connections and it was very essential that some other outlet for through traffic be found. He advised that a public hearing on the matter of moving the main highway from Blackwell St., which is now the public Street, was largely attended, and it was the unanimous opinion that the through traffic must be taken off the Street.

State Highway Engineer Sloan informed the Commission that he had gone over this matter very thoroughly with the local authorities of Dover and he had advised that there was a new route which the Department had in mind but which he could not recommend on account of the great in crease in cost over the Blackwell Street, line, unless the Town and County could join in the work.

Mr. Hosking advised that he had taken this matter up with the County authorities and they state that there are absolutely no funds this year from which they could share in the improvement. The Town itself, he advised, has been taxed tremendously for schools, sewer system and water supply.

Mr. Bassett advised the Commission that if it was undertaken to improve Blackwell Street as a State Highway the money would be spent thereon with an existing trolley track, and there would be nothing gained in the situation for traffic because the traffic must be gotten through the Town on the width available. He advised that the Town was very anxious to see this improvement go through but had no finances to help.

Commissioner Kidde advised the State Highway Commission was in practically the same situation, there being many demands upon the State purse and no funds with which to do all the work contemplated.

Mr. Bassett stated that he was authorized to say that the County or municipality would assume full control of the repairs on Blackwell Street, would furnish right of way and give the State Highway Commission $50,000.00 toward the work.

Chairman Scott advised that the Commission were in sympathy with the plans proposed and he believed that the people of Dover should tell their difficulties to the people of Bloomsbury, where ernest efforts were made to complete the road through the main street.

State Highway Engineer Sloan advised that hei recommendation would be that the State do the work on the new line if the Town or County would guarantee a cash allotment to the State of $100,000.00 and would assume Blackwell Street and furnish the rights of way.

Mr. Bassett stated that the municipality was doing everything in its power when it made an offer of $50,000.00. This matter was argued pro and con for sometime with the result that the proposition was left wide open to be taken up poin the further request of the State Highway Commission.

Lighting, Amboy Bridge.

The State Highway Engineer presented the agreements to be entered into with the Public Service Electric Company for the lighting of the New Amboy Bridge.

Commissioner Kidde reported that he had reviewed these contracts, which have been revised by the Public Service Electric Company in accordance with his suggestions, and he moved that the same be approved subject to the State Highway Engineer ascertaining what the Public Service Electric Company had in mind regarding the furnishing of double service to this bridge through two connections, so that one may be used for emergency purposes at any time. This was seconded by Mr. Jelin and adopted.

Gen. H. L. Scott

Commissioner Kidde offered the felicitations of the Commission to Chairman Scott on the occasion of the Fiftieth Anniversary of his graduation from West Point Academy.

June 9, 1925.

Mr. A. W. Muir

Commissioner Jelin moved that a letter of congratulation be forwarded to Superintendent of Maintenance Muir on the occasion of his marriage.

On motion by Mr. Jelin, seconded by Mr. Kidde, the meeting adjourned at 5:15 P. M., to meet in regular session again on Tuesday, June 16, 1925, at 10:30 A. M.

Respectfully submitted,
A LEE GROVER,
Secretary.

MINUTES OF MEETING - June 15, 1925.

A regular meeting of the State Highway Commission was held in the Commission rooms, Broad Street Bank Building, Trenton, Monday, June 15, 1925. The meeting was called to order at 10:30 A. M., by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Walter Kidde and Abraham Jelin.

Absent: Mr. Percy H. Stewart.

Minutes Approved

Commissioner Kidde reported having read the minutes of the meetings of May 12th, May 15th and May 19th and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Albany Street Bridge - Route 1

The Secretary presented a communication received by Chairman Scott from the New Brunswick Boat Club, advising that the contractor on the Albany Street Bridge has failed to complete all the necessary work according to agreement with the Boat Club for its equipment on the Bridge. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that this letter be referred to the State Highway Engineer in order that the matter might be taken up with the contractor to urge upon him the completion of everything in a satisfactory condition to the Boat Club and that the Boat Club be advised of this action.

Route #4, Detour

The Secretary presented a communication received by Chairman Scott from the New Jersey Automobile & Motor Club, suggesting that men be placed at the detour in Red Bank on Saturdays and Sundays during the construction of the Navesink River Bridge, in order to relieve congestion. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission authorized the State Highway Engineer to determine upon the necessity for such extra detour men and if he decides that traffic will be relieved by such appointments, he is hereby empowered to employ such men and give them the necessary police power or negotiate with the City of Red Bank to this end.

The Schedule of Business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer.

Route #4, Rahway - Perth Amboy

Plans and specifications were reported completed for the construction of Route #4 between Rahway and Perth Amboy and advertisement was recommended. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve of plans and specifications for the construction of Route #4 between Rahway and Perth Amboy, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement for the work after approval by the State Highway Engineer.

North Branch River Bridge, Route 9, M. P. 29.6

There was reported the completion of the North Branch River Bridge on Route 9 at M. P. 29.6 in satisfactory condition and recommendation was made for final payment. Commissioner Jelin reported having inspected this bridge and moved that the same be accepted on behalf of the State. This was seconded by Mr. Kidde and adopted. The State Highway Engineer explained that a question had arisen between the contractor and the State Highway Department relative to final payment on this work, the contractor claiming that the contract was a lump sum bid and hence he was entitled to the full amount of his bid, whether or not all the items were placed in the work, while the State could point to a section in the contract which called for increase or decrease in quantities in accordance with estimates and unit prices. He advised that in view of this a compromise had been arranged with the contractor whereby he would be paid a sum of $1,300.00 for water-proofing on the bridge but would not be paid for the full amount of steel in the estimate.

Commissioner Kidde moved that the recommendation of the State Highway Engineer be accepted and the final payment made to the contractor on the North Branch River Bridge. This was seconded by Mr. Jelin and adopted.

Route 5, Section 12.

There was reported the completion of Route 5, Section 12, Netcong-Canal Culvert Section and final acceptance was recommended after inspection. On motion by Mr. Jelin, seconded by Mr. Kidde, this work was referred to Commissioner Kidde for final inspection.

June 15, 1925.

Abandonment, Route #8, Section 4

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved an abandonment of one portion of Route #8, Section #4, Smith's Mills-Charlottsburg, in accordance with the following resolution:

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway in accordance with the provisions contained in Chapter 14, Laws of 1917 a certain road or roads known as State Highway Route #8 from Montclair to State Line at Unionville by way of Singac, Wayne, Pompton Plains, Butler, Newfoundland, Stockholm, Franklin Furnace, and Sussex, and

WHEREAS, in the construction and improvement of said State Highway Route #8, Section #4 from Smith's Mills to Charlottsburg it has been found desirable to relocate a certain portion of the said route for the betterment of the alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there is a certain portion heretofore used as a part of the road before improvement which is no longer needed as a part of the improved State Highway.

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portion of State Highway Route #8, Section #4 as hereinafter described, be and the same are hereby abandoned as a part of State Highway Route #8, Section #4 and vacated in accordance with the provisions of Chapters 14 and 15 of the Laws of 1917 and the amendment thereto in Chapter 220, Laws of 1919.

Beginning at a point in the center line of the old road as taken over, where the said center line is intersected by the new northerly right of way line of Route #8, Section #4 of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 30 + 10 thence (1) in an easterly direction a distance of sixty-eight (68) feet more or less to a point; thence (2) curving to the right for a distance of two hundred forty-three (243) feet more or less to a point; thence (3) in a southeasterly direction a distance of one hundred forty-eight (148) feet more or less to a point in the said new northerly right of way line of Route #8, Section #4, said point being measured thirty-three (33) feet normally from the center line of the said State Highway at about Station 34 + 62.

BE IT FURTHER RESOLVED, that a notice of this vacation be sent to the Board of Chosen Freeholders of Passaic County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate that portion of the old road as taken over September 1, 1919 lying outside the limits of the acquired right of way of the new road as constructed between Station 30 + 10 more or less and Station 34 + 62 more or less, as shown on plan attached hereto and on file in the offices of the said State Highway Commission at Trenton, N. J.

June 15, 1925.

Request for Aid, City of Trenton

There was presented a communication from the City of Trenton, requesting aid in the improvement of Stuyvesant Avenue, Trenton, from Whittlesey Road westerly, basing their claims upon the fact that at the end of Stuyvesant Avenue there are several State Institutions which will be served by this road.

Commissioner Kidde moved that the communication be received and that the City of Trenton be advised that in view of the fact that it appears to be a purely local improvement the State Highway Commission cannot aid in the work. This was seconded by Mr. Jelin and adopted.

Rejection of Plans, Atlantic Co.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission rejected plans and specifications for the construction of a road from Dorset Place Bridge running on Grand Avenue over a new right of way to West End Avenue at the Atlantic City-Ventnor Line in Atlantic County, due to lack of funds.

Exhibits, State Highway

The Secretary presented a communication from the Department of Conservation & Development, inviting the State Highway Commission to again send an exhibit to the Flemington Fair, August 25th to 29th, inclusive, and to the Atlantic County Fair, September 3d to 5th, inclusive. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that a suitable exhibit be arranged to include specimans of core borings taken by the core drill machine, in order that the public might be advised of the means taken to insure value for the money spent.

C. M. Hall

Chairman Scott at this time informed the Commission that he had received a communication from Senator Borton of Salem County in behalf of C. M. Hall who was laid off as Inspector on the Absecon Boulevard, and he advised that he was dictating a letter that the State Highway Commission cannot allow itw personal feelings to enter into this situation and it cannot see its way clear to reinstate Mr. Hall as Inspector.

June 15, 1925.

Employments

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the following additions, changes and increases as made by the State Highway Engineer in the employments since the last meeting of the Commission:

Employed

6/16/25	P. J. O'Brien,	Rodman,	$110.00 mo.
6/15/25	A. V. K. McGee,	Laboratory Assistant	90.00 "
6/1/25	L. E. Sharp,	Rollerman,	150.00 "
6/10/25	Joseph Ryan,	Jr. Inspector,	125.00 "
6/10/25	John L. Shurts,	" "	125.00 "
6/10/25	JOhn F. Monahan,	" "	125.00 "
6/10/25	Ralph L. Bloor,	" "	125.00 "
6/11/25	R. R. Kane,	Mechanic,	.65 hr.
6/4/25	Gustave Gerloch,	"	.65 "
6/1/25	Winthrop Hardgrow,	"	.70 "
6/11/25	Joseph P. Bogdan,	Garage Assistant,	.45 "
6/11/25	Thomas E. Robinson,	" "	.45 "
6/3/25	Paul Hitchner,	Motor Truck Driver,	.45 "

Salary & Title Change

6/16/25	L. S. Buzby,	Sr. Draftsman, at	$140. to Asst. Civil Engr. 165. per month.
6/16/25	F. J. Gaven,	Jr. Engineer, at	$145. to Asst. Civil Engr. 165. per month.
6/16/25	G. H. Pilkington,	Jr. Engineer, at	$150. to Asst. Civil Engr. 165. per month.
6/16/25	Geo. P. Dunn,	Engr. Draftsman, at	$ 135. to Asst. Civ. Engr. 165. per month.

Increase

7/125	F. I. Shoemaker,	Asst. Civil Engineer,	$175. to $185. mo.

Discontinued Employments

6/16/25	A. C. Fox,	Designing Engineer.	Resigned.

Federal Aid, Route #4, Section #29

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved Federal Aid Project Agreement #73 for Route #4, Section #9, Barnegat-Manahawken.

State Aid, Sussex County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the award of contract by Sussex County on Fredon-Stillwater Road, Section #1, State Aid work.

June 15, 1925.

Township Aid, Ocean County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Comission approved specifications for Prospect Street and Ridge Ave., Lakewood Township, Ocean County, Township and Borough Aid.

Right of Way, Connecting Road, Camden

Commissioner Jelin reported that he had inspected the August H. Schlinkmeier property on the Connecting Road at Camden, and he would recommend that the purchase of the same be approved by the Commission. He therefore moved that Parcel #60 on the Connectine Road at Camden, Section #3, be purchased from August H. Schlinkmeier for the consideration of $12,000.00. This was seconded by Mr. Kidde and adopted.

Detour, Route #4

State Highway Engineer Sloan reported to the Commission that in the construction of the road between Rahway and Perth Amboy it would be necessary to install a detour and he would recommend the adoption of the following detour for traffic during the construction of Route #4 between Rahway and Perth Amboy:

> Beginning at the intersection of Route #4 and Route #1 in Rahway; thence (1) southwesterly over Route #1 to Iselin; thence (2) southeasterly to Woodbridge, crossing Route #4; thence (3) in a southerly direction following a road parallel to Route #4 to a point on Route #4 near the Spa Spring Bridge.

Major Sloan also recommended that in view of the narrow road between Woodbridge and the Spa Spring Bridge, the Township of Woodbridge be given aid to the amount of $5,000.00 for the maintaining of King George's Road to Fords and the road from Fords to Perth Amboy in proper condition to take such travel as cannot be accommodated on the detour above described. On motion by Mr. Jelin, seconded by Mr. Kidde, this recommendation was adopted.

Signals

The Secretary presented a communication from the City of Rahway, advising of a proposed installation of traffic signals and requesting aid from the State toward such installation, in view of the fact of the great amount of State Highway traffic to be accommodated. Commissioner Kidde stated that he did not believe the State Highway Commission could go into the matter of traffic signals and devices and that this was a matter of purely local importance for each municipality to take care of as its means will allow, and he moved that the application be denied. Commissioner Jelin suggested that this matter be held up until Commissioner Stewart is present, since it is a matter concerning Union County. This was seconded by Mr. Kidde and adopted.

Signals

State Highway Engineer Sloan informed the Commission that he had attended the first meeting held by the League of New Jersey Municipalities, looking toward the devising of uniform traffic regulations and signals, but it appeared that there was no comprehensive plan in hand from which to work, and it was suggested that principles first be worked out prior to the local details which would be taken care of at another meeting.

The Secretary informed the Commission that bids had been advertised to be received on several State Highway projects, and Chairman Scott ordered the meeting recessed for the receiving of bids.

Ringoes-Flemington Road, Hunterdon County

The following bids were received by the Board of Freeholders of Hunterdon County sitting with the State Highway Commission, for the construction of the Ringoes-Flemington Road in Hunterdon County:

Korp & Korp	$ 251,910.04
Public Service Production Co.	254,623.81
Jannarone Cont. Co.	271,076.76
E. Riley Mixner Co.	273,251.30
Conrad Seabolt	276,353.75
C. H. Winans Co.	277,058.26
Michael Staub	277,743.21
J. F. McGreevy	283,234.00
Wm. Eisenberg	287,809.80
Union Paving Co.	296,455.30

Hackensack River Bridge, Route 1

The following bids were received for the construction of the Hackensack River Bridge and the removal of temporary structure on Route #1, Lincoln Highway Section:

Stillman-Delehanty-Ferris Co.	$ 774,998.36
Frederick Snare Corp.	897.065.00
Merritt-Chapman & Scott	969,336.10

Entrance Road, - Camden
Connecting Road- "

The following bids were received for the extension of Route #2, #3 and #6 to the Delaware River Bridge in Camden:

June 15, 1925.

Michael Staub & Kolyn Const. Co.	$ 413,391.60
Comerford Const. Co.	426,185.18
C. F. Seabrook Co.	432,226.04
J. F. Chapman & Son..........................	552,439.70
H. C. Ambler,................................	560,000.00
E. Riley Mixner Co...........................	935,744.69

Bids were also received for asphaltic oil and lignin binders to be used on gravel road maintenance.

Ringoes-Flemington Road,
Hunterdon County

The State Highway Commission next went into regular session and the Secretary presented a communication from the Hunterdon County Board of Freeholders, advising that they have approved the award of contract for the Flemington-Ringoes Road to Korp & Korp at its low bid in the sum of $251,910.04. State Highway Engineer Sloan recommended to the Commission that approval be given to the award as made by Hunterdon County. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

> RESOLVED, that the award of contract for the Flemington-Ringoes Road, Hunterdon County, as approved by the Hunterdon County Board of Freeholders, to Korp & Korp of Phillipsburg, N. J. at their's the lowest bid in the amount of $251,910.04, be and the same is hereby approved, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sing the necessary contract after approval by the State Highway Engineer.

Hackensack River Bridge, Route 1

State Highway Engineer Sloan recommended to the Commission the award if contract for the Hackensack River Bridge reconstruction at M. P. 57.8, Route #1, Lincoln Highway Section to Stillman-Delehanty-Ferris Co., at their low bid in the amount of $774,998.36. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award of contract for the reconstruction of the Hackensack River Bridge at M. P. 57.8 on Route #1, Lincoln Highway Section, and the removal of the temporary structure, to Stillman-Delehanty-Ferris Company of Jersey City at their low bid of $774,998.36, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

June 15,1925.

Entrance Road - Camden
Connecting Road-Camden

State Highway Engineer Sloan recommended to the Commission the award of contract to Michael Staub & Kolyn Construction Company low bidders for the grading of the Delaware River Bridge Approach, extension of Route #2, #3, and #6 in the City of Camden, in the amount of $413,391.60.

> RESOLVED, that the State Highway Commission does hereby make award of contract for the grading of the Delaware River Bridge Approach; extension of Routes #2, #3 and #6 in the City of Camden, to Michael Staub & Kolyn Construction Co., at their's the lowest bid received in the amount of $413,391.60, and
>
> BE IT FURTHER RESOLVED, thatthe Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Maintenance Materials - Highway

State Highway Engineer Sloan reported that it would not be possible to record the asphaltic oil bids until the next meeting, but he reported that M. R. Young of Trenton was the lowest bidder for the supply of lignin binder and he recommended that award by made in a total amount of $36,664.01. Commissioner Kidde stated that in view of the fact that there were only two bids for this work, he did not believe this was sufficient competition to grant the placing of such a large contract and he suggested that the matter be held over until Commissioner Stewart could be present. He moved that this matter be laid over until the next meeting. This was seconded by Mr. Jelin and adopted.

On motion by Mr. Jelin, seconded by Mr. Kidde, the meeting was adjourned at 2:00 P. M., to meet in regular session on Wednesday, June 24th at 10:00 A. M., it being the purpose of the Commission to adjourn promptly at noon on that day.

Respectfully submitted,
A LEE GROVER,
Secretary.

MINUTES OF MEETING - June 23, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, Tuesday, June 23, 1925. The meeting was called to order at 10:30 A. M., by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Percey H. Stewart, Walter Kidde and Abraham Jelin.

Request for Aid, Monmouth County

The Secretary announced that Senator William A. Stevens of Monmouth County, together with a delegation representing Willow Drive, Little Silver Township, were present for a conference. This conference was held immediately thereafter. Senator Stevens informed the Commission that Township Aid was desired for Willow Drive in Little Silver Township, as soon as same became available. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that record be made that it is the sense of the State Highway Commission that when the Township Aid applications are considered for approval, the Commission is favorable to granting $10,000.00 from the Township Aid account toward the improvement of Willow Drive, Little Silver Township.

Detours - Route #4.
Route #4, Rahway - Perth Amboy

The Secretary announced that Senator Morgan F. Larson, together with a delegation from Woodbridge Township, was present on the matter of aid granted by the Commission at its last meeting to Woodbridge Township for the improvement of King Georges Road, which will be used to handle excess traffic on the detour during the construction of the Rahway-Perth Amboy Road, which is now advertised.

The Township officials informed the Commission that the sum of $5,000.00 as originally set up would not be sufficient to properly provide for this maintenance work and it could not consider widening the roadway which would involve and expenditure of approximately $40,000.00. After further consideration Commissioner Jelin moved that an additional allotment of $5,000.00 be made to Woodbridge Township, making a total allotment to date of $10,000.00 as aid to the Township in maintaining King Georges Road during the construction of Route #4, between Perth Amboy and Rahway.

Senator Larson also advised that the Woodbridge officials were desirous of having Route 4 through Woodbridge paved a full 40 feet in order that they might place curbs and gutters. State Highway Engineer Sloan informed the Commission that plans were prepared for 29 feet of pavement with proper grading to a 40-foot width, but that no concrete would be laid beyond 29 feet. The Commission proposed that the municipality arrange for the extra width and curbing and the State would supply the drainage necessary for this extra width.

The Township officers advised that the Committee would take this matter up with the local people to determine what their opinion was regarding this and make answer to the Commission.

Widening-Route 4,
Trees - " "

The Secretary informed the Commission that Senator T. A. Mathis of Ocean County was present and desired a hearing. On motion, duly seconded, a hearing was granted. Senator Mathis appeared and advised that he appeared for the towns of Manahawken and West Creek where the width graded is 40 feet. This necessitates the removal of a great number of valuable trees and also will bring the highway to the steps of the property now fronting on the road. He advised that a 30 foot roadway had been completed in Forked River and he could see no reason why it was necessary, at this time, to grade the highway beyond the 30 feet.

State Highway Engineer Sloan informed the Commission that it was the purpose to grade Route 4 between Rahway and Absecon to a width of 40 feet wherever possible at this time, and in view of the possibility of securing these 40 feet through Manahawken and West Creek without a great expense to the State, the plans had been prepared accordingly. However, in Forked River, where there existed curbs and sidewalks, the property damage would, at this time, be very considerable if a 40-foot width was adopted, but it was anticipated as soon as it was possible and the funds were available, that the roadway in Forked River would be widened to 40 feet.

Senator Mathis stated that he could see the wisdom of preparing for future traffic, but that if the traffic could be conveniently carried for a number of years over a 30-foot roadway, the Commission should alter its plans.

June 23, 1925.

The Commission advised that the State Highway Engineer would be instructed to do the best that can be done to keep the residents on Route 4 friendly with the Commission.

Accidents

Commissioner Kidde called attention to an accident reported to him on Route 4, below Toms River, where there was a driveway provided along side the work, and this particular party had ruined two new tires to a value of $70.00 by spikes which are driven to hold forms for concrete and are not protected. He stated that provision is made in other states for this protection and he suggested that the State Highway Engineer make some arrangements whereby traffic will be protected from driving too close to the road forms.

Mountain Avenue, Hackettstown

The Secretary advised that a delegation from Hackettstown was present and desired a hearing. On motion, duly seconded, a hearing was granted. There appeared Mr. Sharp, President of the Town Council, Mr. Smith, Chairman of the Street Committee, and Mr. Stratmeyer of the Finance Committee. Mr. Sharp advised the Commission that the conditions now existing on Mountain Avenue, Hackettstown, which is marked as a section of State Highway Route 5,are appalling, since it carries the immense amount of traffic going across the State to the Water Gap and has been completely worn out. He urged that since this road was marked as part of the State Highway System it be taken over by the State for maintenance or reconstruction. He estimated the traffic to be in excess of 4,000 vehicles per day over week ends.

State Highway Engineer Sloan informed the Commission that several weeks ago he hed recommended that this highway be taken over as part of the State Highway System for maintenance with a view that when a proposed cut-off connecting Routes #12 and #5 was constructed, this section could then be abandoned and returned to the municipality.

Commissioner Kidde stated that he believed that there should be no delay in constructing the cut-off and that the State Highway Commission should not spend its funds in maintenance and improvement of what he considered to be a local improvement. He stated, however, that if the County ormunicipality desired to undertake the reconstruction of this road, a liberal amount of State Aid should be granted, in view of the State Highway traffic which is carried thereon.

Commissioner Jelin remarked that the State Highway Commission should remove its markers if it does not intend to maintain this road as part of the State Highway System.

Commissioner Kidde stated further that if the Town would proceed to reconstruct this road at once, he would be favorable to granting $25,000.00 as State Aid toward the work.

Commissioner Jelin also advised that he would be favorable to granting $25,000.00 State Aid if they would proceed with this work at once, but that no formal action could be taken until a proposition came from the Town authorities.

Mr. Sharp advised that this would be taken up immediately and that information would be returned to the Commission.

Mathis Highway-
Proposed State Highways.

The Secretary presented a copy of the Ocean County Review for the date following the meeting at Browns Mills, which was attended by Chairman Scott and Commissioner Jelin, where the people of Camden, Burlington and Ocean Counties assembled to request the taking over of the Mathis Highway between Camden and Toms River. This newspaper article was written in a manner which would indicate that the State Highway Commission had pledged itself to immediately take over and provide the funds for this highway. Chairman Scott informed the Commission that such statements were never made and the Secretary read from a stenographic report of the meeting the exact statements made by Chairman Scott and Commissioner Jelin, in which both had advised that the State Highway Commission is favorable to taking this highway into the State Highway System just as soon as funds are provided for its maintenance and reconstruction, and directed that their efforts be turned toward the Legislature where such funds are derived.

Publicity

The Secretary presented a copy of publicity received by Chairman Scott from the American Automobile Association, stating the attitude of the Association in the matter of Motor Vehicle moneys, in that they urged that these moneys be retained exclusively for reconstruction and maintenance of highways.

Route 10, Bluff Road

The Secretary presented a form of deed to be signed by the State Highway Commissioners reconveying property on Bluff Road, Route 10, to Charles W. Godfrey for the sum of $600.00. On motion, duly seconded the Commission authorized the deed to be signed and the same was immediately executed.

Right of Way-Route 8

The Secretary presented a bill received from Hon. Henry G. Hershfield of Pompton Lakes, for services in the matter of the Forsburg right of way proceedings on Route 8, in the amount of $350.00. On motion by Mr. Stewart, seconded by Mr. Jelin, this bill was ordered paid.

Right of Way-Route 12

The Secretary presented a bill received from Hon. Henry G. Hershfield for services in the matter of Redman & Crews right of way proceedings on Route 12 at Little Falls, in the amount of $150.00. On On motion by Mr. Stewart, seconded by Mr. Jelin, this bill was ordered paid.

Right of Way-Route 10

There was presented a bill from Harry W. Brenner for the appraisal of lands of Oscar [illegible] on Route 10, in the amount of $150.00. On motion by Mr. Jelin, seconded by Mr. Stewart, this bill was ordered laid over.

The Secretary presented a bill from Harry W. Brenner for appraisals on nine parcels of property on Route 10, in a total of $450.00. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission ordered that this bill be laid over.

Signs

There was presented a communication from Miss H. R. Holloway, Chairman of the Wild Flower Preservation Committee of the Plainfield Garden Club, requesting permission for the posting on highways by the Boy Scouts with a sign reading "Spare the Flowers". Chairman Scott stated that the Commission had consistently refused permission for the placing of signs on State Highways on the grounds that they were a source of confusion to the traveler in not being able to discern whether they are cautionary or directionary signs, and for this reason he would suggest that these signs be permitted on private property and in wooded sections.

Commissioner Stewart advised that he had informed Miss Halloway as to the Commission's attitude regarding signs in the past.

Commissioner Kidde moved that Miss Halloway be advised as to the statements of Chairman Scott, which makes it necessary to deny the application for placing these signs on State Highways, but that the Commission is in deep sympathy with the purpose of the Association and suggests that they arrange to place these signs on private property in wooded sections where people are prone to seek for wild flowers. This was seconded by Mr Jelin and adopted.

Lighting-Amboy Bridge

The Secretary presented a communication received by Commissioner Kidde from the Public Service Electric & Gas Company, with further reference as to the possibility of securing service from two substations for the Amboy Victory Bridge, advising that at the present time there are two services available but the two feeders are not tied together and it is entirely feasible to connect up with a second service without necessitating the making of two solid connections. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that this communication be acknowledged and that the information contained in this letter be given to the Engineer in charge of the bridge operation for information in case of emergency. Commissioner Kidde also suggested that if possible extra cable be kept on hand in order that the same might be used in emergency.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was recessed for lunch at 1:00 P. M. to meet in regular session again at 2:30 P. M. The meeting was reconvened at 2:30 P M. with the same members present as at the morning session.

Right of Way-Route 1 Extension

The Commission immediately went into conference for one-half hour with Judge Mark Sullivan, Special Counsel in the matter of Route 1 Extension through Jersey City. No definite action was taken at this time.

June 23, 1925.

Route 5, Blackwell St., Dover

The Secretary informed the Commission that a delegation from Dover, New Jersey, was present to again take up the question of the paving of Route 5 through Dover. On motion, duly seconded, a hearing was granted. There appeared Mayor Hosking and Mr. Bassett of Dover.

Mayor Hosking advised that the Town Council had gone very thoroughly into the question of raising funds to meet the State's requirements for carrying the road outside of Blackwell Street and after a public meeting, in which there was only one dissenting voice, the Board of Aldermen has agreed to give the State $75,000.00 in addition to furnishing right of way on the westerly end if the State Highway Commission will adopt the proposed line outside of Blackwell Street, Dover.

State Highway Engineer Sloan advised that his recommendation had been that if the Town or the County would become responsible for the maintenance of Blackwell Street, Dover, immediately and would furnish all the necessary right of way for the new line and would contribute the sum of $100,000.00 as aid to the State toward the work, then the State should take over the new line around the Town of Dover.

Commissioner Stewart inquired as to the bonded indebtedness of the Town and whether it would not be possible for the Town to secure the full $100,000.00 for the work. Mr. Stewart inquired also as to the difference in cost between the two lines and the State Highway Engineer advised that the total cost of the outside line would run above $800,000.00, while the cost of Blackwell Street Street, Dover, would be approximately $500,000.00. He advised that with approximately $200,000.00 worth of aid from the Town, it would still leave the outside line at a cost of $300,000.00 in excess of the Blackwell Street line, and he was prepared to recommend that this expenditure be made from the next year's funds if legislation could be secured by the Town of Dover which would permit the abandonment of the Blackwell Street, Dover, line for the new line; since the Blackwell Street line is in excess of two miles and the present legislation will not permit the abandoning of any sections of road in excess of two miles.

Commissioner Stewart stated that he felt that this was a very large amount of money for the Commission to spend for the improving of this condition, also it appeared to be the only direct line across the State in that particular section.

State Highway Engineer Sloan informed the Commission that the Town of Dover was unwilling to widen Blackwell Street a fifty foot width, and there also exists trolley tracks and considerable parking by the public in front of stores.

Commissioner Stewart suggested that some drastic measures be taken to eliminate the parking on Blackwell Street whereby considerable width could be saved to the traffic.

Commissioner Jelin then stated that if the condition was to be improved immediately, in view of the uncertainty in the change of legislation, the Commission should proceed at once with the improvement of Blackwell Street.

Mr. Bassett informed the Commission that he did not feel that the Commission should drop the matter of the outside route from consideration, and he inquired whether the Commission would consider it in the event the Town could find the $100,000.00 as recommended by the State Highway Engineer.

Commissioner Stewart stated that he could not see any justification at the present time for the expenditure of so much money and he desired an opportunity to think the matter over before making any decision.

Chairman Scott then stated that the matter be allowed to stand as at present and it would be given consideration by the State Highway Commission. He expressed appreciation for the manner in which the authorities of Dover had negotiated with the Commission, and whatever decision was reached was to be communicated to the Town, it being the desire to accomplish something satisfactory to the State as a whole and to the local people at as little expenditure of the State's money as possible.

The schedule of business was next taken up item by item as follows, with the recommendations of the State Highway Engineer.

[illegible]

[illegible]

The [illegible] Dover, New Jersey, [illegible] paving of Route [illegible] was granted. [illegible]

The schedule of business was next taken up item by item as follows, with the recommendations of the State Highway Engineer.

June 23, 1925.

Route 2, Section 8.

There was reported the following bids received on June 22nd for the resurfacing of Route 2, Section 8, Bridgeboro to Pensauken Creek, and recommendation was made for award to the low bidder, the Union Paving Company in the sum of $83,028.27.

Union Paving Company.........$	83,028.27
Joseph F. Burke..............	83,671.90
E. Riley Mixner Co...........	91,395.46
Standard Bitulithic Co.......	97,831.76

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the resurfacing of Route 2, Section 8, Bridgeboro to Pensauken Creek, to the Union Paving Company at their's, the lowest bid in the sum of $83,028.27, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Route 4, Section 31

There was presented a report of the following bids received for the construction of Route 4, Section 31, Tuckerton-New Gretna, and recommendation was made for award to Michael Staub, the low bidder, in the sum of $303,510.42.

Michael Staub...................$	303,510.42
Public Service Production Co.....	321,847.65
J. F. Chapman & Son..............	329,459.55
Union Paving Company.............	330,672.27
Sutton & Corson Co...............	337,198.95

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 4, Section 31, Tuckerton-New Gretna, to Michael Staub, the low bidder in the sum of $303,510.42, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Route 2, Bridges, M.P. 5.7 and 7.3

There was presented a report of the following bids received for the construction of two bridges at M. P. 5.7 and 7.3 on Route 2, Section 8, and the State Highway Engineer recommended to the Commission that in view of the unsatisfactory financial statement furnished by the low bidder, he would recommend that award be made to the Chester Valley Construction Company, the second low bidder in the amount of $21,705.41:

John M. Everett	$ 17,183.65
Chester Valley Const. Co.	21,705.41
Hill Const. Co.	27,044.20

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of two bridges at M. P. 5.7 and 7.3 on Route 2, Section 8, to the Chester Valley Construction Company in the sum of $21,705.41, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Maintenance Materials-Highway

There was presented a report of bids received on June 15th for the furnishing of asphaltic oil grade SCO on State Highway Route 18, South of the Ocean City Bridge Road. After a comparison of base prices, freight rates and the cost of application, it was recommended that award of contract be made to the Earle Lansdell Company for furnishing and applying 237,105 gallons of asphaltic oil grade SCO at their unit price per gallon f.o.b. plant of $.0675 or a total base price of $9,254.60, the freight amounting to $1,583.57 and the application amounting to $2,252.25. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the award of contract for asphaltic oil grade SCO as recommended by the State Highway Engineer to the Earle Lansdell Company for the price named above.

Commissioner Kidde then asked a comparison of these bids with that of Glutrin, or lignin binders, as advertised for and as recommended for award to Maurice Young, of Trenton.

State Highway Engineer Sloan advised that a proportion of the Glutrin is to be used for the treatment of shoulders and also on roads which are to be reconstructed within the next three years and for this reason he did not believe it economy to place SCO on these sections at this time. He advised that his recommendation at the last meeting had been for award of contract for lignin binders to Morris R. Young of Trenton at his price of $36,664.01.

Commissioner Kidde then inquired as to the question regarding the fact that there were only two bidders on the lignin binders. State Highway Engineer Sloan advised that this product was produced in quantity by only two companies and, therefore, the competition was necessarily limited, also the prices received by the State were lower than any of those received by any of the counties this year.

Commissioner Jelin advised that he had also gone very thoroughly into the question of competition and had ascertained that prices had been given by another producer to several prospective bidders but that no bids were submitted by them.

Commissioner Stewart stated that unless there was something equally as good and the price was not exorbitant, the recommendation of the State Highway Engineer should be adopted.

Commissioner Jelin stated that the opportunity for readvertising in an effort to gain additional competition was passing since it would take four weeks for another bid and the traffic would not get the benefit of glutrin treatment and he therefore moved that the contract for lignin binder be awarded to M. R. Young, of Trenton, at his, the lowest bid received, in a total amount of $36,664.01. This was seconded by Mr. Stewart and adopted.

Route #15, Menantico Creek Bridge

There was reported the completion of the Menantico Creek Bridge at M. P. 13.2 on State Highway Route #15, and the State Highway Engineer advised that the same was completed in a satisfactory condition. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment on the Menantico Creek Bridge at M. P. 13.2 on State Highway Route #15.

Right of Way, Connecting Road, Camden

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the following parcels of property on the Connecting Road, Section #3, Camden:

Parcel	Name	Amount
59	Albertos M. K. Maldeis,	$ 1.00
74	Ben Leon,	200.00
78	Merchantville Holding Co. Inc.	1.00

June 23, 1925.

Right of Way-Route 3.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcel 29 on Route 3, Section 11, Hammonton-Berlin section, from Raffaele Grasso and Carolinea Grasso, for the consideration of $1.00 plus the filling of portion of the property conveyed to the level of the highway at the time of the widening of the easterly side of the highway.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcels Nos. 16 and 16A on Route 3, Section 12, from Dr. A. B. McMullen, for the consideration of $265.60.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcel #65 on Route 3, Section 13, Absecon-Egg Harbor, from Annie [illegible] Scuttle, widow, for the consideration of $11.00.

Right of Way-Route 4

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the following parcels of property on Route 4, Section 20A:

Parcel No.	Name	Amount
22	Annanian C. Wilbert, Jr.	$ 10.00
24 & 24A	" " " "	15.00

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcel No. 6 on Route 4, Section 28, Barnegat-Waretown section, from George W. Haden for the consideration of $15.00.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the following parcels of property on Route 4, Section 30, Tuckerton-Manahawkin section:

Parcel No.	Name	Amount
5	Walter J. Westover & wife,	$ 180.00
12	Louise J. [illegible], widow,	125.00

Right of Way-Route 7

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcels Nos. 16 and 16A on Route 7, Section 4, Colts Neck-Jerseyville Road, from Theodore G. Rowe and wife for the consideration of $10.00.

Right of Way-Route 9

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcels Nos. 1 and 1A on Route 9, Section 16, Bloomsbury Cut-off, from Robert Tinsman for the consideration of $1.00 with the understanding that the wood from the trees to be cut down is to be delivered to Mr. Tinsman.

Right of Way-Route 14

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcel No. 52 on Route 14, Section 8, Swainton-Ocean View section, from Edwin A. Harte, for the consideration of $200.00.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcels Nos. 58, 58A and 58B on Route 14, Section 9, Oceanview-Seaville, from Eliza L. Smith, for the consideration of $200.00.

Right of Way-Route 15

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel #1 on Route 15, West Creek Bridge, M. P. 24.7, from J. Reid Chambers, for the consideration of $165.00.

Right of Way-Route 16

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcel No. 9 on Route 16, Section 5A, Somerville-Royce Valley section, from Theresa Woodruff and husband, for the consideration of $1.00.

Right of Way-Route 4

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase agreement for Parcel No. 3 on Route 4, Section 26, from George T. Farrier, widower, for the consideration of $450.00.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the following purchase agreements on Route 4, Cleveland Avenue Cut-off in Perth Amboy:

Parcel No.	Name	Amount
2A & 2B	Edwin Nelson,	$ 3,600.00
19	Ralph A. Bullis,	416.00
21	John Kniubas,	4,500.00
23A & 23B	Sol. R. Kelsey,	2,500.00

June 23, 1925.

Right of Way-Route 9

On recommendation of the State Highway Engineer, Commissioner Jelin moved that an offer of $450.00, same being the highest appraisal, be made to F. H. Cline, for Parcels Nos. 4 and 4A on Route 9, Section 16, Bloomsbury Cut-off and in the event of refusal that the property be acquired by condemnation in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route 9, Section 16, ALL that certain Lot, tract or parcel of land and premises situate, lying, and being in the State of New Jersey, and more particularly described as follows:

Parcel 4, Easement 4A

BEGINNING at a point formed by the intersection of the dividing line between lands of grantor herein on the east and lands now or formerly of Robert Tinsman on the west with the proposed northerly right of way line of State Highway Route 9, Section 16, distant thirty-three (33) feet normally from the proposed center line at Station 12 plus 2[illegible].19, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route 9, Section 16, property to be acquired from Frank H. Cline, Greenwich Township, Warren County, Scale 1" equals 50', March 1925", and running;

Thence (1) along said proposed northerly right of way line, North sixty-nine degrees, three minutes East (N 69° 03' 00"E) a distance of seven hundred eleven and eighty-[illegible] one-hundredths (711.[illegible]) feet to a point of curvature at Station 19 plus 40.0[illegible];
Thence (2) still along said proposed northerly right of way line in an easterly direction, concentric with and distant thirty-three (33) feet radially from the proposed center line of said State Highway, on the arc of a curve to the left with a radius of 1113.28 feet, a distance of three hundred ten and eighty-nine one hundredths (310.89) feet to a point of tangency at Station 22 plus [illegible].10;
Thence (3) still along said proposed northerly right of way line, North fifty-three degrees, three minutes East (N 53°03'00"E) a distance of one hundred eighty-nine and nine-tenths (189.9) feet to point of curvature at Station 24 plus 50.00;
Thence (4) still along said proposed northerly right of way line, in an easterly direction, on the arc of a curve to the right with a radius of 98[illegible].37 feet, concentric with and distant thirty-three (33) feet radially from the proposed center line of said State Highway a distance of one hundred fifty and seventeen one-hundredths (150.17) feet to a point of compound curvature at Station 25 plus 95.16;
Thence (5) still along said proposed northerly right of way line in an easterly direction, concentric with and distant thirty-three (33) feet radially from the proposed center line of said State Highway on the arc of a curve to the right with a radius of 606.69 feet, a distance of eighty-one and five-tenths (81.5) feet to a point in the dividing line between lands of grantor on the west and lands now or formerly of Paul Godfrey on the East, said point being distant thirty-three (33) feet normally from the proposed center line of said State Highway, at Station 26 plus 72.23;
Thence (6) along said dividing line, South five degrees, seven minutes, forty seconds East (S 5°07'40"E) a distance of sixty-eight and seventy-eight one-hundredths (68.78) feet to a point in the proposed southerly right of way line, distant thirty-three (33) feet normally from the proposed center line of said State Highway, at Station 2652.82

June 23, 1925.

Thence (7) along said proposed southerly right of way line, in a westerly direction, concentric with and distant thirty-three (33) feet radially from the proposed center line of said State Highway, on the arc of a curve to the left with a radius of 540.69 feet, a distance of fifty-four and thirty-four one-hundredths (54.34) feet to a point of compound curvature at Station 25 plus 95.16;

Thence (8) still along said proposed southerly right of way line, in a westerly direction, concentric with and distant thirty-three (33) feet radially from the proposed center line of said State Highway, on the arc of a curve to the left with a radius of 922.37 feet, a distance of one hundred forty and fifteen one-hundredths (140.15) feet to point of tangency marked P.C. 24 plus 50.00 on said plan;

Thence (9) still along said proposed southerly right of way line, South fifty-three degrees, three minutes West (S 53°04'00"W) a distance of one hundred eighty-nine and nine-tenths (189.9) feet to a point of curvature marked P. T. 22 plus 60.10 on said plan;

Thence (10) still along said proposed southerly right of way line, in a westerly direction, concentric with and distant thirty-three (33) feet radially from the proposed center line of said State Highway on the arc of a curve to the right with a radius of 1178.28 feet, a distance of three hundred twenty-nine and thirty-two one-hundredths (329.32) feet to a point of tangency marked P.C. 19 plus 40.00 on said plan;

Thence 11) still along said southerly right of way line, South sixty-nine degrees, three minutes West (S69°03'00"W) a distance of four hundred fifty and twenty-one one-hundredths (450.21) feet to a point in the dividing line between lands of grantor on the East and lands now or formerly of Nelson Deemer on the West, said point being distant thirty-three (33) feet normally from the proposed center line of said State Highway at Station 14 plus 89.79;

Thence (12) along said dividing line, North twenty-five degrees, forty-seven minutes West (N25°47'00"W) a distance of twenty and twelve one-hundredths (20.12) feet to a corner, distant twelve and ninety-five one-hundredths (12.95) feet normally from the proposed center line of said State Highway, at Station 12 plus 68.10;

Thence (13) still along said dividing line, South sixty-seven degrees, fifteen minutes, thirty-six seconds West (S67°15'36"W) a distance of two hundred fifty-six and fifty-five one hundredths (256.55) feet to a corner of lands of grantor on the northeast and lands now or formerly of Nelson Deemer on the southeast, lands now or formerly of Robert Tinsman on the northwest, and lands now or formerly of Mathias Awitner on the southwest, distant twenty and ninety-six one-hundredths (20.96) feet normally from the proposed center line of said State Highway, at Station 12 plus 61.76;

Thence (14) along the dividing line between lands of grantor on the east and lands now or formerly of Robert Tinsman on the West, North twenty-four degrees, thirty-nine minutes West (N24°39'00"W) a distance of fifty-four and seven one hundredths (54.07) feet to the point and place of beginning;

CONTAINING one and one hundred fifty-two one-thousandths (1.152) acres, be the same more or less, exclusive of existing roadway;

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the proposed right of way lines, distant thirty-three (33) feet each side of the proposed center line, extending from the lands now or formerly of Robert Tinsman and Nelson Deemer on the West to the lands now or formerly of Paul Godfrey on the East, as shown on said plan hereto attached;

TOGETHER with the right to discharge water to the Musconetcong River over lands of grantor, South and adjacent to the Highway, from pipes or culverts to be constructed at about Stations 16 plus 30, 20 plus 40, 26 plus 50, as shown on said plan hereto attached.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $450.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

This was seconded by Mr. Stewart and adopted.

Right of Way-Entrance Road, Camden

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution of condemnation for the acquisition of Parcels Nos. 67 and 68 on Section 3, Entrance Road, Camden, Approach to the Delaware River Bridge, from Mr. Charles Durachansky in view of the fact that he is confined to the Asylum for the Insane.

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Section 3, Entrance Road, Camden, ALL that certain lot, tract or parcel of land and premises situate, lying, and being in the State of New Jersey, and more particularly described as follows:

Parcel No. 67

BEGINNING in the westerly line of Chandlers Avenue, one hundred eighty (180) feet southerly from the southwest corner of Chandlers Avenue and Union Street and running;

Thence (1) along the dividing line between lands of grantor and Joseph Cramer North fifty-six degrees, fifty-nine minutes, forty seconds West (N56°-59'40"W) eighteen and four-hundredths (18.04) feet to the northerly right of way line of the proposed Connecting Road;

Thence (2) along said northerly right of way line parallel with and forty (4) feet distant from the proposed center line of said highway, North sixty degrees, fifty-two minutes, fifty seconds East (N60°52'50"E) twenty-two and sixty-two hundredths (22.62) feet to the dividing line between lands of grantor and Joseph Cramer;

Thence (3) along said dividing line South fifty-six degrees, fifty-nine minutes, forty seconds East (S56°40"E) seven and forty-six hundredths (7.46) feet to the westerly line of Chandlers Avenue;

Thence (4) along said westerly line South thirty-three degrees twenty seconds West (S33°00'20"W) twenty (20' feet to the place of beginning;

CONTAINING two hundred fifty-five (255) square feet be the same more or less;

INTENDING TO CONVEY that part of lot number eighteen, Block H, on a plan of First Addition to Highland recorded in the office of Register of Deeds of Camden County, that lies within the right of way lines of the proposed Connecting Road;

TOGETHER WITH the right to form and maintain slopes over adjacent lands of grantor; said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of adjacent lands from the level of said highway: the grantor hereby retaining the right to use such land providing such use does not interfere with said slopes or endanger said highway.

Parcel No. 68

BEGINNING in the westerly line of Chandlers Avenue one hundred sixty (160) feet southerly from the southwest corner of Chandlers Avenue and Union Street and running:

Thence (1) along the dividing line between lands of grantor and Charles Durachansky North fifty-six degrees, fifty-nine minutes, forty seconds West (N56°59'40"W) seven and forty-six hundredths (7.46) feet to the westerly right of way line of the proposed Connecting Road;

Thence (2) along said westerly right of way line, parallel with and forty (40) feet distant from the proposed center line of said highway, North sixty degrees fifty-two minutes, fifty seconds East (N60°52'50"E) fifteen and ninety-five hundredths (15.95) feet to the westerly line of Chandlers Avenue;

Thence (3) along said westerly line of Chandlers Avenue, South thirty-three degrees twenty seconds West (S33°00'20"W) fourteen and one tenth (14.1) feet to the place of beginning;

CONTAINING fifty-three (53) square feet be the same more or less;

INTENDING TO CONVEY that part of lot number sixteen (16) Block H, on the plan of First Addition to Highland recorded in the office of the Register of Deeds of Camden County, that lies between the right of way lines of the proposed Connecting Road;

TOGETHER WITH the right to form and maintain slopes over adjacent lands of grantor; said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of adjacent lands from the level of said highway, the grantor hereby retaining the right to use such land providing such use does not interfere with said slopes or endanger said highway.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of the said lands and premises.

Right of Way-Route 4

On recommendation of the State Highway Engineer, Commissioner Kidde moved that an offer of $500.00 be made to the Cedar Point Land Company for Parcel No. 1 on Route 4, Section 16A, Toms River Cut-off, and in the event of failure to accept, that the property be acquired by condemnation in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route No. 4, Section No. 16A, Toms River Cut-off, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel No. 1

BEGINNING at a point formed by the intersection of the dividing line between the Borough of Beachwood on the East and the Township of Berkeley on the West, with the dividing line between lands of New Jersey Southern R. R. (C.R.R. of N.J.) on the South and the lands of Cedar Point Land Company on the North, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route 4, Section 16A, Property to be acquired from Cedar Point Land Company, Berkeley Township, Ocean County, Scale: 1" = 50', November 1924" and running;

Thence (1) along said dividing line, being also the proposed southwesterly right of way line of State Highway Route 4, Section 16A, North twenty degrees, forty-eight minutes and forty seconds West (N20°48'40"W) a distance of nine hundred four and thirty-one one-hundredths (904.31) feet to a point of curvature distant thirty (3) feet southwesterly from the proposed center line of said State Highway, at Station 2589+27.35, as shown on afoermentioned plan;

Thence (2) still along said dividing line and said proposed southwesterly right of way line, in a northwesterly direction along the arc of a curve to the left with a radius of 3844.83 feet, a distance of five hundred thirty-two and two-tenths (532.20) feet to a point at the shore of Toms River;

Thence (3) along a radius to the curve of said center line of said State Highway, North sixty-one degrees, fifteen minutes and twenty-nine seconds East (N61°15'29"E) a distance of sixty-three (63) feet to a point in the proposed northeasterly right of way line;

Thence (4) along said right of way line in a southeasterly direction, along the arc of a curve to the right with a radius of 3907.83 feet, a distance of five hundred forty and ninety-three one-hundredths (540.93) feet to a point of tangency distant thirty-three (33) feet northeasterly from the proposed center line of said State Highway;

Thence (5) still along said right of way line, South twenty degrees, forty-eight minutes forty seconds East (S20°48'40"E) a distance of eight hundred sixteen and eighty-two one-hundredths (816.82) feet to a point of curvature, distant thirty-three (33) feet northeasterly from the said proposed center line of said State Highway, at Station 2581 plus 10.53 - 2581 plus 09.67;

Thence (6) still along said proposed new northerly right of way line in a northwesterly direction, along the arc of a curve to the left with a radius of 922.37 feet, a distance of fifty-nine and fourteen one-hundredths (59.14) feet to a point in the dividing line between the Borough of Beachwood on the South and Berkeley Township on the North;

Thence (7) along said dividing line, South forty-five degrees. thirty-three minutes and twenty seconds West (S45°33'20"W) a distance of seventy and eighty-three one-hundredths (70.83) feet to the point and place of beginning;

CONTAINING two and sixty-three one-thousandths (2.063) acres, be the same more or less;

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the lands of the New Jersey Southern R. R. (C.R.R. of N.J.) and the proposed northeasterly right of way line, parallel to and thirty-three (33) feet northeasterly from the proposed center line of said State Highway, extending from the lands now or formerly of Mary South on the South to the shore of Toms River on the North, as shown on said plan hereto attached.

IT IS HEREBY UNDERSTOOD AND AGREED that the cash consideration hereinabove agreed to is to be considered by both parties hereto as payment in full to the grantor, his heirs, lessees, or anyone acting in his or their behalf, of all claims for damages of whatever nature resulting directly or indirectly from the construction and improvement of the road.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission to make an offer of the sum of $500.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement, with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

There was presented a communication from Hon. F. W. DeVoe, Assistant Attorney General, transmitting a letter received from Judge Hicks, Attorney for the Robert E. Lee Morgan Estate, advising that Mr. Morgan will execute a quit claim deed providing there is reversion in the case the land is not used for public purposes. On motion by Mr. Stewart, seconded by Mr. Kidde, this communication was ordered referred to Mr. Jelin for attention, since it is the purpose of the Commission to acquire property in fee wherever it is obtained for highway purposes.

June 23, 1925.

Right of Way-Entrance Road, Camden

The Secretary informed the Commission that he had received word that Vice Chancellor Backes had approved of the sale of the property of the N. Z. Graves Co. Inc. to the State for the Entrance Road at Camden, subject to an affidavit from the appraisers that the amount is a fair one for the property. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the Right of Way Division be instructed to secure suitable affidavits which will satisfy the Court and to prepare the necessary deeds in order to complete negotiations in this matter.

Right of Way-Route 3

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that an appeal be made in the case of Edward L. Brearey condemnation, where there was an award of $475.00 for property on Route 3, Section 11, Berlin-Hammonton section, in view of a communication received from Division Engineer Williams.

Alloway Creek Bridge-Route 6

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission accepted a grant of riparian rights from the State Board of Commerce & Navigation as necessary for the construction of the Bridge over Alloway Creek on Route 6, Section 1[illegible], Salem County for the consideration of $45.00.

Entrance Road, Camden Bridge Approach

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the execution of an agreement and authorized the Chairman to sign same covering construction of an undercrossing of the Camden Bridge Boulevard between the tracks of the United New Jersey Railroad & Canal Company and the Pennsylvania Railroad, whereby the State will bear the expense of a bridge over the tracks for the railroad in return for the right to construct and maintain a highway over and across the right of way of the railroad and for which the State will pay the railroad the sum of $5,0[illegible].00, and upon the completion of the work in consideration of further maintenance of the bridge by the railroad company.

June 23, 1925.

Complaints-Route 4

There was presented a communication received from Mr. Daniel Doran concerning protection to traffic at the unction of State Highway Route 4 and the Long Branch Boulevard.

There was also presented a report from the Maintenance Division advising that this intersection is amply wide and open if traffic observes the ordinary rules of the road, and the greatest danger on this road lies to cars passing North on Monmouth Road, and there is already a flashing signal located approximately 400 feet South of the intersection and a sign post marked "Dangerous Curve" approximately 250 feet South.

State Highway Sloan informed the Commission that in his opinion the State Highway Commission has fulfilled all its obligations regarding traffic at this point and no further need exists for additional signs. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the report of the Maintenance Division be forwarded to Mr. Doran with the recommendation of the State Highway Engineer that he believes the obligation of the State Highway Commission be fulfilled to the traveling public at this location.

Route 20, Section 2, Glassboro

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved an agreement to be entered into with the Borough of Glassboro on Route 20, Section 2, covering cost of extra width of pavement to be paid for by the Borough at the time the State Highway work is proceeded with.

Route 9, Dunellen

There was presented a communication from the Mayor of Dunellen, advising that the Town is ready to proceed with the paving of three blocks running from Madison Avenue to Jackson Avenue on Route 9.

State Highway Engineer Sloan recommended to the Commission that this improvement be carried out, provided the Public Service Railway Company will contribute $1.00 a square yard, amounting to $4,205.00, and that the Borough will contribute 50% of the remainder, and the State to contribute the balance of 50%; the total remaining cost estimated to be $24,167.25. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State

Highway Engineer and authorized the preparation of plans and specifications and advertisement for the construction work at the earliest possible moment after satisfactory negotiations are completed.

Sidewalks-Route 13

State Highway Engineer Sloan reported that the authorities of Lawrence Township have advised that they propose to construct sidewalks between the Trenton City Line and Lawrenceville on Route 13, and have requested that the State provide sidewalks across bridges and culverts which lie within this distance. He advised that the estimated cost of sidewalks on one side of these bridges is approximately $8,000.00 and due to the heavy traffic on the highway and especially the pedestrian traffic which is following the rapid building up of this district, that he would recommend that this work be done. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of the State Highway Engineer.

✓ Flemington-Ringoes Road

State Highway Engineer Sloan reported to the Commission that there was available approximately $80,000.00 of funds from the amount originally set up for the construction of the Flemington-Ringoes Road, in view of the low bid received on the project and he recommended that the County of Hunterdon be permitted to declare an emergency existing for the extension of this route to Ringoes in order that the balance of the funds may be placed on highway construction in that territory.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer and directed that the authorities of Hunterdon County be notified that if they may declare an emergency and enter into a contract with the present contractor at his bid prices for the extension of the project, the Commission will be willing to have the remaining funds applied on the work.

Employments

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the following additions, changes, and increases as made by the State Highway Engineer in the employments since the last meeting of the Commission:

June 23, 1925.

Employed

6-8-25	Wm. D'Arcy,	Office Boy	$ 40.00	mo.
6-17-25	Floyd Wood,	Highway Inspector	155.00	"
7-1-25	George Vogel,	Clerk-Typist	80.00	"
6-15-25	Leonard R. Bridadier,	Rodman	75.00	"
6-15-25	Max Ellis,	"	90.00	"
7-1-25	Jacob H. Melick,	Junior Inspector	125.00	"
7-15-25	Wm. F. Dittig,	Asst. Civil Engineer	165.00	"
6-22-25	A. E. Schenck,	Rodman	90.00	"
6-16-25	Warren P. Harned,	"	90.00	"
6-8-25	Paul T. Cranston,	Chainman,	60.00	"
6-11-25	Francis S. Mahedy,	Jr. Engineer	125.00	"
6-15-25	Benjamin Solway,	Laboratory Assistant	90.00	"
6-22-25	John B. Jacobs,	" "	90.00	"
6-23-25	Wm. Aronson,	" "	90.00	"
6-15-25	Patrick Henry,	Cost Clerk	100.00	"
6-22-25	M. E. McNatt,	Key Punch Operator	100.00	"
6-25-25	John V. Danko,	Levelman	150.00	"
7-1-25	Samuel E. Bullock,	Asst.Civ.Eng.to Sr.Drfts.	160.00	"
7-1-25	John G. Eyre,	Sr. Drfts.	165.00	"
7-1-25	Irving B. Thomas,	" "	200.00	"
5-25-24	L. E. Sharp,	Mechanic	.60	hr.
6-16-25	Paul T. Buffin,	Motor Truck Driver	.45	"
6-8-25	Frank Cahill,	" " "	.45	"
5-26-25	Thomas Capano,	" " "	.40	"
6-10-25	John M. Collis,	Mechanic	.65	"
6-18-25	Raymond Brown,	Garage Assistant	.50	"
6-5-25	John Bradle,	Motor Truck Driver	.40	"
6-3-25	Nathaniel Frankel,	" " "	.45	"

6-2-25	Walter Demeritt,	" " "	.40	"
5-26-25	Joseph Lapin,	" " "	.45	"
6-8-25	Norman Findlay,	" " "	.45	"
6-15-25	Elmer R. Burchell,	" " "	.40	"
6-15-25	Wilmer Eisenbrey,	" " "	.45	"
6-15-25	Joseph Crouthamel,	" " "	.45	"

Salary and Title Change

6-16-25	George W. Pearson,	Junior Inspector at Highway Inspector at	$ 135.00 155.00	mo. to "
7-1-25	John H. Hulse,	Engineering Drfts. at Senior Drfts. at	125.00 150.00	" to "

Discontinued Employments

6-30-25	John R. Stubbins,	Resident Engineer	Resigned
7-1-25	James L. Coombes,	" "	"
7-1-25	Mathew Korpi,	Draftsman	"
7-1-25	Albert Brandli,	Bridge Drfts. & Des.	"
5-31-25	F. L. Williams,	Rollerman,	"

Increase

6-15-25	Benj. F. Stokes,	Sr. Cost Clerk,	$125. to $135. mo.

Phillipsburg-Belvidere, Section 2,
Motor Vehicle Aid-Warren County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the award of contract by Warren County for the Phillipsburg-Belvidere Road, Section 2.

June 23, 1925.

Paulsboro-Swedesboro Road,
Motor Vehicle Aid-Gloucester County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award of contract by Gloucester County for the Paulsboro-Swedesboro Road, Section 2, Gloucester County, Motor Vehicle Aid.

Hewitt-New York State Line Road

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission reapproved the plans and specifications for the Hewitt-New York State Line Road, Passaic County, known as Federal Aid Project No. 54.

Township Aid-Mercer County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for the Pennington-Princeton Road, Hopewell Township, Mercer County, Township Aid.

Lambertville County Line,
Motor Vehicle Aid-Hunterdon County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for the reconstruction of the Lambertville-County Line Road, Hunterdon County, Motor Vehicle Aid.

Maintenance Materials-Cumberland Co.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved specifications for SCO to be used on roads in Cumberland County during 1925.

Township Aid-Middlesex County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment on the Union Valley-Gravel Hill Road, Monroe Township, Middlesex County, Township Aid.

Wildwood Boulevard,
Motor Vehicle Aid-Cape May County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment on the Wildwood Boulevard, Section 2, Lower Township, Cape May County, Motor Vehicle Aid.

East Broad St., Westfield,
Motor Vehicle Aid-Union County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment on East Broad

Street, Westfield, Union County, Motor Vehicle Aid work.

Township Aid Transfer, Ocean County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved transfer of $500.00 from Pine Street to Park Avenue and Front Street in Lakewood Township, Ocean County.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved transfer of $1,362.22 from Lake Drive and Case Road to the construction of Park Avenue and Front Street in Lakewood Township, Ocean County.

Route 5, Section 12

Commissioner Kidde advised that he had not yet made inspection of Route 5, Section 12, but would make same on Monday, June 29th.

Route 9, Cranford

Commissioner Stewart inquired concerning the situation existing on Route 9 through Cranford and inquired as to whether it was possible to proceed with the advertisement at this time. The State Highway Engineer advised that an agreement had been prepared and was now in the hands of the authorities of Cranford, but nothing definite had been received. Commissioner Stewart then moved that a communication be forwarded to the Town authorities of Cranford, advising that plans and specifications have been ready for some time, and that an agreement to be entered into with the municipality is now in their hands and the State Highway Commission is very anxious to proceed with this work at the earliest possible moment, and would like to hear from them at once as to what is the reason for delay. This was seconded by Mr. Jelin and adopted.

Route 4, Section 33.

The State Highway Engineer informed the Commission that plans and specifications have been prepared for advertisement by the City of Perth Amboy for the construction of Route 4, Section 33, known as the Perth Amboy Bridge Cut-off in Perth Amboy, and he recommended that the same be approved by the Commission. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

June 23, 1925.

RESOLVED, that the State Highway Commission does hereby approve plans and specifications as presented by the City of Perth Amboy for the improvement of Route 4, Section 33, Perth Amboy Bridge Cut-off in the City of Perth Amboy, Middlesex County, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the Clerk of the City of Perth Amboy is directed to place the necessary advertisement for this work.

The State Highway Engineer explained that the advertisements for this work would be placed by the Secretary of the Commission in the name of the Clerk of the City of Perth Amboy and that bids will be received at the offices of the Commission in the name of the Board of Aldermen of Perth Amboy.

Increases

State Highway Engineer Sloan presented to the Commission a list of proposed increases to be granted to a number of employees of the State Highway Department, who have satisfactorily completed their twelve months' service and who merit increases in accordance with his recommendations. The Commission then went into conference on the matter of increases and following this conference Commissioner Jelin moved that the salary rate of the State Highway Engineer be increased from $13,200 to $14,000 per annum, effective July 1, 1925, which was seconded and passed.

Commissioner Stewart moved that the remaining list of increases be held over for consideration at the next meeting of the Commission, since this will give the Commissioners time to properly consider the recommendations as made.

Route 1 Extension, Newark.

Commissioner Kidde advised that he had arranged for an appointment with Mayor Raymond of Newark to be held at the office of Mayor Raymond on Monday, June 29th at 10:30 A.M. and he suggested that State Highway Engineer Sloan and Assistant Construction Engineer Lavis be present at that time and he also suggested that briefs which are being arranged to be presented at the July 10th meeting before the War Department, be ready for consideration on Monday, that these may be gone over at that time.

June 23, 1925.

Signals - Rahway

The State Highway Engineer presented a matter laid over at the last meeting in which request was made by the City of Rahway for aid in the amount of $13,060.00 for the installation of traffic signals on State Highways within that municipality. Commissioner Jelin advised that this matter had been discussed at the last meeting but was held over due to the absence of Commissioner Stewart, State Highway Engineer Sloan explained that the Commission had never established any precedent for the installation of traffic signals within municipalities, and he recommended that this application be denied. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that the application be not approved.

On motion by Mr. Jelin, seconded by Mr. Kidde, the meeting was declared adjourned to meet again at the call of the Chairman.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - June 30, 1925.

A regular meeting of the State Highway Commission was held at the meeting rooms of the Commission, Broad Street Bank Building, Trenton, Twesday, June 30, 1925. The meeting was called to order by Chairman Scott at 10:30 A. M.

Present: Gen. H. L. Scott, Chairman, Messrs. Percy H. Stewart and Walter Kidde.

Absent: Abraham Jelin on a trip to the South.

Right of Way, Route 1, Extension

The Secretary informed the Commission that Mr. Ault of Ault & Wilborg, together with representatives of his company, were present to discuss with the Commission the matter of property needed for highway purposes on the line of Route #1 Extension, Jersey City. On motion, duly seconded, a hearing was granted.

Mr. Ault appeared together with Mr. Holt, his Jersey City Manager, Mr. Stevens and Mr. Hammett, Attorney. Mr. Ault advised that his company regretted very much that it was necessary for the State to adopt a line which would necessitate the taking of a portion of their property. He also stated that at the present time the color plant is so located that it does not catch the dust of the street, while under the proposed plan of the State a viaduct will be constructed close to their second story windows and this will expose them to serious hazards from dust on the highway.

Commission Kidde advised that together with asst Construction Engineer Lavis he had made a thorough investigation of the property, and he had conferred with Mr. Holt, and it appeared that since the negotiations with the Erie Railroad Company have been satisfactorily completed, there would be no serious damage done to the Ault & Wilborg plant other than taking off just one bay on the southern exposure, which would take part of the shipping facilities and necessitate the reorganization of the chemical laboratory. No machinery would be disturbed.

Mr. Ault replied by stating that the damage, which would be suffered by reason of the change, would be very serious.

Mr. Stewart stated that he could not see that there would be any more damage from dust than at present exists in that locality with an unimproved street, and the railroad yards very close, and he stated that even though the highway is not to be placed on 13th Street, the

Erie Railroad Company has in contemplation large warehouses with constant trucking facilities which will be as great a disadvantage as they claim for the highway route.

Commissioner Stewart inquired from Mr. Ault whether there were any propositions from his company to the State. Mr. Ault stated that it was estimated that his company was entitled to $650,000.00 for land taken and damage to the remainder.

Mr. Stewart advised that the Commission could not agree to any such figures and asked for a statement which would show how this figure was arrived at. Mr. Stewart advised that the value of the property would be enhanced by the construction of the viaduct and the Ault & Wilborg Company should not ask for more than the cost of replacing or relocating those buildings which are taken away and payment for the actual land taken by the State.

Mr. Ault inquired whether the State could not take his entire property and he was informed in the negative, due to laws which limit the taking of such lands as are required for public uses only. Mr. Ault then inquired as to what estimates the State had prepared.

Mr. Stewart advised that experts for the Commission had placed the actual damage to the property between $65,000.00 and $100,000.00.

Mr. Stevens advised that there must be some radical differences in the fugures and suggested that the engineers get together to determine upon the actual land taken by the State since he stated there must be some error in the mind of the Ault & Wilborg Company as to the actual needs of the State for this highway. He also advised that no consideration had been given the fact that Colt Street would be lowered in order to provide driving space under the viaduct.

Mr. Holt advised that difficulties would be met in trying to move any part of the building on to the open land adjacent, due to the fact that there are a great number of oil tanks beneath the surface of the ground. Mr. Holt also inquired as to what disposition would be made of the existing 13th Street viaduct upon the completion of the present. He was informed by Commissioner Stewart that there was a provision in the contract with the Erie Railroad Company whereby the State agrees to use its good offices toward securing the removal of the 13th Street viaduct in order to permit of the Erie coach yard, to be built upon the completion of the 12th Street viaduct.

Commissioner Stewart then asked that a statement be prepared by the Ault & Wilborg Company showing the various items on which they based their claim for damages, and the manner in which these items were compiled.

Mr. Ault advised that he would prepare such a statement and present it at the earliest possible date to the Commission.

Route #9, Section "C", Connecting Road, Plainfield

The Secretary informed the Commission that Mr. A. W. Vars, City Engineer of Plainfield, was present and desired consideration for the award of contract made by the City of Plainfield, subject to approval of the State Highway Commission, on Route #9, Section "C", Connecting Road through Plainfield. The Secretary advised that the low bid had been received from the Weldon Contracting Company in the amount of $158,609.40.

State Highway Engineer Sloan recommended that the Commission approve this award. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve of award of contract by the City of Plainfield for the construction of Route #9, Section "C" Connecting Road, in the City of Plainfield, and
>
> BE IT FURTHER RESOLVED that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Request for Aid, Hunterdon County

The Secretary informed the Commission that Mrs. A. B. Courtley of Woodsville was present and desired a hearing. On motion, duly seconded a hearing was granted. Mrs. Courtley appeared and advised that she was very much interested in the completion of the Lambertville-Woodsville Road on which a beginning was made two years ago and which had never been improved. She asked that Township Aid funds be allotted.

Assistant State Highway Engineer Reed informed the Commission that there were applications from Hunterdon County in an amount exceeding $200,000.00 for the coming year, and there is actually available only $40,000.00 to the County.

Commissioner Stewart advised that in view of the great demands for township aid funds in Hunterdon County on more important projects, he would not be favorable to giving this consideration at this time.

Request for Aid, Proposed New Routes - Monmouth County

The Secretary informed the Commission that a delegation from Monmouth County was present and desired a hearing. On motion, duly seconded, a hearing was granted. There appeared County Engineer Allen Director of the Board Newcomb, Road Committee Chairman Borden and Freeholders Polhemus, Bergen and Wyckoff. Mr. Allen presented a plan and advised that the County appeared concerning a matter brought to their attention by the State Highway Commission, whereby the State expressed an interest in aiding the County if a highway could be improved close to the line of the Shore Boulevard which would relieve the traffic congestion now existing on the Shore Boulevard. Mr. Allen explained his line starting at Sylvania Avenue just West of the railroad at Avon and continuing through Asbury Park to Summit Avenue at Deal Lake over a proposed bridge about 1,000 feet long and then continuing on to Monmouth Road, a distance of 4.8 miles. It was estimated that this highway, including the bridge and right of way, would involve a cost of $850,000.00.

Commissioner Kidde stated that it was his understanding that the total estimated cost would include the Shark River bridge, proposed by the State Highway Commission. He was informed in the negative. Commissioner Stewart advised that the State had at the present time the total sum of $200,000.00 which could be allotted to this improvement, and inquired whether the County was willing to proceed with the same on the basis of this aid.

Mr. Bergen stated that if the bridge over Deal Lake was eliminated this would cut the estimate by $350,000.00 and the County would be willing to go fifty-fifty on whatever road construction was undertaken.

Commissioner Kidde stated that from the map he could not see any advantage in constructing a line so close to the Shore Boulevard if it was to be considered a cut-off and a relief to traffic along the shore. He suggested that a line further inland following Ridge Avenue extended be improved, which would be much cheaper in cost and not necessitate a new bridge over the lake, the construction of which bridge he was sure would cause a tremendous protest from the residents at Deal Lake.

Mr. Allen advised that due to the fact that the proposition had come from the State as to the line near the Shore Boulevard, no consideration had been given to a line further inland, and he stated that it is practically agreed by every one that the line as laid out on his map would relieve the congestion of traffic on the Shore Road.

Director Newcomb inquired whether the State would hold the $200,000.00 as tentatively set up for the County until some definite scheme could be worked out by the County for taking up this money from the State.

The Chairman advised that the Commission was very anxious to have all its money at work at the earliest possible time, but that if immediate steps were taken to bring this matter to a conclusion, there was no reason why the State would not have these funds available.

Commissioner Stewart stated that this matter would be given attention and the County would be notified as to what the desires of the State were with reference to the roadway at the earliest moment.

Senate Investigating Committee

The Secretary next brought to the attention of the Commission a Departmental Questionnaire as received from the Joint Investigating Committee of State Affairs, and which has been completely answered. These answers were read in their order following which Commissioner Stewart moved that the same be approved by the Commission and the signature of the Chairman authorized to the same. This was seconded by Mr. Kinde and adopted.

Right of Way, Route1, Extension

State Highway Engineer Sloan requested that consideration be given at this time to item #6 of the schedule of business which covers property matters on Route 1 Extension, Jersey City.

There was presented a report from Construction Engineer Lavis covering a number of property matters; in which he advised that Mr. Adler, Special Right of Way Agent, had negotiated and secured signatures on the property of John and Anton Dubick for $36,000.00 and approval was recommended. State Highway Engineer Sloan also recommended that this payment be made since it represented the appraised value. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase of property from John and Anton Dubick in accordance with purchase agreement, for the consideration of $36,000.00.

There was also presented a purchase agreement secured by Mr. Adler from Charlotte and Patrick McCabe for $14,000.00 for Route #1 Extension property. State Highway Engineer Sloan recommended that approval be given this agreement and on motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of property from Charlotte and Patrick McCabe for the consideration of $14,000.00.

There was presented an agreement secured by Mr. Adler from Mary Featherston, known as Parcel #11 on Route #1 Extension, Jersey City, for the consideration of $11,500.00. Approval of same was recommended by the State Highway Engineer and Commissioner Kidde moved the approval of the purchase of Parcel #11 on Route #1 Extension, Jersey City, from Mary Featherston for the consideration of $11,500.00. This was seconded by Mr. Stewart and adopted.

There was presented by Construction Engineer Lavis a report to the effect that on Parcel #16 the owner K. Appolant, was asking $42,000.00 while an offer in the amount of the highest appraisal $29,000.00 has been made. State Highway Engineer Sloan recommended that an offer of $29,000.00 be made, and in the event of refusal that condemnation proceedings be instituted. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer and adopted the following resolution of condemnation:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route No. 1, Extension, ALL that certain Lot, tract or parcel of land and premises situate, lying, and being in the State of New Jersey, and more particularly described as follows:

Parcel #16

Beginning at a point in the northeasterly side line of Hoboken Ave., said point being distant one hundred fourteen and seventy-eight one-hundredths (114.78) feet in a southeasterly direction from the intersection formed by the southeasterly side line of Baldwin Avenue with the northeasterly side line of Hoboken Avenue, as shown on a plan hereto attached, marked "Exhibit A" and entitled "New Jersey State Highway Department, Route 1 Extension, Property to be acquired from Kenneth Apolant, City of Jersey City. Hudson County. June 1925", said beginning point also being in the southeasterly line of a certain ten foot right of way as shown on a map on file in the Registers Office of Hudson County, New Jersey. entitled "Map of property of Marous Beach in Jersey City, surveyed and laid out by Charles Hopper, C. R. and Surveyor, Fed. 1901 thence (1) in a northeasterly direction along the aforesaid southeasterly line of the ten foot right of way described above and normally to the northeasterly side line of Hoboken Avenue, a distance of sixty-nine (69) feet more or less to a point in the proposed northeasterly right of way line of State Highway Route 1 Extension parallel to and distant two hundred eight and seventy-five one-hundredths (208.75) feet from the existing monumental center line of the Erie Railroad passenger tracks: thence (2) along the aforesaid proposed northeasterly right of way line of State Highway Route 1 Extension in a southeasterly direction a distance of seventy-six and five-tenths (76.5) feet more or less to the dividing line of the lands of Kenneth Apolant on the West and lands now or formerly of Adolphine Stolz and husband on the East: thence (3) southwesterly along the aforesaid dividing line of Kenneth Apolant and Adolphine Stolz and husband, a distance of three (3) feet be the same more or less to the dividing line between lands of Kenneth Apolant on the North and lands now or formerly of the Dominent Club on the South; thence (4) along the aforesaid dividing line between lands of Kenneth Apolant on the North and lands of the Dominent Club on the South in a northwesterly direction and parallel with Hoboken Avenue, a distance of five (5) feet to an angle point: thence (5) still along said dividing line between lands of Kenneth Apolant on the North and lands of the Dominent Club on the South and in a northwesterly direction a distance of twenty-five and three one-hundredths (25.03) feet to a point; said point being the northwest corner of lands now or formerly of the Dominent Club; thence (6) in a southwesterly direction along line of lands of Kenneth Apolant on the West and lands now or formerly of the Dominent Club on the East, a distance of fifty-three and ninety-six one-hundredths (53.96) feet to the northeast side line of Hoboken Avenue; thence (7) in a northwesterly direction along the northeasterly side line of Hoboken Avenue, a distance of forty-eight (48) feet to the point and place of Beginning;

CONTAINING three thousand, two hundred eighty-six (3,286) square feet, be the same more or less: as shown on said plan, it being the intention to acquire all lands lying between the lands now or formerly of the Dominent Club and Adolphine Stolz and husband on the East and a ten-foot right of way on the West, and extending from the northeasterly side line of Hoboken Avenue on the South to the proposed northeasterly right of way line of State Highway Route 1 Extension on the North; Being parts of Plots 6H & 62, Block 557 as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $29,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Construction Engineer Lavis reported that on Parcel No. 21 the owner, the West Side Construction Company, was asking $100,000.00, and the highest appraisal is for $60,000.00 State Highway Engineer Sloan recommended that an offer of $60,000.00 be made and in the event of refusal to accept that condemnation proceedings be instituted.

June 30, 1925.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the recommendation of the State Highway Engineer and adopted the following resolution of condemnation:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route No. 1 Extension, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel No. 21

BEGINNING at a point formed by the intersection of the northwesterly side line of Baldwin Avenue with the northeasterly side line of Hoboken Avenue, as shown on a plan hereto attached marked "Exhibit A" entitled "New Jersey State Highway Department, Route No. 1 Extension, Property to be acquired from West Side Construction Company, City of Jersey City, Hudson County, June 1925" and running; thence (1) along said northeasterly side line of Hoboken Avenue, in a northwesterly direction, a distance of thirteen and three tenths (13.3) feet to an angle point in aforesaid line of Hoboken Avenue; thence (2) still along the northeasterly side line of Hoboken Avenue, in a northwesterly direction, a distance of ninety-one feet and thirty-one one-hundredths of a foot (91.31) to the dividing line between the lands of the West Side Construction Company on the East and lands now or formerly of Leopold Albert [illegible] on the West; thence (3) northeasterly along the aforesaid dividing line between the lands of West Side Construction Company on the East and lands now or formerly of Leopold Albert [illegible] on the West, said line being parallel with the aforesaid side line of Baldwin Avenue, a distance of eighty-eight feet and sixty-six one-hundredths of a foot (88.66) to the dividing line between lands of West Side Construction Company on the South and lands now or formerly of Israel Schachner on the North; thence (4) along said dividing line between the lands of West Side Construction Company and Israel Schachner, said line being normal to the dividing line mentioned in the third course, a distance of forty-two (42) feet, more or less, to a point in the proposed northeasterly right-of-way line of State Highway Route #1 Extension, said line being parallel to and distant two hundred and [illegible] feet and [illegible]-five one-hundredths of a foot (2[illegible].7[illegible]) from the [illegible] center line of the Erie Railroad passenger tracks; thence (5) along said proposed northeasterly right-of-way line of State Highway Route #1, Extension, in a southeasterly direction, a distance of sixty-three (63) feet, more or less, to a point in the northwesterly side line of Baldwin Avenue, in a southwesterly direction, a distance of ninety six (96) feet, more or less, to the point and place of beginning; containing nine thousand eight hundred eighty (9880) square feet, be the same more or less, as shown on said plan. It being the intention to acquire all lands lying between the northwesterly side line of Baldwin Ave., on the east, and the easterly line of lands now or formerly of Leopold Albert [illegible], on the west, and from the northeasterly side line of Hoboken Ave., on the southwest, extending to the southwesterly lines of lands now or formerly of Israel Schachner and the proposed northeasterly right of way line of State Highway Route No. 1 Extension on the northeast, as shown on said plan hereto attached. Being part of Lots 1-A, 2-A, 3A, and 4A. Block #561, as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $60,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with the owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

June 30, 1925.

Construction Engineer Lavis reported that on Parcel #22 the owner L. Bittighoffer has named a price of $18,000.00 and the average appraisal is for $14,000.00. State Highway Engineer Sloan recommended than an offer of $14,000.00 be made and in the event of refusal to accept that condemnation proceedings be instituted. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the recommendation of the State Highway Engineer and adopted the following resolution of condemnation:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route No. 1 Extension, ALL that certain Lot, tract or parcel of land and premises situate, lying, and being in the State of New Jersey, and more particularly described as follows:

Parcel #22

BEGINNING at a point in the northeasterly side line of Hoboken Avenue distant in a northwesterly direction from the intersection of the northwest corner of Baldwin and Hoboken Avenues one hundred thirty-one and thirty-eight one-hundredths (131.38) feet to the dividing line between the lands of Leopold Albert Bittighofer et ux., on the east and lands now or formerly of Francis F. Kruse on the west as shown on a plan hereto attached and marked "Exhibit A", entitled "New Jersey State Highway Department Route #1 Extension, Property to be acquired from Leopold Albert Bittighofer, City of Jersey City, Hudson County, June, 1925:" thence (1) in a northeasterly direction along the aforesaid dividing line between the lands of Leopold Albert Bittighofer et ux., on the east and lands now or formerly of Francis F. Kruse on the west, said line being parallel with the northwesterly side line of Baldwin Avenue, a distance of one hundred (100) feet, more or less, to a point in the proposed northeasterly right-of-way line of State Highway Route #1 Extension, parallel to and distant two hundred eight and seventy-five one-hundredths (208.75) feet from the existing monumented center line of the Erie R. R. passenger tracks; thence (2) along the aforesaid proposed northeasterly right of way line of State Highway Route #1 Extension in a southeasterly direction a distance of twenty-five (25) feet more or less, to the dividing line between the lands of Leopold Albert Bittighofer et ux., on the west and lands now or formerly of Israel Schachner on the east; thence (3) in a southwesterly direction along the aforesaid dividing line between the lands of Leopold Albert Bittighofer et ux., and Israel Schachner a distance of eleven (11) feet more or less to a point, said point being the southwest corner of lands now or formerly of Israel Schachner; thence (4) in a southeasterly direction along the dividing line between lands of Leopold Albert Bittighofer et ux., on the south and lands now or formerly of Israel Schachner on the north said line being parallel to the dividing line mentioned in the third course, a distance of two (2) feet to a point, said point being the southwest corner of lands now or formerly of the West Side Construction Company; thence (5) southwesterly along the dividing line between the lands of Leopold Albert Bittighofer et ux., on the west and lands now or formerly of the West Side Construction Company, on the east said line being parallel with Baldwin Avenue, a distance of eighty-eight and sixty-six one-hundredths (88.66) feet to the northeasterly side line of Hoboken Avenue; thence (6) along said northeasterly side line of Hoboken Ave., in a northwesterly direction a distance of twenty-six and seventy-seven one-hundredths (26.77(feet to the point and place of beginning; Containing two thousand five hundred seventy-eight square feet (2578) be the same more or less as shown on said plan: It being the intention to acquire all lands lying between the westerly line of lands now or formerly of the West Side Construction Company and westerly line of lands now or formerly of Israel Schachner on the east and easterly line of lands now or formerly of Francis F.

June 30, 1925.

Kruse on the west and from the northeasterly side line of Hoboken Avenue on the southwest extending to the proposed northeasterly right-of-way line of State Highway Route #1 Extension as shown on said plan hereto attached: Being part of plot 5A, Block 561 as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed onbehalf of this Commission, to make an offer of the sum of $14,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Construction Engineer Lavis reported on Parcel #24 that the owners Schranz & Beib would accept $100,000.00 in a settlement, but were asking $150,000.00 for the property at this time. State Highway Engineer Sloan recommended that $60,000.00 be offered for this property and in the event of refusal that condemnation proceedings be instituted. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the recommendation of the State Highway Engineer and adopted the following resolution of condemnation:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #1 Extension, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #24

BEGINNING at a point in the northeasterly side line of Hoboken Avenue, distant in a northwesterly direction from the intersection formed by the northeasterly side line of Hoboken Avenue and the northwesterly side line of Baldwin Avenue, two hundred eight and fifty-eight one-hundredths (208.58) feet to the dividing line between the lands of Schranz and Bieber Company on the east and lands now or formerly of Francis F. Kruse on the west as shown on a plan hereto attached and marked, entitled, "New Jersey State Highway Department, Route 1 Extension, Property to be acquired from The Schranz and Bieber Co., Inc., City of Jersey City, Hudson County, June, 1925"; thence (1) northeasterly along the aforesaid dividing line between the lands of Schranc and Bieber Company on the east and lands now or formerly of Francis F. Kruse on the west, said line being parallel to the aforesaid northwesterly side of Baldwin Avenue a distance of one hundred (100) feet more or less to a point in the proposed northeasterly right of way line of State Highway Route #1 Extension parallel to and distant two hundred eight and seventy-five one-hundredths (208.75) feet from the existing monumented center line of the Erie Railroad passenger tracks; thence (2) along the aforesaid proposed northeasterly right of way line of State Highway Route #1 Extension in a southeasterly direction a distance of fifty-two (52) feet more or less to the dividing line between lands of Schranz and Bieber Company on the west and lands now or formerly of Francis F. Kruse on the east; thence (3) southwesterly along the aforesaid dividing line between lands of Schranz and Bieber Company on the west and lands now or formerly of Francis F. Kruse on the east, said line being parallel to the aforesaid side line of Baldwin Avenue a distance of one hundred (100) feet more or less to the northeasterly side line of Hoboken Avenue; thence (4) in a northwesterly direction along the said northeasterly side line of Hoboken Avenue a distance of fifty-one and forty-seven one-hundredths (51.47) feet to the point and place of Beginning; CONTAINING five thousand (5,000) square feet, be the same more or less as shown on said plan. It being the intention to acquire all lands lying between the westerly line of lands now or formerly of Francis F. Kruse on the east and the easterly line of lands now or formerly of Francis F. Kruse on the west and from the northeasterly side line of Hoboken Avenue on the southwest extension to the proposed northeasterly right of way line of State Highway Route #1 Extension on the north as shown on said plan hereto attached; Being a part of plots 7A and 8A, Block 561 as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $60,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reasons said lands and premises cannot be immediately acquired by agreement with such owner or owners; then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Construction Engineer Lavis reported on Parcel #29, owner M. Edelbach, and advised that the average appraisal was $9,200.00 and the owner was asking $12,000.00. State Highway Engineer Sloan recommended that an offer of $9,200.00 be made and in the event of refusal that condemnation proceedings be instituted, On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the recommendation of the State Highway Engineer and adopted the following resolution of condemnation:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route No. 1 Extension, ALL that certain lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey and more particularly described as follows:

Parcel #29

BEGINNING at a point in the south-easterly side line of Oakland Avenue, a distance of fifty and six one-hundredths (50.06) feet in a north-easterly direction from the intersection formed by the northeasterly side line of Hoboken Avenue with the south-easterly side line of Hoboken Avenue with the south-easterly side line of Oakland Avenue, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route #1, Extension, property to be acquired from Marie Edelbach, City of Jersey City, Hudson County, Scale 1" = 20', June, 1925", and running; Thence (1) along the south-easterly side line of Oakland Ave., in a north-easterly direction, a distance of twenty four and ninety four one-hundredths (24.94) feet to the dividing line between lands of grantor on the South and lands now or formerly of Julius Albert Edelbach and wife on the North; Thence (2) in a south-easterly direction along said dividing line and parallel with Fleet Street, a distance of ninety eight(98) feet more or less to its intersection with the proposed north-easterly right of way line of State Highway Route #1 Extension, said line being parallel and distant two hundred eight and seventy five one-hundredths feet from the existing monumented center line of the Erie R. R. Passenger tracks; Thence (3) in a south-easterly direction along the aforesaid proposed north-easterly right of way line of State Highway Route No. 1 Extension, a distance of ten (10) feet more or less to the dividing line between lands of grantor on the West and lands now or formerly of Mayer Klusner on the East; Thence (4) in a south-westerly direction along the aforesaid dividing line between lands of grantor and lands now or formerly of Mayer Klusner, a distance of twenty one and five tenths (21.5) feet more or less, parallel with Oakland Avenue, to the dividing line between lands of grantor on the North and lands now or formerly of Charlotte McCabe on the South; Thence (5) in a north-westerly direction along the dividing line between lands of the grantor on the North and lands now or formerly of Charlotte McCabe on the south, a distance of one hundred seven and sixty-seven one hundredths (107.67) feet to the south-easterly side line of Oakland Avenue, and the point or place of beginning; CONTAINING two thousand five hundred ninety six (2596) square feet be the same more or less, as shown on said plan. Intending to convey all that land now owned or controlled by the party of the first part that lies between the lands now or formerly of Charlotte McCabe on the South, lands now or formerly of Julius A. Edelbach and wife and the proposed north-easterly right of way line of State Highway Route #1 Extension on the North, and extending from the south-easterly side line of Oakland Avenue on the West to the westerly line of lands now or formerly of Mayer Klusner on the East;

Being part of plot 18B in Block No. 651, as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $9,200.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances , and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Construction Engineer Davis reported on Parcel #30, owner J. Edelbach, and advised that the owner was asking $10,000.00 for this property, whereas the highest appraisal received was for $8,059.00. State Highway Engineer Sloan recommended that an offer of $8,000.00 be made for the property and in the event of refusal that condemnation proceedings be instituted. On motion by Mr.

Stewart, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer.

Construction Engineer Lavis reported that Mr. Boland, lessee of a gas station near Palisade Avenue, which is located on Erie Railroad land is asking $25,000.00 for his buildings and lease. He advised that no appraisals have as yet been made on the property. Commissioner Kidde moved that two appraisers be secured to make appraisals and report as to the physical value on the ground. This was seconded by Mr. Stewart and adopted.

Construction Engineer Lavis reported on property between Bevan and Collard Streets, on which preparations are being made to erect a garage and further that the work has already been started. This property was also under lease from the Erie Railroad and it was recommended that some steps be taken to stop work. State Highway Engineer Sloan recommended that an offer of $3,000.00 be made for the lease hold involved and the construction performed, and in the event of refusal to accept that the property be condemned in order that work may proceed at once on the Highway. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer and directed that an offer of $3,000.00 be made in accordance with the following resolution of condemnation, which was approved:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey , for public use in the construction of State Highway Route No. 1 Extension, ALL the right, title and interest, of whatsoever nature the same may be, which Interstate Oil Company, Inc., a corporation of the State of New Jersey, and Francis P. Boland may have or claim to have by reason of a certain unrecorded lease, dated September 30, 1922, made and executed by Long Dock Company and Erie Railroad Company as lessors and said Francis P. Boland as lessee and by the latter duly assigned, by and with the written consent of said lessors, to said Interstate Oil Company Inc., and any and every other right, title and interest of said Interstate

Oil Company, Inc., and said Francis P. Boland in and to all that certain lot, tract or parcel of land and premises, situate, lying and being in the City of Jersey City, in the County of Hudson and State of New Jersey, and more particularly described as follows:

BEGINNING at the intersection of the westerly line of Palisade Avenue with the southerly line of Hoboken Avenue; thence westerly along said southerly line of Hoboken Avenue, three hundred and thirteen feet (313) more or less to a point fifteen (15) feet westerly from and at right angles to the center line between tracks of the Public Service Railway Company; thence southerly, and parallel to and fifteen (15) feet distant from said center line to the wallalong the "open Cut", so-called, of said lessors; thence along said wall, two hundred and forty feet (240) more or less, to the westerly line of Palisade Avenue; thence northerly along said westerly line of Palisade Avenue, seventy-five (75) feet, more or less, to the place of Beginning; being more particularly shown and enclosed by red lines on the map hereto attached, marked "Exhibit A", entitled, "New Jersey State Highway Department, Route No. 1, Extension, Map showing land leased from Erie Railroad Company by Francis P. Boland (Lessee) City of Jersey City, Hudson County, July 1925".

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $3,000.00 to the owner or owners of said right, title and interest for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Hearing, War Department

Commissioner Kidde called attention to the public hearing to be held July 10th before the War Department at Newark on the matter of the bridges over the Hackensack and Passaic Rivers, and suggested that a thesis as prepared by construction Engineer Lavis, covering this work, be forwarded to each of the Commissioners in order that they may be familiar with the subject matter to be discussed. He advised that it was his purpose to be present with State Highway Engineer Sloan and Construction Engineer Lavis at this hearing, and Chairman Scott stated that he also would be present.

Cooper Bridge, Camden

State Highway Engineer Sloan informed the Commission that he had received information during the past week from Col. Brown of the War Department, advising that he would require a 75 foot opening in the bridge to be constructed over Cooper River at Camden, instead of a 60 foot bridge as proposed by the Highway Department, and he recommended that in view of the requirements of the War Department and the necessity for immediate construction, that the Commission approve a bridge with a 75 foot opening over the Cooper River in Camden. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed bhat the Engineering Department proceed on the basis of the report of the Federal Engineers as to the requirements for width of channel on the Cooper River, and that the Engineering Department be authorized to prepare plans showing 75 foot opening on the Cooper River Bridge.

On motion by Mr. Kidde, seconded by Mr. Stewart, the meeting was adjourned for lunch at 1:30 P.M., to meet again at 3:00 P.M. The meeting was reconvened at 3:00 P.M. with the same members present as at the morning session.

Right of Way, Route #5

The Secretary informed the Commission that Mr. F.W. DeVoe,Assistant Attorney General, was present to take up several right of way matters.

Mr. Devoe reported that Condemnation Commissioners in the case of George Baylor on Route #5, Section #12, had made an award of $225.00 for land taken and damages to the remainder. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that this award as made be accepted, and payment was authorized to George Baylor for property taken.

Right of Way, Route #7

Mr. Devoe reported that through some oversight the papers in connection with the case of Gustaff and Margaret Anderson condemnations on Route #7, Section #2, did not reach him in time for him to file his papers for appeal, and therefore there was no other alternative for the Commission, except to approve the condemnation awards. In this connection he presented an opinion prepared by himself advising that unless condemnation proceedings are abandoned and discontinued within twenty days after the filing of the report of the Commissioners, the same cannot be abandoned.

Commissioner Stewart therefore moved that the opinion be received and placed on file and that the award of $933.20 to Gustaff and Margaret Anderson on Route #7, Section #2, be approved, due to the fact that by some misunderstanding the time of appeal has expired in this case. This was seconded by Mr. Kidde and adopted.

Commissioner Stewart also moved approval of award of $891.36 to Margaret Anderson on Route #7, Section #2 in view of the fact that an appeal in this case was not taken within the proper time through a misunderstanding. This was seconded by Mr. Kidde and adopted.

Claim, William Durand

The Secretary presented a form of release which is requested by the Commonwealth Casualty Company of Pennsylvania by reason of payment of damages to William Durand. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that this release be signed and sealed by the proper officers.

F.W. DeVoe, Assistant Attorney General,-Right of Way, General

Mr. DeVoe reported that his Department has completed negotiations upon every condemnation proceeding, excepting one, which was turned over to him when he took office, having disposed of 65 cases.

Chairman Scott congratulated Mr. DeVoe upon his success attained in making such speedy disposition of these cases.

Right of Way, Route #16

Mr. DeVoe called attention to the case of Lena and William Watt on Route #16 at Somerville, in which the Condemnation Commissioners had made an award of $5,500.00 together with interest for a year. He advised that an appeal has been taken from this award and the property owners are now willing to settle for $4,500.00, and he recommended that this proposition be closed up at this price. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the settlement to be affected by Mr. DeVoe, for the property of Lena and William Watt on Route #16, at Somerville, for $4,500.00, and interest.

Right of Way, Route #12

Mr. DeVoe reported in the case of Joel and Caroline Redman on Route #12 at Little Falls, the Condemnation Commissioners having made an award of $6,500.00. He advised that the construction of the grade crossing elimination had made this property practically useless and it was testified to by the State's witnesses that it was worth, previous to the crossing elimination, $7,500.00, but afterward only $1,000.00, the difference representing the award. He recommended that this award be approved. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the award of the Condemnation Commissioners of $6,500.00 in the case of Joel and Caroline Redman on Route #12, at Little Falls.

Trolley Tracks, Route #5

Commissioner Kidde reported that he had been in attendance at a hearing of the Federal Court as given to the receivers for the Morris County Traction Company in order to ascertain what steps could be taken for the repair and improvement of the trolley track area through Madison, Chatham, Dover and Morristown. He advised that the Judge had requested that a meeting be held between interests representing the Traction Company, the State Highway Commission and local municipalities affected, in order to reach some agreement whereby the tracks will be put in good condition and concessions might be made with the traction company regarding their maintenance charges. He advised that, following this hearing, Receiver Choate had advised him that the traction company would apply for Court Certificates which would put them in funds needed to rehabilitate their roadway.

Commissioner Kidde advised that he understood this meeting would be held on July 8th and suggested that a representative of the State Highway Department be present with instructions on the matter. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that the matter be referred to Commissioner Kidde and the State Highway Engineer to attend such a meeting, together with Assistant Attorney General Coulomb, and to make such arrangements as would satisfactorily safeguard the interests of the State in connection with the trolley track situation on Route #5.

Insurance, Garages

The Secretary presented a communication from the Deputy Comptroller of the State advising that the State Highway Commission may use its funds to pay for insurance on the Everett Alley Garage. The Secretary advised that the usual practice was to have this insurance placed by the State Insurance Commissioner who thereby received a portion of the premium as his fee. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the reference of the insurance on the Everett Alley Garage to Robert M. Johnson, Insurance Commissioner, to be placed in the sum of $10,000.00 and following the regular course of insurance matters.

Route #5, Dover

Commissioner Kidde reported to the Commission that he had made an inspection of the situation concerning the proposed realignment of the State Highway Route #5 through Dover and had received information that the Delaware, Lackawanna & Western Railroad would possibly change or elevate the line of its route through Dover. He further stated that if this report is correct, the Commission could make a proposition to the Town of Dover for a partial realignment of Route #5 through the town and by the temporary use of the two right angle turns the bridging of the gully could be eliminated for the present and a great deal of money saved thereby. Mr. Kidde then moved that the State Highway Engineer be requested to investigate the possibility of this solution of the matter and report to the Commission for definite action as soon as an investigation can be completed. This was seconded by Mr. Stewart and adopted.

Route #2, Sec.7, South Broad St.

The Secretary presented a communication from Joseph F. Burke, contractor on Route #2, Section #7, South Broad Street, Mercer County, requesting permission to sublet the asphalt work on this job to the

Union Paving Company of Philadelphia.

State Highway Engineer Sloan recommended approval of this matter and on motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of subletting the asphalt work on Route #2, Section #7, to the Union Paving Company of Philadelphia.

Complaint, Route #4

The Secretary presented a communication from Mr. Adam H. Groel of Newark, New Jersey, complaining of the littering of the highway and his property adjacent thereto on Route #4 at Eatontown. He requested information as to whether it was possible to obtain protection against this nuisance, since he at all times endeavors to maintain the frontage of his property in an attractive manner. Commissioner Stewart stated that he had received complaints of this nature from different sources and that some means should be taken to give assistance to such property owners. After further discussion, Commissioner Kidde moved that the communication be acknowledged with the advice that the State Highway Commission is interested and is making a study to see what remedy can be had to a condition which is wide-spread, and that an effort will be made to give him assistance in this case. This was seconded by Mr. Stewart and adopted. The Secretary was directed to informally take this matter up with the Attorney General.

Request for Aid, Mercer County, Proposed Routes

The Secretary presented a resolution from the Board of Freeholders of Mercer County advising of an offer to the State of $25,000.00 from the 1926 funds of the County of Mercer providing the State Highway Commission will take over as a State Highway and reconstruct that portion of the Trenton-Buttzville Road lying between the City of Trenton and the Borough of Pennington in Mercer County. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission ordered the resolution received and acknowledged with the advice that the State Highway Commission has not the funds to meet the proposition at this time.

Fredon-Newton Road, Sussex County

The Secretary presented a resolution received from the Sussex County Board of Freeholders advising that they have accepted a bond and agreement from the Public Service Production Company calling for the acceptance of the Fredon-Newton Road in Sussex County.

State Highway Engineer Sloan recommended that the Commission accept the completed work on the Fredon-Newton Road subject to the bond as accepted by the County. On motion by Mr. Stewart, seconded by Mr. Kidde, this recommendation was adopted.

Union Labor

The Secretary presented a communication from Theodore M. Brandle, President of the New Jersey Building Trades Association, requesting the State Highway Commission to insert a clause in its contract which will require that union labor be employed. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that Mr. Brandle be informed that from legal advice heretofore received the Commission can only exercise jurisdiction in requiring that labor employed on highway work shall be citizens of the United States who are able and willing to perform the work assigned to them in the execution of the contract in accordance with the specification requirements.

Complaint, Route #4 Long Branch

The Secretary presented a communication from Mr. Daniel Doran of Long Branch, with further reference to the dangerous condition existing on Route #4 at the intersection of Route #4 with the Long Branch Boulevard. On motion by Mr. Stewart, seconded by Mr. Kidde, this communication was ordered received and placed on file.

Right of Way, Route #4

The Secretary presented a bill received from George D. Ziegler for transcription of stenographic notes of the evidence in the Parker condemnation in the amount of $110.00. There was also presented a bill from Mr. Zigler for similar work in connection with the condemnation of Brown and Donovan property on Route #4, in the amount of $118.00. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that these bills be paid.

Right of Way, Route #8

The Secretary presented a bill received from George VanNess for services in connection with the condemnation on Route #8, Mountain View in the amount of $100.00. On motion by Mr. Kidde, seconded by Mr. Stewart, this bill was ordered paid.

Route #4, Toms River

The Secretary presented a communication from the Board of Freeholders of Ocean County advising that the County has no objection to granting a request made by the Poultrymen's Association for a railroad siding at grade on Route #4 just south of the Central Railroad Station at Toms River. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that the Board of Freeholders of Ocean County be advised that the State Highway Commission will not consider giving permission for the construction of a siding since the same is entirely contrary to the established policy of the Commission.

Maps, State Highway

The Secretary called attention of the Commission to the fact that the new State Highway Maps had met with very sincere approval from everyone in receipt of same and he advised that the original supply of 100,000 was practically depleted and that there were a number of requests for quantities which have not yet been filled and he recommended that the Commission purchase an additional 50,000 of these maps. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of purchasing an additional 50,000 State Highway Maps.

Request for Hearing

The Secretary informed the Commission that Senator Borton of Salem County and Assemblyman Stratton of Gloucester County had requested that the Commission arrange a date on which a hearing could be given to a number of residents in behalf of the State Highway which has been legislated between Westville and Pennsgrove. On motion by Mr. Stewart seconded by Mr. Kidde, the State Highway Commission directed that this hearing be arranged for July 21st if the same is agreeable to the delegation, the hearing to take place at Trenton.

The schedule of business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer:

Route #9, Section #15A

Plans and specifications were reported completed for Route #9, Section #15A, Township of Cranford, Union County. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route #9, Section #15A, Township of Cranford, Union County, and
>
> BE IT FURTHER RESOLVED, that the chairman is authorized to sign the necessary papers and the Chief Clerk is directed to make the necessary advertisement for the work after approval by the State Highway Engineer.

Flemington-Ringoes Road

There was presented a request from Korp & Korp, contractors on the Flemington-Ringoes Road, Hunterdon County, for permission to sublet the bridge work on this road to Richards & Gaston of Somerville, New Jersey. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of subletting of contract by Korp & Korp of the bridge work on the Flemington-Ringoes Road to Richards & Gaston, same being recommended by the State Highway Engineer.

Route #20, Section #1

There was reported the completion of Route #20, Section #1, Clayton-Glassboro Road and the State Highway Engineer recommended final acceptance following inspection. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that this road be referred to Chairman Scott for final inspection prior to acceptance.

Abandonment, Route #2

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the abandonment of a portion of Route #2, Section #4A, Burlington Cut-off, in accordance with the following resolution:

> WHEREAS, the State Highway Commission has heretofore taken over as a State Highway, in accordance with the provisions of Chapter 14 of the Laws of 1917 a certain road or roads known as State Highway Route #2, from a point in or near Camden to Trenton by way of Burlington, Fieldsboro and Bordentown, and

June 30, 1925.

WHEREAS, in the construction and improvement of the said State Highway Route #2 Section #4A, Burlington Cut-off, it has been found desirable to relocate a certain portion of the said route for the purpose of betterment of the alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there is a certain portion heretofore used as a part of the road before improvement which is no longer needed as a part of the improved State Highway,

NOW, THEREFORE, Be It Resolved by the State Highway Commission of the State of New Jersey that the certain portion of the State Highway Route #2, Section #4A, as hereinafter described, be and the same is hereby abandoned as a part of State Highway Route #2, Section #4A and vacated in accordance with the provisions of Chapters 14 and 15, Laws of 1917 and the amendment thereto in Chapter 220, Laws of 1919.

BEGINNING at a point in the center line of Washington Ave. as taken over September 1, 1919, said point being in the southerly right of way line of Broad St.; thence (1) along Washington Avenue in a southwesterly direction, a distance of one thousand thirty-six (1036') feet more or less to a point; thence (2) curving to the right a distance of nine-nine (99') feet more or less to a point; thence (3) in a southwesterly direction a distance of six hundred four (604') feet more or less to a point thence (4) curving to the right for a distance of two hundred sixty-three (263') feet more or less to a point in Camden Ave.; thence (5) along Camden Ave. in a southwesterly direction a distance of two thousand one hundred twenty-two (2122') feet more or less to a point in the center line of Camden Ave., said point being measured thirty-eight and five-tenths (38.5') feet more or less normally from the center line of the new road as constructed at about Station 116 plus 75.

BE IT FURTHER RESOLVED that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Burlington County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate that portion of Washington and Camden Avenues as taken over September 1, 1919, lying outside the limits of the right of way of the new road as constructed sixty-six (66') feet wide, between the southerly right of way line of Broad St. and Station 116 plus 75 more or less near Beverly Road as shown on plan attached hereto and on file in the offices of the said State Highway Commission at Trenton, N. J.

Detour, Route #20

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the adoption of the following official detour for Route #20 in the Borough of Glassboro:

> "Beginning at Route #20 in the Borough of Glassboro where the same is intersected by the Glassboro-Aura road and runs thence, (1) southwesterly on the Glassboro-Aura Road to Grove Street: thence (2) easterly on Grove Street to State Highway Route #20."

Right of Way, Route #8

There was presented a communication received by the State Highway Engineer from Mr. Garwood Ferguson, County Engineer of Passaic County, advising that it is the obligation of the State to fill a trench in which is located a drainage pipe across property of George Schulster, at a point about 200 feet North of Reeves' Bridge on Route #8, and he advised that the estimated cost of this work would be about $125.00. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of a payment of $125.00 to George Schulster in consideration of his assuming the obligation of making the necessary fill and relieving the State from any further obligation in the matter of trench across his property.

Employments

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the following additions, changes and increase as made by the State Highway Engineer in the employments since the last meeting of the Commission:

Employed

Right of Way, Connecting Road, Camden

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property on the Connecting Road, Section #3, Camden:

Parcel	Name	Consideration
72	Dan Fedeyk, widower,	$ 100.00
73	WM.J.& Caroline Valdez	12.50

Right of Way, Route #3

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property on Route #3, Section #11, Berlin-Hammonton:

Parcel	Name	Consideration
48	Antonio Saranese,	$ 75.00
54	Frank Sirolli	100.00

Right of Way, Route #4

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the purchase of Parcel #13 on Route #4, Section #30, Tuckerton-Manahawken, from Emma Tweed Oliphant and husband for the consideration of $35.00.

Right of Way, Route #14

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of Parcel #41B on Route #14, Section #11, Petersburg-Tuckahoe from Dr. William O. Smith, widower, for the consideration of $30.75.

Right of Way, Route #20

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property on Route #20, Section #1, Borough of Clayton:

Parcel	Name	Consideration
5	County of Gloucester	$ 1.00
73	Salvatore Le Priesti, single	1.00
78	Domencio De Princio	1.00

June 30, 1925.

Right of Way, Route #16

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel #21 on Route #16, Section #5A, Somerville-Royce Valley, from Roy H. Herron & wife, for the consideration of $1,400.00.

Right of Way, Route #4

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the following parcels of property on Route #4, Section #33, Cleveland Avenue Extension, Perth Amboy.

Parcel	Name	Consideration
4	Elizabeth & John Kuzma	$ 4,960.40
6	Martin Bisaha & Wife	5,618.55
8	Frank Musolf & Wife	4,341.70
11	Miklos Talnagi & Wife	5,876.00
12	Andrew Fazekas & Wife	1,200.00
13	John Latkanic & Wife	2,000.00
15	George Milvavcsik & Wife	5,450.46
16	Mike Brown & Wife	1,000.00
17	John Brown	4,334.20
22	Frank & Christina Klacbaba	6,729.00
26	Thomas Forbes & Wife	500.00

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the purchase agreement for Parcel #7 on Route #4, Section #33, Cleveland Extension, Perth Amboy be referred to Commissioner Jelin before final disposition is made.

Right of Way, Entrance Road

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcel #41 on Section #1, Delaware River Bridge Approach, Camden from the General Chemical Company for the consideration of $9,038.00 plus grading, paving and curbing of highways in front of their property.

Right of Way, Connecting Road
Camden

There was presented a report together with appraisals on Section #3 of the Connecting Road, Camden, advising that G. Raymond Richmond et als, are demanding an excessive amount while appraisals show that the owners will receive benefits from the improvement. State Highway Engineer Sloan recommended that the amount of the appraisal be offered, and in the event of refusal that condemnation proceedings be instituted. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the following offers being made for the property of G. Raymond Richmond, John K. Henry and George B. Crewson, Inc. et als, on Connecting Road, Section #3, Camden:

Parcel	Offer
61-A	$1,015.60
61-B	52.88
61-C	1,118.88
61-D	44.35

and in the event of refusal that this property be acquired by condemnation in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route, Section 3, Connecting Road, Camden, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in State of New Jersey, and more particularly described as follows:

Parcel No. 61A

Beginning at the intersection of the easterly right of way line of the proposed Connecting Road and the northerly line of Second Street, said place of beginning being distant two hundred twenty-nine and eighty-eight hundredths (229.88) feet westerly from the northwest corner of Pacific Ave. and Second Street, and running; Thence (1) along said northerly line of Second St., north sixty-six degrees, thirteen minutes, thirty seconds west (N 66 -13'-30"W) eighty (80) feet to the westerly right of way line of said proposed highway; Thence (2) along said westerly right of way line, parallel with and forty (40) feet distant from the proposed center line of said highway, north twenty-three degrees, forty-six minutes, thirty seconds east (N 23-46' -30"E) thirty-one and seventy-eight hundred (31.78) feet to a curve; Thence (3)still along same concentric with and forty (40) feet distant radially from the said proposed center line, curving to the right with a radius of nineteen hundred fifty and eight hundredths (1950.08) feet a distance of twenty-three and fifteen hundredths (23.15) feet measured along the arc of the curve, with a chord bearing North twenty-four degrees, six minutes, fifty-four seconds east (N 24-06'-54" E) twenty-three and fifteen hundredths (23.15) feet to a dividing line between lands of grantor and Walter Alfred Noll; Thence (4) along dividing line between lands of grantor and said Walter Alfred Noll south sixty-six degrees, thirteen minutes, thirty seconds east (S 66-13'-30"E) twenty-five and forty-six hundredths (25.46) feet to a corner; Thence (5) still along same north twenty-three degrees, forty-six minutes thirty seconds east (N 23-46'-30"E) one hundred forty-four and eighty-three hundredths (144.83) feet to the southerly line of Third Street; Thence (6) along said southerly line of Third St. south sixty-six degrees thirteen minutes, thirty seconds (S 66-13'-30"E) sixty-one and ninety-seven hundredths (61.97) feet to the easterly right of way line of the proposed Connecting Road; Thence (7) along said easterly right of way line concentric with and forty feet (40) feet distant radially from the proposed center line of said highway, curving to the left with a radius of eighteen hundred seventy and eight hundredths (1870.08) feet a distance of one hundred sixty-eight and twenty-two hundredths (168.22) feet measured along the arc of the curve with a chord bearing south twenty-six degrees, twenty-one minutes, seven seconds west (S 26-21'-07"W) one hundred sixty-eight and seventeen hundredths (168.17) feet to a point of tangency; thence (8) still along same parallel with and forty (40) feet distant from the proposed center line of said highway, south twenty-three degrees, forty-six minutes, thirty seconds west (S-23-46'-30"W) thirty-one and seventy eight hundredths (31.78) feet to the place of beginning; CONTAINING twelve thousand six hundred ninety-five (12,695) sq. feet be the same more or less.

Parcel No. 61 B

BEGINNING on the line between lands of grantor and the Meadow Land & Improvement Co. where the same is intersected by the westerly right of way line of the proposed Connecting Road, and running; Thence (1) along said dividing line north one degree, forty-one minute, twenty east (N 1-41' -20"E) thirty-five and eight hundredths (35.08) feet to an angle in same; Thence (2) still along same north fifty-seven degrees, fourteen minutes,thirty-seven seconds east (N 57-14'-37"E) forty-five and twenty-eight hundredths (45.28) feet to the westerly right of way line of the proposed connecting Road: Thence (3) along said westerly right of way line parallel with and forty (40) feet distant from the proposed center line of said highway, south thirty-three degrees, forty-six minutes, fifty-five seconds west (S 33-46' -55"W) twenty-two and fifty-eight hundredths (22.58) feet to a point of curve; Thence (4) still along same, concentric with and forty (40) feet distant radially from the proposed center line, curving to the left with a radius of nineteen hundred fifty and eight hundredths (1950.08) feet measured along the arc of the curve, with a chord bearing south thirty-three degrees, four minutes, one second west (S 33-4' -1"W) forty-eight and sixty-eight hundredths (48.68) feet to the place of beginning; CONTAINING six hundred sixty-one (661) square feet be the same more or less.

Parcel No. 61C

BEGINNING at the intersection of the easterly right of way line of the proposed Connecting Road and the northerly line of Third St. said place of beginning being distant two hundred sixteen and eighty-nine hundredths (216.89) feet northerly from the northwest corner of Pacific Ave. and Third St. and running Thence (1) along said northerly line of Third St. north sixty-six degrees, thirteen minutes thirty seconds west (N 66-13'-30"W) forty-one and four tenths (41.4) feet to the dividing line between lands of grantor and the Meadow Land & Improvement Company Thence (2) along said dividing line north one degree, forty-one minutes, twenty-seconds east (N 1-41'-20"E) seventy eight and fifty-eight hundredths (78.58) feet to the westerly right of way line of the proposed Connecting Road; Thence (3) along said westerly right of way line, concentric with and forty (40) feet distant radially from the proposed center line of said highway, curving to the right with a radius of nineteen hundred fifty and eight hundredths (1950.08) feet a distance of forty-eight and sixty eight hundredths (48.68) feet measured along the arc of the curve with a chord bearing north thirty-three degrees,four minutes, one second east (N 33-4'-1"E) forty-eight and sixty-eight hundredths (48.68) feet to a point of curve; Thence (4) still along same, parallel with and forty (40) feet distant from the said proposed center line, north thirty-three degrees, forty-six minutes, fifty-five seconds east (N 33-46'-55"E) twenty-two and fifty-eight hundredths (22.58) feet to the dividing line between the Borough of Collingswood and the City of Camden; Thence (5) along said dividing line north fifty-seven degrees, fourteen minutes, thirty-seven seconds east (N 57-14'37" E) sixty-eight and forty-nine hundredths (68.49 feet to the southerly line of Fourth Street; Thence (6) along said southerly line of Fourth Street, south sixty-six degrees, thirteen minutes, thirty seconds east (S 66-13'-30"E) fifty-three and fifty-five hundredths (53.55) feet to the easterly right of way line of the proposed connecting Road; Thence (7) along said right of way line, parallel with and forty (40) feet distant from the proposed center line of the said highway, south thirty-three degrees, forty-six minutes, fifty-five seconds west (S 33-46'-55"W) ninety-four and seventy-two hundredths (94.72) feet to a point of curve:

Thence (8) still along same concentric with and forty (40) feet distant radially from the said proposed center line, curving to the left with a radius of eighteen hundred seventy and eight hundredths (1870.08) feet a distance of one hundred eight and thirteen hundredths (108.13) feet measured along the arc of the curve with a chord bearing south thirty-two degrees, seven minutes, thirty-three seconds west (S 32-07'-33"W) one hundred eight and eleven hundredths (108.11) feetto the place of beginning; CONTAINING thirteen thousand nine hundred eighty-six (13,986) square feet, be the same more or less;

Parcel No. 61D

BEGINNING at the intersection of the easterly right of way line of the proposed Connecting Road and the northerly line of Fourth St., said place of beginning being distant one hundred seventy-six and six hundredths (176.06) feet westerly from the northwest corner of Pacific Ave. and Fourth St. and running; Thence (1) along said northerly line of Fourth St., north sixty-six degrees, thirteen minutes, thirty seconds west (N 66-13'-30"W) twenty-nine and thirty-two hundredths (29.32) feet to the dividing line between the Borough of Collingswood and the City of Camden; Thence (2) along said dividing line north fifty-seven degrees, fourteen minutes, thirty-seven seconds east (N 57-14'-37"E) seventy-two and fifty-two hundredths (72.52) feet to the easterly right of way line of the proposed Connecting Road; Thence (3) along said easterly right of way line, parallel with and forty (40) feet distant from the proposed center line of the said highway, south thirty-three degrees, forty-six minutes, fifty-five seconds west (S 33-46'-55"W) sixty-one and forty-three hundredths (61.43) feet to the place of beginning; Containing eight hundred eighty-seven (887) square feet be the same more or less;

The above parcels No. 61A-B-C-D intended to convey all that land now owned or controlled by the party of the first part that lies between the right of way lines, forty (40) feet each side of the center line of the proposed Connecting Road, extendind from the line of the City of Camden and lands of the Meadow Land & Improvement Co. on the north to the northerly line of Second St., on the south, together with a piece of land lying between land of said Meadow Land & improvement Company and the westerly right of way line of said highway;

TOGETHER with the right to form and maintain slopes over adjacent lands of grantor; said right of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of adjacent lands from the level of said highway: the grantor hereby retaining the right to use such land providing such use does not interfere with said slopes or endanger said highway.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $2,231.71 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Connecting Road, Camden

A report was presented advising that Walter Alfred Noll owner of Parcel #62 on the Connecting Road, Section #3, at Camden, was demanding an excessive amount, and recommendation was made that the appraisal of $298.72 be offered. On motion by Mr. Kidde, seconded by Mr. Stewart the State Highway Commission approved the recommendation of the State Highway Engineer and directed that in the event the sum of $298.72 is refused, that condemnation proceedings be entered into in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Section 3, Connecting Road, Camden, ALL that certain Lot, tract or parcel of land and premises situate, lying, and being in the State of New Jersey, and more particularly described as follows:

Parcel #62

BEGINNING in the center line of Third St., said point being corner to lands of grantor and G. Raymond Richman and on the line of lands of the Meadow Land & Improvement Co. thirty-five and ninety-eight hundredths (35.98) feet westerly from a stone monument marking corner to said lands of the Meadow Land & Improvement Company and running;

Thence (1) along line between lands of grantor and G. Raymond Richman south twenty-three degrees, forty-six minutes, thirty seconds west (S 23-46'-30"W) one hundred sixty-nine and eighty-three hundredths (169.83) feet to a corner to same; Thence (2) still along same north sixty-six degrees, thirteen minutes, thirty seconds west (N 66-13'-30"W) twenty-five and forty-six hundredths (25.46) feet to the westerly right of way line of the proposed Connecting Road: Thence (3) along said westerly right of way line concentric with and forty (40) feet distant radially from the proposed center line of said highway, curving to the right with a radius of nineteen hundred fifty and eight hundredths (1950.08) feet a distance of one hundred seventy and sixteen hundredths (170.16) feet measured along the arc of the curve with a chord bearing north twenty-six degrees, fifty-seven minutes, eighteen seconds east (N 26-57'-18"E) one hundred seventy and one tenth (170.1) feet to the center line of Third St. and line between lands of grantor and the Meadow Land & Improvement Company; Thence (4) along said line south sixty-six degrees, thirteen minutes, thirty-seconds east (S 66-13'-30"E) sixteen and two hundredths (16.02) feet to the place of beginning; CONTAINING thirty-seven hundred thirty-four (3734) square feet be the same more or less;

Intending To Convey all of that land now owned or controlled by the party of the first part that lies between the right of way lines of the proposed Connecting Road, between Second and Third Streets;

Together with the right to form and maintain slopes over adjacent lands of grantor; said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of adjacent lands from the level of said highway; the grantor hereby retaining the right to use such land providing such use does not interfere with said slopes or endanger said highway;

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $298.72 to the owner or owners of said lands and premises for the conveyance of the same to the State Of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way,Route #16 -

There was presented a report with appraisals on the property of Oscar J. Brown on Route #16, Sections #5 and #5A, Somerville-Royce Valley, and it was recommended that an offer of $373.10 be made, and in the event of refusal that condemnation proceedings be instituted. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that an offer of $373.10 be made as recommended by the State Highway Engineer and in the event of refusal that condemnation proceedings be instituted in accordance with the following resolution:

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use, in the construction of State Highway Route #16, Sections #5 and #5A, All that certain lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

BEGINNING at a point formed by the intersection of the proposed southeasterly right-of-way line of Route #16, Section #5A, with the dividing line between lands of grantor herein on the southwest and lands now or formerly of A. F. Mathes on the northeast, said point being distant thirty-three (33) feet normally from the center line of Station 107 plus 86, as shown on plan hereto attached, entitled "New Jersey State Highway Department, Route #16-Sectiob #5A, Property to be acquired from O. J. Brown, Hillsboro Township, Somerset County, Scale 1" = 50', Revised May, 1925"; and running; Thence (1) southerly along said proposed right-of-way line, on the arc of a curve to the right with a radius of 988.37 feet, a distance of thirty-six and fifty-one hundredths (36.51) feet to a point of tangency at Station 108 plus 21.31; Thence (2) still along said right-of-way line, parallel to and thirty-three (33) feet distant from the center line, South thirty-nine degrees, fifty-nine minutes and twenty seconds West (S 39°-59'-20"W), a distance of one hundred eighty-six and sixty-nine one-hundredths (186.69) feet to a point in the dividing line between lands of grantor on the north and lands now or formerly of John H. Pendleton, Jr. on the south: Thence (3) along said dividing line North forty-nine degrees, twenty minutes West (N 49°-20'W), a distance of eighteen and five-tenths (18.5) feet to a point in the existing southeasterly side line of said State Highway: Thence (4) along said side line, North thirty-nine degrees, fifty-eight minutes East (N 39°-58'E), a distance of two hundred sixteen and twenty-six one-hundredths (216.26) feet to a point in the aforesaid dividing line between lands of grantor and lands now or formerly of A. F. Mathes; Thence (5) along said dividing line, South seventy degrees, thirty-four minutes, twenty-two seconds East (S 70° -34'-22"E), a distance of nineteen and twelve one hundredths (19.12) feet to the point and place of beginning; CONTAINING ninety-three and one thousandths (0.093) of an acre, be the same more or less;

TOGETHER WITH Parcel #12-B, described as follows:

BEGINNING at a point formed by the intersection of the proposed southeasterly right-of-way line of State Highway Route #16, Section 5A, with the dividing line between lands of grantor on the southwest and lands now or formerly of J. H. Pendleton, Jr., on the northeast, said point being distant thirty-three (33) feet normally from the center line of said State Highway, at Station 111 plus 62, as shown on aforesaid plan hereto attached, and running; Thence (1) along said proposed right-of-way line, parallel to and thirty-three (33) feet distant from the center line, South thirty-nine degrees, fifty-nine minutes, twenty seconds West (S39°-59'-20"W), a distance of one hundred ninety-eight (198) feet to a point in the northeasterly side line of an existing road leading to Manville, said road being northeasterly of the Lehigh Railroad property; Thence (2) along said side line, North forty-nine degrees, twenty minutes West (N 49° -20'W), a distance of eighteen and sixty-nine one-hundredths (18.69) feet to a point in the existing southeasterly side line of said State Highway; Thence (3) along said side line, North thirty-nine degrees, fifty-four minutes East (N 39° - 54'E), a distance of one hundred ninety-eight (198) feet to a point in the aforesaid dividing line between lands of grantor and lands now or formerly of John H. Pendleton, Jr.; Thence (4) along said dividing line, South forty-nine degrees, twenty minutes East(S 49°-20'E), a distance of nineteen (19) feet to the point and place of beginning; CONTAINING eighty-six one-thousandths (0.086) of an acre, be the same more or less;

TOGETHER with Parcel #12-C, described as follows:

Parcel #12-C

BEGINNING at a point formed by the intersection of the proposed northwesterly right-of-way line of Route #16, Section #5A, with the southwesterly side line of Brown Ave., distant thirty-three (33) feet normally from the center line of said State Highway, at Station 113 plus 11.99, as shown on aforesaid plan hereto attached, and running; Thence (1) along the southwesterly side line of Brown Ave., South forty-nine degrees, twenty-minutes East(S 49°-20'E), a distance of thirteen and twenty-eight one-hundredths (13.28) feet to a point in the existing northwesterly side line of said State Highway; Thence (2) along said side line, South thirty-nine degrees, fifty minutes and fifty-six seconds West (S39°-50'-56"W) a distance of eighty and five-tenths (80.5) feet to an iron pin in the dividing line between lands of grantor on the northeast and lands now or formerly of James Allen on the southwest;

Thence (3) along said dividing line, North forty-nine degrees, twenty minutes West (N 49°-20'W) a distance of thirteen and five-tenths (13.5) feet to a point in the aforesaid proposed north-westerly right-of-way line, said point being distant thirty-three (33) feet normally from the center line at Sta. 113 plus 92.5; Thence (4) along said proposed right-of-way line, North thirty-nine degrees, fifty-nine minutes, twenty seconds East (N 39° -59'-20"E), a distance of eighty and fifty-one one-hundredths (80.51) feet to the point and place of beginning;

CONTAINING twenty-five one-thousandths (0.025) of an acre, be the same more or less;

TOGETHER with Parcel #12-D, described as follows:

Parcel #12-D

BEGINNING at a point formed by the intersection of the dividing line between lands of grantor herein on the southwest and lands now or formerly of James Allen on the northeast with the proposed north-westerly right-of-way line of Route #16, Section #5A, distant thirty-three (33) feet from the proposed center line of said State Highway at Station 115 plus 32.50, as shown on said plan hereto attached, and running;

Thence (1) along said dividing line, South forty-nine degrees, twenty minutes East (S49°-20'E), a distance of fourteen and two tenths (14.2') feet to an iron pin in the existing north-westerly side line of said State Highway; Thence (2) along said existing side line, South thirty-nine degrees, fifty-six minutes, eighteen seconds West (S 39° -56'-18"W) a distance of three hundred twenty and thirty-eight one-hundredths (320.38') feet to a point in the northwesterly side line of Park Ave.; Thence (3) along said side line of Park Ave., Norty twenty-nine degrees three minutes West (N29°-03'W) a distance of fifteen and five tenths (15.5') feet to a point in the aforesaid proposed northwesterly right-of-way line of said State Highway, distant thirty-three (33') feet from said proposed center line at Station 118 plus 47.5; Thence (4) along said proposed northwesterly right-of-way line, North thirty-nine degrees, fifty-nine minutes, twenty seconds East (N 39°-59'-20"E) a distance of three hundred fifteen (315') feet to the point and place of beginning; CONTAINING one thousand and forty-five ten thousandths (0.1045) acres be the same more or less;

INTENDING To Convey all that land now owned or controlled by the party of the first part that lies between the proposed right-of-way lines, parallel to and thirty-three (33) feet each side of the proposed center line of said State Highway, extending from the lands now or formerly of A.F.Mathes on the northeast to the lands of the Lehigh Valley Railroad on the southwest, and from Brown Ave. on the northeast to Park Ave. on the southwest;

TOGETHER With Parcel #1 on Route 16, Section 5, described as follows:

Parcel #1

BEGINNING at a point formed by the intersection of the dividing line between lands of grantor herein on the southwest and the southerly right-of-way line of the Lehigh Valley Railroad on the northeast with the proposed south-easterly right-of-way line of Route 16, Section 5-A, distant thirty-three (33) feet normally from the proposed center line of said State Highway at Station 126 plus 73.7, as shown on a plan hereto attached entitled "New Jersey State

Highway Department, Route 16, Section 5 & 5A, Property to be acquired from Oscar J. Brown, Hillsboro, Township, Somerset County, Scale 1" = 50', May 1923", and running; Thence (1) along said right-of-way line, South thirty-nine degrees, forty-nine minutes, twenty seconds West (S 39°59'20"W) a distance of nineteen hundred fifty seven and three tenths (1957.3) feet to a point in the dividing line between lands of grantor on the northeast and lands now or formerly of Edith J. Worral on the southwest; Thence (2) along said dividing line, North fifty-eight degrees West (N 58°-W) a distance of thirty-one (31) feet to a point in the proposed center line of State Highway Route 16, Section 5, as shown on said plan hereto attached; Thence (3) along the proposed center line of State Highway Route 16, Section 5 and 5A, North thirty-nine degrees, fifty-two minutes East (N 39° 52'E) a distance of nineteen hundred and twenty-one one-hundredths (1900.21) feet to a point in the dividing line between lands of grantor on the southwest and southerly right-of-way line of the Lehigh Valley Railroad on the northeast; Thence (4) along said dividing line, North sixty-nine degrees, thirty minutes East (N 69°30'E) a distance of seventh and fifty-six one-hundredths (70.56 feet to the point and place of beginning;

CONTAINING seven hundred twenty-seven one-thousandths (0.727) of an acre, be the same more or less, exclusive of existing roadway;

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the proposed right-of-way lines thirty-three (33) feet each side of the proposed center line of said State Highway, extending from the southerly right-of-way line of the Lehigh Valley Railroad on the northeast to the lands now or formerly of Edith J. Worrall on the southwest, as shown on said plan hereto attached;

TOGETHER With Parcel #17 described as follows:

Parcel #17

BEGINNING at a point formed by the intersection of the dividing line between lands of grantor herein on the south and lands now or formerly of Socrates T. and Emily L. Yeomans on the north, with the proposed easterly right-of-way line of State Highway Route #16, Section #5, distant thirty-three (33) feet normally from the center line at Station 215 plus 14, as shown on plan hereto attached, entitled "New Jersey State Highway Department, Route 16-Section 5, Property to be acquired from Oscar J. Brown, Hillsboro Township, Somerset County, Scale: 1" = 50', May 1923" and running; Thence (1) along said proposed easterly right-of-way line, South five degrees, seventeen minutes and fifty seconds West(S 5°-17'-50"W), a distance of one thousand forty-four and eighty-nine one-hundredths (1044.89) feet to a point of curvature at Sta. 225 plus 58.89; Thence (2) still along said proposed easterly right-of-way line, in a southerly direction, on a curve to the right with a radius of 797.49 feet, concentric with and thirty-three (33) feet distant radially from the proposed center line, a distance of one hundred ninety-seven and one one-hundredths (197.01) feet to a point in the existing center line of the road leading from Somerville to Woods Tavern at Sta. 227 plus 47.74; Thence (3) along said existing center line, North four degrees, fifty-three minutes and fifty seconds East (N 4°53'50"E), a distance of twelve hundred thirty-five and ninety-nine one-hundredths (1235.99) feet to a point in the aforesaid dividing line between lands of grantor and lands now or formerly of Socrates T. and Emily L. Yoemans; Thence (4) along said dividing line, North eighty-eight degrees, twenty-five minutes East (N 88°25'E), a distance of thirty-three and eight one-hundredths (33.08) feet to the point and place of beginning; CONTAINING thirty-three one-hundredths (0.33) of an acre, be the same more or less, exclusive of existing roadway;

June 30, 1925.

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the existing center line and the proposed easterly right-of-way line, distant thirty-three (33) feet from the proposed center line, extending from lands of Socrates and Emily T. Yoemans on the north to a point of intersection of the above mentioned lines, at about Sta. 227 plus 47.74, on the south, all as shown on said plan;

TOGETHER WITH an EASEMENT over a strip of land thirty (30) feet in width, for the purpose of entering upon, deepening, widening, straightening the channel and forever maintaining the flow of water in the existing stream, on Parcel 1-A, the center line of which is described as follows:

Easement #1-A

BEGINNING at a point in the southerly right-of-way line of the Lehigh Valley Railroad Company's property at the outlet of an existing culvert, distant one hundred fifty-five (155) feet from the proposed center line of the aforesaid State Highway at Sta. 127 plus 32, said distance being measured in a northeasterly direction along the southerly right-of-way line of the Lehigh Valley Railroad property; Thence (1) along the approximate center line of the existing stream South twenty-five degrees, thirty-one minutes East (S 25°-31'E), a distance of four hundred eighty-one (481) feet more or less to an angle point in the existing stream; Thence (2) South four degrees, one minute East (S 4°-01'E), a distance of five hundred nineteen (519) feet to a point in the existing stream at the end of the proposed change, all as shown on map attached hereto, entitled "New Jersey State Highway Department, Route #16, Section 5 & 5A. Easement to be acquired from Oscar J. Brown, Hillsboro Township, Somerset County, Scale 1"= 50', Feb. 1925", Revised May 1925."

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $373.10 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

On motion by Mr. Stewart, seconded by Mr. Kiuce, The State Highway Commission directed that an offer of $12.40 be made to George W. Young for property to be acquired for Route #16, Section #5A, Somerville-Royce Valley Section and in the event of refusal that condemnation proceedings be instituted in accordance with the following resolution:

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #16, Section #5A, ALL that certain Lot, tract or parcel of land and premises situate, lying, and being in the State of New Jersey, and more particularly described as follows:

Parcel #8

BEGINNING at a point formed by the intersection of the proposed new easterly right-of-way line of Route #16, Section #5A, with the dividing line between lands of grantor herein on the north and lands now or formerly of Jane S. Groman Stevekin on the south, said point being distant thirty-three (33) feet normally from the proposed center line, at station 100 plus 78.84, as shown on plan hereto attached, entitled "New Jersey State Highway Department, Route 16-Section 5A, Property to be acquired from George W. Young, Hillsboro Township, Somerset County, Scale 1" = 50', 1924"; and running: Thence (1) along said dividing line, North seventy degrees, thirty-seven minutes and forty seconds West (N 70° -37'-40"W), a distance of sixteen and five tenths (16.5) feet to a point in the existing easterly right of wya line of said State Highway, Thence (2) along said right of way line, North nineteen degrees, twenty-two minutes and twenty seconds East (N 19° -22'-20"E), a distance of two hundred twenty-two and eighty-four one-hundredths (222.84) feet to a point in the proposed new easterly right of way line of said State Highway, distant thirty-three (33) feet radially from the proposed center line, at station 98 plus 61.03; thence (3) southerly along said proposed right-of-way line, on a curve to the right with a radius of 988.37 feet, a distance of one hundred eighty and eighty-five one-hundredths (180.85) feet to a point of tangency, at station 100 plus 35.84 Thence (4) still along said proposed right of way line, South nineteen degrees, twenty-two minutes and twenty seconds West (S 19°-22'-20"W), a distance of forty-three (43) feet to the point and place of beginning; CONTAINING sixty-two one-thousandths (0.062) of an acre, be the same more or less;

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the existing easterly side line of said State Highway and the proposed easterly right-of-way line, extending from the intersection of said lines on the north to the lands now or formerly of Jane S. Groman Stovekin on the south, all as shown on said plan hereto attached;

IT IS HEREBY UNDERSTOOD AND AGREED that the cash consideration hereinabove agreed to is to be considered by both parties hereto as payment in full to the grantor, his heirs, lessees, or anyone acting in his or their behalf, of all claims for damages of whatever nature resulting directly or indirectly from the construction and improvement of the road, excepting that existing fences encroaching on the highway will be reset by the State in as good condition as existing, without cost to the grantor.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $12.40 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

There was presented a report with appraisals on the property of Pauline Wozniak, known as parcel #6 on Route #16, Section #5A, and recommendation was made that an offer of $190.00 be made or condemnation be instituted. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that an offer of $190.00 be made for Parcel #6 on Route #16, Section #5A and in the event of refusal that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route No. 16, Sec. 5A, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #6

BEGINNING at a point formed by the intersection of the dividing line between lands of grantor herein on the south and lands now or formerly of John M. Frazee on the north with the proposed easterly right of way line of State Highway Route #16, Section #5A, said point being distant thirty-three (33) feet normally from the proposed center line at Station 67 plus 45.06, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route 16-Section 5A, property to be acquired from Pauline Wozniak, Hillsboro Township, Somerset County. Scale = 1" = 50' 1924 Revised March 1925"; and running thence (1) along said right of way line, parallel to and distant thirty-three (33) feet normally from the proposed center line, South seven degrees thirty-two minutes, forty seconds East (S 7°32'40"E), a distance of seven hundred seventy-one and forty-one one-hundredths (771.41) feet to a monument in the dividing line between lands of grantor herein on the north and lands now or formerly of Louis H. Canfield on the south at Station 75 plus 16.47; Thence (2) along said dividing line, South eighty-two degrees, twenty-seven minutes, twenty seconds West)S 82° 27' 20"W), a distance of thirty-three and twenty-seven one-hundredths (33.27) feet to a point in the existing center line of said State Highway; thence (3) along said center line, North seven degrees, thirty-four minutes, thirty-eight seconds West (N 7° 34' 38"W), a distance of seven hundred seventy-one and fifty-eight one hundredths (771.58) feet to a point in the dividing line between lands of grantor herein on the south and lands now or formerly of John M. Frazee on the north; Thence (4) along said dividing line, North eighty-two degrees, forty-three minutes East (N 82°43'E), a distance of thirty-three and seven tenths (33.7) feet to the point and place of Beginning;

CONTAINING three-tenths (0.3) of an acre, be the same more or less, exclusive of existing roadway;

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the existing center line of said State Highway and the proposed easterly right-of-way line, extending from the lands now or formerly of John M. Frazee on the north to the lands now or formerly of Louise Haskins Canfield on the south as shown on a plan hereto attached.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $190.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Federal Aid-Route#15, Section 7

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved Federal Aid Project Agreement #68 for Route #15 Section #7, Menantico Creek-Mauricetown Section.

Hainesburg-Columbia Road

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that final inspection of the Hainesburg-Columbia Road, Warren County, be referred to Commissioner Kidde.

Maintenance,Burlington County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the Burlington County Maintenance and Betterment Schedule for 1925.

Township Aid, Burlington County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved acceptance and final payment on Keeler's Corner-Arney's Mount Road, Pemberton Township, Burlington County Township Aid.

Township Aid, Monmouth County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved acceptance and final payment on Bangs Avenue, Neptune Township, Monmouth County, Township Aid.

Township Aid, Cumberland County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved acceptance and final payment on Cumberland-Port Elizabeth Road, Section #2, Maurice River Township, Cumberland County, Township Aid.

Township Aid Requests - 1925

There was presented a list of applications received from the Townships of the State making request for Township and Borough Aid from the funds to become available on July 1st. On motion by Mr. Kidde seconded by Mr. Stewart, the State Highway Commission directed that a copy of these requests be forwarded to each Commissioner for study and attention at the next meeting.

Route #5, Section #12

Commissioner Kidde reported on the matter of final inspection made by him on Route #5, Section #12, Netcong-Canal Culvert Section, that this road was completed in satisfactory condition with the exception of joints where the filler had been tracked over the pavement and the joints needed additional pouring. He moved that final acceptance be made, subject to the approval by the State Highway Engineer, of the work to be done on the joints. This was seconded by Mr. Stewart and adopted.

Extension of Time, Route #4
Manasquan River Bridge

The Secretary presented a communication from S.S. Thompson, contractor on the Manasquan River Bridge on Route #4, requesting an extension of time to August 1, 1925, for the completion of his work.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of an extension of time to August 1, 1925, to S. S. Thompson, Inc., for the construction of the Manasquan River Bridge at M. P. 69.4 on Route #4, with the understanding that no further extensions will be granted.

Commendation

The Secretary presented a communication received by Commissioner Stewart from Charles W. McCutcheon of Plainfield, commending the excellent work done by the Commission and for its maps. On motion by Mr. Kidde, seconded by Mr. Stewart, the communication was ordered spread in full on the minutes. The communication is as follows:

> "Many thanks, dear Mr. Stewart, for the road map of New Jersey. It is the best (and clearest) I have ever seen of any State. Many thanks, too, for the excellent roads you and your associates have given us--the best New Jersey ever had! It is a joy to see them and to ride over them; they have all the signs of being thoroughly constructed--built to last--not merely a few months-- and to afford to the citizens (taxpayers) of the State substantial service for years. I cannot adequately express to you how great a comfort it is to witness the evidence of competent engineering and construction, and intelligent oversight, which these fine highways exhibit. I, for one, wish to say to you and your Commission, and the Governor who selected you: "Well done good and faithful servants!"
>
> Very sincerely yours,
> C.W.McCutcheon.
>
> June 29, 1925.

Increases

State Highway Engineer Sloan presented to the Commission a list of increases and promotions approved by him and recommended to the State Highway Commission at its last meeting. The Commission went into conference on this matter and following this conference Commissioner Stewart moved that the recommendations as presented by the State Highway Engineer for increases to the employees of the Department, be approved subject to approval by the Civil Service Commission. This was seconded by Mr. Kidde and adopted.

The Secretary informed the Commission that Mr. Jelin had advised that he would return from the South on June 8th or 9th. Commissioner Stewart, therefore, moved that the next meeting be held on Thursday,July 9th, at Trenton. This was seconded by Mr. Kidde and adopted.

On motion by Mr. Kidde, seconded by Mr. Stewart, the meeting was adjourned at 6:00 P.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - July 9, 1925

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, on Thursday, July 9, 1925. The meeting was called to order by Chairman Scott at 10:30 A.M.

Present: Gen.H. L. Scott, Chairman, Messrs. Walter Kidde, Percy H. Stewart and Abraham Jelin.

Route #17,Hackensack-Rutherford

The Secretary informed the Commission that Mr. J. Ernest Thier, County Supervisor of Roads of Bergen County, was present and desired a hearing on several Bergen County matters. On motion, duly seconded, a hearing was granted. Mr. Thier appeared and presented several communications from the Board of Freeholders. The first was to the effect that the acquisition of rights of way for Route #17, between Hackensack and Rutherford, was proceeding as rapidly as possible, and just as soon as the property plans were furnished the entire section would be acquired. He requested information as to which section of the road would be placed under construction first, and suggested that the southern section, from Meadow Road to the Paterson Plank Road, be started so that when completed it will furnish an outlet to traffic. He also stated that the fills required on the northern end ought to be made first so that it could settle before a permanent pavement is placed. Mr. Thier was advised that the matter would be given serious consideration by the Commission and that the County should proceed to acquire all the property needed.

Route #14,Taking over new Routes

Mr. Thier also presented a communication from the Board of Freeholders of Bergen County, advising that arrangements have been made whereby the LeMoine Avenue Extension in Fort Lee could be constructed by agreement between the State, County and Borough, and he desired information as to which party would let the contract, and also what assurance the Commission could give that when the road was completed ~~and~~ it would be taken over as part of the State Highway System. On motion by Mr. Kidde, seconded by

July 9, 1925.

Mr. Jelin, the State Highway Commission directed that the Bergen County Freeholders be advised that the State Highway Commission will be glad to give consideration to the matter of taking over the LeMoine Avenue extension at Fort Lee on Route #1[illegible], as designated by the Legislature, as soon as funds are available.

Detour, Route #4

The Secretary informed the Commission that Mr. Gummere and Mr. Terry of the Pennsylvania Railroad Company were present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Gummere informed the Commission that the General Superintendent of the New York Division has sent them to appear before the State Highway Commission concerning a detour in Middlesex County during the reconstruction of St. Georges Avenue between Rahway and Perth Amboy. He advised that as the detour was at present located, the traffic will have to pass two grade crossings within a distance of 165 feet, and with the heavy traffic on this route it might occur that when traffic is stopped at one crossing the traffic will back up and be forced to stop on the main line tracks at Iselin, at which point there is an average of one train every four minutes. They suggested a detour by way of Metuchen and the Shore Road at Perth Amboy, by which line there would be only one trolley grade crossing.

In this connection, the Secretary presented communications from the New Jersey Automobile and Motor Club and the Rotary Club of Woodbridge, calling attention to the dangerous detour established for Route #4 traffic.

State Highway Engineer Sloan advised that the detour suggested by the Railroad Company Officers would carry traffic several miles further and he did not believe that the conditions would arise as suggested.

Commissioner Kidde suggested that it might be possible to form some temporary bridge structure over the main line tracks on which the traffic could be carried. After further discussion, the Chairman thanked the officials of the railroad company for appearing in this matter and advised that the same would be given very careful consideration.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the communications be acknowledged with the advice that the matter is being carefully considered.

Request for Hearing,
Gloucester County

The Secretary presented a telegram from Assemblyman Stratton of Gloucester County, advising that both Senator Borton and he would like to have the hearing, concerning the taking over of the road between Westville and Pennsgrove, held in that section if possible.

Commissioner Kidde moved that the telegram be acknowledged with the advice that the difficulty of taking over State Highway Routes without funds in hand makes it desirable that a hearing be arranged before the Commission at Trenton, where the situation can be better discussed without arousing public opinion which cannot be satisfied. This was seconded by Mr. Jelin and adopted.

Right of Way, Route #3

The Secretary presented a report from Hon. F. [illegible]. DeVoe, Assistant Attorney General, advising that in reference to the papers returned to him in the Edward Miller condemnation for appeal, it is now too late to appeal this matter or to abandon the condemnation. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the communication be acknowledged and that the action taken requesting the appeal be rescinded from the minutes in view of the facts.

Route #2, Section #8

The Secretary presented a communication from the Union Paving Company requesting permission to change the surety corporation bond furnished on their contract for Route #2, Section #8, Bridgeboro-Pensauken, from the Fidelity & Casualty Company of New York to the United States Guarantee Company of New York. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that the substitution of the bondsman be approved provided the United States Guarantee Company is on the accredited list of the

Banking & Insurance Department.

Route #9. Cranford

The Secretary presented a communication from the Central Railroad Company of New Jersey, advising that their attention has been directed to the fact that the Commission is now advertising for bids for the construction of Route #9 through Cranford, and in view of the fact that there are proposed grade crossing eliminations through Cranford, the Railroad company would like to have a set of plans in order that the grades might be worked out to mutual advantage. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that a copy of the plans be forwarded to the railroad company forthwith.

Sidewalks- Trees
Route #4, Sec.30, Manahawken-Tuckerton

The Secretary presented a resolution from the Township Clerk of Stafford Township, Ocean County, requesting the State Highway Commission to adopt the same width of highway for Route #4 through Manahawken as they adopted for village of West Creek, which will permit of the retaining of sidewalks.

There was also presented a telegram from Sarah S. Stiles, Ocean County Committeewoman, requesting a hearing on July 14th, concerning the matter of shade tree removal at West Creek, New Jersey.

Tree Planting

Chairman Scott presented to the Commission for its consideration and adoption the following resolution:

> RESOLVED, "That wherever the State Highway Commission finds it necessary to remove a shade tree it shall be replaced by two additional trees at some point along the State Highway System."

Commissioner Jelin moved that the resolution as offered by Chairman Scott be adopted. This was seconded by Mr. Kidde and adopted .

On motion by Mr. Kidde, seconded by Mr. Jelin, the information contained in this resolution was ordered to be forwarded to the Township of Stafford and to Sarah S. Stiles in answer to their communications.

Right of Way, Route #1 Extension

The Secretary presented a bill rendered by Mr. Percy A. Gaddis for appraisals and disbursements on Route #1 Extension at Jersey City, in the amount of $975.00.

There was also presented a bill from C. A. Burhorn for appraisals on property of Route #1 Extension in the amount of $600.00. On motion by Mr. Kidde, seconded by Mr. Jelin, the bills were ordered approved and paid.

The schedule of business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer:

Route #1 Extension, Section 2,
Jersey City.

There was presented a report of the following bids received on July 6th for the construction of a subway on Route #1 Extension at Jersey City, known as Section #2:

Public Service Prod. Co.	$1,176,601.95
Chas. T. Kavanagh	1,183,064.50
Frederick Snare Corp.	1,417,414.00
Rice & Ganey	1,430,217.75
Joseph L. Sigretto	1,710,247.80

State Highway Engineer Sloan informed the Commission that he would recommend award to the Public Service Production Company, the lowest bidder, but in view of the fact that the Erie Agreement has not yet been approved, the Commission might desire to hold this matter for the next meeting. On motion by Mr. Jelin, seconded by Mr. Kidde, the matter was ordered held until the next meeting of the Commission, at which time the award will be considered.

Route #4, Section #32

There was presented a report of the following bids received on July 6th for the construction of Route #4, Section #32 between Rahway and Perth Amboy:

C. H. Winans Co.	$ 478,283.70
Public Service Prod. Co.	496,011.19
J. F. Chapman & Son	501,442.92
E. RileyMixner Co.	508,204.00
Sutton & Corson	549,048.09
Utility Const. Co.	557,669.15
Weldon Cont. Co.	563,557.04

State Highway Engineer Sloan stated to the Commission that he had received word from Senator Larson that the Town of Woodbridge had served notice of its intention to widen upon the residents and will introduce the proper resolution in order to do the work. He advised, however, that he did not feel that this should hold up the award of contract, and he recommended that award be made with the understanding that if the additional width is not forthcoming from the Township, the work will be completed on a 29-foot basis to be paid for by the State. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route #4, Section #32, between Rahway and Perth Amboy, to C. H. Winans Company at their low bid in the amount of $478,283.70, and
>
> BE IT FURTHER RESOLVED that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Entrance Road,Section #1 Camden

Plans and specifications were reported completed for the construction of the Delaware River Bridge Entrance Road, Section #1, from Eleventh Street to Cooper River in the City of Camden, including the elevation of Federal Street, and advertisement was recommended. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Delaware River Bridge Entrance Road, Section #1, from Eleventh Street to Cooper River in the City of Camden, including the elevation of Federal Street, and
>
> BE IT FURTHER RESOLVED that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement for the work after approval by the State Highway Engineer.

Route #7, Section #5

Plans and specifications were reported completed for the construction of Route #7, Section #5, Jerseyville-Freehold, in the County of Monmouth and recommendation for advertisement was made. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve of plans and specifications

for the construction of Route #7, Section #5, Jerseyville to Freehold, in the County of Monmouth and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement for the work after approval by the State Highway Engineer.

Bridges, Route #4, M.P. 26.2 & 27.5

Plans and specifications were reported completed for the construction of two concrete bridges at M. P. 26.2 and 27.5 on Route #4, Section #30, Ocean County and advertisement was recommended. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission adopted the following resolution:

RESOLVED, that plans and specifications for the construction of two concrete bridges at M. P. 26.2 and 27.5 on Route #4, Section #30, be approved, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to make the necessary advertisement for the work after approval by the State Highway Engineer.

Route #3, Widening, Section #12

On motion by Mr. Kidde, seconded by Mr. Jelin, the completed work on Route #3, Section #12, Widening was ordered referred to Mr. Jelin for final inspection.

Route #1, Hackensack River Bridge

State Highway Engineer Sloan presented a communication from Stillman, Delehanty, Ferris Company, contractors on Hackensack River Bridge, advising that it will be inconvenient to reconstruct the west side of the center fender on the Hackensack River Bridge at this time as it will be in the way during the construction of the new pier, and it is, therefore, their intention to discontinue for the time being the work on contract for pier removal, and request was made that penalties be not applied on these contracts in order that the work might be properly co-ordinated by the company.

State Highway Engineer Sloan recommended to the Commission that in view of the conditions the penalties on these contracts be remitted and that the time for completion be extended on the discretion of the State Highway Engineer of the working out of the two contracts together, in order to make the proper progress. On motion by Mr. Stewart, seconded by Mr. Kidde, the recommendation of the State Highway Engineer was approved.

Route #5, Alignment, Buttzville

It was recommended to the Commission that the building on the hotel property at Buttzville on Route #5, be wrecked at this time in order to improve the line of vision at a very bad corner, and there was submitted a report from the Superintendent of Maintenance advising that Mr. Oscar Smith of Belvidere is willing to tear down and demolish this structure for the salvage it contains. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the wrecking of the Buttzville hotel property on Route #5 for salvage contained therein and the entering into contract with Oscar Smith for this purpose.

Rights of Way, Routes #3. #4, #9
#20

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of the following parcels of property and directed that a letter of thanks be forwarded to those people who have sold to the State for a nominal sum:

Route	Parcel	Name	Consideration
3	34A	Christopher Columbus Beneficial Soc.	$ 10.00
4	16	Sadie Downs and Wm. F. Husband	25.00
"	17	Marvin B. Mathis & Wife	100.00
"	19	Norris Maxwell & Wife	650.00
"	21	Caleb F. Allen & Wife	25.00
"	27	Benjamin W. & Louise D. Chew	125.00
"	32	William T. Cramer, Widower	10.00
"	33	James G. Speck & Wife	300.00
"	34	Larner S. Giffore & Wife	25.00
9	2	The Bloomsbury Graphite Co.	50.00
"	3 & 3A	Anna E. & Nelson C. Deemer & Edwin McCrea	10.00
20	37A	George F. Beebe, single	160.00
"	58	Leopold Formosa, Sr.	1.00
"	74	Azor Lockard, Widower	1.00
"	76	Guiseppi Mescaro	1.00
"	85	James W. Bennett	1.00
"	86	George A. Spangler	1.00

Right of Way, Route #9

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the acceptance of a warranty deed from Emma Stryker, Franklin A. Stryker, Royal Ditmars, Milton Ditmars and Harold Ditmars for parcels #1 and #1A on Route #9, Sectiob #13, White House-Somerset County Line, for the consideration of $66.00, in accordance with a preliminary understanding, the State having removed their buildings in accordance with previous action of the Commission on May 23, 1924.

July 9, 1925.

Right of Way, Route #18-North

There was presented for acceptance by the Commission a deed given by the estate of William W. Phelps, Incorporated, covering parcels #2, #2A and #4 on Route #18, Section #2, in the Borough of Alpine, for the consideration of $1.00 plus protection and improvement of the property as provided for in the preliminary understanding and as incorporated in the contract. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed the acceptance of the aforementioned deed with a letter of thanks to be forwarded to Major Welsh for his efforts in this behalf.

Right of Way, Route #4

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the acceptance of quit claim deeds for the following parcels of property on Route #4, Section #31, Tuckerton-New Gretna Section:

Parcel	Name	Consideration
31	Isaac L. Berry & Wife	$1.00
37	Samuel Maxwell & Wife	1.00
41	William F. Downs & Wife	1.00
47	Jarvis Jerew & Wife	1.00
48	Morris C. Gaskill & Wife	1.00
52	Mary J. Crammer, Widow	1.00
57	George A. & Charles H. Maxwell	1.00
59	Adelbert Robbins & Wife	1.00
61	Lewis Gerew & Wife	1.00
83	Wm. T. Cramer, Widower,	1.00
94	Benjamin W. Chew, single	1.00
111	Patrick F. Flynn, widower	1.00
119	James G. Speck & Wife	1.00

Federal Aid, Route #4 Section 3

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of Federal Aid agreement #73, Section "F" on Route #4, Section #30, Manahawken-Tuckerton Section

Wenonah-Mantua Road, Gloucester County,- M.V Aid.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the ~~appointment~~ of $25,000.00 from the Emergency funds to Gloucester County, and also approved of plans and specifications on the Wenonah-Mantua Road on which this money is to be applied in order that the State may have its supervision on the work.

July 9, 1925.

Route #20, Section #1, Clayton-Glassboro

Chairman Scott informed the Commission that he had inspected the completed work on Route #20, Section #1 Clayton-Glassboro, as referred to him at the last meeting, and he recommended that the same be accepted. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the acceptance of the completed work on Route #20 through Glassboro.

Township Aid, Warren County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the acceptance of the Stewartsville-Bloomsbury Road, Greenwich Township, Warren County, Township Aid.

Township Aid, Cumberland County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the acceptance and final payment on the Heislerville Road, Section #2, Maurice River Township, Cumberland County, Township Aid.

Township Aid, Union County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of plans and specifications for Valley Street, Union County, Union Township, Township Aid.

Township Aid, Cumberland County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved plans and specifications for Landis Avenue, Section #4, Cumberland County, Township Aid.

Maintenance-Cumberland County

On recommendation of the State Highway Engineer, Commissioner Kidde moved that Cumberland County be requested to reject bids for SCO and readvertise for the same without including cover material thereon. This was seconded by Mr. Stewart and adopted.

Right of Way, Route 1, Extension, Jersey City

State Highway Engineer Sloan presented to the Commission appraisals made by Mr. Percy A. Gaddis of the physical value of the property and lease of Mr. F. Boland at the southwest corner of Hoboken and Palisades Avenues, showing a total value and damage of $10,963.00. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that in view of the offer already made of $3,000 that the same be changed to an offer of $10,963.00, in accordance with the appraisal and in the event of refusal that condemnation proceedings as already authorized be proceeded with forthwith.

The State Highway Engineer presented an agreement signed by Lewis Fort and Mary Fort for the sale of their property on Route #1 Extension at Jersey City for the consideration of $10,000.00, and he recommended that the same be approved. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the property of Lewis and Mary Fort on Route #1 Extension, for the consideration of $18,000.00

State Highway Engineer Sloan informed the Commission that in accordance with the action taken at the last meeting an offer of $8,000.00 had been made to Julius Edelbach, which had been refused, but Mr. Edelbach has expressed a willingness to accept $8,500.00, which it was recommended be accepted. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the property of Julius Edelbach for the sum of $8,500.00.

Employments

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the following additions, changes and increases as made by the State Highway Engineer in the employments since the last meeting of the Commission:

Employed

7/1/25	Willard B. Wood,	Rodman,	$ 75.00	mo.

Hainesburg-Columbia Road,
Federal Aid, Warren County

Commissioner Kidde reported the inspection of the Hainesburg-Columbia Road, Warren County Federal Aid work and moved that the same be accepted on the part of the State. This was seconded by Mr. Stewart and adopted.

Route #5, Trolley Tracks

Commissioner Kidde reported concerning a meeting held at the offices of King and Vogt, Attorneys for the Morris County Traction Company, at Morristown, on the matter of the reconstruction of the trolley track area occupied by the Morris County Traction Company through Route No. 5 and other communities. This meeting was held on Wednesday, July 8th, and was attended by representatives of Summit, Springfield, Dover, Milburn, Madison, Dover, Morristown, and the Freeholders of Union County. City Attorney Congelton, of Milburn, was named as Chairman of the meeting and advised that Judge Runyon, on his suggestion, had asked that this meeting be called of all the interested parties to determine what could be done toward securing an amicable settlement of the difficulties, and to report back to the Court on the following week. The meeting opened with a technical discussion as to the position of the railway company, and Attorney King endeavored to have the municipalities release the railway company from its liabilities as to road paving and also for back taxes due. Mr. Kidde then stated that he believed it was time for the receivers to advise what the railway company was prepared to do, and what sacrifices the bondholders would make to rehabilitate the lines. The receivers were not present at the meeting, and Attorney King explained that there was about $125,000 of free money on hand, of which there was due practically a similar amount in back taxes unpaid. He also advised that there were 288 bondholders and it was difficult to get them together to obtain action, and he did not believe that anything would result from this since the bonds are now worth only $20 for each $100 worth. Mr. Kidde then advised that the Commission would not stand for the sparring and desired some definite action taken. Several of the communities represented stated that if no satisfactory adjustment could be made, they were prepared to see the rails torn up and a bus line franchise granted. A proposition was made on behalf of the State that the railway company should rehabilitate its tracks, furnish new rails and track material, and in addition pay for the cost of putting in a new macadam pavement, and also pay a flat sum in lieu of future maintenance, in an amount of one-half the capitalized cost of maintenance, amounting to about $10,000 per mile. This was countered by the railway company with an offer for Madison and Chatham in an amount of $50,000.00, which was refused. It was then suggested that the Committee return to Judge Runyon with the advice that no agreement could be reached. It was finally determined that a Committee, composed of Mr. Congelton, Chairman, Mr. Meisel, Director of Union County Board of Freeholders, and Commissioner Kidde, meet with the railway officials before the Highway Commission on this day at 2:30 P.M. The remaining municipalities expressed a willingness to await the outcome of this hearing before the State Highway Commission before taking further action, and it was decided to postpone the return to Judge Runyon for two weeks. On motion, duly seconded, the report was ordered received.

Commissioner Kidde moved that a recess be taken for luncheon until 2:30 P.M. This was seconded and adopted.

The meeting reconvened at 2:30 P.M. as agreed, with the same members present as at the morning session.

The Secretary informed the Commission that Mr. Elmer King, Attorney for the Morris County Traction Company, Mr. Choate, Jr., Receiver, and a Special Committee composed of Mr. Congelton and Mr. Meisel, were present for a hearing as arranged by Commissioner Kidde. On motion, duly seconded, a hearing was granted. Mr. Kidde explained that the delegation was present to endeavor to work out a plan for the reconstruction of the tracks of the Morris County Traction Company which could be carried back to Judge Runyon, before whom an Order to Show Cause is returnable on Monday next. Mr. Choate addressed the Commission and stated that the Traction Company is in very bad shape financially and should not be subjected to the claims as imposed by the franchises through the several municipalities. He explained that at the time the franchises were granted the cost of labor and materials was very little, and the travel was almost entirely horse drawn, and the traveled way required little maintenance, while today there is heavy construction required where the franchises call for a payment similar to that placed by the municipalities. He also stated that at the same time the traction company was being charged with paving costs, the bus people were coming in and asking for good roads to ride over without paying anything for the privilege. Commissioner Stewart inquired as to the ownership of the Company and the bonded indebtedness. Mr. King explained that the bondholders held $3,000,000 worth, which were only worth $20 on the market against a $100 par value. Commissioner Kidde explained that it must be understood that the Highway Commission is acting under the laws creating it, and is in no position to relieve the traction company from its franchise obligations. He also explained that a schedule had been made up by the Company representatives, at the conference held on Wednesday, showing paving obligations of $219,000 and track rehabilitation at $207,000; and Mr. King had set the total figure at nearer $600,000.00

Mr. King addressed the Commission and stated the history of the traction company and its finances. He advised that the Company realized its obligations but was without funds and in the hands of receivers, and whatever was decided upon must be referred to the Judge for his consent. He suggested the following (1) that the bondholders be asked for an assessment on their bonds; nothing can be obtained from the stockholders since they have nothing, and it was hardly possible that the bondholders would give up. He suggested too, that the State Highway Commission have a representative on the Board of Directors of the Company; and (2) that the municipalities through which the company runs also have representation on the Board; and (3) that for five years the net earnings of the corporation be applied and divided equitably among all, as well as the paying of current taxes; and (4) that the back taxes be foregone by the municipalities; and (5) that all should forego any past paving obligations as well as the future. He called this scheme a "moratorium" for five years, at the end of which time it could be determined what the attitude of the Legislature would be. Mr. King questioned as to the new equipment purchased during the receivership, and was advised that 10 new cars were purchased on Trust certificates, in amount of about $85,000. Commissioner Stewart advised that the Commission could not become party to any such agreement, since it could not act as a member of the Board of Directors of the Company. Commissioner Kidde stated that it would be possible, in his opinion, to enter into a plan for deferred payments to be made by the traction company if the company could demonstrate its solvency by getting some extra money in hand. He placed this amount at about $200,000.00, and the work to be done to be about $400,000.00. Mr. Kidde also stated that it was suggested that Receivers' Certificates be issued and sold to the bondholders to raise the sum mentioned by him.

Mr. Congelton informed the Commission that he appeared as a representative of the municipalities through which the traction company operated, and from what he heard it appeared as though the traction company was anxious to have the municipalities relieve it of all its obligations, and he replied that the towns would much rather have the trolley tracks torn out and replaced by a bus line than to permit the line to stay without fulfilling it obligations.

Mr. Meisel also spoke and stated that he was familiar with the trolley line since its inception, and it certainly could not but the franchise obligations as the cause of its failures, especially in Union County, where very little has been spent on track work. He stated that the County is advised by its attorney that there is no legal right for expending County funds to aid the trolley company in repairing its tracks, and the only thing left is to advise the counsel to go before the Grand Jury and present the case to them. Mr. King asked for permission to think the matter over and to again come before the Commission. Mr. Stewart advised that the Commission would still hold the Company to its franchise obligations. The hearing was closed with advice by Mr. King that the matter would be carried through as soon as possible.

Sussex-Coleville Road, Sussex
County- M. V. Aid

The Secretary informed the Commission that Judge H. T. Kays, Attorney for Sussex County, and County Engineer Harvey Snook, were present and desired a hearing. On motion, duly seconded, a hearing was granted. Judge Kays informed the Commission that following advertisement for bids on the Sussex-Coleville Road, the low bid had been received in an amount of approximately $75,000.00. He stated that this hearing was arranged to request the State Highway Commission to permit the County to use the full amount of $55,000.00 as set up by the State on the work. He called attention to the fact that as originally set up the State's share was to be 50% of the contract cost not exceeding $55,000.00. He pointed out, however, that although the contract price was $75,000.00, the County had an additional charge of $7,000.00 for engineering as well as cost for guard rail and right of way; in addition to this, the County proposed to reinforce the bridges on this section and, would, within the next two or three years, entirely rebuild the same from their own funds.

Commissioner Jelin stated that he believed if the County would consider rebuilding the bridges from its own funds it would be fair to set up the entire amount of $55,000.00 against this project.

Judge Kays also called attention to the fact that this section of road is part of a legislated State Highway which at some time would come under the entire control of the State Highway Commission, and there was considerable objection on the part of the taxpayers in Sussex County to spend any considerable amount of money toward this improvement.

Chairman Scott stated that there was a very fallacious idea prevalent in the State that just as soon as roads were legislated, State Highways. it was not necessary for the local governing bodies to provide further maintenance. However, the State Highway Commission must make it clear that until there are additional funds provided, it will not be possible to take over for future maintenance or construction any considerable amount of new highways. Following further discussion, Commissioner Jelin moved that the former action of the State Highway Commission setting up 50% of the cost of the Sussex-Coleville Road, be rescinded, and that the sum of $55,000.00 be allotted by the State to this project, with the understanding that the County will award the contract and in addition will provide the necessary right of way, engineering and guard rails immediately, and will also agree to rebuild the bridges on this road within the next three years. This was seconded by Mr. Stewart and adopted.

Sparta-Woodport Road, Sussex Co.

Judge Kays also directed that the attention of the Commission to the necessity for completing the Sparta-Woodport Road, contract for which was carried out during the past year on the basis of nine feet wide of pavement over a distance of 3.66 miles. He advised that unless the work could be completed, it would involve a considerable expense on the County to provide some means of protection to the concrete already laid and also some safety to the traffic using this road.

County Engineer Snook estimated the cost of completing this project at $90,000.00.

Judge Kays requested permission for the County to complete this work under the provisions of Chapter 10 of the Laws of 1919, known as the Bond Retirement Plan, which would allow 50% of the Motor Vehicle Funds to be used toward retiring the cost of this work over a period of five years.

July 9, 1925.

Commissioner Stewart inquired whether the County would be able to properly maintain its roads from the remainder of the funds in the Motor Vehicle Account. He was advised that there would be sufficient funds because of the fact that deductions were now being made for other road improvements under Chapter 10 of the Laws of 1919, will be at an end within the year, this releasing further funds for maintenance work.

Commissioner Stewart therefore moved that the State Highway Commission express its willingness to consider favorably an application from Sussex County for permission to proceed with the completion of the Sparta-Woodport Road under the provisions of Chapter 10 of the Laws of 1919, work to be carried out over a period of five years.

Route #5, Dover

State Highway Engineer Sloan presented to the Commission a plan showing a revision in the proposed line for Route #5, through Dover, in which the new alignment was followed to a point known as Sussex Street, thence following along Sussex Street to its intersection with Blackwell Street and continuing on Blackwell Street, this work involving an estimated cost of $165,000.00.

Commissioner Kidde, therefore, moved that the Town of Dover be advised concerning this new alignment and that the State Highway Engineer inform the authorities of Dover that the Commission will consider favorably the improvement of this line if a contribution of the right of way and $75,000.00 would be made by the municipality. This was seconded by Mr. Jelin and adopted.

Motor Vehicle Aid -
Manville Road -Somerset County

The Secretary informed the Commission that Mr. Howard Woolston, Freeholder from Somerset County had made a request for State aid on behalf of the County in the construction of the new road at Manville, in Somerset County, in view of the fact that the County has not received funds from the Reserve Account other than $6,000.00 heretofore granted. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of an allotment of $19,000.00 from the Motor Vehicle Reserve Account to Somerset County as aid in the improvement of the Manville Road.

Township Aid - General

There was next presented for the consideration of the Commission the applications as made by the Townships of the State for aid from the Township Aid Account from funds becoming available on July 1. This report was given consideration and contained the recommendations of the State Highway Engineer and the Assistant State Highway Engineer. Following a conference Commissioner Kidde moved that the following apportionment of Township aid moneys be made for the year 1925-1926:

ATLANTIC COUNTY

TOWNSHIP	ROAD	AMOUNT APPROVED
Buena Vista	Union Avenue	$ 7,500.00
Galloway	Sixth Avenue	3,000.00
Mullica	Pleasant-Mills Weekstown	7,500.00
Hamilton	Weymouth Road, Sec. 1,	22,000.00
		$ 40,000.00

BERGEN COUNTY

Franklin	Crescent Road, Sec. #2,	8,750.00
Franklin	Crescent Ave. Sec. #1-A	4,000.00
Hillsdale Boro	Ruckman Ave.,	10,000.00
Hohokus	Houvenkopf Road,	17,250.00
		$ 40,000.00

BURLINGTON COUNTY

Bass River	Warren Grove-Washington	4,500.00
Chester	North Forklanding Road	14,000.00
Evesham	Hog Pond & Cox's Corner	3,000.00
Medford	Taunton Road	3,000.00
Springfield	Jobstown-Juliustown	3,500.00
Woodland	Chatsworth-Ocean Co. Line, Sec. #3	12,000.00
		$ 40,000.00

		$ 40,000.00

July 9, 1925.

Right of Way, Route #1 Extension

The Secretary announced that he had received information by telegram from Judge Mark A. Sullivan, Special Counsel in the Erie Railroad matters, that the agreement between the State Highway Commission and the Erie Railroad Company had been fully executed by the Erie Railroad Company and all of its subsidiaries and would be submitted at the next meeting of the Commission for ratification.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was adjourned at 6:00 P.M., to meet in regular session again on Tuesday July 14, 1925, at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - July 14, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, Tuesday, July 14, 1925. The meeting was called to order at 10:30 A. M., by Chairman Scott.

Present; Gen. H. L. Scott, Chairman, Messrs. Walter Kidde and Abraham Jelin.

Absent: Percy H. Stewart.

Minutes Approved

Commissioner Kidde reported having read the minutes of the meetings of May 26th and June 2nd, and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Route #4, Rahway-Perth Amboy

The Secretary informed the Commission that Senator Morgan Larson of Middlesex County and Engineer for the Town of Woodbridge, was present together with Louis Neuberg, Mayor, for a hearing with the Commission. On motion, duly seconded, a hearing was granted. Mayor Neuberg informed the Commission that the property owners along the line of Route #4 through Woodbridge had attended a meeting with the City Council and had presented a petition signed by almost 80% of the property owners, against the widening of Route #4 through Woodbridge to 40 feet at the expense of the residents. He advised that efforts had been made by the city authorities to present the matter to the local people and to explain the benefits to be derived from this improvement, and he had also informed them that on account of the low prices obtained by the State on this work, the town would benefit at much less cost than if the work had to be done sometime later. He also advised that the municipality had offered to share one-quarter of the cost from the general funds but this had no effect.

Commissioner Kidde offered the suggestion that the State Highway Commission hold a public meeting at Woodbridge and meet the leaders who were opposed to the widening, in order that the matter may be entirely thrashed out before work is commenced. Following further discussion Commissioner Kidde moved that the State Highway Commission deplores the fact that there is no cooperation from the residents of Woodbridge in the improvements contemplated on Route #4, and does authorize a hearing to be held in the City Hall at Woodbridge on

Monday, July 20th, at 7:00 P. M., at which time the State Highway Commission will advise the citizens of Woodbridge that a 29 foot pavement will be placed in accordance with action already approved by the Commission unless there is some efforts at cooperation from the local residents./ This was seconded by Mr. Jelin and adopted.

Detour, Route #4

Mayor Neuberg also called attention to the dangerous detour established during the construction of Route #4 between Rahway and Perth Amboy, especially at the crossing of the main line tracks at Iselin. He expressed the hope that the Commission would make some alterations in this line before the road was actually placed under construction.

Right of Way, Route #1, Extension

The Secretary informed the Commission that Judge Mark Sullivan, Special Counsel on the Erie Railroad matters at Jersey City, was present for a meeting with the Commission. Judge Sullivan appeared and informed the Commission that he had with him the signed agreements executed by the Erie Officials covering the location of Route #1 Extension at Jersey City over the property of the Erie Railroad Company. He suggested that a resolution be adopted by the State Highway Commission in ratification of this agreement. Commissioner Kidde, therefore, moved the adoption of the following resolution:

> BE IT RESOLVED by the State Highway Commission of the State of New Jersey, that the agreement hearing date of July 10, 1925, and signed by the proper officials of the Erie Railroad Company, the Penhorn Creek Railroad Company, the Erie Land & Improvement Company, the Long Dock Company, the New York, Susquehanna and Western Railroad Company, and the New Jersey & New York Railroad Company, be and the same is hereby approved and ratified by the State Highway Commission of the State Of New Jersey, and the Chairman and Secretary are hereby authorized to execute the same on behalf of the State Highway Commission, and a copy of the said agreement is hereby ordered filed with the official records of the State Highway Department.

This was seconded by Mr. Jelin and adopted.

Chairman Scott declared that Commissioner Stewart had expressed a desire to be reported in the affirmative on the adoption of this resolution and he therefore declared the same unanimously approved.

July 14, 1925.

Route #1 Extension, Jersey City

State Highway Engineer Sloan next presented to the Commission the alignment for State Highway Route #1 through Jersey City which should be taken over at this time, and he recommended its adoption. Commissioner Kidde offered the following resolution for adoption:

> WHEREAS, the State Highway Commission has heretofore held a public hearing in accordance with the requirements of the law for the taking over of State Highway Route #1 Extension in Jersey City, and other hearings and conferences in connection with the establishing of the line for the said extension of State Highway Route #1 in the City of Jersey City, now, therefore,
>
> BE IT RESOLVED, that the State Highway Commission of the State of New Jersey does hereby designate the following route for State Highway Route #1 Extension through Jersey City from the plaza of the Hudson River Vehicular Tunnel to the Hudson County Boulevard:

The center line beginning at a point in the westerly building line of Jersey Avenue, 49 feet northerly from the southerly line of Twelfth Street; thence running in a westerly direction parallel to said southerly line of Twelfth Street and Twelfth Street produced, and 49 feet distant (northerly) from said southerly line, to a point near the New Jersey Junction Railroad approximately 1752.5 feet from the point of beginning; thence by a curve of 700 feet radius turning to the right for a distance of approximately 407.37 feet having a central angle of approximately 33 degrees 21 minutes: thence by a curve of 1600 feet radius turning toward the right for a distance of approximately 240.98 feet having a central angle of approximately 8 degrees 38 minutes. The end of this last curve is at a point approximately 140 feet westerly of the easterly side of Palisade Avenue and 140 feet northerly measured at right angles from the center line of the four tracks of the Erie Railroad Companies in the open cut. The center line of the location continues westerly from this point, on the northerly side of said open cut, parallel to the center line of the four tracks in said open cut, and 140 feet distant from said center line, to a point near Collard Street opposite the intersection of the easterly side of Collard Street with Underwood Place;

The width of right of way to be acquired for the Highway and its appurtenances and for construction purposes is as follows:

From Jersey Avenue to the westerly side of Monmouth Street, the total width of the right of way for the Highway is to be 56 feet; 29 feet on either side of the center line of location. 39 feet of this is land now occupied by Twelfth Street and 17 feet is private property on the north side of Twelfth Street between Jersey Avenue and Coles Street and between Coles Street and Monmouth Street.

Between Jersey Avenue and Coles Street additional land is to be acquired on the northerly side of the Highway for construction purposes and for the construction of a Street to take the place of that part of Twelfth Street to be occupied by the Highway. Starting at Jersey Avenue, this additional width will be 40 feet wide for the first 100 feet, 83 feet wide to Coles Street.

From the westerly side of Monmouth Street and proceeding westerly the right of way is to be 60 feet wide for a distance of about 540 feet, thence widening out on curved lines on both sides, to a total width of 120 feet at a point about 400 feet further and maintaining this width to the easterly side of Palisade Avenue. Throughout this section the centerline of the location is the center line of the right of way.

Between the easterly side of Palisade Avenue and the easterly side of Oakland Avenue, the total width of right of way and lands to be acquired, will be 102 feet, 9 inches, 34 feet of which will be on the southerly side of the center line of location and 68 feet 9 inches on the northerly side thereof.

From the easterly side of Oakland Avenue to the westerly side of Bevan Street, the right of way will be 70 feet in width of which 34 feet will be on the southerly side of the center line of location and 36 feet will be on the northerly side. From Bevan Street to Collard Street the right of way will continue as above, namely 70 feet in width, but there will be required in addition on the northerly side, through the block between Bevan and Collard Streets, and additional width of 40 feet for a street at approximately the present level of Underwood Place.

Said Highway Route above described is shown on map entitled: "Map No. 13-0-15, dated July 10, 1925, entitled 'Map showing Route Adopted July 14, 1925, Jersey Avenue to Collard Street, Jersey City, Hudson County." and

BE IT FURTHER RESOLVED, that the State Highway Commission does hereby take over as a part of the State Highway System so much of the above mentioned route as may be included in existing streets, and

BE IT FURTHER RESOLVED, that any part or section of State Highway Route #1 Extension through Jersey City, between Marcy Avenue and the entrance to the Hudson River Vehicular Tunnel, heretofore taken over in Jersey City, be and the same is hereby abandoned as a part of the said State Highway Route #1 Extension, with the exception of the adoption of a line for State Highway Route #1 Extension from the Hudson County Boulevard to Doremus Avenue, Newark, as made by resolution of the Commission dated May 12, 1925, and

BE IT FURTHER RESOLVED, that any and all portions of any and all resolutions adopted by the State Highway Commission of the State of New Jersey on December 17, 1924 or any date thereafter, including the resolution adopted March 13, 1925, inconsistent with any of the provisions of this resolution, are hereby rescinded and declared to be null and void and of no effect.

This was seconded by Mr. Jelin and adopted.

Chairman Scott advised that he advice from Commissioner Stewart to the effect that he desired to be recorded in favor of this resolution and he declared the same unanimously adopted.

Route #1 Extension, Section #2

State Highway Engineer Sloan next presented to the Commission the report of bids received on Route #1 Extension Subway Construction, known as Section #2, and recommended that in view of the final execution of the contract by the Erie Railroad Company and the State Highway Commission, that award be made to the Public Service Production Company at their's the lowest bid received in the sum of $1,176,601.95. Commissioner Kidde therefore offered the following resolution of award and moved its adoption:

July 14, 1925.

WHEREAS, at a public bidding held after duly authorized advertisement, the low bid for the construction of State Highway Route #1 Extension, Section #2, Jersey City, was submitted by the Public Service Production Company at $1,176,601.95, and

WHEREAS, the agreement between the State Highway Commission and the Erie Railway Company covering certain right of way and construction details has been executed, now, therefore,

BE IT RESOLVED, by the State Highway Commission of the State of New Jersey that the contract for the construction of State Highway Route #1 Extension, Section #2, between the New Jersey Junction Railroad and Oakland Avenue in the City of Jersey City, be and the same is hereby awarded to the Public Service Production Company on theirs the lowest bid submitted of $1,176,601.95, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Right of Way, - Route #1 Extension

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the condemnation proceedings as begun on property on the southerly side of 12th Street in Jersey City, be abandoned on the part of the State Highway Commission in view of agreement having been reached with the Erie Railroad Company.

Right of Way, Route 1, Extension,
Hackensack River Bridge.

Judge Sullivan discussed with the Commission the matter of condemnation of the Bowen property on Route #1, Hackensack River Bridge, He informed the Commission that he had negotiated with the owners of this property concerning an annual rental for the property and they had made a proposition of $10,000.00 per year. They had also informed him that in the event the condemnation award is paid for the property by the State they were ready to proceed to collect rental for the time which the State Highway Commission occupied the property before the condemnation award was made. Commissioner Kidde moved that Judge Sullivan be authorized to make an offer of $6,000.00 per annum for rental for the period of occupancy of the property by the temporary Hackensack River Bridge, to the owners of the Bowen tract. This was seconded by Mr. Jelin and adopted.

Right of Way, Route #1 Extension,
Jersey City.

Chairman Scott instructed Judge Sullivan to proceed as promptly as possible with the condemnation of property needed on Route #1 extension through Jersey City.

Trees, Route #4, at West Creek

The Secretary presented a telegram received from Mrs. Sarah C. Stiles of West Creek advising that it is impossible for a delegation to come before the Commission concerning trees at West Creek, and requesting information as to what has been done in the matter. On motion, duly seconded, the Secretary was instructed to forward information of the action of the Commission to Mrs. Stiles.

Route #5, Dover

The Secretary informed the Commission that a telephone communication had been received from Mr. J. B. Baker, Town Clerk of Dover, New Jersey, advising that the Town Council has passed a resolution approving of the realignment of State Highway Route #5 as outlined to the Mayor and Common Council by State Highway Engineer Sloan. The State Highway Engineer informed the Commission that he had advised the town of Dover that the State Highway Commission will consider the relocation of Route #5 from a point on the present route near the property of William H. Pierson across private property to MacFarland Street to the intersection of MacFarland Street and Sussex Avenue, and will provide for the construction on this road if the Town of Dover would furnish all the right of way with the exception of that owned by William H. Pierson, without expense to the State and will contribute the sum of $75,000.00 toward the work. He further informed the Commission that the Town of Dover had replied that it could not see its way clear to grant $75,000.00 at this time but would appropriate $50,000.00, amd would appropriate and additional $25,000.00 when the balance of the new line is constructed. He recommended to the Commission that $50,000.00 be accepted and that the work proceed on the new line as laid out for Route #5. Commissioner Kidde suggested that in view of the fact that the State Highway Commission will not take over Sussex Avenue and Blackwell Street and the fact that Blackwell Street will be reconstructed by the County, some allotment should be made to the Town of Dover for the paving of MacFarland Street from Sussex Avenue to a point between Sussex Avenue and West Clinton Street, and he, therefore, moved that the recommendations of the State Highway Engineer concerning the relocation of Route #5, be adopted, and that the Town of Dover be advised that the State Highway Commission will accept their contribution of $50,000.00 toward the cost of the construction and that it is the understanding that the Town will furnish all the right of way with the exception of the property owned by William H. Pierson and will guarantee that the County of Morris will take for reconstruction and maintenance that section of Blackwell Street between the crossing of the D. L. & W. Railway Company and White's Bridge forthwith, and further that the State Highway Commission does allot to the Town of Dover sufficient funds not exceeding $10,000.00 as aid in the placing of a satisfactory pavement on MacFarland Street extending from Sussex Avenue to a point between Sussex Avenue and West Clinton Street. This was seconded by Mr. Jelin and adopted.

Scales, Essex County

The Secretary presented a resolution from the Board of Freeholders of Essex County, requesting the installation of a motor truck weighing scale at the western section of Essex County, together with a communication from Motor Vehicle Commissioner Dill, transmitting a copy of this resolution. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the matter be referred to Commissioner Dill for his recommendation and designation as to the location for the installation of such a scale.

Globe Indemnity Company

The Secretary presented a communication from Conkleton, Stallman & Hoover, Attorneys for the Hodgson Sand & Gravel Company, advising of their clients claim against the Globe Indemnity Company, and transmitting part of a letter received by them from the Globe Indemnity Company, in which there seemed to be an intention to sidestep their liabiltity in the matter. The Secretary informed the Commission that this condition had existed for sometime and would cause the Commission to become involved in a great amount of litigation. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission directed that a communication be forwarded to the Globe Indemnity Company, advising that the Commission has numerous complaints concerning their attitude on claims of materialmen on State Highway work and unless these cases are given a more satisfactory consideration it may become necessary for the State Highway Commission to consider striking their name from the list of approved bondsmen for State Highway work.

Mountain Avenue, Hackettstown

The Secretary informed the Commission that he had received a telephone communication from the Town Clerk of Hackettstown, advising that the Mayor and Common Council of the Town had approved plans for the reconstruction of Mountain Avenue in Hackettstown on the basis of receiving an allotment from the State Highway Commission in the amount of $25,000.00 as was tentatively made at the last meeting. Commissioner Kidde moved that the State Highway Commission allot the sum of $25,000.00 from the Motor Vehicle Reserve Account as aid to the Town of Hackettstown in the reconstruction of Mountain Avenue. This was seconded by Mr. Jelin and adopted.

Information Requested-S. P. Leeds

The Secretary presented a communication from Mr. S. P. Leeds of Atlantic City, requesting information of the contract award on Route #4 and a comparison with the work being done on the Absecon Boulevard. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the facts requested by Mr. Leeds be forwarded to him, but that no statement be made in the name of the Commission as to the Absecon Boulevard work.

Right of Way, Route #1,
Extension, Lincoln Highway
Section, Hackensack River
Bridge

The Secretary presented a bill received from Mr. Edward McDermott for services rendered as real estate expert in the Bowen Condemnation on Route #1 Extension, Lincoln Highway Section, Hackensack River Bridge, in the amount of $1,000.00. Commissioner Kidde moved that this bill be referred back to Assistant Attorney General McGee with the suggestion that the State Highway Commission feels that the amount charged is high and requesting that he negotiate with Mr. McDermott looking toward a reduction in the amount. This was seconded by Mr. Jelin and adopted.

General Reimbursements, County

The Secretary presented a report from the Chief Auditor and Accountant, advising of his estimate as to the amount of money required for reimbursement to be made to the several counties of the State in accordance with Chapter 218, Laws of 1925. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the report be received and that a copy of the same be forwarded to the Attorney General's Office requesting his opinion as to the legality of the provisions contained in this Act, and also as to what methods are prescribed for payment and which funds are to be used for the purpose.

Right of Way, Route #12

The Secretary presented bills rendered by appraisers on property on Route #12. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the payment of the following accounts:

John F. Lee, Sr.	$ 250.00
James L. Brown,	250.00
James L. Brown,	100.00
Alexander MacLeod,	100.00
Alexander MacLeod,	250.00
Garret VanCleve,	100.00

The schedule of business was next taken up for consideration item by item as follows, with the recommendations of the State Highway Engineer:

Right of Way, Routes #3 and #4.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of the following parcels of property by quit claim deed, for the consideration of $1.00 with a letter of thanks to the owners:

Route No.	Parcel NO.	Name	Consideration
3	317	Frank Rubba, single,.	$1.00
4	58	Margaret C. Adams, single	1.00 plus

the stipulation that the encroaching two and one-half story frame dwelling, opposite Station 199, on the southerly side of the road, will be allowed to remain until such time as the State may desire to have it removed, at which time it shall be done at the expense of the State.

Right of Way, Routes No. 4, 14, 16, and 20.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of the following parcels of property on the State Highway System, for the consideration named:

July 14, 1925.

Route No.	Parcel No.	N a m e	Consideration
4	20	Charkley Cramer & Wife,	$ 900.00
7	9, 9A, & 9B,	I. H. Gibson & Wife,	870.00
7	11	John H. DuBois&Wife,	1113.00
7	15	Abijah C. Fisher, widower	300.00
7	16,	Fred Smith, Widower	325.00
7	17,	David Troy, Wife,	150.00
7	18,	Howard M. Groxson & Wife,	150.00
7	19,	Bernard White, et als	100.00
7	20,	Michael H. Ford, single, plus timber that is cut down.	20.00
7	23,	James Power & Wife,	320.00
14	19,	Emma S. Rice, Widow	106.00
14	30,	Walter Taylor, Widower	30.00
14	31 & 31A,	Frank Buzby,	175.00
14	32 & 32A,	Walter Taylor, Widower	195.00
14	36B,	Homestead Development Co.,	1232.80
16	14,	Estelle M. Kopald,	5.00
20	60,	Gurney Wert,	1.00

Bridge, Route #4, M. P. 38.5

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved acceptance of riparian rights from the State Board of Commerce & Navigation for the construction of a bridge over the North Branch of the Forked River at M. P. 38.5 on Route #4, Section #27, for the consideration of $73.00.

Ocean City Bridge

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance of riparian rights from the Ocean City Automobile Bridge Company, between Ocean City and Somers Point, in accordance with the application made by the State Highway Department under date of December 26, 1923, from the Board of Commerce & Navigation, in a total amount of $2597.21.

Request for Aid, Gloucester Co.

The Secretary presented a communication received by Chairman Scott from Senator Davis of Woodbury, introducing Mr. Frank L. Pote of Paulsboro to the Commission, who will ask for aid on a road known as the Paulsboro-Jefferson Road. The Senator advised that he would have been present at this time but illness prevented. The Secretary advised that Mr. Pote, together with the Director of the Board of Freeholders of Gloucester County, and Postmaster of Paulsboro, were present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Pote addressed the Commission and advised that the delegation appeared to ask aid from the State on the Paulsboro-Jefferson Road, which forms a conncetion with Route #6. He informed the Commission that the total cost of the project was estimated to be $225,000.00 for a distance of 5.6 miles and it was requested that the State grant aid in the amount of $75,000.00 toward this improvement.

Director Treat advised that the Board of Freeholders has received so many demands for the construction of this road and it serves such an important area, that number of important projects have been set aside in order to permit of the construction of this road followin the work being done on the Mantua road this year.

Commissioner Kidde informed the delegation that the State Highway Commission had no funds from its present year's account to assign to this work, and in view of the fact that it is not part of the 7% System of Federal Aid this is not applicable. He advised, however, that if the request came from the Board of Freeholders of Gloucester County, there was a possibility that the Commission would look favorably toward granting some aid on the work from ~~last~~ next year's funds. The delegation expressed their appreciation of this attitude and declared the County Board of Freeholders would submit a proposition.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting recessed for luncheon at 1:00 P. M., to meet in regular session at 2:30 P. M. The meeting was reconvened at 2:00 P. M. with the same members present as at the morning session.

Right of Way, Route #1 Extension

State Highway Engineer Sloan reported that Mr. Fred Lavis, Construction Engineer was present with a report of offers made for parcels of property on Route #1 Extension, Jersey City, which offers had been refused, and he recommended that condemnation proceedings be instituted. The first matter presented was that of the Cox property, on which an offer had been made by the Commission at its last meeting in the sum of $3,000.00. Since this time an appraisal had been submitted by Mr. P. A. Gaddis setting the value of lease and property of Mr. Cox at $24,424.00. State Highway Engineer Sloan recommended that an offer of $20,000.00 be made to Mr. Cox and in the event of his refusal that condemnation proceedings be instituted. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that an offer of $20,000.00 be made to Mr. Cox and in the event of refusal to accept that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #1 Extension ALL that certain Lot, tract or parcel of land and premises situate, lying, and being in the State of New Jersey, and more particularly described as follows:

BEGINNING at a point formed by the intersection of the northeasterly side line of Underwood Place (formerly Tunnel Street) with the southeasterly side line of Collard Street, outlined in green on a plan hereto attached, marked "Exhibit A", entitled, "New Jersey State Highway Department, Route #1, Extension, Property to be acquired from The Everett W. Cox Company, City of Jersey City, Hudson County, July 1925," and running; thence (1) in a northeasterly direction along the southeasterly side line of Collard Street, a distance of fifty (50) feet more or less, to a point in the proposed northeasterly right of way line of State Highway Route #1, Extension, parallel to and distant two hundred and sixteen (216) feet from the existing monumented center line of the Erie Railroad passenger tracks; thence (2) in a southeasterly direction along the aforesaid proposed northeasterly right of way line of State Highway Route #1 Extension, a distance of one hundred and two (102) feet, more or less, to the dividing line between lands of Everett W. Cox Company on the west and the lands now or formerly of the Erie Railroad on the east; thence (3) along said dividing line in a northwesterly direction, a distance of sixty-two feet and fifty-six one-hundredths of a foot (62.56) to the northeasterly side line of Underwood Place (formerly Tunnel Street); thence (4) in a northwesterly direction, along the northeasterly side line of Underwood Place (formerly Tunnel Street), a distance of twenty-two feet and seventy-three one-hundredths of a foot (22.73) to the point or place of Beginning; CONTAINING two thousand, four hundred and thirty-eight (2,438) square feet, be the same more or less, as shown on said plan. It being the intention to acquire all lands lying between the southeasterly side line of Collard Street on the west and the dividing line between lands of Everett W. Cox Company and the land now or formerly of the Erie Railroad Company on the east, and extending from the northeasterly side line of Underwood Place (formerly Tunnel Street) on the south to the proposed northeasterly right of way line of State Highway Route #1 Extension on the north, as shown on said plan hereto attached. Being part of Lots 13, 14, 15A, 16A, Block 630A, as shown on the official assessment map of Jersey City.

AND also all the right, title and interest of whatsoever nature the same may be, of Everett W. Cox Company, a corporation of New Jersey, which said corporation has or may claim to have by reason of a certain lease made to said corporation as lessee by Long Dock Company and Erie Railroad Company, as lessors, under date of September 26, 1924 and duly recorded in the office of the Register of Deeds of Hudson County in Liber 1561 of Deeds, at page 588 etc., and all other rights, title and interest of said corporation in and to

ALL that certain lot, tract or parcel of land and premises situate, lying and being in the City of Jersey City, in the County of Hudson and State of New Jersey, more particularly described as follows:

BEGINNING at a point formed by the intersection of the northeasterly side line of Underwood Place (formerly Tunnel Street) and the northwesterly side line of Bevan Street, as outlined in red on a plan hereto attached, marked "Exhibit A", entitled, "New Jersey State Highway Department, Route #1, Extension, property to be acquired from the Erie Railroad Company, city of Jersey City, Hudson County, July 1925" and running; thence (1) in a northwesterly direction along the aforesaid northeasterly side line of Underwood Place (formerly Tunnel Street) a distance of two hundred and forty-two feet and forty-three one-hundredths of a foot (242.43) to a point in the dividing line between lands of Erie Railroad Company and lands now or formerly of the Everett W. Cox Company; thence (2) in a southeasterly direction along the said dividing line, a distance of sixty-two feet and fifty-six one-hundredths of a foot (62.56) to a point in the proposed northeasterly right of way line of State Highway Route #1 Extension, parallel to and distant two hundred and sixteen (216) feet from the existing monumented center line of the Erie Railroad passenger tracks; thence (3) in a southeasterly direction along the aforesaid proposed northeasterly right of way line of State Highway Route #1 Extension, a distance of one hundred and sixty-one feet and twenty-two and one-hundredths of a foot)161.22) to the northwesterly side line of Bevan Street; thence (4) along the northwesterly side line of Bevan Street, in a southwesterly direction, a distance of fifty feet and sixty-two one-hundredths of a foot (50.62) to the point and place of Beginning; CONTAINING seven thousand, eight hundred and seventy-one (7871) square feet, be the same more or less, as shown on said plan. It being the intention to acquire all the right, title and interest of Everett W. Cox Company, a corporation of New Jersey, in and to lands lying between the southerly line of lands now or formerly of Everett W. Cox Company on the west and the northwesterly side line of Bevan Street on the east, and extending from the northeasterly side line of Underwood Place (formerly Tunnel Street) on the south to the proposed northeasterly right of way line of State Highway Route No. 1 extension on the north, as shown on said plan hereto attached, Being part of plot "L" Block 630A, as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed to make an offer on behalf of this Commission of the sum $20,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

State Highway Engineer Sloan recommended that an offer of $1,500. be made for parcel #1 on Route #1 Extension, Jersey City, to Luigi Mele and wife, and in the event of refusal that condemnation proceedings be entered into. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the adoption of the following resolution:

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #1 Extension, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #1

BEGINNING at a point in the northeasterly side line of Hoboken Avenue, said point being distant forty-three (43) feet in a north-

July 14, 1925.

westerly direction from the intersection formed by the northeasterly side line of Hoboken Avenue with the northwesterly side line of Palisade Avenue, as shown on a plan hereto attached marked "Exhibit A" entitled "New Jersey State Highway Department Route #1 Extension, Property to be acquired from Luigi Mele and wife, City of Jersey City, Hudson County, June 1925" and running; thence (1) in a northwesterly direction along the northeasterly side line of Hoboken Avenue a distance of twenty-one (21) feet to the dividing lince between lands of said Luigi Mele and wife on the east and lands nor or formerly of Prospero Buonadies on the west; thence (2) in a northeasterly direction along said dividing line two feet and five-tenths of a foot (2.5) more or less to a point in the proposed northeasterly right of way line of State Highway Route #1 Extension, parallel to and distant two hundred and eight feet and seventy-five one-hundredths of a foot (208.75) from the existing monumented center line of the Erie Railroad passenger tracks; thence (3) in a northeasterly direction along the aforesaid proposed northeasterly right of way line of State Highway Route #1 Extension, a distance of twenty-one (21) feet, more or less, to its intersection with the northeasterly side line of Hoboken Avenue,.also being the point and place of beginning; CONTAINING twenty six (26) square feet, more or less, as shown on said plan; It being the intention to acquire all lands lying between lands now or formerly of Propero Buonadies on the west, extending easterly to the point of intersection of the northeasterly side line of Hoboken Avenue with the proposed northeasterly right of way line of State Highway Route #1 Extension and from the northeasterly side line of Hoboken Avenue on the south to the proposed northeasterly right of way line of State Highway Route #1 Extension on the north; being part of lot 18A, Block 552, as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $1,500 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

State Highway Engineer Sloan recommended that an offer of $9,000.00 be made for Parcel #3 on Route #1 Extension, Jersey City, to M. and A. Galietta and in the event of refusal that condemnation proceedings be entered into. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the adoption of the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #1, Extension, All that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey and more particularly described as follows:

Parcel #3

Beginning at a point in the northeasterly side line of Hoboken Avenue said point being distant eighty-four and five-tenths (84.5) feet in a northwesterly direction from the intersection formed by the northeasterly side line of Hoboken Avenue with the northwesterly side line of Palisade Avenue as shown on a plan hereto attached, marked, "Exhibit A", entitled "New Jersey State Highway Department, Route #1, Extension Property to be acquired from Nicola and Antonetta Galietta, City of Jersey City, Hudson County, June 1925" and running; thence (1) in a northwesterly direction along the northeasterly side line of Hoboken Avenue a distance of twenty-two feet and fifty one-hundredths of a foot (22.50) to the dividing line between lands of Nicolas Micucci on the west; thence (2) in a northeasterly direction along said dividing line nine (9) feet more or less to a point in the proposed northeasterly right of way line of State Highway Route #1 Extension, parallel to and distant two hundred and eight feet and seventy-five one-hundredths of a foot (210.75) from the existing monumented center line of the Erie Railroad passenger tracks; thence (3) in a southeasterly direction along the aforesaid proposed northeasterly right of way line of State Highway Route #1 Extension a distance of twenty-three (23) feet more or less to the dividing line between lands of Nicola Gallietta et ux. on the west and lands now or formerly of Prospero Buonadies on the east; thence (4) in a southwesterly direction along said dividing line, five feet and five-tenths of a foot (5.5) more or less to the point and place of beginning; CONTAINING one hundred seventy (170) square feet be the same more or less as shown on said plan; It being the intention to acquire all lands lying between the lands now or formerly owned by Prospero Buonadies on the east and lands now or formerly of Nicolas Miccucci on the west and from the northeasterly sideline of Hoboken Avenue on the south and extending to the proposed northeasterly right of way line of State Highway Route #1 Extension on the north; Being part of plot 14A, Block 552 as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $9,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

State Highway Engineer Sloan recommended that an offer of $15,000.00 be made for parcel #9 on Route #1 Extension, Jersey City, to M. and A. Phillips and in the event of refusal that condemnation proceedings be entered into. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the adoption of the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #1, Extension, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particulary described as follows:

Parcel #9

BEGINNING at a point in the northeasterly side line of Hoboken Avenue said point being distant seventy-one feet and fifty-two one-hundredths of a foot (71.52) in a northwesterly direction from the intersection formed by the northwesterly side line of Concord Street with the northeasterly side line of Hoboken Avenue, as shown on a plan hereto attached, marked "Exhibit A", entitled "New Jersey State Highway Department, Route #1, Extension, property to be acquired from

Maria and Alfred Philips, City of Jersey City, Hudson Coutty, June, 1925" and running; thence (1) along the northeasterly side line of Hoboken Avenue in a northwesterly direction, a distance of twenty-three feet and thirteen one-hundredths of a foot (23.13) to the dividing line between the lands of Mary Philips, et vir. on the east and lands now or formerly of Flora Candiani on the west; thence (2) along said dividing line in a northeasterly direction, a distance of forty three feet and five-tenths of a foot (43.5) more or less to a point in the proposed northeasterly right of way line of State Highway Route #1 Extension, parallel to and distant two hundred and eight feet and seventy-five one-hundredths of a foot (208.75) from the existing monumented center line of the Erie Railroad passenger tracks; thence (3) along the afore-said proposed northeasterly right of way line of State Highway Route #1 Extension, in a southeasterly direction, a distance of twenty-three feet and five-tenths of a foot (23.5) more or less, to the dividing line between lands of Mary Phillips, et vir. on the west and lands now or formerly of Joseph Eugel on the east; thence (4) along said dividing line, in a southwesterly direction, a distance of forty (40) feet, more or less, to the point and place of Beginning; CONTAINING nine hundred and ninety-five (995) square feet, be the same more or less, as shown on said plan. It being the intention to acquire all lands lying between the lands now or formerly of Flora Candiana on the west and from the northeasterly side line of Hoboken Avenue on the south to the proposed northeasterly right of way line of State Highway Route #1 Extension on the north; being part of Lot A1, Block 357 as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $13,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney Gereral of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

State Highway Engineer Sloan recommended that an offer of $8,500.00 be made for Parcel #12 on Route #1 Extension, Jersey City, to August Altvatter and Wife, and in the event of refusal that condemnation proceedings be entered into. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the adoption of the following resolution:

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route No. 1 Extension, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #12

Beginning at a point in the northeasterly side line of Hoboken Avenue, said point being distant one hundred and fifty-four feet and sixty-seven one-hundredths of a foot (154.67) more or less, in a northwesterly direction from the intersection formed by the northwesterly side line of Concord Street with the northeasterly side line of Hoboken Avenue, as shown on a plan hereto attached, marked "Exhibit A" and entitled "New Jersey State Highway Department, Route #1, Extension, Property to be acquired from August Altvatter and wife, City of Jersey City, Hudson County, June, 1925", and running; thence (1) along the northeasterly side line of Hoboken Avenue, in a northwesterly direction, a distance of twenty-three (23) feet to the dividing line between lands of August Alvatter, et ux. on the east and lands now or formerly of Charles A. Wood, et. ux. on the west; thence (2) along said dividing line, in a northeasterly direction, a distance of fifty-five (55) feet, more or less, to a point in the proposed northeasterly right of way line of State Highway Route #1 Extension, parallel to and distant two hundred and eight feet and seventy-five one-hundredths of a foot (208.75) from the existing monumented center line of the Erie Railroad passenger tracks; thence (3) along the aforesaid proposed northeasterly right of way line of State Highway Route #1 Extension, in a southeasterly direction, a distance of twenty-three feet and five-tenths of a foot (23.5) more or less, to the dividing line between lands of August Altvatter, et ux. on the west and lands now or formerly of Mary Featherston on the east, thence (4) along said dividing line, in a southwesterly direction, a distance of fifty-one feet and five-tenths of a foot (51.5) more or less, to the point and place of Beginning; CONTAINING one thousand, two hundred and twenty-five (1,225 square feet, be the same more or less, as shown on said plan. It being the intention to acquire all lands lying between lands now or formerly owned by Mary Featherston on the east and lands now or formerly of Charles A. Wood and wife on the west and from the northeasterly side line of Hoboken Avenue on the south and extending to the proposed northeasterly right of way line of State Highway Route #1 Extension on the north; being part of plot 6P, Block 557 as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $8,5000.00 to the woner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of siad lands and premises.

State Highway Engineer Sloan recommended that an offer of $7,000. be made to Charles A. Wood & Wife for Parcel #13 on State Highway Route #1 Extension, Jersey City, and in the event of refusal that condemnation proceedings be entered into. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the adoption of the following resolution:

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route No. 1 Extension, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #13

BEGINNING at a point in the northeasterly side line of Hoboken Avenue, said point being distant one hundred and seventy-seven feet and sixty-seven one-hundredths of a foot (177.67) more or less, in a northwesterly direction from the intersection formed by the northwesterly side line of Concord Street with the northeasterly side line of Hoboken Avenue, as shown on a plan hereto attached, marked "Exhibit A" entitled "New Jersey State Highway Department, Route #1 Extension, Property to be acquired from Charles A. Wood and wife, City of Jersey City, Hudson County, June, 1925", and running; thence (1) along the northeasterly side line of Hoboken Avenue, in a northwesterly direction a distance of seventeen feet and forty-two one-hundredths of a foot (17.42) to the dividing line between lands of Charles A. Wood, et ux. on the east and lands now or formerly of Adelphine Stolz on the west; thence (2) along said dividing line, a distance of fifty-seven)57) feet, more or less, to a point in the proposed northeasterly right of way line of State Highway Route #1 Extension, parallel to and distant two hundred and eight feet and seventy-five one-hundredths of a foot (208.75) from the existing monumented center line of the Erie Railroad passenger tracks; thence (3) along the aforesaid proposed northeasterly right of way line of State Highway Route #1 Extension, in a southeasterly direction, a distance of seventeen feet and five-tenths of a foot (17.5) more or less, to the dividing line between lands of Charles A. Wood, et ux. on the west and lands now or formerly of August Alvatter and wife on the east; thence (4) along said dividing line, in a southwesterly direction, a distance of fifty-five (55) feet, more or less, to the point and place of Beginning; CONTAINING nine hundred eighty-three (983) square feet, be the same more or less, as shown on said plan. It being the intention to acquire all lands lying between the lands now or formerly of August Altvatter and wife on the east and lands now or formerly of Adolphine Stolz on the west and from the northeasterly side line of Hoboken Avenue on the south to the proposed northeasterly right of way line of State Highway Route No. 1 Extension on the north; Being part of plot 6X, Block 567 as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $7,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

State Highway Engineer Sloan recommended that an offer of $8,000. be made for Parcel #19 on Route #1 Extension, Jersey City, to Abraham Weiss and Wife and in the event of refusal that condemnation proceedings be entered into. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the adoption of the following resolution:

July 14, 1925.

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route No. 1 Extension, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #19

BEGINNING at a point formed by the intersection of the northeasterly side line of Hoboken Avenue with the southeasterly side line of Baldwin Avenue, as shown on a plan hereto attached marked "Exhibit A" and entitled "New Jersey State Highway Department, Route #1, Extension, property to be acquired from Abraham Weiss and wife, city of Jersey City, Hudson County, June 1925" and running; thence (1) in a northeasterly direction along the southeasterly side line of Baldwin Avenue, a distance of eighty-six (86) feet, more or less, to a point in the proposed northeasterly right of way line of State Highway Route #1 Extension, said proposed right of way line being parallel to and distant two hundred and eight feet and seventy-five one-hundredths of a foot (208.75) from the existing monumented center line of the Erie Railroad passenger tracks; thence (2) along the said proposed northeasterly right of way line of State Highway Route #1 Extension, in a southeasterly direction, a distance of thirty-two feet and five-tenths of a foot (32.5) more or less, to the dividing line between lands of Abraham Weiss and wife on the west and lands now or formerly of John and Anton Dubick on the east, said line being parallel to Baldwin Avenue; thence (3) in a southwesterly direction along said dividing line, a distance of eighty-one feet and five-tenths of a foot (81.5) more or less, to the northeasterly side line of Hoboken Avenue; thence (4) in a northwesterly direction along the northeasterly side line of Hoboken Avenue, a distance of thirty-two (32) feet to the point and place of Beginning; CONTAINING two thousand, six hundred and thirty-six (2,636) square feet, be the same more or less, as shown on said plan. It being the intention to acquire all lands, lying between the lands now or formerly owned by John and Anton Dubick on the east and Baldwin Avenue on the west and extending from the north-easterly sideline of Hoboken Avenue on the south to the proposed northeasterly right of way line of State Highway Route #1 Extension on the north; Being part of plot 17, Block 557 as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $8,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

State Highway Engineer Sloan recommended that an offer of $35,000.00 be made for Parcel #26 on Route #1 Extension, Jersey City, to Mayer Klausner and in the event of refusal that condemnation proceedings be entered into. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the adoption of the following resolution:

July 14, 1925.

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #1, Extension, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #26

BEGINNING at a poin t in the northeasterly side line of Hoboken Avenue distant in a southeasterly direction from the intersection formed by the northeasterly line of Hoboken Avenue, and the southeasterly side line of Oakland Avenue, one hundred and ten feet and eighty-four one-hundredths of a foot (110.84) to the dividing line between lands of Mayer Klausner on the east and lands now or formerly of John E. Ludlow, Charlotte McCabe and Marie Edelbach on the west, as shown on a plan hereto attached, marked "Exhibit A," entitled, "New Jersey State Highway Department, Route #1, Extension, Property to be acquired from Mayer Klausner, City of Jersey City, Hudson County, June 1925," and running thence (1) northeasterly along said dividing line and parallel with the southeasterly side line of Oakland Avenue, a distance of one hundred (100) feet, more or less, to a point in the proposed northeasterly right of way line of State Highway Route #1, Extension parallel to and distant two hundred and eight feet and seventy-five one-hundredths (208.75) from the existing monumented center line of the Erie Railroad passenger tracks; thence (2) along the aforessid proposed northeasterly right of way line of State Highway Route #1, Extension, in a southeasterly direction, a distance of fifty-two (52) feet, more or less, to the dividing line between lands of Mayer Klausner on the west and lands now or formerly of Francis F. Kruse on the east; thence (3) southwesterly along the said dividing line, said line being parllel with the aforesaid side line of Oakland Avenue, a distance of one hundred (100) feet, more or less, to the northeasterly line of Hoboken Avenue; thence (4) along said northeasterly side line of Hoboken Avenue, in a northwesterly direction a distance of fifty-one feet and forty-seven one-hundredths of a foot, (51.47) to the point or place of beginning; CONTAINING five thousand (5,000) square feet, more or less, as shown on said plan; it being the intention to acquire all lands between the westerly line of lands now or formerly of Francis F. Kruse on the east and the easterly line of lands now or formerly of John E. Ludlow, Charlotte McCabe, and Marie Edelbach on the west, and from the northeasterly side line of Hoboken Avenue on the southwest extending to the proposed northeasterly right of way line of State Highway Route #1, extension, as shown on said plan hereto attached: being part of plots 11A and 12A, Block 551, as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $35,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear af all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner owners, then the Attorney General of the State of New Jersey is hereby directed and authorized to institute condemnation proceedings for the acquisition of said lands and premises.

July 14, 1925.

State Highway Engineer Sloan recommended that an offer of $17,000.00 be made for Parcel #27 on State Highway Route #1 Extension, Jersey City to John E. Ludlow and in the event of refusal that condemnation proceedings be entered into. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the adoption of the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the Construction of State Highway Route #1 Extension, ALL that Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #27

BEGINNING at a point formed by the intersection of the northeasterly side line of Hoboken Avenue with the southeasterly side line of Oakland Avenue, as shown on a plan attached, marked "Exhibit A" entitled "New Jersey State Highway Department, Route #1, Extension, Property to be acquired from John E. Ludlow, City of Jersey City, Hudson County, New Jersey, June 1925," and running; thence (1) in a northeasterly direction, along the southeasterly side line of Oakland Avenue, a distance of twenty-five (25) feet, to a point in the dividing line between lands of John E. Ludlown on the south and lands now or formerly of Charlotte McCabe on the north, said line being parallel to Fleet Street; thence (2) in a southeasterly direction, and parallel to Fleet Street, a distance of fifty-seven feet and twenty-five one-hundredths of a foot (57.25) to a point; thence (3) in a southwesterly direction and parallel with Oakland Avenue, a distance of two feet and seventy-five one-hundredths of a foot (2.75) to a point; thence (4) in a southeasterly direction and parallel to Fleet Street, a distance of fifty feet and forty-two one-hundredths of a foot (50.42) toa point in the dividing line between lands of John E. Ludlow on the west and lands now or formerly of Mayer Klausner on the east; thence (5) in a southwesterly direction, along said dividing line and parallel to Oakland Avenue, a distance of forty-eight feet and fifty-six one-hundredths of a foot (48.56) to a point in the northeasterly side line of Hoboken Avenue; thence (6) in a northwesterly direction along the northeasterly side line of Hoboken Avenue, a distance of one hundred and ten feet, and eighty-four one-hundredths of a foot (110.84) to the point or place of Beginning; CONTAINING three thousand, nine hundred and seventy (3,970) square feet, more or less, as shown on said plan; It being the intention to acquire all lands between the northeasterly side line of Hoboken Avenue and the line of lands now or formerly of Charlotte McCabe on thenorth, and extending from the southeasterly side line of Oakland Avenue to the westerly line of lands now or formerly of Mayer Klausner; being all of plot A3, Block 561, as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $17,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

M.V.Aid-Hunterdon Co.
Flemington-Ringoes Road

The Secretary presented a bill rendered by the Board of Freeholders of Hunterdon County, showing in itemized form the amount paid to property owners for right of way acquired on the Flemington-Ringoes Road. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the payment of a total of $1,468.00 to Hunterdon County on account of the purchase of right of way on the Flemington-Ringoes Road.

Right of Way, Route #1, Extension

State Highway Engineer Sloan informed the Commission that preparation should be made for the acquisition of property on Twelfth Street in order that the Viaduct location property can be cleared up. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that Special Agent Louis Alder be directed to proceed with the acquisition of the property on Twelfth Street.

Right of Way, Route #7

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance of a deed for Parcel #28 on Route #7, Section #4, Colts Neck-Jerseyville Section, from the Board of Education of Howell Township, with the understanding that if it is necessary to disturb an existing well, that the State Highway Commission will pay the cost of replacing the same, the present agreement to be executed for $1.00.

Taking Over, Route #7

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the adoption of the following resolution for the taking over of a portion of Route #7, Section #5, known as Park Avenue in Freehold:

> WHEREAS, under the provisions of Article 3, Chapter 14, Laws of 1917, the State Highway Commission may, by resolution, take over as a State Highway, any route, routes or part thereof, of those Highways designated by the Act to be taken over as State Highways,
>
> NOW, THEREFORE, BE IT RESOLVED, by the State Highway Commission of the State of New Jersey, that the following described

road be and the same are hereby taken over as a part of State Highway Route #7 in accordance to the statute in such case, made and provided, viz:

Beginning at a point in the center line of Park Avenue, said point being in the boundary line between the Boro of Freehold and The Township of Freehold, running thence (1) North forty-two degrees, forty-five minutes and thirty seconds West (N 42°45'30W) a distance of one thousand, seventy (1070) feet more or less to the southerly right of way line of Route #7.

RESOLVED FURTHER that the proper authorities of the Township of Freehold be notified by the Secretary of this Commission of such action, that from and after the date hereof the said road will constitute part of State Highway Route #7 and that this Commission will be responsible for the improvement and maintenance of the above described road

BE IT FURTHER RESOLVED that the Township of Freehold be requested to file with the State Highway Commission within thirty (30) days of the date hereof, any agreement or copies of franchises they may have with any Public Utilities, or any other company, firm, individual or corporation, affection the construction, maintenance or use of the above described road.

WHEREAS, under the provisions of Article 3, Chapter 14, Laws of 1917, the State Highway Commission may, by resolution, take over as a State Highway any routes, route or part thereof, of those Highways designated by the Act to be taken over as State Highways,

NOW, THEREFORE, BE IT RESOLVED, by the State Highway Commission of the State of New Jersey, that the following described road be and the same are hereby taken over as a part of State Highway Route #7 according to the statute in such case, made and provided, viz:

Beginning at a point in the center line of Park Avenue, said point being at the intersection of the said center line and the northerly right of way line of West Main St., running thence (1) north twenty-nine degrees, forty-one minutes and thirty seconds West (N 29° 41'30"W) a distance of ninety (90') feet more or less to the point of curvature of a four (4°) degree curve to the left with a central angle of thirteen degrees and four minutes (13°4'): thence (2) along said curve a distance of three hundred twenty-six and sixty-seven one-hundredths (326.67') feet to the point of tangency; thence (3) North forty-two degrees, forty-five minutes and thirty-seconds West (N 42°45'30"W) a distance of one thousand, seven hundred two (1702') feet more or less to a point in the boundary line between the Boro of Freehold and the Township of Freehold.

RESOLVED FURTHER that the proper authorities of the Boro of Freehold be notified by the Secretary of this Commission of such action and that from and after the date hereof the said road will constitute part of State Highway Route #7 and that this Commission will be responsible for the improvement and maintenance of the above described road.

BE IT FURTHER RESOLVED that the Boro of Freehold be requested to file with the State Highway Commission within thirty (30) days of the date hereof, any agreement or copies of franchises they have with any public utilities or any other company, firm, individual or corporation, effecting the construction, maintenance or use of the above described road.

July 14, 1925.

Abandonment, Route #5

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the following resolutions of abandonment for five portions of Route #5, Section #11, Delaware-Belvidere Section:

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route #5 from Newark to bridge crossing the Delaware River about two miles above Delaware, by way of Morristown, Dover, Netcong, Budds Lake, Hackettstown, Buttsville and Delaware, and

WHEREAS, in the construction and improvement of the said State Highway Route #5, Section #11, from Delaware to Belvidere, it has been found desirable to relocate a certain portion of the said route for the purpose of betterment of alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there is a certain portion heretofore used as a part of the road before improvement which is no longer needed as a part of the improved State Highway,

NOW, THEREFORE, BE IT RESOLVED, by the State Highway Commission of the State of New Jersey that the certain portion of State Highway Route #5, Section #11 as hereinafter described be and the same is hereby abandoned as a part of State Highway Route #5, Section #11 and vacated in accordance with the provisions of Chapter 14 and 15, Laws of 1917 and the amendment thereto in Chapter 230, Laws of 1919.

Beginning at a point in the center line of the old road as taken over, where the said center line is intersected by the new southerly right of way line of Route #5, Section #11 of the New Jersey State Highway System, said point being measured thirty-three (33') feet normally from the center line of the new road as constructed at about Station 101 + 75, thence (1) in a southeasterly direction a distance of eighty-four (84') feet more or less to a point; thence (2) in a southerly direction a distance of two hundred eighty (280') feet more or less to a point; thence (3) in a southeasterly direction a distance of one thousand, one hundred sixty-two (1162') feet more or less to a point in the northerly right of way line of the Belvidere-Buttzville road.

BE IT FURTHER RESOLVED that a notice of this vacation be forwarded to the Township Committee of White Township, the governing body having jurisdiction of throad at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate that portion of the old road taken over October 22, 1918, lying outside the limits of the acquired right of way of the new road as constructed between Station 101 + 75 more or less and the northerly right of way line of the Belvidere-Buttzville road as shown on plan attached hereto and on file in the offices of the said State Highway Commission at Trenton, N. J.

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway in accordance with the provisions contained in Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route #5, from Newark to the bridge crossing the Delaware River about two miles above Delaware by way of Morristown, Dov er, Netcong, Budds Lake, Hackettstown, Buttzville and Delaware, and

July 14, 1925.

WHEREAS, in the construction and improvement of the said State Highway Route #5, Section #11, from Delaware to Belvidere, it has been found desirable to relocate a certain portion of the said Route for the betterment of alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there are certain portions heretofore used as a part of the road before improvement which are no longer needed as part of the improved State Highway,

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portions of State Highway Route #5, Section #11 as hereinafter described, be and the same are hereby abandoned as a part of State Highway Route #5, Section #11 and vacated in accordance with the provisions of Chapters 14 and 15 of the laws of 1917 and the amendement thereto in Chapter 220, laws of 1919.

Portion #1:
Beginning at a point in the center line of the Main St. throught the village of Delaware, known as the Delaware-Manunka Chunk Road; said point being opposite the Delaware Post office, running thence (1) along the center line of the said Delaware-Manunka Chunk Road in a general southerly direction a distance of three thousand nine hundred twenty-five (3925') feet more or less to an angle point in the said road opposite the culvert under the Delaware, Lackawanna and Western Railroad: thence (2) westerly and still along the center line of the Delaware-Manunka Chunk Road and through the culvert under the Delaware, Lackawanna and Western Railroad a distance of sixty-five (65') feet more or less to a point in the easterly right of way line of the new road as constructed, said point being measured forty-two (42') feet more or less normally from the center line of Route #5, Section #11 at about Station 76 + 05.

Portion #2:
Beginning at a point at the intersection of the center line of the Meyer(s Ferry Road and the westerly side line of the Delaware-Manunka Chunk Road and running thence (1) along the center line of the said Meyer's Ferry Road in a general southwesterly direction a distance of five hundred sixty-eight (568') feet more or less to a point in the new easterly right of way line of the new road as constructed, said point being measured thirty-three (33') feet from the center line of Route #5, Section #11 at about Station 48+ 80.

BE IT FURTHER RESOLVED that a notice of this vacation be sent to the Township Committee of Knowlton Township, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate those portions taken over October 23, 1919, and January 15, 1920 lying outside the limits of the acquired right of way of the new road as constructed.

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway, in accordance with the provisions of Chapter 14 of the Laws of 1917 a certain road or roads known as State Highway Route #5 from Newark to the bridge crossing the Delaware River about two miles above Delaware by way of Morristown, Dover, Netcong, Budds Lake, Hackettstown, Buttzville and Delaware, and

July 14, 1925.

WHEREAS, in the construction and improvement of the said State Highway Route #5, Section #11 from Delaware to Belvidere, it has been found desirable to relocate certain portions of the said route for the purpose of betterment of the alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there are certain portions heretofore used as a part of the road before improvement which are no longer needed as a part of the improved State Highway,

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portions of State Highway Route #5, Section #11 as hereinafter described, be and the same are hereby abandoned as a part of State Highway Route #5, Section #11 andvacated in accordance with the provisions of Chapters 14 and 15, Laws of 1917 and the amendment thereto in Chapter 220, Laws of 1919,

Portion #1:
Beginning at a point in the intersection of the Westerly right of way line of the Pequest River, Manunka Chunk-Delaware Road produced, and the center line of the Belvidere-Buttzville road, thence (1) in a northerly direction a distance of three hundred seven (307') feet more or less to a point; thence (2) in an easterly direction a distance of two hundred forty (240') feet more or less to a point; thence (3) in a northeasterly direction a distance of four hundred nine (409') feet more or less; thence (4) in an easterly direction a distance of fifty-six (56') feet more or less to a point in the new southerly right of way line of Route #5, Section #11, said point being measured thirty-three (33') feet normally from the center line of the new road as constructed at about Station 117 + 63.

Portion #2:
Beginning at a point in the center line of the Belvidere-Buttzville road, said point being at intersection of the said center line and the new northerly right of way line of the new road as constructed, said point being measured thirty-three (33') feet normally from the center line of Route #5, Section #11 at about Station 118 + 51; thence (1) in a northeasterly direction a distance of three hundred nine (309') feet more or less to a point; thence (2) in a southeasterly direction a distance of two hundred seventy-one (271') feet more or less to apoint; thence (3) still in a southeasterly direction a distance of two hundred ninety-seven (297') feet more or less to a point in the new northerly right of way line of Route #5, Section #11, said point being measured thirty-three (33') feet normally from the center line of the new road as constructed at about Station 126 +32.

BE IT FURTHER RESOLVED that a notice of this vacation be sent to the Board of Chosen Freeholders of Warren County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate those portions of the Belvidere-Buttzville Road as taken over January 15, 1920, lying outside the limits of the right of way of the new road as constructed between the Pequest River, Manunka Chunk-Delaware Road and Station 117 + 63 more or less and between Station 118 + 51 more or less and Station 126 + 32 more or less as shown on the plan attached hereto, and on file in the office of the State Highway Commission at Trenton, N. J.

July 14, 1925.

Atlantic County Repairs.

There was presented a resolution from the Atalntic County Board of Freeholders requesting that the State Highway Commission undertake the work of repairing the Shore Road at the expense of the County, since it is more convenient for the State Highway forces to come in on this work than it is for the County to employ outside forces. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the furnishing of 600 tons of bituminous concrete necessary and the placing of the same at a cost of $22.50 per ton.

Drainage, Route #13

State Highway Engineer Sloan presented to the Commission a report of drainage conditions existing on Route #13 in Lawrence Township, at the intersection of Grand View Avenue andState Highway Route #13, and he recommended that one-half cost not exceeding $350.00 be allotted to Lawrence Township as aid in the construction of a drainage system at this intersection. On motion by Mr. Kidde, seconded by Mr. Jelin, this recommendation was unanimously approved.

In connection with the above, State Highway Engineer Sloan presented a communication from the Progress City and Country Club located on the Lawrenceville road, directly opposite Grand View Ave., claiming that their property is being damaged by a flow of water from Grand View Avenue andRoute #13. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission directed that a copy of the report made by the Maintenance Superintent be forwarded to the Progress City and Country Club together with the advice that a contribution has been made to Lawrence Township for the purpose of relieving this drainage condition at their property and it is hoped this will solve the situation.

Sparta-Woodport Road,
Sussex County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of the request of Sussex County as contained in the resolution for permission to proceed with the completion of the Sparta-Woodport Road under the provisions of Chapter 10, Laws of

1919, it being understood that the State Highway Commission will permit the use of $9,000.00 per year for a period of five years plus 50% of the interest charges for the retirement of the bonds issued for the completion of the Sparta-Woodport Road.

Ross' Corner-Sussex Road, Sussex County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved ofaward of contract by Sussex County for the Ross' Corner-Sussex Road, Section #1-B, to Conrad Sebolt for the sum of $47,292.20.

Sussex-Coleville Road, Sussex County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of award of contract by Sussex County to Gallagher & Cozine on the Sussex-Coleville Road, said approval being granted subject to a written agreement by the County of Sussex in accordance with the arrangements made at a conference held between the State Highway Commission and representatives of the County at itsmeeting held on July 9th.

Route #16, Section #5-A, Somerville

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of an agreement with the Borough of Somerville for extra construction required on Route #16, Section #5A, in the Borough.

Motor Vehicle Aid, Sussex Co.,

There was presented a communication from Judge H. T. Kays, County Counsel of Sussex County, suggesting to the State Highway Commission a change in the tentative apportionments made from the Motor Vehicle fund allotment to the Townships of the State in Sussex County. It was suggested that an allotment to Andover Borough be changed from $2400.00 to $1400.00, since the County has already appropriated part of the cost of this work. It was also suggested that the remaining $1,000.00 on this work, together with $5,000.00 from the Sparta-Lafayette Road, Section #1, and $3,750.00 from the Coleville-New York State Road, be applied to the Newton-Swartzwood Road, since the County stands willing to contribute 50% of the cost of this road, which will cost approximately $30,000.00 to complete. It was also suggested that the funds set aside for the Coleville-

New York State Road be applied only from Coleville to the road leading to High Point. State Highway Engineer Sloan recommended to the Commission that the suggestions as made by Judge Kays be approved by the Commission.

Township Aid, Sussex County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the following apportionments of Township Aid in Sussex County, and by this action rescinds any former action taken on this matter.

Township	Road	Amount
Andover Borough	Andover-Tranquility Sec. #2,	$ 1,400.00
Fredon	Newton-Swartzwood	13,600.00
Sparta	Sparta-Lafayette Rds. Sec. #1,	20,000.00
Wantage	Coleville-New York State Rd.	5,000.00
		$40,000.00

Township Aid, Middlesex County

Commission Jelin reported that he had investigated the Township Aid recommendations of Middlesex County and was prepared to approve of the following which he moved be approved:

Township	Road	Amount
Dunellen Boro	Washington Ave. North & South	$ 10,000.00
Piscataway	New Market Road	15,000.00
Raritan	Plainfield Avenue, Sec. #1	15,000.00
		$ 40,000.00

This was seconded by Mr. Kidde and adopted.

Employments

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the following additions, as made by the State Highway Engineer in the employments since the last meeting of the Commission:

Employed

7/15/25	Albon S. Berkeyheiser,	Office Boy,	$ 40. mo.

Federal Aid, Route #8, Sec. 6

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved Federal Aid Project #78, Section "A" on Route #8, Section #6, New Foundland-Stockholm Section.

July 14, 1925.

Sea Isle Boulevard, Cape May County, Motor Vehicle Aid.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved an extension of time for the completion of the Sea Isle Boulevard, Cape May County, to August 19, 1925.

Equipment-Cape May County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of an award of contract by Cape May County for the furnishing of a one man, motor-driven, combined scraper and tractor at a cost of $1250.00.

Route #3, Widening, Section #12

Commissioner Jelin reported having inspected the completed work on Route #3, Section #12, widening and moved that the same be accepted on the part of the State. This was seconded by Mr. Kidde and adopted.

Route #4, Section #~~32~~ 33

State Highway Engineer Sloan reported to the Commission that bids had been received on July 13th for the construction of Route #4 Section #~~32~~ 33, Perth Amboy Bridge Cut-Off, and the lowest bid had been received from J. F. Chapman & Son of Hillside, New Jersey, in the amount of $168,941.21. He recommended to the Commission the adoption of the following resolution:

WHEREAS, an agreement has been entered into between the authorities of the City of Perth Amboy and the State Highway Commission concerning the construction of the cutoff approach to the New Amboy Bridge over the Raritan River between Perth Amboy and South Amboy, located in the City of Perth Amboy, and

WHEREAS, the State Highway Commission has received from the the State Highway Engineer a report of bids received by the City of Perth Amboy for the construction of the said Amboy Bridge Approach Cutoff, in accordance with the following list;

J. F. Chapman & Son	$ 168,941.21
C. H. Winans Co.	171,793.26
Conrad Seabolt	175,358.08
Public Service Production Co.	176,596.78
Stryker & Stryker	181,671.60
Utility Cont. Co.	183,673.13
Liddle & Pfeiffer	183,883.25

NOW, THEREFORE, BE IT RESOLVED, by the State Highway Commission of the State of New Jersey that the bid of J. F. Chapman & Son in the sum of $168,941.21, that being the lowest bid submitted, is a favorable bid and it is recommended that the authorities of the City of Perth

Amboy award the contract for the said construction to the said J. F. Chapman & Son on theirs the lowest bid submitted of $168,941.21, and

BE IT FURTHER RESOLVED, that the State Highway Commission does hereby approve of award of contract as of the date of award by the City of Perth Amboy.

On motion by Mr. Jelin, seconded by Mr. Kidde, this resolution was unanimously adopted.

Trolley Tracks, Route #5

The Secretary advised that in the matter of the Morris County Traction Company, no further advice had been received at this time. Commissioner Jelin therefore moved that Commissioner Kidde and State Highway Engineer Sloan be authorized to continue their negotiations and if necessary to appear in Court on the return date as representing the State Highway Commission.

Chairman Scott - Absence

Chairman Scott informed the Commission that it was his purpose to leave this evening for a trip to the West, andhe suggested that a Chairman be appointed pro tempore. On motion by Mr. Kidde, duly seconded, Commissioner Jelin was named Acting Chairman of the State Highway Commission.

On motion by Mr. Kidde, seconded by Mr. Jelin,,the State Highway Commission adjourned its meeting at 4:00 P. M., to meet in regular session on the call of the Chairman.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - July 28, 1925

A regular meeting of the State Highway Commission was held at the meeting rooms of the Commission, Broad Street Bank Building, Trenton, Tuesday, July 28, 1925. The meeting was called to order by Acting Chairman Jelin at 10:30 A. M.

Present: Acting Chairman Jelin, Messrs. Percy H. Stewart and Walter Kidde.

Absent: Gen. H. L. Scott on trip through the West.

Hearings, War Department

The Secretary informed the Commission that Mr. Jacob L. Bauer, County Engineer of Union County was present for a conference with the Commission on the matter of the proposed hearing before the War Department, concerning bridges to connect Perth Amboy with Tottenville and Elizabethport with Howland Hook. Mr. Bauer, suggested that it would be appreciated by the local communities if some expression could be had from the State Highway Commission bearing on the usefulness to traffic of the construction of these bridges. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the following communication to be forwarded to the District Engineer of the War Department of New York.

"Col. Herbert Deakyne,
Colonel, Corp of Engineers,
Room 616, Army Building,
New York City.

My dear Sir:

I am directed by the State Highway Commission to inform you that the Commission has been requested by the authorities of Perth Amboy and Elizabeth to advise you as to the opinion of the State Highway Commission concerning the value and usefulness of bridges connecting Perth Amboy with Tottenville, and Elizabethport with Howland Hook.

The Commission has had occasion to make a close study of traffic conditions as they will exist with the next few years, and is deeply impressed with the necessity of additional facilities being provided.

The Commission believes it to be its duty to inform you that these new arteries of traffic, established between New Jersey and New York, will be of tremendous value to both terrains affected, and the Commission sincerely trusts that your decision as to the building of these bridges will be favorable.

By order of the State Highway Commission."

Rt. 1 Extension, Hackensack & Passaic Rivers

The Secretary presented to the Commission a communication received from the District Engineer, Col. Herbert Deakyne, of the War

Department, suggesting that in view of the conflicting interests in connection with the application of the State Highway Commission for new bridges over the Passaic and Hackensack River ~~bridges~~, he would prefer to discuss this matter with some member of the State Highway Commission. On motion by Mr. Stewart, duly seconded, the Commission directed that Mr. Kidde, together with State Highway Engineer Sloan, be delegated to attend a conference with Col. Deakyne and that the time be set for Friday morning, July 31st, at 11:00 A. M.

Route #4, Woodbridge

Commissioner Kidde reported at this time on a hearing held before Commissioner Jelin and himself in the Town of Woodbridge, concerning the extra width of pavement on Route #4 through the Town. He advised that there had been a misunderstanding on the part of the property owners along this road as to the cost involved, which had resulted in the failure on the part of the property owners to consent to an assessment for the extra width. He had assured the residents that the work would be done at a cost not exceeding $2.50 per lineal foot frontage and there immediately appeared a change in sentiment. Assistant Construction Engineer Moore was present and advised that detailed estimates based on the contract price for the extra paving showed the cost including intersections, to be $2.52 per lineal foot. He advised that he had given this information to the Mayor of Woodbridge, and he had been advised in return that at a meeting held on Monday evening, July 27th, a new petition, with thirty-one percent of the property owners signed thereon, had been presented to the City authorities asking for the improvement.

State Highway Engineer Sloan recommended to the Commission that the matter of assessment against the property owners be left entirely to the local authorities, and he would recommend that a flat sum coverin the contract cost be charged against the municipality for the work.

Commissioner Kidde therefore moved that in view of the report of the State Highway Engineer, the authorities of Woodbridge be advised that the total cost of the extra width pavement, which will be charged against the municipality in the event they determine to proceed with the work, will be $25,731.00, which involves paving and curbing on both sides of a length of 51,00 feet. This was seconded by Mr. Stewart and adopted.

H. L. Scott, Chairman

At this time the Secretary read to the Commission a communication received this morning from General Scott, advising of his activities in the West. The Commission requested that the Secretary include their kindest regards to the Chairman when he answered this communication.

Route #4, Ocean Grove

The Secretary presented a communication from the Board of Commissioners of Bradley Beach, New Jersey, requesting the Commission to abandon route #4 from the Shark River Bridge to Deal Lake Bridge and to substitute therefore the Ocean Boulevard from Asbury Park to Delmar. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the communication be referred to the State Highway Engineer for study and report at a later date.

Route #4, Section #33, Perth Amboy Cut-off

The Secretary presented a resolution from the City authorities of Perth Amboy, advising of their award of contract for the paving of Route #4, Section #33, Perth Amboy Cut-off, to J. F. Chapman & Son, at $168,941.21. In view of the former action of the Commission already approving of this award, Mr. Kidde moved that this resolution be received and placed on file. This was seconded by Mr. Stewart and adopted.

Paterson Plank Road, Hudson Co.

The Secretary presented a resolution from the Board of Commissioners of the City of Hoboken and a resolution from the Township Committee of North Bergen, requesting that the Board of Freeholders of the County of Hudson and the State Highway Commission continue the Paterson Plank Road to the northerly end of Grove Street, Jersey City, in order to facilitate the Vehicular Tunnel Traffic. On motion by Mr. Stewart, duly seconded, these resolutions were ordered referred to Commissioner Kidde in order that he might confer with the County Engineer of Hudson County with a view to ascertaining the feeling of the County in this regard.

Route #20, Millville

The Secretary presented a resolution from the Board of Freeholders of Cumberland County, requesting the State Highway Commission to hasten the improvement of Route #20 northeasterly from the City of Millville, in order to improve the condition of seashore traffic, and suggesting that this be done in the 1926 program. On motion by Mr. Stewart, seconded by Mr. Kidde, the resolution was ordered received and placed on file for consideration at the proper time.

Route #8, Mountain View

The Secretary presented a communication received from the State Comptroller requesting the return to him of a check drawn to the order of the United Building & Construction Company in the amount of $2,579.14 against which they have filed a Sheriff's order of service on judgement against this company. The Secretary advised the Commission that in addition to this there was a letter on file from the Independence Indemnity Company preceding the date of the check, which requests all checks due the contractor to be held for the bonding company, since the contractor was in default.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that all papers in this matter be referred to the Attorney General and that a representative of the bonding company be requested to appear in the matter at the time it is discussed with the Attorney General.

Invitation

The Secretary presented a communication from the Board of Freeholders of Gloucester County inviting the State Highway Commission to meet with the State Association of Chosen Freeholders on August 10th at the Red Bank Battlefield Park, at National Park, New Jersey, in Gloucester County. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that this invitation be accepted and that they be advised that such Commissioners as can find it convenient, will attend.

T. P. McGlennon

The Secretary presented a report of the claim of T. P. McGlennon, formerly a Bridge Foreman in the Maintenance Division, concerning expenses incurred in the work andwhich had not been paid to him. Following the duscussion, Commissioner Stewart moved that expense allowance for eighteen days at $4.00 per day be allowed to Mr. McGlennon in order that the matter might be closed. This was seconded by Mr. Kidde and adopted.

Right of Way, Route #1 Extension, Hackensack Bridge.

The Secretary presented a communication from Mr. Francis H. McGee of the Attorney General's Department, reporting on the claim of Edward McDermott for services rendered in the Bown condemnation, and he advised that the services rendered were in accordance with the bill presented and while the charge was liberal it was in line with that charged by the others employed in a similar capacity. Commissioner Stewart moved that in view of the bill being charged at the rate of $100.00 per day, there be paid to Edward McDermott $1,000.00 for services rendered in the Bowen Condemnation. This was seconded by Mr. Kidde and adopted.

The Secretary presented a bill by E. J. Maier for services in connection with the Bowen condemnation in the amount of $1,000.00. On motion by Mr. Kidde, seconded by Mr. Stewart, this bill was ordered paid.

There was also presented a bill from E. J. Maier in the amount of $600.00 in connection with the Bowen condemnation appeal appraisals. On motion by Mr. Kidde, seconded by Mr. Stewart, this claim was referred to Judge Sullivan, special attorney in this matter, for review.

Right of Way, Routes #1, #3, #7 & 20.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the payment of the following claims on account of appraisal services rendered:

Percy A. Gaddis	Route #1 Extension	$500.00
Claude A. Flagg	" " "	200.00
Lewis R. Leddon	" #20 Section #1,	10.50
Wilbur M. Bakely,	" #3, Section #11,	10.00
M. L. Ruberton	" " " "	10.00
H. B. Price,	" #7,	25.00

Globe Indemnity Company

Commissioner Kidde reported that he had met with Mr. Duncan Reed, President of the Globe Indemnity Company, on the matter of claims of sub-contractors which cannot be satisfactorily adjusted with the bonding company, and he had been advised that in the case of Groman's creditors especially, the Globe Company had turned all claims over to a bank and was referring creditors to the bank. He also advised that the bonding company was very anxious to settle all claims presented to it. The Secretary informed the Commission that the Globe Company was responsible for the contract as awarded to Groman and the creditors could not look to any others for their claims. He also advised that he was in receipt of a letter from Mr. Reed to the effect that the company expected to stand on its rights in all these cases. No further action was taken at this time.

Route #4, Morgan Grade Crossing

Acting Chairman Jelin presented to the Commission a report of the hearing held at Trenton, on Tuesday, July 21st on the matter of the closing of the Morgan Crossing on Route #4, in view of the completion of the new elimination at this point. He advised that the delegation comprised business men and property owners on the old line, and Freeholders of Middlesex County. The basis of the claim was the fact that the business men were losing their business and the property owners were suffering a depredation in their property value. He reported into with the Jersey Central Railroad Company to the effect that the State Highway Commission is obligated to close the crossing upon the completion of the elimination. He stated, however, that it was his own impression that the old crossing would remain when the new bridge was constructed and he suggested that a representation from the delegation go the Central Railroad Company to ascertain whether they will permit the crossing to remain open for the balance of this year in order that the business men might rearrange their locations.

In connection with this matter, there was read a communications from the Public Utility Commission, advising of their cooperation in the closing of the Morgan Crossing.

State Highway Engineer Sloan informed the Commission that in company with Mr. Cady of the delegation and others, he hac met Mr. Owen, Chief Engineer of the Jersey Central Railroad Company, in order to present the request as made at the hearing, that the crossing be permitted open for the balance of the summer season. They had received a reply to the effect that the railroad company looks to the State Highway Commisstio will be held liable for any accidents which may occur by reason of this crossing. It was his suggestion that the State Highway Commission vacate that portion of Route #4 which is within the right of way of the railroad company at the grade crossing at Morgan, and that the remainder of this road be abandoned. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission adopted the following resolution:

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway, in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads, known as State Highway Route #4, from a point on Route #1 in or near Rahway, to Absecon, by way of Perth Amboy, Keyport, Middletown, Toms River, Tuckerton and New Gretna, and

WHEREAS, in the construction and improvement of the said State Highway Route #4, Section #25A Morgan Grade Elimination, it has been found desirable to relocate a certain portion of the said route for the purpose of betterment of the alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there is a certain portion heretofore used as a part of the road before improvement which is no longer needed as a part of the improved State Highway,

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portion of State Highway Route #4, Section #25A as hereinafter described be and the same is hereby vacated as a part of State Highway Route #4, Section #25A in accordance with the provisions of Sub-division E, Section 12, of the Act of 1917, Chapter 15,

Beginning at a point in the center line of the old road, said point being at the intersection of said center line and the westerly right of way line of the New York and Long Branch Railroad; thence (1) in a northeasterly direction a distance of sixty-six (66) feet more or less to a point in the easterly right of way line of the said railroad, said point being distant four hundred eight and five-tenths (408.5') feet more or less, from the center line of the new State Highway, as constructed at about Station 94 + 13, measured southwesterly along the center line of the old road,

BE IT FURTHER RESOLVED that a notice of this vacation be sent to the Board of Chosen Freeholders of Middlesex County, the Town Committee of Sayreville Township and the New York and Long Branch Railroad.

It being the intention of the State Highway Commission to vacate to the New York and Long Branch Railroad all that portion of the old road lying between the right of way lines of the said New York and Long Branch Railroad as shown on the plan attached hereto and on file in the offices of the said State Highway Commission at Trenton, N. J.

July 28, 1925.

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway, in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads, known as State Highway Route #4, from a point on Route #1 in or near Rahway, to Absecon, by way of Perth Amboy, Keyport, Middletown,Toms River, Tuckerton and New Gretna, and

WHEREAS, in the construction and improvement of the said State Highway Route #4, Section #25A, Morgan Grade Elimination, it has been found desirable to relocate certain portions of the said route for the purpose of betterment of the alignment, grade, etc. and

WHEREAS, upon the construction of the said route and section of the revised line, there are certain portions heretofore used as a part of the road before improvement which are no longer needed as a part of the improved State Highway,

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portions of State Highway Route #4, Section #25A, as hereinafter described be and the same are hereby abandoned as a part of State Highway Route #4, Section #25A and vacated in accordance with the provisions of Chapters 14 and 15, Laws 1917 and the amendment thereto in Chapter 220, Laws of 1919,

Portion #1

Beginning at a point in the center line of the old road as taken over, where the said center line is intersected by the new southerly right of way line of Route #4, Section #25A of the New Jersey State Highway System, said point being measured thirty-five (35') feet more or less normally from the center line of the new road as constructed at about Station 71 + 79; thence (1) curving to the right for a distance of four hundred twenty-three (423') feet more or less to a point; thence (2) in a southeasterly direction a distnace of two hundred twenty-two (222') feet more or less to a point; thence (3) still in a southeasterly direction a distance of four hundred eighty-two (482') feet more or less to a point; thence (4) still in a southeasterly direction a distance of two hundred seventy-eight (278') feet more or less to a point; thence (5) still in a southeasterly direction a distance of two hundred ninety-six (296') feet more or less to a point; thence)6) curving to the left for a distance of one hundred ninety (190') feet more or less to a point; thence (7) in a northeasterly direction a distance of three hundred four (304') feet more or less to a point; thence (8) still in a northeasterly direction a distance of sixty-(60') feet more more or less to a point in the westerly right of way line of the New York and Long Branch Railroad or the New Jersey Central Railroad Company.

Portion #2

Beginning at a point in the center line of the old road, said point being at the intersection of the said center line and the easterly right of way line of the New York and Long Branch R. R. or the New Jersey Central Railroad; thence (1) in a northeasterly direction a distance of three hundred sixty (360') feet more or less to a point in the said new southerly right of way line of Route #4, Section #25A, said point being measured forty-four (44', feet more or less, normally from the center line of the said State Highway at about Station 93 + 92.

BE IT FURTHER RESOLVED that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Middlesex County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate those portions of the old road as taken over September 1, 1919, lying outside the limits of the acquired right of way of the new road as constructed between Station 71 + 79 more or less and Station 93 + 92 more or less as shown on plan attached hereto and on file in the offices of the said State Highway Commission at Trenton, N. J.

Right of Way, Route #8

The Secretary presented a communication from F. W. DeVoe, Assistant Attorney General, advising that Condemnation Commissioners had made an award to George W. Sherman on Route #8 at Mountain View, in the amount of $2,250.00, against the owner's demand of $12,720.00, and he recommended that the sum be paid. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that payment be made to George W. Sherman in the amount of $2,250.00 as awarded by the condemnation Commissioners for property on Route #8.

On motion by Mr. Kidde, seconded by Mr. Stewart, the meeting was recessed for lunch at 1:00 P. M., to meet in regular session again at 2:30 P. M. The meeting was reconvened at 2:30 P. M., with the same members present as at the morning session.

Detour, Route #4.

State Highway Engineer reported to the Commission that he had given further study to the matter of change of detour for Route #4 during the construction of Route #4 between Rahway and Perth Amboy, and in view of the hazards involved by the crossing of the railroad tracks at Iselin, and protests received from the traveling public, he would recommend that the temporary detour, as established by way of Islin, be eliminated and that the official detour be fixed from Six Roads, by way of Route #1 to Metuchen; thence, via Amboy Avenue to Perth Amboy (Convery Place), this detour to be maintained as an official detour until the completion of the work under construction as far as Woodbridge. When this section of the work between Six Roads and Woodbridge is in shape to receive traffic, the road leading therefrom to Amboy Avenue will be used as a detour during the remainder of the construction. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer for the establishment of this detour in view of the fact that the practical operation of the temporary detour by way of Iselin has proven dangerous to traffic.

Commissioner Jelin suggested that extra large signs be provided to guide traffic over this new detour in view of the change.

The Schedule of Business was next taken up for consideration, item by item as follows, with the recommendation of the State Highway Engineer:

Bridges, Route #4, M. P. 26.2 and 27.5

The following report was submitted on bids received for the construction of two bridges over Cedar Creek and Mill Creek at M. P. 26.2 and 27.5 on Route #4, Section #30, and it was recommended that award be made to the lowest bidder:

Ashbrook Crammer	$ 29,530.30
Hill Const. Co.	31,983.30
Pinto & Felice	32,860.90
Red Bank Const. Co.	37,412.24
Rutter Bros. & Parker	42,486.00

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the adoption of the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of two bridges over Cedar Creek and over Mill Creek at M. P. 26.2 and 27.5 on Route #4, Section #30, to Ashbrook Cranmer at his the lowest bid received in the amount of $29,530.30, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Route #7, Section #5

There was submitted the following report of bids received for the construction of Route #7, Section #5, Jerseyville-Freehold, and recommendation was made for award to the lowest bidder:

William Eisenberg	$ 216,090.97
Freehold Const. Co.	219,613.24
Stryker & Stryker	224,126.77
Jannarone Cont. Co.	224,519.18
John F. McGreevy	225,231.10
J. M. Reuter	229,595.35
Charles T. Kavanagh	233,967.60
E. Riley Mixner Co.	235,774.26
Edward H. Ellis	239,369.70
J. F. Chapman & Son	239,389.43
Henry W. Horst Co.	254,472.25

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the adoption of the following resolution:

July 28, 1925.

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route #7, Section #5, Jerseyville-Freehold, to William Eisenberg, at his the lowest bid received in the amount of $216,090.97, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Route #9, Section #15A

There was submitted the following report of bids received for the construction of Route #9, Section #15A in the Township of Cranford, and recommendation was made for award to the lowest bidder:

P. Camillo & Co.	$ 50,770.91
John F. McGreevy	50,949.05
J. F. Chapman & Son	50,956.05
Graham VanKeuren	52,504.75
Weldon Cont. Co.	54,420.76
Sutton & Corson Co.	57,513.75
Joseph F. Burke	59,033.75

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the adoption of the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route #9, Section #15A, Township of Cranford, to P. Camillo & Co., at their's the lowest bid received in the sum of $50,770.91, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Route #4, Woodbridge

The Secretary announced that Mayor Neuberg of Woodbridge was present for a conference with the Commission. On motion, duly seconded, a hearing was granted. Mayor Neuberg informed the Commission concerning the action of the residents along Route #4 in petitioning for the extra width of pavement. Chairman Jelin informed Mayor Neuberg that the Commission had already taken action and charged the municipality with a total of $25,731.00 over the entire lenght and the municipality could arrange its assessments in any way it saw fit.

Mayor Neuberg stated that it would take another week before sufficient names were on the petition to insure its passage by the municipality.

Bridge, Route #16

There was reported the completion of plans and specifications for the construction of a reinforced concrete bridge over Cruser's Brook at M. P. 7.9 on Route #16 and advertisement was recommended.

July 28, 1925.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of a reinforced concrete bridge over Cruser's Brook at M. P. 7.9 on Route #16, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement for the work after approval by the State Highway Engineer.

Route #2, Section #7

There was reported the satisfactory completion of the construction work on the widening of Route #2, Section #7, South Broad Street, Mercer County, same being under contract with Joseph Burke of Plainfield. Commissioner Jelin reported that he had inspected this work and it was in satisfactory condition. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the acceptance and final payment to Joseph F. Burke for the construction of Route #2, Section #7, Widening, subject to the approval of the State Highway Engineer on the final papers.

Route #4, Section #27

There was reported the satisfactory completion of the work performed by Michael Staub contractor on Route #4, Section #27, Cedar Creek-Forked River, there being omitted from this contract a section leading up to two bridges now being constructed by other contractors on this road, for which there would be withheld 125% of the contract amount on this unfinished work. Commissioner Jelin reported having been on this work within the past week and he recommended that same be accepted on the part of the Commission. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the acceptance and final payment to Michael Staub contractor on Route #4, Section #27, Cedar Creek-Forked River, retaining 125% of the cost of the unfinished work at the location of two bridges being constructed at Stations 2078 and 2110 plus 45.

Right of Way, Amboy Bridge

There was presented a proposed letter to be forwarded to the W. J. Donnell Lumber Company in answer to a notice signed by the Attorney's of the W. J. Donnell Lumber Company, to the effect that the temporary ingress and egress to and from land of the Donnell Lumber Company has been closed by working operations and requesting that the State Highway Commission furnish further access from the western part of the Donnell property to the eastern line of their lands.

State Highway Engineer Sloan advised that access has, at no time, been denied the Donnell Lumber Company and therefore he recommended that the following letter be sent to the Donnell Lumber Company:

"Receipt of your communication of July 21, 1925, to the State Highway Commission and to the Stillman, Delehanty, Ferris Company is acknowledged.

"You are advised that although the temporary access provided by the tunnel through the embankment has now been closed, other good and sufficient access exists and will be maintained until such time as the permanent road along the westerly side of the North approach and under the viaduct span is completed."

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the forwarding of this communication by the State Highway Engineer.

Right of Way, Route #1,
Extension, Jersey City.

There was presented a communication from J. W. Pfau, Engineer of Construction for the New York Central Railway, advising that it will be agreeable to his company for the State Highway Commission to enter upon lands of the New Jersey Junction Railway Company pending completion of negotiations in order to permit the construction of Route #1 Extension at Jersey City. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the entering upon the lands of the New Jersey Junction Railway Company upon the terms and conditions as contained in a letter from Mr. J. W. Pfau, Engineer of Construction under date of July 22, 1925.

Right of Way, Route #1,
Extension, Newark.

There was presented a communication from Assistant Construction Engineer Lavis inquiring as to the purchase of property for Route #1, Extension through Newark. On motion, duly seconded, the matter was ordered laid over for consideration at the next meeting.

Right of Way, Amboy Bridge

The State Highway Engineer presented to the Commission an agreement to be entered into by the State Highway Commission and Richard

Rue, which will give him access over the property of the State to the southerly approach of the New Amboy Bridge, in view of the fact that Right of Way Engineer Meeker, at the time of acquiring property from Mr. Rue, advised that he would have access to the bridge approach. At that time there was an earth fill in the plans, which has since been changed to a concrete viaduct. On motion by Mr. Kidde, seconded by Mr. Stewart, this matter was ordered returned to the Right of Way Division for further negotiations, to the end that there will be no crossing of State Highway property for entrance purposes to the Amboy Bridge from the property of Mr. Rue.

Right of Way, Entrance Road, Section #2, Camden

State Highway Engineer Sloan reported to the Commission that in order to have certain property vacated by the tenants on Section #2 of Entrance Road at Camden, he had suggested to Chairman Jelin that payments of $100.00 be made to each of three tenants fro this purpose, and that Chairman Jelin had authorized the same, pending ratification by the Commission. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the action of the State Highway Engineer offering $100.00 to each of three tenants for the immediate vacation of property needed on Section #2 of the Entrance Road at Camden.

Right of Way, Route #1 Extension

State Highway Engineer Sloan presented to the Commission a report from Assistant Construction Engineer Lavis advising of an appraisal received by him from the Ault & Wiborg Company on 12th Street, Jersey City for the taking of a strip 17 feet in depth and 275 feet in length from their property. The damage to the property and remainder was placed at $659,488.81. The Commission was also advised that Percy A. Gaddis special appraiser, had appraised the property including damage at $144,380.00 while Mr. Burhorn had placed the damage at less than $100,000.00.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that an offer of $100,000.00 be made to Ault & Wiborg for property needed for the construction of Route #1 Extension in Jersey City, and in the event of its being refused, that the property be acquired by condemnation in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #1 Extension, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #14

Beginning at a point formed by the intersection of the northerly side line of 12th Street with the easterly side line of Monmouth Street, as shown on a plan hereto attached, marked "Exhibit A", entitled: "New Jersey State Highway Department, Route #1 Extension, Property to be acquired from the Ault and Wiborg Company, City of Jersey City, Hudson County, Scale 1" = 50 feet, July 1925," and running; thence (1) in a northerly direction of seventeen (17) feet to the proposed northerly right-of-way line of State Highway Route #1, Extension; thence (2) in an easterly direction, along the aforesaid proposed northerly right-of-way line, a distance of two hundred and seventy-five (275) feet to the dividing line between lands of Ault and Wiborg Company on the west and lands now or formerly of Otto Gordan on the east; thence (3) in a southerly direction, along said dividing line, a distance of seventeen (17) feet to the northerly side line of 12th Street; thence (4) in a westerly direction, along the northerly side line of 12th Street, a distance of two hundred and seventy-five (275) feet to the point or place of beginning, CONTAINING four thousand, six hundred seventy-five (4675) square feet, it being the intention to acquire all lands lying between the lands now or formerly of Otto Gordan on the East and the easterly side line of Monmouth Street on the west, and extending from the northerly side line of 12th Street on the South to the proposed northerly right-of-way line of State Highway Route #1 Extension on the North, being part of Plot B1, Block 362, as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $100,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directedto institute condemnation proceedings for the acquisition of said lands and premises.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the purchase of the following parcels of property on Route #1 Extension, Section #2, Jersey City, agreements having been reached with the owners:

Parcel	Name	Amount
12,	August Altvatter and wife,	$ 8,500.00
29,	Marie Edelbach,	9,200.00
30,	Julius Edelbach, & Wife,	8,500.00
4,	Nicholas Miucci,	450.00
14,	Adolphine Stolz,	6,600.00

Right of Way, Routes, #4, #3,
#7, and #20

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of the following parcels of property on sections of State Highways, with a letter of thanks to those who have conveyed for a nominal consideration:

Right of Way, Route #4.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the following purchase agreements on Route #4, Section #32, be referred to Commissioner Jelin for report:- Parcels No. 1, 27-A, 27-B, 28, 29, 30 and 31.

Right of Way, Route #1 Extension

State Highway Engineer Sloan presented a report from Assistant Construction Engineer Lavis, together with appraisals on property of Prospero Buonadies, known as Parcel #2 on Route #1 Extension, Jersey

City, and recommended that an offer of $4,500.00 be made and in the event of refusal to accept, that condemnation proceedings be entered into.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that an offer of $4,500.00 be made for the property of Prospero Buonadies on Route #1 Extension, Jersey City, and in the event same is refused that condemnation proceedings be instituted in accordance with the following resolution:

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey for public use in the construction of State Highway Route #1 Extension, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #2

Beginning at a point in the northeasterly side line of Hoboken Avenue, said point being distant eight-four feet and five-tenths of a foot (94.5) in a northwesterly direction from the intersection formed by the northeasterly side line of Hoboken Avenue with northwesterly side line of Palisade Avenue, as shown on a plan hereto attached, marked "Exhibit A", entitled "New Jersey State Highway Department, Route #1 Extension, Property to be acquired from Prospero Buonadies, City of Jersey City, Hudson County, June 1925", and running thence (1) in a northeasterly direction, along the dividing line between lands of Prospero Buonadies on the east and lands now or formerly of Nicola and Antoinetta Galietta on the west, a distance of five feet and five-tenths of a foot (5.5) more or less, to a point in the proposed northeasterly right of way line of State Highway Route #1 Extension, parallel to and distant two hundred and eight feet and seventy-five one-hundredths of a foot (208.75) from the existing monumented center line of the Erie Railroad passenger tracks; thence (2) in a southeasterly direction, along the said proposed northeasterly right of way line of State Highway Route #1 Extension, a distance of twenty-one (21) feet, more or less, to the dividing line between lands of Prospero Buonadies on the west and lands now or formerly of Luigi Mela and wife on the east; thence (3) in a southwesterly direction, along said dividing line, a distance of two feet and five-tenths of a foot (2.5) more or less, to the northeasterly side line of Hoboken A Avenue; thence (4) in a northwesterly direction, along the northeasterly side line of Hoboken Avenue, a distance of twenty feet and five-tenths of a foot (20.5) more or less, to the point or place of Beginning; CONTAINING eighty (80) square feet , more or less, as shown on said plan. It being the Intention to acquire all lands lying between the lands now or formerly owned by Nicola and Antionetta Galietta on the west and lands now or formerly of Lugi Mela and wife on the east and extending from the north-easterly side line of Hoboken Avenue on the south to the proposed northeasterly right of way line of State Highway Route #1 Extension on the north; Being part of Plot 16-A, Block 552, as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make on offer of the sum of $4,500.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is herby authorized and directed to institute condemnation proceedings for the acquistion of said lands and premises.

July 28, 1925

State Highway Engineer Sloan presented a report from Assistant Construction Engineer Lavis on the property of Carl Pfetsch and Wife known as parcel 37 on Route #1 Extension, Jersey City, and recommended that an offer of $14,500.00 be made and in the event of refusal to accept that the property be acquired by condemnation. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that an offer of $14,500.00 be made to Carl Pfetsch and Wife for property on Route #1 Extension, Jersey City, and in the event of refusing to accept that the property be acquired by condemnation in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #1, Extension, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #7

Beginning at a point in the northeasterly side line of Hoboken Avenue, said point being distant twenty-two feet and thirty-three one-hundredths of a foot (22.33) in a northwesterly direction from the intersection formed by the northwesterly side line of Concord Street with the northeasterly side line of Hoboken Avenue, as shown on a plan hereto attached, marked "Exhibit A", entitled "New Jersey State Highway Department Route #1, Extension, Property to be acquired from Earl Pfetsch and wife, City of Jersey City, Hudson County, June 1925", and running; thence (1) along the northeasterly side line of Hoboken Avenue, in a northwesterly direction, a distance of twenty-six feet and twelve one-hundredths of a foot (26.12) to the dividing line between lands of Earl Pfetsch on the east and lands now or formerly of Joseph Kugel on the west; thence (2) along said dividing line, in a northeasterly direction, a distance of thirty-eight (38) feet more or less, to a point in the proposed northeasterly right of way line of State Highway Route #1 Extension, parallel to and distant two hundred and eight feet and seventy-five one-hundredths of a foot (208.75) from the existing monumented center line of the Erie Railroad passenger tracks; thence (3) along said proposed northeasterly right of way line of State Highway Route #1 Extension, in a southeasterly direction, a distance of twenty-six feet and five-tenths of a foot (26.5) more or less, to the dividing line between lands of Karl Pfetsch on the west and lands now or formerly of Louis Fort and wife on the east; thence (4) along said dividing line, in a southwesterly direction, a distance of thirty-five (35) feet, more or less, to the point or place of Beginning; CONTAINING nine hundred and forty-five (945) square feet, more or less, as shown on said plan. It being the intention to acquire all lands lying between lands now or formerly of Louis Fort and wife on the east and lands now or formerly owned by Joseph Kugel on the west, and from the northeasterly side line of Hoboken Avenue on the south and extending to the proposed northeasterly right of way line of State Highway Route #1 Extension, on the north; Being part of lot 1, Block 357, as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $14,500.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

State Highway Engineer Sloan presented a report from Assistant Construction Engineer Davis on the property of the Dominant Club, known as Parcel #15 on Route #1 Extension, Jersey City, Section #2, and he recommended that an offer of $15,600.00 be made and in the event of refusal to accept that the property be acquired by condemnation. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that an offer of $15,600.00 be made to Dominant Club for Parcel #15 on Route #1 Extension, Jersey City, Section #2, and in the event of their refusing to accept that the property be acquired by condemnation in accordance with the following resolution:-

> RESOLVED that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #1 Extension, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

BEGINNING at a point in the northeasterly side line of Hoboken Avenue, said point being distant one hundred and sixty-two feet and seventy-eight one-hundredths of a foot (162.78) in a southeasterly direction from the intersection formed by the southeasterly side line of Baldwin Avenue with the northeasterly side line of Hoboken Avenue, as shown on a plan hereto attached, marked "Exhibit A", entitled "New Jersey State Highway Department, Route #1 Extension, Property to be acquired from the Dominant Club, City of Jersey City, Hudson County, June, 1925", and running; thence (1) in a northeasterly direction, along the dividing line between lands of Dominant Realty Company on the east and lands now or formerly of Kenneth Apolant on the west, a distance of fifty-five (55) feet to a point, said point being the northwest corner of lands of Dominant Realty Company and in the dividing line between lands of Dominant Realty Company on the south and lands now or formerly of Kenneth Apolant on the north; thence (2) in a southeasterly direction, along the said dividing line, a distance of twenty-five (25) feet to a point; thence (3) still in a southeasterly direction, along a line parallel with Hoboken Avenue and being the dividing line between lands of Dominant Realty Company on the South and lands now or formerly of Kenneth Apolant on the north, a distance of five (5) feet to the dividing line between lands of Dominant Realty Company on the west and lands now or formerly of Adolphine Stolz and husband on the east; thence (4) in a southwesterly direction, along the said dividing line, and parallel to the first course, a distance of fifty-eight (58) feet, more or less, to the northeast side line of Hoboken Avenue; thence (5) in a northwesterly direction, along the northeasterly side line of Hoboken Avenue, a distance of thirty (30) feet to the point or place of beginning; CONTAINING one thousand, six hundred and eighty-five (1,685) square feet, more or less, as shown on said plan. It being the intention to acquire all lands lying between the lands now or formerly of Adelphine Stols and husband on the east and lands now or formerly of Kenneth Apolant on the west, and from the northeasterly side line of Hoboken Avenue extending to the dividing line between the lands of Dominant Realty Company on the south and lands now or formerly of Kenneth Apolant on the north, being plot 6-Q, Block 557, as shown on the official assessment map of Jersey City.

July 28, 1925.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $15,600.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Route #8

State Highway Engineer Sloan presented a report with appraisals on the property of F. A. F. Hogan, on Route #8, Section #6, Newfoundland-Stockholm and requested authority to offer $250.00 for the property, and in the event of its refusal that condemnation proceedings be instituted. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that an offer of $250.00 be made to F. A. F. Hogan for Parcel #10 on Route #8, Section #6, and in the event of refusal that the property be acquired by condemnation in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #8, Section #2, Newfoundland-Stockholm, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #10

BEGINNING at a point formed by the intersection of the dividing line between lands of grantor herein on the east and lands now or formerly of the City of Newark on the west with the northerly deed line of grantor, said point being distant three and ninety-two one-hundredths (3.92) feet northerly from the proposed center line of State Highway Route #8, Section #6, at Station 172 plus 69.34, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route 8 - Section 6, Property to be acquired from F. A. F. Hoagan, West Milford Township, Passaic County, Scale 1" equals 50' April 1925"

Thence (1) along the northerly deed line of grantor, South sixty-eight degrees, fifty-nine minutes, thirty-four seconds East (S 68° 59' 34"E), a distance of one thousand eight hundred thirty-three and sixty-eight one-hundredths (1833.68) feet to a point in the dividing line between lands of grantor herein on the west and lands now or formerly of the City of Newark on the east;

Thence (2) along said dividing line, South one degree, thirty-five minutes, fifty-five seconds West (S 1°35' 55"W), a distance of thirty-four and ninety-six one-hundredths (34.96) feet to a point in the proposed southerly right-of-way line of said State Highway;

Thence (3) along said proposed southerly right-of-way line, parallel to and distant thirty-three (33) feet from the proposed center line, North sixty-nine degrees, thirteen minutes. eighteen seconds West (N 69°13'18"W), a distance of one thousand four hundred fourteen and fifty-two one-hundredths (1414.52) feet to a point opposite Station 177 plus 00;

Thence (4) South twenty degrees, forty-six minutes, forty-two seconds West (S 20° 46' 42"W), a distance of seven (7) feet to a point opposite Station 177 plus 00;

Thence (5) along the proposed southerly right-of-way line, parallel to and distant forty (40) feet from the proposed center line, North sixty-nine degrees, thirteen minutes, eighteen seconds West (N 69°13'18"W), a distance of sixty-three and two one hundredths (63.02) feet to an angle point;

Thence (6) along said proposed southerly right-of-way line, parallel to and distant forty (40) feet from the proposed center line, North sixty-eight degrees, forty-one minutes, eighteen seconds West (N68°41'18"W), a distance of eighty-seven and thirty-six one-hundredths (87.36) feet to a point opposite Station 175 plus 50;

Thence (7) South twenty-one degrees, eighteen minutes, forty-two seconds West (S 21° 18' 42"W), a distance of ten (10) feet to a point opposite Station 175 plus 50;

Thence (8) along the proposed southerly right-of-way line, parallel to and distant fifty (50) feet from the proposed center line, North sixty-eight degrees, forty-one minutes, eighteen seconds West (N 68° 41' 18"W), a distance of two hundred seventy-one and forty-three one-hundredths (271.43) feet to a point in the aforesaid dividing line between lands of grantor herein and lands now or formerly of the City of Newark;

Thence (9) along said dividing line, North eleven degrees, thirty-five minutes, forty-two seconds East (N 11° 35' 42" E), a distance of fifty-four and seven-tenths (54.7) feet to the point and place of Beginning;

CONTAINING two hundred fifty-one one-thousandths (0.251) of an acre, be the same more or less, exclusive of existing right-of-way, as shown on said plan;

INTENDING TO ACQUIRE all that land now owned or controlled by the party of the first part that lies between the proposed right-of-way lines, extending from the lands now or formerly of the City of Newark on the west to other lands now or formerly of the City of Newark on the east, as shown on said plan hereto attached;

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $250.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Route #4

State Highway Engineer Sloan presented a report with appraisals on the property of Ephraim Cutter on Route #4, Section #33, Perth Amboy Bridge Cut-Off, Parcel #27 and he recommended that an offer of $1,785.00 be made and in the event of refusal that the property be acquired by condemnation. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that an offer of $1,785.00 be made to Ephraim Cutter for Parcel #27 on Route #4, Section #33, and in the event of refusal that the property be acquired by condemnation in accordance with the following resolution:

> RESOLVED that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway, Route #4, Section #33, Perth Amboy Bridge Cut-off, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #27

BEGINNING at a point formed by the intersection of the dividing line between lands of grantor herein on the east and lands now or formerly of Thomas Forbes on the west, with the proposed northwesterly right-of-way line of State Highway Route #4, Perth Amboy Bridge Cut-Off, said point being distant thirty-three (33) feet normally from the proposed center line of said State Highway at station 64 plus 49.48, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route 4 Perth Amboy Bridge Cut-Off, Property to be acquired from Ephraim Cutter, in the City of Perth Amboy,Middlesex County, Scale 1", equals 40' May 1924, Revised Jan. 1925";and running

Thence (1) along said right-of-way line, parallel to and thirty-three (33) feet distant from the proposed center line of said State Highway, North twenty degrees, seventeen minutes East (N 20° 17' E), a distance of five hundred six and nineteen one-hundredths (506.19) feet to a point in the southerly side line of Spa Spring Road;

Thence (2) along said southerly side line of Spa Spring Road, crossing the proposed center line at Station 69 plus 75.73, North seventy-eight degrees, fifty-nine minutes, thirty seconds East (N 78° 59' 30"E), a distance of seventy-seven and twenty-four one-hundredths (77.24) feet to a point in the proposed southeasterly right-of-way line of said State Highway;

Thence (3) along said right-of-way line, parallel to and thirty-three feet (33) distant from the proposed center line of said State Highway, South twenty degrees, seventeen minutes West (S 20° 17' W), a distance of six hundred twenty-one and thirty-two one hundredths (621.32) feet to a point in the aforesaid dividing line betweenlands of grantor herein on the east and lands now or formerly of Thomas Forbes on the west;

Thence (4) along said dividing line, crossing the proposed center line at Station 64 plus 11.98, North twenty-one degrees, four minutes West (N 21° 04'W), a distance of ninety-nine and nine-tenths (99.9) feet to the point and place of Beginning; CONTAINING eight hundred fifty-four one-thousandths (0.854) of an acre, be the same more or less;

INTENDING TO ACQUIRE all that land now owned or controlled by the party of the first part that lies between the proposed right-of-way lines, 33' each side of the proposed center line, extending from the lands now or formerly of Thomas Forbes on the south to the lands now or formerly of Hampton Cutter on the north, as shown on said plan hereto attached: including the right to form and maintain slopes over other lands of grantor adjacent to lands hereinabove described as required to a line not exceeding forty (40) feet in distance each side of the proposed center line.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $1,785.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

State Highway Engineer Sloan presented plans and appraisals on the property of Alexander Macioroski and Anton Massopust, known as Parcel #14, on Route #4, Section #33 and recommended that an offer of $1,000 be made and in the event of refusal that the property be acquired by condemnation. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that an offer of $1,000.00 be made to Alexander Macioroski and Anton Massopust for Parcel #14 on Route #4, Section #33 and in the event of their refusing to accept that the property be acquired by condemnation in accordance with the

the following resolution:

RESOLVED that this Commission hereby determines to acquire in the name of the State of New Jersey for public use in the construction of State Highway Route #4, Section #33, Perth Amboy Bridge Cut-off, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #14

Beginning at a point formed by the intersection of the dividing line between lands of grantors on the north and lands now or formerly of John Latkanicz on the south, with the proposed northwesterly right-of-way line of State Highway Route #4, Perth Amboy Bridge Cut-off, said point being distant thirty-three (33) feet normally from the proposed center line of said State Highway at Station 11 plus 27.06, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route 4, Perth Amboy Bridge Cut-off, Property to be acquired from Alexander Maciorowski and Anton Massopust, in the City of Perth Amboy, Middlesex County, Scale: 1" equals 20', April, 1924"; and running;

Thence (1) along the proposed northwesterly right-of-way line of said State Highway, parallel to and thirty-three (33) feet distant from the proposed center line, as shown on said plan, North twenty degrees and seventeen minutes East (N 20° 17' E), a distance of fifty (50) feet to a point in the dividing line between lands of grantor on the south and lands now or formerly of George Milyovcsik on the north;

Thence (2) along said dividing line, parallel to and one hundred fifty (150) feet distant northeasterly from the northeasterly side line of Harrington Street, South sixty-nine degrees and forty-three minutes East (S 69° 43'E), a distance of twenty-six (26) feet to a point in the existing northwesterly side line of Cleveland Avenue;

Thence (3) along said existing northwesterly side line of Cleveland Avenue, parallel to and seven (7) feet distant northwesterly from the proposed center line of said State Highway, South twenty degrees and seventeen minutes West (S 20° 17' W), a distance of fifty (50) feet to a point in the aforesaid dividing line between lands of grantor and lands now or formerly of John Latkanicz;

Thence (4) along said dividing line, parallel to and one hundred (100) feet distant northeasterly from the northeasterly side line of Harrington Street, North sixty-nine degrees forty-three minutes West (N 69° - 43' W), a distance of twenty-six (26) feet to the point and place of beginning;

CONTAINING thirteen hundred (1300) square feet, be the same more or less.

INTENDING TO ACQUIRE all that land now owned or controlled by the party of the first part that lies between the proposed right-of-way lines thirty-three (33) feet each side of the proposed center line, from the lands of John Latkanicz on the south to the lands of George Milyovcsik on the north, as shown on said plan hereto attached;

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $1,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

State Highway Engineer Sloan presented plans and appraisals on the property of John Lesczynski for Parcel #18 on Route #4, Section #33, and he recommended that an offer of $1,000.00 be made and in the event of refusal that the property be acquired by condemnation. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that an offer of $1,000.00 be made to John Lesczynski for Parcel #18 on Route #4, Section #33 and in the event of refusal to accept that the property be acquired by condemnation in accordance with the following resolution:

RESOLVED that this Commission hereby determines to acquire in the name of the State of New Jersey for public use in the construction of State Highway Route 4, Section 33, Perth Amboy Bridge Cut-off, ALL that certain Lot, tract or parcel of land and premises, situate lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #18

Beginning at a point formed by the intersection of the dividing line between lands of grantor on the north and lands now or formerly of John Brown on the south, with the proposed northwesterly right-of-way line of State Highway Route #4 Perth Amboy Bridge Cut-off, said point being distant thirty-three (33) feet normally from the proposed center line of said State Highway at Station 13 plus 27.06, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route 4, Perth Amboy Bridge Cut-Off, Property to be acquired from John Lesczynski, in the City of Perth Amboy, Middlesex County, Scale: 1" equals 20', April 1, 1924," and running;

Thence (1) along the proposed northwesterly right-of-way line of said State Highway, parallel to and thirty-three (33) feet distant from the proposed center line, as shown on said plan, North twenty degrees and seventeen minutes East (N 20° 17' E), a distance of fifty (50) feet to a point in the dividing line between lands of grantor on the south and lands now or formerly of Ralph A. Bullis on the north;

Thence (2) along said dividing line, parallel to and one hundred fifty (150) feet distant southwesterly from the southwesterly side line of Kamm Street, South sixty-nine degrees and forty-three minutes East (S 69° 43' E), a distance of twenty-six (26) feet to a point in the existing northwesterly side line of Cleveland Avenue;

Thence (3) along said existing northwesterly side line of Cleveland Avenue, parallel to and seven (7) feet distant northwesterly from the proposed center line of said State Highway, South twenty-degrees and seventeen minutes West (S 20° 17' W), a distance of fifty (50) feet to a point in the aforesaid dividing line between lands of grantor and lands now or formerly of John Brown;

Thence (4) along said dividing line, parallel to and two hundred (200) feet distant southwesterly from the southwesterly side line of Kamm Street, North sixty-nine degrees and forty-three minutes West (N 69° 43' W), a distance of twenty-six (26) feet to the point and place of beginning;

CONTAINING thirteen hundred (1300) square feet, be the same more or less;

INTENDING TO ACQUIRE all that land now owned or controlled by the party of the first part that lies between the proposed right-of-way lines thirty-three (33) feet each side of the proposed center line, from the lands of John Brown on the south to the lands of Ralph A. Bullis on the north, as shown on said plan hereto attached;

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $1,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

State Highway Engineer Sloan presented plans and appraisals on the property of Jacob Schwenzer on Route #4, Section #32, and he recommended that an offer of $9,000.00 be made and in the event of refusal to accept that the property be acquired by condemnation. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that an offer of $9,000.00 be made to Jacob Schwenzer for Parcel #32, on Route 4, Section #32, and in the event of his refusing to accept that the property be acquired by condemnation in accordance with the following resolution:

> RESOLVED that this Commission hereby determines to acquire in the name of the State of New Jersey for public use in the construction of State Highway Route 4, Section 32, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #32

Beginning at a point formed by the intersection of the dividing line between lands of grantor herein on the North and lands now or formerly of Anna Dunn on the South, with the proposed westerly right-of-way line of State Highway Route #4, between Perth Amboy and Rahway, distant thirty-three (33) feet normally from the proposed center line of said State Highway at Station 168 plus 70.40, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route 4, Sec. 32, Perth Amboy - Rahway, Property to be acquired from Jacob Schwenzer, Est. Woodbridge Township, Middlesex County, Scale: 1" equals 50', Nov. 1924"; and running;

Thence (1) along said proposed westerly right-of-way line, parallel to and thirty-three (33) feet distant from said proposed center line, North eight degrees, three minutes and thirty seconds West (N 8°-03'-30"W), a distance of one hundred thirty-eight and forty-nine one-hundredths (138.49) feet to a point of curvature at Station 170 plus 08.89 on said plan hereto attached;

Thence (2) still along said proposed westerly right-of-way line in a northwesterly direction, concentric with and thirty-three (33) feet distant radially from said proposed center line, along the arc of a curve to the left with a radius of 922.37) feet, a distance of two hundred eighty and eleven one-hundredths (280.11) feet to a point of tangency on said plan hereto attached;

Thence (3) along said existing southwesterly side line of St. George's Road, parallel to and thirty-three (33) feet distant normally from the forward tangent of the curve of said proposed center line, South twenty-five degrees, twenty-seven minutes and thirty seconds East (S25° 27'-30"E), a distance of one hundred seventy-six and eighty-five one-hundredths (176.85) feet to an angle point;

Thence (4) still along said existing southwesterly side line of St. George's Road, South thirty-four degrees and forty-one minutes East (S34°-41'E), a distance of one hundred fifty-two and two one-hundredths (152.02) feet to a point;

Thence (5) South sixty-five degrees, twelve minutes and thirty seconds West (S 65° 12' 30"W) a distance of thirteen and thirty-seven one-hundredths (13.37) feet to a point in the proposed easterly right-of-way line of said State Highway, distant thirty-three (33) feet normally from said proposed center line, at Station 169 plus 76.22 as shown on said plan hereto attached;

Thence (6) along said proposed southwesterly right-of-way line, parallel to and thirty-three (33) feet distant from said proposed center line, South eight degrees, three minutes and thirty seconds East (S8° 03'-30"E) a distance of ninety-five (95) feet to the aforesaid dividing line between lands of grantor herein and lands now or formerly of Anna Dunn;

Thence (7) along said dividing line, South seventy-two degrees, thirty-seven minutes and thirty seconds West (S72°-37'-30"W) a distance of sixty-six and eighty-eight one-hundredths (66.88) feet to the point and place of beginning;

CONTAINING three hundred twenty-five one-thousandths (0.325) of an acre, be the same more or less;

INTENDING TO ACQUIRE all that land now owned or controlled by the party of the first part that lies between the proposed right-of-way lines, extending from lands now or formerly of Anna Dunn on the South to the point of tangency, Station 172 plus 98.89, as shown on said plan hereto attached;

TOGETHER WITH the right to enter upon, construct, form and maintain slopes over other lands of grantor adjacent to the easterly line of land hereinabove described, and extending to lines distant forty-five (45) feet each side of the aforesaid center line and parallel thereto, from Station 168 plus 75.81 to Station 169 plus 76.22, as shown on said plan hereto attached, said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of the adjacent lands from the level of said highway; the grantor hereby retaining the right to use such land providing such use does not interfere with said slopes or endanger said highway;

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $9,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Route #2

State Highway Engineer Sloan presented a report with appraisals on the property of Charles B. Jessup for Parcel #1 on Route #2, Section #8, Bridgeboro-Pensauken Section and requested authority to offer $219.20 for the property and in the event of its being refused that the property be acquired by condemnation. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved an offer of $219.20 being made to Charles B. Jessup for Parcel #1, Route #2, Section #8, and in the event of its being refused that the property be acquired by condemnation with the following resolution:

> RESOLVED that this Commission hereby determines to acquire in the name of the State of New Jersey for public use in the construction of State Highway Route #2, Section #8, ALL that certain lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #1

Beginning at a point of curvature in the center line of State Highway, Route #2, Section #8, at Station 503 plus 77.88, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route 2-Section 8, Property to be acquired from Charles B. Jessup, Cinnaminson Township, Burlington County, Scale 1" equals 50 ft. April 1925", and running;

Thence (1) South eighteen degrees, sixteen minutes, twenty seconds East (18° 16' 20"E), a distance of thirty-three (33) feet to a point in the proposed southerly right-of way line of said State Highway;

Thence (2) along said right-of-way line in a southwesterly direction, concentric with and distant thirty-three (33) feet radially from said proposed center line, along the arc of a curve to the left with a radius of 1113.28 feet, a distance of eighty-six and twenty-six one-hundredths (86.26) feet to an angle point;

Thence (3) still along said right-of-way line, South fifty-nine degrees, twelve minutes, forty-five seconds West (S 59°12'45"W), a distance of one hundred ninety-two and forty-one one-hundredths (192.41) feet to an angle point.

Thence (4) along said right-of-way line, South fifty-two degrees, fifty-seven minutes, thirty-one seconds West (S52°57'31"W), a distance of forty-four and thirteen one-hundredths (44.13) feet to an angle point;

Thence (5) South thirty-seven degrees, two minutes, twenty-nine seconds East (S37°02'29"E) a distance of ten (10) feet to an angle point;

Thence (6) along aforesaid right-of-way line, South fifty-two degrees, fifty-seven minutes, and thirty-one seconds West (S 52° 57'31"W), a distance of one hundred (100) feet to an angle point;

Thence (7) North thirty-seven degrees, two minutes, twenty-nine seconds West (N 37°02'29"W) a distance of ten (10) feet to an angle point;

Thence (8) still along said right-of-way line, South fifty-two degrees, fifty-seven minutes, thirty-one seconds West (S52° 57' 31"W), a distance of one hundred twenty-eight (128) feet to a point in the existing southerly right-of-way line of said State Highway;

Thence (9) North forty-six degrees, twenty-eight minutes, twenty seconds West (N 46°28'20"W) a distance of thirty-three (33) feet to a point in the center line of said State Highway at Station P.T. 509 plus 41.88;

Thence (10) along the existing center line of said State Highway , North forty-three degrees, thirty-one minutes, forty seconds East (N43°31'40"E) a distance of two hundred eighty-seven and ninety-four one-hundredths (287.94) feet to an angle point;

Thence (11) still along said center line, North seventy-one degrees, forty-three minutes, forty seconds East (N 71°43'40"E) a distance of two hundred eighty-seven and ninety-four one hundredths (287.94) feet to the point and place of beginning;

CONTAINING two hundred seventy-six one-thousandths (0.276) of an acre, be the same more or less, exclusive of existing roadway, as shown on said plan hereto attached;

INTENDING TO ACQUIRE all that land now owned or controlled by the party of the first part that lies between the existing center line and the proposed right-of-way lines, of said State Highway, extending from the easterly property line of lands of grantor to the westerly property line of lands of grantor, said right-of-way lines being not less than thirty-three (33) feet each side of the proposed center line, excepting as specifically shown on aforesaid map hereto attached.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $219.20 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Connecting Road,
Section #3, Camden

State Highway Engineer Sloan presented a report with appraisals on the property of Earl Albertson for Parcels #65 and #69 on Section #3 of the Connecting Road at Camden, and requested authority to make an offer of $222.17 for the property and in the event of its being refused that the property be acquired by condemnation. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of an offer of $222.17 being made to Earl Albertson for Parcels #65 and #69 on Section #3 of the Connecting Road at Camden, and in the event of its being refused that the property be acquired by condemnation in accordance with the following resolution:

> RESOLVED that this Commission hereby determines to acquire in the name of the State of New Jersey for public use in the construction of State Highway, Connecting Road, Section #3, Camden, ALL that certain Lot, tract or parcel of land and premises, situate lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #65

BEGINNING at the intersection of the northerly right of way line of the proposed Connecting Road and the northerly line of Front St., said place of beginning being distant one hundred thirty-four and sixty-two hundredths (134.62) feet easterly from the northeast corner of Front St. and Highland Ave. and running;

Thence (1) along said northerly right of way line concentric with and forty (40) feet distant radially from the proposed center line of said highway, curving to the right with a radius of three hundred forty (340) feet a distance of nineteen and eighty-four hundredths (19.84) feet measured along the arc of the curve with a chord bearing north fifty-eight degrees thirty minutes fifty-eight seconds east (N 58° - 30' - 58"E) nineteen and eighty-four hundredths (19.84) feet to the dividing line between lands of grantor and Joseph Cramer;

Thence (2) along said dividing line south thirty-three degrees twenty seconds west (S 33° - 00'20"W) sixteen and two hundredths (16.02 feet) feet to the northerly line of Front Street;

Thence (3) along said northerly line of Front St. north sixty-nine degrees twenty-four minutes and seven seconds west (N 69° 24' 07"W) eight and seventy-three (8.73) feet to the place of beginning;

CONTAINING sixty-eight (68) square feet be the same more or less;

INTENDING TO ACQUIRE that part of lot number twenty-five (25) block H on the plan of the First Addition to Highland recorded in the office of the Register of Deeds of Camden County, that lies within the right of way lines of the proposed Connecting Road;

TOGETHER WITH THE RIGHT TO FORM AND MAINTAIN SLOPES OVER adjacent lands of grantor; said right of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of adjacent lands from the level of said highway; the grantor hereby retaining the right to use such land providing such use does not interfere with said slopes or endanger said highway.

Parcel #69

Beginning at the intersection of the northerly right of way line of the proposed Connecting Road and the easterly line of Chandlers Ave., said intersection being fifty-one and thirty-seven hundredths (51.37) feet southerly from the south east corner of said Chandlers Ave. and Union Street and running;

Thence (1) along said northerly right of way line parallel with and forty (40) feet distant from the proposed center line of said highway, north sixty degrees fifty-two minutes fifty seconds east (N 60° 52' - 50"E) fifty-eight and eleven hundredths (58.11) feet to the southerly line of Union Street;

Thence (2) along said southerly line of Union St. south fifty-six degrees, fifty-nine minutes, forty seconds east (S 56° 59' 40"E) ninety and five tenths (90.5) feet to the southerly right of way line of said highway;

Thence (3) along said southerly right of way line parallel with and forty (40) feet distant from the said proposed center line south sixty degrees fifty-two minutes fifty seconds west (S 60° 52'50"W) one hundred two and twenty-two hundredths (102.22) feet to the northerly line of Front Street;

Thence (4) along said northerly line of Front St. south eighty-six degrees, one minute eighteen seconds west (S 86° 01'-18"W) eighty-seven and forty-seven hundredths (87.47) feet to its intersection with the easterly line of Chandlers Avenue;

Thence (5) along said easterly line of Chandlers Ave., north thirty-three degrees twenty seconds east (N 33 - 00' 20"E) ninety-one and sixty-three hundredths (91.63) feet to the place of beginning;

CONTAINING ninety-six hundred fifteen (9615) square feet be the same more or less;

INTENDING TO ACQUIRE that part of lots one (1) to Six (6) inclusive block G on the plan of first addition to Highland recorded in the office of Register of Deeds of Camden County, that lies between the right of way lines of the proposed Connecting Road;

TOGETHER WITH the right to form and maintain slopes over adjacent lands of grantor; said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of adjacent lands from the level of said highway; the grantor hereby retaining the right to use such lands providing such use does not interfere with the said slopes or endanger said highway;

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $222.17 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Route #4

State Highway Engineer Sloan presented to the Commission a report and descriptions on property occupied by Hannah Schamp with ownership in the name of the United New Jersey Railway and Canal Company,known as Parcel #36 and also property known as Parcel #35 in the name of Richard Champ, and he recommended that an offer of $1.00 be made to the United New Jersey Railway and Canal Company for property known as Parcel #36 and occupied by Hannah H. Schamp, and that an offer of $550.00 be made for Parcel #35 to Richard Champ, et als, and in the event of refusal by these parties, that condemnation proceedings be entered into. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that an offer of $1.00 be made to the United New Jersey Railway and Canal Company for Parcel #36 on Route #4, Section #33, and an offer of $550.00 be made to Richard Champ for Parcel #35, and in the event of refusal by these parties that the property be acquired by condemnation in accordance with the following resolution:

> RESOLVED that this Commission hereby determines to acquire in the name of the State of New Jersey for public use in the construction of State Highway, Route #4, Right of way, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey and more particularly described as follows:

Parcel #36

Beginning at a point formed by the intersection of the dividing line between lands of grantor herein on the North and lands now or formerly of Richard Champ on the South, with the proposed westerly right-of-way line of State Highway Route #4, between Perth Amboy and Rahway, distant thirty-three (33) feet normally from the proposed center line of said State Highway at Station 265 plus 29.44, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route 4, Sec. 32, Perth Amboy-Rahway, Property to be acquired from the United New Jersey Railroad and Canal Co., Woodbridge Township, Middlesex County, Scale: 1" equals 40', November, 1924"; and running;

Thence (1) along said proposed westerly right-of-way line in a northerly direction, concentric with and thirty-three (33) feet distant radially from said proposed center line, along the arc of a curve to the left with a radius of 922.37 feet, a distance of two hundred eighty-five and forty-eight one-hundredths (285.48) feet to a point of tangency at Station 268 plus 20.00 on said plan hereto attached;

Thence (2) still along said proposed westerly right-of-way line, parallel to and thirty-three (33) feet distant from said proposed center line, North seven degrees, eight minutes and thirty seconds West (N7° 08'-30"W) a distance of one hundred thirty-seven and four one-hundredths (137.04) feet to a point of curvature at station 269 plus 57.04 on said plan hereto attached;

Thence (3) still along said proposed westerly right-of-way line, in a northerly direction, concentric with and thirty-three (33) feet distant radially from said proposed center line, along the arc of a curve to the right with a radius of (988.37) feet, a distance of two hundred forty and ninety-three one-hundredths (240.93) feet to a point in the existing westerly side line of St. George's Road, said point being distant thirty-three (33) feet normally from said proposed center line at Station 271 plus 89.82, as shown on said plan hereto attached;

Thence (4) along said existing westerly side line of St. George's Road, South four degrees, sixteen minutes and thirty seconds East (S 4° 16' 30"E) a distance of five hundred ninety-eight and eighty-three one-hundredths (598.83) feet to an angle point;

Thence (5) still along said existing westerly side line of St. George's Road, South six degrees, twenty-six minutes and thirty seconds West (S 6° 26' 30"W), a distance of sixty-four and two tenths (64.20) feet to a point in the aforesaid dividing line between lands of grantor herein on the North and lands now or formerly of Richard Champ on the South;

Thence (6) along said dividing line, North eighty-nine degrees, eight minutes and thirty seconds West (N 89°08'30"W) a distance of twenty-eight and three tenths (28.30) feet to the point and place of beginning;

CONTAINING two hundred twenty-seven one-thousandths (0.227) of an acre, be the same more or less;

INTENDING TO ACQUIRE all that land now owned or controlled by the party of the first part that is bounded easterly by St. George's Road, southerly by lands now or formerly of Richard Champ, and westerly and northwesterly by the proposed westerly right of way line of said State Highway, as shown on said plan hereto attached.

July 28, 1925.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $550.00 (Richard Champ, Parcel #35) and $1.00 (United New Jersey Railway and Canal Company, Parcel #36) to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Route #20, Millville
Taking over State Highways

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the following resolutions taking over two sections of State Highway Route #20 in the City of Millville:

WHEREAS, under the provisions of Article 3, Chapter 14, Laws of 1917, the State Highway Commission, may, by resolution, take over as a state Highway any Routes, route or part thereof, of those highways designated by the Act to be taken over as State Highways, and

NOW, THEREFORE, BE IT RESOLVED that the following described road be and the same is hereby taken over as part of State Highway Route #20 according to the statute in such cases made and provided; viz.,

Beginning at a point in the center line Second St., Millville, at the northerly boundary line of the City of Millville, and running thence (1) southerly through Second Street a distance of thirty-three hundred ninety-six (3396) feet more or less to the intersection of Sharp Street and Second Street; thence (2) southwesterly through Sharp St., a distance of eight hundred sixty (860) feet more or less to the intersection of Sharp Street and High Street; thence (3) southerly through High Street a distance of fifty-five hundred twenty-three (5523) feet more or less to intersection of High Street and Depot Street.

RESOLVED FURTHER, that the proper authorities of the County of Cumberland be notified by the Secretary of this Commission of such action, and that from and after the date hereof the said road will constitute a part of State Highway Route #20 and that this Commission will be responsible for the improvement and maintenance of the road described above, and

BE IT FURTHER RESOLVED that the County of Cumberland be requested to file with the State Highway Department within thirty (30) days of the date hereof, any agreements, or copies of franchises they may have with any public Utilities, or any other company, firm, individual or corporation effecting the construction,maintenance or use of the above described road.

WHEREAS, under the provisions of Article 3, Chapter 14, Laws of 1917, the State Highway Commission may, by resolution, take over as a State Highway any route or part thereof, of those highways designated by the Act to be taken over as State Highways,

NOW, THEREFORE, BE IT RESOLVED that the following described streets be and the same are hereby taken over as a part of State Highway Route #20 according to the statute in such cases made and provided; viz.,

Beginning at a point in the center line of Second Street, Millville, at the northerly boundary line of the City of Millville, and running thence (1) southerly along Second St., a distance of thirty-three hundred ninety-six (3396) feet more or less to the intersection of Sharp Street and Second Street; thence (2) southwesterly through Sharp Street a distance of eight hundred sixty (860) feet more or less to the intersection of Sharp and High Streets; thence (3) southerly through High Street a distance of eighty-one hundred thirty (8130) feet more or less to the northerly line of Main Street, there connecting with State Highway Route #15.

RESOLVED FURTHER, that the proper authorities of the City of Millville be notified by the Secretary of this Commission of such action and that from and after the date hereof the said road will constitute a part of State Highway Route #20 and that this Commission will be responsible for the improvement and maintenance of the road described above.

BE IT FURTHER RESOLVED, that the City of Millville be requested to file with the State Highway Commission within thirty (30) days hereof, any agreements, or copies of franchises they may have with any public Utilities, or any other company, firm, individual or corporation effecting the construction, maintenance or use of the above described road.

Detours, Route #20

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the adoption of the following official detour during the construction of Route #20, Section #3, through Westville, New Jersey:

Beginning at the intersection of Route #20, and #6 in Westville, and runs thence (1) southwesterly over Route #6 through Woodbury to Mantua; thence (2) southeasterly over Mantua-Glassboro Road to Route #20 in Glassboro."

Reimbursement.Monmouth County

There was presented to the Commission the claim of the County of Monmouth for reimbursement on account of detours established by the County during the construction of reimbursement work in the County. This claim was for $1,400.00 and the Secretary informed the Commission that there was no record in the Department office to substantiate the claim and therefore it cannot be passed for payment. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that a communication be forwarded to the County of Monmouth advising that the Commission will give consideration to the claim for detour repair if they can furnish this Department with any documents which might show authorization to the County for this work.

Route #9, Trolley Tracks, Roselle Park

The State Highway Engineer presented to the Commission a resolution from the Borough of Roselle, urging the improvement of the trolley crossings at Locust and Walnut Streets on Route #9, through Roselle Park. He recommended to the Commission that this work be reconstructed upon the terms by which the trolley company will pay 50% of the cost, all work being of reclipped granite block pavement on concrete base, at a total estimated cost of $2,180.00, and that the balance of the work be shared equally by the Borough of Roselle Park and the State Highway Commission. On motion by Mr. Stewart, seconded by Mr. Kidde, the recommendation of the State Highway Engineer was approved.

Route #5, Trolley Tracks

In connection with trolley track work, Commissioner Kidde directed that the Secretary write to the Chairman of the Special Committee giving consideration of the Morris County Traction Company matters on Route #5, inquiring as to when another meeting of the Special Committee will be held.

Maintenance Materials-
State Highway

State Highway Engineer Sloan presented to the Commission a report from the Maintenance Superintendent upon the delay in the delivery of stone by the Birdsboro Crushed Stone Company, and he recommended that the State Highway Commission formally notify this Company to proceed with the delivery of the material according to the terms of the specifications as provided under a clause entitled "Abandonment of Contract." On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer and directed that a notification be forwarded to the Birdsboro Crushed Stone Company in accordance with his recommendation.

Route 4, Toms River, Section 26

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the remitting of penalties now in effect against the Department of Institutions and Agencies on account of overtime on the completion of their work on Route 4 South of Toms River.

Employments

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the following additions, changes and increases as made by the State Highway Engineer in the employments since the last meeting of the Commission:

Employed

8-1-25	Wm. B. Haney,	Sr. Cl. Stenog.	$115.00 mo.

7-31-25	S. J. Sadowski,	Draftsman	"
7-31-25	Morris Stoll,	Struct. Draftsman	"

July 28, 1925.

Federal Aid-
Route 9, Section 16.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved Federal Aid Project Agreement No. 64-D on Route 9, Section 16, Bloomsbury Cut-off.

Matawan-Freneau Road,
M.V. Aid, Monmouth County.

State Highway Engineer Sloan recommended the acceptance and final payment on the Matawan-Freneau Road, Monmouth County. Motor Vehicle Aid work, Commissioner Jelin having inspected this work and recommended its approval. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the acceptance and final payment on this road.

Old Bridge-Matawan Road,
M.V. Aid-Middlesex County.

The State Highway Engineer called the attention of the Commission to the fact that on the Old Bridge-Matawan Road, Section 2, Motor Vehicle Aid work in Middlesex County, that there had been discovered a deficiency in thickness of concrete and he was prepared to recommend the following action to be taken:- That payment in full be allowed the contractor for such concrete laid as reasonably complies with the specifications; that he be penalized in accordance with the standard scale of reduction for deficiency on 481 - 1/9 square yards of pavement between 7 - 1/2" and 7- 1/4" in thickness, and that on 245 - 5/9 square yards of pavement below 7 - 1/4" in thickness, that no payment be made. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the recommendation of the State Highway Engineer and directed that the County authorities of Middlesex County be advised that the State Highway Commission will consider the acceptance of this work upon the conditions imposed in the recommendation of the State Highway Engineer; namely, that payment in full will be made for such concrete as reasonably complies with the specifications and that penalty will be imposed for concrete below 7 - 1/2" in thickness to 7 - 1/4" in an amount of 481 - 1/9 square yards, and payment will be withheld entirely for pavement under 7 - 1/4" in an amount of 245 - 5/9 square yards.

July 28, 1925.

Roseld Avenue, M.V. Aid-Monmouth Co.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance and final payment on Roseld Avenue, Monmouth County, Motor Vehicle Aid work, same having been inspected by Commissioner Jelin.

Township Aid-Mercer County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the award of contract by Hopewell Township, Mercer County, for the Pennington-Princeton Road.

Lambertville-Mercer County Line,
M. V. Aid-Hunterdon County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the award of contract by Hunterdon County on the Lambertville-Mercer County Line Road, Motor Vehicle Aid-Hunterdon County.

Township Aid-Mercer County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the award of contract on Prospect Street and Ridge Avenue, by Lakewood Township, Ocean County.

East & West Passaic Avenues,
M. V. Aid-Essex County.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved plans and specifications for East and West Passaic Avenues, Essex County, Motor Vehicle Aid work.

Township Aid-Essex County.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of plans and specifications for Gould Avenue, Greenbrook Road, Glen View Road, Ferndale Road, North Caldwell Borough, Essex County, Township Aid.

Rejection of Plans-Cape May County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission rejected plans and specifications on a section of Glenwood Avenue, Wildwood, Cape May County, in order that the County may proceed with the work from its own funds.

Township Aid-Hunterdon Co.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved plans and specifications for the Rosemont-Kingswood, Township Line Road, Delaware Township, Hunterdon County-Township Aid.

July 28, 1925.

Township Aid-Warren County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved a revision of price agreement as previously approved for the Delaware-Warrington Road, Knowlton Township, Warren County, Township Aid, to include a price for tractor operator.

Township Aid-Cumberland County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved a final payment on Canton and Othello Road, Stoe Creek Township, Cumberland County, Township Aid.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission adjourned its meeting at 4:30 P.M. to meet again in regular session on Tuesday, August 4th at 10:30 A. M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - August 4, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, Tuesday, August 4, 1925. The meeting was called to order at 10:30 A.M., by Acting Chairman Jelin.

Present: Acting Chairman Jelin, Messrs. Percy H. Stewart and Walter Kidde.

Absent: Gen. H. L. Scott, on trip to the West.

Minutes Approved

Commissioner Kidde reported having read the minutes of the meetings of June 9th, 15th and 23rd and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Detour, Route #4, Metuchen

The Secretary advised that a delegation from the Borough of Metuchen was present to confer on the matter of traffic control on detour for Route #4 through Metuchen. On motion, duly seconded, a conference was granted. Mr. Willmott of the Street Committee of Metuchen and the Chief of Police appeared before the Commission and advised that the traffic through Metuchen has become so congested that it is absolutely necessary to have police supervision and the Town has not the funds to expend for such policing. He advised that the most serious time was over Saturday and Sunday week ends.

State Highway Engineer Sloan suggested that the municipality make request of the State Police for aid in policing since State Police will not go to a municipality unless it is agreeable to the municipality for them to do so.

Mr. Willmott advised that the municipality will be glad to have any assistance that the State Police can give to Metuchen in directing traffic during the rush periods.

Commissioner Jelin advised that he would intercede in an effort to obtain two State Police to be assigned at Metuchen to aid in relieving the traffic congestion on Saturdays and Sundays.

Mr. Wilmott advised that there are local streets which could be used for relief if the State would place the same in proper condition after the detour was removed.

State Highway Engineer Sloan advised that this matter would be investigated and if the local streets were established as official detours then the State would be responsible for their maintenance until the detour was removed. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that an investigation be made of the detour situation in Metuchen with a view toward relieving traffic by the use of local streets if same can be accomplished.

State Highway Route #17, S
Taking Over

The Secretary informed the Commission that in accordance with a hearing granted to Senator Borton of Salem County and Assemblyman Stratton of Gloucester County, these gentlemen were present with a delegation of interested citizens concerning the taking over of the Crown Point Road, designated by the Legislature as Route #17. On motion, duly seconded, a hearing was granted. The Secretary first read a letter from Captain J. E. Brown of the Delaware Ordinance Depot of Pedricktown, requesting favorable consideration for this improvement. Assemblyman Stratton acted as spokesman for the delegation and advised that the delegation was present to inform the Commission of reasons why the Counties of South Jersey were ~~not~~ interested in the taking over of Route #17 between Westville and Pennsgrove. He called upon Mr. William C. Cattell, County Engineer, of Gloucester County, who advised that the mileage of this highway in Gloucester County is 16.87 miles, of which there is 8.47 miles in modern pavement and about 5½ miles of macadam, leaving only 2.65 miles in Gloucester County which is Township road and cinders. He advised that the County authorities were very much interested in having this road taken over for maintenance by the State and would appreciate it if this could be done as soon as funds were available. He stressed the point that there is no highway along the river front at the present time under State control and that this would give an outlet to the ferries at present existing and in contemplation.

Mr. Howard B. Keasby, County Engineer of Salem County, was next called on and explained that this road was another spoke in the wheel radiating from Camden through South Jersey and furnished a very important outlet to markets along the Delaware and also to the various manufacturing plants including the DuPont works at Pennsgrove. He also called attention to the fact that this highway formed part of the Delaware River Drive as laid out by the Legislature some years ago.

Mr. Thomas McManus representing the DuPont Company of Pennsgrove spoke next and advised of the large number of trucks passing in and out of his plant which use this road.

Remarks were also made by Frank Pote representing the I. P. Thomas Sons Company and as Freeholder for Paulsboro, Assemblyman Robinson of Salem County, Freeholder Martin of West Deptford Township, William Drogmiller,Freeholder of Greenwich Township, Charles Lampson, Chairman of the Greenwich Township Committee, Mr. Alvin Gaventa, President of the Gloucester County Board of Agriculture, Mr. J. J. Vanneman, Mayor of Paulsboro, Mr. Winfield Parks of West Deptford Township and Mr. George Gaventa, Director of the Salem County Board of Freeholders. In concluding the meeting which lasted one hour, both Senator Borton and Assemblyman Stratton urged upon the Commission the consideration of this Highway as a relief to the agricultural district in this section and to the growing traffic in the Camden district.

Commissioner Kidde called attention to the fact that from the information he had learned, there appeared to be only a little over two miles in the entire line which is not in condition for travel, and he suggested that the local authorities together with the County bring the State some proposition whereby this short section could be improved and thus open up this highway to the traffic, in view of the fact that the funds of the Commission at the present time will not permit of taking over this highway.

Acting Chairman Jelin informed the delegation that the funds of the State Highway Commission would not permit at the present time of taking over any further highways but that this matter would be given consideration at the proper time.

Assemblyman Stratton thanked the Commission for the opportunity to appear.

Route #10, Section #1C,
Fort Lee

The Secretary informed the Commission that representatives of the Board of Education of the Borough of Fort Lee were present concerning right of way on Route #10, Section #1C, in the Borough. On motion, duly seconded, a hearing was granted. There appeared Mr. J. J. Abbott together with another representative. Mr. Abbott advised that they appeared as a Committee from the Board of Education of Fort Lee to inquire as to a settlement for their Claim for the taking of property from the school frontage in the construction of Route #10, Sec. #1C, without making compensation to the Board of Education. State Highway Engineer Sloan informed the Commission that the situation in this case was that the original line of the State Highway was laid out over Route #10 on what is known as Bluff Road. However, the former Commission, following several hearings, had changed the line of Route #10 so that it would pass through the Borough of Fort Lee and assurances had been given by the authorities of the community and the County that any right of way which was under the jurisdiction of the local authorities, would be given to the State for a nominal consideration as an inducement toward having the line changed. Mr. Abbott advised that the Board of Education has at no time been included in this arrangement, since the members of the Board are elected by the local people and are not controlled by the authorities of Fort Lee, and they did not feel that they should be included in any arrangements made, to which they were not a party. He advised that the claims of the Board of Education were for $2,000.00 to cover the property taken and stated that this was a proportionate share of the improvements made upon the ground by his board.

Construction Engineer Bedwell was present and advised that as far as his recollection was concerned, this property was to be given free of cost by the local authorities and there was no claim upon the State by the Board of Education although there was nothing in writing to bear out this contention.

The Secretary read to the Commission a letter forwarded to the Board of Education of Fort Lee on June 17th, in which communication it was advised that the State Highway Commission cannot see its way clear to pay more than a nominal consideration. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the Board of Education of Fort Lee be advised that the State Highway Commission entertains the same views as expressed in a letter forwarded by the Secretary on June 17, 1925, namely; that "In view of the fact that the alignment of this road was changed at the urgent solicitation of the authorities and citizens of Fort Lee and with the assurances that the right of way taken would not cost more than a nominal consideration, the Commission feels that it is not justified in paying the amount of $2,000.00 as asked by the Board".

Permits - Memorials

The Secretary presented a communication from Mr. George B. Mackay of Hackensack, New Jersey, requesting permission on behalf of the Borough of Fort Lee for the erection of a Soldiers and Sailors monument on a triangular piece of property situated on State Highway Route #10 at the intersection of Palisade Avenue and Bluff Road, where it will be an imposing sight as one comes from the Edgewater Ferry. Commissioner Stewart moved that the Borough of Fort Lee be given permission to erect a monument as set forth in a letter of July 30th at the intersection of Palisade Avenue and Bluff Road, with the distinct understanding that if, at any time in the opinion of the Highway Commission, it is desirable to remove the said monument, the same will be removed by the Borough without expense to the State. This was seconded by Mr. Kidde and adopted.

Right of Way, Route #1
Hackensack Bridge

The Secretary advised that Hon Mark Sullivan, Special Counsel on Jersey City right of way and the Bowen property was present for a conference with the Commission. On motion, duly seconded, a conference was granted. Judge Sullivan informed the Commission that he had been negotiating further with the property owners of the Bowen tract on Route #1 at the Hackensack River Temporary Bridge and they had refused the offer of the State of $6,000.00 per annum for rental and have made a counter demand for $7,500.00 in addition to the costs in condemnation proceedings. On motion by Mr. Stewart, seconded by Mr. Kidde, further consideration on this matter was held in abeyance for a conference with the Attorney General.

Right of Way, Rt. 1 Extension

Judge Sullivan presented to the Commission a letter from Attorney Mark Townsend for the Everett Cox lease and property located on the line of Route #1 Extension in Jersey City, in which communication he advised that the Cox people were very anxious to proceed with their improvement contemplated and suggested a plan whereby the State would abandon its proposal to build a street on the North side of the right of way to take the place of Underwood Place and would not interfere with their operations. They advised that they could secure a release from the Erie Railroad and City authorities of Jersey City relative to the obligations now before the State Highway Commission covering this street improvement, otherwise it would be necessary to change the character of their building and there would be involved damages to an amount of $100,000.00, due to the fact that the steel work for the new building has been entirely fabricated in the factory. After discussion on this matter Commissioner Kidde moved that the matter be referred to Judge Sullivan with the advice that from the view point of the State Highway Commission as to the depressed roadway, there is no objection to their covering the entire plot with a building, provided the City of Jersey City and the Erie Railroad will release the State Highway Commission from its obligations to maintain the Street Underwood Place and further that a communication be forwarded to Acting Mayor Moore of Jersey City advising of the facts in this case and thereby placing the City of Jersey City on notice when the upper section of Route #1 Extension is built it will involve considerable additional expense to complete the improvement at this point. This was seconded by Mr. Stewart and adopted.

August 4, 1925.

Right of Way, Rt. 1 Extension

Judge Sullivan called the attention of the Commission to the fact that he had been negotiating with the Attorney for the property of Kenneth Appolant on which the Commission had made an offer of $29,000.00 or condemnation as against the original demand of $35,000.00. He advised that the owner of this property was ready to reach some settlement if this price could be increased and he recommended that $30,000.00 be offered. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that in view of the information of Judge Sullivan, the original offer of $29,000.00 to Kenneth Appolant be changed and that an offer of $30,000.00 be made with the understanding that if the same is refused that the condemnation proceedings are to continue as at present under way.

Assistant Construction Engineer Lavis was present at this time and advised that Leopold A. Bittighofer, owner of Parcel #22 on Route #1 Extension, had accepted an offer of $14,000.00 as made by the Commission and he would recommend that condemnation proceedings be discontinued. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the payment of $14,000.00 to L. A. Bittighofer for Parcel #22 on Route #1 Extension and directed that condemnation proceedings now under way be discontinued.

Assistant Construction Engineer Lavis informed the Commission that Frank McDonald, owner of Parcel #32 on Route #1 Extension, had accepted the offer of $13,500.00, and he would recommend that the same be approved by the Commission. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of Parcel #32 on Route #1 Extension, from Frank McDonald for the consideration of $13,500.00.

State Highway Engineer Sloan advised that he had received reports from Mr. Lavis concerning offers made for property on Route #1 Extension and he would recommend that M. Zeho and A. DeMarco, owners of Parcel #5, be offered $22,000.00 and in the event of refusal that condemnation proceedings be instituted. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of an offer of $22,000.00 to M. Zeho and A. DeMarco for Parcel #5 on Route #1 Extension and directed that on failure to accept that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey for public use in the construction of State Highway Route #1 Extension, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Beginning at a point in the southeasterly side line of Concord Street said point being distant twenty-two and fifty-five one-hundredths (22.55) feet in a northeasterly direction along the southeasterly side line of Concord Street from the intersection formed by the northeasterly side line of Hoboken Avenue and the southeasterly side line of Concord Street as shown on plan hereto attached entitled "New Jersey State Highway Department, Route #1 Extension, property to be acquired from Margaret Zeho and Antoinette De Marco, City of Jersey City, Hudson County, Scale 1" equals 20', June 1925;" Thence (1) in a southeasterly direction and normal to the aforesaid southeasterly side line of Concord Street a distance of eight and five-tenths (8.5) feet more or less to its intersection with the proposed northeasterly right of way line of State Highway Route #1 Extension parallel to and distant two hundred eight and seventy-five one-hundredths (208.75) feet from the existing monumented center line of the Erie R. R. passenger tracks; Thence (2) along the aforesaid proposed right of way line of State Highway Route #1 Extension in a southeasterly direction through the lands of grantor and for a distance of ninety-four and five-tenths (94.5) feet more or less to the dividing line between the lands of the grantor herein on the west and lands now or formerly of Nicolas Micucci on the east: Thence (3) southwesterly along the above mentioned dividing line between lands of grantor herein on the west and lands now or formerly of Nicolas Micucci on the east a distance of eleven (11) feet more or less to the northeasterly side line of Hoboken Avenue; Thence (4) in a northwesterly direction along the northeasterly side line of Hoboken Ave. a distance of one hundred and sixty one-hundredths (100.60) feet to the southeasterly side line of Concord Street; Thence (5) in a northeasterly direction along the southeasterly side line of Concord Street for a distance of twenty-two and fifty-five one hundredths (22.55) feet to the point and place of beginning: Containing one thousand, seven hundred seventy-one (1771) square feet be the same more or less as shown on said plan;

Intending to convey all that land now owned or controlled by the party of the first part that lies between the lands now or formerly of Nicolas Micucci on the east and southeasterly side line of Concord Street on the west and extending from the northeasterly side line of Hoboken Avenue on the south to the proposed northeasterly right of way line of State Highway Route #1 Extension on the north;

Being part of plot 64 Block 552 as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $12,500.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Route #1 Extension

State Highway Engineer Sloan recommended that an offer of $12,500.00 be made to Joseph Kugel for Parcel #8 on Route #1 Extension and in the event of refusal that condemnation proceedings be instituted. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of an offer of $12,500.00 to Joseph Kugel for Parcel #8 on Route #1 Extension and in the event of its being refused that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route No. 1 Extension, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Beginning at a point in the northeasterly side line of Hoboken Avenue, said point being distant forty-eight feet and forty-five one-hundredths of a foot (48.45), in a northwesterly direction from the intersection formed by the northwesterly side line of Concord Street with the northeasterly side line of Hoboken Avenue as shown on a plan hereto attached marked "Exhibit A", entitled "New Jersey State Highway Department, Route #1 Extension, Property to be acquired from Joseph Kugel, City of Jersey City, Hudson County, June, 1925" and running; thence (1) along the northeasterly side line of Hoboken Avenue in a northwesterly direction, a distance of twenty-three feet and seven one-hundredths of a foot (23.07), to the dividing line between lands of Joseph Kugel on the east and lands now or formerly of Maria and Alfred Philips on the west; thence (2) along said dividing line, in a northeasterly direction, a distance of forty-one (41) feet, more or less, to a point in the proposed northeasterly right-of-way line of State Highway Route #1 Extension, parallel to and distant two hundred and eight feet and seventy-five one-hundredths of a foot (208.75), from the existing monumented center line of the Erie R. R. passenger tracks; Thence (3) along said proposed northeasterly right-of-way line of State Highway Route #1 Extension, in a southeasterly direction, a distance of twenty-three feet and five-tenths of a foot (23.5) more or less, to the dividing line between lands of Joseph Kugel on the west and land now or formerly of Karl Pfetsch and wife on the east, thence (4) along said dividing line, in a southwesterly direction, a distance of thirty-eight (38) feet, more or less, to the point and place of beginning; Containing nine hundred and thirty-one (931) square feet, more or less, as shown on said plan;

Intending to acquire all lands lying between the lands now or formerly of Karl Pfetsch and Wife on the east and lands now or formerly of Maria and Alfred Phillips on the west and from the northeasterly side line of Hoboken Avenue on the south to the proposed northeasterly right-of-way line of State Highway Route #1 Extension on the north, being part of lot B1, Block 557, as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $12,500.00

to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Route #1 Extension

State Highway Engineer Sloan recommended that an offer of $2,500.00 be made to Israel Schachner for Parcel #20 on Route #1 Extension, and in the event of refusal that condemnation proceedings be instituted. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of an offer of $2,500.00 to Israel Schachner for Parcel #20 on Route #1 Extension, and in the event of refusal to accept that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route No. 1 Extension, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Beginning at a point in the southwesterly corner of plot of land hereby intended to convey, as shown on a plan hereto attached entitled "New Jersey State Highway Department, Route #1 Extension, Property to be acquired from Israel Schachner, Jersey City, Hudson County, Scale 1" equals 20', June. 1925," this point also being the southwest corner of plot conveyed by Sarah Stadelman et al to Israel Schachner by deed dated December 6, 1919 and recorded in Liber 1345 page 25 etc., running;

Thence (1) in a northeasterly direction along a line parallel to and distant one hundred and four feet (104) feet from the northwesterly line of Baldwin Avenue a distance of eleven (11) feet more or less to a point in the proposed northeasterly right-of-way line of State Highway Route #1 Extension parallel to and distant two hundred eight and seventy-five one-hundredths (208.75) feet from the existing monumented center line of the Erie R.R. passenger tracks; thence (2) in a southweasterly direction along the aforesaid proposed northeasterly right of way line of State Highway Route #1 Extension, a distance of forty-five (45) feet more or less to the dividing line between the lands of the grantor herein on the north and lands now or formerly of the West Side Construction Co. on the south; thence (3) in a northwesterly direction along the aforesaid dividing line between lands of grantor on the north and the West Side Construction Co. on the south, a distance forty-four (44) feet more or less to the point and place of beginning; Containing two hundred forty-two (242) square feet be the same more or less, as shown on said plan;

Intending to convey all that land now owned or controlled by the party of the first part that lies between the easterly line of land now or formerly of Leopold Albert Bittighofer on the west, extending to where the proposed northeasterly right of way line of State Highway Route #1 Extension intersects the southerly line of grantor's land, and from the northerly line of lands now or formerly of the West Side

Construction Co. on the south to the proposed northeasterly right of way line of State Highway Route #1 Extension on the north, as shown on said plan hereto attached;

Being part of plot 39B Block 561, as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $2,500.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Route #1 Extension

State Highway Engineer Sloan recommended that an offer of $4,300.00 be made to Francis F. Kruse for Parcel #23 on Route #1 Extension and in the event of its being refused that condemnation proceedings be instituted. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of an offer of $4,300.00 to Francis F. Kruse for Parcel #23 on Route #1 Extension and in the event of its being refused that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route No. 1 Extension, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Beginning at a point in the northeasterly side line of Hoboken Avenue distant in a northwesterly direction from the intersection formed by the northeasterly side line of Hoboken Avenue and the northwesterly side line of Baldwin Avenue one hundred fifty-seven and eleven one-hundredths (157.11) feet to the dividing line between the lands of the grantor herein on the east and lands now or formerly of the Schranz & Bieber Co., Inc., on the west as shown on a plan hereto attached entitled "New Jersey State Highway Department, Route #1 Extension, Property to be acquired from Francis F. Kruse, City of Jersey City, Hudson County, Scale 1" equals 20', June 1925";

Thence (1) northeasterly along the aforesaid dividing line between the lands of the grantor herein on the east and lands now or formerly of the Schranz & Bieber Co. Inc. on the west, said line being parallel with the aforesaid line of Baldwin Avenue a distance of one hundred (100) feet more or less to a point in the proposed northeasterly right-of-way line of State Highway Route #1 Extension parallel to and distant two hundred eight and seventy-five one-hundredths (208.75) feet from the existing monumented center line of the Erie R. R. passenger tracks; Thence (2) along the aforesaid proposed northeasterly right-of-way line of State Highway Route #1 Extension in a southeasterly direction a distance of twenty-six (26) feet more or less to the dividing line between the lands of grantor herein on the west and lands now or formerly of Leopold Albert Bittighofer on the east; Thence (3) southwesterly along the aforesaid dividing line between the lands of grantor herein on the west and lands now or formerly of Leopold

Albert Bittighofer on the east said line being parallel with the aforesaid side line of Baldwin Avenue a distance of one hundred (100) feet more or less to the northeasterly line of Hoboken Avenue; Thence (4) along said northeasterly side line of Hoboken Avenue in a northwesterly direction a distance of twenty-five and seventh-three one-hundredths (25.73) feet to the point and place of beginning;

Containing two thousand five hundred (2,500) square feet be the same more or less as shown on said plan;

Intending to convey all that land now owned or controlled by the party of the first part that lies between the westerly line of lands now or formerly of Leopold Albert Bittighofer on the east and the easterly line of lands now or formerly of the Schranz & Bieber Co., Inc. on the west and from the northeasterly side line of Hoboken Avenue on the southwest extending to the proposed northeasterly right-of-way line of State Highway Route #1 Extension on the north as shown on said plan hereto attached; Being part of plot 6A Block 561 as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $4,300.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Route #1 Extension

State Highway Engineer Sloan recommended that an offer of $30,000.00 be made to Francis F. Kruse for Parcel #25 on Route #1 Extension at Jersey City and in the event of refusal that condemnation proceedings be instituted. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of an offer of $30,000.00 to Francis F. Kruse for Parcel #25 on Route #1 Extension, at Jersey City, and in the event of its being refused that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #1 Extension, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Beginning at a point in the northeasterly side line of Hoboken Avenue distant in a southeasterly direction from the intersection formed by the northeasterly side line of Hoboken Avenue and the southeasterly side line of Oakland Avenue one hundred sixty-two and thirty-one one-hundredths (162.31) feet to the dividing line between the lands of the grantor herein on the east and lands now or formerly of Mayer Klusner on the west as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route #1 Extension, Property to be acquired from Francis F. Kruse, City of Jersey City, Hudson County, Scale 1" equals 20', June, 1925";

Thence (1) northeasterly along the aforesaid dividing line and parallel with Baldwin Avenue, a distance of one hundred (100) feet more or less to a point in the proposed northeasterly right-of-way line of State Highway Route #1 Extension parallel to and distant two hundred eight and seventy-five one-hundredths (208.75) feet from the existing monumented center line of the Erie R. R. Passenger tracks; Thence (2) along the aforesaid northeasterly right-of-way line of State Highway Route #1 Extension in a southeasterly direction a distance of fifty-two and five-tenths (52.5) feet more or less to the dividing line between the lands of the grantor herein on the west and lands now or formerly of the Schranz and Bieber Co. on the east; Thence (3) southwesterly along the aforesaid dividing line between the lands of the grantor herein on the west and lands now or formerly of the Schranz & Bieber Co., Inc. on the east.said line being parallel with the aforesaid side line of Baldwin Avenue a distance of one hundred (100) feet more or less to the northeasterly side line of Hoboken Avenue; Thence (4) along said northeasterly side line of Hoboken Avenue in a northwesterly direction a distance of fifty-two and five-tenths (52.5) feet to the point and place of beginning;

Containing five thousand one hundred (5,100) sq. feet be the same more or less as shown on said plan;

Intending to convey all that land now owned or controlled by the party of the first part that lies between the westerly line of lands now or formerly of the Schranz & Bieber Co., Inc. on the east and the easterly line of lands now or formerly of Mayer Klusner on the west and from the northeasterly side line of Hoboken Avenue on the southwest and extending to the proposed northeasterly right-of-way line of State Highway Route #1 Extension as shown on said plan hereto attached;

Being part of plots 9A & 10A, Block 561 as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $30,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Route #1 Extension

State Highway Engineer Sloan recommended that an offer of $12,000.00 be made to William Lemaire and Wife for Parcel #31 on Route #1 Extension at Jersey City, and in the event of refusal that condemnation proceedings be instituted. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of an offer of $12,000.00 be made to William Lemaire and Wife for Parcel #31 on Route #1 Extension at Jersey City, and in the event of its being refused that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #1 Extension, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

August 4, 1925.

Beginning at a point where the Southerly line of the land hereby intended to convey intersects with the proposed northeasterly right-of-way line of Route #1 Extension, parallel to and distant one hundred seventy-six (176) feet from the existing monumented center line of the Erie Railroad passenger tracks, aforesaid southerly line being the dividing line between lands of grantor on the North and lands now or formerly of Frank McDonald on the south, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route No. 1 Extension, Property to be acquired from William Lemaire and Wife, City of Jersey City, Hudson County, Scale 1" equals 20', June 1925" and running;

Thence (1) in a northwesterly direction, parallel to Fleet St. and along the aforesaid dividing line between lands of grantor on the North and lands now or formerly of Frank McDonald on the South, a distance of ninety-three (93) feet more or less to the dividing line between lands of grantor and lands now or formerly of Alex. Foote on the west. Thence (2) northeasterly and parallel to Oakland Avenue along the aforesaid dividing line between lands of grantor on the East and lands now or formerly of Alex Foote on the west, a distance of twenty-two (22) feet more or less to the above mentioned proposed northeasterly right-of-way line of Route #1 Extension, parallel to and distant one hundred seventy-six (176) feet from the existing monumented center line of the Erie Railroad passenger tracks. Thence (3) in a southeasterly direction along the proposed northeasterly right-of-way line of State Highway Route No. Extension and through grantor's land, a distance of ninety-five (95) feet more or less to the point and place of beginning,

Containing one thousand, twenty-three (1023) square feet, be the same more or less, as shown on said plan,

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the southeasterly line of lands now or formerly of Alex. Foote on the west and the intersection of grantor's southerly property line with the proposed northeasterly right-of-way line of State Highway Route #1 Extension on the East, and extending from the dividing line between the lands of grantor herein and lands now or formerly of Frank McDonald on the South to the proposed Northeasterly right-of-way line of State Highway Route #1 Extension on the North.

Being part of lot 35B, Block 566, as shown on the official assessment map of Jersey City.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $12,000.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Route #1 Extension

State Highway Engineer Sloan reported that an offer of $2,200.00 made to Flora Candiani for Parcel #10 on Route #1 Extension, had been accepted and he recommended purchase. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the purchase of Parcel #10, Route #1 Extension at Jersey City, from Flora Candiani for the consideration of $2,200.00.

Right of Way, Route #1 Extension

State Highway Engineer Sloan reported that an offer of $35,000 made to Mayer Klusner for Parcel #26 on Route #1 Extension had been accepted and he recommended the purchase and that condemnation proceedings be withdrawn. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the purchase of Parcel #26 on Route #1 Extension, from Mayer Klusner for the consideration of $35,000.00 and that condemnation proceedings as instituted be dropped.

State Highway Engineer Sloan took this opportunity to bring up the matter of securing the vacation of property by lessees and tenants. He advised that he had received information to the effect that it would be necessary to give tenants three months notice for moving unless some other arrangements could be made. In this connection a cash payment was made tenants in Camden, which resulted in giving the property to the State forthwith. Judge Sullivan informed the Commission that this matter could be handled where property was required immediately, by making the tenants parties to condemnation and upon the filing of proceedings the Commission can enter upon the property. After further discussion Commissioner Stewart moved that in all condemnations involving lessees and tenants that the lessees and the tenants be made parties to the condemnation proceedings in the event they are unwilling to vacate the premises upon the demand of the Right of Way Department, and where negotiations can be arranged for the vacation of tenants upon the payment of a small amount, the State Highway Engineer be authorized to make such settlements subject to approval of Commissioner Jelin and the ratification of the Commission at a subsequent meeting. This was seconded by Mr. Kidde and adopted.

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission next recessed for lunch at 1:30 P.M., to meet in regular session again at 2:30 P.M. The meeting was reconvened at 2:30 P.M., with the same members present as at the morning session.

Entrance Road, Sec. 1 Camden

The Secretary advised that a hearing had been requested by Mr. A. V. Barrett, Secretary of the New Jersey Constructors Association, concerning the receipt of bids for Section 1 of the

Camden Extension. In this connection State Highway Engineer Sloan informed the Commission that he had received assurances from the City Commission of Camden that the widening of Penn and Linden Streets would be proceeded with in a reasonable time and that there was no intention not to comply with the terms of the contract as entered into between the City and the State. Commissioner Kidde advised that he had spoken by telephone with Commissioner Middleton of Camden and he had been assured that the work of widening Penn and Linden Streets in Camden would be proceeded with as soon as possible and completed before the end of two years.

On motion, duly seconded, a hearing was granted to Mr. Barrett at this time. Mr. Barrett appeared together with Mr. Canuso of the Acchione & Canuso Contracting Company of Philadelphia. There were also present representatives of the McLean Contracting Company, low bidders on the Camden Extension work, Section #1.

Mr. Barrett informed the Commission that he appeared to make a rather unique plea for the Acchione & Canuso Company in that by an act of misfortune this company was prevented from bringing a bid to the State Highway Commission at the proper time on the Camden Extension, and he outlined the difficulties encountered in a trip from Philadelphia to Trenton by automobile in bringing this bid to Trenton, which reached the office twelve minutes after the time set for the closing of the bids. He advised that the Company had not yet tampered with the bid and was ready to submit the same and he understood that the price bid was lower than that submitted by the lowest bidder.

Acting Chairman Jelin advised that the State Highway Commission must consider all contractors on a fair basis and it would be entirely possible for any contractor to make a claim concerning a bid after the low bids were read, and thereby it would involve the State Highway Commission to such an extent that the confidence of the contractors would be lost in State Highway work.

Mr. Canuso stated that he would be interested in bidding again if the Commission would readvertise the work. Commissioner Stewart called attention to the fact that there were written terms under which the bidding was held and the opportunity was given to all contractors to present their proposals at a definite time, and it would be entirely unfair to other contractors to admit any bids at a later time.

State Highway Engineer Sloan at this time presented the following bids received on August 3rd for the construction of Entrance Road, Section #1 Camden and the Federal Street Elevation and recommended that award of contract be made to the McLean Contracting Company, low bidder, at their bid of $520,348.63.

McLean Contracting Company	$	520.348.63
Fish-Rutherford, Inc.		520,389.07
Michael Staub & Kolyn Const. Co..........		525,514.41
Mazzola & Marino		542,331.62
McNichol Paving Co.		554,649.89

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Entrance Road, Section #1, Camden Extension, from Eleventh St. to the Cooper River and the elevation of Federal Street, to McLean Contracting Company, at their's the lowest bid received in the sum of $520,348.63, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

In connection with this award Acting Chairman Jelin informed the McLean Contracting Company representatives that the State Highway Commission has no personal interest in any way concerning the bond to be furnished on this work since he had received advice that several bonding companies were endeavoring to solicit the business on a statement that they could be of influence with the Commission.

Route #1 Extension, Jersey City

State Highway Engineer Sloan presented a memorandum from Construction Engineer Lavis advising that Mr. T. J. Wasser, Engineer for the Public Service Production Company, contractors on the first section of Route #1 Extension work in Jersey City, was arranging a celebration upon the commencement of his work and desired the Commission as his guests on Monday, August 10th at Jersey City. Commissioner Stewart moved that the memorandum be received and that advice be forwarded to Mr. Wasser that the Commission will be glad to arrange for such representation on August 10th as was convenient. This was seconded by Mr. Kidde and adopted.

Right of Way, Route #1 Extension

State Highway Engineer Slaon reported at this time that difficulty was being encountered in reaching a settlement with the Erie Railroad Company for the construction of the viaduct over their railroad yards, and he advised that the Engineer for the Erie Railroad Company had made request for longer spans in the viaduct and their requests have become unreasonable, so that he was prepared to recommend that unless an agreement is possible within a reasonable time, the Commission insist upon the arbitration clause in the contract for the settlement of this difficulty and that the Commission should stand upon its original scheme in such arbitration. Following a discussion of this matter, Commissioner Kidde moved that further negotiations be undertaken with the Erie Railroad Company for the viaduct location over their yards, and in the event an agreement cannot be reached on or before August 8th, the Commission does, on that date, authorize that a demand be made for arbitration under the terms of the contract entered into and the State Highway Engineer is authorized to act as representative of the State Highway Commission in these arbitration proceedings, and he is instructed to agree with the representative of the Erie Railroad Company upon a third suitable arbiter in order that the arbitration can be carried through and the work proceeded with. This was seconded by Mr. Stewart and adopted.

Route #5, Blackwell St., Dover

The Secretary presented a communication from the Morris County Board of Freeholders advising of their willingness to accept a section of Blackwell Street, Dover, on Route #5, as soon as the same has been abandoned by the State Highway Commission. Commissioner Kidde, therefore moved the adoption of the following resolution of abandonment of a section of State Highway Route #5 through Blackwell Street, Dover, and giving expression of intention to construct a new line for Route #5 at that point:

> WHEREAS, it is the purpose and intention of the State Highway Commission to establish a new

alignment for State Highway Route #5 through the Town of Dover, running approximately as follows:

From a point on the present State Highway Route 5 near the Pierson property, on right of way to be acquired, to an intersection with Mac Farland St., thence, on and along MacFarland Street to the intersection of MacFarland Street and Sussex Avenue; and

WHEREAS, the plans are now being prepared covering the definite location of the above mentioned realignment,

NOW THEREFORE, BE IT RESOLVED that the State Highway Commission does hereby abandon in accordance with the provisions of the statute thereunto appertaining that part of the present State Highway Route #5 in the Town of Dover on what is known as Blackwell Street from the Viaduct over the Lackawanna Railroad near the junction of Prospect Street and Blackwell Street, and running thence, in a general northeasterly direction to the White Bridge over the Rockaway River, a distance of approximately four thousand (4000) feet, and

BE IT FURTHER RESOLVED that a copy of this resolution be certified to the Board of Freeholders of the County of Morris, and to the Mayor and Board of Aldermen of the Town of Dover.

Grade Crossing, Route 10

The Secretary presented a communication from the Board of Freeholders of Bergen County, requesting the State Highway Commission to take steps for the abandonment of a grade crossing on Route #10 at Ridgefield Park, due to delays in traffic and dangers existing on this crossing. On motion by Mr. Kidde, seconded by Mr. Stewart, the communication and resolution were ordered received and placed on file and a petition was directed to be forwarded to the Public Utility Commissioners for the elimination of the grade crossing over the Tracks of the West Shore Railroad and the New York, Susquehanna & Western Railroad at Ridgefield Park on Route 10.

Route #8, Mountain View

The Secretary presented a communication from N. A. K. Bugbee, State Comptroller, requesting the return to his Department of a check issued to the United Building and Construction Company for work performed on State Highway Route #8 at Mountain View, in order that the same disposal might be made of this check as of others to the company, namely, the execution of the Sheriff's writ upon the same. The Secretary advised that this matter had been before the Commission at the last meeting and involved a stop-notice from the bondsmen for this company, asking that all checks be forwarded to them. He also informed the Commission that the Comptroller's office had advised that they had verbal information from the Attorney General's office that a check can be recalled to that office at any time up to its delivery to the payee. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that an opinion be received in writing from the Attorney General in accordance with the statement of the Secretary and upon receipt of this, the check will be returned to the Comptroller.

Union Labor on State Highways

The Secretary presented a communication from Mr. T. M. Brandle, President of the New Jersey Building Trade Association, calling attention to the fact that non-union laborers are being employed by contractors on several State Highway jobs and suggesting a means whereby this could be eliminated by the inclusion of a special clause in the State Highway contracts. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission ordered the communication received and placed on file.

Right of Way, Flemington-Ringoes Road

The Secretary presented a communication from the Board of Freeholders of Hunterdon County, advising that settlement has been made with Benny Iurio for property on the Ringoes-Flemington Road, in an amount of $150.00. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of reimbursement to Hunterdon County in the amount of $150.00 for right of way purchased from Benny Iurio on the Ringoes-Flemington Road, as being constructed by the County of Hunterdon, with State aid.

Maps, State Highway

The Secretary presented a communication from Commissioner Burdette Lewis of the Department of Institutions & Agencies, suggesting that the State Highway map include the location of the various state institutions. On motion by Mr. Kidde, seconded by Mr. Stewart, the communication was ordered referred to the State Highway Engineer for consideration and disposition.

Route #4, Bradley Beach

The Secretary presented a communication from the Board of Commissioners of Bradley Beach calling attention to the fact that Route #4, Main Street through Bradley Beach is "fast deteriorating" and requesting that an amount be included in the budget, now being prepared, for resurfacing this section. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that this communication be referred to the Maintenance Department for investigation and report.

Rights of Way, Routes #2 and #7

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the payment of the following invoices for appraisals and testimony on State Highway Rights of Way:

W. M. Dickinson Company, Route #2, Patrick Martin Estate and Heiser property	$150.00
Charles V. DuBois, property on Route #7, Sec. #5,	$25.00
Samuel A. Lockwood, property on Route #7, Sec. #5,	20.00

Hackensack and Passaic River Bridges

Commissioner Kidde at this time reported that in company with the State Highway Engineer and with Assistant Construction Engineer Lavis, he had interviewed Col. Deakyne of the War Department, at New York, in order to more fully develop the plans for bridges over the Hackensack and Passaic Rivers on Route #1 Extension. He informed the Commission that Col. Deakyne was interested in determining how the number of bridges across the rivers could be minimized and made several suggestions regarding crossings over the rivers and asked that the conference be continued in two or three weeks when these suggestions have been digested more fully.

Accidents, Keyport

The Secretary presented a communication from the Borough Clerk of Keyport advising of an accident occuring at the intersection of Maple Place and Broad Street and calling attention to a letter forwarded by its Attorney at the time the Commission refused the Borough permission to install a signal at this point, and which stated that in the event of accidents the State Highway Commission would be held responsible for the same.

Commissioner Stewart moved that this communication be acknowledged and that they be advised that at the time the matter of their signal was presented by the Borough, the State Highway Commission presented a very simple solution of the danger existing at the intersection of Maple Place and Broad Street which would render that section reasonably safe from accidents in the future in which plan the borough refused to cooperate, and for that reason the State Highway Commission cannot accept any responsibility for accidents at this particular place and, in addition, the Commission is, at the present time, working on plans for better alignment through the Borough of Keyport. This was seconded by Mr. Kidde and adopted.

Route #9, Whitehouse-Lebanon

State Highway Engineer Sloan directed the attention of the Commission to the fact that the work of the inmate labor on Route #4 at Toms River, is drawing to a close and he would recommend that negotiations be entered into with the Department of Institutions & Agencies whereby they would undertake the construction of Route #9 between Whitehouse and Lebanon in Hunterdon County. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of negotiations being undertaken looking toward the improvement of the Whitehouse-Lebanon Road by the Department of Institutions & Agencies and directed that plans and specifications be prepared for this work and formal contract be presented for approval.

The schedule of business was next taken up for consideration item by item as follows, with the recommendations of the State Highway Engineer:

Route #11, Section #8.Kingsland Road

On motion, duly seconded, the completed work on Route #11 Section #8 Kingsland Road, Nutley, was referred to Commissioner Kidde for final inspection prior to acceptance.

August 4, 1925

Bridge, Route #4, Section #30

There was reported the completion of plans and specifications for the Westecunk Creek Bridge on Route #4, Section #30 at M. P. 22.8, and recommendation was made for advertisement. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of a Bridge over Westecunk Creek on Route #4, Section #30, at M.P. 22.8, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement for the work after approval by the State Highway Engineer.

Route #9, Section #15A, Cranford

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of an agreement as presented to be entered into with the Township of Cranford for extra work to be performed on the improvement of Route #9, Section #15A, through Cranford, at the expense of the Township.

Right of Way, Route #4

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase of Parcels #25 and #25A on Route #4, Section #33, Perth Amboy Bridge Cut-off from Henry Maurer and Son for the consideration of $10,000.00.

Right of Way, Route #7

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the purchase of the following parcels of property on Route #7, Section #5, Jerseyville-Freehold, with a letter of thanks to William Bergen for conveyance at a nominal sum.

Parcel	Name	Consideration
2	William Bergen et ux	$ 1.00
39 - 39-A	Jennie R. Sparks	140.00
30 - 40-A	Tunnis Denise, et als	3,104.00

Right of Way, Route #4

State Highway Engineer Sloan presented to the Commission a purchase agreement signed by Frank R. and Grace E. Valentine for Parcel #2 on Route #4, Section #32, Rahway-Perth Amboy section in an amount of $5,500.00. He advised the Commission that this covered the property of Mr. Valentine at Woodbridge. Commissioner Jelin reported having inspected the place and recommended that the payment be made. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the purchase of Parcel #2 on Route #4, Section #32, from Frank R. and Grace E. Valentine for the consideration of $5,500.00.

State Highway Engineer Sloan reported that an offer of $5,500.00 for Parcel #26 on Route #4, Section #32, had been refused by the owners George and Helen Degler, and he recommended condemnation proceedings. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of an offer of $5,500.00 to George and Helen Degler for Parcel #26 on Route #4, Section #32, and in the event of refusal to accept that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route No. 4, Sec. #32, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

BEGINNING at a point formed by the intersection of the dividing line between lands of grantor herein on the North and lands now or formerly of James T. Bedman Estate on the South, with the proposed westerly right-of-way line of State Highway Route #4, between Perth Amboy and Rahway, distant thirty-three (33) feet normally from the proposed center line of said State Highway at Station 157 plus 42.21, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route #4, Section 32, Perth Amboy - Rahway, Property to be acquired from George Degler, Woodbridge Township, Middlesex County, Scale: 1" equals 50', November, 1924"; and running;

Thence (1) along said proposed westerly right-of-way line, parallel to and thirty-three (33) feet distant from said proposed center line, North eight degrees, three minutes and thirty seconds West (N8° -03'-30"W), a distance of one hundred six and ninety-three one hundredths (106.93) feet to a point in the dividing line between lands of grantor herein on the South and lands now or formerly of Samuel B. Brown on the North; Thence (2) along said dividing line, South, seventy-seven degrees and eighteen minutes East (S77° -18'E), a distance of seventy and fifty-eight one-hundredths (70.58) feet to a point in the proposed easterly right-of-way line of aforesaid State Highway, said point being distant thirty-three (33) feet normally from said proposed center line at Station 158 plus 24.13, said point also being distant eighty-three and three one-hundredths (83.03) feet from the existing westerly side line of St. George's Road, measured along said dividing line; Thence (3) along said proposed easterly right of way line, parallel to and thirty-three (33) feet distant from said proposed center line, South eight degrees, three minutes and thirty seconds East (S8° -03' - 30"E), a distance of one hundred six and ninety-three one-hundredths (106.93) feet to a point in the aforesaid dividing line between lands of grantor herein on the North and lands now or formerly of James T. Bedman Estate on the South, said point being distant forty-six and ninety-two one-hundredths (46.92) feet from the existing westerly side line of St. George's Road measured along said dividing line; Thence (4) along said dividing line, North seventy-seven degrees and eighteen minutes West (N 77° - 18' W)a distance of seventy and fifty-eight one-hundredths (70.58) feet to the point and place of Beginning;

CONTAINING one hundred sixty-two one-thousandths (0.162) of an acre, be the same more or less;

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the proposed right of way lines thirty-three (33) feet each side of the proposed center line of said State Highway, extending from lands now or formerly of James T. Bedman on the South to lands now or formerly of Samuel S. Brown on the North, as shown on said plan hereto attached.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $5,500.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to a ccept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

State Highway Engineer Sloan reported that M. D. Valentine & Brothers, owners of Parcel #24 on Route #4, Section #33, had demanded $6,000.00 whereas the value in accordance with the standard price fixed for property in this locality was $1,236.90. On motion by Mr. Kidde, seconded by Mr. Stewart, further consideration on this parcel was deferred until additional investigation could be made.

Right of Way, Connecting Road,
Camden

State Highway Engineer Sloan reported that the owner of Parcel #66 on the Connecting Road, Section #3 at Camden Extension, could not be located and he recommended that an offer of $100.00 be made and that the property be condemned. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved an offer of $100.00 to Walter J. Smith, et als, for Parcel #66 on Section #3 of the Connecting Road Camden Extension and in the event of refusal to accept that the property be acquired by condemnation in accordance with the following resolution:

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route, Section #3, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Thence (1) along said westerly line of Chandlers Ave., south thirty-three degrees twenty seconds west (S33-00'-20"W) to the northwesterly line of Front St.; Thence (2) along said line of Front St., south seventy degrees fifty-nine minutes twenty-three seconds west (S70-59'-23"W) sixty-four and seventy-five hundredths (64.75) feet to an angle in same; Thence (3) still along the same sixty-nine degrees, twenty-four minutes seven seconds west (N 69°-24'-07"W) ten and twenty-five hundredths (10.25) feet to the line between lands of grantor and James Ruck; Thence (4) along said dividing line north thirty-three degrees, twenty seconds east (N33-00'-20"E) sixteen and two hundredths (16.02) feet to the northerly right of way line of the proposed Connecting Road; Thence (5) along said northerly right of way line concentric with and forty (40) feet distant radially from the proposed center line of said highway, curving to the right with a radius of three hundred forty (340) feet a distance of four and eleven hundredths (4.11) feet measured along the arc of the curve, with a chord bearing north sixty degrees thirty-two minutes three seconds (N 60-32'-03"E) four and eleven hundredths (4.11) feet to a point of tangency; Thence (6) still along the same parallel with and forty (40) feet distant from the said proposed center line, north sixty degrees fifty-two minutes fifty seconds east (N 60-52'-50"E) sixty-four (64) feet to the dividing line between lands of grantor and Charles Durachansky; Thence (7) along said dividing line south fifty-six degrees, fifty-nine minutes, forty seconds east (S56-59'-40"E) eighteen and four hundredths (18.04) feet to the place of beginning;

CONTAINING seventeen hundred twenty-nine (1729) sq. ft. be the same more or less;

INTENDING TO CONVEY that part of lot number twenty-six (26) black H on the plan of the First Addition to Highland recorded in the office of the Register of Deeds of Camden County, that lies between the right of way lines of the proposed Connecting Road;

TOGETHER WITH the right to form and maintain slopes over adjacent lands of grantor; said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of adjacent lands from the level of said highway; the grantor hereby retaining the right to use such land providing such use does not interfere with said slopes or endanger said highway.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $100.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Route #9, Sec. #15A, Cranford

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the acceptance of a proposition from the Newark Wrecking Company for the wrecking and removal of buildings on Route #9, Section #15A at Cranford, at an expense to the State of $100.00, all in accordance with an agreement to be entered into.

Riparian Grants, Connecting Road,
Camden

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the acceptance of riparian rights from the Board of Commerce & Navigation on the Connecting Road, Camden, Section #3, over Cooper River, at the rate of $3.00 a front foot for frontage taken on each side of the waterway, plus $1.00 additional for crossing rights.

Lighting, Route #10, Sec. #1A

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the transfer of ownership of the electric lights now existing on Route #10, Section #1 in the name of the Public Service Gas and Electric Company in accordance with the report of the Superintendent of Maintenance as to the disposition of this light service following the decision of the State Highway Commission not to light on Route #10 in those sections under the control of the local municipalities.

Route #4, West Creek

There were presented petitions signed by a large majority of the residents of West Creek on Route #4, requesting the State Highway Commission to grade Route #4, through West Creek to a width of 40' even though the same may involve the removal of trees to other parts of the highway. State Highway Engineer Sloan recommended to the Commission that the desire of the petitioners be complied with. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer and authorized the width of Route #4 through West Creek to be established at 40 feet as per the original plans of this section.

Employments

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the following additions, changes and increases as made in the employments by the State Highway Engineer since the last meeting of the Commission:

Employed

8/4/25	W. C. Crossley,	Rodman,	$90.00	per	month

Sparta-Woodport Road,
Sussex County Motor Vehicle Aid

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved plans and specifications for the Sparta-Woodport Road, Section #2, Sussex County Motor Vehicle Aid work, subject to the approval of the State Highway Engineer.

Belleville Tpk.,
Motor Vehicle Aid, Hudson County

On motion by Mr. Kidde. seconded by Mr. Stewart, the State Highway Commission approved plans and specifications for the Belleville Turnpike, Hudson County, Motor Vehicle Aid work.

Township Aid, Ocean County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved plans and specifications for Park Avenue, Lakewood Township, Ocean County, Township Aid work.

Right of Way, Route #4

Commissioner Jelin reported that he had investigated a number of parcels of property on Route #4, Section #32 between Rahway and Perth Amboy, as referred to him at a previous meeting and he would report as follows:

In the property of Michlos Szurma and Wife on Route #4, Section #32, Parcel #7, this involves practically four properties and he would recommend the approval of the amount as agreed upon with Mr. Szurma, namely, $18,956.20. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the payment of $18,956.20 to Michlos Szurma and Wife for Parcel #7 on Route #4, Section #32.

Commissioner Jelin recommended the payment of $2,500.00 to Frank Dorsey for Parcel #1 on Route #4, Section #32. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the payment of $2,500.00 to Frank Dorsey for Parcel #1 on Route #4, Section #32.

August 4, 1925.

Commissioner Jelin recommended the payment of $2,580.00 for the property of William R. and Mary Price, known as Parcel #28 on Route #4, Section #32. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the payment of $2,580.00 to William R. and Mary Price for Parcel #28 on Route #4, Section #32.

Commissioner Jelin recommended the payment of $1,900.00 for Parcel #29 from Joseph and Thora McEwen on Route #4, Section #32. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the payment of $1,900.00 to Joseph and Thora McEwen for Parcel #29 on Route #4, Section #32.

Commissioner Jelin reported that in the case of Joseph McEwen and Walter Quackenbush he was prepared to recommend an offer of $1,344.50 as against their claim of $2,750.00, and in the event of refusal that condemnation proceedings be entered into. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved an offer of $1,344.50 to Joseph McEwen and Walter Quackenbush for Parcels #27A and #27B on Route #4, Section #32, and in the event of refusal that the property be acquired by condemnation in accordance with the following resolution:

> RESOLVED that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #4, Sec. #32, ALL that certain lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #27A

BEGINNING at a point formed by the intersection of the dividing line between lands of grantor herein on the North and lands now or formerly of George Degler on the South, with the proposed westerly right-of-way line of State Highway Route #4, between Perth Amboy and Rahway, distant thirty-three (33) feet normally from said proposed center line at Station 158 plus 49.15, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route #4, Section #32, Perth Amboy - Rahway, Property to be acquired from Samuel B. Brown, Woodbridge Township, Middlesex County, Scale: 1" equals 50', November 1924"; and running:

Thence (1) along said proposed westerly right-of-way line, parallel to and thirty-three (33) feet distant from said proposed center line, North eight degrees, three minutes and thirty seconds West (N8°-03'-30"W), a distance of three hundred seventy-one and seventy-three one-hundredths (371.73) feet to a point in the dividing line between lands of grantor herein and lands now or formerly of William R. Price on the North; Thence (2) along said dividing line, South seventy-six degrees and seventeen minutes East (S76°-17'E), a distance of seventy-one and seven one-hundredths (71.07) feet to a point in the proposed easterly right-of-way line of said State Highway said point being thirty-three (33) feet distant normally from said proposed center line at Station 161 plus 94.52, said point also being distant two hundred eight and two-tenths (208.20) feet from the existing westerly side line of St. George's Road, measured along said dividing line; Thence (3) along said proposed easterly right-of-way line, parallel to and thirty-three (33) feet distant from said proposed center line, South eight degrees, three minutes and thirty seconds East (S 8°-03'-30"E), a distance of three hundred seventy and thirty-nine one-hundredths (370.39) feet to a point in the aforesaid dividing line between lands of grantor herein on the North and lands now or formerly of George Degler on the South, said point being distant eighty-three and three one-hundredths (83.03) feet from the existing westerly side line of St. George's Road, measured along said dividing line; Thence (4)along said dividing line, North seventy-seven degrees and eighteen minutes West (N77°-18'W), a distance of seventy and fifty-eight one-hundredths (70.58) feet to the point and place of beginning;

CONTAINING five hundred sixty-two one-thousandths (0.562) of an acre, be the same more or less;

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the proposed right-of-way lines, thirty-three (33) feet each side of the proposed center line of aforesaid State Highway, extending from lands now or formerly of George Degler on the South to lands now or formerly of William R. Price on the North, as shown on said plan hereto attached;

TOGETHER WITH Parcel #27-B described as follows:

Parcel #27B

BEGINNING at a point formed by the intersection of the dividing line between lands of grantor herein on the West and lands now or formerly of Joseph McEwen on the East, with the proposed westerly right-of-way line of State Highway Route #4, between Perth Amboy and Rahway, distant thirty-three (33) feet normally from the proposed center line of said State Highway at Station 165 plus 22.96, as shown on said plan hereto attached, and running;

Thence (1) along said proposed westerly right of way line, parallel to and thirty-three (33) feet distant from said proposed center line North eight degrees, three minutes and thirty seconds West (N8°-03'-30"W), a distance of twenty-four and five one-hundredths (24.05) feet to a point in the dividing line between lands of grantor herein on the Southwest and lands now or formerly of Mary Tunison on the Northeast: Thence (2) along said dividing line, South forty degrees, four minutes and thirty-seconds East (S40°-4'-30"E), a distance of ten and five one-hundredths (10.05) feet to a point where the dividing line between lands of grantor herein and lands of Mary Tunison the dividing line between lands of grantor herein and lands of Joseph McEwen, and the dividing line between lands of Joseph McEwen and lands of Mary Tunison, meet; Thence (3) along said dividing line between lands of grantor herein and lands of Joseph McEwen, South ten degrees and fifty-four minutes West (S10°-54'W) a distance of sixteen and forty-one one-hundredths (16.41) feet to the point and place of beginning;

CONTAINING one one-thousandth (0.001) of an acre, be the same more or less;

INTENDING TO convey all that land now owned or controlled by theparty of the first part that lies between the proposed right-of-way lines thirty-three (33) feet each side of the proposed center line of aforesaid State Highway, extending from lands now or formerly of Joseph McEwen on the South to lands now or formerly of Mary Tunison on the North, as shown on said plan hereto attached.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $1,344.50 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Commissioner Jelin reported that he was prepared to recommend an offer of $6,500.00 to Anna Dunn for Parcel #31 on Route #4, Section #32 and in the event of refusal to accept that condemnation proceedings be instituted. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved an offer of $6,500.00 to Anna Dunn for Parcel #31 on Route #4, Section #32 and in the event of refusal to accept that the property be acquired by condemnation in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #4, Section #32, ALL that certain tract, parcel or lot of land and premises situate, lying and being in the State of New Jersey and more particularly described as follows:

BEGINNING at a point formed by the intersection of the dividing line between lands of grantor herein on the North and lands now or formerly of Mary Tunison on the South, with the proposed Westerly right-of-way line of State Highway Route #4, between Perth Amboy and Rahway, distant thirty-three (33) feet normally from the proposed center line of said State Highway at Station 167 plus 73.65, as shown on plan hereto attached, entitled "New Jersey State Highway Department, Route 4, Section32, Perth Amboy - Rahway, property to be acquired from Anna Dunn, Woodbridge Township, Middlesex County, Scale: 1" equals 50', Nov. 1924"; and running;

Thence (1) along said proposed westerly right-of-way line, parallel to and thirty-three (33) feet distant from said proposed center line, North eight degrees, three minutes and thirty seconds West (N8°-03'-30"W), a distance of ninety-six and seventy-five one hundredths (96.75) feet to a point in the dividing line between lands of grantor herein on the South and lands now or formerly of Jacob Schwenzer Estate on the North: Thence (2) along said dividing line, North seventy-two degrees, thirty-seven minutes and thirty seconds East (N72°-37'-30"E), a distance of sixty-six and eighty-eight one-hundredths (66.88) feet to a point in the proposed easterly right-of-way line of aforesaid State Highway, said point being distant thirty-three (33) feet normally from said proposed center line at Station 168 plus 81.22, said point also being distant fifty-eight and thirty-eight (58.38) one-hundredths feet from the existing southwesterly side line of St. George's Road, measured along said dividing line;

Thence (3) along said proposed easterly right-of-way line, parallel to and thirty-three (33) feet distant from said proposed center line, South eight degrees, three minutes and thirty seconds East (S8°-03'-30"E), a distance of ninety-six and seventy-five one-hundredths (96.75) feet to a point in the aforesaid dividing line between lands of grantor herein on the North and lands now or formerly of Mary Tunison on the South, said point being distant one hundred three and eight-tenths (103.80) feet from the existing southwesterly side line of St. George's Road; Thence (4) along said dividing line, South seventy-two degrees, thirty-seven minutes and thirty seconds West (S72°-37'-30"W), a distance of sixty-six and eighty-eight one-hundredths (66.88) feet to the point and place of beginning;

August 4, 1925.

CONTAINING one hundred forty-seven one-thousandths (0.147) of an acre, be the same more or less;

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the proposed right-of-way lines, thirty-three (33) feet each side of the proposed center line of said State Highway, extending from lands now or formerly of Mary Tunison on the South to lands now or formerly of Jacob Schwenzer Estate on the North, as shown on said plan hereto attached;

TOGETHER WITH the right to enter upon, construct, form and maintain slopes over other lands of grantor adjacent to the lines hereinabove described and extending to lines distant forty-five (45) feet each side of the aforesaid center line and parallel thereto from Station 167 plus 73.65 to Station 168 plus 81.22 as shown on said plan hereto attached, said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of the adjacent lands from the level of said highways; the grantor hereby retaining the right ot use such land providing such use does not interfere with said slopes or endanger said highway;

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $6,500.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then, the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Commissioner Jelin reported that he was prepared to recommend an offer of $5,500.00 to William C. and Mary E. Danner (formerly Mary Tunison) for Parcel #30 on Route #4, Section #32 as against their request of $8,470.00, and in the event of refusal to accept that condemnation proceedings be instituted. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved an offer of $5,500.00 to William C. and Mary Danner for Parcel #30 on Route #4, Section #32 and in the event of failure to accept that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route No. 4, Sec. #32, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #30

BEGINNING at a point formed by the intersection of the dividing line between lands of grantor herein on the North and lands now or formerly of Joseph McEwen on the South, the dividing lines between lands of grantor herein on the North and lands now or formerly of Samuel B. Brown on the South, and the dividing line between lands now or formerly of Samuel B. Brown on the West and lands now or formerly of Joseph McEwen on the East, said point being distant twenty-seven and sixty-seven one-hundredths (27.67) feet normally from the proposed center line of State Highway Route #4, between Perth Amboy and Rahway at station 165 plus 38.48, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route #4, Sec. 32, Perth Amboy-Rahway, property to be acquired from Mary Tunison, Woodbridge Township, Middlesex County, Scale: 1" equals 50', Nov. 1924"; and running;

Thence (1) along said dividing line between lands of the grantor herein and lands now or formerly of Samuel B. Brown, as aforesaid, North forty-degrees, four minutes and thirty seconds West (N 40°-04'-30"W), a distance of ten and five one-hundredths (10.05) feet to a point in the proposed westerly right of way line of said State Highway, said point being distant thirty-three (33) feet normally from the proposed center line at Station 165 plus 47.01, as shown on said plan hereto attached; Thence (2) along said proposed westerly right of way line, parallel to and thirty-three (33) feet distant from said proposed center line, North eight degrees, three minutes and thirty seconds West (N 8°-03'-30"W), a distance of two hundred twenty-six and sixty-four one-hundredths (226.64) feet to a point in the dividing line between lands of grantor herein on the South and lands now or formerly of Anna Dunn on the North; Thence (3) along said dividing line, North seventy-two degrees, thirty-seven minutes and thirty seconds East (N72°-37'-30"E), a distance of sixty-six and eighty-eight one-hundredths (66.88) feet to a point in the proposed easterly right-of-way line of aforesaid State Highway, distant thirty-three (33) feet normally from said proposed center line at Station 167 plus 84.47, as shown on said plan hereto attached: Thence (4) along said proposed easterly right-of-way line, parallel to and thirty-three (33) feet distant from said proposed center line, South eight degrees, three minutes and thirty seconds East (S8°-03'-30"E), a distance of two hundred twenty-six and eight one-hundredths (226.08) feet to a point in the aforesaid dividing line between lands of grantor herein on the North and lands now or formerly of Joseph McEwen on the South; Thence (5) along said dividing line, South sixty-three degrees and forty-six minutes West (S63°-46'W), a distance of sixty-three and eighty-five one-hundredths (63.85) feet to the point and place of beginning;

CONTAINING thirty-five one-hundredths (0.35) of an acre, be the same more or less;

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the proposed right-of-way lines, thirty-three (33) feet each side of the proposed center line, extending from lands now or formerly of Joseph McEwen on the South to lands now or formerly of Anna Dunn on the North, as shown on said plan hereto attached:

TOGETHER WITH the right to enter upon, construct, form and maintain slopes over other lands of grantor adjacent to the lines hereinabove described and extending to lines distant fifty (50) feet each side of the aforesaid center line and parallel thereto from Station 165 plus 38.48 to Station 167 plus 84.47 as shown on said plan hereto attached, said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of the adjacent lands from the level of said highway; the grantor hereby retaining the right to use such land providing such use does not interfere with said slopes or endanger said highway.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission to make an offer of the sum of $5,500.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute

condemnation proceedings for the acquisition of said lands and premises.

Maintenance Materials

Cumberland County Repairs

State Highway Engineer Sloan reported to the Commission the receipt of bids by Cumberland County after readvertisement for SCO and sand covering, that these had resulted in a saving to the County of approximately $13,000.00. and he recommended that approval of award of contract by the County for this material be made. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the award of contract in accordance with bids received after readvertisement for SCO and sand covering on Cumberland County repairs.

On motion by Mr. Kidde, seconded by Mr. Stewart, the meeting was adjourned at 5:00., to meet at the call of the Chairman.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - August 18, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, on Tuesday, August 18, 1925. The meeting was called to order at 11:00 A.M. by Acting Chairman Jelin.

Present:	Acting Chairman Jelin; Messrs. Percy H. Stewart and Walter Kidde.
Absent:	Gen. H. L. Scott, on trip to the West.

Route 8,

Encroachments, Boro of Riverdale

The Secretary informed the Commission that Mr. J. W. DeYoe, Counsel for the Borough of Riverdale was present and desired a hearing and on motion, duly seconded a hearing was granted. Mr. DeYoe stated that he appeared on behalf of the Borough of Riverdale in connection with construction of sidewalks through the Borough. He stated that the Borough had requested the approval of the Commission to the plans for these sidewalks but this approval had not been granted, due to the fact that they did not provide for a forty foot width of pavement from curb to curb. He informed the Commission that they did not see how they could proceed to obtain the necessary right in order to construct the sidewalks in such a manner as to permit of this forty foot width and requested that the Commission approve of a lesser width of roadway through the Borough. After a further discussion of the matter, Mr. DeYoe was informed that the providing of a forty foot roadway was being required all over the State and they could not approve of a lesser width for any locality.

Route 4-

Detour, Borough of Metuchen

The Secretary presented a communication from Mr. William P. Liddle, Street Commissioner of the Borough of Metuchen, requesting that the Commission give some aid in the direction of traffic through Metuchen which was very congested due to the detour which had been established. On motion by Mr. Kidde, seconded by Mr. Stewart, this request was ordered referred to the State Police with the request that they give as much aid as possible to the Borough of Metuchen in the direction of this traffic.

Request for Aid, Middlesex County

Mr. Buchanan, Assistant County Engineer, appeared on behalf of the Board of Freeholders of Middlesex, and requested that the Commission give some aid to the county in repair of the Woodbridge-Iselin-Oak Tree Road, which they claimed had been damaged by use as a detour for two days. On motion by Mr. Kidde, seconded by Mr. Stewart, the request of Middlesex County was denied.

Right of Way, Route #1 Extension

The Secretary presented a communication from Mark Townsend, Jr., attorney for Everett W. Cox Company, with further reference to the condemnation proceedings which were already under way in connection with the property of the Everett W. Cox Company. He advised that Mr. Cox, together with Mr. Sleigh representing Mr. Townsend were present and on motion duly seconded, they were granted a hearing. Mr. Sleigh stated that they had discovered that if the original plan of the Commission was not adhered to and the cut through Underwood Place was not covered, it would leave the property of Mr. Cox without means of entrance, which would practically destroy the value of his property. He further stated that they find that there will be an unused space of about nine feet between the building line and the retaining wall of the highway, and suggested that the Commission widen this space to a width of twenty feet and pave the same, which would provide them with an entrance to their building and at the same time provide the City of Jersey City with a street which they believed would be satisfactory to all parties. Mr. Stewart felt if the Commission should approve this it might at some time prevent the placing of a cover over the cut and he believed it was the feeling of the Commission that they should not take any action which might cause such a result. State Highway Engineer Sloan stated that the City of Jersey City had already been communicated with in reference to the proposition, and Mr. Cox was informed that no further action could be taken until some advice was received from the city but that the Commission would be glad to take this matter up with him again as soon as they hear from the City of Jersey City.

Route #4, Perth Amboy Cut-Off

The Secretary informed the Commission that Mr. Wilentz, City Attorney of Perth Amboy, together with Mr. Chapman, the contractor on the Perth Amboy Cut-off was present and desired a hearing which was granted on motion duly made and seconded. Mr. Wilentz stated that they appeared with reference to a restraining order that had been obtained by Mr. Cutter against the contractor. He stated that he felt the City would be willing to proceed with the condemnation proceedings at once but they did not have the same rights as the State for entering on the property. Mr. Chapman stated that they had their equipment on the job and were all ready to go ahead and that such a delay would prove to be very costly to them and asked if there were not some way in which this restraining order could be set aside. Mr. Jelin stated that he believed the matter could be settled and suggested that Mr. Chapman meet him in Perth Amboy the next day in order to go with him to see Mr. Cutter with reference to a settlement.

Rejection of Plans - Monmouth County - ~~General~~

A communication was presented from the County of Monmouth, requesting that the plans for Church Street, Keansburg, be rejected, and on motion by Mr. Kidde, seconded by Mr. Stewart, the Commission rejected the plans for Church Street, Keansburg, on account of lack of funds and in order that the County may proceed with the work from its own funds.

Exhibits-Trenton Inter-State Fair

The Secretary presented a communication from Col. Margerum, Secretary of the Inter-State Fair Association, inviting the Commission to place an exhibit at the Trenton Fair which will be held September 28th to October 3rd. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that a State Highway exhibit be prepared and made at this fair.

Right of Way - Bills

The Secretary presented a number of bills for services in connection with obtaining rights of way on State Highway Routes 1, 8 and 15, and on motion by Mr. Stewart, seconded by Mr. Kidde, the following bills were ordered paid:

Percy A. Gaddis, Rt. 1 Extension -	$ 75.00
" " " " "	300.00
C. Alfred Burhorn,	70.00
Louis Adler,	1052.74
W. Fred Ware, Rt. 15, Sec. 7	15.00
WilbertSheldon,	15.00
Henry G. Hershfield, Rt. 8, Newfoundland	25.00
" " " " Mountain View	100.00
S. H. B. Jacobs, Rt.8. Newfoundland	25.00

Requests for Information

The Secretary presented a request from Mr. Phinney, Secretary of the League of Municipalities, requesting detailed information with reference to construction in municipalities, and asked the Commission's advice as to the furnishing of same. Mr. Kidde moved that Mr. Phinney be advised that all the information and records in the department are open to all citizens and we would be glad to have him call at this office and obtain such information as he may desire. This was seconded by Mr. Stewart and adopted.

Right of Way, Route #2

The Secretary presented a communication from Hon. Fred W. DeVoe with reference to payment of the award as made by the condemnation commissioners to the tenant on the property of Patrick Martin on Route #2. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the award in the amount of $300.00 as made to the tenant, Mr. George Blazyn, by the condemnation commissioners on the property of Patrick Martin on Route #2.

Tree Planting

The Secretary informed the Commission that he had been advised by the caretaker of the Kuser Estate at Washington's Crossing that they had about one thousand white ash trees which they would give to the State Highway Commission, if the Commission would pay for the moving of same which would probably amount to $500.00. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that this offer be referred to the State Forester with the request for his advice as to whether the ash trees would be suitable for planting along the State Highways.

Cruser's Bridge, Route 16, M.P. 7.9

The State Highway Engineer presented the following list of bids that had been received for the construction of bridge over

Cruser's Brook at M. P. 7.9 on State Highway Route #16, and recommended that award be made to the low bidder:

Richards & Gaston	$21,624.50
Jacob Stem	21,769.01
John W. VanDenburg Company	22,225.57
Pinto & Felice	22,841.82
Hill Construction Co.	22,867.92
M. Staub & Kolyn Const. Co.	23,432.91
Palladino Engineering Co.	24,196.00
Thomas Sheahan	26,266.06
Red Bank Construction Company	28,816.45

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Cruser's Brook Bridge at M. P. 7.9 on State Highway Route #16, to Richards & Gaston, at their's the lowest bid received in the amount of $21,624.50, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer.

Rt. 7, Sec. 4, Colts Neck-Jerseyville

The State Highway Engineer reported that Route #7, Section #4, Colts Neck Road-Jerseyville was completed and ready for acceptance. Mr. Jelin reported that he had inspected this road and would recommend acceptance of same. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commissionaccepted the construction of Route #7, Sec. #4, Colts Neck-Jerseyville, and directed final payment to be made to the contractor.

Rt. 4, Sec. 25A, Morgan Cutoff

The State Highway Engineer reported that Route #4, Section #25A, Morgan Cutoff, was completed and ready for acceptance. Mr. Jelin reported that he had inspected this road and would recommend acceptance. On motion by Mr. Stewart, seconded by Mr. Kidde, the construction of Route #4, Sec. #25A, Morgan Cutoff, was accepted and final payment authorized.

Right of Way, Route #3, Sec. #12

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the purchase of the following property on Route #3, Section #12:

Parcel 211,	Frank J. Malone,	Consideration	$ 1.00
" 226,	Domenico Capaccio, Widow	"	50.00
" 227,	Pasquale Gazzara,	"	25.00
" 316,	Walter B. McDougall,	"	1.00

August 18, 1925.

Right of Way, Route #3, Sec. #13

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the purchase of Parcel #5, from Alice J. Yinger, on Route #3, Section #13, Absecon-Egg Harbor, for the sum of $1.00.

Right of Way, Route #3, Sec. 14

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the purchase of Parcel #3, from Reuben Babcock et als, on Route #3, Section #14, Absecon, for the sum of $1.00.

Right of Way, Rt.#4, Sec. #30

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the purchase of Parcel #2, from Joseph B. Cox on Route #4, Section #30, Manahawken-Tuckerton, for the sum of $175.00.

Right of Way, Rt.#4, Sec. #31

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the purchase of the following property on Route #4, Section #31, Tuckerton-New Gretna:

Right of Way, Rt. #4, Sec. #33

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of purchase of Parcel #5, Route #4, Section #33, Perth Amboy Bridge Cutoff, for the sum of $1,000.00, from Samuel Cannata and wife.

Right of Way, Rt. #4, Sec. #33

The State Highway Engineer presented a communication from M. D. Valentine & Bro. Company, with reference to the condemnation of their property as directed on August 4th, making a request that they be allowed to discuss this matter further with the Commission. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that the offer as originally made be amended to include an additional two-tenths of an acre at the same rate.

Right of Way, Rt. 4, Sec.#31

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that an offer of $106.90 be made to the Woodbine Realty Company for parcels #30 and #30A, on Route #4, Section #31, Tuckerton-New Gretna, and in the event that this offer is refused or the owners cannot be located that condemnation proceedings be instituted in accordance with the following resolution:

August 18, 1925.

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route 4, Section #31, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

BEGINNING at a point formed by the intersection of the dividing line between lands of grantor herein on the East and lands now or formerly of Estate of Walter W. Pharo on the West, with the proposed southerly right-of-way line of State Highway Route #4, Section #31, distant thirty-three (33) feet normally from the proposed center line of said State Highway at Station 354 plus 32.06 as shown on a map hereto attached, entitled "New Jersey State Highway Department, Route 4, Section 31, Property to be acquired from the Woodbine Realty and Construction Co., Bass River Township, Burlington County, Scale: 1" equals 50', June, 1925"; and running:

Thence (1) along said dividing line North thirty-seven degrees, thirty-two minutes and eighteen seconds East (N37°32'-18"E), a distance of seventy-five and four one-hundredths (75.04) feet to a point in the proposed northerly right-of-way line, at Station 354 plus 67.76;

Thence (2) along said proposed northerly right-of-way line, South eighty degrees, fifty-two minutes and twenty-five seconds East (80°52'-25"), a distance of eight hundred ninety-one and twenty-two one-hundredths (891.22) feet to a point in the dividing line between lands of grantor on the West and lands now or formerly of Wm. T. Cramer on the East, at Station 363 plus 58.98;

Thence (3) along said dividing line, South twenty-six degrees, thirty-six minutes and twenty-five seconds East (S26°-36'-25"E), a distance of eighty and fifty-one one-hundredths (80.51) feet to a point in the proposed southerly right-of-way line, at Station 364 plus 05.03;

Thence (4) along said proposed southerly right-of-way line in a northwesterly direccion concentric with and distant thirty-three (33) feet radially from said proposed center line, along the arc of a curve to the right with a radius of 1465.69 feet, a distance of forty-three and fifty-nine one-hundredths (43.59) feet to a point of tangency marked "P. C. 363 plus 62.42" as shown on said plan:

Thence (5)still along said proposed southerly right-of-way line, parallel to and distant thirty-three (33) feet normally from said proposed center line, North eighty degrees, fifty-two minutes and twenty-five seconds West (N80°-52'-25"W), a distance of nine hundred thirty and thirty-six one-hundredths (930.36) feet to the point and place of beginning;

CONTAINING one and three hundred fifty-one one-thousandths (1.351) acres, be the same more or less;

TOGETHER WITH Parcel #30-A, described as follows:

Parcel #30-A

BEGINNING at a point formed by the intersection of the dividing line between lands of grantor herein on the East and lands now or formerly of Wm. T. Cramer on the West, with the proposed southerly right-of-way line of State Highway Route #4, Section #31, distant thirty-three (33) feet radially from the proposed center line of said State Highway at Station 364 plus 43.60, as shown on aforesaid map hereto attached, and

Thence (1) along said dividing line, North twenty-six degrees, thirty-six minutes and twenty-five seconds West (N26°-36'-25"W), a distance of seventy-nine (79) feet to a point in the proposed northerly right-of-way line, distant thirty-three (33) feet radially from said proposed center line at Station 364 plus 00.16;

Thence (2) along said proposed northerly right-of-way line in a northeasterly direction, concentric with said proposed center line, along the arc of a curve to the left with a radius of 1399.69 feet, a distance of five hundred eighty-one and sixty-two one-hundredths (581.62) feet to a point in the dividing line, between lands of grantor on the West and lands now or formerly of I. L. Berry on the East, at Station 369 plus 95.49;

Thence (3) along said dividing line, South twenty-three degrees, forty-three minutes and twenty seconds East (S23°-43'-20"E), a distance of twenty-seven and six one-hundredths (27.06) feet to a point in the existing northerly side line of the existing highway;

Thence (4) along said side line, South twenty-three degrees, forty-three minutes and twenty seconds East (S64°-24'-40"E) a distance of one hundred seventy-seven and ninety-four one-hundredths (177.94) feet to a point in the aforesaid proposed southerly right-of-way line;

Thence (5) along said proposed southerly right-of-way line in a southwesterly direction, concentric with and distant thirty-three (33) feet radially from said proposed center line, on the arc of a curve to the right with a radius of 1465.69 feet, a distance of three hundred ninety-two and two-tenths (392.20) feet to the point and place of beginning;

CONTAINING seven hundred eighty-seven one-thousandths (0.787) of an acre, be the same more or less;

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the proposed right-of-way lines, distant thirty-three (33) feet each side of said proposed center line of said State Highway, extending from lands now or formerly of Walter W. Pharo on the West to lands now or formerly of I. L. Berry on the East, as shown on said map;

TOGETHER WITH all the rights, title and interest of grantor in and to the land lying within the bounds of the existing highway adjoining the above described premises;

PARCEL #30 being part of Blocks No. 4 to 7 and Parcel #30-A being part of Blocks No. 1 to 3, as shown on map of Maccabean Park #1, North Section, Bass River Township, I. H. Gifford Farm, Burlington County, N. J. Scale 100' equals 1", Property of Woodbine Realty and Construction Company.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $106.90 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Entrance Road, Sec. 1

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the offer of the Camden Lime Company for the conveyance of all land and easement required through their property on Entrance Road, Section #1, for the sum of $25,347.00, and approved of the purchase agreement for this amount.

Right of Way, Route 1 Extension

The State Highway Engineer submitted a report from Mr. Lavis in which he advised that Schranz & Bieber Co. Inc., had agreed to accept the amount of $85,000.00 for their property on which condemnation proceedings had already been instituted in the sum of $60,000.00. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that this offer be not accepted and that the condemnation be continued with.

Right of Way, Route #1 Extension

On motion by Mr. Kidde, seconded by Mr. Stewart, the

August 18, 1925.

Commission approved of the purchase of Parcel #31, on Route #1 Extension, from William LeMaire and Wife, for the sum of $12,400.00.

Right of Way, Route #14, Sec. #9

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of the acceptance of a warranty deed on Parcel #29, Route #14, Sec. #9, Ocean View to Seaville, from Raymond and Lillian Bozarth, for the consideration of $16.54.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the purchase of the following property on Route #14, Sec. #9, Ocean View to Seaville:

Parcel 49,	Daniel Delancy	Consideration	15.00
" 51,	Maria D. Townsend, widow	"	37.70
" 79,	Emma Townsend	"	135.55

Right of Way, Rt. #15, Sec.#8

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of entering into a contract with Craythorn-Nickerson Co., Inc., the lowest bidders for removal of a house from the right of way on the property of the City of Wildwood, Parcels #1, 2 and 3, on Route #15, Section #8, Rio Grande to Green Creek, in accordance with agreement between the City of Wildwood and the State Highway Commission, the amount of the contract being $915.00 including the cost of removing and replacing the house and performing all other work as listed in the contract.

Right of Way, Route 15, Sec. #7

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the acceptance of an easement for drainage purposes on Route #15, Section #7, Menantico Creek to Mauricetown Road, Parcel #21, over the property of Louis B. Ridenour, for the consideration of $100.00.

Reeves Bridge, Rt.#8, M.P. 14.4

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission granted an extension of time of fifteen days to Arnolt-More, Inc., for the completion of their contract for construction of Reeves Bridge at M. P. 14.4 on State Highway Route #8.

Route #11, Section #10

On motion by Mr. Kidde, seconded by Mr. Stewart, the

August 18, 1925.

Commission accepted the completed work on Route #11, Section #10, Washington Avenue, Nutley, and directed that final payment be made to the contractor, Commissioner Kidde reporting that he had inspected this work and found same to be in satisfactory condition.

Statistics

The State Highway Engineer submitted a copy of a letter written by him to the Governor in reply to a letter received from the Governor asking for a comparison of the distribution of money by the State Highway Commission in this State and the State of Wisconsin.On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of the letter as written by the State Highway Engineer, and directed that he furnish the Governor with such further information on this matter as he may deem desirable.

Patented Vibrolithic Pavement

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that the request of the Vibrolithic Service Corporation that the Commission approve Vibrolithic concrete of both types as an alternate type on county work be received and filed.

Camden ~~Delaware~~ Public River Bridge Approaches

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that a clipping from the Camden Courier with reference to the work through the City of Camden be filed.

Route #20, Sec. #4, Millville

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of an agreement as submitted from the City of Millville covering the construction of extra width pavement on Route #20, Sec #4, through the City of Millville.

Ocean City Bridge Complaint

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that a communication received from Mr. Robert J. Byron in which he complained of the conditions existing on the Ocean City Bridge, especially with regard to the lighting of same, be received and placed on file, inasmuch as the Commission is not lighting any highways.

Rt. 1 Extension, Sec. 2, Jersey City

On motion by Mr. Stewart, seconded by Mr. Kidde, the

August 18, 1925.

Commission approved of the following subcontractors on the contract of the Public Service Production Company for the construction of Route #1, Extension, Section #2:

Wrecking of Building	Goldberg Wrecking Co. Inc.
Earth Excavation so far as steam shovel is concerned	Samuel Konigsberg
Trucking of rock excavation	Dennis J. Cummings Co. Inc.
Steel form for concrete work	Liomin & Wales Co. Inc.
Waterproofing	Andrew Daly
Structural steel fabrication	Bethlehem Steel Co.
Street Railway work	Public Service Rwy. Co.
Work on gas mains	Public Service Gas Co.

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission recessed for lunch at 1:30 P.M., to meet in regular session again at 2:00 P.M. The meeting was reconvened at 2:00 P.M. with the same members present as at the morning session.

Shore Relief Route, Asbury Park

The State Highway Engineer submitted a report as to a conference had with a delegation from Monmouth County with reference to a relief route in the vicinity of Asbury Park. He stated that the county was willing to carry out the construction of a route from Sylvania Avenue to a connection with our Route #4 at West Long Branch, estimated to cost $850,000.00, over a period of two years and he recommended that the State Highway Commission make an allotment of $300,000 toward this work. After a discussion of the matter, Mr. Stewart, moved that the County of Monmouth be communicated with and informed that before the Commission can take any definite action in the matter, it would appreciate the receipt of a definite proposition from the county in writing, setting forth just what they desire to do in connection with this relief route. This was seconded by Mr. Kidde and adopted.

Rt. 9, Sec. #15A, Cranford

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the following subcontractors on the contract of P. Camillo & Co. for construction of Rt. 9, Sec. #15A, Cranford Township:

Grading	Decker & Canning, Inc.
Storm Sewer	Joseph Miele

McGarry Claim, Rt. #18N, Sec.#1

On motion by Mr. Kidde, seconded by Mr. Stewart, The Commission directed that the claim of Mr. J. J. McGarry, that he be reimbursed for the work performed by him last year on Route #18, North, Sec.#1, be referred to the State Highway Engineer for report to the Commission with recommendation.

Amboy Bridge - New

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of Stillman-Delehanty-Ferris Company, contractors of the new Amboy Bridge, subletting the concrete roadway construction from curb to curb on the filled approaches to the Barret Paving Company of Trenton.

Signs - Tree Planting

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that a communication received from the State Forester suggesting the placing of signs along those highways where the Commission has planted trees to give credit for the planting of same, be acknowledged with thanks and Mr. Wilber advised that the Commission does not feel that any more signs along the highways would be desirable.

Route #7, Section #2

The State Highway Engineer presented a claim received from J. M. Reuter for additional compensation in the sum of $2,191.88 on his contract for the construction of Route #7, Section #2, on account of the fact that some of the pavement was constructed in 1925 instead of 1924 over the new alignment, and recommended that same be not allowed. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that the claim of J. M. Reuter for additional compensation on his contract for the construction of Route #7, Section #2, Golf Course-Anderson's Corner, be not allowed.

Request for Aid-Somerset County

The Secretary advised that Mr. Woolston, a member of the Board of Freeholders of Somerset County, was present together with a delegation from Bound Brook, and on motion duly made and seconded a hearing was granted. Mr. Woolston stated that they had come before the Commission for the purpose of requesting some additional aid in order to extend the Manville Road beyond the point, for which bids had just been received. Mr. Berry of the Calco Company spoke concerning the condition of this road, stating that it was in a very deplorable condition and the improvement of same was felt to be very important on account of the large number of plants located along same. He further called attention to the large amount of traffic now using Union Avenue in Bound Brook, stating that this was congested both night and day by the heavy passenger and freight traffic. He also called the attention of the Commission to the fact that about four thousand employees of the various plants are required to use this road to and from their work. Several other members of the delegation also spoke urging the necessity of improving this road, in order to form a relief for Union Avenue. Mr. Woolston stated that the county felt this was a very important road and were desirous of improving part of it this year and the remainder next, and requested that the Commission allot the sum of $20,000.00 toward the construction of same. After a further discussion of the matter, the delegation was advised that the Commission would make no definite decision at this time but would advise them later as to any action they might take.

Leave of Absence - Bridge Tenders

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission granted an eight days vacation, with pay, to Mr. Thomas Colgan employed at a daily rate on the Hackensack River Bridge as Gateman in place of an injured employee, this action being taken in view of the fact that he had been granted a leave of absence by the Chief Engineman for the usual two weeks but recalled at the end of the eight days.

Employments

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the following additional changes and increases as made in the employments of the State Highway Engineer since the last meeting of the Commission.

Employed

8/17/25	Eugene Biddulph,	Office Boy	$40.00	per	mo.

Pittsgrove	Gershal Avenue	Salem
Upper Pittsgrove	Whig Lane-Eldrige Hill Road	"

Hunterdon County, M.V.Aid

The State Highway Engineer reported that in connection with an allotment that the Commission had made to Hunterdon County for aid on two different roads in Hunterdon County, it had developed that they would be able to go ahead with only one of the roads this year and requested that they might be allowed to use the difference on some other road project. On motion by Mr. Stewart. seconded by Mr. Kidde, the State Highway Engineer was directed to advise the County of Hunterdon that they will be permitted to use the difference from this allotment on the road project in their county which they deem to be the most important, subject to the approval of the State Highway Engineer., and the State Highway Commission.

Grove Street, Widening

Commissioner Kidde reported for a matter of record that he had held a conference with the authorities of Hudson County and representatives of the City of Hoboken in reference to the proposed widening of Grove Street and had assured them that the $40,000.00 already allotted was for use in the widening of Grove Street during the present year. He stated that he had advised them to proceed with this the present year and next year make request for an additional allotment to carry the widening further, which request he believed might be given favorable consideration by the Commission.

Township Aid, Cape May Co.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of final payment and acceptance on the Wildwood Junction Road, Middle Township, Cape May County.

Township Aid, Hunterdon County

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of acceptance and final payment on the Pittstown-

August 18, 1925.

Quakertown Road, Sec. #2, Franklin Township, Hunterdon County.

Camden Bridge Approaches,
F. A. P. #69-B

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of Federal Aid Project Agreement #69-B on Routes #2, #3 and #6 Approach Sec. 3, and Connecting Road, Section #3.

Rt. #4, Sec.#31, Tuckerton-New Gretna

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of Federal Aid Project Agreement #73-G for the construction of Route #4, Section #31, Tuckerton-New Gretna.

Township Aid-Gloucester County

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved acceptance and authorized final payment on Glassboro Road, Monroe Township, Gloucester County.

Township Aid - Warren County

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved acceptance and authorized final payment on the Hope-Johnsonburg Road, Frelinghuysen Township, Warren County.

Township Aid - Sussex County

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved acceptance and authorized final payment on the Tranquility-Andover Road, Green Township, Sussex County.

Township Aid - Gloucester County

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved acceptance and authorized final payment on the Tonlin Station Road, Greenwich Township, Gloucester County.

Township Aid - Salem County

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved acceptance and authorized final payment on the Harrisonville-Lighthouse Cemetery Road, Lower Penns Neck Township, Salem County.

Township Aid - Cumberland County

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved acceptance and authorized final payment on the Friesburg-Seeley Road, Hopewell Township, Cumberland County.

August 18, 1925.

Township Aid - Warren County

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved acceptance and authorized final payment on the Allamuchy-Johnsonburg Road, Allamuchy Township, Warren County.

Branch Pike,
Burlington Co., Motor Vehicle Aid

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the award of contract by Burlington County to the Union Paving Company on their low bid of $46,384.70 for the construction of Branch Pike, Burlington County, motor vehicle aid.

Township Aid-Burlington County

On motion by Mr. Kidde, seconded by Mr. Stewart, the Comission approved acceptance and authorized final payment on the Chatsworth-Ocean County Line Road, Sec. #1, Woodland Township, Burlington County.

Township & Boro Aid
Essex County

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of the award of contract by North Caldwell Borough to Francisco Bros., on their low bid of $30,864.00 on Gould Avenue, Greenbrook Road, and Glenview & Ferndale Roads, North Caldwell Borough, Essex County.

Landis Ave, Sec. 4,
Cumberland County, Motor V. A.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved the award of contract as made by Cumberland County to Joseph F. Burke on his low bid of $102,288.47 for the construction of Landis Avenue, Section #4, Cumberland County, motor vehicle aid.

Manville Road,
Somerset County, Motor
Vehicle Aid

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of the plans and specifications for the Manville Road, Somerset County, motor vehicle aid.

Motor Vehicle Aid. - General

Mr. Jelin stated that he felt that in connection with the county work being performed under State aid, more desirable prices might be obtained through having copies of the advertisement forwarded to the State Highway contractors, and on motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that a copy of the advertisement on all county road work in the future be forwarded from this office to State Highway contractors.

Township Aid - Hunterdon County

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of the award of contract by Delaware Township to Warren R. Thompson on his low bid of $33,209.19 for construction of the Rosemont-Kingwood Road, Delaware Township, Hunterdon County.

Township Aid-Passaic County

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the plans and specifications for Garside Lane, Wayne Township, Passaic County.

Township Aid - Somerset County

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the plans and specifications for Spur to Montgomery Hillsborough Township, Somerset County.

Township Aid - Bergen County

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of a transfer of $2,273.00 from the Wyckoff-Ramsey Road, Hohokus Township, to Houven Kopf Road, Hohokus Township, Bergen County.

Manville Road -
Somerset County, Motor Vehicle Aid

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the award of contract as made by Somerset County to the Utility Construction Company on its low bid of $60,279.16 for construction of the Manville Road from the Raritan River Bridge to the Philadelphia & Reading Railroad at Weston, Somerset County, motor vehicle aid.

Township Aid - Warren County

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the plans and specifications for the Hope-Johnsonburg Road, Sec. #2, Frelinghuysen Township, Warren County.

Township Aid - Bergen County

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the plans and specifications for Crescent Avenue,

August 18, 1925.

Sections 1A and 2, Franklin Township, Bergen County.

Absecon Blvd.,
Atlantic County, M. V. Aid

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of the resolution adopted by the Atlantic County Board of Freeholders, authorizing the County Engineer to inform the Union Paving Company, contractors on the Absecon Boulevard, Atlantic County, motor vehicle aid, that the collection of liquidated damages will terminate with the opening of the road to public traffic on the morning of August 15th.

Main Street, Pennington

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission referred to Mr. Jelin the inspection of Main Street, Pennington, Mercer County, motor vehicle aid, preliminary to the acceptance thereof.

Fredon-Stillwater Road, Sec. #1

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission referred to Mr. Kidde the inspection of the Fredon-Stillwater Road, Sec. 1, Sussex County, State Aid, preliminary to the acceptance thereof.

Sparta-Woodport Road

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission referred to Mr. Kidde the inspection of the Sparta-Woodport Road, Sussex County, motor vehicle aid, preliminary to the acceptance thereof.

Maintenance and
Motor Vehicle Aid- Hudson County

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of the Hudson County agreements for motor vehicle aid in 1925 and the Hudson County road maintenance and betterment schedule for 1925.

Rejection of plans-
Morris County - General

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission rejected the plans and specifications on Green Village Road, Borough of Madison; and Fairmount Avenue, Borough of Chatham, Morris County, on account of the lack of funds and in order that the county may proceed with work from its own funds.

Route #9, Section #4

Plans for Route #9, Section #4, Borough of Dunellen, were reported completed and recommended for approval. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve the plans and specifications for the construction of Route #9, Section #4, Borough of Dunellen, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement for the work after approval by the State Highway Engineer.

Route #20, Section #4

Plans for Route #20, Section #4, City of Millville were reported completed and recommended for approval. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve the plans and specifications for the construction of Route #20, Section #4, City of Millville,and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement for the work after approval by the State Highway Engineer.

Route #9, Section#17, White House-Lebanon

Plans for Route #9, Section #17, White House-Lebanon, were reported completed and recommended for approval. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission a dopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve the plans and specifications for the construction of Route #9, Section #17, Whitehouse-Lebanon and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer

In this connection, the State Highway Engineer was directed to advise the Department of Institutions & Agencies in writing to get in touch with him for a discussion of the details of the contract for this section of road.

Route #11, Section #8

Commissioner Kidde reported the inspection of Route #11, Sec. #8, Kingsland Road, Nutley, and recommended acceptance of same.

August 18, 1925.

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission accepted the completed work and authorized final payment to the contractor on Route #11, Section #8, Kingsland Road, Nutley.

Minutes

Commissioner Kidde presented some corrections that he desired to be made in the minutes of the meeting of June 30th, and requested that these corrections be made and corrected copies forwarded to each of the Commissioners. He further requested that a list of the increases as passed by the Commission at that meeting be also included with the corrected copies when forwarded.

Route #11, Section #9

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission accepted the completed work on Route #11, Section #9, Washington Ave., Belleville, and directed that final payment be made to the contractor, Commissioner Kidde reporting that he had inspected this work and found same to be in satisfactory condition.

Hearing - Realignment, Route #6

State Highway Engineer Sloan presented the matter of the proposed realignment of State Highway Route #6 from Brooklawn to Woodbury and suggested that a hearing on this matter be held before final adoption of the line. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that a hearing with reference to the realignment of Route #6, Brooklawn to Woodbury, be held at the next meeting of the Commission on September 8th.

Hearing - Realignment, Route #9

State Highway Engineer Sloan presented the matter of the proposed realignment of State Highway Route #9 through Clinton and suggested that a hearing be held before the line is adopted. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that a hearing with reference to the realignment of Route #9 through Clinton be held at the meeting of the State Highway Commission on September 15th.

Route #1 - Newark

Commissioner Kidde reported that he and Major Sloan had met with the Board of Freeholders of Essex County and presented to them the tentative plan for Route #1 through Newark, and that a further meeting with Mayor Raymond of Newark was being arranged for at which the matter would be more fully discussed.

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission adjourned at 4:00 P.M. to meet in regular session on Tuesday, September 8th.

Respectfully submitted,

A. Lee Grover,

Secretary

MINUTES OF MEETING - September 8, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, Tuesday, September 8, 1925. The meeting was called to order at 11:00 A.M. by Acting Chairman Jelin.

Present: Acting Chairman Abraham Jelin, Messrs. Percy H. Stewart and Walter Kidde.

Absent: General H. L. Scott, on a trip to the West.

Minutes Approved

Commissioner Kidde reported having read the minutes of the meeting of June 30th and July 9th and moved that the same be approved as mailed. This was seconded by Mr. Stewart and adopted.

Hearing-
Crescent Blvd., Camden

The Secretary Informed the Commission that a formal hearing had been arranged at the direction of the Commission on the matter of the proposed relocation of State Highway Route 6 between Brooklawn and Woodbury on the proposed extension of Route 6 to the Delaware River Bridge, and that a delegation was present with reference to this matter. The Secretary advised also that invitations to this hearing had been extended to all the municipalities affected by this proposed realignment and also the Boards of Freeholders of Camden and Gloucester Counties. On motion, duly seconded, this hearing was next taken up. There were approximately one hundred in attendance and Chairman Jelin requested that State Highway Engineer Sloan explain for the benefit of those attending, the proposed line for this section of the Route. State Highway Engineer Sloan advised that it was his recommendation to the State Highway Commission for the connection of the Crescent Route around Camden by way of State Highway Routes 6 and 20, together with other important County roads running into Westville, involving the use of Kings Highway from Browning Lane to its intersection with Route 6, thence over the tracks of the Pennsylvania Railroad Company, by undercrossing, to a new highway to be constructed parallel and North of the railroad connecting with State Highway Route 6 at a point such that the grade crossing immediately West of Woodbury is eliminated, that is to say, the new highway will be entirely on the North side of the railroad. He also stated that in connection with this construction and in order that the highways on the South side may be properly served, it is proposed to connect Route 6 with Cedar Avenue, and thence via Cedar Avenue through an existing underpass.

He further stated that his plans contemplated that the State carry out all the work on the North side of the railroad and that the municipalities affected shall carry out the connection from the existing Route 6 through Cedar Avenue to connect with Route 6, it being the obligation of the railroad company to bear the whole cost of providing the two underpasses at Brooklawn and Cedar Avenue. He estimated the cost of the entire project to be in the neighborhood of $2,000,000.00 of which the railroad company's share would be $300,000.00.

Commissioner Kidde requested information as to the number of grade crossings to be eliminated by this proposed new alignment. State Highway Engineer Sloan advised that the two heavy traveled crossings of Route 6 at Brooklawn and West of Woodbury would be eliminated and this arrangement will allow the elimination of three more crossings immediately West of the main crossing.

Chairman Jelin invited the delegation to speak and the meeting was first addressed by John S. Wells, Counsel for the City of Woodbury, who advised that the proposition which State Highway Engineer Sloan had explained for a new Route on the North side of the railroad (known to them as the West Side) was agreeable to his community, and he advised that as far as he knew. the City of Woodbury would be very willing to cooperate toward the local improvements.

Mayor Cox of Westville next spoke and stated that while they were heartily in accord with the proposed plan, they were unwilling that the State should relinquish Broadway through Westville as a State Highway and throw it back upon the municipality for maintenance.

Commissioner Stewart informed Mayor Cox that the State Highway Commission could not, under the law, maintain two different routes for the same part of the System and if a new line was adopted it would necessarily follow that the old line would be abandoned. Mr. Cox asked Mr. Lacy, representing the Board of Trade of Westville. to speak to the Commission and Mr. Lacy advised that the feeling of the citizens of Westville was as expressed by Mayor Cox; namely, that the proposed plans of the Commission are to be cooperated with in every way, but there is no desire to assume the burden of maintaining Broadway as a local street.

Commissioner Kidde explained that it was entirely possible that when the new highway was put through, the ratables to the municipality would be so increased that there would be sufficient income to provide for Broadway, which would, at any rate, be a purely local street and not the main traffic artery. Commissioner Kidde inquired as to what the feeling was concerning the closing of the grade crossings and locating the road on the North side of the railroad, and Mr. Lacy advised that this would be acceptable.

The next speaker, Mayor Horner of Brooklawn Borough, advised that although there had been no opportunity furnished to consider the proposed plans of the State Highway Department, the general idea was a good one and his community is heartily in accord with the elimination of the grade crossings, although his community is built on both sides of the railroad, and it is necessary for tradesmen and school children to pass from one side to the other. Before the crossing was eliminated he believed some study should be made of the local situation in Brooklawn to see if some plan could not be evolved to take care of this traffic by some method of underpass.

Chairman Jelin advised that Mayor Horner's approval of the plan would be recorded with the understanding that the local situation in Brooklawn for crossing the tracks was to be further investigated. He inquired whether the community would be willing to pay its share of the local connections through the road and he was advised in the affirmative.

Commissioner Kidde expressed a desire to make a personal inspection of the locality before any definite work was undertaken.

The next speaker was A. R. Kohler, Freeholder of Gloucester County, who advised that the Board of Freeholders of Gloucester County have no objection to the running of the road on the West side of the railroad other than voicing a formal objection against the return of any roads to the County. He also stated that it would appear to him that it was proposed to close too many crossings which would be a detriment to the local community.

September 9, 1925.

Chairman Jelin stated that it was generally considered a wise policy to eliminate as many grade crossings as possible, especially in view of the fact that the railroad companies are to be called upon to make large expenditures for these eliminations and it is only fair that their return shall be the elimination of certain crossings in the State.

Commissioner Kidde stated that he felt that the natural thing would be that the trade and business centers would accommodate themselves in time to the changed conditions created by the closing of the crossings, although as all public improvements generally turn out, a few are subjected to hardships for the benefit of a good many others.

Mr. Kohler called attention to the relief line laid out by the Advisory Board in its report, by way of Eighth Street, Camden, and he suggested that this should be considered.

Mr. J. J. Albertson, County Engineer of Camden County, advised that the roadway proposed under this hearing was for a very short distance in Camden County and as far as his County was concerned they were heartily in accord with the action of the State Highway Commission in eliminating grade crossings wherever possible.

Mr. Moore, speaking for West Deptford Township, advised that the improvement would not affect any of their highways but does affect them in the grade crossings, and he expressed approval in the action of the State Highway Commission in proposing to eliminate grade crossings through this section, which have for many years been dangerous.

Mr. J. B. Tyler, an Attorney of the City of Camden, was the next speaker. He advised that he represented the property owners of approximately 500 acres of land in that locality who urged the improvement of the proposed line about one mile East of the proposed location and the property owners of this tract would be willing to give the right of way on which there would be no grade crossings and would furnish a better line in their opinion from Camden to South Jersey and the seashore resorts.

Chairman Jelin advised that this plan would not result in the eliminating of any grade crossings on what were at present heavily traveled routes.

Mr. Tyler advocated the plan as relieving congestion on the remaining routes so that the eliminations would not be necessary and there would be no detriment to the local municipalities by the creation of dead ends by the closing of crossings.

Mr. Tyler introduced Mr. Kocher, Engineer for the City of Woodbury, who was Engineer for his clients and Mr. Kocher explained his views concerning this proposed new alignment.

Mr. J. C. Remington, Engineer for Westville and Center Township, next addressed the Commission and advised that all the communities are tremendously interested in the proposed realignment and he stated that the future would show what this improvement means to this section of the State, and he advised that everybody in general is in accord with the scheme and he believed, if carried out it would accomplish what has been undertaken, although there was considerable opposition to the return of responsibility to the local communities for the section of Broadway in Westville.

T. York Smith of Camden, owner of property located in a number of South Jersey districts. advocated the relocation as presented by Mr. Tyler as being of great benefit to the traveling public and voiced the necessity for the elimination of grade crossings.

There were further statements made by representatives from municipalities already called, and following these Commissioner Jelin advised that on behalf of the Commission he would thank those who appeared for their presence and suggestions and he assured all those present on behalf of the Commission that everything presented to the meeting would be given full consideration and that no definite action would be taken until the Commission had an opportunity to thoroughly consider and go upon the ground for a personal investigation. The hearing adjourned at 1:00 P.M.

The Commission then recessed for lunch to meet in regular session again at 2:00 P.M. The meeting was resumed at 2:00 P.M. with the same members present as at the morning session.

Memorials-Victory Bridge

State Highway Engineer Sloan presented a sketch prepared by the Engineering Division for the proposed tablets to be erected on the Perth Amboy - South Amboy Bridge, now known as Victory Bridge, in accordance with action of the Legislature. The Commission considered the wording upon this tablet and tentatively adopted the following, subject to change and proper form of characters, of letters and figures:

"1917 - 1918"

VICTORY BRIDGE

Dedicated as a memorial to the services of the
New Jersey Citizens in the World War.

Erected 1926

By

THE STATE OF NEW JERSEY

State Highway Commission,

Gen.H.L.Scott, Chairman,
Percy H.Stewart,
Walter Kidde,
Abraham Jelin,
Wm.G.Sloan, State Highway Engineer,
C.W.Hudson, Supervising Engineer.

Cape May-Lewes Ferry

The Secretary presented a communication from Senator W. H. Bright, of Cape May County, advising of a meeting held in Cape May City on Saturday, August 22nd, with the Presieent of the Maryland and Delaware Coast Railroad, who advised that his company was in a position to place two boats in service over the Cape May-Lewes Ferry and he advised that he would like to arrange a meeting at some early date with the members of the State Highway Commission, at Cape May, in order to further this project as much as possible. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that Senator Bright be advised that the State Highway Commission will be very glad to meet at Cape May for the purpose of discussing the possibilities in reference to the Cape May-Lewes Ferry, and suggesting that inasmuch as the Commission expects to make a detour of the southern section of the State early in November following the completion of State Highway Route 4, it would be desirable at that time to hold such a conference.

Permits

The Secretary informed the Commission that representatives of the New Brunswick Knitting Company had conferred with Commissioner Jelin prior to the Commission meeting on the matter of obtaining permission to open Raritan Avenue, which is State Highway Route 1 in the Borough of Highland Park, for the purpose of making a connection for a sprinkler system on their property with the water main running under this road.

Commissioner Jelin informed the Commission that from this conference he learned that this company is located in a residential section where the fire hazard is very great and it is very important that they have fire protection.

State Highway Engineer Sloan explained that Route 1 was completed a year ago and prior to its construction was posted against opening for five years unless an emergency existed. He advised that the Knitting Mills were so located that in order for them to reach water on any other street, they must pass their mains over private property, while the main on Raritan Avenue lies directly in front of their door. He presented a report from the Maintenance Division, outlining the various phases of the matter.

Commissioner Stewart inquired whether it would be possible for this company to tunnel beneath the road without disturbing the pavement and the State Highway Engineer advised in the affirmative.

Commissioner Kidde therefore moved that after careful consideration of the fire hazard involved, permit be granted to the New Brunswick Knitting Company for a service connection to the main under Raritan Avenue by means of a tunnel beneath the pavement and the opening which will be made to be backfilled with cement; all of the work to be done under the strict and careful supervision of the State Highway Engineer, and further that sufficient cash or bond be posted by the company as a safe-guard against any failure that may occur in the pavement within the year. This was seconded by Mr. Stewart and adopted.

Route 4, Toms River

State Highway Engineer Sloan explained to the Commission the complications involved in the proposed realignment at Toms River on Route 4 in securing approval of the Department of Commerce & Navigation to plans for a new bridge over Toms River. He presented to the Commission an opinion received from Assistant Attorney General Fred W. DeVoe, advising that it was not necessary for the Commission, under the law, to present plans to the Board of Commerce and Navigation for approval.

Commissioner Stewart, therefore, moved that in view of the complications outlined by the State Highway Engineer, that the matter be referred to the State Highway Engineer and Chairman Scott, upon his return, in order that it may be taken up with the authorities at Washington for future study.

The Secretary presented a resolution received from the Board of Freeholders of Ocean County, expressing approval of the action of the State Highway Commission in the proposed realignment of Route 4 at Toms River, and also requesting that a rehearing be given upon application to the Board of Commerce and Navigation in order that the Bridge matter can again be considered.

Bidders, List of

State Highway Engineer Sloan called attention of the Commission to the fact that in all the work advertised for construction, which involved considerable material, there was a hardship worked upon materialmen who expend large amounts of money in estimating as subcontractors and who cannot obtain direct contact with the general contractors. He recommended to the Commission that the policy of keeping the names of bidders closed, be reconsidered.

Commissioner Kidde therefore moved that the future policy concerning the names of contractors taking out plans and specifications, be such that in every contract involving material other than the ordinary road construction, the names of the prospective bidders be given to the materialmen and subcontractors. This was seconded by Mr. Stewart and adopted.

Request for Aid-Cape May County

The Secretary presented a communication received from Senator W. H. Bright of Cape May County, transmitting a petition from the residents of Cape May County for the improvement of the Seashore Road between Marshall's Corner and the Roosevelt Boulevard. Commissioner Stewart moved that the matter be referred to the State Highway Engineer for investigation and report at the time the Commission makes its South Jersey inspection. This was seconded by Mr. Kidde and adopted.

Request for Hearing-North Bergen Twp.

The Secretary presented a communication from the Township of North Bergen, forwarding a resolution, requesting the State Highway

Commission to hold a hearing to consider the proposition of taking over the Hackensack Plank Road or the Bergen Turnpike as part of State Highway Route 18-North. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that North Bergen Township be advised that a public hearing has already been held concerning the alignment for Route 18-North and the Commission will be glad to give this matter their careful consideration as soon as funds are made available to provide for the construction and maintenance of this highway, since bond issue moneys cannot be used for State Highway Route 18-North.

Right of Way-Route 8.

The Secretary presented a report from Hon. F. W. DeVoe, Assistant Attorney General advising that George W. Sherman, property owner on Route 8 at Mountain View, has entered an appeal from the award of the condemnation commissioners. On motion, duly seconded, this report was ordered filed.

There was presented a report from Assistant Attorney General F. W. DeVoe, advising that his report in connection with the Carl T. Forsburg condemnation on Route 8 at Mountain View under date of May 11, 1925, was incorrect in setting aside the Jury's award of $17,742.50, whereas the award was $18,742.50, together with interest at the rate of six percent from the date of filing of petition, which was June 26, 1924. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of correction in the amount to be paid to Carl T. Forsburg; namely, $18,742.50 with interest.

Request for Aid-Somerset County

The Secretary presented a communication from Freeholder Howard F. Wilson on behalf of the Board of Freeholders of Somerset County, requesting aid in the construction of the Old Turnpike Road from Bound Brook to the Manville Road. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the freeholders of Somerset County be advised that there are no funds available from which aid could be granted for this work since the Motor Vehicle Aid account for distribution to the counties is entirely exhausted.

September 8, 1925.

Detours-Route 4

The Secretary presented a communication from the Borough of Metuchen, advising that the Council has decided that they will employ no additional policemen for the handling of extra traffic now detouring through the Borough. On motion by Mr. Kidde, seconded by Mr. Stewart, the communication was ordered received and placed on file.

Communications

The Secretary presented a communication from the Lions Club of Trenton, transmitting a resolution to the effect that their organization is interested in urging the State Highway Commission to take over and improve that section of highway running between Trenton and Pennington, being part of the Trenton -Buttzville route. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the Lions Club be advised that the State Highway Commission has no funds from which this improvement could be accomplished and further that the offer as made by the Freeholders of Mercer County toward this work was not sufficient to alter the status of the funds.

Request for Hearing-Bradley Beach

The Secretary presented a communication from the Commissioners of Bradley Beach, requesting the State Highway Commission to arrange a conference with them in order that they might be advised concerning the status of the Ocean Boulevard. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that the communication be referred to the State Highway Engineer for conference with the Board of Commissioners of Bradley Beach at the earliest possible date.

Invitations

The Secretary presented a communication from the Association of Chosen Freeholders of New Jersey, advising of a meeting to be held on Monday, September 14th, at the Springbrook Country Club of Morristown and inviting the Commission to attend. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that each Commissioner be notified concerning this meeting and that the Secretary of the Association be advised that such members as will find it convenient to attend will do so.

September 8, 1925.

Right of Way-Route 1 Extension

The Secretary presented a communication from Judge Mark Sullivan, Special Counsel in Jersey City, returning bills of J. F. Gannon, Jr. and E. J. Maier, for services in connection with the Bowen condemnation appeal, and revised to an amount of $500.00 each. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the payment to J. F. Gannon, Jr. and E. J. Maier of $500.00 each for services in accordance with invoices attached.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the payment of $3,700.00 to F. Dunham for appraisals of property to date on Route 1 Extension, Jersey City.

Right of Way-Routes 4 and 7,
and Route 1 Extension.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the payment of the following amounts for appraisals on State Highway work:

Route 1 Extension, Jersey City,	Louis Adler,	$500.00
" 4,	White & Hess, Inc.,	30.00
" 7,	Samuel A. Lockwood,	30.00

Route 1 Extension, Newark

The Secretary presented a communication received from the Chamber of Commerce of the City of Newark, inviting the Commission to a conference to be held at the Chamber of Commerce Rooms on Wednesday, September 9th, for the purpose of discussing the proposed plans of the State Highway Commission for that portion of Route 1 Extension which is to go through Newark.

Commissioner Stewart stated that in view of the fact that the Commission has not received definite report from its Engineering Department as to a line through Newark, he did not feel that the Commission could place before the Chamber of Commerce of Newark, any definite information at this time.

Chairman Jelin then suggested that in view of this a communication be forwarded, outlining the position of the Commission, and that Commissioner Kidde could attend the meeting to learn what might develop in the discussion and which may be of value to the Commission. On motion by Mr. Kidde, seconded by Mr. Stewart, the following letter was forwarded to Mr. C. R. Burnette, Committee Chairman:

September 8, 1925.

"C. R. Burnett, Esq.,
Chairman, Joint Committee, Newark Chamber of Commerce,
Newark, New Jersey.

Dear Mr. Burnett:

We beg to acknowledge receipt of your letter of September 3rd, in which you have so courteously invited us to take part in a discussion of our proposed plans for that portion of State Highway Route 1 which is to be built through Newark, at a meeting to be held on Wednesday, September 9th, at three P.M. in the Assembly Hall of the Newark Chamber of Commerce.

Our Commissioner Kidde and State Highway Engineer Sloan have attended conference with Mayor Raymond and the Board of Chosen Freeholders of Essex County, and we can assure you that we are considering every suggestion made to them and are incorporating what we believe feasible in our plans. There are four plans under consideration and our Engineering Department is going over the costs and the feasibility of each plan and any information that any public meeting can give us will be given consideration gladly.

Very truly yours,

STATE HIGHWAY COMMISSION,

Acting Chairman."

Commendations - Exhibits

The Secretary read a communication received from the President of the Flemington Fair, commending the exhibit placed at the Fair by the State Highway Department. In this connection, Commissioner Kidde presented a communication received from the Hoboken Board of Trade, advising of a proposed industrial exhibit during the month of October, at which time the advantages of the new Vehicular Tunnel would be shown and request was made that the Commission forward suitable photographs of the entrance highways. He moved that such photographs and data as was available be given. This was seconded by Mr. Stewart and adopted.

Construction Program - 1926

The Secretary presented a communication from Ralph Harcourt, Solicitor for Corbin City, advising the Commission that the residents of Corbin City are petitioning a hard surface road along Route 14 within the limits of that City, and he requested that the Commission hold up any action until this petition and consent to give the right of way is delivered to the Commission. On motion by Mr. Kidde, seconded by Mr. Stewart, the communication was ordered received and placed on file and contents noted for further consideration.

September 8, 1925.

The Schedule of Business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer:

Route 20, Section 4, Millville

The State Highway Engineer presented the following report of bids received on August 31st for the construction of Route 20, Section 4, Millville, and recommended award to the lowest bidder:

Wallace, Tozour and Wall	$110 ,539.06
Stryker & Stryker	112,396.55
Michael Staub	114,061.24
John M. Reuter	117,542.25
Interstate Engr. & Const. Co	119,724.35
William Eisenberg	119,798.07
E. Riley Mixner Co	120,102.02
Acchione & Canuso Paving Co	122,665.25

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission adopted the following resolution of award:

RESOLVED, that the contract for the construction of Route 20, Section 4, Millville, be and the same is hereby awarded to Wallace, Tozour and Wall, of Millville, New Jersey, on theirs, the lowest bid, in the amount of $110,539.06, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts for this work after approval by the State Highway Engineer.

Westecunk Creek Br., Route 4,
M. P. 22.8

The State Highway Engineer presented the following report of bids received on August 31st for the construction of Westecunk Creek Bridge, on Route 4, M. P. 22.8, and recommended award to the lowest bidder:

Hill Construction Co	$16,011.06
Red Bank Construction Co	17,673.81
Ashbrook Cranmer	17,995.12
M. Staub & Kolyn Const. Co	18,991.52
J. W. Vandenburg & Co	19,769.08
Pinto & Felice	20,388.58
Rutter Bros. & Parker	20,440.45

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission adopted the following resolution of award:

RESOLVED, that the contract for the construction of Westecunk Creek Bridge, on Route 4 at M. P. 22.8, be and the same is hereby awarded to the Hill Construction Company of Mount Holly, New Jersey, on theirs the lowest bid in the amount of $16,011.06, and

BE IT FURTHER RESOLVED that the Chairman is authorized to sign the necessary contracts for this work after approval by the State Highway Engineer.

September 8, 1925.

Bridges-Route 9, Section 17.

The State Highway Engineer reported the completion of plans and specifications for five bridges on Route 9, Section 17, White House-Lebanon section, and recommended approval of advertisement for the work. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission adopted the following resolution:

> RESOLVED, that plans and specifications for the construction of five bridges on Route 9, Section 17, White House-Lebanon section, be and the same are hereby approved, and
>
> BE IT FURTHER RESOLVED that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisements for the work after approval by the State Highway Engineer.

Connecting & Entrance Roads, Camden

The State Highway Engineer reported the completion of plans and specifications for construction grading of the Delaware River Bridge Connecting Road, Sections 1 and 2, in the Borough of Pensauken, and the Delaware River Bridge Entrance Road, Section 2 in the City of Camden, together with the relocation of Cooper River, and recommended approval of advertisement for the work. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission adopted the following resolution:

> RESOLVED, that the plans and specifications for the construction grading of the Delaware River Bridge Connecting Road, Sections 1 and 2, in the Borough of Pensauken, and the Delaware River Bridge Entrance Road, Section 2, in the City of Camden, together with the relocation of the Cooper River, be and the same are hereby approved, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisements for the work after approval by the State Highway Engineer.

Route 9, Section 17

The State Highway Engineer reported the completion of negotiations with the State Department of Institutions and Agencies for the construction of Route 9, Section 17, Lebanon-Whitehouse section, and he presented a formal contract for approval by the Commission, and recommended its adoption. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission adopted the following resolution of award:

> RESOLVED, that the contract for the construction of Route 9, Section 17, Lebanon-Whitehouse section, be and the same is hereby awarded to the State Department of Institutions & Agencies, at the estimated cost of $252,363.60, and

September 8, 1925.

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts, after approval by the State Highway Engineer, and subject to approval of the State House Commission, for entering into this contract without first advertising for bids.

Route 4, Section 28.

The State Highway Engineer reported the completion of Route 4, Section 28, between Waretown and Barnegat, by the Union Paving Company, and recommended acceptance of the work. Chairman Jelin reported having inspected the work and recommended final acceptance. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved the completed work on Route 4, Section 28, and authorized final acceptance.

Bridges M. P. 37.9 & 38.5, Route 4

The State Highway Engineer reported the completion of bridge over the Middle Branch of the Forked River at M. P. 27.9, and bridge over the North Branch of the Forked River at M. P. 38.5, on State Highway Route 4, and recommended acceptance of the work. Chairman Jelin reported having inspected the work and recommended final acceptance. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved the completed work on bridges at M. P. 37.9 and 38.5 over the Forked River by the Hill Construction Company, and authorized final acceptance to be made.

Alloways Creek Br., Route 6, M.P. 3.7S

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission referred the completed work on Alloways Creek Bridge on Route 6 at M. P. 3.7S to Commissioner Jelin for final inspection.

Pompton River Br., Route 8, M.P. 9.1

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission referred the completed work on Pompton River Bridge, Route 8, M. P. 9.1 to Commissioner Kidde for final inspection.

Cedar Bonnet Bridge, Manahawken Bay

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission referred the completed work on Cedar Bonnet Bridge, Manahawken Bay, to Commissioner Jelin for final inspection.

Route 6, Section 16, Woodbury.

The State Highway Engineer reported the final completion of Route 6, Section 16, Woodbury, by the Union Paving Company, and recommended it for final acceptance. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the final acceptance of Route 6, Section 16, Woodbury.

Rights of Way

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the purchase of the following parcels of property and directed that a letter of thanks be forwarded to those who convey for a nominal consideration:

Connecting Road, Sec. 3, Camden.

Parcel	#77,	Christine Dangler, et al,	Consideration	$20.00

" 93A,	William Peterson,	"	73.00
" 93,	Milford H. Peterson,	"	56.00
" 94,	Irma E. Haegele,	"	1.00
" 96,	Chas. F. Skinner,	"	134.00
" 98,	Miss Mame Davis,	"	131.00
" 101,	John Buzby,	"	47.00

Right of Way-
Connecting Road, Sec. 4, Camden

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved the payment of street assessment of Haddon Township on Stefan and Mary Wasilewski property on Connecting Road, Section 4, Camden, in the amount of $158.44.

Right of Way

Route 1 Extension, Section 2

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the purchase of Parcel #7 on Route 1 Extension, Section 2, from Karl Pfetsch, for the consideration of $14, 500.00, the owner agreeing to move his building off the land needed immediately.

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the purchase of the following parcels of property on Route 1 Extension, Section 2, and directed that condemnation proceedings as instituted be discontinued:

Parcel#2,	Prospero Buonadies, Owner,	Consideration	$4,750.00
" 3,	Nicola & Antonetta Galietta,	"	9,250.00

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that a further offer of $24,000.00 be made to Margaret Zeho and Antonette DeMarco, for Parcel #5 on Route 1 Extension, Section 2, and in the event of refusal that condemnation proceedings as already instituted be carried out.

Commissioner Jelin reported that the attorney for the Shranz and Rieb property on Route 1 Extension had taken up with him the matter of permitting the building of his clients to be moved subject to a satisfactory adjustment of the price with the Commission. He advised that the highest appraisal submitted for the property was above $84,000, and he was prepared to recommend that the same be accepted.

Commissioner Kidde advised that he had intended to investigate the property on the ground, but had not yet had the opportunity, and would take it up during the next week. The matter was, therefore, held up for the next meeting.

Right of Way-Route 4.

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved of agreement to be entered into with Richard Rue, property owner at the location of the New Amboy Bridge, by which he is afforded access to the South approach of the bridge from his property.

The State Highway Engineer reported that the owners of the Valentine property on Route 4 in Perth Amboy, are not interested in the offer as made to them by the Commission, in accordance with action taken at the last meeting, and he recommended that an offer of the rate of $2100 per acre for .589 of an acre, be made to M. D. Valentine for property required on Route 4 in Perth Amboy, and in the event of refusal that condemnation proceedings be instituted. On motion by Mr. Kidde, seconded by Mr. Stewart, the recommendation of the State Highway Engineer was approved and the following resolution of condemnation was adopted.

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route 4, Section 33, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel No. 24.

BEGINNING at a point formed by the intersection of the northerly side line of Waltrous Avenue with the proposed northwesterly right of way line of State Highway Route 4, Perth Amboy Bridge Cut-off, said point being distant thirty-three (33) feet normally from the proposed center line of said State Highway at Station 30 plus 82.30, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route 4, Perth Amboy Bridge Cut-off, Property to be acquired from M. D. Valentine & Brothers., in the City of Perth Amboy, Middlesex County, Scale: 1"=30', Jan. 1925" and running;

Thence (1) along said proposed northwesterly right of way line, parallel to and distant thirty-three (33) feet from the proposed center line, North twenty degrees, seventeen minutes, East (N20°17'E) a distance of five hundred twenty and fifty two one-hundredths (520.52) feet to a point in the dividing line between lands of grantor herein on the West and lands now or formerly of Henry Maurer on the East;

Thence (2) along said dividing line and crossing the proposed center line at Station 34 plus 81.92, South five degrees, one minute West (S5°01'W) a distance of two hundred fifty and sexty-five one-hundredths (250.65) feet to a point in the proposed southeasterly right of way line of said State Highway, distant thirty-three (33) feet normally from the proposed center line at Station 33 plus 61.02;

Thence (3) along said proposed southeasterly right of way line, parallel to and distant thirty-three (33) feet from the proposed center line, South twenty degrees, seventeen minutes West (S20°17'W) a distance of two hundred fifty-seven and forty-six one-hundredths (257.46) feet to a point in the aforesaid northerly side line of Waltrous Avenue;

Thence (4) along said northerly side line of Waltrous Avenue, crossing the center line at Station 30 plus 92.93, North eighty-seven degrees, thirty-four minutes, twenty seconds West (N87°34'20"W) a distance of sixty-nine and thirty-five one-hundredths (69.35) feet to the point and place of Beginning;

CONTAINING five hundred eighty-nine one-thousandths (0.589) of an acre, be the same more or less, as shown on said plan.

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the proposed right of way line, distant thirty-three (33) feet each side of the proposed center line, extending from the lands now or formerly of S.R.Kelsey on the South to the lands now or formerly of Henry Maurer on the North, as shown on said plan hereto attached;

IT IS HEREBY UNDERSTOOD AND AGREED that the cash consideration hereinabove agreed to is to be considered by both parties hereto as payment in full to the grantor, his heirs, lessees, or anyone acting in his or their behalf, of all claims for damages of whatever nature resulting directly or indirectly from the construction and improvement of the road.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $2100 per acre for .589 of an acre to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way-Route 4

Chairman Jelin reported on a conference held at Perth Amboy concerning the property of Hampton Cutter, needed by the Department in order that the contractor could proceed with his work. He advised that it was discovered that taxes remained unpaid on this property for some time and that there were records to show that the property was at one time sold for taxes. This resulted in a decision on the part of Cutter to sell his property.

Right of Way-Entrance Road

On recommendation of the State Highway Engineer, Commissioner Stewart moved that an offer of $2750 be made to John and Lena Goodman, for Parcel 31 on Entrance Road, Section 1, Camden, and in the event of refusal, that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Entrance Road, Section 1, Camden, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

BEGINNING, at a point in the southerly side of Linden Street ninety-nine and two tenths (99.2) feet from the intersection of the southerly line of Linden Street with the westerly line of Twelfth Street, said point being distant twenty-nine and ninety-eight hundredths (29.98) feet from and normal to the proposed center line of the Linden Street Branch of the State Highway Entrance Road in the City of Camden at Station 6 plus 89.67, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Camden Extension Division, Entrance Road, Property to be acquired from John & Lena Goodman, City of Camden, Scale 1" equals 20', January 1925," and running;

Thence (1) along the southerly line of said Linden Street twenty-two feet six inches (22'6") to a point, said point being in the dividing line between the properties situated at lots 1186 and 1188 respectively on Linden Street in the City of Camden;

Thence (2) along said dividing line southwesterly at right angles to the said Linden Street, forty-eight feet, six inches (48'6") to a point;

Thence (3) along the dividing line between the aforementioned properties southwesterly fifty-nine (59) feet to a point;

Thence (4) northwesterly and parallel to said Linden Street twenty-seven (27) feet to a point, said point being in the dividing line between the lots situated at 1186 and 1184 respectively on Linden Street in the City of Camden;

Thence (5) along said line northeastwardly at right angles to Linden Street six (6) feet to a point;

Thence (6) still along said dividing line northwardly fifty-four (54) feet to a point;

Thence (7) still along said dividing line and party wall northeastwardly at right angles to said Linden Street, forty-eight feet, six inches (48'6") to the point and place of beginning;

CONTAINING two thousand five hundred sixty-four (2564) square feet, be the same more or less;

INTENDING TO CONVEY all of that land now owned or controlled by the grantors situated at number Eleven hundred eighty-six (1186) Linden Street in the City of Camden.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $2750 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way-Connecting Rd., Camden

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved the following purchase agreements for property needed on Connecting Road, Section 4, Camden Extension:

Parcels 2, 36 and 44, from Newton Co., Inc. for the consideration of $2,840.00,
Parcel 12, from Leon and Sara Dudevoir, to be acquired in exchange for property to be secured from Sarah C. Hasson adjoining,
Parcel 30 from Crane-Moore Realty Company, for the consideration of $7,100.00.

Right of Way-Route 15

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission, on recommendation from the State Highway Engineer, directed that an offer of $1375 be made to Lillian R. Bevier, for Parcel 9 on Route 15, Section 7, Menantico Creek-Mauricetown Road, to cover value of land and removal of buildings, and in the event of refusal that condemnation proceedings be instituted in accordance with the following resolution:

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey for public use in the construction of State Highway Route 15, Section 7, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

BEGINNING at a point formed by the intersection of the southerly side line of South Street with the proposed easterly right of way line of State Highway Route 15, Section 7, distant thirty-three (33) feet normally from the proposed center line of said State Highway at Station 301 plus 00.87, as shown on a plan attached, entitled "New Jersey State Highway Department, Route 15, Section 7, Property to be acquired from Lillian R. Bevier, Maurice River Township, Cumberland County, Scale 1" equals 50', April 1925, Revised September 1925," and running;

Thence (1) along said proposed easterly right of way line in a southerly direction, concentric with a distance thirty-three (33) feet radially from said proposed center line, along the arc of a curve to the left with a radius of 922.37 feet, a distance of two hundred thirty-three and two one-hundredths (233.02) feet to a point in the dividing line between lands of grantor herein on the North and lands now or formerly of Elsie M. Oliver on the South; thence (2) along said dividing line, North seventy-three degrees, fifty-five minutes West (N73°55'W) a distance of fifty-two and fifty-seven one-hundredths (52.57) feet to a point in the existing center line of said State Highway; thence (3) along said existing center line, North eleven degrees, forty-three minutes West (N11°43'W) a distance of one hundred three and fifty-five one-hundredths (103.55) feet to an angle point; thence (4) still along said existing center line, North sixteen degrees and forty-four minutes East (N16°44'E) a distance of one hundred thirty-three and forty-five one-hundredths (133.45) feet to a point in the southerly side line of South Street extended; thence (5) along said southerly side line, South seventy-three degrees, and fifty-five minutes East (S73°55'E) a distance of forty-one and fifty-seven one-hundredths (41.57) feet to the point and place of beginning;

CONTAINING one hundred twenty-eight one-thousandths (0.128) of an acre, be the same more or less, exclusive of existing roadway, as shown on said plan hereto attached;

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the proposed easterly right of way line and the existing center line of said State Highway, extending from the southerly side line of South Street on the North to lands now or formerly of Elsie M. Oliver on the South, as shown on said plan hereto attached.

IT IS HEREBY DISTINCTLY UNDERSTOOD AND AGREED that the grantor will remove or cause to be removed all buildings or structures from within the limits of the right of way hereinabove described within 60 days from the date of approval of this agreement by the State Highway Commission and will replace, reset or reconstruct all other improvements of any nature necessary to be reset, replaced or reconstructed, without any claims for additional compensation from the State.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission to make an offer of the sum of $1375 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way-Route 15

On recommendation from the State Highway Engineer, Commissioner Kidde moved that an offer of $75.00 be made to Clark L. Jordan, for Parcel 8 on Route 15, Section 7, and in the event of refusal that condemnation proceedings be instituted in accordance with the following resolution. This was seconded by Mr. Stewart and adopted.

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route 15, Section 7, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

BEGINNING at a point of curvature in the proposed westerly right of way line of State Highway Route 15, Section 7, distant thirty-three (33) feet radially from the existing center line of said State Highway at Station 299 plus 70.58, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route 15, Section 7, Property to be acquired from Clark L. Jordan, Maurice River Township, Cumberland County, Scale 1" equals 50', April 1925", and running;

Thence (1) along said proposed westerly right of way line, in a northeasterly direction, concentric with and distant thirty-three (33) feet radially from the proposed center line of said State Highway, on the arc of a curve to the left with a radius of 922.37 feet, a distance of ninety-two and six-tenths (92.6) feet to a point in the southerly side line of South Street; thence (2) along said southerly side line, South seventy-three degrees, fifty-five minutes East (S73°55'E) a distance of four and sixty-four one-hundredths (4.64) feet to a point in the existing westerly right of way line of said State Highway; thence (3) along said existing westerly right of way line, parallel to and distant thirty-three (33) feet from the existing center line of said State Highway, South sixteen degrees, forty-four minutes West (S16°44'W) a distance of ninety-two and fifty-one one-hundredths (92.51) feet to the point and place of Beginning;

CONTAINING three one-thousandths (0.003) of an acre, be the same more or less;

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the proposed right of way lines, thirty-three (33) feet each side of the proposed center line of aforesaid State Highway Route 15, Section 7, extending from the southerly property line of grantor to the northerly property line of lands of grantor at South Street.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission to make an offer of the sum of $75.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of the said lands and premises.

Right of Way-Route 16

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission authorized a new agreement to be entered into with Roy R. Herron and Gertrude B. Herron for Parcel #21 on Route 16, Section 5A, between Somerville and Royce Valley in order that there may be separate payment for the removing of a building at the cost of $1250.00 and payment for land at the cost of $150.00, this being done so that the payment for building removal can be made as soon as the work is done without waiting for the clearing of the title for the land.

Route 13 Drainage.

The Secretary presented a communication from Assistant Attorney General DeVoe, advising that he would recommend proceedings to be entered into in the Court of Chancery for injunction in the industrial sites matter to compel opening up drainage. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the Attorney General be notified to apply for an injunction in the Court of Chancery against the owners of industrial sites in order that they may be restrained from further obstructing the drainage of water from State Highway Route 13 near New Brunswick.

Leave of Absence, Joseph Sullivan, Principal Clerk, 9-1-25 to 9-10-25

Route 14 - Taking Over

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the adoption of the following resolution taking over a portion of State Highway Route 14, Sections 10 and 11, between Seaville and Tuckahoe:

September 8, 1925.

WHEREAS, under the provisions of Article 3, Chapter 14, Laws of 1917, the State Highway Commission may, by resolution, take over as a State Highway any routes, route or part thereof, of those highways designated by the Act to be taken over as State Highways;

NOW, THEREFORE, BE IT RESOLVED, that the following described road be and the same is hereby taken over as a part of State Highway Route 14 according to the Statute in such case, made and provided, viz.;

BEGINNING at a point in the center line of the old Seaville and Tuckahoe Road, said point being at the intersection of the new northerly right of way line of Route 14, Section 10, as constructed, said point being measured thirty-three (33) feet normally from the center line of Route 14, Section 10, at about Station 1332 plus 85; thence (1) North seventy-one degrees, two minutes West (N71°02'W) a distance of twelve hundred fifty-four (1254) feet more or less to the point of curvature of a six (6) degree curve to the right with a central angle of twenty-eight degrees, forty-three minutes (28°43'); thence (2) along the arc of said curve a distance of four hundred seventy-eight and sixty-one one-hundredths (478.61) feet to the point of tangency of said curve; thence (3) North forty-two degrees, nineteen minutes West (N42°19'W) a distance of eighteen hundred thirty-two and forty-three one-hundredths (1832.43) feet to the point of curvature of a six (6°) degree curve to the left; thence (4) in a northwesterly direction a distance of three hundred sixty-seven (367) feet more or less to a point in the new northerly right of way line of Route 14, Section 11, said point being measured thirty-three (33) feet from the center line of Route 14, Section 11, at Station 1374 plus 77.

RESOLVED FURTHER, that the proper authorities of Cape May County be notified by the Secretary of this Commission of such action and that from and after the date hereof, the said road will constitute part of State Highway Route 14, and that this Commission will be responsible for the improvement and maintenance of the road described above.

BE IT FURTHER RESOLVED, that the County of Cape May be requested to file with the State Highway Department within thirty-(30) days of the date hereof, any agreement or copies of franchises that they may have with any public utilities, or any other company, firm, individual or corporation, affecting the construction, maintenance or use of the above described road.

Abandonment-Route 5

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the following resolution of abandonment of three portions of Route 5, Section 12, Netcong-Canal Culvert section to the County of Morris:

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 5 from Newark to the bridge crossing over the Delaware River about two miles above Delaware by way of Morristown, Dover, Netcong, Budd's Lake, Hackettstown, Buttzville and Delaware, and

WHEREAS, in the construction and improvement of the said State Highway Route 5, Section 12, from Netcong to Canal Culvert, it has been found desirable to relocate certain portions of the said Route for the purpose of betterment of the alignment, grade, etc., and

September 8, 1925.

WHEREAS, upon the construction of the said route and section of the revised line, there are portions heretofore used as a part of the road before improvement which are no longer needed as a part of the improved State Highway.

NOW, THEREFORE, BE IT REVOLVED by the State Highway Commission of the State of New Jersey that the certain portions of State Highway Route 5, Section 12, as hereinafter described, be and the same are hereby abandoned as a part of State Highway Route 5, Section 12, and vacated in accordance with the provisions of Chapters 14 and 15 of the Laws of 1917 and the amendment thereto in Chapter 220, Laws of 1919.

Portion No.1

Beginning at a point in the center line of the old road between Netcong and the Canal Culvert, where the said center line is intersected by the new southerly right of way line of Route 5, Section 12, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the said State Highway at about Station 62 plus 70; thence (1) in a southerly direction along the center line of the old road a distance of two hundred seventy-two (272) feet more or less to a point; thence (2) curving to the left a distance of one hundred eighty-two '182) feet more or less to a point; thence (3) in a northerly direction a distance of one hundred forty-eight (148) feet more or less to a point; thence (4) curving to the left a distance of one hundred seventy-one (171) feet more or less to a point in the new southerly right of way line of Route 5, Section 12, said point being measured thirty-three (33) feet normally from the center line of said State Highway at about Station 70 plus 21.

Portion No. 2

Beginning at a point in the center line of the old road between Netcong and the Canal Culvert where the said center line is intersected by the new southerly right of way line of Route 5, Section 12, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the said State Highway about Station 86 plus 59; thence (1) in a southerly direction along the center line of the old road a distance of ninety-two (92) feet more or less to a point: thence (2) curving to the left a distance of one-hundred (100) feet more or less to a point; thence (3) still curving to the left a distance of two hundred nineteen (219) feet more or less to a point in the new southerly right of way line of Route 5, Section 12, said point being measured thirty-three (33) feet normally from the center line of said State Highway at about Station 90 plus 28.

Portion No. 3

Beginning at a point in the center line of the old road between Netcong and the Canal Culvert where the said center line is intersected by the new northerly right of way line of Route 5, Section 12, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the said State Highway at about Station 123 plus 8[illegible]; thence (1) in a northerly direction along the center line of the old road a distance of one hundred seventy-six (76) feet more or less to a point; thence (2) in a southerly direction and curving to the left a distance of one hundred thirty (130) feet more or less to a point; thence (3) in a southerly direction a distance of one hundred thirty-three (133) feet more or less to a point in the new northerly right of way line of

Route 5, Section 12, said point being measured thirty-three (33) feet normally from the center line of said State Highway at about Station 127 plus 61.

BE IT FURTHER RESOLVED, that a notice of this vacation be forwarded to the Board of Chosen Freeholders of the County of Morris, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intentiön of the State Highway Commission to abandon and vacate those portions of the old road between Netcong and the Canal Culvert as taken over January 15, 1920 lying outside of the limits of the fight of way of the new road as constructed between Station 62 plus 70 more or less and Station 127 plus 61, more or less, as shown on plans attached hereto and on file in the offices of the said State Highway Commission at Trenton, New Jersey.

Abandonment-Route 9

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the following resolution of abandonment of one portion of Route 9, Section 1, between Westportal and the Union Township line, to the County of Hunterdon:

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway, in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 9, Elizabeth to Phillipsburg, by way of Westfield, Plainfield, Bound Brook, Somerville, White House, Clinton, Westportal and Bloomsbury, and

WHEREAS, in the construction and improvement of the said State Highway Route 9, Section 1, West Portal to Union Township Line, it has been found desirable to relocate a certain portion of the said route for the purpose of betterment of the alignment, grade, etc., and

WHEREAS, upon the construction of the said Route and section of the revised line, there is a certain portion heretofore used as a part of the road before improvement which is no longer needed as a part of the improved State Highway.

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portion of State Highway Route 9, Section 1, as hereinafter described be and the same is hereby abandoned as a part of State Highway Route 9, Section 1, and vacated in accordance with the provisions of Chapters 14 and 15, Laws of 1917 and the amendment thereto in Chapter 220, Laws of 1919.

BEGINNING at a point in the center line of the old road as taken over, where the said center line is intersected by the new northerly right of way line of Route 9, Section 1, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 2 plus 61, and running thence (1) in an easterly direction a distance of three hundred eighty-one (381) feet more or less to a point in the center line of the road leading from West Portal to Asbury, said point being in front of the West Portal Hotel.

BE IT FURTHER RESOLVED, that a notice of this vacation be be forwarded to the Board of Chosen Freeholders of Hunterdon County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

IT BEING the intention of the State Highway Commission to abandon and vacate that portion of the old road as taken over September 1, 1919, lying outside the limits of the acquired right of way of the new road as constructed between Station 2 plus 61 more or less and a point in the center line of the road leaving from West Portal to Asbury, said point being in front of the West Portal Hotel as shown on plan attached hereto and on file in the offices of the said State Highway Commission at Trenton, New Jersey.

Abandonment-Route 9

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the following resolution of abandonment of four portions of Route 9, Section 1, West Portal-Union Township Line to Bethlehem Township:

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway, in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads, known as State Highway Route 9, from Elizabeth to Phillipsburg, by way of Westfield, Plainfield, Bound Brook, Somerville, White House, Clinton, West Portal and Bloomsbury, and

WHEREAS, in the construction and improvement of the said State Highway Route 9, Section 1, West Portal to Union Township Line, it has been found desirable to relocate certain portions of the said route for the purpose of betterment of alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there are certain portions heretofore used as part of the road before improvement which are no longer needed as part of the improved State Highway.

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portions of State Highway Route 9, Section 1, as hereinafter described be and the same are hereby abandoned as part of State Highway Route 9, Section 1, and vacated in accordance with the provisions of Chapters 14 and 15, Laws of 1917, and the amendment thereto in Chapter 220, Laws of 1919.

Portion No. 1

Beginning at a point in the Township of Bethlehem, the center line of the West Portal-Jugtown Mountain Road, at its intersection with the center line of the road leading from West Portal to Asbury in front of the West Portal Hotel; thence (1) in a southeasterly direction a distance of seventy-four (74) feet more or less to a point; thence (2) still in a southeasterly direction a distance of ninety-nine (99) feet more or less to a point; thence (3) curving to the right for a distance of one hundred ten (110) feet more or less to a point; thence (4) in a southeasterly direction a distance of one hundred twenty-four (124) feet more or less to a point; thence (5) still in a southeasterly direction a distance of eighty-seven (87) feet more or less to a point; thence (6) curving to the right for a distance of one hundred sixty-three (163) feet more or less to a point in the new northerly right of way line of Route 9, Section 1, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 12 plus 47.

Portion No. 2

Beginning at a point in the center line of the old road as taken over, where the said center line is intersected by the new southwesterly right of way line of Route 9, Section 1 of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 13 plus 48 and running thence (1) in a southerly direction a distance of five hundred eighty-three (583) feet more or less to a point; thence (2) curving to the left for a distance of one-hundred forty-five (145) feet more or less to a point; thence (3) curving to the right for a distance of eighty-three (83) feet more or less to a point; thence (4) in a southerly direction a distance of three hundred forty-three (343) feet more or less to a point in the westerly right of way line of Route 9, Section 1, said point being measured thirty-three (33) feet normally from the center line of said State Highway at about Station 25 plus 26.

Portion No. 3

Beginning at a point in the center line of the old road as taken over, where the said center line is intersected by the new easterly right of way line of Route 9, Section 1, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 29 plus 48 and running thence (1) in a southeasterly direction a distance of two hundred ninety-one (291) feet more or less to a point in the said new easterly right of way line of Route 9, Section 1, said point being measured thirty-three (33) feet normally from the center line of said State Highway at about Station 32 plus 54.

Portion No. 4

Beginning at a point in the center line of the old road as taken over, where the said center line is intersected by the new northerly right of way line of Route 9, Section 1, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 35 plus 14 and running thence (1) in an easterly direction a distance of four hundred fifty-four (454) feet more or less to a point; thence (2) curving to the left for a distance of one hundred eighty-five (185) feet more or less to a point; thence (3) curving to the right for a distance of sixty-nine (69) feet more or less to a point; thence (4) in an easterly direction a distance of ninety-nine (99) feet more or less to a point; thence (5) still in an easterly direction a distance of one hundred six (106) feet more or less to a point: thence (6) in an easterly direction a distance of two hundred thirteen (213) feet more or less to a point; thence (7) curving to the right for a distance of forty (40) feet more or less to a point; thence (8) curving to the left for a distance of ninety-five (95) feet more or less to a point; thence (9) curving to the right for a distance of one hundred seventy-three (173) feet more or less to a point in the said new northerly right of way line of Route 9, Section 1, aaid point being measured thirty-three (33) feet normally from the center line of said State Highway at about Station 49 plus 37.

BE IT FURTHER RESOLVED, that a notice of this vacation be forwarded to the Township Committee of Bethlehem Township, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate those portions of the old road as taken over September 1, 1919, lying outside the limits of the acquired right of way of the new road as constructed between the intersection of the center line of the West Portal-Jugtown Mountain Road and the center line of the road leading from West Portal to Asbury in front of the West Portal Hotel and Station 49 plus 37 more or less as shown on plans attached hereto and on file in the offices of the said State Highway Commission at Trenton, New Jersey.

Abandonment-Route 14

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the following resolution of abandonment of two portions of Route 14, Section 9, Ocean View-Seaville, to the County of Cape May:

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 14, from Egg Harbor City to Cape May City, by way of Mays Landing, Tuckahoe and Cape May Court House, and

WHEREAS, in the construction and improvement of the said State Highway Route 14, Section 9, from Ocean View of Seaville, it has been found desirable to relocate a certain portion of the said Route for the purpose of betterment of the alingment, grade, etc., and

WHEREAS, upon the construction of the said Route and Section of the revised line, there are certain portions heretofore used as a part of the road before improvement which are no longer needed as a part of the improved State Highway,

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portions of State Highway Route 14, Section 9, as hereinafter described be and the same are hereby abandoned as a part of State Highway Route 14, Section 9, and vacated in accordance with the provisions of Chapters 14 and 15, Laws of 1917, and the amendment thereto in Chapter 220, Laws of 1919.

Portion No. 1

Beginning at a point in the center line of the old road between Ocean View and Seaville, where the said center line is intersected by the new easterly right of way line of Route 14, Section 9, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of said State Highway at Station 1152 plus 51 more or less; thence (1) in a northeasterly direction along the center line of the old road a distance of three hundred thirty-three (333) feet more or less to a point; thence (2) still along said center line of old road, in a northwesterly direction a distance of one hundred seventy (170) feet more or less to a point in the new easterly right of way line of said State Highway, said point being measured thirty-three (33) feet normally from the center line of said State Highway at about Station 1156 plus 27.

Portion No. 2

Beginning at a point in the center line of the old road between Ocean View and Seaville, where the said center line is intersected by the new westerly right of way line of Route 14, Section 9, of the New Jersey State Highway System, said point being thirty-three (33) feet normally from the center line of said State Highway at Station 1156 plus 90 more or less; thence (1) in a northwesterly direction along the center line of the old road, a distance of five hundred eighty-five (585) feet more or less to a point; thence (2) still along said center line of the old road, in a northerly direction a distance of seven hundred seven (707) feet more or less to a point in the new westerly right of way line of said State Highway, said point being measured thirty-three (33) feet normally from the center line of said State Highway at about Station 1168 plus 32.

BE IT FURTHER RESOLVED that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Cape May County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate those portions of the old road as taken over May 1, 1920, lying outside the limits of the acquired right of way of the new road as constructed between Station 1152 plus 51 more or less and Station 1168 plus 32 more or less as shown on plan attached hereto and on file in the offices of the said State Highway Commission at Trenton, New Jersey.

Abandonment-Route 14 ✓

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the following resolution of abandonment of one portion of Route 14, Section 10, Seaville to Petersburg, to the County of Cape May.

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 14, from Egg Harbor City to Cape Map City, by way of Mays Landing, Tuckahoe and Cape May Court House, and

WHEREAS, in the construction and improvement of the said State Highway Route 14, Section 10, from Seaville to Petersburg, it has been found desirable to relocate a certain portion of the said route for the purpose of betterment of the alignment, grade, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there is a certain portion heretofore used as a part of the road before improvement which is no longer needed as a part of the improved State Highway.

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portion of the State Highway Route 14, Section 10, as hereinafter described be and the same is hereby abandoned as a part of State Highway Route 14, Section 10, and vacated in accordance with the provisions of Chapters 14 and 15 of the Laws of 1917 and the amendment thereto in Chapter 220, Laws of 1919.

Beginning at a point in the center line of the old road between Seaville and Petersburg, where the said center line is intersected by the new westerly right of way line of Route 14, Section 10, of the New Jersey State Highway System, said point being measured thirty-three (33) feet normally from the center line of the said State Highway at Station 1208 plus 59 more or less; thence (1) in a northeasterly direction along the center line of the old road a distance of two hundred fifty-eight (258) feet more or less to a point; thence (2) still along said center line of the old road, in a northeasterly direction a distance of three hundred seventy-two (372) feet more or less to a point; thence (3) still along said center line of old road, in a northeasterly direction a distance of ninety-five (95) feet more or less to a point; thence (4) still along said center line of old road, in a northeasterly direction a distance of one hundred twenty-six (126) feet more or less to a point; thence (5) still along said center line of old road in a northeasterly direction a distance of one hundred forty-four (144) feet more or less to a point in the new westerly right of way line of said State Highway, said point being measured thirty-three (33) feet normally from the center line of said State Highway at about Station 1218 plus 42.

BE IT FURTHER RESOLVED, that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Cape May County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate that portion of the old road as taken over May 1, 1920, lying outside the limits of the acquired right of way of the new road as constructed between Station 1208 plus 59 more or less and Station 1218 plus 42 more or less as shown on plan attached hereto and on file in the offices of the said State Highway Commission at Trenton, New Jersey.

Abandonment-Route 16

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the following resolution of abandonment of three portions of Route 16, Section 3, Bedminster Corner-Pluckamin, to the County of Somerset:

WHEREAS, the State Highway Commission has heretofore taken over as a State Highway, in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads known as State Highway Route 16 from Princeton to Morristown by way of Harlingen, Belle Mead, South Somerville, Pluckemin, Bedminster, Far Hills, Bernardsville and VanDorne's Mills, and

WHEREAS, in the construction and improvement of the said State Highway Route 16, Section 3, from Bedminster to Pluckemin, it has been found desirable to relocate certain portions of the said Route for the purpose of betterment of the alignment, grades, etc., and

WHEREAS, upon the construction of the said route and section of the revised line, there remain certain portions heretofore used as a part of the road before improvement which are no longer needed as a part of the improved State Highway;

NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain described portions of State Highway Route 16, Section 3, as hereinafter described be and the same are hereby abandoned as a part of Route 16, Section 3, and vacated in accordance with the provisions of Chapters 14 and 15, Laws of 1917, and the amendment thereto in Chapter 220, Laws of 1919.

Portion No. 1

Beginning at a point in the center line of the old road, said point being at the intersection of the said center line and the new westerly right of way line of Route 16, Section 3, said point being measured thirty-three (33) feet from the center line of the new road at about Station 402 plus 11; thence (1) in a southerly direction a distance of one hundred fifty-nine (159) feet more or less to a point; thence (2) curving to the left for a distance of one hundred seventy (170) feet more or less to a point; thence (3) still curving to the left a distance of one hundred (100) feet more or less to a point; thence (4) in a southeasterly direction a distance of sixty-four (64) feet more or less to a point; Thence (5) in a southeasterly direction a distance of one hundred fourteen (114) feet more or less to a point in the new westerly right of way line of Route 16, Section 3, said point being measured thirty-three (33) feet from the center line of the new road at about Station 407 plus 93.

Portion No. 2

Beginning at a point in the center line of the old road said point being at the intersection of the westerly right of way line of Route 16, Section 3, said point being measured thirty-three (33) feet from the center line of the new road as constructed at about Station 427 plus 44; thence (1) in a southwesterly direction a distance of two hundred fifty-seven (257) feet more or less to a point; thence (2) still in a southwesterly direction a distance of three hundred twenty-five (325) feet more or less to a point; thence (3) curving to the left for a distance of one hundred thirteen (113) feet to a point in the southerly right of way line of the road at Burnt Mills.

Portion No. 3

Beginning at a point in the center line of the old road, said point being at the intersection of the said center line and the new easterly right of way line of Route 16, Section 3, said point being measured thirty-three (33) feet normally from the center line of the new road as constructed at about Station 446 plus 25; thence (1) in a southeasterly direction a distance of one hundred thirty-eight (138) feet more or less to a point; thence (2) curving to the right a distance of one hundred twenty-four (124) feet more or less to a point; thence (3) in a southerly direction a distance of one hundred eighty-nine (189) feet more or less to a point; thence (4) in a southeasterly direction a distance of one hundred forty-two (142) feet more or less to a point in the said new easterly right of way line, said point being measured thirty-three (33) feet normally from the center line of Route 16, Section 3, at about Station 452 plus 20.

BE IT FURTHER RESOLVED that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Somerset County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate those portions of the old road lying outside the limits of the new road as constructed between Station 402 plus 11 more or less and Station 452 plus 20 more or less as shown on plan attached hereto and on file in the offices of the said State Highway Commission at Trenton, New Jersey.

Detours-Route 9

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission adopted the following official detour during the construction of Route 9, Section 15-A, through Cranford:

> "Beginning at a point on North Avenue (Route 9) in the Township of Cranford, where the same is intersected by Miln Street and runs thence (1) northeasterly on Miln Street to Springfield Avenue; thence (2) southeasterly on Springfield Avenue to North Avenue (Route 9.

Route 4, Bradley Beach

There was presented a report from the Maintenance Department on the condition of Route 4 through Bradley Beach, concerning which the Borough made request for a new pavement by presenting a letter at the last meeting. This report indicated that with the repair of approximately 123½ square yards, the pavement will be put in first class shape and there is no need for reconstruction at this time. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that the Borough of Bradley Beach be advised that a report has been received concerning the pavement in the Borough and just as soon as traffic conditions permit, the necessary repairs will be made to place the entire section in first class condition.

Route 20 Widening-Westville

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of an agreement to be entered into with the Borough of Westville for such additional work as is necessary for the widening of Route 20, Section 3, through Westville.

Offices-State Highway

State Highway Engineer Sloan presented to the Commission a lease in duplicate covering space proposed to be taken by the State Highway Department in the Industrial Office Building at Newark, which building has been selected by the State Housing Committee for all State offices in Newark to concentrate in. It was proposed to move the Northern Division offices, now located in Newark, to this building. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission moved that Mr. John Reddan of the State Housing Committee be invited to meet with the Commission at its next meeting for a conference concerning this lease.

Entrance Road, Camden

The State Highway Engineer presented to the Commission certified copies of ordinances passed by the City Commissioners of Camden concerning the widening of Penn and Linden Streets. Inasmuch as he advised that it was apparent that the City is not complying with its part of the agreement entered into with the State, whereby the improvement of the Camden Extension of Routes 2, 3 and 6 to the Delaware River Bridge is not being undertaken, he recommended to the Commission that notification be forwarded to the City of Camden to the effect that the widening as proposed in their ordinances is not satisfactory to the Commission and they be requested to act in accordance with the contract entered into. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that these ordinances be referred to Assistant Attorney General DeVoe and the State Highway Engineer for the preparation of a proper letter to be forwarded to the City authorities of Camden in reference thereto.

Route 10, Ridgefield Park

There was presented a communication from the Mayor of Ridgefield Park on Route 10, advising that traffic conditions now existing at the junction of the Bergen Pike and Ridgefield Avenue in Ridgefield Park are such that it is necessary to make an improvement to the shoulders in order to reduce the traffic congestion existing. State Highway Engineer Sloan recommended to the Commission that shoulders be constructed on this section with an amiesite surface, work to be done by the Maintenance Department in accordance with the estimate submitted. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the recommendation of the State Highway Engineer for the improvement of shoulders on Route 10 through Ridgefield Park.

Absecon Boulevard, Atlantic County

The Secretary presented a communication from A. H. Nelson, County Engineer of Atlantic County, inquiring as to whether the Commission would approve of a payment to the Union Paving Company of one-half the retained percentage on the Absecon Boulevard, Atlantic County.

The Secretary informed the Commission that under existing legislation it is not possible for the Commission to reduce the retained percentage on any State Aid contract below the ten percent mentioned in the law. However, further payment to the contractor may be obtained where a job is practically finished by accepting all of the completed work and retaining 125 percent of the uncompleted portions. In this connection there was also presented a letter from the Union Paving Company, requesting an extension of time on this work. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission directed that County Engineer Nelson be advised that it is not within the power of the State Highway Commission to approve of a reduction in the retained percentage of any contract, but if a request is made for acceptance of the work, less 125 percent of the uncompleted portions, it would be given consideration, and further the State Highway Commission is desirous that the entire work be completed before the question of extension of time is taken up.

Route 9, Cranford

The State Highway Engineer presented to the Commission a form of resolution presented for adoption in order that the Township of Cranford may enter into a contract with the Public Service Electric & Gas Company for the construction, operation and maintenance of underground conduits on Route 9 between Miln Street and the Rahway River in Cranford.

State Highway Engineer Sloan recommended that this resolution be adopted in accordance with changes which he would suggest concerning the location of the conduits, their capacity and their future maintenance. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission adopted a resolution covering the above matter and in which is contained the changes recommended by the State Highway Engineer.

Federal Aid-
Route 2, Section 8.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of Federal Aid Agreement No. 69C, Route 2, Section 8, Bridgeboro-Pensauken Creek.

Maintenance-Somerset County

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved the road maintenance and betterment schedule for 1925 for Somerset County.

Wenonah-Mantua Road, Gloucester Co.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of award of contract by the Gloucester County Board of Freeholders for the Wenonah-Mantua Road to the Freehold Construction

Company at $147,757.84.

East & West Passaic Ave., Motor Vehicle Aid-Essex County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved award of contract by the Essex County Board of Freeholders on East and West Passaic Avenue to the Franklin Contracting Company at $150,919.00.

Sparta-Woodport Road, Motor Vehicle Aid-Sussex Co.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of award of contract by Sussex County Board of Freeholders for the Sparat-Woodport Road, to R. B. Cahill, Inc. at $84,084.75, Motor Vehicle Aid work.

Belleville Turnpike, Motor Vehicle Aid-Hudson Co.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of award of contract by the Board of Freeholders of Hudson County for Belleville Turnpike, to Letteri & Bellera at their bid of $49,866.25.

Mountain Avenue, Hackettstown, Motor Vehicle Aid-Warren Co.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of plans and specifications as submitted by Warren County for Mountain Avenue, Hackettstown, Motor Vehicle Aid work.

Township Aid-Gloucester, Middlesex, Ocean and Union Counties

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved acceptance and final payment on the following Township Aid improvements:

Township	Road	County
Logan,	Bridgeport & Gibbstown (force account work)	Gloucester
Raritan,	Main Street,	Middlesex
Logan Beach,	13th St., Bonnett Beach, 14th, 15th, 17th 18th, 22nd, 23rd, 24th, 25th Sts., Beach Arlington, 26th, 29th, 30th Sts., Ship Bottom, Culber Ave., Jeanette Ave., Beach Haven Crest, Delaware Ave., and Beach Haven Terrace,	Ocean
Linden,	Cranford Avenue,	Union
"	Morris Avenue,	"

Township Aid, Middlesex, Bergen, Hudson and Monmouth Counties

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved plans and specifications for the following Township improvements:

September 8, 1925.

Township	Road	County
Raritan,	Plainfield Ave., Section 1,	Middlesex
Hillsdale Boro,	Ruckman Avenue,	Bergen
North Bergen,	Hoboken & Hudson River Turnpike,	Hudson
Little Silver Boro.,	Church St., Prospect Ave. and Willow Drive,	Monmouth

Township Aid-Middlesex and Passaic Counties.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the following extensions of time on Township Aid improvements:

Main Street, Raritan Township, Middlesex County - fourteen days.

Bogart Street and Grant Avenue, Totowa Borough, Passaic County - from September 1st to September 15th.

Township Aid-
Bergen and Union Counties

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the award of the following Township Aid contracts:

Crescent Avenue, Sections 1 & 2, Franklin Township, Bergen County,
Valley Street, Union Township, Union County.

Township Aid-
Burlington, Camden, Cumberland, Gloucester, Hunterdon and Salem Counties

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the following Township Aid Force Account Agreements:

County	Township	Name of Road
Burlington	Bass River	Warren Grove-Washington Road,
Camden	Berlin	Old Taunton Road,
"	Winslow	Mays Landing Road,
Cumberland	Landis	West Railroad Boulevard Road,
"	Downe	Turkey Point Road, Section 3,
"	Greenwich	Stoe Creek Road and others,
Gloucester	Elk	Swedesboro and Franklinville Road,
Hunterdon	West Amwell	Old Brunswick Pike,
Salem	Upper Penns Neck	Willey Road.

Township Aid-Ocean County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the following applications and agreements for Township Aid in Ocean County:

Township	Name of Road	State's Share
Long Beach	Beach Avenue,	$4,603.00
Lakewood	Park Avenue,	2,100.00
"	Prospect Street & Ridge Avenue,	3,597.00
Ship Bottom Boro	Ship Bottom-Beach Arlington Sts.,	7,500.00
Brick	Hubertsville-Greenville Road,	1,200.00

September 8, 1925.

Township Aid Cancellation

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the cancellation of an unexpended balance of $943.07 on Mill Lane Road, North Brunswick Township, Middlesex County, same to revert to the general Township Aid Account.

Main St., Pennington

Chairman Jelin reported having inspected the completed work on Main Street, Pennington, Mercer County and recommended that the same be accepted on the part of the State. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the acceptance of the completed work on Main Street, Pennington and authorized final payment of the State's share thereon.

Sparta-Woodport

Commissioner Kidde reported having inspected the completed work on the Sparta-Woodport Road, Sussex County, and moved acceptance on the part of the Commission and that final payment be authorized. This was accepted by Mr. Stewart and adopted.

Fredon-Stillwater

Commissioner Kidde reported the inspection and moved final payment and acceptance on the Fredon-Stillwater Road, Section 1, Sussex County, State Aid work. This was seconded by Mr. Stewart and adopted.

Conferences

Commissioner Kidde reported having attended a conference of railroad officials and county authorities on the matter of reaching some agreement for the closing of navigable streams during certain hours of the day, in order that the opening and closing of draw bridges would not be necessary during such periods. He advised that there was special reference to the bridges over the Passaic and Hackensack Rivers and he had informed them that although he was not representing the Commission at this time, he believed the State Highway Commission was very much interested in such a movement.

Commissioner Kidde also reported concerning his attendance at a meeting of the Board of Freeholders of Essex County at Newark on the matter of Route 1 Extension over the meadows and to Newark and that the Board was now studying the suggested proposal of building a county bridge and also constructing a wide boulevard from where the new road crosses the Lincoln Highway into the City in order to accommodate the proposed improvements in Newark.

The Secretary informed the Commission that he had received a communication from General Scott, advising that he would return to his home on Saturday, September 12th. Commissioner Kidde, therefore, moved that the next meeting of the Commission be held on September 15th and that this meeting be adjourned at this time, 5:45 P M. This was seconded by Mr. Stewart and adopted.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - September 15, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, Tuesday, September 15, 1925. The meeting was called to order at 11:00 A. M., by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Walter Kidde and Abraham Jelin.

Absent: Percy H. Stewart.

Realignment, Route #9 Clinton

The Secretary informed the Commission that in accordance with directions given by the Commission, a public hearing had been duly advertised to be held this day on the subject of realignment of State Highway Route #9 at Clinton, New Jersey. He advised that advertisements were placed in local papers and that there were about forty interested citizens present for this hearing. On motion, duly seconded, a hearing was declared next in order.

State Highway Engineer Sloan was called upon to explain the proposed change in alignment and exhibited a map on which was indicated in yellow the present State Highway Route and in a heavy red line the change in alignment. He informed the Commission that he was prepared to recommend a revision of Route #9 at Clinton for about 8000 feet. He advised that the State Highway now occupies the main street of the town and necessitates several right angle turns as well as a reconstruction of bridges, and in his recommendation the distance on the revised alignment is 450 feet shorter than the present route and the curves would be reduced to a maximum of three and one-half degrees. He also advised that the proposed line will involve less cost than the construction over the old line. The plan proposed to have the road leave the present Route #9, at the Clinton House on Main Street and run directly East making a new crossing over the Raritan River. It would pass over Leigh Street just North of Beaver Brook Bridge and continue easterly on the northerly side of the creek through Gano Brothers meadow to the intersection of Route #9 at the Morgan property. The delegation was given an opportunity to inspect these plans, and following this, Chairman Scott asked for statements from the local people.

Former Senator P. R. Gebhardt addressed the Commission and advised that he has resided in the Town of Clinton for may years and he recalled the flood of 1869 which wrought havoc in the Town of Clinton, and he stressed the point that he desired to warn the Commission in the building of any new line of the fact that such floods were possible and would interfere with the successful construction of a new line.

The State Highway Engineer informed the Commission that due consideration had been given in the new plan to the flood conditions which exist in this locality and the bridge had been so designed as to give greater clearance for the flow of water than exists on the old bridge. He also advised that openings were being provided in the new highway embankment which would permit the back water to find its way to the stream without flooding the country on the side of the road next to the town. He also stated that in certain instances, and in this case particularly, it was not anticipated that the highway would not be flooded but that would happen at very infrequent intervals.

Mr. J. F. Miers of Clinton was the only one to voice objection to the new line and asked that the line follow the present route, his objections being mainly on account of the water conditions which might be caused by the new road acting as a dam.

County Engineer Davis informed the Commission that the Freeholders had nothing to offer at this time except to say that the County would not like to have to take back the old road for maintenance if the new line was constructed.

State Highway Engineer Sloan informed the Comission that under the law the old road would have to be abandoned and would revert either to the County or the the local municipality.

Commissioner Kidde inquired whether assuming that the engineering features are properly taken care of, there were any objections to the new line proposed. He stated that he could see considerable advantage accuring to Clinton in the construction of the new line in giving an expansion to the locality.

State Highway Engineer Sloan also pointed out that to use the old line would necessitate the removal of considerable sidewalks and trees in order to gain extra width and would make it very objectionable to the community. There were no objections raised other than the statements made by Mr. Miers, and Chairman Scott informed the delegation that the Commission appreciates their coming down and expounding their views on the proposed new line and all that had been said would be carefully noted and whatever the decision will be, the Commission would assure them that the road will be entirely satisfactory.

Commissioner Kidde took occasion at this time to inquire concerning the dam used for securing water power to the old mill on this location. He suggested that if the mills would use electric power the damming of the water would be made unnecessary and this would relieve the flood dangers quite considerably.

Entrance and Connecting Roads, Camden

The Secretary informed the Commission that Mr. S. J. Groves, President of the S. J. Groves & Sons Company, low bidder on advertisement for Entrance Road Section #2, and Connecting Road, Sections #1 & #2, Camden, was present concerning the award of contract. State Highway Engineer Sloan informed the Commission that the following bids had been received for the grading and drainage of Entrance Road, Section #2, and Connecting Road, Sections #1 and #2 of the Camden Bridge approach and was prepared to recommended the award of contract to S. J. Groves & Sons Company, the lowe st bidder conditioned upon the approval of the War Department for the relocation of a section of the Cooper River Channel:-

S. J. Groves & Son......................	$ 758,710.45
C. F. Seabrook Co., M. Staub and Kolyn Construction Company............	759,081.70
S. S. Thompson & Co.....................	795,669.85
McLean Contracting Co....................	819,436.80

Commissioner Kidde therefore moved the adoption of the following resolution of award:-

RESOLVED that the contract for the grading and drainage of Entrance Road, Section #2, and Connection Road Sections #1 and #2, Camden Bridge Approach, be and the same is hereby awarded to S. J. Groves & Sons Company of Duncannon, Pa., at their's the lowest bid in the amount of $758,710.45; this award conditioned upon the approval of the War Department for the relocation of a section of the Cooper River Channel included in this work, and

BE IT FURTHER RESOLVED that the Chairman is authorized to sign the necessary contracts upon receipt of such approval from the War Department and the approval of the State Highway Engineer.

Offices, State Highway.

The Secretary informed the Commission that John A. Reddan, Budget Commissioner, was present at the request of the Commission concerning the proposed leasing of Newark headquarters for the Northern Division offices in the Industrial Office Building at Newark. The Commission then went into conference with Mr. Reddan, following which on motion by Mr. Jelin, seconded by Mr. Kidde, the Commission directed that this matter be referred to the State Highway Engineer for the negotiation of lease in the Industrial Office Building.

Route #6, Brooklawn-Woodbury.

The Secretary informed the Commission that following the hearing given on the realignment of Route #6, between Brooklawn and Woodbury on September 8th, it was determined that the Commission make an inspection of this line. He inquired as to what date would be set for such an inspection. Chairman Scott advised that a tentative date had been selected for next Monday when he would accompany the State Highway Engineer to the War Department offices at Wilmington on the matter of the Toms River Bridge, and at that time he would inspect this section of road.

Commissioner Jelin advised that he had already made an inspection of the same and Commissioner Kidde stated that he would make the inspection within the next week.

Toms River Bridge.

The Secretary presented a communication from Governor Silzer transmitting a copy of a letter received by him from the President of the Board of Commerce and Navigation in which the Board of Commerce and Navigation advised that they were ready to grant a reconsideration in the matter of the Toms River Bridge and would set a date suitable to the State Highway Commission for a re-hearing. They also advised that they believed it would be desirable in every case where problems were to be presented by the State Highway Commission at a public hearing, that they be first taken up in conference with their body. On motion by Mr. Kidde, seconded by Mr. Jelin, the Communication was ordered acknowledged and filed.

Request for Aid, Rocky Hill.

The Secretary presented a communication received by Commissioner Jelin from Wm. H. Powell, President of the Atlantic Terra Cotta Company of Rocky Hill, requesting aid in the construction of a road from Ten Mile Run on the Lincoln Highway Route #13 to the Pennsylvania Railroad Station, passing Washington's Headquarters. State Highway Engineer Sloan advised that this was not State Highway improvement and that any aid must be first applied for by the local authorities. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that Mr. Powell be advised that this matter be taken up with the authorities of the Township in order that request may be made for Township Aid from the State funds.

Right of Way, Route 1, Extension.

The Secretary presented a bill from C. Alfred Burhorn for services in connection with appraisals on Route #1 Extension, in the amount of $25.00. On motion by Mr. Kidde, seconded by Mr. Jelin, this bill was ordered paid.

In connection with Route #1 Extension, Commissioner Kidde reported that in company with Assistant Construction Engineer Lavis he had attended a meeting of the Chamber of Commerce of Newark last Wednesday and that he had listened to a request for constructive criticisms on the proposed Route #1 Extension through Newark. It appeared from the discussion that most of those present were interested in the consideration of feeders from the outlying districts into Newark, and he advised that he had informed the local people that the consideration of the Commission was for through traffic and that any local feeders would be purely local improvements with some State Aid where possible. He advised that as a whole the meeting was very complimentary to the State Highway Commission and its staff and there was confidence expressed from all sides.

C Chairman Scott requested Assistant Construction Engineer Lavis to make a short statement concerning the progress being made in Jersey City. Mr. Lavis advised that plans were progressing so that the viaduct could be advertised in about a month. He advised further that relations with the Erie Railroad Company were satisfactory and that the right of way was being procured through the entire section in fair time and negotiations are now under way for the property on Twelfth Street.

On motion by Mr. Kidde seconded by Mr. Jelin, the meeting was recessed for lunch at 1:00 P. M., to meet again at 2:30 P. M. The meeting was reconvened at 2:30 P.M., with the same members present as at the morning session.

Route #7, Section #2.

The Secretary informed the Commission that Mr. Louis Reuter son of J. M. Reuter, contractor on Route #7, Section #2, was present for a hearing before the Commission. On motion, duly seconded, a hearing was granted. Mr. Reuter appeared and advised that his company had presented a claim to the State Highway Commission for $2,000.00 for extra expenses they were put to in returning to the job in the Spring after their equipment had been taken from the work upon its completion in the previous fall following which he informed the Commission that all of the work was completed last fall with the exception of a pavement on a fill which was constructed by the engineers to allow to settle and not to be paved until Spring. He advised, however, that the information to bidders stated that this fill would either be completed of gravel or concrete surface and his company was prepared to complete the gravel in the fall when they were instructed to lay off the work.

State Highway Engineer Sloan informed the Commission that under the contract, the Engineer may at any time for good reason, stop the work and the only redress of the contractor is an extension of time. He further pointed out that even though the contractor found it necessary to return the following Spring, the work was all done within the specified time. Commissioner Kidde stated that in view of Clause #34 in the contract he could not see that the Commission was obligated to the contractor in any way.

Following further discussion, Commission Jelin moved that the matter be given consideration by the Commission in conference. This was seconded by Mr. Kidde and adopted. The Commission immediately went into conference on this matter and following this Commissioner Kidde moved that the State Highway Commission deny the claim of J. M. Reuter & Son for extra compensation on the construction of Route #7, Section #2. This was seconded by Mr. Jelin and adopted.

The Schedule of Business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer:

Route #9, Section #4, Dunellen.

There was presented the following report of bids received on September 14th, for the paving of trolley tracks on Route #2, Section #4, at Dunellen, and the State Highway Engineer recommended award to Martin White, lowest bidder:-

Martin White....................	$ 24,533.60
John Meehan & Son...............	25,828.40
Joseph F. Burke.................	31,564.00
Samuel Sampson..................	32,630.00

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the adoption of the following resolution:-

RESOLVED, that the State Highway Commission does hereby make award of contract for the paving of trolley tracks on Route #9, Section #4, at Dunellen, to Martin White, at his, the lowest bid received, in the sum of $24,533.60, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route #4, Section #13-A and 20B

State Highway Engineer Sloan reported the completion of plans and specifications for the construction of Route #4, Section #13-A, Manasquan Bridge Approach paving and Section #20-B, Manasquan Grade Crossing Elimination paving in Monmouth and Ocean Counties and he recommended approval for the advertisement of the work.. On motion by Mr. Jelin seconded by Mr. Kidde, the State Highway Commission approved the adoption of the following resolution:-

RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route #4, Section #13-A, Manasquan Bridge Approach Paving, and Section #20-B, Manasquan Grade Crossing Elimination Paving in Monmouth and Ocean Counties, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement for the work after approval by the State Highway Engineer.

Route #4, Section #25.

State Highway Engineer Slaon reported the completion of plans and specifications for the construction of Route #4, Section #25, South Amboy-Cliffwood in the Counties of Middlesex and Monmouth and recommended approval of advertisement for the work. Commissioner Jelin inquired as to whether it would be possible to make any change inthese plans whereby this work could be extended to a width of forty feet without destroying the existing brick pavement at Morgan. State Highway Engineer Sloan advised that this would be impracticable due to the fact that the new line will take a new alignment which would necessitate the removal of a part of the existing brick pavement in the proposed scheme. Commissioner Kidde therefore moved the adoption of the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve plans and specifications for the construction of Route #4, Section #25, South Amboy-Cliffwood in the Counties of Middlesex and Monmouth, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement for the work after approval by the State Highway Engineer.

This was seconded by Mr. Jelin and adopted.

Right of Way, Route #3.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the acceptance of quit claim deed for Parcel 307, on Route #3, Section #12, from Placid Lucas for the consideration of $1.00 with thanks.

Right of Way, Route #4.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the acceptance of a quit claim deed for Parcel #26 on Route #4, Section #31, from John A. Sworebell, for the consideration of $1.00 with thanks.

Right of Way, Route #3.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of Parcel #63 on Route #3, Section #13, from Anna M. and Harold McKissick for the consideration of $15.50.

Right of Way, Route #7.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission, on recommendation of the State Highway Engineer, directed that an offer of $100.00 be made to H. P. Burdge for Parcel

September 15, 1925.

#3 on Route #7, Section #5, and in the event of refusal to accept that condemnation proceedings be entered into in accordance with the following resolution:-

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route #7, Section #5, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:-

Parcel No. 3

Beginning at a point formed by the intersection of the dividing line between lands of the grantor herein on the northwest and lands now or formerly of William S. Bergen on the southeast, with the proposed northeasterly right-of-way line of State Highway Route #7, Section #5, distant thirty-three (33) feet normally from the proposed center line of said State Highway at Station 537 + 65.07 as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route #7, Section #5, Property to be acquired from Harry P. Burdge, Howell Township, Monmouth County, Scale 1" = 50', February, 1925", and running:

Thence (1) along said dividing line, South thirty-eight degrees and fifty-three minutes West (S 38° - 53' W) a distance of sixteen and seven tenths (16.7) feet to a point in the existing northeasterly side line of the road leading from Asbury Park to Freehold, also known as State Highway Route #7, Section #5:

Thence (2) along said existing northeasterly sideline, parallel to and sixteen and five tenths (16.5) feet distant normally from said proposed center line, North forty-two degrees and twenty-three minutes West (N 42°-23'-W) a distance of two hundred sixty-seven and fifty seven one-hundredths (267.57) feet to a point in the dividing line between lands of the grantor herein on the southeast and lands now or formerly of Frank H. Matthews on the northwest;

Thence (3) along said dividing line, North forty-six degrees and fifty-five minutes East (N 46°-55'-E) a distance of sixteen and five tenths (16.5) feet to a point in the proposed northeasterly right-of-way line of said State Highway;

Thence (4) along said proposed northeasterly right-of-way line, parallel to and thirty-three (33) feet distant normally from said proposed center line, South forty-two degrees and twenty-three minutes East (S42°-23'E) a distance of two hundred sixty-five and twenty-three one-hundredths (265.23) feet to the point and place of beginning;

CONTAINING one thousand nine ten-thousandths (0.1009) of an acre, be the same more or less

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the existing northeasterly side line and the proposed northeasterly right-of-way line, of said State Highway, extending from the lands now or formerly of William S. Bergen on the southeast to the lands now or formerly of Frank H. Matthews on the northwest, as shown on said plan hereto attached;

TOGETHER WITH all the rights, title and interest of grantor in and to the land lying within the bounds of the existing highway, adjoining the above described premises.

Right of Way, Ringoes-Flemington Road.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved payment of $72.30 to the Treasurer of Hunterdon County, covering bill presented for expenses in connection with the acquisition of right of way on the Ringoes-Flemington Road.

September 15, 1925.

Right of Way, Route #1, Extension.

The State Highway Engineer presented to the Commission a copy of ordinance adopted by the City Commission of Jersey City in connection with the E. W. Cox property on Route #1 Extension, in which resolution the City resolved to direct the E. W. Cox Company to stop all construction work upon the land required by the State and to change its plans so as to conform to the requirements of the State Highway Commission. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that this resolution be acknowledged and referred to the State Highway Engineer in order that the might take the same up with the special counsel for the Commission in Jersey City, in order that sufficient notice be given the E. W. Cox Company so that the interests of the State may be fully protected.

Right of Way, Connecting Road, Camden.

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the purchase of Parcel #22 on Camden Extension Connecting Road, Section #4 from Anna Bave, widow for the consideration of $16,000.00, the owner reserving the garage on the rear of the property and to remove the same at her own expense.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel #20 on the Camden Extension Connecting Road, Section #4, from Anthony and Vera Skowron in consideration of thetransfer of a triangular portion of land fronting on Collings Avenue, adjacent to lands of grantor and outside of the 80 foot right of way, which land is to be secured by the State for the grantors from Clara M. B. Davidson, the grantor to pay to the State the sum of $100.00 in addition to the conveyance of the parcel above mentioned and described in the agreement.

Right of Way, Route #3, Absecon.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of the following parcels of property on Route #3, Section #14, in Absecon, with a letter of thanks to the owners

Parcel		Consideration
#9	Samuel Crowley,	$ 476.00
#18	Frank P. Gravatt,	1.00

Parcel		Consideration
#5, 19 and 23,	Atlantic City Realty Co.	$ 1.00

Right of Way, Route #1 Extension.

On motion by Mr. Kidde, the State Highway Commission approved of the purchase of Parcel #25, on Route #1 Extension, Section #2, Jersey City, from F. F. Kruse, for the sum of $30,000.00 and directed that condemnation proceedings heretofore instituted be discontinued. This was seconded by Mr. Jelin and adopted.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of Parcel #23 on Route #1 Extension Section #2, from F. F. Kruse for the consideration of $4,500.00, and directed that condemnation proceedings heretofore instituted be discontinued.

Commissioner Kidde reported that he had investigated the appraisals made upon the property of Schranz & Beiber on Route #1 Extension, Jersey City, as referred to him at the last meeting and he was prepared to recommend approval of the purchase of this property from the owners for the consideration of $84,000.00. Commissioner Jelin, therefore moved that the State Highway Commission purchase the property of Schranz & Beiber known as parcel #24 on Route #1 Extension, Section #2, Jersey City, and the condemnation proceedings heretofore instituted be discontinued upon the acceptance of this amount by the owner. This was seconded by Mr. Kidde and adopted.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the purchase of property and lease on Route #1 Extension from the Interstate Oil Company, F. P. Boland, President, for the consideration of $10,963.00; the grantor to be given the right to salvage such parts of the building and equipment as they may desire, and it was directed that condemnation proceedings as instituted be discontinued upon the receipt of this amount.

Route #18-North, LeMoine Avenue.

State Highway Engineer Sloan presented to the Commission plans and specifications as prepared by Bergen County for the construction of LeMoine Avenue extension on Route #18-North in the Borough of Fort Lee, and he advised that these plans were for a 30 foot paved width and the specifications were not in accordance with the Standard

Specifications of the Department. He recommended that the plans and specifications be returned to the County for revision and correction, the requirement to be made that the pavement shall be at least 36 feet between curbs and the specifications to be drawn in accordance with the State's standard specifications for similar work. On motion by Mr. Kidde, seconded by Mr. Jelin, the recommendation of the State Highway Engineer as to LeMoine Avenue Extension work was approved.

Federal Aid, Route #16. Sec 5

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved Federal Aid Agreement #71, Section A, for Route #16, Section #5-A, Somerville-Royce Valley Section.

Route #16, Grade Somerville Crossing Elimination.

In this connection, Commissioner Kidde inquired as to what progress was made concerning the application to the Public Utility Commission for elimination of Grade Crossing at South Somerville. The Secretary advised that this matter had been forwarded to the Attorney General for preparation of necessary application forms. Commissioner Kidde therefore moved that the Attorney General's Department be asked for information concerning the progress in this matter. This was seconded by Mr. Jelin and adopted.

Employments.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the following additions, changes and increases as made in the employments by the State Highway Engineer since the last meeting of the Commission:-

Employed

9/1/25	Maxwell C. Barber,	Rodman	$ 90.00 per mo.
9/14/25	Harry E. Turner,	"	90.00 " "

8/31/25	Paul F. Cranston,	Chainman	"
9/15/25	Margaret Engemann,	Clerk Typist,	"
9/30/25	Charles E. Brown,	Designer	"

Right of Way, Route 1 Extension.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the form of agreement to be entered into with the New York Railroad Company and the New Jersey Junction Railroad Company for the crossing of the Jersey Junction Railroad tracks and the necessary right of way on Route #1 Extension in Jersey City.

Route #6 Realignment

The State Highway Engineer recommended to the Commission the approval of plans showing the proposed alignment of State Highway Route #6, and the Crescent Route in the vicinity of Westville, as discussed at the last meeting of the Commission. On motion, duly seconded, this matter was ordered deferred until after an inspection by the Commission of this alignment.

Materials -

Imported Cement.

The State Highway Engineer presented a letter from the Camden Terminal Company concerning the importation of Belgian Cement and suggesting its use on the work in the vicinity of Camden. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that the communication be referred to the State Highway Engineer to make answer that the samples submitted do not in all particulars meet the requirements of the State specifications, but the Commission is watching with interest the importation of foreign cement and it is possible that at a later date the department will be able to give same favorable consideration.

Detours - Route 4

King Georges Road, - Woodbridge.

The State Highway Engineer presented a letter received from Woodbridge Township Committee, Middlesex County, advising that only one bid had been received for the repair of King Georges Road, and suggesting that the Commission pay its share toward this work as allotted, and also asking for additional funds if available. There was presented a report from the State Highway Engineer advising that the repairs contemplated on King Georges Road do not apply to the existing pavement, and he cannot understand what work the township has in contemplation. He recommended that the allotment of $10,000 as made be given the township with the distinct understanding that it is to assist them in maintaining such of their roads as will be subject to additional traffic due to Route #4 construction and not for any specific job. On motion by Mr. Kidde, seconded by Mr. Jelin, The Commission directed that the communication be referred to the State Highway Engineer for conference with the local authorities.

Woodstown-Swedesboro Road, Salem County

A resolution was presented from the County of Salem in which it was determined to construct the Woodstown-Swedesboro Road, with concrete pavement and authorized surveys to be made. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the "consent to survey" for Woodstown-Swedesboro Road, Salem County, and ordered the same filed.

Maintenance Materials, Camden Co.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved specifications for an additional 100,000 gallons of S.C.O. for treatment of Camden County gravel roads.

Camden County Maintenance

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the request of Camden County Freeholders for tranfer of $29,000 from Kings Highway to the improvement of Laurel Road, extending from Blackwood-Clementon Road, to the Chews Landing-Clementon Road, and the oiling oftwelve miles of gravel roads.

Final Inspections.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission referred the final inspection of Lambertville-Hunterdon County line Road to Chairman Scott, the same being reported as completed.

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission referred the final inspections on River Road, and also on Prospect Avenue, in Essex County, to Commissioner Kidde, the same being reported as completed.

September 15, 1925.

Cedar Bonnet Bridge,
Manahawken Bay.

State Highway Engineer Sloan reported to the Commission that he had received request for extension of time from the Krellwitz Contracting Co., on the construction of Cedar Bonnet Bridge. He explained that the date of completion was set for May 1, 1925, and the work was not entirely completed until July 23th, a total of 84 days. There was presented a recommendations from the Bridge Engineer for an extension of 5 days. The State Highway Engineer further explained that the bridge was open to river traffic on May 19th. Commissioner Jelin stated that he understood that the contractor had had considerable difficulty on account of his being unfamiliar with the work. Commissioner Kidde stated that the contractor had demonstrated his incompetence as a contractor and in the matter of penalty the same be inflicted for the time between May 1st and 19th, and the remainder be granted as an extension of time. He therefore moved that an extension of time of 66 days be granted. This was seconded by Mr. Jelin and adopted.

Township Aid Cancellation.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the concellation of $8,100 available for work on Hollywood Avenue, Long Ave., Maple Ave., and Williamson Borough, in Hillside Township, Union County.

Township Aid, Passaic County.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the award of contract by Wayner Township, for Garside Lane, in Passaic County.

Township Aid, Salem County.

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the acceptance and final payment on Force Account Statement, in Mannington Township, Salem County.

Township Aid, Cape May County

On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission approved the following township aid force account agreements:-

William St. Goshen, Middle Township,	Cape May County.
Swainton-Goshen Road, " "	" " "
Stepson's Island Road, Sec.2, Dennis Twp.	" " "

September 15,

Township Aid, Camden County.

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved the township aid force account agreement for Garfield Ave., in Chesilhurst Boro., Camden County.

Township Aid, Hudson County.

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved the award of contract on Hoboken and Hudson River Turnpike, in North Bergen Township, Hudson County, to John J. McGarry, lowest bidder at $41,167.50.

Route #1 Extension, Right of Way.

State Highway Engineer Sloan again presented the matter of the Mayer Klausner property on Route #1 Extension, Jersey City, and advised that no further action had been taken since the last meeting. He recommended that the Right of Way Agent be directed to visit Mr. Klausner and to advise him that unless he finds some way to take care of his tenant, the Commission will not pay the agreement for $35,000.00. On motion by Mr. Kidde, seconded by Mr. Jelin, this recommendation was approved and the State Highway Engineer was directed to follow the procedure as outlined.

Alloways Creek Bridge, Route #6.

Commissioner Jelin reported the inspection and final acceptance of Alloways Creek Bridge, on Route #6, M. P. 3.78. This was seconded by Commissioner Kidde and adopted.

Cedar Bonnet Bridge, Manahawken Bay.

Commissioner Jelin reported the inspection and moved final acceptance of Cedar Bonnet Bridge over Manahawken Bay. This was seconded by Mr. Kidde and approved.

Mountain Avenue, Hackettstown

The State Highway Engineer reported that bids had been received by the town of Hackettstown for construction of Mountain Avenue and he would recommend ward by the town to the lowest bidder. On motion by Mr. Kidde, seconded by Mr. Jelin, the award of contract by the town of Hackettstown was approved.

September 15, 1925.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was adjourned at 5 P. M., to meet in regular session on Tuesday, September 22nd, at 10:30 A. M.

Respectfully submitted,
A LEE GROVER,
Secretary.

MINUTES OF MEETING - September 22, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, on Tuesday, September 22nd. The meeting was called to order by Chairman Scott at 10:30 A. M.

Present: General Scott, Chairman; Messrs. Percy H. Stewart, and Abraham Jelin.

Absent: Hon. Walter Kidde, from the morning session, who was attending the funeral services of Hon. Thomas F. McCran.

Signs, City of Rahway.

Mr. Stewart stated that he had received a request from the Mayor of Rahway that a hearing be given to representatives of that city, and moved that such a hearing be granted. Mr. Frank Remer, Traffic Sergeant of the Rahway Police Department, together with Major Horni representing the Horni Signal Company, appeared before the Commission with reference to obtaining permission from the Commission to place a new traffic signal at the intersection of Route #1 and #4 at the Pennsylvania Railroad arch. They explained to the Commission the fact that this was a very important intersection where the traffic from New Brunswick meets the traffic from Perth Amboy and the seashore, and they felt that the installation of this signal which would be of the stanchion type was the best method of controlling this traffic. They further stated that they had experimented with an overhead signal at another intersection and it had not performed satisfactorily. They also explained that they would like to have this permission granted at an early date in order that they might proceed to have the necessary conduits placed before the pavement is completed on Route #4 at this point. Major Sloan stated that he felt the necessity of taking care of the traffic on the highways was a very important matter, but that he was very strongly opposed to any signal device that would be an obstruction on the highway. After a further discussion as to the merits of various types of singals, Commissioner Stewart informed the delegation that the Commission would be glad to give this request consideration but felt that they would have to follow the recommendations of the State Highway Engineer in the matter, especially as this same question has been up in a number of cases and the Commission has had to lay down a gen eral rule as to the installation of signals on the highways.

September 22, 1925.

Monmouth County, Township & Borough Aid.

Mr. George K. Allen, County Engineer of Monmouth County, appeared before the Commission and reported that the Borough of Little Silver, for which he was engineer, had received bids and awarded a contract for Church Street, Prospect Avenue, & Willow Drive, in that borough, and requested the Commission's approval of this award in order that the work might be gotten under way at once. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved of the award as made by Little Silver Borough to Conrad Sebolt, on his low bid of $59,524.70, for the construction of Church Street, Prospect Avenue, and Willow Drive, in that Borough.

Sidewalks, Detour, Route #4.

A communication was presented from the River Plaza & Vicinity Tax Payers Association, Inc., of Middletown Township, requesting that the Commission send a committee to look into the question of placing sidewalks along the detour in the vicinity of Red Bank made necessary by the construction of the Navesink River Bridge. On motion by Mr. Stewart seconded by Mr. Jelin, the Commission directed that this communication be acknowledged with the advice that the Commission regrets it can take no action inthis matter as there are no funds available for construction of sidewalks and the Commission is not authorized under the law to expend money for same.

Request for Hearing, Route #18-North.

There was presented a communication from Hon. Charles J. Morris, Mayor of North Bergen Township, in Hudson County, further urging that the Commission arrange to hold a hearing in reference to the taking over of the Paterson Plank Road or Bergen Turnpike as a part of State Highway Route #18-North. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that Mr. Morris be advised that a hearing will be held on this matter at a time and place to be mutually agreed upon.

Commendations

A communication was presented from Mr. Robert Bruce of the National Highways Association, commending the Commission on their action in awarding a contract for the approaches to the Delaware

River Bridge at Camden. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that this communication be acknowledged with thanks.

Route #6, Realignment, Woodbury

A communication was presented from the City of Woodbury, advising that they would be glad to cooperate with the Highway Commission on the proposition of widening Cedar Street in connection with the proposed realignment of Route #6. On motion by Mr. Stewart, seconded by Mr. Jelin, the Communication was ordered received with thanks. In this connection, the matter of the inspection of this route was laid over until the afternoon session when Commissioner Kidde would be present.

Right of Way, Route #7.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved of the bill of Charles V. DeBois for appraisals of property on Route #7, Section #5, in the amount of $30.00 and directed payment of same.

Right of Way, Route #4.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved of the bill of J. Edward Harned for appraisals of property on Route #4, Section #32, in the amount of $620.00 and directed payment of same.

Detours-Rt.4, Woodbridge Twp.

Mr. Neuberg, Mayor of Woodbridge Township, together with Mr. Jensen of the Township Committee, appeared before the Commission with reference to the contract for repair of King George's Road on which the Commission had made an allotment of $10,000.00. He stated that they had taken bids on the repair of this road and had submitted same to the State Highway Commission for approval and he would like to see if this approval could not be given at once in order that the work might be proceeded with. Major Sloan stated that he had gone over the bid but had not as yet approved of same inasmuch as he could not see how the items bid upon were applicable to the repair of this road. After a further discussion of the matter, Mr. Neuberg was informed that Commissioner Jelin, together with Mr. Muir, would meet their township engineer tomorrow, September 23rd, and go over the site of the proposed work in order to determine whether or not the items bid on could be applicable to the said repair. On motion duly made and seconded, the Commission went into conference for a further discussion of this matter.

Following this conference, Mr. Stewart, moved that the allotment of $10,000.00 be given to the Township of Woodbridge with the distinct understanding that it is for assistance in the maintaining of such roads as will be subject to additional traffic due to the construction work now being performed on State Highway Route #4, and that it is not allotted for the improvement of any specific road, and that the township authorities are advised that this Commission does not ask that the contract for the improvement of King George's Road be submitted for their approval, it being further understood that the payment of $10,000.00 shall include the total amount to be requested from the State due to the additional burden of traffic on account of the construction of Route #4 and that no further claims on this account will be approved. This motion was seconded by Mr. Jelin and adopted.

Right of Way, Route #9.

A communication was submitted from Hon. Fred W. DeVoe recommending that the Frank H. Cline condemnation be settled out of court by payment to the owner of the amount of $715.00. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved of the purchase of property of Mr. Frank H. Cline on Route #9, Section #16, for the sum of $715.00, the condemnation proceedings already instituted to be discontinued in case an agreement is made.

The Schedule of Business was next taken up item by item as follows, with the recommendation of the State Highway Engineer:

Route #8, Mountain View Grade Crossing Elimination

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission referred inspection of the completed work on the contract of the United Building and Construction Company for work on the Mountain View Grade Crossing Elimination, M. P. 9.0, Route #8, which work was finished by the Independence Indemnity Company, surety for the contractor, to Commissioner Kidde, preliminary to acceptance thereof.

September 22, 1925.

Route #2, Section #8,
Pensauken-Bridgeboro.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission accepted the completed work on the contract of the Union Paving Company for construction of Route #2, Section #8, Pensauken Creek Bridgeboro, and authorized payment of the semi-final estimate thereon, less 125% of the value of the uncompleted work at two bridge approaches which bridges are being erected under separate contract and have not yet been completed.

Right of Way - Routes
3, 4, 14, 18N 20.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved the purchase of the following property required for right of way:

Route #3, Section #14

Parcels #1, 2, 7, 10, 20, 21. and 22, Island Realty Company, consideration $1.00 for the land, plus $4,942.50 for the cost of removal of the buildings, making a total of $4,943.50.

Parcel #16-A, Atlantic City Realty Co., consideration $1.00
" #17, " " " " " 1.00

Route #4, Section #31

Parcel #22, William Krusch, consideration $1.00, plus the obligation to vacate any and all portions of the original highway or right of way in the vicinity of Bass River Bridge, adjacent to the property of William Krusch, no longer required for highway purposes.

Route #14, Section #9

Parcel #61, Elizabeth Davis, Widow, consideration $75.00
" #77-A, John S. Cole, " 21.60

Route #18N Section #1

Parcel #7, George A. Zabriskie, consideration $1.00
" #25, & 25A, & Easement #25B, Jean Richard, consideration $1.00

Route #20, Section #1

Parcel #43, Henry C. Duble, consideration $20.00

Right of Way, Route #3.

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission deferred action on the purchase of property of Laura S. Rider, on Route #3, Section #14, and directed that the matter be referred to Commissioner Jelin for the obtaining of additional bids on the moving of the building and report thereon.

September 22, 1925.

Right of Way, Route #1 Extension

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved of the purchase of property known as Parcel #3, on Route #1 Extension, Section #1, from Candida & Antonio Petrarca, for the consideration of $14,500.00.

Right of Way, Entrance Road, Camden

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that an offer of $2,100.00 be made to Lillian M. Bartee for Parcel of property at 1135 Penn Street Camden, and in the event that this offer is refused, that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of Entrance Road, Camden, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

BEGINNING at a point in the northerly line of Penn Street, two hundred and thirty-three feet and seventy-one one-hundredths of a foot (233.71) to the point of intersection of the northerly line of Penn Street with the easterly line of Eleventh Street, said point being distant thirty-one feet and eighty-five one-hundredths of a foot (31.85) from the center line of the Penn Street branch of the State Highway Entrance Road in the City of Camden, measured normally therefrom at Station 2 plus 39.98; and running thence (1) along the division line of properties known as No. 1135 and 1133 Penn Street, in the City of Camden, North, forty degrees, seven minutes and thirty seconds East, fifty-eight (58) feet to the southwesterly line of an alley six (6) feet in width running along the rear line of the aforesaid property; thence (2) along the said southwesterly line of said alley, South, forty-nine degrees, fifty-two minutes and thirty seconds East, twelve feet and eighteen one-hundredths of a foot (12.18) to a point in the division line of properties known as No. 1135 and 1137 Penn Street, in the City of Camden thence (3) along the last mentioned division line, South, forty degrees, seven minutes and thirty seconds West, fifty-eight (58) feet to a point in the northerly line of Penn Street; thence (4) along said northerly line of Penn Street, North; forty-nine degrees, fifty-two minutes and thirty-seconds West, twelve feet and eighteen one-hundredths of a foot (12.18) to the point or place of Beginning; CONTAININGseven hundred and six (706) sq. feet, be the same more or less.

It being the intention of the State of New Jersey to acquire all that lot, tract or parcel of land known and designated as No. 1135 Penn Street, in the City of Camden; together with all right, title, and interest of the grantor in and to a six (6) foot alley extending along a rear line of the above described premises, the premises herein conveyed being the same lands conveyed to the party of the first part as Lillian M. Evans by Grove Rollin and Lena, his wife, by deed dated April 2, 1918 and recorded in the office of the Register of Camden County in Book 427 of Deeds, page 185, said Lillian M. Evans having since intermarried with said John F. Bartee.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $2,100.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Route #9, Section #4, Dunellen

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved of acceptance of agreement with the Borough of Dunellen in connection withthe paving of the trolley track area on Route #9, Section #4, in that borough and authorized the Chairman's signature thereto.

Route #9, Clinton.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission adopted the following resolution adopting a line for Route #9, through the Borough of Clinton:

WHEREAS, under the provisions of Chapter 14, laws of 1917, the State Legislature has designated Route #9, as running from Elizabeth to Phillipsburg, via Westfield, Plainfield, Bound Brook, Somerville, White House, Clinton, West Portal and Bloomsbury, as a part of the State Highway System, and

WHEREAS, on September 15, 1925, a public hearing was held in accordance with the law on the matter of designation of a new alignment for State Highway Route #9, in the vicinity of Clinton, in accordance with the statute thereunto appertaining,

NOW, THEREFORE, BE IT RESOLVED, that the State Highway Commission of the State of New Jersey does hereby abandon as a part of State Highway Route #9, that portion of the present road from a point at or near the Morgan Property to a point approximately 5800 feet westerly thereof on the westerly side of the Raritan River, and

BE IT FURTHER RESOLVED that the State Highway Commission does hereby designate and take over as the new alignment for State Highway Route #9, in lieu of the portion hereinabove abandoned, beginning in the present road at or near the Morgan property and extending in a general westerly direction along the northerly side of Beaver Brook, crossing the Raritan River to a point of intersection with the present existing road at or near the Clinton House on West Main Street, in Clinton, New Jersey, and

BE IT FURTHER RESOLVED that the detailed descriptions and other formalities necessary be prepared and forwarded to the Governing bodies interested as soon as possible.

Route #5, Sections #8B and 11A.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that the request of Mr. William A. Connell for an extension of time on the contract for construction of Route #5, Sections #8B and 11A, Great Meadows and Manunka Chunk, be denied.

Memorial-Victory Bridge Tablet

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved of the general form of the memorial tablet to be placed on the Amboy Bridge, and directed that the State Highway Engineer proceed to have prepared a plaster model of this tablet in the form as amended for the further consideration of the Commission before final approval is given.

Employments

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the following additions, changes and increases as made in the employments by the State Highway Engineer since the last meeting of the Commission:

Employed

9/14/25	Frank Kane,	Junior Inspector,	$125.00 per month

Detour, Route #20.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission adopted the following as the official detour for use during the construction of Route #20, Section #4, City of Millville:

> "Beginning on High Street (Route #20) in the City of Millville, where the same is intersected by Broad Street, thence (1) westerly on Broad Street to Buck Street; thence (2) northerly on Buck Street to Foundry Street; thence (3) easterly on Foundry Street to High Street (Route #20).

September 22, 1925.

Reeves Bridge, Route #8, M. P. 14.4

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that the request of the Borough of Bloomingdale that the State construct retaining walls on Van Dam Avenue near the location of Reeves Bridge at M. P. 14.4 on State Highway Route #8, be denied inasmuch as the proposed walls are entirely beyond the lines of the highway.

Lambertville-Hunterdon County
Line Road, Hunterdon County,
Motor Vehicle Aid.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved of an extension of time from September 10,1925 to September 22, 1925, as granted by the Board of Freeholder of Hunterdon County on the contract for the construction of the Lambertville-Hunterdon County Line Road, Hunterdon County, Motor Vehicle Aid.

Wildwood Boulevard, Cape May
County, Motor Vehicle Aid.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved of the plans and specifications for Wildwood Boulevard, Cape May County, Motor Vehicle Aid.

Passaic County, Township Aid.

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved of the plans and specifications for Walnut Street and Prospect Street, Little Falls Township, Passaic County, Township Aid, the said approval being subject to the approval of the State Highway Engineer.

Mercer County, Township Aid.

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved of the plans and specifications for Dutch Neck-Lawrence Station Road, West Windsor Township, Mercer County, Township Aid.

Hunterdon County, Township Aid.

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved of the acceptance and authorized final payment of the State's share on the Jutland-Perryville Road, Union Township, Hunterdon County, Township Aid.

Sea Isle Boulevard, Cape May
County, Motor Vehicle Aid.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved of the acceptance and authorized final payment on Sea Isle

Boulevard, grading and drainage work, Cape May County, Motor Vehicle Aid.

Cape May County, Township Aid.

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved of application and agreement for township and borough aid on the Belle Plain to Eldora Road, Sec. 2, Dennis Township, Cape May County, Township aid.

Monmouth County, Township Aid.

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved of township aid force account agreement for Asbury Avenue, Atlantic Township, Monmouth County, Township Aid.

Warren County, Township Aid.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of township aid force account agreement for Allamuchy-Johnsonburg Road, Allamuchy Township, Warren County, Township Aid.

Warren County, Township Aid.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved of the award of contract as made by Frelinghuysen Township to Hope-Johnsonburg Road, Section #2, Frelinghuysen Township, Warren County, Township Aid.

Monmouth County, Township Aid

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved of the insertion of a rate of $1.00 per hour for three horse teams including driver in the price agreement for the Farmingdale-Colts Neck Road, Atlantic Township, Monmouth County, Township and Borough Aid.

Salem County, Township Aid

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved of the insertion of a rate of $4.00 per hour for five ton Holt tractor, which rate includes operator, fuel, lubricants, etc., in the force account price agreement for Gershal Avenue, Pittsgrove township, Salem County, Township and Borough Aid.

Somerset County, Township Aid

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved of the rejection of bids by Hillsborough Township, on Montgomery Spur Road, Hillsborough Road, Somerset County, Township Aid.

Insurance

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that the fire insurance policies now carried by the Commission be not renewed, and that the State Highway Engineer be authorized to take up with the insurance companies the matter of rates covering liability and place a policy for the ensuing year at the best rate obtainable.

Lambertville-County Line Road,
Hunterdon County, M. V. Aid.

General Scott reported that he had made an inspection of the Lambertville County Line Road, Hunterdon County, motor vehicle aid, but was not ready to recommend same for acceptance until some minor work in connection with a culvert and the cleaning up of the shoulders was completed.

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission recessed for luncheon at this time to meet in regular session at 2:30 P. M. The meeting was reconvened at 3:00 P. M., with the same members present as at the morning session, together with Commissioner Kidde who had returned from the funeral of Hon. Thomas F. McCran.

Right of Way, Route #1 Extension

Mr. David Klausner appeared before the Commission and was granted a hearing. He stated that he had come before the Commission in the matter of the property to be acquired from his father, Mr.Mayer Klausner, on Hoboken Avenue on Route #1 Extension, Jersey City, on which settlement was being held up due to the matter of the lease of the property which was held by Mr. O'Sullivan. He advised the Commission that his father had placed all the facts of the case before Mr. Adler at the time the agreement had been made, and he felt that the settlement for purchase of the property should be made independent of the matter of obtaining of the leasehold. He further stated that they felt that the Commission was unjust in insinuating that there was some fraud in this case and assured the Commission that the five year lease which was held by Mr. O'Sullivan had been made before they knew that the State was going to acquire the property. He further stated that he also was attorney for Mr. O'Sullivan and set forth to the Commission the facts as given to him by Mr. O'Sullivan in regard to the value of the leasehold for which Mr. O'Sullivan was asking $25,000.00. He Stated that he did not believe he would insist on this amount, but that he had informed him that he must have at least $10,000.00. He stated that his father was ready to close the agreement for purchase of the property for the amount of $35,000.00 as agreed upon, and he asked th that in case this settlement was made that the Commission make a statement that there was no fraud in the matter. Following a discussion of this this matter, Mr. Kidde moved that an offer of $5,000.00 be made to Mr. O'Sullivan for the leasehold and that Mr.Klausner be informed that the State will proceed to settle with him for the amount of $35,000.00 provided that the State can get the leasehold for the amount of $5,000. otherwise condemnation would be proceeded with against the two parties. This offer was communicated to Mr. Klausner and he stated that he did not have authority to make any agreement for Mr. O'Sullivan as to the leasehold. He was then advised to take this matter up with Mr. O'Sullivan and report to the Commission at its next meeting as to whether this offer was agreeable.

Cape May - Lewes Ferry ✓

There was presented a communication from Hon. William H. Bright, President of the Senate, requesting that the Commission arrange an earlier date than that tentatively set for inspection of the proposed Cape May-Lewes Ferry. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission will arrange to make the said inspection of the proposed Cape May-Lewes Ferry on Friday, October 30th, 1925.

Route #6, Alignment ✓

The State Highsay Engineer reported that he together with the Chairman, had gone over the line of the proposed alignment of Route #6 in the vicinity of Woodbury and inquired when the other Commissioners would be able to make an inspection on same. On motion, duly made and seconded, arrangements were made for the Commission to go to Millville on Friday, September 25th, for the making of this inspection, it being understood that Major Sloan and General Scott will then proceed on to Wilmington and Washington in accordance with previous arrangements.

September 22, 1925.

River Road, Essex County, Motor Vehicle Aid.

Commissioner Kidde reported inspection and moved acceptance of the River Road, Essex County, Motor Vehicle aid work. This motion was seconded by Mr. Stewart and adopted.

Prospect Avenue, Essex County Motor Vehicle Aid.

Commissioner Kidde reported inspection and moved acceptanceof Prospect Avenue, Essex County, motor vehicle aid work. This motion was seconded by Mr. Stewart and adopted. In this connection, Mr. Kidde requested that information be conveyed to Mr. Stickel, County Engineer, that some slight work in connection with the cleaning up of the shoulders should be taken care of.

Minutes Approved

Commissioner Kidde reported having read the minutes of the meetings of July 14th, July 28th, August 4th, and August 18th, and moved that the same be approved as mailed. This was seconded by Mr. Jelin and adopted.

Hunterdon County, Motor Vehicle Aid

The State Highway Engineer reported that in accordance with the action of the Commission an August 18th, he had approved of the expenditure of the balance of $8,000.00 on allotment of motor vehicle aid previously made to Hunderton County, for use on repairs of the Point Breeze Road, the construction of guard rails and certain other repairs in the County. On motion by Mr. Kidde, seconded by Mr. Stewart the Commission approved of the expenditure as recommended by the State Highway Engineer.

Maintenance Materials- Camden County.

On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission approved of award of contract by Camden County for the furnishing of 100,000 gallons of S. C. O. on the low bid of $.084 by the Headley Good Roads Company.

Detours - Route 4

~~Township Aid~~, Woodbridge Twp.

The State Highway Engineer presented an agreement which had been executed by the Township of Woodbridge in connection with work to be performed in that township along with the construction of Route #4,

September 22, 1925

Section #32. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission approved of the agreement with the Township of Woodbridge and authorized the Chairman's signature thereto.

On motion duly made and seconded, the Commission went into conference at 5:00 P. M., the conference lasting until 6:30 P. M., at which time the meeting was adjourned to meet in regular session on Tuesday, September 29th.

Respectfully submitted,
A. LEE GROVER,
Secretary.

MINUTES OF MEETING - September 29, 1925

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, Twesday, September 29, 1925. The meeting was called to order at 10:30 A. M., by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Percy H. Stewart,
Walter Kidde and Abraham Jelin,

Township Aid, Mercer County

The Secretary informed the Commission that a hearing had been requested by Mr. J. V. B. Wicoff, Attorney for West Windsor Township, Mercer County. On motion, duly seconded, a hearing was granted. Mr. Wicoff appeared and presented to the Commission a petition from the Township Committee of West Windsor Township, requesting that the State Highway Commission permit the sole use of a gravel pit in the Township for the construction of gravel pavement on the Dutch Neck-Lawrence Station Road, which is to be construction under Township Aid allotment from the State in the sum of $15,000.00. The request also stated that it was the purpose of the Township to charge thirty cents per cubic yard for the gravel taken from the pit since this was the market price in the vicinity.

Commissioner Kidde stated that he did not believe it would be wise to destroy the benefits of competition in gravel and that the law of supply and demand would cover the price for the work.

Commission Jelin stated that he felt it would be entirely proper for the Township to give the gravel free of cost to the contractor, thereby saving the cost of gravel to the State and to the Township, which would result in giving more road work for the same money.

Mr. Wicoff stated that he felt the Township was asking only what was proper in the matter and should receive the same treatment other Townships do where there are no gravel pits and it is necessary that money be paid for the purchase of gravel.

Commissioner Kidde suggested that it might be proper for the Township to permit the contractor to use the gravel in the pit and then charge against the contract the value of the land destroyed by the digging. It was pointed out that the Township had already sold sufficient gravel from the pit to more than pay for the cost of the land to the Township several years ago.

September 29, 1925.

Following further discussion, Commissioner Jelin moved that West Windsor Township Committee be advised that the State Highway Commission desires that the specifications for the Dutch Neck-Lawrence Station Road be so written that the contractor shall have the right to remove such gravel as he desires, and which is approved by the State Highway Department, from any pits owned by the Township and used on the road free of cost. This was seconded by Mr. Stewart and adopted.

Entrance Road, Camden

The Secretary presented a resolution received from the City Commission of Camden endorsing the stand taken by the State Highway Commission in awarding the contract for a section of the extension of Routes #2, #3 and #6 to the entrance of the Delaware River Bridge in Camden, thus endeavoring to relieve traffic congestion already existing. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received and placed on file.

Proposed Routes

The Secretary presented a resolution from the Board of Freeholders of Passaic County, urging the "construction of adequate highway facilities from the New Jersey Entrance to the Vehicular Tunnel under the Hudson River Between New York and New Jersey, leading toward the northern part of this State." On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the Boad of Freeholders of Passaic County be advised that such construction as indicated in their resolution was under contemplation by the State Highway Commission to be accomplished by the local authorities with the aid of the State.

Complaints

The Secretary presented a resolution from the "Business Men and Tax-payers of Kearny and Arlington", requesting the State Highway Commission to take some action against the D. L. & W. R. R., in erecting a railroad across the Kearny meadows, thereby blocking the East side of Kearny and Arlington, since they were making no provisions for culverts or bridges leading into the towns. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that they be advised that this matter is one over which the State Highway

Commission has no jurisdiction, but should be taken up with the local authorities and the Public Utility Commission.

Right of Way, Route #4

The Secretary presented a communication from Hon. F. W. DeVoe, Assistant Attorney General, advising that the Jersey Central Realty Company and John J. Korb, against whom condemnation proceedings had been started for property on Route #4 at the Morgan Grade Crossing Elimination, were desirous of making settlement in the amount of the appraisals, which were respectively $2,375.00 for the property of the Jersey Central Realty Company, and $125.00 for the property of John J. Korb, and he recommended that settlement be made. On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of the payment of $2,500.00 for the properties of the Jersey Central Realty Company and John J. Korb on Route #4 at the Morgan Grade Crossing Elimination, said amount to be divided according to agreements between land owners, since there has been a change in the ownership of record since the appraisals were made.

Realignment- Route #6, Westville-Woodbury

The Secretary presented a resolution received from the Mayor and Council of the Borough of Brooklawn, advising of their approval of plans as submitted by the State Highway Commission for the realignment of Route #6, between Westville and Woodbury in the vicinity of Brooklawn, and requesting the State Highway Commission to provide the residents of the Borough with some convenient means of communication between the East and West sides of the West Jersey and Seashore Railroad at the northern end of Brooklawn. On motion by Mr. Stewart, seconded by Mr. Kidde, the communication was ordered referred to the State Highway Engineer for investigation on the ground and report with estimates as to the cost involved for taking care of the situation as outlined in this resolution.

Route #4, Bradley Beach

The Secretary presented a communication from the Board of Commissioners of Bradley Beach, New Jersey, inclosing three affidavits concerning traffic counts taken on September 6th on Main Street, Bradley Beach, as follows; North bound between 9:00 A. M., and 5:00P. M., 6,820, South bound 9,155;and 1,041 vehicles drove to the North end of Bradley Beach and were forced to return because Ocean Avenue did not extend through Ocean Grove. On motion by Mr. Stewart, seconded by Mr. Kidde, the communication was ordered received and placed on file.

Institutional Roads

The Secretary presented a communication received from Dr. J. G. Lipman, Dean and Director of the New Jersey Agricultural Experiment Station at New Brunswick, expressing appreciation for the help given to the Managing Committee of his College in the preparation of plans and specifications for road work at the College Farm and extending an offer of service at any time the Commission can make use thereof. On motion by Mr. Kidde, seconded by Mr. Stewart, the communication was received and placed on file.

Request For Aid-Hunterdon County

The Secretary presented a communication from Wm. P. Mason of Stockton, New Jersey, urging that some provision be made for taking care of traffic at Stockton upon the completion of the new bridge between New Jersey and Pennsylvania at that point. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the communication be acknowledged with the advice that the Commission is already providing Township Aid in that vicinity which will take care of present traffic and if it is necessary to provide additional facilities, the same will be given consideration.

Right of Way, Route 1 Extension

The Secretary presented a communication received from Messrs. Kinkead and Klausner, attorney's for Michael O'Sullivan, lessee on premises at 368-374 Hoboken Avenue, Jersey City, advising that Mr. O'Sullivan has agreed to accept the offer made by the State Highway Commission of $5,000.00 for his lease on property at 368-374 Hoboken Avenue. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that an agreement be entered into with Michael O'Sullivan for his lease on property at 368-374 Hoboken Ave., for the consideration of $5,000.00 in accordance with advice received from his Attorneys.

September 29, 1925.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the agreement for the purchase of property from Mayer Klausner at 372-374 Hoboken Avenue, be executed for the consideration of $35,000.00 as heretofore authorized.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved a bill in the amount of $225.00 to Percy A. Gaddis for services in appraising and investigating properties on Route #1 Extension at Jersey City.

State Highway Engineer Sloan presented a communication received from Davis, Wagner, Heater and Holton, Attorneys for Ault and Wiborg on Route #1 Extension, Jersey City, inquiring as to whether the State Highway Commission would arrange for contractors to demolish that portion of their building required immediately for Route #1 Extension Viaduct and in this way their client would not be called upon to furnish money for the work on be faced with the necessity for awaiting the conclusion of condemnation proceedings before reimbursement is obtained, since the cost will have been approved by the Commission. State Highway Engineer Sloan recommended that in view of the fact that all of the necessary property of the Ault and Wiborg Company is under condemnation, that norarrangements be entered into such as requested. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of the State Highway Engineer and directed that the Attorneys for Ault & Wiborg be advised that inasmuch as the matter of the acquisition of the Ault & Wiborg property is now in process of condemnation proceedings, the State Highway Commission cannot undertake any part of the rebuilding work or the cost of the same.

Route #18 - North

Commissioner Stewart inquired as to what progress had been made concerning arrangements for a hearing to be granted on the matter of the improvement of State Highway Route #18-North in the vicinity of North Bergen Township in Hudson County, and he was advised that arrangements were being made for a public hearing. He therefore moved that an invitation be extended to the authorities of the local municipalities and Counties involved to meet with the State Highway

Commission at the next meeting on Tuesday, October 6th, in order that the matter may be informally discussed prior to a public hearing in the immediate vicinity of the Route. This was seconded by Mr. Jelin and adopted.

Scales, Route #4

The Secretary presented a communication from the Pennsylvania Railroad Real Estate Department, calling attention to the fact that the State Highway Commission is erecting a weighting scale on property of the railroad company on Route #4, at South Amboy, without having first obtained the necessary permission, and inquiring for further information in order that such permission might be given. On motion by Mr. Stewart, seconded by Mr. Jelin, the communication was ordered received and placed on the table for later consideration.

Right of Way, Route #1 Extension

There was presented a communication from Assistant Construction Engineer Lavis on Route #1 Extension, advising that the Erie Railroad Company is desirous of receiving partial payment on account of property taken from them by the State and on which they are already in a position to deliver deeds in a total estimated at $43,000.00. Commissioner Stewart advised that he believed that in view of the agreement entered into by the State Highway Commission and the Erie Railroad Company, the Commission was justified in awaiting the delivery of the entire amount of property to be acquired from the Erie Railroad Company and in return make a payment in full for such deeds when delivered, rather then to make partial payments on account at this time, and he moved that the State Highway Engineer be directed to advise Special Counsel Sullivan for the Commission, that the State Highway Commission will make payment in full for the entire amount of property acquired form the Erie Railroad Company when all the deeds are delivered to the Commission in accordance with the contract entered into.

Plans

State Highway Engineer Sloan advised the Commission that there was considerable delay in receiving the return of plans from the railroad company, as submitted for the Viaduct in Jersey City, and he informed the Commission that he was prepared to advertise this work forthwith, but desired to have the formality of the railroad company's signature attached to these plans, if possible, before the advertisement. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that a communication be forwarded to the Erie Railroad Company, advising that the plans for Route #1 Extension Viaduct have been in their hands for some time past and the Commission would appreciate prompt action thereon by their Company, since this work is about to be advertised.

The Schedule of Business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer:

Bridges, Route #9 ✓

There was presented the following report of bids received for the construction of five bridges on Route #9, Section #17, Whitehouse-Lebanon Section and recommendation was made that award be made to J. W. Rogers, second low bidder at $26,434.10, on the ground that the first bidder has not shown satisfactory responsibility to carry on the work.

John M. Everett	$ 26,283.40
J. W. Rogers	26,434.10
Hill Construction Co.	27,221.05
Red Bank Construction Co.	27,221.30
Jacob Stem	27,439.30
Conway & Reid	32,680.20
Richards & Gaston	34,537.90
Thomas Sheahan	34,737.85

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the award of contract to the second low bidder in accordance with the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of five bridges on Route #9, Section #17, Whitehouse-Lebanon Section, to J. W. Rogers, second low bidder in the amount of $26,434.10, and
>
> BE IT FURTHER RESOLVED that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route #4, Section #34 ✓

State Highway Engineer Sloan reported the completion of plans and specifications for the construction of Route #4, Section #34, known as the Keyport Cut-off in Monmouth County, and recommended approval of advertisement for this work. On motion by Mr. Stewart, seconded by

Mr. Kidde, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve of plans and specifications for the construction of Route #4 Section #34, Keyport Cut-Off, and
>
> BE IT FURTHER RESOLVED, that the Chairman is directed to sign the necessary papers and the Chief Clerk is directed to place the necessary advertisement for the work after approval by the State Highway Engineer.

Maintenance materials, State Highway ✓

On recommendation of the State Highway Engineer, Commissioner Jelin moved the approval of specifications and advertisement for the furnishing and delivering of approximately 47,000 gallons of S60 grade "RK" in metal or wooden containers to points of delivery as specified by the Maintenance Division.

Route #15, Section #7 ✓

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the complete work on Route #15, Section #7, Michael Staub contractor, be referred to Commissioner Jelin for final inspection prior to acceptance.

Route #5, Section #8B & #11A ✓

Commissioner Kidde reported having inspected the completed work on Route #5, Sections #8B and #11A, Great Meadows-Manunka Chunk, and he moved final acceptance on the same. This was seconded by Mr. Stewart and adopted.

✓ ✓

Rights of Way, Route #4,20 and Connecting Road, Camden ✓

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the following purchase agreements for rights of way on several State Hginway Routes and directed that a letter of thanks be forwarded to those who have given their property for a nominal consideration:

Parcel	Route	Name	Consideration
1 & 1-A	4	Mrs. Wilfred J. Hawkens,	$ 1.00
8	4	Elize Orneal,	215.00
38	20	Cora V. Adams formerly Cora V. Killen	5.00
1A, 1B, 1C & Easement 1D	20	Lewis C. Dunca, plus the construction of 100 ft. of Storm drain for which purpose the easement is acquired.	1.00

September 29, 1925

Parcel	Route		Consideration
5	4	Rudolph Mulichen	$ 152.46
5	12	Carolyn E. Tier, single	196.70
5	13	" " " "	65.26
104 & 105	Connect. Road	East Camden Realty Co.	1.00
113	" "	George & Ella Baker	1000.00
151	" "	Elizabeth & Frederick Candidys	925.00
183	" "	Edw. M. Solomon, Inc.	1.00
163	" "	Edw. S. Miller	2700.00

Right of Way, Route #4

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the purchase agreement for parcel #1 on Route #4, Section #33, Perth Amboy Bridge Cut-Off from Alexander Balint, Jr. and Wife and Walter Bielecki and Wife for the consideration of $6,250.00, be referred back to the Right of Way Department for the obtaining of further information concerning the removal of buildings.

Connecting Road,
Right of Way, Camden

On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that the purchase agreement for parcels 152, 165, 166, 169 171, 171A and 173 on Connecting Road, Sections #1 and #2 in Camden, be acquired from Edward M. Solomon, Inc., for $45,000.00, be referred to Commissioner Jelin for investigation and report.

Right of Way, Route #1
Extension

On recommendation of the State Highway Engineer, Commissioner Kidde moved that the purchase agreement for property of Maria and Alfred Philips, known as parcel #9 on Route #1 Extension, Hoboken Avenue, Jersey City, be approved for $13,000.00, which the owner is now willing to take, and condemnation proceedings as heretofore authorized be discontinued upon the execution of this agreement. This was seconded by Mr. Stewart and adopted.

Right of Way, Entrance
Road, Section #1, Camden.

State Highway Engineer Sloan reported to the Commission that on August 15th there had been approved a payment to the Camden Lime Company for Parcel #85 on Section #1 of State Highway Entrance Road, Camden, in an amount of $3,453.00 constituting a damage to land, when as a matter of fact, this figure should have been $3,943.00, and he recommended that in order to clear the records that this change, which does not alter the total price paid for the entire parcel, be made.

On motion by Mr. Stewart, seconded by Mr. Jelin the State Highway Commission approved the recommendation of the State Highway Engineer for a change in transposed figures and directed that when settlement is made the amount for damage to the remaining land be fixed at $3943.00 instead of $3,493,00.

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting recessed for lunch at 1:00 P. M., to meet in regular session again at 2:30 P. M. The meeting was reconvened at 2:30 P. M., with the same members present as at the morning session.

Right of Way, Crescent Boulevard

The Secretary informed the Commission that Mr. W. F. Luckenbach, representing the property owner at 315 Sloan Avenue, Collingswood, which is property needed for the proposed Crescent Boulevard at Camden, was present and desired a hearing. On motion, duly seconded, a hearing was granted. Mr. Luckenbach appeared and advised that he lived at 315 Sloan Avenue, West Collingswood, which was owned by his mother, and following negotiations with Right of Way Engineer Meeker, an offer had been made in the sum of $1,800.00 for his land, which he claimed was not sufficient to enable him to purchase a similar tract for the reconstruction of his home. He requested the State Highway Commission to give further consideration to his claim and stated that it would cost him at least $2,300.00 to replace his present lot, for which he is offered $1,800.00. He expressed satisfaction with the price offered for the buildings on his lot. Following discussion, Commissioner Jelin moved that the matter be referred to the State Highway Engineer for full report at a later meeting. This was seconded by Mr. Kidde and adopted.

Sidewalks, Route #4, Brielle

There was presented a communication from Durand, Ivins & Carton, Attorneys for the Borough of Brielle, covering correspondence with the State Highway Engineer on the construction of curb and sidewalk on Route #4, in which they advised that the Borough cannot accede to the request of the State Highway Commission that the curbs be set on the forty-foot line. State Highway Engineer Sloan recommended to the Commission that the Borough be directed to accede to the requirements of the State Highway Department in this matter.

September 29, 1925

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Attorneys for the Borough of Brielle be advised that the requirements of the State Highway Department for a forty-foot width between curbs must be followed by the Borough.

Complaint, Route #1 Extension

State Highway Engineer Sloan presented a letter to the Commission from the Shupe Terminal Corporation of Kerany on the matter of occupation of the State Highway right of way on Route #1, in the vicinity of the Passaic River Bridge, by persons who operate lunch stands, etc. resulting in unfair competition for those who rent stores at that point. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that the Shupe Terminal Corporation be advised that the City of Newark and County of Essex have charge of the policing and lighting of this section of State Highway and proper complaint should be made to them, since there are privileges granted on any part of the State Highway System.

Abandonment, Route #14, Mays Landing

There was presented a communication from B. L. Scull, Clerk of Hamilton Township in Atlantic County, together with other correspondence, referring to the maintenance of parts of Route #14 in the Village of Mays Landing. In this connection there was presented a blueprint of Routes #14 and #18 in this vicinity, together with tentative suggestions for changes in alignment to eliminate grade crossing.

State Highway Engineer Sloan recommended to the Commission that inasmuch as it is evident that the section of Route #14 which Mr. Scull asks for maintenance by the State will not be permanently a part of the State Highway System, that portion of Route #14 now occupying Mill Street in the Village of Mays Landing, Township of Hamilton, be abandoned by the State. On motion by Mr. Kidde, seconded by Mr. Stewart, the recommendation of the State Highway Engineer was approved and the section of Route #14 in Mays Landing, known as Mill Street was abandoned as a part of the State Highway System.

September 29, 1925

Route #4,
Proposed Routes - Bradley Beach

There was presented a report from Assistant Construction Engineer Moore of a conference held between himself and the Borough of Bradley Beach, in which Mr. Moore advised that the Bradley Beach authorities were interested in opening a State Highway through Ocean Grove, which would be of a great advantage to Bradley Beach. On motion by Mr. Jelin, seconded by Mr. Stewart, the report was ordered received and placed on file.

Route #12, Section #7

There was presented a communication, together with petitions from the residents of the Village of Beatytown in Warren County, requesting the State Highway Commission to undertake further work on Route #12, Section #7. There was also presented a report from Construction Engineer Bedwell in which he advised that the State Highway Commission has fulfilled all agreements made for the construction of Route #12, Section #7, Stephensburg-Hackettstown and there is no valid reason why such petitions should be circulated in the village. On motion by Mr. Stewart, seconded by Mr. Jelin, on recommendation of the State Highway Engineer, the State Highway Commission directed that the petitioner of Beatytown shall be informed that the State Highway Commission has fulfilled all agreements made in connection with the improvement of Route #12, Section #7, and that any further improvements that may be desired by the local residents must be constructed by individuals or from municipal funds.

Employments

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the following additions and changes as made in the employments by the State Highway Engineer since the last meeting of the Commission:

Employed

9/16/25	Edw. Carlisle,	Gravel Patrolman,	$80.00	per month.
9/16/25	James F. Brady,	Bridge Tender,	90.00	" "
9/28/25	Peter F. Trainer,	Jr. Inspector,	125.00	" "
10/1/25	Alfred J. Block,	Title Seacher,	150.00	" "
9/21/25	Ralph R. Robinson,	Jr. Draftsman,	90.00	" "
10/1/25	Elizabeth Meskill,	Sr.Clerk-Stenographer,	115.00	" "
9/16/25	Thos. Kankle,	Motor Truck Driver,	.45	" hour.
9/16/25	Jas. Bradley,	" " "	.40	" "
9/17/25	Chas. H. Henan,	Mechanic,	.75	" "
9/17/25	Wm. L. Insull,	Garage Assistant,	.45	" "
9/21/25	Lewis S. Harvey,	Jr. Engineer,	125.00	" month.

September 29, 1925

Title & Salary Change

10/1/25	Wm. J. Hurley,	Draftsman, $90.00 to Eng. Drft. $125.00 per month.
10/1/25	V. M. Zisgen,	Clerk Sten. $110.00 to Sr. Clk. Sten., $115.00 per month.
9/21/25	A. H. Anderson,	Sr. Draftsman, $175.00 to Res. Eng., $225.00 per month.

9/15/25	F. A. Heacock,	Bridge Designer,	"
9/30/25	P. F. Donnelly,	" "	Laid Off.

Township Aid, Ocean County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the award of contract by Lakewood Township, Ocean County, for Park Avenue, with Township and Borough Aid, to S. S. Thompson & Co. of Red Bank, at $6703.32

Township Aid, Somerset County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the final acceptance of Nechanic-Clover Hill Road, Hillsborough Township, Somerset County, be referred to Commissioner Stewart for final report.

Township Aid, Middlesex County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of plans and specifitions and award of contract by the Borough of Dunellen, for Washington Avenue, Middlesex County, Township and Borough Aid, to Weldon Contracting Co. of Westfield, at $29,390.48.

Township Aid, Burlington County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved plans and specifications for North Fork-Landing Road, Chester Township, Burlington County.

Township Aid, Cape May, Cumberland and Sussex Counties.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the following Township Aid Force Account Agreements:

Township	Road	County
Lower	Break Water & Jerry Eldridge Road	Cape May
"	Town Bank Road	" "
"	New England Road	" "
"	Tabernacle Road, Section #2	" "
Stoe Creek	Roadstown & Alloway Road	Cumberland
Andover Borough,	Tranquility Road, Section #2	Sussex

Cooper River Bridge, Camden

State Highway Engineer Sloan presented to the Commission a report of the Bridge Engineer on the matter of Engineering services on the Cooper River Bridge in Camden, and recommended to the Commission that the proposal of Harrington, Howard & Ash for a square type double leaf bascule bridge be accepted, in view of the fact that competitive bids had been received from four engineering firms for such a structure.

Commissioner Stewart inquired as to the number of bidders and their price, and Commissioner Kidde stated that this appeared to him to show it was possible to secure competition in bascule bridge design. Commissioner Stewart moved that the matter of this engineering work be referred back to the State Highway Engineer for further report on the matter of whether it was possible for this work to be accomplished with the forces of the State Highway Department. This was seconded by Mr. Jelin and adopted.

Pompton River Bridge, Route #8

Commissioner Kidde reported the final inspection of the Pompton River Bridge on Route #8 at M. P. 9.1 and moved final acceptance subfect to the approval of the Bridge Engineer and the State Highway Engineer on the final cleaning up of the work. This was seconded by Mr. Jelin and adopted.

State Highway Engineer Sloan recommended to the Commission that in connection with the acceptance of the Pompton River Bridge on Route 8, at M. P. 9.1, that an extension of time be granted to the contractor to the final date of competion, due to the fact that the bridge was open to highway traffic within the allotted time. Commissioner Kidde moved the adoption of this recommendation and same was seconded by Mr. Jelin.

Reeve's Bridge, Route #8

Commissioner Kidde reported final inspection and moved acceptance of Reeve's Bridge on Route #8, at M. P. 14.4. This was seconded by Mr. Jelin and adopted.

September 29, 1925

Route #8, Mountain View Grade
Crossing Elimination.

Commissioner Kidde reported final inspection of Route #8, Mountain View Grade Crossing Elimination and moved final acceptance of same. This was seconded by Mr. Jelin and adopted. In this connection he called attention to the fact that there was a small amount of erosio taking place on the embankment constructed for the Mountain View Crossing Elimination, and he moved that the Maintenance Department be instructed to arrange for the planting of vegetation on the slopes at an expense not to exceed $300.00. This was seconded by Mr. Jelin and adopted.

Realignment -
Route #6, Westville

State Highway Engineer Sloan presented to the Commission for approval, plans showing the proposed alignment of State Highway Route #6 and the Cresent Route in the vicinity of Westville, as discussed at a former meeting, and also after investigation on the ground by the State Highway Commission.

Commissioner Kidde advised that from his investigation he would be in favor of the new alignment as recommended, and he moved that the Commission express a favorable attitude toward this new alignment and the State Highway Engineer arrange for a conference with the local authorities as to the working out of this alignment, providing the Commission can secure the abandonment of streets and grade crossings and work out other problems with the cooperation of the municipalities. This was seconded by Mr. Jelin and adopted.

Right of Way - Route #1 Extension
Newark

State Highway Engineer Sloan recommended to the Commission that steps be taken for the securing of proper appraisals for the property necessary to be acquired on the Extension of Route #1 through Newark. Commissioner Kidde suggested that this matter be held in abeyance for consideration at a later meeting.

Maintenance Materials, Mercer
County

On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved of specifications and award of contract for the furnishings and application of 10,000 gallons additional tar on the Trenton-Hopewell Road, Mercer County.

Connecting Road and
Entrance Road, Camden

State Highway Engineer Sloan recommended to the Commission that checks of all the bidders except that of the lowest bidder on bids received on September 14th for the work on the Camden Entrance Road and Connecting Road, be returned at this time. On motion by Mr. Kidde, seconded by Mr. Jelin, the recommendation of the State Highway Engineer was approved.

Senate Investigating Committee

The Commission next went into conference at 5:00 P.M. for the consideration of a statement to be submitted to the Bright Survey Committee in response to a call issued to the members of the State Highway Commission to appear and explain the reason for the award of contract on the roads approaching the Delaware River Bridge. This conference ended at 7:00 P.M., and on motion by Mr. Jelin, seconded by Mr. Kidde, the meeting recessed until 10:00 A.M. Wednesday, September 30th, when it would be necessary for the members to appear before the Bright Survey Committee.

Commissioner Stewart placed the following statement before the Bright Survey Committee, and read same, and Senator Bright, Chairman of the Survey Committee, informed the Commission that from the facts contained therein, the State Highway Commission was correct in its procedure in awarding such contracts and he was glad that the Survey Committee had an opportunity of bringing the facts before the public:

September 30, 1925.

Hon. William H. Bright,
President, Senate Investigating Committee,
State House, Trenton, New Jersey.

The State Highway Commission of the State of New Jersey, in response to the summons from the Senate Investigating Committee, summoning them to appear before the Committee at the State House in Trenton, on the 30th day of September in answer to the question "Why, the State Highway Commission, when the question of tolls on the Delaware River Bridge was being investigated, your Commission awarded contracts for the completion of the approach to the Delaware River Bridge on the Camden side, thus giving moral support to the Pennsylvania people who are seeking to make this a free bridge, in violation of the pledge to the voters of New Jersey that the payment of bonds should be made from the collection of tolls for passage over the bridge" and in response to the request contained in said summons to "execute no contract to the low bidder on the approach to the Philadelphia-Camden Bridge until after the hearing before this Committee, as the Committee believes it to be necessary to present a unified stand on the tolls question, and the awarding and executing of any contracts leading to the approach or for work on the bridge will seriously confuse the issue between New Jersey and Pennsylvania," beg to state:

Chapter 14, P. L. 1917, an Act to establish a State Highway System, and to provide for the improvement, betterment, reconstruction, resurfacing, maintenance, repair and regulation of the use thereof, provides that "The State Highway Commission shall, as soon as practicable, lay out routes for a State Highway System as follows ....." and proceeds to designate certain routes.

Chapter 253, P. L. 1922, being an amendment to the above Act, adds the following:

> "Route No. 2 of the State Highway System, as described or described or designated in section of the act to which this act is a supplement, shall be extended from the terminal point of said route at the city line of the City of Camden in the County of Camden, through the said City of Camden to the approach or entrance of the bridge proposed to be constructed over the Delaware River by the States of New Jersey and Pennsylvania.
>
> "Route No. 3 of the State Highway System, as described or designated in section one of the act to which this act is a supplement, shall begin at the approach or entrance, in the City of Camden, in the County of Camden, of the bridge proposed to be constructed over the Delaware River by the States of New Jersey and Pennsylvania,

instead of the point of beginning as described in section one of the act to which this act is a supplement, and shall run from thence through the city of Camden to the beginning of route No. 3 as described or designated in section one of the act to which this act is supplement, and from thence shall continue as described in said act.

"Route No. 6 of the State Highway System, as described or designated in section one of the act to which this act is a supplement, shall begin at the approach or entrance, in the city of Camden, in the county of Camden, of the bridge proposed to be constructed over the Delaware river by the States of New Jersey and Pennsylvania, instead of the point of beginning as described in section one of the act to which this act is a supplement, and shall run from thence through the city of Camden, to the beginning of route No. 6 as described or designated in section one of the act to which this act is a supplement, and from thence shall continue as described in said act.

"Wherever any State highway shall run through a city having a population of seventy-five thousand or more, over streets or roads formerly under the jurisdiction of said city, such city shall retain in all such streets or roads all its former jurisdiction and rights as to the construction and regulation of the use of all water, sewer, gas and other subsoil conduits and structures.

"This act shall take effect immediately.

"Passed March 16, 1922."

The Law of 1917 provides that "Said routes shall be as short and direct as practicable between the points specified, due regard being had for the other requirements of the act. Existing highways may be made use of wherever it is convenient so to do, but the commission may lay out, open and improve new roads over acquired rights of way and may also lay out routes continuation of, connection with, or in addition to the routes above specified."

It is to be noted that the amendments providing for the extension of routes No. 2, No. 3, and No. 6 state that they shall begin at the approach or entrance in the city of Camden, in the county of Camden, of the bridge proposed to be constructed over the Delaware River by the States of New Jersey and Pennsylvania, and that the State Highway Commission has no power or authority to construct the approach to the bridge to be constructed over the Delaware river at Camden, but that this power is specifically placed in the hands of the commission having charge of the construction of the bridge.

The existing state highway routes No. 2, No. 3, and No. 6, terminated at the City line of Camden, leaving traffic to find its way as best it might through the business centre of the City and the ferries providing access to the Pennsylvania side, and it is well known that these streets were congested under the burden thrown upon them by the State Highway Routes and that such congestion, due to the normal growth of traffic was becoming such as to make it necessary to provide additional facilities, which under the provisions of Chapter 253, P. L. 1922, above quoted, the State Highway Commission was authorized to do. Further than this, certain sections of these State Highway Routes outside the City line of Camden in need of re-surfacing and improvement, and the existensions as planned not coinciding with certain sections of existing State Highway Routes No. 2 and No. 6, it seemed advisable at this time to pave on the new alignment rather than on those sections existing State Highway Routes which would be abandoned, thus effection the saving of considerable sums of money to the State.

A congestion of traffic exists on Route No. 6. in the vicinity of Westville, which probably the most serious in the entire State of New Jersey, and one that requires immediate correction, whether there be a bridge connecting Philadelphia and Camden or not. Reference is made to a traffic map which is the result of much study by the Highway Commission and which is submitted herewith.

In the planning of these extensions through the City of Camden binding contracts were entered into in March 1925 between the City and the State of New Jersey, as represented by the State Highway Commission, in order that the improvements contemplated by the City might be co-ordinated with the improvements being carried out by the State, under which contracts the City of Camden agrees to make large payments of money to the State, as well as furnish extremely valuable properties, and it is felt that in honor and fair dealing the City had a right to expect that the work of extending Routes No. 2, No. 3, and No. 6 will be carried out expeditiously and in accordance with the agreements entered into.

The State Highway Engineer has advised the State Highway Commission, and has made it the basis of his recommendations covering the award of the contract under discussion that the necessity for the extension of these routes was not dependent upon the construction and completion of the bridge between Camden and Philadelphia, but that the existing conditions, regardless of the bridge, demanded the carrying out of this improvement with the least loss of time. It should be noted that the contract in question includes no surface paving but does embrace those items of fill where it is desirable to allow time for settlement before paving.

The construction of this portion of the extensions of Routes No. 2, No. 3, and No. 6 is merely a part of a comprehensive plan to relieve existing traffic congestion in the City of Camden and vicinity, which will require a period of years for its completion and is imperatively necessary, whether the bridge over the Delaware river is completed or not.

In order that this situation may be more clearly understood, a map showing the extensions of Routes No. 2, No. 3, and No. 6, and the connecting roads and entrance road to the Civic Center of Camden is attached and made a part of this statement. It is apparent from an inspection of this map that the contract referred to by your Committee covers two sections one commencing about three miles from the Delaware River Bridge approach, and the other about three-fourths of a mile, the latter being the road leading to the Civic Center of Camden.

In closing, the State Highway Commission beg to state that the Commission as a whole and each of the members individually are heartily in sympathy with every effort which can be made on the part of the State of New Jersey to compel the State of Pennsylvania to carry out its solemn obligations in regard to the imposition of tolls for passage over the Delaware River bridge and thus fulfill the obligation of the State of New Jersey to its citizens.

Prior to the award of the contract referred to in the summons of your Committee the Governor made careful inquiry of the State Highway Engineer and the Highway Commission as to whether the stopping of work on the extensions of Routes No. 2, No. 3, and No. 6, leading to the approach to the bridge would block the entrance to the bridge and when it was pointed out to him that there were five other streets in the City of Camden connecting directly with the bridge plaza, and the serious congestion of traffic which already existed at these points was also pointed out, requiring immediate relief, he advised the State Highway Commission that no other course lay open to them than to fulfill their contractual obligations to the City of Camden and construct the Routes as directed by the laws of the State of New Jersey. Later, when the bids for the contract in question were received by the Highway Commission, the Commission went again to the Governor and consulted him as to whether, in his opinion, the awarding of the contracts would in any way effect the stand which he had already taken on the subject of tolls and he advised that it ould not.

Respectfully submitted,
STATE HIGHWAY COMMISSION.

Hearing, Board of Commerce &
Navigation, Route 4, Toms River.

The Survey Committee meeting ended at 12:30 P. M., and the regular meeting was reconvened at the offices of the Commission at 2:30 P. M. The Commission again went into conference on the matter of hearing to be conducted by the Board of Commerce & Navigation on the reconsideration of proposed plans for a bridge over Toms River on Route #4.

Following this conference Commissioner Stewart moved that the following communication be forwarded to the Board of Commerce & Navigation bearing on this meeting. This was seconded by Mr. Kidde and adopted.

September 30, 1925.

To the State Board of Commerce &
Navigation of the State of New Jersey.

Gentleman:

You will recall on the 15th day of July of this year a hearing was held at the Court House in Toms River by the War Department, pursuant to a notice from that department dated July 3, 1925, on an application for approval of plans for the construction of highway bridges across the North and South Channels and Jake's Branch of Toms River in the State of New Jersey.

The State Board of Commerce & Navigation was represented at the hearing and answered such inquiries as were put concering the matter at issue. At that hearing the State Highway Commission of New Jersey called witnesses, submitted plans and presented its case for permission from the War Department to construct the bridges at the locations referred to. We submit that the evidence produced at that hearing was overwhelmingly in favor of the construction of the highway as proposed by the State Highway Commission.

The Evidence in favor of a fixed bridge as requested was to the effect that within a very short distance immediately above the existing bridge over South Branch where you suggest a draw there is now a railroad trestle which has a clearance of only three feet which obstructs anything but a row boat. The soundings made by this department show that there is less than four feet of water. The records of the War Department show that the water borne traffic into Toms River is small and has decreasing over a period of years and that the War Department had no project for improving the upper reaches of the stream.

The Construction of the bridges as requested permits a relocation of the line which is shorter than the old line. It automatically eliminates for through traffic the crossing of tracks at grade at two points and some dangerous curves. The proposed bridges and relocated line could be constructed at a cost not in excess of the required to pave the highway on its present location and were the highway to be paved on its present location and the two grade crossings of railroad tracks eliminated the cost of so improving the line on the old location would exceed the cost of the new by approximately a half million dollars. The work if carried out would be of great benefit to the village of Toms River as it would interpose a highway between the railroad embankment and the river bank which in its construction would deepen the water alongside the river bank and afford a place for pedestrains and vehicles to stop along the river, and for certain distance a bulkhead would be constructed which could be improved by local authorities to provide a docking place for boats.

Your representatives were present at that hearing and took part in the discussions and in view of the fact that immediately thereafter you wrote the State Highway Commission denying their application for construction of these bridges we are led to believe that in your opinion the hearing was a joint hearing between the War Department and your Board.

The State Highway Commission is now in receipt of a notice from you of a public meeting to be held on Friday, October 9, 1925, at the Court House in Toms River at 1:30 P. M., from which it appears that you consider this in the nature of re-hearing of the matter which was heretofore fully discussed and considered before the War Department and on which you have rendered a decision.

The State Highway Commission in the location of their bridges has always given due consideration to the demands and requirements of navigation and will always be most happy to know your views in any matter affecting the navigation interests of the State, and will give them careful consideration in arriving at their conclusions.

This department is always anxious to cooperate with other departments of the State in any matter of public interest which seems to affect even remotely any other department even though in a technical and legal sense such department may not have jurisdiction of the subject under discussion. This Commission feels that it has fully presented its case to the representatives of the Secretary of War of the United States who has fully and sole authority in applications of this character.

On the question as to the powers and authority of the State Highway Commission, we have an opinion of the Attorney General of the State of New Jersey, bearing date August 25, 1925, a copy of which we enclose, which sets forth among other things that it is not only the right but the duty of the State Highway Commission to construct all bridges necessary to properly complete the State Highway System and that the approval of the Board of Commerce and Navigation for the bridges in question is not required, and that the Boatd of Commerce & Navigation is without jurisdiction or power of supervision of any character whatsoever over any project relating to any part or portion of the State Higaway System.

The plans and specifications for the bridges in question have been submitted to the Federal Government for approval in accordance with the law.

May we point out that should the suggestion contained in your letter of August 24th be accepted, it would make it impossible for the State Highway Commission to carry out the improvement as projected, which improvement as we have said involves the elimination of two grade crossings and a shortening of that section of Route #4, all to be accomplished at a cost not exceeding that which would be incurred in paving the highway on its existing alignment which contains in addition to the two railroad grade crossings above mentioned a number of dangerous curves, and as we have said, should the old line be followed and the grade crossings eliminated on that line there would be an additional expense to the people of the State of about a half million dollars.

The matter seems to have been so well covered in previous hearings before the War Department where the matter now rests that we can see no advantage in a further discussion of the matter.

Very respectfully,

STATE HIGHWAY COMMISSION.

(Signed) H. L. SCOTT

CHAIRMAN.

....

STATE OF NEW JERSEY

Office of the Attorney General

August 25, 1925.

State Highway Commission,
Trenton, New Jersey.

Gentleman:

Attention: Major Sloan.

I acknowledge receipt of your letter of July 24, 1925, reading as follows:

"I am advised by the Chief Engineer of the Central Raidroad of New Jersey that growing out of the legal proceedings in connection with their obtaining a permit for the building of their bridge across Newark Bay, a decision was rendered that the Board of Commerce and Navigation have no authority as regards the location of bridges over the Hackensack and Passaic Rivers.

"I would very much appreciate your looking into this matter and advising me whether or not this is a fact."

I understand that also desire an opinion as to whether or not the New Jersey State Highway Commission can construct a bridge over a navigable waterway in this State, lying wholly within this State, without first obtaining the approval of the plans and specifications by the Board of Commerce and Navigation.

In reply I desire to advise you as follows:

In my opinion, it is not only the right but the plain duty of the State Highway Commission to construct all bridges as may be necessary to properly complete the State Highway System. The approval by the Board of Commerce and Navigation of the plans and specifications for said bridges is not required.

September 29, 1925

Section #7, of Chapter 242, Laws of 1915, vests in the Board of Commerce and Navigation full control and direction of all State projects and work relating in any way whatsoever to commerce and navigation, except such work as is conferred upon other Boards not included within the provisions of this Act.

Chapter 14, of the Laws of 1917 is the Act to establish a State Highway System, and the first section thereof makes it mandatory upon the State Highway Commission, as soon as practicable to lay out routes for a State Highway System as directed in said Act. This act lays out fifteen routes, which number has been increased from time to time by subsequent acts of the Legislature.

Section 18, of this Act, in defining the word "improvement" contrues said word to embrace not only the original work on the road, or right of way, but also to include the construction of bridges etc.

The State Highway Department was established by Chapter 15, of the Laws of 1917. It cannot be conceived that it was the design of the Legislature that two boards or bodies of the State Government should have control over one project, to wit: the building of a road or State Highway, which necessarily would embrace the building of a bridge or bridges as a part thereof. The two acts of 1917, referred to, are later expressions of the Legislature, and, therefore, must control.

I have read all the amendments of and supplements to the Act of 1915, creating the Board of Commerce and Navigation, and do not find any effecting the question before us. I have also read all the reported cases referring in any way to the Act creating the Board of Commerce and Navigation.

The most recent case and the one to which you referred, is that of the CITY OF NEWARK, THE CITY OF JERSEY CITY, AND THE STATE OF NEW JERSEY, vs. THE CENTRAL RAILROAD COMPANY OF NEW JERSEY AND THE PORT OF NEW YORK AUTHORITY, decided by the United States Supreme Court on March 2, 1925, and reported in the United States Supreme Court Advance Opinions, 1924-1925, 69 L. ed., page 277.

This case arose out of the effort on the part of the complainant to enjoin the Railroad Company from the construction of a bridge across Newark Bay because the plans therefor had not been approved by the Board of Commerce and Navigation and the Port of New York Authority. The Court held that the laws of the State of New Jersey did not require the approval of the plans for the bridge by either the Board of Commerce and Navigation and Port of New York Authority.

In view of the law as herein stated, I have no hesitancy in advising you that the Board of Commerce and Navigation is without jurisdiction or power of supervision of any kind or character, whatsoever, over any project, relating to the construction of any part or portion of the State Highway System.

It may have been the custom in the past for the State Highway Commission to ask the Board of Commerce and Navigation for approval of plans for bridges, and such an application for approval may now be pending. However, the State Highway Commission has the right to insist that such approval is not required.

I know that you are familiar with the rule, or requirement, that the plans and specifications for any such bridge or bridges must first be submitted to the Federal Government for approval. Of course, such procedure must be followed as heretofore.

September 29, 1925

Nothing in the foregoing opinion shall be construed as in any way touching upon the rights which the Board of Commerce and Navigation has in the riparian lands of this State. All riparian lands necessary in connection with any bridge project must be acquired from the Board of Commerce and Navigation in the manner prescribed by law.

May I ask if I can be of further assistance to you in this matter?

Yours respectfully,

/Signed/ Fred. W. DeVoe,

Deputy Attorney General.
Counsel to New Jersey State
Highway Commission.

FWD:EJ

APPROVED:

Edward L. Katzenbach,

Attorney General.

On motion by Mr. Kidde, seconded by Mr. Stewart, the meeting was adjourned at 5:00 P. M., to meet in regular session on Tuesday, October 6th at 10:30 A. M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - October 6, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, Tuesday, October 6, 1925. The meeting was called to order at 10:30 A.M. by Chairman Scott.

PRESENT: General H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Route 18-North

The Secretary informed the Commission that an invitation had been extended at the request of the Commission, to the representatives of the municipalities of Hudson and Bergen Counties, on the matter of the taking over of Route 18-North, and this meeting had been set for eleven o'clock on this day.

A. A. S. H. O.

The Secretary presented a communication received by Chairman Scott from the U. S. Department of Agriculture, requesting the State Highway Commission to designate M. L. Howell, Chief Auditor and Accountant, to serve on a sub-committee of the American Association of State Highway Officials, as representative of the North Atlantic States, for the purpose of working out a satisfactory and uniform highway accounting system for the several states of the country. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that M. L. Howell be authorized to serve on a sub-committee of the American Association of State Highway Officials, and that the necessary expenses in attending such meetings be paid from State Highway Department funds.

Invitations - Salem

The Secretary called attention to invitations received on behalf of the Commission, from the 250th Anniversary Committee of Salem, requesting the attendance of the Commission at a celebration at Salem on Saturday, October 10th. On motion by Mr. Kidde, seconded by Mr. Stewart, the Commission directed that the Secretary inform the Anniversary Committee that it is the purpose of such Commissioners, as find it convenient, to attend this celebration.

Detours-Route 4

The Secretary presented a communication from the Board of Freeholders of Middlesex County, requesting the Commission to make repairs to Upper Green Street in Woodbridge Township, running between Iselin and Woodbridge. In this connection there was also presented a telegram from Leo Goldberger, representing residents at Woodbridge, complaining of the condition of Rahway Avenue, between Woodbridge and Avenel, and urging repairs.

State Highway Engineer Sloan informed the Commission that the road complained of was that used for two days as a detour for the construction of Route 4 and that the State Highway Department expended approximately $5,000.00 to place this road in shape for use as a detour, and there were no funds available at this time for any further work at this point. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the Board of Freeholders of Middlesex County and Mr. Goldberger be advised that the State Highway Commission cannot see its way clear to grant any aid toward the repair of this road, since considerable moneys were spent by the Commission, and the detour has been changed; and, further, it is impossible for the Commission to cope with all roads in a territory in the vicinity of new construction and must confine itself to the repair of official detours only.

Commendations

The Secretary presented a communication from the Colonial Manor Civic Association, expressing favorable attitude toward the realignment of Route 6 between Brooklawn and Woodbury, as discussed at a public hearing sometime ago. This communication stated that the elimination of grade crossings was highly desirable. On motion by Mr. Jelin, seconded by Mr. Stewart, the communication was ordered received, acknowledged and placed on file.

Route 1 Extension, Section 1, Viaduct

The State Highway Engineer reported the completion of plans and specifications for the construction of Route 1 Extension, Section 1, between Jersey Avenue and Palisade Avenue, Viaduct location, and recommended that authorization be given for advertisement in order that bids may be received on November 2, 1925. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission unanimously approved the following resolution:

October 6, 1925.

RESOLVED that the State Highway Commission does hereby approve plans and specifications for the construction of Route 1 Extension, Section 1, Viaduct location between Jersey Avenue and Palisade Avenue, and

BE IT FURTHER RESOLVED that the Chairman is authorized to sign the necessary papers after approval by the State Highway Engineer and the Chief Clerk is directed to place the necessary advertisement for the work in order that bids may be received on November 2, 1925.

Amboy Bridge-New

State Highway Engineer Sloan presented to the Commission with his recommendation for approval an order for extra work in the amount of $2,997.00, covering change in transformer cables on the New Amboy Bridge. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of an extra payment to the contractor in accordance with the recommendation of the State Highway Engineer.

Route 18-North

The Secretary informed the Commission that a delegation, representing the Counties of Hudson and Bergen, and the municipalities of North Bergen Township, West New York and Union City, were present in accordance with invitation extended, to discuss the matter of Route 18-North. On motion, duly seconded, a hearing was granted. The delegation appeared and Mr. John F. O'Neil, County Supervisor of Hudson County, informed the Commission that the residents of Hudson County were very anxious that the State Highway Commission take some definite action looking toward the taking over by the State of State Highway Route 18-North on what is known as the Bergen Turnpike in Hudson County.

County Engineer Radigan of Hudson County estimated that the Hudson County section would cost approximately $600,000.00 for three miles of road, forty feet wide, built with granite block.

Mr. O'Neill informed the Commission that resolutions had been adopted by all the municipalities in Hudson County through which this road passes, and similar resolutions had been adopted by the Board of Freeholders of Hudson County, calling upon the State Highway Commission to take this section of road over as a State Highway and improve the same as soon as possible, in order to give an outlet to the new Hudson River Tunnels. He stated that he realized that this highway formed part of the State Highway System which was designated after the bond issue money became available, and he advised that in order to expedite the work the County was willing to assume a fair proportion of the cost of the work, which he placed at one-third and the balance to be paid by the State. He also stressed the point that Hudson County is maintaining and improving the Hudson County Boulevard, twenty miles in length and sixty feet wide, without State Aid of any kind, and he believed that the offer made was a generous one.

Commissioner Kidde inquired as to what advantages this improvement would be to the traffic facilities at the North and he called attention to the fact that the Advisory Board of experts had recommended the connection of Tonnelle Avenue with the routes to the North, in order to give an outlet to all of Bergen and Passaic Counties to the Tunnel. He called attention to the fact that Tonnelle Avenue is not part of the State Highway System and therefore it is impossible that it be designated as a State Highway for future improvement, but that some means of cooperation with the County of Hudson and the City of Jersey City would work out a solution of the entire traffic problem in this section of the State at this time.

Supervisor O'Neill advised that the Tonnelle Avenue improvement would be almost entirely a city improvement and he was not in a position to negotiate with the Commission on such an improvement. He would state, however, that the County authorities of Hudson would be willing at any time to cooperate to the greatest extent with the State Highway Commission in securing a relief to traffic congestion in that section of the State.

Chairman Scott inquired from County Engineer McClave of Bergen County, and Freeholders Bogart and Gorham of Bergen County, as to their attitude on this proposition and they expressed favorableness to any situation which would relieve traffic congestion in any part of Bergen County, and also stressed the fact that the Commission should make plans to take over and construct the entire length of Route 18-North from the Hudson County Line to the New York State Line.

Following further discussion, Commissioner Jelin moved that the matter be referred to the State Highway Engineer to confer with the County Engineer, in order to go over plans for the proposed work on Route 18-North in Hudson County, and prepare recommendations to the

State Highway Commission, during which time the Board of Freeholders could pass a resolution making a request of the State Highway Commission for the formal taking over of this section of highway and its improvement with a contribution to the State of $200,000.00 by the County toward this improvement. This was seconded by Mr. Stewart and adopted.

Supervisor O'Neill called the attention of the Commission at this time to the situation existing on the construction of Grove Street widening, toward which the State had offered the County $40,000.00, and he advised that this construction would involve a considerable amount of money due to condemnations involved, and he suggested that if the State could arrange to meet the County on a fifty-fifty proportion, this work could proceed.

Commissioner Kidde stated that he was very much interested in the improvement contemplated in this section of the State, and it was his idea that the County should proceed with the improvement on the allotment as granted, and if possible the whole plan, including Tonnelle Avenue, should be embraced in a three year program of cooperation between the local authorities and the State, in order that the entire matter might be comprehensively defined.

Commissioner Jelin stated that this would be the proper solution if there were but two parties negotiating, but here there were distinct authorities for County improvement, and for State improvement, and it would be unwise in his opinion to hold up any development pending negotiations, but when amicable arrangements could be made with any one of the parties, this part of the program should be carried out. Commissioner Stewart stated that he was of a similar opinion.

Supervisor O'Neill further stated that he saw the merits of Commissioner Kidde's argument in seeking to have the entire matter solved as soon as possible. He offered the cooperation of the County toward the improvement of Tonnelle Avenue as soon as plans can be taken up with the local authorities.

Commissioner Kidde stated that some arrangements should be made whereby the whole proposition could be reviewed on the ground to ascertain more fully what the advantages to be derived from the Advisory Board's recommendations would be.

October 6, 1925.

Freeholder Gorham of Bergen County called the attention of the Commission to the conditions existing on Route 18 at Fort Lee on the proposed construction of LeMoine Avenue Extension. He advised that the Commission had made request for a change in the width of pavement and also in the making of specifications which had been complied with, but it was found that the cost of property would carry the cost of construction to a cost beyond the ability of Bergen County to carry with the State Aid allotment of $40,000.00 as now granted. He informed the Commission that the total cost of the work, including underground structures, would approximate nearly $180,000.00 and expressed the opinion that this work could not proceed unless there were some additional funds forthcoming from the State. He stated that Bergen County has shown a willingness to cooperate with the State Highway Commission and it was essential that the Commission should furnish an outlet for the County to the tunnel, which could be accomplished by the construction of Routes 17 and 18. He stated that there was a feeling in Bergen County that the Commission was not providing sufficient improvements to meet the needs in the County.

Commissioner Kidde called attention to the fact that the State Highway Commission is contemplating the expenditure of $1,000,000 in Bergen County under very definite agreements with the County authorities and any delays occuring in the prosecuting of this work was entirely the responsibility of the County in not securing necessary rights of way on Route 17.

Freeholder Bogart also stressed the point that the County was very anxious to have outlets provided to the Vehicular Tunnel, since they felt that a considerable portion of the County taxes were being spent toward the tunnel improvement and advantages would be entirely lost if no outlet was provided.

In addition, Mr. Bogart stated that he felt sure that real estate speculators were forcing the price of property needed for Route 18, LeMoine Avenue Extension, to a much higher level than was first contemplated and he asked that the Commission take over all of Route 18 in Bergen County as soon as possible.

October 6, 1925.

Following further discussion, Commissioner Stewart moved that the matter be held for further consideration. This was seconded by Mr. Kidde and adopted.

The Schedule of Business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer:

Route 4, Section 25

State Highway Engineer Sloan reported receipt of the following bids for the construction of Route 4, Section 25, South Amboy-Cliffwood section, and recommended award of contract to Michael Staub, lowest bidder, in the amount of $250,683.40;

Michael Staub........................	$250,683.40
Conrad Sebolt........................	263,021.59
Interstate Engr. & Const. Co........	264,607.89
S. S. Thompson.......................	269,659.45
R. L. Bonham Co......................	277,322.83
Wm. Eisenberg........................	280,660.19
John M. Reuter.......................	282,896.40
Utility Const. Co....................	285,196.45
Weldon Contracting Co................	285,661.90
Jannarone Contracting Co.............	286,646.83
Union Paving Co......................	287,202.05
J. A. R. Const. Co...................	288,882.22
Westchester Const. Corp..............	290,600.39
C. H. Winans.........................	297,310.78

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 4, Section 25, South Amboy-Cliffwood section, to Michael Staub of Pitman, N. J. at his, the lowest bid received in the amount of $250,683.40, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Route 4, Sections 13A and 20B.

The State Highway Engineer reported the receipt of the following bids for the construction of Route 4, Sections 13A and 20B, known as the Manasquan Bridge Approach and Grade Crossing Elimination Cut-off, and recommended award of contract to Decker & Canning at their's the lowest bid, in the amount of $43,999.03:

Decker & Canning, Inc................	$43,999.03
John F. McGreevy.....................	45,282.90
Monihan & Hall.......................	46,884.50
Stryker & Stryker....................	47,080.24
Red Bank Const. Co...................	48,427.98
Wm. Eisenberg........................	50,278.68

October 6, 1925.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission unanimously adopted the following resolution:

> RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route 4, Sections 13A and 20B, known as the Manasquan Bridge Approach and Grade Crossing Elimination Cut-off, to Decker & Canning, at their's, the lowest bid, in the amount of $43,999.03, and
>
> BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

Hackensack River Bridge,
Route 1 Extension.

There was reported the completion of repairs to the fender system and removal of center piers on the Hackensack River Bridge, Route 1, Lincoln Highway Section. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that this be referred to Commissioner Kidde for inspection prior to final acceptance.

Rights of Way-Routes 3, 4, 14, 15, and Connecting Road, Sections 1 & 2.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the purchase of the following parcels of property and directed that a letter of thanks be forwarded to those parties who have conveyed for a nominal consideration:

Parcel	Route	Name	Consideration
192	Connecting Road, Sections 1 & 2,	Carl & Catherine M. Wittorf,	$ 10.00
145	ditto	Margaret Hanlon, widow,	10.00
5	3	Harry R. Rupp,	1.00
42	3	John Simms,	13.00
43	3	Clive D. Woodwin, et al	12.00
45	3	Cornelius Daly,	6.00
46	3	Henry Schorp, et ux	16.00
52	3	John Fanfara,	50.00
53	3	Harry Pettit,	5.00
53C	3	Chas. P. Braun,	4.35
54	3	Wm. E. McGill,	1.00
55	3	Patrick J. Sullivan,	6.00
56	3	Gustave A. Peterson,	4.35
3 & 3A	3	Wm. C. Fanslaw, - plus the cost of resetting fence which work is to be done at the State's expense when the resetting of the same is found to be necessary,	30.00
7	3	Fred Bange, plus the stipulation that the existing 1½ story frame dwelling may remain in its present location until the State desired to remove the same, when it shall be done at the State's expense,	30.00

October 6, 1925.

Parcel	Route	Name	Consideration
25	3	Henry Tapken,	$ 1.00
40	3	George Betz,	50.00
41	3	Henry Tapken, et al	45.90
162	3	Mary Bauer, widow	9.15
174, 174A, 174B,174C, & 174D,	3	Rocco L. Ruberton,	30.75
303	3	Samuel F. Farrow & Wife,	50.00

32	4	Rollo Realty Co.	50.00
1	15	Stultz and Mary Whildin	472.50
37	14	Lydia Howell, widow, - the State to remove barn within six months or the owner to remove barn and be reimbursed by the State for this expense,	160.35
59	14	Salem Association of Friends,	8.25
69	14	Harry T. Smallwood,	75.00

Right of Way-Route 1 Extension

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the purchase of Parcel No. 5 on Route 1 Extension, Section 2, from Zeho & DeMarco, for the consideration of $26,000.00 and directed that condemnation proceedings as instituted be dismissed upon the execution of this agreement.

Right of Way-Route 4

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that an offer of $141.51 be made to Antonio Panciera for Parcel No. 7 on Route 4, Section 42, and that this property be acquired by condemnation proceedings in accordance with the following resolution, in view of the fact that the owner is an inmate of an insane institution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route 4, Section 42 ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel No. 7

BEGINNING at a point formed by the intersection of the dividing line between lands of grantor herein on the North and lands now or formerly of Albert Manita on the South, with the proposed westerly right of way line of State Highway Route 4, between Perth Amboy and Rahway, distant thirty-three (33) feet normally from the proposed center line of said State Highway at station 146 plus 30.30, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Route 4, Section 32, Perth Amboy-Rahway, Property to be acquired from Antonio Panciera, Woodbridge Township, Middlesex County, Scale

1" equals 30', November 1924," and running;

Thence (1) along said proposed westerly right of way line, parallel to and thirty-three (33) feet distant from said proposed center line, North three degrees, forty-eight minutes East (N3°48'E) a distance of forty and forty-nine one-hundredths (40.49) feet to a point in the dividing line between lands of grantor herein on the South and lands now or formerly of John Esposito on the North;

Thence (2) along said dividing line, South seventy-seven degrees, eighteen minutes East (S77°18'E) a distance of thirteen and sixty-one one-hundredths (13.61) feet to a point in the existing westerly side line of St. George's Road, distant sixty and nine tenths (60.9) feet southerly from the southerly side line of Campbell Street;

Thence (3) along said existing westerly side line of St. George's Road, South two degrees, forty-nine minutes West (S2°49'W) a distance of forty and six-tenths (40.6) feet to a point in the aforesaid dividing line between lands of grantor herein on the North and lands now or formerly of Albert Manita on the South, distant one hundred one and five-tenths (101.5) feet northerly from the northerly side line of Grove Avenue;

Thence (4) along said dividing line, North seventy-seven degrees, eighteen minutes West (N77°18'W) a distance of fourteen and thirty-two one-hundredths (14.32) feet to the point and place of beginning;

CONTAINING, thirteen one-thousandths (0.013) of an acre, be the same more or less;

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the proposed right of way lines thirty-three (33) feet each side of the proposed center line of said State Highway, extending from lands now or formerly of Albert Manita on the South to lands now or formerly of John Esposito on the North, as shown on said plan hereto attached.

The State Highway Engineer is hereby authorized and directed, on behalf of this Commission, to make an offer of the sum of $141.51 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Route 4, Morgan Grade Crossing Elim.

The State Highway Engineer presented to the Commission a map showing the additional width of right of way which is to be acquired in the vicinity of Morgan and he recommended that the State Highway Commission acquire the balance of the old trolley right of way up to the diagonal line shown in red on the map submitted, between 10th and 11th Streets, which would give a more satisfactory intersection with the road to Keyport than is possible on the original alignment. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the property of the trolley right of way be acquired for widening of the intersection on Route 4 in the vicinity of Morgan in accordance with the recommendation of the State Highway Engineer, in view of the fact that extra width will be needed for furnishing a more satisfactory intersection at this point.

Right of Way-Route 1 Extension

The State Highway Engineer presented to the Commission a report from Assistant Construction Engineer Lavis, in which were set forth appraisals for property needed on Route 1 Extension, Section 1, along Twelfth Street between Jersey Avenue and Monmouth Street, and he recommended that the Commission authorize definite offers to be made to the property owners and that the property be taken in accordance with the maps in order that the extra width may be used for storage of materials and other emergencies that may arise. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission directed that the following official offers be made to owners of property on Route 1 Extension, Section 1, Jersey City:

Parcel	Name	Consideration
1	Edw. Kenny & Wife,	$ 50,000.00
2	A. J. Corcoran, Inc.	14,000.00
4	Aniello Garguili & Wife et al	8,000.00
5	Hugh J. Meehan,	15,000.00
6	Mary Perry,	16,000.00
7	George Carroll,	15,500.00
8	Margaret K. McCann,	16,000.00
9	Stanislaw Kraienski & Wife,	17,500.00
10	Patrick Kenny,	8,500.00
11	John O'Hearn & Wife,	18,000.00
13	Otto Gerdau,	9,000.00

State Highway Engineer Sloan presented to the Commission a report from Assistant Construction Engineer Lavis on Parcel No. 12, Route 1 Extension to be obtained from Maria C. Heavey. There was presented in this case appraisals by the real estate experts, and the State Highway Engineer recommended that although the entire property was not needed for actual driveway purposes, it would be desirable to obtain the extra width along this portion of Route 1 Extension for the entire property so that there will be room available for storage of materials and any other emergencies which may arise during the construction. He recommended that the Commission approve an offer in the amount of $40,000.00 to the owner of this property for the acquisition of the entire building. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the recommendation of the State Highway Engineer and authorized an offer of $40,000.00 to be made to Maria C. Heavey for Parcel No. 12 on Route 1 Extension, Section 1, Twelfth Street, Jersey City, with the understanding that the extra width will be needed for emergencies and storage of materials necessary in the Viaduct structure.

Claims-Damage

There was presented a communication from Hon. F. W. DeVoe, Assistant Attorney General, transmitting a letter from W. H. Pitt of Baltimore, against whom there is a claim for damages caused by his automobile to a headwall on State Highway Bridge near Metuchen. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that this communication be returned to Mr. DeVoe with the advice that he arrange to prosecute this case to judgment, if in his opinion it is advisable.

Route 16, Section 5B.

State Highway Engineer Sloan presented to the Commission a report from Construction Engineer Bedwell, concerning the width of pavement to be established on South Bridge Street, Somerville, known as Route 16, Section 5B, and he recommended that, conditional upon a proper agreement being reached with the Central Railroad Company and the Borough of Somerville, a width of fifty feet be established for the right of way at this point. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the recommendation of the State Highway Engineer and directed that the width of right of way be made fifty feet on Route 16, Section 5B, subject to an agreement being reached as to the proper division of damages involved between the railroad company and the State Highway Commission.

Conference-
Cape May-Lewes Ferry

There was presented a communication received by the State Highway Engineer from Senator W. H. Bright, advising that it will be agreeable to have the meeting with the interested parties on the Cape May-Lewes Ferry at the City Hall in Cape May on Friday, October 30th, between 10:00 and 12:00 A.M. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission directed that Senator Bright be notified that the Commission will attend this conference and will arrange to be present at 12 o'clock.

October 6, 1925.

Route 9, Roselle Park.

The Secretary presented to the Commission a report from Superintendent of Maintenance Muir, on the improvement of Seaton Avenue intersection on Route 9 in the Borough of Roselle Park, in the vicinity of the Lehigh Valley Railroad, covering the request from the Borough. There was presented at this time an estimate showing that the work would involve an expenditure of approximately $3,000.00, and he recommended that the State Highway Commission enter into arrangements with the Borough of Roselle Park whereby the State will share one-half the cost of the reconstruction at this point in the Borough. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the recommendation of the State Highway Engineer and directed that such an offer be made to the Borough.

Subletting-Route 9, Section 4.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of subletting of contract by Martin White for the grading, concreting, etc. on Route 9, Section 4, at Dunellen, to M. F. Gilligan Sons, in accordance with the request of the contractor who will be responsible for the proper performance of the work.

Legislation-Signals

The Secretary presented a communication received from Assistant Attorney General DeVoe, advising that upon the investigation of the power of the State Highway Commission to proceed toward the removal of traffic signals and beacon lights, in several municipalities in the State, especially in the Boroughs of Point Pleasant Beach and Barnegat, he is of the opinion that Chapter 92 of the Laws of 1923, gives the Governing Body of every municipality the power to erect beacon lights in the streets of the municipality, and the State could not succeed in Chancery in restraining such installations. On motion by Mr. Jelin, seconded by Mr. Stewart, this opinion was ordered received and placed on file, and the Secretary was directed to make note of this circumstance, in order that some means for controlling traffic lighting on State Highways can be placed before the next Legislature by the Commission.

October 6, 1925.

Law Books - Purchase of

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the request of Assistant Attorney General DeVoe for the purchase of law books for the State Highway Department be returned to Mr. DeVoe with the advice that the State Library has the necessary volumes and his request cannot be approved.

Employments

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the following additions, changes and increases in the employments as made by the State Highway Engineer since the last meeting of the Commission:

Employed

10-1-25	Edward S. Fogg,	Maintenance Foreman	$155.00	mo.
"	Patrick H. Bundy,	Gravel Patrolman	90.00	"
"	Edward Conover,	" "	90.00	"
"	John Durr,	" "	85.00	"
"	Moses Herbert,	" "	85.00	"
"	Alfred Hersey,	" "	85.00	"
"	Bernard F. O'Connor,	" "	90.00	"
"	James J. Shallow,	" "	95.00	"
"	Harry P. Tozer,	" "	85.00	"
"	Paul H. Weiss,	" "	85.00	"
"	Thomas J. Finnegan,	Rodman,	90.00	"
"	Ralph B. Evans,	Maintenance Foreman,	155.00	"

Township Aid-Middlesex County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the award of contract by Raritan Township, Middlesex County, for Plainfield Avenue, Section 1, to Andrew Keys of Woodbridge, N. J.

October 6, 1925.

Township Aid-Bergen County

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved award of contract by the Borough of Hillsdale in Bergen County for Ruckman Avenue to G. M. Brewster & Son, Inc. with Township and Borough Aid.

Township Aid-Mercer County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved plans and specifications for Elm Street or Cedar Grove Road, Princeton Township, in Mercer County.

Township Aid-Monmouth County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved plans and specifications for Elton-Adelphia Road, Section 2, Freehold Township, Monmouth County, Township Aid.

Township Aid-Camden County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of Township Aid Force Account Agreements for Chews-Clementon Road, Gloucester Township, Camden County, Township Aid.

Township Aid-
Hunterdon, Cumberland & Bergen

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved acceptance and final payment when funds become available on the following Township Aid improvements:

Township	County	Road
Fairfield	Cumberland	Fairton-Gouldtown,
Landis	"	West Railroad Boulevard,
Deerfield	"	Rosen Road,
Hillsdale Boro	Bergen	VanEmburgh Avenue,
Washington	"	" "
Holland	Hunterdon	River Road (Milford-Riegelsville,Sec.1)

Township Aid-
VanEmburgh Ave., Bergen County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of an extension of time of eight days on VanEmburgh Avenue in Hillsdale Borough, Bergen County, and twenty-six days on VanEmburgh Avenue in Washington Township, Bergen County.

Laurel Mill Road,
Motor Vehicle Aid-Camden County

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved plans and specifications for Laurel Mill Road, Camden County, Motor Vehicle Aid work.

October 6, 1925.

Route 15, Section 7.

Commissioner Jelin reported the inspection of Route 15, Section 7, Menantico Creek-Port Elizabeth section, and moved that same be accepted and final payment authorized. This was seconded by Mr. Stewart and adopted.

Route 1 Extension, Elizabeth

Commissioner Stewart called attention to the fact that it is very desirable that a conference be held between the State, county and municipal authorities on the matter of Route 1 Extension through Elizabeth, where it will be necessary for property to be acquired and plans to be drawn for the improvement, and he moved that arrangements be made for a conference between the Board of Public Works of Elizabeth, County Engineer J. L. Bauer and City Engineer Collins, said conference to be held at the Commission rooms at the next meeting, on the matter of Route 1 Extension through Elizabeth.

Route 18-North

Commissioner Kidde moved at this time that the State Highway Commission grant an additional allotment of $20,000.00 to the funds already set aside for the improvement of LeMoine Avenue Extension on Route 18-North, to the County of Bergen, in order that this work may be proceeded with at once. This was seconded by Mr. Jelin and adopted.

Cooper River Bridge, Camden

Commissioner Kidde also moved at this time that the Commission approve the award of contract as recommended by the State Highway Engineer at the last meeting to Harrington, Howard & Ash, for engineering services in connection with the construction of the Cooper River Bridge on the Camden Entrance Road, Delaware River Bridge Approach, in the amount of $9,750.00 for the plans and necessary field inspection for a square type bascule bridge over the Cooper River, Camden Entrance Road, Delaware River Bridge Approach.

On motion by Mr. Stewart, seconded by Mr. Kidde, the meeting was recessed for luncheon at 1:30 P.M. to meet again at 2:30. The meeting was reconvened at 2:30 P.M. as agreed, with the same members present as at the morning session.

October 6, 1925.

Route 1 Connecting Link,
Georges Road, New Brunswick

Secretary Grover informed the Commission that a delegation representing the Middlesex County Board of Freeholders and the City of New Brunswick, were present and desired a hearing. On motion, duly seconded, a hearing was granted. There appeared City Attorney Haggerty, County Attorney Richardson, City Engineer Atkinson, and Freeholders Orpen, Haight, Applegate and Quackenbush.

Mr. Haight informed the Commission that the delegation appeared with reference to a matter presented to the State Highway Commission early last Spring, which involved the improvement of Georges Road, New Brunswick, which forms a part of State Highway Route 1. He advised that this was a county road in the city limits, and the county was very desirous of placing it in shape for the relief of traffic over the State Highways, and he further stated that at the time this matter was first considered, there was a tentative statement made that the State might be willing to share one-third of the cost if an agreement could be reached for the balance from the County and the City.

City Engineer Atkinson advised the Commission that the total length of the portion was 2,250 feet, of which it was desired to pave thirty-six feet wide with a concrete base and a bituminous top, at an estimated cost of $60,000.00.

Commissioner Kidde stated that he believed the estimate was high for the work, and must include underground structures which would be called local improvements, but if these local structures were not included in the cost, he would be willing to have the State assume a one-third share.

Commissioner Jelin stated that in view of the fact that this road is the only section on Route 1 which is not in satisfactory condition, and the further fact that it is burdened practically entirely with State Highway traffic, he would move that the State Highway Commission participate in the reconstruction of Georges Road, New Brunswick, to the extent of one-third of the contract cost, the balance to be provided by the county and the municipality. This was seconded by Mr. Stewart and adopted.

October 6, 1925.

Route 4 - Detours

County Engineer Richardson directed the attention of the Commission to the complaint received upon the Rahway Avenue detour from citizens between Woodbridge and Avenel. The Commission advised that this matter had also been presented at the morning session and there was no way in which the Commission could see its way clear to grant further aid on this road, in view of the fact that it is no longer an official detour, and the State Highway Commission has expended approximately $5,000 in putting the road in shape for detour purposes.

Construction Program - 1926

The Commission next conferred on the matter of State Highway funds and the State Highway Program for 1926, and Commissioner Kidde suggested that the Chief Auditor prepare a statement to the Commission as to the funds available and the need for further sale of bonds to meet contract payments. The Secretary advised that this information would be obtained.

Commissioner Kidde, therefore, moved that the meeting be adjourned until Tuesday, October 13th. This was seconded by Mr. Stewart and adopted.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - October 13, 1925.

A regular meeting of the State Highway Commission was held at the offices of the Commission, Broad Street Bank Building, Trenton, on Tuesday, October 13, 1925. The meeting was called to order by Chairman Scott at 10:15 A.M.

Present: General H. L. Scott, Chairman, Messrs. Percy H. Stewart, Walter Kidde and Abraham Jelin.

Route 1 Extension, Elizabeth

The Secretary presented a communication received from Mr. Sidney W. Eldridge, Chairman of a Special Committee of the Elizabeth Chamber of Commerce, in which he advised that the members of the Chamber, as well as the city and county officials, were anxious to learn the tentative plans of the Commission for Route 1 Extension through Elizabeth, and he inquired whether these plans were in such shape that a public hearing could be given. The Secretary informed the Commission that in line with invitation extended at the last meeting, a hearing had been arranged with the local authorities of the city and county, to take place this day at 11 o'clock. Mr. Stewart, therefore, moved that reply to Mr. Eldridge's letter be held up until after such a hearing. This was seconded and adopted.

Bridges, Route 4, Toms River

The Secretary presented a communication received from Hon. Victor Gelineau, Director of the State Board of Commerce and Navigation, acknowledging receipt of the letter forwarded by the State Highway Commission under date of September 30th on the matter of highway bridges across the North and South Channel and Jake's Branch of Toms River on Route 4. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission ordered this letter received and placed on file.

Route 1 Connecting Link-
Georges Road,
New Brunswick.

The Secretary presented a communication from Thomas H. Hagerty, City Attorney for New Brunswick, advising that Route 1 Connecting Link known as Georges Road, New Brunswick, has been taken over as a county road, and in view of the contemplated improvements to be joined in one-third by the State, and equal amounts by the county and city, he desired information as to what body would prepare the plans and advertise the work. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that this matter be referred to the State Highway Engineer for disposition.

Route 4, Manasquan River Bridge

The Secretary presented a communication received from the Borough of Brielle, requesting that in addition to the lights on the draw over the Manasquan River on Route 4, the Commission install lights along the entire fill, since the old bridge was lighted its entire distance by the county. State Highway Engineer Sloan explained that the bridge portion has been very much shortened, and it is the policy of the Commission to light only drawbridges and not highways or bridge approaches. On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission directed that the Borough of Brielle be advised that it is the policy of the Commission to light draw bridges only, and their request cannot be complied with.

Complaints-Route 4, Detour

The Secretary presented to the Commission a report from Superintendent of Maintenance Muir, on the complaint made by the Resorts Association of Toms River and Barnegat Bay that the streets through Ocean Gate, Springfield and Beachwood, all used as detours during the construction of Route 4, were not returned to the municipalities in good condition by the State. The report advised that, after inspection, the Supervisor reports that these roads are in as good or better condition than they were in May of this year. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that the Association be forwarded a copy of the Maintenance Division report.

Invitation- State Association of Freeholders.

The Secretary presented a communication from the State Association of Freeholders, inviting the Commission to attend the next meeting of the Association at the New Lisbon State Institution on October 19th. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission directed that the invitation be acknowledged and they be advised that those Commissioners who can attend will do so.

Right of Way-General

The Secretary presented several bills presented for appraisals on State Highway right of way. On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved the following payments:

J. P. Gerity & Co., Woodbridge -	Route	4	Appraisals	$620.00
Joseph B. Langan, Keyport,	"	4	"	50.00
W. M. Bakely & M. L. Ruberton,	"	3	"	20.00
Wilbert Sheldon, Millville,	"	15,	"	20.00
W. Fred Ware, Millville,	"	15,	"	20.00

Meetings

Commissioner Kidde reported having attended the 250th Anniversary Celebration at Salem City on Saturday last, in company with Chairman Scott.

Commissioner Stewart reported having addressed the Kiwanis Club of Atlantic City on Friday, October 9th, and advised that his statements concerning the abuse of roads by overloaded vehicles was well received. He also stated that he had inspected the Amboy Bridge and Route 4, and he found the progress being made on these projects was very rapid, and the road is a wonderful improvement to the State. Mr. Stewart also advised that the local civic organizations in Atlantic City are interested in making a grand demonstration on the opening of Route 4 to traffic.

The Schedule of Business was next taken up item by item as follows, with the recommendation of the State Highway Engineer:

Route 2, Section 4A

There was reported the completion of Route 2, Section 4A, Burlington Cut-off, by the Freehold Construction Company, and its acceptance was recommended. Commissioner Jelin reported that he had inspected this work and found it satisfactory and he moved that it be accepted and final payment authorized. This was seconded by Mr. Stewart and adopted.

Rights of Way

On motion by Mr. Stewart, seconded by Mr. Jelin, the Commission approved the following purchase agreements for right of way on State Highway Routes and directed that a letter of thanks be forwarded in those cases where the conveyance is made for nominal considerations:

Route 3, Section 12, Egg Harbor-Hammonton

Parcel No.		Consideration
8A	Emil J. Edelberg,	$ 1.00

Right of Way-
Connecting Road, Section 2.

The State Highway Engineer recommended that an offer of $500.00 be made to Millie Frame and Filameno Carmissa, for Parcel 148 on the Camden Extension Connecting Road, Section 2, and in the event of its refusal, to condemn. On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission directed that an offer of $500.00 be made as recommended, and in the event of its refusal, that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey for public use in the construction of State Highway Connecting Road, Section 2, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Beginning at a point formed by the intersection of the dividing line between lands of grantor herein on the South and lands now or formerly of Edward S. Miller on the North with the easterly side line of Poplar Street, said point being distant seventy-five and fifty-four one-hundredths (75.54) feet in a southeasterly direction along said side line of Poplar Street from the southeasterly side line of Williams Street, said point also being distant twenty-six and twenty-five one-hundredths (26.25) feet in a southeasterly direction from the proposed line of State Highway Connecting Road, Section 2, at Station 84 plus 79.85, as shown on a plan hereto attached, entitled "New Jersey State Highway Department, Camden Extension Division Connecting Road, Property to be acquired from Millie Framo & Filemeno Carmissa, Pensauken Township, Scale 1"=50', July 1925"; and running;

Thence (1) along said dividing line, North fifty-seven degrees, six minutes and thirty seconds East (N57°06'30"E) a distance of forty-five and forty-eight one-hundredths (45.48) feet to a point in the proposed southeasterly right of way line of said Connecting Road; thence (2) along said southeasterly right of way line in a southwesterly direction, concentric with and forty (40) feet distant radially from the proposed center line of said Connecting Road on the arc of a curve to the left with a radius of 2824.93 feet, a distance of forty-seven and seventy-three one-hundredths (47.73) feet to a point in the northeasterly side line of Poplar Street; thence (3) along said side line of Poplar Street, North thirty-two degrees, fifty-three minutes and thirty seconds West (N32°53'30"W) a distance of fourteen and forty-seven one-hundredths (14.47) feet to the point and place of beginning:

CONTAINING three hundred twenty-six (326) square feet, be the same more or less;

INTENDING TO ACQUIRE all that land now owned or controlled by the party of the first part that lies between the proposed right of way lines, distant forty-(40) feet each side of the proposed center line of said Connecting Road, extending from Poplar Street on the West to the rear line of Poplar Street lots on the East;

TOGETHER WITH the right to form and maintain slopes over adjacent lands of grantor, said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of the adjacent lands from the level of said highway.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission to make an offer of the sum of $500.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way-
Connecting Road, Sec. 1, Camden

On recommendation of the State Highway Engineer, Commissioner Stewart moved that an offer of $75.00 be made to Daniel W. Gilberg and Gertrude Elizabeth, his wife, for Parcel 172 on Camden Extension Connecting Road, Section 1, and in the event of its refusal it be acquired by condemnation in accordance with the following resolution:

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route Section 1, Connecting Road, Camden, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

October 15, 1925.

Parcel No. 172

BEGINNING at a point formed by the intersection of the southerly side line of Wyndam Road with the proposed southeasterly right of way line of State Highway Connecting Road, Section 1, said point being distant one hundred sixty-three and twenty-one one-hundredths (163.21) feet westerly along said southerly side line of Wyndam Road from the westerly side line of Penn Street, said point being also distant forty (40) feet southeasterly from the proposed center line of said Connecting Road at Station 128 plus 48.35, as shown on the plan hereto attached entitled "New Jersey State Highway Department, Camden Extension Division, Connecting Road, Property to be acquired from Ralph Huber Clair, Pensauken Township, Scale 1"=50' July, 1925"; and running

Thence (1) along said southeasterly right of way line of said Connecting Road, South forty-one degrees, forty-five minutes, twenty-two seconds West (S41°45'22"W) a distance of forty-eight and eleven one-hundredths (48.11) feet to a point in the dividing line between lands of grantor herein on the East and lands now or formerly of Edward M. Solomon, Inc. on the West; thence (2) along said dividing line, North eight degrees, seven minutes, thirty seconds West (N8°07'30"W) a distance of thirty-one (31) feet to a point in the southerly side line of Wyndam Road; thence (3) along said southerly side line of Wyndam Road, North eighty-one degrees, fifty-two minutes, thirty seconds East (N81° 52'30"E) a distance of thirty-six and seventy-nine one-hundredths (36.79) feet to the point and place of beginning;

CONTAINING five hundred seventy (570) square feet, be the same more or less;

INTENDING TO ACQUIRE that triangular portion of land at the northwesterly corner of lands of grantor lying between the proposed right of way lines, distant forty (40) feet each side of the proposed center line of said Connecting Road;

TOGETHER WITH the right to form and maintain slopes over adjacent lands of grantor, said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of the adjacent lands from the level of said highway.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission to make an offer of the sum of $75.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way-
Connecting Road, Section 2

On recommendation of the State Highway Engineer, Commissioner Kidde moved that an offer of $475.00 be made to Michael & Kate Szivery for Parcel 116 on the Camden Extension Connecting Road, Section 2, and in the event of its refusal, it be acquired by condemnation in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Connecting Road, Section 2, ALL that certain lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

October 13, 1925.

Parcel 116

BEGINNING at the intersection of the proposed westerly right of way line of the State Highway Connecting Road and the dividing line between the lands of grantor and Walter E. Gross, said place of beginning being North eighty-nine degrees, fifty minutes East (N89°50'E) ninety-three and ten hundredths (93.10) feet from a point on the easterly line of 41st Street, said last mentioned point being South ten minutes East (S0°10'E) two hundred twenty and fifteen hundredths (220.15) feet along the easterly line of 41st Street from the southeast corner of Federal Street and 41st Street, said place of beginning also being forty (40) feet westerly and normal to proposed center line at Station 68 plus 22.27, as shown on a plan hereto attached entitled "New Jersey State Highway Department, Camden Extension Division, Connecting Road, Property to be acquired from Michael & Kate Szivery, City of Camden, Scale 1" equals 50', July 1925," and running;

Thence (1) along said proposed westerly right of way line forty (40) feet westerly and parallel to the proposed center line North nineteen degrees, six minutes, ten seconds East (N19°06'10"E) forty-two and thirty-seven hundredths (42.37) feet to dividing line between lands of grantor and Peter Harvey Harrop; thence (2) along said dividing line North eighty-nine degrees, fifty minutes East (N89°50'E) seventeen and fifteen hundredths (17.15) feet to dividing line between lands of grantor and Charles F. & Emma T. Steiger; thence (3) along said dividing line South seven degrees, thirty-four minutes, twenty-five seconds West (S7°34'25"W) forty and thirty-four hundredths (40.34) feet to dividing line between lands of grantor and Walter E. Gross; thence (4) along said dividing line South eighty-nine degrees, fifty minutes West (S89°50'W) thirty-six and thirty-four hundredths (36.34) feet to place of beginning;

CONTAINING one thousand, seventy (1.070) square feet, be the same more or less;

INTENDING TO CONVEY all that land contained in lot now owned or controlled by grantor that lies within forty (40) feet of the proposed center line of the Connecting Road;

TOGETHER WITH right to form and maintain slopes over adjacent lands of grantor, said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of the adjacent lands from the level of said highway.

IT IS HEREBY UNDERSTOOD AND AGREED that the grantor will remove or cause to be removed all buildings from within the limits of the right of way hereinabove described, and that the cash consideration hereinabove agreed to is to be considered by both parties hereto as payment in full to the grantor, his heirs, lessees, or anyone acting in his or their behalf, of all claims for damages of whatever nature resulting directly or indirectly from the construction and improvement of the road.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission to make an offer of the sum of $475.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

October 13, 1925.

Right of Way-
Entrance Road, Section 2.

On recommendation of the State Highway Engineer, Commissioner Stewart moved that an offer of $7164.08 be made to the Taylor White Extracting Company for Parcels Nos. 50, 52, 55, 56, 57 and 58 on the Camden Extension Entrance Road, Section 2, and in the event of its refusal that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Entrance Road, Section 2, ALL that certain Lot, tract or parcels of land and premises situate, lying, and being in the State of New Jersey, and more particularly described as follows:

Parcel 50

BEGINNING in the riparian line on the left bank of Cooper River and in the proposed northerly right of way line of the Delaware River Bridge Entrance Road and running;

Thence (1) along said riparian line North fifty-seven degrees, fifty-seven minutes, fifty seconds East (N57°57'50"E) sixty-five and sixty-seven hundredths (65.67) feet to an angle in same; thence (2) still along the same South seventy-two degrees, four minutes, fifty seconds East (S72°04'50"E) ninety-seven and eighty-two hundredths (97.82) feet to the extension of the line between grantee and the Samuel H. French Company; thence (3) along said line extended South ten degrees, twenty-nine minutes, fifty-eight seconds East (S10°29'58"E) twenty-two and eighty-eight hundredths (22.88) feet to the proposed northerly right of way line of the Delaware River Bridge Entrance Road: thence (4) along said right of way line North eighty-four degrees, thirty-eight minutes, twenty seconds West (N84°38'20"W) fifty-seven and thirty-seven hundredths (57.37) feet to a point of curve; thence (5) still along same, curving to the right with a radius of thirteen hundred, seventy-two and sixty-nine hundredths (1372.69) feet distant along the arc ninety-six and sixty-two hundredths (96.62) feet "the chord for this course bearing North eighty-two degrees, thirty-seven minutes, twenty-one seconds West (N82°37'21"W) and being ninety-six and six tenths (96.6) feet long" to the place of beginning;

CONTAINING in area forty-two hundred ninety-seven (4297) square feet more or less, lying to the northerly side of the proposed Delaware River Bridge Entrance Road and extending to the present riparian line of Cooper River, and

Consisting of the release or abandonment of riparian rights one hundred sixty-three and forty-nine hundredths (163.49) feet in length;

Subject to the right of the State of New Jersey to build and maintain slopes over this tract as may be necessary in the construction of the above mentioned highway; said right of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of adjacent lands from the level of said highway.

Parcel 52

BEGINNING in the riparian line of the left bank of Cooper River and corner to lands of grantor and the Public Service Electric Company, and running;

Thence (1) along said riparian line North fifty-seven degrees, fifty-seven minutes, fifty seconds East (N57°57'50"E) sixty-eight and eighty-three hundredths (68.83) feet to the proposed northerly right of way line of the Delaware River Bridge Entrance Road; thence (2) along said right of way line and through the lands of grantor of which this tract about to be conveyed is a part, curving to the left with a radius of thirteen hundred seventy-two and sixty-nine hundredths (1372.69) feet distant on the arc ninety-six and sixty-two hundredths (96.62) feet (the chord for this course bearing South eighty-two degrees, thirty-seven minutes, twenty-one seconds East (S82°37'21"E) and being ninety-six and six tenths (96.6) feet long) to a point of tangency; thence (3) still along the same South eighty-four degrees, thirty-eight minutes, twenty seconds East (S84°38'20"E) one hundred forty-nine and nine tenths (149.9) feet to another point in the above mentioned riparian line; thence (4) along said riparian line South seventy-two degrees, four minutes, fifty-seconds East (S72°04'50"E) twenty-five and ninety-seven hundredths (25.97) feet to the line of lands of the Parkside Land Company as extended to the riparian line; thence (5) along the line of lands of the grantor and Parkside Land Company South five degrees, thirty-one minutes, fifty seconds East (S5°31'50"E) one hundred sixteen and forty-six hundredths (116.46) feet to the proposed southerly right of way line of the Delaware River Bridge Entrance Road; thence (6) along said right of way line and through lands of grantor North eighty-four degrees, thirty-eight minutes, twenty seconds West (N84°38'20"W) one hundred ninety-seven and twenty-five hundredths (197.25) feet to a point of curve; thence (7) still by the same curving to the right with a radius of fourteen hundred ninety-two and sixty-nine hundredths (1492.69) feet distant on the arc ninety-four and thirty-nine hundredths (94.39) feet (the chord for this course bearing North eighty-two degrees, forty-nine minutes, thirty-eight seconds West (N82°49'38"W) and being ninety-four and thirty-seven hundredths (94.37) feet long) to the line of lands of the Public Service Electric Company; thence (8) along line of lands of grantor and said Public Service Company North thirty degrees, thirty-one minutes, fifty seconds West (N30°31'50"W) ninety-seven and four hundredths (97.04) feet to the place of beginning;

CONTAINING in area thirty-seven thousand twenty-two (37.022) square feet more or less lying within the proposed right of way lines of the Delaware River Bridge Entrance Road and between the lands of the Public Service Electric Company and the Parkside Land Company and consisting of a release of riparian rights ninety-four and eight tenths (94.8) feet in length;

TOGETHER WITH thr eight to form and maintain slopes over adjoining lands of grantor as may be necessary for the construction of said highway, said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of the adjacent lands from the level of said highway;

Parcel 55

BEGINNING at the intersection of the line of lands of Public Service Electric Company and the grantor with the proposed mean low water line on the right bank of the proposed bed of Cooper River, and running;

Thence (1) along said proposed mean low water line South eighty-four degrees, thirty-eight minutes, twenty seconds East (S84°38'20"E) one hundred sixty-nine and eighty-four hundredths (169.84) feet to the extension of line between lands of South Jersey Gas, Electric & Traction Company and S. H. French Company; thence (2) along said extended line North ten degrees twenty-nine minutes, fifty-eight seconds West (N10° 29'58"W) twenty-one and sixty-two hundredths (21.62) feet to the proposed mean high water line on the right bank of the proposed bed of Cooper River; thence (3) along said proposed mean high water line South eighty-four degrees, thirty-eight minutes, twenty seconds East (S84° 38'20"E) one hundred four and eighty-two hundredths (104.82) feet to the line of land of the Parkside Land Company; thence (4) along said line South five degrees thirty-one minutes, fifty seconds East (S5° 31'50"E) one hundred ninety and twenty-two hundredths (190.22) feet to the proposed mean low water line of the left bank of the proposed bed of Cooper River; thence (5) along said proposed mean low water line and other land of grantor North eighty-four degrees, thirty-eight minutes, twenty seconds West (N84°38'20"W) two hundred three and sixty-seven hundredths (203.67) feet to the line of land of the Public Service Electric Company; thence (6) along said line North five degrees, thirty-one minutes, fifty seconds West (N5°31'50"W) thirty-six and sixty-one hundredths (36.61) feet to an angle: thence (7) still along same North thirty degrees, thirty-one minutes, fifty seconds West (N30°31'50"W)

October 13, 1925.

one hundred sixty and fifty-three hundredths (160.53) feet to the place of beginning;

CONTAINING forty thousand four hundred sixty-one (40,461) square feet more or less, lying within the proposed bed of Cooper River and between lands of the Public Service Electric Company and Parkside Land Company:

Except that the right to form and maintain slopes over this tract as may be necessary in the construction of said road is reserved to the State of New Jersey, said right of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of the adjacent lands from the level of said road;

The grantee hereby retaining the right to use such land provided that such use does not interfere with said slopes or endanger said highway.

Parcel 56

BEGINNING at the intersection of the proposed southerly right of way line of the Delaware River Bridge Entrance Road with the line of lands of Public Service Electric Company and grantor and running;

Thence (1) along said proposed southerly right of way line of the Delaware River Bridge Entrance Road, curving to the left with a radius of fourteen hundred ninety-two and sixty-nine hundredths (1492.69) feet distant along the arc ninety-four and thirty-nine hundredths (94.39) feet (the chord for this course bearing South eighty-two degrees, forty-nine minutes, thirty-eight seconds East (S82°49'38"E) and being ninety-four and thirty-seven hundredths (94.37) feet long) to the end of curve; thence (2) still along same right of way line South eighty-four degrees, thirty-eight minutes, twenty seconds East (S84°38'20"E) ninety-one and forty-six hundredths (91.46) feet to the intersection with the extension of line of lands between South Jersey Gas, Electric & Traction Company and S. H. French Company: thence (3) along said extended line South five degrees, thirty-one minutes, fifty seconds East (S5°31'50"E) thirty-two and sixty-four hundredths (32.64) feet to the proposed mean low water line on the right bank of the proposed bed of Cooper River; thence (4) along said proposed mean low water line North eighty-four degrees, thirty-eight minutes, twenty seconds West (N84°38'20"W) one hundred sixty-nine and eighty-four hundredths (169.84) feet to the line of lands of Public Service Electric Company: thence (5) along said line North thirty degrees, thirty-one minutes, fifty seconds West (N30°31'50"W) forty-two and forty-three hundredths (42.43) feet to the point of beginning;

CONTAINING in area five thousand six hundred thirty-seven (5637) square feet more or less, lying between the proposed Delaware River Bridge Entrance Road and the proposed bed of Cooper River and between land of the Public Service Electric Company and extended line of land between South Jersey Gas, Electric & Traction Company and S. H. French Company;

Except the right to form and maintain slopes over this tract as may be necessary in the construction of said road is reserved to the State of New Jersey, said right of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of the adjacent lands from the level of said road.

Parcel 57

BEGINNING at the intersection of the proposed southerly right of way line of the Delaware River Bridge Entrance Road with the extended westerly line of land of S. H. French Company and South Jersey Gas, Electric & Traction Company, and running:

Thence (1) along said right of way line South eighty-four degrees, thirty-eight minutes, twenty seconds East (S84°38'20"E) one hundred five and eight tenths (105.8) feet to the line of land of Parkside Land Company; thence (2) along said line South five degrees, thirty-one minutes, fifty seconds East (S5°31'50"E) ten and seventy-nine hundredths (10.79) feet to the proposed mean high water line on the right bank of the proposed bed of Cooper River: thence (3) along said proposed mean high water line North eighty-four degrees, thirty-eight minutes, twenty seconds West (N84°38'20"W) one hundred four and eighty-two hundredths

(104.82) feet to the extended line of lands of South Jersey Gas, Electric & Traction Company and grantee; thence (4) along said line of land North ten degrees, twenty-nine minutes, fifty-eight seconds West (N10°29'58"W) eleven and two hundredths (11.02) feet to the place of beginning;

CONTAINING in area one thousand one hundred sixteen (1116) square feet more or less, lying between the proposed Delaware River Bridge Entrance Road and the proposed bed of Cooper River and between the extended line of land between the South Jersey Gas, Electric & Traction Company and S. H. French Company and the Parkside Land Company;

Except that the right to form and maintain slopes over this tract as may be necessary in the construction of said road is reserved to the State of New Jersey, said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of adjacent land from the level of said highway, the grantee hereby retaining the right to use such land, providing such use does not interfere with said slopes or endanger said highway.

Parcel 58

BEGINNING at the intersection of the northerly right of way line of the Delaware River Bridge Entrance Road with the extension of line of land between South Jersey Gas, Electric & Traction Company and grantee and running;

Thence (1) along said line North ten degrees, twenty-nine minutes, fifty-eight seconds West (N10°29'58"W) twenty-two and eighty-eight hundredths (22.88) feet to the present riparian line on the left bank of the Cooper River; thence (2) along said riparian line South seventy-two degrees, four minutes, fifty seconds East (S72°04'50"E) one hundred one and twenty-one hundredths (101.21) feet to the proposed northerly right of way line of the Delaware River Bridge Entrance Road; thence (3) along said proposed right of way line North eighty-four degrees, thirty-eight minutes, twenty seconds West (N84°38'20"W) ninety-two and fifty-three hundredths (92.53) feet to the place of beginning;

CONTAINING in area one thousand eighteen (1018) square feet more or less, lying between the Delaware River Bridge Entrance Road and adjacent land about to be conveyed to the grantee;

Except that the right to form and maintain slopes over this tract as may be necessary in the construction of said road is reserved to the State of New Jersey, said right of maintenance to remain in effect for such period as may be necessary on account of the variation of the level of the adjacent lands from the level of said highway; the grantee hereby retaining the right to use such land, providing such use does not interfere with said slopes or endanger said highway;

Subject to the release or abandonment of riparian rights one hundred one and twenty-one hundredths (101.21) feet in length.

The State Highway Engineer is hereby authorized and directed in behalf of this Commission to make an offer of the sum of $7164.08 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

October 13, 1925.

Right of Way-
Entrance Road, Section 2

On recommendation of the State Highway Engineer, Commissioner Kidde moved that an offer of $1671.74 be made to S. H. French Estate, Fidelity Trust Company of Philadelphia, Trustees, for Parcel 83 on Camden Extension Entrance Road, Section 2, and in the event of its refusal, it be acquired by condemnation in accordance with the following resolution:

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Entrance Road, Section 2, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel 83

BEGINNING at the intersection of the present mean high water line of Cooper River and the proposed northerly right of way line of the proposed Delaware River Bridge Entrance Road and running:

Thence (1) along said right of way line and land of grantor, curving to the right with a radius of twenty-nine hundred twenty-four and ninety-three hundredths (2924.93) feet distant along the arc six hundred fifty-four and nine tenths (654.9) feet (the chord for this course bearing South seventy-four degrees, twenty-one minutes, forty-five seconds East (S74°21'45"E) and being six hundred fifty-three and fifty-four hundredths (653.54) feet long) to the land of grantor and Forest Hill Gardens Company: thence (2) along said line South forty-eight degrees, thirty-nine minutes, twenty-five seconds West (S49°39'25"W) one hundred thirty-four and ninety-three hundredths (134.93) feet to the proposed southerly right of way line of the proposed Delaware River Bridge Entrance Road; thence (3) along said right of way line and land of grantor curving to the left with a radius of twenty-eight hundred four and ninety-three hundredths (2304.93) feet distant along the arc three hundred twelve and five tenths (312.5) feet (the chord for this course bearing North seventy-two degrees, twenty-two minutes twenty-seven seconds West (N72°22'27"W) and being three hundred twelve and thirty-four hundredths (312.34) feet long) to the present mean high water line on the right bank of Cooper River; thence (4) along said present mean high water line North twenty-seven degrees, four minutes, thirty seconds West (N27°04'30"W) twenty and twenty-five hundredths (20.25) feet to an angle; thence (5) still along said mean high water line North fifty-one degrees, thirty-three minutes West (N51°33'W) one hundred seventy (170) feet to an angle; thence (6) still along said mean high water line North sixty degrees, fifty-two minutes, thirty seconds West (N60°52'30"W) eighty (80) feet to an angle; thence (7) still along said mean high water line North sixty-six degrees, four minutes, thirty seconds West (N66°04'30"W) nineteen and eighty-four hundredths (19.84) feet to the place of beginning;

CONTAINING in area forty-eight thousand, five hundred ninety-seven (48.597) square feet more or less, on the right bank of Cooper River and lying within the proposed right of way lines of the proposed Delaware River Bridge Entrance Road and between the easterly property line of grantor and mean high water line;

TOGETHER with the right to form and maintain slopes over adjoining lands of grantor as may be necessary in the construction of said road is reserved to the State of New Jersey: said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of the adjacent land from the level of said highway;

The grantor hereby retaining the right to use such land providing such use does not interfere with said slopes or endanger said highway:

And the party of the first part agrees to release the right of frontage on the right bank of Cooper River as now located in consideration of the conveyance assigned by party of the second part to party of

October 13, 1925.

the first part, said lands lying and being in the City of Camden, in the County of Camden and State of New Jersey, more particularly described in descriptions of Parcels Nos. 82 and 79, which descriptions are hereby attached hereto and form a part of this agreement;

And the party of the second part agrees to fill said land to a level above mean high water in said Cooper River.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission to make an offer of the sum of $1671.74 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey, free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way-
Connecting Road, Section 2, Camden

On recommendation of the State Highway Engineer, Commissioner Kidde moved that an offer of $813.60 be made to Willard Martz et ux, for Parcel 110 on Camden Extension Connecting Road, Section 2, and in the event of its refusal that condemnation proceedings be instituted in accordance with the following resolution:

RESOLVED that this Commission hereby determines to acquire in the name of the State of New Jersey for public use in the construction of State Highway Route, Connecting Road, Section 2, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel 110

BEGINNING at the intersection of the proposed easterly right of way line of the State Highway Connecting Road and the dividing line between lands of grantor and lot belonging to Joseph Goetz, said place of beginning being North eighty-nine degrees, fifty minutes East (N89° 50'E) one hundred seven and ninety-three hundredths (107.93) feet from a point on the easterly line of 41st Street, said last mentioned point being North ten minutes West (N0°10'W) seventy-eight and sixty-hundredths (78.60) feet along the easterly line of 41st Street from the northeast corner of Myrtle Avenue and 41st Street, said place of beginning also being forty (40) feet easterly and normal to proposed center line at Station 66 plus 38.36, as shown on a plan hereto attached entitled "New Jersey State Highway Department, Camden Extension Division, Connecting Road, Property to be acquired from Willard Martz, City of Camden, Scale 1" equals 50', July 1925," and running;

Thence (1) along said dividing line between lands of grantor on the North and lands of Joseph Goetz on the South, South eighty-nine degrees, fifty minutes West (S89°50'W) eighty-four and seventy-five hundredths (84.75) feet to the proposed westerly right of way line of the Connecting Road; thence (2) along said proposed westerly right of way line forty (40) feet westerly and parallel to the proposed center line North nineteen degrees, six minutes, ten seconds East (N19°06'10"E) forty-two and thirty-seven hundredths (42.37) feet to the dividing line between lands of grantor and Kathryn Stringer; thence (3) along said dividing line North eighty-nine degrees, fifty minutes East (N89°50'E) eighty-four and seventy-five hundredths (84.75) feet to the proposed easterly right of way line of the Connecting Road; thence (4) along said proposed easterly right of way line forty (40) feet easterly parallel to the proposed center line South nineteen degrees, six minutes, ten seconds West (S19°06'10"W) forty-two and thirty-seven hundredths (42.37) feet to the place of beginning;

CONTAINING three thousand, three hundred and ninety (3,390) square feet, be the same more or less;

INTENDING TO CONVEY all that land contained in lot now owned or controlled by the grantor that lies within forty (40) feet of the proposed center line of the Connecting Road;

TOGETHER WITH the right to form and maintain slopes over adjacent lands of grantor, said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of the adjacent lands from the level of said highway; the grantor hereby retaining the right to use such land providing such use does not interfere with said slopes or endanger said highway.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $813.60 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately obtained by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way-
Connecting Road, Section 2, Camden

On recommendation of the State Highway Engineer, Commissioner Kidde moved that an offer of $813.60 be made to Kathryn Stringert, et al for Parcel No. 111 on Camden Extension Connecting Road, Section 2, and in the event of its refusal, that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey for public use in the construction of State Highway Connecting Road, Section 2, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel 111

BEGINNING at the intersection of the proposed easterly right of way line of the State Highway Connecting Road and the dividing line between the lands of grantor and lot belonging to Willard Lartz, said place of beginning being North eighty-nine degrees, fifty minutes East (N89°50'E) one hundred twenty-one and ninety-two hundredths (121.92) feet from a point on the easterly line of 41st Street, said last mentioned point being North ten minutes West (N0 10'W) one hundred eighteen and sixty hundredths (118.60) feet along the easterly line of 41st Street from the northeast corner of Myrtle Avenue and 41st Street, said place of beginning also being forty (40) feet easterly and normal to proposed center line Station 66 plus 80.74, as shown on a plan hereto attached entitled "New Jersey State Highway Department, Camden Extension Division, Connecting Road, Property to be acquired from Kathryn Stringer, City of Camden, Scale 1" equals 50', July 1925," and running;

Thence (1) along said dividing line between the lands of grantor and Willard Martz, South eighty-nine degrees, fifty minutes West (S89°50'W) eighty-four and seventy-five hundredths (84.75) feet to the proposed westerly right of way line of the Connecting Road; thence (2) along said proposed westerly right of way line forty (40) feet westerly and parallel to the proposed center line North nineteen degrees, six minutes, ten seconds East (N19°06'10"E) forty-two and thirty-seven hundredths (42.37) feet to the dividing line between the lands of grantor and Charles H. Dahl; thence (3) along said dividing line North eighty-nine degrees, fifty minutes, East (N89°50'E) eighty-four and seventy-five hundredths (84.75) feet to the proposed easterly right of way line of the Connecting Road; thence (4) along said proposed right of way line forty (40) feet easterly and parallel to the proposed center line South nineteen degrees, six minutes, ten seconds West (S19°06'10"W) forty-two and thirty-seven hundredths (42.37) feet to the place of beginning;

CONTAINING three thousand, three hundred and ninety (3390) square feet, be the same more or less;

Intending to convey all that land contained in lot now owned or controlled by the grantor that lies within forty (40) feet of the proposed center line of the Connecting Road;

TOGETHER WITH the right to form and maintain slopes over adjacent lands of grantor, said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of the adjacent lands from the level of said highway; the grantor hereby retaining the right to use such land providing such use does not interfere with said slopes or endanger said highway.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission to make an offer of the sum of $813.60 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way-
Connecting Road, Section 2, Camden

On recommendation of the State Highway Engineer, Commissioner Kidde moved that an offer of $3352.88 be made to C. Frazier Hadley for Parcel 128 on Camden Extension Connecting Road, Section 2, and in the event of its refusal that condemnation proceedings be instituted in accordance with the following resolution:

October 13, 1925.

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey for public use in the construction of State Highway Connecting Road, Section 2, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel 128

BEGINNING at the intersection of the northeasterly line of 41st Street and the dividing line between lands of grantor and Elsie P. Dunn, said place of beginning being North thirty-two degrees, twenty-one minutes, forty seconds West (N32°21'40"W) one hundred fifty-two and ninety-five hundredths (152.95) feet along the northeasterly line of 41st Street from the northeast corner of 41st Street and Federal Street, said place of beginning also being thirty-four and fourteen hundredths (34.14) feet easterly and normal to the proposed center line Station 73 plus 84.42, as shown on a plan hereto attached entitled "New Jersey State Highway Department, Camden Extension Division, Connecting Road, Property to be acquired from C. Frazier Hadley, Pensauken Township, Scale 1" equals 50', July 1925," and running;

Thence (1) along said northeasterly line of 41st Street, North thirty-two degrees, twenty-one minutes, forty seconds West (N32°21'40"W) eighty (80.00) feet to the dividing line between lands of grantor and Edwin & Annie C. Foster; thence (2) along said dividing line at right angle to 41st Street North fifty-seven degrees, thirty-eight minutes, twenty seconds East (N57°38'20"E) one hundred nineteen and ninety-nine hundredths (119.99) feet to the dividing line between lands of grantor and Charles S. & Maggie Ross; thence (3) along said dividing line and parallel to 41st Street, South thirty-two degrees, twenty-one minutes, forty seconds East (S32°21'40"E) twenty-seven and sixty-two hundredths (27.62) feet to the proposed southeasterly right of way line of Connecting Road; thence (4) along said proposed southeasterly right of way line of forty (40) feet East and parallel to proposed center line South thirty-one degrees, twenty-nine minutes, twenty seconds West (S31°29'20"W) eighteen and eighty-five hundredths (118.85) feet to the dividing line between lands of grantor and Elsie P. Dunn; thence (5) along said dividing line and right angle to 41st Street South fifty-seven degrees, thirty-eight minutes, twenty seconds West (S57°38'20"W) thirteen and thirty hundredths (13.30) feet to the place of beginning;

CONTAINING six thousand eight hundred five (6,805) square feet, be the same more or less;

INTENDING TO CONVEY all that land contained in lot now owned or controlled by grantor that lies within forty (40) feet of the proposed center line of the Connecting Road.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission to make an offer of the sum of $5552.88 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way-
Connecting Road, Section 2, Camden

On recommendation of the State Highway Engineer, Commissioner Stewart moved that an offer of $5550.00 be made to Edward F. and Almeda Sutton, for Parcel 136 on Camden Extension Connecting Road, Section 2, and in the event of refusal that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey for public use in the construction of Connecting Road, Section 2, A.M. that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel 136

BEGINNING at the intersection of the dividing line between lands of grantor and Jennie B. Nunn and the northeasterly line of 42nd Street, said intersection being South thirty-two degrees, twenty-one minutes, forty seconds East (S32°21'40"E) one hundred eighty-one and seventy-three hundredths (181.73) feet along the northeasterly line of 42nd Street from the southeast corner of 42nd Street and South Chestnut Street, said place of beginning also being sixty-two hundredths (0.62) feet easterly and normal to the proposed center line Station 77 plus 23.93 as shown on a plan hereto attached entitled, "New Jersey State Highway Department, Camden Extension Division, Connecting Road, Property to be acquired from Edward F. & Almeda Sutton, Pensauken Township, Scale 1" equals 50', July 1925," and running;

Thence (1) along said northeasterly line of 42nd Street North thirty-two degrees, twenty-one minutes, forty seconds West (N32°21'40"W) forty (40) feet to dividing line between lands of grantor and Horace H. Fritz, Trustee; thence (2) along said dividing line at right angles to 42nd Street North fifty-seven degrees, thirty-eight minutes, twenty seconds East (N57°38'20"E) one hundred twenty-five (125) feet to rear lot line of lots on northeast side of 42nd Street; thence (3) along said rear lot line which is also dividing line between lands of grantor and Charles & Louise Burgert, South thirty-two degrees, twenty-one minutes forty seconds East (S32°21'40"E) twenty-two and fifty hundredths (22.50) feet to proposed southeasterly right of way line of Connecting Road; thence (4) along said southeasterly right of way line forty (40) feet easterly and parallel to proposed center line South thirty-one degrees, twenty-nine minutes, twenty seconds West (S31°29'20"W) thirty-nine and seventy-one hundredths (39.71) feet to dividing line between lands of grantor and Jennie B. Nunn thence (5) along said dividing line South fifty-seven degrees, thirty-eight minutes, twenty seconds West (S57°38'20"W) eighty-nine and thirty-five hundredths (89.35) feet to the place of beginning;

CONTAINING four thousand six hundred eighty-eight (3,688) square feet, be the same more or less;

INTENDING TO CONVEY all that land contained in lot now owned or controlled by the grantor that lies within forty (40) feet of the proposed center line of the Connecting Road;

TOGETHER WITH the right to form and maintain slopes over adjacent lands of grantor; said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of adjacent lands from the level of said highway; the grantor hereby retaining the right to use such land providing such use does not interfere with said slopes or endanger said highway:

IT IS HEREBY UNDERSTOOD AND AGREED that the grantor will remove or cause to be removed all buildings from within the limits of the fitht of way hereinabove described, and that the cash consideration hereinabove agreed to is to be considered by both parties hereto as payment in full to the grantor, his heirs, lessess, or anyone acting in his or their behalf, of all claims for damages of whatever nature resulting directly or indirectly from the construction and improvement of the road.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $5[illegible]0.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way-
Entrance Road, Section 3. Camden

On recommendation of the State Highway Engineer, Commissioner Jelin moved that an offer of $240.36 be made to the Forest Hill Boat Club, for Parcel 86 on Camden Extension Entrance Road, Section 3, and in the event of its refusal that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Entrance Road, Section 3, Camden, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel 86

BEGINNING on the southerly line of Woolwich Street at a distance of eight hundred ninety-one and thirty-nine hundredths (891.39) feet easterly from the easterly line of Baird Boulevard, said place of beginning being corner to lands of grantor and Hatch Land & Improvement Company and running;

Thence (1) along said southerly line of Woolwich Street, South fifty-nine degrees, eight minutes, thirty seconds East(S59°08'30"E) sixty (60) feet to a corner to lands of grantor and Forest Hill Gardens Company; thence (2) along line between grantor and said Forest Hill Gardens Company, South thirty degrees, fifty-one minutes, thirty seconds West (S30°51'30"W) seventy (70) feet to the southerly right of way line of the proposed Delaware River Bridge Entrance Road; thence (3) along said southerly right of way line and parallel with and seventy (70) feet distant from the southerly line of Woolwich Street North fifty-nine degrees eight minutes, thirty seconds West (N59°08'30"W) sixty (60) feet to the dividing line between lands of grantor and Hatch Land & Improvement Company; thence (4) along said dividing line North thirty degrees, fifty-one minutes, thirty seconds East (N30°51'30"E) seventy (70) feet to the place of beginning;

CONTAINING forty-two hundred (4200) square feet more or less;

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the southerly line of Woolwich Street and the southerly right of way line of the proposed Delaware River Bridge Entrance Road, extending from lands of the Hatch Land & Improvement Company on the West and lands of Forest Hill Gardens Company on the East:

TOGETHER WITH the right to form and maintain slopes over adjacent lands of grantor, said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of adjacent lands from the level of said highway; the grantor hereby retaining the right to use such land providing such use does not interfere with said slopes or endanger said highway.

October 13, 1925.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission to make an offer of the sum of $240.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Route 14 Abandonment

On recommendation of the State Highway Engineer, Commissioner Kidde moved the adoption of the following resolution of abandonment on one portion of State Highway Route 14, Section 11, Petersburg-Tuckahoe section:

> WHEREAS, the State Highway Commission has heretofore taken over as a State Highway, in accordance with the provisions of Chapter 14, Laws of 1917, a certain road or roads, known as State Highway Route 14, from Egg Harbor City to Cape May City, by way of Mays Landing, Tuckahoe and Cape May Court House, and
>
> WHEREAS, in the construction and improvement of the said State Highway Route 14, Section 11, Petersburg to Tuckahoe, it has been found desirable to relocate a certain portion of the said route for the purpose of betterment of the alignment, grade, etc., and
>
> WHEREAS, upon the construction of the said route and section of the revised line, there is a certain portion heretofore used as a part of the road before improvement which is no longer needed as a part of the improved State Highway,
>
> NOW, THEREFORE, BE IT RESOLVED by the State Highway Commission of the State of New Jersey that the certain portion of State Highway Route 14, Section 1, as hereinafter described, be and the same is hereby abandoned as a part of State Highway Route 14, Section 11, and vacated in accordance with the provisions of Chapters 14 and 15, Laws of 1917, and the amendment thereto in Chapter 220, Laws of 1919.
>
> Beginning at a point in the Seaville and Tuckahoe Road about one-half (1/2) mile South of Middletown where the road to Ocean City intersects the same, and running thence (1) in a northwesterly direction a distance of three hundred eleven and three tenths (311.3) feet more or less to a point in the new easterly right of way line of State Highway Route 14, Section 11, said point being measured thirty-three (33) feet normally from the center line of the said State Highway at about Station 1413 plus 41.

BE IT FURTHER RESOLVED that a notice of this vacation be forwarded to the Board of Chosen Freeholders of Cape May County, the governing body having jurisdiction over the road at the time of its being taken over as a State Highway.

It being the intention of the State Highway Commission to abandon and vacate that portion of the old road as taken over May 1, 1920, lying outside the limits of the acquired right of way of the new road as constructed between a point in the Seaville and Tuckahoe Road about one-half (1/2) mile South of Middletown where the road to Ocean City intersects the same and Station 1413 plus 41 more or less as shown on plan attached hereto and on file in the offices of the said State Highway Commission at Trenton, New Jersey.

Right of Way-Route 8

The State Highway Engineer presented to the Commission a letter received from Alexander M. MacLeod, Attorney for Marine Brandt, property owner in the vicinity of Reeves Bridge on Route 8, requesting that provision be made for raising his house to the level of the road. The State Highway Engineer advised that in the construction of the new bridge, the level of the highway was raised some eighteen inches in front of the property in question, and prior to the construction, negotiations were undertaken with the property owner for the acquisition of this property, but his demands were excessive. This resulted in the construction of retaining wall, without encroaching upon the property in any way. He recommended that the owner be advised that the State Highway Commission assumes no obligations in the matter. On motion by Mr. Stewart, seconded by Mr. Jelin, the recommendation was adopted.

Employments

On motion by Mr. Stewart, seconded by Mr. Kidde, the Commission approved the following additions, increases and changes in the employments as approved by the State Highway Engineer since the last meeting:

Employed

10-7-25	Lewis K. Sneath,	Engineering Drfts.	$125.00 mo.
9-24-25	F. Garcia Gomez,	Mechanic,	.65 hr.
9-21-25	Alvin Suthard,	"	.55 "
10-5-25	Milton Anderson,	"	.60 "

Increase

10-15-25	Wm. H. Marshall,	Garage Assistant, $.55 to $.60 hr.

October 13, 1925.

Salary & Title Change

10-1-25	Chas. Scott,	Rollerman, to Garage Asst.	$150.00 mo. .45 hr.

Crestmoor Bridge, Hunterdon Co.

State Highway Engineer Sloan reported the completion of Crestmoor Bridge, Hunterdon County, Motor Vehicle Aid work, and recommended final acceptance. On motion by Mr. Kidde, seconded by Mr. Jelin, the Commission directed that this be referred to Mr. Stewart for final inspection.

East Front Street, Plainfield

The State Highway Engineer reported the completion of East Front Street, Plainfield, and Scotch Plains, Union County. On motion by Mr. Kidde, seconded by Mr. Jelin, this was referred to Commissioner Stewart for final inspection prior to acceptance.

Turnerville-Sicklerville Road, Sections 1 & 2, Camden County.

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved the final acceptance of Turnerville-Sicklerville Road, Sections 1 and 2, Camden County Motor Vehicle Aid work, and directed final payment to be made.

Neshanic-Clover Hill Road.

Commissioner Stewart reported the final inspection of the Neshanic-Clover Hill Road, in Hillsborough Township, Somerset County, and moved final acceptance of the same. This was seconded by Mr. Kidde and adopted.

Right of Way-Route 3

Commissioner Jelin reported that he had investigated the property of Laura S. Rider on Route 3, Section 14, at Absecon, and he had been able to secure a saving in the cost of the building removal of about $3500, but he believed that a lower price could be secured if additional bids were requested. On motion by Mr. Stewart, seconded by Mr. Kidde, the report was received and the State Highway Engineer was directed to secure additional bids on the removal of building.

Right of Way-Route 4

On motion by Mr. Jelin, seconded by Mr. Stewart, the Commission approved of an agreement with the Township of Woodbridge on Route 4, Section 32, for additional work and materials to be included in the construction of this road by the State.

October 13, 1925.

Conventions

The secretary presented a communication received by Chairman Scott from the Fourth Annual Asphalt Paving Conference, inviting the Commission to attend the conference to be held at the Book-Cadillac Hotel, Detroit, October 21, 22 and 23. On motion, duly seconded, the communication was ordered received and filed.

Annual Report-1925

Commissioner Stewart inquired as to whether it would be possible to commence work on the 1925 Annual Report in order that it may be completed before the next Legislature convenes. State Highway Engineer Sloan reported that the bulk of the work in the report must be held off until about December first, when the construction work is practically completed on the State Highways.

The Commission next recessed for luncheon at 1 P. M. to meet again at 2 P. M. The meeting was reconvened at 2 P. M. with the same members present as at the morning session.

Route 1 Extension, Elizabeth

The secretary advised that the local authorities of Elizabeth and Union County had failed to make their appearance in accordance with written invitations extended for a conference this day, except for County Engineer Jacob L. Bauer. The Commission then went into conference with Mr. Bauer on the matter of Route 1 Extension through Elizabeth, until 3 P.M., when, on motion by Mr. Jelin, seconded by Mr. Stewart, the meeting was adjourned until October 20, 1925, at 10:30 A.M.

Respectfully submitted,

A. LEE GROVER,

Secretary.

MINUTES OF MEETING - October 20, 1925.

A regular meeting of the State Highway Commission was held at the Commission rooms, Broad Street Bank Building, Trenton, Tuesday, October 20, 1925. The meeting was called to order at 10:30 A. M., by Chairman Scott.

Present: Gen. H. L. Scott, Chairman, Messrs. Percy H. Stewart,
Walter Kidde and Abraham Jelin.

Route #1 Extension, Elizabeth

The Secretary informed the Commission that a delegation represented by County Engineer J. L. Bauer, City Engineer Thomas E. Collins and representatives of the Board of Public Works, were present to discuss with the Commission the matter of the extension of Route #1 through Elizabeth. On motion, duly seconded, a conference was completed at 11:30 and the Commission resumed the regular order of business.

Right of Way, Entrance Road, Camden

The Secretary informed the Commission the Hon. F. W. DeVoe, Assistant Attorney General, was present with Right of Way Engineer Meeker, on the matter of property on Camden Extension Entrance Road, owned by Edward S. Miller and involving several condemnations. On motion, duly seconded, a hearing was granted. Mr. DeVoe advised that he had received information from Mr. Miller to the effect that he was willing to accept the appraised prices offered by the State for his property if the Commission would abandon the proposed scheme for a parkway at the intersection of Penn and Linden Streets and grant to him a very small strip of property at this junction. Mr. DeVoe also stated that if the State would accept this proposition it would be of material aid in the condemnation of property, since it would fix a rate of market value. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission authorized the Right of Way Engineer to negotiate for the purchase of properties from Mr. Miller at the appraised prices, leaving an extended piece of land place of a parkway at the junction of Penn and Linden Streets.

Right of Way, Route #9

Mr. DeVoe also brought before the Commission the matter of condemnation proceedings under way for the property of Joseph Aflerbach on Route #9 at Cranford. He informed the Commission that the owner had agreed to convey this property to the State in 1921 for a consideration of $16,000.00, but that the price was considered exorbitant and condemnation proceedings were entered into. Since this time, however, the property has increased in value and he inquired for further information as to the procedure to be followed.

Commissioner Stewart stated that he believed that the Commission should undertake, by writ of specific performance, to compel the owners tp convey under their agreement.

Following further discussion, Commissioner Kidde moved that Mr. DeVoe be instructed that the State Highway Commission will not pay more than the contract price of $18,000.00 for the property required, and whatever suit is necessary to compel specific performance, be instituted, in order to insure the property to the State at this price. This was seconded by Mr. Stewart and adopted.

Right of Way, Route #4

Mr. DeVoe also presented to the Commission a communication on the matter of the disposition of the property of the Jersey Central Realty Company and John J. Korb on Route #4 at the Morgan Grade Crossing Elimination. He advised that the owners had divided this on the basis of $2,000.00 to the Jersey Central Realty Company and $500.00 to John J. Korb, and he recommended that the Commission approve this payment together with interest to the respective parties, from June 9, 1924, to October 9, 1925, at six percent. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved a settlement in the above propositions as recommended by the Assistant Attorney General.

Route #18, North. Bergen Tpk.

The Secretary presented a communication from J. F, O'Neil, County Supervisor of Hudson County, forwarding a resolution as adopted by the Board of Freeholders of Hudson County on October 8, 1925, advising that in accordance with verbal agreement between the County Supervisor of Hudson County and the State Highway Commission, concerning the improvement of that section of the Hackensack Plank Road on Bergen Turnpike, running North from the Hudson Boulevard, and the taking over thereof as part of Route #18-North that if said improvement is undertaken, the Board of Freeholders are prepared to improve roadway to a width of forty feet with curb on each side and will pay one-third of the total cost of the said improvement, the State agreeing to pay the remaining two-thirds and take the road over as part of Route #18 after the improvement has been completed.

Following discussion of this matter Commissioner Jelin moved the adoption of the following resolution:

> WHEREAS, by act of the Legislature, there was designated State Highway Route #18 extending from Hoboken to the New York State Line, and
>
> WHEREAS, the Board of Chosen Freeholders of the County of Hudson have, by resolution, agreed to pay one-third of the cost of the improvement of the section of said Route #18, from Hoboken north to the Hudson-Bergen County Line provided the State Highway Commission will agree to take the said portion of said State Highway Route #18 over as a part of the State Highway System,
>
> NOW, THEREFORE, BE IT RESOLVED, by the State Highway Commission of the State of New Jersey that the Commission does hereby approve of the proposition as presented by the Board of Freeholders of the County of Hudson and does hereby agree to take over the said portion of Route #18 from Hoboken to the Hudson-Bergen County Line when and after same has been improved, in accordance with the resolution as adopted by the Board of Freeholders of the County of Hudson.

This was seconded by Mr. Stewart and adopted by a vote of three in the affirmative and one in the negative, Commissioner Kidde voting "no" on the resolution.

Commissioner Stewart suggested that the State Highway Engineer prepare plans and estimates of this work at the earliest possible date. He also stated there was need for other important improvements in the northern section of the State and inquired as to what was the status of Route #18 in Bergen County.

State Highway Engineer Sloan explained that at the present time the LeMoine Avenue Extension was being considered on Route #18 and it would be desirable at the completion of this improvement to take over approximately one and one-half miles of Route #18.

Commissioner Jelin stated that he felt that the Commission should keep in mind the fact that it would be desirable to take over this one and one-half mile section immediately upon the finishing of the LeMoine Avenue work on Route #18.

Right of Way, Route #4

The Secretary presented a communication received by Chairman Scott from Eban S. Mathis, property owner along Route #4, just East of Jobes Creek Bridge. He advised that employees of the State Highway Department had come upon his property without getting permission, destroying a number of valuable trees and for what property was taken he had received no compensation. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commission directed that this communication be referred to the State Highway Engineer in order that he might have a Department representative call upon Mr. Mathis and ascertain the situation and give Mr. Mathis such relief as is possible under the circumstances.

Township Aid, Middlesex County

The Secretary presented a resolution received from the Township of Woodbridge, requesting the State Highway Commission to forward to the Township Treasurer their contribution to the repair of King Georges Road between Woodbridge and Fords. Commissioner Kidde inquired as to what voucher would be required from the Township before this payment could be made.

The Secretary advised that this special allotment was made to the Township as aid in the maintenance of all roads forming detours for the construction of Route #4, and for this reason the statement of the Township as to the expenditure made would be sufficient to pass the voucher.

Commissioner Jelin reported that he had knowledge to the effect that the Township had spent a sum greater than the amount appropriated by the State, and Commissioner Kidde therefore moved that the resolution be presented to the State Highway Engineer for final disposition. This was seconded by Mr. Jelin and adopted.

Right of Way, Route #1 Extension

The Secretary presented a communication from Mr. Charles A. Wood of 330 Hoboken Avenue, Jersey City, inquiring as to the reason for the fact that settlement has been made with other property owners in that locality while he has not been given a satisfactory offer. On motion by Mr. Jelin, seconded by Mr. Kidde, the Commissioner directed that the communication be acknowledged and referred to the Jersey City Office for investigation and report.

Route #3, White Horse Pike Widening

The Secretary presented a petition from property owners along the White Horse Pike in Egg Harbor City, urging the Commission to widen the highway through the city to forty feet in width. The State Highway Engineer advised that this would involve a considerable amount of property damage. Commissioner Kidde moved that the property owners of Egg Harbor City be advised that the Engineering Department will prepare an estimate of cost of extra widening, and if the property woners will secure the additional right of way, the Commission will be very glad to consider their request for extra width of pavement. This was seconded by Mr. Jelin and adopted.

Commendations

The Secretary presented a communication from the Board of Public Utility Commissioners, transmitting a letter from Isaac Kotler of Westville, New Jersey, approving of the action of the State Highway Commission in favoring a line for Route #6 between Brooklawn and Westville to the West side of the railroad. On motion by Mr. Kidde seconded by Mr. Jelin, the communication was ordered filed with thanks.

Route #6, Realignment

The Secretary presented a resolution from the Township Committee of Deptford Township, making request that in the proposed realignment of Route #6 through the Township, the Commission should not abandon the section of Route #6 as at present laid out in the Township. On motion by Mr. Jelin, seconded by Mr. Stewart, this resolution was ordered received and placed on file.

Detours, Route #4

The Secretary presented a communication received from Leo Goldberger of Perth Amboy, with further reference to the detour established for Route #4. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission ordered this communication received and placed on file.

Commendation

The Secretary presented a communication from the Borough Council of Tuckerton, New Jersey, expressing appreciation for the "beautiful and substantial concrete highway", that has been constructed through the Borough. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission this communication acknowledged with thanks.

October 20, 1925

Rights of Way, Routes #4 and #1 Extension

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the following payments for appraisals on State Highway property:

Lewis Adler,	Route #1 Extension, Jersey City.	$ 460.00
C. A. Burhorn,	Route #1 Extension, Jersey City.	25.00
John W. Keough,	Route #4, Section #34.	50.00
Alexander Balint, Jr.	Abstracts of Title Route #4, Parcel #6	53.64
	" #7	68.64

On motion by Mr. Kidde, seconded by Mr. Jelin, the meeting was recessed for lunch at 1:30 P. M., to meet again at 2:30 P. M. The regular meeting was resumed at 2:30 P. M., with the same members present as at the mornign session.

The Schedule of Business was next taken up for consideration, item by item as follows, with the recommendations of the State Highway Engineer:

Route #4, Section #34

The State Highway Engineer presented to the Commission the following bids received for the construction of Route #4, Section #34, Keyport Cut-Off, and recommended award to the Jannarone Contracting Company, the lowest bidder in the sum of $111,916.21:

Jannarone Cont. Co.	$ 111,916.21
S. S. Thompson subject to deduction of 6¢ per yard on excavation or a total of $1,907.34.	124,981.27
J. F. Chapman & Son subject to a deduction of 10¢ per yard on excavation or a total of $3,178.90.	133,611.72
Interstate Engineering & Const. Co.	134,492.45
Decker & Canning, Inc. subject to a deduction of 11½¢ per yard, on excavation or a total of $3,655.74.	136,063.60
Micheal Staub subject to a deduction of 15¢ per yd. on excavation or a total of $4,768.35.	138,432.82
Weldon Contracting Co.	139,112.79
John F. McGreevey	139,811.30
Union Paving Company	142,089.20
William Eisenberg	144,213.63

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission unanimously adopted the following resolution:

RESOLVED, that the State Highway Commission does hereby make award of contract for the construction of Route #4, Section #34, Keyport Cut-Off, to the Jannarone Contracting Company at their low bid of $111,916.21, and

BE IT FURTHER RESOLVED, that the Chairman is authorized to sign the necessary contracts after approval by the State Highway Engineer.

October 20, 1925

Route #4, Section #29

State Highway Engineer Sloan reported the completion of Route #4, Section #29, Barnegat-Manahawken Section, by the Union Paving Company, Commissioner Stewart reported having inspected this work and moved its acceptance on the part of the State. This was seconded by Mr. Jelin and adopted.

Bridges, Route #15,
M. P. 44.0 & 24.7.

The State Highway Engineer reported the completion of the Nummytown and the West Creek Bridges at M. P. 44.0 and 24.7 on Route #15, and recommended final inspection. On motion by Mr. Stewart, seconded by Mr. Jelin, these bridges were referred to Chairman Scott for final inspection prior to acceptance.

77	Eugene C. Cole	39.00

Right of Way, Ringoes-Flemington

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of a bill of $100.00 to the County Treasurer of Hunterdon County for the purchase of right of way from Rebecca Johnson for the Ringoes-Flemington Road, (South Extension).

October 20, 1925

Rights of Way, Connecting Road,
Section #2, Camden

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission, on recommendation of the State Highway Engineer, directed that an offer of $8,800.00 be made to C. A, Reed for Parcel 107 on Camden Extension Connecting Road, Section #2, and in the event of its being refused that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway, Connecting Road, Section 2, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #107

Beginning at the Northeast corner of Myrtle Avenue and 41st St., said corner being thirty-five and ninety-five hundredths (35.95) feet westerly and normal to the proposed center line Station 65+28.54, as shown on a plan hereto attached entitled "New Jersey State Highway Department, Camden Extension Divisions, Connecting Road, Property to be acquired from Clarence A. Reed, City of Camden, Scale 1" equals 50' equals 50', July, 1925," and running:

Thence (1) along the easterly line of 41st Street North ten minutes West (N0°-10'W), thirty-eight and six hundredths (38.60) feet to the dividing line between the land of grantor and lot belonging to Joseph Goetz; Thence (2) along said dividing line North eighty-nine degrees, fifty minutes, East (N89°-50'E) one hundred (100) feet to the rear lot line between the land of the grantor and Joseph Goetz; Thence (3) along said rear lot line South ten minutes East (S0°-10'E) forty-five and sixty-five hundredths (45.65) feet to the northerly line of Myrtle Avenue; Thence (4) along said northerly line of Myrtle, North eighty-six degrees, eight minutes West (N86°-08'W), one hundred and twenty-five hundredths (100.25) feet to the place of beginning; CONTAINING 4,213 sq. feet, be the same more or less.

INTENDING TO CONVEY all the land contained in lot now owned or controlled by the grantor.

TOGETHER WITH THE right to form and maintain slopes over adjacent lands of grantor, said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of the adjacent lands from the level of said highway.

IT IS HEREBY UNDERSTOOD AND AGREED that the grantor will remove or cause to be removed all buildings from within the limits of the right of way hereinabove described and that the cash consideration hereinabove agreed to is to be considered by both parties as payment in full to the grantor, his heirs, lessees, or anyone acting in his or their behalf, of all claims for damages of whatever nature resulting directly or indirectly from the construction and improvement of the road.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $8,800.00 to the owner or owners of said land and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediatly acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

October 20, 1925

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission, on recommendation by the State Highway Engineer, directed that an offer of $1,200.00 be made to William F. Fleming and Wife for Parcel 108 on Camden Extension Connecting Road, Section #2, and in the event of its being refused that condemnation proceedings be instituted in accordance with the following resolution:

RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route Connecting Road, Section #2, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #108

Beginning at the intersection of the rear lot line of the first two lots on the easterly side of 41st Street running northerly from Myrtle Avenue and the dividing line between the lands of grantor on the West and the lot belonging to Willard Martz on the North, said place of beginning North eighty-nine degrees, fifty minutes, East (N89°-50'E) one hundred (100) feet from a point in the easterly line of 41st Street, said last mentioned point being North ten minutes West (N 0°-10'W) seventy-eight and sixty hundredths (78.60) feet along the easterly line of 41st Street from the northeast corner of Myrtle Avenue and 41st Street, said place of beginning also being thirty-two and fifty-one hundredths (32.51) feet easterly and normal to proposed center line **Station 66+35.74**, as shown on a plan hereto attached entitled "New Jersey State Highway Department, Camden Extension Division, Connecting Road, Property to be acquired from William J. Flemming, City of Camden, Scale 1"-50', July 1925", and running;

Thence (1) along said rear lot line parallel to 41st Street South ten minutes East (S 0°-10'E) forty (40) feet to the dividing line between the land of grantor and Clarence A. Reed; Thence (2) along said dividing line South eighty-nine degrees, fifty minutes West (S89°-50'W) one hundred (100) feet to the easterly line of 41st Street; Thence (3) along said easterly line of 41st Street North ten minutes West, N 0°-10'W) forty (40) feet to the dividing line between lands of grantor and Williard Martz; Thence (4) along said dividing line North eighty-nine degrees, fifty minutes East (N89°-50'E) one hundred (100) feet to the place of beginning

CONTAINING four thousand (4,000) sq. feet, be the same more or less;

INTENDING TO CONVEY all that land contained in lot now owned or controlled by the grantor.

TOGETHER WITH the right to form and maintain slopes over adjacent lands of grantor, said rights of maintenance to remain in effect only for such a period as may be necessary on account of the variation of the level of the adjacent lands from the level of said highway.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $1,200.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediatley acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission, on recommendation of the State Highway Engineer, directed that an offer of $1,131.00 be made to George Daniels for Parcel 137 on Camden Extension Connecting Road, Section #2, and in the event of its being refused that condemnation proceedings be instituted in accordance with the following resolution:

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Connecting Road, Section #2, ALL that certain Lot, tract or parcel of land and premises situate, lying and being in the State of New Jersey, and more particularly described as follows:

Parcel #137

Beginning at a corner of land of grantor and lands now of formerly of Thomas J. Shay in the line of lands now or formerly of Charles & Louise Burgert, said corner being distant sixteen and one-tenth (16.10) feet northwesterly from the center line of State Highway Connecting Road Section #2 at Station 78+71.49 as shown on a plan of Parcel #137 hereto attached, entitled "New Jersey State Highway Department, Camden Extension Division, Connecting Road, Property to be acquired from Horace H. Fritz, Trustee, Pensauken Township, Scale 1"=50', July, 1925."; and running;

Thence (1) along the dividing line between land of grantor herein on the southwest and lands now or formerly of Charles & Louise Burgert on the northeast, South thirty-two degrees, twenty-one minutes and forty seconds East (S32°-21'-40"E), a distance of forty (40) feet to a corner of lands of grantor and lands now or formerly of Edward F. & Almeda Sutton in the line of lands now or formerly of Charles & Louise Burgert; Thence (2) along the dividing line of lands of grantor herein on the northwest and lands now or formerly of Edward F. & Almeda Sutton on the southeast, South fifty-seven degrees, thirty-eight minutes and twenty seconds West (S57°-38'-20"W) a distance of one hundred twenty-five(125) feet to a point in the northeasterly side line of 42nd Street; Thence (3) along said side line of 42nd Street, North thirty-two degrees twenty-one minutes and forty seconds West (N32°-21'-40"W), a distance of five and twenty-five one-hundredths (5,25) feet to a point in the proposed northwesterly side line of said State Highway Connecting Road; Thence (4) along said right-of-way line, parallel to and distant forty(40) feet from the proposed center line of said Connecting Road, North thirty-one degrees, twenty-nine minutes and twenty seconds East (N31°-29'-20"E), a distance of seventy-eight one-hundredths (78.85) feet to a point in the dividing line between lands of grantor herein on the southwest and lands now or formerly of Thomas J. Shay on the northwest; Thence (5) along said dividing line, North fifty-seven degrees, thirty-eight minutes and twenty seconds East (N57°-38'-20"E), a distance of fifty-four and twenty-two one-hundredths (54.22) feet to the point and place of beginning;

CONTAINING thirty-seven hundred seventy (3770) sq. feet, be the same more or less;

INTENDING TO CONVEY all that land now owned or controlled by the party of the first part that lies between the proposed right-of-way lines said State Highway Connecting Road, distant forty(40) feet each side of the proposed center line, extending from 42nd Street on the southwest to lands now or formerly of Charles & Louise Burgert on the northeast;

TOGETHER WITH THE right to form and maintain slopes over adjacent lands of grantor, said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of the adjacent lands from the level of said highway.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $1,131.00 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediatley acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said land and premises.

October 20, 1925

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission on recommendation by the State Highway Engineer, directed that an offer of $639.40 be made to Henry A. Gilbert for Parcel #150 on Camden Extension Connecting Road, Section #2 and in the event of its being refused that condemnation proceedings be instituted in accordance with the following resolution;

> RESOLVED, that this Commission hereby determines to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Route Connecting Road, Section #2, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows;

Parcel #150

BEGINNING at a point formed by the intersection of the northeasterly side line of Poplar Street with the southeasterly side line of Williams Street, said point being distant forty-five and sixty-seven one-hundredths (45.67) feet northwesterly from the proposed center line of State Highway Connecting Road Section #2, at Station 85+-02.89 as shown on a plan herein attached, entitled "New Jersey State Highway Department, Camden Extension Division, Connecting Road, property to be acquired from Henry A. Gilbert, Pensauken Township, Scale 1"=50', July, 1925"; and running;

Thence (1) along said southeasterly side line of Williams Street, North forty-nine degrees, forty minutes and forty seconds East (N49°-40'-40"E), a distance of one hundred and fifty-nine one-hundredths (100.59) feet to a point in the dividing line between lands of grantor herein on the southwest and lands now or formerly of Elizabeth Candidys on the northeast; Thence (2) along said dividing line, South Thirty-two degrees, fifth-three minutes and thirty seconds East (S32°-53'-30"E), a distance of thirty- eight and fifty-five one-hundredths (38.55) feet to a corner of lands of grantor and lands now or formerly of Edward S. Miller on the line of lands of Elizabeth Candidys; Thence (3) along the dividing line between lands of grantor on the North and lands now or formerly of Edward S. Miller on the South, South fifty-seven degrees, six minutes and thirty seconds West (S57°-06'-30"W) a distance of ninety-nine and seventy-five one-hundredths (99.75) feet to a point in the northeasterly side line of Poplar Street; Thence (4) along said side line of Poplar Street, North thirty-two degrees, fifty-three minutes and thirty seconds West (N32°-53'-30"W), a distance of twenty-five and fifty-four one-hundredths (25.54) feet to the point and place of beginning;

CONTAINING thirty-one hundred ninety-seven (3197) sq. feet, be the same more or less;

Intending to convey all that land now owned or controlled by the party of the first part that lies between Williams Street and the southeasterly right-of-way line of the State Highway Connecting Road, distant forty(40) feet radially from the proposed center line of said road, extending from Popular Street on the West to lands now or formerly of Elizabeth Candidys on the East;

TOGETHER with the right to form and maintain slopes over adjacent lands of grantor, said rights of maintenance to remain in effect only for such period as may be necessary on account of the variation of the level of the adjacent lands from the level of said highway;

The State Highway Engineer is hereby authorized and directed on behalf of this Commission, to make an offer of the sum of $639.40 to the owner or owners of said lands and premises for the conveyance of the same to the State of New Jersey free and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediatley acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Route #4

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission, on recommendation of the State Highway Engineer, directed that an offer of $152.46 be made to Eugene Christian for Parcel #4 on Route #4, Section #32, Perth Amboy-Rahway, and in the event of its being refused that condemnation proceedings be instituted.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission, on recommendation of the State Highway Engineer, directed that an offer of $76.23 be made to Albert Manita for Parcel #6 on Route #4, Section #32, Perth Amboy-Rahway, and in the event of its being refused that condemnation proceedings be instituted.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission, on recommendation of the State Highway Engineer, directed that an offer of $65.34 be made to John Esposito for Parcel #8 on Route #4, Section #32, Perth Amboy-Rahway, and in the event of its being refused that condemnation proceedings be instituted.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission, on recommendation of the State Highway Engineer, directed that an offer of $108.90 be made to Emilio Massaglia for Parcel #14 on Route #4, Section #32, Perth Amboy-Rahway, and in the event of its being refused that condemnation proceedings be instituted.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission, on recommendation of the State Highway Engineer, directed that an offer of $65.34 be made to Girardo Ciccaridla for Parcel #16 on Route #4, Section #32, and in the event of its being refused that condemnation proceedings be instituted.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission, on recommendation of the State Highway Engineer, directed than an offer of $65.34 be made to Dorsa Realty Co., et al, for Parcel #17 on Route #4, Section #32, Perth Amboy-Rahway, and in the event of its being refused that condemnation proceedings be instituted.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission, on recommendation of the State Highway Engineer, directed that an offer of $130.68 by made to Pietro Maridon for Parcel #18 on Route #4, Section #32, Perth Amboy-Rahway, and in the event of its being refused that condemnation proceedings be instituted.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission, on recommendation of the State Highway Engineer, directed that an offer of $141.57 be made to Guiseppe Allegrina for Parcel #19 on Route #4, Section #32, Perth Amboy-Rahway, and in the event of its being refused that condemnation proceeding be instituted.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission, on recommendation of the State Highway Engineer directed that an offer of $141.57 be made to Antonina Carille for Parcel #20, on Route #4, Section #32, Perth Amboy-Rahway, and in the event of its being refused that condemnation proceedings be instituted.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission, on recommendation of the State Highway Engineer, directed that an offer of $152.50 be made to Raffaele Magnotti for Parcel #21 on Route #4, Section #32, Perth Amboy-Rahway, and in the event of refusal that condemnation proceedings be instituted.

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission, on recommendation of the State Highway Engineer, directed that an offer of $21.60 be made to Paul Vitolo for Parcel #33, on Route #4, Section #32, Perth Amboy-Rahway, and in the event of refusal that condemnation proceedings be instituted.

Right of Way, Connecting Road,
Section #4, Camden

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission, on recommendation of the State Highway Engineer, directed that an offer of $1,500.00 be made to Emil Zbikowski for Parcel #15 on Camden Extension Connecting Road, Section #4, and in the event of its being refused that condemnation proceedings be instituted in accordance with the following resolution:

RESOLVED, that this Commission hereby determins to acquire in the name of the State of New Jersey, for public use in the construction of State Highway Connecting Road, Section #4, ALL that certain Lot, tract or parcel of land and premises, situate, lying and being in the State of New Jersey, and more particularly described as follows:

October 20, 1925

Parcel #15

Beginning at the intersection of the southerly line of Eldridge Avenue and the easterly line of Lot #5, Block "J" shown on a plan of lots of the West Collingswood Improvement Company, Haddon Township, Camden County, New Jersey, dated June, 1921 said intersection being distant fifty (50) feet westerly from the southwest corner of Calvert and Eldridge Avenues, also being distant eight and seventy-four hundredths (8.74) feet West of the center line Station 108+12.69, as shown on a plan hereto attached entitled, "New Jersey State Highway Department, Camden Extension Division, Connecting Road, Property to be acquired from Emil Zbikowski, Haddon Township, Scale 1" equals 50', March 1925", and running;

Thence (1) along said easterly line of lot #5, Block "J" parallel to Calvert Avenue, South twenty-four degress, thirteen minutes East (S24°-13"E) one hundred twenty-five and twenty-four hundredths (125.24) feet to the dividing line between land of grantor and Leon S. and Sarah Dudvoir; Thence (2) along said dividing line parallel to Eldridge Avenue, South sixty-five degrees, forty-seven munutes West (S65°-47'W), fifty (50) feet to the dividing line between lands of grantor and Stefan Wasilewski et ux; Thence (3) along said dividing line parallel to Calvert Avenue, North twenty-four degrees, thirteen minutes West (N24°-13'W), one hundred twenty-five and twenty-four hundredths (125.24) feet to the southerly line of Eldridge Avenue; Thence (4) along said southerly line of Eldridge Avenue North sixty-five degrees, forty-seven minutes East (N65°-47'E), fifty (50) feet to the place of beginning.

CONTAINING six thousand two hundred sixty-two (6262) square feet, be the same more or less.

The State Highway Engineer is hereby authorized and directed on behalf of this Commission to make an offer of the sum of $1,500.00 to the owner or owners of said lands and premises for the confeyance of the same to the State of New Jersey and clear of all encumbrances, and, upon the failure of such owner or owners to accept such offer, or if for any other reason said lands and premises cannot be immediately acquired by agreement with such owner or owners, then the Attorney General of the State of New Jersey is hereby authorized and directed to institute condemnation proceedings for the acquisition of said lands and premises.

Right of Way, Connecting Road,
Section #4, Camden.

The State Highway Engineer presented to the Commission a report of Right of Way Engineer Meeker of comparative values of property at the location of the Anna M. Garrigues at 315 Sloan Avenue in Collingswood on Camden Extension Connecting Road, Section #4, in which it was shown that the complaint registered by Mr. Luckenbach before the Commission several weeks ago in behalf of Mr.s Garrigues, was not well founded. Commissioner Kidde suggested that another effort be made to settle the Garrigues claim by offering them permission to salvage what they can from the old house, in addition to giving them the $8,600.00. He therefore moved that further negotiations be conducted in accordance with his suggestion and in the event the same could not be acquired, that condemnation proceedings be instituted. This was seconded by Mr. Jelin and adopted.

October 20, 1925

Entrance Road, Camden

The State Highway Engineer presented to the Commission the formal agreements to be entered into with Harrington, Howard and Ash for the furnishing of engineering services and field inspection for a double-leaf deck trunnion bascule bridge over Cooper River on Camden Extension Entrance Road. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that this agreement be executed by the Chairman on behalf of the Commission.

Right of Way, Route #4.

The State Highway Engineer presented to the Commission a report by the Right of Way Department concerning a further conference held with Frank R. Valentine, President of the M. D. Valentine & Brother Company, on which land property is needed for Route #r, Section #33. At this conference Mr. Valentine had informed the representative of the Commission that he was ready to accept the sum of $5,000.00 for the necessary right of way, plus a thirty-five foot strip of land adjoining the westerly side of the new right of way line, since this would be lost to him by reason of the fact that his company would unable to mine to a point closer than thirty-five feet.

The State Highway Engineer explained that on a basis of property purchased in this locality, an offer of $1,000.00 had been made to Mr. Valentine, and the Commission had already authorized condemnation proceedings to be instituted, and he recommended that these be continued. On motion by Mr. Jelin, seconded by Mr. Kidde, the State Highway Commission approved the recommendation of the State Highway Engineer.

Entrance Road, Camden

The State Highway Engineer presented to the Commission a tabulation of bids as received by the Pennsylvania Railroad Company for excavation and masonry in connection with the new undercrossing of their tracks at the Entrance Road in the City of Camden. He also advised that there was a question raised by the McLean Contracting Company as to whether they would be permitted to use the excavated material for borrow fill in their work, and they had made a proposition that if permission was given for them to make their borrow fill from the excavation, they would dispose of all the excavated material upon the shoulders of their work and properly compact the same for the department free of charge.

Commissioner Jelin stated that he believed the McLean Contracting Company was receiving a benefit from the use of this excavation and therefore should make an allowance on their borrow price for the work.

Commissioner Kidde suggested that the McLean Contracting Company be notified that if they make use of the excavated materials on the railroad job, the State will look to them for a reduction in their contract price. Following further discussion, Commissioner Jelin moved that the Commission approve the award of contract by the Railroad Company to C. J. Foley for excavation and masonary on the undercrossing of their tracks on the Entrance Road, Camden, and the State Highway Engineer be instructed to arrange for a proper adjustment in the price of borrow on the McLean Contracting Company's work on the Entrance Road Camden, if the materials of the Foley Contracting Company are used on their borrow fill. This was seconded by Mr. Kidde and adopted.

Request for Permit

The State Highway Engineer presented a report from the Maintenance Superintendent on a request made by the Junior Chamber of Commerce of New Brunswick, asking permission to place an electric sign either on the draw or above the draw span on the Albany Street Bridge, New Brunswick: this sign to read "This is New Brunswick." Superintendent of Maintenance Muir reported that permission to erect such a sign would by creating a very bad precedent and he recommended that the request be denied. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the report of Superintendent Muir be forwarded to the Junior Chamber of Commerce of New Brunswick with the regret of the Commission that it is necessary to deny their request as made.

Absecon Boulevard, Atlantic Co.

State Highway Engineer Sloan presented to the Commission a resolution from the Atlantic County Board of Freeholders, advising that they were ready to remit the penalties applied against the contractor for the reconstruction of the Absecon Boulveard, because of that fact that the work was turned over to public traffic prior to its final completion, it being understood that the extra cost of inspection, due to delays, will not be remitted. The State Highway Engineer reported that he had recommended approval by the Commission of the remission of these penalties in accordance with the recommendation of Atlantic County, due to the fact that the road was opened prior to its final completion and he also recommended that any extra inspection charges occasioned on the work should be deducted and remitted to the State, same to be based on the average daily cost obtaining on the delay in the work occuring; namely, when the gravel fill was being placed. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the action of the Atlantic County Board of Freeholders in authorizing remission of penalties for delays occasioned in the work on the Absecon Boulevard, and further directed that a bill be forwarded to the County, representing the actual cost of the extra inspection incurred, which the County shall collect and reimburse the State.

On motion by Mr. Kidde, seconded by Mr. Stewart, Commissioner Jelin was directed to make final inspection of the Absecon Boulevard in Atlantic County.

In this connection Commissioner Stewart advised that he had received numerous complaints from the members of the Kiwanis Club in Atlantic City as to the heavy trucks and busses which are passing over this road and causing the asphalt pavement to become rutted.

Conventions, American Association of State Highway Officials

The State Highway Engineer reported to the Commission that the American Association of State Highway Officials will hold a meeting at Detroit, November 18th to 21st inclusive, and he requested a decision as to whether the Commission was willing to have a representation from the State Highway Department to attend this conference. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that these members of the Commission who can find it convenient to attend, be designated as delegates to this convention, together with the State Highway Engineer and such others as he may recommend to the Commission.

Employments

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the following addition, changes and increases

October 20, 1925

Commissioner Jelin stated that he believed the McLean Contracting Company was receiving a benefit from the use of this excavation and therefore should make an allowance on their borrow price for the work.

Commissioner Kidde suggested that the McLean Contracting Company be notified that if they make use of the excavated materials on the railroad job, the State will look to them for a reduction in their contract price. Following further discussion, Commissioner Jelin moved that the Commission approve the award of contract by the Railroad Company to C. J. Foley for excavation and masonary on the undercrossing of their tracks on the Entrance Road, Camden, and the State Highway Engineer be instructed to arrange for a proper adjustment in the price of borrow on the McLean Contracting Company's work on the Entrance Road Camden, if the materials of the Foley Contracting Company are used on their borrow fill. This was seconded by Mr. Kidde and adopted.

Request for Permit

The State Highway Engineer presented a report from the Maintenance Superintendent on a request made by the Junior Chamber of Commerce of New Brunswick, asking permission to place an electric sign either on the draw or above the draw span on the Albany Street Bridge, New Brunswick: this sign to read "This is New Brunswick." Superintendent of Maintenance Muir reported that permission to erect such a sign would by creating a very bad precedent and he recommended that the request be denied. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that the report of Superintendent Muir be forwarded to the Junior Chamber of Commerce of New Brunswick with the regret of the Commission that it is necessary to deny their request as made.

Absecon Boulevard, Atlantic Co.

State Highway Engineer Sloan presented to the Commission a resolution from the Atlantic County Board of Freeholders, advising that they were ready to remit the penalties applied against the contractor for the reconstruction of the Absecon Boulveard, because of that fact that the work was turned over to public traffic prior to its final conpletion, it being understood that the extra cost of inspection, due to delays, will not be remitted. The State Highway Engineer reported that he had recommended approval by the Commission of the remission of these penalties in accordance with the recommendation of Atlantic County, due to the fact that the road was opened prior to its final completion and he also recommended that any extra inspection charges occasioned on the work should be deducted and remitted to the State, same to be based on the average daily cost obtaining on the delay in the work occuring; namely, when the gravel fill was being placed. On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved of the action of the Atlantic County Board of Freeholders in authorizing remission of penalties for delays occasioned in the work on the Absecon Boulevard, and further directed that a bill be forwarded to the County, representing the actual cost of the extra inspection incurred, which the County shall collect and reimburse the State.

On motion by Mr. Kidde, seconded by Mr. Stewart, Commissioner Jelin was directed to make final inspection of the Absecon Boulevard in Atlantic County.

In this connection Commissioner Stewart advised that he had received numerous complaints from the members of the Kiwanis Club in Atlantic City as to the heavy trucks and busses which are passing over this road and causing the asphalt pavement to become rutted.

Conventions, American Association of State Highway Officials

The State Highway Engineer reported to the Commission that the American Association of State Highway Officials will hold a meeting at Detroit, November 16th to 21st inclusive, and he requested a decision as to whether the Commission was willing to have a representation from the State Highway Department to attend this conference. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission directed that these members of the Commission who can find it convenient to attend, be designated as delegates to this convention, together with the State Highway Engineer and such others as he may recommend to the Commission.

Employments

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved the following addition, changes and increases as made by the State Highway Engineer in the employments since the last meeting of the Commission:

Employed

10/9/25	Carl F. Neustadt,	Junior Inspector,	$125.00 pr. mo.
10/14/25	Albert C. Carter,	Garage Assistant,	.40 " hr.

Increase

10/16/25	L. K. Shellenberger,	Des. Bridges & Struc.	$325.00 pr. mo. to 360.00 " "

Township Aid, Cumberland, Gloucester and Salem Counties

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway Commission approved the following Township Aid Force Account Agreements:

Township	Road	County
Lawrence	Sayres-Neck Bowers Creek Road	Cumberland
Franklin	Swedesboro-Franklinville Road	Gloucester
Pittsgrove	Garden Road	Salem
"	Centreton-Palatine Road	"

Township Aid, Sussex County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of a payment to Sussex County of $1,593.69 on account of the improvement of the Montague-Port Jervis Road in Montague Township, in the year 1921, which amount has been held out by the State due to a claim for equipment furnished the contractor on that work. This contractor has since gone into the hands of receivers and the Attorney General's Department advises that the State Highway Commission cannot hold up this account, which must go for the benefit of the creditors on the contract.

Township Aid, Atlantic County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved of the insertion of the following items in the price agreement priviously approved for the Pleasant Mills-Weekstown Road, Mullica Township, Atlantic County: Gravel Pit Foreman, forty-five cents per hour, and tractor including operator, fuel, lubricants, etc., at $2.00 per hour.

October 20, 1925

Clinton Avenue, Motor Vehicle Aid, Essex County

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission directed that the final inspection of Clinton Avenue in Essex County by referred to Commissioner Kidde.

Ross' Corner Road, Motor Vehicle Aid, Sussex County.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission referred the final inspection on the Ross' Corner-Sussex Road, Section #1-B, Sussex County, to Commissioner Kidde.

Cape May Point Boulevard, Motor Vehicle Aid, Cape May Co.

On motion by Mr. Stewart, seconded by Mr. Kidde, the State Highway Commission approved of a resolution of the Cape May County Board of Freeholders in extending time of completion on the Cape May Point Boulevard from August 20 to September 30, 1925, due to the fact that the road was open to traffic before the date set for completion.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission directed that the final inspection of the Cape May Point Boulevard be referred to Chairman Scott.

Central Avenue, Hammonton. Motor Vehicle Aid, Atlantic Co.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the acceptance of the completed work on Central Avenue, Hammonton, Atlantic County, Motor Vehicle Aid.

Prospect Avenue, Motor Vehicle Aid, Essex County

On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the action of the Essex County Board of Freeholders in extending the time of completion of Prospect Ave., Essex County, Motor Vehicle Aid work for twenty additional days, this time being extended on account of extra work authorized beyond the provisions of the original contract.

Maintenance-Essex County

The State Highway Engineer presented to the Commission a revised Road Maintenance and Betterment Schedule for Essex County in accordance with his recommendation to the County. On motion by Mr. Kidde, seconded by Mr. Stewart, the State Highway Commission approved the revised Road Maintenance and Betterment Schedule for Essex County for 1925.

Maintenance Materials, Atlantic County

The State Highway Engineer presented to the Commission a report of bids received by Atlantic County for the application of 84,000 gallons of lignin binder for use on Atlantic County maintenance work. He called attention to the fact that the specifications for the lignin binder were not submitted to the Commission for approval before advertising, but recommended that in view of the lateness of the season, the specifications be approved at this time and award of contract by the County to Edward Lantz be approved in a total amount of $10,416.00; and he further recommended that the Secretary advise the Board of Freeholders of Atlantic County that all State Aid specifications should be submitted to the State Highway Commission for approval before advertising. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the recommendation of the State Highway Engineer and authorized award of contract by Atlantic County for 84,000 gallons of lignin binder.

Crestmoor Bridge, Hunterdon County, Motor Vehicle Aid.

Commissioner Stewart reported that he expected to make inspection of Crestmoor Bridge in Hunterdon County and East Front Street, Plainfield in Union County, the next day, and he moved that the Crestmoor Bridge be accepted subject to his report of final inspection. This was seconded by Mr. Jelin and adopted.

East Front Street, Plainfield

Commissioner Stewart moved that East Front Street, Plainfield and Scotch Plains in Union County, be accepted subject to his report of final inspection payment is made. This was seconded by Mr. Jelin and adopted.

Hackensack River Bridge, Route #1

Commissioner Kidde reported having inspected the location of the repairs and modifications of the fender system and removal of center pier on the Hackensack River Bridge, Route #1, Lincoln Highway Section, and he moved that final payment be made, less 125% of the uncompleted items of work which cannot be performed at this time. This was seconded by Mr. Jelin and adopted.

Old Hackensack River Bridge, Route #1

Commissioner Kidde reported he had inspected the work as it was progressing upon the reconstruction of the old Hackensack River Bridge on Route #1, Lincoln Highway section, and he had made suggestions to Bridge Engineer Goodkind which the latter said would be carried out, and he commended the Bridge Department very highly for the work being done on this reconstruction, which would give the people of the State the benefit of the structure at a great saving in the cost over a new bridge.

Right of Way, Connecting Road

Commissioner Jelin reported that he had investigated the purchase agreement for the properties of Edward M. Soloman on Camden Extension Connecting Road, known as Parcels 171, 171-A, 173, 162, 165 and 169, and he recommended that this agreement be accepted by the Commission for the price named, namely, $45,000.00. This was seconded by Mr. Stewart and adopted.

Maintenance Materials, State Highway

The State Highway Engineer presented to the Commission a report of bids received by the Commission for the furnishing of 47,000 gallons of asphaltic oil grade HK, and he recommended that award be made to those bidders which are low in the respective zones; namely, 25,900 gallons to Warner Quinlan Company at a total price of $3,599.35, and to the Headley Good Roads Company 21,150 gallons at a total price of $2,929.25. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the acceptance of the following resolution:

> RESOLVED, that the State Highway Commission does hereby approve of award of contract for the furnishings of maintenance materials asphaltic oil grade HK in the following amounts: to Warner-Quinlan Company 25,900 gallons at a total cost of $3,599.35, and to the Headley Good Roads Company 21,150 gallons at a total price of $2,929.25, and
>
> BE IT FURTHER RESOLVED that the Chairman is authorized to sign the necessary contracts on behalf of the Commission.

Trolly Tracks, Route #12

The State Highway Engineer presented to the Commission a report in connection with the trolley track area of the Inter-Urban Traction

Company on Route #12 in the vicinity of Washingtion, New Jersey. He informed the Commission that in May 1925, the Public Utility Commission had granted the petition of this company for the abandonment of their franchise and he recommended to the Commission that inview of the fact that the franchise of this company provided for the reconstruction of the trolley track area similar to existing pavement, the Maintenance Deaprtment be instructed to see that no material is removed which would in any way effect the paving of the highway, and that the Public Utility Commission be notified that the State Highway Commission could not permit the removal of the tracks where the same in any way occupies part of the paved area of the highway, unless arrangements are made with the trolly company for the replacing of the paving. On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved the recommendation of the State Highway Engineer and authorized that negotiations be conducted looking toward the disposition of this matter to the best interests of the State.

Trolley Tracks, Route #5

Commissioner Kidde called attention to the fact that as yet there had been no disposition made of the track situation on Route #5, through Morris Union and Essex Counties, and he suggested that the Secretary write to Mr. Congelton, Chairman of the Committee investigating this situation, to ascertain what developments have taken place and what the status is at the present time.

Right of Way, Route #17

Commissioner Kidde also advised that he had been in conference with a member of the Board of Freeholders of Bergen County and had received information that the County is finding it difficult to acquire the right of way for Route #17 and desires to discuss further the matter of alignment of this road. He suggested that the State Highway Engineer take up the matter with the Board of Freeholders at the earliest opportunity.

On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission authorized Commissioner Kidde and the State Highway Engineer to arrange for a conference with the Bergen County Board of Freeholders in order to further discuss the situation relative to the improvement of Route #17 between Hackensack and Rutherford.

October 20, 1925

Route #4, Keyport Cut-Off

The State Highway Engineer presented to the Commission a report of the situation existing on the Keyport Cut-Off on Route #4, for which road bids were received on October 19th, and he reported that it would be desirable to eliminate a grade crossing existing at the tracks on the Central Railroad of New Jersey. He advised that the estimated cost of this work is $100,000.00 and he recommended that authority be granted to proceed with arrangements for agreement with the railroad company convering the obligation of both parties.

On motion by Mr. Jelin, seconded by Mr. Stewart, the State Highway Commission approved of negotiations being entered into between the State Highway Engineer and the Central Railroad of New Jersey, for the elimination of a grade crossing on the Keyport Cut-Off on Route #4.

Route #7, Jerseyville Grade Crossing

The State Highway Engineer also reported that it was desirable to eliminate a grade crossing on the tracks of the Central Railroad of New Jersey of Route #7 at Jerseyville. He advised that the Railroad Company should construct, at their own expense, the bridge structure including abutments and superstructure, the State to abligate itself for approach fills on either side and to do all the paving necessary, the railroad company to agree to maintain the bridge structure and the State to maintain approach fills and paving. He estimated the total cost of the operation to be $130,000.00, of which the Railroad Company's share was estimated at $55,000.00. On motion by Mr. Stewart, seconded by Mr. Jelin, the State Highway Commission approved of the recommendation of the State Highway Engineer and authorized negotiations to be entered into with the Central Railroad Company of New Jersey, in accordance with the plans suggested.

On motion by Mr. Kidde, seconded by Mr. Jelin, the State Highway meeting adjourned at 5:00 P. M., to meet in regular session again on Tuesday, October 27th, at 10:30 A. M.

Respectfully submitted,

A. LEE GROVER,

Secretary.
